PROXY STATEMENT

For the Annual Meeting of Stockholders

To Be Held May 28, 2015

INFORMATION ABOUT THE PROXY MATERIALS AND ANNUAL MEETING

Proxy

A proxy is your legal designation of another person to vote the stock you own. The person you designate is your proxy, and you give the proxy authority to vote your shares by submitting the enclosed proxy card or, if available, voting by telephone or over the Internet. We have designated our Chief Executive Officer, Christopher M. Carrington, our Chief Financial Officer, Robert Pinkerton, and our General Counsel, Matthew L. Goldberg, to serve as proxies for the annual meeting.

Proxy Materials

We are providing these proxy materials in connection with the solicitation by our board of directors of proxies to be voted at our 2015 annual meeting of stockholders, which will take place on Thursday, May 28, 2015 at 9:00 a.m., Pacific Time, at our corporate headquarters located at 634 Second Street, San Francisco, CA 94107. As a stockholder, you are invited to attend the annual meeting and are requested to vote on the items of business described in this proxy statement.

The information in this proxy statement relates to the proposals to be voted on at the annual meeting, the voting process, the compensation of our directors and most highly paid executive officers, our corporate governance policies, information on our board of directors and certain other required corporate information.

This proxy statement and the accompanying proxy card, notice of annual meeting and voting instructions are being distributed and made available on or about April 24, 2015 to all stockholders of record entitled to vote at the annual meeting.

Electronic Access to the Proxy Materials

The notice of annual meeting, proxy statement, and annual report are available on our website by visiting <http://ir.servicesource.com/>.

Voting of Shares

Each share of our common stock issued and outstanding as of the close of business on April 10, 2015, the record date for the 2015 annual meeting of stockholders, is entitled to vote on all items being considered at the 2015 annual meeting. You may vote all shares owned by you as of the record date, including (i) shares held directly in your name as the stockholder of record and (ii) shares held for you as the beneficial owner in street name through a broker, bank, or other nominee. On the record date, we had 85,096,729 shares of common stock issued and outstanding.

Table of Contents

For all matters described in this proxy statement for which your vote is being solicited, each holder of shares of common stock is entitled to one vote for each share of common stock held by such holder as of the record date.

Stockholder of Record and Beneficial Owners in Street Name

Many of our stockholders hold their shares as a beneficial owner in street name through a broker or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned beneficially.

Stockholder of Record

If your shares are registered directly in your name with our transfer agent, Wells Fargo Shareowner Services, you are considered with respect to those shares the *stockholder of record* and these proxy materials were sent directly to you by us. As the *stockholder of record*, you have the right to grant your voting proxy directly to our designated proxies or to vote in person at the annual meeting. We have enclosed a proxy card for you to use with the printed proxy materials delivered to you. You may also vote on the Internet or by telephone.

Beneficial Owner

If your shares are held in an account at a brokerage firm, bank, or other similar organization, you are considered the *beneficial owner* of shares held in street name, and the notice of annual meeting, proxy statement and annual report were forwarded to you by that organization. As the beneficial owner, you have the right to direct your broker, bank, or other nominee how to vote your shares, and you are also invited to attend the annual meeting.

Since a beneficial owner is not the *stockholder of record*, you may not vote your shares in person at the annual meeting unless you obtain a legal proxy from the broker, bank, trustee, or nominee that holds your shares giving you the right to vote the shares at the meeting. If you are a beneficial owner and do not wish to vote in person or you will not be attending the annual meeting, you may vote by following the instructions provided by your broker or other nominee.

ServiceSource's Transfer Agent

Contact our transfer agent by writing Wells Fargo Shareowner Services, 1110 Centre Pointe Curve, Mendota Heights, MN 55120, or by telephoning (800) 468-9716.

Attending and Voting at the Annual Meeting

You are entitled to attend the annual meeting only if you were a stockholder as of the record date or you hold a valid proxy for the annual meeting. If you are not a stockholder of record but hold shares as a beneficial owner in street name, you should provide proof of beneficial ownership as of the record date, such as your most recent account statement prior to April 10, 2015, together with a copy of the voting instruction card provided by your broker, bank, or nominee, or other similar evidence of ownership.

If you do not comply with the procedures outlined above, you may not be admitted to the annual meeting.

Please let us know if you plan to attend the meeting by marking the appropriate box on the proxy card or, if you vote by telephone or Internet, by indicating your plans when prompted.

Note that we do not expect to webcast the annual meeting.

Table of Contents

Shares held in your name as the stockholder of record may be voted by you in person at the annual meeting. Shares held beneficially in street name may be voted by you in person at the annual meeting only if you obtain a legal proxy from the broker, bank, or nominee that holds your shares giving you the right to vote the shares. Even if you plan to attend the annual meeting, we recommend that you also submit your proxy or voting instructions as described below so that your vote will be counted if you later decide not to attend the meeting.

Voting without Attending the Annual Meeting

By mail

Complete, sign and date the enclosed proxy card or voting instruction card and return it in the return envelope provided (which is postage prepaid if mailed in the United States). *If you are a stockholder of record and you return your signed proxy card but do not indicate your voting preferences, the persons named in the proxy card will vote the shares represented by your proxy card in favor of the recommendations of our board of directors.*

If you are a stockholder of record and the prepaid envelope is missing, please mail your completed proxy card to ServiceSource International, Inc., Attention: Corporate Secretary, 634 Second Street, San Francisco, California 94107.

If you are a beneficial owner of shares, you should have received a proxy card and voting instructions with these proxy materials from your broker, bank or other nominee holder of record. Simply complete and mail the proxy card provided to the address provided by your broker, bank or other nominee holder of record.

You may still attend the annual meeting in person even if you have already voted by proxy.

By telephone or on the Internet

If you are a stockholder of record, you may vote by following the telephone or Internet voting instructions on your proxy card.

If you are a beneficial owner of shares, your broker, bank or other holder of record may make telephone or Internet voting available to you. The availability of telephone and Internet voting for beneficial owners will depend on the voting processes of your broker, bank or other nominee holder of record. Therefore, we recommend that you follow the voting instructions in the materials you receive.

Voter Confidentiality

Proxy instructions, ballots and voting tabulations that identify individual stockholders are handled in a manner that protects your voting privacy. Your vote will not be disclosed either within ServiceSource or to third parties, except as necessary to meet applicable legal requirements, to allow for the tabulation of votes and certification of the vote, or to facilitate a successful proxy solicitation.

Changing Votes and Revoking Proxies

You may change your vote at any time prior to the taking of the vote at the annual meeting. If you are the stockholder of record, you may change your vote by (i) granting a new proxy bearing a later date (which automatically revokes the earlier proxy) using any of the methods described above (and until the applicable deadline for each method), (ii) providing a written notice of revocation to our corporate secretary at ServiceSource International, Inc., Attention: Corporate Secretary, 634 Second Street, San Francisco, California 94107, prior to your shares being voted, or (iii) attending the annual meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request.

Table of Contents

For shares you hold beneficially in street name, you may change your vote by submitting new voting instructions to your broker, bank, or nominee following the instructions they provided or, if you have obtained a legal proxy from your broker, bank, or nominee giving you the right to vote your shares, by attending the annual meeting and voting in person.

List of Stockholders Entitled to Vote at the Annual Meeting

The names of stockholders of record entitled to vote at the annual meeting will be available at the annual meeting and for 10 days prior to the meeting for any purpose germane to the meeting, between the hours of 9:00 a.m. and 4:30 p.m., at our corporate headquarters at 634 Second Street, San Francisco, California 94107, by contacting our corporate secretary.

Quorum Requirements for Conducting Business at the Annual Meeting

The quorum requirement for holding the annual meeting and transacting business is that holders of a majority of the issued and outstanding shares of common stock be present in person or represented by proxy. Abstentions and broker non-votes are counted as present and entitled to vote for purposes of determining a quorum. A broker non-vote occurs when a broker, bank or other holder of record holding shares for a beneficial owner does not vote on a particular proposal because that holder does not have discretionary voting power for that particular item and has not received voting instructions from the beneficial owner. If there is no quorum, a majority of the votes present at the annual meeting may adjourn the meeting to another date.

Board of Directors Recommendations for Your Vote

Our board of directors recommends that you vote your shares:

FOR each of the three nominees for Class I director named in this proxy statement.

FOR on an advisory basis, approval of the compensation of our named executive officers for the year ended December 31, 2014.

FOR the ratification of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the 2015 fiscal year.

Voting Requirement to Approve Each of the Proposals

Proposal	Vote Required	Discretionary Broker Voting Allowed?
Election of Class I directors	Plurality of the shares	No
Advisory Vote to Approve Executive Compensation	Majority of the shares present, represented and entitled to vote at the meeting	No
Ratification of PricewaterhouseCoopers LLP	Majority of the shares present, represented and entitled to vote at the meeting	Yes

If you are a beneficial owner, your broker, bank or other nominee holder of record is permitted to vote your shares on the ratification of the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm, even if the record holder does not receive voting instructions from you. Your broker, bank or other nominee holder of record does not have discretionary authority to vote on the other two proposals without instructions from you, in which case a broker non-vote will occur and your shares will not be voted on this matter. Accordingly, if you are a beneficial owner, it is particularly important that you provide your instructions for voting your shares on the election of directors and the two advisory compensation proposals to your broker, bank or other nominee holder of record.

Table of Contents

Election of Class I Directors

The nominees receiving the highest number of affirmative FOR votes will be elected as Class I directors. You may vote FOR or WITHHOLD for each director nominee. A properly executed proxy marked WITHHOLD with respect to the election of a Class I director will not be voted with respect to such director although it will be counted for purposes of determining whether there is a quorum. Abstentions and broker non-votes will not affect the outcome of the election of directors.

In addition, you may not cumulate your votes for the election of directors.

Advisory Vote on Executive Compensation

The affirmative FOR vote of a majority of the shares present, represented and entitled to vote on the proposal is required to approve, on an advisory basis, the compensation awarded to our named executive officers for the year ended December 31, 2014. You may vote FOR, AGAINST, or ABSTAIN on this proposal. Abstentions are deemed to be votes cast and have the same effect as a vote against the proposal. Broker non-votes are not deemed to be votes cast, are not included in the tabulation of voting results on this proposal, and will not affect the outcome of voting on this proposal.

Ratification of PricewaterhouseCoopers LLP

The affirmative FOR vote of a majority of the shares present, represented and entitled to vote on the proposal is required to ratify the selection by our audit committee of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2015. You may vote FOR, AGAINST or ABSTAIN on this proposal. Abstentions are deemed to be votes cast and have the same effect as a vote against the proposal. Broker non-votes are not deemed to be votes cast, are not included in the tabulation of voting results on this proposal, and will not affect the outcome of voting on this proposal.

Additional Matters Presented at the Annual Meeting

Other than the items of business described in this proxy statement, we are not aware of any other business to be acted upon at the annual meeting. If you grant a proxy, the persons named as proxy holders, Christopher M. Carrington, Robert Pinkerton and Matthew L. Goldberg, or any of them, will have the discretion to vote your shares on any additional matters properly presented for a vote at the meeting.

If for any reason any of the nominees is not available as a candidate for director at the annual meeting, the persons named as proxy holders will vote your proxy for such other candidate or candidates as may be nominated by the board of directors.

Inspector of Elections

A representative of Wells Fargo Shareowner Services will tabulate the votes and act as inspector of elections.

Costs of Soliciting Votes

We are soliciting proxies and will pay the entire cost of preparing, assembling, printing, mailing and distributing these proxy materials and soliciting votes. In addition to the mailing of these proxy materials, the solicitation of proxies or votes may be made in person, by telephone, or by electronic communication by our directors, officers and employees, who will not receive any additional compensation for such solicitation activities. We may also reimburse brokerage firms, banks and other nominee holders of record for the cost of forwarding proxy materials to beneficial owners. In the past we have hired Georgeson Inc. to assist in solicitation of proxies, and we may elect to do so again this year on an as needed basis. If we do engage Georgeson Inc., we will pay them a customary fee consistent with the amounts we have paid in prior years for its services and for reimbursement of out-of-pocket expenses.

Table of Contents

Publication of Voting Results

We will announce preliminary voting results at the annual meeting. We will also disclose voting results on a Current Report on Form 8-K filed with the SEC within four business days after the annual meeting. If final voting results are not available to us in time to file a Current Report on Form 8-K, we will file a Current Report on Form 8-K to publish preliminary results and, within four business days after final results are known, file an additional Current Report on Form 8-K to publish the final results.

Householding of Proxy Material

The SEC has adopted rules that permit companies and intermediaries (such as banks and brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single copy of our notice of annual meeting, proxy statement and annual report, addressed to those stockholders. This process, which is commonly referred to as householding, potentially means extra convenience for stockholders and cost savings for companies. Stockholders who participate in householding will continue to be able to access and receive separate proxy cards.

If, at any time, you no longer wish to participate in householding and would prefer to receive a separate notice of annual meeting, proxy statement and annual report, please direct your written request to:

ServiceSource International, Inc.

Attention: Investor Relations

634 Second Street

San Francisco, California 94107

Stockholders who hold shares in street name should contact their brokerage firm, bank, broker-dealer or other similar organization to request information about householding.

Deadline for Stockholder Proposals and Stockholder Nominees for Director for Next Year

Stockholder Proposals

Stockholders may present proper proposals for inclusion in our proxy statement and for consideration at the next annual meeting of stockholders by submitting their proposals in writing to our corporate secretary in a timely manner. For a stockholder proposal to be considered for inclusion in our proxy statement for our 2016 annual meeting of stockholders, our corporate secretary must receive the written proposal at our principal executive offices no later than December 24, 2015. However, if we hold our 2016 annual meeting of stockholders more than 30 days before or 60 days after the one-year anniversary date of the 2015 annual meeting, we will disclose the new deadline by which stockholders proposals must be received in our earliest possible Quarterly Report on Form 10-Q or, if impracticable, by any means reasonably calculated to inform stockholders. In addition, stockholder proposals must otherwise comply with the requirements of Rule 14a-8 of the Securities Exchange Act of 1934. Proposals should be addressed to:

ServiceSource International, Inc.

Attn: Corporate Secretary

634 Second Street

San Francisco, California 94107

Fax: 415-962-3230

Our bylaws also establish an advance notice procedure for stockholders who wish to present a proposal before an annual meeting of stockholders, but do not intend for the proposal to be included in our proxy statement. Our bylaws provide that the only business that may be

conducted at an annual meeting is business that is:

specified in our proxy materials with respect to such meeting,

otherwise properly brought before the meeting by or at the direction of our board of directors, or

-6-

Table of Contents

properly brought before the meeting by a stockholder of record entitled to vote at the annual meeting who has delivered timely written notice to our corporate secretary, which notice must contain the information specified in our bylaws.

To be timely for our 2016 annual meeting of stockholders, our corporate secretary must receive the written notice at our principal executive offices:

not earlier than December 24, 2015 and

not later than the close of business on January 25, 2016.

In the event that we hold our 2016 annual meeting of stockholders more than 30 days before or more than 60 days after the one-year anniversary date of the 2015 annual meeting, then notice of a stockholder proposal that is not intended to be included in our proxy statement must be received no earlier than the close of business on the 120th day before such annual meeting and no later than the close of business on the later of the following two dates:

the 90th day prior to such annual meeting, or

the 10th day following the day on which public announcement of the date of such meeting is first made

If a stockholder who has notified us of his or her intention to present a proposal at an annual meeting does not appear to present his or her proposal at such meeting, we are not required to present the proposal for a vote at such meeting.

Director Candidate Recommendations

You may recommend director candidates for consideration by our Nominating and Corporate Governance Committee. Any such recommendations should include the nominee's name and qualifications for membership on our board of directors, and should be directed to the corporate secretary of ServiceSource at the address set forth above. For additional information regarding stockholder recommendations for director candidates and our related requirements, see Corporate Governance and Board Committees Process for Recommending Candidates to the Board of Directors.

Director Candidate Nominations

In addition, our bylaws permit stockholders to nominate directors for election at an annual meeting of stockholders. To nominate a director, the stockholder must provide the information required by our bylaws. In addition, the stockholder must give timely notice to our corporate secretary in accordance with our bylaws, which, in general, require that the notice be received by our corporate secretary within the time period described above under Stockholder Proposals for stockholder proposals that are not intended to be included in our proxy statement.

Availability of Bylaws

Our Bylaws have been publicly filed with the SEC and can also be found on our website at www.servicesource.com in the Corporate Governance section of our investor relations webpage. You may also contact our corporate secretary at our principal executive offices for a copy of the relevant bylaw provisions regarding the requirements for making stockholder proposals and nominating director candidates.

CORPORATE GOVERNANCE AND BOARD OF DIRECTORS

Code of Business Conduct and Ethics

We are committed to the highest standards of integrity and ethics in the way we conduct our business. Accordingly, we adopted a Code of Business Conduct and Ethics that applies to our board of directors, officers and employees, including our chief executive officer, chief financial officer and other principal executive and senior financial officers. Our Code of Business Conduct and Ethics establishes our policies and expectations with respect to a wide range of business conduct, including preparation and maintenance of financial and accounting information, compliance with laws and conflicts of interest.

Under our Code of Business Conduct and Ethics, each of our employees, officers and directors is required to report suspected or actual violations to the extent permitted by law. In addition, we have adopted separate procedures concerning the receipt and investigation of complaints relating to accounting or audit matters. These procedures have been adopted and are administered by our audit committee.

Our Code of Business Conduct and Ethics is available on our website at www.servicesource.com in the Corporate Governance section of our investor relations webpage. We will disclose on our website any amendments to the Code of Business Conduct and Ethics, as well as any waivers of the Code of Business Conduct and Ethics, that are required to be disclosed by the rules of the SEC or The NASDAQ Stock Market LLC (NASDAQ).

Role and Composition of the Board

Our board of directors is currently composed of ten members. Our bylaws permit our board of directors to establish by resolution the authorized number of directors, and ten directors are currently authorized.

Our certificate of incorporation and bylaws provide for a classified board of directors consisting of three classes of directors, each serving staggered three-year terms, as follows:

the Class I directors are Robert G. Ashe, Bruce W. Dunlevie and Barry D. Reynolds, whose terms expire at the annual meeting of stockholders to be held in 2015, and who are up for reelection;

the Class II directors are Richard J. Campione, James C. Madden and Thomas F. Mendoza, whose terms expire at the annual meeting of stockholders to be held in 2016; and

the Class III directors are Rishi Bajaj, Steven M. Cakebread, Christopher M. Carrington and Michael A. Smerklo, whose terms expire at the annual meeting of stockholders to be held in 2017.

Upon expiration of the term of a class of directors, directors for that class will be up for election for three-year terms at the annual meeting of stockholders in the year in which that term expires. Each director's term continues until the election and qualification of his successor, or his earlier death, resignation or removal. Any increase or decrease in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of one-third of the directors. This classification of our board of directors may have the effect of delaying or preventing changes in control of our company.

Our board of directors is responsible for, among other things, overseeing the conduct of our business, reviewing and, where appropriate, approving our long-term strategic, financial and organizational goals and plans, and reviewing the performance of our chief executive officer and other members of senior management.

Board Leadership Structure

Our board of directors has approved the current separation of the roles of chairman of the board and chief executive officer. While Mr. Smerklo previously served as our chief executive officer concurrently with his role as chairman, our board of directors changed its view on board leadership structure with the hiring of

Table of Contents

Mr. Carrington, our new chief executive officer, and has determined that, given the attention, time, effort, and energy that the chief executive officer is required to dedicate to his position, and the high level of commitment required to serve as our chairman, a separate leadership structure is more appropriate for the Company. Accordingly, although the chairman works closely with the chief executive officer and other members of our management, the chairman is not part of management and does not have an operating or external role or responsibility.

Lead Director: Roles and Responsibilities

Bruce Dunlevie is our lead independent director. As the lead independent director, Mr. Dunlevie is responsible for helping to set the agendas for board meetings, coordinating the activities of the independent directors and presiding over board meetings if the chairman is absent. In addition, the lead independent director presides over executive sessions without the presence of the non-independent directors or members of the Company's management from time to time as deemed necessary or appropriate. The lead independent Director also has the authority to call meetings of the independent directors and is available for consultation or direct communication. The role given to the lead independent director helps ensure a strong, independent and active board of directors.

Board's Role in Risk Oversight

Our board of directors, as a whole and through its committees, has responsibility for the oversight of risk management. Our senior management is responsible for assessing and managing our risks on a day-to-day basis. Our audit committee oversees and reviews with management our policies with respect to risk assessment and risk management and our significant financial risk exposures and the actions management has taken to limit, monitor or control such exposures, and our compensation committee oversees risk related to compensation policies. Our nominating and governance committee also reviews and recommends corporate governance policies and practices to reduce the risk of wrongdoing and to promote good corporate governance. Each of our committees reports to the full board of directors with respect to these matters, among others.

In connection with its oversight of compensation-related risks, our compensation committee has reviewed an assessment by management of our compensation programs and practices for its employees, including its executive and non-executive programs and practices. In its review, the compensation committee evaluated whether our policies and programs encourage unnecessary or excessive risk-taking and controls, and how such policies and programs are structured with respect to risks and rewards, as well as controls designed to mitigate any risks. As a result of this review, the compensation committee determined any risks that may result from our compensation policies and practices for its employees are not reasonably likely to have a material adverse effect on us.

At periodic meetings of the board and its committees and in other meetings and discussions, management reports to and seeks guidance from the board and its committees with respect to the most significant risks that could affect our business, such as legal risks and financial, tax and audit related risks. In addition, among other matters, management provides our audit committee periodic reports on our compliance programs and efforts and investment policy and practices.

Director Independence

Under the rules of NASDAQ, independent directors must constitute a majority of a listed company's board of directors. In addition, the rules of NASDAQ require that, subject to specified exceptions, each member of a listed company's audit, compensation and nominating and corporate governance committees be independent. Audit committee members must also satisfy the independence criteria set forth in Rule 10A-3 under the Securities Exchange Act of 1934, as amended. Under the rules of NASDAQ, a director will only qualify as an independent director if, in the opinion of that company's board of directors, that person does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.

Table of Contents

In order to be considered independent for purposes of Rule 10A-3, a member of an audit committee of a listed company may not, other than in his or her capacity as a member of the audit committee, the board of directors, or any other board committee, accept, directly or indirectly, any consulting, advisory or other compensatory fee from the listed company or any of its subsidiaries, or be an affiliated person of the listed company or any of its subsidiaries.

Based upon information requested from and provided by each director concerning his background, employment and affiliations, including family relationships, our board of directors has determined that none of the following non-employee directors has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director and that each of these directors is independent as that term is defined under the rules of NASDAQ: Messrs. Ashe, Bajaj, Cakebread, Dunlevie, Madden, Mendoza and Reynolds. Our board of directors also determined that Messrs. Ashe, Cakebread and Reynolds, who compose our audit committee, Messrs. Bajaj, Madden and Mendoza, who compose our compensation committee, and Messrs. Ashe, Madden, Mendoza and Reynolds, who compose our nominating and corporate governance committee, satisfy the independence standards for those committees established by the applicable rules and regulations of the SEC and NASDAQ. In making these determinations, our board of directors considered the relationships that each non-employee director has with our company and all other facts and circumstances our board of directors deemed relevant in determining their independence, including the beneficial ownership of our capital stock by each non-employee director.

Board Committees

Our board of directors has three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee. The composition and primary responsibilities of each committee are described below. Members serve on these committees until their resignation or until otherwise determined by our board of directors.

None of our executive officers currently serves, or in the past year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving on our board of directors or compensation committee.

Considerations in Identifying and Evaluating Director Nominees

In its evaluation of director candidates, including the members of the board of directors eligible for re-election, our committee will consider the following:

the current size and composition of our board of directors and the needs of the board and its respective committees;

factors such as character, integrity, judgment, diversity, age, independence, skills, education, expertise, business acumen, business experience, length of service, understanding of our business and other commitments and the like, without assigning any particular weighting or priority to any of these factors; and

other factors that our committee may consider appropriate.

Our committee requires the following minimum qualifications to be satisfied by any nominee for a position on the board:

the highest personal and professional ethics and integrity;

proven achievement and competence in the nominee's field and the ability to exercise sound business judgment;

skills that are complementary to those of the existing board;

the ability to assist and support management and make significant contributions to our success; and

an understanding of the fiduciary responsibilities that are required of a member of the board and the commitment of time and energy necessary to diligently carry out those responsibilities.

If our committee determines that an additional or replacement director is required, the committee may take such measures as it considers appropriate in connection with its evaluation of a director candidate, including candidate interviews, inquiry of the person or persons making the recommendation or nomination, engagement of an outside search firm to gather additional information, or reliance on the knowledge of the members of the committee, board or management.

Process for Recommending Candidates to the Board of Directors

Our nominating and corporate governance committee is responsible for, among other things, determining the criteria for membership to our board of directors and recommending candidates for election to the board of directors.

Our nominating and corporate governance committee has established Policies and Procedures for Director Candidates, which includes the policy of considering any individual recommended as a prospective director nominee by a stockholder holding no less than 4% of the outstanding shares of common stock continuously for at least 12 months prior to the date of the submission of the recommendation. The committee will consider candidates recommended by such stockholders in the same manner as candidates recommended to the committee from other sources.

Stockholder recommendations for candidates to the board of directors must be directed in writing to ServiceSource International, Inc., Attention: Corporate Secretary, 634 Second Street, San Francisco, California 94107, and must include the candidate's name, home and business contact information, detailed biographical data, relevant qualifications, a signed letter from the candidate confirming willingness to serve, information regarding any relationships between the candidate and us, and evidence of the recommending stockholder's ownership of our stock. Such recommendations must also include a statement from the recommending stockholder in support of the candidate, particularly within the context of the criteria for board membership, including issues of character, integrity, judgment, diversity of experience, independence, area of expertise, corporate experience, length of service, potential conflicts of interest, other commitments and personal references.

Director Attendance at Annual Meetings

Although we do not have a formal policy regarding attendance by members of our board of directors at annual meetings of stockholders, we encourage, but do not require, directors to attend. COMPENSATION OF NON-EMPLOYEE DIRECTORS

Compensation Policy

In February 2011, our board of directors approved an outside director compensation policy that applies to all of our non-employee directors, which became effective upon the completion of our initial public offering. This policy provides that each such non-employee director will receive the following compensation for board services:

an annual cash retainer of \$20,000 for board service;

an annual cash retainer for serving as the chairman of the audit committee of \$25,000, for serving as chairman of the compensation committee of \$25,000 and for serving as chairman of the nominating and corporate governance committee of \$10,000;

an annual cash retainer for serving as a member of the audit committee of \$17,500, for serving as a member of the compensation committee of \$17,500 and for serving as a member of the nominating and corporate governance committee of \$7,500; and

upon first joining the board of directors, an automatic initial stock option grant for the purchase of 75,000 shares of common stock. An initial stock option grant will vest as to one-quarter of the shares on the one-year anniversary of the grant date and monthly thereafter so that the option is fully vested four years after the grant date, subject to continued service as a director through each such date.

Effective as of May 2014, in lieu of the above mentioned option grant for 75,000 shares, upon first joining the board of directors, each independent director is eligible to receive an initial restricted stock unit grant at a value of \$350,000, with a three-year annual vesting schedule, plus ongoing annual grants at a value of \$135,000, with a one-year vesting schedule. The number of shares subject to these grants is based on the 90-day average price prior to the Board member's appointment or the annual shareholder meeting, as applicable. Pursuant to this policy, in June 2014, we granted 19,980 restricted stock units to each of Messrs. Ashe, Cakebread, Madden, Mendoza and Reynolds, certain of our non-employee directors, under our 2011 Equity Incentive Plan.

In addition, we reimburse non-employee directors for travel, lodging and other reasonable expenses incurred in connection with their attendance at board or committee meetings.

The 2011 Equity Incentive Plan provides that in the event we merge with or into another corporation or undergo a change in control, as defined in the 2011 Equity Incentive Plan, the successor corporation or its parent or subsidiary will assume or substitute an equivalent award for each outstanding award under the 2011 Equity Incentive Plan. If there is no assumption or substitution of outstanding options, then such options will become fully vested and exercisable. In addition, the administrator will notify participants in writing or electronically that options under the 2011 Equity Incentive Plan will be exercisable for a period of time determined by the administrator, and will terminate upon expiration of such period to the extent unexercised.

Mr. Bajaj has agreed not to take any compensation for his service on our board of directors, but will be entitled to customary reimbursement for out-of-pocket expenses incurred attending meetings of the board.

PROPOSAL NUMBER 2

ADVISORY VOTE ON EXECUTIVE COMPENSATION

As required by the Dodd-Frank Act, we are asking our stockholders to approve, on an advisory basis, the compensation of our named executive officers as described in this proxy statement. This proposal, commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to express their views on the compensation of our named executive officers.

The say-on-pay vote is advisory, and therefore not binding on us or our compensation committee or board of directors. The say-on-pay vote will, however, provide information to us regarding investor sentiment about our executive compensation philosophy, policies and practices, which our compensation committee will be able to consider when determining executive compensation for the remainder of the current fiscal year and beyond. Our board of directors and compensation committee value the opinions of our stockholders. To the extent there is any significant vote against the named executive officer compensation disclosed in this proxy statement, we will consider our stockholders' concerns and our compensation committee will evaluate whether any actions are necessary to address those concerns.

Compensation Philosophy and Programs

Our executive compensation programs are designed to attract, retain and motivate top-level executive talent and to provide compensation levels and structures that are both fiscally responsible and competitive within our industry and geography. Through our compensation programs, we strive to create a culture in which executive compensation aligns with our pay-for performance business model by rewarding our executives for results that benefit us, our customers and our stockholders. In line with our overall pay-for-performance philosophy, our practice has been to make a significant portion of an executive's total compensation performance-based, so that the executive will be rewarded through bonuses and equity if we perform well in the near term and over time. Please refer to the "Executive Compensation" Compensation Discussion and Analysis section for a detailed discussion of our executive compensation practices and philosophy.

Our board of directors believes that our current executive compensation program has been effective at linking executive compensation to our performance and aligning the interests of our named executive officers with those of our stockholders. We are asking our stockholders to indicate their support for the compensation of our named executive officers as described in this proxy statement by voting in favor of the following resolution:

RESOLVED, that ServiceSource stockholders approve, on an advisory basis in a non-binding vote, the compensation of the named executive officers as disclosed in ServiceSource's proxy statement for the 2015 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2014 Summary Compensation Table and the other related tables and disclosure.

Required Vote

The affirmative "FOR" vote of a majority of the shares present, represented and entitled to vote on the proposal is required to approve, on an advisory basis, the compensation awarded to named executive officers for the year ended December 31, 2014. You may vote "FOR," "AGAINST" or "ABSTAIN" on this proposal. Abstentions are deemed to be votes cast and have the same effect as a vote against the proposal. Broker non-votes are not deemed to be votes cast, are not included in the tabulation of voting results on this proposal, and will not affect the outcome of voting on this proposal.

Recommendation

Our board of directors recommends a vote "FOR" the approval of the compensation of each named executive officer, as disclosed in this proxy statement.

Notwithstanding its selection of PricewaterhouseCoopers LLP and even if our stockholders ratify the selection our audit committee, in its discretion, may appoint another independent registered public accounting firm at any time during the year if the audit committee believes that such a change would be in our best interests and in the best interests of our stockholders. Our audit committee is submitting the selection of PricewaterhouseCoopers LLP to our stockholders because we value our stockholders' views on our independent registered public accounting firm and as a matter of good corporate governance. If the appointment is not ratified by our stockholders, our audit committee may reconsider whether it should appoint another independent registered public accounting firm.

Representatives of PricewaterhouseCoopers LLP are expected to attend the annual meeting, where they will be available to respond to appropriate questions and, if they desire, to make a statement.

Pre-Approval of Audit and Non-Audit Services

Our audit committee pre-approves all audit and permissible non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services. The audit committee pre-approves services provided by the independent registered public accounting firm pursuant to its audit committee charter.

Report of the Audit Committee

The audit committee assists the board of directors in fulfilling its oversight responsibility over our financial reporting process. It is not the duty of the committee to plan or conduct audits or to prepare our financial statements. Management has the primary responsibility for preparing the financial statements and assuring their accuracy, effectiveness and completeness. Management is also responsible for the reporting process, including the system of internal controls. The independent registered public accounting firm is responsible for auditing our financial statements and internal control over financial reporting and expressing its opinion as to whether the statements present fairly, in accordance with accounting principles generally accepted in the United States, our financial condition, results of operations and cash flows. However, the audit committee does review and discuss the financial statements with management and the independent registered public accounting firm prior to the presentation of financial statements to our stockholders and, as appropriate, initiates inquiries into various aspects of our financial affairs.

Unless the committee has reason to question its reliance on management or the independent registered public accounting firm, the members of the committee necessarily rely on information provided to them by and on the representations made by management and the independent registered public accounting firm. Accordingly, the audit committee's oversight does not provide an independent basis to determine that management has applied appropriate accounting and financial reporting principles. Furthermore, the audit committee's authority and oversight responsibilities do not independently assure that the audits of our financial statements have been carried out in accordance with the standards of the Public Company Accounting Oversight Board or that the financial statements are presented in accordance with accounting principles generally accepted in the United States.

In this context, the committee has met and held discussions with management and the independent registered public accounting firm to review our audited 2014 consolidated financial statements (including the quality of our accounting principles). Management represented to the committee that our consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the committee consulted with management and the independent registered public accounting firm prior to approving the presentation of the audited 2014 consolidated financial statements to stockholders. The committee discussed with the independent registered public accounting firm the matters required to be discussed by Statement on Auditing Standards No. 61, (AICPA, Professional Standards, Vol. 1, AU Section 380), as amended, and as adopted by the Public Company Accounting Oversight Board in Rule 3200T.

The audit committee has discussed with the independent accountant the independent accountant's independence from us and our management. As part of that review, the committee received the written disclosures and letter required by the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence. Based on the reviews and discussions referred to above, the audit committee recommended to the board, and the board approved, our audited consolidated financial statements for the year ended December 31,

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following discussion and analysis of compensation arrangements of our named executive officers for 2014 should be read together with the compensation tables and related disclosures presented below. This discussion contains forward-looking statements that are based on our current plans, considerations, expectations and determinations regarding future compensation programs.

In 2014, we experienced a significant amount of change in our business and a number of senior management changes. After experiencing lower than expected revenue in the first quarter of 2014, we started to implement operational changes that were designed to better align our operations with our customers. We then pursued a plan to create two separate lines of business as we continued to experience a softening in our business during the second quarter. We transitioned to an acting Chief Executive Officer in August 2014 as our former Chief Executive Officer resigned his role and stayed on solely as non-executive Chairman of our board of directors. We next hired an interim Chief Financial Officer in September 2014. Our business began to slowly improve through the second half of the year and in particular in the fourth quarter. Finally, we hired a Chief Executive Officer in December 2014. Our compensation programs designed and approved by our compensation committee at the start of the year were consistent with prior years, but as a result of the executive officer management changes we experienced throughout the year, we entered into specific agreements in order to attract these qualified executives and provide for the orderly transition for our departing executives.

For 2014, our named executive officers were:

Christopher M. Carrington, our Chief Executive Officer, who was appointed to that position in December 2014;

Michael A. Smerklo, our former Chief Executive Officer, who resigned from that position in August 2014, and continues to serve as the non-executive Chairman of our board of directors;

Simon Biddiscombe, who acted as our interim Chief Financial Officer from September 2014 until April 2015;

Ashley F. Johnson, who served as Chief Customer Officer from December 2014 until April 2015, and who started 2014 as our Chief Financial Officer, and was promoted to the position of our acting Chief Executive Officer from August to November 2014;

Jay R. Ackerman, our former Head of Worldwide Sales & Customer Success, who served in that position until October 2014; and

Richard J. Campione, our former President, Cloud & Data Services Business, who served in that position until October 2014, after which he served as an advisor to the Company through December 2014, and who continues to serve as a member of our board of directors.

Objectives and Principles of Our Executive Compensation

Our compensation philosophy is based on the following objectives and principles:

attract, retain and motivate top-level executive talent;

provide compensation levels and structures that are both fiscally responsible and competitive within our industry and geography;

create a culture in which executive compensation aligns with our overall philosophy and pay-for-performance business model;

maintain simplicity, transparency and ease of administration; and

provide long-term, performance-based, equity incentive compensation to align the interests of our management team with those of our stockholders.

2014 Compensation and Corporate Governance Highlights

We endeavor to maintain strong governance standards in our executive compensation related corporate governance policies and practices. Below is a summary of key executive compensation and corporate governance practices in place during 2014. Following that is a summary of certain other practices that, because we have not considered them to effectively drive long-term stockholder value, we have not implemented.

What We Did

Tied pay to performance, with each Named Executive Officer's target annual cash compensation being tied to pre-established corporate performance metrics.

Utilized the services of an independent compensation consultant that is retained directly by the Compensation Committee and that does not perform other services for the Company.

Achieved 90% favorable votes from our stockholders for our advisory vote on executive compensation at our 2014 annual meeting.

Periodically reviewed our compensation strategy, program, and risks.

Maintained stock ownership guidelines for all named executive officers and Section 16 officers.

In connection with a change of control of the Company, required a double trigger severance event (both a qualifying termination of employment in addition to a change of control of the Company) before accelerated vesting or other change of control severance benefits would be triggered for our Named Executive Officers.

What We Did Not Do

Provide pension arrangements or retirement plans other than our 401(k) plan to our executive officers.

Provide for excise tax gross-ups related to change of control-related compensation.

Permit our executive officers or directors to engage in hedging or pledging of our securities.

Provide our executive officers perquisites that are not generally available to all of our employees.

Compensation Decision Process

Role of the Board of Directors and Compensation Committee. We originally established our compensation committee while we were still a private company to assume responsibility for executive compensation matters. Our board of directors formally approved a charter for our compensation committee in November 2008, and we adopted a new charter in connection with our initial public offering to comply with the applicable rules and regulations of a public company listed on The NASDAQ Global Market. In the past several years, including 2012, 2013 and 2014 our compensation committee has begun discussions with our independent compensation consultant in late November for the upcoming

fiscal year, and has met and formally approved compensation decisions with respect to our executive officers after several weeks of consideration, including approval of cash incentive bonus payments based on the results of the previously completed year. Throughout 2014, our compensation committee has taken an active role in both negotiating and approving compensation packages for our new executive officers, including with the changes in our Chief Executive Officers and Chief Financial Officers, and related separation arrangements for certain of our departing executive officers. For a description of the composition of our compensation committee, see Corporate Governance and Board of Directors Board Committees Compensation Committee.

Table of Contents

Role of Executive Officers. Our compensation committee generally seeks input from our Chief Executive Officer and our head of human resources when discussing executive performance and compensation levels for named executive officers (other than their own compensation). Our head of human resources has the responsibility of advising the compensation committee and coordinating with third-party compensation advisors. The compensation committee also works with our Chief Financial Officer to evaluate the financial, accounting and tax implications, and with our General Counsel who advises on legal matters, regarding our various compensation programs. None of our named executive officers participates in deliberations regarding his or her own compensation. Our compensation committee charter also specifies that our compensation committee deliberates and determines compensation decisions related to our Chief Executive Officer in executive session, outside of the presence of the Chief Executive Officer.

Role of Compensation Advisors. For 2014, our compensation committee continued to retain Compensia, an independent compensation consulting firm, to provide advice to the compensation committee with respect to executive compensation decisions and comparison benchmarking. Working with management, Compensia met with our compensation committee and provided various data and recommendations. Our compensation committee also retained Compensia to provide advice for the compensation decisions with respect to 2015. Our compensation committee retains the authority to retain and dismiss any compensation consultants pursuant to its charter. Pursuant to SEC rules, our compensation committee has assessed the independence of Compensia, and concluded that no conflict of interest exists that would prevent Compensia from independently representing the compensation committee. Compensia does not perform other services for us, and will not do so without the prior consent of the compensation committee.

2014 Advisory Vote on Executive Compensation. The advisory vote on executive compensation at our 2014 annual meeting received 90% favorable votes from our stockholders. The compensation committee is committed to ensuring that our compensation programs are consistent with our pay-for-performance philosophy and deliver appropriate results given financial performance and business conditions. We typically engage in discussions with our institutional investors to gather additional input and feedback on our executive compensation program, including in relation to the annual advisory vote. The compensation committee considers both the results of the annual advisory vote and the feedback from institutional investors in making compensation decisions. Stockholder feedback will remain an important input into the compensation committee's work on the compensation programs for us.

Benchmarking. Given that we compete for executive officer talent with companies in the technology sector and companies that provide other professional services, we rely on certain compensation benchmarking in making our compensation decisions. To determine what constitutes competitive compensation, we engaged Compensia to benchmark our cash and equity compensation levels for each executive. Among other activities, Compensia:

assisted us in identifying a group of peer companies for purposes of benchmarking our levels of compensation;

gathered and analyzed compensation data from those peer companies as well as from other available compensation surveys; and

assisted us in structuring awards as part of the equity incentive element of our compensation program, including assisting us in establishing appropriate amounts for equity incentive awards.

Compensia commenced its analysis by conducting a survey of compensation data and practices at public technology companies comparable to us with respect to size, complexity, financial performance and stage of development. Specifically, Compensia reviewed compensation at software and software-as-a-service companies with revenue ranging from half of our revenue to two times our revenue for the fiscal year 2013 and with market capitalization of one-third to three times our market capitalization on December 31, 2013. In particular, Compensia focused on including as peer companies those companies showing high year-over-year growth. Based on this analysis, Compensia recommended a group of peer companies for purposes of benchmarking our levels of

Table of Contents

executive compensation, which group was based on an annual refresh looking at companies with similar market capitalization and other attributes. For 2014, based upon Compensia's recommendations, our compensation committee considered the following as our peer companies:

Advent Software	LivePerson
Aruba Networks	LogMeIn
Bazaarvoice	QuinStreet
Constant Contact	RealPage
Dealertrack Technologies	Responsys
Demand Media	Synchronoss Technologies
Ellie Mae	Tangoe
Infoblox	TiVo
IntraLinks Holdings	Websense
Jive Software	

Compensia gathered and evaluated our compensation levels relative to compensation data from the public filings of the peer companies listed above. In addition, Compensia compared our compensation practices to compensation data from the Radford High-Technology Executive Survey, including data from software companies with revenue between \$100 million and \$500 million and a blend of two sub-sets of high technology companies, some with revenue between \$50 million and \$200 million, and others with revenue between \$200 million and \$500 million.

Using the data provided by Compensia, we then determined individual compensation for each executive. Although our practice has been to benchmark to the fiftieth percentile of our peer companies, we did not automatically tie compensation to that benchmark level for each member of our executive management team. Rather, we considered a number of individualized factors that are unique to our business, including individual performance, skill set, industry knowledge and experience, prior employment history, compensation at previous companies, recruiting efforts and negotiations, retention risk and an executive's overall compensation level relative to his or her peers. In particular, for 2014, while the Compensia benchmarking data informed the compensation decisions related to many of our new executive officers, such data was not dispositive for any particular compensation decisions but rather provided a framework for the compensation committee to evaluate the new employment agreements with such individuals.

Our Compensation Programs

The four elements of our executive compensation package are base salary, variable incentive pay, equity-based rewards and employee-benefits programs. We view these components of compensation as related in reviewing the total compensation packages of our executive officers. We determine the appropriate level for each compensation component based in part, but not exclusively, on information from analysis of third-party compensation surveys consistent with our recruiting and retention goals, our view of internal equity and consistency and overall company and individual performance. We compete with many other companies in seeking to attract and retain a skilled workforce, particularly companies in the technology sector. We have not adopted any formal or informal policies or guidelines for allocating compensation between long-term and currently paid-out compensation, between cash and non-cash compensation or among different forms of non-cash compensation. However, in line with our overall pay-for-performance philosophy of rewarding our employees for results that benefit us and our customers, the compensation committee's practice has been to make a significant portion of an employee's total compensation performance-based, so that the employee will be rewarded through bonuses and equity if we perform well in the near term and over time. We also believe that, for technology companies, stock-based compensation continues to be a primary motivator in attracting employees.

Table of Contents

On Target Earnings Base Salary and Variable Incentive Compensation. When analyzing the cash compensation of our executive leadership team, we have viewed the total cash compensation of base salary plus the variable incentive plan compensation as the on target earnings for each of such executive officers. In analyzing this figure, we assume that we will meet the targets necessary for our executives to earn their on target bonuses. We analyze these on target cash earnings as the benchmark by which to measure our named executive officers' compensation compared to the comparable positions of our peer companies. As we started 2014, the target compensation opportunity for each of Messrs. Smerklo, Ackerman and Campione and Ms. Johnson was at or above the fiftieth percentile, in each case when such executive's on target cash earnings are compared to our peer companies. Given our age as a company, our size and our results of operations, and the competitive market for high-caliber executive talent in the San Francisco Bay Area particularly in certain strategic roles we believe that the on target earnings for our named executive officers were reasonable and appropriate for 2014.

Base Salary. We establish base pay that is both reasonable and competitive in relation to the market, including the benchmarking data described above. We regularly monitor competitive base pay levels and make adjustments to base pay as appropriate. In general, a named executive officer's base pay level should reflect the executive's overall performance and contribution to us over time. We also seek to structure competitive base pay for our named executive officers based upon applicable market data analysis. As described below, we design base pay to provide the ongoing reward for each named executive officer's work and contribution and to be competitive in attracting or retaining the executive. We do not provide automatic salary increases for our executive team. Once base pay levels are initially determined, however, we conduct salary reviews each year based upon current market data and the executive's specific performance achievements. We also take into account salary levels for their retention effect. Salaries are also determined based on negotiations with our executive officers, in particular when we are trying to hire a new executive officer and we must be competitive. We believe this pay-for-performance approach reflects our cultural values and our business model.

The following are the effective annual base salaries for each of our named executive officers for 2013, 2014 and 2015:

Executive Officer	Effective Annual Base Salary(1)		
	2013	2014	2015
Christopher M. Carrington		\$ 500,000	\$ 500,000
Michael A. Smerklo	\$ 472,500	\$ 500,000	
Simon Biddiscombe		\$ 360,000	\$ 360,000
Ashley F. Johnson	\$ 300,000	\$ 360,000	\$ 360,000
Jay R. Ackerman	\$ 300,000	\$ 350,000	
Richard J. Campione	\$ 400,000	\$ 400,000	

(1) Reflects effective annual base salary. Actual amounts earned vary for those named executive officers that either joined or departed during the years specified as described above. Data not provided for any period in which an individual was not a named executive officer.

At the beginning of 2014, our compensation committee made a slight increase in base salary to Mr. Smerklo and an increase to each of Ms. Johnson and Mr. Ackerman. The primary aim of the increase to Ms. Johnson's base salary was to bring her total compensation closer to the fiftieth percentile for our peer companies given her role as chief financial officer at the time, while the increase to Mr. Ackerman's base salary was driven primarily by his assumption of additional job responsibilities and management of direct reports. Once Ms. Johnson was appointed interim Chief Executive Officer in August 2014, our compensation committee provided Ms. Johnson with an additional bonus of \$10,000 per month in recognition of the increased job duties and responsibilities for serving in this role. In addition, Messrs. Carrington and Biddiscombe both agreed to accept the then specified base salary for the roles of Chief Executive Officer and Chief Financial Officer when they joined the company.

Variable Pay. Consistent with our pay-for-performance philosophy, we link a significant portion of our named executive officers' cash compensation to individual and company performance. We design our variable

Table of Contents

pay programs to provide reasonable and competitive earnings potential relative to our industry and geography. For our named executive officers, we have implemented our corporate incentive bonus program as a motivational tool to achieve and exceed individual and company goals by paying for outstanding results. Our variable pay programs are typically based on a formulaic assessment of our financial and other performance, giving consideration to an assessment of each individual's performance. Our programs are designed to avoid entitlements, and to align actual payouts with actual results based on clearly understood metrics.

Our compensation committee reviews the structure and design of our variable pay plans on an annual basis, typically at the beginning of each year. The overall business plan and related goals of our variable pay plans will be determined at the start of the year, typically in February.

2014 Corporate Incentive Plan. In February 2014, our compensation committee approved the 2014 Corporate Incentive Plan, to which we refer as the 2014 CIP. The 2014 CIP applies to all of our senior and non-commissioned employees, including our named executive officers. For each of the named executive officers participating in the 2014 CIP, 2014 bonus targets are set as a percentage of base salary, as they were in 2013. Those percentages range from 60% to 100%. The target bonuses for our named executive officers would have been as follows at 100% funding under the 2014 CIP for the effective annual amounts: Mr. Carrington: \$350,000; Mr. Smerklo: \$450,000; Mr. Biddiscombe: \$215,000; Ms. Johnson, \$215,000; Mr. Ackerman, \$350,000; and Mr. Campione, \$300,000.

The 2014 CIP was designed with semi-annual payments, with up to 35% of the annual bonus payable for the first half of the year and the rest, including any overachievement payments, payable after completion of the full year. Funding for the 2014 CIP was based upon our achieving certain targets, subject, in the case of the second half of the year, to a minimum level of EBITDA. The 2014 CIP was based upon two targets: revenue and Net ACV. The weighting for each target was 50%.

To fund the 2014 CIP, we were required to meet at least 80% of the EBITDA target for the applicable period. Assuming we reached 80% of the EBITDA target, we would fund the bonus pool based upon the level of achievement against the two targets as shown in the tables below.

REVENUE GROWTH (50% Weighting)

Revenue Growth Achievement	Revenue Growth Funding Levels
Target Plus 10% Points	135% (Maximum funding level)
Target Plus 3% Points	109%
Target Plus 2% Points	106%
Target Plus 1% Point	103%

Target Minus 1% Point	95%
Target Minus 2% Points	90%
Target Minus 3% Points	85%
Target Minus 7% Points	50%
<Target Minus 7% Points	No Payment for Revenue Growth

Table of Contents**NET ACV GROWTH ATTAINMENT (50% Weighting)**

Revenue Net ACV Achievement	Net ACV Growth Funding Levels
Target Plus 10% Points	135% (Maximum funding level)
Target Plus 3% Points	109%
Target Plus 2% Points	106%
Target Plus 1% Point	103%
Target Net ACV Rate Percentage	100%
Target Minus 1% Point	95%
Target Minus 2% Points	90%
Target Minus 3% Points	85%
Target Minus 7% Points	50%
<Target Minus 7% Points	No payment for Net ACV Growth

The 2014 CIP allowed for additional upside payments, subject to the following limitations:

achievement of 100% of our EBITDA target for the year in order to make any upside payments for the second half of the year;

upside payments are capped at 135% of 2014 CIP for revenue and Net ACV; and

no more than half of EBITDA overachievement may be spent on bonuses under the 2014 CIP.

For purposes of the 2014 CIP, bonuses were paid semi-annually, subject to our achieving the necessary revenue targets and minimum EBITDA threshold. Under the 2014 CIP, individual bonus payments were calculated as follows for each bonus period, with any payment for the first half of the year taken into account with respect to the payment for the full year:

$$(\% \text{ Company Bonus Pool Funded}) \times (\% \text{ Individual Performance Goal Achieved During the Plan Measurement Period}) \times (\text{Individual Salary} \times \% \text{ Individual Semi-Annual Bonus}) = \text{Employee Payment}$$

For each of Messrs. Smerklo, Ackerman and Campione and Ms. Johnson, bonus payments were made in August 2014 for performance during the first half of 2014. Payment was made based on performance compared to the H1 2014 Annual Operating Plan, resulting in a payout of 41.5% of the available pool. During the second half of 2014, the Company's requisite performance targets were not achieved, and as a result no bonus was earned or paid.

For Messrs. Carrington and Biddiscombe, each of whom commenced employment during the middle of the second half of 2014, specific terms in their employment contracts stipulated that their prorated bonus would be funded fully at 100% with payment being made in Q1 2015.

For the targets related to the specific named executive officers under the 2014 CIP, see [Executive Compensation Grants of Plan-Based Awards](#) and for the payments made under the 2014 CIP for each named executive officer, see [Executive Compensation Summary Compensation Table](#).

2015 Corporate Incentive Plan. In February 2015, our compensation committee approved the 2015 Corporate Incentive Plan, to which we refer as the 2015 CIP. The 2015 CIP applies to all of our senior and non-commissioned employees, including our named executive officers. For each of the named executive officers participating in the 2015 CIP, 2015 bonus targets are set as a percentage of base salary, as they were in 2014. Those percentages range from 60% to 70%. The target bonus for Mr. Carrington is \$350,000 at 100% funding under the 2015 CIP for the effective annual amounts. As described in further detail in the section titled [Executive Compensation Employment Agreements, Separation Agreements and Potential Payments upon Termination or Change-in-Control](#), Mr. Biddiscombe will be entitled to his bonus earned under the 2015 CIP during his employment. Assuming that Mr. Biddiscombe's employment terminates on June 30, 2015, and assuming a 100% funding, Mr. Biddiscombe will be entitled to a 2015 CIP payment of \$75,250. Messrs. Smerklo, Ackerman and Campione, who left their employment with the Company in 2014, will not participate in the 2015 CIP. Ms. Johnson, who transitioned out of her role as Chief Customer Officer in April 2015, is expected to leave her employment with the Company in May 2015, and is not expected to participate in the 2015 CIP.

Table of Contents

As with the 2014 CIP, the 2015 CIP is designed with semi-annual payments, with 35% of the annual bonus (assuming 100% funding) payable for the first half of the year and the remaining 65% (assuming 100% funding) payable after completion of the full year. Funding for the 2015 CIP is based upon our achieving two targets: revenue and EBITDA margin. The weighting for each target was 50%.

Except in the case of Mr. Carrington, whose maximum funding level has not yet been finalized, the bonus pool for the first half of 2015 will be funded based upon the level of achievement against the two targets as illustrated in the tables below. The funding targets for the second half of 2015 are expected to be set in the coming months.

While the revenue and EBITDA targets for the first half of 2015 were set in February 2015, the disclosure of these targets at this early stage of the year would cause competitive harm to us. We believe these targets are challenging because they require meaningful growth and success throughout our business for 2015.

Equity-Based Rewards. We design our equity programs to be both responsible and competitive in relation to the market. We monitor the market and applicable laws and regulations and adjust our equity programs as appropriate. Stock options and restricted stock units are designed to reflect and reward a high level of sustained individual performance over time, as reflected in improved overall company value. As described in more detail below, we design equity-based compensation to help retain talent over a period of time and to provide named executive officers with a long-term reward that aligns their interests with those of our stockholders.

We historically have used stock option grants as the primary vehicle for equity compensation to our named executive officers and other employees. In order to promote the long-term incentive and retention features of equity compensation, we have typically issued our stock option grants subject to our standard one-year cliff vesting and four year vesting schedule. Under the vesting schedule, 25% of the stock option becomes exercisable one year after a specified vesting commencement date, and then vesting occurs monthly thereafter over the remaining three year period, which we believe is a common default vesting term in the technology industry. On occasion, we have also granted stock options with non-standard vesting or early exercise features, mostly in case-by-case situations for senior and other employees or candidates in high demand.

After becoming a publicly traded company, we began using restricted stock units in addition to stock options for equity compensation, primarily to reduce the dilution associated with our equity compensation programs. We are able to grant fewer shares of stock but still incent our executive officers as the values of the restricted stock units are tied to the price of the Company's common stock and thus aligned with stockholder interests. We have typically issued our restricted stock units subject to a four year vesting schedule. Under the vesting schedule, the restricted stock units vest in four equal annual installments beginning on a specified vesting commencement date.

We consider a number of factors to determine the size of all equity grants, including competitive market factors, named executive officer performance, retention value and a review of the named executive officer's overall compensation package. Our compensation committee makes all equity grants.

Initial grants of stock options and restricted stock units upon hire are generally designed to attract experienced executives with established records of success and help retain them over the long term. The size of new hire grants has been evaluated by our compensation committee in light of the Compensia-provided benchmarking data, and as a result of the negotiations with potential executive officers.

Subsequent grants to named executive officers are intended to ensure that equity compensation remains competitive within our industry group and geography. Named executive officers whose skills and results we deem essential to our long-term success are eligible to receive higher equity grants. The decision to make such grants has traditionally been based on rewarding performance, consistent with our pay-for-performance philosophy, and the equity ownership of our named executive officers in relation to the market surveys, taking into account the number of vested stock options and restricted stock units that our named executive officers hold, the strategic importance of the particular executive to our business, and the overall situation of our company.

Currently, we have no policy in place that requires us to grant equity-based compensation on specified dates. As noted above, we have traditionally made our equity grants to our newly-hired named executive officers at the next board meeting after they commence employment. Our compensation committee reviews equity compensation for incumbent executives annually, typically in early February of each year.

In February 2012, our board of directors initially adopted, and in May 2014 amended, share ownership guidelines under which all named executive officers, along with other members of executive management, are expected to own and retain our shares with a value that is the lower of their annual base salary or a minimum of 30,000 shares of common stock or, in the case of our chief executive officer, the lower of three times the value of

Table of Contents

his annual base salary or a minimum of 150,000 shares of common stock. For purposes of these ownership guidelines, vested but unexercised stock options are credited at a fifty-percent level, so that each unexercised vested stock option is treated as one half of a share of our stock. Each individual has five years to meet these stock ownership guidelines. All executives currently meet these guidelines.

We only made equity-based grants to Messrs. Carrington and Biddiscombe, in connection with their employment by us, and Ms. Johnson, in connection with her changing positions with the company, in 2014.

Mr. Carrington was granted 500,000 restricted stock units and options to purchase 2,000,000 shares of common stock in December 2014, in connection with his hiring as an employee. One-fourth of the shares subject Mr. Carrington's restricted stock units vest on December 1, 2015 and the remaining restricted stock units vest quarterly on a pro rata basis over a twelve-quarter period, and one-quarter of the options granted to Mr. Carrington vest at the anniversary of the grant date with the remaining vesting 1/48th monthly thereafter. Mr. Carrington's equity grants were negotiated with the company and approved by the compensation committee as part of his inducement to join us as Chief Executive Officer.

Mr. Biddiscombe was granted 200,000 restricted stock units and options to purchase 250,000 shares of common stock in October 2014, in connection with his hiring as an employee. The grants are subject to standard vesting schedules for restricted stock units and options: the restricted stock units vest in four equal annual installments on the anniversary of the grant date and one-quarter of the options vest at the anniversary of the grant date with the remaining vesting 1/48th monthly thereafter. Mr. Biddiscombe's equity grants were negotiated with the company and approved by the compensation committee as part of his inducement to join us as acting Chief Financial Officer.

Ms. Johnson was granted restricted stock units and options in September 2014 and December 2014. The 60,000 restricted stock units granted in September 2014 was approved by the compensation committee in recognition of her taking on the position of interim Chief Executive Officer, and vest in two equal annual installments beginning on September 2, 2015. The remaining grants of 35,000 restricted stock units and options to purchase 100,000 shares of common stock were approved by the compensation committee in December 2014 in recognition for Ms. Johnson's transition to the role of Chief Customer Officer, and are subject to the Company's standard vesting schedules for restricted stock units and options.

For additional information on the equity-based rewards granted to our named executive officers, please see the Grants of Plan-Based Awards table.

Benefits Programs. We provide our employees with retirement, health and welfare benefits, such as our group health insurance plans, 401(k) retirement plan, life, disability and accidental death insurance plans and our 2011 Employee Stock Purchase Plan. Those plans, which are available to all employees including our named executive officers, are designed to provide a stable array of support to our employees and their families and are not performance based. Our benefits programs are generally established and adjusted by our human resources department with approval, as necessary, from senior management, the compensation committee or the board of directors, as appropriate.

Employment Agreements, Separation Agreements and Post-Employment Compensation

We enter into employment agreements with certain of our named executive officers, sometimes as part of the hiring process, that provide for at-will employment, base salary, eligibility to participate in the executive incentive bonus plan or commission plan, a standard employee benefit plan and recommendations for initial stock option grants. These agreements are subject to our standard proprietary information and invention assignment terms. Certain of the employment agreements contain certain severance and change of control benefits in favor of certain named executive officers, including our most senior executives. These arrangements provide for payments and benefits upon termination of their employment in specified circumstances, including following a change of control. Messrs. Carrington and Biddiscombe each entered into such employment agreements with us as part of their decisions to join us.

Table of Contents

We also have entered into separation agreements with our named executive officers from time to time that provide for defined separation dates, specification of the continuing role of such executives prior to separation, including, in some cases, consulting services that the individual will provide to us post-separation from employment. These separation agreements typically provide for specified payment of compensation or severance benefits, and all such payments are subject to an effective release agreement from such individual. Messrs. Smerklo, Ackerman and Campione each entered into such separation agreements with us as part of their departure as an employee from the company.

All of these employment and separation agreements are discussed in more detail in the Executive Compensation Employment Agreements, Separation Agreements and Potential Payments upon Termination or Change-in-Control section below. We believe that all of these agreements are an important recruitment and retention tool, and will incent the named executive officers to maintain continued focus and dedication to their assigned duties to maximize stockholder value, or to assist in an orderly transition of responsibilities for those executives who leave our employment while reducing the risk of any potential disputes. The terms of these agreements were determined after review by the compensation committee of our retention and transition goals for each named executive officer, as well as analysis of market data, similar agreements established in our industry. These agreements were also the result of negotiations with the executives.

Other Compensation Matters and Policies

Tax and Accounting Considerations. Internal Revenue Code Section 162(m) limits the amount that we may deduct for compensation paid to our Chief Executive Officer and to each of our four most highly compensated officers to \$1,000,000 per person, unless certain exemption requirements are met. Exemptions to this deductibility limit may be made for various forms of performance-based compensation. In addition to salary and bonus compensation, upon the exercise of stock options that are not treated as incentive stock options, the excess of the current market price over the option price, or option spread, is treated as compensation and accordingly, in any year, such exercise may cause an officer's total compensation to exceed \$1,000,000. Under certain regulations, option spread compensation from options that meet certain requirements will not be subject to the \$1,000,000 cap on deductibility, and in the past, we have granted options that we believe satisfy those requirements. While the compensation committee cannot predict how the deductibility limit may impact our compensation program in future years, the compensation committee intends to maintain an approach to executive compensation that follows our pay-for-performance philosophy. While the compensation committee has not adopted a formal policy regarding tax deductibility of compensation paid to our Chief Executive Officer and our four most highly compensated officers, the compensation committee intends to consider tax deductibility under Section 162(m) as a factor in compensation decisions.

Section 409A of the Internal Revenue Code imposes additional significant taxes in the event that an executive officer, director or other service provider receives deferred compensation that does not satisfy the requirements of Section 409A. Although we do not maintain traditional nonqualified deferred compensation plans, Section 409A may apply to certain arrangements we enter into with our executive officers, including our change of control severance arrangements. Consequently, to assist in avoiding additional tax under Section 409A, our intent is to design any such arrangements in a manner to avoid the application of Section 409A.

Adjustment or Recovery of Compensation. We do not have a formal policy regarding adjustment or recovery of awards or payments if the relevant performance measures upon which they are based are restated or otherwise adjusted in a manner that would reduce the size of the award or payment.

Compensation Risk Assessment

The compensation committee believes that although a portion of compensation provided to our executive officers is performance-based, our compensation programs do not encourage excessive or unnecessary risk taking. In fact, the design of our compensation programs encourage our executives to remain focused on both short-term and long-term strategic goals, in particular in connection with our pay-for-performance business model.

Employment Agreements, Separation Agreements and Potential Payments upon Termination or Change-in-Control

Employment Agreements

We have entered into employment agreements with Messrs. Carrington and Biddiscombe and Ms. Johnson that provide for certain severance payments and equity vesting upon termination of their employment in specified circumstances. We believe that these agreements are an important retention tool, and will incent the named executive officers to maintain continued focus and dedication to their assigned duties to maximize stockholder value. The terms of these agreements were determined after review by the compensation committee of our retention goals for each named executive officer, as well as analysis of market data, similar agreements established within our industry, and applicable law. The employment agreements for Messrs. Carrington and Biddiscombe were effective in 2014; the employment agreement for Ms. Johnson was effective in 2013.

Christopher M. Carrington. We have entered into an employment agreement, dated December 1, 2014, with Christopher M. Carrington, our Chief Executive Officer. The agreement sets forth Mr. Carrington's annual base salary of \$500,000 and a target bonus of up to approximately \$350,000, both amounts to be reviewed annually and subject to adjustment by the board of directors. The agreement also sets forth a grant of options to purchase 2,000,000 shares of our common stock and an award of 500,000 restricted stock units covering shares of the Company's common stock, each vesting over four years. Mr. Carrington's agreement provides that if we terminate his employment without Cause, or if he terminates his employment with us for Good Reason, he will be entitled to twelve months of his then current base salary plus 100% of his then applicable annual target bonus. Mr. Carrington would further be entitled to a payment equal to the product of (a) twelve and (b) the amount of the monthly premium that would be required for the first month of coverage under the Consolidated Omnibus Budget Reconciliation Act of 1985, as amended and all applicable regulations ("COBRA"). In addition, if Mr. Carrington is terminated without Cause, or if he terminates his employment with us for Good Reason, Mr. Carrington's outstanding equity compensation awards will vest by twelve months from the employment termination or resignation date. Mr. Carrington's agreement provides further that if we terminate his employment without Cause, or if he terminates his employment with us for Good Reason within eighteen months following a Change of Control, he will be entitled to eighteen months of his then current base salary plus 150% of his then applicable annual target bonus. Mr. Carrington would further be entitled to a payment equal to the product of (x) eighteen and (y) the amount of the monthly premium that would be required for the first month of coverage under COBRA. In addition, if Mr. Carrington is terminated without Cause, or if he terminates his employment with us for Good Reason, within eighteen months following a Change of Control, Mr. Carrington's outstanding equity compensation awards will immediately become vested in full. The foregoing separation payments and benefits are conditioned on Mr. Carrington executing a general release of claims in our favor. In the event any payment to Mr. Carrington provided in the agreement would constitute a parachute payment as defined in 280G(b)(2) of the Internal Revenue Code, then Mr. Carrington will be entitled to receive the amount of such payment that would provide him the greatest after-tax benefit of either the full payment or a lesser payment which would result in no portion of such severance benefits being subject to excise tax.

Michael A. Smerklo. On August 19, 2014, in connection with Mr. Smerklo's resignation, the Company and Michael A. Smerklo entered into a Separation Agreement and Release (the "Smerklo Separation Agreement")

detailing the terms of Mr. Smerklo's separation as Chief Executive Officer and continuation as a member of the Board. Pursuant to the Smerklo Separation Agreement, Mr. Smerklo received a lump sum payment consisting of compensation in an amount equal to his then current base salary while serving as Chief Executive Officer for the remainder of 2014 and for the full year 2015. In addition, the Company paid Mr. Smerklo in one lump sum an amount equal to 16 months of COBRA coverage in addition to covering his healthcare through the end of August 2014. Mr. Smerklo remained eligible to receive a bonus under the Company's 2014 Corporate Incentive Plan for 2014 consistent with the bonus opportunity he had as Chief Executive Officer. The Smerklo Separation Agreement further provided that Mr. Smerklo will not receive any other compensation for his Board service for any period prior to February 2016. However, if Mr. Smerklo's Board service continues through and after February 2016, Mr. Smerklo will receive the same compensation as other outside directors of the Board. All of Mr. Smerklo's currently unvested equity grants will continue to vest pursuant to the terms of the agreements under which they were granted. If Mr. Smerklo no longer serves as a director or otherwise as a service provider prior to February 8, 2016, (i) his remaining unvested stock options will vest and become exercisable to such date, and he will have until the end of 2016 to exercise such vested stock options, (ii) his remaining unvested time-based restricted stock awards will vest to such date, and (iii) his remaining unvested performance-based restricted stock awards will remain eligible to vest based on the satisfaction of the performance conditions consistent with their existing terms (such vesting measured on the date that the Company files its Annual Report on Form 10-K in respect of 2015). The total amount paid to Mr. Smerklo under the Smerklo Separation Agreement was \$710,333.

Simon Biddiscombe. We entered into an employment agreement, dated September 29, 2014, with Simon Biddiscombe, our former interim Chief Financial Officer (the "Biddiscombe Employment Agreement"). While Mr. Biddiscombe has resigned from his position as interim Chief Financial Officer, certain sections of the Biddiscombe Employment Agreement are still in effect, subject to the terms of the Biddiscombe Separation Agreement (as defined below). The agreement sets forth Mr. Biddiscombe's annual base salary of \$360,000 and a target bonus of up to \$216,000. The agreement also sets forth a grant of options to purchase 250,000 shares of our common stock and an award of 200,000 restricted stock units covering shares of the Company's common stock, each vesting over four years. Mr. Biddiscombe's agreement provides that if we terminate his employment without Cause on or before September 30, 2015, he will be entitled to (A) the lesser of (i) six months of his then-current base salary or (ii) his remaining base pay through September 30, 2015; (B) payment in the amount of his earned, but not-yet-paid, annual target bonus for the year in which his separation occurs; and (C) acceleration of his outstanding equity compensation awards such that Mr. Biddiscombe will have received one full year of vesting from his initial equity grants. The Biddiscombe Employment Agreement provides further that if Mr. Biddiscombe's role remains at an Executive Vice President level after October 1, 2015 and we terminate his employment without Cause on or after October 1, 2015 then, he will be entitled to six months of his then-current base salary and a payment equal to the product of (a) six and (b) the amount of the monthly premium that would be required for the first month of coverage under COBRA. In addition, if Mr. Biddiscombe is terminated without Cause, or if he terminates his employment with us for Good Reason, within twelve months following a Change of Control, Mr. Biddiscombe's outstanding equity compensation awards will immediately become vested in full. The foregoing separation payments and benefits are conditioned on Mr. Biddiscombe executing a general release of claims in our favor. In the event any payment to Mr. Biddiscombe provided in the agreement would constitute a "parachute payment" as defined in 280G(b)(2) of the Internal Revenue Code, then Mr. Biddiscombe will be entitled to receive the amount of such payment that would provide him the greatest after-tax benefit of either the full payment or a lesser payment which would result in no portion of such severance benefits being subject to excise tax.

On April 6, 2015, in connection with Mr. Biddiscombe's resignation, the Company and Mr. Biddiscombe entered into a Separation Agreement and Release detailing the terms of Mr. Biddiscombe's separation as interim Chief Financial Officer, his continuation as Chief Strategy Officer, and his subsequent role as a consultant of the Company (the "Biddiscombe Separation Agreement"). Pursuant to the Biddiscombe Separation Agreement, in connection with the conclusion of Mr. Biddiscombe's employment on June 30, 2015, Mr. Biddiscombe will receive, consistent with the terms of the Biddiscombe Employment Agreement, a severance payment equal to the

Table of Contents

sum of six months of his base salary, plus his bonus earned under the Company's 2015 Corporate Incentive Plan during his employment, in each case less applicable withholding. In addition, the Company will pay Mr. Biddiscombe in one lump sum an amount equal to six months of COBRA coverage in addition to covering his healthcare through the end of June 2015. Mr. Biddiscombe will receive an additional \$25,000 in recognition for his service from April 1, 2015 through June 30, 2015. However, if Mr. Biddiscombe's status as an employee is terminated prior to June 30, 2015, Mr. Biddiscombe will receive a prorated portion of this payment. Mr. Biddiscombe's currently unvested equity grants will continue to vest pursuant to the terms of the agreements under which they were granted, until September 30, 2015. However, if Mr. Biddiscombe's employment and consulting services are terminated prior to September 30, 2015, his remaining unvested equity grants will vest and become exercisable so that Mr. Biddiscombe will have received one full year of vesting from the date of his initial equity grants.

Ashley F. Johnson. We entered into an employment agreement, dated February 6, 2013, with Ashley F. Johnson, our former Chief Customer Officer. The agreement sets forth Ms. Johnson's annual base salary and target bonus, both of which have since been reviewed and adjusted. The agreement also sets forth a grant of options to purchase 150,000 shares of our common stock and a grant of 20,000 restricted stock units, each vesting over four years, which were granted in connection with Ms. Johnson's promotion to Chief Financial Officer. Ms. Johnson's base salary in 2014 was \$360,000, and her target bonus was \$215,000. In addition, in connection with Ms. Johnson's service as acting Chief Executive Officer from August 2014 to December 2014, our compensation committee approved modified compensation for Ms. Johnson on August 20, 2014, authorizing \$10,000 per month in additional compensation and an award of 60,000 restricted stock units, which vests over two years. If Ms. Johnson is terminated without Cause, or if she terminates her employment with us for Good Reason, Ms. Johnson will be entitled to a lump sum severance payment equal to six months of Ms. Johnson's then current base salary and in lieu of any payments by us with respect to continued health care coverage under COBRA, to a monthly payment of \$3,000, beginning in the month following the month on which Ms. Johnson's termination occurs and ending on the earlier of (i) the date upon which Ms. Johnson obtains other employment and (ii) the last day of the sixth calendar month following the month in which Ms. Johnson's termination occurs. In addition, if following a Change of Control, Ms. Johnson is terminated without Cause, or if she terminates her employment with us for Good Reason, her outstanding equity compensation awards shall immediately have their vesting accelerated 100%, becoming fully vested. The foregoing separation payments and benefits are conditioned on Ms. Johnson executing a general release of claims in our favor. In the event any payment to Ms. Johnson provided in the agreement would constitute a parachute payment as defined in 280G(b)(2) of the Internal Revenue Code, then Ms. Johnson will be entitled to receive the amount of such payment that would provide her the greatest after-tax benefit of either the full payment or a lesser payment which would result in no portion of such severance benefits being subject to excise tax. Ms. Johnson transitioned out from her role as Chief Customer Officer in April 2015 and is expected to leave her employment with the Company in May 2015.

Richard J. Campione. Mr. Campione resigned from his position as President, Cloud & Data Services Business, in October 2014 and continued as an advisor to the Company through December 2014. On December 31, 2014, in connection with Mr. Campione's resignation, the Company and Mr. Campione entered into a Separation Agreement and Release (the "Campione Separation Agreement") detailing the terms of Mr. Campione's separation as President, Cloud & Data Services Business, and continuation as a member of the Board. Pursuant to the Campione Separation Agreement, Mr. Campione will continue to serve on the Board and will not receive any compensation for his Board service for any period prior to December 31, 2017. However, if Mr. Campione's Board service continues through and after December 31, 2017, Mr. Campione will receive the same compensation as other outside directors of the Board. All of Mr. Campione's currently unvested equity grants will continue to vest pursuant to the terms of the agreements under which they were granted.

Historical Transactions

Conversion to a Corporation

On March 24 2011, we converted from a Delaware limited liability company into a Delaware corporation and changed our name from ServiceSource International, LLC to ServiceSource International, Inc. (the "Conversion"). This conversion to a corporate form occurred pursuant to our Limited Liability Company Agreement ("LLC Agreement") and was approved by our board of directors. As a result, we entered into a conversion agreement with certain of our equityholders that provided that the conversion to a corporation take the form of a statutory conversion, and also provided that the conversion occur prior to the declaration of effectiveness by the SEC of our registration statement related to our initial public offering without any further action on the part of our board of directors or equityholders. In conjunction with the Conversion, all of our outstanding common shares automatically converted into shares of our common stock based on their relative rights as set forth in our LLC Agreement. Also, as part of the Conversion and as contemplated by our LLC Agreement, two of our equityholders, GA SS Holding LLC, and entities controlled by investment funds controlled by General Atlantic LLC, and SLLC Holdings, Inc., controlled by Benchmark Capital, each elected to merge with and into us. In the merger, the equity interests of GA Holdings LLC and SLLC Holdings, Inc. were canceled and extinguished in exchange for shares of our common stock. In the merger agreement, the companies that merged into us represented and warranted that they did not have any liabilities, operations or businesses other than activities related to holding our common stock and other than liabilities for certain tax matters with respect to the periods prior to the merger which are not yet due and payable, and provided us with certain indemnities. Concurrently with the consummation of the Conversion to a corporation, the LLC Agreement was terminated other than certain provisions relating to certain pre-termination tax matters and liabilities.

Policy Concerning Audit Committee Approval of Related Person Transactions

We have adopted a formal policy that our executive officers, directors, holders of more than 5% of any class of our voting securities, and any member of the immediate family of and any entity affiliated with any of the foregoing persons, are not permitted to enter into a related party transaction with us without the prior consent of our audit committee, or other independent members of our board of directors if it is inappropriate for our audit committee to review such transaction due to a conflict of interest. Any request for us to enter into a transaction with an executive officer, director, principal stockholder, or any of their immediate family members or affiliates, in which the amount involved exceeds \$120,000 must first be presented to our audit committee for review, consideration and approval. In approving or rejecting any such proposal, our audit committee is to consider the relevant facts and circumstances available and deemed relevant to the audit committee, including, but not limited to, whether the transaction is on terms no less favorable than terms generally available to an unaffiliated third party under the same or similar circumstances and the extent of the related party's interest in the transaction.

Section 16(a) Beneficial Ownership Reporting Compliance

Pursuant to Section 16(a) of the Exchange Act, our officers and directors and persons who beneficially own more than 10% of a registered class of our equity securities are required to file initial statements of beneficial ownership (Form 3) and statements of changes in beneficial ownership (Forms 4 and 5) with the SEC. Such persons are required by the rules of the SEC to furnish us with copies of all such forms they file. Based solely on a review of the copies of such forms furnished to us and/or written representations that no additional forms were required, we are not aware that that of our directors, officers or persons who beneficially owned more than 10% of a registered class of our equity securities failed to comply with the reporting requirements applicable to them pursuant to Section 16(a) with respect to transactions during the fiscal year ended December 31, 2014, except that we were late filing the following reports:

a Form 4 for Jay R. Ackerman with respect to the sale of common stock, which was subsequently reported on a Form 4 on September 4, 2014; and

a Form 4 for Barry Reynolds with respect to the acquisition of common stock, which was subsequently filed on February 11, 2015. Our Insider Trading Policy permits directors, officers and other employees covered under the policy to establish, subject to certain conditions and limitations set forth in the policy, written trading plans that are intended to comply with Rule 10b5-1 under the Exchange Act, which permit automatic trading of our common stock or trading of common stock by an independent person (such as a stockbroker) who is not aware of material nonpublic information at the time of the trade. We are aware that certain of our directors and officers have entered into written trading plans, and we believe our directors and officers may establish such plans in the future.

Table of Contents**SECURITY OWNERSHIP**

The following table sets forth information, as of March 31, 2015, concerning, except as indicated by the footnotes below:

Each person who we know beneficially owns more than five percent of our common stock;

Each of our named executive officers;

Each of our directors and nominees for the board of directors; and

All of our current executive officers and directors as a group.

Unless otherwise noted below, the address of each person listed on the table is c/o ServiceSource International, Inc., 634 Second Street, San Francisco, California 94107.

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws.

Applicable percentage ownership is based on 84,823,659 shares of common stock outstanding at March 31, 2015. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of common stock subject to options held by that person that are currently exercisable or exercisable within 60 days of March 31, 2015, and restricted stock units (RSUs) held by that person that vest within 60 days of March 31, 2015. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person. Beneficial ownership representing less than one percent is denoted with an asterisk (*).

The information provided in the table is based on our records, information filed with the SEC, and information provided to us, except where otherwise noted.
