## GOL decreased domestic supply by 2.7% in September 2015

**São Paulo, October 27, 2015 - GOL Linhas Aéreas Inteligentes S.A. (BM&FBOVESPA: GOLL4 and NYSE: GOL), (S&P: B-, Fitch: B-, Moody's: B3),** the largest low-cost and best-fare airline in Latin America, hereby announces its preliminary air traffic figures for September, third quarter (3Q15) and year to date (9M15). Comparisons refer to the same period in 2014.

### GOL Highlights

**Domestic supply** recorded a decline of **2.7%** in September and increases of **0.6%** in 3Q15 and **1.6%** in 9M15. The increase in 3Q15 over 3Q14 reflects the adjustment made by the Company in 3Q14, when reduced its capacity during the FIFA World Cup held in Brazil.

**Domestic demand** fell by **3.3%** in September, leading to a **load factor** of **76.6%**. In the quarter, **demand** moved up by **1.8%**, with a load factor of **79.3%**, recording an increase of **1.0 p.p.**

In the month, the **international market** capacity declined by **0.2%** over 2014, and demand showed an improvement of **2.8%**, registering a load factor of **73.4%**. The Company is adjusting its international network by changing frequency and rerouting flights to new destinations in order to capture market opportunities and adapt to the current economic scenario in Brazil.

In 3Q15, **net PRASK** fell by **1.6%** and **yield** dropped by **3.0%** in relation to 3Q14, reflecting the economic slowdown.

**Jet fuel** was between **R\$2.11** and **R\$2.16** per liter in 3Q15, a decline of approximately **14%** in relation to 2014. The per-liter fuel price in Reais in the quarter was partially benefited from the fall in international prices of **48.5%**, however it was adversely impacted by the average depreciation of **55.5%** of the Real against the Dollar in the period, besides the 45-day delay in jet fuel price formation due to the criterion of fuel pricing in Brazil.

**FORWARD-LOOKING STATEMENTS**

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
