Form 10-Q
November 14, 2017

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED September 30, 2017

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM _____ TO _____.

Commission file number 001-35927

Air Industries Group

(Exact name of Registrant as specified in its charter)

Nevada

80-0948413

Edgar Filing: AIR INDUSTRIES GROUP - Form 10-Q

(State or other jurisdiction of (IRS Employer
incorporation or organization) Identification No.)

360 Motor Parkway, Suite 100, Hauppauge, New York 11788

(Address of principal executive offices)

(631) 881-4920

(Issuer's telephone number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer or a smaller reporting company. See definitions of "accelerated filer" "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (do not check if smaller reporting company)

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of November 13, 2017, the registrant had outstanding 23,282,831 shares of common stock.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, or Securities Act, and Section 21E of the Securities Exchange Act of 1934, or Exchange Act. Forward-looking statements are predictive in nature and can be identified by the fact that they do not relate strictly to historical or current facts and generally include words such as "expects," "anticipates," "intends," "plans," "believes," "estimates" and similar expressions. Certain of the matters discussed herein concerning, among other items, our operations, cash flows, financial position and economic performance including, in particular, future sales, product demand, competition and the effect of economic conditions, include forward-looking statements.

These statements and other projections contained herein expressing opinions about future outcomes and non-historical information, are subject to uncertainties and, therefore, there is no assurance that the outcomes expressed in these statements will be achieved. Investors are cautioned that forward-looking statements are not guarantees of future performance and actual results or developments may differ materially from the expectations expressed in forward-looking statements contained herein. Given these uncertainties, you should not place any reliance on these forward-looking statements which speak only as of the date hereof. Factors that could cause actual results to differ materially from those reflected in the forward-looking statements include, but are not limited to, those discussed under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2016, as amended, and elsewhere in this report and the risks discussed in our other filings with the SEC, including our Registration Statement on Form S-1 (Registration No. 333-219490) declared effective August 4, 2017.

We undertake no obligation to publicly update any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required under the securities laws of the United States.

AIR INDUSTRIES GROUP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. FORMATION AND BASIS OF PRESENTATION

Organization

On August 30, 2013, Air Industries Group, Inc. (“Air Industries Delaware”) changed its state of incorporation from Delaware to Nevada as a result of a merger with and into its newly formed wholly-owned subsidiary, Air Industries Group, a Nevada corporation (“Air Industries Nevada” or “AIRI”) and the surviving entity, pursuant to an Agreement and Plan of Merger. The reincorporation was approved by the stockholders of Air Industries Delaware at its 2013 Annual Meeting of Stockholders. Air Industries Nevada is deemed to be the successor.

The accompanying consolidated financial statements presented are those of AIRI, and its wholly-owned subsidiaries; Air Industries Machining Corp. (“AIM”), Welding Metallurgy, Inc. (“WMI” or “Welding”), Miller Stuart, Inc. (“Miller Stuart”) until its merger into WPI, Nassau Tool Works, Inc. (“NTW”), Woodbine Products, Inc. (“Woodbine” or “WPI”) until its merger into WPI, Decimal Industries, Inc. (“Decimal”), Eur-Pac Corporation (“Eur-Pac” or “EPC”), Electronic Connection Corporation (“ECC”), AMK Welding, Inc. (“AMK”), until sold in January 2017, Air Realty Group, LLC (“Air Realty”), The Sterling Engineering Corporation (“Sterling”), and Compac Development Corporation (“Compac”), (together, the “Company”).

Going Concern

The Company suffered losses from operations of \$2,598,000 and \$10,789,000 and net losses of \$6,006,000 and \$15,623,000, respectively, for the nine months ended September 30, 2017, and the year ended December 31, 2016. The Company also had negative cash flows from operations for the nine months ended September 30, 2017. In addition, in 2015 the Company ceased paying dividends on its common stock and in 2016 it disposed of the real estate on which one of its operating subsidiaries is located through a sale leaseback transaction, and in January 2017 sold one of its operating subsidiaries to raise funds for operations. The Company has had to sell its debt and equity securities to secure funds to operate its business and may have to continue to do so. From September 2016 through June 2017, the Company issued additional shares of its Series A Convertible Preferred Stock in lieu of cash payment of accrued dividends on its outstanding shares of Series A Convertible Preferred Stock and in February 2017, May 2017 and August 2017, it issued additional convertible notes in lieu of cash payment of accrued interest on its outstanding convertible notes.

The continuation of the Company's business is dependent upon its ability to achieve profitability and positive cash flow and, pending such achievement, future issuances of equity or other financing to fund ongoing operations. The consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016, as filed with the Securities and Exchange Commission.

Table of Contents

Reclassifications

Certain account balances in 2016 have been reclassified to conform to the current period presentation.

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principal Business Activity

The Company through its AIM subsidiary is primarily engaged in manufacturing aircraft structural parts, and assemblies for prime defense contractors in the aerospace industry in the United States. NTW is a manufacturer of aerospace components, principally landing gear for F-16 and F-18 fighter aircraft. Welding is a specialty welding and products provider whose significant customers include the world's largest aircraft manufacturers, subcontractors, and original equipment manufacturers. Upon the merger of Miller-Stuart into Welding, Welding became a manufacturer of aerospace components specializing in electromechanical systems, harness and cable assemblies, electronic equipment and printed circuit boards. Upon the merger of Woodbine into Welding, Welding became a manufacturer of aerospace components whose customers include major aircraft component suppliers. Decimal is a manufacturer of aerospace components specializing in welded and brazed chassis structures housing electronics in aircraft whose customers include major aircraft component suppliers. Eur-Pac specializes in military packaging and supplies. Eur-Pac's primary business is "kitting" of supplies for all branches of the United States Defense Department including ordnance parts, hose assemblies, hydraulic, mechanical and electrical assemblies. Sterling manufactures components for aircraft and ground turbine engines. Compac specializes in the manufacture of RFI/EMI (Radio Frequency Interference – Electro-Magnetic Interference) shielded enclosures for electronic components. The Company's customers are primarily publicly traded companies in the aerospace and other industries.

Inventory Valuation

The Company does not take physical inventories at interim quarterly reporting periods. Approximately 50% of the inventory value at September 30, 2017 has been estimated using a gross profit percentage based on sales of previous periods to the net sales of the current period, as management believes that the gross profit percentage on these items are materially consistent from period to period. The remainder of the inventory value at September 30, 2017 is estimated based on the Company's standard cost perpetual inventory system, as management believes the perpetual system computed value for these items provides a better estimate of value for that inventory. Adjustments to reconcile the annual physical inventory to the Company's books are treated as changes in accounting estimates and are recorded in the fourth quarter. The Company valued inventory at December 31, 2016 at the lower of cost on a first-in-first-out basis or market.

	September 30, 2017 (Unaudited)	December 31, 2016
Raw Materials	\$7,388,000	\$7,031,000
Work in Process	24,981,000	25,635,000
Finished Goods	12,177,000	11,751,000
Inventory Reserve	(5,304,000)	(4,566,000)
Total Inventory	\$39,242,000	\$39,851,000

Table of Contents**Credit and Concentration Risks**

There were four customers that represented 67.9% and one customer that represented 14.2% of total net sales for the three months ended September 30, 2017 and 2016, respectively. This is set forth in the table below.

Customer	Percentage of Net Sales	
	2017 (Unaudited)	2016 (Unaudited)
1	19.4	14.2
2	21.8	*
3	16.6	*
4	10.1	*

* Customer was less than 10% of net sales for the three months ended September 30, 2016

There were three customers that represented 55.4% and four customers that represented 53.3% of total net sales for the nine months ended September 30, 2017 and 2016, respectively. This is set forth in the table below.

Customer	Percentage of Net Sales	
	2017 (Unaudited)	2016 (Unaudited)
1	20.2	11.9
2	18.1	19.8
3	17.1	10.7
4	*	10.9

* Customer was less than 10% of net sales for the nine months ended September 30, 2017

There were three customers that represented 60.7% of gross accounts receivable and one customer that represented 19.9% of gross accounts receivable at September 30, 2017 and December 31, 2016, respectively. This is set forth in the table below.

Customer	Percentage of Receivables	
	June 2017	December 2016
	(Unaudited)	
1	25.3	19.9
2	23.8	*
3	11.6	*

* Customer was less than 10% of Gross Accounts Receivable at December 31, 2016

During the nine months ended September 30, 2017 and 2016, the Company had occasionally maintained balances in its bank accounts that were in excess of the FDIC limit. The Company has not experienced any losses on these accounts.

The Company has several key sole-source suppliers of various parts that are important for one or more of its products. These suppliers are its only source for such parts and, therefore, in the event any of them were to go out of business or be unable to provide parts for any reason, its business could be severely harmed.

Earnings Per Share

Basic earnings per share is computed by dividing the net income (loss) applicable to common stockholders by the weighted-average number of shares of common stock outstanding for the period. Potentially dilutive shares, using the treasury stock method, are included in the diluted per-share calculations for all periods when the effect of their inclusion is dilutive.

Table of Contents

The following is a reconciliation of the denominators of basic and diluted earnings per share computations:

	Three Months Ended		Nine Months Ended
	September 30, 2017	September 30, 2016	September 30, 2016
	(Unaudited)	(Unaudited)	(Unaudited)
Weighted average shares outstanding used to compute basic earnings per share	13,463,372	7,610,220	13,463,372
Effect of dilutive stock options and warrants	—	—	—
Weighted average shares outstanding and dilutive securities used to compute dilutive earnings per share	13,463,372	7,610,220	13,463,372

The following table sets forth securities which were excluded from the diluted per share calculation because the conversion price or the exercise price was greater than the average market price of the common shares:

	Three and Nine	
	Months Ended	
	September 30, 2017	September 30, 2016
	(Unaudited)	(Unaudited)
Convertible preferred stock	2,630,953	1,488,396
Stock options	516,342	443,648
Warrants	1,479,212	519,573
Unvested restricted stock	—	52,000
	4,626,507	2,503,617

Table of Contents

The following table sets forth securities which were excluded from the diluted per share calculation for the nine months ended September 30, 2017 and 2016 even though the exercise price was less than the average market price of the common shares and unvested restricted stock because the effect of including these potential shares was anti-dilutive due to the net loss incurred during that period:

	September 30, 2017 (Unaudited)	September 30, 2016 (Unaudited)
Convertible preferred stock	—	—
Stock options	—	202,694
Warrants	—	—
Unvested restricted stock	—	—
	—	202,694

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with FASB ASC 718, “Compensation – Stock Compensation.” Under the fair value recognition provision of the ASC, stock-based compensation cost is estimated at the grant date based on the fair value of the award. The Company estimates the fair value of stock options and warrants granted using the Black-Scholes-Merton option pricing model. Stock based compensation amounted to \$82,000 and \$43,000 for the three months ended September 30, 2017 and 2016, respectively and \$9,000 and \$126,000 for the nine months ended September 30, 2017 and 2016, respectively, and was included in operating expenses on the accompanying Condensed Consolidated Statements of Operations.

Goodwill

Goodwill represents the excess of the acquisition cost of businesses over the fair value of the identifiable net assets acquired. The goodwill amount of \$9,883,000 at September 30, 2017 and December 31, 2016 relates to the acquisitions of Welding \$291,000, NTW \$162,000, Woodbine \$2,565,000, Eur-Pac \$1,656,000, ECC \$109,000, Sterling \$4,540,000 and Compac \$560,000. Goodwill is not amortized, but is tested annually for impairment, or if circumstances occur that more likely than not reduce the fair value of the reporting unit below its carrying amount.

The Company has determined that there has been no impairment of goodwill at September 30, 2017; however, based on year-to-date performance, goodwill is at risk of impairment. During the three months ended December 2017, the Company will conduct its annual goodwill impairment testing.

Debt Issuance Costs

Effective January 1, 2016, the Company adopted FASB ASU 2015-15 “Interest-Imputation of Interest (Subtopic 835-30), Presentation and Subsequent Measurement of Debt Issuance Costs Associated with Line-of-Credit Arrangements, Amendments to SEC Paragraphs Pursuant to Staff Announcement at June 18, 2015 EITF Meeting”. The amendments to the SEC paragraphs in this update state that given the absence of authoritative guidance within ASU 2015-03 for debt issuance costs related to line-of-credit arrangements, the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement. The adoption of this amended guidance did not have a significant impact on the Company's consolidated financial statements.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to interest rate, market, or foreign currency risks. The Company evaluates all of its financial instruments, including notes payable, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. Embedded derivatives must be separately measured from the host contract if all the requirements for bifurcation are met. The assessment of the conditions surrounding the bifurcation of embedded derivatives depends on the nature of the host contract.

Bifurcated embedded derivatives are recognized at fair value, with changes in fair value recognized in the statement of operations each period. Bifurcated embedded derivatives are classified with the related host contract in the Company's balance sheet.

Recently Issued Accounting Pronouncements

On May 28, 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*. ASU 2014-09 supersedes existing revenue recognition guidance, including ASC 605-35, *Revenue Recognition - Construction-Type and Production-Type Contracts*, and outlines a single set of comprehensive principles for recognizing revenue under U.S. GAAP. Among other things, it requires companies to identify contractual performance obligations and determine whether revenue should be recognized at a point in time or over time. On July 9, 2015, the FASB approved a one year deferral of the effective date of ASU 2014-09 to annual reporting periods beginning after December 15, 2017. We intend to adopt the New Revenue Standard effective January 1, 2018.

The new guidance allows for two transition methods in application - (i) retrospective to each prior reporting period presented, or (ii) prospective with the cumulative effect of adoption recognized on January 1, 2018 (also known as the modified retrospective approach). The Company intends to adopt the standard using the modified retrospective approach, which will result in an adjustment to accumulated deficit for the cumulative effect of applying this guidance to contracts in process as of the adoption date. Under this approach, prior financial statements presented will not be restated. This guidance requires additional disclosures of the amount by which each financial statement line item affected in the current reporting period during 2019 as compared to the guidance that was in effect before the change, and an explanation of the reasons for the significant changes.

The Company currently recognizes the majority of its revenues based on shipment of products (at a point in time). Currently, some contracts the Company enters into with customers are accounted for on a percentage of completion basis. For contracts with a significant amount of development and/or requiring the delivery of a minimal number of units, revenue and profit are recognized using the percentage-of-completion cost-to-cost method to measure progress. For contracts that require the Company to produce a substantial number of similar items without a significant level of development, the Company currently records revenue and profit using the percentage-of-completion units-of-delivery method as the basis for measuring progress on the contract.

Under ASC 606, revenue will be recognized as the customer obtains control of the goods and services promised in the contract (i.e., performance obligations). We may also have more performance obligations in our contracts under ASC 606, which may impact the timing of recording sales and operating profit, including those where sales recognition is deferred pending the incurrence of costs.

The Company has not completed its assessment of the effects of the new revenue standard, and has not determined whether adopting ASU 2014-09 will have a material effect on its consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities (Subtopic 825-10)" ("ASU 2016-01"). The main objective of ASU 2016-01 is enhancing the reporting model for financial instruments to provide users of financial statements with more decision-useful information. The amendments address certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company does not expect the adoption of ASU 2016-01 to have a significant impact on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The new standard establishes a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the Condensed Consolidated Statement of Operations. In addition, this standard requires a lessor to classify leases as either sales-type, finance or operating. A lease will be treated as a sale if it transfers all of the risks and rewards, as well as control of the underlying asset, to the lessee. If risks and rewards are conveyed without the transfer of control, the lease is treated as financing. If the lessor doesn't convey risks and rewards or control, the lease is treated as operating. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. A modified retrospective transition approach is required for lessees for capital and operating leases and lessors for sales-type, direct financing, and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. We expect that upon adoption we will recognize ROU assets and lease liabilities and will be assessing the impact on our financial position and results of operations. We do not expect the ASU to have a material impact on our cash flows or results of operations.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows: Restricted Cash, which clarifies the presentation requirements of restricted cash within the statement of cash flows. The changes in restricted cash and restricted cash equivalents during the period should be included in the beginning and ending cash and cash equivalents balance reconciliation on the statement of cash flows. When cash, cash equivalents, restricted cash or restricted cash equivalents are presented in more than one-line item within the statement of financial position, an entity shall calculate a total cash amount in a narrative or tabular format that agrees to the amount shown on the statement of cash flows. Details on the nature and amounts of restricted cash should also be disclosed. This standard is effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. The Company is currently in the process of evaluating the impact of the adoption of this standard on our financial statements.

Table of Contents

In January 2017, the FASB issued ASU 2017-01 (“ASU 2017-01”), Business Combinations, which clarifies the definition of a business, particularly when evaluating whether transactions should be accounted for as acquisitions or dispositions of assets or businesses. The first part of the guidance provides a screen to determine when a set is not a business; the second part of the guidance provides a framework to evaluate whether both an input and a substantive process are present. The guidance will be effective after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. Early adoption is permitted for transactions that have not been reported in issued financial statements. The Company is currently assessing the impact of this update on the presentation of these financial statements.

In January 2017, FASB issued ASU No. 2017-04, Intangibles—Goodwill and Other (Topic 350): Simplifying the Accounting for Goodwill Impairment, Step 2 of the goodwill impairment test, which requires determining the implied fair value of goodwill and comparing it with its carrying amount has been eliminated. Thus, the goodwill impairment test is performed by comparing the fair value of a reporting unit with its carrying amount (i.e., what was previously referred to as Step 1). In addition, ASU No. 2017-04 requires entities having one or more reporting units with zero or negative carrying amounts to disclose (1) the identity of such reporting units, (2) the amount of goodwill allocated to each, and (3) in which reportable segment the reporting unit is included. ASU No. 2017-04 is effective as follows: (1) for a public business entity that is an SEC filer for annual or interim goodwill impairment tests in fiscal years beginning after December 15, 2019. The Company is currently in the process of evaluating the impact of the adoption of this standard on our financial statements.

In July 2017, the FASB issued ASU 2017-11, *Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): (Part I) Accounting for Certain Financial Instruments with Down Round Features, (Part II) Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception*. The ASU allows companies to exclude a down round feature when determining whether a financial instrument (or embedded conversion feature) is considered indexed to the entity’s own stock. As a result, financial instruments (or embedded conversion features) with down round features may no longer be required to be accounted classified as liabilities. A company will recognize the value of a down round feature only when it is triggered and the strike price has been adjusted downward. For equity-classified freestanding financial instruments, such as warrants, an entity will treat the value of the effect of the down round, when triggered, as a dividend and a reduction of income available to common shareholders in computing basic earnings per share. For convertible instruments with embedded conversion features containing down round provisions, entities will recognize the value of the down round as a beneficial conversion discount to be amortized to earnings. The guidance in ASU 2017-11 is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted, and the guidance is to be applied using a full or modified retrospective approach. The Company adopted this guidance in the current quarter, effective April 1, 2017. As a result, the warrants issued on May 12, 2017, in connection with the bridge financing, were equity-classified.

The Company does not believe that any other recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying consolidated financial statements.

Subsequent Events

Management has evaluated subsequent events through the date of this filing.

Table of Contents

At the Company's Annual Meeting of Stockholders on October 3, 2017 (the "Annual Meeting"), stockholders approved the following stock issuances of common stock upon the conversion of outstanding securities at a conversion price of \$1.50 per share, the public offering price of the shares of the Company's common stock in the public offering completed on July 12, 2017 (the "Public Offering"), which issuances were contemplated as part of a restructuring of the Company's capitalization:

- 1,222,809 shares upon conversion of \$1,834,214 principal amount of May 2018 Notes.

- 8,629,606 shares upon conversion of the outstanding 1,294,441 shares of Series A Preferred Stock.
 - 346,992 shares upon the conversion of the Company's 7% subordinated convertible notes in the original principal amount of \$200,000 and \$300,000 payable to Michael N. Taglich and Robert F. Taglich, respectively, together with accrued interest thereon.

At the Annual Meeting, stockholders also approved an amendment to the Company's Articles of Incorporation increasing the number of authorized shares of common stock from 25,000,000 to 50,000,000 shares and approved the Company's 2017 Equity Incentive Plan authorizing the issuance of up to 1,200,000 shares pursuant to the Plan.

Table of Contents**Note 3. PROPERTY AND EQUIPMENT**

The components of property and equipment at September 30, 2017 and December 31, 2016 consisted of the following:

	September 30, 2017	December 31, 2016	Depreciable Lives
	(Unaudited)		
Land	\$300,000	\$300,000	
Buildings and improvements	1,650,000	1,650,000	31.5 years
Machinery and equipment	13,428,000	13,340,000	5 - 8 years
Capital lease machinery and equipment	6,265,000	6,265,000	3 - 5 years
Tools and instruments	7,985,000	7,520,000	1.5 - 7 years
Automotive equipment	195,000	195,000	5 years
Furniture and fixtures	438,000	438,000	5 - 8 years
Leasehold improvements	997,000	966,000	Term of Lease
Computers and software	519,000	519,000	4 - 6 years
Total property and equipment	31,777,000	31,193,000	
Less: accumulated depreciation	(21,004,000)	(18,974,000)	
Property and equipment, net	\$10,773,000	\$12,219,000	

Depreciation expense for the three months ended September 30, 2017 and 2016 was approximately \$584,000 and \$957,000, respectively. Depreciation expense for the nine months ended September 30, 2017 and 2016 were approximately \$2,026,000 and \$2,808,000, respectively. Assets held under capitalized lease obligations are depreciated over the lower of their related lease terms or their estimated productive lives. Depreciation of assets under capital leases is included in depreciation expense for 2017 and 2016. Accumulated depreciation on these assets was approximately \$3,261,000 and \$2,320,000 as of September 30, 2017 and December 31, 2016, respectively.

Note 4. INTANGIBLE ASSETS

The components of intangibles assets consisted of the following:

September 30, 2017	December 31, 2016	Amortization Period
(Unaudited)		

Edgar Filing: AIR INDUSTRIES GROUP - Form 10-Q

Customer relationships	6,115,000	\$6,115,000	5 to 14 years
Trade names	970,000	970,000	15 to 20 years
Technical know-how	660,000	660,000	10 years
Non-compete	150,000	150,000	5 years
Professional certifications	15,000	15,000	.25 to 2 years
Total intangible assets	7,910,000	7,910,000	
Less: accumulated amortization	(6,786,000)	(6,156,000)	
Intangible assets, net	\$1,124,000	\$1,754,000	

Amortization expense for the three months ended September 30, 2017 and 2016 was approximately \$49,000 and \$320,000, respectively. Amortization expense for the nine months ended September 30, 2017 and 2016 was approximately \$630,000 and \$960,000, respectively.

Table of Contents**Note 5. NOTES PAYABLE AND CAPITAL LEASE OBLIGATIONS**

Notes payable and capital lease obligations consist of the following:

	September 30, 2017	December 31, 2016
	(Unaudited)	
Revolving credit note payable to PNC Bank N.A. (“PNC”)	\$18,077,000	\$24,393,000
Term loans, PNC	3,841,000	6,649,000
Capital lease obligations	3,281,000	4,215,000
Related party note payable, net of debt discount	2,263,000	1,086,000
Notes payable (private placement), net of debt discount	3,261,000	627,000
Subtotal	30,723,000	36,970,000
Less: current portion of notes and capital lease obligations	(23,690,000)	(33,999,000)
	\$7,033,000	\$2,971,000

PNC Bank N.A. (“PNC”)

The Company has a Loan Facility with PNC secured by substantially all of its assets. The Loan Facility has been amended many times during its term. The Loan Facility was amended in June 2016 (the “Twelfth Amendment”) and September 2016 (the “Thirteenth Amendment”). In connection with the Twelfth Amendment, the Company paid PNC a fee of \$100,000 and reimbursed it for the fees and expenses of its counsel. The Twelfth Amendment provides for a \$33,000,000 revolving loan. In addition, in the Twelfth Amendment the four term loans (Term Loan A, Term Loan B, Term Loan C and Term Loan D) then outstanding were consolidated into a single term loan with the initial principal amount of \$7,387,854. Further, in the Twelfth Amendment the Company acknowledged that there were then outstanding excess advances under the revolving loan in the amount of \$12,500,000.

Under the terms of the Loan Facility, as amended, the revolving loan now bears interest at (a) the sum of the Alternate Base Rate plus one and three-quarters of one percent (1.75%) with respect to Domestic Rate Loans; and (b) the sum of the LIBOR Rate plus four and one-half of one percent (4.50%) with respect to LIBOR Rate Loans. The amount outstanding under the revolving loan, inclusive of the excess advance, was \$18,077,000 and \$24,393,000, as of September 30, 2017 and December 31, 2016, respectively. Because the revolving loans contain a subjective acceleration clause which could permit PNC to require repayment prior to maturity, all of the loans outstanding with PNC are classified with the current portion of notes and capital lease obligations.

The Loan Facility was further amended pursuant to the Thirteenth Amendment, to modify the advance rate with respect to our inventory to be the lesser of (i) 75% of the eligible inventory, an increase from 50%, and (ii) 90% of the

liquidation value of the eligible inventory, an increase from 85%, subject to the inventory sublimit of \$12,500,000 and such reserves as PNC may deem proper. In addition, in the Thirteenth Amendment the lender waived any default resulting from the Company's obligation to comply with the minimum EBITDA covenant for the period ended June 30, 2016, consented to the issuance of the Company's 12% Subordinated Convertible Notes and the amendment to the Company's Articles of Incorporation to increase the authorized number of shares of Preferred Stock and Series A Preferred Stock.

The repayment terms of the Term Loan provided for in the Twelfth Amendment consist of sixty (60) consecutive monthly principal installments, the first fifty-nine (59) of which shall be in the amount of \$123,133 commencing on the first business day of July, 2016, and continuing on the first business day of each month thereafter, with a sixtieth (60th) and final payment of any unpaid balance of principal and interest payable on the last business day of June, 2021.

Table of Contents

At the closing of the Twelfth Amendment, the Company paid \$1,500,000 to reduce the outstanding excess under the revolving loan from \$12,500,000 to \$11,000,000. It also agreed that the excess advances will be paid down by \$100,000 each week commencing the second week after the closing of the Twelfth Amendment.

To the extent that the Company disposes of collateral used to secure the Loan Facility, other than inventory, the Company must promptly repay the draws on the credit facility in the amount equal to the net proceeds of such sale.

The terms of the Loan Facility require that among other things, the Company maintain a specified Fixed Charge Coverage Ratio and maintain a minimum EBITDA. In addition, the Company is limited in the amount of capital expenditures it can make. The Company also is limited as to the amount of dividends it can pay its shareholders, as defined in the Loan Facility.

On June 19, 2017, we entered into the Fifteenth Amendment to the Loan Facility, which waived the failure to comply with the minimum EBITDA covenant for the periods ended December 31, 2016 and March 31, 2017 and the Capital Expenditures covenant for the period ended December 31, 2016. The amendment also requires that we maintain at all times a Fixed Charge Coverage Ratio, tested quarterly on a consolidated basis beginning September 30, 2017, as follows: (i) 1.00 to 1.00 for the quarter ending September 30, 2017, tested based upon the prior three (3) months, (ii) 1.05 to 1.00 for the quarter ending December 31, 2017, tested based upon the prior six (6) months and (iii) 1.05 to 1.00 for the quarter ending March 31, 2018, tested based upon the prior nine (9) months and that we maintain EBITDA of not less than \$345,000 for the period ending September 30, 2017. The amendment also provided that we were not required to maintain a Fixed Charge Coverage Ratio and that no testing was required to the Fixed Charge Coverage Ratio for the periods ending December 31, 2016 and June 30, 2017 and that we are not required to maintain a Fixed Charge Coverage Ratio and that no testing will be required of the Fixed Charge Coverage Ratio for the period ending June 30, 2017. As of September 30, 2017, the Company was not in compliance with our Fixed Charge Coverage Ratio covenant. The failure to satisfy the foregoing covenants would constitute a default under the Loan Facility and PNC at its option could give notice to the Company that all amounts under the Loan Facility are immediately due and payable, and accordingly all amounts due under the loan facility have been classified as current, as of September 30, 2017. In addition, the amendment reduces the weekly payments we are required to make to reduce our \$2,244,071 over-advance under the revolving credit facility as of June 19, 2017 from \$100,000 to \$25,000 per week during the period commencing May 22, 2017 through and including July 10, 2017. We paid \$50,000 to PNC in connection with the amendment and reimbursed PNC's counsel fees.

As of September 30, 2017, our debt to PNC in the amount of \$21,918,000 consisted of the revolving credit loan in the amount of \$18,077,000 (inclusive of the excess advance) and the term loan in the amount of \$3,841,000. As of December 31, 2016, our debt to PNC in the amount of \$31,042,000 consisted of the revolving credit note due to PNC in the amount of \$24,393,000 and the term loan due to PNC in the amount of \$6,649,000.

Each day, the Company's cash collections are swept directly by the bank to reduce the revolving loans and the Company then borrows according to a borrowing base formula. The Company's receivables are payable directly into a lockbox controlled by PNC (subject to the terms of the Loan Facility). PNC may use some elements of subjective business judgment in determining whether a material adverse change has occurred in the Company's condition, results of operations, assets, business, properties or prospects allowing it to demand repayment of the Loan Facility.

Table of Contents

As of September 30, 2017, the scheduled future minimum principal payments for the term loan are as follows, however as discussed above, the balance of the term loan has been classified as current:

For the twelve months ending	Amount
September 30, 2018	\$1,478,000
September 30, 2019	1,478,000
September 30, 2020	885,000
PNC Term Loans Payable	3,841,000
Short term portion	(3,841,000)
Long-term portion	\$—

Interest expense related to these credit facilities amounted to approximately \$1,660,000 and \$1,365,000 for the nine months ended September 30, 2017 and 2016, respectively.

Capital Leases Payable – Equipment

The Company is committed under several capital leases for manufacturing and computer equipment. All leases have bargain purchase options exercisable at the termination of each lease. Capital lease obligations totaled \$3,282,000 and \$4,215,000 as of September 30, 2017 and December 31, 2016, respectively, with various interest rates ranging from approximately 4% to 14%.

As of September 30, 2017, the aggregate future minimum lease payments, including imputed interest, with remaining terms of greater than one year are as follows:

For the twelve months ending	Amount
September 30, 2018	\$1,441,000
September 30, 2019	1,264,000
September 30, 2020	780,000
September 30, 2021	41,000
September 30, 2022	2,000
Total future minimum lease payments	3,528,000
Less: imputed interest	(239,000)
Less: current portion	(1,280,000)
Total Long Term portion	\$2,009,000

Table of Contents

Related Party Transactions and Notes Payable

Related party notes payable to Michael and Robert Taglich, and their affiliated entities, totaled \$2,263,000 and \$1,086,000, as of September 30, 2017 and December 31, 2016, respectively.

On March 17, 2017, the Company borrowed \$200,000 and \$300,000 from each of Michael Taglich and Robert Taglich, respectively, directors and principal stockholders of our company, and issued promissory notes in the principal amounts of \$200,000 and \$300,000 to Michael Taglich and Robert Taglich, respectively, to evidence our obligation to repay that indebtedness. The notes bore interest at the rate of 7% per annum. The notes have been converted into 346,992 shares of common stock.

On May 2, and May 10, 2017, the Company borrowed an aggregate of \$750,000 from each of Michael Taglich and Robert Taglich. This indebtedness, together with accrued interest, were converted into May 2018 Notes on May 12, 2017.

Taglich Brothers acted as a placement agent in connection with the sale of the May 2018 Notes and warrants discussed below for which they are to be paid commissions in the aggregate amount of \$176,000.

As compensation for its services as placement agent for the offering of the 12% Notes discussed below, the Company paid Taglich Brothers a fee of \$295,400 and issued to Taglich Brothers five-year warrants to purchase 68,617 shares of common stock at an initial exercise price of \$6.15, subject to certain anti-dilution and other adjustments.

Private Placements of 8% Subordinated Convertible Notes

From November 23, 2016 through March 21, 2017, the Company received gross proceeds of \$4,775,000 from the sale of an equal principal amount of our 8% Subordinated Convertible Notes (the "8% Notes"), together with warrants to purchase a total of 383,032 shares of our common stock, in private placement transactions with accredited investors (the "8% Note Offerings"). In connection with the offering of the 8% Notes, the Company issued 8% Notes in the aggregate principal amount of \$382,000 to Taglich Brothers, Inc., placement agent for the 8% Note Offerings, in lieu of payment of cash compensation for sales commissions, together with warrants to purchase a total of 180,977 shares of our common stock. Of the \$5,147,000 principal amount of 8% Notes issued in connection with the offerings of the 8% Notes, \$2,781,000 principal amount is due November 30, 2018 (the "2018 Notes") and \$2,366,000 principal amount is due January 31, 2019 (the "2019 Notes"). Payment of the principal and accrued interest on the 8% Notes are junior

and subordinate in right of payment to our indebtedness under the Loan Facility.

Interest on the 2018 Notes is payable on the outstanding principal amount thereof at the annual rate of 8%, payable quarterly commencing February 28, 2017, in cash, or at our option, in additional 2018 Notes, provided that if accrued interest payable on \$1,269,000 principal amount of the 2018 Notes issued in December 2016 is paid in additional 2018 Notes, interest for that quarterly interest payment shall be calculated at the rate of 12% per annum. Upon the occurrence and continuation of an event of default, interest shall accrue at the rate of 12% per annum.

On February 28, 2017, the Company issued an additional \$61,596 principal amount of 2018 Notes in lieu of cash payment of accrued interest for the interest period then ended, on May 31, 2017 the Company issued 2018 Notes and 2019 Notes in the aggregate principal amounts of \$68,872 and \$72,285, respectively, in lieu of cash payment of accrued interest for the interest period then ended, and on August 31, 2017, the Company issued 2018 Notes and 2019 Notes in the aggregate principal amounts of \$58,224 and \$48,966, respectively, in lieu of cash payment of accrued interest for the interest period then ended. As of September 30, 2017, the Company had outstanding \$5,466,600 principal amount of 8% Notes, including \$2,969,359 principal amount of 2018 Notes and \$2,497,251 principal amount of 2019 Notes.

The outstanding principal amount plus accrued interest on the 8% Notes is convertible at the option of the holder into shares of common stock conversion prices ranging from \$2.25 to \$4.45 per share, subject to certain anti-dilution and other adjustments, including stock splits, and in the event of certain fundamental transactions such as mergers and other business combinations.

An event of default under the 8% Notes will occur (i) if the Company fails to make any payment under the 8% Notes within ten (10) days after the date first due, or (ii) if the Company files a petition in bankruptcy or under any similar insolvency law, makes an assignment for the benefit of its creditors, or if any voluntary petition in bankruptcy or under any similar insolvency law is filed against the Company and such petition is not dismissed within sixty (60) days after the filing thereof. Upon the occurrence and continuation of an event of default, holders of a majority of the outstanding principal amount of the 8% Notes then outstanding, upon notice to the Company and the holders of the Senior Indebtedness (as defined in the 8% Notes), may demand immediate payment of the unpaid principal amount of the 8% Notes, together with accrued interest thereon and all other amounts payable under the 8% Notes, subject to the subordination provisions of the 8% Notes.

Table of Contents

The exercise price of the warrants issued in connection with the 8% Note Offerings ranges from \$3.00 to \$4.53 per share, subject to certain anti-dilution and other adjustments, including stock splits, distributions in respect of the common stock and in the event of certain fundamental transactions such as mergers and other business combinations, and may be exercised on a cashless basis for a lesser number of shares depending upon prevailing market prices at the time of exercise. Of these warrants, 320,702 warrants may be exercised until November 30, 2021 and 243,307 warrants may be exercised until January 31, 2022.

May Note Financing

On May 12 and May 19, 2017, the Company issued and sold to 17 accredited investors (including Michael N. Taglich and Robert F. Taglich individually and a partnership of which they are partners), its “May 2018 Notes” in the aggregate principal amount of \$4,158,624, together with warrants to purchase an aggregate of 501,039 shares of common stock, for gross proceeds (net of the exchange of indebtedness totaling \$1,503,288 due to Michael N. Taglich and Robert F. Taglich for working capital advances made on May 2 and 10, 2017) of \$2,534,196. Roth Capital LLC and Taglich Brothers acted as placement agents in connection with the sale of the May 2018 Notes and warrants for which they are to be paid commissions in the aggregate amount of \$191,155.

The May 2018 Notes and warrants were issued for a purchase price equal to 97% of the principal amount of the May 2018 Notes purchased. The principal amount of each May 2018 Note will be increased by 2% for each 30 days it remains outstanding commencing August 1, 2017. Upon the occurrence of, and during the continuance of an Event of Default (as defined in the May 2018 Notes), the May 2018 Notes will accrue late interest at the rate of 10% per annum. Payment of the principal and accrued interest, if any, on the May 2018 Notes is junior and subordinate in right of payment to the Company’s indebtedness under the Loan Facility.

The principal amount, together with accrued interest, if any, of the May 2018 Notes, when issued, were convertible into shares of common stock until November 12, 2017 at a conversion price of \$2.49 per share, subject to anti-dilution and other adjustments for stock splits and certain fundamental transactions, including recapitalizations, mergers and other business combination transactions (the “Fixed Conversion Price”), and thereafter at the lower of the Fixed Conversion Price and 75% of the five (5) Weighted Average Prices (as defined in the May 2018 Notes) of the common stock during the five consecutive trading day period ending on the trading day immediately preceding the day of a request by the holder for conversion of the May 2018 Note. The Company has the right to redeem all, or a portion of (on a pro rata basis), of the May 2018 Notes upon written notice to the holders not less than three trading days prior to the applicable redemption date. In connection with the Company’s July 2017 public offering of its common stock, approximately \$1,754,215 principal amount of the May 2018 Notes were converted into 1,240,605 shares of common stock and \$463,501 principal amount of May 2018 Notes were redeemed. The balance of the May 2018 Notes were converted into 1,222,809 shares of common stock pursuant to the restructuring approved by the Company’s stockholders at the Company’s Annual Meeting on October 3, 2017. Consequently no May 2018 Notes remain outstanding.

The Company issued warrants to purchase 501,039 shares of common stock as part of the private placement of the May 2018 Notes. The warrants, when issued, were exercisable at an initial exercise price of \$2.49 per share until May 12, 2022, and may be exercised on a cashless basis for a lesser number of shares based upon prevailing market prices when exercised. The exercise price of the warrants is subject to anti-dilution and other adjustments, including stock splits, and in the event of certain fundamental transactions such as recapitalizations, mergers and other business combination transactions. In accordance with the terms of the warrants, the exercise price was reduced to \$1.50 per share, the public offering price of the shares of common stock sold in the Public Offering.

The Company early adopted the provisions of ASU 2017-11 in recognizing the warrants. As a result, the exercise price reset provisions were excluded from the assessment of whether the warrants are considered indexed to the Company's own stock. The warrants otherwise meet the requirements for equity classification, as such were initially classified in Stockholders' Equity. The Company will recognize the value of the exercise price reset provision if and when it becomes triggered, by recognizing the value of the effect of the exercise price reset as a deemed dividend and a reduction of income available to common shareholders in computing basic earnings per share.

Table of Contents

The proceeds received upon issuing the May 2018 Notes and warrants was allocated to each instrument on a relative fair value basis. The allocation resulted in an effective conversion price for the May 2018 Notes that was below the quoted market price of the Company's common stock. As such, the Company recognized a beneficial conversion feature equal to the intrinsic value of the conversion feature on each issuance date, resulting in an additional discount to the initial carrying value of the May 2018 Notes with a corresponding credit to additional paid-in capital.

The Company recognized an aggregate debt discount on the May 2018 Notes of approximately \$2.5 million, comprised of the allocation of proceeds to the warrants and recognition of the beneficial conversion feature. The debt discount is presented net of the May 2018 Note balance in the Condensed Consolidated Balance Sheets and is amortized to interest expense over the term of the May 2018 Notes using the effective interest method. The Company amortized approximately \$179,000 to interest expense in the three months ended September 30, 2017.

Note 6. STOCKHOLDERS' EQUITY

Issuance of Series A Preferred Stock and Related Financings

On May 25, 2016, and June 1, 2016, the Company completed a private placement of 700,000 shares of our Series A Preferred Stock for \$10.00 per share and received gross cash proceeds of \$5,250,000, net of \$1,750,000 principal amount of our promissory notes exchanged by Michael Taglich and Robert Taglich, two of our principal stockholders, for shares of Series A Preferred Stock. The Company had issued the promissory notes to Michael Taglich and Robert Taglich for amounts borrowed from September 2015 through May 2016. The September 2015 loan bore interest at the rate of 4% per annum and was to be paid on September 7, 2016. The other loans bore interest at the rate of 7% per annum and were to be repaid on June 30, 2016, or, if earlier, upon the sale of the Company's equity from which it derived proceeds of \$1,800,000 or \$2,000,000 depending upon the promissory notes issued.

Preferred Stock

The shares of Series A Preferred Stock have a stated value of \$10.00 per share and are initially convertible into shares of common stock at a price of \$4.92 per share (subject to adjustment upon the occurrence of certain events). When issued, the dividend rate on the Series A Preferred Stock was 12% per annum, payable quarterly and was to increase to 15% per annum if we were to issue PIK Shares in lieu of payment of cash dividends payable until June 15, 2018. The dividend rate on the Series A Preferred Stock was originally to increase to 16% per annum after June 2018, 19% per annum to the extent dividends were paid in PIK Shares. In July 2017, the Company amended the Certificate of Designation authorizing the issuance of the Series A Preferred Stock to provide for the automatic conversion of the outstanding shares of Series A Preferred Stock into common stock at a conversion price of \$1.50 per share, the

offering price of the shares of common stock in the Public Offering, subject to stockholder approval in accordance with the applicable rules of the NYSE MKT. In addition, the amendment to the Certificate of Designation eliminated the liquidation preference and quarterly dividend payable to holders of the Series A Preferred Stock. Under the terms of the amendment, holders of the Series A Preferred Stock were to share ratably with the holders of the common stock on an as-converted basis (2.0325 shares of common stock for each share of Series A Preferred Stock held of record) with respect to dividends declared, paid or set aside for payment, assets available for distribution to stockholders upon the liquidation, dissolution or winding up of the Company's affairs, in addition to voting upon the election of directors and other matters submitted to stockholders for approval, except for matters requiring a class vote of the holders of the Series A Preferred Stock specified in the Certificate of Designation or under applicable law.

The Company has the right to redeem the Series A Preferred Stock after May 26, 2018 for a redemption price of \$10.00, plus accrued and unpaid dividends; however, the Company may not have sufficient cash available to effect such redemption.

In connection with the placement we incurred approximately \$606,000 of direct offering costs and \$57,000 in legal expenses and granted to the placement agents warrants to purchase 8% of the number of shares of our common stock (113,820 shares) issuable upon conversion of the Series A Preferred Stock sold in the offering. The warrants are exercisable in whole or in part, at an initial exercise price per share of \$6.15, and are exercisable for cash or on a cashless basis commencing on November 26, 2016 and expiring on May 26, 2021. The exercise price and number of shares of common stock issuable under the warrants are subject to adjustments for stock dividends, splits, combinations and similar events.

Table of Contents

Of the proceeds generated by the sale of our shares of Series A Preferred Stock, \$1,500,000 was paid to PNC to reduce the amount outstanding under our Loan Facility.

In August 2016, the Company completed the private placement of \$2,720,000 principal amount of our 12% Subordinated Convertible Notes due December 31, 2017 (the “12% Notes”), together with warrants to purchase an aggregate of 110,658 shares of common stock, for a total purchase price of \$2,720,000, from which we derived net proceeds of approximately \$2,319,800, which was used to pay down the Company’s indebtedness under the Loan Facility and for working capital. The Company also issued to Michael Taglich a 12% Note in the principal amount of \$1,520,713, together with warrants to purchase 61,817 shares of common stock, upon surrender for cancellation of promissory notes in the aggregate principal amount of \$1,500,000, together with accrued interest thereon and on notes previously exchanged for Series A Preferred Stock of \$20,713. The Company had issued the promissory notes to Michael Taglich for amounts borrowed in August 2016. The promissory notes bore interest at the rate of 7% per annum and were to be repaid on December 31, 2016, or, if earlier, upon the sale of our equity securities from which we derived proceeds of \$2,000,000. In addition, the Company issued to Robert Taglich a 12% Note in the principal amount of \$4,373, together with warrants to purchase 177 shares of common stock, in consideration of the forgiveness of interest of \$4,373 accrued on notes previously exchanged for Series A Preferred Stock.

The 12% Notes provided for the automatic conversion of the principal and accrued interest of the 12% Notes into shares of Series A Preferred Stock at a price of \$10.00 per share, the stated value of the Series A Preferred Stock, upon the filing of an amendment to the Company’s Articles of Incorporation increasing the number of shares of preferred stock we are authorized to issue from 1,000,000 shares to 3,000,000 shares, including 2,000,000 shares of Series A Preferred Stock (the “Charter Amendment”). The Company issued 438,770 shares of Series A Preferred Stock to the holders of the 12% Notes on November 30, 2016, the date the Company’s stockholders approved the Charter Amendment and the Company filed the certificate of amendment effecting the Charter Amendment with the Office of the Secretary of State of Nevada. As a result of the automatic conversion of the 12% Notes into shares of Series A Preferred Stock, no 12% Notes are outstanding.

As compensation for its services as placement agent for the offering of the 12% Notes, the Company paid Taglich Brothers, Inc. a fee of \$295,400 and issued to Taglich Brothers, Inc. five-year warrants to purchase 68,617 shares of common stock at an initial exercise price of \$6.15, subject to certain anti-dilution and other adjustments, including stock splits, and in the event of certain fundamental transactions such as mergers and other business combinations.

As of December 31, 2016, the Company had outstanding 1,202,548 shares of Series A Preferred Stock. As of September 30, 2017, we had outstanding 1,294,441 shares of Series A Preferred Stock, including 45,106 shares issued as pay-in-kind dividends (“PIK Shares”) on March 15, 2017 and 46,787 PIK Shares issued on June 15, 2017.

Common Stock

On July 12, 2017, the Company sold 5,175,000 shares of common stock at a price of \$1.50 per for gross proceeds of \$7,762,500 in an underwritten public offering (“Public Offering”) from which it derived net proceeds of \$6,819,125, of which approximately \$4,000,000 was used to pay outstanding trade payables, \$463,501 was used to redeem an equal principal amount of the \$4,158,624 principal amount of the May 2018 Notes and \$2,355,624 was added to the Company’s working capital.

Note 7. INCOME TAXES

The Company recorded no Federal income tax benefit for the nine months ended September 30, 2017 because there is a full valuation allowance on the incremental deferred tax assets created during the period. A tax benefit of approximately \$1.6 million would have been recorded for the nine months ended September 30, 2017, had there not been a full valuation allowance. In determining the estimated annual effective income tax rate, the Company analyzes various factors, including projections of our annual earnings and taxing jurisdictions in which the earnings will be generated, the impact of state and local income taxes, their ability to use tax credits and net operating loss carry forwards, and available tax planning alternatives. As of September 30, 2017 and December 31, 2016, the Company provided a valuation allowance against its net deferred tax assets since the Company believes it is more likely than not that its deferred tax assets will not be realized.

Table of Contents

The benefit from income taxes for the nine months ended September 30, 2017 and 2016 is set forth below:

	2017	2016
	(Unaudited)	(Unaudited)
Current		
Federal	\$—	—
State	8,000	13,000
Prior Year (over)/under Accrual		
Federal income tax refund	(178,000)	30,000
Total Current Expense	(170,000)	43,000
Deferred Tax Benefit	—	(2,145,000)
Net Benefit from Income Taxes	\$ (170,000)	(2,102,000)

Note 8. SALE OF AMK

On January 27, 2017, the Company sold all of the outstanding shares of AMK to Meyer Tool, Inc. pursuant to a Stock Purchase Agreement dated January 27, 2017 for a purchase price of \$4,500,000, net of a working capital adjustment of \$(240,000), plus additional quarterly payments, not to exceed \$1,500,000, equal to five percent (5%) of Net Revenues of AMK commencing April 1, 2017. The Company recorded a \$338,000 gain on the sale of AMK. The gain on sale was the difference between the non-contingent payments and the carrying value of the disposed business. The Company has made an accounting policy decision to record the contingent consideration as it is determined to be realizable.

In June 2017, the Company agreed to a final working capital adjustment with the buyer reducing the gain on sale from \$ 451,000 to \$338,000 for the six months ended June 30, 2017.

Note 9. LOSS CONTINGENCIES

During 2016, a number of actions were commenced against the Company by vendors, landlords and former landlords, including a third party claim as a result of an injury suffered on a portion of a leased property not occupied by the Company. As certain of these claims represent amounts included in accounts payable they are not specifically discussed herein.

Westbury Park Associates, LLC commenced an action on or about January 11, 2017 against Air Industries Group in the NYS Supreme Court, County of Suffolk, seeking the recovery of approximately \$31,000 for past rent arrears, and for an unidentified sum representing all additional rent due under a commercial lease through the end of its term, plus attorney's fees. The additional rent due through the end of the term is approximately \$105,000. The litigation is in the discovery stage and the Company believes there is a meritorious defense to the claim or that the landlord can and will mitigate its future damages by finding a new tenant.

Oxford Tech. has sued Welding Metallurgy in the Connecticut Superior Court seeking \$226,603 for commissions allegedly due for services rendered. In its complaint Oxford alleges breach of contract, unjust enrichment, and under certain Connecticut statutes. Those Connecticut statutes purportedly entitle it to double damages and attorneys' fees. It has also sued Air Industries Group under a veil piercing theory. The Company has filed a notice of appearance, and our answer is due at the end of November, with a statutory right to a 45 day extension beyond the current answer deadline. The litigation is in the preliminary stages and the Company intends to vigorously contest the claim.

An employee of the Company commenced an action against, among others, Rechler Equity B-2, LLC and Air Industries Group, in the Supreme Court State of New York, Suffolk County, seeking compensation in an undetermined amount for injuries suffered while leaving the premises occupied by Welding Metallurgy, Inc. Rechler Equity B-2, LLC, has served a Third Party Complaint in this action against Air Industries Group, Inc. and Welding Metallurgy, Inc. The action remains in the early pleading stage. The Company believes it is not liable to the employee and any amount it might have to pay would be covered by insurance.

Table of Contents**Note 10. SEGMENT REPORTING**

In accordance with FASB ASC 280, “Segment Reporting” (“ASC 280”), the Company discloses financial and descriptive information about its reportable operating segments. Operating segments are components of an enterprise about which separate financial information is available and regularly evaluated by the chief operating decision maker in deciding how to allocate resources and in assessing performance.

The Company follows ASC 280, which establishes standards for reporting information about operating segments in annual and interim financial statements, and requires that companies report financial and descriptive information about their reportable segments based on a management approach. ASC 280 also establishes standards for related disclosures about products and services, geographic areas and major customers.

The Company currently divides its operations into three operating segments: Complex Machining which consists of AIM and NTW; Aerostructures and Electronics which consists of WMI, WPI, Miller Stuart (until merged into WMI in May 2017), Eur-Pac, ECC and Compac; and Turbine Engine Components which consists of Sterling and for the period January 1, 2016, to January 27, 2017, AMK.

The accounting policies of each segment are the same as those described in the Summary of Significant Accounting Policies. The Company evaluates performance based on revenue, gross profit contribution and assets employed.

Financial information about the Company’s operating segments for the three and nine months ended September 30, 2017 and 2016 are as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2017	2016	2017	2016

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of our financial condition and results of operations should be read in conjunction with the unaudited consolidated financial statements and the notes to those statements included elsewhere in this Form 10-Q and with the audited consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2016. This discussion contains forward-looking statements that involve risks and uncertainties. You should specifically consider the various risk factors identified in our Annual Report on Form 10-K for the year ended December 31, 2016, and our Registration Statement on Form S-1 (Registration No. 333-219490) declared effective on August 4, 2017, that could cause actual results to differ materially from those anticipated in these forward-looking statements.

Business Overview

We are an aerospace company operating primarily in the defense industry, though the proportion of our business represented by the commercial and industrial sector is increasing. We manufacture and design structural parts and assemblies that focus on flight safety, including landing gear, arresting gear, engine mounts, flight controls, throttle quadrants, and other components. We also provide sheet metal fabrication of aerostructures, tube bending, welding and kitting services. Our Turbine Engine Components segment makes components and provides services for jet engines and ground-power turbines. Our products are currently deployed on a wide range of high profile military and commercial aircraft including Sikorsky's UH-60 Blackhawk and CH-47 Chinook helicopters, Lockheed Martin's F-35 Joint Strike Fighter, Northrop Grumman's E2D Hawkeye, the US Navy F-18 and USAF F-16 fighter aircraft, Boeing's 777 and Airbus' 380 commercial airliners. Our Turbine Engine segment makes components for jet engines that are used on the USAF F-15 and F-16, the Airbus A-330 and A-380, and the Boeing 777, in addition to a number of ground-power turbine applications.

Air Industries Machining, Corp. ("AIM") became a public company in 2005 when its net sales were approximately \$30 million. AIM has manufactured components and subassemblies for the defense and commercial aerospace industry for over 45 years and has established long-term relationships with leading defense and aerospace manufacturers. Since becoming public, we have completed a series of acquisitions of defense aerospace and recently commercial aerospace businesses which have enabled us to broaden the range of products and services beyond those which were provided by AIM. For example, where AIM was primarily a machining shop, as a result of acquisitions, Air Industries Group now has capabilities and expertise in metal fabrication, welding and tube bending; the production of electromechanical systems, harness and cable assemblies; the fabrication of electronic equipment and printed circuit boards; the machining of turbine engine components, and the assembly of packages or "kits" containing supplies for all branches of the United States Defense Department, including ordnance parts, hose assemblies, hydraulic, mechanical and electrical assemblies.

Table of Contents

The aerospace market is highly competitive in both the defense and commercial sectors and we face intense competition in all areas of our business. Nearly all of our revenues are derived by producing products to customer specifications after being awarded a contract through a competitive bidding process. As the commercial aerospace and defense industries continue to consolidate and major contractors seek to streamline supply chains by buying more complete sub-assemblies from fewer suppliers, we have sought to remain competitive not only by providing cost-effective world class service but also by increasing our ability to produce more complex and complete assemblies for our customers.

Our ability to operate profitably is determined by our ability to win new contracts and renewals of existing contracts, and then fulfill these contracts on a timely basis at costs that enable us to generate a profit based upon the agreed upon contract price. Winning a contract generally requires that we submit a bid containing a fixed price for the product or products covered by the contract for an agreed upon period of time. Thus, when submitting bids, we are required to estimate our future costs of production and, since we often rely upon subcontractors, the prices we can obtain from our subcontractors.

While our revenues are largely determined by the number of contracts we are awarded, the volume of product delivered and price of product under each contract, our costs are determined by a number of factors. The principal factors impacting our costs are the cost of materials and supplies, labor, financing and the efficiency at which we can produce our products. The cost of materials used in the aerospace industry is highly volatile. In addition, the market for the skilled labor we require to operate our plants is highly competitive. The profit margin of the various products we sell varies based upon a number of factors, including the complexity of the product, the intensity of the competition for such product and, in some cases, the ability to deliver replacement parts on short notice. Thus, in assessing our performance from one period to another, a reader must understand that changes in profit margin can be the result of shifts in the mix of products sold. Many of our operations have a large percentage of fixed factory overhead. As a result our profit margins are also highly variable with sales volumes as under-absorption of factory overhead can decrease profits.

A very large percentage of the products we produce are used on military as opposed to civilian aircraft. These products can be replacements for aircraft already in the fleet of the armed services or for the production of new aircraft. Reductions to the Defense Department budget and decreased usage of aircraft have reduced the demand for both new production and replacement spares. This has reduced our sales, particularly in our complex machining segment. In response to the reduction in military sales, we are focusing greater efforts on the civilian aircraft market though we still remain dependent upon the military for an overwhelming portion of our revenues.

Public Offering

On July 12, 2017, we sold 5,175,000 shares of common stock at a price of \$1.50 per for gross proceeds of \$7,762,500 in a firm commitment underwritten public offering (the “Public Offering”). We received net proceeds of approximately \$6,819,125 from the sale of our shares in the Public Offering. For additional information concerning the Public Offering and the related restructuring transactions (the “Restructuring Transactions”), see the discussion under the caption “Liquidity,” below.

Segment Data

We follow Financial Accounting Standards Board (“FASB”) ASC 280, “Segment Reporting” (“ASC 280”), which establishes standards for reporting information about operating segments in annual and interim financial statements, and requires that companies report financial and descriptive information about their reportable segments based on a management approach. ASC 280 also establishes standards for related disclosures about products and services, geographic areas and major customers.

We currently divide our operations into three operating segments: Complex Machining; Aerostructures and Electronics; and Turbine Engine Components. We separately report our corporate overhead (which was comprised of certain operating costs that were not directly attributable to a particular segment). Effective January 1, 2015, all operating costs are allocated to the Company’s three operating segments. As our businesses continue to develop and evolve, and we acquire additional companies, we may deem it appropriate to reallocate our companies into different operating segments and, once we achieve sufficient integration among our businesses, report as a unified company.

Table of Contents

The accounting policies of each of the segments are the same as those described in the Summary of Significant Accounting Policies. We evaluate performance based on revenue, gross profit contribution and assets employed.

Results of Operations

The following discussion of our results of operations constitutes management's review of the factors that affected our financial and operating performance for the three and nine months ended September 30, 2017 and 2016. This discussion should be read in conjunction with the financial statements and notes thereto contained elsewhere in this report. The results of operations of the businesses we have acquired are included in our financial results from their respective dates of acquisition.

Table of Contents**Results of Operations for the three months ended September 30, 2017****Net Sales:**

Consolidated net sales for the three months ended September 30, 2017 were approximately \$17,278,000, an increase of \$1,568,000, or 10.0%, compared with \$15,710,000 for the three months ended September 30, 2016. The three months ended September 30, 2016 included approximately \$1,276,000 of revenue of AMK which was sold in January 2017. Without AMK the increase in revenue was \$2,844,000 or 19.7%.

As indicated in the table below, four customers represented 67.9% and 14.2% of total net sales for the three months ended September 30, 2017 and 2016, respectively.

Customer	Percentage of Net Sales	
	2017	2016
	(unaudited)	
	(unaudited)	
GKN Aerospace	10.1	*
United States Department of Defense	16.6	*
Sikorsky Aircraft	19.4	14.2
Goodrich Landing Gear	21.8	*

Gross Profit:

Consolidated gross profit from operations for the three months ended September 30, 2017 was \$2,157,000 an increase of approximately \$160,000, or 8.0%, as compared to gross profit of \$1,997,000 for the three months ended September 30, 2016. Consolidated gross profit as a percentage of sales was 12.5% and 12.7% for the three months ended September 30, 2017 and 2016, respectively. Gross profit from operations for AMK which was sold in January 2017 for the three months ended September 30, 2016 was approximately \$ 64,000. Excluding AMK gross profit for the three months ended September 30, 2016 was 13.4%.

Operating Expenses:

Edgar Filing: AIR INDUSTRIES GROUP - Form 10-Q

Consolidated operating expenses for the three months ended September 30, 2017 were \$3,038,000 and decreased by \$1,264,000, or 29.4%, compared to \$4,302,000 for the three months ended September 30, 2016. Operating expenses for AMK which was sold in January 2017 for the three months ended September 30, 2016 were approximately \$267,000. Excluding AMK's operating costs the decrease in operating costs were approximately \$997,000 or 24.7%. The decrease in operating costs resulted from cost reduction programs instituted during the year.

Interest and financing costs for the three months ended September 30, 2017 were approximately \$1,877,000, an increase of approximately \$983,000, or 110.0%, compared to \$894,000 for the three months ended September 30, 2016.

Loss before income taxes for the three months ended September 30, 2017 was \$2,851,000, a decrease in the loss of \$516,000, or 15.3% compared to the loss before income taxes of \$3,367,000 for the three months ended September 30, 2016.

Net Loss:

Net loss for the three months ended September 30, 2017 was \$2,880,000, an increase in the loss of \$833,000, or 40.7%, compared to net loss of \$2,047,000 for the three months ended September 30, 2016 for the reasons discussed above.

Table of Contents**Results of Operations for the nine months ended September 30, 2017**

Net Sales:

Consolidated net sales for the nine months ended September 30, 2017 were approximately \$50,515,000, an increase of \$258,000, or 0.5%, compared with \$50,257,000 for the nine months ended September 30, 2016. Excluding AMK which was sold in January 2017, consolidated net sales were \$50,098,000 and \$46,683,000 for nine months ended September 30, 2017 and 2016, respectively, an increase of \$3,415,000 or 7.3%.

As indicated in the table below, three customers represented 55.4% and four customers represented 53.3% of total net sales for the nine months ended September 30, 2017 and 2016, respectively.

Customer	Percentage of Net Sales	
	2017	2016
	(Unaudited)	
Sikorsky Aircraft	18.1	19.8
Goodrich Landing Gear	20.2	11.9
Northrop Grumman Corporation	*	10.9
United States Department of Defense	17.1	10.7

Gross Profit:

Consolidated gross profit from operations for the nine months ended September 30, 2017 was \$7,778,000 a decrease of approximately \$1,195,000, or 13.3%, as compared to gross profit of \$8,973,000 for the nine months ended September 30, 2016. Consolidated gross profit as a percentage of sales was 15.4% and 17.9% for the nine months ended September 30, 2017 and 2016, respectively.

Operating Expenses:

Consolidated operating expenses for the nine months ended September 30, 2017 totaled approximately \$10,376,000 and decreased by \$2,520,000, or 19.5%, compared to \$12,896,000 for the nine months ended September 30, 2016.

Edgar Filing: AIR INDUSTRIES GROUP - Form 10-Q

Operating expenses for AMK which was sold in January 2017 for the nine months ended September 30, 2016 were approximately \$611,000. Excluding AMK's operating costs the decrease in operating costs was approximately \$1,909,000 or 15.5%. The decrease in operating costs resulted from cost reduction programs instituted during the year.

Interest and financing costs for the nine months ended September 30, 2017 were approximately \$3,645,000 an increase of approximately \$1,874,000, or 105.8%, compared to \$1,771,000 for the nine months ended September 30, 2016.

Loss before income taxes for the nine months ended September 30, 2017 was \$6,176,000, an increase of \$345,000, or 5.9%, compared to net loss before taxes of \$5,831,000 for the nine months ended September 30, 2016.

Table of Contents

The Company recognized a benefit for income taxes of approximately \$170,000 for nine months ended September 30, 2017 compared to a benefit of approximately \$2,102,000 for nine months ended September 30, 2016, a change of \$1,932,000.

Net loss for the nine months ended September 30, 2017 was \$6,006,000, a decrease in performance of \$2,277,000, or 61.1%, compared to net loss of \$3,729,000 for the nine months ended September 30, 2016. The decrease in net income results primarily from the impact of the loss incurred at our Turbine Engine Components segment and the tax effects discussed above.

Impact of Inflation

Inflation has not had a material effect on our results of operations.

LIQUIDITY AND CAPITAL RESOURCES

We are highly leveraged and rely upon our ability to continue to borrow under our Loan Facility with PNC or to raise debt and equity from third parties to support operations and acquisitions. Substantially all of our assets are pledged as collateral under our Loan Facility. We are required to maintain a lockbox account with PNC, into which substantially all of our cash receipts are paid. If PNC were to cease providing revolving loans to us under the Loan Facility, we would lack funds to continue our operations. Over the past eighteen months we have also relied upon our ability to borrow money from certain stockholders and raise debt and equity capital to support our operations. Should we continue to need to borrow funds from our principal stockholders or raise debt or equity, there is no assurance that we will be able to do so or that the terms on which we borrow funds or raise equity will be favorable to us or our existing shareholders.

The Loan Facility has been amended many times during its term, most recently in January 2017 (the “Fourteenth Amendment”) and June 2017 (the “Fifteenth Amendment”).

The Loan Facility provides for a \$33,000,000 revolving loan and a
