INTRODUCTION

This proxy statement is furnished to holders of common stock, \$0.01 par value per share, of Flushing Financial Corporation (the Company), which is the sole stockholder of Flushing Bank. In this proxy statement we use the term the Bank to mean Flushing Bank and its predecessors, including Flushing Savings Bank, FSB through February 28, 2013. Proxies are being solicited on behalf of the Board of Directors of the Company (the Board of Directors or Board) to be used at the annual meeting of stockholders to be held at the RXR Plaza Conference Center located at 625 RXR Plaza, Lobby Level, Uniondale, New York, 11556 at 2:00 p.m., New York time, on May 17, 2016 and at any adjournment thereof. Only holders of record of the Company's issued and outstanding common stock as of the close of business on the record date, March 24, 2016, are entitled to notice of and to vote at the annual meeting and any adjournments thereof. We are not mailing the proxy statement and related materials to all stockholders. Instead, the proxy statement, the accompanying notice of annual meeting of stockholders, the form of proxy, and the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015 can be accessed over the Internet. Printed proxy materials will be mailed to stockholders only upon request. All persons who are entitled to vote at the annual meeting will receive in the mail (or by email, if they have agreed to delivery in such manner) an Important Notice Regarding the Availability of Proxy Materials that tells how to access our proxy materials. We will begin distributing the Important Notice Regarding the Availability of Proxy Materials on or about April 7, 2016.

VOTING AND PROXIES

Voting Rights and Quorum Requirement

Stockholders of record as of the close of business on March 24, 2016, the record date, are entitled to one vote for each share of common stock then held. On the record date, there were 28,985,466 shares of common stock outstanding and entitled to be voted and the Company had no other class of equity securities outstanding. Holders of a majority of the outstanding shares of common stock must be present at the annual meeting, either in person or represented by proxy, to constitute a quorum for the conduct of business. In order to ensure a quorum, you are requested to vote by proxy even if you plan to attend the annual meeting in person. You may vote over the Internet, by telephone, or by signing, dating, and returning a proxy card.

Voting over the Internet or by Telephone

If your shares are registered in your name with our transfer agent, you may vote either over the Internet or by telephone. Specific instructions for voting over the Internet or by telephone are set forth on the Important Notice Regarding the Availability of Proxy Materials. These procedures are designed to authenticate each stockholder's identity and to allow stockholders to vote their shares and confirm that their instructions have been properly recorded.

If your shares are registered in the name of a bank or brokerage firm, you may also be able to vote your shares over the Internet or by telephone. A large number of banks and brokerage firms are participating in online programs that allow eligible stockholders to vote over the Internet or by telephone. If your bank or brokerage firm is participating in such a program, your voting form will provide instructions. If your voting form does not contain Internet or telephone voting information, please complete and return the paper proxy card in the self-addressed, postage-paid envelope provided by your bank or brokerage firm.

Effect of Proxy

The proxy solicited by this proxy statement, if properly signed and received by the Company in time for the annual meeting, or properly transmitted by telephone or the Internet, and not revoked prior to its use, will be voted in accordance with the instructions it contains. If you return or transmit a proxy without specifying your voting instructions, the proxy will be voted FOR election of the nominees for director described herein, FOR the advisory approval of the Company's executive compensation, and FOR ratification of the selection of BDO

Table of Contents

USA, LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2016. With respect to the transaction of such other business as may properly come before the meeting, each proxy received will be voted in accordance with the best judgment of the persons appointed as proxies. At this time, the Board of Directors knows of no such other business.

Revoking a Proxy

If you give a proxy, you may revoke it at any time before it is voted by (1) filing written notice of revocation with the Corporate Secretary of the Company (Corporate Secretary, Flushing Financial Corporation, 220 RXR Plaza, Uniondale, New York 11556); (2) submitting a duly executed proxy bearing a later date; or (3) appearing at the annual meeting and giving the Corporate Secretary notice of your intention to vote in person.

Votes Required for Approval

You may either vote for, against, or abstain on each of the proposals. The election of each director nominee and the approval of each other proposal requires the affirmative vote of a majority of the votes cast (whether in person or represented by proxy), assuming a quorum is present at the meeting. A majority of votes cast means that the number of shares voted for a proposal exceeds the number of shares voted against that proposal.

New York Stock Exchange (NYSE) rules determine whether proposals are routine or not routine. If a proposal is routine, a broker holding shares for an owner in street name may vote for the proposal without voting instructions. If a proposal is not routine, the broker may vote on the proposal only if the owner has provided voting instructions. If a broker does not receive voting instructions for a non-routine proposal, the broker will return a proxy card without a vote on that proposal, which is usually referred to as a broker non-vote. Under current NYSE rules, brokers have discretionary authority to vote shares held in street name with respect to the ratification of the appointment of the independent registered public accounting firm, but not on the election of directors or the advisory approval of the Company's executive compensation.

Abstentions and broker non-votes are considered present for purposes of determining the presence of a quorum. Abstentions and broker non-votes are not votes cast on a proposal, so they will have no effect on the outcome of any proposal.

Cost of Solicitation of Proxies

The cost of solicitation of proxies will be borne by the Company. In addition to the solicitation of proxies by mail, Morrow & Co., LLC, a proxy soliciting firm, will assist the Company in soliciting proxies for the annual meeting and will be paid a fee of \$7,500, plus reimbursement for out-of-pocket expenses. Proxies also may be solicited personally or by telephone or telecopy by directors, officers and employees of the Company or the Bank, without additional compensation to these individuals. The Company will also request persons, firms and corporations holding shares in their names, or in the name of their nominees, which are beneficially owned by others, to send proxy materials to and obtain proxies from such beneficial owners, and will reimburse such holders for reasonable expenses incurred in connection therewith.

The Company's proxy statement and annual report to stockholders for the year ended December 31, 2015 are available at <https://materials.proxyvote.com/343873>.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

The Board of Directors of the Company currently consists of 13 directors divided into three classes. The directors hold office for staggered terms of three years (and until their successors are elected and qualified). One of the three classes is elected each year to succeed the directors whose terms are expiring. The directors in Classes A and B are serving terms expiring at the annual meeting of stockholders in 2017 and 2018, respectively.

The directors in Class C, whose terms expire at the 2016 annual meeting, are John R. Buran, James D. Bennett, Alfred A. DelliBovi, and Thomas S. Gulotta. Each of these directors has been nominated by the Board of Directors, upon the recommendation of its Nominating and Governance Committee, to stand for election for a term expiring at the annual meeting of stockholders to be held in 2019. Each of these nominees has consented to being named in this proxy statement as a Board nominee and to serve if elected.

Unless otherwise instructed, it is the intention of the proxy holders to vote the proxies received by them in response to this solicitation FOR the election of the nominees named above as directors. If any such nominee should refuse or be unable to serve, the proxies will be voted for such person as shall be designated by the Board of Directors to replace such nominee. The Board of Directors has no reason to believe that any of the Board nominees will refuse or be unable to serve as a director if elected.

Because this election is uncontested, directors are elected by a majority of the votes cast for or against the nominee at the annual meeting, in person or represented by proxy. Votes may be cast for or against each nominee, or a shareholder may abstain from voting for one or more nominees. Pursuant to applicable Delaware law and our by-laws, abstentions and broker non-votes will have no effect on the outcome of the vote.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE

FOR ELECTION OF THE ABOVE NOMINEES AS DIRECTORS.

CORPORATE GOVERNANCE

Independence of Directors

The Board of Directors has determined that twelve of the thirteen members of the Board are independent under the Nasdaq director independence standards. Under these standards, a director is not independent if he or she has certain specified relationships with the Company or any other relationship that, in the opinion of the Board, would interfere with the exercise of independent judgment as a director. Mr. Buran is not independent because he is an executive officer of the Company. In evaluating the independence of the remaining directors, the Board considered the payments described below under the heading Corporate Governance Transactions with Related Persons, Promoters and Certain Control Persons and determined that they did not impair independence.

Meetings and Committees of the Board of Directors

The Board of Directors meets on a monthly basis and may have additional special meetings upon the request of the Chairman of the Board, the President or a majority of directors in office at the time. During 2015, the Board of Directors held 12 regular meetings and three special meetings. No director attended less than 75% of the meetings of the Board of Directors and its committees on which they served.

At least quarterly, the independent directors meet in executive session with no members of Company management present.

The Board of Directors has established the following committees:

Compensation Committee. The Compensation Committee of the Board of Directors (the Compensation Committee) is composed of Messrs. Russo (Chairman), Grassi, Gulotta, Han and Roe and Ms. O'Brien, all of whom are independent under Nasdaq independence standards and satisfy the additional Nasdaq independence standards for compensation committee members. The Compensation Committee has primary responsibility for establishing and administering the compensation and benefit programs of the Company for its executive officers and other key personnel, administering awards to members of the Board of Directors who are not employees of the Company or the Bank (Outside Directors) under the 2005 and 2014 Omnibus Incentive Plans and granting, subject to concurrent approval by the Board of Directors, awards to employees under the 2014 Omnibus Incentive Plan. The Compensation Committee has the authority to retain or obtain advice from compensation consultants, legal counsel and other experts. The charter of the Compensation Committee is not available on the Company's website, but is attached as Appendix B to the Company's proxy statement for its 2014 annual meeting of stockholders. The Compensation Committee meets on an as needed basis. During 2015, the Compensation Committee met four times. The Report of the Compensation Committee is included on page 32.

Audit Committee. The Audit Committee of the Board of Directors (the Audit Committee) is composed of Messrs. Grassi (Chairman), DelliBovi, Gulotta, Hegarty, Roe, and Russo and Ms. Yoh, all of whom are independent under Nasdaq independence standards and satisfy the SEC independence requirements for audit committee members. The Audit Committee meets at least quarterly to assist the Board of Directors in meeting its oversight responsibilities. The Audit Committee has sole authority to appoint and replace the Company's independent registered public accounting firm and is directly responsible for the compensation and oversight of the work of that firm. The Audit Committee reviews the results of regulatory examinations, the financial reporting process, the systems and processes of internal control and compliance, and the audit process of the Company's independent registered public accounting firm. The Audit Committee has the authority to engage independent counsel and other advisers. The charter of the Audit Committee is not available on the Company's website, but is attached as Appendix A to Company's proxy statement for its 2015 annual meeting of stockholders. During 2015, the Audit Committee met seven times. The Report of the Audit Committee is included on page 45.

Nominating and Governance Committee. The Nominating and Governance Committee of the Board of Directors (the Nominating and Governance Committee) is composed of Messrs. Grassi (Chairman), Bennett, McCabe, Roe, and Russo, all of whom are independent under Nasdaq independence standards. The Nominating

Table of Contents

and Governance Committee has primary responsibility for recommending to the Board of Directors the slate of director nominees to be proposed by the Board for election by the stockholders (as well as any director nominees to be elected by the Board to fill interim vacancies). The Nominating and Governance Committee also recommends the directors to be selected for membership on the various Board committees and the chairs of those committees. The Nominating and Governance Committee is responsible for developing and recommending to the Board appropriate corporate governance policies and procedures and for approving proposed related party transactions involving directors or executive officers and the Company. The Nominating and Governance Committee has the authority to engage consultants, legal counsel and search firms to assist it in fulfilling its responsibilities. The charter of the Nominating and Governance Committee is publicly available on the Company's website at <http://www.flushingbank.com> by following the links to investor relations and then corporate governance, and then Nominating and Governance Committee Charter. During 2015, the Nominating and Governance Committee met three times.

Other Committees. In addition to the committees described above, the Board of Directors has established an Executive Committee, an Insurance Committee, an Investment Committee, and a Risk and Compliance Committee.

Bank Board and Committees. The business of the Bank is conducted at regular and special meetings of the Bank's Board of Directors (the Bank Board) and its committees. The Bank Board and the Board of Directors are identically constituted. During 2015, the Bank Board held 12 regular meetings. The Bank Board maintains an Executive Committee, an Insurance Committee, an Investment Committee, a Compensation Committee, a Nominating and Governance Committee, a Risk and Compliance Committee, and an Audit Committee. The membership of these committees is the same as that of the comparable committees of the Company's Board of Directors. These committees serve substantially the same functions at the Bank level as those at the Company level. The Bank Board also maintains a Loan Committee. No director attended less than 75% of the meetings of the Bank Board and its committees on which they served. Directors of the Bank are nominated by the Bank Board nominating and governance committee and elected by the Company as sole stockholder of the Bank.

Election of Directors by Majority Voting Standard

In 2013, the Board of Directors amended the Company's by-laws to adopt a majority voting standard for all uncontested director elections (defined as elections in which the number of nominees does not exceed the number of open director positions). The by-laws provide that in uncontested elections, director nominees must be elected by a majority of the votes cast at the annual meeting of shareholders. Incumbent directors who fail to receive a majority of votes and who under Delaware law would otherwise remain in office until a successor is elected are required to, within 10 business days of certification of election results, submit to the Board of Directors a letter of resignation for consideration by the Nominating and Governance Committee, which is required to act promptly. The Board of Directors, with the recommendation of the Nominating and Governance Committee, will determine whether to accept or reject such resignation, or what other action should be taken, in accordance with the Company's by-laws. Plurality voting will continue to apply if the number of nominees exceeds the number of open director positions. The Board of Directors' decision to adopt a majority voting standard for the election of directors in uncontested elections demonstrates the Company's continued commitment to best practices in corporate governance and the best interests of its stockholders.

Director Nominations

In evaluating director candidates for purposes of recommending director candidates to the Board, the Nominating and Governance Committee will consider the following factors: the candidate's moral character and personal integrity; whether the candidate has expertise and experience relevant to the Company's business (including knowledge of the communities and markets served by the Bank); whether the candidate's expertise and experience complements the expertise and experience of the other directors; whether the candidate would be considered independent under the Nasdaq independence standards; whether the candidate would be independent

Table of Contents

of any particular constituency and able to represent the interests of all stockholders of the Company; the congeniality of the candidate with the other directors; whether the candidate would have sufficient time available to devote to Board activities; and any other factors deemed relevant by the Nominating and Governance Committee.

The Nominating and Governance Committee may establish additional criteria and is responsible for assessing the appropriate balance of criteria required of Board members. Although we do not have a written policy with respect to Board diversity, the Nominating and Governance Committee and the Board believe that a diverse board leads to improved Company performance by encouraging new ideas, expanding the knowledge base available to management and fostering a boardroom culture that promotes innovation and vigorous deliberation. Consequently, when evaluating potential nominees, the Nominating and Governance Committee considers individual characteristics that may bring diversity to the Board, including gender, race, national origin, age, professional background, unique skill sets and areas of expertise.

The Nominating and Governance Committee will consider director candidates recommended by stockholders of the Company as described below. Stockholders owning at least 1% of the Company's outstanding common stock may recommend an individual for consideration by submitting to the Nominating and Governance Committee the name of the individual; his or her background (including education and employment history); a statement of the particular skills and expertise that the candidate would bring to the Board; the name, address and number of shares of the Company owned by the stockholder submitting the recommendation; any relationship or interest between such stockholder and the proposed candidate; and any additional information that would be required under applicable SEC rules to be included in the Company's proxy statement if such proposed candidate were to be nominated as a director.

Such submissions should be addressed to Flushing Financial Corporation Nominating and Governance Committee, at the Company's executive offices. In order for a candidate to be considered by the committee for any annual meeting, the submission must be received by the committee no later than the November 1 preceding such annual meeting.

The Nominating and Governance Committee will evaluate the biographical information and background material relating to each potential candidate and may seek additional information from the submitting stockholder, the potential candidate, and/or other sources. The committee may hold interviews with selected candidates. Individuals recommended by stockholders will be considered under the same factors as individuals recommended by other sources.

Board Leadership Structure

Since its formation in 1994, the Company has separated the roles of Chairman of the Board and Chief Executive Officer. We believe it is the Chief Executive Officer's responsibility to run the Company and the Chairman's responsibility to run the Board. As directors continue to have more oversight responsibilities than ever before, we believe it is beneficial to have an independent Chairman whose sole job is leading the Board. The Board expects that the time that Mr. Buran will be required to devote to the CEO position will continue to be significant and demanding. By having another director serve as Chairman of the Board, Mr. Buran will be able to focus his entire energy on running the Company.

Risk Management

The Board has an active role, as a whole and also at the committee level, in overseeing management of the Company's risks. The Board regularly reviews information regarding the Company's credit, liquidity and operations, as well as the risks associated with each. The Company's Chief Risk Officer provides monthly updates to the Board with regard to the Bank's Enterprise Risk Management. The Company's Management Risk and Compliance Committee meets quarterly to oversee the mitigation of risks to the Company's strategic plan and to oversee the Company's compliance with consumer regulations. The Company's Compensation Committee is responsible for overseeing the management of risks relating to the Company's executive and employee

compensation plans and arrangements. The Audit Committee oversees the results of the independent registered public accounting firm's annual attestation of the Company's financial statements and the Company's internal audit department's control testing. The Nominating and Governance Committee manages risks associated with the independence of the Board of Directors and potential conflicts of interest. The Bank Board's Loan Committee oversees general risks related to the Company's lending policies. The Investment Committee oversees risk related to the Company's investment policy, liquidity policy, and interest rate risk management policy. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board of Directors is regularly informed through committee reports about such risks. The Board is confident, as outlined above, that the proper independent oversight is in place to properly mitigate the Company's risks.

Transactions with Related Persons, Promoters and Certain Control Persons

Transactions between related persons (including directors and executive officers of the Company and the Bank and their immediate family members) and the Company, the Bank or their affiliates are subject to approval by the Nominating and Governance Committee, as set forth in its charter. Officers and directors are regularly reminded of their obligation to seek Nominating and Governance Committee approval of any related party transaction or potential conflict of interest. The Nominating and Governance Committee considers all factors that it deems relevant, including the nature of the related party's interest in the transaction, whether the terms are no less favorable than could be obtained in arms-length dealings with unrelated third parties and the materiality of the transaction to the Company.

Under the Bank's lending policies, mortgage loans are not made to directors and executive officers. Since January 1, 2015, there was one loan outstanding to an immediate family member of a director. The largest amount outstanding on this loan since January 1, 2015 was \$355,100 and the amount of interest paid in 2015 was \$15,133. This loan was made in the ordinary course of business, was fully approved in accordance with all of the Bank's credit underwriting standards, and was made at a market rate of interest and other normal terms but with a reduced origination fee. The Bank believes that this loan did not involve more than the normal risk of collectability or present other unfavorable features.

Stockholder Communications with the Board of Directors

The Board of Directors has adopted the following policy by which stockholders may communicate with the Board or with individual directors or Board committees. The communication should be in writing, addressed to the Board or applicable committee or directors, c/o Corporate Secretary, Flushing Financial Corporation, at the Company's executive offices. The Corporate Secretary will review all such correspondence received and will periodically, at least quarterly, forward to the applicable directors a summary of all such correspondence together with copies of correspondence that the Corporate Secretary believes should be seen in its entirety. Correspondence or summaries will be forwarded to the applicable directors on an expedited basis where the Corporate Secretary deems it appropriate. Communications raising concerns related to the Company's accounting, internal controls, or auditing matters will be immediately brought to the attention of the Company's Chief Audit Officer and the Chairman of the Audit Committee and will be handled in accordance with the procedures established by the Audit Committee with respect to such matters.

Directors may at any time review a log of correspondence received by the Company that is addressed to the director (or to the full Board or a Board committee on which he or she serves) and may request copies of any such correspondence.

The Company believes that it is important for directors to directly hear concerns expressed by stockholders. Accordingly, it is the Company's policy that Board members are expected to attend the annual meeting of stockholders absent a compelling commitment that prevents such attendance. All of the members of the Board of Directors at the time of the 2015 annual meeting attended such meeting with the exception of two directors.

Code of Business Conduct and Ethics

The Company has adopted a Code of Business Conduct and Ethics that applies to all of its directors, officers and employees. This code is publicly available on the Company's website at <http://www.flushingbank.com> by following the links to investor relations and then governance documents, and then Code of Business Conduct and Ethics. Any substantive amendments to the code and any grant of a waiver from a provision of the code requiring disclosure under applicable SEC or Nasdaq rules will be disclosed in a report on Form 8-K.

Compensation Committee Interlocks and Insider Participation

During 2015, the Compensation Committee consisted of Messrs. Russo (Chairman), Grassi, Gulotta, Han, and Roe and Ms. O'Brien. None of the members of the Compensation Committee is a former officer of the Company or the Bank.

Under the Bank's lending policies, residential mortgage loans to immediate family members of directors are made at market rates of interest and other normal terms but with reduced origination fees. Since January 1, 2015, there was one such loan outstanding to an immediate family member of a director. The largest amount outstanding on this loan since January 1, 2015 was \$355,100 and the amount of interest paid in 2015 was \$15,133. This loan was made in the ordinary course of business and was fully approved in accordance with all of the Bank's credit underwriting standards. This loan is the same loan described under the heading "Corporate Governance Transactions with Related Persons, Promoters and Certain Control Persons." The Bank believes this loan did not involve more than the normal risk of collectibility or present other unfavorable features.

Role of Executive Officers in Compensation Decisions

The Chairman of the Board of Directors and the Chief Executive Officer annually review the performance of each named executive officer (other than the Chief Executive Officer whose performance is reviewed by the Compensation Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Compensation Committee. The Compensation Committee can exercise its discretion in modifying any recommended adjustments or awards to executive officers. Our Chief Executive Officer makes recommendations to the Compensation Committee with respect to compensation for other executive officers, including the structure and terms of these executives' annual cash incentives and long-term equity incentives. Our Chief Executive Officer considers factors such as tenure, individual performance, responsibilities and experience levels of the executives, as well as the compensation of the executives relative to one another, when making recommendations regarding appropriate total compensation of our executives. Certain executives assist the Chief Executive Officer in structuring his proposals regarding the design of the annual cash incentives and long-term equity incentives; however, executives do not play any role in setting their own compensation. Our Chief Executive Officer either discusses his recommendations with the Chairman of the Compensation Committee or has management present them at Compensation Committee meetings. The compensation and benefits personnel within our human resources department supports the Compensation Committee in the performance of its responsibilities. During fiscal year 2015, our Chief Financial Officer and Executive Vice President of Human Resources regularly attended the Compensation Committee meetings to provide perspectives on the competitive landscape, the needs of the business and information about our financial performance. The Compensation Committee periodically meets in executive session without management to deliberate on executive compensation matters. The Compensation Committee considers, but is not bound to and does not always accept, the Chief Executive Officer's recommendations regarding executive compensation. The Compensation Committee reviews all recommendations in light of our compensation philosophy and generally seeks input from the Committee's compensation consultant prior to making any final decisions.

Determining Executive Compensation and the Role of the Consultant

The Company's executive compensation program is intended to link management's pay with the Company's annual and long-term performance. The Compensation Committee believes it is important to attract and retain

highly qualified executive officers by providing compensation opportunities that are both competitive with the market for executive talent and consistent with the Company's performance. Since 2003, the Compensation Committee has retained Pearl Meyer & Partners (the Consultant or Pearl Meyer), an independent nationally recognized compensation consulting firm, to advise the Compensation Committee with respect to compensation of the Company's executive officers. The Consultant is retained by the Compensation Committee and reports directly to the Compensation Committee. The Consultant was instrumental in the development of the pay for performance philosophy of the Company and the development of the shareholder approved 2005 and 2014 Omnibus Incentive Plans. In 2015, as in prior years, the Compensation Committee engaged the Consultant. The Consultant discussed with the Compensation Committee the philosophy for determining the 2015 compensation and discussed trends in the executive compensation arena to be considered. For a discussion of the elements involved in the Compensation Committee's decisions regarding executive compensation, see Executive Compensation Compensation Discussion and Analysis.

DIRECTOR COMPENSATION

The Company uses a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on the Board of Directors.

Cash Compensation

For the fiscal year ended December 31, 2015, members of the Board of Directors who are not employees of the Company or the Bank (Outside Directors) were entitled to receive an annual retainer of \$37,500 from the Bank with no additional retainer from the Company. In addition in 2015, the Chairman of the Board received a fee of \$75,000 for services to the Company and the Bank in those capacities. The Chairman of the Audit Committee received an additional annual retainer of \$15,000, the Chairman of the Compensation Committee received an additional annual retainer of \$10,000, and the Chairman of the Nominating and Governance Committee received an additional annual retainer of \$7,500. Outside Directors also received meeting fees of \$1,500 for each Board or Bank Board meeting attended, \$1,300 for each Audit Committee meeting attended, and \$1,000 for each other committee meeting attended, whether or not they are members of such committee. However, where the Board of Directors and the Bank Board meet on the same day, directors receive only a single Board meeting fee for such meetings. Similarly, directors receive only a single committee meeting fee where identically constituted committees of the Board of Directors and Bank Board meet on the same day.

Outside Directors who are members of the Loan Committee also receive a fee from the Bank for conducting on-site inspections of proposed real estate collateral for certain loans in excess of \$3,500,000 and receive a fee of \$1,000 for each property inspected.

Equity Compensation

Pursuant to the Company's 2014 Omnibus Incentive Plan, under which equity awards granted on or after May 20, 2014 were made, each Outside Director receives an annual award of 4,800 restricted stock units (RSUs), or shares of restricted stock if so determined by the Compensation Committee, as of January 30 of each year. Upon initial election or appointment to the Board of Directors or a change to Outside Director status, an Outside Director receives a prorated portion of the annual award consisting of 400 shares of restricted stock (or RSUs if so determined by the Compensation Committee) for each full or partial month from the date of such person's election or appointment or change in status to the following January 30.

Each award to an Outside Director vests with respect to one-third of the underlying shares on the January 30 following the date of grant, and an additional one-third of the underlying shares on each of the two subsequent January 30, provided the award holder is a director of the Company on each such date. In the event the Outside Director ceases to be a director of the Company before an award has fully vested, the unvested portion of the award is forfeited. Awards to Outside Directors become fully vested in advance of such schedule upon a change of control of the Company or the Bank (if the director is a member of the Board of Directors at such time) or upon termination of the director's service on the Board of Directors due to death, disability or retirement. For this purpose, retirement means a director's termination of service after five years of service as an Outside Director if the director's age plus years of service as an Outside Director equals or exceeds 55.

Unless the Compensation Committee provides otherwise, dividends or dividend equivalents on these awards are paid on a current basis, and the awards are settled in stock, generally at the time they vest. An RSU award entitles the award holder to receive one share of common stock (or the fair market value of a share in cash or other property) at a specified future time.

The 2014 Omnibus Incentive Plan provides for the automatic grant of the same types and amounts of director equity awards as under the 2005 Omnibus Incentive Plan, as amended in 2011, under which equity awards granted prior to May 20, 2014 were made, but authorizes the Compensation Committee to modify the amount of the awards and/or provisions of such awards.

Director Stock Ownership Guidelines

In November 2015, the Compensation Committee formally established Director Stock Ownership Guidelines for Outside Directors as a way to more closely align the interests of Outside Directors with those of the Company's shareholders. These guidelines provide a direct link between Outside Director rewards and Company results and encourage Outside Directors to consider Company performance from a long-term as well as short-term perspective.

These stock ownership guidelines require Outside Directors to hold at least 5,000 shares of the Company's common stock after the greater of five full years of board service or five years from the implementation of these guidelines. Compliance with these guidelines is mandatory for all Outside Directors of the Company.

Director Retirement Plan

The Bank has an unfunded noncontributory defined benefit Outside Director Retirement Plan, which provides benefits to each Outside Director who became an Outside Director before January 1, 2004 who has at least five years of service as an Outside Director and whose years of service as an Outside Director plus age equals or exceeds 55. Benefits are also payable to an Outside Director who became an Outside Director before January 1, 2004 and whose status as an Outside Director terminates due to death or disability or who is an Outside Director upon a change of control of the Company or the Bank. Any person who became an Outside Director after January 1, 2004 is not eligible to participate in the Outside Director Retirement Plan. Upon termination, an eligible director will be paid an annual retirement benefit equal to \$48,000. Such benefit will be paid in equal monthly installments for the lesser of the number of months such director served as an Outside Director or 120 months.

In the event of a change of control, benefits under the plan will be paid in a cash lump sum; each eligible director will receive the equivalent of 120 months of benefits. In the event of an Outside Director's death, the surviving spouse will receive the equivalent benefit. No benefit will be paid to an Outside Director who is removed for cause. The Company has guaranteed the payment of benefits under the Outside Director Retirement Plan. A director's right to receive benefits under the plan is no greater than the right of an unsecured general creditor of the Bank or the Company.

Deferred Compensation Program for Outside Directors

The Bank has adopted an Outside Director Deferred Compensation Plan pursuant to which Outside Directors may elect to defer all or a portion of their annual retainer, meeting fees, and inspection fees. Deferred amounts are credited with earnings based on certain mutual fund investments. The deferred amounts plus earnings thereon will be paid to the director in cash after the director's termination of service, either in a lump sum or, if the director so elects, in annual installments over a period not to exceed five years. The Company has guaranteed the payment of benefits under the Outside Director Deferred Compensation Plan. A director's right to receive benefits under the plan is no greater than the right of an unsecured general creditor of the Bank or the Company. As of December 31, 2015, there were no participants in this plan.

Indemnity Agreements

The Company and the Bank have entered into an indemnity agreement with each of the directors which agreements provide for mandatory indemnification of each director to the full extent permitted by law for any claim arising out of such person's service to the Company or the Bank. The agreements provide for advancement of expenses and specify procedures for determining entitlement to indemnification.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary

The Company continues its commitment to align executive compensation to the Company's performance. Our compensation strategy has been developed to drive the Company's success while improving shareholder value. The Company accomplishes this by 1) linking our executive officers' compensation to the Company's performance; 2) encouraging long term equity ownership in an effort to align shareholder interests with those of the Company's executives; 3) attracting and retaining executive talent; and 4) managing risk through sound incentive compensation programs. Accordingly, the Company awarded executive compensation based on the following key financial and performance measures.

Elements of 2015 Performance

Our institution's strong capital, our ability to continue to grow core deposits, and our traditionally strong credit discipline enabled us to perform well in 2015. Our solid performance in 2015 is reflected by the following:

Performance Area

Highlights

Shareholder Returns

Our total shareholder return for 2015 was 10.21% as compared to the bank industry average of 1.71% (as reported by SNL Financial in their U.S. Bank Index).

& Value Creation

Our Company paid dividends of \$0.64 per common share in 2015 resulting in an annual dividend yield of 2.96% for 2015. Our Company declared a quarterly dividend increase of \$0.01 per common share to \$0.17 per common share on February 23, 2016, which was a 6% increase from the fourth quarter of 2015.

Our return on average equity for 2015 was 9.93% as compared to the bank industry average of 8.42% (as reported by SNL Financial in their U.S. Bank Index as of February 16, 2016).

Profitable Growth

Total assets as of December 31, 2015 grew to \$5.7 billion, an increase of \$627.6 million, or 12.4%, during 2015 as a result of the growth of our loan portfolio.

Loan originations and purchases were a record \$1,233.5 million for the year ended December 31, 2015, an increase of \$275.3 million from \$958.2 million for the year ended December 31, 2014.

Stability

The benefit for loan losses decreased by \$5.0 million during the twelve months ended December 31, 2015 to a benefit of \$1.0 million from a benefit of \$6.0 million during the comparable prior year period. Connecting Pay to Performance

We believe in targeting compensation that is commensurate to performance. Our approach has been to target total direct compensation at the market 75th percentile when the Company performs at or above the market 75th percentile. To ensure that our programs are reflective of our pay for performance philosophy, the Compensation Committee annually reviews an analysis of our pay for performance alignment provided by Pearl Meyer, their independent compensation consultant. In 2015, Pearl Meyer conducted a pay for performance analysis covering the last three completed fiscal years compared to our peer banks. The Company performed within the upper quartile for total shareholder return and our total direct compensation was on balance within the upper quartile of our peers, which indicated good alignment of pay and performance. As in prior years, these findings reinforce our belief that the Compensation Committee's previous decisions regarding executive pay supported our pay and performance philosophy.

2015 Compensation Actions

The Committee took the following pay actions with regard to 2015 total direct compensation:

Base salary the Committee approved merit-based salary increases which averaged approximately 3%;

Short term incentive the Committee approved and paid formula-based annual incentive awards based on achievement of goals with respect to core operating earnings per diluted common share and core operating return on average equity. The short-term incentive award was funded at 102% of target; and

Long term equity incentive the Committee granted restricted stock units which vest over a five year period to better align executive officer equity compensation with shareholder interests. Further, 50% of the after-tax shares attributable to these awards are subject to the Executive Stock Ownership Guidelines outlined below.

Impact of Advisory Say-On-Pay Vote

Our Board of Directors, our Compensation Committee, and our management value the opinions of our shareholders. At our 2015 Annual Meeting, approximately 92% of the votes cast on the say-on-pay proposal were in favor of our named executive officers' compensation. The Compensation Committee reviewed our say on pay results and determined that the level of support indicated overall satisfaction with our program. The Compensation Committee will continue to consider the outcome of the Company's say-on-pay votes when making future compensation decisions for the named executive officers.

Shareholder Outreach

We value the opinions of our shareholders and look forward to a continued, open dialogue on compensation matters and other issues relevant to our business. We want our shareholders to fully understand our rationale for providing and not altering the compensation packages to our named executive officers that we currently offer and we want to understand the views of our shareholders on those programs. Although almost all of our current programs are continuations or versions of arrangements that were put in place many years ago and under different circumstances, we wish to maintain our dynamism in this area and seek to coordinate best practice with the best performance for shareholders. The historical aspects of our compensation programs are more fully discussed and explained below and elsewhere in our Compensation Discussion and Analysis.

In order to foster our dialogue with shareholders and more specifically to respond to say-on-pay voting, we formalized our annual shareholder interaction into an organized and comprehensive shareholder outreach program initiated under the auspices of our Compensation Committee. The outreach program during 2015 was led by our Executive Vice President and Director of Human Resources. In addition, the outreach program was advised by our independent compensation consulting firm and our counsel. The agenda of the outreach program centered on executive compensation matters, but touched on other governance and related matters as well. While we devoted much time and effort in 2015 to communicating information regarding our executive compensation policies and practices, we also were keenly interested in feedback from our investors as to how we might

Table of Contents

improve those practices and policies from the perspective of our shareholders. We generally seek a collaborative and mutually beneficial approach to many issues of importance to investors that affect our business, and also to ensure that our corporate governance practices remain appropriate. This approach is especially important in the context of executive compensation matters. In our shareholder outreach during 2015, we directly telephoned and/or engaged in discussions with approximately 25 of our largest institutional investors representing a majority of our total outstanding shares. Where investors were not readily available, we followed up where appropriate to maximize our connectivity. Many, but not all, of our investors expressed interest in our outreach efforts. While a number of shareholders took time to review our compensation program and provide valuable feedback, many advised us that the enormous number of their investments and/or the nature of their business models make direct engagement with us and other companies impracticable or impossible. Investors who described themselves as hedge fund, short term or purely quantitative investors noted that their operations preclude a focus on voting, executive compensation, governance considerations and similar matters. Thus, we were not able to generate any interest in or feedback from these investors. Further, some other investors did not accept our numerous requests for engagement, presumably due to the volume and time-consumption of such requests or as a signal they were generally supportive of our current approach. Consequently, while we believe our outreach program was extremely successful in 2015, a segment of our shareholder community does not engage on these matters. We came to understand that many of those shareholders outsource, based on policy, practicalities or both, their voting decision-making on say-on-pay and other matters to proxy advisory firms.

Table of Contents

The results of our outreach program were extremely informative to us. Almost all of the feedback was positive. Shareholders generally indicated a fully informed understanding of our executive compensation programs. This understanding was facilitated by discussions as well as supplemental information we provided. Those discussions and information were introduced with the following summary of certain of our compensation policies:

COMPENSATION PRACTICE

FLUSHING POLICY

Pay for Performance	YES	A meaningful portion of total direct compensation is performance-based. We have aligned executive compensation with performance compared to our peers with our superior performance in key metrics. We paid formula-based annual incentive awards based on achievement of goals with respect to core operating earnings per diluted common share and core operating return on average equity.
Robust stock ownership guidelines	YES	Stock ownership guidelines apply to all long-term equity awards made to executive officers. The President/CEO and senior executives are required to retain 50% of their net shares acquired upon stock option exercises or vesting of full-value awards. Shares subject to the ownership guidelines must be retained while the executive is employed by the Company until age 61, when the executive may dispose annually only 20% of the aggregate number of such shares then held.
Annual Shareholder Say on Pay	YES	We value our shareholders' input on our executive compensation programs. Our Board of Directors seeks an annual vote from shareholders to approve the executive compensation disclosed in our CD&A and other disclosure in our proxy statement.
Annual compensation risk assessment	YES	A risk assessment of our compensation programs is performed on an annual basis.
Independent compensation consultant	YES	The Compensation Committee retains an independent compensation consultant to advise it on the executive compensation program and practices.
Hedging of company stock	NO	Executive officers and members of the Board of Directors may not directly or indirectly engage in transactions intended to hedge or offset the market value of Flushing common stock owned by them.
Pledging of company stock	NO	Executive officers and members of the Board of Directors may not directly or indirectly pledge Flushing common stock as collateral for any obligation.
Re-pricing or exchange of underwater stock options	NO	Our equity incentive plan does not permit re-pricing or exchange of underwater stock options without shareholder approval.

Our Executive Compensation Philosophy and Objectives

The Compensation Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals of the Company in a risk appropriate fashion, and which aligns executives' interests with those of the stockholders by rewarding performance at or above established goals, with the ultimate objective of improving stockholder value. The Compensation Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of its peer companies.

The Company's executive compensation program includes both short-term cash compensation and long-term equity compensation, with an emphasis on short-term cash compensation that is tied to the Company's

Table of Contents

financial performance. The Compensation Committee believes that such allocation is needed to attract and retain executive officers in the competitive New York City Metropolitan market.

Role of Compensation Consultant

The Compensation Committee has the sole authority to retain, terminate, obtain advice from, oversee and compensate its outside advisors, including its compensation consultant. The Compensation Committee has the funding it needs for these purposes.

Since 2003, the Compensation Committee has retained Pearl Meyer as its independent executive compensation consultant. None of the Company's management team participated in the Compensation Committee's decision to retain Pearl Meyer. Pearl Meyer reports directly to the Compensation Committee and the Compensation Committee may replace Pearl Meyer or hire additional consultants at any time. Pearl Meyer attends meetings of the Compensation Committee, as requested, and communicates with the Chairman of the Compensation Committee between meetings. However, the Compensation Committee makes all decisions regarding the compensation of the Company's executive officers.

Pearl Meyer provides various executive compensation services to the Compensation Committee with respect to the Company's executive officers and other key employees at the Compensation Committee's request. The services Pearl Meyer provides include advising the Compensation Committee on the principal aspects of the executive compensation program and evolving best practices, and providing market information and analysis regarding the competitiveness of our program design and awards in relationship to our performance.

The Compensation Committee regularly reviews the services provided by its outside consultants and believes that Pearl Meyer is independent in providing executive compensation consulting services. The Compensation Committee conducted a specific review of its relationship with Pearl Meyer in 2015, and determined that Pearl Meyer's work for the Compensation Committee did not raise any conflicts of interest taking into account the independence factors identified by the SEC and NASDAQ. In making this determination, the Compensation Committee noted that during 2015:

Pearl Meyer solely provided services to the Compensation Committee and did not provide any additional services to the Company;

Fees from the Company were less than 1% of Pearl Meyer's total revenue for FY 2015;

Pearl Meyer maintains a Conflicts Policy which details specific policies and procedures designed to ensure independence;

None of the Pearl Meyer consultants who provided advice to the Compensation Committee had any business or personal relationship with Compensation Committee members;

None of the Pearl Meyer consultants who provided advice to the Compensation Committee had any business or personal relationship with executive officers of the Company; and

None of the Pearl Meyer consultants who provided advice to the Compensation Committee directly own Company stock. The Compensation Committee continues to monitor the independence of its compensation consultant on a periodic basis.

Pearl Meyer was instrumental in the development of the pay for performance philosophy of the Company and the development of the shareholder approved 2014 Omnibus Incentive Plan (the Omnibus Plan). In 2015 as in prior years, Pearl Meyer prepared an executive compensation analysis with regard to the named executive officers. This analysis included a review of the competitiveness of compensation levels, a pay for performance analysis, and a retention analysis. Pearl Meyer utilized a group of publicly-traded financial institutions (collectively the Peer Group), disclosed below, and published industry survey sources, including the American Bankers Association (ABA) 2015 Compensation and Benefits survey and the Pearl Meyer and Partners 2015 Banking Compensation Survey Report (Northeast), in its analysis.

Table of Contents**Use of Peer Group**

The Peer Group analysis is typically performed and reviewed annually. In order to capture an appropriate view of the Company's competitors, Pearl Meyer utilized the following Peer Group, consisting of 19 banks which are close to the Company's size (generally, no more than twice as large and no less than half the size of the Company in terms of assets) and which are located in major urban/suburban areas of the Northeast United States. The Compensation Committee's goal with respect to a peer group is to objectively determine and appropriately reflect compensation practices for similar banks. The Compensation Committee believes the Peer Group represents banks that the Company competes with for talent and for stockholder investment.

There were no year over year changes to the Peer Group primarily due to none of the peer companies having undergone significant changes that would exclude them from the analysis.

In determining the amount of compensation for the named executive officers, the Compensation Committee typically reviews each element of total direct compensation against the Peer Group. Based on the recommendation of Pearl Meyer, the Compensation Committee then considers setting salaries within a range of plus or minus 20 percent of the median salary of the Peer Group based on individual performance. The Compensation Committee continues to focus on maintaining total compensation within our disclosed philosophy by assuring the variable components of compensation have a strong pay-for-performance orientation.

Total direct compensation was targeted to reflect the performance of the Company so that when the Company performs at the 75th percentile against its peers, compensation will be near the 75th percentile of the Peer Group. Our philosophy of determining long-term equity awards has been typically targeted at the 75th percentile, and is determined by the Compensation Committee according to performance as outlined in the Long Term Equity Incentive Compensation section. The Company has generally performed at or above the 75th percentile of the industry based on certain financial and operational performance indicators which included return on average equity and three-year total shareholder return. The Company believes return on average equity and total shareholder return are important financial indicators as they represent the Company's commitment to enhancing shareholder value.

The Compensation Committee considered factors other than amounts paid by the Peer Group and other sources of compensation data when determining compensation amounts, such as the individual executive's level of responsibility, individual performance, the financial and operational performance of the Company, and the Company's performance in relation to internal budgeted amounts and performance of competitors. Indicators of financial and operational performance considered by the Compensation Committee include, among others, total assets, core operating pre-tax income, core operating earnings per diluted common share, core operating return on average equity and book value per share. The achievements of certain strategic goals that are part of the Company's Strategic Plan were also taken into consideration. The Compensation Committee also compared the Company's performance against the performance of the Peer Group with respect to certain other indicators, including such performance measures as total shareholder return, return on average assets, return on average equity, net interest margin, and efficiency ratio.

Table of Contents

Allocation of Executive Compensation

The mix of compensation for our named executive officers is weighted towards base salary and total cash compensation. We believe that this mix of compensation helps balance the incentive for our executives to achieve annual goals but not take undue risk. Base salary compensates executives for foundational leadership and management skills and the degree of accountability inherent in their roles. Annual incentives are meant to focus executives on achieving the strategic and financial goals of the Company during the year. Long-term equity incentives are utilized in order to align the interests of executives with the shareholders of the Company over a longer period of time. Executives are incentivized to create sustained shareholder value. While this encourages some risk taking by executives in order to achieve superior shareholder return, the risk is mitigated by stock ownership guidelines which encourage executives to adopt a long-term horizon.

We feel this is a good balance of compensation that both encourages appropriate risk taking but mitigates the prospect of taking unnecessary risk.

Our 2015 Executive Compensation Components

As in prior years, for the fiscal year ended December 31, 2015, the principal components of compensation for the named executive officers were:

base salary;

performance-based annual incentive compensation;

long-term equity incentive compensation in the form of restricted stock units;

retirement benefits; and

perquisites and other personal benefits.

Base Salary

Base salary is designed to provide competitive levels of guaranteed compensation to executives based upon their experience, duties and scope of responsibility. The Company pays base salaries because it provides a basic level of compensation and is necessary to recruit and retain executives. The Compensation Committee also uses annual base salary adjustments to reflect an individual's performance or changed responsibilities. Base salary levels are also important because they are used to determine the target amount of the performance-based incentive bonuses and the amount of retirement benefits.

As discussed above, in determining the base salary of named executive officers, the Compensation Committee considered a variety of factors including the individual executive's level of responsibility and individual performance and the financial and operational performance of the Company and the Bank relative to internal budgeted amounts and performance of competitors. The benchmarking analysis prepared by Pearl Meyer for 2015 indicated that base salary levels of the Company's named executive officers were generally at or above the median. Base salary increases set by the Compensation Committee for the fiscal year 2015 were intended to position short-term cash compensation levels at or above the median of the Peer Group, adjusted by the results of an assessment of the Company's and the Bank's performance during the year, as well as each individual executive's contribution to such performance.

Performance-Based Annual Incentive

The Company provides senior executives, including the named executive officers, with performance-based annual incentive bonuses as a form of short-term incentive to compensate them for services rendered during the year and drive achievement of performance goals for the year. These bonuses are provided under the Company's Annual Incentive Plan for Executives and Senior Officers (the Incentive Bonus Plan), which is

adopted under the authority of our Omnibus Plan.

Table of Contents

The Incentive Bonus Plan permits the Compensation Committee to select a range within which corporate performance must fall for annual bonuses to be awarded. The range consists of a threshold level or minimum performance level necessary to earn a bonus and below which no bonus is paid; a maximum level, or performance level necessary to earn the maximum bonus and beyond which no additional bonus can be earned; and a target level, or performance level necessary to earn the target bonus.

For all of our named executive officers, except Ms. Kelly, the performance criteria used were solely Company-wide. These criteria consisted of core operating earnings per diluted common share and core operating return on average equity, with each of these factors weighted equally. The Compensation Committee concluded that these criteria, which are the same criteria as used since 2006, continued to be appropriate. They are recognized industry metrics and are appropriate for the Company in particular by combining and equally weighting financial performance incentives based on a traditional operating basis per common share and performance incentives based on the return on equity, which is a well-recognized measure of performance and profitability in the banking industry. For Ms. Kelly, who has departmental responsibility for Business Banking, the bonus was based 70% on the above Company-wide criteria and 30% on departmental criteria, specifically loan advances and increases in core deposit amounts. Target level performance for these factors was set as follows:

Core operating earnings per diluted common share of \$1.46. For this purpose, core operating earnings per diluted common share excludes the after tax effect of any gains or losses from balance sheet or corporate restructurings, net gains or losses for financial assets and financial liabilities carried at fair value, gains on sale of buildings, other-than-temporary impairment charges, net gains or losses on the sale of securities, changes to income tax laws, non-recurring items and merger related charges.

Core operating return on average equity of 9.16%. For this purpose, the items excluded above for determining core operating earnings per diluted common share are also excluded.

With respect to Ms. Kelly, the target operating departmental performance components were set at levels that the Compensation Committee considered would collectively be reasonably difficult for her to achieve based on historical performance of those metrics and the reasonable expectation regarding achievement of those criteria in 2015.

The Company uses core operating results to set Incentive Bonus Plan target performance rather than using accounting principles generally accepted in the United States (GAAP) measures because core operating results exclude onetime gains and losses and other non-recurring items and the Company believes this measure of earnings is an important indication of ongoing operations (as defined in the Reconciliation of GAAP and Core Earnings table provided in Exhibit 99.1 on the Company s current report on Form 8-K filed on January 26, 2016). Additionally, the Company believes this earnings measure is important to management and investors in evaluating its ongoing operating performance.

The target performance levels were consistent with the Company s 2015 Strategic Plan as approved by the Board of Directors. For each performance factor, the threshold performance level was set at 80% of the target level, and the maximum performance level was set at 110% of the target level.

Under the Incentive Bonus Plan for 2015, the target bonus for each executive officer as a percentage of his or her base salary was as follows: for the CEO/President fifty percent (50%); for each Senior Executive Vice President forty percent (40%); for each Executive Vice President thirty-five percent (35%); and for each other participant thirty percent (30%). Failure to achieve at least the threshold level of performance would result in no bonus being paid; achievement of the threshold level of performance would result in a bonus equal to 60% of the target bonus, and performance at or beyond the maximum level of performance would result in a bonus equal to 125% of the target bonus. Performance results within these benchmarks are interpolated for incentive bonus purposes. Target, minimum and maximum bonus amounts for established performance targets were subject to reduction, but not increase, at the discretion of the Compensation Committee.

Table of Contents

The Compensation Committee met in January 2016 to determine the amounts earned under the Incentive Bonus Plan and determined that quantitative Company-wide performance reached the target level on both performance criteria, and that as a result, each of the named executive officers, other than Ms. Kelly, earned a bonus slightly above target levels. The chart below provides the performance level needed for each of the three payout levels, the Company's actual performance, and the resulting achievement in relation to target:

	Threshold	Target	Maximum	Achievement⁽¹⁾	Percentage to Target
Core operating earnings per diluted common share	\$ 1.17	\$ 1.46	\$ 1.61	\$ 1.47	101%
Core operating return on average equity	7.33%	9.16%	10.08%	9.22%	101%

(1) Excludes the impact of a change in New York City tax law which reduced the Company's New York City tax liability.

For Ms. Kelly, who has departmental responsibility for Business Banking, the bonus was based 70% on the above Company-wide criteria and 30% on departmental criteria, specifically loan advances and increases in core deposit amounts. Ms. Kelly was above the threshold level for loan advances and below the threshold level on core deposits and as a result earned an incentive bonus of 82% of target.

The amount of compensation earned by each named executive officer under the Incentive Bonus Plan for 2015 is shown in the Summary Compensation Table on page 33 in the Non-Equity Incentive Plan Compensation column.

Long-Term Equity Incentive Compensation

The Company provides the named executive officers with long-term equity incentive compensation to encourage them to focus on long-term Company performance and to provide an opportunity for them to increase their stake in the Company. Long-term equity incentive compensation awards are structured in accordance with the shareholder-approved Omnibus Plan.

In January 2015, the Compensation Committee granted restricted stock units to each of our named executive officers. In order to align named executive officer equity compensation with shareholder interests and to also limit shareholder dilution, the Compensation Committee believes restricted stock units are the appropriate long-term equity vehicle. The awards were intended to provide incentives that focus our management team on the task of creating long-term shareholder value. The sizes of these awards were determined by a number of factors, including the individual performance of the named executive officers, but with a general target at the 75th percentile of the long-term equity awards of our Peer Group. In determining to award restricted stock units rather than stock options, the Compensation Committee considered the practical and quantitative aspects of its recent Company-wide utilization of shares (burn rate) and the availability of shares for future grant under the Company's Omnibus Plan. The grants are shown in detail in the Grants of Plan Based Awards Table on page 34. The vesting schedule of the grants is the same as the majority of our prior grants. Specifically, the grants vest 20% on each of the first five anniversaries of the grant, which is intended to encourage retention of our executive team and to motivate them to consider Company performance from a long-term as well as a short-term horizon.

Tax-Qualified Retirement Benefits

The Company provides tax-qualified retirement benefits to substantially all of its employees, including the named executive officers, in order to provide a competitive compensation package within the market in which the Company operates.

In 2006, the Company froze its defined benefit Retirement Plan and replaced it with the Defined Contribution Retirement Program (DCRP). Under the DCRP, employees receive an annual Company contribution equal to 4% of their eligible base salary (up to tax law limits).

The Company offers a tax-qualified retirement savings plan pursuant to which all full-time employees are eligible to contribute up to 25% of their annual salary on a pre-tax basis (subject to tax law limits). The Company

Table of Contents

matches 50% of the first 6% of salary contributed by the employee. Additionally, the Company may make a profit sharing contribution in an amount determined by the Company's Board of Directors each year in its discretion. For 2015, the contribution was approximately 5% of eligible compensation (defined generally as base salary and annual bonus, subject to tax law limits).

Supplemental Retirement Benefits

In addition to the tax-qualified retirement benefits discussed above, the Company provides the named executive officers and certain other executives with the opportunity to participate in a supplemental retirement plan, the Supplemental Savings Incentive Plan (SSIP), which offers these individuals the opportunity to receive certain benefits not permitted to be provided under the tax-qualified plans due to tax law limitations. However, the SSIP does not provide credits for DCRP contributions which cannot be made to the tax-qualified plan to the extent base salary exceeds tax law limits.

The SSIP allows participating executives to defer a portion of their compensation in excess of the amount permitted under the tax-qualified plan. The Bank matches 50% of each participant's contributions to the SSIP.

The Company also credits each participant's account in the SSIP with a number of phantom shares of common stock of the Company equal to the number of shares of common stock that would have been contributed to the participant's profit sharing account under the tax-qualified plan but were not due to tax law limits. When dividends are paid on the common stock, dividend equivalents are deemed reinvested in additional phantom shares. These amounts are required to remain invested as phantom shares of Company common stock (whose value is determined by reference to the price of the Company's common stock) until the participant's termination of employment, thereby further aligning our executives' interests with those of our stockholders. The Company wants management-level employees to have a significant investment in Company common stock and believes it is appropriate to have a portion of their supplemental retirement benefits invested in this way.

Pursuant to the terms of his employment agreement, Mr. Buran participated in a supplemental executive retirement plan (the SERP) as discussed in detail under the heading "Potential Payments Upon Termination or Change of Control" on page 39.

Perquisites and Other Personal Benefits

Perquisites and other benefits represent a small part of the Company's overall compensation package, and are offered only after consideration of business need. Perquisites and other personal benefits provided to the named executive officers are reviewed annually. The named executive officers are provided with the use of a company automobile. The use of company automobiles is largely for business purposes. Named executive officers bear the tax cost attributable to their personal usage of the Company automobile. Attributed costs of this perquisite and other personal benefits for the named executive officers for the fiscal year ended December 31, 2015 are not included in the Summary Compensation Table on page 33 since the aggregate incremental cost to the Company due to personal use for each named executive officer was less than \$10,000.

Each named executive officer and certain other officers are offered the opportunity to participate in the Bank Owned Life Insurance (BOLI) provided by the Bank. In the event of a BOLI participant's death while employed by the Bank, his or her beneficiaries are entitled to a death benefit from the policy equal to two times the participant's base salary at the time of death. Upon retirement from the Bank with five years of service, the death benefit coverage under the policy reduces to one time the base salary plus \$50,000. Upon a participant's termination of employment from the Bank, after five years of service but before eligibility for retirement, the death benefit coverage under the policy reduces to one time the base salary. At the time the Bank purchased the insurance policy providing for this coverage, it paid a single premium intended to fully fund the policy. The Summary Compensation Table on page 33 reflects the value of the insurance coverage provided under the policy in accordance with Internal Revenue Service guidelines.

Employment Agreements

The Company has entered into employment agreements with the named executive officers. Information regarding payments to the named executive officers pursuant to such employment agreements upon termination of employment or a change of control is provided under the heading *Potential Payments Upon Termination or Change of Control* on page 39.

Executive Stock Ownership Guidelines

In 2006, the Compensation Committee formally established Executive Stock Ownership Guidelines for executive officers as a way to more closely align the interests of key executives with those of the Company's shareholders. These guidelines provide a direct link between executive rewards and Company results and encourage executives to consider Company performance from a long-term as well as short-term perspective.

These stock ownership guidelines apply to all long-term equity awards made to executive officers on or after June 1, 2006. The amount to be retained depends on the executive's position. The President/CEO, Senior Executive Vice Presidents, and Executive Vice Presidents are required to retain 50% of their profit shares and certain Senior Vice Presidents must retain 25% of their profit shares. Profit shares are defined as net shares acquired upon stock option exercises or vesting of full-value awards following payment of applicable taxes with respect to the award. Shares subject to the ownership guidelines must be retained while the executive is employed by the Company until the executive reaches age 61, after which time the executive may dispose annually of 20% of the aggregate number of profit shares then held. Compliance with these guidelines is mandatory for all executive officers of the Company.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits the deductibility of compensation in excess of \$1 million paid to each of certain executive officers, excluding from this limit performance-based compensation as defined for purposes of that Section. Amounts paid to our named executive officers in 2015 under the Incentive Bonus Plan are intended to qualify as performance-based compensation, and restricted stock unit awards granted in 2015 are not. However, because Section 162(m) contains a number of complex technical requirements, it is possible that compensation intended to qualify as performance-based compensation may not in fact comply.

Risk Assessment of Executive Officer Compensation

In 2015, we continued to enhance our risk assessment processes to comply with the United States Department of the Treasury's requirement that all incentive plans be reviewed to ensure they do not motivate unnecessary or excessive risk that threatens the value of the Company. The Company is regulated by the Federal Reserve and the Bank, which is a New York State chartered commercial bank, is regulated by the New York Department of Financial Services and the Federal Deposit Insurance Corporation. We have always adhered to a conservative and balanced approach to risk. Our management and Board conduct regular reviews of our business in an effort to ensure we remain within appropriate regulatory guidelines and appropriate practice. We believe that our compensation programs reflect a balanced approach to rewarding performance across many different types of financial, customer, and employee performance measures.

Risk Assessment of Senior Executive Officer Plans

The Compensation Committee has reviewed the Company's compensation programs for senior executive officers with the Company's Chief Risk Officer. The Company's Incentive Bonus Plan, which provides annual performance-based incentive compensation to our named executive officers and other senior officers, contains a number of features that discourage our executives from taking unnecessary and excessive risk, including the following:

Performance targets are determined by the Compensation Committee and the Board based on the Company's Strategic Plan as approved by the Board.

Table of Contents

The performance measures applicable for the Chief Executive Officer and Senior Executive Vice Presidents are 100% based on Company-wide performance, and the measures applicable for the other participants, including the Executive Vice Presidents, are at least 70% based on Company-wide performance, thereby encouraging the entire management team to make decisions focused on the best long-term interests of the Company as a whole rather than on particular business lines.

There is a limit on the amount which can be paid to any executive under the plan, regardless of the amount by which performance exceeds target levels.

The Compensation Committee and the Board have discretion to reduce the amount of annual incentive payable below the amount otherwise earned under the plan formula, if it believes that the formulaic payout is not warranted that year, and in the past have exercised such discretion.

While the annual Incentive Bonus Plan rewards achievement of short-term goals, the Company has several programs which encourage long-term value creation. Equity awards under the Company's Omnibus Plan are granted by the Compensation Committee subject to Board approval. In recent years the grants to senior executives have provided for vesting in equal installments over a five-year period from the date of grant. Moreover, the Company's Executive Stock Ownership Guidelines require executive officers to hold a specified percentage of the shares acquired as equity awards throughout the period of their employment. In addition, the Company's Supplemental Savings Incentive Plan provides that amounts that cannot be credited as tax-qualified profit sharing contributions be credited in the form of phantom shares of Company common stock and be held in such form until termination of employment.

We believe that our approach to goal setting, setting of targets with payouts at multiple levels of performance, evaluation of performance results, and negative discretion in the payout of incentives helps to mitigate excessive risk-taking that could harm our value or reward poor judgment by our executives. Features of our programs reflect sound risk management practices. We believe that we have allocated our compensation among base salary and short and long term incentive compensation in such a way as to not encourage excessive risk-taking. Moreover, the multi-year vesting of our equity awards and our share ownership guidelines enhance risk management over time.

In addition, both the senior executive officer plans and the employee compensation plans are subject to controls which mitigate the risks inherent in these plans. These controls include our risk review with the Company's Chief Risk Officer, accounting processes, internal and external audit functions, and processes surrounding internal control over financial reporting and disclosure controls.

Policy Prohibiting Hedging

Our Company has an Insider Trading Policy that prohibits directors, officers, and all other employees from trading in any interest, security, or position relating to the future price of Company securities, such as a put, call, short sale, hedge, or any other type of derivative security.

- (1) Amounts shown are not reduced to reflect the named executive officers' elections, if any, to defer receipt of salary into the 401(k) Savings Plan or the Supplemental Savings Incentive Plan (SSIP). Amounts deferred into the SSIP in 2015 are shown in the Executive Contributions in Last Fiscal Year column of the Nonqualified Deferred Compensation Table on page 38.

Amounts are determined using interest rate and mortality rate assumptions consistent with those used in the Company's financial statements. The Retirement Plan was frozen effective September 30, 2006. Ms. Grasso and Ms. Kelly are not eligible to participate in the Retirement Plan because it was frozen before they satisfied the eligibility requirements. There are no above-market or preferential earnings on deferred compensation because earnings under all non-qualified deferred compensation plans are pegged to investments that are

Pension Benefits

The table below shows the present value of accumulated benefits payable to each of the named executive officers, including the number of years of service credited to each such named executive officer, under the Bank's Retirement Plan determined using interest rate and mortality rate assumptions consistent with those used in the Company's financial statements.

Name	Plan Name	Number of Years Credited Service ⁽¹⁾ (#)	Present Value of Accumulated Benefit ⁽²⁾ (\$)	Payments During Last Fiscal Year (\$)
John R. Buran	Retirement Plan	5.8	295,857	
David W. Fry	Retirement Plan	7.9	301,711	
Maria A. Grasso ⁽³⁾	Retirement Plan			
Francis W. Korzekwinski	Retirement Plan	13.0	457,732	
Theresa Kelly ⁽³⁾	Retirement Plan			

(1) Number of years of credited service was frozen under the Retirement Plan as of September 30, 2006.

(2) Present value of accumulated benefit as of December 31, 2015. See note 12 to the Company's audited financial statements for the year ended December 31, 2015 included in the Company's Annual Report on Form 10-K filed with the Securities Exchange Commission on March 15, 2016 for the assumptions used in determining this value. Estimated annual retirement benefit payable as a single life annuity at age 65 for Mr. Buran and Mr. Fry and age 62 for Mr. Korzekwinski (which is the earliest year such officers would receive unreduced retirement benefits), based on the assumption that such officers retire at age 65 and age 62, respectively.

(3) Ms. Grasso and Ms. Kelly joined the Company in May of 2006. They are not eligible for the Bank's Retirement Plan because they did not satisfy the one year of service eligibility requirement prior to the plan freeze.

Participants in the Retirement Plan earn a full annual retirement benefit at normal retirement age (the later of age 65 or the fifth anniversary of participation) equal to the sum of (1) 2% of average annual earnings (the average annual base salary for the three consecutive years out of the final ten years of service which produces the highest average) times years of credited service prior to March 1, 1993, up to 30 years, plus (2) 1.6% of average annual earnings times years of credited service after February 28, 1993, plus (3) 0.45% of average annual earnings in excess of average social security compensation (as determined pursuant to Internal Revenue Service regulations) times years of credited service after February 28, 1993. The total years of credited service taken into account cannot exceed 35 years. Participants also earn a full annual retirement benefit upon retirement at age 62 with 20 years of service. Participants earn a reduced annual early retirement benefit upon retirement at age 60 (without regard to their years of service) or if their age plus the number of years of credited service equals 75. The early retirement benefit is generally the full retirement benefit reduced by 0.25% for each month the benefit commences prior to age 65 (prior to age 62 if the retiree has 20 years of service).

The Retirement Plan was frozen effective as of September 30, 2006. As a result, no additional benefits will accrue after that date. In applying the above benefit formulas, compensation and service after September 30, 2006 are disregarded, except that service after that date will continue to be recognized in determining vested service and eligibility for early retirement. Compensation taken into account under the plan was limited by the Internal Revenue Code. The limit that was in effect at the time of the plan freeze was \$210,000.

Table of Contents

Benefits under the Retirement Plan are paid in the form of a monthly annuity for the life of the retiree. Retirees may elect one of several actuarially equivalent alternative annuity forms of benefit under which monthly benefits would be reduced during the life of the retiree but benefits would continue to be payable after the retiree's death, either for the life of the retiree's beneficiary or for a specified number of years

Annual benefits under the Retirement Plan are limited by federal tax laws. As a general rule, during 2015 annual benefits were limited to \$210,000. The Retirement Plan is funded by the Bank on an actuarial basis. Participants earn a vested right to their accrued retirement benefit upon completion of five years of service with the Bank or its participating affiliates.

Nonqualified Deferred Compensation

Pursuant to the Bank's Supplemental Savings Incentive Plan (SSIP), eligible officers, including all of the named executive officers, may defer a portion of their compensation and receive matching credits with respect to such deferrals. Deferral elections are made by eligible executives in December of each year for amounts to be earned in the following year. Eligible officers may elect to defer up to 15% of salary less 6% of their compensation as defined under the Bank's 401(k) Savings Plan. The Bank credits each participant with matching credits in an amount equal to 50% (or such other percentage as determined by the Board of Directors on a prospective basis) of the participant's deferral.

All of the above credits may be invested by executives in any funds available under the SSIP. The table below shows the funds available under the SSIP, and their annual rate of return for the calendar year ended December 31, 2015, as reported by the administrator of the SSIP.

Name of Fund	Rate of Return
AllianzGI NFJ Small-Cap Value A	(8.30)%
American Funds Growth Fund of America R3	5.03 %
Fidelity Money Market Fund	0.01 %
Goldman Sachs Growth and Income Fund	(2.70)%
Goldman Sachs Structured Small Cap Growth Fund	0.62 %
Goldman Sachs Government Income Fund	0.76 %
JPMorgan Strategic Income Opportunities A	(2.37)%
PIMCO Total Return Admin	0.48 %
Thornburg International Value R3	6.07 %

Supplemental credits, in the amount that would have been credited to a participant's account in the 401(k) Savings Plan as discretionary profit sharing contributions but for tax code limitations, are credited under the SSIP in the form of phantom shares (whose value is determined by reference to the Company's common stock). When dividends are paid on the common stock, dividend equivalents on such phantom shares are deemed reinvested in additional phantom shares. All phantom shares credited under the SSIP are required to remain invested as phantom shares until the participant's termination of employment.

Amounts deferred by a participant are always fully vested. Matching credits and supplemental credits vest in accordance with the same schedule as the corresponding contributions under the tax-qualified plan, which generally vest in 20% increments upon completion of each of the first five years of service, but vest in full upon the participant's retirement, death, or disability or upon a change of control. All of the named executive officers are 100% vested under the SSIP.

Benefits under the SSIP are paid in cash, in either a lump sum payment or in annual installments, as elected by the executive. Amounts credited prior to 2010 cannot be distributed prior to a participant's termination of employment. For amounts credited beginning in 2010, a participant may elect to have all or a portion of the compensation deferred at the participant's election, together with the related matching credits (to the extent

Table of Contents

vested), distributed prior to termination of employment. The participant must specify the amount and date of distribution at the time he or she elects to defer the compensation, and the distribution date must be at least two years after the deferral election is made.

Pursuant to Mr. Buran's employment agreement, the Company annually credits \$50,000 to a bookkeeping account as a supplemental retirement benefit (SERP). Amounts credited to Mr. Buran's SERP account may be invested in the same funds available under the SSIP, which funds are listed above. Mr. Buran's SERP is discussed in further detail under the heading Potential Payments Upon Termination or Change of Control on page 39.

The following table provides information regarding contributions, earnings and account balances under the SSIP and the SERP. An executive's right to receive benefits under these arrangements is no greater than the right of an unsecured general creditor of the Bank or the Company.

Table of Contents**Potential Payments Upon Termination or Change of Control**

The following table summarizes the potential payments and benefits that each of the named executive officers would be entitled to receive upon termination of employment under various circumstances and upon a change of control of the Company or the Bank. In each case, the table assumes the executive's termination or the change of control occurred on December 31, 2015. The table does not include payments the executive would be entitled to receive in the absence of one of these specified events, such as from the exercise of previously-vested stock options (which amount can be calculated from the Outstanding Equity Awards at 2015 Fiscal Year-End Table), amounts payable under the Bank's Retirement Plan (shown in the Pension Benefits Table) and amounts payable under the SSIP (shown in the Nonqualified Deferred Compensation Table) that were vested prior to the event. The table below also does not include benefits provided on a non-discriminatory basis to salaried employees generally, including accrued vacation, and amounts payable under tax-qualified plans.

- (1) Mr. Buran is the only executive officer of the Company and the Bank who is entitled to receive a SERP benefit. The terms of the SERP are described below.
- (2) Reflects present value of such benefits using a 4.06% discount rate. See description under "Employment Agreements" following this table.
- (3) Reflects the value of RSUs whose vesting is accelerated on the termination of employment or change of control, in each case based on the closing price of the Company's common stock on December 31, 2015 (\$21.64).
- (4) See description under "Change of Control Arrangements" following this table.
- (5) Death benefit under the BOLI policy is equal to two times the named executive officer's base salary if the executive dies while employed by the Bank. If death occurs after retirement the death benefit reduces to one time the base salary plus \$50,000. If death occurs after termination of employment from the Bank with five years of service the death benefit reduces to one time the base salary.
- (6) In the event of termination of employment on account of death or disability prior to a change of control, the Compensation Committee may, in its sole discretion, award the executive officer a bonus for the year of termination, in an amount determined by the Compensation Committee either at the time of termination of employment or at the time bonuses to active employees are awarded, in which case the Company would pay such bonus to the executive officer or, in the event of death, to his or her designated beneficiaries or estate, as the case may be. In the event of the executive officer's termination of employment on account of death or disability after a change of control, the Company would pay the executive officer or, in the event of death, his or her designated beneficiaries or estate, as the case may be, a pro rata portion of the bonus for the year of termination, determined by multiplying the amount of the bonus earned by the executive officer for the preceding calendar year by the number of full months of employment during the year of termination, and then dividing by 12. The table does not include these amounts.
- (7) If termination occurs prior to a change of control, the executive's Cash Severance Payment will include a pro rata portion of the bonus payable for the year in which the termination occurred (to the extent the performance goals for the year were satisfied).
- (8) If termination follows a change of control, the executive's Cash Severance Payment will include a pro rata portion of his or her bonus payable for the year in which termination occurred (based on the amount of bonus earned in the prior year).

Employment Agreements

The Company and the Bank were parties to employment agreements during 2015 with Messrs. Buran, Fry, and Korzekwinski and Ms. Grasso and Kelly (collectively, the "Employment Agreements"). The Employment Agreements provide for termination of the executive's employment by the Bank or the Company with or without cause at any time. The executive would be entitled to a lump sum severance payment and certain health and welfare benefits upon the occurrence of certain events: (1) the Company's or the Bank's termination of the executive's employment for reasons other than for cause, (2) the executive's resignation during the 60-day period commencing six months following a change of control (as defined below), or (3) the executive's resignation from the Bank and the Company following an event which constitutes "good reason." Good reason is defined as:

failure to re-elect the executive to his or her current offices;

a material adverse change in the executive's functions, duties or responsibilities;

relocation of the executive's place of employment outside of Queens and/or Nassau Counties (unless such location has been agreed to by the executive);

failure to renew the Employment Agreement by the Bank or Company;

a material breach of the Employment Agreement by the Bank or the Company; or

failure of a successor company to assume the Employment Agreement.

Table of Contents

The lump sum severance payment under the Employment Agreements would be equal to the salary payments and bonuses (based on the highest bonus received under the bonus plan in the last three years preceding termination) otherwise payable if the executive's employment had continued for an additional 24 months (36 months in the case of Mr. Buran). In addition, the executive will receive a pro rata portion of his or her bonus payable for the year of termination (which, in the case of termination after a change of control, is based on the amount of bonus received under the bonus plan in the prior year). Each named executive officer's Employment Agreement with the Company provides that if the executive receives payments that would be subject to the excise tax on excess parachute payments imposed by Section 4999 of the Internal Revenue Code, the executive will be entitled to receive an additional payment, or gross-up, in an amount necessary to put the executive in the same after-tax position as if such excise tax had not been imposed.

The Employment Agreements entitle the executives to receive continued health and welfare benefits (including group life, disability, medical and dental benefits) for 24 months (36 months in the case of Mr. Buran) equivalent to those provided to active employees during such period, including dependent coverage. In addition, if the executive is age 55 or older at the end of such period, the executive and his or her spouse are entitled to lifetime coverage under the Bank's retiree medical program at the level and cost-sharing percentage in effect at the time of the executive's termination of employment.

In the event an executive terminates employment due to disability, which is defined generally to mean the inability of the executive to perform his or her duties for 270 consecutive days due to incapacity, each Employment Agreement provides that the executive would receive 100% of his or her salary for the first six months, 75% for the next six months and 60% for the remainder of the term of the Employment Agreement (less any benefits payable to the executive under any disability insurance coverage maintained by the Company or the Bank). The Employment Agreements have approximately a two year term (approximately three years in the case of Mr. Buran). These payments are shown in the Cash Severance Payment column of the above table.

In the event of an executive's termination due to death or disability prior to a change of control, the Compensation Committee has discretion to determine whether a bonus will be paid for the year of termination. If such termination occurs after a change of control, the executive is entitled to a pro rata bonus for the year of termination based on the amount of bonus received in the prior year.

Under Mr. Buran's Employment Agreement, the Company credits \$50,000 during each of the years 2006 through 2015 to a bookkeeping account maintained by the Company and the Bank (the SERP Account) for the purpose of providing supplemental retirement benefits. Amounts credited to the SERP Account are invested as directed by Mr. Buran in certain funds made available by the Bank with Mr. Buran's consent. Upon Mr. Buran's termination of employment with the Company or the Bank by reason of his death, or upon his voluntary resignation without good reason, or upon his termination for cause (which means (1) willful failure to perform his duties under the Employment Agreement and failure to cure such failure within sixty days following written notice thereof from the Company or the Bank, or (2) intentional engagement in dishonest conduct in connection with his performance of services for the Company or the Bank, or (3) conviction of a felony), the amount then credited to the SERP Account will be promptly paid to him (or in the case of his death, to his designated beneficiaries or his estate) in a cash lump sum. However, upon Mr. Buran's termination of employment with the Company or the Bank by reason of his retirement, disability, voluntary resignation within one year following an event that constitutes good reason or discharge without cause, or for any reason following a change of control (as defined below), the Company or the Bank will pay him a cash lump sum equal to (1) \$500,000, without regard to the amount then credited to his SERP Account, or (2) the amount then credited to his SERP Account if such amount is greater than \$500,000. Since the amount credited to the SERP account currently exceeds \$500,000, the amount credited to the SERP Account will be paid to Mr. Buran upon any termination of his employment.

The Employment Agreements provide that in the event the executive's employment terminates due to death, the executive's beneficiaries (or estate) would receive a lump sum payment of the executive's earned but unpaid salary, plus, in the case of Mr. Buran, payment of his SERP benefits described above.

Table of Contents

In the event an executive terminates employment for reasons not described above or the executive's employment is terminated for cause, the executive is entitled to receive only his or her earned but unpaid salary and any benefits payable under the terms of the Company's and the Bank's benefit plans.

Equity Awards

All outstanding equity awards will become fully vested and exercisable upon termination of employment due to death, disability, or retirement. For these purposes, disability generally means the inability to perform the essential functions of employment due to disability or incapacity for 270 consecutive days, and retirement generally means termination of employment either (i) after attainment of age 65 with five years of service, or (ii) when termination is preceded by at least five years of continuous service and the sum of age plus years of service equals or exceeds 75 years. The treatment of equity awards upon a change of control is discussed below.

Change of Control Arrangements

Upon a change of control (as defined below), in addition to the provisions of the Employment Agreements described above, (1) all outstanding restricted stock/units held by then-current employees will immediately vest; (2) all outstanding stock options held by then-current employees will become immediately exercisable; and (3) the Employee Benefit Trust which was established by the Company to satisfy its obligations under certain employee benefit plans will terminate and any trust assets remaining after certain benefit plan contributions will be distributed to all full-time employees of the Company or one of its subsidiaries with at least one year of service, in proportion to their compensation over the four most recently completed calendar years plus the portion of the current year prior to the termination of the Employee Benefit Trust.

A change of control is generally defined, for purposes of the Employment Agreements and benefit plans maintained by the Company or the Bank, to mean:

the acquisition of all or substantially all of the assets of the Bank or the Company;

the occurrence of any event if, immediately following such event, a majority of the members of the board of directors of the Bank or the Company or of any successor corporation shall consist of persons other than Current Members (defined as any member of the Board of Directors as of the completion of the Company's initial public offering and any successor of a Current Member whose nomination or election has been approved by a majority of the Current Members then on the Board of Directors);

the acquisition of beneficial ownership of 25% or more of the total combined voting power of all classes of stock of the Bank or the Company by any person or group; or

approval by the stockholders of the Bank or the Company of an agreement providing for the merger or consolidation of the Bank or the Company with another corporation where the stockholders of the Bank or the Company, immediately prior to the merger or consolidation, would not beneficially own, directly or indirectly, immediately after the merger or consolidation, shares entitling such stockholders to 50% or more of the total combined voting power of all classes of stock of the surviving corporation.

Risk Assessment of Non-Executive Compensation Plans

In 2015, we continued to enhance our risk assessment processes to comply with the Treasury Department requirement that all incentive plans be reviewed to ensure they do not motivate unnecessary and excessive risk that threatens the value of the Company. The Company is regulated by the Federal Reserve and the Bank, which is a New York State chartered commercial bank is regulated by the New York Department of Financial Services and the Federal Deposit Insurance Corporation. We have always adhered to a conservative and balanced approach to risk. Our management and Board conduct regular reviews of our business to ensure we remain within appropriate regulatory guidelines and appropriate practice.

Table of Contents

In connection with the foregoing, we conducted a thorough review of our compensation plans throughout our operations. In addition to the plans for our senior executive officers (discussed in the Compensation Discussion and Analysis) we reviewed our:

bank goal and incentive programs for lending officers in both the commercial and residential and mixed use areas;

retail banking incentive programs; and

business banking incentive plans.

In this review we assessed the relevant features of the particular plans and programs, including metrics, targets and award amounts, including among other things:

whether the participant has access to or influences in any material respect the financial accounting or reporting of transactions;

whether and to what extent the participant's transactions may be material to the Company;

what risks the business of the participant faces;

what risk factors of the Company are exposed to a particular business unit of the participant;

whether the incentive is designed reasonably to achieve the intended goals;

whether the incentive in the past has resulted in excessive risk to the Company;

whether incentive pay is high in comparison with base compensation;

whether adjustments may be made based on quality as well as quantity of performance; and

whether a plan is subject to controls on award determinations.

Risk Assessment

Both programs for mortgage loan officers have performance targets and potential award amounts set by senior management. Payment of awards is subject to reduction below the amount earned under the plan formula for unethical conduct or if management believes reduction is appropriate for other performance-related reasons. The potential risk of having an incentive award tied to loan origination volume is mitigated by the Company's requirement that all loan originations, including the borrowers and the terms, be approved by the Company's Loan Committee (and, for loans above specified amounts, the Loan Committee of the Board). In addition, the employee's bonus in any year is generally reduced to reflect delinquent loans made by the employee in the prior three years. Both the Retail and Business Banking incentive programs reward employees for various metrics of performance, which may include individual sales efforts as well as teamwork. Awards under these programs in the aggregate are not material to the Company. In addition, all of the employee compensation plans are subject to controls which mitigate the

Edgar Filing: FLUSHING FINANCIAL CORP - Form DEF 14A

risks inherent in these plans. These controls include our accounting processes, internal and external audit functions, and processes surrounding internal control over financial reporting and disclosure controls.

PROPOSAL NO. 2

ADVISORY APPROVAL OF EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act, which was enacted in 2010, requires that we include in this proxy statement an advisory stockholder vote on the compensation of the Company's named executive officers as described in this proxy statement. Because the vote is advisory, it is not binding on us, and neither the Board of Directors nor the Compensation Committee will be required to take any action as a result of the outcome of the vote. However, our Board of Directors, our Compensation Committee, and management value the opinions expressed by our stockholders and will consider the outcome of the vote when making future decisions regarding the compensation of our named executive officers.

At our 2015 Annual Meeting, approximately 92% of the votes cast on the say-on-pay proposal were in favor of our named executive officers compensation. The Board of Directors and the Compensation Committee considered these results as support for our current program, and accordingly, did not make any changes to our executive compensation program. The Compensation Committee will continue to consider the outcome of the Company's say-on-pay votes when making future compensation decisions for the named executive officers. In response to the voting results for the frequency of the say-on-pay vote we are continuing to provide our stockholders with the opportunity to annually provide an advisory say-on-pay vote.

The Compensation Committee has overseen the development of our compensation program that is described in the Compensation Discussion and Analysis section of this proxy statement and in the tables and narrative in the Executive Compensation section of this proxy statement. The Compensation Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific strategic goals of the Company, and that the Company's executive compensation program has succeeded in aligning executive pay with Company performance. In addition, our program aligns executives' interests with those of the stockholders by imposing five-year vesting on equity awards and long-term stock retention requirements, with the ultimate objective of improving stockholder value. The program is also designed to attract and to retain highly talented executives who are critical to the successful implementation of the Company's strategic business plan.

We performed well on a number of key measures as discussed in the Executive Summary of the Compensation Discussion and Analysis on page 20. In particular, our total shareholder return for 2015 was 10.21% as compared to the bank industry average of 1.71% (as reported by SNL Financial in their U.S. Bank Index).

Our Board of Directors believes that our executive compensation program is well-designed, appropriately aligns executive pay with Company performance, and incentivizes desirable executive performance. Therefore, the Board recommends that shareholders vote in favor of the following resolution:

RESOLVED, that the shareholders approve, on an advisory basis, the compensation of the Company's named executive officers as described in this proxy statement, including the Compensation Discussion and Analysis, the compensation tables, and the accompanying narrative disclosure.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE
SHAREHOLDERS VOTE FOR APPROVAL OF THE COMPANY'S EXECUTIVE COMPENSATION.**

Independent Registered Public Accounting Firm Fees and Services

To help ensure the independence of the independent registered public accounting firm, the Audit Committee has adopted a policy for the pre-approval of all audit and non-audit services to be performed for the Company by its independent registered public accounting firm. In accordance with this policy, the Audit Committee approves in advance all audit and non-audit services to be provided by the Company's independent registered public accounting firm.

The Audit Committee reviewed all audit and non-audit services provided by BDO USA, LLP (BDO USA) with respect to the fiscal year ended December 31, 2015 and concluded that the provision of such services was compatible with maintaining their independence in the conduct of their auditing functions. All audit and non-audit services provided by BDO USA or Grant Thornton LLP (Grant Thornton) described in the table below were pre-approved by the Audit Committee. The following table sets forth the aggregate fees billed for audit and non-audit services to the Company during the fiscal years ended December 31, 2015 and 2014 by BDO USA and Grant Thornton, respectively.

	Fiscal Year Ended December 31,	
	2015 (BDO USA)	2014 (Grant Thornton)
Audit Fees	\$ 429,848	\$ 603,787
Audit-Related Fees	40,000	42,918
Tax Fees	0	56,700
All Other Fees	0	38,194
Total Fees	\$ 469,848	\$ 741,599

Audit Fees are fees billed for professional services rendered in connection with the audit of the Company's annual financial statements and internal control over financial reporting, and reviews of the Company's quarterly financial statements.

Audit-Related Fees are fees for assurance and related services, consisting primarily of audits of, and consultation with respect to, employee benefit plans.

Tax Fees include fees for tax compliance, tax advice and tax planning.

All Other Fees consisted of work associated with Company filings of registration statements on Form S-8 and Form S-3 and consultation with respect to regulatory matters.

Changes in Certifying Accountant

As reported in the Company's Current Report on Form 8-K, dated February 27, 2015 (the Original Form 8-K), and an amendment thereto, dated March 16, 2015, the Audit Committee approved the dismissal of Grant Thornton as the Company's independent registered public accounting firm. The dismissal of Grant Thornton became effective upon the completion of audit services by Grant Thornton related to the Company's fiscal year ended December 31, 2014.
