### **Guará Extension Well confirms continuity of accumulation**

Rio de Janeiro, July 29, 2011 – Petróleo Brasileiro S.A. - Petrobras announces that it has completed drilling of the second extension well in Guará area, 3-SPS-82A (3-BRSA-923A-SPS), located in the Santos Basin pre-salt.

Informally known as Guará Sul (South Guará), the well was drilled 5.7 km south of wildcat discovery well (1-SPS-55). In a water depth of 2,156 m, Guará Sul is located 315 km off the coast of the state of São Paulo. Including the wildcat well, this is the third well in the Guará area.

Preliminary analyses confirm satisfactory conditions of the reservoir and its lateral continuity. The monitoring of pressures compared to those from the discovery well, currently undergoing Extended Well Test (EWT), verified the hydraulic communication of the reservoir between both wells. This scenario indicates a good perspective of production for this accumulation.

Cable test in the pre-salt reservoirs demonstrated the presence of light oil around 27° API. Formation tests still have to be executed to assess the reservoir's productivity.

Petrobras is the operator of the consortium for the exploration of block BM-S-09 (45%), in partnership with the BG Group (30%) and Repsol Sinopec Brasil (25%). The consortium gives continuity to the activities foreseen in the Guará Evaluation Plan.

## FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act) that are not based on historical facts and are not assurances of future results. These forward-looking statements are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.

All forward-looking statements are expressly qualified in their entirety by this cautionary statement, and you should not place reliance on any forward-looking statement contained in this press release. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information or future events or for any other reason.
