Acquisition of MWH Global March 29, 2016 We create communities. We are Stantec.

PROSPECTUS INFORMATION An amended and restated preliminary short form prospectus containing important information relating to the securities described in this presentation has not yet been filed with the securities regulatory authorities in each of the provinces of Canada. A copy of the amended and restated preliminary short form prospectus is required to be delivered to any investor that received this presentation and expressed an interest in acquiring the securities. There will not be any sale or any acceptance of an offer to buy the securities until a receipt for the final short form prospectus has been issued. This presentation does not provide full disclosure of all material facts relating to the securities offered. Potential investors should read the amended and restated preliminary short form prospectus, final short form prospectus and any amendment, for disclosure of those facts, especially risk factors relating to the securities offered, before making an investment decision. Stantec has filed a registration statement (including a prospectus) with the U.S. Securities and Exchange Commission (the “SEC”) for the offering of Subscription Receipts referred to in this communication. The Subscription Receipts may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. Before you invest, you should read the prospectus in that registration statement and other documents Stantec has filed with the SEC for more complete information about Stantec and the offering. Stantec has also filed a preliminary short form prospectus relating to the offering with each of the provincial and territorial securities regulatory authorities in Canada. You may get any of these documents for free by visiting EDGAR on the SEC website at www.sec.gov or via SEDAR at www.sedar.com. Alternatively, Stantec, any underwriter or any dealer participating in the offering will arrange to send you the prospectus without charge if you request it in the U.S. from CIBC Capital Markets, 425 Lexington Avenue, 5th floor, New York, NY; Attention Hector Cruz; Phone: 1-800-282-0822; Email: useprospectus@cibc.com or from RBC Capital Markets, LLC, 200 Vesey Street, 8th Floor, New York, NY 10281-8098; Attention: Equity Syndicate; Phone: 877-822-4089; Email: equityprospectus@rbccm.com.

NON-IFRS MEASURES This presentation contains references to certain measures that do not have a standardized meaning under IFRS as prescribed by the International Accounting Standards Board and are therefore unlikely to be comparable to similar measures presented by other companies. Rather, these measures are provided as additional information to complement IFRS measures by providing further understanding of operations from management's perspective. Accordingly, non-IFRS measures should not be considered in isolation nor as a substitute for analysis of financial information reported under IFRS. Stantec presents non-IFRS measures, specifically, EBITDA, Adjusted EBITDA and Adjusted Earnings per Share. In addition, Stantec presents EBITDA, Adjusted EBITDA and Adjusted Earnings per Share for Stantec and MWH (as defined herein) on a combined basis, assuming completion of, and after giving effect to, the acquisition described herein. Stantec uses EBITDA as an approximate measure of pre-tax operating cash flow. It measures earnings before deducting financial charges, income tax, depreciation and amortization, net income attributable to non-controlling interests and dividends, and includes income from equity investments. "Adjusted EBITDA" is calculated as EBITDA adjusted for out of ordinary course severance, estimated savings associated with certain employee retirement plans and other one-time costs and items. "Adjusted Earnings per Share" means Earnings per Share, adjusted to exclude estimated transaction-related intangible amortization, costs and other one-time items on an after-tax basis. Stantec believes these adjustment measures are useful for evaluating its historical and unaudited pro forma financial results, given the exceptional nature of these one-time asset impairment changes. Stantec believes these non-IFRS measures are frequently used by securities analysts, investors, and other interested parties as measures of financial performance and to provide supplemental measures of operating performance, and thus highlight trends that may not otherwise be apparent when relying solely on IFRS financial measures. See the amended and restated preliminary short form prospectus, final short form prospectus, and any amendments thereto for reconciliations of the non-IFRS measures described in this presentation.

FORWARD-LOOKING INFORMATION This presentation includes certain statements that are "forward-looking statements" within the meaning of applicable securities legislation, including the United States Private Securities Litigation Reform Act of 1995 "safe harbour" provisions or "forward looking information" within the meaning of applicable Canadian securities legislation (collectively, "forward-looking information"). The forward-looking information in this presentation is presented for the purpose of providing disclosure of the current expectations of Stantec's future events or results, having regard to current plans, objectives and proposals, including the intention to proceed with the acquisition described herein, and such information may not be appropriate for other purposes. Forward-looking information relates to, among other things, Stantec's objectives, goals, targets, strategies, intentions, plans, key performance drivers, estimates or expectations for its financial condition, and outlook for its operations, including with respect to future capital expenditures (including the amount and nature thereof), financial guidance for future performance, business strategies and measures to implement strategies, competitive strengths, goals, expansion, and growth of Stantec's business and operations, plans and references to its future success. Forward-looking information is predictive in nature and depends upon or refers to future events or conditions; as such, this presentation uses words such as "may", "would", "could", "should", "will", "likely", "expect", "anticipate", "believe", "intend", "plan", "forecast", "project", "estimate", "target", "guideline", "goal", and similar expressions suggesting future outcomes or events to identify forward-looking information. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances may be considered forward-looking information. These statements are not guarantees of future performance and involve assumptions and risks and uncertainties that are difficult to predict. Forward-looking information in this presentation may include, but is not limited to, statements regarding: Stantec's anticipated business prospects; Stantec's financial and operational performance, including the performance of its subsidiaries; the planned acquisition, including the expected closing thereof; plans regarding financing for the acquisition and repayment of credit facilities; expectations or projections about strategies and goals for growth and expansion, including our intention to leverage MWH's brand equity and enhance cross-selling; expectations regarding realization of synergies and accretion following the acquisition, and the timing thereof; expected impacts of the acquisition on EBITDA composition, earnings, cash flow and dividend growth, as well as on our future ability to reduce leverage levels; planned changes in Stantec's business, including the addition of new lines of business; expected regulatory processes and outcomes and the impact thereof; expected capital expenditures and contractual obligations; expected operating and financial results; and expected industry, market and economic conditions.

FORWARD-LOOKING INFORMATION Whether actual results and developments will conform with the expectations and predictions contained in the forward-looking information is subject to a number of risks and uncertainties, many of which are beyond Stantec's control, and the effects of which can be difficult to predict. Certain material assumptions made, and material risk factors with respect to, the forward-looking information referred to above include the following: the ability to deploy the capabilities of MWH to Stantec's existing clients and cross-sell Stantec's services across the global network of MWH consistent with management's expectations; general economic conditions, demand for services, foreign exchange and interest rates, stock market volatility and market valuations, commodity prices, government spending levels, and competition; the ability to complete the acquisition and integrate the business of MWH and achieve synergies consistent with expectations and the ability of Stantec to successfully leverage its back office functions and optimize its operational footprint consistent with expectations; the ability of management to implement best practices in the combined company; earnings of the combined company; capital structure and maintenance of annual dividends and free cash flows of the combined company; fees, interest rates, and timing of completion of the acquisition and the ability to obtain all required approvals for the acquisition on a timely basis; management's knowledge of MWH and due diligence and other work in connection with evaluation of the acquisition; and other assumptions and risks relating to the business of Stantec and the acquisition described in Stantec's continuous disclosure filings with securities regulators and as will be described in the amended and restated short form prospectus. Stantec cautions that the foregoing list of important factors that may affect future results is non-exhaustive. Additional information on these and other factors will be discussed in the amended and restated preliminary short form prospectus and the documents incorporated by reference therein. In evaluating any forward-looking information contained in this presentation, Stantec cautions readers not to place undue reliance on any such forward-looking information. All forward-looking information in this presentation speaks as of the date of this presentation. Unless otherwise required by applicable securities laws, Stantec does not intend, nor does Stantec undertake any obligation, to update or revise any forward-looking information contained in this presentation to reflect subsequent information, events, results, circumstances or otherwise.

Acquisition of MWH

Agenda Transaction Summary MWH Overview Pro Forma Stantec Financial Summary Conclusion

Transaction Summary

Transaction Highlights 1 Adjusted for out of ordinary course severance, estimated savings associated with certain employee retirement plans and other one-time costs and items 2 Adjusted to exclude estimated transaction-related intangible amortization, costs and other one-time items on an after-tax basis 3 Assuming completion of the offering of Subscription Receipts, the acquisition of MWH and the transactions related thereto Stantec Inc. (“Stantec” or the “Company”) has agreed to acquire MWH Global Inc. (“MWH”), a global engineering, consulting, and construction management firm focused on water for built infrastructure and the environment The acquisition should expand Stantec’s geographic footprint and service offering and create a global leader in the water market with an international footprint The transaction is valued at approximately US\$795 million, representing approximately 9.5x 2015 Adjusted EBITDA¹. After giving effect to expected US\$25 million in anticipated run-rate synergies, the transaction is valued at approximately 7.3x 2015 Adjusted EBITDA¹ Stantec has secured fully committed financing and expects to fund the purchase with a mix of credit facilities and a C\$525 million bought-deal equity offering via Subscription Receipts The transaction is expected to be immediately mid-single digit accretive to Adjusted EPS² and mid-teens accretive to Adjusted EPS² in 2017³

Pro Forma Stantec

The combined business is expected to build upon Stantec's position as a top tier design firm within the global water and infrastructure market, and enhance our ability to compete on the world's most technically sophisticated water-related projects. A Global Leader in Water and Infrastructure Markets Expanded Geographic Footprint MWH brings a strong history of operating effectively in global markets and should provide Stantec with immediate geographic breadth. MWH is expected to add global capabilities in water-related design services to key hydropower, oil & gas, mining, and industrial clients. Opportunity to cross-sell engineering services from Stantec's Energy & Resources, Environmental Services, and Buildings business operating units. Enhance Cross-Selling Capabilities to Different End Markets

ü ü ü Strategic Rationale MWH's history and experience of operating in global markets Stantec's strong balance sheet, history of operational effectiveness, and experience in successfully integrating acquisitions Create Additional Growth Opportunities Add Water-Related Construction Capabilities MWH has a diverse range of construction capabilities, with expertise in construction management at risk for water related projects in the US and UK, which Stantec expects to leverage to further meet the needs of Stantec's existing water clients. Stantec expects to leverage the MWH construction capabilities in the consulting services Stantec provides on design-build projects. Employees expected to be able to better serve clients by drawing resources from across the globe to Create Communities and Build a Better World New Opportunities for Combined Company Employees ü ü ü
