Item 7.01 Regulation FD Disclosure.

On November 18, 2008, Interstate Power and Light Company ("IP&L") filed a complaint against ITC Midwest LLC ("ITC Midwest"), a wholly-owned operating subsidiary of ITC Holdings Corp. ("ITC Holdings"), before the Federal Energy Regulatory Commission (the "FERC") under Section 206 of the Federal Power Act. The complaint alleges that: (1) the operations and maintenance expenses and administrative and general expenses projected in ITC Midwest's posted network transmission rate of \$4.162 per kilowatt (kW) per month (which reflects a \$4.125 million rate discount), for the period from January 1, 2009 through December 31, 2009 (the "2009 Rate") appear to be excessive; (2) the true-up amount related to ITC Midwest's posted network rate for the period through December 31, 2008, which was \$2.564 per kW per month, will cause ITC Midwest to charge an excessive rate in future years; and (3) that the methodology of allocating administrative and general expenses among ITC Holdings' operating companies was changed, resulting in such additional expenses being allocated to ITC Midwest. The complaint states that it does not challenge ITC Midwest's Attachment O formula or ITC Midwest's planned capital investments. ITC Midwest's network rate is based on its forward-looking Attachment O rate formula, as approved by FERC, which incorporates ITC Midwest's projected net revenue requirement and load. Among the other things, IP&L's complaint seeks investigative action by the FERC relating to ITC Midwest's transmission service charges reflected in the 2009 Rate, as well as hearings regarding the justness and reasonableness of the 2009 Rate (with the ultimate goal of reducing such rate). The resolution of this proceeding and its ultimate impact on ITC Midwest's network rate and transmission revenues cannot be determined at this time. ITC Holdings believes that the 2009 Rate is just and reasonable, that IP&L has not proffered sufficient arguments or reasons for the complaint to be sustained, and that the 2009 Rate appropriately reflects the commitment of ITC Midwest to improve the performance and reliability of its transmission system. Accordingly, ITC Holdings and ITC Midwest believe that IP&L's action is without merit and will contest it vigorously.

On November 19, 2008, ITC Midwest issued a press release relating to the foregoing matters. This press release is attached as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.
