### Domestic Market

In January, GOL still recorded **a significant 17.8% reduction in the domestic market supply**. This reduction was chiefly due to the discontinuation of Boeing 737-300 related to the shutting down of Webjet's operating activities and the relocation of domestic capacity to international operations.

**Load factor in the domestic market came to 2.1 p.p. up over January 2012**, reaching 73.5% in the period. Due to the reduced supply mentioned above, demand in the period was 15.4% down year-on-year.

### International Market

**Load factor on the international market was 8.6 p.p. down year-on-year**, due to the fact mentioned above associated with the aging period effect of new routes which started on December 15, 2012.

## Traffic Report
