Item 8.01 Other Events.

A subsidiary of Pendrell Corporation entered into a patent license agreement with a semiconductor company for technologies that cover embedded MultimediaCard (eMMC) memory and storage, effective June 13, 2014. This agreement allows the licensee to use both standards essential and implementation technologies in exchange for a modest upfront payment and future royalties. We believe the licensee's eMMC products currently represent between 1% and 2% of the eMMC product market. The licensed portfolio includes more than 145 patents and patents pending, 12 of which have been applied for during the past 12 months. Pendrell issued a press release announcing the license agreement, a copy of which is attached.
