GULF ISLAND FABRICATION, INC.

Gulf Island Fabrication, Inc. (Gulf Island, and together with its subsidiaries the Company, we or our), is a leading fabricator of complex steel structures and marine vessels used in energy extraction and production, petrochemical and industrial facilities, power generation, alternative energy projects and shipping and marine transportation operations. We also provide related installation, hook-up, commissioning, repair and maintenance services with specialized crews and integrated project management capabilities. We are currently fabricating complex modules for the construction of a new petrochemical plant and two multi-purpose service vessels. We recently fabricated wind turbine foundations for the first offshore wind power project in the United States. We also constructed one of the largest liftboats servicing the Gulf of Mexico (GOM), one of the deepest production jackets in the GOM and the first SPAR fabricated in the United States. Our customers include U.S. and, to a lesser extent, international energy producers, petrochemical, industrial, power and marine operators. We operate and manage our business through three operating divisions: Fabrication, Shipyards and Services. Our corporate headquarters is located in Houston, Texas, with fabrication facilities located in Houma, Jennings and Lake Charles, Louisiana. Our fabrication facilities in Aransas Pass and Ingleside, Texas are currently being marketed for sale.

Table of Contents

DESCRIPTION OF OUR OPERATIONS

Fabrication Division

Our Fabrication division primarily fabricates structures such as offshore drilling and production platforms and other steel structures for customers in the oil and gas industries including jackets and deck sections of fixed production platforms along with pressure vessels. Our Fabrication division also fabricates structures for alternative energy customers (such as the five jackets and piles we constructed for a shallow water wind turbine project off the coast of Rhode Island during 2015) as well as modules for an LNG facility. We have historically performed these activities out of our fabrication yards in Houma, Louisiana and formerly out of our fabrication yards in Aransas Pass and Ingleside, Texas.

Shipyards Division

Our Shipyards division primarily fabricates and repairs marine vessels including offshore supply vessels, anchor handling vessels, lift boats, tugboats and towboats. Our Shipyards division also constructs and owns drydocks to lift marine vessels out of the water in order to make repairs or modifications. Our marine repair activities include steel repair, blasting and painting services, electrical systems repair, machinery and piping system repairs and propeller, shaft and rudder reconditioning. Our Shipyards division also performs conversion projects that consist of lengthening or modifying the use of existing vessels to enhance their capacity or functionality. We perform these activities out of our facilities in Houma, Jennings and Lake Charles, Louisiana.

Services Division

Our Services division primarily provides interconnect piping services on offshore platforms and inshore structures. Interconnect piping services involve sending employee crews to offshore platforms in the Gulf of Mexico to perform welding and other activities required to connect production equipment, service modules and other equipment on a platform. We also contract with oil and gas companies that have platforms and other structures located in the inland lakes and bays throughout the Southeast for various on-site construction and maintenance activities. In addition, our Services division can fabricate packaged skid units and construct various municipal and drainage projects, such as pump stations, levee reinforcement, bulkheads and other projects for state and local governments.

For a more complete description of our business, please see the documents incorporated by reference herein that we have filed with the SEC, as described further below in this prospectus under the heading **Where You Can Find More Information**.

RISK FACTORS

An investment in our securities involves a high level of risk. You should carefully consider the risks described in our filings with the SEC referred to under the heading **Where You Can Find More Information**, as well as the risks included and incorporated by reference in this prospectus, including the risk factors incorporated by reference herein from our most recently-filed Annual Report on Form 10-K, as updated by quarterly and other reports and documents we file with the SEC after the date of such annual report and that are incorporated by reference herein. In addition, any prospectus supplement may include a discussion of any risk factors or other special considerations applicable to the securities being offered thereby.

THE OFFERING

The descriptions of the securities contained in this prospectus, together with any applicable prospectus supplement, summarize the material terms and provisions of the various types of securities that we may offer hereunder. We will describe in the applicable prospectus supplement relating to any securities the particular terms of the securities offered by that prospectus supplement.

No director, officer, employee or stockholder of ours has any liability for (i) any of our obligations under any debt or equity securities issued in accordance with this prospectus or under any indenture, certificate of designations or other governing instrument delineating such obligations or (ii) any claim based on, in respect of, or by reason of such obligations or their creation. Each holder, upon our issuance of any such securities or our execution and delivery of any such instrument, waives and releases all such liability. This waiver and release are part of the consideration for issuance of such securities. Such waiver may not be effective to waive liabilities under the federal securities laws.

This prospectus may not be used to consummate a sale of securities unless it is accompanied by a prospectus supplement.

USE OF PROCEEDS

Unless otherwise indicated in the applicable prospectus supplement, the net proceeds from the sale of the securities described herein are expected to be used for general corporate purposes, including repayment of borrowings, capital expenditures, working capital, acquisitions of assets or businesses, or redemptions or repurchases of securities. We may issue common stock, separately or together with or upon conversion of or exchange for other securities, all as set forth in the applicable prospectus supplement.

Preferred Stock

We may issue hereunder preferred stock in one or more series on terms to be described in a prospectus supplement.

Our Board of Directors can, without approval of our shareholders, issue one or more series of preferred stock and determine the number of shares of each series and the rights, preferences, and limitations of each series. The following description of the terms of the preferred stock sets forth certain general terms and provisions of our authorized preferred stock. If we offer preferred stock, a more specific description will be filed with the SEC, and the designations and rights of such preferred stock will be described in a prospectus supplement, including the following terms:

the series, the number of shares offered, and the liquidation value of the preferred stock;

the price at which the preferred stock will be issued;

the dividend rate, the dates on which the dividends will be payable, and other terms relating to the payment of dividends on the preferred stock;

the liquidation preference of the preferred stock;

the voting rights of the preferred stock;

whether the preferred stock is redeemable, or subject to a sinking fund, and the terms of any such redemption or sinking fund;

whether the preferred stock is convertible, or exchangeable for any other securities, and the terms of any such conversion or exchange; and

any additional rights, preferences, qualifications, limitations, and restrictions of the preferred stock.

The description of the terms of the preferred stock that will be set forth in an applicable prospectus supplement will not be complete and will be subject to and qualified in its entirety by reference to the certificate of designation relating to the applicable series of preferred stock. The registration statement, of which this prospectus forms a part, will include the certificate of designation as an exhibit or incorporate it by reference.

Undesignated preferred stock may enable our board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a tender offer, proxy contest, merger, or otherwise and to thereby

protect the continuity of our management. The issuance of shares of preferred stock may adversely affect the rights of the holders of our common stock. For example, any preferred stock issued may:

rank prior to our common stock as to dividend rights, liquidation preference, or both;

have full or limited voting rights; and

be convertible into shares of common stock.

As a result, the issuance of shares of preferred stock may:

discourage bids for our common stock; or

otherwise adversely affect the market price of our common stock or any then-existing preferred stock. Any preferred stock will, when issued, be fully paid and non-assessable.

DESCRIPTION OF DEBT SECURITIES

We may issue senior or subordinated debt securities from time to time in one or more distinct series. This section summarizes terms of the debt securities expected to be common to all series. The specific terms of any series of debt securities that we offer will be described in a prospectus supplement relating to that series of debt securities. Since the terms of specific debt securities may differ from the general information we have provided below, you should rely on information in the applicable prospectus supplement that may modify, supplement or replace any information below.

We may issue senior debt securities under a senior indenture between us and the trustee to be named in the senior indenture. We may issue subordinated debt securities under a subordinated indenture between us and the trustee to be named in the subordinated indenture. Except as we may otherwise indicate, we expect the terms of the senior indenture and the subordinated indenture to be the same or substantially the same. We use the term indentures in this prospectus to refer to both the senior indenture and the subordinated indenture.

Prior to the issuance of any securities thereunder, each indenture will be subject to and qualified under the Trust Indenture Act of 1939, or the Trust Indenture Act. We use the term trustee to refer to either the senior indenture trustee or the subordinated indenture trustee, as applicable.

The following are summaries of the anticipated material provisions of the senior debt securities, the subordinated debt securities and the indentures, and are subject to, and qualified in their entirety by reference to, all the provisions of the indenture applicable to a particular series of debt securities. There may also be other provisions in the indentures which are important to you. We urge you to read the indenture applicable to a particular series of debt securities, including any supplements thereto, because such document or documents, and not this summary description, will define your rights as a holder of such debt securities.

General

We may issue debt securities in distinct series. The prospectus supplement relating to any series of debt securities sold hereunder will set forth the specific terms of that series, including:

whether the debt securities will be senior or subordinated,

the offering price of the debt securities and our net proceeds from the sale thereof,

the title and ranking of the series,

any limit on the aggregate principal amount that may be issued with respect to that series,

the maturity date or dates,

Table of Contents

the rate or rates per annum, if any, at which the series will bear interest or the method of determining the rate or rates,

the date or dates from which interest will accrue and the date or dates at which interest will be payable;

the terms for redemption or early payment, if any, including any mandatory or optional sinking fund, any provisions obligating us to offer to purchase the debt securities, or similar provisions,

our right, if any, to defer payment of interest and the maximum length of any such deferral period,

if other than U.S. currency, the currency or currency units in which principal, premium, if any, or interest will be payable and whether we or the holder may elect payment to be made in a different currency,

any defeasance provisions if different from those described below under [Satisfaction and Discharge; Defeasance](#) ,

whether the debt securities are convertible or exchangeable and, if so, a description of (i) the securities into which the debt securities are convertible or exchangeable, (ii) the terms and conditions upon which conversions or exchanges may be effected, including the initial conversion or exchange prices or ratios, and (iii) any other related provisions,

the terms and conditions, if any, pursuant to which the notes are secured or guaranteed,

whether the debt securities will be issuable in the form of global securities and, if so, the identity of the depositary for the global securities, if different than as described below under [Form of Securities](#) ,

any subordination provisions, if different from those described below under [Subordinated Debt Securities](#) ,

any changes or additions to the events of default or covenants described below,

a description of any material United States federal income tax considerations applicable to the series,

whether the debt securities will be listed on any national securities exchange,

the names of any transfer agents, registrars, interest paying agents or depositaries, if any, that we retain with respect to the debt securities, and the place or places where interest and other payments on the debt securities will be payable, and

any special considerations, additional covenants or other specific provisions applicable to the series.

The debt securities may bear interest at a fixed or floating rate. Debt securities bearing no interest or interest at a rate that at the time of issuance is below the prevailing market rate may be sold at a discount below their stated principal amount.

The indentures will provide that the applicable debt securities will be issued in one or more series, may be issued at various times, may have differing maturity dates and may bear interest at differing rates. We need not issue all debt securities of one series at the same time and, unless otherwise provided, we may reopen a series of senior or subordinated debt securities, without the consent of the holders of that series, for issuances of additional securities of that series. We do not expect that the indentures will limit the aggregate amount of debt securities that we may issue thereunder.

We do not anticipate that there will be any requirement under the senior indenture or the subordinated indenture that our future issuances of debt securities be issued exclusively under either indenture, and we expect to be free to incur debt pursuant to other indentures or agreements containing provisions different from those included in either the senior indenture or the subordinated indenture or applicable to one or more issuances of senior debt securities or subordinated debt securities, as the case may be, in connection with future issuances of other debt securities.

Table of Contents

As a holding company without any material assets or operations, substantially all of our income and operating cash flow is dependent upon the earnings of our subsidiaries and the distribution of funds to us in the form of dividends, loans or other payments. As a result, we rely upon our subsidiaries to generate the funds necessary to meet our obligations, including the payment of amounts owed under our long-term debt, or to declare and make dividend payments to the holders of our securities. The ability of our subsidiaries to generate sufficient cash flow from operations to allow us and them to make scheduled payments on our respective obligations will depend on their future financial performance, which will be affected by a range of economic, competitive and business factors, many of which are outside of our control. Additionally, our subsidiaries are separate and distinct legal entities and have no obligation to pay any amounts owed by us, or, subject to limited exceptions for tax-sharing purposes, to make any funds available to repay our obligations, whether by dividends, loans or other payments. The amount of dividends that our subsidiaries may pay is restricted by the law of the jurisdiction in which they were formed. Moreover, our rights to receive assets of any subsidiary upon its liquidation or reorganization (and the ability of holders of debt securities to benefit indirectly therefrom) will be effectively subordinated to the claims of creditors of that subsidiary, including trade creditors. As of September 30, 2017, our subsidiaries had no long-term debt.

Security

Our obligations under any debt securities issued may be secured by some or all of our assets or the assets of one or more of our subsidiaries. The terms and conditions pursuant to which our debt securities may be secured and will be described in the applicable prospectus supplement.

In addition, we may use a portion of the net proceeds from an offering to acquire U.S. government securities and pledge those securities to a trustee for the exclusive benefit of the holders of the debt securities (and not for the benefit of other creditors). The amount of U.S. government securities acquired will be designed to be sufficient upon receipt of scheduled interest and principal payments of such securities to provide for payment in full of a certain number of scheduled interest payments due on the debt securities. The amount of net proceeds from an offering used to acquire U.S. government securities and the number of scheduled interest payments to be secured for a particular offering of debt securities, if any, will be described in the applicable prospectus supplement. In addition, the terms and conditions pursuant to which we would pledge any U.S. government securities for the benefit of the holders of the debt securities will be described in the applicable prospectus supplement.

Registration and Denominations

Unless otherwise specified in the applicable prospectus supplement, the debt securities will be registered debt securities and will be issued in denominations of \$1,000 or any multiples thereof. The debt securities are expected to be issued partly or wholly in the form of one or more global registered securities, as described below under Form of Securities.

Merger, Consolidation and Sale of Assets

Nothing in the indentures are expected to prevent us from consolidating or merging with or into, or selling or otherwise disposing of all or substantially all of our assets to, another corporation, provided that (i) we agree to obtain a supplemental indenture pursuant to which the surviving entity or transferee agrees to assume our obligations under all outstanding debt securities issued under the applicable indenture and (ii) the surviving entity or transferee is organized under the laws of the United States, any state thereof or the District of Columbia.

Limitations on Liens

The applicable prospectus supplement will describe any restrictions imposed under the indentures on our ability to pledge or encumber our properties.

Table of Contents

Events of Default

Unless we inform you otherwise in the prospectus supplement, the indentures will define an event of default with respect to any series of debt securities as one or more of the following events:

failure to pay principal of or any premium on any debt security of that series when due,

failure to pay any interest or sinking fund payment on any debt security of that series for 30 days when due,

failure to perform any other covenant in the indenture continued for 90 days after being given the notice required in the indenture, and

our bankruptcy or insolvency.

An event of default of one series of debt securities is not necessarily an event of default for any other series of debt securities.

If an event of default, other than an event of default described in the final bullet point above, shall occur and be continuing, either the trustee or the holders of at least a majority of the aggregate principal amount of the outstanding debt securities of a series, by notice in writing to us, and to the trustee if notice is given by such holders, may declare the principal amount of the debt securities of that series to be due and payable immediately.

If an event of default described in the final bullet point above shall occur, the principal amount of all debt securities of that series will automatically become immediately payable. Any payment by us of amounts owed under any outstanding subordinated debt securities following any such acceleration will be subject to the subordination provisions described below under **Subordinated Debt Securities**.

The holders of a majority in principal amount of the outstanding debt securities of an affected series may waive any default or event of default with respect to such series and its consequences, except a continuing default or events of default in the payment of principal, premium, if any, or interest on the debt securities of such series.

After acceleration, the holders of a majority in aggregate principal amount of the outstanding debt securities of an affected series may, under certain circumstances, rescind and annul such acceleration if all events of default, other than the non-payment of accelerated principal, or other specified amounts, have been cured or waived.

Other than the duty to act with the required care during an event of default, the trustee will not be obligated to exercise any of its rights or powers at the request of the holders unless the holders shall have offered to the trustee reasonable indemnity. Generally, the holders of a majority in aggregate principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred on the trustee.

A holder will not have any right to institute any proceeding under the indentures, or for the appointment of a receiver or a trustee, or for any other remedy under the indentures, unless:

the holder has previously given to the trustee written notice of a continuing event of default with respect to the debt securities of that series,

the holders of at least a majority of the aggregate principal amount of the outstanding debt securities of that series have made a written request and have offered reasonable indemnity to the trustee to institute the proceeding, and

the trustee has failed to institute the proceeding and has not received direction inconsistent with the original request from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series within 60 days after the original request.

Table of Contents

A holder of debt securities may, however, sue to enforce the payment of principal, premium or interest on any debt security on or after the due date or to enforce the right, if any, to convert any debt security without following the procedures listed above.

Modification and Waiver

We and the trustee may change an indenture without the consent of any holders with respect to certain matters, including:

to fix any ambiguity, defect or inconsistency in such indenture, and

to change anything that does not materially adversely affect the interests of any holder of the debt securities of any series.

In addition, we and the trustee may make modifications and amendments to an indenture with the consent of the holders of a majority in aggregate principal amount of the outstanding debt securities of each series affected by the modification or amendment. However, neither we nor the trustee may make any modification or amendment without the consent of the holder of each outstanding debt security of that series affected by the modification or amendment if such modification or amendment would:

extend the fixed maturity of any debt securities of any series, reduce the principal amount thereof, reduce the rate or extend the time of payment of interest thereon or reduce any premium payable upon the redemption thereof, or

reduce the aforesaid percentage of debt securities, the holders of which are required to consent to any such modifications or amendments.

Satisfaction and Discharge; Defeasance

We may be discharged from our obligations on the debt securities of any series that have matured or will mature or be redeemed within one year if we deposit with the trustee enough cash to pay all the principal, interest and any premium due to the stated maturity date or redemption date of the debt securities.

Each indenture is expected to contain a provision that permits us to elect:

to be discharged from all of our obligations, subject to limited exceptions, with respect to any series of debt securities then outstanding, or

to be released from our obligations under certain covenants described in the indentures and from the consequences of an event of default resulting from a breach of these covenants.

We refer to the first bullet point above as legal defeasance and the second bullet point above as covenant defeasance. Our legal defeasance or covenant defeasance option may be exercised only if:

we deposit in trust with the trustee enough money in cash or U.S. government obligations to pay in full the principal of and interest and premium, if any, on the debt securities.

the deposit of the money by us does not result in a breach or violation of, or constitute a default under, the applicable indenture or any other agreement or instrument to which we are a party.

no default or event of default with respect to the debt securities of such series shall have occurred and be continuing on the date of the deposit of the money or during the preference period applicable to us.

we deliver to the trustee an opinion of counsel to the effect that the holders of the debt securities will not recognize income, gain or loss for Federal income tax purposes as a result of such deposit and defeasance and will be subject to federal income tax on the same amount, in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred.

Table of Contents

in the case of legal defeasance, such legal defeasance does not result in the trust arising from the deposit of the money constituting an investment company, as defined in the Investment Company Act of 1940, as amended, or such trust shall be qualified thereunder or exempt from regulation thereunder.

we deliver to the trustee an officers' certificate and opinion of counsel, each stating that all conditions precedent with respect to such defeasance have been complied with.

If any of the above events occurs, the holders of the debt securities of the series will not be entitled to the benefits of the applicable indenture, except for the rights of holders to receive payments on debt securities or the registration of transfer and exchange of debt securities and replacement of lost, stolen or mutilated debt securities.

Subordinated Debt Securities

Payment on any subordinated debt securities issued by us will, to the extent provided in the subordinated indenture, be subordinated in right of payment to the prior payment in full of all of our senior indebtedness. As described further above, the subordinated debt securities also will be effectively subordinated to all debt and other liabilities, including trade payables and lease obligations, if any, of our subsidiaries. For more information, see "General" above.

Upon any distribution of our assets upon any dissolution, winding up, liquidation, reorganization, bankruptcy, insolvency or similar proceeding, the payment of the principal, premium, if any, and interest in respect of our subordinated debt securities will be subordinated in right of payment to the prior payment in full in cash. In the event of any acceleration of the subordinated debt securities because of an event of default, the holders of our senior indebtedness would be entitled to payment in full before the holders of the subordinated debt securities are entitled to receive any payment or distribution. The subordinated indenture requires holders of designated senior indebtedness to be promptly notified if payment of the subordinated debt securities is accelerated because of an event of default.

Subject to the terms and conditions of the subordinated indenture, we may not make any payment on our subordinated debt securities, including upon redemption at the option of any holder of such subordinated debt securities or at our option, if:

a default in the payment of the principal, premium, if any, or interest in respect of our senior indebtedness occurs and is continuing beyond any applicable period of grace,

any other default that accelerates the maturity of our senior indebtedness occurs, or

we and the subordinated indenture trustee receive notification of certain events or events of default that could permit holders of designated senior indebtedness to accelerate its maturity.

If any holder of the subordinated debt securities receives any payment or distribution of our assets in contravention of the subordination provisions applicable to the subordinated debt securities, then such payment or distribution will be held in trust for the benefit of holders of senior indebtedness to the extent necessary.

In the event of our bankruptcy, dissolution or reorganization, holders of senior indebtedness may receive more, ratably, and holders of the subordinated debt securities may receive less, ratably, than our other creditors (including our trade creditors). The failure to make any required payment with respect to any of the subordinated debt securities

due to the subordination provisions of such securities will not prevent or preclude the occurrence of any event of default under the subordinated debt securities.

We are obligated to pay reasonable compensation to the trustee and to indemnify the trustee against certain losses, liabilities or expenses incurred by the trustee in connection with its duties relating to the subordinated debt securities. The trustee's claims for these payments will generally be senior to those of noteholders in respect of all funds collected or held by the trustee.

Table of Contents

A prospectus supplement relating to a particular series of subordinated debt securities will summarize the subordination provisions applicable to that series, including:

the applicability and effect of such provisions upon any payment or distribution of our assets to creditors upon any liquidation, bankruptcy, insolvency or similar proceedings,

the applicability and effect of such provisions in the event of specified defaults with respect to senior debt, including the circumstances under which and the period in which we will be prohibited from making payments on subordinated debt securities,

the definition of senior debt applicable to that series of subordinated debt securities, and

the aggregate amount of outstanding indebtedness as of the most recent practicable date that would rank senior to, and on parity with, that series of subordinated debt securities.

The particular terms of subordination of a series of subordinated debt securities may supersede the general subordination provisions of the subordinated indenture, and may differ from the general description of subordination presented under this heading. There are expected to be no restrictions in the subordinated indenture on the creation of additional senior debt securities or any other indebtedness.

Exchange and Transfer

Debt securities of any series may be transferred or exchanged in the manner to be described in the applicable prospectus supplement. We will not impose a service charge for any transfer or exchange, but we may require holders to pay any taxes, assessments or other governmental charges associated with any transfer or exchange.

In the event of any potential redemption of debt securities of any series, we will not be required to:

issue, register the transfer of, or exchange, any debt security of that series during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption and ending at the close of business on the day of the mailing, or

register the transfer of or exchange any debt security of that series selected for redemption, in whole or in part, except the unredeemed portion being redeemed in part.

We may initially appoint the trustee as the security registrar. Any transfer agent, in addition to the security registrar, initially designated by us will be named in the prospectus supplement. We may designate additional transfer agents, change transfer agents or change the office of any transfer agent. However, we will be required to maintain a transfer agent in each place of payment for the debt securities of each series.

Payment and Paying Agent

Unless otherwise provided in the applicable prospectus supplement:

the corporate trust office of the trustee will be designated as our sole paying agent,

payment of interest on a debt security on any interest payment date will be made to the person in whose name the debt security is registered at the close of business on the regular record date, and

payment on debt securities of a particular series will be payable at the office of a paying agent or paying agents designated by us, subject to our right, at our option, to pay interest by mailing a check to the record holder.

We may act as our own paying agent, designate additional paying agents, change paying agents or change the office of any paying agent. However, we will be required to maintain a paying agent in each place of payment for the debt securities of a particular series.

Table of Contents

All moneys paid by us to a paying agent for payment on any debt security which remain unclaimed at the end of two years after such payment was due will be repaid to us. Thereafter, the holder may look only to us for such payment.

Governing Law

The indentures and the debt securities are expected to be governed by, and construed in accordance with the law of the State of New York.

Information Regarding the Trustees

We may appoint a separate trustee for any series of debt securities. Each such trustee, prior to the occurrence of an event of default, will undertake to perform only such duties as are specifically set forth in the applicable indenture and, after the occurrence of an event of default, will exercise the same degree of care as a prudent person would exercise in the conduct of such person's own affairs. Subject to such provision, the trustees will not be required to exercise any of the rights or powers vested in them by the applicable indenture at the request, order or direction of any debt holders, unless offered reasonable security or indemnity by such holders against the costs, expenses and liabilities which might be incurred thereby. A trustee will not be required to expend or risk its own funds or incur personal financial liability in the performance of its duties if such trustee reasonably believes that repayment of such funds or liability or adequate indemnity is not reasonably assured to it. We will pay the trustees reasonable compensation and reimburse them for reasonable expenses incurred in accordance with the applicable indenture.

A trustee may resign with respect to one or more series of debt securities and a successor trustee may be appointed to act with respect to such series.

Each trustee will be permitted to engage in certain other transactions. However, if the trustee acquires any conflicting interest, and there is a default under the debt securities of any series for which it is trustee, the trustee must eliminate the conflict or resign.

DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of common stock, preferred stock, depositary shares, debt securities or any combination thereof. Warrants may be issued independently or together with other securities and may be attached to or separate from any offered securities. Each series of warrants will be issued under a separate warrant agreement to be entered into between us and a bank or trust company, as warrant agent. The warrant agent is expected to act solely as our agent in connection with the warrants and is not expected to assume any obligation or relationship of agency or trust for or with any holders or beneficial owners of warrants.

The prospectus supplement relating to any particular issue of warrants will describe the terms of the warrants, including the following:

the title and aggregate number of warrants,

the offering price for the warrants, if any,

the designation and terms of the securities that may be purchased upon exercise of the warrants,

if applicable, the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each other security,

if applicable, the date on and after which the warrants and the related other securities issued therewith will be separately transferable,

Table of Contents

the number or amount of securities that may be purchased upon exercise of a warrant and the price at which the securities may be purchased upon exercise, which may be payable in cash, securities or other property,

the dates on which the right to exercise the warrants begins and expires,

if applicable, the minimum or maximum amount of warrants that may be exercised at any one time,

whether the warrants and the securities that may be issued thereunder will be issued in registered or bearer form,

whether the warrants will be issuable in the form of global securities and, if so, the identity of the depository for the global securities, if different than as described below under Form of Securities ,

a discussion of any material United States federal income tax considerations relating to owning or exercising the warrants,

the anti-dilution provisions of the warrants, if any,

any applicable redemption or call provisions applicable to the warrants, and

any other terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants.

Before their exercise, warrants will not entitle their holders to any rights of the holders of the securities purchasable thereunder, unless otherwise provided in the applicable prospectus supplement.

We and the warrant agent may amend or supplement the warrant agreement for a series of warrants without the consent of the holders of the warrants issued thereunder to effect charges that are not inconsistent with the provisions of the warrants and that do not materially and adversely affect the interests of the holders of the warrants.

This summary of certain provisions of the warrants, as supplemented by any related prospectus supplement, is not complete. For the complete terms of the warrants and the warrant agreement, you should refer to the provisions of the warrant agreement that we will file with the SEC in connection with the offering of such warrants, which we urge you to read because such document, and not this summary description, will define your rights as a holder of such warrants.

DESCRIPTION OF UNITS

As specified in the applicable prospectus supplement, we may issue units consisting of two or more securities described in this prospectus, in any combination. Unless otherwise specified in the applicable prospectus supplement, each unit will, to the extent possible, be issued so that the holder of the unit is also the holder of each security included in the unit, and the holder of a unit will have the rights and obligations of a holder of each underlying security. The

applicable prospectus supplement will describe the specific terms of any units sold hereunder, including:

the title and aggregate number of units,

the offering price of the units, if any,

the terms of the units and of the underlying securities, including whether and under what circumstances the securities comprising the units may be traded separately,

a description of the terms of any unit agreement governing the units,

a description of the provisions for the payment, settlement, transfer or exchange of the units,

a discussion of any material United States federal income tax considerations, and

any other material terms of the units.

Table of Contents

The terms and conditions described under Description of Capital Stock, Description of Debt Securities and Description of Warrants will apply to each unit and to any common stock, preferred stock, depositary shares, debt security or warrant included in each unit, respectively, unless otherwise specified in the applicable prospectus supplement. We urge you to read the unit agreement applicable to a particular issuance of units, because such document, and not this summary description, will define your rights as a holder of such units.

DESCRIPTION OF RIGHTS

We may issue rights to purchase our common stock, preferred stock, warrants or units. These rights may be issued independently or together with any other security offered hereby and may or may not be transferable by the person receiving the rights in such offering. In connection with any offering of such rights, we may enter into a standby arrangement with one or more underwriters or other purchasers pursuant to which the underwriters or other purchasers may be required to purchase any securities remaining unsubscribed for after such offering.

Each series of rights will be issued under a separate rights agreement that we will enter into with a bank or trust company, as rights agent, all as set forth in the applicable prospectus supplement. The rights agent will act solely as our agent in connection with the certificates relating to the rights and will not assume any obligation or relationship of agency or trust with any holders of rights certificates or beneficial owners of rights. We will file the rights agreement and the rights certificates relating to each series of rights with the SEC, and incorporate them by reference as an exhibit to the registration statement of which this prospectus is a part on or before the time we issue a series of rights.

The applicable prospectus supplement will describe the specific terms of any offering of rights for which this prospectus is being delivered, including the following:

the date of determining the shareholders entitled to the rights distribution;

the number of rights issued or to be issued to each stockholder;

the exercise price payable for each share of preferred stock, common stock or other securities upon the exercise of the rights;

the number and terms of the shares of preferred stock, common stock or other securities which may be purchased per each right;

the extent to which the rights are transferable;

the date on which the holder's ability to exercise the rights shall commence, and the date on which the rights shall expire;

the extent to which the rights may include an over-subscription privilege with respect to unsubscribed securities;

if applicable, the material terms of any standby underwriting or purchase arrangement entered into by us in connection with the offering of such rights;

any other terms of the rights, including the terms, procedures, conditions and limitations relating to the exchange and exercise of the rights; and

any other information we think is important about the rights.

The description in the applicable prospectus supplement of any rights that we may offer will not necessarily be complete and will be qualified in its entirety by reference to the applicable rights certificate, which will be filed with the SEC. To the extent the information contained in the prospectus supplement differs from this summary description, you should rely on the information in the prospectus supplement.

PLAN OF DISTRIBUTION

We may sell the securities offered by this prospectus in any one or more of the following ways:

directly to investors, including through a specific bidding, auction, or other process,

to investors through agents,

directly to agents,

to or through brokers or dealers,

to one or more underwriters for resale to investors or to the public, including through underwriting syndicates led by one or more managing underwriters,

in privately-negotiated transactions, and

through a combination of any such methods of sale.

Our common stock, preferred stock, debt securities or other securities offered hereunder may be issued upon the conversion, exercise or exchange of other securities sold hereunder. Securities may also be issued upon the division of units.

If we sell securities to a dealer acting as principal, the dealer may resell such securities at varying prices to be determined by such dealer in its discretion at the time of resale without consulting with us, and such resale prices may not be disclosed in the applicable prospectus supplement.

If we sell securities in an underwritten offering, the underwriters will acquire the securities for their own account, with a view to resell the securities periodically in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Any underwritten offering may be on a best-efforts or a firm-commitment basis. Unless otherwise stated in a prospectus supplement, the obligation of the underwriters to purchase any securities on a firm underwritten basis will be conditioned upon customary closing conditions.

We may offer our equity securities into an existing trading market through agents designated by us from time to time on the terms described in the applicable prospectus supplement. Underwriters, dealers and agents who may participate in any at-the-market offerings will be described in the prospectus supplement relating thereto. Any agent involved in the offer or sale of the securities for which this prospectus is delivered will be named, and any commissions payable by us to that agent will be set forth, in the prospectus supplement. Unless indicated in the prospectus supplement, the agents will have agreed to use their reasonable best efforts to solicit purchases for the period of their appointment.

We may also offer securities directly to our shareholders on a *pro rata* basis. If any of the underlying securities are not subscribed for by our shareholders in any such offering, we may then sell the unsubscribed securities directly to third parties or may engage the services of one or more underwriters, dealers or agents, including standby underwriters, to sell the unsubscribed securities to third parties.

Under certain circumstances, we may repurchase offered securities and reoffer them to the public as set forth above. We may also arrange for the repurchase and resale of such offered securities by dealers or otherwise.

Sales of the securities may be effected from time to time in one or more transactions, including negotiated transactions:

at a fixed or variable price or prices, which may be changed,

at market prices prevailing at the time of sale,

Table of Contents

at prices related to prevailing market prices, or

at negotiated prices.

Any of the prices may vary from then-prevailing market prices.

We may determine the price or other terms of the securities offered under this prospectus by use of an auction. We will describe in the applicable prospectus supplement how any auction will be conducted to determine the price or any other terms of the securities, how potential investors may participate in the auction and, where applicable, the nature of the underwriters' obligations with respect to the auction.

In the sale of the securities, underwriters or agents may receive compensation from us in the form of underwriting discounts or commissions and may also receive compensation from purchasers of the securities, for whom they may act as agents, in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers, and such dealers may receive compensation in the form of (i) discounts, concessions or commissions from the underwriters, (ii) commissions from the purchasers for whom they may act as agents, or (iii) a combination of the foregoing. Discounts, concessions and commissions may be changed from time to time. We do not expect these commissions and discounts to exceed what is customary for companies comparable to us in the types of transactions involved. Dealers and agents that participate in the distribution of the securities may be deemed to be underwriters under the Securities Act of 1933, which we refer to herein as the Securities Act, and any discounts, concessions or commissions they receive from us and any profit on the resale of securities they realize may be deemed to be underwriting compensation under applicable federal and state securities laws.

The applicable prospectus supplement will, where applicable:

identify any such underwriter, dealer or agent,

describe any compensation in the form of discounts, concessions, commissions or otherwise received from us by underwriters and agents,

describe any discounts, concessions or commissions allowed by underwriters to participating dealers, and

identify the nature of the underwriters' or underwriters' obligation to purchase the securities.

Unless otherwise specified in the related prospectus supplement, each series of securities will be a new issue with no established trading market (other than shares of our common stock or preferred stock that are listed on the NASDAQ). We will endeavor to list for trading on the NASDAQ any common stock sold pursuant to a prospectus supplement. We may elect to list any other securities offered hereunder on an exchange, but we are not obligated to do so. It is possible that one or more underwriters may make a market in the securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of, or the trading market for, any offered securities.

We may enter into derivative transactions with third parties, or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If disclosed in the applicable prospectus supplement, in connection with

those derivative transactions third parties may sell securities covered by this prospectus and such prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by us or borrowed from us or from others to settle those short sales or borrowings of securities, and may use securities received from us in settlement of those derivative transactions to close out any related borrowings of securities. If the third party is or may be deemed to be an underwriter under the Securities Act, the applicable prospectus supplement may identify such underwriter.

In connection with any offering of the securities offered under this prospectus, underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of such securities or any other securities the

Table of Contents

prices of which may be used to determine payments on such securities. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by underwriters of a greater number of securities than the underwriters are required to purchase in the offering. Stabilizing transactions consist of certain bids or purchases made for the purpose of preventing or retarding a decline in the market price of the securities while the offering is in progress.

Underwriters may engage in over-allotment. If any underwriters create a short position in the securities in an offering in which they sell more securities than are set forth on the cover page of the applicable prospectus supplement, the underwriters may reduce that short position by purchasing the securities in the open market.

Underwriters may also impose a penalty bid in any offering of securities offered under this prospectus through a syndicate of underwriters. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the other underwriters have repurchased securities sold by or for the account of such underwriter in certain specified transactions.

These activities by underwriters may stabilize, maintain or otherwise affect the market price of the securities offered under this prospectus. As a result, the price of such securities may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by underwriters at any time. These transactions may be effected in the over-the-counter market or otherwise.

We do not make any representation or prediction as to the effect that any of the transactions described above might have on the price of the securities. In addition, we do not make any representation that underwriters will engage in such transactions or that such transactions, once commenced, will not be discontinued without notice.

Under agreements into which we may enter, underwriters, dealers and agents who participate in the distribution of the securities may be entitled to indemnification by us against or contribution towards certain civil liabilities, including liabilities under the applicable securities laws.

If indicated in the applicable prospectus supplement, we may authorize underwriters, dealers or agents to solicit offers by particular institutions to purchase securities from us at the public offering price set forth in such prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on the date or dates stated in such prospectus supplement. Any such delayed delivery contract will be for an amount no less than, and the aggregate amounts of securities sold under delayed delivery contracts shall be not less nor more than, the respective amounts stated in the applicable prospectus supplement. Institutions with which such contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and others, but will in all cases be subject to our approval. The obligations of any purchaser under any such contract will be subject to the conditions that (i) the purchase of the securities shall not at the time of delivery be prohibited under the laws of any jurisdiction in the United States to which the purchaser is subject and (ii) if the securities are being sold to underwriters, we shall have sold to the underwriters the total amount of the securities less the amount thereof covered by the contracts. The underwriters and such other agents will not have any responsibility in respect of the validity or performance of such contracts.

To comply with applicable state securities laws, the securities offered by this prospectus will be sold, if necessary, in such jurisdictions only through registered or licensed brokers or dealers. In addition, securities may not be sold in some states unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Underwriters, dealers or agents that participate in the offer of securities, or their affiliates or associates, may have engaged or engage in transactions with and perform services for us or our affiliates in the ordinary course of business for which they may have received or receive customary fees and reimbursement of expenses.

Table of Contents

The aggregate initial offering price of all securities sold hereunder shall not exceed \$200,000,000, as calculated in the manner further described in the registration statement of which this prospectus forms a part. There can be no assurance we will sell all or any of the securities offered hereby.

In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. In addition to the factors set forth in this prospectus and the documents incorporated by reference in this prospectus, including under the section entitled Risk Factors in this prospectus and in our Annual Report on Form 10-K, as amended, for the year ended December 31, 2016 and in any other reports that we file with the SEC, the following factors, among others, could cause actual results to differ materially from the anticipated results: oil and natural gas prices; our ability to raise or access capital; general economic or industry conditions, nationally and/or in the communities in which our company conducts business; changes in the interest rate environment; legislation or regulatory requirements; conditions of the securities markets; changes in accounting principles, policies or guidelines; financial or political instability; acts of war or terrorism; and other economic, competitive, governmental, regulatory and technical factors affecting our operations, products and prices.

Item 15. Indemnification of Directors and Officers

In accordance with Louisiana law, our Charter contains provisions eliminating the personal liability of our directors and officers to the Company and its shareholders for monetary damages for breaches of their fiduciary duties as directors or officers, except for (i) a breach of a director's or officer's duty of loyalty to the Company or its shareholders, (ii) acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law, (iii) dividends or stock repurchases or redemptions that are illegal under Louisiana law, and (iv) any transaction from which a director or officer receives an improper personal benefit. As a result of the inclusion of such provisions, shareholders may be unable to recover monetary damages against directors or officers for actions taken by them that constitute negligence or gross negligence or that are in violation of their fiduciary duties, although it may be possible to obtain injunctive or other equitable relief with respect to such actions. If equitable remedies are found not to be available to shareholders in any particular case, shareholders may not have any effective remedy against the challenged conduct.

We believe that these provisions are necessary to attract and retain qualified individuals to serve as directors and officers. In addition, such provisions will allow directors and officers to perform their duties in good faith without

undue concern about personal liability if a court finds their conduct to have been negligent or grossly negligent. On the other hand, the potential remedies available to our shareholders will be limited, and it is possible, although unlikely, that directors or officers protected by these provisions may not demonstrate the same level of diligence or care that they would otherwise demonstrate.

Our By-laws require us to indemnify its officers and directors against certain expenses and costs, judgments, settlements and fines incurred in the defense of any claim to which they were made parties by reason of being or having been officers or directors, subject to certain conditions and limitations.

Table of Contents

We have entered into indemnity agreements with each of our directors and executive officers, pursuant to which we have agreed under certain circumstances to purchase and maintain directors' and officers' liability insurance. The agreements also provide that we will indemnify the directors and executive officers against any costs and expenses, judgments, settlements and fines incurred in connection with any claim involving a director or executive officer by reason of his position as director or executive officer that are in excess of the coverage provided by any such insurance, provided that the director or executive officer meets certain standards of conduct.

We maintain an insurance policy covering the liability of our directors and executive officers for actions taken in their official capacity. The indemnification contracts provide that, to the extent insurance is reasonably available, we will maintain comparable insurance coverage for each contracting party as long as he serves as an officer or director and thereafter for so long as he is subject to possible personal liability for actions taken in such capacities. The indemnification contracts also provide that if we do not maintain comparable insurance, we will hold harmless and indemnify a contracting party to the full extent of the coverage that would otherwise have been provided for his benefit.

Item 16. Exhibits

Item 17. Undertakings

(a) The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933, as amended (the "Securities Act");
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information in the registration statement. Notwithstanding the foregoing, any increase or decrease in the volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission (the "SEC") pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement; and

- (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement; *provided, however*, that paragraphs (i), (ii) and (iii) above do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in reports filed with or furnished to the SEC by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934, as amended (the Exchange Act), that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.
- (2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the

- securities offered therein, and the offering of such securities in the post-effective amendment at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering (except to the extent otherwise provided under Rule 415(a)(6)).
- (4) That, for the purpose of determining liability under the Securities Act to any purchaser:
- (i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and
 - (ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii), or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.
- (5) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:
- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
 - (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
 - (iii)

The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.
-
- (6) That, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of the securities at that time shall be deemed to be the initial bona fide offering thereof.

- (7) To file an application for the purpose of determining the eligibility of the applicable trustee to act under subsection (a) of Section 310 of the Trust Indenture Act (Act) in accordance with the rules and regulations prescribed by the SEC under Section 305(b)(2) of the Act.
- (b) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrants have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrants of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrants will, unless in the opinion of their counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by them is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
