This page intentionally left blank

Message from the President

During the 12 months ended May 31, 2018, municipal bonds in general provided positive performance. There were, however, some maturity ranges that provided negative returns.

Several factors influenced the municipal market during the reporting period. In particular, the market felt the effects of tax reforms passed in December 2017. These reforms eliminated the tax-exempt status of advance refundings (redemptions prior to the first date when a bond may be called), which issuers had long used to refinance expensive outstanding debt at lower rates. Before the reforms went into effect, many municipal issuers rushed to market, setting a new single-month record of \$60 billion of advance refundings in December 2017.

During the first quarter of 2018, the municipal market worked to digest large dealer inventories left over from the record issuance in December 2017 and significantly decreased new issue supply. These factors, along with excitement surrounding equities in light of the tax changes, burdened the performance of the municipal market. As the U.S. economy continued to expand in early 2018, the Federal Reserve remained hawkish, which also detracted from the performance of municipal bonds.

In the stock market, investors generally saw strong gains during the reporting period. According to FTSE-Russell data, U.S. stocks in general at all capitalization levels provided double-digit returns. Bond performance, on the other hand, was mixed. The Federal Open Market Committee (FOMC) raised the federal funds target range by 25 basis points three times during the reporting period. Although these increases were modest,

U.S. Treasury yields rose across the maturity spectrum during the 12 months ended May 31, 2018. This led to positive returns for the shortest-term U.S. Treasury securities, but negative returns for U.S. Treasury securities with maturities of one year or longer. During the reporting period, asset-backed securities, high yield corporate bonds and convertible securities generally provided positive returns. U.S. agency securities and corporate bonds had mixed results, with some rating categories and maturity ranges providing positive returns and others recording negative results.

The report that follows contains additional information on the market events, investment decisions and specific securities that shaped the performance of MainStay MacKay DefinedTerm Municipal Opportunities Fund during the 12 months ended May 31, 2018.

At MainStay, we encourage you to read the report carefully and use it to evaluate your Fund's performance in light of your long-range financial plan.

Sincerely,

Kirk C. Lehneis

President

Market Price ¹	2.88	7.36	6.11
Bloomberg Barclays Municipal Bond Index ²	1.11	2.92	3.00
Morningstar Muni National Long Category Average ³	2.23	4.59	5.08

Fund Statistics (as of May 31, 2018)

NYSE Symbol	MMD	Premium/Discount ⁴	3.48%
CUSIP	56064K100	Total Net Assets (millions)	\$ 554.3
Inception Date	6/26/12	Total Managed Assets (millions) ⁵	\$ 862.9
Market Price	\$19.41	Leverage ⁶	35.5%
NAV	\$20.11	Percent of AMT Bonds ⁷	2.97%

1. Total returns assume dividends and capital gains distributions are reinvested. For periods of less than one year, total return is not annualized.
2. The Bloomberg Barclays Municipal Bond Index is considered representative of the broad market for investment-grade, tax-exempt bonds with a maturity of at least one year. Bonds subject to the alternative minimum tax or with floating or zero coupons are excluded. An investment cannot be made directly in an index.
3. The Morningstar Muni National Long Category Average is representative of funds that invest in bonds issued by various state and local governments to fund public projects. The income from these bonds is generally free from federal taxes. These portfolios have durations of more than 7 years. Results are based on average total returns of similar funds with all dividends and capital gain distributions reinvested.
4. Premium/Discount is the percentage (%) difference between the market price and the NAV. When the market price

exceeds the NAV, the Fund is

trading at a premium. When the market price is less than the NAV, the Fund is trading at a discount.

5. **Managed Assets** is defined as the Fund's total assets, minus the sum of its accrued liabilities (other than Fund liabilities incurred for the purpose of creating effective leverage (i.e. tender option bonds) or Fund liabilities related to liquidation preference of any Preferred shares issued).
6. **Leverage** is based on the use of proceeds received from tender option bond transactions, issuance of Preferred shares, funds borrowed from banks or other institutions or derivative transactions, expressed as a percentage of Managed Assets.
7. **Alternative Minimum Tax (AMT)** is a separate tax computation under the Internal Revenue Code that, in effect, eliminates many deductions and credits and creates a tax liability for an individual who would otherwise pay little or no tax.

Credit Quality as of May 31, 2018 (Unaudited)

Ratings apply to the underlying portfolio of bonds held by the Fund and are rated by an independent rating agency, such as Standard & Poor's (S&P), Moody's Investors Service, Inc. and/or Fitch Ratings, Inc. If the ratings provided by the ratings agencies differ, the higher rating will be utilized. If only one rating is provided, the available rating will be utilized. Securities that are unrated by the rating agencies are reflected as such in the breakdown. Unrated securities do not necessarily indicate low quality. S&P rates borrowers on a scale from AAA to D. AAA through BBB- represent investment grade, while BB+ through D represent non-investment grade.

As a percentage of Managed Assets.

#Some of these holdings have been transferred to a Tender Option Bond (TOB) Issuer in exchange for the TOB residuals and cash.

As a percentage of total investments.

- (a) As of May 31, 2018, 98.3% of the Puerto Rico municipal securities held by the Fund were insured and all bonds continue to pay full principal and interest.
- (b) Municipal security may feature credit enhancements, such as bond insurance.

6 MainStay MacKay DefinedTerm Municipal Opportunities Fund

Portfolio Management Discussion and Analysis (Unaudited)

Questions answered by portfolio managers Robert DiMella, CFA, John Loffredo, CFA, Michael Petty, Scott Sprauer and David Dowden of MacKay Shields LLC, the Fund's Subadvisor.

How did MainStay MacKay DefinedTerm Municipal Opportunities Fund perform relative to its benchmark and peers during the 12 months ended May 31, 2018?

For the 12 months ended May 31, 2018, MainStay MacKay DefinedTerm Municipal Opportunities Fund returned 5.31% based on net asset value applicable to Common shares and 2.88% based on market price. At net asset value and at market price, the Fund outperformed the 1.11% return of the Bloomberg Barclays Municipal Bond Index¹ and the 2.23% return of the Morningstar Muni National Long Category Average² for the 12 months ended May 31, 2018.

Were there any changes to the Fund during the reporting period?

Effective February 28, 2018, MainStay DefinedTerm Municipal Opportunities Fund was renamed MainStay MacKay DefinedTerm Municipal Opportunities Fund.

What factors affected the Fund's relative performance during the reporting period?

Yield curve³ positioning played an important role in the Fund's relative performance during the reporting period. The Fund's overweight position among bonds maturing in greater than 15 years contributed positively to performance relative to the Bloomberg Barclays Municipal Bond Index, as did positions among bonds maturing between 5 to 7 years. (Contributions take weightings and total returns into account.) Also contributing positively to relative performance was the Fund's credit selection in the special-tax sector, namely bonds issued in Puerto Rico and the U.S. Virgin Islands, as investor sentiment improved following indications of a strong recovery from major hurricanes in 2017. Credit selection in the tobacco sector played a large role in the Fund's relative performance because New Jersey refunded its tobacco-backed debt. This decreased large portions of the tobacco-backed and high-yield sectors, which created an increase in demand for the remaining bonds in these sectors.

How was the Fund's leverage strategy implemented during the reporting period?

During the reporting period, the Fund maintained its leverage, utilizing tender option bonds (TOBs).⁴ While the municipal market has witnessed volatility, the yield curve continues to benefit common stock shareholders with an attractive carry on levered assets. During the reporting period, the Fund had extended its Series A FMTP Shares on November 30, 2017, and its Series B FMTP Shares on March 30, 2018, with Citibank N.A.

During the reporting period, how was the Fund's performance materially affected by investments in derivatives?

The Fund employed a duration⁵ hedge utilizing 10-year U.S. Treasury futures contracts. The hedge was used to manage the Fund's overall duration in relation to the Bloomberg Barclays Municipal Bond Index. The hedge contributed positively to the Fund's performance.

What was the Fund's duration strategy during the reporting period?

The Fund's duration was targeted to remain in a neutral range relative to the Fund's investable universe. At the end of the reporting period, the Fund's modified duration was 3.58 years, or 5.57 years leveraged.

Which market segments were the strongest contributors to the Fund's relative performance, and which market segments were particularly weak?

The Fund's relative performance strongly benefited from holdings in local general obligation, pre-refunded, tobacco, higher education, state general obligation, water/sewer and hospital bonds. The Fund's overweight position in the special-tax sector also contributed positively to relative performance, as Puerto Rico and the U.S. Virgin Islands continued to recover from the hurricanes in the fall of 2017. The Fund's overweight position in credits rated AA and the Fund's security selection in that

1. See footnote on page 5 for more information on the Bloomberg Barclays Municipal Bond Index.
2. See footnote on page 5 for more information on the Morningstar Muni National Long Category Average.
3. The yield curve is a line that plots the yields of various securities of similar quality typically U.S. Treasury issues across a range of maturities. The U.S. Treasury yield curve serves as a benchmark for other debt and is used in economic forecasting.
4. Tender option bonds are obligations that grant the bondholder the right to require the issuer or a third party (e.g., a tender agent) to purchase the bonds, usually at par, at certain times or under certain conditions prior to maturity. The tender option right is usually available to the investor on a periodic basis. Often, these are floating-rate securities, with the put option exercisable on the dates when the floating rate changes.
5. Duration is a measure of the price sensitivity of a fixed-income investment to changes in interest rates. Duration is expressed as a number of years and is considered a more accurate sensitivity gauge than average maturity.
6. Modified duration is inversely related to the approximate percentage change in price for a given change in yield. Duration to worst is the duration of a bond computed using the bond's nearest call date or maturity, whichever comes first. This measure ignores future cash flow fluctuations due to embedded optionality.
7. An obligation rated AA by Standard & Poor's (S&P) is deemed by S&P to differ from the highest-rated obligations only to a small degree. In the opinion of S&P, the obligor's capacity to meet its financial commitment on the obligation is very strong. When applied to Fund holdings, ratings are based solely on the creditworthiness of the bonds in the portfolio and are not meant to represent the security or safety of the Fund.

rating category also contributed substantially to the Fund's relative performance during the reporting period. Detracting from relative performance was the Fund's overweight position in BBB-rated bonds.

Did the Fund make any significant purchases or sales during the reporting period?

As the Fund remains focused on diversification and liquidity, no individual purchase or sale would have been considered significant.

How did the Fund's market segment weightings change during the reporting period?

The Fund's market segment weightings generally remained the same during the reporting period, with a few notable changes along the way. The Fund increased its holdings in the special-tax sector from just under 16% of net assets to over 18.5% as the U.S. Virgin Islands and Puerto Rico continued to recover from the hurricanes that they experienced in the fall of 2017. The Fund also increased its exposure to the industrial

development revenue/pollution control revenue (IDR/PCR) and local general obligation sectors because of recent tax reform changes, which increased demand for local tax-exempt debt during the reporting period. The Fund decreased its exposure to hospitals because of some credit-deteriorating factors. The Fund also decreased its exposure to the pre-refunded sector.

How was the Fund positioned at the end of the reporting period?

As of May 31, 2018, the Fund continued to hold an overweight position relative to the Bloomberg Barclays Municipal Bond Index in the special-tax, hospital, IDR/PCR and water/sewer sectors. As of the same date, the Fund maintained an overweight position in bonds with maturities of 15 years or longer, although recent purchases have concentrated on slightly shorter maturities. As of May 31, 2018, the Fund continued to hold an overweight position relative to the Bloomberg Barclays Municipal Bond Index in bonds rated AA.

8. An obligation rated BBB by S&P is deemed by S&P to exhibit adequate protection parameters. In the opinion of S&P, however, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation. When applied to Fund holdings, ratings are based solely on the creditworthiness of the bonds in the portfolio and are not meant to represent the security or safety of the Fund.

The opinions expressed are those of the portfolio managers as of the date of this report and are subject to change. There is no guarantee that any forecasts made will come to pass. This material does not constitute investment advice and is not intended as an endorsement of any specific investment.

Net Assets Applicable to Common Shares	100.0%	\$ 554,331,759

(a) All or portion of principal amount transferred to a Tender Option Bond (TOB) Issuer in exchange for TOB Residuals and cash.

(b) Interest on these securities was subject to alternative minimum tax.

(c) Variable-rate demand notes (VRDNs) Provide the right to sell the security at face value on either that day or within the rate-reset period. VRDNs will normally trade as if the maturity is the earlier put date, even though stated maturity is longer. The interest rate is reset on the put date at a stipulated daily, weekly, monthly, quarterly, or other specified time interval to reflect current market conditions. These securities do not indicate a reference rate and spread in their description. The maturity date shown is the final maturity.

(d) May be sold to institutional investors only under Rule 144A or securities offered pursuant to Section 4(a)(2) of the Securities Act of 1933, as amended.

(e) Bond insurance is paying principal and interest, since the issuer is in default.

(f) Face value of Floating Rate Notes issued in TOB transactions.

Managed Assets is defined as the Fund's total assets, minus the sum of its accrued liabilities (other than Fund liabilities incurred for the purpose of creating effective leverage (i.e. tender option bonds) or Fund liabilities related to

liquidation preference of any preferred shares issued), which was \$862,873,139 as of May 31, 2018.

Futures Contracts

As of May 31, 2018, the Fund held the following futures contracts¹:

Type	Number of Contracts (Short)	Expiration Date	Value at Current Trade Date	Notional Amount	Unrealized Appreciation (Depreciation) ²
10-Year United States Treasury Note	(1,012)	September 2018	\$ (120,583,824)	\$ (121,882,750)	\$ (1,298,926)

1. As of May 31, 2018, cash in the amount of \$1,012,000 was on deposit with a broker or futures commission merchant for futures transactions.

2. Represents the difference between the value of the contracts at the time they were opened and the value as of May 31, 2018.

The following is a summary of the fair valuations according to the inputs used as of May 31, 2018, for valuing the Fund's assets and liabilities.

Asset Valuation Inputs

Description	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs	Total
	(Level 1)	(Level 2)	(Level 3)	
Investments in Securities (a)				
Municipal Bonds	\$	\$ 853,267,399	\$	\$ 853,267,399

Liability Valuation Inputs

Description	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs	Total
	(Level 1)	(Level 2)	(Level 3)	

Other Financial Instruments

Futures Contracts (b)	\$ (1,298,926)	\$	\$	\$ (1,298,926)
-----------------------	----------------	----	----	----------------

(a) For a complete listing of investments and their industries, see the Portfolio of Investments.

(b) The value listed for these securities reflects unrealized appreciation (depreciation) as shown on the Portfolio of Investments.

The Fund recognizes transfers between the levels as of the beginning of the period.

For the year ended May 31, 2018, the Fund did not have any transfers among levels. (See Note 2)

As of May 31, 2018, the Fund did not hold any investments with significant unobservable inputs (Level 3). (See Note 2)

The notes to the financial statements are an integral part of, and should be read in conjunction with, the financial statements.

Statement of Cash Flows

for the year ended May 31, 2018

Cash flows provided by operating activities:

Net increase in net assets resulting from operations	\$ 28,874,566
Adjustments to reconcile net increase in net assets resulting from operations to net cash provided by operating activities:	
Investments purchased	(193,705,013)
Investments sold	169,385,754
Amortization (accretion) of discount and premium, net	(633,839)
Increase in interest receivable	(518,086)
Decrease in cash collateral on deposit at broker for future contracts	290,600
Increase in other assets	(795)
Decrease in professional fees payable	(7,447)
Increase in custodian payable	814
Decrease in shareholder communication payable	(1,623)
Increase in due to manager	2,076
Increase in due to transfer agent	4,074
Increase in variation margin on futures contracts	102,603
Decrease in investment securities purchased payable	(1,037,276)
Decrease in accrued expenses	(4,748)
Increase in interest expense and fees payable	533,198
Net change in unrealized (appreciation) depreciation on investments	6,142,463
Net realized gain from investments	(1,789,205)
Net cash provided by operating activities	7,638,116

Cash flows used in financing activities:

Net proceeds resulting from reinvestment of dividends	151,997
Cash distributions paid, net of change in Common share dividend payable	(29,761,003)
Net cash used in financing activities	(29,609,006)
Net decrease in cash:	(21,970,890)
Cash at beginning of year	23,370,261
Cash at end of year	\$ 1,399,371

Cash payments recognized as interest expense on the Fund's Fixed Rate Municipal Term Preferred Shares for the year ended May 31, 2018, were \$1,587,997. Net increase in net assets resulting from operations for the year ended May 31, 2018, includes \$4,504,634 of non-cash interest income and non-cash interest expense on floating rate note obligations related to the Fund's tender option bonds.

The notes to the financial statements are an integral part of, and should be read in conjunction with, the financial statements.

Financial Highlights selected per share data and ratios

	2018		2017		Year ended May 31, 2016		2015

Notes to Financial Statements

Note 1 Organization and Business

MainStay MacKay DefinedTerm Municipal Opportunities Fund (formerly known as MainStay DefinedTerm Municipal Opportunities Fund) (the Fund) was organized as a Delaware statutory trust on April 20, 2011, pursuant to an agreement and declaration of trust, which was amended and restated on June 4, 2015 (Declaration of Trust). The Fund is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a diversified, closed-end management investment company, as those terms are defined in the 1940 Act, as interpreted or modified by regulatory authorities having jurisdiction, from time to time. The Fund first offered Common shares through an initial public offering on June 26, 2012.

Pursuant to the terms of the Declaration of Trust, the Fund will commence the process of liquidation and dissolution at the close of business on December 31, 2024 (the Termination Date) unless otherwise extended by a majority of the Board of Trustees (the Board) (as discussed in further detail below). During the six-month period preceding the Termination Date or Extended Termination Date (as defined below), the Board may, without shareholder approval unless such approval is required by the 1940 Act, determine to (i) merge or consolidate the Fund so long as the surviving or resulting entity is an open-end registered investment company that is managed by the same investment adviser which serves as the investment adviser to the Fund at that time or is an affiliate of such investment adviser; or (ii) convert the Fund from a closed-end fund into an open-end registered investment company. Upon liquidation and termination of the Fund, shareholders will receive an amount equal to the Fund's net asset value (NAV) at that time, which may be greater or less than the price at which Common shares were issued. The Fund's investment objectives and policies are not designed to return to investors who purchased Common shares in the initial offering of such shares their initial investment on the Termination Date and such initial investors may receive more or less than their original investment upon termination.

Prior to the commencement of the six-month period preceding the Termination Date, a majority of the Board may extend the Termination Date for a period of not more than two years or such shorter time as may be determined (the Extended Termination Date), upon a determination that taking such actions as described in (i) or (ii) above would not, given prevailing market conditions, be in the best interests of the Fund's shareholders. The Termination Date may be extended an unlimited number of times by the Board prior to the first business day of the sixth month before the next occurring Extended Termination Date.

The Fund's primary investment objective is to seek current income exempt from regular U.S. Federal income taxes (but which may be includable in taxable income for purpose of the Federal alternative minimum tax). Total return is a secondary objective.

Note 2 Significant Accounting Policies

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification *Topic 946 Financial Services - Investment Companies*. The Fund prepares its financial statements in accordance with generally accepted

accounting principles (GAAP) in the United States of America and follows the significant accounting policies described below.

(A) Securities Valuation. Investments are usually valued as of the close of regular trading on the New York Stock Exchange (the Exchange) (usually 4:00 p.m. Eastern time) on each day the Fund is open for business (valuation date).

The Board adopted procedures establishing methodologies for the valuation of the Fund's securities and other assets and delegated the responsibility for valuation determinations under those procedures to the Valuation Committee of the Fund (the Valuation Committee). The Board authorized the Valuation Committee to appoint a Valuation Subcommittee (the Subcommittee) to deal in the first instance with establishing the prices of securities for which market quotations are not readily available or the prices of which are not otherwise readily determinable under these procedures. The Subcommittee meets (in person, via electronic mail or via teleconference) on an as-needed basis. Subsequently, the Valuation Committee meets to ensure that actions taken by the Subcommittee were appropriate. The procedures state that, subject to the oversight of the Board and unless otherwise noted, the responsibility for the day-to-day valuation of portfolio assets (including fair value measurements for the Fund's assets and liabilities) rests with New York Life Investment Management LLC (New York Life Investments or the Manager), aided to whatever extent necessary by the Subadvisor (as defined in Note 3(A)).

To assess the appropriateness of security valuations, the Manager, the Subadvisor or the Fund's third-party service provider, who is subject to oversight by the Manager, regularly compares prior day prices, prices on comparable securities, and the sale prices to the prior and current day prices and challenges prices with changes exceeding certain tolerance levels with third party pricing services or broker sources. For those securities valued through either a standardized fair valuation methodology or a fair valuation measurement, the Subcommittee deals in the first instance with such valuation and the Valuation Committee reviews and affirms, if appropriate, the reasonableness of the valuation based on such methodologies and measurements on a regular basis after considering information that is reasonably available and deemed relevant by the Valuation Committee. Any action taken by the Subcommittee with respect to the valuation of a portfolio security or other asset is submitted for review and ratification (if appropriate) to the Valuation Committee and the Board at the next regularly scheduled meeting.

Fair value is defined as the price the Fund would reasonably expect to receive upon selling an asset or liability in an orderly transaction to an independent buyer in the principal or most advantageous market for the asset or liability. Fair value measurements are determined within a framework that establishes a three-tier hierarchy which maximizes the use of observable market data and minimizes the use of unobservable inputs to establish a classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, such as the risk inherent in a particular valuation technique used to measure fair value using a pricing model and/or the risk inherent in the inputs for the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on

Notes to Financial Statements (continued)

market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the information available. The inputs or methodology used for valuing assets or liabilities may not be an indication of the risks associated with investing in those assets or liabilities. The three-tier hierarchy of inputs is summarized below.

Level 1 quoted prices in active markets for an identical asset or liability

Level 2 other significant observable inputs (including quoted prices for a similar asset or liability in active markets, interest rates and yield curves, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including the Fund's own assumptions about the assumptions that market participants would use in measuring fair value of an asset or liability)

The level of an asset or liability within the fair value hierarchy is based on the lowest level of an input, both individually and in the aggregate, that is significant to the fair value measurement. As of May 31, 2018, the aggregate value by input level of the Fund's assets and liabilities is included at the end of the Fund's Portfolio of Investments.

The Fund may use third-party vendor evaluations, whose prices may be derived from one or more of the following standard inputs, among others:

Benchmark yields	Reported trades
Broker/dealer quotes	Issuer spreads
Two-sided markets	Benchmark securities
Bids/offers	Reference data (corporate actions or material event notices)
Industry and economic events	Comparable bonds
Monthly payment information	

An asset or liability for which market values cannot be measured using the methodologies described above is valued by methods deemed reasonable in good faith by the Valuation Committee, following the procedures established by the Board, to represent fair value. Under these procedures, the Fund generally uses a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information. The Fund may also use an income-based valuation approach in which the anticipated future cash flows of the asset or liability are discounted to calculate fair value. Discounts may also be applied due to the nature and/or duration of any restrictions on the disposition of the asset or liability. Fair value represents a good faith approximation of the value of a security. Fair value determinations involve the consideration of a number of subjective factors, an analysis of applicable facts and circumstances and the exercise of judgment. As a result, it is possible that the fair value for a security determined in good faith in accordance with the Fund's valuation procedures may differ from valuations for the same security determined by other funds using their own valuation procedures. Although the Fund's valuation procedures are designed to value a security at the price the Fund may reasonably expect to receive upon the security's sale in an orderly transaction, there can be no assurance that any fair value determination thereunder would, in fact,

approximate the amount that the Fund would actually realize upon the sale of the security or the price at which the security would trade if a reliable market price were readily available. During the year ended May 31, 2018, there were no material changes to the fair value methodologies.

Securities which may be valued in this manner include, but are not limited to: (i) a security for which trading has been halted or suspended; (ii) a debt security that has recently gone into default and for which there is not a current market quotation; (iii) a security of an issuer that has entered into a restructuring; (iv) a security that has been de-listed from a national exchange; (v) a security for which the market price is not readily available from a third-party pricing source or, if so provided, does not, in the opinion of the Manager or the Subadvisor, reflect the security's market value; (vi) a security subject to trading collars for which no or limited trading takes place; and (vii) a security whose principal market has been temporarily closed at a time when, under normal conditions, it would be open. Securities for which market quotations or observable inputs are not readily available are generally categorized as Level 3 in the hierarchy. As of May 31, 2018, there were no securities held by the Fund that were fair valued in such a manner.

Futures contracts are valued at the last posted settlement price on the market where such futures are primarily traded and are generally categorized as Level 1 in the hierarchy.

Municipal debt securities are valued at the evaluated mean prices supplied by a pricing agent or broker selected by the Manager, in consultation with the Subadvisor. Those values reflect broker/dealer supplied prices and electronic data processing techniques, if the evaluated bid or mean prices are deemed by the Manager, in consultation with the Subadvisor, to be representative of market values, at the regular close of trading of the Exchange on each valuation date. Debt securities purchased on a delayed delivery basis are marked to market daily until settlement at the forward settlement date. Municipal debt securities are generally categorized as Level 2 in the hierarchy.

Temporary cash investments acquired in excess of 60 days to maturity at the time of purchase are valued using the latest bid prices or using valuations based on a matrix system (which considers such factors as security prices, yields, maturities and ratings), both as furnished by independent pricing services. Other temporary cash investments which mature in 60 days or less at the time of purchase (Short-Term Investments) are valued using the amortized cost method of valuation, unless the use of such method would be inappropriate. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of the difference between such cost and the value on maturity date. Amortized cost approximates the current fair value of a security. Securities valued using the amortized cost method are not valued using quoted prices in an active market and are generally categorized as Level 2 in the hierarchy.

The information above is not intended to reflect an exhaustive list of the methodologies that may be used to value portfolio investments. The valuation procedures permit the use of a variety of valuation methodologies in connection with valuing portfolio investments. The methodology used for a specific type of investment may vary based on the market data available or other considerations. The methodologies

summarized above may not represent the specific means by which portfolio investments are valued on any particular business day.

(B) **Income Taxes.** The Fund's policy is to comply with the requirements of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code), applicable to regulated investment companies and to distribute all of its taxable income to the shareholders of the Fund within the allowable time limits. Therefore, no federal, state and local income tax provisions are required.

Management evaluates the Fund's tax positions to determine if the tax positions taken meet the minimum recognition threshold in connection with accounting for uncertainties in income tax positions taken or expected to be taken for the purposes of measuring and recognizing tax liabilities in the financial statements. Recognition of tax benefits of an uncertain tax position is permitted only to the extent the position is more likely than not to be sustained assuming examination by taxing authorities. Management has analyzed the Fund's tax positions taken on federal, state and local income tax returns for all open tax years (for up to three tax years), and has concluded that no provisions for federal, state and local income tax are required in the Fund's financial statements. The Fund's federal, state and local income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state and local departments of revenue.

(C) **Dividends and Distributions to Common Shareholders.** Dividends and distributions are recorded on the ex-dividend date. The Fund intends to declare dividends from net investment income, after payment of any dividends on any outstanding Preferred shares, if any, at least monthly and declares and pays distributions from net realized capital gains, if any, at least annually. To the extent that the Fund realizes any capital gains or ordinary taxable income, it will be required to allocate such income between the Common shares and Preferred shares issued by the Fund, in proportion to the total dividends paid to each share class for the year in which the income is realized.

(D) **Security Transactions and Investment Income.** The Fund records security transactions on the trade date. Realized gains and losses on security transactions are determined using the identified cost method. Interest income is accrued as earned using the effective interest rate method. Discounts and premiums on securities purchased, other than Short-Term Investments, for the Fund are accreted and amortized, respectively, on the effective interest rate method over the life of the respective securities. Discounts and premiums on Short-Term Investments are accreted and amortized, respectively, on the straight-line method. The straight-line method approximates the effective interest method for Short-Term Investments.

The Fund may place a debt security on non-accrual status and reduce related interest income by ceasing current accruals and writing off all or a portion of any interest receivables when the collection of all or a portion of such interest has become doubtful. A debt security is removed from non-accrual status when the issuer resumes interest payments or when collectability of interest is reasonably assured.

(E) **Expenses.** Expenses of the Fund are recorded on the date the expenses are incurred. The expenses borne by the Fund, including those of related parties to the Fund, are shown in the Statement of Operations. Certain expenses of the Fund are allocated in proportion to other funds within the MainStay Group of Funds.

(F) **Use of Estimates.** In preparing financial statements in conformity with GAAP, management makes estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

(G) **Futures Contracts.** A futures contract is an agreement to purchase or sell a specified quantity of an underlying instrument at a specified future date and price, or to make or receive a cash payment based on the value of a financial instrument (e.g., foreign currency, interest rate, security or securities index). The Fund is subject to risks such as market price risk and/or interest rate risk in the normal course of investing in these transactions. Upon entering into a

futures contract, the Fund is required to pledge to the broker or futures commission merchant an amount of cash and/or U.S. government securities equal to a certain percentage of the collateral amount, known as the initial margin. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized appreciation or depreciation by marking to market such contract on a daily basis to reflect the market value of the contract at the end of each day's trading. The Fund agrees to receive from or pay to the broker or futures commission merchant an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin. When the futures contract is closed, the Fund records a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund's basis in the contract.

The use of futures contracts involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities. The contract or notional amounts and variation margin reflect the extent of the Fund's involvement in open futures positions. There are several risks associated with the use of futures contracts as hedging techniques. There can be no assurance that a liquid market will exist at the time when the Fund seeks to close out a futures contract. If no liquid market exists, the Fund would remain obligated to meet margin requirements until the position is closed. Futures may involve a small initial investment relative to the risk assumed, which could result in losses greater than if they had not been used. Futures may be more volatile than direct investments in the instrument underlying the futures and may not correlate to the underlying instrument, causing a given hedge not to achieve its objectives. The Fund's activities in futures contracts have minimal counterparty risk as they are conducted through regulated exchanges that guarantee the futures against default by the counterparty. In the event of a bankruptcy or insolvency of a futures commission merchant that holds margin on behalf of the Fund, the Fund may not be entitled to the return of the entire margin owed to the Fund, potentially resulting in a loss. The Fund may invest in futures contracts to seek enhanced returns or to reduce the risk of loss by hedging certain of its holdings. The Fund's investment in futures contracts and other derivatives may increase the volatility of the Fund's NAV and may result in a loss to the Fund. As of May 31, 2018, all open futures contracts are shown in the Portfolio of Investments.

(H) Securities Lending. In order to realize additional income, the Fund may engage in securities lending, subject to the limitations set forth in the 1940 Act and relevant guidance by the staff of the Securities and Exchange Commission (SEC). In the event the Fund does engage

Notes to Financial Statements (continued)

in securities lending, the Fund will lend through its custodian, State Street Bank and Trust Company (State Street). State Street will manage the Fund's collateral in accordance with the lending agreement between the Fund and State Street, and indemnify the Fund against counterparty risk. The loans will be collateralized by U.S. Treasury securities at least equal at all times to the market value of the securities loaned. The Fund may bear the risk of delay in recovery of, or loss of rights in, the securities loaned should the borrower of the securities experience financial difficulty. The Fund may also record a realized gain or loss on securities deemed sold due to a borrower's inability to return securities on loan. The Fund bears the risk of any loss on investment of the collateral. The Fund will receive compensation for lending its securities in the form of fees or it will retain a portion of interest on the investment of any cash received as collateral. The Fund will also continue to receive interest and dividends on the securities loaned and any gain or loss in the market price of the securities loaned that may occur during the term of the loan will be for the account of the Fund. During the year ended May 31, 2018, the Fund did not have any portfolio securities on loan.

(I) Tender Option Bonds. The Fund may leverage its assets through the use of proceeds received from tender option bond (TOB) transactions. In a TOB transaction, a tender option bond trust (a TOB Issuer) is typically established, which forms a special purpose trust into which the Fund, or an agent on behalf of the Fund, transfers municipal bonds or other municipal securities (Underlying Securities). A TOB Issuer typically issues two classes of beneficial interests: short-term floating rate notes (TOB Floaters) with a fixed principal amount representing a senior interest in the Underlying Securities, and which are sold to third party investors, and residual interest municipal tender option bonds (TOB Residuals) representing a subordinate interest in the Underlying Securities, and which are generally issued to the Fund. The interest rate on the TOB Floaters resets periodically, usually weekly, to a prevailing market rate, and holders of the TOB Floaters are granted the option to tender their TOB Floaters back to the TOB Issuer for repurchase at their principal amount plus accrued interest thereon periodically, usually daily or weekly. The Fund may invest in both TOB Floaters and TOB Residuals. The Fund may not invest more than 5% of its Managed Assets (as defined in Note 3(A)) in any single TOB Issuer. The Fund may invest in both TOB Floaters and TOB Residuals issued by the same TOB Issuer.

Historically, the TOB Issuers in which the Fund has invested have been sponsored by banking entities. However, it is no longer practical for banking entities to perform this role due to Section 619 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and the rules thereunder (collectively, the Volcker Rule). The Volcker Rule generally prohibits banking entities from engaging in proprietary trading or from acquiring or retaining an ownership interest in, or sponsoring, a hedge fund or private equity fund (covered fund), subject to certain exemptions and limitations on those exemptions, as defined in the Rule. TOB programs generally are considered to be covered funds under the Volcker Rule, and, thus, may not be sponsored by a banking entity absent an applicable exemption. The Volcker Rule does not provide for any exemption that would allow banking entities to sponsor TOBs in the same manner as they did prior to the Volcker Rule's effectiveness and compliance date, which was July 21, 2017.

As a result of the Volcker Rule, a new structure for TOBs has been designed wherein a banking entity does not serve as the sponsor of the TOB Issuer, but rather a fund serves as the sponsor of the TOB issuer (Fund-sponsored TOB). Under this structure, a fund establishes, structures and sponsors the TOB Issuer in which it holds TOB Residuals. Certain responsibilities that previously belonged to a third-party banking entity are performed by, or on behalf of, the fund sponsoring the Fund-sponsored TOB. The Fund's investments in TOBs that were sponsored by banking entities, have been restructured using this Fund-sponsored structure. The Fund uses this or a similar structure for any TOB in which it invests. In connection with Fund-sponsored TOBs, the Fund may contract with a third-party to perform some or all of the Fund's duties as sponsor. Regardless of whether the Fund delegates any of its sponsorship duties to a third party, the Fund's expanded role under the Fund-sponsored TOB structure may increase its operational and regulatory risk. If the third-party is unable to perform its obligations as an administrative agent, the Fund itself would be subject

to such obligations or would need to secure a replacement agent. The obligations that the Fund may be required to undertake could include reporting and recordkeeping obligations under the Internal Revenue Code and federal securities laws and contractual obligations with other TOB service providers. The effectiveness of the new Fund-sponsored TOB structure is uncertain. There is a risk that the Fund-sponsored TOB structure will not prove as effective a source of leverage for the Fund, which could adversely affect Fund performance.

Under the Fund-sponsored TOB structure, the TOB Issuer receives Underlying Securities from the Fund through (or as) the sponsor and then issues TOB Floaters to third party investors and TOB Residuals to the Fund. The Fund is paid the cash (less transaction expenses, which are borne by the Fund) received by the TOB Issuer from the sale of TOB Floaters and typically will invest the cash in additional municipal bonds or other investments permitted by its investment policies. TOB Floaters may have first priority on the cash flow from the securities held by the TOB Issuer and are enhanced with a liquidity support arrangement from a bank or an affiliate of the sponsor (the liquidity provider), which allows holders to tender their position back to the TOB Issuer at par (plus accrued interest). The Fund, in addition to receiving cash from the sale of TOB Floaters, also receives TOB Residuals. TOB Residuals provide the Fund with the right to (1) cause the holders of TOB Floaters to tender their notes to the TOB Issuer at par (plus accrued interest), and (2) acquire the Underlying Securities from the TOB Issuer. In addition, all voting rights and decisions to be made with respect to any other rights relating to the Underlying Securities deposited in the TOB Issuer are passed through to the Fund, as the holder of TOB Residuals. Such a transaction, in effect, creates exposure for the Fund to the entire return of the Underlying Securities deposited in the TOB Issuer, with a net cash investment by the Fund that is less than the value of the Underlying Securities deposited in the TOB Issuer. This multiplies the positive or negative impact of the Underlying Securities' return within the Fund (thereby creating leverage). Income received from TOB Residuals will vary inversely with the short term rate paid to holders of TOB Floaters and in most circumstances, TOB Residuals represent substantially all of the Underlying Securities' downside investment risk and also benefits disproportionately from any potential appreciation of the Underlying Securities' value. The amount of such increase or decrease is a function, in part, of the amount of TOB Floaters sold by the TOB Issuer of

these securities relative to the amount of TOB Residuals that it sells. The greater the amount of TOB Floaters sold relative to TOB Residuals, the more volatile the income paid on TOB Residuals will be. The price of TOB Residuals will be more volatile than that of the Underlying Securities because the interest rate is dependent on not only the fixed coupon rate of the Underlying Securities, but also on the short-term interest rate paid on TOB Floaters.

For TOB Floaters, generally, the interest rate earned will be based upon the market rates for municipal securities with maturities or remarketing provisions that are comparable in duration to the periodic interval of the tender option, which may vary from weekly, to monthly, to extended periods of one year or multiple years. Since the option feature has a shorter term than the final maturity or first call date of the Underlying Securities deposited in the TOB Issuer, the Fund, if it is the holder of the TOB Floaters, relies upon the terms of the agreement with the financial institution furnishing the option as well as the credit strength of that institution. As further assurance of liquidity, the terms of the TOB Issuer provide for a liquidation of the Underlying Security deposited in the TOB Issuer and the application of the proceeds to pay off the TOB Floaters.

The TOB Issuer may be terminated without the consent of the Fund upon the occurrence of certain events, such as the bankruptcy or default of the issuer of the Underlying Securities deposited in the TOB Issuer, a substantial downgrade in the credit quality of the issuer of the securities deposited in the TOB Issuer, the inability of the TOB Issuer to obtain liquidity support for the TOB Floaters, a substantial decline in the market value of the Underlying Securities deposited in the TOB Issuer, or the inability of the sponsor to remarket any TOB Floaters tendered to it by holders of the TOB Floaters. In such an event, the TOB Floaters would be redeemed by the TOB Issuer at par (plus accrued interest) out of the proceeds from a sale of the Underlying Securities deposited in the TOB Issuer. If this happens, the Fund would be entitled to the assets of the TOB Issuer, if any, that remain after the TOB Floaters have been redeemed at par (plus accrued interest). If there are insufficient proceeds from the sale of these Underlying Securities to redeem all of the TOB Floaters at par (plus accrued interest), the liquidity provider or holders of the TOB Floaters would bear the losses on those securities and there would be no recourse to the Fund's assets (unless the Fund held a recourse TOB Residual).

Pursuant to the Volcker Rule, to the extent that the remarketing agent is a banking entity, it would not be able to repurchase tendered TOB Floaters for its own account upon a failed remarketing. In the event of a failed remarketing, a banking entity serving as liquidity provider may loan the necessary funds to the TOB Issuer to purchase the tendered TOB Floaters. The TOB Issuer, not the Fund, would be the borrower and the loan from the liquidity provider will be secured by the purchased TOB Floaters now held by the TOB Issuer. However, the Fund would bear the risk of loss with respect to any liquidity shortfall to the extent it entered into a reimbursement agreement with the liquidity provider.

For financial reporting purposes, Underlying Securities that are deposited into a TOB Issuer are treated as investments of the Fund, and are presented in the Fund's Portfolio of Investments. Outstanding TOB Floaters issued by a TOB Issuer are presented as a liability at their face value as Payable for Floating Rate Note Obligations in the Fund's Statement of Assets and Liabilities. The face value of the TOB Floaters approximates their fair value of the floating rate notes. Interest income

from the Underlying Securities are recorded by the Fund on an accrual basis. Interest expense incurred on the TOB Floaters and other expenses related to remarketing, administration and trustee services to a TOB Issuer are recognized as a component of Interest expense and fees in the Statement of Operations.

At May 31, 2018, the aggregate value of the Underlying Securities transferred to the TOB Issuer and the related liability for TOB Floaters were as follows:

Underlying	Liability for
Securities Transferred	Floating Rate Note
to TOB Issuers	Obligations
\$412,534,289	\$236,340,000

During the year ended May 31, 2018, the Fund's average TOB Floaters outstanding and the daily weighted average interest rate, including fees, were as follows:

Average	Daily Weighted
Floating Rate Note	Average
Obligations Outstanding	Interest Rate
\$236,340,000	1.91%

(J) Fixed Rate Municipal Term Preferred Shares. On October 4, 2012, the Fund issued and has outstanding, two series of Fixed Rate Municipal Term Preferred Shares (Series A FMTP Shares and Series B FMTP Shares , collectively, FMTP Shares), each with a liquidation preference of \$100,000 per share (Liquidation Preference). Dividends on FMTP Shares, which are recognized as interest expense for financial reporting purposes, are paid semiannually at a fixed annual rate, subject to adjustments in certain circumstances. The FMTP Shares were issued in a private offering exempt from registration under the Securities Act of 1933, as amended.

The Fund is obligated to redeem its FMTP Shares by the date as specified in its offering document (Term Redemption), unless redeemed earlier by the Fund. FMTP Shares are subject to optional and mandatory redemption in certain circumstances. FMTP Shares will be subject to redemption, at the option of the Fund (Optional Redemption), in whole or in part at any time only for the purposes of decreasing leverage of the Fund. The Fund may be obligated to redeem certain of the FMTP Shares if the Fund fails to maintain certain asset coverage and leverage ratio requirements and such failures are not cured by the applicable cure date. The Optional Redemption price per share is equal to the sum of the Liquidation Preference per share plus any accrued but unpaid dividends.

As of May 31, 2018, the number of FMTP Shares outstanding and annual dividend rate were as follows:

Series	Dates of Issuance	Shares	Annual
		Outstanding	Dividend Rate
A	October 4, 2012 (a)	350	2.78%
B	October 4, 2012 (b)	350	3.01%

(a) Effective November 30, 2017, the Board agreed, among other things, to extend the Term Redemption date and revise the annual dividend rate of the Series A FMTP Shares. Prior to November 30, 2017,

Notes to Financial Statements (continued)

the Term Redemption date for Series A FMTP Shares was May 31, 2018 and the annual dividend rate was 2.07%.

(b) Effective March 30, 2018, the Board agreed, among other things, to extend the Term Redemption date and revise the annual dividend rate of the Series B FMTP Shares. Prior to March 30, 2018, the Term Redemption date for Series B FMTP Shares was November 30, 2018 and the annual dividend rate was 1.89%.

As of May 31, 2018, the Term Redemption date and liquidation value for the FMTP Shares outstanding were as follows:

Series	Term Redemption Date	Liquidation Value
A	November 30, 2020	\$ 35,445,959
B	May 31, 2021	\$ 35,369,611

For financial reporting purposes only, the liquidation value of FMTP Shares is recorded as a liability on the Statement of Assets and Liabilities. Unpaid dividends on FMTP Shares are recognized as a component of Interest expense and fees payable on the Statement of Assets and Liabilities. Dividends accrued on FMTP Shares are recognized as a component of Interest expense and fees in the Statement of Operations.

(K) Statement of Cash Flows. The cash amount shown in the Fund's Statement of Cash Flows is the amount included in the Fund's Statement of Assets and Liabilities and represents the cash on hand at its custodian.

(L) Municipal Bond Risk. The Fund may invest more heavily in municipal bonds from certain cities, states, territories, or regions than others, which may increase the Fund's exposure to losses resulting from economic, political, or regulatory occurrences impacting these particular cities, states, territories or regions. In addition, many state and municipal governments that issue securities are under significant economic and financial stress and may not be able to satisfy their obligations. The Fund may invest a substantial amount of its assets in municipal bonds whose interest is paid solely from revenues of similar projects, such as tobacco settlement bonds. If the Fund concentrates its investments in this manner, it assumes the legal and economic risks relating to such projects and this may have a significant impact on the Fund's investment performance. Certain of the issuers in which the Fund may invest have recently experienced, or may experience, significant financial difficulties and repeated credit rating downgrades. On May 3, 2017, the Commonwealth of Puerto Rico began proceedings to seek bankruptcy-type protections from approximately \$74 billion in debt and approximately \$48 billion in unfunded pension obligations. Puerto Rico's debt restructuring of \$122 billion is significantly larger than the previous largest U.S. public bankruptcy, which covered approximately \$18 billion of debt for the city of Detroit. Puerto Rico's debt restructuring process and other economic factors or developments, which could occur rapidly, may significantly affect the value of municipal securities of Puerto Rico. In September 2017, the Commonwealth of Puerto Rico did experience severe damage from Hurricane Maria which has impacted the island's economy and has delayed the resolution of the debt restructuring as timetables are being revised. The Fund's vulnerability to potential losses associated with such developments may be reduced through investing in municipal securities that feature credit enhance-

ments (such as bond insurance). The bond insurance provider pays both principal and interest when due to the bond holder. The magnitude of Puerto Rico's debt restructuring or other adverse economic developments could pose significant strains on the ability of municipal securities insurers to meet all future claims. As of May 31, 2018, 98.3% of the Puerto Rico municipal securities held by the Fund were insured. The Fund's largest bond insurance provider,

Edgar Filing: MainStay MacKay DefinedTerm Municipal Opportunities Fund - Form N-CSR

Assured Guaranty Municipal Corp., insured certain Puerto Rico municipal securities totalling 12.4% of the Fund's net assets. Those securities, whose principal and interest are covered by bond insurance providers, are shown in the Portfolio of Investments.

(M) Indemnifications. Under the Fund's organizational documents, its officers and trustees are indemnified against certain liabilities that may arise out of performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with third-party service providers that contain a variety of representations and warranties and which may provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. Based on experience, management is of the view that the risk of loss in connection with these potential indemnification obligations is remote. However, there can be no assurance that material liabilities related to such obligations will not arise in the future, which could adversely impact the Fund.

(N) Quantitative Disclosure of Derivative Holdings. The following tables show additional disclosures related to the Fund's derivative and hedging activities, including how such activities are accounted for and their effect on the Fund's financial positions, performance and cash flows. The Fund entered into United States Treasury Bond futures contracts to help manage the duration and yield curve positioning of the portfolio. These derivatives are not accounted for as hedging instruments.

Fair value of derivative instruments as of May 31, 2018:

Liability Derivatives

	Statement of Assets and Liabilities Location	Interest Rate Contracts Risk	Total
Futures Contracts	Net Assets Net unrealized depreciation on investments and futures contracts (a)	\$ (1,298,926)	\$ (1,298,926)
Total Fair Value		\$ (1,298,926)	\$ (1,298,926)

(a) Includes cumulative appreciation (depreciation) of futures contracts as reported in the Portfolio of Investments. Only current day's variation margin is reported within the Statement of Assets and Liabilities.

The effect of derivative instruments on the Statement of Operations for the year ended May 31, 2018:

Realized Gain (Loss)

	Statement of Operations Location	Interest Rate Contracts Risk	Total
Futures Contracts	Net realized gain (loss) on futures transactions	\$ 4,980,377	\$ 4,980,377
Total Realized Gain (Loss)		\$ 4,980,377	\$ 4,980,377

Change in Unrealized Appreciation (Depreciation)

	Statement of Operations Location	Interest Rate Contracts Risk	Total
Futures Contracts	Net change in unrealized appreciation (depreciation) on futures contracts	\$ (576,133)	\$ (576,133)

Total Change in

Unrealized Appreciation

(Depreciation) \$ (576,133) \$ (576,133)

Average Notional Amount

	Interest Rate Contracts Risk	Total
Futures Contracts Short	\$ (123,980,097)	\$ (123,980,097)

Note 3 Fees and Related Party Transactions

(A) Manager and Subadvisor. New York Life Investments, a registered investment adviser and an indirect, wholly-owned subsidiary of New York Life Insurance Company (New York Life), serves as the Fund's Manager,

Edgar Filing: MainStay MacKay DefinedTerm Municipal Opportunities Fund - Form N-CSR

pursuant to an Amended and Restated Management Agreement (Management Agreement). The Manager provides offices, conducts clerical, recordkeeping and bookkeeping services, and keeps most of the financial and accounting records required to be maintained by the Fund. Except for the portion of salaries and expenses that are the responsibility of the Fund, the Manager pays the salaries and expenses of all personnel affiliated with the Fund and certain operational expenses of the Fund. The Fund reimburses New York Life Investments in an amount equal to a portion of the compensation of the Chief Compliance Officer attributable to the Fund. MacKay Shields LLC (MacKay Shields or the Subadvisor), a registered investment adviser and an indirect, wholly-owned subsidiary of New York Life, serves as Subadvisor to the Fund and is responsible for the day-to-day portfolio management of the Fund. Pursuant to the terms of a Subadvisory Agreement (Subadvisory Agreement) between New York Life Investments and MacKay Shields, New York Life Investments pays for the services of the Subadvisor.

Under the Management Agreement, the Fund pays the Manager a monthly fee for services performed and the facilities furnished at an

annual rate of 0.60% of the Managed Assets . Managed Assets is defined as the Fund s total assets, minus the sum of its accrued liabilities (other than Fund liabilities incurred for the purpose of creating effective leverage (i.e. tender option bonds) or Fund liabilities related to liquidation preference of any Preferred shares issued).

During the year ended May 31, 2018, New York Life Investments earned fees from the Fund in the amount of \$5,168,514.

State Street provides sub-administration and sub-accounting services to the Fund pursuant to an agreement with New York Life Investments. These services include calculating the daily NAV of the Fund, maintaining the general ledger and sub-ledger accounts for the calculation of the Fund s NAV, and assisting New York Life Investments in conducting various aspects of the Fund s administrative operations. For providing these services to the Fund, State Street is compensated by New York Life Investments.

Effective December 22, 2017, pursuant to an agreement between the Trust and New York Life Investments, New York Life Investments is responsible for providing or procuring certain regulatory reporting services for the Fund. The Fund will reimburse New York Life Investments for the actual costs incurred by New York Life Investments in connection with providing or procuring these services for the Fund.

(B) Transfer, Dividend Disbursing and Shareholder Servicing Agent. Computershare Trust Company, N.A. (Computershare), 250 Royall Street, Canton, Massachusetts, 02021, is the Fund s transfer, dividend disbursing and shareholder servicing agent pursuant to an agreement between the Fund and Computershare.

Note 4 Federal Income Tax

As of May 31, 2018, the cost and unrealized appreciation (depreciation) of the Fund s investment portfolio, including applicable derivative contracts and other financial instruments, as determined on a federal income tax basis, was as follows:

	Federal Tax	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation/Depreciation
Investments in Securities	\$ 570,018,221	\$ 51,805,439	\$ (4,896,261)	\$ 46,909,178

The difference between book-basis and federal tax cost basis is due to the TOB transactions.

Edgar Filing: MainStay MacKay DefinedTerm Municipal Opportunities Fund - Form N-CSR

As of May 31, 2018, the components of accumulated gain (loss) on a tax basis was as follows:

Ordinary Income	Accumulated Capital and Other Gain (Loss)	Other Temporary Differences	Unrealized Appreciation (Depreciation)	Total Accumulated Gain (Loss)
\$1,840,190	\$(16,458,958)	\$(1,160,183)	\$45,361,913	\$29,582,962

The difference between book-basis and tax basis unrealized depreciation is due to TOB transactions and marked to market of futures contracts.

The other temporary differences are primarily due to dividends payable.

Notes to Financial Statements (continued)

The following table discloses the current year reclassifications between undistributed net investment income (loss), accumulated net realized gain (loss) on investments and additional paid-in capital, arising from permanent differences; net assets as of May 31, 2018, were not affected.

Undistributed Net Investment Income (Loss)	Accumulated Net Realized Gain (Loss) on Investments	Additional Paid-In Capital
\$(16,048)	\$16,048	\$

The reclassifications for the Fund are primarily due to Amortization and TOB transactions.

As of May 31, 2018, for federal income tax purposes, capital loss carryforwards of \$16,458,958 were available as shown in the table below, to

the extent provided by the regulations to offset future realized gains of the Fund through the years indicated. To the extent that these capital loss carryforwards are used to offset future capital gains, it is probable that the capital gains so offset will not be distributed to shareholders. No capital gain distributions shall be made until any capital loss carryforwards have been fully utilized.

Capital Loss Available Through Unlimited	Short-Term Capital Loss Amounts (000 s)	Long-Term Capital Loss Amounts (000 s)
	\$15,749	\$709

The Fund utilized \$6,209,497 of capital loss carryforwards during the period ended May 31, 2018.

The tax character of distributions paid during the years ended May 31, 2018 and May 31, 2017, to Common shareholders (as reflected in the Statement of Changes in Net Assets) and Preferred shareholders (included as interest expense for financial statement purposes (See Note 2(J)) was as follows:

Distributions paid from:	2018	2017
	Ordinary	Ordinary
	Exempt-Long-Term Capital Gain	Exempt-Long-Term Capital Gain

	Income	Interest Dividends		Income	Dividends	
Common shares	\$ 628,776	\$ 29,136,945	\$	\$ 526,625	\$ 29,452,740	\$
Preferred shares	30,149	1,377,528		21,131	1,372,265	
Total	\$ 658,925	\$ 30,514,473	\$	\$ 547,756	\$ 30,825,005	\$

Note 5 Custodian

State Street is the custodian of cash and securities held by the Fund. Custodial fees are charged to the Fund based on the Fund's net assets and/or the market value of securities held by the Fund and the number of certain transactions incurred by the Fund.

Note 6 Purchases and Sales of Securities (in 000's)

During the year ended May 31, 2018, purchases and sales of securities, other than short-term securities, were \$193,705 and \$169,386, respectively.

Note 7 Capital Share Transactions

Common Shares:	Shares	Amount
For the year ended May 31, 2018:		
Common shares issued to shareholders in reinvestment of dividends (a)	7,547	\$ 151,997
Net increase in Common shares outstanding	7,547	\$ 151,997

Preferred Shares (b):	Shares	Amount
For the period June 26, 2012 through May 31, 2013:		
Series A Shares Issued	350	\$ 35,000,000
Series B Shares Issued	350	\$ 35,000,000

(a) See page 34 for information on the Fund's dividend reinvestment plan.

(b) For the period June 1, 2013 through May 31, 2018, there were no new shares issued.

Note 8 Subsequent Events

In connection with the preparation of the financial statements of the Fund as of and for the year ended May 31, 2018, events and transactions subsequent to May 31, 2018, through the date the financial statements were issued have been evaluated by the Fund's management for possible adjustment and/or disclosure. No subsequent events requiring financial statement adjustment or disclosure have been identified, other than the following:

On April 2, 2018, the Fund declared a dividend in the amount of \$0.09 per Common share, payable on June 29, 2018, to shareholders of record on June 15, 2018.

Edgar Filing: MainStay MacKay DefinedTerm Municipal Opportunities Fund - Form N-CSR

On June 15, 2018, the Fund paid its semiannual distribution to Series A and Series B Preferred shareholders in the amounts of \$1,390,000 and \$1,181,444, per Preferred share, respectively.

On July 2, 2018, the Fund declared dividends to Common shareholders for the upcoming quarter as shown in the following schedule:

Month	Ex-Date	Record Date	Payable Date	Amount
July	7/13/18	7/16/18	7/31/18	\$ 0.085
August	8/14/18	8/15/18	8/31/18	\$ 0.085
September	9/13/18	9/14/18	9/28/18	\$ 0.085

28 MainStay MacKay DefinedTerm Municipal Opportunities Fund

Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of

MainStay MacKay DefinedTerm Municipal Opportunities Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments of MainStay MacKay DefinedTerm Municipal Opportunities Fund, formerly known as MainStay DefinedTerm Municipal Opportunities Fund, (the Fund) as of May 31, 2018, the related statements of operations and cash flows for the year ended May 31, 2018, the statement of changes in net assets for each of the two years in the period ended May 31, 2018, including the related notes, and the financial highlights for each of the five years in the period ended May 31, 2018 (collectively referred to as the financial statements). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of May 31, 2018, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period ended May 31, 2018 and the financial highlights for each of the five years in the period ended May 31, 2018 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund s management. Our responsibility is to express an opinion on the Fund s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of May 31, 2018 by correspondence with the custodian, trust administrator and brokers; when replies were not received, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP

New York, New York

July 23, 2018

We have served as the auditor of one or more investment companies in the MainStay group of funds since 1984.

Board Consideration and Approval of Management Agreement and
Subadvisory Agreement (Unaudited)

Section 15 of the Investment Company Act of 1940, as amended ("1940 Act"), requires that each fund's board of trustees initially approve and, following an initial term of up to two years, annually review and approve the continuation of the fund's investment advisory agreement(s). At its December 12-13, 2017 in-person meeting, the Board of Trustees of the MainStay Group of Funds ("Board"), including Trustees who are not interested persons (as such term is defined in the 1940 Act) of the Trust ("Independent Trustees") voting separately, unanimously approved for a one-year period the continuation of the Management Agreement with respect to the MainStay DefinedTerm Municipal Opportunities Fund (now known as the MainStay MacKay DefinedTerm Municipal Opportunities Fund ("Fund")) and New York Life Investment Management LLC ("New York Life Investments") and the Subadvisory Agreement between New York Life Investments and MacKay Shields LLC ("MacKay Shields") with respect to the Fund.

In reaching its decisions to approve the Agreements, the Board considered information furnished by New York Life Investments and MacKay Shields in connection with a contract review process that took place at various meetings of the Board and its Contracts Committee between September 2017 and December 2017, as well as other information furnished to the Board throughout the year as deemed relevant by the Trustees. Information requested by and furnished to the Board for consideration in connection with the contract review process included, among other items, reports on the Fund and peer funds prepared by Strategic Insight Mutual Fund Research and Consulting, LLC ("Strategic Insight"), an independent third-party service provider engaged by the Board to report objectively on the Fund's investment performance, management fee and total expenses. The Board also considered information on the fees charged to other investment advisory clients of New York Life Investments and MacKay Shields (including institutional separate accounts) that follow investment strategies similar to the Fund, if any, and, when applicable, the rationale for any differences in the Fund's management and subadvisory fees and the fees charged to those other investment advisory clients. In addition, the Board considered the information requested and received on the profitability of the Fund to New York Life Investments and its affiliates, including MacKay Shields as subadvisor to the Fund, together with responses from New York Life Investments and MacKay Shields to a series of requests encompassing a variety of topics prepared on behalf of, and in consultation with, the Board by independent legal counsel to the Board and its Independent Trustees. The Board considered information provided in advance of and during its meetings throughout the year including, among other items, information regarding the legal standards and fiduciary obligations applicable to its consideration of the Agreements and investment performance reports on the Fund prepared by the Investment Consulting Group at New York Life Investments as well as presentations from New York Life Investments and MacKay Shields personnel, such as portfolio managers. The Board also considered information received from New York Life Investments throughout the year including, among other items, periodic reports on legal and compliance matters, risk management, portfolio turnover and brokerage commissions, sales and marketing activity, and non-advisory services provided to the Fund by New York Life Investments. The structure and format for this information and regular reporting were developed in consultation with the Board. At various meetings, the Independent Trustees also met in executive session with their independent legal

counsel, and met with senior management of New York Life Investments without other representatives of New York Life Investments present.

In considering the continuation of the Agreements, the Trustees comprehensively reviewed and evaluated all of the information and factors they believed to be relevant and appropriate in light of legal advice furnished to them by independent legal counsel and through the exercise of their own business judgment. The broad factors considered by the Board are described in greater detail below and included, among other factors: (i) the nature, extent and quality of the services provided to the Fund by New York Life Investments and MacKay Shields; (ii) the investment

performance of the Fund, New York Life Investments and MacKay Shields; (iii) the costs of the services provided, and profits realized, by New York Life Investments and MacKay Shields from their relationships with the Fund; (iv) the extent to which economies of scale have been realized or may be realized if the Fund grows and the extent to which economies of scale have benefited or may benefit Fund shareholders; and (v) the reasonableness of the Fund's management and subadvisory fees and overall total ordinary operating expenses, particularly as compared to any similar funds and accounts managed by New York Life Investments and/or MacKay Shields. Although the Board recognized that the comparisons between the Fund's fees and expenses and those of other funds are imprecise, given different terms of agreements, variations in fund strategies, and other factors, the Board considered the reasonableness of the Fund's management fee and overall total ordinary operating expenses as compared to the peer funds identified by Strategic Insight. Throughout their considerations, the Trustees acknowledged the overall commitment of New York Life Investments and its affiliates to serve the MainStay Group of Funds, as well as their capacity, experience, resources, financial stability and reputations.

Although individual Trustees may have weighed certain factors or information differently, the Board's decision to approve the continuation of the Agreements was based on a consideration of the information provided to the Trustees throughout the year, as well as information furnished specifically in connection with the contract review process. Throughout the year, the Trustees are also afforded an opportunity to ask questions of and request additional information or materials from New York Life Investments and MacKay Shields. The Board's conclusions with respect to the Agreements may have been based, in part, on the Board's knowledge of New York Life Investments and MacKay Shields resulting from, among other things, the Board's consideration of the MainStay Group of Funds advisory agreements in prior years and the Board's regular review of Fund performance and operations throughout the year. In addition to considering the above-referenced factors, the Board observed that in the marketplace there are a range of investment options available to shareholders of the Fund and that the Fund's shareholders, having had the opportunity to consider other investment options, have chosen to invest in the Fund. The factors that figured prominently in the Board's decisions to approve the Agreements are summarized in more detail below.

Nature, Extent and Quality of Services Provided by New York Life Investments and MacKay Shields

The Board examined the nature, extent and quality of the services that New York Life Investments provides to the Fund. The Board evaluated

New York Life Investments' experience and capabilities in serving as manager of the Fund and managing Fund operations in a manager-of-managers structure, noting that New York Life Investments manages other funds, serves a variety of other investment advisory clients, including other pooled investment vehicles, and has experience with overseeing fund service providers, including subadvisors. The Board also noted that the services provided to the Fund as a closed-end fund may differ from the services provided to open-end funds and other investment advisory clients, such as compliance services provided in connection with the Fund's use of leverage and trading of Fund shares on the New York Stock Exchange. The Board considered the experience of senior personnel at New York Life Investments providing management and administrative and other non-advisory services to the Fund as well as New York Life Investments' reputation and financial condition. The Board observed that New York Life Investments devotes significant resources and time to providing advisory and non-advisory services to the Fund, including its extensive oversight and due diligence reviews of MacKay Shields and continuous analysis of, and interactions with, MacKay Shields with respect to, among other things, Fund investment performance and risk as well as MacKay Shields' investment capabilities and subadvisory services with respect to the Fund.

The Board also considered the full range of services that New York Life Investments provides to the Fund under the terms of the Management Agreement, including: (i) fund accounting and on-going oversight services provided by New York Life Investments' Fund Administration and Accounting Group; (ii) investment oversight and analytical services provided by New York Life Investments' Investment Consulting Group; (iii) compliance services provided by the Fund's Chief Compliance Officer as well as New York Life Investments' Compliance Department, including oversight and implementation of the Fund's compliance program; (iv) legal services provided by New York Life Investments' Office of the General Counsel; and (v) risk management and portfolio trading oversight and analysis by compliance and investment personnel. The Board noted that the non-advisory services provided by New York Life Investments are set forth in the Management Agreement. In addition, the Board considered New York Life Investments' willingness to invest in personnel, infrastructure, technology, operational enhancements, cyber security, information security, shareholder privacy resources and business continuity planning that are designed to benefit the Fund, and noted that New York Life Investments is responsible for compensating the Fund's officers. The Board recognized that New York Life Investments has provided an increasingly broad array of non-advisory services to the MainStay Group of Funds as a result of regulatory and other developments.

The Board also examined the nature, extent and quality of the investment advisory services that MacKay Shields provides to the Fund. The Board evaluated MacKay Shields' experience in serving as subadvisor to the Fund and managing other portfolios and MacKay Shields' track record and experience in providing investment advisory services, the experience of investment advisory, senior management and administrative personnel at MacKay Shields, and MacKay Shields' overall legal and compliance environment, resources and history. The Board considered that New York Life Investments' and MacKay Shields' policies, procedures and systems are reasonably designed to assure compliance with applicable laws and regulations, and acknowledged the continued

commitment to further developing and strengthening compliance programs relating to the Fund. In addition, the Board considered the policies and procedures in place with respect to matters that may involve conflicts of interest between the Fund's investments and those of other accounts managed by MacKay Shields. The Board reviewed MacKay Shields' ability to attract and retain qualified investment professionals and willingness to invest in personnel to service and support the Fund. In this regard, the Board considered the experience of the Fund's portfolio managers, the number of accounts managed by the portfolio managers and the method for compensating the portfolio managers.

Based on these considerations, the Board concluded, within the context of its overall determinations regarding the Agreements, that the Fund should continue to benefit from the nature, extent and quality of these services as a result of New York Life Investments' and MacKay Shields' experience, personnel, operations and resources.

Investment Performance

In evaluating the Fund's investment performance, the Board considered investment performance results over various periods in light of the Fund's investment objective, strategies and risks, as disclosed in the Fund's prospectus. The Board particularly considered investment reports on and analysis of the Fund's performance provided to the Board throughout the year by the Investment Consulting Group of New York Life Investments. These reports include, among other items, information on the Fund's use of leverage, the Fund's gross and net returns, the Fund's investment performance compared to relevant investment categories and Fund benchmark(s), the Fund's risk-adjusted investment performance and the Fund's investment performance as compared to peer funds, as appropriate, as well as the effect of current and recent market conditions. The Board also considered information provided by Strategic Insight showing the investment performance of the Fund as compared to peer funds.

The Board also gave weight to its ongoing discussions with senior management at New York Life Investments concerning the Fund's investment performance as well as discussions between the Fund's portfolio managers and the Board's Investment Committee that occur regularly, generally on an annual basis. In addition, the Board considered any specific actions that New York Life Investments or MacKay Shields had taken, or had agreed with the Board to take, to seek to enhance Fund investment performance and the results of those actions. In considering the Fund's investment performance, the Board generally places greater emphasis on the Fund's long-term performance track record.

Based on these considerations, the Board concluded, within the context of its overall determinations regarding the Agreements, that the long-term investment performance of the Fund, along with ongoing efforts by New York Life Investments and MacKay Shields to seek to enhance investment returns, supported a determination to approve the continuation of the Agreements. The Fund discloses more information about investment performance in the Portfolio Management Discussion and Analysis, Investment and Performance Comparison and Financial Highlights sections of this Annual Report and in the Fund's prospectus.

Board Consideration and Approval of Management Agreement and
Subadvisory Agreement (Unaudited) (continued)

Costs of the Services Provided, and Profits Realized, by New York Life Investments and MacKay Shields

The Board considered the costs of the services provided by New York Life Investments and MacKay Shields under the Agreements and the profits realized by New York Life Investments and its affiliates, including MacKay Shields, due to their relationships with the Fund. Because MacKay Shields is an affiliate of New York Life Investments whose subadvisory fees are paid directly by New York Life Investments, not the Fund, the Board considered cost and profitability information for New York Life Investments and MacKay Shields in the aggregate.

In addition, the Board acknowledged the difficulty in obtaining reliable comparative data about fund managers profitability, because such information generally is not publicly available and may be impacted by numerous factors, including the structure of a fund manager's organization, the types of funds it manages, the methodology used to allocate certain fixed costs to specific funds, and the manager's capital structure and costs of capital.

In evaluating the costs of the services provided by New York Life Investments and MacKay Shields and profits realized by New York Life Investments and its affiliates, including MacKay Shields, the Board considered, among other factors, each party's continued investments in personnel, systems, equipment and other resources and infrastructure to support and further enhance the management of the Fund, and that New York Life Investments is responsible for paying the subadvisory fees for the Fund. The Board acknowledged that New York Life Investments and MacKay Shields must be in a position to attract and retain experienced professional personnel and to maintain a strong financial position in order to continue to provide high-quality services to the Fund. The Board also recognized that the Fund benefits from the allocation of certain fixed costs across the MainStay Group of Funds, among other benefits resulting from its relationship with New York Life Investments.

In connection with the annual fund profitability analysis that New York Life Investments presents to the Board, the Board in 2014 engaged Bobroff Consulting, Inc., an independent third-party consultant, to review the methods used to allocate costs to the funds in the MainStay Group of Funds, and among individual funds. As part of this engagement, the consultant analyzed: (i) the various New York Life Investments' business units and affiliated subadvisors that provide services to the funds in the MainStay Group of Funds; (ii) how costs are allocated to the Fund and other funds managed by New York Life Investments, and to other lines of businesses; and (iii) how New York Life Investments cost allocation methods and profitability reports compare to industry practices. The Board noted that the independent consultant had concluded that New York Life Investments' methods for allocating costs and procedures for estimating overall profitability of the funds in the MainStay Group of Funds are reasonable, consistent with industry practice and likely to produce reasonable profitability estimates. Although the Board recognized the difficulty in evaluating a manager's profitability with respect to the Fund and noting that other profitability methodologies may also be reasonable, the Board concluded that the profitability methodology presented by New York Life Investments to the Board was reasonable in all material respects.

In considering the costs and profitability of the Fund, the Board also considered certain fall-out benefits that may be realized by New York

Life Investments and its affiliates due to their relationships with the Fund, including reputational and other indirect benefits.

After evaluating the information presented to the Board, the Board concluded, within the context of its overall determinations regarding the Agreements, that any profits realized by New York Life Investments and its affiliates, including MacKay Shields, due to their relationships with the Fund were not excessive.

Management and Subadvisory Fees and Total Ordinary Operating Expenses

The Board evaluated the reasonableness of the fees paid under the Agreements and the Fund's total ordinary operating expenses. The Board primarily considered the reasonableness of the management fee paid by the Fund to New York Life Investments, because the subadvisory fees paid to MacKay Shields are paid by New York Life Investments, not the Fund. The Board also considered the reasonableness of the subadvisory fees to be paid by New York Life Investments and the amount of the management fee expected to be retained by New York Life Investments.

In assessing the reasonableness of the Fund's fees and expenses, the Board primarily considered comparative data provided by Strategic Insight on the fees and expenses charged by similar funds managed by other investment advisers. In addition, the Board considered information provided by New York Life Investments and MacKay Shields on fees charged to other investment advisory clients, including institutional separate accounts and other funds that follow investment strategies similar to those of the Fund. The Board took into account explanations provided by New York Life Investments about the more extensive scope of services provided to registered investment companies, such as the Fund, as compared with other investment advisory clients. Additionally, the Board considered the impact of any contractual breakpoints, voluntary waivers and expense limitation arrangements on the Fund's net management fee and expenses. The Board also considered that in proposing fees for the Fund, New York Life Investments considers the competitive marketplace for financial products.

The Board also considered that, unlike with respect to the open-end funds in the MainStay Group of Funds, the management fee for the Fund is based on the managed assets of the Fund, which includes assets attributable to the Fund's use of effective leverage, as defined in the Fund's prospectus. The Board acknowledged that New York Life Investments and MacKay Shields have the ability to increase the amount of the Fund's managed assets through the use of effective leverage, which may cause a conflict of interest. In assessing the reasonableness of the management fee and the methodology for its calculation, the Board took into account, among other factors, representations from MacKay Shields and New York Life Investments that they provide services of the same nature, extent and quality with respect to assets of the Fund that are created through effective leverage as they would with respect to other assets of the Fund.

After considering all of the factors outlined above, the Board concluded that the Fund's management fees and total ordinary operating expenses were within a range that is competitive and, within the context of the Board's overall conclusions regarding the Agreements, support a conclusion that these fees and expenses are reasonable.

Extent to Which Economies of Scale May Be Realized as the Fund Grows

The Board considered whether the Fund's expense structure permits economies of scale to be shared with Fund shareholders. The Board also considered a report from New York Life Investments, prepared at the request of the Board, that addressed economies of scale in the fund business generally, the changing economics of the fund business and the various ways in which the benefits of economies of scale may be shared with the Fund and other funds in the MainStay Group of Funds. Although the Board recognized the difficulty of determining economies of scale with precision, the Board acknowledged that economies of scale may be shared with the Fund in a number of ways, including, for example, through the imposition of management fee breakpoints, initially setting management fee rates at scale or making additional investments to enhance shareholder services. The Board reviewed information from New York Life Investments showing how the Fund's management fee schedule compared to fee schedules of other funds and accounts managed by New York Life Investments. The Board also reviewed information from Strategic Insight showing how the Fund's management fee schedule hypothetically would compare with fees paid for similar services by funds at varying asset levels. Additionally, the Board considered New York Life Investments' assessment of the extent economies of scale existed for funds in the MainStay Group of Funds that had experienced significant increases of assets during the year. Based on this information, the Board concluded, within the context of its overall determinations regarding the Agreements, that the Fund's expense structure appropriately reflects economies of scale for the benefit of Fund shareholders. The Board noted, however, that it would continue to evaluate the reasonableness of the Fund's expense structure over time.

Conclusion

On the basis of the information and factors summarized above and the evaluation thereof, the Board as a whole, including the Independent Trustees who are not parties to the Agreements or interested persons of any such party voting separately, unanimously voted to approve the continuation of the Agreements.

Dividend Reinvestment Plan (Unaudited)

Pursuant to the Fund's Dividend Reinvestment Plan (the "Plan") shareholders whose shares are registered in their own name may opt-in to the Plan and elect to reinvest all or a portion of their distributions in the Common shares by providing the required enrollment notice to Computershare Trust Company, N.A., the Plan Administrator ("Plan Administrator"). Shareholders whose shares are held in the name of a broker or other nominee may have distributions reinvested only if such a service is provided by the broker or the nominee or if the broker or the nominee permits participation in the Plan. Shareholders whose shares are held in the name of a broker or other nominee should contact the broker or nominee for details. A shareholder may terminate participation in the Plan at any time by notifying the Plan Administrator before the record date of the next distribution through the Internet, by telephone or in writing. All distributions to shareholders who do not participate in the Plan, or have elected to terminate their participation in the Plan, will be paid by check mailed directly to the record holder by or under the direction of the Plan Administrator when the Fund declares a distribution.

When the Fund declares a dividend or other distribution (together, a "Dividend") payable in cash, non-participants in the Plan will receive cash and participants in the Plan (*i.e.*, those holders of Common shares who ("opt-in") will receive the equivalent in Common shares. The Common shares will be acquired by the Plan Administrator for the participants accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common shares from the Fund ("Newly Issued Common Shares") or (ii) by purchase of outstanding Common shares on the open market ("Open-Market Purchases") on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price per Common share plus estimated per share fees, which include any brokerage commissions the Plan Administrator is required to pay, is equal to or greater than the NAV per Common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the NAV per Common share on the payment date; provided that, if the NAV is less or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common share on the payment date. If, on the payment date for any Dividend, the NAV per Common share is greater than the closing market value plus estimated per share fees, the Plan Administrator will invest the Dividend amount in Common shares acquired on behalf of the participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the "Last Purchase Date"), to invest the Dividend amount in Common shares acquired in Open-Market Purchases. It is contemplated that the Fund will pay monthly income Dividends. Therefore, the period during which Open-Market Purchases can be made will exist only from the payment date of each Dividend through the date before the next ex-dividend date which typically will be approximately ten days. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per Common share exceeds the NAV per Common shares, the average per Common share purchase price paid by the Plan Admin-

istrator may exceed the NAV of the Common shares, resulting in the acquisition of fewer Common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at the NAV per Common share at the close of business on the Last Purchase Date provided that, if the NAV per Common share is less than or equal to 95% of the then current market price per Common share; the dollar amount of the Dividend will be divided by 95% of the market price per Common share on the payment date.

Edgar Filing: MainStay MacKay DefinedTerm Municipal Opportunities Fund - Form N-CSR

The Plan Administrator maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of Common shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no charges with respect to Common shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in Common shares or in cash. The Plan Administrator's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. However, each participant will pay a per share fee incurred in connection with Open-Market Purchases. The reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such dividends. See U.S. Federal Income Tax Matters. Participants that request a sale of shares through the Plan Administrator are subject to a \$2.50 sales fee and a \$.15 per share sold fee. All per share fees include any brokerage commission the Plan Administrator is required to pay.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., by telephone (855) 456-9683, through the internet at www.computershare.com/investor or in writing to P.O. Box 505000, Louisville, Kentucky 40233.

34 MainStay MacKay DefinedTerm Municipal Opportunities Fund

Federal Income Tax Information

(Unaudited)

The Fund is required under the Internal Revenue Code to advise shareholders in a written statement as to the federal tax status of dividends paid by the Fund during such fiscal years.

For Federal individual income tax purposes, the Fund designated 97.9% of the ordinary income dividends paid during its fiscal year ended May 31, 2018 as attributable to interest income from Tax Exempt Municipal Bonds. Such dividends are currently exempt from Federal income taxes under Section 103(a) of the Internal Revenue Code.

In February 2019, shareholders will receive an IRS Form 1099-DIV or substitute Form 1099, which will show the federal tax status of the distributions received by shareholders in calendar year 2018. The amounts that will be reported on such 1099-DIV or substitute Form 1099 will be the amounts you are to use on your federal income tax return and will differ from the amounts which we must report for the Fund's fiscal year end May 31, 2018.

Proxy Voting Policies and Procedures and Proxy Voting Record

A description of the policies and procedures that New York Life Investments uses to vote proxies related to the Fund's securities is available without charge, upon request, by visiting the MainStay Funds' website at nylinvestments.com/mmd or on the SEC's website at www.sec.gov.

The Fund is required to file with the SEC its proxy voting records for the 12-month period ending June 30 on Form N-PX. The most recent Form N-PX or proxy voting record is available free of charge upon request by calling 800-MAINSTAY (624-6782); visiting the MainStay Funds' website at nylinvestments.com/mmd; or on the SEC's website at www.sec.gov.

Shareholder Reports and Quarterly Portfolio Disclosure

The Fund is required to file its complete schedule of portfolio holdings with the SEC for its first and third fiscal quarters on Form N-Q. The Fund's Form N-Q is available without charge, on the SEC's website at www.sec.gov or by calling New York Life Investments at 800-MAINSTAY (624-6782). You also can obtain and review copies of Form N-Q by visiting the SEC's Public Reference Room in Washington, DC (information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330).

Board of Trustees and Officers (Unaudited)

The Trustees and officers of the Funds are listed below. The Board oversees the MainStay Group of Funds (which consists of The MainStay Funds and MainStay Funds Trust), MainStay VP Funds Trust, MainStay MacKay DefinedTerm Municipal Opportunities Fund, the Manager and the Subadvisors, and elects the officers of the Funds who are responsible for the day-to-day operations of the Funds. Information pertaining to the Trustees and officers is set forth below. Each Trustee serves until his or her successor is elected and qualified or until his or her resignation, death or removal. Under the Board's retirement policy, unless an exception is made, a Trustee must tender his or her resignation by the

end of the calendar year during which he or she reaches the age of 75. Mr. Meenan reached the age of 75 during the calendar year 2016, and his term was extended for one additional year. Accordingly, Mr. Meenan served until the end of calendar year 2017, at which time he retired. Officers are elected annually by the Board. The business address of each Trustee and officer listed below is 51 Madison Avenue, New York, New York 10010. A majority of the Trustees are not interested persons (as defined by the 1940 Act and rules adopted by the SEC thereunder) of the Fund (Independent Trustees).

Item 2. Code of Ethics.

As of the end of the period covered by this report, the Registrant has adopted a code of ethics (the Code) that applies to the Registrant's principal executive officer (PEO) and principal financial officer (PFO). A copy of the Code is filed herewith. The Registrant did not make any amendments to the Code during the period covered by this report. The Registrant did not grant any waivers, including implicit waivers, from any provisions of the Code to the PEO or PFO during the period covered by this report.

Item 3. Audit Committee Financial Experts.

The Board of Trustees (Board) has determined that the Registrant has three audit committee financial experts serving on its Audit Committee. The Audit Committee financial experts are Alan R. Latshaw, David H. Chow and Susan B. Kerley. Mr. Latshaw, Mr. Chow and Ms. Kerley are independent as defined by Item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees

The aggregate fees billed for the fiscal year ended May 31, 2018 for professional services rendered by PricewaterhouseCoopers LLP (PwC) for the audit of the Registrant's annual financial statements or services that are normally provided by PwC in connection with statutory and regulatory filings or engagements for that fiscal year were \$75,200.

The aggregate fees billed for the fiscal year ended May 31, 2017 for professional services rendered by PwC for the audit of the Registrant's annual financial statements or services that are normally provided by PwC in connection with statutory and regulatory filings or engagements for that fiscal year were \$71,600.

(b) Audit-Related Fees

The aggregate fees billed for assurance and related services by PwC that are reasonably related to the performance of the audit of the Registrant's financial statements and are not reported under paragraph (a) of this Item were: (i) \$0 for the fiscal year ended May 31, 2018, and (ii) \$0 for the fiscal year ended May 31, 2017.

(c) Tax Fees

The aggregate fees billed for professional services rendered by PwC for tax compliance, tax advice, and tax planning were: (i) \$0 during the fiscal year ended May 31, 2018, and (ii) \$0 during the fiscal year ended May 31, 2017. These services primarily included preparation of federal, state and local income tax returns and excise tax returns, as well as services relating to excise tax distribution requirements.

(d) All Other Fees

The aggregate fees billed for products and services provided by PwC, other than the services reported in paragraphs (a) through (c) of this Item were: (i) \$0 during the fiscal year ended May 31, 2018, and (ii) \$0 during the fiscal year ended May 31, 2017.

(e) Pre-Approval Policies and Procedures

- (1) The Registrant's Audit Committee has adopted pre-approval policies and procedures (the Procedures) to govern the Committee's pre-approval of (i) all audit services and permissible non-audit services to be provided to the Registrant by its independent accountant, and (ii) all permissible non-audit services to be provided by such independent accountant to the Registrant's investment adviser and to any entity controlling, controlled by or under common control with the investment adviser that provides ongoing services to the Registrant (collectively, Service Affiliates) if the services directly relate to the Registrant's operations and financial reporting. In accordance with the Procedures, the Audit Committee is responsible for the engagement of the independent accountant to certify the Registrant's financial statements for each fiscal year. With respect to the pre-approval of non-audit services provided to the Registrant and its Service Affiliates, the Procedures provide that the Audit Committee may annually pre-approve a list of the types of services that may be provided to the Registrant or its Service Affiliates, or the Audit Committee may pre-approve such services on a project-by-project basis as they arise. Unless a type of service has received general pre-approval, it will require specific pre-approval by the Audit Committee if it is to be provided by the independent accountant. The Procedures also permit the Audit Committee to delegate authority to one or more of its members to pre-approve any proposed non-audit services that have not been previously pre-approved by the Audit Committee, subject to the ratification by the full Audit Committee no later than its next scheduled meeting. To date, the Audit Committee has not delegated such authority.
- (2) With respect to the services described in paragraphs (b) through (d) of this Item 4, no amount was approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.
- (f) There were no hours expended on PwC's engagement to audit the Registrant's financial statements for the most recent fiscal year was attributable to work performed by persons other than PwC's full-time, permanent employees.
- (g) All non-audit fees billed by PwC for services rendered to the Registrant for the fiscal year ended May 31, 2018 are disclosed in 4(b)-(d) above.

The aggregate non-audit fees billed by PwC for services rendered to the Registrant's investment adviser (not including any subadvisor whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity controlling, controlled by, or under common control with the adviser that provides ongoing services to the Registrant were approximately: (i) \$6.8 million for the fiscal year ended May 31, 2018, and (ii) \$5.4 million for the fiscal year ended May 31, 2017.

(h) The Registrant's Audit Committee has determined that the non-audit services rendered by PwC for the fiscal year ended May 31, 2018 to the Registrant's investment adviser and any entity controlling, controlled by, or under common control with the Registrant's investment adviser that provides ongoing services to the Registrant that were not required to be pre-approved by the Audit Committee because they did not relate directly to the operations and financial reporting of the Registrant were compatible with maintaining the respective independence of PwC during the relevant time period.

Item 5. Audit Committee of Listed Registrants

(a) The Board has a separately-designated Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act (Exchange Act) (15 U.S.C. 78c(a)(58)(A)). The members of the Audit Committee are Alan R. Latshaw, David H. Chow and Susan B. Kerley.

(b) Not applicable.

Item 6. Schedule of Investments

(a) The Schedule of Investments is included as part of Item 1 of this report.

(b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

It is the policy of the Registrant that proxies received by the Registrant are voted in the best interests of the Registrant's shareholders. The Board has adopted Proxy Voting Policies and Procedures for the Registrant that delegate all responsibility for voting proxies received relating to the Registrant's portfolio securities to New York Life Investment Management LLC (New York Life Investments or Manager), subject to the oversight of the Board. The Manager has adopted its own Proxy Voting Policies and Procedures in order to assure that proxies voted on behalf of the Registrant are voted in the best interests of the Registrant and its shareholders. The Manager has delegated proxy voting authority to MacKay Shields LLC (MacKay Shields or Sub-Advisor); provided that, as specified in the Manager's Proxy Voting Policies and Procedures, the Sub-Advisor either (1) follows the Manager's Proxy Voting Policy and the Registrant's Procedures; or (2) has demonstrated that its proxy voting policies and procedures are consistent with the Manager's Proxy Voting Policies and Procedures or are otherwise implemented in the best interests of the Manager's clients and appear to comply with governing regulations. The Registrant may revoke all or part of this delegation (to the Manager and/or Sub-Advisor as applicable) at any time by a vote of the Board.

Conflicts of Interest. When a proxy presents a conflict of interest, such as when the Manager has actual knowledge of a material business arrangement between a particular proxy issuer or closely affiliated entity and the Manager or an affiliated entity of the Manager, both the Registrant's and the Manager's proxy voting policies and procedures mandate that the Manager follow an alternative voting procedure rather than voting proxies in its sole discretion. In these cases, the Manager may: (1) cause the proxies to be voted in accordance with the recommendations of an independent service provider; (2) notify the Board or a designated committee of the Manager, or a representative of either, and seek a waiver of the conflict to permit the Manager to vote the proxies as it deems appropriate and in the best interest of Registrant shareholders, under its usual policy; or (3) forward the proxies to the Board, or a designated committee of the Manager, so that the Board or the committee may vote the proxies itself. In the case of proxies received in connection with a fund of funds structure, whereby the Manager, on behalf of the Registrant, receives proxies in its capacity as a shareholder in an underlying fund, the Manager may vote in accordance with the recommendations of an independent service provider who has been retained to assist in voting proxies or echo the vote of the other shareholders in those underlying funds. As part of its delegation of proxy voting responsibility to the Manager, the Registrant also delegated to the Manager responsibility for resolving conflicts of interest based on the use of acceptable alternative voting procedures, as described above. If the Manager chooses to override a voting recommendation made by Institutional Shareholder Services Inc. (ISS), the Manager's compliance department will review the override prior to voting to determine the existence of any potential conflicts of interest. If the compliance department determines a material conflict

may exist, the issue is referred to the Manager's Proxy Voting Committee who will consider the facts and circumstances and determine whether to allow the override or take other action, such as the alternative voting procedures just mentioned.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

(a)(1) The Registrant's portfolio is managed on a team basis. As of July 31, 2018, the following persons are primarily responsible for the day-to-day management of the registrant's portfolio.

Robert DiMella, CFA. Mr. DiMella is an Executive Managing Director of MacKay Shields. He has managed the Registrant's portfolio since inception. Mr. DiMella has also managed the MainStay MacKay Tax Free Bond Fund since 2009, the MainStay High Yield Municipal Fund since 2010, the MainStay MacKay New York Tax Free Opportunities Fund since 2012, the MainStay MacKay California Tax Free Opportunities Fund since 2013 and the MainStay MacKay Short Term Municipal Fund since June 2015. Previously, he co-founded Mariner Municipal Managers LLC (2007 to 2009). Prior to BlackRock's merger with Merrill Lynch Investment Managers (MLIM), he served as a Senior Portfolio Manager and Managing Director of the Municipal Products Group. Mr. DiMella earned his Master's degree at Rutgers University Business School and a Bachelors Degree at the University of Connecticut. He is a Chartered Financial Analyst® (CFA®) charterholder.

John Loffredo, CFA. Mr. Loffredo is an Executive Managing Director of MacKay Shields. He has managed the Registrant's portfolio since inception. Mr. Loffredo has also managed the MainStay MacKay Tax Free Bond Fund since 2009, the MainStay MacKay High Yield Municipal Bond Fund since 2010, the MainStay MacKay New York Tax Free Opportunities Fund since 2012, the MainStay MacKay California Tax Free Opportunities Fund since 2013 and the MainStay MacKay Short Term Municipal Fund since June 2015. He has been a municipal portfolio manager and/or municipal analyst on Wall Street since 1990, with a broad range of portfolio management and analytic experience in the municipal markets. He previously co-founded Mariner Municipal Managers LLC (2007 to 2009). Prior to BlackRock's merger with MLIM, he served as Chief Investment Officer of the Municipal Products Group of MLIM. Mr. Loffredo graduated cum laude with an MBA from Utah State University where he was a Harry S. Truman Scholar. He also has a Certificate of Public Management from Boston University. He is a CFA® charterholder.

Michael Petty. Mr. Petty is a Senior Managing Director and portfolio manager for MacKay Shields. He has managed the Registrant's portfolio since inception. Mr. Petty has also managed the MainStay MacKay High Yield Municipal Bond Fund since 2010, the MainStay MacKay Tax Free Bond Fund since 2011, the MainStay MacKay New York Tax Free Opportunities Fund since 2012, the MainStay MacKay California Tax Free Opportunities Fund since 2013 and the MainStay MacKay Short Term Municipal Fund since June 2015. Mr. Petty joined MacKay Shields in July 2009. Before joining the Firm he was a Portfolio Manager for Mariner Municipal Managers. He has been a portfolio manager on Wall Street since 1992, and has worked in the municipal products market since 1985. Mr. Petty has a broad array of trading, portfolio management, and sales experience. Prior to joining Mariner Municipal Managers, he was a Senior Portfolio Manager at Dreyfus Corporation from 1997 to 2009. From 1992 to 1997, he served as a Portfolio Manager for Merrill Lynch Investment Managers. Mr. Petty graduated from Hobart College with a B.S. in Mathematics and Economics.

Scott Sprauer. Mr. Sprauer is a Managing Director. He joined MacKay Shields in 2009 as a Portfolio Manager in the Municipal Bond Division. He has managed the Registrant's portfolio since inception. He has also managed the MainStay MacKay New York Tax Free Opportunities

Fund since 2012, the MainStay MacKay California Tax Free Opportunities Fund since 2013, the MainStay MacKay High Yield Municipal Bond Fund and MainStay MacKay Tax Free Bond Fund since February 2014 and the MainStay MacKay Short Term Municipal Fund since June 2015. Prior to joining MacKay Shields, he was the Head Trader, Fixed Income at Financial Guaranty Insurance Company from 2006 to 2009. He has a BSBA from Villanova University, and has been in the investment management industry since 1991.

David Dowden. Mr. Dowden is a Managing Director. He joined MacKay Shields in 2009 as a Portfolio Manager in the Municipal Bond Division. He has managed the Registrant's portfolio since inception. He has managed the MainStay MacKay New York Tax Free Opportunities Fund since 2012, the MainStay MacKay California Tax Free Opportunities Fund since 2013, the MainStay MacKay High Yield Municipal Bond Fund and MainStay MacKay Tax Free Bond Fund since February 2014 and the MainStay MacKay Short Term Municipal Fund since June 2015. Prior to joining MacKay Shields, he was the Chief Investment Officer at Financial Guaranty Insurance Company from 2006 to 2009. He has a BA from Brown University and an MBA from Columbia University. He has been in the investment management industry since 1989.

(a)(2) Other Accounts Managed by Portfolio Managers or Management Team Member and Potential Conflicts of Interest as of May 31, 2018.

PORTFOLIO MANAGER	NUMBER OF OTHER ACCOUNTS MANAGED AND ASSETS BY ACCOUNT TYPE OTHER			NUMBER OF ACCOUNTS AND ASSETS MANAGED FOR WHICH THE ADVISORY FEE IS BASED ON PERFORMANCE OTHER		
	REGISTERED INVESTMENT COMPANY	POOLED INVESTMENT VEHICLES	OTHER ACCOUNTS	REGISTERED INVESTMENT COMPANY	POOLED INVESTMENT VEHICLES	OTHER ACCOUNTS

Potential Conflicts of Interest

Certain portfolio managers of MacKay Shields who are responsible for managing certain institutional accounts share a performance fee based on the performance of the account. A portfolio manager who makes investment decisions with respect to other accounts, including accounts in which the portfolio manager is personally invested, may be presented with one or more of the following potential conflicts:

The management of multiple funds and/or accounts may result in the portfolio manager devoting unequal time and attention to the management of each fund and/or account;

If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one fund or account managed by the portfolio manager, a fund may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible funds and accounts managed by the portfolio manager;

A portfolio manager may take a position for a fund or account in a security that is contrary to the position held in the same security by other funds or accounts managed by the portfolio manager. For example, the portfolio manager may sell certain securities short for one fund or account while other funds or accounts managed by the portfolio manager simultaneously hold the same or related securities long; and

An apparent conflict may arise where an adviser receives higher fees from certain funds or accounts that it manages than from others, or where an adviser receives a performance-based fee from certain funds or accounts that it manages and not from others. In these cases, there may be an incentive for a portfolio manager to favor the higher and/or performance-based fee funds or accounts over other funds or accounts managed by the portfolio manager.

To address potential conflicts of interest, the Manager and the Sub-Advisor have adopted various policies and procedures to provide for equitable treatment of trading activity and to ensure that investment opportunities are allocated in a fair and appropriate manner. In addition, New York Life Investments has adopted a Code of Ethics that recognizes the Manager's obligation to treat all of its clients, including the Registrant, fairly and equitably. These policies, procedures and the Code of Ethics are designed to restrict the portfolio manager from favoring one client over another. There is no guarantee that the policies, procedures and the Code of Ethics will be successful in every instance.

(a)(3) Portfolio Managers or Management Team Members Compensation Structure

MacKay Shields establishes salaries at competitive levels, verified through industry surveys, to attract and maintain the best professional talent. Incentives are paid annually to the firm's employees based upon an individual's performance and the profitability of the firm, and in some instances may be fixed and guaranteed for a period of time. Incentive bonuses (both cash and deferred) are an integral portion of total compensation at MacKay Shields and vary based upon an individual's role, responsibility and performance. A significant percentage of the compensation program for the Fund's portfolio managers is incentive based.

MacKay Shields has a phantom equity program and awards are an integral component of the firm's compensation structure. Awards vest and pay out after several years. Thus, eligible professionals share in the results and success of the firm.

The compensation received by portfolio managers is generally based on both quantitative and qualitative factors. The quantitative factors may include: (i) investment performance; (ii) assets under management; (iii) revenues and profitability; and (iv) industry benchmarks. The qualitative factors may include, among others, leadership, adherence to the firm's policies and procedures, and contribution to the firm's goals and objectives.

To the extent that an increase in the size of a Fund or another account managed by a portfolio manager has a positive impact on revenues/profitability, a portfolio manager's compensation may also increase. There is no difference between the method used in determining portfolio managers' compensation with respect to a Fund and other accounts they manage. We do not believe the compensation structure provides an incentive for an employee who provides services to a Fund to take undue risks in managing the assets of the Fund.

(a)(4) Disclosure of Securities Ownership

The following table states, as of May 31, 2018, the dollar range of fund securities beneficially owned by each Portfolio Manager in the Registrant (\$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, \$100,001-\$500,000, \$500,001-\$1,000,000, or over \$1,000,000).

<u>PORTFOLIO MANAGER</u>	<u>RANGE OF OWNERSHIP</u>
Robert DiMella	\$100,001-\$500,000
David Dowden	None
John Loffredo	None
Michael Petty	\$10,001-\$50,000
Scott Sprauer	None

(b) Changes in Portfolio Management

There have been no changes to the portfolio management team since inception on June 26, 2012.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders.

Since the Registrant's last response to this Item, there have been no material changes to the procedures by which shareholders may recommend nominees to the Board.

Item 11. Controls and Procedures.

(a) Based on an evaluation of the Registrant's Disclosure Controls and Procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (1940 Act) and Rules 13a-15(b) or 15d-15(b) under the Exchange Act) (Disclosure Controls), as of a date within 90 days prior to the filing date (Filing Date) of this Form N-CSR (Report), the Registrant's principal executive officer and principal financial officer have concluded that the Disclosure Controls are reasonably designed to ensure that information required to be disclosed by the Registrant in the Report is recorded, processed, summarized and reported by the Filing Date, including ensuring that information required to be disclosed in the Report is accumulated and communicated to the Registrant's management, including the Registrant's principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

(b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d)) under the 1940 Act that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 12. Exhibits.

(a)(1) Code of Ethics

(a)(2) Certifications of principal executive officer and principal financial officer as required by Rule 30a-2 under the 1940 Act.

(a)(3) Not applicable

(b) Certifications of principal executive officer and principal financial officer as required by Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this Report to be signed on its behalf by the undersigned, thereunto duly authorized.
