Notes to Financial Statements

June 30, 2018

(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited financial statements of CKX Lands, Inc. (“Company”) have been prepared in accordance with United States generally accepted accounting principles for interim financial information. They do *not* include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. Except as described herein, there has been *no* material change in the information disclosed in the notes to the financial statements included in our financial statements as of and for the year ended *December 31, 2017*. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included in the accompanying financial statements. Certain amounts have been reclassified to conform to the current period’s presentation, including oil and gas, timber, and surface, from general and administrative costs and expenses on the statements of income.

In *May 2014*, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes most current revenue recognition guidance, including industry-specific guidance. Subsequently, the FASB has issued updates which provide additional implementation guidance. The new guidance requires companies to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration it expects to be entitled to in exchange for those goods or services. We adopted this guidance in the *first* quarter of *2018* applying the modified retrospective approach. We have completed our review of all revenue sources in scope for the new standard, and stumpage agreements are within this scope. In accordance with the new standard, the basis for determining revenue and expenses allocable to stumpage agreements (timber revenue) was *not* modified. There was *no* net cumulative effect adjustment for this change as of *January 1, 2018*.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230)*, which provides guidance requiring companies to report net cash provided or used by operating, investing and financing activities and the net effect of those flows on the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents during the period. The statement of cash flows shall report that information in a manner that reconciles beginning and ending totals of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. The companies shall also disclose information about the nature of the restrictions on restricted cash and restricted cash equivalents. We adopted this guidance in the first quarter of 2018. In accordance with the new standard, no modification to our presentation for restricted cash was made.

Interim results are *not* necessarily indicative of results for a full year. These financial statements and accompanying notes should be read in conjunction with the Company's Form 10-K for the year ended *December 31, 2017* and Form 10-Q for the quarterly period ended *June 30, 2018*.

Note 2. Income Taxes

In accordance with generally accepted accounting principles, the Company has analyzed its filing positions in federal and state income tax returns that remain subject to examination, generally 3 years after filing. The Company believes that all filing positions are highly certain and that all income tax filing positions and deductions would be sustained upon a taxing jurisdiction's audit. Therefore, *no* reserve for uncertain tax positions is required. *No* interest or penalties have been levied against the Company and *none* are anticipated.

Note 3. Company Operations

The Company's operations are classified into *three* principal operating segments that are all located in the United States: oil and gas, timber and surface. The Company's reportable business segments are strategic business units that offer income from different products. They are managed separately due to the unique aspects of each area.

CKX Lands, Inc.**Notes to Financial Statements***June 30, 2018***(Unaudited)**

Following is a summary of segmented operations information for the *six* months ended *June 30, 2018* and *2017*, respectively:

Timber	14,713	--
Surface	--	--
General Corporate Assets	467	467
Total	\$15,180	\$467

There are *no* intersegment sales reported in the accompanying income statements. The accounting policies of the segments are the same as those described in the summary of significant accounting policies in the Company's Form 10-K for the year ended *December 31, 2017*. The Company evaluates performance based on income or loss from operations before income taxes excluding any nonrecurring gains and losses on securities held available-for-sale. Income before income tax represents net revenues less costs and expenses less other income and expenses of a general corporate nature. Identifiable assets by segment are those assets used solely in the Company's operations within that segment.

Note 3. Company Operations (continued)

Revenue from customers representing 5% or more of total revenue for the *six* months ended *June 30, 2018* and *2017*, respectively are:

Count	2018	2017
1	\$250,334	\$179,292
2	77,137	80,210
3	73,110	54,154
4	47,567	42,513
5	38,333	38,333

Note 4. Cash – Restricted

During the *first* quarter of *2018*, the company closed on the sale of *four* parcels of land all of which were structured as a “deferred exchange using a qualified intermediary” pursuant to Paragraph *1031* of the Internal Revenue Code (*1031* Exchange) for income tax purposes. The net proceeds from these transactions of *\$993,160* of which *\$873,355* remained in the Cash-Restricted amount at *June 30, 2018*. Subsequent to *March 31, 2018*, identified properties for the purposes of the *1031* Exchange were deemed *not* acceptable after preliminary due diligence. The *1031* Exchange will *not* be completed. The related tax expense on the gain from these sales has been accrued at *June 30, 2018*.

The following table provides a reconciliation of cash and cash-restricted reported within the balance sheet that sum to the total of the same such amounts shown in the statement of cash flows.

June 30,
2018

Cash	\$795,332
Cash-restricted	873,355
Cash and cash-restricted	\$1,668,687

Note 5. Dividend Declaration

On *March 22, 2018*, the Company declared a dividend of *twelve (\$0.12)* cents per common share payable to shareholders of record date as of *April 5, 2018* and payment date of *April 12, 2018*.

Note 6. Related Party Transactions

On *April 17, 2017*, the Company entered into an option to lease agreement (“OTL”) with Stream Wetlands Services, LLC (“Stream”). Under the terms of the OTL, Stream paid the Company \$38,333 during the quarter ended *March 31, 2018* for an extension of an exclusive right to evaluate and market certain lands owned by the Company to their client for beneficial use purposes to compensate for wetlands impact through *February 28, 2019*. Stream *may* extend the OTL for up to *two (2)* successive periods of *twelve (12)* months. If Stream is chosen to perform their client’s project, the Company has agreed to put forth its best efforts to negotiate and enter into a mutually acceptable lease form. Due to the uncertainty of the contract award and project scope, we are unable to estimate the potential financial benefit, if any, to the Company. William Gray Stream, a prior Company Director, is the president of Stream Wetlands Services, LLC.

**Item MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS
2. OF OPERATIONS**

Results of Operations

Revenue

Comparison of Revenues for the three months ended June 30, 2018 and 2017 follows:

	2018	2017	\$ Change	% Change
Oil and Gas	286,255	333,362	(47,107)	(14.13)%
Timber	355,008	8,966	346,042	3,859.49%
Surface	99,465	253,448	(153,983)	(60.76)%
Total	740,728	595,776	144,952	24.33 %

Oil and Gas

CKX leases its property to oil and gas operators and collects income through its land ownership in the form of oil and gas royalties and lease rentals and geophysical revenues. A breakdown of oil and gas revenues follows:

	2018	2017	\$ Change	% Change
Oil	230,249	245,441	(15,192)	(6.19)%
Gas	51,520	80,254	(28,734)	(35.80)%
Lease and Geophysical	4,486	7,667	(3,181)	(41.49)%
Total	286,255	333,362	(47,107)	(14.13)%

CKX received oil and/or gas revenues from 87 and 95 wells during the three-month period ended June 30, 2018 and 2017, respectively.

The following schedule summarizes barrels and MCF produced and average price per barrel and per MCF.

	2018	2017
Net oil produced (Bbl) ⁽²⁾	3,247	4,305
Average oil sales price (per Bbl) ^(1,2)	\$63.18	\$50.40
Net gas produced (MCF)	15,248	23,746
Average gas sales price (per MCF) ⁽¹⁾	\$3.38	\$3.38

Notes to above schedule:

(1) Before deduction of production costs and severance taxes.

(2) Excludes plant products.

Oil and Gas revenues decreased by \$43,926 from 2017 revenues. As indicated from the schedule above the net decrease was due to increases in the average price per barrel and decreases in barrels of oil produced, MCF of gas produced, and the average price per MCF.

**Item MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS
2. OF OPERATIONS (continued)**

Lease and geophysical revenues were \$4,486 in 2018 and \$7,667 in 2017 amounts. These revenues are dependent on oil and gas producers' activities, are not predictable and can vary significantly from year to year.

Management believes oil and gas activity is driven by the current and forecasted commodity prices, demand for oil and gas, and upstream and downstream industry activity. Based on available public information, management believes that oil and gas activity which includes oil and gas production as well as lease rentals will be comparable to 2017 annual reported amounts.

During the first six months of 2018, the Company received \$355,008 in timber revenues. In 2017, the Company received 8,966 in timber revenues. We believe the increase in revenues is due to our continued marketing of our timber and securing stumpage agreements over the last couple of years and dryer weather. We believe the market will continue to be challenging during 2018.

Surface revenue decreased \$153,983 from 2017 revenues primarily due to no revenue related to pipeline right of way agreements were received in 2018. As previously noted by management, pipeline, utility and other right of ways are not unusual to the Company however, these types of revenue are not predictable and can vary significantly from year to year.

Costs and Expenses

Timber costs increased by \$29,271 in 2018 due to the increased timbers revenue occurring in the first six months of 2018.

Surface costs decreased by \$10,345 in 2018 due to lower repair and maintenance cost and no legal contract review.

General and administrative expenses increased by \$16,076 primarily due to increased officer salaries for land disposition administration, increased transfer agent fees and public company fees, increased general and administrative expenses and decreases in legal fees related to SEC reporting and director fees.

Financial Condition

Current assets totaled \$4,016,359 and current liabilities equaled \$161,556 at June 30, 2018.

In the opinion of management, cash and cash equivalents, and certificates of deposit are adequate for projected operations and possible land acquisitions.

The Company declared and paid twelve cents per common share dividend during the quarter ended March 31, 2018. During the first quarter of each future calendar year, the Company anticipates determining if a dividend will be declared. In determining whether a dividend will be declared, the board of directors will take into account the Company's prior fiscal year's cash flows from operations and current economic conditions among other information deemed relevant.

Issues and Uncertainties

This quarterly report contains forward-looking statements. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those discussed below, which, among others, should be considered in evaluating the Company's financial outlook.

**Item MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS
2. OF OPERATIONS (continued)**

The Company's business and operations are subject to certain risks and uncertainties, including:

Reliance upon Oil and Gas Discoveries

The Company's most significant risk is its reliance upon others to perform exploration and development for oil and gas on its land. Future income is dependent on others finding new production on the Company's land to replace present production as it is depleted. Oil and gas prices as well as new technology will affect the possibility of new discoveries.

Commodity Prices

Most of the Company's operating income comes from the sale of commodities produced from its lands: oil and gas, and timber. Fluctuations in these commodity prices will directly impact net income.

Natural Disasters

The Company has approximately 10,612 net acres of timberland (pine and hardwood) in various stages of growth or age classes. A typical pine timber stand will be harvested after 30 to 35 years of growth with some thinning occurring during this time. A hardwood stand will be harvested after 45 to 50 years of growth. A natural disaster can have a material adverse effect on timber growth, reducing its value. Natural disasters could include a hurricane, tornado, high winds, heavy rains and flooding, and/or fire cause by lightning.

Item 3. Not applicable.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of the Company's management, including the President, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by the report.

Changes in Internal Control Over Financial Reporting

There were no significant changes with respect to the Company's internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the quarter covered by this report.
