Item 8.01. Other Events.

On April 13, 2017, Finjan Holdings, Inc. (the “Company”), and its wholly-owned subsidiary, Finjan, Inc. (“Finjan”), issued a press release announcing that on April 11, 2017, the Patent Trial and Appeal Board (“PTAB”) for the United States Patent & Trademark Office (“USPTO”) issued a final written decision on instituted Inter Partes Reviews (“IPRs”) filed by Palo Alto Networks, Inc. (IPR2016-00159) and joined by Blue Coat Systems, LLC, (IPR2016-01174). The consolidated proceedings related to challenges to certain claims of Finjan’s U.S. Patent 8,677,494 (the “‘494 Patent”).

Conclusively identical to its previous final decision on a petition filed by Symantec (IPR2015-01892), also related to the ‘494 Patent, the PTAB determined that only three method claims (i.e., 1, 2, and 6) were unpatentable while nine system claims (i.e., 3-5, and 10-15) were not unpatentable. Substantively, to date, only 1 independent method claim has been invalidated through the IPR process. This most recent decision is the last of seven instituted IPR proceedings against Finjan’s patents.

A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

The information in this current report on Form 8-K and the exhibit attached hereto shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language in such filing.
