DANBURY, Conn., October 26, 2017 Praxair, Inc. (NYSE: PX) reported third-quarter net income and diluted earnings per share of \$419 million and \$1.45, respectively. These results include transaction and other costs of \$14 million after-tax, or 5 cents of diluted earnings per share, primarily related to the proposed merger with Linde AG. Excluding this charge, adjusted net income and diluted earnings per share were \$433 million and \$1.50, respectively.

Praxair s sales in the third quarter were \$2,922 million, 8% above the prior-year quarter. After adjusting for positive currency translation and cost pass-through, sales grew 6%, driven by higher volumes across all geographic segments including new project start-ups, growth in all end-markets, and price attainment.

Reported operating profit in the third quarter was \$626 million, 26% above the prior-year quarter. Excluding the impact of transaction and other costs, adjusted operating profit was \$642 million, 8% above prior-year quarter. Reported operating profit as a percentage of sales was 21.4% and adjusted operating profit as a percentage of sales was 22.0%. EBITDA margin was 32.0% and adjusted EBITDA margin was 32.6%.

The company generated strong third-quarter cash flow from operations of \$794 million, 27% of sales. After capital expenditures of \$320 million, free cash flow was \$474 million, up 15% over the prior-year quarter. The company paid \$225 million in dividends and net debt decreased by \$202 million.

Commenting on the financial results and business outlook, Chairman and Chief Executive Officer Steve Angel said, Praxair employees delivered another strong quarter with operating profit growing 8% and record free cash flow of \$ 0.5 billion.

The third quarter extended prior trends with growing demand in North America, Europe and Asia, but continued weakness in South America. Furthermore, our backlog grew to \$1.5 billion with the addition of four new long-term on-site supply agreements in the U.S. and Asia. Most of this backlog supports the significant energy and petrochemical expansions in the U.S. Gulf Coast although we continue to see more opportunities in Asia, especially in the electronics end-market. We remain confident in our ability to win additional projects as these markets continue to develop.

Additionally, during the third quarter, Praxair shareholders approved our business combination with Linde AG with 99% of votes cast in favor of the merger. Currently, the business combination remains subject to the satisfaction of all other transaction closing conditions, including successfully completing Linde plc s exchange offer for Linde AG shares, and the receipt of all regulatory approvals.

For fourth-quarter 2017, Praxair expects diluted earnings per share in the range of \$1.45 to \$1.50, excluding transaction costs related to the proposed merger.

For full-year 2017, Praxair expects adjusted diluted earnings per share to be in the range of \$5.78 to \$5.83, with the midpoint up \$0.12 versus prior guidance. This range excludes transaction costs related to the proposed merger and a pension settlement charge. Full-year capital expenditures are expected to be approximately \$1.4 billion.

Following is additional detail on third-quarter 2017 results by segment.

In North America, third-quarter sales were \$1,518 million, 4% above the prior-year quarter excluding cost-pass through and currency translation. Sales growth was driven mainly by stronger volumes to the electronics, aerospace, metals and food & beverage end-markets and higher price. Operating profit was \$386 million, 6% above the prior-year quarter.

In Europe, third-quarter sales were \$407 million, 11% above the prior-year quarter. Excluding currency and cost pass-through, sales grew 5% from the prior-year due to higher volumes, primarily led by the metals, food & beverage and manufacturing end-markets and higher price. Operating profit was \$78 million, 8% above the prior-year quarter.

In South America, third-quarter sales were \$389 million, 3% above the prior-year quarter. Excluding positive currency translation, sales increased 2% versus the prior-year driven by higher volumes to chemicals and metals end-markets and project start-ups. Operating profit was \$63 million.

Sales in Asia were \$451 million in the quarter, up 15% from the prior-year driven by higher volumes in China, Korea and India, project start-ups and 2% price attainment, driven mostly by China. Operating profit was \$88 million, 29% above the prior-year quarter.

Praxair Surface Technologies had third-quarter sales of \$157 million, up 4% excluding positive currency impact. Sales growth was driven primarily by aerospace coatings. Operating profit was \$27 million.

APPENDIX

NON-GAAP MEASURES

(Millions of dollars, except per share data)

(UNAUDITED)

The following Non-GAAP measures are intended to supplement investors—understanding of the company—s financial information by providing measures which investors, financial analysts and management use to help evaluate the company—s financial leverage, return on capital and operating performance. Items which the company does not believe to be indicative of on-going business trends are excluded from these calculations so that investors can better evaluate and analyze historical and future business trends on a consistent basis. Definitions of these Non-GAAP measures may not be comparable to similar definitions used by other companies and are not a substitute for similar GAAP measures. Adjusted amounts exclude the impacts of the 2017 first, second and third quarter transaction costs, 2017 third quarter pension settlement, 2016 third quarter cost reduction program and pension settlement, and 2015 second quarter cost reduction program and other charges.
