

AIR T INC
Form 10-Q
November 14, 2017
UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

(Mark one)

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the quarterly period ended September 30, 2017

Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 for the transition period from _____ to _____

Commission File Number 001-35476

Air T, Inc.

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of incorporation or organization)

52-1206400

(I.R.S. Employer Identification No.)

5930 Balsom Ridge Road, Denver, North Carolina 28037

(Address of principal executive offices, including zip code)

(828) 464 – 8741

(Registrant's telephone number, including area code)

Edgar Filing: AIR T INC - Form 10-Q

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. (See the definitions of “large accelerated filer”, “accelerated filer”, “smaller reporting company”, and “emerging growth company” in Rule 12b-2 of the Exchange Act)

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if smaller reporting company)

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Edgar Filing: AIR T INC - Form 10-Q

AIR T, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Financial Statement Presentation

The condensed consolidated financial statements of Air T, Inc. (“AirT”, the “Company”, “we”, “us” or “our”) have been prepared, without audit (except as it relates to the condensed consolidated balance sheet as of March 31, 2017 which have been derived from audited financial statements), pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the following disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments (consisting only of normal recurring adjustments) considered necessary for a fair presentation of the results for the periods presented have been made.

It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended March 31, 2017. The results of operations for the periods ended September 30 are not necessarily indicative of the operating results for the full year.

Certain reclassifications have been made to the prior period amounts to conform to the current presentation.

New Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU 2014-09 is a comprehensive new revenue recognition model that requires a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. ASU 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2017 (our fiscal year 2019), including interim reporting periods within that reporting year, with earlier adoption permitted for reporting periods beginning after December 15, 2016. ASU 2014-09 may be applied using either a full retrospective approach, under which all years included in the financial statements will be

presented under the revised guidance, or a modified retrospective approach, under which financial statements will be prepared under the revised guidance for the year of adoption, but not for prior years. Under the latter method, entities would recognize a cumulative catch-up adjustment to the opening balance of retained earnings at the effective date for contracts that still require performance by the entity, and disclose all line items in the year of adoption as if they were prepared under the old revenue guidance.

The Company is currently evaluating the methods of adoption allowed by the new standard and the effect the standard is expected to have on the Company's consolidated financial position, results of operations or cash flows and related disclosures. Because our evaluation is not complete, we have not yet quantified and, accordingly, are not able to make a reasonable estimate of the impact of the new revenue standard on our consolidated financial statements at this time. We anticipate completing our evaluation during the third or fourth quarter of fiscal year 2018.

In July 2015, the FASB issued ASU 2015-11, *Simplifying the Measurement of Inventory (Topic 330)*. This standard amends existing guidance to simplify the measurement of inventory by requiring certain inventory to be measured at the lower of cost or net realizable value. The amendment in ASU 2015-11 is for fiscal years beginning after December 15, 2016, and interim periods within fiscal years beginning after December 15, 2017. The amendment should be applied prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. The Company does not expect the impact of adopting ASU 2015-11 to be material to the Company's consolidated financial statements and related disclosures.

In November 2015, the FASB issued ASU 2015-17, *Balance Sheet Classification of Deferred Taxes (Topic 740)*. This standard eliminates the current requirement to present deferred tax liabilities and assets as current and noncurrent in a classified balance sheet. Under this new guidance, entities will be required to classify all deferred tax assets and liabilities as noncurrent. This guidance is effective for interim and annual reporting periods beginning after December 15, 2016 with earlier adoption permitted. We adopted this amendment with the quarter ended June 30, 2017.

In January 2016, the FASB issued ASU 2016-01, *Recognition and Measurement of Financial Assets and Financial Liabilities*, that amends the guidance on the classification and measurement of financial instruments (Subtopic 825-10). ASU 2016-01 becomes effective in fiscal years beginning after December 15, 2017, including interim periods therein. ASU 2016-01 removes equity securities from the scope of Accounting Standards Codification (“ASC”) Topic 320 and creates ASC Topic 321, *Investments – Equity Securities*. Under the new guidance, all equity securities with readily determinable fair values are measured at fair value on the statement of financial position, with changes in fair value recorded through earnings. The update eliminates the option to record changes in the fair value of equity securities through other comprehensive income. The Company is evaluating the impact of the adoption of the standard on its consolidated financial statements. The Company currently has investments in available for sale securities and the fair value changes of such securities are, other than in the case of possible other-than-temporary impairments, currently reflected in other comprehensive income. Provided that the Company continues to hold available for sale securities after adoption of the amended guidance, earnings are likely to become more volatile.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. The new standard establishes a right-of-use (“ROU”) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition. Similarly, lessors will be required to classify leases as either sales-type, finance or operating, with classification affecting the pattern of income recognition. Classification for both lessees and lessors will be based on an assessment of whether risks and rewards as well as substantive control have been transferred through a lease contract. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years, with early adoption permitted. A modified retrospective transition approach is required for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the consolidated financial statements, with certain practical expedients available. The Company is evaluating the impact of the adoption of the standard on its consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, *Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting*, which addresses several aspects of the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. ASU 2016-09 is effective for annual reporting periods beginning after December 15, 2016 and earlier adoption is permitted. The new standard requires that an entity recognize all excess tax benefits and tax deficiencies as income tax expense or benefit in the income statement as discrete items in the reporting period in which they occur. Under the previous standard, excess tax benefits are recognized in additional paid-in capital and tax deficiencies are recognized either as an offset to accumulated excess tax benefits, or in the income statement. This accounting guidance became effective for the Company beginning with the June 30, 2017 quarter.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. This standard significantly changes how entities will measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income, including trade receivables. The standard requires an entity to estimate its lifetime “expected credit loss” for such assets at inception, and record an allowance that, when deducted from the amortized cost basis of the financial asset, presents the net amount expected to be collected on the financial asset. Early adoption is permitted for annual periods

beginning after December 15, 2018, and interim periods therein. The Company is currently evaluating the impact of the adoption of the standard on its consolidated financial statements and disclosures.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*. ASU 2016-15 clarifies how cash receipts and cash payments in certain transactions are presented and classified in the statement of cash flows. The effective date of this update is for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted. The update requires retrospective application to all periods presented but may be applied prospectively if retrospective application is impracticable. The Company is currently evaluating the impact of the adoption of the standard on its consolidated financial statements and disclosures.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. ASU 2016-18 requires that the statement of cash flows explain the changes in the combined total of restricted and unrestricted cash balance. Amounts generally described as restricted cash or restricted cash equivalents will be combined with unrestricted cash and cash equivalents when reconciling the beginning and end of period balances on the statement of cash flows. Further, the ASU requires a reconciliation of balances from the statement of cash flows to the balance sheet in situations in which the balance sheet includes more than one line item of cash, cash equivalents, and restricted cash. Companies will also be disclosing the nature of the restrictions. ASU 2016-18 is effective for financial statements issued for fiscal years beginning after December 15, 2017. The Company is currently evaluating the impact of the standard on its consolidated financial statements and disclosures.

In January 2017, the FASB issued ASU 2017-01, *Clarifying the Definition of a Business (Topic 805)*. This ASU clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The guidance is effective for fiscal years that begin after December 15, 2017 and is to be applied prospectively. The adoption of this standard is not expected to have a material impact on the Company's consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*. This ASU simplifies how an entity is required to test goodwill for impairment by eliminating Step Two from the goodwill impairment test. Step Two measures a goodwill impairment loss by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. Under this standard, an entity will recognize an impairment charge for the amount by which the carrying value of a reporting unit exceeds its fair value. The standard is effective for any interim goodwill impairment tests in fiscal years beginning after December 15, 2019, and is to be applied prospectively. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company is currently evaluating the effects that the adoption of this ASU will have on its consolidated financial statements.

In May 2017, the FASB issued ASU 2017-09, *Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting*, which provides guidance on determining which changes to the terms and conditions of share-based payment awards require an entity to apply modification accounting. This update is effective for all entities for fiscal years beginning after December 15, 2017, and interim periods within those years. Early adoption is permitted. The Company is currently evaluating the effects that the adoption of this ASU will have on its consolidated financial statements. The Company has not yet concluded how the new standard will impact the consolidated financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company's financial position, results of operations or cash flows.

2. Acquisitions

Acquisition of Interests in Contrail Aviation

On July 18, 2016 (the "Contrail Closing Date"), pursuant to an asset purchase agreement (the "Asset Purchase Agreement") between Contrail Aviation Support, LLC ("Contrail Aviation"), a subsidiary of the Company, Contrail Aviation Support, Inc. (the "Seller" or "Contrail") and Joseph Kuhn, the sole shareholder of the Seller, Contrail Aviation completed the purchase of all of the assets owned, used or usable by the Seller, other than cash, equity in the Seller's IC-DISC subsidiary and certain other specified excluded assets. Pursuant to the Asset Purchase Agreement, Contrail Aviation also assumed certain liabilities of the Seller. Prior to this acquisition, the Seller, based in Verona, Wisconsin,

engaged in the business of acquiring surplus commercial jet engines and components and supplying surplus and aftermarket commercial jet engine components. In connection with the acquisition, Contrail Aviation offered employment to all of the Seller's employees and Mr. Kuhn was appointed Chief Executive Officer of Contrail Aviation.

The acquisition consideration consisted of (i) \$4,033,367 in cash, (ii) equity membership units in Contrail Aviation representing 21% of the total equity membership units in Contrail Aviation, and (iii) and contingent additional deferred consideration payments which are more fully described below. In addition to the net assets of the seller, beginning equity of Contrail included cash of approximately \$904,000.

Pursuant to the Asset Purchase Agreement, Contrail Aviation agreed to pay as contingent additional deferred consideration up to a maximum of \$1,500,000 per year and \$3,000,000 in the aggregate (collectively, the "Earnout Payments" and each, an "Earnout Payment"), calculated as follows:

(i) if Contrail Aviation generates EBITDA (as defined in the Asset Purchase Agreement) in any Earnout Period (as defined below) less than \$1,500,000, no Earnout Payment will be payable with respect to such Earnout Period;

(ii) if Contrail Aviation generates EBITDA in any Earnout Period equal to or in excess of \$1,500,000, but less than \$2,000,000, the Earnout Payment for each such Earnout Period will be an amount equal to the product of (x) the EBITDA generated with respect to such Earnout Period minus \$1,500,000, and (y) two (2);

(iii) if Contrail Aviation generates EBITDA in any Earnout Period equal to or in excess of \$2,000,000, but less than \$4,000,000, the Earnout Payment for each such Earnout Period will be equal to \$1,000,000;

(iv) if Contrail Aviation generates EBITDA in any Earnout Period equal to or in excess of \$4,000,000, the Earnout Payment for each such Earnout Period will be equal to \$1,500,000; and

(v) if, following the fifth Earnout Period, Contrail Aviation has generated EBITDA equal to or in excess of \$15,000,000 in the aggregate during all Earnout Periods, but the Seller has received or is owed less than \$3,000,000 in aggregate Earnout Payments pursuant to clauses (i) through (iv), above, Contrail Aviation will make an additional Earnout Payment to the Seller in an amount equal to the difference between \$3,000,000 and the aggregate Earnout Payments already received or payable pursuant to clauses (i) through (iv), above.

As used in the Asset Purchase Agreement, “Earnout Period” means each of the first five twelve-full-calendar-month periods following the closing of the acquisition. The Company has estimated its liability with respect to the Earnout Payment of \$2,900,000, which amount is included in the “Other non-current liabilities” in the consolidated balance sheet at both September 30, 2017 and March 31, 2017, except for the portion denoted as payable below which has been reclassified to a current liability at September 30, 2017. As a result of the EBITDA of Contrail Aviation being approximately \$2.1 million for the first Earnout Period, the Earnout Payment with respect to that Earnout Period is \$1,000,000, which amount was paid in October 2017.

On the Contrail Closing Date, Contrail Aviation and the Seller entered into an Operating Agreement (the “Operating Agreement”) providing for the governance of and the terms of membership interests in Contrail Aviation and including put and call options (“Put/Call Option”) permitting, at any time after the fifth anniversary of the Contrail Closing Date, Contrail Aviation at its election to purchase from the Seller, and permitting the Seller at its election to require Contrail Aviation to purchase from the Seller, all of the Seller’s equity membership interests in Contrail Aviation at a price to be agreed upon, or failing such an agreement to be determined pursuant to third-party appraisals in a process specified in the Operating Agreement.

The following table summarizes the fair values of assets acquired and liabilities assumed by Contrail Aviation as of the Contrail Closing Date:

	July 18, 2016
ASSETS	
Accounts receivable	\$1,357,499
Inventories	2,118,475
Prepaid expenses	30,121
Property and equipment	33,095
Intangible assets - non-compete	69,700
Intangible assets - tradename	322,000
Intangible assets - certification	47,000
Intangible assets - customer relationship	451,000
Goodwill	4,227,205
Total assets	\$8,656,095
LIABILITIES	
Accounts payable	\$366,575
Accrued expenses	43,652
Earnout liability	2,900,000
Total liabilities	\$3,310,227
 Net Assets	 \$5,345,868

The Company's purchase accounting reflects the estimated net fair value of the Seller's assets acquired and liabilities assumed as of the Contrail Closing Date. Purchase accounting also reflects the Company's current estimate that the Earnout Payments will be due at the above-specified maximum level. The Contrail Closing Date balance sheet information disclosed above reflects the present value of such estimated Earnout Payments.

The Company has finalized its Contrail Aviation acquisition accounting.

The Put/Call Option specifies a fair value strike price as of the exercise date. As such, the Company assigned no value to the Put/Call Option for purposes of purchase accounting. Because the Put/Call Option permits the Seller to require Contrail Aviation to purchase all of the Seller's equity membership interests in Contrail Aviation, the Company has presented this redeemable non-controlling interest in Contrail Aviation between the liabilities and equity sections of the accompanying condensed consolidated balance sheets. For the six month period ended September 30, 2017, the redeemable non-controlling interest balance was increased by the Seller's proportionate share of Contrail Aviation's net earnings. The redeemable non-controlling interest balance was also increased by a portion of the estimated change in

Contrail Aviation's fair value between March 31, 2017 and September 30, 2017.

Pro forma financial information is not presented as the results are not material to the Company's condensed consolidated financial statements.

Acquisition of AirCo Assets

On May 2, 2017 and May 31, 2017, our newly formed subsidiaries, AirCo, LLC and AirCo Services, LLC (collectively, "AirCo") acquired the inventory and principal business assets, and assumed specified liabilities, of Aircraft Instrument and Radio Company, Incorporated, and Aircraft Instrument and Radio Services, Inc. (collectively, the "AirCo Sellers"). The acquired business, which is based in Wichita, Kansas, distributes and sells airplane and aviation parts and maintains a license under Part 145 of the regulations of the Federal Aviation Administration. The consideration paid for the acquired business was \$2,400,000.

The following table summarizes the provisional fair values of assets acquired and liabilities assumed by AirCo as of May 2, 2017, the date of the completion of the acquisition (the “AirCo Closing Date”):

	May 2, 2017
Assets acquired and liabilities assumed at fair value:	
Accounts receivables	\$748,936
Inventories	3,100,000
Property and equipment	26,748
Accounts payable	(313,117)
Accrued expenses	(382,687)
Net assets acquired	\$3,179,880
Net assets acquired	3,179,880
Consideration paid	2,400,000
Bargain purchase gain	\$779,880

The Company’s purchase price accounting reflects the estimated net fair value of the AirCo Sellers assets acquired and liabilities assumed as of the AirCo Closing Date. The Company’s initial accounting for this acquisition is incomplete as of the date of this report. Therefore, as permitted by applicable accounting guidance, the foregoing amounts are provisional.

The tax impact related to the bargain purchase gain was to record a deferred tax liability and record tax expense against the bargain purchase gain of approximately \$278,000. The resulting net bargain purchase gain after taxes was approximately \$502,000.

Pro forma financial information is not presented as the results are not material to the Company’s condensed consolidated financial statements.

Other Acquisitions and Business Investments

On October 3, 2016, a newly formed subsidiary of the Company, Stratus Aero Partners LLC, acquired 100% of the outstanding equity interests of Jet Yard, LLC (“Jet Yard”) from the holder thereof. The cash purchase price was \$15,000 and there are no contractual provisions, such as an earn-out, which could result in an increase to this price. Jet Yard is registered to operate a repair station under Part 145 of the regulations of the Federal Aviation Administration and its principal asset on the acquisition date was a contract with Pinal County, Arizona to lease approximately 48.5 acres of

land at the Pinal Air Park in Marana, Arizona. Jet Yard was organized in 2014, entered into the lease in June 2016 and had maintained de minimus operations from formation through the acquisition date. The lease expires in May 2046 with an option to renew for an additional 30-year period (though the lease to a 2.6-acre parcel of the leased premises may be terminated by Pinal County upon 90 days' notice). The lease provides for an initial annual rent of \$27,000, which rental rate escalates based on a schedule in annual increments during the first seven years of the lease (at which time the annual rental rate would be \$152,000), and increases by an additional five percent for each three-year period thereafter. Because the rental expense will be accounted for on a straight-line basis over the term of the lease, the rental expense in the initial years will exceed the corresponding cash payments. The lease agreement permits Pinal County to terminate the lease if Jet Yard fails to make substantial progress toward the construction of facilities on the leased premises in phases in accordance with a specified timetable, which includes, as the initial phase, the construction of a demolition pad to be completed by March 2017 and, as the final and most significant phase, the construction of an aircraft maintenance hangar large enough to house a Boeing B777-300 by the first quarter of 2021. The construction of the demolition pad required by March 31, 2017 under the lease has not been completed and Jet Yard and Pinal County are in discussions with respect to improvements on the leased premises.

The acquired Jet Yard business is included in the Company's commercial jet engine segment. The Company has finalized its Jet Yard acquisition accounting.

Pursuant to an Asset Purchase Agreement signed on October 31, 2016, GAS acquired, effective as of October 1, 2016, substantially all of the assets of D&D which was in the business of marketing, selling and providing aviation repair, equipment, parts, and maintenance sales services and products at the Fort Lauderdale airport. The total amount paid at closing in connection with this acquisition was \$400,000. Additionally, \$100,000 was due within 30 days after closing and an additional \$100,000 is payable in equal monthly installments of \$16,667 commencing on November 1, 2016. Earn-out payments of \$100,000 are also payable based on specified performance for the twelve-month period ending September 30, 2017. For purposes of purchase accounting, the Company estimated that the above-mentioned earn-out will be paid in full. Therefore, the Company estimated the total purchase consideration at approximately \$700,000. The Company allocated the purchase consideration to identifiable tangible and intangible assets. No liabilities were assumed in the acquisition. The estimated fair value of identifiable tangible and intangibles assets was approximately \$200,000 and \$300,000, respectively. The \$200,000 excess of the purchase consideration over the estimated fair value of identifiable assets was recorded as goodwill. The basis of the acquired assets will be "stepped up" for income tax purposes. As such, no deferred taxes were recognized in purchase accounting.

The acquired D&D business is operated by GAS and included in the Company's ground support services segment. The Company has finalized its D&D acquisition accounting. Based on actual revenue earned by D&D through September 30, 2017, the earnout payment with respect to the purchase agreement was \$100,000, which amount was paid in October 2017.

On June 7, 2017, the Company's Space Age Insurance Company subsidiary ("SAIC") invested \$500,000 for a 40% interest in TFS Partners LLC ("TFS Partners"), a single-purpose investment entity organized by SAIC and other investors for the purpose of making an investment in a limited liability company, The Fence Store LLC ("Fence Store LLC"), organized for the purpose of acquiring substantially all of the assets of The Fence Store, Inc. ("Fence Store Inc."). TFS Partners acquired a 60% interest in Fence Store LLC, which has completed the purchase of substantially all of the assets of Fence Store Inc. Prior to this transaction, Fence Store Inc. operated a business under the tradename "Town and Country Fence" selling and installing residential and commercial fencing in the greater Twin Cities, Minnesota area. Fence Store LLC intends to continue this business. The Company accounts for its investment in TFS Partners using the equity method of accounting.

Pro forma financial information is not presented for the above acquisitions as the results are not material to the Company's consolidated financial statements.

3. Income Taxes

Income taxes have been provided using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax laws and rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

During the six-month period ended September 30, 2017, the Company recorded \$655,000 in income tax expense at an effective rate of 27.7%. The Company records income taxes using an estimated annual effective tax rate for interim reporting. The individually largest factor contributing to the difference between the federal statutory rate of 34% and the Company's effective tax rate for the six-month period ended September 30, 2017 was the change in valuation allowance against Delphax's pretax activity in the period. Additionally, the estimated annual effective tax rate differs from the U. S. federal statutory rate due to the benefit for the Section 831(b) income exclusion for SAIC, the benefit for the federal domestic production activities deduction, the increase in the valuation allowance related to the Insignia unrealized impairment loss, and state income tax expense. During the six-month period ended September 30, 2016, the Company recorded \$3,000 in income tax expense which resulted in an effective tax rate of -0.1%. The individually largest factor contributing to the difference between the federal statutory rate and the Company's effective tax rate for the period ending September 2016 was the recognition of a valuation allowance against Delphax's pretax loss in the period. The income tax provision for the six-month period ended September 30, 2016 differs from the federal statutory

rate due also in part to the effect of state income taxes and the federal domestic production activities deduction. Additionally, the rate for the period ended September 30, 2016 includes the estimated benefit for the exclusion of income for the Company's captive insurance company subsidiary afforded under Section 831(b).

As described in Note 9, effective on November 24, 2015, Air T, Inc. purchased equity and debt interests in Delphax Technologies, Inc. ("Delphax") and its subsidiary Delphax Technologies Canada Limited ("Delphax Canada"). With an equity investment level by the Company of approximately 38%, Delphax is required to continue filing a separate United States corporate tax return. Furthermore, Delphax has three foreign subsidiaries located in Canada, France, and the United Kingdom which file tax returns in those jurisdictions. With few exceptions, Delphax is no longer subject to examinations by income tax authorities for tax years before 2012.

Delphax maintains a September 30 fiscal year. As of September 30, 2016, Delphax and its subsidiaries had estimated foreign and domestic tax loss carryforwards of \$6.3 million and \$13.2 million, respectively. As of that date, they had estimated foreign research and development credit carryforwards of \$4.3 million, which are available to offset future income tax. The credits and net operating losses expire in varying amounts beginning in the year 2023. Domestic alternative minimum tax credits of approximately \$311,000 are available to offset future income tax with no expiration date. Should there be an ownership change for purposes of Section 382 or any equivalent foreign tax rules, the utilization of the previously mentioned carryforwards may be significantly limited. As a result of the bankruptcy proceedings involving Delphax Canada (see Note 9), any remaining tax attributes not utilized during the fiscal year ended September 30, 2017, including net operating losses and credit carryforwards in Canada will be lost. The tax attributes in Canada that will be lost to the extent not utilized include, but are not limited to, \$4.0M of net operating losses and \$4.3 million of foreign credits. The Company has recorded an outside basis difference in stock of these entities of \$2.9 million which is the estimated loss that will be recognized in the United States upon their liquidation. See additional information regarding Delphax Canada in Note 9.

The provisions of ASC 740 require an assessment of both positive and negative evidence when determining whether it is more-likely-than-not that deferred tax assets will be recovered. In accounting for the Delphax acquisition on November 24, 2015, the Company established a full valuation allowance against Delphax's net deferred tax assets of approximately \$11,661,000. The corresponding valuation allowance at September 30, 2017 and September 30, 2016 was approximately \$13,791,000 and \$12,770,000 respectively. The cumulative losses incurred by Delphax in recent years was the primary basis for the Company's determination that a full valuation allowance should be established.

As described in Note 2, effective on July 18, 2016, Air T, Inc. through its subsidiary, Contrail Aviation, acquired substantially all of the assets of the Seller for payment to the Seller of cash and equity membership units representing 21% of the total equity of Contrail Aviation. The acquisition was treated as an asset acquisition for tax purposes, with Air T, Inc. receiving a step up on the 79% interest deemed to be acquired. Contrail Aviation, a limited liability company, is taxed as a partnership with Air T, Inc. and the Seller recognizing on a pass-through basis the taxable income or loss of Contrail Aviation in proportion to their relative equity interests. Air T, Inc. will recognize deferred taxes as applicable on the outside basis difference of the investment.

As described in Note 2, on May 2, 2017 and May 31, 2017, AirCo acquired the inventory and principal business assets, and assumed specified liabilities, of the AirCo Sellers. The acquired business, which is based in Wichita, Kansas, distributes and sells airplane and aviation parts and maintains a license under Part 145 of the regulations of the Federal Aviation Administration. The consideration paid for the acquired business was \$2,400,000. A bargain purchase gain was recognized on the acquisition of approximately \$780,000. The tax impact related to the bargain purchase gain was to record a deferred tax liability of approximately \$278,000 and record tax expense against the bargain purchase gain line of approximately \$278,000. The resulting net bargain purchase gain after taxes was approximately \$502,000.

4. Net Earnings Per Share

Basic earnings per share has been calculated by dividing net income (loss) attributable to Air T, Inc. stockholders by the weighted average number of common shares outstanding during each period. For purposes of calculating diluted earnings per share, shares issuable under stock options were considered potential common shares and were included in the weighted average common shares unless they were anti-dilutive. Because there was a net loss attributable to Air T stockholders for the three-months ended September 30, 2017 and the six-months ended September 30, 2016, the effect of options was excluded for computing earnings per share because the effect was anti-dilutive.

The computation of basic and diluted earnings per common share is as follows:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2017	2016	2017	2016
Net income (loss) attributable to Air T, Inc. Stockholders	\$421,701	\$1,084,102	\$1,390,090	\$(4,667,369)
Income (Loss) Per Share:				
Basic	\$0.21	\$0.53	\$0.68	\$(2.11)
Diluted	\$0.21	\$0.53	\$0.68	\$(2.11)
Weighted Average Shares Outstanding:				
Basic	2,042,789	2,042,789	2,042,789	2,207,658
Diluted	2,046,945	2,047,976	2,047,305	2,207,658

5. Marketable Securities

Investments in available-for-sale marketable securities at September 30, 2017 consisted of investments in publicly traded companies and had a fair market value of \$4,177,000, an aggregate cost basis of \$4,294,000, gross unrealized gains aggregating \$170,000 and gross unrealized losses aggregating \$287,000. Marketable securities at March 31, 2017 consisted of investments with a fair value of \$4,594,000, an aggregate cost basis of \$4,331,000, gross unrealized gains aggregating \$279,000 and gross unrealized losses aggregating \$16,000. Securities that had been in a continuous loss position for less than 12 months as of September 30, 2017 had an aggregate fair market value and unrealized loss of \$1,518,000 and \$286,000, respectively.

At September 30, 2017, we held approximately 1.82 million shares of common stock of Insignia Systems, Inc. (NASDAQ: ISIG) (“Insignia”), representing approximately 15% of Insignia’s outstanding shares, which shares were acquired commencing in our fiscal year ended March 31, 2015. Any investment with a fair value of less than its cost basis is assessed for possible “other-than-temporary” impairment regularly and at each reporting date. Other-than-temporary impairments of available-for-sale marketable equity securities are recognized in the consolidated statement of income (loss). On the basis of its June 30, 2016, March 31, 2017 and June 30, 2017 assessments, the Company concluded that it had suffered an other-than-temporary impairment in its investment in the common stock of Insignia. Consistent with the applicable accounting guidance, the Company’s cost basis in the Insignia investment was lowered from \$5,106,000 to \$3,604,000 at June 30, 2016 and then to \$2,463,000 at March 31, 2017 and to \$1,724,000 at June 30, 2017 after the acquisition during the quarter of shares having a cost basis of \$32,000, reflecting, in the aggregate, an other-than-temporary impairment of \$3,414,000. On January 6, 2017, Insignia paid a special dividend of \$0.70 per share to stockholders owning Insignia shares on that date. The receipt of such special dividend is included in the other investment income (loss) in the Company’s consolidated statements of income (loss) for the fiscal year ended March 31, 2017. During the fourth quarter of the 2017 fiscal year, we recognized an additional investment loss of approximately \$112,000 principally due to an other-than-temporary decline in fair value of other investment securities that had been in a continuous loss position for more than 12 months.

All securities are priced using publicly quoted market prices and are considered Level 1 fair value measurements.

6. Inventories

Inventories consisted of the following:

	September 30, 2017	March 31, 2017
Ground support service parts	\$2,661,735	\$2,447,395
Ground equipment manufacturing:

Total, net of reserves	\$18,131,734	\$19,778,843

7. Stock Based Compensation

Air T, Inc. maintains a stock option plan for the benefit of certain eligible employees and directors, though no awards may be granted under the plan after July 29, 2015. In addition, Delphax maintains a number of stock option plans. Compensation expense is recognized over the requisite service period for stock options which are expected to vest based on their grant-date fair values. The Company uses the Black-Scholes option pricing model to value stock options granted under the Air T, Inc. plan and the Delphax plans. The key assumptions for this valuation method include the expected term of the option, stock price volatility, risk-free interest rate and dividend yield. Many of these assumptions are judgmental and highly sensitive in the determination of compensation expense.

No options were exercised under Air T, Inc.'s stock option plan during the three-month and six-month periods ended September 30, 2017 and 2016. Stock-based compensation expense with respect to this plan in the amount of \$0 was recognized for the three-month periods ended September 30, 2017 and 2016, respectively. At September 30, 2017, there was no unrecognized compensation expense related to the Air T Inc. stock options.

No options were granted or exercised during the September 2017 quarter under any of Delphax's stock option plans. Delphax did not recognize any stock-based compensation expense during the September 2017 quarter.

8. Financing Arrangements

As of September 30, 2017, the Company had a senior secured revolving credit facility of \$25.0 million (the "Revolving Credit Facility"). The Revolving Credit Facility includes a sublimit for issuances of letters of credit of up to \$500,000. Under the Revolving Credit Facility, Air T and its subsidiaries, Mountain Air Cargo, Inc., Global Ground Support, LLC, CSA Air, Inc., Global Aviation Services, LLC, Air T Global Leasing, LLC, Stratus Aero Partners, LLC, Jet Yard, LLC, AirCo, LLC and AirCo Services, LLC are permitted to make borrowings. Borrowings under the Revolving Credit Facility bear interest (payable monthly) at an annual rate of one-month LIBOR plus an incremental amount ranging from 1.50% to 2.00% based on a consolidated leverage ratio. In addition, a commitment fee accrues with respect to the unused amount of the Revolving Credit Facility at an annual rate of 0.15%. The Company includes commitment fee expense within the interest expense and other line item of the accompanying condensed consolidated statements of income (loss). Amounts applied to repay borrowings under the Revolving Credit Facility may be reborrowed, subject to the terms of the facility. The Revolving Credit Facility matures on April 1, 2019.

On May 2, 2017, the Company and the above-listed subsidiaries entered into an amendment to the agreement governing the Company's \$25.0 million Revolving Credit Facility to establish a separate \$2.4 million term loan facility under that agreement (the "Term Loan"). Each of the Company and such subsidiaries are obligors with respect to the Term Loan, which matures on May 1, 2018, with equal \$200,000 installments of principal due monthly, commencing June 1, 2017. The outstanding balance is \$1.6 million as of September 30, 2017. Interest on the Term Loan is payable monthly at a per annum rate equal to 25 basis points above the interest rate applicable to the Revolving Credit Facility. The proceeds of the Term Loan were used to fund the acquisition of the AirCo business. The Term Loan is secured by the existing collateral securing borrowings under the Revolving Credit Facility, including such acquired assets. The amendment also provided that the consolidated asset coverage ratio covenant will not be measured for the fiscal quarter ended June 30, 2017 and the fiscal quarters ending September 30, 2017 and December 31, 2017.

Pursuant to a Fifth Amendment and Waiver Agreement effective as of June 28, 2017 among the Company and the above-listed subsidiaries and the lender under the Revolving Credit Facility, the agreement governing the Revolving Credit Facility was amended to provide that the interest rates on the revolving loans and Term Loan made under the Revolving Credit Facility were each increased by an additional 0.25% per annum from the date of the amendment until the second business day after delivery of a compliance certificate for the quarter ending March 31, 2017 or any subsequent fiscal quarter end showing compliance with the financial covenants required under the Revolving Credit Facility, other than with respect to covenants as to which compliance had been waived. The compliance certificate for the quarter ended June 30, 2017, was so delivered on October 26, 2017 and accordingly, the additional 0.25% per annum additional interest ceased to accrue commencing on October 26, 2017.

On August 3, 2017, the Company and the above listed subsidiaries entered into an amendment (the “2017 Amendment”) with the lender under the Revolving Credit Facility to amend the Credit Agreement (as amended, the “Credit Agreement”) governing the Revolving Credit Facility. The 2017 Amendment modified the Credit Agreement to not require that 2587493 Ontario, Inc., a wholly-owned subsidiary of the Company, be joined as borrower under the Credit Agreement, to permit the limited guaranty of certain lease obligations of 2587493 Ontario, Inc., to revise certain covenants to address the treatment of 2587493 Ontario, Inc., to waive the existing default arising from the Company’s failure to deliver audited financial statements within one hundred twenty days after its March 31, 2017 fiscal year end, and to effect conforming and other changes.

On August 29, 2017, the Company and the above-listed subsidiaries entered into a Sixth Amendment and Waiver Agreement effective as of August 29, 2017 with the lender under the Revolving Credit Facility to amend the Credit Agreement to extend the maturity of the Revolving Credit Facility from April 1, 2018 to April 1, 2019, to adjust the definition of “Consolidated EBITDA” to exclude from the calculation of Consolidated EBITDA, during the period from January 1, 2016 through June 30, 2017, any unrealized gains or losses attributable to the ownership of equity interests in Insignia Systems, Inc., and to waive the default arising under the Credit Agreement from the failure of the Company to deliver (i) consolidated financial statements for the fiscal quarter that ended June 30, 2017 within the time period required under the Credit Agreement and (ii) the covenant compliance certificates for the fiscal quarters that ended March 31, 2017 and June 30, 2017 within the time periods required under the Credit Agreement.

Pursuant to a Seventh Amendment and Waiver Agreement effective as of October 6, 2017 (the “Seventh Amendment”) among Air T, the above-listed subsidiaries and the lender under the Revolving Credit Facility, the lender waived the requirement that a newly formed limited purpose subsidiary of the Company join the agreement governing the Revolving Credit Facility as a borrower and, in connection with the restatement of the Company’s consolidated financial statements for certain periods within the fiscal year ended March 31, 2017, the lender also waived compliance with the minimum tangible net worth covenant under the Revolving Credit Facility at the December 31, 2016 and March 31, 2017 measurement dates.

Borrowings under the Revolving Credit Facility, together with hedging obligations, if any, owing to the lender under the Revolving Credit Facility or any affiliate of such lender, are secured by a first-priority security interest in substantially all assets of the Company and the other borrowers (including, without limitation, accounts receivable,

equipment, inventory and other goods, intellectual property, contract rights and other general intangibles, cash, deposit accounts, equity interests in subsidiaries and joint ventures, investment property, documents and instruments, and proceeds of the foregoing), but excluding interests in real property.

The agreement governing the Revolving Credit Facility contains affirmative and negative covenants, including covenants that restrict the ability of the Company and the other borrowers to, among other things, incur or guarantee indebtedness, incur liens, dispose of assets, engage in mergers and consolidations, make acquisitions or other investments, make changes in the nature of their business, enter into certain operating leases, and make certain capital expenditures. The credit agreement governing the Revolving Credit Facility also contains financial covenants, including a minimum consolidated tangible net worth of \$18.0 million plus, on a cumulative basis and commencing with the fiscal year ended March 31, 2017, 50% of consolidated net income for the fiscal year then ended, a minimum consolidated fixed charge coverage ratio of 1.35 to 1.0, a minimum consolidated asset coverage ratio of 1.50 to 1.0 for the quarter ended March 31, 2017 and 1.75 to 1.0 thereafter (though the consolidated asset coverage ratio is not to be tested under the agreement governing the Revolving Credit Facility for the quarters ended June 30, 2017 and September 30, 2017 and the quarter ending December 31, 2017), a maximum consolidated leverage ratio of 3.5 to 1.0, and a covenant limiting the aggregate amount of assets the Company and its subsidiaries lease, or hold for leasing, to others to no more than \$5,000,000 at any time. The Company was not in compliance with the maximum consolidated leverage ratio covenant as of the March 31, 2017, December 31, 2016 and September 30, 2016 measurement dates and was not in compliance with the minimum tangible net worth covenant at the December 31, 2016 and March 31, 2017 measurement dates. The lender has waived compliance with these covenants as of these measurement dates and agreed that the maximum consolidated leverage ratio covenant was not to be tested at the June 30, 2017 measurement date. Had the maximum consolidated leverage ratio covenant been tested at June 30, 2017 measurement date, the Company would have been in compliance. The Company was not in compliance with the consolidated capital expenditures and assets held for lease covenants at September 30, 2017. The lender has waived the non-compliance caused by the Company's capital expenditures and additions to assets held for lease and modified the covenant for the remainder of fiscal year 2018 to allow for a defined amount of routine capital expenditures. The agreement governing the Revolving Credit Facility contains events of default including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, misrepresentation, cross-default to other debt, bankruptcy and other insolvency events, judgments, certain ERISA events, certain changes of control of the Company, termination of, or modification to materially reduce the scope of the services required to be provided under, certain agreements with FedEx, and the occurrence of a material adverse effect upon the Company and the other borrowers as a whole. The Company is exposed to changes in interest rates on its prior line of credit and its current revolving credit facility. If the LIBOR interest rate had been increased by one percentage point, based on the weighted average balance outstanding for the year, the change in annual interest expense would have been negligible.

As of September 30, 2017, the Company had outstanding borrowings under the Revolving Credit Facility of approximately \$13.9 million compared to outstanding borrowings of approximately \$17.9 million as of March 31, 2017. These balances are classified within long-term liabilities on the accompanying condensed consolidated balance sheets.

At September 30, 2017, the annual interest rate applicable to borrowings under the Revolving Credit Facility was one-month "LIBOR" rate plus 225 basis points. The one-month LIBOR rate at September 30, 2017 was approximately 1.24%. Except as indicated above, the Company was in compliance with all covenants under this credit facility at September 30, 2017.

On May 5, 2017, Contrail Aviation Support, LLC (“Contrail”), a partially owned subsidiary of the Company, entered into a Business Loan Agreement (the “Loan Agreement”) with Old National Bank. The Loan Agreement provides for revolving credit borrowings by Contrail in an amount up to \$15,000,000 and replaces the revolving credit facility that Contrail had entered into with BMO Harris Bank N.A on July 18, 2016. Borrowings under the Loan Agreement will bear interest at an annual rate equal to one-month LIBOR plus 3.00%. At September 30, 2017, \$4,913,000 of aggregate borrowings were outstanding under the loan agreement and \$10,100,000 was available for borrowing.

The obligations of Contrail under the Loan Agreement are secured by a first-priority security interest in substantially all of the assets of Contrail and are also guaranteed by the Company, with such guaranty limited in amount to a maximum of \$1,600,000 plus interest on such amount at the rate of interest in effect under the Loan Agreement, plus costs of collection.

The Loan Agreement contains affirmative and negative covenants, including covenants that restrict Contrail’s ability to make acquisitions or investments, make certain changes to its capital structure, and engage in any business substantially different than it presently conducts. The Loan Agreement also contains financial covenants applicable to Contrail, including maintenance of a Cash Flow Coverage Ratio of 2.0 to 1.0, a Tangible Net Worth of not less than \$3,500,000, and a Debt Service Coverage Ratio of 1.1 to 1.0, as such terms are defined in the Loan Agreement.

The Loan Agreement contains Events of Default, as defined, including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, if both Contrail’s current chief executive officer and chief financial officer cease to oversee day-to-day operations of Contrail, cross-default to other debt, bankruptcy and other insolvency events, actual or asserted invalidity of loan documentation, or material adverse changes in Contrail’s financial condition. At September 30, 2017, Contrail was in compliance with these covenants.

On October 31, 2016, Air T and its subsidiaries, Mountain Air Cargo, Inc., Global Ground Support, LLC, CSA Air, Inc., Global Aviation Services, LLC, Air T Global Leasing, LLC, Jet Yard, LLC and Stratus Aero Partners, LLC, entered into a Loan Agreement dated as of October 31, 2016, (the “Construction Loan Agreement”) with the lender to borrow up to \$1,480,000 to finance the acquisition and development of the Company’s new corporate headquarters facility located in Denver, North Carolina. Under the Construction Loan Agreement, the Company was permitted to make monthly drawings to fund construction costs until October 2017. Borrowings under the Construction Loan Agreement bear interest at the same rate charged under the Revolving Credit Facility. Monthly interest payments began in November 2016. Monthly principal payments (based on a 25-year amortization schedule) are to commence in November 2017, with the final payment of the remaining principal balance due in October 2026. Borrowings under the Construction Loan Agreement are secured by a mortgage on the new headquarters facility and a collateral assignment of the Company’s rights in life insurance policies with respect to certain former executives, as well as the same collateral securing borrowings under the Revolving Credit Facility. At September 30, 2017, outstanding borrowings under the Construction Loan were \$1,474,000. The Construction Loan includes the same covenants as noted in the Revolving Credit Facility. See discussion above regarding those covenants.

On October 27, 2017 Airco 1, LLC, a wholly-owned subsidiary of Airco, LLC, closed a loan in the amount of \$3,441,000 from Minnesota Bank & Trust in order to finance, in part, the purchase of a 737-800 airframe for the purpose of disassembling the plane and selling it for parts. The plane will be disassembled by Jet Yard, LLC, an affiliate, and the parts will be sold on consignment to Airco, LLC, which will market them to third parties. Airco 1, LLC is a special purpose entity formed for the purpose of this transaction.

The loan contains affirmative and negative covenants and is secured by a security interest in all of Airco 1, LLC's assets, a collateral assignment of the purchase agreement for the plane, assignments of the disassembly contract and the consignment agreement, and bailee agreements with Jet Yard, LLC and Airco, LLC. Airco, LLC is a wholly-owned subsidiary of Stratus Aero Partners LLC.

The Company assumes various financial obligations and commitments in the normal course of its operations and financing activities. Financial obligations are considered to represent known future cash payments that the Company is required to make under existing contractual arrangements such as debt and lease agreements.

9. Variable Interest Entities

A variable interest entity ("VIE") is an entity that either (i) has insufficient equity to permit the entity to finance its activities without additional subordinated financial support, or (ii) has equity investors who lack the characteristics of a controlling financial interest. Under ASC 810 - *Consolidation*, an entity that holds a variable interest in a VIE and meets certain requirements would be considered to be the primary beneficiary of the VIE and required to consolidate the VIE in its consolidated financial statements. In order to be considered the primary beneficiary of a VIE, an entity must hold a variable interest in the VIE and have both:

the power to direct the activities that most significantly impact the economic performance of the VIE; and

the right to receive benefits from, or the obligation to absorb losses of, the VIE that could be potentially significant to the VIE.

Pursuant to a Securities Purchase Agreement dated as of October 2, 2015 (the "Securities Purchase Agreement") among the Company, Delphax Technologies, Inc. and its subsidiary, Delphax Technologies Canada Limited, on November 24, 2015 (the "Closing Date"), the Company purchased (i) at face value a \$2,500,000 principal amount Five-Year Senior Subordinated Promissory Note (the "Senior Subordinated Note") issued by Delphax Canada for a combination of cash and the surrender of outstanding principal of \$500,000 and accrued and unpaid interest thereunder, and cancellation of, a 90-Day Senior Subordinated Note purchased at face value by the Company from Delphax Canada on October 2, 2015 pursuant to the Securities Purchase Agreement and (ii) for \$1,050,000 in cash a total of 43,000 shares of Delphax's Series B Preferred Stock (the "Series B Preferred Stock") and a Stock Purchase

Warrant (the "Warrant") to acquire an additional 95,600 shares of Series B Preferred Stock at a price of \$33.4728 per share (subject to adjustment for specified dilutive events).

Principal under the Senior Subordinated Note is due on October 24, 2020 and bears interest at an annual rate of 8.5%. Interest is to be paid in kind until, in the absence of specified events, November 24, 2017. Thereafter, interest is to be paid in cash. Interest in kind is to be paid monthly, while interest payable in cash is to be paid quarterly. The Senior Subordinated Note is guaranteed by Delphax and is secured by security interests granted by Delphax and Delphax Canada in their respective inventories, equipment, accounts receivable, cash, deposit accounts, contract rights and other specified property, as well as a pledge by Delphax of the outstanding capital stock of its subsidiaries, including Delphax Canada. Pursuant to the terms of a subordination agreement (the "Subordination Agreement") entered into on October 2, 2015 by Delphax, Delphax Canada, the Company and the senior lender (the "Senior Lender") that then provided a revolving credit facility under an agreement with Delphax and Delphax Canada (the "Delphax Senior Credit Agreement"), the Company's rights with respect to payment under and enforcement of the Senior Subordinated Note, and enforcement of its security interests were subordinated to the rights of the Senior Lender under the Delphax Senior Credit Agreement.

Each share of Series B Preferred Stock is convertible into 100 shares of common stock of Delphax, subject to anti-dilution adjustments, and has no liquidation preference over shares of common stock of Delphax. No dividends are required to be paid with respect to the shares of Series B Preferred Stock, except that ratable dividends (on an as-converted basis) are to be paid in the event that dividends are paid on the common stock of Delphax. Based on the number of shares of Delphax common stock outstanding and reserved for issuance under Delphax's employee stock option plans at the Closing Date, the number of shares of common stock underlying the Series B Preferred Stock purchased by the Company represent approximately 38% of the shares of Delphax common stock that would be outstanding assuming conversion of Series B Preferred Stock held by the Company.

Pursuant to the terms of the Series B Preferred Stock, for so long as amounts are owed to the Company under the Senior Subordinated Note or the Company continues to hold a specified number of the Series B Preferred Stock and interests in the Warrant sufficient to permit it to acquire up to 50% of the number of shares of Series B Preferred Stock initially purchasable under the Warrant (or holds shares of Series B Preferred Stock acquired in connection with the exercise of the Warrant equal to 50% of the number of shares of Series B Preferred Stock initially purchasable under the Warrant), then

holders of the Series B Preferred Stock, voting as a separate class, would be entitled to elect (and exercise rights of removal and replacement) with respect to three-sevenths of the board of directors of Delphax, and after June 1, 2016 the holders of the Series B Preferred Stock, voting as a separate class, would be entitled to elect (and to exercise rights of removal and replacement of) with respect to four-sevenths of the members of the board of directors of Delphax; and

without the written consent or waiver of the Company, Delphax may not enter into specified corporate transactions.

Pursuant to the provision described above, beginning on November 24, 2015, three designees of the Company were elected to the board of directors of Delphax, which had a total of seven members following their election.

The Warrant expires on November 24, 2021. In the event that Delphax were to declare a cash dividend on its common stock, the Warrant provides that the holder of the Warrant would participate in the dividend as if the Warrant had been exercised in full and the shares of Series B Preferred Stock acquired upon exercise had been fully converted into Delphax common stock. The Warrant provides that, prior to any exercise of the Warrant, the holder of the Warrant must first make a good faith written tender offer to existing holders of Delphax common stock to purchase an aggregate amount of common stock equal to the number of shares of common stock issuable upon conversion of the Series B Preferred Stock that would be purchased upon such exercise of the Warrant. The Warrant requires that the per share purchase price to be offered in such tender offer would be equal to the then-current exercise price of the Warrant divided by the then-current conversion rate of the Series B Preferred Stock. To the extent that shares of common stock are purchased by the holder in the tender offer, the amount of shares of Series B Preferred Stock purchasable under the Warrant held by such holder is to be ratably reduced. The Warrant is to provide that it may be exercised for cash, by surrender of principal and interest under the Senior Subordinated Note equal to 0.95 times the

aggregate exercise price or by surrender of a portion of the Warrant having a value equal to the aggregate exercise price based on the difference between the Warrant exercise price per share and an average market value, measured over a 20-trading day period, of Delphax common stock that would be acquired upon conversion of one share of Series B Preferred Stock.

In accordance with ASC 810, the Company evaluated whether Delphax was a VIE as of November 24, 2015. Based principally on the fact that the Company granted Delphax subordinated financial support, the Company determined that Delphax was a VIE on that date. Therefore, it was necessary for the Company to assess whether it held any “variable interests”, as defined in ASC 810, in Delphax. The Company concluded that its investments in Delphax’s equity and debt, and its investment in the Warrant, each constituted a variable interest. Based on its determination that it held variable interests in a VIE, the Company was required to assess whether it was Delphax’s “primary beneficiary”, as defined in ASC 810.

After considering all relevant facts and circumstances, the Company concluded that it became the primary beneficiary of Delphax on November 24, 2015. While various factors informed the Company’s determination, the Company assigned considerable weight to both 1) the shortness of time until June 1, 2016 when the Company would become entitled to elect four-sevenths of the members of the board of directors of Delphax and 2) the anticipated financial significance of Delphax’s activities in the periods subsequent to June 1, 2016. Since the Company became Delphax’s primary beneficiary on November 24, 2015, the Company consolidated Delphax in its consolidated financial statements beginning on that date.

The following table sets forth the carrying values of Delphax's assets and liabilities as of September 30, 2017 and March 31, 2017:

	September 30, 2017 (Unaudited)	March 31, 2017
ASSETS		
Current assets:		
Cash and cash equivalents	\$449,077	\$328,327
Accounts receivable, net	884,289	2,036,221
Inventories	188,410	1,941,729
Other current assets	431,416	1,145,274
Total current assets	1,953,192	5,451,551
Property and equipment	-	8,007
Total assets	\$1,953,192	\$5,459,558
LIABILITIES		
Current liabilities:		
Accounts payable	\$2,152,573	\$2,482,578
Income tax payable	11,312	11,312
Accrued expenses	3,114,145	3,627,162
Short-term debt	3,033,436	4,714,257
Total current liabilities	8,311,466	10,835,309
Net Assets	\$(6,358,274)	\$(5,375,751)

The short-term debt is comprised of amounts due from Delphax to Air T, Inc. Those amounts have been eliminated in consolidation. As of September 30, 2017, the outstanding principal amount of the Senior Subordinated Note was approximately \$2,375,000 (\$2,500,000 as of March 31, 2017) and the outstanding borrowings under the Delphax Senior Credit Agreement were \$0 (\$1,541,000 as of March 31, 2017). Short-term debt as reflected in the above table includes approximately \$658,000 and \$388,000 of accrued interest, due to the Company from Delphax Canada and Delphax Technologies, Inc. under the Senior Subordinated Note as of September 30, 2017 and March 31, 2017, respectively. Short term debt as of March 31, 2017 also includes approximately \$112,000 of accrued interest, due to the Company from Delphax Canada and Delphax Technologies, Inc. under the Delphax Senior Credit Agreement. As a result of the foreclosure completed by the Company on August 10, 2017, the amount secured by the Delphax Senior Credit Agreement was satisfied.

The assets of Delphax can only be used to satisfy the obligations of Delphax.

On January 6, 2017, the Company acquired all rights, and assumed all obligations, of the Senior Lender under the Delphax Senior Credit Agreement with Delphax and Delphax Canada providing for a \$7.0 million revolving senior

secured credit facility, subject to a borrowing base of North American accounts receivable and inventory, including obligations, if any, to fund future borrowings under the Delphax Senior Credit Agreement. In connection with this transaction, the Company paid to the Senior Lender an amount equal to the approximately \$1.26 million outstanding borrowing balance, plus accrued and unpaid interest and fees. Also in connection with this transaction, the Company, Delphax and Delphax Canada entered into an amendment to the Delphax Senior Credit Agreement to reduce the maximum amount of borrowings permitted to be outstanding under the Delphax Senior Credit Agreement from \$7.0 million to \$2.5 million, to revise the borrowing base to include in the borrowing base 100% of purchase orders from customers for products up to \$500,000, to provide that the interest rate on all borrowings outstanding until all loans under the Delphax Senior Credit Agreement are repaid in full will be a default rate equal to 2.5% per month to be paid monthly, and to provide for the payment to the Company from Delphax Canada and Delphax of fees equal to \$25,000 upon execution of the amendment and of \$50,000 upon repayment in full of all loans under the Delphax Senior Credit Agreement. On January 6, 2017, the Company notified Delphax and Delphax Canada of certain “Events of Default” (as defined under the Delphax Senior Credit Agreement) existing under the Delphax Senior Credit Agreement and that the Company was reserving all rights to exercise remedies under the Delphax Senior Credit Agreement and that no delay in exercising any such remedy is to be construed as a waiver of any of its remedies. Also, on January 6, 2017, the Company and Delphax Canada entered into a Forbearance and Amendment Agreement dated as of January 6, 2017, which amended the Senior Subordinated Note to increase the default rate of interest from an annual rate of 10.5% to an annual rate of 18%, to be in effect until all amounts under the Senior Subordinated Note are paid in full, and which provides that so long as no Event of Default (as defined in the Senior Subordinated Note) occurs under the Senior Subordinated Note, other than Events of Default that existed as of January 6, 2017, the Company agreed to forbear from exercising its remedies under the Senior Subordinated Note until May 31, 2017 and further provided for the payment by Delphax Canada to the Company of a forbearance fee equal to approximately \$141,000. Notwithstanding the existence of events of default, during the first six calendar months of 2017, the Company permitted additional borrowings under the Delphax Senior Credit Agreement to, among other things, fund a final production run by Delphax Canada of consumable products for its legacy printing systems, which production run was primarily completed over that period. Delphax Canada was Delphax's sole manufacturing subsidiary.

During the quarter ended June 30, 2016, Delphax was informed by its largest customer that the customer had decided to accelerate its plans for removing Delphax legacy printing systems from production and that Delphax should, as a consequence, expect the future volume of legacy product orders from the customer to decline markedly from prior forecasts. Furthermore, the future timeframe over which orders could be expected from this customer was being sharply curtailed. In addition to this specific customer communication, Delphax also experienced a broad-based decline in legacy product customer demand during the first quarter. Sales of Delphax's new élan printer system also had not materialized to expectations.

The adverse business developments during the quarter ended June 30, 2016 and the significantly deteriorated outlook for future orders of legacy and élan product caused the Company to reevaluate the recoverability of Delphax's assets, both tangible and intangible. Based on this reevaluation, which involved material estimation and subjectivity (including with respect to the recovery on assets in an operating liquidation), the Company concluded that a significant increase to inventory reserves was necessary. In addition, the Company concluded that Delphax related intangible assets, both amortizable assets and goodwill, should be fully impaired. The Company also recorded a partial impairment of Delphax related long-lived tangible assets. Furthermore, there was an assessment regarding whether, at June 30, 2016, future severance actions under existing Delphax employee benefit plans were both probable and estimable. This assessment led to the Company establishing an estimated accrual for future severance actions. The effects of these various adjustments, which aggregated to approximately \$5,610,000, were reflected in the operating results of Delphax for the quarter ended June 30, 2016.

The Company concluded that Delphax related intangible assets, both amortizable assets and goodwill, should be fully impaired. The Company recorded goodwill of approximately \$375,000 in connection with its investment in Delphax. The Company estimated a subsequent impairment of this goodwill during the fiscal year ended March 31, 2016 of \$100,000 and an additional impairment of \$275,000 during the quarter ended June 30, 2016. These impairment losses are reflected on the consolidated statement of income (loss) within the "depreciation, amortization and impairment" line item.

Intangible assets of Delphax had a net book value of approximately \$1.4 million as of March 31, 2016. During the quarter ended June 30, 2016, the Company recognized an impairment charge which resulted in the remaining net book of Delphax intangible assets being fully written off. The Company estimated and recorded a tradename and patent impairment charge related to Delphax in the amount of approximately \$1,385,000 during the quarter ended June 30, 2016. An impairment charge in the amount of \$50,000 was recorded during the fiscal year 2016. These impairment losses are reflected on the consolidated statement of income (loss) within the "depreciation, amortization and impairment" line item.

The above described adverse business developments drove significant negative operating results and led to severe liquidity constraints for Delphax. In addition to other measures intended to respond to developments, Delphax engaged an outside advisory firm to assist with operations, cost reductions and expense rationalization, and to provide an objective assessment and recommendations regarding Delphax's business outlook and alternative courses of action. During the quarter ended June 30, 2016, a number of Delphax employees were either severed or furloughed. For most

of fiscal year 2017, Delphax's operations were maintained at a significantly curtailed level.

In light of continuing events of default under the Delphax Senior Credit Agreement and the conclusion of final production run by Delphax Canada of consumable products for Delphax's legacy printing systems, on July 13, 2017, the Company delivered a demand for payment and Notice of Intention to Enforce Security to Delphax Canada. On August 10, 2017, the Company foreclosed on all personal property and rights to undertakings of Delphax Canada. The Company foreclosed as a secured creditor with respect to amounts owed to it by Delphax Canada under the Delphax Senior Credit Agreement. The Company provided notice of its intent to foreclose to Delphax Canada and its secured creditors and shareholder on July 26, 2017. The outstanding amount owed to the Company by Delphax Canada under the Delphax Senior Credit Agreement on July 26, 2017 was approximately \$1,510,000. The Company also submitted an application to the Ontario Superior Court of Justice in Bankruptcy and Insolvency (the "Ontario Court") seeking that Delphax Canada be adjudged bankrupt. On August 8, 2017, the Ontario Court issued an order adjudging Delphax Canada to be bankrupt. The recipients of the foreclosure notice did not object to the foreclosure or redeem. As a result, the foreclosure was completed on August 10, 2017, and the Company accepted the personal property and rights to undertakings of Delphax Canada in satisfaction of the amount secured by the Delphax Senior Credit Agreement.

With its being adjudged bankrupt on August 8, 2017, Delphax Canada ceased to have capacity to deal with its property. The property of Delphax Canada vested in the trustee in bankruptcy of Delphax Canada subject to the rights of secured creditors. The Company's rights under Delphax Senior Credit Agreement permitted it to foreclose upon the personal property and rights of undertakings of Delphax Canada. Since the Company foreclosed on Delphax Canada's assets within very close time proximity to the commencement of bankruptcy proceedings and because the bankruptcy and foreclosure were undertaken in contemplation of one another, the Company treated these as one single financial reporting event. In accordance with applicable accounting guidance, the Company considered whether Delphax Canada was still a business post-bankruptcy and foreclosure of the assets by the Company and concluded that Delphax Canada no longer constituted a business as it is defined by accounting principles generally accepted in the United States of America and, accordingly, derecognition of Delphax Canada's liabilities will occur when Delphax Canada is legally released as the primary obligor with respect to the liabilities in the bankruptcy proceedings. As of September 30, 2017, the bankruptcy proceedings were ongoing in accordance with Canadian law and, therefore, Delphax Canada was still the primary obligor of its liabilities.

The intercompany balances under the Delphax Senior Subordinated Note as of September 30, 2017 are eliminated in the presentation of the condensed consolidated financial statements. The effect of interest expense arising under the Senior Subordinated Note and, from January 6, 2017 to August 10, 2017, under the Delphax Senior Credit Agreement, and other intercompany transactions, are reflected in the attribution of Delphax net income or loss to non-controlling interests because Delphax is a variable interest entity.

Delphax's revenues and expenses are included in our consolidated financial statements beginning November 24, 2015 through September 30, 2017. Revenues and expenses prior to the date of initial consolidation were excluded. We have determined that the attribution of Delphax net income or loss should be based on consideration of all of Air T's investments in Delphax and Delphax Canada. The Warrant provides that in the event that dividends are paid on the common stock of Delphax, the holder of the Warrant is entitled to participate in such dividends on a ratable basis as if the Warrant had been fully exercised and the shares of Series B Preferred Stock acquired upon such exercise had been converted into shares of Delphax common stock. This provision would have entitled Air T, Inc. to approximately 67% of any Delphax dividends paid, with the remaining 33% paid to the non-controlling interests. We concluded that this was a substantive distribution right which should be considered in the attribution of Delphax net income or loss to non-controlling interests. We furthermore concluded that our investment in the debt of Delphax should be considered in attribution. Specifically, Delphax's net losses are attributed first to our Series B Preferred Stock and Warrant investments and to the non-controlling interest (67%/33%) until such amounts are reduced to zero. Additional losses are then fully attributed to our debt investments until they too are reduced to zero. This sequencing reflects the relative priority of debt to equity. Any further losses are then attributed to Air T and the non-controlling interests based on the initial 67%/33% share. Delphax net income is attributed using a backwards-tracing approach with respect to previous losses.

As a result of the application of the above-described attribution methodology, for the six months ended September 30, 2017, the attribution of Delphax net income to non-controlling interests was 0% and for the six months ended September 30, 2016, the attribution of Delphax net loss to non-controlling interests was 33%.

The following table sets forth the revenue and expenses of Delphax, prior to intercompany eliminations, that are included in the Company's condensed consolidated statements of income (loss) for the six months ended September 30, 2017 and 2016.

	Six Months Ended September 30, 2017 2016 (Unaudited) (Unaudited)	
Operating Revenues	\$4,434,303	\$4,958,826
Operating Expenses:		
Cost of sales	2,583,807	7,723,898
General and administrative	1,001,896	1,704,852
Research and development	195,653	750,882
Depreciation, amortization and impairment	8,007	1,726,404
	3,789,363	11,906,036
Operating Income (Loss)	644,940	(6,947,210)
Non-operating Income (Expenses), net	(188,000)	(45,147)
Income (Loss) Before Income Taxes	456,940	(6,992,357)
Income Taxes	-	-
Net Income (Loss)	\$456,940	\$(6,992,357)

Non-operating income (expense), net, includes interest expense of approximately \$440,000 associated with the Senior Subordinated Note and the Delphax Senior Credit Agreement for the six months ended September 30, 2017 and approximately \$116,000 associated with the Senior Subordinated Note for the six months ended September 30, 2016. This interest expense was eliminated for purposes of net income (loss) presented in the Company's accompanying consolidated statements of income (loss) and comprehensive income (loss) for the six months ended September 30, 2017 and 2016, though the effect of intercompany interest under the Senior Subordinated note and the Delphax Senior Credit Agreement is reflected in the attribution of Delphax net income or losses attributed to non-controlling interests.

10. Geographical information

Total property and equipment, net of accumulated depreciation, located in the United States, (the Company's country of domicile), and that held outside the United States are summarized in the following table as of September 30, 2017 and March 31, 2017:

Edgar Filing: AIR T INC - Form 10-Q

	September 30, 2017	March 31, 2017
United States, the Company's country of domicile	\$5,772,340	\$5,323,471
Foreign	6,902,723	1,017
Total property and equipment, net	\$12,675,063	\$5,324,488

Total revenue, in and outside the United States is summarized in the following table for the six-month periods ended September 30, 2017 and September 30, 2016:

	September 30, 2017	September 30, 2016
United States, the Company's country of domicile	\$85,319,178	\$64,393,507
Foreign	11,239,685	4,622,736
Total revenue	\$96,558,863	\$69,016,243

11. Segment Information

The Company has six business segments. The overnight air cargo segment, composed of the Company's Mountain Air Cargo, Inc. ("MAC") and CSA Air, Inc. ("CSA") subsidiaries, operates in the air express delivery services industry. The ground equipment sales segment, composed of the Company's Global Ground Support, LLC ("GGS") subsidiary, manufactures and provides mobile deicers and other specialized equipment products to passenger and cargo airlines, airports, the U.S. military and industrial customers. The ground support services segment, composed of the Company's Global Aviation Services, LLC ("GAS") subsidiary, provides ground support equipment maintenance and facilities maintenance services to domestic airlines and aviation service providers. The printing equipment and maintenance segment is composed of Delphax and its subsidiaries, which was consolidated for financial accounting purposes beginning November 24, 2015. Delphax sells advanced digital print production equipment, maintenance contracts, spare parts, supplies and consumable items for these systems. The equipment is sold through Delphax and its subsidiaries located in the United Kingdom and France. In July 2016, the Company's majority owned subsidiary, Contrail Aviation Support, LLC ("Contrail Aviation"), acquired the principal assets of a business based in Verona, Wisconsin engaged in acquiring surplus commercial jet engines or components and supplying surplus and aftermarket commercial jet engine component. In October 2016, the Company, through a wholly-owned subsidiary, acquired 100% of the outstanding equity interests of Jet Yard, LLC ("Jet Yard") to provide commercial aircraft storage, storage maintenance and aircraft disassembly/part-out services at facilities leased at the Pinal Air Park in Marana, Arizona. In May 2017, our newly formed subsidiaries AirCo, LLC and AirCo Services, LLC (collectively "AirCo"), acquired the inventory and principal assets of a business based in Wichita, Kansas that distributes and sells airplane and aviation parts. Contrail Aviation, Jet Yard and AirCo comprise the commercial jet engines and parts segment of the Company's operations. This segment, formerly referred to as the commercial jet engines segment, was renamed to reflect its broader product and service offerings. The Company's leasing segment, comprised of the Company's Air T Global Leasing, LLC ("ATGL") subsidiary, provides funding for equipment leasing transactions, which may include transactions for the leasing of equipment manufactured by GGS and Delphax and transactions initiated by third parties unrelated to equipment manufactured by the Company or any of its subsidiaries. ATGL commenced operations during the quarter ended December 31, 2015.

In March 2014, the Company formed Space Age Insurance Company ("SAIC"), a captive insurance company licensed in Utah. SAIC insures risks of the Company and its subsidiaries that were not previously insured by the various Company insurance programs (including the risk of loss of key customers and contacts, administrative actions and regulatory changes); and may from time to time underwrite third-party risk through certain reinsurance arrangements.

Each business segment has separate management teams and infrastructures that offer different products and services. We evaluate the performance of our business segments based on operating income. For the quarters ended September 30, 2017 and 2016, the premiums paid to SAIC by the Company were allocated among the operating segments based on segment revenue and certain identified corporate expense were allocated to the segments based on the relative benefit of those expenses to each segment.

Segment data is summarized as follows:

	Three Months Ended September 30,		Six Months Ended September 30,	
	2017	2016	2017	2016
Operating Revenues:				
Overnight Air Cargo	\$18,081,073	\$17,151,214	\$34,823,248	\$33,788,379

Total	\$529,538	\$353,672	\$928,365	\$2,343,273

The elimination of intercompany revenues is related to the sale during the six months ended September 30, 2016 of ten commercial deicing units by GGS to ATGL and two élan printers by Delphax to ATGL and premiums paid to SAIC, and the elimination of intercompany operating income for such period reflects the margins on the sales of those assets, elimination of excess depreciation and amortization related to the margin on those assets, and the premiums paid to SAIC. The sales of the deicing units and élan printers did not reoccur during the six months ended September 30, 2017.

12. Commitments and Contingencies

The Company is involved in various legal actions and claims arising in the ordinary course of business. Management believes that these matters, if adversely decided, would not have a material adverse effect on the Company's results of operations or financial position.

In July 2016, pursuant to the Asset Purchase Agreement, Contrail Aviation agreed to pay as contingent additional deferred consideration up to a maximum of \$1,500,000 per year and \$3,000,000 in the aggregate (collectively, the “Earnout Payments” and each, an “Earnout Payment”), calculated as follows:

(i) if Contrail Aviation generates EBITDA (as defined in the Asset Purchase Agreement) in any Earnout Period (as defined below) less than \$1,500,000, no Earnout Payment will be payable with respect to such Earnout Period;

(ii) if Contrail Aviation generates EBITDA in any Earnout Period equal to or in excess of \$1,500,000, but less than \$2,000,000, the Earnout Payment for each such Earnout Period will be an amount equal to the product of (x) the EBITDA generated with respect to such Earnout Period minus \$1,500,000, and (y) two (2);

(iii) if Contrail Aviation generates EBITDA in any Earnout Period equal to or in excess of \$2,000,000, but less than \$4,000,000, the Earnout Payment for each such Earnout Period will be equal to \$1,000,000;

(iv) if Contrail Aviation generates EBITDA in any Earnout Period equal to or in excess of \$4,000,000, the Earnout Payment for each such Earnout Period will be equal to \$1,500,000; and

(v) if, following the fifth Earnout Period, Contrail Aviation has generated EBITDA equal to or in excess of \$15,000,000 in the aggregate during all Earnout Periods, but the Seller has received or is owed less than \$3,000,000 in aggregate Earnout Payments pursuant to clauses (i) through (iv), above, Contrail Aviation will make an additional Earnout Payment to the Seller in an amount equal to the difference between \$3,000,000 and the aggregate Earnout Payments already received or payable pursuant to clauses (i) through (iv), above.

As used in the Asset Purchase Agreement, “Earnout Period” means each of the first five twelve-full-calendar-month periods following the closing of the acquisition. The Company has estimated its liability with respect to the Earnout Payment of \$2,900,000, which amount is included in the “Other non-current liabilities” in the consolidated balance sheet at both September 30, 2017 and March 31, 2017, except for the portion denoted as payable below which has been

reclassified to a current liability at September 30, 2017. As a result of EBITDA of Contrail Aviation being approximately \$2.1 million for the first Earnout Period, the Earnout Payment with respect to the Earnout Period is \$1,000,000, which amount was paid in October 2017.

On the Contrail Closing Date, Contrail Aviation and the Seller entered into an Operating Agreement (the “Operating Agreement”) providing for the governance of and the terms of membership interests in Contrail Aviation and including put and call options (“Put/Call Option”) permitting, at any time after the fifth anniversary of the Contrail Closing Date, Contrail Aviation at its election to purchase from the Seller, and permitting the Seller at its election to require Contrail Aviation to purchase from the Seller, all of the Seller’s equity membership interests in Contrail Aviation at a price to be agreed upon, or failing such an agreement to be determined pursuant to third-party appraisals in a process specified in the Operating Agreement.

As discussed in Note 8, Contrail Aviation entered into the Loan Agreement with Old National Bank on May 5, 2017. Contrail Aviation’s obligations under the Loan Agreement are guaranteed by the Company, with such guaranty limited in amount to a maximum of \$1,600,000 plus interest on such amount at the rate of interest in effect under the Loan Agreement, plus costs of collection.

On October 31, 2016, GAS acquired, effective as of October 1, 2016, substantially all of the assets of D&D GSE Support, Inc. (“D&D”) which was in the business of marketing, selling and providing aviation repair, equipment, parts, and maintenance sales services and products at the Fort Lauderdale airport. The total amount paid at closing in connection with this acquisition was \$400,000, with an additional \$100,000 paid 30 days after closing and an additional \$100,000 payable in equal monthly installments of \$16,667 commencing on November 1, 2016. Earn-out payments of up to \$100,000 may also be payable based on specified performance for the twelve-month period ending September 30, 2017. Based on actual revenue earned by D&D through September 2017, the earnout payment with respect to the purchase agreement was \$100,000, which amount was paid in October 2017.

A newly organized subsidiary of Air T leases 12,206 square feet of space in a building located in Mississauga, Ontario. The lease commenced on August 1, 2017 and terminates on July 31, 2020. Annual rent under the lease escalates annually, with annual rent of approximately \$94,600 (CDN) for the first year and approximately \$97,000 (CDN) in the third year. The subsidiary's obligations under the lease have been guaranteed by Air T. The lease of production facilities in Mississauga, Ontario by Delphax Canada has been terminated effective upon removal of the property foreclosed upon by Air T.

The Company currently expects that none of Delphax Canada's unsecured creditors will receive payment in connection with the ongoing bankruptcy proceedings. This is because the Company's priority claims under the Delphax Senior Credit Agreement permitted it to foreclose upon all of Delphax Canada's personal property and rights of undertakings. Unsecured creditors of Delphax Canada may attempt to advance claims against the Company, whether as direct claims or alleging successor liability in light of the foreclosure. The Company does not believe that any such claims will be successfully advanced and therefore expects no significant adverse effect on the Company's financial position or results of operations as a result of such possible claims.

The Company has various operating lease commitments for office equipment and its office and maintenance facilities.

13. Related Party Matters

Since 1979 the Company has leased the Little Mountain Airport in Maiden, North Carolina from a corporation whose stock is owned in part by former officers and directors of the Company and an estate of which certain former directors are beneficiaries. The facility consists of approximately 68 acres with one 3,000-foot paved runway, approximately 20,000 square feet of hangar space and approximately 12,300 square feet of office space. The operations of Air T, MAC and ATGL are headquartered at this facility. The lease for this facility provides for monthly rent of \$14,862 and expires on January 31, 2018, though the lease may be renewed by the Company for three additional two-year option periods through January 31, 2024. The Company does not intend to renew the lease for this facility as operations conducted at this facility were relocated to a newly constructed, owned facility on July 31, 2017. The lease agreement provides that the Company shall be responsible for maintenance of the leased facilities and for utilities, taxes and insurance.

Contrail Aviation leases its corporate and operating facilities at Verona, Wisconsin from Cohen Kuhn Properties, LLC, a corporation whose stock is owned equally by Mr. Joseph Kuhn, Chief Executive Officer of Contrail Aviation, and Mrs. Miriam Kuhn, Chief Financial Officer of Contrail Aviation. The facility consists of approximately 21,000 square feet of warehouse and office space. The Company paid aggregate rental payments of \$111,189 to Cohen Kuhn Properties, LLC pursuant to such lease during the period from July 18, 2016 through March 31, 2017. The lease for this facility expires on June 30, 2021, though the Company has the option to renew the lease for a period of five years on the same terms. The lease agreement provides that the Company shall be responsible for maintenance of the leased facilities and for utilities, taxes and insurance. The Company believes that the terms of such leases are no less favorable to the Company than would be available from an independent third party.

See Note 14 for a discussion of the pending transactions between a newly formed subsidiary of the Company and Gary S. Kohler, a director of the Company, and Blue Clay Capital Management, LLC, a company owned solely by Mr. Kohler.

14. Subsequent Events

Management performs an evaluation of events that occur after the balance sheet date but before consolidated financial statements are issued for potential recognition or disclosure of such events in its consolidated financial statements.

On October 27, 2017 Airco 1, LLC, a wholly-owned subsidiary of Airco, LLC, closed a loan in the amount of \$3,441,000 from Minnesota Bank & Trust in order to finance, in part, the purchase of a 737-800 airframe for the purpose of disassembling the plane and selling it for parts. The plane will be disassembled by Jet Yard, LLC, an affiliate, and the parts will be sold on consignment to Airco, LLC, which will market them to third parties. Airco 1, LLC is a special purpose entity formed for the purpose of this transaction. The loan contains affirmative and negative covenants and is secured by a security interest in all of Airco 1, LLC's assets, a collateral assignment of the purchase agreement for the plane, assignments of the disassembly contract and the consignment agreement, and bailee agreements with Jet Yard, LLC and Airco, LLC. Airco, LLC is a wholly-owned subsidiary of Stratus Aero Partners LLC.

On November 3, 2017, a newly-formed, wholly-owned subsidiary of the Company entered into an agreement with Blue Clay Capital Management, LLC (“Blue Clay Capital”), an investment management firm based in Minneapolis, Minnesota, pursuant to which such subsidiary is to acquire the assets of, and assume certain liabilities of, Blue Clay Capital in return for payment to Blue Clay Capital of \$1.00, subject to adjustment for Blue Clay Capital’s net working capital as of the closing date. Gary S. Kohler, a director of the Company, is the sole owner of Blue Clay Capital. In connection with such acquisition transaction, a subsidiary of the Company is to replace Blue Clay Capital as the managing general partner of certain investment funds currently managed by Blue Clay Capital. Mr. Kohler is to enter into an employment agreement with such subsidiary to serve as its Chief Investment Officer in return for an annual salary of \$50,000 plus variable compensation based on the management and incentive fees to be paid to the subsidiary by certain of these investment funds and eligibility to participate in discretionary annual bonuses and David Woodis, President of Blue Clay Capital, is to enter into an employment agreement with such subsidiary to serve as its Chief Operating Officer and Chief Financial Officer in return for an annual salary of \$125,000 plus revenue sharing and eligibility to participate in discretionary annual bonuses. Completion of these transactions is subject to certain conditions, including the consent of limited partners of these investment funds to the extent required by the agreements governing these funds.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Overview

Air T, Inc. (the “Company,” “Air T,” “we” or “us”) is a decentralized holding company with ownership interests in a broad set of operating and financial assets that are designed to expand, strengthen and diversify our cash earnings. Our goal is to build on Air T’s core businesses, to expand into adjacent industries, and when appropriate, to acquire companies that we believe fit into the Air T family.

We currently operate wholly-owned subsidiaries in three legacy industry segments:

overnight air cargo, comprised of our Mountain Air Cargo, Inc. (“MAC”) and CSA Air, Inc. (“CSA”) subsidiaries, which operates in the air express delivery services industry;

ground equipment sales, comprised of our Global Ground Support, LLC (“GGS”) subsidiary, which manufactures and provides mobile deicers and other specialized equipment products for passenger and cargo airlines, airports, the military and industrial customers; and

ground support services, comprised of our Global Aviation Services, LLC (“GAS”) subsidiary, which provides ground support equipment maintenance and facilities maintenance services to domestic airlines and aviation service providers.

In the past two years, we have organized or acquired businesses operating in three other segments. In October 2015, we formed a wholly-owned equipment leasing subsidiary, Air T Global Leasing, LLC (“ATGL”), which comprises our leasing segment. In November 2015 we acquired debt and equity interests in Delphax Technologies, Inc. (“Delphax”), a printing equipment manufacturer and maintenance provider, which comprises our printing equipment and maintenance segment. In July 2016, our majority owned subsidiary, Contrail Aviation Support, LLC (“Contrail Aviation”), acquired the principal assets of a business based in Verona, Wisconsin engaged in acquiring surplus commercial jet engines and components and supplying surplus and aftermarket commercial jet engine components. In October 2016, we acquired 100% of the outstanding equity interests of Jet Yard, LLC (“Jet Yard”) to provide commercial aircraft storage, maintenance and aircraft disassembly/part-out services at facilities leased at the Pinal Air Park in Marana, Arizona. In May 2017, our newly formed subsidiaries, AirCo, LLC and AirCo Services, LLC (collectively, “AirCo”), acquired the inventory and principal assets of a business based in Wichita, Kansas that distributes and sells airplane and aviation parts. Contrail Aviation, Jet Yard and AirCo comprise the commercial jet engines and parts segment of the Company’s operations. This segment, formerly referred to as the commercial jet engines segment, was renamed to reflect its broader product and service offerings.

Each business segment has separate management teams and infrastructures that offer different products and services. We evaluate the performance of our business segments based on operating income.

Following is a table detailing revenues by segment and by major customer category (numbers were derived from unaudited financial statements for the three and six-months ended September 30, 2017 and 2016):

(Dollars in thousands)

	Three Months Ended September 30, 2017			2016			Six Months Ended September 30, 2017			2016		
Overnight Air Cargo:												
FedEx	\$18,081	37	%	\$17,151	45	%	\$34,823	36	%	\$33,788	49	%
Ground Equipment Sales:

MAC and CSA are two of seven companies in the U.S. that have North American feeder airlines under contract with FedEx. With a relationship with FedEx spanning over 35 years, MAC and CSA operate and maintain Cessna Caravan, ATR-42 and ATR-72 aircraft that fly daily small-package cargo routes throughout the eastern United States, upper Midwest and the Caribbean. MAC and CSA's revenues are derived principally pursuant to "dry-lease" service contracts with FedEx.

On June 1, 2015, MAC and CSA entered into new dry-lease agreements with FedEx which together cover all of the revenue aircraft operated by MAC and CSA and replaced all prior dry-lease service contracts. These dry-lease agreements provide for the lease of specified aircraft by MAC and CSA in return for the payment of monthly rent with respect to each aircraft leased, which monthly rent was increased from the prior dry-lease service contracts to reflect

an estimate of a fair market rental rate. These dry-lease agreements provide that FedEx determines the type of aircraft and schedule of routes to be flown by MAC and CSA, with all other operational decisions made by MAC and CSA, respectively. The current dry-lease agreements provide for the reimbursement by FedEx of MAC and CSA's costs, without mark up, incurred in connection with the operation of the leased aircraft for the following: fuel, landing fees, third-party maintenance, parts and certain other direct operating costs. Unlike prior dry-lease contracts, under the current dry-lease agreements, certain operational costs incurred by MAC and CSA in operating the aircraft under the dry-lease agreements are not reimbursed by FedEx at cost, and such operational costs are borne solely by MAC and CSA. Under the dry-lease agreements, MAC and CSA are required to perform maintenance of the leased aircraft in return for a maintenance fee based upon an hourly maintenance labor rate, which has been increased from the rate in place under the prior dry-lease service contracts. Under prior dry-lease service contracts, the hourly maintenance labor rate had not been adjusted since 2008. The dry-lease agreements provide for the payment by FedEx to MAC and CSA of a monthly administrative fee based on the number and type of aircraft leased and routes operated. The amount of the monthly administrative fee under the current dry-lease agreements is greater than under the prior dry-lease service contracts with FedEx, in part to reflect the greater monthly lease payment per aircraft and that certain operational costs are borne by MAC and CSA and not reimbursed. The amount of the administrative fee is subject to adjustment based on the number of aircraft operated, routes flown and whether aircraft are considered to be soft-parked. Since MAC and CSA entered into the current dry-lease agreements in 2015, they have periodically entered into amendments to the agreements with FedEx that have adjusted the administrative fees payable under these agreements. These adjustments, which have generally been made on an annual basis, have resulted in annual period-to-period volatility in MAC and CSA's profitability. MAC and CSA have entered into such an amendment effective as of June 1, 2017 which positively affected MAC and CSA's profitability for the three months ended September 30, 2017 compared to results for the quarter ended September 30, 2016.

On June 1, 2016, the current dry-lease agreements were amended to extend the expiration date to May 31, 2020. The dry-lease agreements may be terminated by FedEx or MAC and CSA, respectively, at any time upon 90 days' written notice and FedEx may at any time terminate the lease of any particular aircraft thereunder upon 10 days' written notice. In addition, each of the dry-lease agreements provides that FedEx may terminate the agreement upon written notice if 60% or more of MAC or CSA's revenue (excluding revenues arising from reimbursement payments under the dry-lease agreement) is derived from the services performed by it pursuant to the respective dry-lease agreement, FedEx becomes MAC or CSA's only customer, or MAC or CSA employs less than six employees. As of the date of this report, FedEx would have been permitted to terminate each of the dry-lease agreements under this provision. The Company believes that the short-term nature of its agreements with FedEx is standard within the airfreight contract delivery service industry, where performance is measured on a daily basis. FedEx has been a customer of the Company since 1980. Loss of the FedEx contracts would have a material adverse effect on the Company.

Pass-through costs under the dry-lease agreements with FedEx totaled \$5,915,000 and \$5,719,000 for the three-month periods ended September 30, 2017 and 2016, respectively, and \$10,786,000 and \$10,811,000 for the six-month periods ended September 30, 2017 and 2016, respectively.

As of September 30, 2017, MAC and CSA had an aggregate of 80 aircraft under its dry-lease agreements with FedEx. Included within the 80 aircraft is one Cessna Caravan aircraft that is considered soft-parked. Soft-parked aircraft remain covered under our agreements with FedEx although at a reduced administrative fee compared to aircraft that are in operation. MAC and CSA continue to perform maintenance on soft-parked aircraft, but they are not crewed and do not operate on scheduled routes.

GGs manufactures, sells and services aircraft deicers and other specialized equipment on a worldwide basis. GGS manufactures five basic models of mobile deicing equipment with capacities ranging from 700 to 2,800 gallons. GGS also offers fixed-pedestal-mounted deicers. Each model can be customized as requested by the customer, including single operator configuration, fire suppressant equipment, open basket or enclosed cab design, a patented forced-air deicing nozzle and on-board glycol blending system to substantially reduce glycol usage, color and style of the exterior finish. GGS also manufactures five models of scissor-lift equipment, for catering, cabin service and maintenance service of aircraft, and has developed a line of decontamination equipment, flight-line tow tractors, glycol recovery vehicles and other special purpose mobile equipment. GGS competes primarily on the basis of the quality, performance and reliability of its products, prompt delivery, customer service and price.

In July 2009, GGS was awarded a contract to supply deicing trucks to the USAF, which expired in July 2014. On May 15, 2014, GGS was awarded a new contract to continue supplying deicing trucks to the USAF. The initial contract award was for two years through July 13, 2016 with four additional one-year extension options that may be exercised by the USAF, the first two of which were exercised, extending the contract term to July 13, 2018.

In September 2010, GGS was awarded a contract to supply flight-line tow tractors to the USAF. The contract award was for one year commencing September 28, 2010 with four additional one-year extension options exercisable by the USAF. All option periods under the contract have been exercised and the contract expired in September 2015, though it continues to govern orders placed under the contract prior to its expiration. Sale of flight-line tow tractors under this contract have been at very low margins. This contract was completed in March 2017, and GGS had no revenues for sales of flight-line tow tractors in the six months ended September 30, 2017, compared to sales of approximately \$2,370,000 for the six months ended September 30, 2016. Because the USAF is not obligated to purchase a set or minimum number of units under these contracts, the value of these contracts, as well as the number of units to be delivered, depends upon the USAF's requirements and available funding.

GGS contributed approximately \$21,466,000 and \$15,343,000 to the Company's revenues, net of intercompany eliminations, for the six-month periods ended September 30, 2017 and 2016, respectively, representing a \$6,123,000 (40%) increase.

At September 30, 2017, GGS's order backlog was \$20.4 million as compared to \$16.4 million at June 30, 2017 and \$9.8 million at September 30, 2016.

GAS provides aircraft ground support equipment, fleet, and facility maintenance services. At September 30, 2017, GAS was providing ground support equipment, fleet, and facility maintenance services to more than 114 customers at 84 North American airports. During the quarter ended March 31, 2017, GAS entered into new agreements with its principal customer which replaced certain fixed price agreements covering certain locations that had been unprofitable. In addition, in December 2016, GAS was awarded a five-year contract to provide a major airline customer with ground support equipment services at 28 locations. In the contract award, which was part of a periodic request-for-bid process, GAS retained 21 of its 22 incumbent locations with the customer covered by the RFP process and added seven new locations.

On October 31, 2016, GAS acquired effective as of October 1, 2016, substantially all of the assets of D&D GSE Support, Inc. ("D&D") which was in the business of marketing, selling and providing aviation repair, equipment, parts, and maintenance sales services and products at the Fort Lauderdale airport. The total amount paid at closing in connection with this acquisition was \$400,000, with an additional \$100,000 paid 30 days after closing and an additional \$100,000 payable in equal monthly installments of \$16,667 commencing on November 1, 2016. Earn-out payments of up to \$100,000 may also be payable based on specified performance for the twelve-month period ending September 30, 2017. Based on actual revenue earned by D&D through September 30, 2017, the earnout payment with respect to the purchase agreement is \$100,000, which amount was paid in October 2017.

GAS contributed approximately \$17,914,000 and \$13,838,000 to the Company's revenues for the six-month periods ended September 30, 2017 and 2016, respectively, representing a \$4,076,000 (29%) increase.

As described in Note 9 of the accompanying Notes to Condensed Consolidated Financial Statements (Unaudited), we determined that for accounting purposes we had obtained control over Delphax in conjunction with the acquisition of the equity and debt interests on November 24, 2015, and we have consolidated Delphax in Air T's consolidated financial statements beginning on November 24, 2015. Delphax's business has included the design, manufacture and sale of advanced digital print production equipment (including high-speed, high-volume cut-sheet and continuous roll-fed printers), maintenance contracts, spare parts, supplies and consumable items for these systems. The equipment, spare parts, supplies and consumable items have been manufactured, and maintenance and services have been provided by Delphax Canada and such products and services have been sold through Delphax, Delphax Canada and Delphax subsidiaries located in Canada, the United Kingdom and France. A significant portion of Delphax's net sales has historically been related to service and support provided after the sale, including the sale of consumable items for installed printing systems. Delphax's legacy consumables production business had been expected to generate cash flow while Delphax rolled-out its next generation élan commercial inkjet printer.

As described in Note 9 of the accompanying Notes to Condensed Consolidated Financial Statements (Unaudited), adverse business developments at Delphax during the quarter ended June 30, 2016 and the significantly deteriorated outlook for future orders of Delphax legacy and élan product caused the Company to reevaluate the recoverability of Delphax's assets, both tangible and intangible. Based on this reevaluation, the Company concluded that a significant increase to inventory reserves was necessary. In addition, the Company concluded that Delphax related intangible assets, both amortizable assets and goodwill, should be fully impaired. The Company also recorded a partial

impairment of Delphax related long-lived tangible assets. Furthermore, there was an assessment regarding whether, at June 30, 2016, future severance actions under existing Delphax employee benefit plans were both probable and estimable. This assessment led to the Company establishing an estimated accrual for future severance actions. The effects of these various adjustments, which aggregated to approximately \$5,610,000, were reflected in the operating results of Delphax for the quarter ended June 30, 2016.

Intangible assets of Delphax had a net book value of approximately \$1.4 million as of March 31, 2016. During the quarter ended June 30, 2016, the Company recognized an impairment charge which resulted in the remaining net book value of Delphax intangible assets being fully written off.

The operating income, net of intercompany eliminations, attributable to the printing equipment and maintenance segment in our consolidated financial statements for the six-months ended September 30, 2017 was approximately \$492,000 compared to an operating loss, net of intercompany eliminations, of approximately \$7,019,000 for the six-months ended September 30, 2016.

On January 6, 2017, the Company acquired all rights, and assumed all obligations, of a third-party lender under a senior credit agreement (the “Delphax Senior Credit Agreement”) with Delphax and Delphax Canada providing for a \$7.0 million revolving senior secured credit facility, subject to a borrowing base of North American accounts receivable and inventory, including obligations, if any, to fund future borrowings under the Delphax Senior Credit Agreement. In connection with this transaction, the Company, Delphax and Delphax Canada entered into an amendment to the Delphax Senior Credit Agreement to, among other things, reduce the maximum amount of borrowings permitted to be outstanding under the Delphax Senior Credit Agreement from \$7.0 million to \$2.5 million and to revise the borrowing base to include in the borrowing base 100% of purchase orders from customers for products up to \$500,000. On January 6, 2017, the Company notified Delphax and Delphax Canada of certain “Events of Default” (as defined under the Delphax Senior Credit Agreement) existing under the Delphax Senior Credit Agreement.

Notwithstanding the existence of events of default under the Delphax Senior Credit Agreement, during the first six calendar months of 2017, the Company permitted additional borrowings under the Delphax Senior Credit Agreement to, among other things, fund a final production run by Delphax Canada of consumable products for Delphax's legacy printing systems, which production run was primarily completed over the first six months of calendar 2017.

In light of continuing events of default under the Delphax Senior Credit Agreement and the conclusion of final production run by Delphax Canada of consumable products for Delphax's legacy printing systems, on July 13, 2017, the Company delivered a demand for payment and Notice of Intention to Enforce Security to Delphax Canada. On August 10, 2017, the Company foreclosed on all personal property and rights to undertakings of Delphax Canada. The Company foreclosed as a secured creditor with respect to amounts owed to it by Delphax Canada under the Delphax Senior Credit Agreement. The Company provided notice of its intent to foreclose to Delphax Canada and its secured creditors and shareholder on July 26, 2017. The outstanding amount owed to the Company by Delphax Canada under the Delphax Senior Credit Agreement on July 26, 2017 was approximately \$1,510,000. The Company also submitted an application to the Ontario Superior Court of Justice in Bankruptcy and Insolvency (the "Ontario Court") seeking that Delphax Canada be adjudged bankrupt. On August 8, 2017, the Ontario Court issued an order adjudging Delphax Canada to be bankrupt. The recipients of the foreclosure notice did not object to the foreclosure or redeem. As a result, the foreclosure was completed on August 10, 2017, and the Company accepted the personal property and rights to undertakings of Delphax Canada in satisfaction of the amount secured by the Delphax Senior Credit Agreement.

With its being adjudged bankrupt on August 8, 2017, Delphax Canada ceased to have capacity to deal with its property. The property of Delphax Canada vested in the trustee in bankruptcy of Delphax Canada subject to the rights of secured creditors. The Company's rights under Delphax Senior Credit Agreement permitted it to foreclose upon the personal property and rights of undertakings of Delphax Canada. Since the Company foreclosed on Delphax Canada's assets within very close time proximity to the commencement of bankruptcy proceedings and because the bankruptcy and foreclosure were undertaken in contemplation of one another, the Company treated these as one single financial reporting event. In accordance with applicable accounting guidance, the Company considered whether Delphax Canada was still a business post-bankruptcy and foreclosure of the assets by the Company and concluded that Delphax Canada no longer constituted a business as it is defined by accounting principles generally accepted in the United States of America and, accordingly, derecognition of Delphax Canada's liabilities will occur when Delphax Canada is legally released as the primary obligor with respect to the liabilities in the bankruptcy proceedings. As of September 30, 2017, the bankruptcy proceedings were ongoing in accordance with Canadian law and, therefore, Delphax Canada was still the primary obligor of its liabilities.

Air T has contributed certain of the assets acquired in foreclosure to a newly formed subsidiary, Delphax Solutions, Inc. ("Delphax Solutions"), which has contracted with Delphax to supply legacy parts and consumables, as well as to serve as a fulfilment provider to Delphax for logistics and sales order processing. In addition, Delphax Solutions intends to pursue market success for the elan printer system, as Delphax is no longer actively selling its product lines. Delphax Solutions has entered into an agreement with Delphax for a license for intellectual property and rights to the elan printing system and technologies in return for royalties based on sales. Delphax Solutions intends pursue sales of the elan printing system and related product lines both directly and through qualified resellers and agents.

We organized ATGL on October 6, 2015. ATGL provides funding for equipment leasing transactions, which may include transactions for the leasing of equipment manufactured by GGS and Delphax and transactions initiated by third parties unrelated to equipment manufactured by us. On April 4, 2016, ATGL purchased two élan™ 500 printers from Delphax for \$650,000 for lease to a third party. One of those acquired printers was subject to an existing lease to a third party which has been assigned to ATGL.

On July 18, 2016, Contrail Aviation, a subsidiary of the Company, completed the purchase of substantially all of the business assets of Contrail Aviation Support, Inc. (the “Contrail Seller”). Prior to the asset sale, the Contrail Seller, based in Verona, Wisconsin, engaged in the business of acquiring surplus commercial jet engines or components and supplying surplus and aftermarket commercial jet engine components. The acquisition consideration paid to the Contrail Seller included equity membership units in Contrail Aviation representing 21% of the total equity membership units in Contrail Aviation. As a result, the Company owns equity membership units in Contrail Aviation representing the remaining 79% of the total equity membership units in Contrail Aviation. In addition, Contrail Aviation has agreed to pay as additional deferred consideration to the Contrail Seller up to a maximum of \$1.5 million per year and \$3.0 million in the aggregate based on Contrail Aviation’s EBITDA (as defined in the purchase agreement) measured during periods over the five years following the acquisition. Contrail Aviation and the Contrail Seller also entered into put and call options permitting, at any time after the fifth anniversary of the asset sale closing date, Contrail Aviation at its election to purchase from Contrail Seller, and permitting Contrail Seller at its election to require Contrail Aviation to purchase from Contrail Seller, all of Contrail Seller’s equity membership interests Contrail Aviation at price to be agreed upon, or failing such an agreement to be determined pursuant to third-party appraisals in a specified process.

On October 3, 2016, a newly formed subsidiary of the Company, Stratus Aero Partners, LLC (formerly, Global Aviation Partners LLC), acquired 100% of the outstanding equity interests of Jet Yard, LLC (“Jet Yard”). Jet Yard was organized in 2014, entered into the lease in June 2016 and prior our acquisition maintained de minimus operations. The aggregate cash consideration paid in these two acquisition transactions, after closing date adjustments and not including potential deferred payments to the Contrail Seller described above, was approximately \$4,048,000.

In May 2017, AirCo acquired the inventory and principal business assets, and assumed specified liabilities, of Aircraft Instrument and Radio Company, Incorporated, and Aircraft Instrument and Radio Services, Inc. (collectively the “AirCo Sellers”). The acquired business, which is based in Wichita, Kansas, distributes and sells airplane and aviation parts and maintains a license under Part 145 of the regulations of the Federal Aviation Administration. The consideration paid for the acquired business was approximately \$2,400,000.

In March 2014, the Company formed Space Age Insurance Company (“SAIC”), a captive insurance company licensed in Utah, and initially capitalized with \$250,000. SAIC insures risks of the Company and its subsidiaries that were not previously insured by the Company’s insurance programs; and underwrites third-party risk through certain reinsurance arrangements. SAIC is included in the Company’s consolidated financial statements.

On June 7, 2017, SAIC invested \$500,000 for a 40% interest in TFS Partners LLC (“TFS Partners”), a single-purpose investment entity organized by SAIC and other investors for the purpose of making an investment in a limited liability company, The Fence Store LLC (“Fence Store LLC”), organized for the purpose of acquiring substantially all of the assets of The Fence Store, Inc. (“Fence Store Inc.”). TFS Partners acquired a 60% interest in Fence Store LLC, which has completed the purchase of substantially all of the assets of Fence Store Inc. Prior to this transaction, Fence Store Inc. operated a business under the tradename “Town and Country Fence” selling and installing residential and commercial fencing in the greater Twin Cities, Minnesota area. Fence Store LLC intends to continue this business.

On November 3, 2017, a newly-formed, wholly-owned subsidiary of the Company entered into an agreement with Blue Clay Capital Management, LLC (“Blue Clay Capital”), an investment management firm based in Minneapolis, Minnesota, pursuant to which such subsidiary is to acquire the assets of, and assume certain liabilities of, Blue Clay Capital in return for payment to Blue Clay Capital of \$1.00, subject to adjustment for Blue Clay Capital’s net working capital as of the closing date. Gary S. Kohler, a director of the Company, is the sole owner of Blue Clay Capital. In connection with such acquisition transaction, a subsidiary of the Company is to replace Blue Clay Capital as the managing general partner of certain investment funds currently managed by Blue Clay Capital, Mr. Kohler is to enter into an employment agreement with such subsidiary to serve as its Chief Investment Officer in return for an annual salary of \$50,000 plus variable compensation based on the management and incentive fees to be paid to the subsidiary by certain of these investment funds and eligibility to participate in discretionary annual bonuses and David Woodis, President of Blue Clay Capital, is to enter into an employment agreement with such subsidiary to serve as its Chief Operating Officer and Chief Financial Officer in return for an annual salary of \$125,000 plus revenue sharing and eligibility to participate in discretionary annual bonuses. Completion of these transactions is subject to certain conditions, including the consent of limited partners of these investment funds to the extent required by the agreements governing these funds.

At September 30, 2017, we held approximately 1.82 million shares of common stock of Insignia Systems, Inc. (NASDAQ: ISIG) (“Insignia”), representing approximately 15% of Insignia’s outstanding shares, which shares were acquired commencing in our fiscal year ended March 31, 2015. Any investment with a fair value of less than its cost basis is assessed for possible “other-than-temporary” impairment regularly and at each reporting date.

Other-than-temporary impairments of available-for-sale marketable equity securities are recognized in the consolidated statement of income (loss). On the basis of its June 30, 2016, March 31, 2017 and June 30, 2017 assessments, the Company concluded that it had suffered an other-than-temporary impairment in its investment in the common stock of Insignia. Consistent with the applicable accounting guidance, the Company’s cost basis in the Insignia investment was lowered from \$5,106,000 to \$3,604,000 at June 30, 2016 and then to \$2,463,000 at March 31, 2017 and to \$1,724,000 at June 30, 2017 after the acquisition during the quarter of shares having a cost basis of \$32,000, reflecting, in the aggregate, an other-than-temporary impairment of \$3,414,000. On January 6, 2017, Insignia paid a special dividend of \$0.70 per share to stockholders owning Insignia shares on that date. The receipt of such special dividend is included in the other investment income (loss) in the Company’s consolidated statements of income (loss) for the fiscal year ended March 31, 2017. During the fourth quarter of the 2017 fiscal year, we recognized an additional investment loss of approximately \$112,000 principally due to an other-than-temporary decline in fair value of other investment securities that had been in a continuous loss position for more than 12 months.

Second Quarter Operating Highlights

For the second quarter of fiscal 2017, the Company's revenues, net of intercompany eliminations, increased by \$10,339,000 (27%) from the prior year comparable quarter. Operating income, net of intercompany eliminations, decreased by \$546,000 (53%) compared to the prior year quarter principally due to higher corporate level expenses in the current quarter compared to the prior year comparable quarter.

Revenues from the air cargo segment increased by \$930,000 (5%) compared to the second quarter of the prior fiscal year, while operating income increased by \$456,000 (103%), due principally to the impact from the June 1, 2017 amendment to the agreements with FedEx that increased the administrative fees payable under these agreements and due to an increase in billable maintenance hours.

Revenues for GGS, net of intercompany eliminations, increased by \$4,427,000 (40%) compared to the second quarter of the prior fiscal year. The segment's operating income decreased by \$78,000 (6%) to \$1,165,000 from \$1,243,000 in the prior year's comparable quarter. The increase in GGS revenues is due to increased sales of deicing truck units offset by no sales of catering trucks or flight line tow tractors during the quarter compared to the prior year comparable quarter. The decline in operating income is due to lower sales prices offered to a significant customer based on the increased volume of trucks sold.

Revenues from our GAS subsidiary increased by \$1,763,000 (25%) compared to the second quarter of the prior fiscal year as a result of the company's growth in new markets and services offered to new and existing customers. Operating income improved by \$517,000 (215%) to \$276,000 from an operating loss of \$241,000 in the prior year's comparable quarter as a result of new business and improved rates and charges.

The printing equipment and maintenance segment contributed revenues of \$1,303,000 in the current year quarter and an operating loss, net of intercompany eliminations, of \$432,000. In the prior year comparable quarter, this segment contributed revenues, net of intercompany eliminations, of \$1,728,000 and an operating loss of \$27,000.

The commercial jet engines and parts segment contributed \$5,125,000 of revenues, net of intercompany eliminations, in the quarter ended September 30, 2017, while operating loss, net of intercompany eliminations, was \$50,000. The segment was formed through the acquisitions of the businesses of Contrail Aviation, AirCo and Jet Yard. In the prior year comparable quarter, the commercial jet engines and parts segment consisted only of Contrail Aviation which contributed revenue of \$1,295,000 and operating income of \$43,000. The increase in revenue is directly attributable to new customers compared to the prior year comparable quarter along with the acquisition of AirCo. The operating loss in the quarter ended September 30, 2017 is primarily driven by the acquisition of AirCo.

Revenues from the leasing segment were approximately \$35,000 for the quarter ended September 30, 2017 compared to revenues of \$222,000 for the prior year comparable quarter. The reduction in revenues from the leasing segment is primarily attributable to the expiration of customer agreements.

The consolidated operating income intercompany eliminations of \$290,000 consisted primarily of the eliminations of premiums paid to SAIC.

Critical Accounting Policies and Estimates

The Company's significant accounting policies are more fully described in Note 1 to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended March 31, 2017. The preparation of the Company's consolidated financial statements in conformity with accounting principles generally accepted in the United States requires the use of estimates and assumptions to determine certain assets, liabilities, revenues and expenses. Management bases these estimates and assumptions upon the best information available at the time of the estimates or assumptions. The Company's estimates and assumptions could change materially as conditions within and beyond our control change. Accordingly, actual results could differ materially from estimates. The Company believes that the following are its most significant accounting policies:

Allowance for Doubtful Accounts. An allowance for doubtful accounts receivable is established based on management's estimates of the collectability of accounts receivable. The required allowance is determined using information such as customer credit history, industry information, credit reports, customer financial condition and the collectability of outstanding receivables. The estimates can be affected by changes in the financial strength of the aviation industry, customer credit issues or general economic conditions.

Inventories. The Company's inventories are valued at the lower of cost or net realizable value. Provisions for excess and obsolete inventories are based on assessment of the marketability of slow-moving and obsolete inventories. Historical parts usage, current period sales, estimated future demand and anticipated transactions between willing buyers and sellers provide the basis for estimates. Estimates are subject to volatility and can be affected by reduced equipment utilization, existing supplies of used inventory available for sale, the retirement of aircraft or ground equipment, changes in the financial strength of the aviation industry, and market developments impacting both legacy and next-generation products and services of our printing equipment and maintenance segment.

Warranty Reserves. The Company warrants its ground equipment products for up to a three-year period from date of sale. Product warranty reserves are recorded at time of sale based on the historical average warranty cost and are adjusted as actual warranty cost becomes known. Delphax warrants its equipment for a period of 90 days commencing with installation, except in the European Union, where it is generally one year from product shipment date. Similarly, Delphax warrants spare parts and supplies for a period of 90 days from shipment date. These warranty reserves are reviewed quarterly and adjustments are made based on actual claims experience in order to properly estimate the amounts necessary to settle future and existing claims.

Income Taxes. Income taxes have been provided using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax laws and rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date.

Revenue Recognition. The Company recognizes revenue when it is earned. This occurs when services have been rendered or products are shipped to the customer in accordance with the terms of an agreement of sale, there is a fixed or determinable selling price, title and risk of loss have been transferred, and collectability is reasonably assured. Revenues from our Overnight Air Cargo segment are generally recognized as flight operation and maintenance services are provided or, in the case of certain pass-through costs for things like maintenance parts and fuel, as the Company incurs the related expenditure. Within the Company's Ground Equipment Sales segment, revenues are generally recognized at the time the related equipment has been shipped to the customer and risk and loss has transferred. In the case of certain contracts with the U.S. Government or related prime contractors, the Company applies contract accounting and uses either the percentage-of-completion or completed contract method, as appropriate. Revenues of our Ground Support Services segment are generally recognized as the contracted services are completed. Substantially all Printing Equipment and Maintenance segment revenues are recognized upon product

shipment, which is generally when transfer to the customer or risk of loss occurs. Service revenue is recognized upon completion of services. Similarly, Commercial Jet Engines and Parts segment revenues are recognized upon shipment of parts and transfer of risk of loss or, as applicable, upon completion of services. Leasing revenues are recognized consistent with contract terms and are generally recognized on a straight-line basis due to the operating lease classification of the underlying leases.

Although infrequent, the Company does occasionally enter into customer arrangements that involve the delivery of multiple elements. For any such arrangements, the Company applies the applicable accounting guidance in order to identify the individual accounting elements and to determine the most appropriate revenue recognition model for such elements.

We evaluate gross versus net presentation on revenues from products or services purchased and resold in accordance with the revenue recognition criteria outlined in FASB Codification Section 605-45, *Principal Agent Considerations*.

Business Combinations. The Company accounts for business combinations in accordance with FASB Codification Section 805 (“ASC 805”) Business Combinations. Consistent with ASC 805, the Company accounts for each business combination by applying the acquisition method. Under the acquisition method, the Company records the identifiable assets acquired and liabilities assumed at their respective fair values on the acquisition date. Goodwill is recognized for the excess of the purchase consideration over the fair value of identifiable net assets acquired. Included in purchase consideration is the estimated acquisition date fair value of any earn-out obligation incurred. For business combinations where non-controlling interests remain after the acquisition, assets (including goodwill) and liabilities of the acquired business are recorded at the full fair value and the portion of the acquisition date fair value attributable to non-controlling interests is recorded as a separate line item within the equity section or, as applicable to redeemable non-controlling interests, between the liabilities and equity sections of the Company’s consolidated balance sheet.

The acquisition method permits the Company a period of time after the acquisition date during which the Company may adjust the provisional amounts recognized in a business combination. This period of time is referred to as the “measurement period”. The measurement period provides an acquirer with a reasonable time to obtain the information necessary to identify and measure the assets acquired and liabilities assumed. If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports in its consolidated financial statements provisional amounts for the items for which the accounting is incomplete. Under accounting standards in effect as of the Company’s acquisition of interests in Delphax, the Company had two alternatives available to account for subsequent adjustments to the provisional amounts recognized at the acquisition date to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts recognized as of that date. Under the first method, which is no longer an available option since the Company’s first fiscal 2017 quarter, the Company would retrospectively adjust the provisional amounts recognized at the acquisition date to reflect new information obtained. Under the second method, which is the only allowed method beginning with the Company’s first fiscal 2017 quarter, the Company is required to recognize adjustments to the provisional amounts, with a corresponding adjustment to goodwill, in the reporting period in which the adjustments to the provisional amounts are determined. Thus, the Company would adjust its consolidated financial statements as needed, including recognizing in its current-period earnings the full effect of changes in depreciation, amortization, or other income effects, by line item, if any, as a result of the change to the provisional amounts calculated as if the accounting had been completed at the acquisition date. The Company adopted the second of the two above-described methods with respect to its acquisition of interests in Delphax.

Income statement activity of an acquired business is reflected within the Company’s consolidated statements of income (loss) commencing with the date of acquisition. Amounts for pre-acquisition periods are excluded.

Acquisition-related costs are costs the Company incurs to effect a business combination. Those costs may include such items as finder’s fees; advisory, legal, accounting, valuation, and other professional or consulting fees, and general administrative costs. The Company accounts for such acquisition-related costs as expenses in the period in which the costs are incurred and the services are received.

Changes in estimate of the fair value of earn-out obligations subsequent to the acquisition date are not accounted for as part of the acquisition but are rather recognized directly in earnings.

Attribution of Net Income or Loss of Partially-Owned Consolidated Entities. In the case of Delphax, we have determined that the attribution of net income or loss should be based on consideration of all of Air T's investments in Delphax and its subsidiary, Delphax Canada Technologies Limited ("Delphax Canada"). Our investment in the Warrant provides that in the event that dividends are paid on the common stock of Delphax, the holder of the Warrant is entitled to participate in such dividends on a ratable basis as if the Warrant had been fully exercised and the shares of Series B Preferred Stock acquired upon such exercise had been converted into shares of Delphax common stock. This provision would have entitled Air T, Inc. to approximately 67% of any Delphax dividends paid, with the remaining 33% paid to the non-controlling interests. We concluded that this was a substantive distribution right which should be considered in the attribution of Delphax net income or loss to non-controlling interests. We furthermore concluded that our investment in the debt of Delphax should be considered in attribution. Specifically, Delphax's net losses are attributed first to our Series B Preferred Stock and Warrant investments and to the non-controlling interest (67%/33%) until such amounts are reduced to zero. Additional losses are then fully attributed to our debt investments until they too are reduced to zero. This sequencing reflects the relative priority of debt to equity. Any further losses are then attributed to Air T and the non-controlling interests based on the initial 67%/33% share. Delphax net income is attributed using a backwards-tracing approach with respect to previous losses. The effect of interest expense arising under the Senior Subordinated Note and, from January 6, 2017 to August 10, 2017, under the Delphax Senior Credit Agreement, and other intercompany transactions, are reflected in the attribution of Delphax net income or losses attributed to non-controlling interests because Delphax is a variable interest entity. As a result of the application of the above-described attribution methodology, for the quarter ended September 30, 2017, the attribution of Delphax net income to non-controlling interests was 23% and for the quarter ended September 30, 2016, the attribution of Delphax net loss to non-controlling interests was 33%.

The above-described attribution methodology applies only to our investments in Delphax. We establish the appropriate attribution methodology on an entity-specific basis. In the case of Contrail Aviation, we concluded that an attribution methodology based solely on equity ownership percentages was appropriate.

Accounting for Redeemable Non-Controlling Interest. As described in Note 2 to the consolidated financial statements, the Company is party to a put/call option agreement concerning the non-controlling ownership interest held in the Company's consolidated subsidiary, Contrail Aviation. The put/call option permits Contrail Aviation, at any time after the fifth anniversary of the Company's acquisition of Contrail Aviation, to purchase the non-controlling interest from the holder of such interest. The agreement also permits the holder of the non-controlling interest to sell such interest to Contrail Aviation. Per the agreement, the price is to be agreed upon by the parties or, failing such agreement, to be determined pursuant to third-party appraisals in a process specified in the agreement. Applicable accounting guidance requires an equity instrument that is redeemable for cash or other assets to be classified outside of permanent equity if it is redeemable (a) at a fixed or determinable price on a fixed or determinable date, (b) at the option of the holder, or (c) upon the occurrence of an event that is not solely within the control of the issuer. Based on this guidance, the Company has classified the Contrail Aviation non-controlling interest between the liabilities and equity sections of the accompanying consolidated balance sheets. If an equity instrument subject to the guidance is currently redeemable, the instrument is adjusted to its maximum redemption amount at the balance sheet date. If the equity instrument subject to the guidance is not currently redeemable but it is probable that the equity instrument will become redeemable (for example, when the redemption depends solely on the passage of time), the guidance permits either of the following measurement methods: (a) accrete changes in the redemption value over the period from the date of issuance (or from the date that it becomes probable that the instrument will become redeemable, if later) to the earliest redemption date of the instrument using an appropriate methodology, or (b) recognize changes in the redemption value immediately as they occur and adjust the carrying amount of the instrument to equal the redemption value at the end of each reporting period. The amount presented in temporary equity should be no less than the initial amount reported in temporary equity for the instrument. Because the Contrail Aviation equity instrument will become redeemable solely based on the passage of time, the Company determined that it is probable that the Contrail Aviation equity instrument will become redeemable. The Company has elected to apply the first of the two measurement options described above. An adjustment to the carrying amount of a non-controlling interest from the application of the above guidance does not impact net income or comprehensive income in the consolidated financial statements. Rather, such adjustments are treated as equity transactions.

Goodwill. The Company tests goodwill for impairment at least once annually. An impairment test will also be carried out anytime events or changes in circumstances indicate that goodwill might be impaired. Goodwill is tested for impairment at a level of reporting referred to as a reporting unit. The applicable accounting standards provide for two methods to assess goodwill for possible impairment, one qualitative and the other a two-step quantitative method. The Company is permitted to first assess qualitative factors to determine whether it is more likely than not (this is, a likelihood of more than 50 percent) that the fair value of a reporting unit is less than its carrying value, including goodwill. In qualitatively evaluating whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company assesses relevant events and circumstances such as macroeconomic conditions, industry and market developments, cost factors, and the overall financial performance of the reporting unit. If, after assessing these events and circumstances, it is determined that it is not more likely than not that the fair value of a reporting unit is less than its carrying amount, then the first and second steps of the quantitative goodwill impairment test are unnecessary. In the first step of the quantitative method, recoverability of goodwill is evaluated by estimating the fair value of the reporting unit's goodwill using multiple techniques, including a discounted cash flow model

income approach and a market approach. The estimated fair value is then compared to the carrying value of the reporting unit. If the fair value of a reporting unit is less than its carrying value, a second step is performed to determine the amount of impairment loss, if any. The second step requires allocation of the reporting unit's fair value to all of its assets and liabilities using the acquisition method prescribed under authoritative guidance for business combinations. Any residual fair value is allocated to goodwill. Impairment losses, limited to the carrying value of goodwill, represent the excess of the carrying amount of goodwill over its implied fair value.

Long-lived Assets. Long-lived assets are tested for impairment whenever events or changes in circumstances indicate the carrying value of the assets may not be recoverable. Factors which may cause an impairment include extended operating cash flow losses from the assets and management's decisions regarding the future use of assets. To conduct impairment testing, the Company groups assets and liabilities at the lowest level for which identifiable cash is largely independent of cash flows of other assets and liabilities. For assets that are to be held and used, impairment is recognized when the estimated undiscounted cash flows associated with an asset group is less than the carrying value. In the event it is determined that the carrying values of long-lived assets are in excess of the estimated undiscounted cash flows from those assets, the Company then will write-down the value of the assets by such excess. Fair values are determined considering quoted market values, discounted cash flows or internal and external appraisals, as applicable.

Marketable Securities. On a quarterly basis, the Company reviews marketable securities for declines in market value that may be considered other than temporary. Market value declines are considered to be other than temporary based on the length of time and the magnitude of the amount of each security that is in an unrealized loss position. The Company also consider the nature of the underlying investments and other market conditions or when other evidence indicates impairment. If the Company determines that an investment has other than a temporary decline in fair value, the Company recognizes the investment loss in non-operating income, net in the accompanying consolidated statements of comprehensive income (loss).

Going Concern. The Company applies ASC 205-40 Presentation of Financial Statements – Going Concern, which became effective for the Company’s fiscal year ended March 31, 2017. In connection with preparing its consolidated financial statements, Company management evaluates whether there are conditions and events, considered in the aggregate, that raise substantial doubt about the Company’s ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Seasonality

GGs’s business has historically been seasonal, with the revenues and operating income typically being lower in the first and fourth fiscal quarters as commercial deicers are typically delivered prior to the winter season. The Company had worked to reduce GGS’s seasonal fluctuation in revenues and earnings by increasing military and international sales and broadening its product line to increase revenues and earnings throughout the year. In July 2009, GGS was awarded a contract to supply deicing trucks to the USAF, which expired in July 2014. On May 15, 2014, GGS was awarded a new contract to continue supplying deicing trucks to the USAF. The initial contract award is for two years through July 13, 2016 with four additional one-year extension options that may be exercised by the USAF, the first two of which were exercised, extending the contract term to July 13, 2018. The value of the contract, as well as the number of units to be delivered, depends upon annual requirements and available funding to the USAF. Although GGS has retained the USAF deicer contract, orders under the contract have not been sufficient to offset the seasonal trend for commercial sales. As a result, GGS revenues and operating income have resumed their seasonal nature. Our other reporting segments are not as susceptible to seasonal trends.

Results of Operations

Second Quarter 2017 Compared to Second Quarter 2016

Consolidated revenues, net of intercompany eliminations, increased by \$10,339,000 (27%) to \$48,861,000 for the three-month period ended September 30, 2017 compared to the equivalent prior year period. Revenues in the overnight air cargo segment increased by \$930,000 (5%). Administrative fee revenues increased reflecting the higher

administrative fee amount paid under an amendment to the new dry-lease agreements which became effective on June 1, 2017. In addition, the segment's maintenance revenues increased as a result of the higher billable hours compared to the prior year quarter. Revenues in the ground equipment sales segment, net of intercompany eliminations, increased \$4,427,000 (40%) primarily due to increased sales of deicing truck units offset to some degree by no sales of catering trucks and flight line tow tractors. Revenues in the ground support services segment increased \$1,763,000 (25%) primarily as a result of the company's growth in new markets and services offered to new and existing customers. Revenues in the printing equipment and maintenance segment decreased by \$425,000 (25%) as a result of lost customers. Revenues in the commercial jet engines and parts segment increased \$3,830,000 (296%) due to the acquisition of AirCo and Jet Yard and significant growth in revenue from Contrail Aviation which is primarily due to new customers.

Operating expenses, net of intercompany eliminations, increased by \$10,885,000 (29%) to \$48,386,000 in the current year quarter compared to the equivalent prior period. Overnight air cargo operating expenses increased by \$474,000 (3%) to \$17,185,000 due to increases in operating costs not passed through to the customer. Pass-through costs for the overnight air cargo segment totaled \$5,915,000 and \$5,719,000 for the three-month periods ended September 30, 2017 and 2016, respectively. Ground equipment sales segment operating expenses increased \$4,505,000 (46%) driven principally by increased sales volume compared to the prior year comparable quarter and an increase in cost of sales as the truck sales mentioned above were sold out of finished goods with option modifications. Ground support services segment operating costs increased by \$1,246,000 (17%) due to increases in labor and related expenses associated with increased headcount for new business. Operating expenses of the commercial jet engines and parts segment increased \$3,923,000 due to the increased sales activity of Contrail Aviation and the acquisition of AirCo.

General and administrative expenses increased \$2,133,000 (41%) to \$7,276,000 for the three-month period ended September 30, 2017 compared to the equivalent prior year period. General and administrative expenses increased due to professional fees at the corporate level incurred in connection with the restatements of financial information reflected in the amended Form 10-K and Form 10-Q reports filed in October 2017 along with the additional operating expenses from the Conrail Aviation and AirCo acquisitions.

Consolidated operating income, net of intercompany eliminations, for the quarter ended September 30, 2017 was \$476,000 compared to operating income of \$1,022,000 principally due to operating losses at the corporate level which are outlined in the previous paragraph. Operating income for the air cargo segment increased by \$456,000 resulting from the higher administrative fee amount paid under the new dry-lease agreements, as well as maintenance revenue increase as a result of the higher maintenance billable hours during the three months ended September 30, 2017. Operating income, net of intercompany eliminations, for the ground equipment segment decreased by \$78,000 (6%). Operating results for the ground support services segment improved by \$517,000 (215%) as a result of new business and improved rates and charges.

Net non-operating income was \$284,000 for the quarter ended September 30, 2017 compared to the prior period quarter of non-operating income of \$433,000. This change is principally due to the gain on sale of marketable securities during the quarter ended September 30, 2016 that did not recur, an increase in interest expense for the quarter ended September 30, 2017 and the gain recognized on the asset retirement obligation.

During the three-month period ended September 30, 2017, the Company recorded \$281,000 in income tax expense at an effective rate of 37.0%. The Company records income taxes using an estimated annual effective tax rate for interim reporting. The individually largest factor contributing to the difference between the federal statutory rate of 34% and the Company's effective tax rate for the three-month period ended September 30, 2017 was the change in valuation allowance against Delphax's pretax activity in the period. Additionally, the estimated annual effective tax rate differs from the U. S. federal statutory rate due to the benefit for the Section 831(b) income exclusion for SAIC, the benefit for the federal domestic production activities deduction, the increase in the valuation allowance related to the Insignia unrealized impairment loss, and state income tax expense. During the three-month period ended September 30, 2016, the Company recorded \$375,000 in income tax expense which resulted in an effective tax rate of 25.8%. The individually largest factor contributing to the difference between the federal statutory rate and the Company's effective tax rate for the September 2016 quarter was the recognition of a valuation allowance against Delphax's pretax loss in the period. The income tax provision for the three-month period ended September 30, 2016 differs from the federal statutory rate due also in part to the effect of state income taxes and the federal domestic production activities deduction. Additionally, the rate for the period ended September 30, 2016 includes the estimated benefit for the exclusion of income for the Company's captive insurance company subsidiary afforded under Section 831(b).

First Six Months of Fiscal 2017 Compared to First Six Months of Fiscal 2016

Consolidated revenue increased \$27,543,000 (40%) to \$96,559,000 for the six-month period ended September 30, 2017 compared to its equivalent prior period. Revenues in the overnight air cargo segment were \$1,035,000 (3%) higher due to the increase in administrative fees payable under an amendment to the dry lease agreements effective June 1, 2017 along with an increase in billable maintenance hours. Revenues in the ground equipment sales segment, net of intercompany eliminations, increased \$6,123,000 (40%) due to the higher volume in commercial domestic deicer sales in the current year offset by lower sales of catering trucks and flight line tow tractors. The ground support services segment's revenues were up \$4,076,000 (29%), resulting from growth in new and existing markets with services to new and existing customers. Revenues in the printing equipment and maintenance segment increased by \$146,000 (3%). Revenues in the commercial jet engines and parts segment increased \$16,555,000 due to significant growth in Contrail Aviation from new customers and the sale of airframes. The increase in this segment is also attributable to the acquisition of AirCo and Jet Yard.

Operating expenses increased \$18,803,000 for the six-month period ended September 30, 2017 compared to its equivalent prior period. Overnight air cargo segment operating expenses increased \$742,000 (2%) primarily due increases in operating costs not passed through to the customers. Of the segment's \$33,110,000 of operating costs for the six months ended September 30, 2017, \$10,786,000 in costs were passed through to our air cargo customer without markup. Ground equipment sales segment operating costs, net of intercompany eliminations, increased \$5,894,000 (41%) due primarily from the increased sales volume. Ground support services segment operating expenses increased \$3,093,000 (22%) due to the same factors affecting the quarterly comparison discussed above along with the addition of four new locations and related start-up expenses. Operating expenses, net of intercompany eliminations, of the commercial jet engines and parts segment increased \$15,838,000 due to the increased sales activity of Contrail Aviation and the acquisition of AirCo and Jet Yard. General and administrative expenses increased \$2,890,000 (26%) for the six-month period ended September 30, 2017 compared to its equivalent prior period. The increase was incurred over a variety of categories with the principal components being professional fees incurred in connection with the restatements of financial information reflected in the amended Form 10-K and Form 10-Q reports filed in October 2017 along with the additional operating expenses from the Contrail Aviation and AirCo acquisitions.

Operating income for the six-month period ended September 30, 2017, net of intercompany eliminations, was \$2,688,000, compared to \$6,052,000 operating loss for the prior year comparable period. The overnight air cargo segment saw a \$293,000 (21%) increase in the operating income as a result of the impact of the new dry-lease agreements effective June 1, 2017. The ground equipment sales segment experienced a \$229,000 (21%) increase in its operating income, net of intercompany eliminations, in the six-month period ended September 30, 2017 compared to the prior year period. This is mainly due to the increase in the number of deicers sold in the current year period. The ground support services segment saw a \$984,000 (280%) increase in operating income for the period from an operating loss in the prior comparable period, as a result of the same factors affecting the second quarter discussed above. The commercial jet engines and parts segment experienced a \$718,000 increase in its operating income in the six-month period ended September 30, 2017 compared to the prior year period as a result of the significant revenue growth in Contrail Aviation and the acquisition of AirCo and Jet Yard. Operating income of the printing equipment and maintenance segment, net of intercompany eliminations, was \$492,000 for the six months ended September 30, 2017 which increased from an operating loss of \$7,019,000 in the prior-year period due to significant negative operating results for the prior year period, including related assets impairments described above that did not reoccur in the current-year period.

Net non-operating expense decreased by \$530,000 for the six-month period ended September 30, 2017 compared to the prior period net non-operating expense of \$855,000 principally due to a bargain purchase acquisition gain of \$502,000, net of tax, in connection with the acquisition of assets by AirCo in the first quarter, the gain recognized on the asset retirement obligation of \$563,000, an increase in interest expense, and the impairment loss on the investments in Insignia of \$771,000 in the current-year period compared to the impairment loss of \$1,502,000 in the prior comparable period and gain on marketable securities of \$573,000.

Pretax earnings increased by \$9,270,000 to \$2,363,000 for the six-month period ended September 30, 2017 compared to the pretax loss of \$6,907,000 of prior comparable period due principally to the significant revenue growth in Contrail Aviation and the asset impairments at Delphax in the prior-year comparable period that did not reoccur.

During the six-month period ended September 30, 2017, the Company recorded \$655,000 in income tax expense at an effective rate of 27.7%. The Company records income taxes using an estimated annual effective tax rate for interim reporting. The individually largest factor contributing to the difference between the federal statutory rate of 34% and the Company's effective tax rate for the six-month period ended September 30, 2017 was the change in valuation allowance against Delphax's pretax activity in the period. Additionally, the estimated annual effective tax rate differs from the U. S. federal statutory rate due to the benefit for the Section 831(b) income exclusion for SAIC, the benefit for the federal domestic production activities deduction, the increase in the valuation allowance related to the Insignia unrealized impairment loss, and state income tax expense. During the six-month period ended September 30, 2016, the Company recorded \$3,000 in income tax expense which resulted in an effective tax rate of -0.1%. The individually largest factor contributing to the difference between the federal statutory rate and the Company's effective tax rate for the period ending September 2016 was the recognition of a valuation allowance against Delphax's pretax loss in the period. The income tax provision for the six-month period ended September 30, 2016 differs from the federal statutory rate due also in part to the effect of state income taxes and the federal domestic production activities deduction. Additionally, the rate for the period ended September 30, 2016 includes the estimated benefit for the exclusion of income for the Company's captive insurance company subsidiary afforded under Section 831(b).

Liquidity and Capital Resources

As of September 30, 2017, the Company held approximately \$1,359,000 in cash and cash equivalents. The Company also held approximately \$890,000 in restricted cash with \$250,000 in cash held as statutory reserve of SAIC and the remaining \$640,000 pledged to secure SAIC's participation in certain reinsurance pools, and \$174,000 was invested in accounts not insured by the Federal Deposit Insurance Corporation ("FDIC").

As of September 30, 2017, the Company's working capital amounted to \$24,173,000, a decrease of \$4,417,000 compared to March 31, 2017. The Company believes that the cash position, working capital and borrowing facilities described below provide adequate liquidity for the Company's operations over the next twelve months.

As of September 30, 2017, the Company had a senior secured revolving credit facility of \$25.0 million (the "Revolving Credit Facility"). The Revolving Credit Facility includes a sublimit for issuances of letters of credit of up to \$500,000. Under the Revolving Credit Facility, the Company MAC, CSA, GGS, GAS, ATGL, Stratus Aero Partners LLC, Jet Yard and AirCo are permitted to make borrowings. Borrowings under the Revolving Credit Facility bear interest (payable monthly) at an annual rate of one-month LIBOR plus an incremental amount ranging from 1.50% to 2.00% based on a consolidated leverage ratio. In addition, a commitment fee accrues with respect to the unused amount of the Revolving Credit Facility at an annual rate of 0.15%. The Company includes commitment fee expense within the interest expense and other line item of the accompanying condensed consolidated statements of income. Amounts applied to repay borrowings under the Revolving Credit Facility may be reborrowed, subject to the terms of the facility. The Revolving Credit Facility matures on April 1, 2019.

On May 2, 2017, the Company and certain of its subsidiaries entered into an amendment to the agreement governing the Revolving Credit Facility to establish a separate \$2.4 million term loan facility under that agreement (the "Term Loan"). Each of the Company and such subsidiaries are obligors with respect to the Term Loan, which matures on May 1, 2018, with equal \$200,000 installments of principal due monthly, commencing June 1, 2017. Interest on the Term Loan is payable monthly at a per annum rate equal to 25 basis points above the interest rate applicable to the Revolving Credit Facility. The proceeds of the Term Loan were used to fund the acquisition of the AirCo business. The Term Loan is secured by the existing collateral securing borrowings under the Revolving Credit Facility, including such acquired assets. The amendment also provided that the consolidated asset coverage ratio covenant will not be measured for the fiscal quarters ending June 30, 2017, September 30, 2017 and December 31, 2017.

Pursuant to a Fifth Amendment and Waiver Agreement effective as of June 28, 2017 among the Company and the above-listed subsidiaries and the lender under the Revolving Credit Facility, the agreement governing the Revolving Credit Facility was amended to provide that the interest rates on the revolving loans and Term Loan made under the Revolving Credit Facility were each increased by an additional 0.25% per annum from the date of the amendment until the second business day after delivery of a compliance certificate for the quarter ending March 31, 2017 or any subsequent fiscal quarter end showing compliance with the financial covenants required under the Revolving Credit Facility, other than with respect to covenants as to which compliance had been waived. The compliance certificate for the quarter ended June 30, 2017 was so delivered on October 26, 2017 and accordingly, the additional 0.25% per annum additional interest ceased to accrue commencing on October 26, 2017.

Pursuant to a 2017 Amendment to Security Agreement and Consent and Waiver effective as of August 3, 2017 among Air T, MAC, GGS, CSA, GAS, ATGL, Stratus Aero Partners LLC, Jet Yard, AirCo and the lender under the Revolving Credit Facility, the lender agreed to waive the default under the agreement governing the Revolving Credit Facility arising from the failure of the Company to deliver to such lender audited consolidated financial statements for the fiscal year ended March 31, 2017 within 120 days after the end of such fiscal year and the requirement that a

subsidiary newly-organized in Ontario, Canada (the “Ontario Subsidiary”) join the agreement governing the Revolving Credit Facility as a borrower, to consent to Air T guarantying obligations of the Ontario Subsidiary under a lease for facilities in Ontario and to amend the security agreement securing obligations under the Revolving Credit Facility to, among other things, require a pledge of only 65% of the outstanding equity of foreign subsidiaries.

On August 29, 2017, the Company and the above-listed subsidiaries entered into a Sixth Amendment and Waiver Agreement effective as of August 29, 2017 with the lender under the Revolving Credit Facility to amend the Credit Agreement to extend the maturity of the Revolving Credit Facility from April 1, 2018 to April 1, 2019, to adjust the definition of “Consolidated EBITDA” to exclude from the calculation of Consolidated EBITDA, during the period from January 1, 2016 through June 30, 2017, any unrealized gains or losses attributable to the ownership of equity interests in Insignia Systems, Inc., and to waive the default arising under the Credit Agreement from the failure of the Company to deliver (i) consolidated financial statements for the fiscal quarter that ended June 30, 2017 within the time period required under the Credit Agreement and (ii) the covenant compliance certificates for the fiscal quarters that ended March 31, 2017 and June 30, 2017 within the time periods required under the Credit Agreement.

Pursuant to a Seventh Amendment and Waiver Agreement effective as of October 6, 2017 (the “Seventh Amendment”) among Air T, the above-listed subsidiaries and the lender under the Revolving Credit Facility, the lender waived the requirement that a newly-formed limited purpose subsidiary of the Company join the agreement governing the Revolving Credit Facility as a borrower and, in connection with the restatement of the Company’s consolidated financial statements for certain periods within the fiscal year ended March 31, 2017, the lender also waived compliance with the minimum tangible net worth covenant under the Revolving Credit Facility at the December 31, 2016 and March 31, 2017 measurement dates.

Borrowings under the Revolving Credit Facility, together with hedging obligations, if any, owing to the lender under the Revolving Credit Facility or any affiliate of such lender, are secured by a first-priority security interest in substantially all assets of the Company and the other borrowers (including, without limitation, accounts receivable, equipment, inventory and other goods, intellectual property, contract rights and other general intangibles, cash, deposit accounts, equity interests in subsidiaries and joint ventures, investment property, documents and instruments, and proceeds of the foregoing), but excluding interests in real property.

The agreement governing the Revolving Credit Facility contains affirmative and negative covenants, including covenants that restrict the ability of the Company and the other borrowers to, among other things, incur or guarantee indebtedness, incur liens, dispose of assets, engage in mergers and consolidations, make acquisitions or other investments, make changes in the nature of their business, enter into certain operating leases, and make certain capital expenditures. The credit agreement governing the Revolving Credit Facility also contains financial covenants, including a minimum consolidated tangible net worth of \$18.0 million plus, on a cumulative basis and commencing with the fiscal year ended March 31, 2017, 50% of consolidated net income for the fiscal year then ended, a minimum consolidated fixed charge coverage ratio of 1.35 to 1.0, a minimum consolidated asset coverage ratio of 1.50 to 1.0 for the quarter ended March 31, 2017 and 1.75 to 1.0 thereafter (though the consolidated asset coverage ratio is not to be tested under the agreement governing the Revolving Credit Facility for the quarters ended June 30, 2017 and September 30, 2017 and the quarter ending December 31, 2017), a maximum consolidated leverage ratio of 3.5 to 1.0, and a covenant limiting the aggregate amount of assets the Company and its subsidiaries lease, or hold for leasing, to others to no more than \$5,000,000 at any time. The Company was not in compliance with the maximum consolidated leverage ratio covenant as of the March 31, 2017, December 31, 2016 and September 30, 2016 measurement dates and was not in compliance with the minimum tangible net worth covenant at the December 31, 2016 and March 31, 2017 measurement dates. The lender has waived compliance with these covenants as of those measurement dates and has agreed that the maximum consolidated leverage ratio covenant was not to be tested at the June 30, 2017 measurement date. Had the maximum consolidated leverage ratio covenant been tested at the June 30, 2017 measurement date, the Company would have been in compliance. The Company was not in compliance with the consolidated capital expenditures and assets held for lease covenants at September 30, 2017. The lender has waived the non-compliance caused by the Company's capital expenditures and additions to assets held for lease and modified the covenant for the remainder of fiscal year 2018 to allow for a defined amount of routine capital expenditures. The agreement governing the Revolving Credit Facility contains events of default including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, misrepresentation, cross-default to other debt, bankruptcy and other insolvency events, judgments, certain ERISA events, certain changes of control of the Company, termination of, or modification to materially reduce the scope of the services required to be provided under, certain agreements with FedEx, and the occurrence of a material adverse effect upon the Company and the other borrowers as a whole.

The Company is actively working to refinance its credit facility with the current lender and is seeking proposals from other funding sources. The Company anticipates this process will be completed by March 31, 2018.

The Company is exposed to changes in interest rates on its prior line of credit and its current revolving credit facility. If the LIBOR interest rate had been increased by one percentage point, based on the weighted average balance outstanding for the year, the change in annual interest expense would have been negligible.

As of September 30, 2017, the Company had outstanding borrowings under the Revolving Credit Facility of approximately \$13.9 million, and availability to borrow an additional approximately \$11.1 million.

At September 30, 2017, the annual interest rate applicable to borrowings under the Revolving Credit Facility was one-month “LIBOR” rate plus 225 basis points. The one-month LIBOR rate at September 30, 2017 was approximately 1.24%. The Company was in compliance with all covenants under this credit facility at September 30, 2017.

On October 31, 2016, the Company and its subsidiaries, MAC, GGS, CSA, GAS, ATGL, Jet Yard and Stratus Aero Partners, LLC, entered into a Loan Agreement dated as of October 31, 2016, (the “Construction Loan Agreement”) with the lender to borrow up to \$1,480,000 to finance the acquisition and development of the Company’s new corporate headquarters facility located in Denver, North Carolina. Under the Construction Loan Agreement, the Company was permitted to make monthly drawings to fund construction costs until October 2017. Borrowings under the Construction Loan Agreement bear interest at the same rate charged under the Revolving Credit Facility. Monthly interest payments began in November 2016. Monthly principal payments (based on a 25-year amortization schedule) are to commence in November 2017, with the final payment of the remaining principal balance due in October 2026. Borrowings under the Construction Loan Agreement are secured by a mortgage on the new headquarters facility and a collateral assignment of the Company’s rights in life insurance policies with respect to certain former executives, as well as the same collateral securing borrowings under the Revolving Credit Facility. At September 30, 2017, outstanding borrowings under the Construction Loan were \$1,474,000. The Construction Loan includes the same covenants as noted in the Revolving Credit Facility. See discussion above regarding those covenants.

On May 5, 2017, Contrail Aviation Support, LLC (“Contrail”), a partially owned subsidiary of the Company, entered into a Business Loan Agreement (the “Loan Agreement”) with Old National Bank. The Loan Agreement provides for revolving credit borrowings by Contrail in an amount up to \$15,000,000 and replaces the revolving credit facility that Contrail had entered into with BMO Harris Bank N.A on July 18, 2016. Borrowings under the Loan Agreement will bear interest at an annual rate equal to one-month LIBOR plus 3.00%. At September 30, 2017, \$4,913,000 of aggregate borrowings were outstanding under the loan agreement and \$10,100,000 million was available for borrowing.

The obligations of Contrail under the Loan Agreement are secured by a first-priority security interest in substantially all of the assets of Contrail and are also guaranteed by the Company, with such guaranty limited in amount to a maximum of \$1,600,000 plus interest on such amount at the rate of interest in effect under the Loan Agreement, plus costs of collection.

The Loan Agreement contains affirmative and negative covenants, including covenants that restrict Contrail’s ability to make acquisitions or investments, make certain changes to its capital structure, and engage in any business substantially different than it presently conducts. The Loan Agreement also contains financial covenants applicable to Contrail, including maintenance of a Cash Flow Coverage Ratio of 2.0 to 1.0, a Tangible Net Worth of not less than \$3,500,000, and a Debt Service Coverage Ratio of 1.1 to 1.0, as such terms are defined in the Loan Agreement.

The Loan Agreement contains Events of Default, as defined, including, without limitation, nonpayment of principal, interest or other obligations, violation of covenants, if both Contrail’s current chief executive officer and chief financial officer cease to oversee day-to-day operations of Contrail, cross-default to other debt, bankruptcy and other insolvency events, actual or asserted invalidity of loan documentation, or material adverse changes in Contrail’s financial condition. At September 30, 2017, Contrail was in compliance with these covenants.

On October 27, 2017 Airco 1, LLC, a wholly-owned subsidiary of Airco, LLC, closed a loan in the amount of \$3,441,000 from Minnesota Bank & Trust in order to finance, in part, the purchase of a 737-800 airframe for the purpose of disassembling the plane and selling it for parts. The plane will be disassembled by Jet Yard, LLC, an affiliate, and the parts will be sold on consignment to Airco, LLC, which will market them to third parties. Airco 1, LLC is a special purpose entity formed for the purpose of this transaction. The loan contains affirmative and negative covenants and is secured by a security interest in all of Airco 1, LLC’s assets, a collateral assignment of the purchase agreement for the plane, assignments of the disassembly contract and the consignment agreement, and bailee agreements with Jet Yard, LLC and Airco, LLC. Airco, LLC is a wholly-owned subsidiary of Stratus Aero Partners LLC.

The Company assumes various financial obligations and commitments in the normal course of its operations and financing activities. Financial obligations are considered to represent known future cash payments that the Company is required to make under existing contractual arrangements such as debt and lease agreements.

Cash Flows

Following is a table of changes in cash flow for the six-month periods ended September 30, 2017 and 2016:

	Six Months Ended September 30,	
	2017	2016
Net Cash Provided by (Used in) Operating Activities	\$7,036,000	\$(13,753,000)
Net Cash Used in Investing Activities	(11,892,000)	(2,189,000)
Net Cash Provided by Financing Activities	3,434,000	12,795,000
Effect of foreign currency exchange rates on cash and cash equivalents	18,000	(7,000)
Net Decrease in Cash and Cash Equivalents	\$(1,404,000)	\$(3,154,000)

Cash provided by operating activities was \$20,789,000 more for the six-month period ended September 30, 2017 compared to the prior year period principally due to the net income generated during the period, the decrease in inventory, and the increase in accounts payable and accrued expenses.

Cash used in investing activities for the six-month period ended September 30, 2017 was \$9,703,000 more than the comparable prior year period due primarily to \$2,900,000 cash required for business combinations and capital expenditures of \$8,259,000 during the six-months ended September 30, 2017.

Cash provided by financing activities for the six-month period ended September 30, 2017 was \$9,361,000 less compared to the prior year period. This was primarily due to increases in payments on the Company's lines of credit and on the term loan compared to the prior year period.

Impact of Inflation

The Company believes that inflation has not had a material effect on its operations, because increased costs to date have generally been passed on to its customers. Under the terms of its overnight air cargo business contracts the major cost components of its operations, consisting principally of fuel, and certain other direct operating costs, and certain maintenance costs are reimbursed by its customer. Significant increases in inflation rates could, however, have a material impact on future revenue and operating income.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable.

Item 4. Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer, referred to collectively herein as the Certifying Officers, are responsible for establishing and maintaining our disclosure controls and procedures that are designed to ensure that information relating to the Company required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, including ensuring that such information is accumulated and communicated to the Company's management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. The Certifying Officers have reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 240.13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934) as of September 30, 2017. As a result of material weaknesses in internal control over financial reporting described below which had not been remediated as of September 30, 2017, our Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2017, the Company's disclosure controls and procedures were not effective.

As disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2017, in connection with the assessment of the effectiveness of the Company's internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f), as of March 31, 2017, the Company's Chief Executive Officer

and Chief Financial Officer concluded that the Company's internal control over financial reporting as of March 31, 2017 was not effective as a result of a number of material weaknesses. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our consolidated annual or interim financial statements will not be prevented or detected on a timely basis. Our management has concluded that, as of March 31, 2017, the following material weaknesses existed:

A weakness with respect to internal controls over revenue recognition. We determined a lack of formalized procedures for the documentation of revenue arrangements at GAS, including a lack of procedures requiring service contracts to be signed by all parties, for documentation of oral service contracts and acceptance of parts and services by customers, and to confirm that invoices are appropriately sent to customers.

Additionally, we identified a weakness in our GGS segment's process to determine both 1) when to apply the completed contract method for certain contracts with the U.S. Government or related prime contractors and 2) when contracts for which we apply the completed contract method are "substantially complete" for revenue recognition purposes;

A lack of an effective internal control environment at Delphax, including insufficient account reconciliation, financial statement review, and segregation of duties controls, as well as a lack of procedures for the proper maintenance of records to support balances within Delphax's financial statements;

A lack of effective internal controls for the analysis of the accounting guidance applicable to recognition of our investments in Delphax. Specifically, our previous conclusions that Delphax was a VIE and that Air T was Delphax's primary beneficiary were based in part on considerations which were not supportable under GAAP;

An application of an inappropriate methodology for attributing the net income or loss of Delphax to the non-controlling interests. Specifically, our attribution was based solely on our ownership of the Series B Preferred Stock rather than on a methodology that gave appropriate consideration to all of Air T's investments in Delphax and Delphax Canada. As a result of our failure to establish an appropriate attribution methodology it was necessary to restate our fiscal year 2016 consolidated financial statements originally included on Form 10-K for the fiscal year ended March 31, 2016 and our unaudited condensed consolidated financial statements originally included on Form 10-Q for the periods ended December 31, 2015, June 30, 2016, September 30, 2016, and December 31, 2016; and

- A weakness with respect to internal controls over monitoring compliance with financial covenants stipulated by our senior secured revolving credit facility.

In addition, our management has concluded that during the quarter ended September 30, 2017, the following material weakness existed:

- Lack of effective internal control for the analysis of the accounting guidance applicable to the foreclosure and bankruptcy of Delphax Canada.

The Company's Chief Executive Officer and Chief Financial Officer have determined that these material weaknesses had not been remediated as of September 30, 2017. In light of the material weaknesses discussed above, we performed additional analyses and procedures in order to conclude that our consolidated financial statements in this report are fairly presented, in all material respects, in accordance with U.S. generally accepted accounting principles.

The Company's development of its plan to remediate these material weaknesses is ongoing. While such plan has not yet been completed, the Company's plan will include the following elements:

- Establishment of written procedures at GAS for the documentation of revenue arrangements, including procedures for the receipt, retention and review of written agreements including implementation of contract management software for confirming that all customer relationships are indexed by written contracts executed by both parties and review and retention of evidence of delivery of parts and customer acceptance of services, as applicable, and procedures for the confirmation of the timely transmission of customer invoices, active monitoring of aging invoices and training of GAS accounting personnel with respect to such procedures. Additionally, the formalization of GGS' process of determining both when application of the completed contract method for certain contracts with the U.S. Government or related prime contractors is appropriate and when, for contracts for which we apply the completed contract method, our performance is "substantially complete" for revenue recognition purposes;

- Further engagement of accounting consultants to assist the Company with respect to accounting for complex accounting transactions; and

• Timely consultation with our senior lender, including receipt of associated written confirmation, regarding any points of interpretation with respect to covenant provisions and definitions.

With respect to the deficiencies in internal control over financial reporting at Delphax described above, the Company's plan for remediation will be developed following consultation with Delphax. The Company currently contemplates that such plan will include ensuring sufficient capabilities to permit Delphax to timely comply with audit requests, and implementation of additional controls with respect to access to the Delphax payroll module and controls with respect to appropriate record retention.

There has not been any change, except for the identification of the additional material weakness noted above, in the Company's internal control over financial reporting in connection with the evaluation required by Rule 13a-15(d) under the Exchange Act that occurred during the quarter ended September 30, 2017 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II -- OTHER INFORMATION

Item 1 A. Risk Factors

We may not realize the anticipated benefits of acquisitions and acquisitions may expose us to successor liabilities and other risks.

Recently, we have been an active acquirer of other businesses, as part of our strategy involves acquisitions designed to expand and enhance our businesses. Our ability to benefit from acquisitions involves a number of risks, including our ability to identify suitable prospects, access funding sources on acceptable terms, negotiate favorable transaction terms and successfully consummate and integrate any businesses we acquire. Our acquisition activities may involve unanticipated delays, costs or other problems. If we encounter unexpected problems with one of our acquisitions, our management may be required to divert attention away from other aspects of our businesses to address these problems. Additionally, we may fail to consummate proposed acquisitions, after incurring expenses and devoting substantial resources, including management time, to such transactions.

Acquisitions, including acquisitions structured as asset purchase transactions or acquisitions of assets through foreclosure, also pose the risk that we may be exposed to successor liability relating to actions by an acquired business before the acquisition. Any contractual guarantees or indemnities that we receive from the sellers of acquired businesses may not be sufficient to protect us from, or compensate us for, actual liabilities. A material liability associated with an acquisition could adversely affect our results of operations and reduce the benefits of the acquisition. Additionally, acquisitions involve other risks, such as differing levels of management and internal control effectiveness at the acquired entities, systems integration risks, the risk of impairment charges relating to goodwill and intangible assets recorded in connection with acquisitions, the risk of significant accounting charges resulting from the completion and integration of a sizeable acquisition, the need to fund increased capital expenditures and working capital requirements, our ability to retain and motivate employees of acquired entities and other unanticipated problems and liabilities.

Item 6. Exhibits

(a) Exhibits

No. Description

Sixth Amendment and Waiver Agreement effective as of August 29, 2017 among Air T, Inc., Mountain Air Cargo, Inc., Global Ground Support, LLC, CSA Air, Inc., Global Aviation Services, LLC, Air T Global Leasing, 10.1 LLC, Stratus Aero Partners LLC, Jet Yard, LLC, Airco, LLC, Airco Services, LLC and Branch Banking and Trust Company, incorporated by reference to Exhibit 10.1 to the Company's Current Report on Form 8-K dated September 5, 2017 (Commission File No. 001-35476)

31.1 Section 302 Certification of Chief Executive Officer and President

31.2 Section 302 Certification of principal financial officer

32.1 Section 1350 Certifications

The following financial information from the Quarterly Report on Form 10-Q for the quarter ended September 30, 2017, formatted in XBRL (Extensible Business Reporting Language): (i) Condensed Consolidated Statements of 101 Income, (ii) the Condensed Consolidated Balance Sheets, (iii) the Condensed Consolidated Statements of Cash Flows, (iv) the Condensed Consolidated Statements of Stockholders Equity, and (v) the Notes to the Condensed Consolidated Financial Statements.
