Item 2.02 Results of Operations and Financial Condition

On July 31, 2014, MasterCard Incorporated (MasterCard) issued a press release announcing financial results for its second quarter 2014.

A copy of the press release is attached hereto as Exhibit 99.1. All information in the press release is furnished but not filed.

Non-GAAP Financial Information

In the attached press release, MasterCard discloses the following non-GAAP financial measures:

Presentation of growth rates adjusted for currency. Due to the impact of foreign currency rate fluctuations on reported results, MasterCard's management believes the presentation of certain growth rates adjusted for currency, calculated by re-measuring the prior period's results using the current period's exchange rates, provides relevant information.

Presentation of certain growth rates adjusted to exclude the impact of current year acquisitions. MasterCard's management believes that the presentation of certain growth rates adjusted to exclude the impact of current year acquisitions facilitates an understanding of MasterCard's operating performance and meaningful comparison of its results between periods.

MasterCard's management uses non-GAAP financial measures to, among other things, evaluate its ongoing operations in relation to historical results, for internal planning and forecasting purposes and in the calculation of performance-based compensation.
