**São Paulo, Brazil, May 12, 2009** Grupo Pão de Açúcar (BOVESPA: PCAR4; NYSE: CBD) announces its results for the 1<sup>st</sup> quarter of 2009 (1Q09). **The Company's operating and financial information includes the accounting changes introduced by Law 11.638/07** and is presented on a consolidated basis and in Reais, pursuant to Law 6.404. All comparisons are with the first quarter of 2008 (1Q08), except where stated otherwise. Financial figures referring to the four months of 2009 are preliminary and unaudited.

### **Reported net income increases 185.5% in the quarter or 27.3% on a pro-forma (comparable) basis**

Gross sales totaled R\$ 5,291.3 million in the first quarter, while net sales came to R\$ 4,641.4 million, respective year-on-year growth of 6.0% and 9.4%. **In the first fourth months, gross sales amounted to R\$ 7,277.8 million and net sales stood at R\$ 6,396.2 million, up by 10.6% and 13.9%, respectively, exceeding the Company's expectations.**

Under the same-store concept, gross sales recorded year-on-year growth of 4.6% in 1Q09, while net sales moved up 7.9%. **In the year through April, gross sales climbed by 9.2% year-on-year, or 3.3% when deflated by the IPCA - General Consumer Price Index, higher than in 2008 and an excellent performance given the current economic scenario.**

Still under the same-store concept, sales of non-food items increased by 9.7% in the quarter, while food products recorded growth of 3.1%. **In the first four months, same-store food product sales moved up 8.6% while non-food products grew by 11.1%.**

Another 1Q09 highlight was the 120 bps year-on-year decline in total operating expenses to 18.6% of net sales.

Reported EBITDA totaled R\$ 312.3 million, 14.1% up year-on-year, accompanied by an EBITDA margin of 6.7%.

Sendas Distribuidora recorded an EBITDA margin of 7.2%, higher than in 1Q08, and a significant result given the absence of Easter in the quarter and the impact of the financial crisis on the economy.

FIC generated equity income of R\$3.9 million in the first quarter, higher than the result for the full year of 2008, underlining the Group's efforts to seek opportunities and growth in the non-food segment.

Reported net income totaled R\$ 94.9 million, a hefty 185.5% up year-on-year. The net margin stood at 2.0%, a substantial improvement over the 0.8% recorded the year before. Compared to 1Q08 pro-forma figure, net income moved up 27.3%.

Grupo Pão de Açúcar operates 600 stores, 75 gas stations and 145 drugstores in 14 states and the Federal District and recorded gross sales of R\$ 20.9 billion in 2008. The Group's multi-format structure comprises supermarkets (**Pão de Açúcar, Extra Perto, CompreBem and Sendas**), hypermarkets (**Extra**), electronics/household appliance stores (**Extra-Eletrô**), convenience stores (**Extra Fácil**), atacarejo (wholesale/retail) (**Assai**), e-commerce operations (**Extra.com.br and Pão de Açúcar Delivery**), **gas stations and drugstores**, as well as an extensive distribution network. The Group maintains differentiated consumer service and is strongly positioned in the country's main markets.

## Operating Performance

The numbers related to the Group's operating performance presented and commented on below refer to the consolidated figures, which include the entire operating results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with Atacadista Assai in São Paulo).

**The figures below also include the accounting changes introduced by Law 11.638/07, except where otherwise indicated,** accompanied by comments on the **pro-forma results**, which exclude restructuring costs of R\$ 23.0 million in the first quarter of 2008.

### Sales Performance

**Gross same-store sales move up 4.6% year-on-year in 1Q09  
and 9.2% year-on-year in the first four months.**

(R\$ million) <sup>(1)</sup>	1Q09	1Q08	Chg. %
Gross Sales	5,291.3	4,990.8	6.0%
Net Sales	4,641.4	4,244.1	9.4%

(1) Totals may not tally as the figures are rounded off

Gross sales totaled R\$ 5,291.3 million in 1Q09, 6.0% up on 1Q08, while net sales grew by 9.4% to R\$ 4,641.4 million. In same-store terms, gross sales recorded a nominal increase of 4.6%, while net sales moved up by 7.9%. This performance was adversely affected by two calendar effects. Firstly, Easter fell in the second quarter this year, not the first quarter as in 2008; and secondly, February contained one less day than last year.

In the **first four months**, gross sales totaled R\$ 7,277.8 million, while net sales stood at R\$ 6,396.2 million, up by 10.6% and 13.9%, respectively, year-on-year (preliminary unaudited figures), exceeding the Company's expectations. Under the same-store concept, gross sales climbed by 9.2%, or 3.3% in real terms, i.e. deflated by the IPCA- General Consumer Price Index<sup>1</sup>, higher than in 2008, an excellent performance given the current economic scenario.

Gross same-store sales of food products moved up by 8.6% year-on-year in the first four months, led by the beverage and personal care & household cleaning product categories. The food segment's continuing strong performance confirms that there have been no significant changes in consumer purchasing habits.

Gross same-store sales of non-food products climbed by 11.1% in the first four months, led by the general merchandise and drugstore categories, whose growth outpaced the non-food average. It is worth noting that since February, the Group has done exceptionally well in the non-food segment, especially in the electronics/household appliance, general merchandise and drugstore categories, all of which posted double-digit same-store growth.

This performance was due to the adoption of a successful commercial strategy, executed through the combination of aggressive promotional offers and a correct product mix. The Group also continued to record a period increase in the average ticket, accompanied by higher customer traffic.

In terms of format, the 4M09 sales leaders were Pão de Açúcar, Extra (especially in the Northeast), Extra Fácil and Assai, all of which recorded gross sales growth equal to or higher than the Company average, and e-commerce (Extra.com.br and Pão de Açúcar Delivery) which reported year-on-year growth of more than 50%.

(1) Like ABRAS (the Brazilian Supermarket Association), the Company has adopted the IPCA – General Consumer Price Index as its inflation indicator, rather than the food component of the IPCA Index, for the following reasons: (i) product incompatibility (the food component of the IPCA basket is not representative of the Company’s entire product and brand mix (e.g. it does not include personal care and household cleaning products); (ii) family profiles (product weight in the food index is determined by the POF (Family Budget Survey), which considers families earning between one and 40 minimum wages per month (e.g. rice represents 3.61% of the food IPCA, but only 1.30% of GPA’s food sales); and (iii) the importance of channels and regions (the weight of regions/sales channels in the food component of the IPCA is out of step with GPA’s).

**Gross profit moves up 5.7% in the quarter,  
Despite the narrower gross margin, gross profit registered growth in the period**

(R\$ million) <sup>(1)</sup>	1Q09	1Q08	Chg. %
Gross Profit	1,176.2	1,112.6	5.7%
Gross Margin - %	25.3%	26.2%	-90 bps <sup>(2)</sup>

(1) Totals may not tally as the figures are rounded off

(2) basis points

First-quarter gross profit totaled R\$ 1,176.2 million, 5.7% up year-on-year, accompanied by a gross margin of 25.3%, down by 90 bps, due to the following factors:

(i) the change in the way ICMS (state VAT) is collected as of the second quarter of 2008, especially in the state of São Paulo, which provoked an increase in the cost of goods sold and in net revenue, given that ICMS was no longer booked under sales taxes, but under COGS. This reduced the gross margin by around 50 bps over 1Q08;

(ii) the increased share of the Assai banner, which accounted for 8.3% of the Group’s gross sales in 1Q09, versus 6.2% in the same period the year before. Assai’s margins are lower than those of the Group and the increase in its share of sales contributed a negative 20 bps to the overall gross margin;

(iii) the maintenance of a successful commercial strategy in 1Q09 that combined aggressive promotions with a correct product mix. This reduced the gross margin by around 20 bps.

**Operating Expenses  
Reduction of 120 bps in percentage-of-net-sales terms despite the absence of Easter**

(R\$ million) <sup>(1)</sup>	1Q09	1Q08	Chg. %
Selling Expenses	712.5	694.4	2.6%
Gen. Adm. Expenses	151.4	144.5	4.8%
Total Operating Expenses	863.9	838.8	3.0%
<b>% of Net Sales</b>	<b>18.6%</b>	<b>19.8%</b>	<b>-120 bps<sup>(2)</sup></b>

(1) Totals may not tally as the figures are rounded off

(2) basis points

First-quarter total operating expenses (selling, general and administrative expenses) amounted to R\$ 863.9 million, 3.0% up year-on-year and equivalent to 18.6% of net sales, 120 bps down on 1Q08. It is worth noting that taxes and charges were booked under selling expenses as of 1Q09.

In addition, the 1Q08 operating results were affected by restructuring expenses totaling R\$ 23.0 million, R\$ 8.7 million of which from selling expenses and R\$ 14.3 million from G&A expenses. Excluding this effect, operating expenses would have increased by 5.9% year-on-year.

The percentage-of-net-sales improvement was due to the continuation of the new management model adopted by the Company in 2008, focused on a comprehensive review and streamlining of processes, consistent control over expenses and adjustment of the organizational structure.

#### EBITDA of R\$ 312.3 million in the quarter

(R\$ million) <sup>(1)</sup>	1Q09	1Q08	Chg. %
EBITDA	312.3	273.7	14.1%
EBITDA Margin - %	6.7%	6.5%	20 bps <sup>(2)</sup>

(1) Totals may not tally as the figures are rounded off

(2) basis points

First-quarter EBITDA totaled R\$ 312.3 million, 14.1% up on the reported 1Q08 result. Growth came to 5.2% over pro-forma 1Q08 figure, which excludes the restructuring expenses recorded the year before.

Although the Company recorded a lower gross margin in the period, the combination of sales growth and stricter control over expenses led to an upturn both in EBITDA margin and in absolute terms (cash margin) over 1Q08.

First-quarter operating results were in line with the strategy adopted by the Group since the beginning of 2008 and the budget defined for the period, aimed at pursuing a balance between sales growth and profitability, as well as retaining strict control over expenses. The Company's EBITDA margin, without the impact of Assai, would have come to 7.2%.

#### Financial Result

#### Net financial result negative by R\$ 71.2 million in the quarter

(R\$ million) <sup>(1)</sup>	1Q09	1Q08	Chg. %
Financ. Revenue	66.0	68.9	-4.2%
Financ. Expenses	(137.2)	(133.0)	3.2%
Net Financial Income	(71.2)	(64.1)	11.1%

(1) Totals may not tally as the figures are rounded off

The Group's net financial result stood at R\$ 71.2 million negative (negative R\$ 64.1 million in 1Q08), chiefly due to the following below factors:

(R\$ million) <sup>(1)</sup>	1Q09	1Q08	Chg. %
(i) Debt Expenses	(70.3)	(67.6)	(2.7)
(i) Receivables Fund	(25.5)	(21.5)	(4.0)
(ii) Cash Returns	32.1	20.2	11.9
(iii) Mark to market	9.2	0.8	8.4
(iv) Restatement of Assets and Liabilities	(28.6)	(20.4)	(8.2)
(iv) Other Financial Revenues (Expenses)	11.9	24.4	(12.5)
<b>Net Financial Result</b>	<b>(71.2)</b>	<b>(64.1)</b>	<b>(7.1)</b>
<i>CDI</i>	2.9%	2.6%	

(1) Totals may not tally as the figures are rounded off

**(i) Debt Expenses and Receivables Fund (negative variation of R\$ 6.7 million).** The higher period CDI rate, although partially offset by a decline in the average gross debt in the quarter, led to an increase in funding costs.

**(ii) Cash Returns (positive variation of R\$ 11.9 million)** due to the higher average cash position and the increase in the CDI rate.

**(iii) Mark to market (positive variation of R\$ 8.4 million)** of the Company's financial instruments, following the accounting changes introduced by Law 11.638/07.

**(iv) Restatement of Assets and Liabilities and Other Revenue/Expenses (negative variation of R\$ 20.7 million)** mainly due to an increase in the restatement of contingencies generated by the higher CDI rate in the period. Other Revenue/Expenses also recorded a decline due to reduced revenue from interest-bearing installment sales and a reduction in capitalized interest due to the lower period CAPEX.

Thanks to the cash reinforcement measures adopted in 2008, together with the ongoing drive to optimize expenses and investments and maintain control over working capital, the Group recorded an even more solid capital structure in 1Q09, with a reduction in net debt and an increase in cash flow, leading to a net debt-to-EBITDA ratio of 0.90x.

The Company reaffirms its commitment to maintain its conservative policy of not assuming exchange risks and/or derivative arbitrage in funding and investment transactions.

It is important to point out that the end-of-1Q09 cash position is strongly impacted by the seasonality of working capital in the first quarter, given that the Group disburses its payments for the high volume of Christmas purchases in this period. From April on, this working capital pressure is reversed and the Company's cash position gradually returns to the levels recorded in December 2008. In the 1Q09, the inventories were also impacted by the calendar effect (Easter).

#### Equity Income

Result reflects FIC's strategy in private label and co-branded cards

With a 13.8% share of the Group's sales in 1Q09, FIC (Financeira Itaú CBD) generated equity income of R\$ 3.9 million, higher than the result for the entire year of 2008.

FIC closed the quarter with 6.1 million clients, 8.8% more than in 1Q08, and a receivables portfolio of R\$ 1.6 billion. This performance was due to a stringent credit granting policy, ensuring one of the lowest default ratios in the market, in addition to a differentiated positioning vis-à-vis its peers.

Thanks to the creation of differentials to encourage the use of private label and co-branded cards, the current business focus, the private label and co-branded base grew by 13.2% year-on-year, closing the quarter at 5.2 million cards. These differentials included the creation of exclusive benefits and advantages for card holders (advantage club), including special promotions. We expect to increase the share of insurance and financial services in FIC's revenue in the coming quarters.

**Minority Interest: Sendas Distribuidora**  
**EBITDA margin of 7.2% in 1Q09**

The table below and the comments on Sendas Distribuidora's operating performance do not include the stores converted into Assai in 4Q08. The results of Assai's operational stores in Rio de Janeiro will be discussed in the section on Assai Atacadista.

**SENDAS - Financial and Operating Highlights**

Net Margin - %	0.7%	0.6%	10 bps <sup>(2)</sup>

(1) Totals may not tally as the figures are rounded off

(2) basis points

Sendas Distribuidora recorded gross sales of R\$ 832.7 million in the first quarter, equivalent to 15.7% of the Group's total gross sales. Net sales totaled R\$ 729.3 million, despite the unfavorable calendar effect in 2009, with Easter falling in the second quarter and February being a day shorter, as mentioned before in the sales performance section.

The gross margin stood at 27.5%, virtually identical to 1Q08, and gross profit totaled R\$ 200.8 million, also showing no change, despite the absence of Easter.

Operating expenses (selling, general and administrative expenses) represented 20.3% of net sales, lower than the 20.5% recorded in the same period the year before as a result of the ongoing efforts to control and rationalize expenses.

The EBITDA margin stood at 7.2%, slightly higher than in 1Q08 and an exceptional figure given the absence of Easter in the quarter and the impact of the financial crisis on the economy. This result was due to the ongoing operational improvements since mid-2007, when the turnaround began, based on the constant control over expenses and the company's strategic repositioning (operational clusterization, backed by competitive prices and a product assortment more appropriate to the region).

Net income totaled R\$ 5.0 million in the first quarter, giving a negative minority interest of R\$ 2.1 million.

**Minority Interest: Assai Atacadista**  
Gross margin grew by 30 bps year-on-year

### ASSAI - Financial and Operating Highlights

(2) basis points

Assai's consolidated gross sales, including the stores in São Paulo, Ceará and Rio de Janeiro, totaled R\$ 440.8 million in the first quarter, 43.5% up year-on-year, while net sales stood at R\$ 392.4 million. Gross profit totaled R\$ 53.0 million, up by 52.6%, accompanied by a gross margin of 13.5%, also higher than in the same period the year before.

Operating expenses came to R\$ 54.2 million impacted by the opening of new stores, representing 13.8% of net sales, as a result of higher expenses from advertising, personnel, utilities and third-party services. Consequently, EBITDA was R\$ 1.1 million negative, with a negative margin of 0.3%

This result also reflects investments in price competitiveness aimed at gaining market share, in line with the Company's strategy and expectations. It is worth noting that these figures were strongly impacted by the opening of new stores and the conversion of existing stores to the Assai format, especially in Rio de Janeiro, which is a highly competitive market. The increased number of Assai stores was in line with the strategy of building the brand's image in new markets (Rio de Janeiro and Ceará). Although these initiatives led to substantial period sales growth, it is worth stressing that the sales of the new and converted stores have not yet reached maturity, when expenses will be more diluted.

As a result of all the above, Assai recorded a net loss of R\$ 3.2 million in 1Q09, giving a positive minority interest of R\$ 1.4 million.

**Net Income**  
**Net income grows by 185.5% in the quarter**

(R\$ million) <sup>(1)</sup>	<b>1Q09</b>	<b>1Q08</b>	<b>Chg. %</b>
Net Income	94.9	33.2	185.5%
Net Margin - %	2.0%	0.8%	120 bps <sup>(2)</sup>

(1) Totals may not tally as the figures are rounded off

(2) basis points

The Company posted a 1Q09 net income of R\$ 94.9 million, a hefty 185.5% up on reported net income in 1Q08. It is worth noting that this increase was achieved even with the absence of Easter in the period, differently from what happened in the 1Q08. This performance was achieved thanks to sales growth and consistent control over expenses, which substantially improved the Company's operating performance.

It is worth remembering that 1Q08 net income was impacted by restructuring expenses of R\$ 23.0 million. Furthermore, despite the application of Law 11.638/07, 1Q08 net income still included amortization of goodwill, as shown in the table below:

(R\$ million) <sup>(1)</sup>	<b>1Q09</b>	<b>1Q08</b>	<b>Chg. %</b>
Net Income	<b>94.9</b>	<b>33.2</b>	185.5%
Restructuring Costs <sup>(2)</sup>		<b>17.2</b>	
Amortization of Goodwill <sup>(2)</sup>	-	24.1	-
<b>Adjusted Net Income</b>	<b>94.9</b>	<b>74.5</b>	<b>27.3%</b>

(1) Totals may not tally as the figures are rounded off

(2) Net of Income Tax

Considering the impact of the abovementioned factors, 1Q08 adjusted net income, in comparable basis, totaled R\$ 74.5 million. Therefore, 1Q09 net income would have increased by 27.3% year-on-year compared to the adjusted figure.

**Investments**  
**Group invested R\$ 100.3 million in 1Q09**

At the beginning of 2009, the Company decided to adopt a conservative investment policy in order to develop a better understanding of the impacts of the global financial crisis on Brazil's economy and the Group's results. Consequently, the Company invested R\$ 100.3 million in 1Q09, versus R\$ 123.8 million in 1Q08.

The main highlights of the quarter were:

- R\$ 29.2 million in the opening and construction of new stores;
- R\$ 25.5 million in store renovation;
- R\$ 45.6 million in infrastructure (technology and logistics) and others.

The funds were allocated to: (i) the opening of five new Extra Fácil stores; (ii) the conversion of two Sendas stores and one Extra Hipermercado, in Rio de Janeiro, in addition to one CompreBem store in São Paulo into Assai format, to be inaugurated in 2Q09. Conversion of one CompreBem into an ExtraPerto store, also to be inaugurated in 2Q09; and (iii) store remodeling.

In 2009, drugstores and gas stations began to be categorized as Business Units instead of complementary units due to their expansion opportunities.

This year, the Company will prioritize investments in:

- i) the opening of stores in the Assai and Extra Fácil formats;
- ii) IT and logistics;
- iii) the acquisition of strategic sites.

In addition, the Group remains alert to any market opportunities that may arise, but will only carry out store openings if they are consistent with the strategic plan, generate returns or leverage the return on invested capital and have synergies with the existing business, in line with the Company's investment policy.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
