SPECIAL REVIEW REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Shareholders of  
**Companhia Brasileira de Distribuição**

1. We have performed a special review of the quarterly information (ITR) of Companhia Brasileira de Distribuição (the Company) and Companhia Brasileira de Distribuição and subsidiaries for the quarter ended March 31, 2006, including the balance sheets, the related statements of income, the report on performance and significant information, prepared by Company management in accordance with the accounting practices adopted in Brazil. The quarterly information of investees Pão de Açúcar Fundo de Investimento em Direitos Creditórios and Miravalles Empreendimentos e Participações S.A. for the quarter ended March 31, 2006 was reviewed by other independent auditors. Our special review report, in relation to the amounts of assets, liabilities and results of these investees, is exclusively based on the limited review reports of these independent auditors.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council (CFC), which consisted principally of: (a) inquiries of and discussions with persons responsible for the Company's accounting, financial and operating areas as to the criteria adopted in preparing the quarterly information, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company.
3. Based on our special review and the limited review reports of the other independent auditors, we are not aware of any material modifications that should be made to the quarterly information referred to above for it to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory quarterly information.

The statements of cash flows and added value of Companhia Brasileira de Distribuição and Companhia Brasileira de Distribuição and subsidiaries for the quarter ended March 31, 2006, prepared in accordance with the accounting practices adopted in Brazil, presented to provide additional information about the Company and its subsidiaries, are not required components of the quarterly information. These statements were submitted to the review procedures described in paragraph two above and, based on our review and the quarterly information reviewed by the other independent auditors, we are not aware of any significant adjustment that should be made to this additional information for it to be fairly presented, in all material respects, in relation to the overall quarterly information for the quarter ended March 31, 2006.

**1. Operations**

Companhia Brasileira de Distribuição ("Company" or CBD ) operates primarily as a retailer of food, clothing, home appliances and other products through its chain of hypermarkets, supermarkets, specialized and department stores principally under the trade names "Pão de Açúcar", "Extra", "ABC-Barateiro", "Comprebem", "Extra Eletro" and Sendas . At March 31, 2006, the Company had 554 stores in operation (556 stores at December 31, 2005), of which 383 are operated by the Parent Company, and the remaining by its subsidiaries, 6 of them being operated by the subsidiary Novasoc Comercial Ltda., ("Novasoc"), 51 by Sé Supermercados Ltda., ("Sé"), 7 by Companhia Pernambucana de Alimentação ("CIPAL") and 107 stores by Sendas Distribuidora S.A. ("Sendas Distribuidora"). In 2005, several projects were initiated, whose objective is to increase competitiveness and profitability, with highlight to the beginning of implementation of the following projects: Commercial Dynamics (review of processes and systems related to Purchase and Category Management); Restructuring of the Marketing area (canceling of contracts with external agencies); Shared Service Center; Material Purchase and Indirect Services Center (not for sale); Zero Base Budget; Matrix Management of Expenses; Economic Value Added (EVA) and Maximum Efficiency in Supermarkets identification of internal benchmarks and dissemination of the best practices throughout the group. The objective is to make all these projects operational by the first six month-period of 2006.

a) Sendas Distribuidora

Sendas Distribuidora operations began on February 1, 2004 through the Investment and Partnership Agreement, entered into in December 2003 with Sendas S.A. ("Sendas"). This subsidiary concentrates retailing activities of the Company and of Sendas in the entire state of Rio de Janeiro. In 2005, a restructuring process began in the Company, with a view to increasing profitability through efficiency gains. Several measures were taken already in the fourth quarter of 2005 to reduce operating and corporate expenses, as well as a review of processes and systems. Decrease in operating expenses is a result of the review of operating processes that seek simplification and rationalization. Therefore, corporate expense decrease was based on scale gains supported by service centralization and sharing.

b) Partnership with Itaú

On July 27, 2004, a Memorandum of Understanding was signed between Banco Itaú Holding Financeira S.A. ("Itaú") and the Company with the objective of setting up Financeira Itaú CBD S.A. ("FIC"). FIC structures and trades financial products, services and related items to CBD customers, and has been doing so on an exclusive basis since the third quarter of 2005 (see Note 9 (d)). The Company has 50% shareholding of the FIC capital through its subsidiary Miravalles Empreendimentos e Participações S.A. ("Miravalles").

c) Casino joint venture agreement

On May 3, 2005, the Diniz Group and the Casino Group (headquartered in France) incorporated Vieri Participações S.A. (Vieri), which became a parent company of CBD, whose control is shared by both group of shareholders.

## 1. Operations (Continued)

### c) Casino joint venture agreement (Continued)

On June 22, 2005, the Groups entered into Shareholders' Agreements of the Parent Company (Vieri) and CBD, which established that CBD control is exclusively exercised by Vieri.

## 2. Basis of Preparation and Presentation of the Quarterly Information

The quarterly information was prepared in accordance with the accounting practices adopted in Brazil and with the procedures issued by the Brazilian Securities Commission (CVM) and by the Brazilian Institute of Independent Accountants (IBRACON).

As per Official Memorandum CVM/SNC/SEP 01/2006, the Company reclassified the balances under the caption Redeemable PAFIDC quotas of interest to Loans and financing group of accounts, and part of Other balances to Accounts Receivable under Commercial Agreements in the December 31, 2005 financial statements.

The financial statements include the following supplementary information that management considers significant to the market (See Note 22):

Attachment I Statement of Cash Flows prepared based on the indirect method, as from accounting records, in accordance with IBRACON standards.

Attachment II Statement of Added Value prepared in accordance with the Brazilian Accounting Standards, supplemented by CVM guidance and recommendations.

Significant accounting practices and consolidation criteria adopted by the Company are shown below:

### a) Accounting estimates

Certain assets, liabilities, revenues and expenses are determined on the basis of estimates when preparing the quarterly information. Accordingly, the quarterly information of the Company and the consolidated quarterly information include various estimates, among which are those relating to calculation of allowance for doubtful accounts, depreciation and amortization, asset valuation allowance, realization of deferred taxes, contingencies and other estimates. Actual results may differ from those estimated.

### b) Revenues and expenses

Sales are recognized as customers receive the goods. Financial income arising from credit sales is accrued over the credit term. Expenses and costs are recognized on the accruals basis. Volume bonuses and discounts received from suppliers in the form of product are recorded as zero-cost additions to inventories and the benefit recognized as the product is sold. Cost of sales includes warehousing and handling costs.

## 2. Basis of Preparation and Presentation of the Quarterly Information (Continued)

### c) Accounts receivable

Accounts receivable are stated at estimated realizable values. An allowance for doubtful accounts is provided in an amount considered by management to be sufficient to meet probable future losses related to uncollectible accounts.

Customer credit financing is generally for a term of up to 24 months. Interest is recorded and allocated as financial income during the financing period.

The Company securitizes its accounts receivable with a partially owned special purpose entity, the PAFIDC.

### d) Inventories

Inventories are carried at the lower of cost or market value. The cost of inventories purchased directly by the stores is based on the last purchase price, which approximates the First In, First Out (FIFO) method. The cost of inventories purchased through the warehouse is recorded at average cost, including warehousing and handling costs.

### e) Other current and noncurrent assets

Other assets and receivables are stated at cost, including, when applicable, contractual indexation accruals, net of allowances to reflect realizable amounts, if necessary.

### f) Investments

### g) Property and equipment

These assets are shown at acquisition or construction cost, monetarily restated until December 31, 1995, less the related accumulated depreciation, calculated on a straight-line basis at the rates mentioned in Note 10, which take into account the economic useful lives of the assets or the leasing term, whichever is shorter.

Beginning 2005, the Company, following the NBC T 19.5 recommendations, started to account for the amortization of leasehold improvements based on the respective lease contract time limits.

## 2. Basis of Preparation and Presentation of the Quarterly Information (Continued)

### g) Property and equipment (Continued)

### h) Deferred charges

Deferred charges include goodwill paid on the acquisition of investments already added and pre-operating expenses. Goodwill is supported by reports issued by independent experts, based on the expectation of future profitability, and is amortized in accordance with estimated profitability of the acquired businesses over a maximum period of ten years.

Pre-operating expenses are amortized in accordance with the terms described in Note 11 (b).

### i) Other current and noncurrent liabilities

These liabilities are stated at known or estimated amounts including, when applicable, accrued charges and interest or foreign exchange variations.

### j) Derivative financial instruments

The Company uses derivative financial instruments to reduce its exposure to market risk resulting from fluctuations in interest and foreign currency exchange rates. In the case of asset instruments, these are accounted for at the lower of cost or market value.

### k) Income and social contribution taxes

Deferred income and social contribution taxes (where applicable) are calculated on tax losses and timely differences to taxable income. Management expects the realization of deferred tax credit assets over the next 10 years.

### l) Provision for contingencies

Provision for contingencies is set up based on legal counsel opinions, in amounts considered sufficient to cover losses and risks considered probable.

As per CVM Deliberation 489/05, the Company adopted the concepts established in NPC 22 on Provisions, Liabilities, Gains and Losses on Contingencies when setting up provisions and disclosures on matters regarding litigation and contingencies.

## 2. Basis of Preparation and Presentation of the Quarterly Information (Continued)

### m) Earnings per share

The calculation was made based on the number of outstanding shares at the balance sheet date and as if net income were distributed in its entirety. Earnings may be distributed or used for capital increase purposes, consequently there is no guarantee that they will be paid as dividends.

### n) Consolidated quarterly information

The consolidated quarterly information was prepared in conformity with the consolidation principles prescribed by Brazilian GAAP including CVM Ruling 247, and include the financial statements of the Company and its subsidiaries Novasoc, Sé, CIPAL, Sendas Distribuidora, PAFIDC and Versalhes Comércio de Produtos Eletrônicos Ltda. ( Versalhes ).

Although the Company's interest in Novasoc is represented by 10% of Novasoc's quotas of interest, Novasoc is included in the consolidated financial statements as the Company effectively has control over a 99.98% beneficial interest in Novasoc. The other members have no effective veto or other participating or protective rights. Under the bylaws of Novasoc, the appropriation of its net income need not be proportional to the quotas of interest held in the company. At the members' meeting on December 29, 2000 it was agreed that the Company would participate in 99.98% of Novasoc's results.

Sendas Distribuidora was fully consolidated, in accordance with the shareholders' agreement, which establishes the operating and administrative management by the Company, in addition to its right to appoint and remove executive officers. At March 31, 2006, equity results considers a shareholding of 42.57% of total capital.

The proportional investment of the Parent Company in the income of the investee and the balances payable and receivable, revenues and expenses and the unrealized profit originated in transactions between the consolidated companies were eliminated in the consolidated financial statements.

## 3. Marketable Securities

**4. Trade Accounts Receivable** (Continued)d) Allowance for doubtful accounts

The allowance for doubtful accounts is based on average actual losses in previous periods complemented by management's estimate of probable future losses on outstanding receivables:

	Parent Company		Consolidated	
	3.31.2006	12.31.2005	3.31.2006	12.31.2005
Resulting from:

Accounts receivable - PAFIDC	-	-	(94)	(1,292)
	(1,672)	(3,785)	(2,317)	(6,028)

Senior quotas Series A accrued benchmark remuneration of 103.0% of CDI, the interbank variable interest rate, from the first subscription of quotas of interest through February 20, 2004 and 105.0% of CDI thereafter; and Series B accrue 101.0% of CDI. The remaining balance of results will be attributed to the subordinate quotas. The holders of senior quotas series B will redeem on June 23, 2006 and June 23, 2007 the principal amount of R\$ 71,700, at each redemption, updated by the benchmark remuneration, and will redeem the remaining balance at the end of the fund's term. The holders of quotas of interest Series A will redeem their quotas of interest at the end of the fund's term.

Subordinated quotas were issued in a single series, are non-transferable and registered. The Company will redeem the subordinated quotas only after the redemption of senior quotas or at the end of the fund's term. Once the senior quotas have been remunerated, the subordinated quotas receive the balance of the fund's net assets after absorbing any default on the credit rights transferred to the fund and any losses attributed to the fund. Their redemption value is subject to credit, prepayment, and interest rate risks on the transferred financial assets.

**7. Receivables Securitization Fund - PAFIDC (Continued)**

The holders of senior quotas have no recourse against the other assets of the Company in the event customers default on the amounts due. As defined in the agreement between the Company and PAFIDC, the transfer of credit rights is irrevocable, non-retroactive and the transfer is definitive and not enforceable against the Company.

The assignors will assign and transfer receivables to the Fund over a period of five years, renewable for a further period of five years.

However, because their operating continuity and future economic feasibility are assured by the parent company, the Company recorded R\$ 51,984 (R\$ 55,014 at December 31, 2005), under Provision for capital deficiency to recognize obligations to the creditors.

- (ii) Sé Supermercados Sé holds a direct interest in Miravalles, corresponding to 50% of total capital. Investment at Miravalles indirectly represents investment at FIC (Note 9 (d)). The investment is recognized by the equity results method.

b) Change in investments (Continued)

Goodwill recorded in the acquisition of investments is supported by on appraisal reports of independent experts and is based principally on their expected future profitability and the appreciation of property and equipment, and is amortized based on the projected profitability of the stores acquired over a period of up to ten years. Upon acquisition of the companies, the portion related to expected future profitability was transferred to deferred charges (Note 11).

c) Investment agreement – CBD and Sendas

In February 2004, based on the Investment and Association Agreement, the companies CBD and Sendas S.A. constituted, by means of transfer of assets, rights and liabilities, a new company known as Sendas Distribuidora S.A., with the objective of operating in the retailing market in general, through the association of operating activities of both networks in the State of Rio de Janeiro. The interest of CBD in Sendas Distribuidora at March 31, 2006 corresponded to 42.57% of total capital. It is incumbent on CBD to conduct the operating and administrative management of the new company, through its Executive Board, in addition to its prevailing decision when electing or removing directors from their office.

Pursuant to a shareholder agreement, Sendas S.A. may at any time after February 1, 2007 exercise the right to barter its paid-in shares in Sendas Distribuidora, or a portion thereof, for preferred shares of CBD. At March 31, 2006, Sendas S.A. held 42.57% shareholding in the total capital of Sendas Distribuidora, 23.65% of which already paid in and 18.92% not paid in yet.

Should Sendas S.A. exercise such right to barter, CBD will comply with the obligation, through one of the following:

- i) Conduct the share barter trade for the Value of Transfer (\*);
- ii) Purchase the shares on which the barter rights have been exercised in cash, for the Value of Transfer (\*);
- iii) Adopt any corporate procedure (CBD capital increase, absorption of shares per article 252 of the Corporation Law, or any other);

(\* ) Value of Transfer will be the value of the paid-in shares (23.65% at March 31, 2006), which must be the higher among the options below, limited to the CBD market value:

- Price of shares calculated based on the company market value (valuation) to be calculated by a first-rate investment bank;
- Price of shares calculated based on the company value (valuation), equivalent to 40% (forty percent) on gross sales of Sendas Distribuidora in the 12 (twelve) months preceding the acquisition date.

c) Investment agreement CBD and Sendas (Continued)

CBD Preferred shares owned by Sendas S.A., after exchange, may only be sold according to the following dates:

- Between February 1, 2007 and January 31, 2010: 1/3 (one third) of CBD Preferred shares;
- Between February 1, 2010 and January 31, 2013: 1/3 (one third) of CBD Preferred shares;
- As from February 1, 2013: the remaining CBD Preferred shares still held by Sendas S.A.

On September 16, 2005 the 2nd Amendment and Consolidation to the Sendas Distribuidora Shareholders Agreement was signed between Sendas S.A. and CBD and subsidiaries, by which the following was decided:

- Adoption of proportionality when indicating the Board of Director members, and of the 13 to be elected, CBD now has the right to elect 7 members;
- Restriction of the right to veto of Sendas S.A. to amendment to the Company business purpose;
- Postponement of the Additional Term ("Second Term") of Payment of Class A Preferred Shares not paid in by Sendas S.A., until February 28, 2014. During the Second Term, the payment may only be made in cash, particularly by using dividends paid by the Company to Sendas S.A.; should the payment not take place during the period, the shares will be cancelled.

(i) *CADE (Administrative Council for Economic Defense)*

On March 5, 2004, Sendas Distribuidora shareholders entered into an Operation Reversibility Agreement related to the association between CBD and Sendas S.A. in the State of Rio de Janeiro, which establishes conditions to be observed until the final decision on the association process, such as the continuance, totally or partially, of the stores under Sendas Distribuidora responsibility, maintenance of the work posts in accordance with the average gross revenue by employee of the five largest supermarket chains, non-reduction of the term of current lease agreements, among others.

Shareholders are waiting for the conclusion of the process, however, based on the opinion of their legal advisors and on the normal procedural steps of the process, they believe that the association will be approved by the CADE.

*(ii) Capital subscription by the AIG Group*

With a view to reducing net indebtedness and strengthening the capital structure of the subsidiary Sendas Distribuidora, on November 30, 2004, its shareholders and investment funds of the AIG Group ("AIG") entered into an agreement through which AIG invested the amount of R\$ 135,675 (equivalent to US\$ 50 million) in Sendas Distribuidora, by means of subscription and payment of 157,082,802 Class B preferred shares, issued by Sendas Distribuidora, representing 14.86% of its capital. AIG has waived its rights to receive dividends, until November 30, 2008.

After this operation, the Company, through its subsidiary Sé, now holds 42.57% of the Sendas Distribuidora total capital.

According to the above mentioned agreement, CBD and AIG mutually granted reciprocal call and put options of the shares purchased by AIG in Sendas Distribuidora, which may be exercised within approximately 4 years.

Upon exercising the referred options, the shares issued by Sendas Distribuidora to AIG will represent a put against CBD which may be used to subscribe up to three billion preferred shares to be issued by CBD in a future capital increase.

The price of the future issuance of CBD preferred shares will be set based on market value at the time of issuance, and the amount of issued shares will enable the payment by AIG in the maximum quantity referred to above. If the AIG value of Sendas Distribuidora shares results in more than the value of three billion shares of CBD, CBD will pay the difference in cash.

The exit of AIG from Sendas Distribuidora is defined based on the Exit Price, the calculation base of which is the EBITDA, EBITDA multiple and the Net Financial Indebtedness of Sendas Distribuidora. This Exit Price will give AIG the right to purchase CBD preferred shares according the criteria below:

- Should the Exit Price be lower than the equivalent to two billion CBD preferred shares (at market value on the occasion), the number of shares to be issued will be defined by the Exit Price divided by the CBD preferred share market value;
- Should the Exit Price exceed the equivalent to two billion CBD preferred shares (at market value on the occasion), the number of shares to be issued will be, at CBD discretion, a minimum of two billion shares and a maximum of three billion shares, and the difference between the Exit Price and the amount equivalent to the number of CBD preferred shares issued (defined by CBD) will be paid in cash.

(ii) *Capital subscription by the AIG Group* (Continued)

At March 31, 2006, total AIG shareholding represented a credit of R\$ 137,827 (R\$ 97,212 at December 31, 2005), which, converted to the average quotation of the last week of March 2006 of CBD shares in the São Paulo Stock Exchange (BOVESPA), would be equivalent to a total of 1,494,970,000 shares (1,328,390,000 shares at December 31, 2005) of the Company (1% of its capital).

d) Investment agreement CBD and Itaú

Miravalles Empreendimentos e Participações S.A. ("Miravalles"), a company set up in July 2004 and owner of exploitation rights of the Company's financial activities, received funds from Itaú related to capital subscription, with the results that Itaú holds the equivalent to 50% of such company. Subsequently, with capital of R\$ 150,000, Miravalles set up Financeira Itaú CBD S.A. FIC, a company which will structure and trade financial products, services and related items exclusively to CBD customers.

The subscription made by Itaú in Miravalles resulted in gain from shareholding dilution of R\$ 380,444 in 2004. This gain was reduced by the disposal of certain assets related to the operation, by provisions for start up costs and, particularly, by agreement to make certain amounts subject to performance goals during a maximum period of five years, as from the startup of FIC operations, which occurred in the first quarter of 2005. The net gain was recorded under Non-operating results for the year ended December 31, 2004.

On December 22, 2005, an amendment to the partnership agreement between CBD, Itaú and FIC was signed, and the clauses referring to meeting of performance goals, initially established, were changed. By such amendment, the meeting of goals and the guarantee account are not longer tied, and fines for noncompliance of goals were established. At March 31, 2006 the Company recognized the net amount of R\$ 13,302 under non-operating results, due to meeting of certain performance goals during the year, maintaining a net provision amounting to R\$ 44,849 (R\$ 58,151 at December 31, 2005) for payment of fines should the remaining goals not be met.

This partnership, which is effective for 20 years (and may be extended), resulted in operating synergies, enabling expansion and improvement of the current offer of services and products to CBD customers, including, among others, Private Label Credit Cards (Own label: restricted to use within CBD stores), credit card company cards with widespread acceptance, direct credit to consumers and personal loans, the operating management of which will be under Itaú responsibility.

The Miravalles financial statements for the quarter ended March 31, 2006 and for the year ended December 31, 2005 were audited by other independent auditors. At March 31, 2006, total assets and net result of operations of said investee represented 0.5% and 15.4%, respectively, in relation to the Company consolidated quarterly information.

Expenses incurred in 2005 concerning the property sales project, related basically to long-term contract initial fee, will be amortized through the lease agreement. The project also includes expenses with professional fees, to be amortized over 5 years.

This also includes expenses with specialized consulting fees, incurred during the development and implementation of strategic projects that began in the fourth quarter of 2005, and whose final objective is to obtain efficiency and productivity gains already in 2006. The major projects involve commercial strategy and a new category management process, including the permanent admittance of imported products into the country, pricing management, and review of the product line. Each project has a defined process and cost, with technical feasibility supported by future benefits to be provided by them. As soon as the projects are concluded, expenses will be amortized on a straight-line basis, over a period proportional to the benefit generated, not exceeding five years.

The Company uses swaps operations to modify obligations from fixed interest U.S. dollar denominated to Brazilian real denominated linked to the CDI (floating) interest rate. The Company entered, contemporaneously with the same counterparty, into cross-currency interest rate swaps and has treated the instruments on a combined basis as though the loans were originally denominated in *reais* and accrued interest at floating rates.

**12. Loans and Financing** (Continued)

The annualized CDI benchmark rate at March 31, 2006 was 16.5% (18% at December 31, 2005).

(i) Working capital financing

Obtained from local banks and is used primarily to fund customer credit. Working capital financing is mostly secured by promissory notes and shareholders guarantees.

(ii) BNDES credit line

The line of credit agreements, denominated in *reais*, granted by the Brazilian National Bank for Economic and Social Development (BNDES), are either subject to the TJLP rate plus an annual spread, or are denominated based on a basket of foreign currencies reflecting the BNDES's funding portfolio, plus an annual spread. Repayments are in monthly installments after expiration of a grace period.

The Company cannot offer any assets as collateral for loans to other parties without the prior authorization of BNDES and is required to comply with certain debt covenants, measured in accordance with Brazilian GAAP, including: (i) maintenance of a capitalization ratio (shareholders' equity/total assets) equal to or in excess of 0.40 and (ii) maintenance of a current ratio (current assets/current liabilities) equal to or in excess of 1.05. Management effectively controls and monitors covenants, which were fully performed. The parent company offered pledges as a joint and several liable party for settlement of contracts.

The Company received proceeds of R\$ 411,959, for 40,149 non-convertible debentures issued from the first series. The debentures are indexed to the average rate of Interbank Deposits (DI) and accrue annual spread of 1.45% payable every six months. The first series was renegotiated on September 9, 2004, to accrue interest of CDI plus an annual spread of 0.95% as from October 1, 2004 which is payable semi-annually, beginning on April 1, 2005 and ending on October 1, 2007. **14. Provision for Contingencies**

Provision for contingencies is estimated by management, supported by its legal counsel. Such provision was set up in an amount considered sufficient to cover losses considered probable by the Company's legal counsel, as shown below:

a) Taxes

Tax-related contingencies are indexed to the SELIC (Central Bank Overnight Rate), of 16.7% at March 31, 2006 (19.1% at December 31, 2005) and, in some cases, are subject to fines. In all cases, when applicable, both interest charges and fines have been computed with respect to unpaid amounts and are fully accrued.

i) *COFINS and PIS*

The rate for COFINS (Social Contribution Tax on Gross Revenue for Social Security Financing) increased from 2% to 3% in 1999 and the tax base of both COFINS and PIS (Social Contribution Tax on Gross Revenue for Social Integration Program) was extended in 1999 to encompass other types of income, including financial income. The Company is challenging the increase in contributions to the COFINS and PIS taxes. Provision for COFINS and PIS includes unpaid amounts, monetarily restated, resulting from the suit filed by the Company and its subsidiaries, claiming the right to not apply Law 9718/98, permitting it to determine the payment of COFINS under the terms of Complementary Law 70/91 (2% of revenue) and of PIS under Law 9715/98 (0.65% of revenue) as from February 1, 1999.

- *Income tax* the Company was served notice in relation to exclusion from the IRPJ (Corporate Income Tax) tax base of accounts payable regarding certain taxes with suspended enforceability, which, from the tax authorities' point of view, should not have been excluded. Possible loss concerning said notice amounts to R\$ 38,834 (R\$ 36,985 at December 31, 2005).
- *Other contingencies* The amount of other possible contingencies amount to R\$ 52,734 (R\$ 50,223 at December 31, 2005).

f) Tax audits

In accordance with current legislation in Brazil, federal, state and municipal taxes and payroll charges are subject to audit by the related authorities, for periods that vary between 5 and 30 years.

**15. Taxes Payable in Installments**

Due to judicial precedent formed in decisions which were unfavorable for other taxpayers in similar lawsuits, the Company decided to withdraw certain claims and legal actions, opting to join the Special Tax Payment Installments Program (PAES), pursuant to Law 10680/2003. These installment payments are subject to the Long-Term Interest Rate TJLP and may be payable in up to 120 months.

The Company prepares annual studies of scenarios and generation of future taxable income, which are approved by management, indicating the capacity of benefiting from the tax credit set up.

Based on such studies, the Company estimates that the recovery of tax credits will be occur in up to ten years, as follows:

Each shareholder has the right pursuant to the Company's charter to receive a proportional amount, based on their respective holdings to total common and preferred shares outstanding, of a total dividend of at least 25% of annual net income determined on the basis of financial statements prepared in accordance with Brazilian GAAP, to the extent profits are distributable, and after transfers to reserves as required by Brazilian Corporation Law, and a proportional amount of any additional dividends declared. ## 17. Shareholders Equity (Continued)

### b) Share rights (Continued)

Management is required by the Brazilian Corporation Law to propose dividends at year-end to conform with the mandatory minimum dividend regulations, which can include the interest attributed to equity, net of tax.

### c) Revenue reserve

(i) *Legal reserve* the legal reserve may be transferred to capital or used to absorb losses, but is not, generally, available for distribution as cash dividends.

The legal reserve is formed based on appropriations from retained earnings of 5% of annual net income as stated in the Company's financial statements prepared in accordance with Brazilian GAAP before any appropriations, and limited to 20% of the capital.

(ii) *Expansion reserve*: was approved by the shareholders to reserve funds to finance additional capital investments and working capital through the appropriation of up to 100% of the net income remaining after the legal appropriations.

### d) Preferred stock option plan

The Company offers a stock option plan for the purchase of preferred shares to management and employees. The exercise of options guarantees the beneficiaries the same rights granted to the Company's other shareholders. The management of this plan was attributed to a committee designated by the Board of Directors.

The option price for each lot of shares is, at least, 60% of the weighted average price of the preferred shares traded in the week the option is granted. The percentage may vary for each beneficiary or series.

The right to exercise the options is acquired in the following manner and terms: (i) 50% in the last month of the third year following the option date (1<sup>st</sup> tranche) and (ii) 50% in the last month of the fifth year following the option date (2<sup>nd</sup> tranche), with the condition that a certain number of shares will be restricted as to sale until the date the beneficiary retires.

The price of option from the date of concession to the date of exercise thereof by the employee is updated by reference to the General Market Price Index - IGP-M variation, less dividends attributed for the period.

Management considers that risk of concentration in financial institutions is low, as operations are limited to traditional, highly-rated banks and within approved limits.

**18. Financial Instruments** (Continued)b) Concentration of credit risk

The Company's sales are direct to customers. Credit risk is minimized due to the large customer base and current control procedures that monitor the creditworthiness of customers. Advances to suppliers are made only to selected suppliers. The financial condition of suppliers is analyzed on an ongoing basis to limit credit risk.

In order to minimize credit risk from investments, the Company adopts policies restricting cash and/or marketable securities that may be allocated to a single financial institution, and which take into consideration monetary limits and financial institution credit ratings.

d) Currency and interest rate risk management

The Company uses derivative financial instruments and transactions to reduce its exposure to market risk resulting from fluctuations in interest rates that may adversely impact the Company asset and liability transactions. ## 08.01 Comments on consolidated performance during the quarter

### Comments on Sales Performance

The first quarter of 2006 was marked by the continued environment of retracted consumption and deflation in food products. Additionally, comparisons between 1Q06 and 1Q05 results were negatively affected by the fact that Easter didn't occur in the first quarter this year. Accordingly, CBD reported a 0.5% drop in gross sales, which totaled R\$ 3,924.7 million in the period, with food products representing 73.7% of total sales and non-food products corresponding to the remaining 26.3%. Net sales in 1Q06 amounted to R\$ 3,305.0 million, a 1.2% growth compared to 1Q05.

Same store sales in the quarter decreased 4.6% as a result of the environment described above as well as the strong comparison base (an 11.1% growth in 1Q05). As in prior quarters, the Company's recorded a strong performance in sales of non-food products, with a 14.5% growth, whereas sales of food products (adversely impacted by the Easter date shift from March to April in 2006) decreased 9.8%.

The main variable in the Business Units performance analysis was the presence of non-food products in the mix of sales offered by each of them. In this context, it is important to highlight the performance of hypermarkets and Extra Eletro stores. Also worthy of note was the good performance of Sendas banner in the State of Rio de Janeiro, which recorded an increase in same store sales in the quarter, despite the unfavorable calendar shift, reflecting a better positioning in terms of price and return on stores remodeling investments.

## Operating Performance

During the first quarter, CBD initiated the implementation of projects structured during 2005, aimed to increase efficiency and decrease expenses. These initiatives will payoff throughout 2006 and their effects on the Company's figures will be more strongly noticed as from the second half of the year although this positive trend can already be perceived in the first quarter of 2006, as commented below. It is important to stress that CBD's great focus is on increasing the assets turnover. In this perspective, the Company plans to gradually reinvest efficiency gains in lower prices for consumers, aiming to ultimately increase sales volumes and reach higher same store sales levels.

The following comments on operating performance refer to CBD's consolidated results and, therefore, fully account for Sendas Distribuidora's operating results (the CBD joint venture with Sendas in the State of Rio de Janeiro).

**Gross margin of 29.7%, higher than the 28.9% reported in 1Q05**

In the first quarter of 2006, the Company's gross income totaled R\$ 982.9 million, representing a 4.2% growth over the same quarter of 2005. The gross margin in 1Q06 was 29.7%, higher than the 28.9% reported in 1Q05. The fact that the Easter holiday has not occurred in the first quarter of 2006 caused the period to be less promotional in relation to the same quarter last year (with the Easter holiday in March), which partially explains the increase registered in gross margin.

It is important to emphasize that during the quarter the Company placed the Commercial Dynamics project in operation. In line with the Company's strategy to foster efficiency, productivity and competitiveness, this project resulted in a new organizational model being built, whereby Categories Management formerly divided among Business Units and Purchasing activities are under the Commercial Area. In addition to leading to a new management model, the project also involves the adoption of new processes and methodologies relating to product assortment, pricing, promotions and product exposure in the stores. On balance, the first quarter was a period of deep changes in the Company's commercial structure and we expect that throughout the next quarters the estimated competitiveness gains will be gradually accomplished.

**Operating Expenses**

The first results of actions taken by the Company to reach increased efficiency and productivity can already be noticed. Selling expenses as a percentage of net sales expenses was 17.8%, a ratio jeopardized not only by the unfavorable Easter calendar shift but also by additional renting expenses in the amount of R\$ 27.5 million (originated by the leasing of 60 stores sold to Grupo Diniz). Net of the effect of such additional renting expenses, the Company's selling expenses levels remained almost flat (17.0%) in the year on year comparison (16.9% in 1Q05).

Administrative expenses on sales ratio decreased from 3.7% to 3.5%, partially reflecting the Company's efforts to post productivity gains. In 1Q06, the Company registered non-recurring expenses in the amount of R\$ 8.5 million, primarily derived from events such as restructuring and closing of stores and a warehouse.

In the first quarter, the Company's areas were aligned with the Zero Base Budget goals, and several actions that will bring results over the next quarters were implemented, among which the creation of a Shared Services Center and an Indirect Purchasing area (purchase of non-saleable products and services). A significant ratio that already reflects the Company's endeavor to increase productivity is the total number of employees per 1,000 square meter of sales area, which decreased 5.5% year-on-year, closing the first quarter of 2006 a ratio of 51, against 54 at the end of the first quarter of 2005.

### **EBITDA increases 2.0%, with 8.4% margin**

The gross margin increase recorded in the quarter offset the lower expenses dilution commented above, resulting in a 2.0% growth in EBITDA for the quarter, higher than the 1.2% growth in net sales. The EBITDA margin in the period was 8.4%, compared to 8.3% in the same quarter of 2005.

### **Equity Income**

FIC (Itaú-CBD Financing) recorded a negative equity for CDB in the quarter, in the amount of R\$ 14.8 million. This result is in line with expectations, consistent with the payoff curve of financing products and services, and also reflects adjustments made to the allowances for losses due to increase in the financing portfolios. The Company's expectations to reverse this negative result remain unchanged and thus FIC is expected to present results above the break-even in 2007.

### **Minority Interest: Sendas Distribuidora**

EBITDA margin in the period was 4.4%, lower than the 5.6% margin reported in the first quarter of 2005, reflecting increased competitiveness in the State of Rio de Janeiro, the easter calendar effect, and the resulting low expenses dilution, as well as restructuring expenses.

Sendas Distribuidora's performance was also strongly impacted by high net financial expenses in the amount of R\$ 40.6 million, causing the net result for the quarter to be negative by R\$ 27.8 million, generating a minority interest result for CBD of R\$ 16.0 million (R\$ 12.7 million in 1Q05).

### **Financial Results**

The Company's financial income and expenses remained practically flat in relation to the same quarter last year, respectively, R\$169.2 million and R\$102.0 million, generating a net financial expense of R\$67.2 million. Comparing these results year on year, it is worth to highlight the transfer of financing operations to FIC (Itaú-CBD Financing), the increase in expenses resulting from the securitization of receivables, and the high volume of sales through non-interest bearing installments by credit card. These factors were offset by the increase in financial income arising from the inflow of funds in 2005 derived from the sale of properties to Fundo Península.

### **Non-Operating Result**

Non-operating result in 2006 was positive in the amount of R\$ 7.3 million and primarily derives from the achievement of certain performance goals in connection with the joint venture with Itaú.

## **Income Before Income Tax and Net Income**

Income before income tax and minority interest totaled R\$ 64.6 million in the quarter, 11.4% higher than the R\$ 58.0 million reported in the same period last year.

CBD reported a net income of R\$ 60.2 million in 1Q06, versus R\$ 57.7 million in 1Q05, representing a 4.2% growth.

## **Capex**

The total amount invested in 1Q06 was R\$ 141.0 million (versus R\$ 139.0 million in 1Q05). The main investments made in the period are as follows:

- Opening of 1 Extra store in Recife;
- Construction of 2 gas stations and 9 drugstores;
- Stores remodeling and modernization;
- Acquisition of 7 lands for the construction of new stores and 2 lands for the construction of gas stations;
- Investments in information technology and logistics.

### SPECIAL REVIEW REPORT OF INDEPENDENT AUDITORS

The Board of Directors and Shareholders of  
**Companhia Brasileira de Distribuição**

1. We have performed a special review of the quarterly information (ITR) of Companhia Brasileira de Distribuição (the Company) and Companhia Brasileira de Distribuição and subsidiaries for the quarter ended March 31, 2006, including the balance sheets, the related statements of income, the report on performance and significant information, prepared by Company management in accordance with the accounting practices adopted in Brazil. Our special review report, in relation to the amounts of assets, liabilities and results of these investees, is exclusively based on the limited review reports of these independent auditors.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council (CFC), which consisted principally of: (a) inquiries of and discussions with persons responsible for the Company's accounting, financial and operating areas as to the criteria adopted in preparing the quarterly information, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company.
3. Based on our special review and the limited review reports of the other independent auditors, we are not aware of any material modifications that should be made to the quarterly information referred to above for it to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory quarterly information.

The statements of cash flows and added value of Companhia Brasileira de Distribuição and Companhia Brasileira de Distribuição and subsidiaries for the quarter ended March 31, 2006, prepared in accordance with the accounting practices adopted in Brazil, presented to provide additional information about the Company and its subsidiaries, are not required components of the quarterly information. These statements were submitted to the review procedures described in paragraph two above and, based on our review and the quarterly information reviewed by the other independent auditors, we are not aware of any significant adjustment that should be made to this additional information for it to be fairly presented, in all material respects, in relation to the overall quarterly information for the quarter ended March 31, 2006.
