AmREIT AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2008
(unaudited)

1. DESCRIPTION OF BUSINESS AND NATURE OF OPERATIONS

We are an established real estate company that has elected to be taxed as a real estate investment trust (“REIT”) for federal income tax purposes. Our business model is similar to an institutional advisory company that is judged by its investor partners on the returns we are able to deliver to reach specified long-term results. Our primary objective is to build long-term shareholder value and continue to build and enhance the net asset value (“NAV”) of us and our advised funds.

We seek to create value and drive net operating income (“NOI”) growth on the properties owned in our institutional-grade portfolio of Irreplaceable Corners™ and those owned by a series of closed-end, merchant development funds. We also seek to support a growing advisory business that raises capital through an extensive independent broker-dealer channel as well as through institutional joint venture partners.

Our direct predecessor, American Asset Advisers Trust, Inc. (“AAA”), was formed as a Maryland corporation in 1993. Prior to 1998, AAA was externally advised by American Asset Advisers Corp. which was formed in 1985. In June 1998, AAA merged with its advisor and changed its name to AmREIT, Inc. In December 2002, AmREIT, Inc. reorganized as a Texas real estate investment trust and became AmREIT.

Our class A common shares are traded on the American Stock Exchange under the symbol “AMY.” Our offices are located at 8 Greenway Plaza, Suite 1000 Houston, Texas 77046. Our telephone number is 713.850.1400 and we maintain an internet site at www.amreit.com.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

Our financial records are maintained on the accrual basis of accounting whereby revenues are recognized when earned and expenses are recorded when incurred. The consolidated financial statements include our accounts as well as the accounts of any wholly- or majority-owned subsidiaries in which we have a controlling financial interest. Investments in joint ventures and partnerships where we have the ability to exercise significant influence but do not exercise financial and operating control, are accounted for using the equity method, unless such entities qualify as variable interest entities, and thus are considered for consolidation under applicable accounting literature related to consolidation. All significant inter-company accounts and transactions have been eliminated in consolidation.

REVENUE RECOGNITION

We lease space to tenants under agreements with varying terms. The majority of the leases are accounted for as operating leases with revenue being recognized on a straight-line basis over the terms of the individual leases. Accrued rents are included in tenant receivables. Revenue from tenant reimbursements of taxes, maintenance expenses and insurance is recognized in the period the related expense is recorded. Additionally, certain of the lease agreements contain provisions that grant additional rents based on tenants’ sales volumes (contingent or percentage rent). Percentage rents are recognized when the tenants achieve the specified targets as defined in their lease agreements. We recognize lease termination fees in the period that the lease is terminated and collection of the fees is reasonably

assured. During the three months ended March 31, 2008 and 2007, we did not recognize any lease termination fees. Lease termination fees are included in rental income from operating leases. The terms of certain leases require that the building/improvement portion of the lease be accounted for under the direct financing method which treats the building as if we had sold it to the lessee and entered into a long-term financing arrangement with such lessee. This accounting method is appropriate when the lessee has all of the benefits and risks of property ownership that they otherwise would if they owned the building versus leasing it from us.

We have been engaged to provide various real estate services, including development, construction, construction management, property management, leasing and brokerage. The fees for these services are recognized as services are provided and are generally calculated as a percentage of revenues earned or to be earned or of property cost, as appropriate. Revenues from fixed-price construction contracts are recognized on the percentage-of-completion method, measured by the physical completion of the structure. Revenues from cost-plus-percentage-fee contracts are recognized on the basis of costs incurred during the period plus the percentage fee earned on those costs. Construction management contracts are recognized only to the extent of the fee revenue.

Construction contract costs include all direct material and labor costs and any indirect costs related to contract performance. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions, and estimated profitability, including those arising from any contract penalty provisions, and final contract settlements may result in revisions to costs and income and are recognized in the period in which the revisions are determined. Any profit incentives are included in revenues when their realization is reasonably assured. An amount equal to contract costs attributable to any claims is included in revenues when realization is probable and the amount can be reliably estimated.

Unbilled construction receivables represent reimbursable costs and amounts earned under contracts in progress as of the date of our balance sheet. Such amounts become billable according to contract terms, which usually consider the passage of time, achievement of certain milestones or completion of the project. Advance billings represent billings to or collections from clients on contracts in advance of revenues earned thereon. Unbilled construction receivables are generally billed and collected within the twelve months following the date of our balance sheet, and advance billings are generally earned within the twelve months following the date of our balance sheet. As of March 31, 2008, \$63,000 of unbilled receivables has been included in "Accounts receivable" and \$70,000 of unbilled receivables due from related parties has been included in "Accounts receivable – related party." As of December 31, 2007, \$4,000 of unbilled receivables has been included in "Accounts receivable" and \$85,000 of unbilled receivables due from related parties has been included in "Accounts receivable – related party." We had advance billings of \$6,000 as of March 31, 2008 and December 31, 2007.

Securities commission income is recognized as units of our merchant development funds are sold through our wholly-owned subsidiary, AmREIT Securities Company. Securities commission income is earned as the services are performed and pursuant to the corresponding prospectus or private offering memorandum. Generally, it includes a selling commission of between 6.5% and 7.5%, a dealer-manager fee of between 2.5% and 3.25% and offering and organizational costs of 1.0% to 1.50%. The selling commission is then paid to the unaffiliated selling broker-dealer and reflected as securities commission expense.

REAL ESTATE INVESTMENTS

Development Properties – Land, buildings and improvements are recorded at cost. Expenditures related to the development of real estate are carried at cost which includes capitalized carrying charges, acquisition costs and development costs. Carrying charges, primarily interest, real estate taxes and loan acquisition costs, and direct and indirect development costs related to buildings under construction, are capitalized as part of construction in progress. The capitalization of such costs ceases at the earlier of one year from the date of completion of major construction or when the property, or any completed portion, becomes available for occupancy. We capitalize acquisition costs as incurred. Such costs are expensed if and when the acquisition becomes no longer probable. During the three months

ended March 31, 2008 and March 31, 2007 we capitalized \$36,000 and \$79,000, respectively, in interest on properties under development.

Acquired Properties and Acquired Lease Intangibles – We account for real estate acquisitions pursuant to Statement of Financial Accounting Standards No. 141, Business Combinations (“SFAS No. 141”). Accordingly, we allocate the purchase price of the acquired properties to land, building and improvements, identifiable intangible assets and to the acquired liabilities based on their respective fair values. Identifiable intangibles include amounts allocated to acquired out-of-market leases, the value of in-place leases and customer relationship value, if any. We determine fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Factors considered by management in our analysis of determining the as-if-vacant property value include an estimate of carrying costs during the expected lease-up periods considering market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and estimates of lost rentals at market rates during the expected lease-up periods, tenant demand and other economic conditions. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Intangibles related to out-of-market leases and in-place lease value are recorded as acquired lease intangibles and are amortized as an adjustment to rental revenue or amortization expense, as appropriate, over the remaining terms of the underlying leases. Premiums or discounts on acquired out-of-market debt are amortized to interest expense over the remaining term of such debt.

~F-5~

Table of Contents

Depreciation — Depreciation is computed using the straight-line method over an estimated useful life of up to 50 years for buildings, up to 20 years for site improvements and over the term of lease for tenant improvements. Leasehold estate properties, where we own the building and improvements but not the related ground, are amortized over the life of the lease.

Properties Held for Sale — Properties are classified as held for sale if management has decided to market the property for immediate sale in its present condition with the belief that the sale will be completed within one year. Operating properties held for sale are carried at the lower of cost or fair value less cost to sell. Depreciation and amortization are suspended during the held for sale period. As of March 31, 2008 and December 31, 2007 we owned 19 properties with a carrying value of \$22.4 million that were classified as real estate held for sale.

Our properties generally have operations and cash flows that can be clearly distinguished from the rest of our operations. The operations and gains on sales reported in discontinued operations include those properties that have been sold or are held for sale and for which operations and cash flows have been clearly distinguished. The operations of these properties have been eliminated from ongoing operations, and we will not have continuing involvement after disposition. Prior period operating activity related to such properties has been reclassified as discontinued operations in the accompanying statements of operations.

Impairment – We review our properties for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets, including accrued rental income, may not be recoverable through operations. We determine whether an impairment in value occurred by comparing the estimated future cash flows (undiscounted and without interest charges), including the residual value of the property, with the carrying value of the individual property. If impairment is indicated, a loss will be recorded for the amount by which the carrying value of the asset exceeds its fair value. No impairment charges were recognized for the three months ended March 31, 2008 and March 31, 2007.

RECEIVABLES AND ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS

Tenant receivables — Included in tenant receivables are base rents, tenant reimbursements and receivables attributable to recording rents on a straight-line basis. An allowance for the uncollectible portion of accrued rents and accounts receivable is determined based upon customer credit-worthiness (including expected recovery of our claim with respect to any tenants in bankruptcy), historical bad debt levels, and current economic trends. As of March 31, 2008 and December 31, 2007, we had an allowance for uncollectible accounts of \$157,000 related to our tenant receivables.

Accounts receivable – Included in accounts receivable are amounts due from clients of our construction services business and various other receivables. As of March 31, 2008 and December 31, 2007, we had an allowance for uncollectible accounts of \$264,000 related to our accounts receivable.

Notes receivable – related party – Included in related party notes receivable are loans made to our affiliated merchant development funds as part of our treasury management function whereby we place excess cash in short-term bridge loans for these affiliates related to the acquisition or development of properties. We typically provide such financing to our affiliates as a way of efficiently deploying our excess cash and earning a higher return than we would otherwise earn in other short term investments or overnight funds. In most cases, the funds have a construction lender in place, and we step in and provide financing on the same terms as the third party lender. In so doing, we are able to access these funds as needed by having our affiliate then draw down on their construction loans. These loans are unsecured, bear interest at the prime rate (5.25% at March 31, 2008) and are due upon demand.

DEFERRED COSTS

Deferred costs include deferred leasing costs and deferred loan costs, net of amortization. Deferred loan costs are incurred in obtaining financing and are amortized using a method that approximates the effective interest method to interest expense over the term of the debt agreements. Deferred leasing costs consist of external commissions associated with leasing our properties and are amortized to expense over the lease term. Accumulated amortization related to deferred loan costs as of March 31, 2008 and December 31, 2007 totaled \$711,000 and \$627,000, respectively. Accumulated amortization related to deferred leasing costs as of March 31, 2008 and December 31, 2007 totaled \$503,000 and \$450,000, respectively.

DEFERRED COMPENSATION

Our deferred compensation and long term incentive plan is designed to attract and retain the services of our trust managers and employees that we consider essential to our long-term growth and success. As such, it is designed to provide them with the opportunity to own shares, in the form of restricted shares, in us, and provide key employees the opportunity to participate in the success of our affiliated actively managed merchant development funds through the economic participation in our general partner companies. All long term compensation awards are designed to vest over a period of three to seven years and promote retention of our team.

Restricted Share Issuances - Deferred compensation includes grants of restricted shares to our trust managers and employees as a form of long-term compensation. The share grants vest over a period of three to seven years. We determine the fair value of the restricted shares as the number of shares awarded multiplied by the closing price per share of our class A common shares on the grant date. We amortize such fair value ratably over the vesting periods of the respective awards. The following table presents restricted share activity during the three months ended March 31, 2008.

	Non-vested Shares	Weighted Average grant date fair value
Beginning of period	410,830	\$ 7.67
Granted	-	-
Vested	(43,315)	7.74
Forfeited	(27,681)	7.96
End of period	339,834	7.63

There were no restricted shares issued during the three months ended March 31, 2008. During the three months ended March 31, 2007 the weighted-average grant date fair value of shares issued under our deferred compensation and long term incentive plan was \$8.51 per share. The total fair value of shares vested during the three months ended March 31, 2008 and 2007 was \$335,000 and \$323,000 respectively. Total compensation cost recognized related to restricted shares during the three months ended March 31, 2008 and 2007 was \$96,000 and \$169,000, respectively. As of March 31, 2008, total unrecognized compensation cost related to restricted shares was \$2.6 million, and the weighted average period over which we expect this cost to be recognized is 3.75 years.

General Partner Profit Participation Interests - We have assigned up to 45% of the economic interest in certain of our merchant development funds to certain of our key employees. This economic interest is received, as, if and when we receive economic benefit from our profit participation, after certain preferred returns have been paid to the partnership's limited partners. This assignment of economic interest generally vests over a period of five to seven

years. This allows us to align the interest of our employees with the interest of our shareholders. Because any future profits and earnings from the merchant development funds cannot be reasonably predicted or estimated, and any employee benefit is contingent upon the benefit received by the general partner of the merchant development funds, we recognize expense associated with the assignment of these economic interests as we recognize the corresponding income from the associated merchant development funds. No portion of the economic interest in the merchant development funds that have provided profit participation to us to date have been assigned to employees. Therefore, no compensation expense has been recorded to date. See Note 3 below for a discussion of the potential sale of assets from one our merchant development funds, AAA CTL Notes, Ltd.

Tax-Deferred Retirement Plan (401k) - We maintain a defined contribution 401k retirement plan for our employees. This plan is available for all employees immediately upon employment. The plan allows for contributions to be either invested in an array of large, mid and small cap mutual funds or directly into class A common shares. Employee contributions invested in our shares are limited to 50% of the employee's contributions. We match 50% of the employee's contribution, up to a maximum employee contribution of 4%. None of the employer contribution can be matched in our shares.

~F-6~

Table of Contents

Share Options - We are authorized to grant options of our class A common shares as either incentive or non-qualified share options, up to an aggregate of 6.0% of the total voting shares outstanding. As of March 31, 2008 and December 31, 2007, none of these options have been granted.

INCOME TAXES

We account for federal and state income taxes under the asset and liability method.

Federal – We have elected to be taxed as a REIT under the Internal Revenue Code of 1986, and are, therefore, not subject to Federal income taxes to the extent of dividends paid, provided we meets all conditions specified by the Internal Revenue Code for retaining our REIT status, including the requirement that at least 90% of our REIT taxable income be distributed to shareholders.

Our real estate development and operating business, AmREIT Realty Investment Corporation and subsidiaries (“ARIC”), is a fully integrated and wholly-owned business consisting of brokers and real estate professionals that provide development, acquisition, brokerage, leasing, construction, asset and property management services to our publicly traded portfolio and merchant development funds as well as to third parties. ARIC and our wholly-owned corporations that serve as the general partners of our merchant development funds are treated for Federal income tax purposes as taxable REIT subsidiaries (collectively, the “Taxable REIT Subsidiaries”).

State – In May 2006, the State of Texas adopted House Bill 3, which modified the state’s franchise tax structure, replacing the previous tax based on capital or earned surplus with one based on margin (often referred to as the “Texas Margin Tax”) effective with franchise tax reports filed on or after January 1, 2008. The Texas Margin Tax is computed by applying the applicable tax rate (1% for us) to the profit margin, which, generally, will be determined for us as total revenue less a 30% standard deduction. Although House Bill 3 states that the Texas Margin Tax is not an income tax, SFAS No. 109, Accounting for Income Taxes, applies to the Texas Margin Tax. We have recorded a margin tax provision of \$71,000 and \$45,000 for the Texas Margin Tax for the three months ended March 31, 2008 and 2007, respectively.

EARNINGS PER SHARE

Basic earnings per share has been computed by dividing net loss available to class A common shareholders by the weighted average number of class A common shares outstanding. Diluted earnings per share has been computed by dividing net income (as adjusted as appropriate) by the weighted average number of common shares outstanding plus the weighted average number of dilutive potential common shares. Diluted earnings per share information is not applicable due to the anti-dilutive nature of the class C and class D common shares which represent 23.0 million and 20.5 million potential common shares for the three months ended March 31, 2008 and 2007, respectively.

The following table presents information necessary to calculate basic and diluted earnings per class A share for the three months ended March 31, as indicated:

	Three months ended March 31	
	2008	2007
Loss to class A common shareholders*	(1,501)	(1,702)

Weighted average class		
A common shares		
outstanding*	6,216	6,320
Basic and diluted loss		
per share	(0.24)	(0.27)

* In thousands

USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

FAIR VALUE OF FINANCIAL INSTRUMENTS

Our consolidated financial instruments consist primarily of cash, cash equivalents, tenant receivables, accounts receivable, notes receivable, accounts payable and other liabilities and notes payable. The carrying value of cash, cash equivalents, tenant receivables, accounts receivable, notes receivable, accounts payable, other liabilities are representative of their respective fair values due to the short-term maturity of these instruments. Our revolving line of credit has market-based terms, including a variable interest rate. Accordingly, the carrying value of the line of credit is representative of its fair value.

As of March 31, 2008, the carrying value of our debt obligations associated with assets held for investment was \$173.9 million, \$137.9 million of which represented fixed rate obligations with an estimated fair value of \$145.0 million. As of December 31, 2007, the carrying value of our debt obligations associated with assets held for investment was \$168.6 million, \$138.1 million of which represented fixed rate obligations with an estimated fair value of \$139.1 million.

As of March 31, 2008, the carrying value of our debt obligations associated with assets held for sale was \$12.7 million, all of which represented fixed rate obligations with an estimated fair value of \$13.8 million. As of December 31, 2007, the carrying value of our debt obligations associated with assets held for sale was \$12.8 million, all of which represented fixed rate obligations with an estimated fair value of \$13.6 million.

CONSOLIDATION OF VARIABLE INTEREST ENTITIES

As of March 31, 2008, we are an investor in, and the primary beneficiary of, one entity that qualifies as a variable interest entity pursuant to FIN 46R. This entity was established to develop, own, manage, and hold property for investment and comprises \$7.0 million of our total consolidated assets at period end. This entity, which we hold a 50% interest in, had no debt outstanding at period end and had revenues of \$44,000 for the three months ended March 31, 2008.

NEW ACCOUNTING STANDARDS

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, Fair Value Measurements ("SFAS No. 157"). SFAS No. 157 defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. SFAS No. 157 requires companies to disclose the fair value of financial instruments according to a fair value hierarchy. Additionally, companies are required to provide certain disclosures regarding instruments within the hierarchy, including a reconciliation of the beginning and ending balances for each major category of assets and liabilities. SFAS No. 157 is effective for our fiscal year beginning

January 1, 2008. The adoption of SFAS No. 157 did not have a material effect on our results of operations or financial position.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (“SFAS No. 159”). SFAS No. 159 expands opportunities to use fair value measurement in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We did not measure any eligible financial assets and liabilities at fair value under the provisions of SFAS No. 159.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations (“SFAS No. 141R”). SFAS No. 141R will change the accounting for business combinations. Under FAS 141R, an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. We are currently evaluating the potential impact of SFAS No. 141R on our financial position and results of operations beginning for fiscal year 2009.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51 (“SFAS No. 160”). SFAS No. 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. SFAS No. 160 requires retroactive adoption of the presentation and disclosure requirements for existing minority interests. All other requirements of SFAS No. 160 shall be applied prospectively. We are currently evaluating the potential impact of the adoption of SFAS No. 160 on our consolidated financial statements.

Table of Contents

DISCONTINUED OPERATIONS

The following is a summary of our discontinued operations for the three months ended March 31, 2008 and 2007 (in thousands, except for per share data):

	2008	2007
Rental revenue	\$ 71	\$ 52
Earned income from direct financing leases	444	448
Total revenues	515	500
Property expense	71	(6)
Federal income tax expense	8	8
Legal and professional	27	5
Depreciation and amortization	-	3
Minority interest	48	49
Interest expense	289	281
Total expenses	443	340
Income from discontinued operations	72	160
Basic and diluted income from discontinued operations per class A common share	\$ 0.01	\$ 0.03

Included in discontinued operations is the operating activity related to 19 of our properties that are held for sale. Our AAA CTL portfolio comprises of 17 of these properties. Each of these 17 properties was treated as investments in direct financing leases for financial reporting purposes. See Note 3 for further discussion of AAA CTL.

STOCK ISSUANCE COSTS

Issuance costs incurred in the raising of capital through the sale of common shares are treated as a reduction of shareholders' equity.

CASH AND CASH EQUIVALENTS

For purposes of the consolidated statements of cash flows, we consider all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. Cash and cash equivalents consist of demand deposits at commercial banks and money market funds.

RECLASSIFICATIONS

Certain amounts in the prior period consolidated financial statements have been reclassified to conform to the presentation used in the current period consolidated financial statements. Such reclassifications had no effect on net income (loss) or shareholders' equity as previously reported.

3. INVESTMENTS IN MERCHANT DEVELOPMENT FUNDS

AAA CTL Notes, Ltd.

AAA CTL Notes I Corporation ("AAA Corp"), our wholly-owned subsidiary, invested as a general partner and limited partner in AAA CTL Notes, Ltd. ("AAA"). AAA is a majority-owned subsidiary through which we purchased 15 IHOP Corp. ("IHOP") leasehold estate properties and two IHOP fee simple properties. We have consolidated AAA in our financial statements. Certain members of our management team have been assigned a 51% aggregate interest in the income and cash flow of AAA's general partner. Net sales proceeds from the liquidation of AAA will be allocated to the limited partners and to the general partner pursuant to the AAA limited partnership agreement.

During the third quarter of 2007, we elected to hold the AAA assets for sale.

Merchant Development Funds

As of March 31, 2008, we owned, through wholly-owned subsidiaries, interests in six limited partnerships which are accounted for under the equity method as we exercise significant influence over, but do not control, the investee. In each of the partnerships, the limited partners have the right, with or without cause, to remove and replace the general partner by a vote of the limited partners owning a majority of the outstanding units. These merchant development funds were formed to develop, own, manage and add value to properties with an average holding period of two to four years. Our interests in these merchant development funds range from 2.1% to 10.5%. See Note 8 regarding transactions we have entered into with our merchant development funds.

AmREIT Opportunity Fund ("AOF") — AmREIT Opportunity Corporation ("AOC"), our wholly-owned subsidiary, invested \$250,000 as a limited partner and \$1,000 as a general partner in AOF. We currently own a 10.5% limited partner interest in AOF. Liquidation of AOF commenced in July 2002, and, as of March 31, 2008, AOF has an interest in one property. As the general partner, AOC receives a promoted interest in cash flow and any profits after certain preferred returns are achieved for its limited partners.

AmREIT Income & Growth Fund, Ltd. ("AIG") — AmREIT Income & Growth Corporation ("AIGC"), our wholly-owned subsidiary, invested \$200,000 as a limited partner and \$1,000 as a general partner in AIG. We currently own an approximate 2.0% limited partner interest in AIG. Certain members of our management team have been assigned a 49% aggregate interest in the income and cash flow of AIGC. Pursuant to the AIG limited partnership agreement, net sales proceeds from its liquidation (expected in 2008) will be allocated to the limited partners, and to the general partner, AIGC, as, if and when the annual return thresholds have been achieved by the limited partners.

AmREIT Monthly Income & Growth Fund ("MIG") — AmREIT Monthly Income & Growth Corporation, our wholly-owned subsidiary, invested \$200,000 as a limited partner and \$1,000 as a general partner in MIG. We currently own an approximate 1.3% limited partner interest in MIG.

AmREIT Monthly Income & Growth Fund II ("MIG II") — AmREIT Monthly Income & Growth II Corporation, our wholly-owned subsidiary, invested \$400,000 as a limited partner and \$1,000 as a general partner in MIG II. We currently own an approximate 1.6% limited partner interest in MIG II.

AmREIT Monthly Income & Growth Fund III ("MIG III") — AmREIT Monthly Income & Growth III Corporation ("MIGC III"), our wholly-owned subsidiary, invested \$800,000 as a limited partner and \$1,000 as a general partner in MIG III. MIG III began raising money in June 2005. The offering was closed in October 2006, and the capital raised

was approximately \$71 million. Our \$800,000 investment represents a 1.1% limited partner interest in MIG III. Certain members of our management team have been assigned a 28.5% general partner's share of aggregate interest in the income and cash flow of MIGC III. Pursuant to the MIG III limited partnership agreement, net sales proceeds from its liquidation (expected in 2012) will be allocated to the limited partners, and to the general partner (MIGC III) as, if and when the annual return thresholds have been achieved by the limited partners.

AmREIT Monthly Income & Growth Fund IV ("MIG IV") - AmREIT Monthly Income & Growth IV Corporation ("MIGC IV"), our wholly-owned subsidiary, invested \$800,000 as a limited partner and \$1,000 as a general partner in MIG IV. MIG IV began raising money in November 2006, and, as of March 31, 2008, had raised approximately \$50 million. We expect our limited partnership interest at completion of the offering to be between 0.8% and 1.6%. Certain members of our management team have been assigned a 28.5% general partner's share of aggregate interest in the income and cash flow of MIGC IV. Pursuant to the MIG IV limited partnership agreement, net sales proceeds from its liquidation (expected in 2013) will be allocated to the limited partners, and to the general partner (MIGC IV) as, if and when the annual return thresholds have been achieved by the limited partners.

REITPlus, Inc.- During the fourth quarter, a registration statement relating to REITPlus, Inc. ("REITPlus"), a \$550 million non-traded REIT offering that is advised by one of our wholly-owned subsidiaries, was declared effective by the SEC, allowing REITPlus to begin offering its common stock through our securities operation's broker-dealer network. REITPlus conducts substantially all of its operations through REITPlus Operating Partnership, LP ("REITPlus OP") which will own substantially all of the properties acquired on REITPlus's behalf. On May 16, 2007, we purchased 100 shares of common stock of REITPlus for total cash consideration of \$1,000 and were admitted as the initial shareholder. Additionally, on May 16, 2007, we made an initial limited partner contribution of \$1 million to REITPlus OP. As of March 31, 2008, REITPlus had not yet received subscriptions for its minimum offering of \$2,000,000, and therefore had not admitted any public stockholders or made any investments.

Our wholly owned subsidiary serve as the advisor to REITPlus and will therefore earn recurring fees such as asset management and property management fees, and transactional fees such as acquisition fees, development fees, financing coordination fees, and real estate sales commissions. We will also participate in a 15% promoted interest, payable upon REITPlus' liquidation, listing of its shares on a national securities exchange, or the termination or non-renewal of the advisory agreement with our subsidiary (other than for cause) after the REITPlus stockholders receive or are deemed to have received, their invested capital plus a 7% preferred return. In our capacity as the parent company of the advisor to REITPlus, we have paid organization and offering costs of \$1.6 million on its behalf. We have recorded these costs as a receivable in the accompanying financial statements and we expect reimbursement for them throughout the offering period as the capital is raised. Once REITPlus meets its minimum subscription threshold, such costs will be reimbursed to us subject to limitations on reimbursements set forth in the advisory agreement.

Table of Contents

The following table sets forth certain financial information for the AIG, MIG, MIG II, MIG III and MIG IV merchant development funds (AOF is not included as it is currently in liquidation) and REITPlus:

Merchant Development Fund	Capital under Management	LP Interest	GP Interest	Scheduled Liquidation	Sharing Ratios(1)							
					LP	GP	LP Preference					
AIG	\$ 3 million	2.0%	1.0%	2008	99%	1%	8%					
					90%	10%	10%					
					80%	20%	12%					
					70%	30%	15%					
					0%	100%	40% Catch Up					
					60%	40%	Thereafter					
MIG	\$ 15 million	1.3%	1.0%	2010	99%	1%	8%					
					90%	10%	10%					
					80%	20%	12%					
					0%	100%	40% Catch Up					
					60%	40%	Thereafter					
MIG II	\$ 25 million	1.6%	1.0%	2011	99%	1%	8%					
					85%	15%	12%					
					0%	100%	40% Catch Up					
					60%	40%	Thereafter

0%	100%	40% Catch Up										
60%	40%	Thereafter										
MIG IV	\$ 50 million	1.6%	1.0%	2013						99%	1%	8.5%
										0%	100%	40% Catch Up
					60%	40%	Thereafter					
					REITPlus (2)	-	NA	NA	2014	99%	1%	(3)
										85%	15%	

(1) Illustrating the Sharing Ratios and LP Preference provisions using AIG as an example, the LPs share in 99% of the cash distributions until they receive an 8% preferred return. The LPs share in 90% of the cash distributions until they receive a 10% preferred return and so on.

(2) REITPlus will commence receiving capital in the second quarter of 2008.

(3) We will be entitled to distributions from REITPlus with respect to our \$1 million investment to the same extent as stockholders who purchase shares in the public offering. For a description of our subsidiary's promoted interest in REITPlus, please see the second paragraph under "REITPlus, Inc." above in the Section 3.

~F-9~

Table of Contents

Other Affiliates

Other than the merchant development funds, we have an investment in three entities that are accounted for under the equity method since we exercise significant influence over such entities. We invested \$3.4 million in AmREIT Woodlake, LP, and we have a 30% limited partner interest in the partnership. AmREIT Woodlake, LP was formed in 2007 to acquire, lease and manage Woodlake Square, a shopping center located on the west side of Houston, Texas at the intersection of Westheimer and Gessner. Also, we invested \$3.8 million in AmREIT Westheimer Gessner, LP, and we have a 30% limited partner interest in the partnership. AmREIT Westheimer Gessner, LP was formed in 2007 to acquire, lease and manage Borders Shopping Center, a shopping center located on the west side of Houston, TEXAS at the intersection of Westheimer and Gessner. Additionally, we invested \$5.1 million in AmREIT SPF Shadow Creek, LP, and we have a 10% limited partner interest in the partnership. AmREIT SPF Shadow Creek, LP was formed in 2008 to acquire, lease and manage Shadow Creek Ranch, a shopping center located on the west side of Houston, TEXAS at the intersection of Highway 288 and 518.

4. ACQUIRED LEASE INTANGIBLES

In accordance with SFAS No. 141, we have identified and recorded the value of intangibles at the property acquisition date. Such intangibles include the value of in-place leases and out-of-market leases. These assets are amortized over the leases' remaining terms. The amortization of above-market leases is recorded as a reduction of rental income and the amortization of in-place leases is recorded to amortization expense. The amortization expense related to in-place leases was \$601,000 and \$631,000 million during the three months ended March 31, 2008 and March 31, 2007, respectively. The amortization of above-market leases, which was recorded as a reduction of rental income, was \$88,000 and \$107,000 during the three months ended March 31, 2008 and March 31, 2007, respectively.

In-place and above-market lease amounts and their respective accumulated amortization at March 31, 2008 and December 31, 2007 are as follows (in thousands):

	March 31, 2008		December 31, 2007	
	In-Place leases	Above-market leases	In-Place leases	Above-market leases
Cost	\$ 18,964	\$ 2,025	\$ 19,052	\$ 2,025
Accumulated amortization	(7,423)	(1,159)	(6,910)	(1,071)
Intangible lease cost, net	\$ 11,541	\$ 866	\$ 12,142	\$ 954

Acquired lease intangible liabilities (below-market leases) of \$3.3 million and \$3.4 as of March 31, 2008 and December 31, 2007, respectively, are net of previously accreted minimum rent of \$1.7 million and \$1.6 million at March 31, 2008 and December 31, 2007, respectively. Below-market leases are accreted over the leases' remaining terms. The accretion of below-market leases, which was recorded as an increase to rental income, was \$135,000 and \$137,000 during the three months ended March 31, 2008 and March 31, 2007, respectively.

5. NOTES PAYABLE

Our outstanding debt at March 31, 2008 and December 31, 2007 consists of the following (in thousands):

	March 31, 2008	December 31, 2007

Edgar Filing: AMREIT - Form 10-Q

Notes Payable, Held for Investment		
Fixed rate mortgage loans	137,852	138,121
Variable-rate unsecured line of credit	36,054	30,439
Total	173,906	168,560
Notes Payable, Held for Sale		
Fixed rate mortgage loans	12,692	12,811
Total	12,692	12,811

We have an unsecured credit facility in place which is being used to provide funds for the acquisition of properties and working capital. The credit facility matures in October 2009 and provides that we may borrow up to \$70 million subject to the value of unencumbered assets. Effective October 2007, we renewed our credit facility on terms and conditions substantially the same as the previous facility. The credit facility contains covenants which, among other restrictions, require us to maintain a minimum net worth, a maximum leverage ratio, maximum tenant concentration ratios, specified interest coverage and fixed charge coverage ratios and allow the lender to approve all distributions. For the quarter ended March 31, 2008, we violated two covenants per the terms of the credit facility. Our lender has waived both events of non-compliance as of March 31, 2008. We were in compliance with all other covenants as of March 31, 2008. The credit facility's annual interest rate varies depending upon our debt to asset ratio, from LIBOR plus a spread of 1.0% to LIBOR plus a spread of 1.85%. As of March 31, 2008, the interest rate was LIBOR plus 1.00%. As of March 31, 2008, there was a balance outstanding of \$36.1 million under our credit facility. We have approximately \$31.9 million available under our credit facility, subject to the covenants above. We have \$2.0 million in letters of credit outstanding related to various properties. These letters of credit reduce our availability under our credit facility.

As of March 31, 2008, the weighted average interest rate on our fixed-rate debt was 5.78%, and the weighted average remaining life of such debt was 6.5 years. We added no fixed-rate debt during the three months ended March 31, 2008. We added fixed-rate debt of \$19.9 million during 2007.

As of March 31, 2008, scheduled principal repayments on notes payable and the credit facility were as follows (in thousands):

Scheduled Payments by Year	Associated with Assets Held for Investment			Associated with Assets Held for Sale		
	Scheduled Principal Payments	Term-Loan Maturities	Total Payments	Scheduled Principal Payments	Term-Loan Maturities	Total Payments
2008	\$ 649	\$ 13,410	\$ 14,059	\$ 371	\$ -	\$ 371
2009	36,972	-	36,972	531	-	531
2010	982	-	982	574	-	574
2011	987	3,075	4,062	620	-	620
2012	979	25,353	26,332	315	10,281	10,596
Thereafter	2,019	88,900	90,919	-	-	-
Unamortized debt premiums	-	579	579	-	-	-
Total	\$ 42,588	\$ 131,317	\$ 173,905	\$ 2,411	\$ 10,281	\$ 12,692

Table of Contents

6. CONCENTRATIONS

As of March 31, 2008, one property individually accounted for more than 10% of our consolidated total assets – Uptown Park in Houston, Texas, which accounted for 14% of total assets. Consistent with our strategy of investing in areas that we know well, 17 of our properties are located in the Houston metropolitan area. These Houston properties represent 66% of our base rental income for the three months ended March 31, 2008. Houston is Texas’ largest city and the fourth largest city in the United States.

Following are the base rents generated by our top tenants for the periods ended March 31 2008 and 2007 (\$ in thousands):

Tenant	Three months ended March 31,	
	2008	2007
Kroger	\$ 529	\$ 585
IHOP Corporation*	499	562
CVS	264	242
Landry's	176	261
Linens N things	171	120
Hard Rock Cafe	170	178
Champps Americana	143	138
Paesanos	119	154
TGI Fridays	111	99
Golden Corral	98	91
	\$ 2,280	\$ 2,430

* A significant portion of IHOP Corporation revenues are related to our AAA assets which we have elected to hold for sale as described in Note 3. The activity related to these assets held for sale is reflected as “Earned Income from DFL” in the Discontinued Operations section of Note 1.

7. SHAREHOLDERS’ EQUITY AND MINORITY INTEREST

Class A Common Shares — Our class A common shares are listed on the American Stock Exchange (“AMEX”) and traded under the symbol “AMY.” As of March 31, 2008, there were 6,113,610 of our class A common shares outstanding, net of 520,879 shares held in treasury. Our payment of any future dividends to our class A common shareholders is dependent upon applicable legal and contractual restrictions, including the provisions of the class C common shares, as well as our earnings and financial needs.

Class B Common Shares — As of December 31, 2007 none of the class B common shares were outstanding. In December 2006, we completed a tender offer for approximately 48% of our class B common shares in which we repurchased 998,000 shares at \$9.25 per share for a total purchase price of \$9.2 million. We redeemed the remaining 1 million outstanding shares as of December 2007 at \$10.18 per share for \$10.4 million in cash.

Edgar Filing: AMREIT - Form 10-Q

Class C Common Shares — The class C common shares are not listed on an exchange and there is currently no available trading market for the class C common shares. As of March 31, 2008, there were 4,154,691 of our class C common shares outstanding. The class C common shares have voting rights, together with all classes of common shares, as one class of shares. The class C common shares were issued at \$10.00 per share. The class C common shares receive a fixed 7.0% preferred annual dividend, paid in monthly installments, and are convertible into the class A common shares after a 7-year lock out period based on 110% of invested capital, at the holder's option. The class C common shares are convertible beginning in August 2010. We have the right to force conversion of the class C common shares into class A shares on a one-for-one basis or to redeem the shares at a cash redemption price of \$11.00 per share at the holder's option. Currently, there is a class C dividend reinvestment program that allows investors to reinvest their dividends into additional class C common shares. These reinvested shares are also convertible into the class A common shares after the 7-year lock out period and receive the 10% conversion premium upon conversion.

Class D Common Shares — The class D common shares are not listed on an exchange and there is currently no available trading market for the class D common shares. As of March 31, 2008, there were 11,039,914 of our class D common shares outstanding. The class D common shares have voting rights, together with all classes of common shares, as one class of shares. The class D common shares were issued at \$10.00 per share. The class D common shares receive a fixed 6.5% annual dividend, paid in monthly installments, subject to payment of dividends then payable to class B and class C common shares. The class D common shares are convertible into the class A common shares at a 7.7% premium on original capital after a 7-year lock out period, at the holder's option. The class D common shares are convertible beginning in June 2011. We have the right to force conversion of the class D common shares into class A shares at the 7.7% conversion premium or to redeem the shares at a cash price of \$10.00. In either case, the conversion premium will be pro rated based on the number of years the shares are outstanding. Currently, there is a class D dividend reinvestment program that allows investors to reinvest their dividends into additional class D common shares. These reinvested shares are also convertible into the class A common shares after the 7-year lock out period and receive the 7.7% conversion premium upon conversion.

Minority Interest — Minority interest represents a third party interest in entities that we consolidate as a result of our controlling financial interest in such investees. As of March 31, 2008, \$1.2 million of the minority interest is attributable to a third party interest in AAA which is held for sale as of March 31, 2008 as discussed in Note 3.

Share Repurchase Program

In June 2007, our Board of Trust Managers authorized a common share repurchase program as part of our ongoing investment strategy. Under the terms of the program, we may purchase up to a maximum value of \$5 million of our common shares of beneficial interest. Share repurchases may be made in the open market or in privately negotiated transactions at the discretion of management and as market conditions warrant. We anticipate funding the repurchase of shares primarily through the proceeds received from general corporate funds as well as through the use of our credit facility.

Repurchases of our common shares of beneficial interest for the quarter ended March 31, 2008 are as follows:

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased As Part of Publicly Announced Program	(d) Maximum Dollar Value of Shares that May Yet be Purchased Under the Program
	156,490	\$6.99	156,490	\$2,618,707

January 1, 2008 to
March 31, 2008

8. RELATED PARTY TRANSACTIONS

See Note 3 regarding investments in merchant development funds and other affiliates and Note 2 regarding related party notes receivable.

We earn real estate fee income by providing property acquisition, leasing, asset management, property management, financing, coordination, real estate disposition, construction and construction management services to our merchant development funds. The companies that serve as the general partner for the funds are wholly-owned by us. Real estate fee income of \$1.4 million and \$713,000 was paid by our merchant development funds to us for the three months ended March 31, 2008 and March 31, 2007, respectively. Additionally, construction revenues of \$904,000 and \$876,000 were earned from the merchant development funds during the three months ended March 31, 2008 and 2007, respectively. We earn asset management fees from the funds for facilitating the deployment of capital and for performing other management oversight services. Asset management fees of \$376,000 and \$284,000 were paid by the funds to us for the three months ended March 31, 2008 and 2007, respectively. Additionally, during the three months ended March 31, 2008 and 2007 we were reimbursed by the merchant development funds \$229,000 and \$0, respectively, for reimbursements of administrative costs and for organization and offering costs incurred on behalf of those funds.

As a sponsor of real estate investment opportunities to the Financial Industry Regulatory Authority (“FINRA”) financial planning broker-dealer community, we maintain an indirect 1% general partner interest in the investment funds that we sponsor. The limited partnership funds are typically structured such that the limited partners receive 99% of the available cash flow until 100% of their original invested capital has been returned and a preferred return has been met. Once this has happened, then the general partner begins sharing in the available cash flow at various promoted levels. We also may assign a portion of this general partner interest in these investment funds to our employees as long term, contingent compensation. We believe that this assignment will align the interest of management with that of the shareholders, while at the same time allowing for a competitive compensation structure in order to attract and retain key management positions without increasing the overhead burden.

~F-11~

Table of Contents

9. REAL ESTATE ACQUISITIONS AND DISPOSITIONS

During the three months ended March 31, 2008, we did not sell any properties.

In May 2007, we acquired a 2-acre parcel of land in Champaign, Illinois that was acquired for resale and is currently under development for a national tenant that is in the rental equipment business. In February 2007, we acquired The Woodlands Mall Ring Road property, which represents 66,000 square feet of gross leaseable area in Houston, Texas. The property is ground-leased to five tenants, including Bank of America, Circuit City and Landry's Seafood. Additionally, during 2007, we sold one property acquired for resale for \$1.4 million which approximated our cost.

10. COMMITMENTS

In March 2004, we signed a new lease agreement for our office facilities which expires August 31, 2009. In addition, we lease various office equipment for daily activities. Rental expense for the three months ended March 31, 2008 and 2007 was \$84,000 and \$70,000, respectively.

11. SUBSEQUENT EVENTS

Through our treasury shares repurchase program, authorized in June 2007 by our Board of Trust Managers as part of our ongoing investment strategy, we repurchased 300,000 shares on April 1, 2008 for \$2.259 million.

12. SEGMENT REPORTING

The operating segments presented are the segments of AmREIT for which separate financial information is available, and revenue and operating performance is evaluated regularly by senior management in deciding how to allocate resources and in assessing performance.

The portfolio segment consists of our portfolio of single and multi-tenant shopping center projects. This segment consists of 50 properties located in 15 states. Expenses for this segment include depreciation, interest, minority interest, legal cost directly related to the portfolio of properties and property level expenses. Our consolidated assets are substantially all in this segment. Additionally, substantially all of the increase in total assets during the three months ended March 31, 2008 occurred within the portfolio segment.

Our real estate development and operating business is a fully integrated and wholly-owned business consisting of brokers and real estate professionals that provide development, acquisition, brokerage, leasing, construction, and asset and property management services to our publicly traded portfolio and merchant development funds as well as to third parties. Our securities operations consist of FINRA registered securities broker-dealer business that, through the internal securities group, raises capital from the independent financial planning marketplace. The merchant development funds sell limited partnership interests and non-listed REIT securities to retail investors, in which we invest as both the general partner and as a limited partner; in the case of the limited partnerships, and as a stockholder in the REIT or a limited partner in the REIT's operating partnership (see Note 3). These merchant development funds were formed to develop, own, manage, and add value to properties with an average holding period of two to four years with respect to the limited partnerships, and an extended term consistent with REIT status for REITPlus.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The use of the words “we,” “us” or “our” refers to AmREIT and our subsidiaries, except where the context otherwise requires.

FORWARD-LOOKING STATEMENTS

Certain information presented in this Form 10-Q constitutes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions, our actual results could differ materially from those set forth in the forward-looking statements. Certain factors that might cause such a difference include the following: changes in general economic conditions, changes in real estate market conditions, continued availability of proceeds from our debt or equity capital, our ability to locate suitable tenants for our properties, the ability of tenants to make payments under their respective leases, timing of acquisitions, development starts and sales of properties and the ability to meet development schedules. Any forward-looking statement speaks only as of the date on which it was made, and the Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operation results over time.

The following discussion should be read in conjunction with our consolidated financial statements and notes thereto appearing elsewhere in this report, as well as our 2007 consolidated financial statements and notes thereto included in our filing on Form 10-K for the year ended December 31, 2007. Historical results and trends which might appear should not be taken as indicative of future operations.

EXECUTIVE OVERVIEW

We are an established real estate company that has elected to be taxed as a real estate investment trust (“REIT”) for federal income tax purposes. Our business model is similar to an institutional advisory company that is judged by its investor partners on the returns we are able to deliver to reach specified long-term results. Our primary objective is to build long-term shareholder value and continue to build and enhance the net asset value (“NAV”) of us and our advised funds.

We seek to create value and drive net operating income (“NOI”) growth on the properties owned in our institutional-grade portfolio of Irreplaceable Corners™ and those owned by a series of closed-end, merchant development funds. We also seek to support a growing advisory business that raises capital through an extensive independent broker-dealer channel as well as through institutional joint venture partners.

The institutional-grade portfolio of Irreplaceable Corners – premier retail properties in high-traffic, highly-populated areas – are held for long-term value and to provide a foundation to our funds from operations (“FFO”) through a steady stream of rental income. Our advisory business has a 24-year track record of delivering returns to its investor partners through a series of closed-end, merchant development funds, resulting in recurring income from assets under management and in transactional income through profit participation interests and real estate fees, including acquisition, development and leasing fees.

The recurring-income nature of the institutional-grade portfolio of Irreplaceable Corners and the advisory business can be complemented by the added growth potential of our real estate development and operating business. This model seeks to provide value through offering an array of services to our tenants and to the properties owned in both the institutional-grade portfolio of Irreplaceable Corners and those owned by the closed-end, merchant development funds

as well as to third parties.

When we listed on the AMEX in July 2002, our total assets had a book value of \$48 million and equity under management within our advisory business totaled \$15 million. As of March 31, 2008:

- We owned a real estate portfolio consisting of 50 properties located in 15 states that had a net book value of \$344 million;
- We directly managed, through our five actively managed merchant development funds, a total of \$164 million in contributed capital; and
- We had over \$1.3 million square feet of retail centers in various stages of development, re-development or in the pipeline for both our advisory business and for third parties.

Portfolio of Irreplaceable Corners

Our portfolio consists primarily of premier retail properties typically located on “Main and Main” intersections in high-traffic, highly populated affluent areas. Because of their location and exposure as central gathering places, we believe these centers attract well established tenants and can withstand the test of time, providing our shareholders a steady rental income stream.

As of March 31, 2008, we owned a real estate portfolio consisting of 50 properties located in 15 states. A majority of our properties are located in densely populated, suburban communities in and around Houston, Dallas and San Antonio. Within these broad markets, we target locations that we believe have the best demographics and highest long term value. We refer to these properties as Irreplaceable Corners. Our criteria for an Irreplaceable Corner includes: high barriers to entry (typically infill locations in established communities without significant raw land available for development), significant population within a three mile radius (typically in excess of 100,000 people), a location on the hard corner of an intersection guided by a traffic signal, ideal average household income in the surrounding community in excess of \$80,000 per year, strong visibility and significant traffic counts passing by the location (typically in excess of 30,000 cars per day). We believe that centers with these characteristics will provide for consistent leasing demand and rents that increase at or above the rate of inflation. Additionally, these areas have barriers to entry for competitors seeking to develop new properties due to the lack of available land. We take a very hands-on approach to ownership, and directly manage the operations and leasing at all of our wholly owned properties.

We expect that single-tenant, credit leased properties will continue to experience cap rate pressure during 2008 due to the low interest rate environment and increased buyer demand. Therefore, we will continue to divest of properties which no longer meet our core criteria, and, to the extent that we can do so accretively, replace them with high quality grocery-anchored, lifestyle, and multi-tenant shopping centers or the development of single-tenant properties located on Irreplaceable Corners. Each potential acquisition is subjected to a rigorous due diligence process that includes site inspections, financial underwriting, credit analysis and market and demographic studies. Therefore, there can be no assurance that we will ultimately purchase any or all of these projects. Our acquisitions program is sensitive to changes in interest rates. As of March 31, 2008, 81% of our outstanding debt had a long-term fixed interest rate with an average term of 6.5 years. Our philosophy continues to be matching long-term leases with long-term debt structures while keeping our debt to total assets ratio less than 55%.

Advisory Business

The primary goal of our advisory business is to grow assets under management, primarily through the Independent Broker-dealer Network (“IBD”) and through institutional joint venture relationships. Through these assets under management, we are able to generate current recurring fee income, long term profit participation, and transactional revenues for real estate services provided such as acquisition, development and leasing. We break this business down into two components, our securities operations and our merchant development funds. In an effort to vertically integrate our business model and better control the inflows of capital into our advisory business, we have a wholly owned Financial Industry Regulatory Agency (FINRA) registered broker-dealer, AmREIT Securities Company

(“ASC”). For the past 24 years, we have been raising capital for our merchant development funds and building relationships in the financial planning and broker-dealer community, earning fees and sharing in profits from those activities. Historically, our advisory group has raised capital in two ways: first, directly for us through non-traded classes of common shares, and second, for our actively managed merchant development funds.

The advisory business invests in and actively manages seven merchant development partnership funds which were formed to develop, own, manage, and add value to properties with an average holding period of two to four years and REITPlus, Inc., a non-listed REIT that will acquire properties to be held for an extended period consistent with its intention to qualify as a REIT. We invest in the limited partnerships we manage as both the general partner and as a limited partner, and in REITPlus we have invested as a limited partner in its operating partnership. Our advisory business sells interests in these funds to retail investors. We, as the general partner or advisor, manage the funds and, in return, receive management fees as well as potentially significant profit participation interests. However, we strive to create a structure that aligns the interests of our shareholders with those of the investors in our managed funds. In this spirit, the funds are structured so that the general partner does not receive a significant profit until after the limited partners in the funds have received or are deemed to have received their targeted return, which links our success to that of the investors in our managed funds.

Real Estate Development and Operating Group

Our real estate development and operating business, “ARIC”, is a fully integrated and wholly-owned business consisting of brokers and real estate professionals that provide development, acquisitions, brokerage, leasing, construction, general contracting, asset and property management services to our portfolio of properties, to our advisory business, and to third parties. This operating subsidiary, which is a taxable REIT subsidiary, is transaction-oriented, is very active in the real estate market and has the potential to generate significant earnings on an annual basis. This business can provide significant long-term growth; however due to its transactional nature, its quarter to quarter results will fluctuate, and therefore its contributions to our earnings will be volatile.

Table of Contents

Summary of Critical Accounting Policies

Our results of operations and financial condition, as reflected in the accompanying consolidated financial statements and related footnotes, are subject to management's evaluation and interpretation of business conditions, retailer performance, changing capital market conditions and other factors, which could affect the ongoing viability of our tenants. Management believes the most critical accounting policies in this regard are revenue recognition, the regular evaluation of whether the value of a real estate asset has been impaired, the allowance for uncollectible accounts and accounting for real estate acquisitions. We evaluate our assumptions and estimates on an on-going basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable based on the circumstances.

Revenue Recognition — We lease space to tenants under agreements with varying terms. The majority of the leases are accounted for as operating leases with revenue being recognized on a straight-line basis over the terms of the individual leases. Accrued rents are included in tenant receivables. Revenue from tenant reimbursements of taxes, maintenance expenses and insurance is recognized in the period the related expense is recorded. Additionally, certain of the lease agreements contain provisions that grant additional rents based on tenants' sales volumes (contingent or percentage rent). Percentage rents are recognized when the tenants achieve the specified targets as defined in their lease agreements. The terms of certain leases require that the building/improvement portion of the lease be accounted for under the direct financing method which treats the building as if we had sold it to the lessee and entered into a long-term financing arrangement with such lessee. This accounting method is appropriate when the lessee has all of the benefits and risks of property ownership that they otherwise would if they owned the building versus leasing it from us.

We have been engaged to provide various services, including development, construction, construction management, property management, leasing and brokerage. The fees for these services are recognized as services are provided and are generally calculated as a percentage of revenues earned or to be earned or of property cost, as appropriate. Revenues from fixed-price construction contracts are recognized on the percentage-of-completion method, measured by the physical completion of the structure. Revenues from cost-plus-percentage-fee contracts are recognized on the basis of costs incurred during the period plus the percentage fee earned on those costs. Construction management contracts are recognized only to the extent of the fee revenue.

Construction contract costs include all direct material and labor costs and any indirect costs related to contract performance. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions, and estimated profitability, including those arising from any contract penalty provisions, and final contract settlements may result in revisions to costs and income and are recognized in the period in which the revisions are determined. Any profit incentives are included in revenues when their realization is reasonably assured. An amount equal to contract costs attributable to any claims is included in revenues when realization is probable and the amount can be reliably estimated.

Unbilled construction receivables represent reimbursable costs and amounts earned under contracts in progress as of the date of our balance sheet. Such amounts become billable according to contract terms, which usually consider the passage of time, achievement of certain milestones or completion of the project. Advance billings represent billings to or collections from clients on contracts in advance of revenues earned thereon. Unbilled construction receivables are generally billed and collected within the 12 months following the date of our balance sheet, and advance billings are generally earned within the 12 months following the date of our balance sheet.

Securities commission income is recognized as units of our merchant development funds are sold through AmREIT Securities Company. Securities commission income is earned as the services are performed and pursuant to the corresponding prospectus or private offering memorandum. Generally, it includes a selling commission of between 6.5% and 7.5%, a dealer manager fee of between 2.5% and 3.25% and offering and organizational costs of 1.0% to 1.50%. The selling commission is then paid out to the unaffiliated selling broker-dealer and reflected as securities commission expense.

Real Estate Valuation — Land, buildings and improvements are recorded at cost. Expenditures related to the development of real estate are carried at cost which includes capitalized carrying charges, acquisition costs and development costs. Carrying charges, primarily interest and loan acquisition costs, and direct and indirect development costs related to buildings under construction are capitalized as part of construction in progress. The capitalization of such costs ceases at the earlier of one year from the date of completion of major construction or when the property, or any completed portion, becomes available for occupancy. We capitalize acquisition costs as incurred. Such costs are expensed if and when the acquisition becomes no longer probable. Depreciation is computed using the straight-line method over an estimated useful life of up to 50 years for buildings, up to 20 years for site improvements and over the life of lease for tenant improvements. Leasehold estate properties, where the Company owns the building and improvements but not the related ground, are amortized over the life of the lease.

We review our properties for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets, including accrued rental income, may not be recoverable through operations. We determine whether an impairment in value occurred by comparing the estimated future cash flows (undiscounted and without interest charges), including the residual value of the property, with the carrying value of the individual property. If impairment is indicated, a loss will be recorded for the amount by which the carrying value of the asset exceeds its fair value.

Valuation of Receivables — An allowance for the uncollectible portion of tenant receivables and accounts receivable is determined based upon an analysis of balances outstanding, historical payment history, tenant credit worthiness, additional guarantees and other economic trends. Balances outstanding include base rents, tenant reimbursements and receivables attributed to the accrual of straight line rents. Additionally, estimates of the expected recovery of pre-petition and post-petition claims with respect to tenants in bankruptcy are considered in assessing the collectibility of the related receivables.

Real Estate Acquisitions — We account for real estate acquisitions pursuant to Statement of Financial Accounting Standards No. 141, Business Combinations (“SFAS No. 141”). Accordingly, we allocate the purchase price of the acquired properties to land, building and improvements, identifiable intangible assets and to the acquired liabilities based on their respective fair values. Identifiable intangibles include amounts allocated to acquired out-of-market leases, the value of in-place leases and customer relationships, if any. We determine fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Factors considered by management in our analysis of determining the as-if-vacant property value include an estimate of carrying costs during the expected lease-up periods considering market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and estimates of lost rentals at market rates during the expected lease-up periods, tenant demand and other economic conditions. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Intangibles related to out-of-market leases and in-place lease value are recorded as acquired lease intangibles and are amortized as an adjustment to rental revenue or amortization expense, as appropriate, over the remaining terms of the underlying leases. Premiums or discounts on acquired out-of-market debt are amortized to interest expense over the remaining term of such debt.

Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, Fair Value Measurements (“SFAS No. 157”). SFAS No. 157 defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. SFAS No. 157 requires companies to disclose the fair value of financial instruments according to a fair value hierarchy. Additionally, companies are required to provide certain disclosures regarding instruments within the hierarchy, including a reconciliation of the beginning and ending balances for each major category of assets and liabilities. SFAS No. 157 is effective for our fiscal year beginning January 1, 2008. The adoption of SFAS No. 157 did not have a material effect on our results of operations or financial position.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (“SFAS No. 159”). SFAS No. 159 expands opportunities to use fair value measurement in financial reporting and permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. We did not measure any eligible financial assets and liabilities at fair value under the provisions of SFAS No. 159.

~2~

Table of Contents

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations (“SFAS No. 141R”).

SFAS No. 141R will change the accounting for business combinations. Under FAS 141R, an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. We are currently evaluating the potential impact of SFAS No. 141R on our financial position and results of operations beginning for fiscal year 2009.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51 (“SFAS No. 160”). SFAS No. 160 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. SFAS No. 160 requires retroactive adoption of the presentation and disclosure requirements for existing minority interests. All other requirements of SFAS No. 160 shall be applied prospectively. We are currently evaluating the potential impact of the adoption of SFAS No. 160 on our consolidated financial statements.

Liquidity and Capital Resources

At March 31, 2008 and December 31, 2007, our cash and cash equivalents totaled \$468,000 and \$1.2 million, respectively. Cash flows provided by (used in) operating activities, investing activities and financing activities for the three months ended March 31, are as follows (in thousands):

	2008	2007
Operating activities	\$ 2,222	\$ 928
Investing activities	\$ (3,929)	\$ (11,196)
Financing activities	\$ 954	\$ 14,127

Cash flows from operating activities and financing activities have been the principal sources of capital to fund our ongoing operations and dividends. Our cash on hand, internally-generated cash flow, borrowings under our existing credit facilities, issuance of equity securities, as well as the placement of secured debt and other equity alternatives, are expected to provide the necessary capital to maintain and operate our properties as well as execute our growth strategies.

Additionally, as part of our investment strategy, we constantly evaluate our property portfolio, systematically selling off any non-core or underperforming assets and replacing them with Irreplaceable Corners and other core assets. We anticipate that we will continue to increase our operating cash flow by selling any underperforming assets and deploying the capital generated into high-quality income-producing retail real estate assets. Since January 2004, we have executed this strategy through the acquisition of \$143 million of shopping centers, consisting primarily of four premier properties with approximately 289,000 square feet.

Cash provided by operating activities as reported in the consolidated statements of cash flows increased by approximately \$1.4 million for the three months ended March 31, 2008 period when compared to the comparable prior year period. This net increase is attributable to a \$2.7 million increase in working capital cash flow during the first quarter of 2008 which was partially offset by a \$1.4 million reduction in proceeds from sales of real estate acquired for resale. The increase in working capital cash flow was driven primarily by a \$2.7 million reduction in cash

outflows during the three months ended March 31, 2008 period compared to the comparable prior year period related to the timing of our property tax payments. Additionally, during 2007, we had net cash inflows of \$1.4 million related to the sale of one of our non-core single-tenant assets. We had no such sales during the first quarter of 2008.

Cash provided by investing activities as reported in the consolidated statements of cash flows decreased by approximately \$7.2 million for the three months ended March 31, 2008 period when compared to the comparable prior year period. This decrease is attributable to a \$9.2 million decrease in property acquisitions during the first quarter of 2008, couple with an increase in payments from affiliates of \$3.1 million during the period. These increases were partially offset by a \$5.1 million increase in investments made in affiliates during the first quarter of 2008. We made no property acquisitions during the first quarter of 2008. However, in February 2007, we acquired The Woodlands Mall Ring Road property, which represents 66,000 square feet of gross leaseable area in Houston, Texas. The property has been ground-leased to five tenants, including NationsBank, Circuit City and Landry's Seafood. With respect to loans and payments from affiliates, we have the ability as part of our treasury management function to place excess cash in short term bridge loans for our merchant development funds for the purpose of acquiring or developing properties. We typically provide such financing to our affiliates as a way of efficiently deploying our excess cash and earning a higher return than we would in other short term investments or overnight funds. In most cases, the funds have a construction lender in place, and we simply step in as the lender and provide financing on the same terms as the third party lender. In so doing, we are able to access these funds as needed by having our affiliate then draw down on their construction loans. These loans are unsecured, bear a market rate of interest and are due upon demand. With respect to investments made in affiliates, we made an investment during the first quarter of 2008 in Shadow Creek Ranch Shopping Center through a joint venture with an institutional partner. Shadow Creek Ranch Shopping Center is a 616,372 square foot grocery-anchored shopping center located in Pearland, Texas.

Cash flows provided by financing activities decreased from \$14.1 million during three months ended March 31, 2008 to \$955,000 during the comparable prior year period. This \$13.2 million decrease was primarily the result of the reduction of \$12.2 million in net proceeds from notes payable. During first quarter of 2007, we generated proceeds from the financing of our Uptown Dallas property while no such financings were done during the first quarter of 2008. This reduction in proceeds was coupled with an increase in treasury share repurchases of \$1.1 million pursuant to the share repurchase program which was approved in June 2007.

We have an unsecured credit facility in place which is being used to provide funds for the acquisition of properties and working capital. The credit facility matures in October 2009 and provides that we may borrow up to \$70 million subject to the value of unencumbered assets. Effective October 2007, we renewed our credit facility on terms which provided us with an increased borrowing base at reduced borrowing costs. All other conditions remained substantially the same as the previous facility. The credit facility contains covenants which, among other restrictions, require us to maintain a minimum net worth, a maximum leverage ratio, maximum tenant concentration ratios, specified interest coverage and fixed charge coverage ratios and allow the lender to approve all distributions. For the quarter ended March 31, 2008, we violated two covenants per the terms of the credit facility. Our lender has waived both events of non-compliance as of March 31, 2008. We were in compliance with all other covenants as of March 31, 2008. The credit facility's annual interest rate varies depending upon our debt to asset ratio, from LIBOR plus a spread of 1.0% to LIBOR plus a spread of 1.85%. As of March 31, 2008, the interest rate was LIBOR plus 1.00%. As of March 31, 2008, there was \$36.1 million outstanding on the credit facility. As of March 31, 2008, we have approximately \$31.9 million available under our line of credit, subject to the covenant provisions discussed above. In addition to the credit facility, we utilize various permanent mortgage financing and other debt instruments.

During the three months ended March 31, 2008, we declared dividends to our shareholders of \$3.3 million, compared with \$3.5 million in the three months ended March 31, 2007. The class A, C and D shareholders receive monthly dividends and the class B shareholders receive quarterly dividends. All dividends are declared on a quarterly basis. The dividends by class are as follows (in thousands):

Edgar Filing: AMREIT - Form 10-Q

	Class A	Class B	Class C	Class D
2008 First Quarter	\$ 773	\$ -	\$ 723	\$ 1,775
2007 Fourth Quarter	\$ 785	\$ 1,097*	\$ 721	\$ 1,783
Third Quarter	\$ 793	\$ 191	\$ 720	\$ 1,783
Second Quarter	\$ 796	\$ 192	\$ 726	\$ 1,791
First Quarter	\$ 785	\$ 194	\$ 725	\$ 1,786

*- Includes a \$933,000 redemption premium associated with the redemption of the remaining class B shares in December 2007.

Until we acquire properties, we use our funds to pay down outstanding debt under the credit facility. Thereafter, any excess cash is provided first to our affiliates in the form of short-term bridge financing for development or acquisition of properties and then is invested in short-term investments or overnight funds. This investment strategy allows us to manage our interest costs and provides us with the liquidity to acquire properties at such time as those suitable for acquisition are located.

~3~

Table of Contents

Inflation has had very little effect on our income from operations. We expect that increases in store sales revenues due to inflation, as well as increases in the Consumer Price Index, may contribute to capital appreciation of our properties. These factors, however, also may have an adverse impact on the operating margins of the tenants of the properties.

In June 2007, our Board of Trust Managers authorized a common share repurchase program as part of our ongoing investment strategy. Under the terms of the program, we may purchase up to a maximum value of \$5 million of our class A common shares of beneficial interest. Share repurchases may be made in the open market or in privately negotiated transactions at the discretion of management and as market conditions warrant. We anticipate funding the repurchase of shares primarily through the proceeds received from general corporate funds as well as through the use of our credit facility.

Repurchases of our common shares of beneficial interest for the quarter ended March 31, 2008 are as follows:

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased As Part of Publicly Announced Program	(d) Maximum Dollar Value of Shares that May Yet be Purchased Under the Program
January 1, 2008 to March 31, 2008	156,490	\$6.99	156,490	\$2,618,707

Results of Operations

Comparison of the three months ended March 31, 2008 to the three months ended March 31, 2007

Revenues

Total revenues increased by \$802,000, or 7%, for the three months ended March 31, 2008 as compared to the comparable prior year period (\$11.6 million in 2008 versus \$10.8 million in 2007). This increase was primarily attributable to an increase in rental income, construction revenues and real estate fees, offset by a decrease in securities commission income.

Rental income increased by \$619,000, or 9%, for the three months ended March 31, 2008 compared to the comparable prior year period. The increase was primarily due to an increase in occupancy and an increase in tenant reimbursements of taxes, maintenance expenses and insurance.

Construction revenues, which were generated by AmREIT Construction Company ("ACC"), were \$1.3 million for the three months ended March 31, 2008, compared to \$973,000 for the comparable prior year period. Such revenues have been recognized under the percentage-of-completion method of accounting. This increase in revenues is primarily attributable to an increase in third party work.

Edgar Filing: AMREIT - Form 10-Q

Real estate fee income increased approximately \$195,000, or 14%, for the three months ended March 31, 2008 as compared to the prior year period primarily as a result of an increase in acquisition fees earned on property transactions within our merchant development funds.

Securities commission revenue decreased by \$468,000, or 47%, in for the three months ended March 31, 2008 as compared to the prior year period. This decrease in commission revenue was driven by a decrease in capital-raising activities of our advisory/sponsorship business. During the first quarter of 2008, we raised \$4.8 million in capital for one of our merchant development funds, AmREIT Monthly Income and Growth Fund IV, L.P. ("MIG IV") as compared to \$9.2 million in capital that we raised for MIG IV during the first quarter of 2007. This decrease in commission income was partially offset by a corresponding decrease in commission expense paid to other third party broker-dealer firms. As we raise capital for our affiliated merchant development partnerships, we earn a securities commission of approximately 11% of the money raised. These commission revenues are then offset by commission payments to non-affiliated broker-dealers of between 8% and 9%.

Expenses

Total operating expenses increased by \$210,000, or 3%, in for the three months ended March 31, 2008 as compared to the prior year period. This decrease was primarily attributable to decreases in real estate commissions and securities commissions, which were offset by an increase in construction costs and general and administrative expenses.

Real estate commission expense decreased from \$421,000 in 2007 to \$37,000 in 2008, primarily as a result of decreased brokerage activity.

Securities commission expense decreased by \$344,000, or 42%, in for the three months ended March 31, 2008 as compared to the prior year period. This decrease is attributable to decreased capital-raising activity through ASC during 2008 as discussed in "Revenues" above.

ACC recognized \$1.1 million in construction costs during 2008, compared to \$861,000 in 2007. This increase in construction costs is consistent with the increase in revenues described above.

General and administrative expense increased by \$270,000, or 13%, in for the three months ended March 31, 2008 as compared to the prior year period. This increase is primarily due to increases in personnel.

Other

Interest expense increased by \$341,000, or 16%, in for the three months ended March 31, 2008 as compared to the prior year period. The increase in interest expense is primarily attributable to draw-downs on our credit facility after the first quarter of 2007 related to the tender of the class B common shares and our investment in Borders and Woodlake Square.

Loss from merchant development funds and other affiliates increased by \$131,000, in for the three months ended March 31, 2008 as compared to the prior year period. The increase is mainly due to \$96,000 of losses that we recognized related to our 30% limited partner interest in AmREIT Woodlake, LP.

Income from discontinued operations decreased by \$88,000, or 55%, to \$72,000 in 2008. The decrease is primarily attributed to an increase in expenses.

Off-Balance Sheet Arrangements

As of March 31, 2008, we had no off-balance sheet arrangements.

Contractual Obligations

Our material contractual obligations are summarized and included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007. During the quarter ended March 31, 2008, there have been no material changes outside of the ordinary course of business in the contractual obligations specified in our 2007 Annual Report on Form 10-K.

Funds From Operations

We consider funds from operations (“FFO”), a non-GAAP measure, to be an appropriate measure of the operating performance of an equity REIT. The National Association of Real Estate Investment Trusts (“NAREIT”) defines FFO as net income (loss) computed in accordance with GAAP, excluding gains or losses from sales of property, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. In addition, NAREIT recommends that extraordinary items not be considered in arriving at FFO. We calculate our FFO in accordance with this definition. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company’s real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income by itself as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, management believes that the presentation of operating results for real estate companies that uses historical cost accounting is insufficient by itself. There can be no assurance that FFO presented by us is comparable to similarly titled measures of other REITs. FFO should not be considered as an alternative to net income or other measurements under GAAP as an indicator of our operating performance or to cash flows from operating, investing or financing activities as a measure of liquidity.

Table of Contents

Below is the calculation of FFO and the reconciliation to net income, which we believe is the most comparable GAAP financial measure to FFO, in thousands:

	Three Months Ended March 31,	
	2008	2007
Income - before discontinued operations	\$ 925	\$ 843
Income - from discontinued operations	72	160
Plus depreciation of real estate assets - from operations	1,931	1,941
Plus depreciation of real estate assets - from discontinued operations	-	3
Adjustments for nonconsolidated affiliates	294	17
Less class B, C & D distributions	(2,498)	(2,705)
Total Funds From Operations available to class A shareholders	\$ 724	\$ 259

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to interest-rate changes primarily related to the variable interest rate on our credit facility and related to the refinancing of long-term debt which currently contains fixed interest rates. Our interest rate risk management objective is to limit the impact of interest rate changes on earnings and cash flows and to lower our overall borrowing costs. To achieve this objective, we borrow primarily at fixed interest rates. We currently do not use interest-rate swaps or any other derivative financial instruments as part of our interest-rate risk management approach.

As of March 31, 2008, the carrying value of our debt obligations associated with assets held for investment was \$173.9 million, \$137.9 million of which represented fixed rate obligations with an estimated fair value of \$145 million. As of March 31, 2008, the carrying value of our debt obligations associated with assets held for sale was \$12.7 million, all of which represented fixed rate obligations with an estimated fair value of \$13.8 million. The remaining \$36.1 million of our debt obligations have a variable interest rate. Such debt has market-based terms, and its carrying value is therefore representative of its fair value as of March 31, 2008. In the event interest rates were to increase 100 basis points, annual net income, FFO and future cash flows would decrease by \$361,000 based on the variable-rate debt outstanding at March 31, 2008.

As of December 31, 2007, the carrying value of our debt obligations associated with assets held for investment was \$168.6 million, \$138.1 million of which represented fixed rate obligations with an estimated fair value of \$139.1 million

The discussion above considers only those exposures that exist as of March 31, 2008. It therefore does not consider any exposures or positions that could arise after that date. As a result, the ultimate impact to us of interest-rate fluctuations will depend upon the exposures that arise during the period, any hedging strategies in place at that time and actual interest rates.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, management has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) of the Securities Exchange Act of 1934) as of March 31, 2008. Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of March 31, 2008.

Changes in Internal Controls

There has been no change to our internal control over financial reporting during the quarter ended March 31, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II – OTHER INFORMATION

Item 1. Legal Proceedings.

We are not a party to any material pending legal proceedings.

Item 1A. Risk Factors.

See our filing on Form 10-K for the year ended December 31, 2007, as filed with the SEC, for a full discussion of risk factors associated with ownership of our common shares. During the quarter ended March 31, 2008, we had no material changes in these risk factors.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In June 2007, our Board of Trust Managers authorized our common share repurchase program as part of our ongoing investment strategy. Under the terms of the program, we may purchase up to a maximum value of \$5 million of our class A common shares of beneficial interest. Share repurchases may be made in the open market or in privately negotiated transactions at the discretion of management and as market conditions warrant.

During the quarter ended March 31, 2008, we repurchased common shares of beneficial interest as follows:

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased As Part of Publicly Announced Program	(d) Maximum Dollar Value of Shares that May Yet be Purchased Under the Program (1)

Edgar Filing: AMREIT - Form 10-Q

January 1, 2008 to January 31, 2008	35,000	\$7.11	35,000	\$3,454,299
February 1, 2008 to February 29, 2008	109,290	\$6.96	109,290	\$2,703,392
March 1, 2008 to March 31, 2008	12,200	\$6.94	12,200	\$2,618,707

(1) A description of the maximum number of shares that may be purchased under our share repurchase program is included in the narrative preceding this table.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

Item 5. Other Information.

None.

Item 6. Exhibits.

The exhibits listed on the Exhibit Index (following the signatures section of this report) are included, or incorporated by reference, in this report.
