## 1. SUMMARY:

Bancolombia S.A. ( BANCOLOMBIA or the Bank ) delivered strong results in 2008 as it reported net income of Ps. 1,290.6 billion for the year (Ps. 1,638.23 per share and \$US 2.92 per ADR), increasing 18.7% compared to 2007 figures. During 2008, the Bank experienced an expansion in its business areas driven by loan growth of 18.4% over the year while maintaining a strong balance sheet in terms of coverage for loan losses, solid liquidity and capital position, as well as a profitable operation with an average return on equity of 23.7% for 2008.

During 2008, allowances for loan losses increased to Ps. 2,134.4 billion (4.8% of gross loans and financial leases), maintaining the level of coverage, measured by the ratio of allowances to past due loans, close to 135%. The delinquencies ratio (loans overdue more than 30 days) increased slightly to 3.6% by the end of the quarter ended December 31, 2008 ( 4Q08 ) from 3.5% the previous quarter.

Driven by the operating results of the Bank in 2008, shareholders' equity totaled Ps. 6,117 billion by the end of 2008, increasing 17.6% as compared to the figure as of December 31, 2007, while the Bank's consolidated ratio of technical capital to risk-weighted assets was 11.24%.

BANCOLOMBIA continued experiencing a favorable evolution of deposit growth, strengthening its solid liquidity position. As of December 31, 2008, BANCOLOMBIA's deposits reached Ps. 40,384 billion, increasing 8.9% as compared to the quarter ended September 30, 2008 ( 3Q08 ) and 17.5% as compared to the quarter ended December 31, 2007 ( 4Q07 ), while the ratio of net loans to deposits (including borrowings from development banks) finished the year at 96%.

BANCOLOMBIA recorded net income of Ps. 294.4 billion (Ps. 373.75 per share and \$US 0.67 per ADR) for 4Q08, a decrease of 8.7% as compared to the Ps. 322.5 billion for 4Q07. Several non-recurring items were incorporated in 4Q08 resulting in a net negative impact on revenues of Ps 63.8 billion, which represents 18.7% of 4Q08 income before taxes.

The Bank's results in 4Q08 were mainly driven by a strong performance of net interest income that totaled Ps. 985.1 billion in 4Q08, increasing 6.9% as compared to 3Q08 and 25.1% as compared to 4Q07, higher operating income other than interest or fees, which amounted to Ps. 189.3 billion in 4Q08, increasing 44.9% as compared to 3Q08 and 31.7% as compared to 4Q07 and solid net fees and income from services that totaled Ps 361.0 billion which represents a 4.1% increase as compared to 3Q08. Results for 4Q08 were offset by a higher level of provision charges as net provisions totaled Ps. 474.7 billion in 4Q08, representing an increase of 94.9% as compared to 3Q08 and 125.3% as compared to 4Q07 and operating expenses that amounted to Ps 735.3 billion, increasing 15.3% as compared to the figures for 3Q08. For more information on provision charges please see the section entitled "Asset Quality" in this report.

Net interest income for the year 2008 totaled Ps. 3,560.4 billion, increasing 26.8% as compared to the same figure for 2007, driven by the 18.4% loan growth and wider spreads during the period. Net interest margin increased from 6.8% in 2007 to 7.4% in 2008.

BANCOLOMBIA's efficiency ratio, measured as the ratio between operating expenses and net operating income, reached 47.8% in 2008, improving in relation to the 53.0% ratio for 2007.

Loan growth during 4Q08 was driven by corporate loans which presented higher than expected activity, reaching Ps 22,230 billion by the end of 2008 and increasing 9.7% as compared to 3Q08. BANCOLOMBIA's solid liquidity

position was key to boosting lending within this segment throughout 4Q08.

In contrast to the behavior observed in corporate lending, Retail and SMEs, Financial Leases and Mortgage segments experienced a decrease in their rate of growth during 4Q08 as a direct consequence of a more selective approach towards lending, combined with lower demand derived from a lower pace of economic growth. Consequently, there was a change in the loan s book composition in favor of Corporate loans which reached 49.8% of the loan portfolio, while Retail and SME s loans represented 30.3% and Financial leases 12.3% by the end of 2008.

As of December 31, 2008, mortgages amounted to Ps 3,391 billion (7.6% of gross loans). It is important to note that during 4Q08 BANCOLOMBIA securitized Ps. 233.6 billion in mortgage loans. If the outstanding securitized loans were added to the outstanding loans on the Bank s balance sheet, this segment would record an increase of 3.2% as compared to 3Q08 and 20.6% compared to 4Q07.

Lending denominated in Colombian Pesos was dynamic in 4Q08 as the Colombian Peso denominated loan book (which is 71.6% of loan portfolio) increased 6.7% quarter-over-quarter and 18.2% year-over-year. On the other hand, the U.S. dollar denominated loan book (the remaining 28.4% of BANCOLOMBIA's loans) was less active, increasing 0.2% over the quarter and 6.9% over the year when measured in U.S. dollars.

In line with the Bank's conservative approach towards protecting the balance sheet, allowances for loans losses increased more than past due loans during 4Q08 reaching Ps. 2,134.4 billion and representing 4.8% of gross loans and financial leases.

As of December 31, 2008, net loans and financial leases amounted to Ps. 42,508 billion and represented 68.8% of total assets.

### **2.1.2. Investment Portfolio**

As of December 31, 2008, BANCOLOMBIA's net investment securities amounted to Ps. 7,278 billion, representing a 4.8% increase when compared to the figures as of September 30, 2008, and an increase of 26.0% when compared to the figures as of December 31, 2007. Net investment securities comprise Investments in debt securities which represented 94.0% of BANCOLOMBIA's net investment securities portfolio by the end of 2008 and 11.1% of total assets, decreasing slightly in relative size from the 11.6% presented by the end of 3Q08.

### **2.2. Funding**

As of December 31, 2008, BANCOLOMBIA's liabilities reached Ps. 55,666 billion, increasing 6.6% as compared to 3Q08 and 18.6% as compared to 4Q07. Liabilities denominated in Colombian Pesos, which represent 69.8% of total liabilities, increased 7.9% over the quarter and 19.7% as compared to 4Q07.

During the last few months, the Central Bank of Colombia (the Colombian Central Bank) undertook several measures to support the proper functioning of Colombia's financial system. At its October 24, 2008 meeting, ordinary reserve requirements were modified as follows (i) 11% for demand deposits from the (previously 11.5%); (ii) 4.5% for time deposits under 540 days (previously 6%). Subsequently, the Colombian Central Bank overnight lending rate was reduced 50 basis points (bp) at its December 19, 2008 meeting for the first time since April 2006 when a cycle of restrictive policy was initiated. This decision was followed by an additional reduction of 50 basis points at its January 30, 2009 meeting and 100 basis points at its February 27, 2009 meeting, leaving the Colombian Central Bank's overnight lending rate at 8.00%. As a result of these measures, the Colombian financial system has been relatively liquid in recent months and interbank lending rates have maintained historical spreads with the Colombian Central Bank overnight lending rate.

In this interest rates environment, and reflecting BANCOLOMBIA's focus on preserving a solid liquidity position, the Bank experienced, during 4Q08, a positive evolution of deposit growth which reached Ps. 40,384 billion, increasing 8.9% as compared to 3Q08 and 17.5% as compared to 4Q07. COP denominated deposits, 72.7% of BANCOLOMBIA's total deposits, increased 10.2% and 19.1% as compared to 3Q08 and 4Q07 respectively. In addition, non-interest deposits increased 24.9% in 4Q08 driven by the seasonal behavior of checking accounts, while the participation of time deposits in the funding mix decreased slightly to 34.7% of total deposits from 35.7% in 3Q08.

Despite tighter general liquidity conditions for U.S. dollar denominated funds in 4Q08, BANCOLOMBIA continued to have access to sources of funding in U.S. dollars. In fact, dollar denominated deposits increased 2.6% in 4Q08, benefiting from a re-allocation of funds by some clients, while dollar denominated borrowings from other banks increased 18.7% over the same period, measured in U.S. dollars.

### 2.3. Shareholders Equity and regulatory capital

Shareholders equity totaled Ps. 6,117 billion by the end of 2008, increasing 17.6% as compared to the figure by the end of 2007. The increase in equity was driven by the operating results of the Bank in 2008.

At the end of 4Q08, the Bank's consolidated ratio of technical capital to risk-weighted assets was 11.2%, comprised of a Tier I ratio of 9.0% and a Tier II ratio of 2.3%. BANCOLOMBIA's capital adequacy exceeds the minimum established by Colombian regulators by more than 220 basis points.

### **3. INCOME STATEMENT**

During 4Q08, BANCOLOMBIA recorded net income of Ps. 294.5 billion (Ps. 373.75 per share and \$US 0.67 per ADR), a decrease of 8.7% as compared to the Ps. 322.5 billion for 4Q07.

Net income for the year ended December 31, 2008 totaled Ps. 1,290.6 billion (Ps. 1,638.23 per share and \$US 2.92 per ADR), increasing 18.7% as compared to the year ended December 31, 2007.

Annualized return on average shareholders' equity for 4Q08 was 19.8%. Return on average equity for the year ended December 31, 2008 was 23.7%, decreasing slightly from the 24.4% for the same period of 2007.

#### **3.1. Net Interest Income**

During 4Q08, interest on loans reached Ps. 1,427 billion, increasing 12.8% as compared to 3Q08 and 33.1% as compared to the Ps. 1,071 billion recorded in 4Q07, driven by wider spreads in the loan book as net interest margin for loans during 4Q08 increased to 8.5% from 7.8% in 4Q07.

Interest on investment securities decreased 7.1% in 4Q08 to Ps. 115.9 billion, while interest on financial leases reached Ps. 211.1 billion increasing 6.1% and 24.9% as compared to 3Q08 and 4Q07 respectively.

Overall, total interest income increased 10.5% as compared to 3Q08 and 29.7% as compared to 4Q07, while total interest expense grew 15.3% and 35.9% respectively. Net interest income increased 6.9% as compared to 3Q08 and 25.1% as compared to 4Q07.

Net interest income for the year 2008 totaled Ps. 3,560.4 billion, increasing 26.8% as compared to the same figure for 2007, driven by the 18.4% loan growth and higher margins during the period. Net interest margin increased from 6.8% in 2007 to 7.4% in 2008 due to higher interest spreads in the loan portfolio and a steady income from investment securities despite a more volatile bond market conditions.

#### **3.2. Fees and Income from Services**

Net fees and income from services totaled Ps. 361.0 billion during 4Q08, increasing 4.1% as compared to 3Q08.

For the year ended December 31, 2008, net fees and income from services totaled Ps. 1,313.6 billion, increasing 13.3% as compared to the same period of 2007. Fee revenue performance was driven by credit and debit card fees, which totaled Ps. 446.6 billion for the year ended December 31, 2008, increasing 52.1% as compared to the same period last year, fees related to fiduciary activities that totaled Ps. 98.8 billion for the year ended December 31, 2008, increasing 42.8% as compared to 2007, and fees related to collection and payment service which totaled Ps. 157.3 billion for the year ended December 31, 2008, increasing 20.6% as compared to the same period last year. Net fees and income from services performance was impacted by lower credit card merchant fees which totaled Ps. 32.2 billion for the year ended December 31, 2008, decreasing 17.8% as compared to the same period last year, and by fees and other services expenses which totaled Ps. 134.9 billion in the year ended December 31, 2008, increasing 15.9% as compared to 2007.

### 3.3. Other Operating Income

Total other operating income totaled Ps. 189.3 billion for 4Q08, increasing 44.9% compared to 3Q08 and 31.7% when compared to the figures for 4Q07. This result was impacted positively by sales of equity securities, as the Bank recorded additional gains on sales of investment securities related to the sale of interest in Multienlace S.A., and negatively impacted by rule changes, concerning valuation methodologies for derivative instruments issued by the Colombian Superintendency of Finance in 2008.

In 4Q08, net foreign exchange gains reached Ps. 80.2 billion driven by the COP depreciation that took place over during 4Q08 as this line item aggregates net gains (or losses) of the peso conversion of U.S. dollar denominated assets and liabilities, trading gains and foreign currency sales profits. BANCOLOMBIA usually hedges its currency exposure by establishing an opposite position in its derivative portfolio in order to minimize its exposure to sharp movements in exchange rates. Accordingly, exchange rate movements, tend to have an opposite effect on the line item for derivative financial instruments compared to the effect produced on the line item for net foreign exchange gains.

For further explanation of the non recurring items affecting this line of income, please see section 3.6 Summary of non-recurring or extraordinary items in this report.

### **3.4. Provisions**

For explanation of the trends driving the current level of provisions charges, please see the section entitled "Asset Quality" in this report.

### **3.5. Operating expenses**

During 4Q08, operating expenses totaled Ps. 735.3 billion, increasing 15.3% as compared to 3Q08 and 26.3% as compared to the figures for 3Q07. Operating expenses were negatively impacted by a special provision for fidelity bonuses paid to employees that was recorded for the first time in 4Q08, amounting to Ps 31.2 billion, which increased the line item for salaries and employee benefits in 4Q08 and represented almost a third of the quarter-over-quarter variation for operating expenses. In addition, administrative and other expenses totaled Ps. 368.8 billion in 4Q08, increasing 16.4% as compared to 3Q08. As a result of the higher operating expenses and the net negative impact of non-recurring items on revenues during 4Q08, efficiency, measured as the ratio of operating expenses to net operating income, decreased as this ratio reached 50.2%, compared to 46.4%, recorded in 3Q08.

For the year ended December 31, 2008, total operating expenses amounted to Ps 2,567 billion, increasing 16.6% as compared to the year ended December 31, 2007. The increase in operating expenses was driven by administrative and other expenses that totaled Ps. 1,269.0 billion for 2008, increasing 18.5% as compared to the same period last year. Personnel expenses (the sum of salaries and employee benefits, bonus plan payment and compensation) totaled Ps 1,077.9 billion for the year 2008, increasing 14.3% as compared to 2007. Personnel expenses were primarily driven by bonus plan payments which are part of BANCOLOMBIA's variable compensation program.

For the year ended December 31, 2008, efficiency, measured as the ratio of operating expenses to net operating income, improved for the second consecutive year as this ratio fell to 47.8% in 2008, from 53.0% in 2007.

### **3.6. Summary of non-recurring or extraordinary items**

Several non-recurring items were recorded in the 4Q08 income statement resulting in a net negative impact on revenues of Ps 63.8 billion which represents 18.7% of 4Q08 income before taxes. Specifically, the operating results were affected by:

Rule changes concerning valuation methodologies for derivative instruments as the Colombian Superintendency of Finance issued external circulars 025, 030, 044 and 063 (the 2008 External Circulars ) establishing new guidelines for the valuation of derivatives and structured products. In accordance with the 2008 External Circulars, BANCOLOMBIA adopted the methodology by which it values its portfolio of derivatives and structured products. As a result of this change, BANCOLOMBIA's balance sheet and financial results were impacted by a reduction in the carrying value of derivatives totaling Ps. 145 billion in the 2008 fiscal year, of which Ps 98.0 billion negatively impacted the income from derivative financial instruments for 4Q08. An additional reduction of Ps. \$135 billion in the carrying value of derivatives will be recorded in 2009, resulting in a reduction on income that will be amortized daily, in equal installments, during the first six months of 2009.

During 2Q08 BANCOLOMBIA agreed to sell 100% of its interest in Multienlace S.A, a company that provides business process outsourcing and contact center services to corporate clients. As part of this transaction, the Bank recorded in 4Q08 non recurring gains on sales of investment securities for Ps. 55.6 billion.

In 4Q08 a special provision for fidelity bonuses paid to employees for every five years of employment was recorded, for the first time, totaling Ps 31.2 billion which primarily drove the increase in expenses related to salaries and employee benefits in 4Q08.

During 4Q08, the Bank reviewed the allowances made in connection with pending litigation and reassessed the value of these contingencies according to the current status of the claims. As a result of this review of litigation contingencies, the Bank reversed a total amount of Ps. 32.8 billion in allowances in 4Q08.

In 4Q08, the Bank modified the methodology used to calculate the goodwill amortization resulting in an increase of the amortization charge of Ps 23.0 billion for the year 2008, which was fully incorporated in 4Q08 goodwill amortization.

#### 4. Asset Quality

Despite higher recovery of charged off loans during the quarter, total net provisions for 4Q08 amounted to Ps. 474.7 billion, increasing 94.9% as compared to 3Q08 and 125.3% as compared to 4Q07. The higher level of provision charges during 4Q08 are due by:

A conservative effort to build reserves as allowances for loans losses increased to Ps. 2,134.4 billion during 4Q08 (4.8% of gross loans and financial leases), increasing 17.6% compared to 3Q08, and outpacing the 8.5% increase of past due loans over the quarter. Consequently, coverage, measured as the ratio of allowances for loans and accrued interest losses to past due loans, increased to 134.8% in 4Q08 from 124.1% in 3Q08.

Increasing past due loans and the subsequent deterioration in asset quality indicators. Delinquencies ratio (loans overdue more than 30 days) reached 3.6% by the end of 4Q08, close to the 3.5% ratio recorded by the end of 3Q08.

During 4Q08, charge-offs of bad loans totaled Ps. 188.6 billion.

For the year ended December 31, 2008, net provisions totaled Ps 1,133.2 billion, increasing 89.8% as compared to the same period of 2007.

(1) Performing past due loans are loans upon which the Bank continues to recognize income although interest in respect of such loans has not been received. Mortgage loans cease to accumulate interest on the statement of operations when they are more than 60 days past due. For all other loans and financial leasing operations of any type, interest is no longer accumulated after they are more than 30 days past due.

(2) Under Colombian Bank regulations, a loan is past due when it is at least 31 days

past the actual  
due date.
