

LPL Investment Holdings Inc.

Form 10-Q

November 02, 2011

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2011

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 001-34963

LPL Investment Holdings Inc.

(Exact name of registrant as specified in its charter)

Delaware

20-3717839

(State or other jurisdiction of
incorporation or organization)

(I.R.S. Employer
Identification No.)

One Beacon Street, Boston, MA 02108

(Address of Principal Executive Offices) (Zip Code)

(617) 423-3644

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☒ Smaller reporting company ☐
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

☐ Yes ☒ No

The number of shares of Common Stock, par value \$0.001 per share, outstanding as of October 26, 2011 was 110,378,484.

WHERE YOU CAN FIND MORE INFORMATION

We are required to file annual, quarterly and current reports and other information required by the Securities Exchange Act of 1934, as amended (the “Exchange Act”), with the Securities and Exchange Commission, or SEC. You may read and copy any document we file with the SEC at the SEC’s public reference room located at 100 F Street, N.E., Washington, D.C. 20549, U.S.A. Please call the SEC at 1-800-SEC-0330 for further information on the public reference room. Our SEC filings are also available to the public from the SEC’s internet site at <http://www.sec.gov>.

On our internet website, <http://www.lpl.com>, we post the following recent filings as soon as reasonably practicable after they are electronically filed with or furnished to the SEC: our annual reports on Form 10-K, our quarterly reports on Form 10-Q, our current reports on Form 8-K, and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act. Hard copies of all such filings are available free of charge by request via email (investor.relations@lpl.com), telephone (617) 897-4574, or mail (LPL Financial Investor Relations at One Beacon Street, 22nd Floor, Boston, MA 02108). The information contained or incorporated on our website is not a part of this Quarterly Report on Form 10-Q.

When we use the terms “LPLIH”, “we”, “us”, “our”, and the “Company” we mean LPL Investment Holdings Inc., a Delaware corporation, and its consolidated subsidiaries, taken as a whole, unless the context otherwise indicates.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Item 2 — “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and other sections of this Quarterly Report on Form 10-Q contain forward-looking statements (regarding future financial position, budgets, business strategy, projected costs, plans, objectives of management for future operations, and other similar matters) that involve risks and uncertainties. Forward-looking statements can be identified by words such as “anticipates”, “expects”, “believes”, “plans”, “predicts”, and similar terms. Forward-looking statements are not guarantees of future performance and there are important factors that could cause our actual results, level of activity, performance or achievements to differ materially from the results, level of activity, performance or achievements expressed or implied by the forward-looking statements including, but not limited to, changes in general economic and financial market conditions, fluctuations in the value of assets under management, effects of competition in the financial services industry, changes in the number of our financial advisors and institutions and their ability to effectively market financial products and services, the effect of current, pending and future legislation and regulation and regulatory actions. In particular, you should consider the numerous risks outlined in Part I, Item 1A— “Risk Factors” in our 2010 Annual Report on Form 10-K filed with the SEC.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance or achievements. You should not rely upon forward-looking statements as predictions of future events. Unless required by law, we will not undertake and we specifically disclaim any obligation to release publicly the result of any revisions which may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of events, whether or not anticipated. In that respect, we wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made.

Table of Contents

LPL INVESTMENT HOLDINGS INC. AND SUBSIDIARIES

Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Organization and Description of the Company

LPL Investment Holdings Inc. (“LPLIH”), a Delaware holding corporation, together with its consolidated subsidiaries (collectively, the “Company”) provides an integrated platform of proprietary technology, brokerage and investment advisory services to independent financial advisors and financial advisors at financial institutions (collectively “advisors”) in the United States. Through its proprietary technology, custody and clearing platforms, the Company provides access to diversified financial products and services enabling its advisors to offer independent financial advice and brokerage services to retail investors (their “clients”).

2. Basis of Presentation

Quarterly Reporting — The unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). These unaudited condensed consolidated financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair statement of the results for the interim periods presented. These adjustments are of a normal recurring nature. The Company’s results for any interim period are not necessarily indicative of results for a full year or any other interim period. Certain reclassifications were made to previously reported amounts in the unaudited condensed consolidated financial statements and notes thereto to make them consistent with the current period presentation.

The unaudited condensed consolidated financial statements do not include all information and notes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with generally accepted accounting principles in the United States of America (“GAAP”). Accordingly, these financial statements should be read in conjunction with the Company’s audited consolidated financial statements and the related notes for the year ended December 31, 2010, contained in the Company’s Annual Report on Form 10-K as filed with the SEC. The Company has evaluated subsequent events up to and including the date these unaudited condensed consolidated financial statements were issued.

Consolidation — These unaudited condensed consolidated financial statements include the accounts of LPLIH and its subsidiaries. Intercompany transactions and balances have been eliminated. Equity investments in which the Company exercises significant influence but does not exercise control and is not the primary beneficiary are accounted for using the equity method.

Use of Estimates — The preparation of the unaudited condensed consolidated financial statements in conformity with GAAP requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities, revenue and expenses and related disclosures of contingent assets and liabilities. On an on-going basis, the Company evaluates estimates, including those related to revenue and related expense recognition, asset impairment, valuation of accounts receivable, valuation of financial derivatives, contingencies and litigation, valuation and recognition of share-based payments and income taxes. These accounting policies are stated in the notes to the audited consolidated financial statements for the year ended December 31, 2010, contained in the Annual Report on Form 10-K as filed with the SEC. These estimates are based on the information that is currently available and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could vary from these estimates under different assumptions or conditions and the differences may be material to the unaudited condensed consolidated financial statements.

Reportable Segment — The Company’s internal reporting is organized into three service channels; Independent Advisor Services, Institution Services and Custom Clearing Services, which are designed to enhance the services provided to its advisors and financial institutions. These service channels qualify as individual operating segments, but are aggregated and viewed as one single reportable segment due to their similar economic characteristics, products and services, production and distribution process, regulatory environment and quantitative thresholds.

Table of Contents

Fair Value of Financial Instruments — The Company’s financial assets and liabilities are carried at fair value or at amounts that, because of their short-term nature, approximate current fair value, with the exception of its indebtedness. The Company carries its indebtedness at amortized cost and measures the implied fair value of its debt instruments using trading levels obtained from a third-party service provider. As of September 30, 2011, the carrying amount and fair value of the Company’s indebtedness was approximately \$1,336 million and \$1,323 million, respectively. As of December 31, 2010, the carrying amount and fair value were approximately \$1,387 million and \$1,390 million, respectively. See Note 5 for additional detail regarding the Company’s fair value measurements.

Acquisitions — The Company accounts for acquisitions as business combinations, and recognizes, separately from goodwill, assets acquired and liabilities assumed at their respective fair values as of the acquisition date. Goodwill as of the acquisition date is measured as the excess of consideration transferred and the net of the acquisition date fair values of the assets acquired and the liabilities assumed.

Recently Issued Accounting Pronouncements — Recent accounting pronouncements or changes in accounting pronouncements during the nine months ended September 30, 2011, as compared to the recent accounting pronouncements described in the Company’s 2010 Annual Report on Form 10-K, that are of significance, or potential significance, to the Company are discussed below.

In May 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2011-04, Fair Value Measurement (Topic 820)—Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (“ASU 2011-04”), which clarifies the wording and disclosures required in Accounting Standards Codification (“ASC”) Topic 820, Fair Value Measurement (“ASC 820”), to converge with those used in International Financial Reporting Standards. The update explains how to measure and disclose fair value under ASC 820. However, the FASB does not expect the changes in this standard’s update to alter the current application of the requirements in ASC 820. The provisions of ASU 2011-04 are effective for public entities prospectively for interim and annual periods beginning after December 15, 2011, and early adoption is prohibited. Therefore, ASU 2011-04 is effective for the Company during the first quarter of fiscal 2012. The Company does not expect ASU 2011-04 to have a material impact on its results of operations, financial condition, or cash flows. In June 2011, the FASB issued ASU No. 2011-05, Comprehensive Income (ASC Topic 220)—Presentation of Comprehensive Income (“ASU 2011-05”), which amends current comprehensive income guidance by eliminating the option to present the components of other comprehensive income as part of the statement of stockholders’ equity. Instead, the Company must report comprehensive income in either a single continuous statement of comprehensive income which contains two sections, net income and other comprehensive income, or in two separate but consecutive statements. ASU 2011-05 will be effective for public companies during the interim and annual periods beginning after December 15, 2011, with early adoption permitted. The Company does not anticipate the adoption of ASU 2011-05 to have a material impact on its results of operations, financial condition, or cash flows as the only requirement is a change in the format of the current presentation.

In September 2011, the FASB issued ASU No. 2011-08, Goodwill and Other (ASC Topic 350)—Testing Goodwill for Impairment (“ASU 2011-08”), which updated guidance on the periodic testing of goodwill for impairment. This guidance will allow companies to assess qualitative factors to determine if it is more-likely-than-not that goodwill might be impaired and whether it is necessary to perform the two-step goodwill impairment test required under current accounting standards. ASU 2011-08 will be effective for public companies during annual periods beginning after December 15, 2011, with early adoption permitted. The Company has elected to adopt ASU 2011-08 on the first day of its fourth fiscal quarter (October 1), coinciding with its 2011 annual goodwill impairment test. The Company does not anticipate the adoption of ASU 2011-08 to have a material impact on its results of operations, financial condition, or cash flows.

3. Acquisitions

National Retirement Partners, Inc.

On July 14, 2010, the Company announced a definitive agreement pursuant to which it would acquire certain assets of National Retirement Partners, Inc. (“NRP”). NRP’s advisors offer retirement products, consulting, and investment

services to retirement plan sponsors and plan participants as well as comprehensive financial services to plan participants. This strategic acquisition further enhances the capabilities and presence of the Company in the group retirement space.

Table of Contents

On February 9, 2011, the transaction closed. The Company paid \$17.2 million at the closing of the transaction and placed \$3.7 million of cash into escrow subject to adjustment pursuant to the terms of the purchase agreement. In the third quarter of 2011, the Company accrued additional consideration of \$1.1 million pursuant to the terms of the asset purchase agreement, which has been included in accounts payable and accrued liabilities on the unaudited condensed consolidated statements of financial condition. In October 2011, the Company paid \$4.8 million of cash consideration, consisting of \$3.7 million from escrow and \$1.1 million in additional consideration that was previously accrued. The Company may be required to pay future consideration to former shareholders of NRP that is contingent upon the achievement of certain revenue-based milestones in the third year following the acquisition. There is no maximum amount of contingent consideration; however, the Company has estimated the amount of future payment of contingent consideration to be \$7.9 million. Immediately following the close of the transaction, the Company paid \$2.0 million of the contingent consideration in advance to former shareholders of NRP, which reduced the remaining amount of future contingent consideration to be paid to \$5.9 million.

The Company estimated the fair value of the remaining contingent consideration to be \$3.3 million at the close of the transaction, which was determined using a discounted cash flow methodology based on financial forecasts determined by management that includes assumptions about revenue growth, operating margins and discount rates. The Company has recorded the \$3.3 million of contingent consideration within accounts payable and accrued liabilities, and re-measures contingent consideration at fair value at each interim reporting period with changes recognized in earnings (see Note 5).

Including the contingent consideration of \$5.3 million, total consideration for the NRP acquisition was \$25.3 million. Transaction costs associated with the Company's acquisition of NRP totaling \$4.8 million were expensed as incurred through other expense in the unaudited condensed consolidated statements of operations. Of these transaction costs, \$2.5 million were incurred during the nine months ending September 30, 2011.

Concord Capital Partners, Inc.

On April 20, 2011, the Company announced its intent to acquire all of the outstanding common stock of Concord Capital Partners, Inc. ("Concord Wealth Management" or "CCP"). Concord Wealth Management is an industry leader in providing technology and open architecture investment management solutions for trust departments of financial institutions. Through this acquisition, the Company will have the ability to support both the brokerage and trust business lines of current and prospective financial institutions. The acquisition will also create new expansion opportunities such as giving the Company the ability to custody personal trust assets within banks across the country. On June 22, 2011, the transaction closed. The Company paid \$20.0 million, net of cash acquired, at the closing of the transaction to the former shareholders of Concord Wealth Management and placed \$2.3 million of cash into escrow subject to adjustment pursuant to the terms of the stock purchase agreement. As of September 30, 2011, \$2.3 million remains in an escrow account to be paid to former shareholders of Concord Wealth Management in accordance with the terms of the stock purchase agreement. The Company has classified the escrow account as restricted cash, which is included in other assets on the unaudited condensed consolidated statements of financial condition.

The Company may be required to pay future consideration that is contingent upon the achievement of certain gross margin-based milestones for the year ended December 31, 2013. The maximum amount of contingent consideration is \$15.0 million, which also represents the Company's estimated amount of future payment.

The Company estimated the fair value of the contingent consideration to be \$11.5 million at the close of the transaction, which was determined using a discounted cash flow methodology based on financial forecasts determined by management that includes assumptions about growth in gross margin, and discount rates. The Company has recorded the contingent consideration of \$11.5 million within accounts payable and accrued liabilities, and re-measures contingent consideration at fair value at each interim reporting period with changes recognized in earnings (see Note 5).

Including the contingent consideration of \$11.5 million, the total consideration for the acquisition was approximately \$33.8 million. During the nine months ending September 30, 2011, the Company incurred transaction costs associated with its acquisition of Concord Wealth Management totaling \$1.0 million which were recorded as other expense in the

unaudited condensed consolidated statements of operations.

8

Table of Contents

The Company is in the process of finalizing the purchase allocations and the value of contingent considerations for NRP and CCP; therefore, the provisional measures of goodwill, intangibles, fixed assets, and contingent consideration are subject to change.

Set forth below is a reconciliation of assets acquired and liabilities assumed during the nine months ended September 30, 2011 (in thousands):

	NRP	CCP	Total
Goodwill	\$13,698	\$27,022	\$40,720
Accounts receivable	—	770	770
Other assets	—	190	190
Intangibles	11,800	7,550	19,350
Fixed assets(1)	—	3,950	3,950
Accounts payable and accrued liabilities	(190)	(5,721)	(5,911)
Net assets acquired	\$25,308	\$33,761	\$59,069

(1) Fixed assets acquired from CCP relate primarily to internally developed software, which amortizes over 5 years.

Set forth below is supplemental cash flow information for the nine months ended September 30, 2011 (in thousands):

	NRP	CCP	Total
Cash payments, net of cash acquired	\$17,215	\$19,969	\$37,184
Cash held in escrow(1)	3,670	2,250	5,920
Cash consideration paid in October 2011(1)	1,123	—	1,123
Contingent consideration	3,300	11,542	14,842
Total purchase price	\$25,308	\$33,761	\$59,069

(1) In October 2011, the Company paid \$4.8 million pursuant to the terms of the NRP asset purchase agreement, consisting of \$3.7 million from escrow and \$1.1 million in additional consideration.

The Company preliminarily allocated the estimated purchase price to specific amortizable intangible asset categories as follows (dollars in thousands):

	Amortization Period	Amount Assigned
NRP		
Client relationships	11.0 years	\$4,730
Advisor relationships	9.0 years	4,080
Product sponsor relationships	4.0 years	2,990
Total intangible assets acquired from NRP		\$11,800
CCP		
Client relationships	15.0 years	\$7,550

Pro-forma information related to the acquisitions was not included because the impact on the Company's unaudited condensed consolidated statements of operations, financial condition and cash flows was not considered to be material.

Table of Contents

4. Restructuring

Consolidation of UVEST Financial Services Group, Inc.

On March 14, 2011, the Company committed to a corporate restructuring plan to consolidate the operations of UVEST Financial Services Group, Inc. ("UVEST") with LPL Financial LLC ("LPL Financial"). The restructuring plan was effected to enhance the Company's service offering, while also generating efficiencies. In connection with the consolidation, certain registered representatives currently associated with UVEST will move to LPL Financial through a transfer of their licenses. The first wave of transfers was completed in July 2011. The second wave is scheduled to occur in October 2011 and the final transfers are expected to be completed in December 2011. Following the transfer of registered representatives and client accounts to LPL Financial, all registered representatives and client accounts that transferred shall be associated with LPL Financial and all of the Company's securities business will be done through a single broker-dealer. In addition, UVEST will terminate its clearing relationship with a third-party clearing firm and file a broker-dealer withdrawal request with the Financial Industry Regulatory Authority ("FINRA"). The Company estimates total expenditures associated with the initiative to be approximately \$47.6 million over the course of the restructuring plan. These expenditures are comprised of advisor retention and related benefits, contract termination fees, technology costs, non-cash charges for the impairment of intangible assets resulting from advisor attrition and other expenses principally relating to the conversion and transfer of registered representatives and client accounts from UVEST to LPL Financial.

The following table summarizes the balance of accrued expenses and the changes in the accrued amounts as of and for the nine months ended September 30, 2011 (in thousands):

	Accrued Balance at December 31, 2010	Costs Incurred(1)	Payments	Non-cash	Accrued Balance at September 30, 2011	Total Expected Restructuring Costs
Conversion and transfer costs(2)	\$—	\$6,168	\$(4,745)	\$—	\$1,423	\$30,575
Contract termination fees	—	3,022	—	—	3,022	8,963
Advisor retention and related benefits	—	421	(364)	(57)	—	5,025
Asset impairments	—	2,643	—	(2,643)	—	3,000
Total	\$—	\$12,254	\$(5,109)	\$(2,700)	\$4,445	\$47,563

(1) At September 30, 2011, costs incurred represent the total cumulative costs incurred.

At September 30, 2011, total expected restructuring costs include approximately \$15.6 million in cash expenditures for application development. Of these costs approximately \$11.5 million are expected to be capitalized as internally-developed software that have a useful life ranging from three to five years, with expense being recorded

(2) as depreciation and amortization within the unaudited condensed consolidated statements of operations. As of September 30, 2011, approximately \$8.7 million has been spent on development activities of which approximately \$6.3 million has been capitalized, with the remainder included in costs incurred. The Company anticipates capitalizing an additional \$5.0 million to \$6.0 million of internally-developed software over the next six months.

5. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Inputs used to measure fair value are prioritized within a three-level fair value hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 — Quoted prices in active markets for identical assets or liabilities.

Table of Contents

Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The Company's fair value measurements are evaluated within the fair value hierarchy, based on the nature of inputs used to determine the fair value at the measurement date. At September 30, 2011, the Company had the following financial assets and liabilities that are measured at fair value on a recurring basis:

Cash Equivalents — The Company's cash equivalents include money market funds, which are short term in nature with readily determinable values derived from active markets.

Securities Owned and Securities Sold But Not Yet Purchased — The Company's trading securities consist of house account model portfolios for the purpose of benchmarking the performance of its fee based advisory platforms and temporary positions resulting from the processing of client transactions. Examples of these securities include money market funds, U.S. treasuries, mutual funds, certificates of deposit, traded equity securities and debt securities.

The Company uses prices obtained from independent third-party pricing services to measure the fair value of its trading securities. Prices received from the pricing services are validated using various methods including comparison to prices received from additional pricing services, comparison to available quoted market prices and review of other relevant market data including implied yields of major categories of securities. In general, these quoted prices are derived from active markets for identical assets or liabilities. When quoted prices in active markets for identical assets and liabilities are not available, the quoted prices are based on similar assets and liabilities or inputs other than the quoted prices that are observable, either directly or indirectly. For certificates of deposit and treasury securities, the Company utilizes market-based inputs including observable market interest rates that correspond to the remaining maturities or the next interest reset dates. At September 30, 2011, the Company did not adjust prices received from the independent third-party pricing services.

Other Assets — The Company's other assets include deferred compensation plan assets that are invested in money market funds and mutual funds which are actively traded and valued based on quoted market prices in active markets.

Accounts Payable and Accrued Liabilities — The Company's accounts payable and accrued liabilities include contingent consideration from its acquisitions. Contingent consideration is measured by discounting, to present value, the contingent payments expected to be made based on the Company's estimates of certain financial targets expected to result from the acquisitions. See Note 3 for more information regarding the acquisitions and related contingent consideration.

Interest Rate Swaps — The Company's interest rate swaps are not traded on a market exchange; therefore, the fair values are determined using models which include assumptions about the London Interbank Offered Rate ("LIBOR") yield curve at interim reporting dates as well as counterparty credit risk and the Company's own non-performance risk. There have been no transfers of assets or liabilities between fair value measurement classifications during the nine months ended September 30, 2011.

Table of Contents

The following table summarizes the Company's financial assets and financial liabilities measured at fair value on a recurring basis at September 30, 2011 (in thousands):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value Measurements
At September 30, 2011:				
Assets				
Cash equivalents	\$516,254	\$—	\$—	\$516,254
Securities owned — trading:				
Money market funds	4	—	—	4
Mutual funds	6,461	—	—	6,461
Equity securities	48	—	—	48
Debt securities	—	121	—	121
Certificates of deposit	—	23	—	23
U.S. treasury obligations	900	—	—	900
Total securities owned — trading	7,413	144	—	7,557
Other assets	21,155	—	—	21,155
Total assets at fair value	\$544,822	\$144	\$—	\$544,966
Liabilities				
Securities sold but not yet purchased:				
Mutual funds	\$122	\$—	\$—	\$122
Equity securities	3	—	—	3
Debt securities	—	5	—	5
Certificates of deposit	—	26	—	26
Total securities sold but not yet purchased	125	31	—	156
Interest rate swaps	—	2,068	—	2,068
Accounts payable and accrued liabilities	—	—	15,775	15,775
Total liabilities at fair value	\$125	\$2,099	\$15,775	\$17,999

Certain assets and liabilities are not measured at fair value on an ongoing basis but are subject to fair value measurement in certain circumstances, for example, when evidence of impairment exists. During the nine months ended September 30, 2011, the Company recorded an asset impairment charge of \$2.6 million for certain intangible assets that were determined to have no estimated fair value (See Note 7). The fair value was determined based on the loss of future expected cash flows for institutional relationships that were not retained as a result of the Company's ongoing consolidation of UVEST with LPL Financial. The Company has determined that the impairment qualifies as a Level 3 measurement under the fair value hierarchy.

Table of Contents

Changes in Level 3 Recurring Fair Value Measurements

Set forth below is a reconciliation of contingent consideration classified as accounts payable and accrued liabilities on the unaudited condensed consolidated statements of financial condition and measured at fair value on a recurring basis using significant unobservable inputs (Level 3). Contingent consideration is measured by discounting, to present value, the contingent payments expected to be made based on the Company's estimates of certain financial targets expected to result from the acquisitions.

Nine Months Ended September 30, 2011 (in thousands):

Fair value at December 31, 2010	\$—
Issuances of contingent consideration	16,842
Total unrealized losses included in earnings (1)	933
Payments	(2,000)
Fair value at September 30, 2011	\$15,775

(1) Represents the accretion of interest as the contingent consideration approaches the future expected payment.

The following table summarizes the Company's financial assets and financial liabilities measured at fair value on a recurring basis at December 31, 2010 (in thousands):

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Fair Value Measurements
At December 31, 2010:				
Assets				
Cash equivalents	\$279,048	\$—	\$—	\$ 279,048
Securities owned — trading:				
Money market funds	316	—	—	316
Mutual funds	7,300	—	—	7,300
Equity securities	17	—	—	17
Debt securities	—	516	—	516
U.S. treasury obligations	1,010	—	—	1,010
Certificates of deposit	—	100	—	100
Total securities owned — trading	8,643	616	—	9,259
Other assets	17,175	—	—	17,175
Total assets at fair value	\$304,866	\$616	\$—	\$305,482
Liabilities				
Securities sold but not yet purchased:				
Mutual funds	\$4,563	\$—	\$—	\$4,563
Equity securities	204	—	—	204
Debt securities	—	54	—	54
Total securities sold but not yet purchased	4,767	54	—	4,821
Interest rate swaps	—	7,281	—	7,281
Total liabilities at fair value	\$4,767	\$7,335	\$—	\$12,102

6. Held-to-Maturity Securities

The Company holds certain investments in securities including U.S. government notes. The Company has both the intent and the ability to hold these investments to maturity and classifies them as such. Interest income is accrued as earned. Premiums and discounts are amortized using a method that approximates the effective yield method over the term of the security and are recorded as an adjustment to the investment yield.

Table of Contents

The amortized cost, gross unrealized gains and fair value of securities held-to-maturity were as follows (in thousands):

	Amortized Cost	Gross Unrealized Gains	Fair Value
At September 30, 2011:			
U.S. government notes	\$10,131	\$38	\$10,169
At December 31, 2010:			
U.S. government notes	\$9,563	\$69	\$9,632

The maturities of securities held-to-maturity at September 30, 2011 were as follows (in thousands):

	Within 1 Year	1-3 Years	Total
U.S. government notes — at amortized cost	\$8,368	\$1,763	\$10,131
U.S. government notes — at fair value	\$8,404	\$1,765	\$10,169

7. Goodwill and Intangible Assets

A summary of the activity in goodwill is presented below (in thousands):

Balance at December 31, 2010	\$1,293,366	
Acquisition of NRP (Note 3)	13,698	(1)
Acquisition of CCP (Note 3)	27,022	(1)
Balance at September 30, 2011	\$1,334,086	

(1) This is a provisional amount and is subject to change (see Note 3).

During the nine months ended September 30, 2011, and in conjunction with the corporate restructuring plan to consolidate UVEST, certain institutional relationships were determined to have no future economic benefit. Accordingly, the Company has recorded an intangible asset impairment charge of \$2.6 million. The impairment was determined based upon the attrition of institutions and their related revenue streams during the period of consolidation. The Company has recorded the intangible asset impairment as a restructuring charge (See Note 4) and has classified as such on the unaudited condensed consolidated statements of operations.

Table of Contents

The components of intangible assets as of September 30, 2011 and December 31, 2010 are as follows (dollars in thousands):

	Weighted Average Life Remaining	Gross Carrying Value	Accumulated Amortization	Net Carrying Value
At September 30, 2011:				
Definite-lived intangible assets:				
Advisor and financial institution relationships	13.5	\$459,861	\$(135,769)) \$324,092
Product sponsor relationships	14.2	234,920	(64,583)) 170,337
Client relationships	13.1	14,910	(1,506)) 13,404
Total definite-lived intangible assets		\$709,691	\$(201,858)) \$507,833
Indefinite-lived intangible assets:				
Trademark and trade name				39,819
Total intangible assets				\$547,652
At December 31, 2010:				
Definite-lived intangible assets:				
Advisor and financial institution relationships		\$458,424	\$(116,687)) \$341,737
Product sponsor relationships		231,930	(55,255)) 176,675
Client relationships		2,630	(784)) 1,846
Total definite-lived intangible assets		\$692,984	\$(172,726)) \$520,258
Indefinite-lived intangible assets:				
Trademark and trade name				39,819
Total intangible assets				\$560,077

Total amortization expense of intangible assets was \$9.9 million and \$9.3 million for the three months ended September 30, 2011, and 2010, respectively, and \$29.1 million and \$27.8 million for the nine months ended September 30, 2011, and 2010, respectively. Amortization expense for each of the fiscal years ended December 31, 2011 (remainder) through 2015 and thereafter is estimated as follows (in thousands):

2011 — remainder	\$9,849
2012	39,058
2013	38,277
2014	38,000
2015	37,120
Thereafter	345,529
Total	\$507,833

8. Income Taxes

The Company's effective income tax rate differs from the federal corporate tax rate of 35%, primarily as a result of state taxes, settlement contingencies and expenses that are not deductible for tax purposes. These items resulted in effective tax rates of 41.3% and 43.2% for the three months ended September 30, 2011 and 2010, respectively, and 40.2% and 39.9% for the nine months ended September 30, 2011 and 2010, respectively. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Table of Contents

9. Indebtedness

Senior Secured Credit Facilities — Term Loans — On May 24, 2010, the Company entered into a Third Amended and Restated Credit Agreement (the “Amended Credit Agreement”). The Amended Credit Agreement amended and restated the Company’s Second Amended and Restated Credit Agreement, dated as of June 18, 2007. Pursuant to the Amended Credit Agreement, the Company established a new term loan tranche of \$580.0 million maturing on June 28, 2017 (the “2017 Term Loans”) and recorded \$16.6 million in debt issuance costs that are capitalized in the unaudited condensed consolidated statements of financial condition. The Company also extended the maturity of a \$500.0 million tranche of its term loan facility to June 25, 2015 (the “2015 Term Loans”), with the remaining \$317.1 million tranche of the term loan facility maturing on the original maturity date of June 28, 2013 (the “2013 Term Loans”).

The applicable margin for borrowings with respect to the (a) 2013 Term Loans is currently 0.75% for base rate borrowings and 1.75% for LIBOR borrowings and could change depending on the Company’s credit rating; (b) 2015 Term Loans is currently 1.75% for base rate borrowings and 2.75% for LIBOR borrowings, and (c) 2017 Term Loans is currently 2.75% for base rate borrowings and 3.75% for LIBOR borrowings. The LIBOR Rate with respect to the 2015 Term Loans and the 2017 Term Loans shall in no event be less than 1.50%.

Borrowings under the Company’s senior secured term loan facilities bear interest at a base rate equal to either one, two, three, six, nine or twelve-month LIBOR plus the applicable margin, or an alternative base rate (“ABR”) plus the applicable margin. The ABR is equal to the greater of the prime rate or the effective federal funds rate plus 1/2 of 1.00% for the 2013 Term Loans and the greater of the prime rate, effective federal funds rate plus 1/2 of 1.00%, or 2.50% for the 2015 Term Loans and the 2017 Term Loans. The senior secured credit facilities are subject to certain financial and nonfinancial covenants. As of September 30, 2011 and December 31, 2010, the Company was in compliance with such covenants. The Company may voluntarily repay outstanding loans under its senior secured credit facilities at any time without premium or penalty, other than customary “breakage” costs with respect to LIBOR loans. In September 2011, the Company’s corporate credit rating was upgraded to Ba2 from Ba3 by a leading credit rating agency. The upgrade did not affect the interest rate or the covenants in the senior secured credit facilities. On January 31, 2011, the Company repaid \$40.0 million of term loans under its senior secured credit facilities using net proceeds received in its initial public offering, which was completed in the fourth quarter of 2010, as well as other cash on hand.

Senior Secured Credit Facilities — Revolving Line of Credit — On January 25, 2010, the Company amended its senior secured credit facilities to increase the revolving credit facility from \$100.0 million to \$218.2 million, \$10.0 million of which is being used to support the issuance of an irrevocable letter of credit for its subsidiary, The Private Trust Company, N.A. (“PTC”). As a result of the amendment, the Company paid \$2.8 million in debt issuance costs, which have been capitalized within the unaudited condensed consolidated statements of financial condition and are being amortized as additional interest expense over the expected term of the related debt agreement. The Company also extended the maturity of a \$163.5 million tranche of the revolving credit facility to June 28, 2013, while the remaining \$54.7 million tranche retains its original maturity date of December 28, 2011. The tranche maturing in 2013 is priced at LIBOR + 3.50% with a commitment fee of 0.75%. The tranche maturing in 2011 maintains its previous pricing of LIBOR + 2.00% with a commitment fee of 0.375%. There was no outstanding balance on the revolving facility at September 30, 2011 or December 31, 2010.

Bank Loans Payable — The Company maintains three uncommitted lines of credit. Two of the lines have an unspecified limit, and are primarily dependent on the Company’s ability to provide sufficient collateral. The other line has a \$150.0 million limit and allows for both collateralized and uncollateralized borrowings. The lines were utilized in 2011 and 2010; however, there were no balances outstanding at September 30, 2011 or December 31, 2010.

Table of Contents

The Company's outstanding borrowings were as follows (in thousands):

		September 30, 2011			December 31, 2010		
	Maturity	Balance	Interest Rate		Balance	Interest Rate	
Senior secured term loan:							
Hedged with interest rate swaps	6/28/2013	\$65,000	2.12	%(1)	\$210,000	2.05	%(5)
Unhedged:							
2013 Term Loans	6/28/2013	238,281	1.99	%(2)	104,739	2.01	%(6)
2015 Term Loans	6/25/2015	478,185	4.25	%(3)	496,250	4.25	%(7)
2017 Term Loans	6/28/2017	554,695	5.25	%(4)	575,650	5.25	%(8)
Total borrowings		1,336,161			1,386,639		
Less current borrowings (maturities within 12 months)		13,971			13,971		
Long-term borrowings — net of current portion		\$1,322,190			\$1,372,668		

(1) As of September 30, 2011, the variable interest rate for the hedged portion of the 2013 Term Loans is based on the three-month LIBOR of 0.37%, plus the applicable interest rate margin of 1.75%.

(2) As of September 30, 2011, the variable interest rate for the unhedged portion of the 2013 Term Loans is based on the one-month LIBOR of 0.24%, plus the applicable interest rate margin of 1.75%.

(3) As of September 30, 2011, the variable interest rate for the unhedged portion of the 2015 Term Loans is based on the greater of the one-month LIBOR of 0.24% or 1.50%, plus the applicable interest rate margin of 2.75%.

(4) As of September 30, 2011, the variable interest rate for the unhedged portion of the 2017 Term Loans is based on the greater of the one-month LIBOR of 0.24% or 1.50%, plus the applicable interest rate margin of 3.75%.

(5) As of December 31, 2010, the variable interest rate for the hedged portion of the 2013 Term Loans is based on the three-month LIBOR of 0.30%, plus the applicable interest rate margin of 1.75%.

(6) As of December 31, 2010, the variable interest rate for the unhedged portion of the 2013 Term Loans is based on the one-month LIBOR of 0.26%, plus the applicable interest rate margin of 1.75%.

(7) As of December 31, 2010, the variable interest rate for the unhedged portion of the 2015 Term Loans is based on the greater of the one-month LIBOR of 0.26% or 1.50%, plus the applicable interest rate margin of 2.75%.

(8) As of December 31, 2010, the variable interest rate for the unhedged portion of the 2017 Term Loans is based on the greater of the one-month LIBOR of 0.26% or 1.50%, plus the applicable interest rate margin of 3.75%.

The average balance outstanding in the revolving and uncommitted line of credit facilities was approximately \$0.4 million and \$0.1 million for the three months ended September 30, 2011 and 2010, respectively, and approximately \$0.1 million and \$2.8 million for the nine months ended September 30, 2011 and 2010, respectively. The weighted-average interest rate was 1.00% and 1.00% for the three months ended September 30, 2011, and 2010, respectively, and 1.00% and 1.16% for the nine months ended September 30, 2011, and 2010, respectively.

Table of Contents

The minimum calendar year payments and maturities of the senior secured borrowings as of September 30, 2011 are as follows (in thousands):

2011 — remainder	\$3,494
2012	13,971
2013	310,117
2014	10,800
2015	467,735
Thereafter	530,044
Total	\$1,336,161

10. Interest Rate Swaps

An interest rate swap is a financial derivative instrument whereby two parties enter into a contractual agreement to exchange payments based on underlying interest rates. The Company uses interest rate swaps to hedge the variability on its floating rate senior secured term loan. The Company is required to pay the counterparty to the agreement fixed interest payments on a notional balance and in turn, receives variable interest payments on that notional balance. Payments are settled quarterly on a net basis.

At September 30, 2011, the Company has an interest rate swap with a notional balance of \$65.0 million and a fair value of \$2.1 million that carries a fixed pay rate of 4.85% and has a current variable receive rate of 0.37%, with a maturity date of June 30, 2012. The effective rate from June 30, 2011 through September 29, 2011 was 0.25%, and the rate resets on the last day of the period.

The interest rate swap qualifies for hedge accounting and has been designated by the Company as a cash flow hedge against specific payments due on its senior secured term loan. As of September 30, 2011, the Company assessed the interest rate swap as being highly effective and expects it to continue to be highly effective. Accordingly, the changes in fair value of the interest rate swap have been recorded as other comprehensive loss, with the fair value included as a liability on the Company's unaudited condensed consolidated statements of financial condition. The Company has recorded net unrealized gains of \$0.8 million and \$1.2 million for the three months ended September 30, 2011 and 2010, respectively, and \$5.2 million and \$7.6 million for the nine months ended September 30, 2011 and 2010, respectively, to accumulated other comprehensive loss related to the change in fair value. The Company has reclassified \$0.8 million and \$2.3 million to interest expense from accumulated other comprehensive loss for the three months ended September 30, 2011, and 2010, respectively. For the nine months ended September 30, 2011, and 2010, respectively, the Company reclassified \$5.5 million and \$10.9 million to interest expense from accumulated other comprehensive loss. Based on current interest rate assumptions and assuming no additional interest rate swap agreements are entered into, the Company expects to reclassify \$2.9 million or \$1.7 million after tax, from other comprehensive loss as additional interest expense over the next 12 months.

11. Commitments and Contingencies

Leases — The Company leases certain office space and equipment at its headquarters and other locations under various operating leases. These leases are generally subject to scheduled base rent and maintenance cost increases, which are recognized on a straight-line basis over the period of the leases.

Service Contracts — The Company is party to certain long-term contracts for systems and services that enable back office trade processing and clearing for its product and service offerings. One agreement, for clearing services, contains no minimum annual purchase commitment, but the agreement provides for certain penalties should the Company fail to maintain a certain threshold of client accounts.

Table of Contents

Future minimum payments under leases, lease commitments and other noncancellable contractual obligations with remaining terms greater than one year as of September 30, 2011 are as follows (in thousands):

2011 — remainder	\$7,188
2012	28,132
2013	20,528
2014	12,653
2015	10,364
Thereafter	34,593
Total(1)	\$113,458

(1) Minimum payments have not been reduced by minimum sublease rental income of \$6.1 million due in the future under noncancellable subleases.

Total rental expense for all operating leases was \$4.2 million and \$4.3 million for the three months ended September 30, 2011 and 2010, respectively, and \$12.9 million and \$12.8 million for the nine months ended September 30, 2011 and 2010, respectively.

Guarantees — The Company occasionally enters into certain types of contracts that contingently require it to indemnify certain parties against third-party claims. The terms of these obligations vary and, because a maximum obligation is not explicitly stated, the Company has determined that it is not possible to make an estimate of the amount that it could be obligated to pay under such contracts.

Through its subsidiary LPL Financial, the Company provides guarantees to securities clearing houses and exchanges under their standard membership agreements, which require a member to guarantee the performance of other members. Under these agreements, if a member becomes unable to satisfy its obligations to the clearing houses and exchanges, all other members would be required to meet any shortfall. The Company's liability under these arrangements is not quantifiable and may exceed the cash and securities it has posted as collateral. However, the potential requirement for the Company to make payments under these agreements is remote. Accordingly, no liability has been recognized for these transactions.

Loan Commitments — From time to time, the Company makes loans to its advisors, primarily to newly recruited advisors to assist in the transition process. Due to timing differences, the Company may make commitments to issue such loans prior to actually funding them. These commitments are generally contingent upon certain events occurring, including but not limited to the advisor joining the Company. The loans may be forgivable. The Company had no significant unfunded commitments at September 30, 2011.

Litigation — The Company has been named as a defendant or respondent in various legal actions, including principally arbitrations. In view of the inherent difficulty of predicting the outcome of such matters, particularly in cases in which claimants seek substantial or indeterminate damages, the Company is unable to predict what the eventual loss or range of loss related to such matters will be. The Company recognizes a legal liability when it believes it is probable a liability has occurred and the amount can be reasonably estimated. Defense costs are expensed as incurred and classified as professional services within the unaudited condensed consolidated statements of operations. When there is indemnification or insurance for legal actions, the Company may defend or settle such matters and subsequently seek reimbursement.

In connection with various acquisitions, and pursuant to the purchase and sale agreements, the Company has received third-party indemnification for certain legal proceedings and claims. These matters have been defended and paid directly by the indemnifying party.

On October 1, 2009, the Company's subsidiary, LPL Holdings, Inc. ("LPLH"), received written notice from a third-party indemnitor under a certain purchase and sale agreement asserting that it is no longer obligated to indemnify the Company for certain claims under the provisions of the purchase and sale agreement. The Company believed that this assertion was without merit and commenced litigation to enforce its indemnity rights. On March 31, 2011, the court entered judgment granting the Company's motion for summary judgment in all respects, denied all counterclaims by the third party indemnitor and awarded attorney fees to the Company. On May 2, 2011, the third party indemnitor filed a notice of appeal. The Company filed its appellate brief on October 5, 2011.

Table of Contents

During the third quarter of 2010, the Company settled two arbitrations that involve activities covered under the third-party indemnification agreement described above. In connection with these settlements, the Company recorded a receivable from the indemnifying party of \$8.9 million that has been fully reserved pending resolution of the litigation described above. The remaining claims outstanding for which the indemnifying party is disputing its obligation involve alleged damages that are not material to the Company's unaudited condensed consolidated statements of financial condition, operations or cash flows.

The Company believes, based on the information available at this time, after consultation with counsel, consideration of insurance, if any, and indemnifications provided by the third-party indemnitors, notwithstanding the assertions by an indemnifying party noted in the preceding paragraphs, that the outcomes will not have a material adverse impact on unaudited condensed consolidated statements of financial condition, operations or cash flows.

Other Commitments — As of September 30, 2011, the Company had received collateral primarily in connection with client margin loans with a market value of approximately \$346.8 million, which it can sell or repledge. Of this amount, approximately \$169.7 million has been pledged or sold as of September 30, 2011; \$134.4 million was pledged to banks in connection with unutilized secured margin lines of credit, \$18.8 million was pledged to the Options Clearing Corporation ("OCC"), and \$16.5 million was loaned to the Depository Trust Company ("DTC") through participation in its Stock Borrow Program. As of December 31, 2010, the Company had received collateral primarily in connection with client margin loans with a market value of approximately \$326.9 million, which it can sell or repledge. Of this amount, approximately \$167.4 million has been pledged or sold as of December 31, 2010; \$145.8 million was pledged to banks in connection with unutilized secured margin lines of credit, \$13.5 million was pledged to the OCC, and \$8.1 million was loaned to the DTC through participation in its Stock Borrow Program.

Trading securities on the unaudited condensed consolidated statement of financial condition includes \$0.9 million and \$1.0 million pledged to clearing organizations at September 30, 2011 and December 31, 2010, respectively.

LPL Financial provides a large global insurance company with brokerage, clearing and custody services on a fully disclosed basis; offers its investment advisory programs and platforms; and provides technology and additional processing and related services to its advisors and their clients. The agreement was entered into in 2006 with a five year term, subject to additional 24-month extensions upon mutual agreement by the parties. Termination fees may be payable by a terminating or breaching party depending on the specific cause of termination.

12. Share-Based Compensation

Stock Options and Warrants

Certain employees, advisors, institutions, officers and directors who contribute to the success of the Company participate in the 2010 Omnibus Equity Incentive Plan (the "Plan"). Under the Plan the Company issues stock options, warrants and restricted stock. Stock options and warrants generally vest in equal increments over a five-year period and expire on the 10th anniversary following the date of grant. Restricted stock awards vest on the second anniversary of the date of grant and upon termination of service, unvested awards shall immediately be forfeited.

The Company recognizes share-based compensation expense related to employee stock option awards based on the grant date fair value over the requisite service period of the award, which generally equals the vesting period. The Company recognized share-based compensation related to the vesting of employee stock option awards of \$3.8 million and \$2.8 million during the three months ended September 30, 2011 and 2010, respectively, and \$10.9 million and \$7.6 million during the nine months ended September 30, 2011 and 2010, respectively, which is included in compensation and benefits on the unaudited condensed consolidated statements of operations. As of September 30, 2011, total unrecognized compensation cost related to non-vested share-based compensation arrangements granted was \$43.0 million, which is expected to be recognized over a weighted-average period of 3.61 years.

Table of Contents

The Company recognizes share-based compensation expense for stock options and warrants awarded to its advisors and financial institutions based on the fair value of awards at each interim reporting period. The Company recognized share-based compensation of \$1.4 million and \$2.5 million during the nine months ended September 30, 2011 and 2010, respectively, related to the vesting of stock options and warrants awarded to its advisors and financial institutions, which is classified within commission and advisory fees on the unaudited condensed consolidated statements of operations. As of September 30, 2011, total unrecognized compensation cost related to non-vested share-based compensation arrangements granted was \$10.3 million for advisors and financial institutions, which is based on the fair value of the awards as of September 30, 2011, and is expected to be recognized over a weighted-average period of 3.38 years.

Share Reservations

As of September 30, 2011, the Company had approximately 9.8 million authorized unissued shares reserved for issuance upon exercise and conversion of outstanding equity awards.

13. Earnings Per Share

In calculating earnings per share using the two-class method, the Company is required to allocate a portion of its earnings to employees that hold stock units that contain non-forfeitable rights to dividends or dividend equivalents under its 2008 Nonqualified Deferred Compensation Plan. Basic earnings per share is computed by dividing income less earnings attributable to employees that hold stock units under the 2008 Nonqualified Deferred Compensation Plan by the basic weighted average number of shares outstanding. Diluted earnings per share is computed in a manner similar to basic earnings per share, except the weighted average number of shares outstanding is increased to include the dilutive effect of outstanding stock options, warrants and other stock-based awards.

A reconciliation of the income used to compute basic and diluted earnings per share for the periods noted was as follows (in thousands):

	For the Three Months Ended September 30, 2011		For the Nine Months Ended September 30, 2011	
	2011	2010	2011	2010
Basic earnings per share:				
Net income, as reported	\$36,428	\$26,144	\$130,934	\$59,698
Less: allocation of undistributed earnings to stock units	(465)	(424)	(1,676)	(968)
Net income, for computing basic earnings per share	\$35,963	\$25,720	\$129,258	\$58,730
Diluted earnings per share:				
Net income, as reported	\$36,428	\$26,144	\$130,934	\$59,698
Less: allocation of undistributed earnings to stock units	(451)	(370)	(1,618)	(848)
Net income, for computing diluted earnings per share	\$35,977	\$25,774	\$129,316	\$58,850

A reconciliation of the weighted average number of shares outstanding used to compute basic and diluted earnings per share for the periods noted was as follows (in thousands):

	For the Three Months Ended September 30, 2011		For the Nine Months Ended September 30, 2011	
	2011	2010	2011	2010
Basic weighted average number of shares outstanding	107,835	86,838	108,559	86,817
Dilutive common share equivalents	3,338	12,774	3,924	12,486
Diluted weighted average number of shares outstanding	111,173	99,612	112,483	99,303

Basic and diluted earnings per share for the periods noted were as follows:

	For the Three Months Ended September 30,	For the Nine Months Ended September 30,
--	---	--

Edgar Filing: LPL Investment Holdings Inc. - Form 10-Q

	2011	2010	2011	2010
Basic earnings per share	\$0.33	\$0.30	\$1.19	\$0.68
Diluted earnings per share	\$0.32	\$0.26	\$1.15	\$0.59

21

Table of Contents

The computation of diluted earnings per share excluded stock options and warrants to purchase 3,953,455 shares and 2,832,223 shares for the three months ended September 30, 2011 and 2010, respectively, and 3,930,723 shares and 3,226,653 shares for the nine months ended September 30, 2011 and 2010, respectively, because the effect would have been anti-dilutive.

Share Repurchase Program

On May 25, 2011, the Board of Directors approved a share repurchase program pursuant to which the Company may repurchase up to \$80.0 million of its issued and outstanding shares of common stock through May 31, 2013. The purchases were effected in open market transactions with the timing of purchases and the amount of stock purchased determined at the discretion of the Company's management. As of September 30, 2011, the Company repurchased 2,297,723 shares of common stock at a weighted-average price of \$34.84 per share for an aggregate purchase price of \$80.0 million.

On August 16, 2011, the Board of Directors approved a share repurchase program pursuant to which the Company may repurchase an additional \$70.0 million of its issued and outstanding shares of common stock through August 31, 2012. The purchases will be effected in open market transactions with the timing of purchases and the amount of stock purchased determined at the discretion of the Company's management. As of September 30, 2011, the Company repurchased 319,906 shares of common stock at a weighted-average price of \$28.11 per share for an aggregate purchase price of \$9.0 million.

14. Related Party Transactions

One of the Company's majority stockholders owns a minority interest in Artisan Partners Limited Partnership ("Artisan"), which pays fees in exchange for product distribution and record-keeping services. During the nine months ended September 30, 2011 and 2010, the Company earned \$2.2 million and \$1.7 million, respectively, in fees from Artisan. Additionally, as of September 30, 2011 and December 31, 2010, Artisan owed the Company \$0.7 million and \$0.6 million, respectively, which is included in receivables from product sponsors, broker-dealers and clearing organizations on the unaudited condensed consolidated statements of financial condition.

One of the Company's majority stockholders owns a minority interest in XOJET, Inc. ("XOJET"), which provides chartered aircraft services. The Company paid \$1.3 million and \$0.9 million to XOJET for chartered aircraft services during the nine months ended September 30, 2011 and 2010 respectively.

Aplifi, Inc. ("Aplifi", formerly named Blue Frog Solutions, Inc.), a privately held technology company in which the Company holds an equity interest, provides software licensing for annuity order entry and compliance. The Company paid \$1.1 million and \$0.9 million to Aplifi for such services during the nine months ended September 30, 2011 and 2010, respectively. As of September 30, 2011, the Company had payables to Aplifi of \$0.1 million, which is included in accounts payable and accrued liabilities on the unaudited condensed consolidated statements of financial condition. An immediate family member of one of the Company's executive officers is an executive officer of CresaPartners LLC ("CresaPartners"). CresaPartners provides the Company and its subsidiaries real estate advisory, transaction and project management services. The Company paid \$0.4 million to CresaPartners during the nine months ended September 30, 2011.

15. Net Capital and Regulatory Requirements

The Company's registered broker-dealers are subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1 under the Exchange Act), which requires the maintenance of minimum net capital, as defined. Net capital is calculated for each broker-dealer subsidiary individually. Excess net capital of one broker-dealer subsidiary may not be used to offset a net capital deficiency of another broker-dealer subsidiary. Net capital and the related net capital requirement may fluctuate on a daily basis.

Table of Contents

Net capital and net capital requirements for the Company's broker-dealer subsidiaries as of September 30, 2011 are presented in the following table (in thousands):

	Net Capital	Minimum Net Capital Required	Excess Net Capital
LPL Financial LLC	\$126,316	\$6,282	\$120,034
UVEST Financial Services Group, Inc.	\$23,395	\$1,139	\$22,256

LPL Financial is a clearing broker-dealer and UVEST is an introducing broker-dealer.

In connection with the Company's 2009 initiative that consolidated Associated Securities Corp. ("Associated"), Mutual Service Corporation ("MSC") and Waterstone Financial Group, Inc. ("WFG"), (together, the "Affiliated Entities") with LPL Financial, Associated and WFG have withdrawn their registration with FINRA effective February 5, 2011, and are no longer subject to net capital filing requirements. On September 13, 2011, MSC filed a broker-dealer withdrawal request with FINRA. The Company expects MSC's request for broker-dealer withdrawal to be granted, effective 60 days after the filing date. Upon such withdrawal, MSC will no longer be subject to net capital filing requirements. PTC is also subject to various regulatory capital requirements. Failure to meet minimum capital requirements can initiate certain mandatory and possible additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Company's unaudited condensed consolidated financial statements. As of September 30, 2011 and December 31, 2010, the Company's registered broker-dealers and PTC have met all capital adequacy requirements to which they are subject.

The Company operates in a highly regulated industry. Applicable laws and regulations restrict permissible activities and investments. These policies require compliance with various financial and customer-related regulations. The consequences of noncompliance can include substantial monetary and nonmonetary sanctions. In addition, the Company is also subject to comprehensive examinations and supervision by various governmental and self-regulatory agencies. These regulatory agencies generally have broad discretion to prescribe greater limitations on the operations of a regulated entity for the protection of investors or public interest. Furthermore, where the agencies determine that such operations are unsafe or unsound, fail to comply with applicable law, or are otherwise inconsistent with the laws and regulations or with the supervisory policies, greater restrictions may be imposed.

16. Financial Instruments with Off-Balance-Sheet Credit Risk and Concentrations of Credit Risk

LPL Financial's client securities activities are transacted on either a cash or margin basis. In margin transactions, LPL Financial extends credit to the advisor's client, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the client's account. As clients write options contracts or sell securities short, LPL Financial may incur losses if the clients do not fulfill their obligations and the collateral in the clients' accounts is not sufficient to fully cover losses that clients may incur from these strategies. To control this risk, LPL Financial monitors margin levels daily and clients are required to deposit additional collateral, or reduce positions, when necessary.

LPL Financial is obligated to settle transactions with brokers and other financial institutions even if its advisor's clients fail to meet their obligation to LPL Financial. Clients are required to complete their transactions on the settlement date, generally three business days after the trade date. If clients do not fulfill their contractual obligations, LPL Financial may incur losses. In addition, the Company occasionally enters into certain types of contracts to fulfill its sale of when, as, and if issued securities. When issued securities have been authorized but are contingent upon the actual issuance of the security. LPL Financial has established procedures to reduce this risk by generally requiring that clients deposit cash and/or securities into their account prior to placing an order.

LPL Financial may at times hold equity securities on both a long and short basis that are recorded on the unaudited condensed consolidated statements of financial condition at market value. While long inventory positions represent LPL Financial's ownership of securities, short inventory positions represent obligations of LPL Financial to deliver specified securities at a contracted price, which may differ from market prices prevailing at the time of completion of the transaction. Accordingly, both long and short inventory positions may result in losses or gains to LPL Financial as

market values of securities fluctuate. To mitigate the risk of losses, long and short positions are marked-to-market daily and are continuously monitored by LPL Financial.

Table of Contents

UVEST is engaged in buying and selling securities and other financial instruments for clients of advisors. Such transactions are introduced and cleared through a third-party clearing firm on a fully disclosed basis. While introducing broker-dealers generally have less risk than clearing firms, their clearing agreements expose them to credit risk in the event that their clients don't fulfill contractual obligations with the clearing broker-dealer.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

We provide an integrated platform of proprietary technology, brokerage and investment advisory services to approximately 12,800 independent financial advisors and financial advisors at financial institutions (our "advisors") across the country, enabling them to successfully service their retail investors with unbiased, conflict-free financial advice. In addition, we support over 4,000 financial advisors with customized clearing, advisory platforms and technology solutions. Our singular focus is to support our advisors with the front, middle and back-office support they need to serve the large and growing market for independent investment advice, particularly in the mass affluent market. We believe we are the only company that offers advisors the unique combination of an integrated technology platform, comprehensive self-clearing services and full open architecture access to leading financial products, all delivered in an environment unencumbered by conflicts from product manufacturing, underwriting or market making. For over 20 years we have served the independent advisor market. We currently support the largest independent advisor base and we believe we have the fourth largest overall advisor base in the United States as of June 30, 2011. Through our advisors, we are also one of the largest distributors of financial products in the United States. Our scale is a substantial competitive advantage and enables us to more effectively attract and retain advisors. Our unique model allows us to invest more resources in our advisors, increasing their revenues and creating a virtuous cycle of growth. We are headquartered in Boston and currently have approximately 2,700 employees across our locations in Boston, Charlotte and San Diego.

Our Sources of Revenue

Our revenues are derived primarily from fees and commissions from products and advisory services offered by our advisors to their clients, a substantial portion of which we pay out to our advisors, as well as fees we receive from our advisors for use of our technology, custody and clearing platforms. We also generate asset-based fees through the distribution of financial products for a broad range of product manufacturers. Under our self-clearing platform, we custody the majority of client assets invested in these financial products, which includes providing statements, transaction processing and ongoing account management. In return for these services, mutual funds, insurance companies, banks and other financial product manufacturers pay us fees based on asset levels or number of accounts managed. We also earn fees for margin lending to our advisors' clients.

We track recurring revenue, which we define to include our revenues from asset-based fees, advisory fees, trailing commissions, cash sweep programs and certain transaction and other fees that are based upon accounts and advisors. Because recurring revenue is associated with asset balances, it will fluctuate depending on the market value of the asset balances and current interest rates. Accordingly, recurring revenue can be negatively impacted by adverse external market conditions. However, recurring revenue is meaningful to us despite these fluctuations because it is not based on transaction volumes or other activity-based fees, which are more difficult to predict, particularly in declining or volatile markets.

Table of Contents

The table below summarizes the sources of our revenue and the underlying drivers:

			For the Nine Months Ended September 30, 2011		
	Sources of revenue	Primary Drivers	Total (millions)	% of Total Net Revenue	% Recurring
Advisor-driven revenue with ~85%-90% payout ratio	Commissions	- Transactions - Brokerage asset levels	\$1,350	51%	35%
	Advisory Fees	- Advisory asset levels	\$776	29%	99%
	Asset-Based Fees	- Cash balances			
	- Cash Sweep Fees	- Interest rates	\$270	10%	100%
Attachment revenue retained by us	- Sponsorship Fees	- Number of accounts			
	- Record Keeping	- Client asset levels			
	Transaction and Other Fees	- Client activity			
	- Transactions	- Number of clients			
	- Client (Investor) Accounts	- Number of advisors	\$221	9%	56%
	- Advisor Seat and Technology	- Number of accounts - Premium technology subscribers			
	Interest and Other Revenue	- Margin accounts - Marketing re-allowances fees	\$34	1%	47%
	Total Net Revenue		\$2,651	100%	62%
	Total Recurring Revenue		\$1,641	62%	

Commissions and Advisory Fees. Transaction-based commissions and advisory fees both represent advisor-generated revenue, generally 85-90% of which is paid to advisors.

Commissions. Transaction-based commission revenues represent gross commissions generated by our advisors, primarily from commissions earned on the sale of various financial products such as variable and fixed annuities, mutual funds, general securities, fixed income, alternative investments and insurance and can vary from period to period based on the overall economic environment, number of trading days in the reporting period and investment activity of our advisors' clients. We also earn trailing commission type revenues (a commission that is paid over time, such as 12(b)-1 fees) on mutual funds and variable annuities held by clients of our advisors. Trail commissions are recurring in nature and are earned based on the current market value of investment holdings.

Advisory Fees. Advisory fee revenues represent fees charged by us and our advisors to their clients based on the value of advisory assets. Advisory fees are typically billed to clients quarterly, in advance, and are recognized as revenue ratably during the quarter. The value of the assets in the advisory account on the billing date determines the amount billed, and accordingly, the revenues earned in the following three month period. The majority of our accounts are billed using values as of the last business day of the quarter. Some of our advisors conduct their advisory business through separate entities by establishing their own Registered Investment Advisor ("RIA") pursuant to the Investment Advisers Act of 1940, rather than using our corporate registered RIA. These stand-alone RIAs engage us for technology, clearing, regulatory and custody services, as well as access to our investment advisory platforms. The fee-based production generated by the stand-alone RIA is earned by the advisor, and accordingly not included in our advisory fee revenue. We charge fees to stand-alone RIAs including administrative fees based on the value of assets within these advisory accounts. Such fees are included within asset-based fees and transaction and other fees, as described below.

Table of Contents

Asset-Based Fees. Asset-based fees are comprised of fees from cash sweep programs, our financial product manufacturer sponsorship programs, and omnibus processing and networking services. Pursuant to contractual arrangements, uninvested cash balances in our advisors' client accounts are swept into either insured deposit accounts at various banks or third-party money market funds, for which we receive fees, including administrative and record-keeping fees based on account type and the invested balances. In addition, we receive fees from certain financial product manufacturers in connection with sponsorship programs that support our marketing and sales-force education and training efforts. We also earn fees on mutual fund assets for which we provide administrative and record-keeping services. Our networking fees represent fees paid to us by mutual fund and annuity product manufacturers in exchange for administrative and record-keeping services that we provide to clients of our advisors. Networking fees are correlated to the number of positions we administer, not the value of assets under administration.

Transaction and Other Fees. Revenues earned from transaction and other fees primarily consist of transaction fees and ticket charges, subscription fees, Individual Retirement Account ("IRA") custodian fees, contract and license fees, conference fees and small/inactive account fees. We charge fees to our advisors and their clients for executing transactions in brokerage and fee-based advisory accounts. We earn subscription fees for the software and technology services provided to our advisors and on IRA custodial services that we provide for their client accounts. We charge monthly administrative fees to our advisors. We charge fees to financial product manufacturers for participating in our training and marketing conferences and fees to our advisors and their clients for accounts that do not meet certain specified thresholds of size or activity. In addition, we host certain advisor conferences that serve as training, sales and marketing events in our first and third fiscal quarters and as a result, we anticipate higher transaction and other fees resulting from the collection of revenues from sponsors and advisors, in comparison to other periods.

Interest and Other Revenue. Other revenue includes marketing re-allowances from certain financial product manufacturers as well as interest income from client margin accounts and cash equivalents, net of operating interest expense, and other items.

Our Operating Expenses

Production Expenses. Production expenses are comprised of the following: gross commissions and advisory fees that are earned and paid out to advisors based on the sale of various products and services; production bonuses for achieving certain levels of production; recognition of share-based compensation expense from stock options and warrants granted to advisors and financial institutions based on the fair value of the awards at each interim reporting period; amounts designated by advisors as deferred commissions in a non-qualified deferred compensation plan that are marked to market at each interim reporting period; and brokerage, clearing and exchange fees. We refer to these expenses as the production "payout". Substantially all of the production payout is variable and correlated to the revenues generated by each advisor.

Compensation and Benefits Expense. Compensation and benefits expense includes salaries and wages and related employee benefits and taxes for our employees (including share-based compensation), as well as compensation for temporary employees and consultants.

General and Administrative Expenses. General and administrative expenses include promotional fees, occupancy and equipment, communications and data processing, regulatory fees, travel and entertainment, professional services and other expenses. We host certain advisor conferences that serve as training, sales and marketing events in our first and third fiscal quarters and as a result, we anticipate higher general and administrative expenses in comparison to other periods.

Depreciation and Amortization Expense. Depreciation and amortization expense represents the benefits received for using long-lived assets. Those assets represent significant intangible assets established through our acquisitions, as well as fixed assets which include internally developed software, hardware, leasehold improvements and other

equipment.

27

Table of Contents

Restructuring Charges. Restructuring charges represent expenses incurred as a result of our 2011 consolidation of UVEST Financial Services Group, Inc. (“UVEST”) and our 2009 consolidation of Associated Securities Corp., Mutual Service Corporation and Waterstone Financial Group, Inc. (together, the “Affiliated Entities”).

How We Evaluate Growth

We focus on several business and key financial metrics in evaluating the success of our business relationships and our resulting financial position and operating performance. Our key metrics as of and for the three and nine months ended September 30, 2011 and 2010 are as follows:

	September 30, 2011 (unaudited)		2010	% Change
Business Metrics				
Advisors(1)	12,799		12,017	6.5%
Advisory and brokerage assets (in billions)(2)	\$316.4		\$293.3	7.9%
Advisory assets under management (in billions)(3)	\$96.3		\$86.2	11.7%
Net new advisory assets (in billions)(4)	\$9.8		\$5.8	69.0%
Insured cash account balances (in billions)(3)	\$14.2		\$11.7	21.4%
Money market account balances (in billions)(3)	\$8.9		\$6.9	29.0%
	For the Three Months Ended September 30, 2011		For the Nine Months Ended September 30, 2011	
	2010		2010	
	(unaudited)			
Financial Metrics				
Revenue growth from prior period	16.2	%	8.2	%
Recurring revenue as a % of net revenue(5)	63.1	%	61.2	%
Adjusted EBITDA as a % of net revenue	12.6	%	13.0	%
Gross margin (in millions)(6)	\$259.0		\$234.3	
Gross margin as a % of net revenue(6)	29.3	%	30.8	%
Adjusted EBITDA as a % of gross margin(6)	43.1	%	42.1	%
Net income (in millions)	\$36.4		\$26.1	
Adjusted EBITDA (in millions)	\$111.6		\$98.6	
Adjusted Earnings (in millions)	\$51.6		\$40.5	
Earnings per share — diluted	\$0.32		\$0.26	
Adjusted Earnings per share — diluted	\$0.46		\$0.41	
			\$1.15	
			\$1.51	

Advisors are defined as those investment professionals who are licensed to do business with our broker-dealer (1) subsidiaries. The number of advisors at September 30, 2011 reflects attrition of 22 advisors related to the consolidation of UVEST.

(2) Advisory and brokerage assets are comprised of assets that are custodied, networked and non-networked and reflect market movement in addition to new assets, inclusive of new business development and net of attrition.

(3) Advisory assets under management, insured cash account balances and money market account balances are components of advisory and brokerage assets.

Table of Contents

Represents net new advisory assets consisting of funds from new accounts and additional funds deposited into existing advisory accounts that are custodied in our fee-based advisory platforms during the nine months ended (4) September 30, 2011. Net new advisory assets for the three months ended September 30, 2011 and 2010 were \$3.0 billion and \$1.9 billion, respectively.

(5) Recurring revenue is derived from sources such as advisory fees, asset-based fees, trailing commission fees, fees related to our cash sweep programs, interest earned on margin accounts and technology and service fees.

Gross margin is calculated as net revenues less production expenses. Production expenses consist of the following expense categories from our unaudited condensed consolidated statements of operations: (i) commissions and advisory fees and (ii) brokerage, clearing and exchange. All other expense categories, including depreciation and (6) amortization, are considered general and administrative in nature. Because our gross margin amounts do not include any depreciation and amortization expense, our gross margin amounts may not be comparable to those of others in our industry.

Adjusted EBITDA

Adjusted EBITDA is defined as EBITDA (net income plus interest expense, income tax expense, depreciation and amortization), further adjusted to exclude certain non-cash charges and other adjustments set forth below. We present Adjusted EBITDA because we consider it an important measure of our performance. Adjusted EBITDA is a useful financial metric in assessing our operating performance from period to period by excluding certain items that we believe are not representative of our core business, such as certain material non-cash items and other adjustments. We believe that Adjusted EBITDA, viewed in addition to, and not in lieu of, our reported GAAP results, provides useful information to investors regarding our performance and overall results of operations for the following reasons:

because non-cash equity grants made to employees at a certain price and point in time do not necessarily reflect how our business is performing at any particular time, share-based compensation expense is not a key measure of our operating performance and

because costs associated with acquisitions and the resulting integrations, debt refinancing, restructuring and conversions and equity issuance and related offering costs can vary from period to period and transaction to transaction, expenses associated with these activities are not considered a key measure of our operating performance. We use Adjusted EBITDA:

- as a measure of operating performance;
- for planning purposes, including the preparation of budgets and forecasts;
- to allocate resources to enhance the financial performance of our business;
- to evaluate the effectiveness of our business strategies;
- in communications with our board of directors concerning our financial performance; and
- as a factor in determining employee and executive bonuses.

Adjusted EBITDA is a non-GAAP measure and does not purport to be an alternative to net income as a measure of operating performance or to cash flows from operating activities as a measure of liquidity. The term Adjusted EBITDA is not defined under GAAP, and Adjusted EBITDA is not a measure of net income, operating income or any other performance measure derived in accordance with GAAP.

Table of Contents

Adjusted EBITDA has limitations as an analytical tool, and should not be considered in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Adjusted EBITDA does not reflect all cash expenditures, future requirements for capital expenditures or contractual commitments

Adjusted EBITDA does not reflect changes in, or cash requirements for, working capital needs and

Adjusted EBITDA does not reflect the significant interest expense, or the cash requirements necessary to service interest or principal payments, on our debt

Adjusted EBITDA can differ significantly from company to company depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which companies operate and capital investments, limiting its usefulness as a comparative measure

Because of these limitations, Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in our business. We compensate for these limitations by relying primarily on the GAAP results and using Adjusted EBITDA as supplemental information.

Set forth below is a reconciliation from our net income to Adjusted EBITDA for the three and nine months ended September 30, 2011 and 2010 (in thousands):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2011 (unaudited)	2010	2011	2010
Net income	\$36,428	\$26,144	\$130,934	\$59,698
Interest expense	16,603	19,511	52,929	71,530
Income tax expense	25,634	19,868	88,165	39,658
Amortization of purchased intangible assets and software(1)	9,909	9,352	29,132	34,401
Depreciation and amortization of all other fixed assets	9,313	10,420	26,662	33,071
EBITDA	97,887	85,295	327,822	238,358
EBITDA Adjustments:				
Share-based compensation expense(2)	3,833	2,853	11,120	7,628
Acquisition and integration related expenses(3)	1,241	6,268	4,205	9,785
Restructuring and conversion costs(4)	8,086	3,115	13,520	16,713
Debt amendment and extinguishment costs(5)	—	28	—	38,633
Equity issuance and related offering costs(6)	421	1,038	2,062	2,725
Other(7)	128	36	195	112
Total EBITDA Adjustments	13,709	13,338	31,102	75,596
Adjusted EBITDA	\$111,596	\$98,633	\$358,924	\$313,954

(1) Represents amortization of intangible assets and software as a result of our purchase accounting adjustments from our merger transaction in 2005 and our various acquisitions.

(2) Represents share-based compensation expense related to stock options awarded to employees and non-executive directors based on the grant date fair value under the Black-Scholes valuation model.

(3) Represents acquisition and integration costs resulting from various acquisitions.

(4)

Represents organizational restructuring charges and conversion and other related costs incurred resulting from the 2011 consolidation of UVEST and the 2009 consolidation of the Affiliated Entities.

Table of Contents

- (5) Represents debt amendment costs incurred in 2010 for amending and restating our credit agreement to establish a new term loan tranche and to extend the maturity of an existing tranche on our senior credit facilities.
- (6) Represents equity issuance and offering costs related to the closing of a secondary offering in the second quarter of 2011.

(7) Represents other taxes.

Adjusted Earnings and Adjusted Earnings per share

Adjusted Earnings represents net income before: (a) share-based compensation expense, (b) amortization of intangible assets and software, a component of depreciation and amortization resulting from our merger transaction in 2005 and our various acquisitions, (c) acquisition and integration related expenses, (d) restructuring and conversion costs, (e) debt amendment and extinguishment costs (f) equity issuance and related offering costs and (g) other. Reconciling items are tax effected using the income tax rates in effect for the applicable period, adjusted for any potentially non-deductible amounts.

Adjusted Earnings per share represents Adjusted Earnings divided by weighted average outstanding shares on a fully diluted basis.

We prepared Adjusted Earnings and Adjusted Earnings per share to eliminate the effects of items that we do not consider indicative of our core operating performance.

We believe that Adjusted Earnings and Adjusted Earnings per share, viewed in addition to, and not in lieu of, our reported GAAP results provide useful information to investors regarding our performance and overall results of operations for the following reasons:

because non-cash equity grants made to employees at a certain price and point in time do not necessarily reflect how our business is performing at any particular time, share-based compensation expense is not a key measure of our operating performance;

because costs associated with acquisitions and related integrations, debt refinancing, restructuring and conversions, and equity issuance and related offering costs can vary from period to period and transaction to transaction, expenses associated with these activities are not considered a key measure of our operating performance and

because amortization expenses can vary substantially from company to company and from period to period depending upon each company's financing and accounting methods, the fair value and average expected life of acquired intangible assets and the method by which assets were acquired, the amortization of intangible assets obtained in acquisitions are not considered a key measure in comparing our operating performance.

Since 2010, we have used Adjusted Earnings for internal management reporting and evaluation purposes. We also believe Adjusted Earnings and Adjusted Earnings per share are useful to investors in evaluating our operating performance because securities analysts use them as supplemental measures to evaluate the overall performance of companies, and our investor and analyst presentations include Adjusted Earnings and Adjusted Earnings per share. Adjusted Earnings and Adjusted Earnings per share are not measures of our financial performance under GAAP and should not be considered as an alternative to net income or earnings per share or any other performance measure derived in accordance with GAAP, or as an alternative to cash flows from operating activities as a measure of our profitability or liquidity.

Table of Contents

We understand that, although Adjusted Earnings and Adjusted Earnings per share are frequently used by securities analysts and others in their evaluation of companies, they have limitations as analytical tools, and you should not consider Adjusted Earnings and Adjusted Earnings per share in isolation, or as substitutes for an analysis of our results as reported under GAAP. In particular you should consider:

Adjusted Earnings and Adjusted Earnings per share do not reflect our cash expenditures, or future requirements for capital expenditures or contractual commitments;

Adjusted Earnings and Adjusted Earnings per share do not reflect changes in, or cash requirements for, our working capital needs and

Other companies in our industry may calculate Adjusted Earnings and Adjusted Earnings per share differently than we do, limiting their usefulness as comparative measures.

Management compensates for the inherent limitations associated with using Adjusted Earnings and Adjusted Earnings per share through disclosure of such limitations, presentation of our financial statements in accordance with GAAP and reconciliation of Adjusted Earnings to the most directly comparable GAAP measure, net income.

The following table sets forth a reconciliation of net income to Adjusted Earnings and Adjusted Earnings per share (in thousands, except per share data):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2011	2010	2011	2010
	(unaudited)			
Net income	\$36,428	\$26,144	\$130,934	\$59,698
After-Tax:				
EBITDA Adjustments(1)				
Share-based compensation expense(2)	2,933	2,257	8,511	6,137
Acquisition and integration related expenses	765	3,809	2,594	5,946
Restructuring and conversion costs	4,989	1,918	8,342	10,156
Debt amendment and extinguishment costs	—	17	—	23,477
Equity issuance and related offering costs	260	631	1,272	1,656
Other	79	22	120	68
Total EBITDA Adjustments	9,026	8,654	20,839	47,440
Amortization of purchased intangible assets and software(1)	6,113	5,728	17,974	20,905
Adjusted Earnings	\$51,567	\$40,526	\$169,747	\$128,043
Adjusted Earnings per share(3)	\$0.46	\$0.41	\$1.51	\$1.29
Weighted average shares outstanding — diluted(4)	111,173	99,612	112,483	99,303

EBITDA Adjustments and amortization of purchased intangible assets and software have been tax effected using a federal rate of 35.0% and the applicable effective state rate which was 3.30% for the three and nine month periods ended September 30, 2011, and 4.23% and 4.30% for the corresponding periods in 2010, net of the federal tax benefit. In April 2010, a step up in basis of \$89.1 million for internally developed software that was established at the time of the 2005 merger transaction became fully amortized, resulting in lower balances of intangible assets that are amortized.

(2) Represents the after-tax expense of non-qualified stock options in which we receive a tax deduction upon exercise, and the full expense impact of incentive stock options granted to employees that have vested and qualify for preferential tax treatment and conversely, we do not receive a tax deduction. Share-based compensation for vesting of incentive stock options was \$1.5 million and \$1.3 million, respectively, for the three months ended

September 30, 2011 and 2010, and \$4.3 million and \$3.8 million for the nine months ended September 30, 2011 and 2010, respectively.

Table of Contents

Represents Adjusted Earnings divided by weighted average number of shares outstanding on a fully diluted basis.
 (3) Set forth is a reconciliation of earnings per share on a fully diluted basis as calculated in accordance with GAAP to Adjusted Earnings per share:

	For the Three Months Ended September 30, 2011		For the Nine Months Ended September 30, 2011	
	2010		2010	
	(unaudited)			
Earnings per share — diluted	\$0.32	\$0.26	\$1.15	\$0.59
Adjustment for allocation of undistributed earnings to stock units	—	—	0.01	0.01
After-Tax:				
EBITDA Adjustments per share	0.09	0.09	0.19	0.48
Amortization of purchased intangible assets and software per share	0.05	0.06	0.16	0.21
Adjusted Earnings per share	\$0.46	\$0.41	\$1.51	\$1.29

Weighted average shares outstanding on a fully diluted basis increased from 99.3 million shares for the nine months ended September 30, 2010 to 112.5 million shares for the nine months ended September 30, 2011, due primarily to the successful completion of our Initial Public Offering (“IPO”) in the fourth quarter of 2010. The increase is attributed to the release of the restriction of approximately 7.4 million shares of common stock upon closing of our IPO in the fourth quarter of 2010, the issuance of approximately 1.5 million shares of common stock by the Company pursuant to the over-allotment option granted to the underwriters in connection with the IPO, and shares that were issued upon exercise of options by selling stockholders in connection with the IPO, net of any shares retired to satisfy the exercise price in a cashless exercise.

The following table reflects pro-forma Adjusted Earnings per share and growth in pro-forma Adjusted Earnings per share, assuming weighted average shares outstanding on a fully diluted basis as of September 30, 2011 were also outstanding as of September 30, 2010 (in thousands, except per share data):

	For the Three Months Ended September 30, 2011			For the Nine Months Ended September 30, 2011		
	2010	% Change		2010	% Change	
	(unaudited)			(unaudited)		
Adjusted Earnings	\$51,567			\$169,747		
Weighted average shares outstanding — diluted as of September 30, 2011	111,173			112,483		
Pro-forma Adjusted Earnings per share	\$0.46	27.8%		\$1.51	32.5%	

Acquisitions, Integrations and Divestitures

Acquisition of National Retirement Partners, Inc.

On July 14, 2010, we announced a definitive agreement to acquire certain assets of National Retirement Partners, Inc. (“NRP”). NRP’s advisors offer products and services to retirement plan sponsors and participants and comprehensive financial services to high net worth individuals. This strategic acquisition will further enhance our capabilities and presence in the group retirement plan space. Our existing advisors will benefit from growth opportunities, as well as IRA rollovers and other retirement related services and solutions.

The transaction closed on February 9, 2011, and accordingly 206 advisors previously registered with NRP transferred their securities and advisory licenses and registrations to LPL Financial LLC (“LPL Financial”). These advisors support small and medium sized business with employee retirement solutions, including group annuities and 401(k) plans.

We paid \$17.2 million at the closing of the transaction and placed \$3.7 million of cash into an escrow subject to adjustment pursuant to the terms of the purchase agreement. In the third quarter of 2011, we accrued additional consideration of \$1.1 million pursuant to the terms of the asset purchase agreement. In October 2011, we paid \$4.8

million of cash consideration to former shareholders of NRP, consisting of \$3.7 million from escrow and \$1.1 million in additional consideration.

Table of Contents

We may be required to pay future consideration to former shareholders of NRP that is contingent upon the achievement of certain revenue-based milestones in the third year following the acquisition. There is no maximum amount of contingent consideration; however, we have estimated the amount of future payment of contingent consideration to be \$7.9 million. Immediately following the close of the transaction, we paid \$2.0 million of the contingent consideration in advance to former shareholders of NRP, which reduced the remaining amount of future contingent consideration to be paid to \$5.9 million.

We estimated the fair value of the remaining contingent consideration to be \$3.3 million at the close of the transaction, which was determined using a discounted cash flow methodology based on financial forecasts that includes assumptions about revenue growth, operating margins and discount rates. We have recorded the \$3.3 million of contingent consideration within accounts payable and accrued liabilities, and we re-measure contingent consideration at fair value at each interim reporting period with changes recognized in earnings.

Including the contingent consideration of \$5.3 million, the total consideration for the acquisition was approximately \$25.3 million.

Acquisition of Concord Capital Partners

On April 20, 2011, we announced our intent to acquire all of the outstanding common stock of Concord Capital Partners ("Concord Wealth Management"). Concord Wealth Management is an industry leader in providing technology and open architecture investment management solutions for trust departments of financial institutions. Through this acquisition, we will have the ability to support both the brokerage and trust business lines of current and prospective financial institutions. The acquisition will also create new expansion opportunities such as giving us the ability to custody personal trust assets within banks across the country.

On June 22, 2011, the transaction closed. We paid \$20.0 million at the closing of the transaction. As of September 30, 2011, \$2.3 million remains in an escrow account to be paid to former shareholders of Concord Wealth Management in accordance with the terms of the stock purchase agreement.

We may be required to pay future consideration that is contingent upon the achievement of certain gross margin-based milestones for the year ended December 31, 2013. The maximum amount of contingent consideration is \$15.0 million, which also represents the estimated amount of future payment.

We estimated the fair value of the contingent consideration to be \$11.5 million at the close of the transaction, which was determined using a discounted cash flow methodology based on financial forecasts that includes assumptions about growth in gross margin, and discount rates. We have recorded the contingent consideration of \$11.5 million within accounts payable and accrued liabilities, and re-measure contingent consideration at fair value at each interim reporting period with changes recognized in earnings.

Including the contingent consideration of \$11.5 million, the total consideration for the acquisition was approximately \$33.8 million.

Consolidation of UVEST Financial Services Group, Inc.

On March 14, 2011, we committed to a corporate restructuring plan to enhance our service offering, while generating efficiencies. The restructuring plan includes the consolidation of the operations of our subsidiary, UVEST with those of LPL Financial. In connection with the consolidation of UVEST, certain registered representatives currently associated with UVEST are moving to LPL Financial through a transfer of their licenses. Following the transfer of registered representatives and client accounts to LPL Financial, all registered representatives and client accounts that transferred shall then be associated with LPL Financial. In addition, UVEST will terminate its clearing relationship with a third-party clearing firm and file a broker-dealer withdrawal request with the Financial Industry Regulatory Authority ("FINRA").

We anticipate recording pre-tax expenditures of \$47.6 million over the course of the restructuring plan, including a non-cash impairment charge of \$3.0 million. These expenditures are comprised of estimated costs of \$30.6 million relating to the conversion and transfer of registered representatives and client accounts from UVEST to LPL Financial (including approximately \$15.6 million in technology expenditures of which approximately \$11.5 million qualifies for capitalization as internally-developed software), \$9.0 million of contract termination fees and \$5.0 million of advisor

retention and related benefits. Refer to Note 4 in our unaudited condensed consolidated financial statements for additional information regarding costs incurred, capitalization of internally-developed software and the timing of future expected costs regarding the UVEST restructuring plan.

Table of Contents

During the third quarter of 2011, we completed a significant conversion of institutions and related client accounts from the UVEST platform to LPL Financial's self-clearing platform. In July 2011, we successfully converted 52 institutions representing 141 advisors and \$36.6 million in annual commission and advisory revenues. We incurred \$7.7 million in charges in the third quarter of 2011 related to UVEST restructuring.

In conjunction with the conversion, certain institutional relationships were determined to have no future economic benefit. Accordingly, we have recorded an intangible asset impairment charge of \$2.6 million. The impairment was determined based upon the attrition of institutions and their related revenue streams during the period of consolidation. These restructuring activities are expected to be completed by the end of 2011. In October 2011, we successfully converted 85 institutions representing approximately 185 advisors and \$48.4 million in annual commission and advisory revenues. The final wave of conversions is expected to be completed in December 2011. We expect this restructuring will improve pre-tax profitability by approximately \$10 million to \$12 million per year upon the completion of integration activities by creating operational efficiencies and revenue opportunities.

Economic Overview and Impact of Financial Market Events

The first nine months of 2011 have been a challenging and volatile period for the equity markets in response to concerns about European debt issues and the sustainability of economic growth. The S&P 500 closed the third quarter of 2011 at 1,131, down 10.0% from the close on December 31, 2010 and down 14.3% from the close on June 30, 2011. While equity markets have recovered from the market lows that occurred in March 2009, markets have remained choppy with periods of relative calm followed by periods of rapid declines such as encountered in the third quarter.

For the third quarter, the average S&P 500 was 1,225, down 7.1% from the second quarter of 2011 yet there was still an increase of 11.8% from the average S&P 500 of the third quarter of 2010. In August and September alone, the S&P 500 rose or fell by more than one percent on 27 out of 44 trading days and 11 of these days experienced drops of more than two percent.

In response to the market turbulence and overall economic environment, the central banks, including the Federal Reserve, have continued to maintain historically low interest rates. The average effective rate for federal funds was 0.08% in the third quarter of 2011, a decrease from the average of 0.19% for the third quarter of 2010. The low interest rate environment negatively impacts our revenues from client assets in our cash sweep programs.

During the third quarter of 2011, a downgrade of U.S. Treasury securities by Standard & Poor's Ratings Services had an initial, adverse impact on financial markets, including the equity markets. While the longer-term impact of the downgrade on the markets cannot be determined, it is possible that this downgrade, concerns about fiscal policy and the debt levels in the United States, and uncertainties about European sovereign debt could disrupt economic activity in the United States. To date, our business and operations have not been directly impacted by this downgrade and we continue to maintain nominal direct exposure to U.S. or other sovereign debt securities.

During the first half of 2011, our business experienced record levels in commission and advisory revenue; however, in the third quarter, we were impacted by turbulent markets as revenues experienced modest declines sequentially.

Despite the economic challenges faced, all significant revenue categories had substantial increases in the third quarter of 2011 compared to the third quarter of 2010.

While our business has improved as a result of our focus on multiple organic growth drivers, our outlook for the markets remains cautiously optimistic and we continue to attempt to manage the impact of financial market events on our earnings. We maintain a strategic focus on attractive growth opportunities such as supporting our existing advisors sustain their businesses, continuing to attract new advisors and pursuing expense management activities.

Table of Contents

Results of Operations

The following discussion presents an analysis of our results of operations for the three and nine months ended September 30, 2011 and 2010. Where appropriate, we have identified specific events and changes that affect comparability or trends, and where possible and practical, have quantified the impact of such items.

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2011	2010	% Change		2011	2010	% Change	
	(In thousands)				(In thousands)			
Revenues								
Commissions	\$438,294	\$385,273	13.8	%	\$1,350,053	\$1,194,414	13.0	%

Table of Contents

Revenues

Commissions

The following table sets forth our commission revenue by product category included in our unaudited condensed consolidated statements of operations for the three months ended September 30, 2011 and 2010 (in thousands):

	2011	% Total	2010	% Total	Change	% Change	
Variable annuities	\$195,207	44.5	% \$161,729	42.0	% \$33,478	20.7	%
Mutual funds	118,940	27.1	% 105,302	27.3	% 13,638	13.0	%
Fixed annuities	30,617	7.0	% 33,103	8.6	% (2,486)	(7.5))%
Alternative investments	30,028	6.9	% 25,876	6.7	% 4,152	16.0	%
Equities	24,805	5.7	% 19,644	5.1	% 5,161	26.3	%
Fixed income	20,007	4.6	% 21,060	5.5	% (1,053)	(5.0))%
Insurance	18,105	4.1	% 18,044	4.7	% 61	0.3	%
Other	585	0.1	% 515	0.1	% 70	13.6	%
Total commission revenue	\$438,294	100.0	% \$385,273	100.0	% \$53,021	13.8	%

Commission revenue increased by \$53.0 million, or 13.8%, for the three months ended September 30, 2011 compared with 2010. The product mix reflects the volatility of the financial markets during the three months ended September 30, 2011 as retail investors increasingly invested in more stable investments such as variable annuities with a guarantee option. Mutual fund commission-based products were bolstered by increasing levels of trail-based commissions due to historical growth of the underlying assets. The increase in alternative investments is reflective of more product availability and investor preferences for diversification. Additionally, equity commissions increased correlating to a volume increase in equity transactions.

The following table sets forth our commission revenue by product category included in our unaudited condensed consolidated statements of operations for the nine months ended September 30, 2011 and 2010 (in thousands):

	2011	% Total	2010	% Total	Change	% Change	
Variable annuities	\$591,780	43.8	% \$490,176	41.0	% \$101,604	20.7	%
Mutual funds	368,030	27.3	% 337,557	28.3	% 30,473	9.0	%
Fixed annuities	110,071	8.1	% 106,193	8.9	% 3,878	3.7	%
Alternative investments	84,471	6.3	% 72,073	6.0	% 12,398	17.2	%
Equities	77,107	5.7	% 68,784	5.8	% 8,323	12.1	%
Fixed income	65,509	4.8	% 63,015	5.3	% 2,494	4.0	%
Insurance	50,991	3.8	% 54,938	4.6	% (3,947)	(7.2))%
Other	2,094	0.2	% 1,678	0.1	% 416	24.8	%
Total commission revenue	\$1,350,053	100.0	% \$1,194,414	100.0	% \$155,639	13.0	%

Commission revenue increased by \$155.6 million, or 13.0%, for the nine months ended September 30, 2011 compared with 2010. Similar to the three month period, the leading factor for the increase was growth in commissions earned on sales of variable annuities, and in trail-based commissions for variable annuities and mutual funds. Also contributing to the increase were higher alternative investments sales. Insurance commissions declined as term life insurance experienced reduced sales.

Table of Contents**Advisory Fees**

Advisory fees increased by \$55.5 million, or 26.2%, to \$267.9 million for the three months ended September 30, 2011 compared with 2010. Advisory revenue is predominately driven by the prior quarter-end advisory assets under management, which increased 30.8% from June 30, 2010 to June 30, 2011. The increase in advisory assets was primarily due to net new advisory assets of \$11.5 billion over this period as a result of strong new business development and a shift by our existing advisors toward more advisory business. We added an additional \$3.0 billion in net new advisory assets in the third quarter of 2011. The remaining advisory asset growth was driven by its correlation to market growth, as represented by the S&P 500 index growing 28.1% from 1,031 as of June 30, 2010 to 1,321 on June 30, 2011.

Advisory fees increased by \$142.4 million, or 22.5%, for the nine months ended September 30, 2011 compared with 2010. This growth was supported by the same net new advisory asset flows and market appreciation that impacted our quarterly performance.

The following table summarizes the activity within our advisory assets under management for the three and nine months ended September 30, 2011 and 2010 (in billions):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2011	2010	2011	2010
Beginning of period	\$103.2	\$78.9	\$93.0	\$77.2
Net new advisory assets	3.0	1.9	9.8	5.8
Market impacts	(9.9) 5.4	(6.5) 3.2
End of period	\$96.3	\$86.2	\$96.3	\$86.2

Asset-Based Fees

Asset-based fees of \$89.7 million increased by \$8.1 million, or 9.9%, for the three months ended September 30, 2011 compared with 2010. Revenues from product sponsors and for record-keeping services, which are largely based on the underlying asset values, increased due to an increase in the average S&P 500 index and its impact on the value of the underlying assets and net new sales of eligible assets. The average S&P 500 index for the three months ended September 30, 2011 was 1,225, an increase of 11.8% over the average for the three months ended September 30, 2010. Revenues from our cash sweep programs were \$31.6 million for the three months ended September 30, 2011 and \$31.9 million for the three months ended September 30, 2010. In particularly volatile times, we typically experience a short term increase in the level of assets held in our cash products. Assets in our cash sweep programs averaged \$22.2 billion and \$18.7 billion for the three months ended September 30, 2011 and 2010, respectively. The decline in the effective federal funds rate more than offset the increase in assets in our cash sweep programs.

Asset-based fees increased by \$39.5 million, or 17.2%, to \$270.0 million for the nine months ended September 30, 2011 compared with 2010. Revenues from product sponsors and for record-keeping services increased due to the impact of the higher average market indices on the value of those underlying assets and net new sales of eligible assets. The average S&P 500 index for the nine months ended September 30, 2011 was 1,282, an increase of 14.6% over the average for the nine months ended September 30, 2010. In addition, revenues from our cash sweep programs increased by \$5.6 million, or 6.4%, to \$93.2 million for the nine months ended September 30, 2011 from \$87.6 million for the nine months ended September 30, 2010. This was driven by an increase in the assets in our cash sweep programs, which averaged \$20.2 billion and \$18.6 billion for the nine months ended September 30, 2011 and 2010, respectively.

Transaction and Other Fees

Transaction and other fees, which include fees from advisors and their client accounts for various processing, technology and account services increased by \$8.2 million, or 11.7%, for the three months ended September 30, 2011 compared with 2010. The primary factor for the increase was a 6.1% increase in advisors for the three months ended September 30, 2011 compared with 2010. Also contributing to the increase was a higher volume of transactions on which we earn a fee as a result of market volatility in the current quarter.

Table of Contents

Transaction and other fees increased by \$15.2 million, or 7.4%, for the nine months ended September 30, 2011 compared with 2010. Transactional revenues increased by \$8.4 million due to increased volumes in investment activities and related transactional volumes in mutual fund, general securities, fixed income and advisory products. Other fees also increased due to the increase in number of advisors.

Other Revenue

Other revenue includes marketing re-allowances from certain product manufacturers, interest income from client margin accounts and cash equivalents, net of operating interest expense and other items. Other revenue decreased by \$2.0 million, or 18.9%, to \$8.5 million for the three months ended September 30, 2011 compared with 2010. Unrealized losses on assets held for the advisor deferred commissions non-qualified deferred compensation plan were the primary contributor to the decrease as the losses were greater by \$1.9 million in the three months ended September 30, 2011 compared to the prior year period. These assets are marked to market at each interim reporting period.

Other revenue increased \$4.3 million, or 14.9%, to \$33.4 million for the nine months ended September 30, 2011 compared to 2010. In the nine months ended September 30, 2011, direct investment marketing allowances received from product sponsor programs increased by \$1.7 million compared to the same period in 2010, largely based on the market values of the underlying assets. Additionally, in 2011 we received a \$1.8 million payment for a contract termination from an Institutional Services client.

Expenses

Production Expenses

Production expenses increased by \$98.3 million, or 18.7%, for the three months ended September 30, 2011 compared with 2010. This increase aligned with our commission and advisory revenues, which increased by 18.2% during the same period. Our production payout, which includes all production expenses except brokerage, clearing and exchange expenses, averaged 87.0% for the three months ended September 30, 2011 and 86.6% for the three months ended September 30, 2010. The increase in payout rates from the third quarter of 2010 to the comparable period of 2011 is driven by our annual production based bonus incentive structures, which increase throughout the year as our advisors achieve higher production levels.

Production expenses increased by \$266.9 million, or 16.7%, for the nine months ended September 30, 2011 compared with 2010. This increase was correlated with our commission and advisory revenues, which increased by 16.3% during the same period. Our production payout averaged 86.2% for the nine months ended September 30, 2011 and 85.8% for the nine months ended September 30, 2010. The increase in payout rates is driven by a change in the channel and product mix of our commissions revenues as well as our annual production based bonus incentive structures, which increase throughout the year as our advisors achieve higher production levels. As a result of greater advisor activity year-to-date, advisors are achieving these production based bonuses earlier in the year.

Compensation and Benefits

Compensation and benefits increased by \$2.7 million, or 3.6%, for the three months ended September 30, 2011 compared with 2010. The increase was due to increased staffing to support higher levels of advisor and client activities in addition to our 2011 acquisitions, an increase in wages and related employee benefits and the recognition of share-based compensation for stock options awarded to employees based on the grant date fair value. Specifically, employee related share-based compensation increased \$1.0 million for the three months ended September 30, 2011 compared to 2010, primarily due to equity grants issued in December 2010. Our average number of full-time employees increased by 177, or 7.0% from 2,540 for the three months ended September 30, 2010 to 2,717 for the three months ended September 30, 2011. Included in the 177 employee increase are 62 employees attributed to our acquisitions of NRP and Concord Wealth Management.

Table of Contents

Compensation and benefits increased by \$19.9 million, or 8.9%, for the nine months ended September 30, 2011 compared with 2010. The increase was due to increased staffing to support higher levels of advisor and client activities, an increase in wages and related employee benefits and the recognition of share-based compensation for stock options awarded to employees based on the grant date fair value. Our average number of full-time employees increased 6.8% from 2,502 for the nine months ended September 30, 2010 to 2,673 for the nine months ended September 30, 2011. Employee related share-based compensation increased \$3.5 million for the nine months ended September 30, 2011 compared to 2010, primarily due to equity grants issued in December 2010.

General and Administrative Expenses

General and administrative expenses increased by \$3.5 million, or 4.8%, to \$76.1 million for the three months ended September 30, 2011 compared with 2010. The increase was due primarily to a \$2.9 million increase in business development and other promotional expenses. For the three months ended September 30, 2011 and 2010, general and administrative expenses include \$15.8 million and \$14.5 million, respectively, in expenses attributable to our annual advisor conferences.

General and administrative expenses increased by \$16.3 million, or 8.7%, to \$204.7 million for the nine months ended September 30, 2011 compared with 2010. Advisor growth of 355 net new advisors over the nine months ended September 30, 2011 fueled a \$10.4 million increase in business development and other promotional expenses. An increase in our investment in technology projects related to system enhancements for our advisors attributed to increases in expense for non-depreciable equipment, licensing fees, software costs, and professional fees. The nine months ended September 30, 2010 also include \$8.9 million of charges covered under a third-party indemnification agreement whereby the indemnitor has disputed its obligation. Refer to Litigation in Note 11 within the unaudited condensed consolidated financial statements for additional details regarding this matter.

Depreciation and Amortization

Depreciation and amortization expense decreased by \$0.6 million, or 2.8% for the three months ended September 30, 2011 compared with 2010. For the nine months ended September 30, 2011, depreciation and amortization decreased by \$11.7 million, or 17.3% compared to the prior year period. The decrease in the nine month period is attributed to certain internally developed software subject to a step up in basis of \$89.1 million at the time of our 2005 merger transaction which became fully amortized in April 2010. Accordingly, we recorded \$6.5 million in amortization expense for the nine months ended September 30, 2010 that did not recur in 2011.

Restructuring Charges

Restructuring charges were \$7.7 million and \$13.0 million for the three and nine months ended September 30, 2011, respectively. These charges relate primarily to technology costs and other expenditures incurred for the ongoing conversion and transfer of advisors and their client accounts from UVEST to LPL Financial. Additionally, impairment charges of \$0.9 million and \$2.6 million related to customer intangible assets are included for the three and nine months ended September 30, 2011, respectively. Refer to Note 4 within the unaudited condensed consolidated financial statements for additional details regarding this matter.

Restructuring charges were \$1.9 million and \$10.4 million for the three and nine months ended September 30, 2010, respectively. These amounts represented charges incurred for severance and termination benefits of \$2.1 million, contract termination costs of \$2.4 million, asset impairment write-offs of \$0.8 million and \$5.1 million in other expenditures principally relating to the conversion and transfer of registered representatives and client accounts from the Affiliated Entities to LPL Financial.

Interest Expense

Interest expense includes non-operating interest expense for our senior secured credit facilities. Interest expense decreased by \$2.9 million, or 14.9%, for the three months ended September 30, 2011 compared with 2010. The primary cause of the decrease was the maturity of interest rate swaps with a notional value of \$190.0 million on June 30, 2010, reducing our related interest expense by \$1.9 million for the three months ended September 30, 2011 compared to 2010. Additionally, we repaid \$40.0 million of term loans under our senior secured credit facilities using net proceeds received in our IPO, as well as other cash on hand, which resulted in interest savings of \$0.4 million in the three months ended September 30, 2011.

Table of Contents

Interest expense decreased \$18.6 million, or 26.0%, for the nine months ended September 30, 2011 compared with 2010. The reduction in interest expense for the nine months ended September 30, 2011 is primarily attributed to our debt refinancing in the second quarter of 2010, which included the redemption of our senior unsecured subordinated notes, resulting in a lower cost of borrowing. Interest rate swaps with a notional value of \$190.0 million matured on June 30, 2010, reducing our related interest expense by \$5.8 million for the nine months ended September 30, 2011 compared to 2010. In addition, the \$40.0 million debt pay down resulted in interest savings of \$1.1 million for the nine months ended September 30, 2011.

Provision for Income Taxes

We estimate our full-year effective income tax rate at the end of each interim reporting period. This estimate is used in providing for income taxes on a year-to-date basis and may change in subsequent interim periods. The tax rate in any quarter can be affected positively and negatively by adjustments that are required to be reported in the specific quarter of resolution. The effective income tax rates reflect the impact of state taxes, settlement contingencies and expenses that are not deductible for tax purposes.

During the three months ended September 30, 2011, we recorded income tax expense of \$25.6 million compared with an income tax expense of \$19.9 million for the three months ended September 30, 2010. Our effective income tax rate was 41.3% and 43.2% for the three months ended September 30, 2011 and 2010, respectively.

For the nine months ended September 30, 2011, we recorded income tax expense of \$88.2 million compared with an income tax expense of \$39.7 million for the nine months ended September 30, 2010. Our effective income tax rate was 40.2% and 39.9% for the nine months ended September 30, 2011 and 2010, respectively.

Liquidity and Capital Resources

Senior management establishes our liquidity and capital policies. These policies include senior management's review of short- and long-term cash flow forecasts, review of monthly capital expenditures and daily monitoring of liquidity for our subsidiaries. Decisions on the allocation of capital include projected profitability and cash flow, risks of the business, regulatory capital requirements and future liquidity needs for strategic activities. Our Treasury Department assists in evaluating, monitoring and controlling the business activities that impact our financial condition, liquidity and capital structure and maintains relationships with various lenders. The objectives of these policies are to support the executive business strategies while ensuring ongoing and sufficient liquidity.

A summary of changes in cash flow data is provided as follows:

	Nine Months Ended September 30,	
	2011	2010
	(In thousands)	
Net cash flows provided by (used in):		
Operating activities	\$363,746	\$107,821
Investing activities	(46,274)	(12,276)
Financing activities	(73,491)	(31,592)
Net increase in cash and cash equivalents	243,981	63,953
Cash and cash equivalents — beginning of period	419,208	378,594
Cash and cash equivalents — end of period	\$663,189	\$442,547

Cash requirements and liquidity needs are primarily funded through our cash flow from operations and our capacity for additional borrowing.

Table of Contents

Net cash provided by operating activities includes net income adjusted for non-cash expenses such as depreciation and amortization, restructuring charges, share-based compensation, amortization of debt issuance costs, deferred income tax provision and changes in operating assets and liabilities. Operating assets and liabilities include balances related to settlement and funding of client transactions, receivables from product sponsors and accrued commissions and advisory fees due to our advisors. Operating assets and liabilities that arise from the settlement and funding of transactions by our advisors' clients are the principal cause of changes to our net cash from operating activities and can fluctuate significantly from day to day and period to period depending on overall trends and client behaviors.

Net cash provided by operating activities was \$363.7 million and \$107.8 million for the nine month periods ended September 30, 2011 and 2010, respectively. Net cash provided by operating activities for the nine months ended September 30, 2011 includes an increase in net income of \$71.2 million, \$57.3 million of excess tax benefits resulting from stock options exercised that primarily occurred in May 2011 at the expiration of the IPO lock-up, and a \$193.2 million change in tax receivables that arose primarily from a tax benefit resulting from our IPO in November 2010.

Net cash used in investing activities for the nine months ended September 30, 2011 and September 30, 2010 totaled \$46.3 million and \$12.3 million, respectively. The increase for the nine months ended September 30, 2011, as compared to the nine months ended September 30, 2010 was primarily due to \$37.2 million used for the acquisitions of NRP and Concord Wealth Management. Additionally, there was cash used of \$24.3 million for capital expenditures for the nine months ended September 30, 2011 compared to \$10.9 million for the prior year period. Partially offsetting these trends is the release of restricted cash of \$18.9 million, including \$16.3 million in escrow releases related to our 2011 acquisitions of NRP and Concord Wealth Management, compared to \$3.0 million for the same period in the prior year.

Net cash used in financing activities for the nine months ended September 30, 2011 and 2010 was \$73.5 million and \$31.6 million, respectively. Cash flows used in financing activities for the nine months ended September 30, 2011, include \$89.0 million of cash used to repurchase outstanding stock and \$50.5 million of cash used to repay senior credit facilities, partially offset by \$57.3 million in cash generated from excess tax benefits arising from stock options exercised.

We believe that based on current levels of operations and anticipated growth, cash flow from operations, together with other available sources of funds, which includes three lines of credit available, we will be adequate to satisfy our working capital needs, the payment of all of our obligations and the funding of anticipated capital expenditures for the foreseeable future. In addition, we have certain capital requirements due to our registered broker-dealer entities and have met all capital adequacy requirements for each entity and expect this to also continue for the foreseeable future.

Tax Benefit Analysis

In 2010, upon closing our IPO in the fourth quarter, the restriction on 7.4 million shares of common stock issued to our advisors under the Fifth Amended and Restated 2000 Stock Bonus Plan was released. Accordingly, we recorded a share-based compensation charge and a corresponding tax deduction of \$222.0 million in the fourth quarter of 2010, representing the offering price of \$30.00 per share multiplied by 7.4 million shares. We were able to take a tax deduction for the share-based compensation charge, as noted below.

On January 20, 2011, we received a \$45.0 million tax refund for federal taxes paid in 2010. On April 4, 2011, we received \$55.3 million and \$42.9 million, respectively, for refunds of federal taxes paid in 2009 and 2008.

The remaining tax benefit expected to be utilized through the use of NOLs from tax deductions resulting from the IPO primarily relate to state taxes that are expected to be utilized over the next few years dependent upon each state's tax laws related to NOL carryforwards. We have tax carryforwards in a few states that have temporarily suspended or limited the use of tax carryforwards to offset current taxable income. We do not anticipate these suspensions will prevent the full realization of these benefits in the future as the carryforward periods have been extended.

Table of Contents

Operating Capital Requirements

Our primary requirement for working capital relates to funds we loan to our advisors' clients for trading done on margin and funds we are required to maintain at clearing organizations to support these clients' trading activities. We require that our advisors' clients deposit funds with us in support of their trading activities and we hypothecate securities held as margin collateral, which we in turn use to lend to clients for margin transactions and deposit with our clearing organizations. These activities account for the majority of our working capital requirements, which are primarily funded directly or indirectly by our advisors' clients. Our other working capital needs are primarily limited to regulatory capital requirements and software development, which we have satisfied in the past from internally generated cash flows.

Notwithstanding the self-funding nature of our operations, we may sometimes be required to fund timing differences arising from the delayed receipt of client funds associated with the settlement of client transactions in securities markets. These timing differences are funded either with internally generated cash flow or, if needed, with funds drawn under the revolving credit facility at the holding company, and/or uncommitted lines of credit at our broker-dealer subsidiary, LPL Financial.

Our registered broker-dealers are subject to the SEC's Uniform Net Capital Rule, which requires the maintenance of minimum net capital. LPL Financial computes net capital requirements under the alternative method, which requires firms to maintain minimum net capital, as defined, equal to the greater of \$250,000 or 2% of aggregate debit balances arising from client transactions plus 1% of net commission payable, as defined. LPL Financial is also subject to the Commodity Futures Trading Commission's minimum financial requirements, which require that it maintain net capital, as defined, equal to 4% of customer funds required to be segregated pursuant to the Commodity Exchange Act, less the market value of certain commodity options, all as defined. UVEST and MSC compute net capital requirements under the aggregate indebtedness method, which requires firms to maintain minimum net capital, as defined, of not less than 6.67% of aggregate indebtedness plus 1% of net commission payable, also as defined.

Our subsidiary, PTC, is subject to various regulatory capital requirements. Failure to meet minimum capital requirements can initiate certain mandatory and possible additional discretionary actions by regulators that, if undertaken, could have a direct material effect on our unaudited condensed consolidated financial statements.

On September 13, 2011, MSC filed a broker-dealer withdrawal request with FINRA. We expect MSC's request for broker-dealer withdrawal to be granted, effective 60 days after the filing date. Upon such withdrawal, MSC will no longer be subject to net capital filing requirements.

Liquidity Assessment

Our ability to meet our debt service obligations and reduce our total debt will depend upon our future performance which, in turn, will be subject to general economic, financial, business, competitive, legislative, regulatory and other conditions, many of which are beyond our control. In addition, our operating results, cash flow and capital resources may not be sufficient for repayment of our indebtedness in the future. Some risks that could materially adversely affect our ability to meet our debt service obligations include, but are not limited to, general economic conditions and economic activity in the financial markets. The performance of our business is correlated with the economy and financial markets, and a slowdown in the economy or financial markets could adversely affect our business, results of operations, cash flows or financial condition.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we may be forced to reduce or delay investments, seek additional capital or restructure or refinance our indebtedness. These measures may not be successful and may not permit us to meet our scheduled debt service obligations. In the absence of sufficient cash flows and capital resources, we could face substantial liquidity constraints and might be required to dispose of material assets or operations to meet our debt service and other obligations. However, our senior secured credit agreement will restrict our ability to dispose of assets and the use of proceeds from any such dispositions. We may not be able to consummate those dispositions, and even if we could consummate such dispositions, to obtain the proceeds that we could realize from them and, in any event, the proceeds may not be adequate to meet any debt service obligations then due.

Table of Contents

Indebtedness

On May 24, 2010, we amended and restated our senior secured credit agreement to add a new term loan tranche of \$580.0 million maturing at June 28, 2017, which we used, together with cash on hand, to redeem our \$550.0 million of senior unsecured subordinated notes, as described below. We also extended the maturity of a \$500.0 million tranche of our term loan facility to June 25, 2015, with the remaining \$317.1 million tranche maturing at the original maturity date of June 28, 2013. In September 2011, our corporate credit rating was upgraded to Ba2 from Ba3 by a leading credit rating agency. The upgrade did not affect the interest rate or the covenants in the senior secured credit facilities.

We also maintain a revolving credit facility which is provided through the senior secured credit facilities. On January 25, 2010, we amended our senior secured credit agreement to increase the revolving credit facility from \$100 million to \$218.2 million. In connection with this amendment, we extended the maturity of a \$163.5 million tranche of the revolving credit facility to June 28, 2013. The remaining \$54.7 million tranche retains its original maturity date of December 28, 2011. Since we believe we have sufficient capital to fund our operations and any potential future borrowing needs, we plan to allow the \$54.7 million tranche expire at the end of the fourth quarter without renewal. The availability on the revolving credit facility is reduced by a \$10 million letter of credit required by regulatory agencies for PTC.

We maintain three uncommitted lines of credit at LPL Financial. Two of the lines have unspecified limits, and are primarily dependent on our ability to provide sufficient collateral. The other line has a \$150.0 million limit and allows for both collateralized and uncollateralized borrowings. The lines were utilized in 2011 and 2010; however, there were no balances outstanding at September 30, 2011 or December 31, 2010.

We also are a party to an interest rate swap agreement, in a notional amount of \$65.0 million, to mitigate interest rate risk by hedging the variability of a portion of our floating-rate senior secured term loan.

Interest Rate and Fees

Borrowings under our senior secured credit facilities bear interest at a base rate equal to the one, two, three, six, nine or twelve-month LIBOR plus our applicable margin, or an alternative base rate ("ABR") plus our applicable margin. The ABR is equal to the greatest of (a) the prime rate in effect on such day, (b) the effective federal funds rate in effect on such day plus 0.5% and (c) solely in the case of the 2015 Term Loans and the 2017 Term Loans, 2.50%. The applicable margin for borrowings (a) with respect to the 2013 Term Loans is currently 0.75% for base rate borrowings and 1.75% for LIBOR borrowings, (b) with respect to the 2015 Term Loans is currently 1.75% for base rate borrowings and 2.75% for LIBOR borrowings, (c) with respect to the 2017 Term Loans is currently 2.75% for base rate borrowings and 3.75% for LIBOR borrowings, (d) with respect to revolver tranche maturing in 2011 is currently 1.00% for base rate borrowings and 2.00% for LIBOR borrowings and (e) with respect to revolver tranche maturing in 2013 is currently 2.50% for base rate borrowings and 3.50% for LIBOR borrowings. The applicable margin on our 2013 Term Loans could change depending on our credit rating. The LIBOR Rate with respect to the 2015 Term Loans and the 2017 Term Loans shall in no event be less than 1.50%.

In addition to paying interest on outstanding principal under the senior secured credit facilities, we are required to pay a commitment fee to the lenders under the revolving credit facility in respect of the unutilized commitments thereunder. The commitment fee rates at September 30, 2011 were 0.375% for our revolver tranche maturing in 2011 and 0.75% for our revolver tranche maturing in 2013, but are subject to change depending on our leverage ratio. We must also pay customary letter of credit fees.

Prepayments

The senior secured credit facilities (other than the revolving credit facility) require us to prepay outstanding amounts under our senior secured term loan facility subject to certain exceptions, with:

50% (percentage will be reduced to 25% if our total leverage ratio is 5.00 or less and to 0% if our total leverage ratio is 4.00 or less) of our annual excess cash flow (as defined in our senior secured credit agreement) adjusted for, among other things, changes in our net working capital;

Table of Contents

100% of the net cash proceeds of all nonordinary course asset sales or other dispositions of property, if we do not reinvest or commit to reinvest those proceeds in assets to be used in our business or to make certain other permitted investments within 15 months as long as such reinvestment is completed within 180 days; and

100% of the net cash proceeds of any incurrence of debt, other than proceeds from debt permitted under the senior secured credit agreement.

The foregoing mandatory prepayments will be applied to scheduled installments of principal of the senior secured term loan facility in direct order.

We may voluntarily repay outstanding loans under the senior secured credit agreement at any time without premium or penalty, other than customary “breakage” costs with respect to LIBOR loans.

Amortization

We are required to repay the loans under the senior secured term loan facility in equal quarterly installments in aggregate annual amounts equal to 1% of the original funded principal amount of such facility, with the balance being payable on the final maturity date of the facility.

Principal amounts outstanding under the revolving credit facilities are due and payable in full at maturity.

Guarantee and Security

The senior secured credit facilities are secured primarily through pledges of the capital stock in our subsidiaries.

Certain Covenants and Events of Default

The senior secured credit agreement contains a number of covenants that, among other things, restrict, subject to certain exceptions, our ability to:

incur additional indebtedness;

create liens;

enter into sale and leaseback transactions;

engage in mergers or consolidations;

sell or transfer assets;

pay dividends and distributions or repurchase our capital stock;

make investments, loans or advances;

prepay certain subordinated indebtedness;

engage in certain transactions with affiliates;

amend material agreements governing certain subordinated indebtedness; and

change our lines of business.

Table of Contents

Our senior secured credit facilities prohibit us from paying dividends and distributions or repurchasing our capital stock except for limited purposes, including, but not limited to payments in connection with: (i) redemption, repurchase, retirement or other acquisition of our equity interests from present or former officers, managers, consultants, employees and directors upon the death, disability, retirement, or termination of employment of any such person or otherwise in accordance with any stock option or stock appreciate rights plan, any management or employee stock ownership plan, stock subscription plan, employment termination agreement or any employment agreements or stockholders' agreement, in an aggregate amount not to exceed \$5.0 million in any fiscal year plus the amount of cash proceeds from certain equity issuances to such persons, the amount of equity interests subject to a certain deferred compensation plan and the amount of certain key-man life insurance proceeds, (ii) franchise taxes, general corporate and operating expenses not to exceed \$3.0 million in any fiscal year, and fees and expenses related to any unsuccessful equity or debt offering permitted by the senior secured credit facilities, (iii) tax liabilities to the extent attributable to our business and our subsidiaries and (iv) dividends and other distributions in an aggregate amount not to exceed 50% of our cumulative consolidated net income available to stockholders at such time so long as at the time of such payment of dividend or the making of such distribution, and after giving effect thereto, our leverage ratio is less than 3.50:1.00. The share repurchase programs were authorized by the Board of Directors pursuant to item (iv) above.

In addition, our financial covenant requirements include a leverage ratio test and an interest coverage ratio test. Under our leverage ratio test, we covenant not to allow the ratio of our consolidated total debt (as defined in our senior secured credit agreement) to an adjusted EBITDA reflecting financial covenants in our senior secured credit facilities ("Credit Agreement Adjusted EBITDA") to exceed certain prescribed levels set forth in the agreement. Under our interest coverage ratio test, we covenant not to allow the ratio of our Credit Agreement Adjusted EBITDA to our consolidated interest expense (as defined in our senior secured credit agreement) to be less than certain prescribed levels set forth in the agreement. Each of our financial ratios is measured at the end of each fiscal quarter.

Our senior secured credit agreement provides us with a right to cure in the event we fail to comply with our leverage ratio test or our interest coverage test. We must exercise this right to cure within ten days of the delivery of our quarterly certificate calculating the financial ratio for that quarter.

If we fail to comply with these covenants and are unable to cure, we could face substantial liquidity problems and could be forced to sell assets, seek additional capital or seek to restructure or refinance our indebtedness. These alternative measures may not be successful or feasible. Our senior secured credit agreement restricts our ability to sell assets. Even if we could consummate those sales, the proceeds that we realize from them may not be adequate to meet any debt service obligations then due. Furthermore, if an event of default were to occur with respect to our senior secured credit agreement, our creditors could, among other things, accelerate the maturity of our indebtedness.

As of September 30, 2011 and December 31, 2010, we were in compliance with all of our covenant requirements.

Our covenant requirements and actual ratios as of September 30, 2011 and December 31, 2010 are as follows:

Financial Ratio	September 30, 2011		December 31, 2010	
	Covenant Requirement	Actual Ratio	Covenant Requirement	Actual Ratio
Leverage Test (Maximum)	3.00	1.87	3.70	2.64
Interest Coverage (Minimum)	3.00	6.83	2.60	4.81

Table of Contents

Set forth below is a reconciliation from EBITDA, Adjusted EBITDA and Credit Agreement Adjusted EBITDA to our net income for the trailing twelve months ending September 30, 2011 and December 31, 2010 (in thousands):

	September 30, 2011 (unaudited)	December 31, 2010
Net income (loss)	\$14,374	\$(56,862)
Interest expense	71,806	90,407
Income tax expense	16,520	(31,987)
Amortization of purchased intangible assets and software(1)	38,389	43,658
Depreciation and amortization of all other fixed assets	35,970	42,379
EBITDA	177,059	87,595
EBITDA Adjustments:		
Share-based compensation expense(2)	13,921	10,429
Acquisition and integration related expenses(3)	6,989	12,569
Restructuring and conversion costs(4)	19,642	22,835
Debt amendment and extinguishment costs(5)	—	38,633
Equity issuance and related offering costs(6)	240,239	240,902
Other(7)	233	150
Total EBITDA Adjustments	281,024	325,518
Adjusted EBITDA	458,083	413,113
Pro-forma adjustments(8)	—	—
Credit Agreement Adjusted EBITDA	\$458,083	\$413,113

(1) Represents amortization of intangible assets and software as a result of our purchase accounting adjustments from our merger transaction in 2005 and various acquisitions.

(2) Represents share-based compensation expense for stock options awarded to employees and non-executive directors based on the grant date fair value under the Black-Scholes valuation model.

(3) Represents acquisition and integration costs resulting from various acquisitions. Included in the trailing twelve months ended December 31, 2010 are \$8.9 million of expenditures for certain legal settlements that have not been resolved with the indemnifying party. See Litigation in Note 11 of our unaudited condensed consolidated financial statements for further discussion on legal settlements.

(4) Represents organizational restructuring charges and conversion and other related costs incurred resulting from the 2011 consolidation of UVEST and the 2009 consolidation of the Affiliated Entities.

(5) Represents debt amendment costs incurred in 2010 for amending and restating our credit agreement to establish a new term loan tranche and to extend the maturity of an existing tranche on our senior credit facilities, and debt extinguishment costs to redeem our subordinated notes, as well as certain professional fees incurred.

(6) Represents equity issuance and offering costs related to the closing of the IPO in the fourth quarter of 2010, and the closing of a secondary offering in the second quarter of 2011. Upon closing of the IPO in the fourth quarter of 2010, the restriction on approximately 7.4 million shares of common stock issued to advisors under our Fifth Amended and Restated 2000 Stock Bonus Plan was released. Accordingly, we recorded a share-based compensation charge of \$222.0 million, representing the offering price of \$30.00 per share multiplied by 7.4 million shares.

(7) Represents excise and other taxes.

Table of Contents

Credit Agreement Adjusted EBITDA excludes pro forma general and administrative expenditures from (8) acquisitions, as defined under the terms our senior secured credit agreement. There were no such adjustments for the trailing twelve months ended September 30, 2011 and December 31, 2010.

Interest Rate Swaps

An interest rate swap is a financial derivative instrument whereby two parties enter into a contractual agreement to exchange payments based on underlying interest rates. We use an interest rate swap agreement to hedge the variability on our floating interest rate for \$65.0 million of our term loan under our senior secured credit facilities. We are required to pay the counterparty to the agreement fixed interest payments on a notional balance and in turn receive variable interest payments on that notional balance. Payments are settled quarterly on a net basis. As of September 30, 2011, we assessed our interest rate swap as being highly effective and we expect it to continue to be highly effective. While approximately \$1.3 billion of our term loan remains unhedged as of September 30, 2011, the risk of variability on our floating interest rate is partially mitigated by the client margin loans on which we carry floating interest rates. At September 30, 2011, our receivables from our advisors' clients for margin loan activity were approximately \$247.7 million.

Off-Balance Sheet Arrangements

We enter into various off-balance-sheet arrangements in the ordinary course of business, primarily to meet the needs of our advisors' clients. These arrangements include firm commitments to extend credit. For information on these arrangements, see Note 11 and Note 16 to our unaudited condensed consolidated financial statements.

Contractual Obligations

The following table provides information with respect to our commitments and obligations as of September 30, 2011:

	Payments Due by Period				
	Total	< 1 Year	1-3 Years	3-5 Years	> 5 Years
	(In thousands)				
Leases and other obligations(1)	\$113,458	\$28,930	\$36,404	\$21,219	\$26,905
Senior secured term loan facilities(2)	1,336,161	13,971	321,710	474,785	525,695
Commitment fee on revolving line of credit(3)	2,065	1,207	858	—	—
Variable interest payments: (4)					
2013 Loan (Hedged)	1,044	1,044	—	—	—
2013 Loan (Unhedged)	9,609	5,128	4,481	—	—
2015 Loan (Unhedged)	75,674	20,657	40,401	14,616	—
2017 Loan (Unhedged)	164,927	29,579	57,893	56,736	20,719
Interest rate swap agreement(5)	2,219	2,219	—	—	—
Total contractual cash obligations	\$1,705,157	\$102,735	\$461,747	\$567,356	\$573,319

Minimum payments have not been reduced by minimum sublease rental income of \$6.1 million due in the future (1) under noncancelable subleases. Note 11 of our unaudited condensed consolidated financial statements provides further detail on operating lease obligations and obligations under noncancelable service contracts.

(2) Represents principal payments on our senior secured term loan facilities. See Note 9 of our unaudited condensed consolidated financial statements for further detail.

(3) Represents commitment fees for unused borrowings on our senior secured revolving line of credit facility. See Note 9 of our unaudited condensed consolidated financial statements for further detail.

Our senior secured term loan facilities bear interest at floating rates. Variable interest payments are shown (4) assuming the applicable LIBOR rates at September 30, 2011 remain unchanged. See Note 9 of our unaudited condensed consolidated financial statements for further detail.

Table of Contents

(5) Represents fixed interest payments net of variable interest received on our interest rate swap agreements. See Note 10 of our unaudited condensed consolidated financial statements for further detail.

As of September 30, 2011, we reflect a liability for unrecognized tax benefits of \$22.2 million, which we have included in income taxes payable in the unaudited condensed consolidated statements of financial condition. This amount has been excluded from the contractual obligations table because we are unable to reasonably predict the ultimate amount or timing of future tax payments.

Fair Value of Financial Instruments

We use fair value measurements to record certain financial assets and liabilities at fair value and to determine fair value disclosures.

We use prices obtained from an independent third-party pricing service to measure the fair value of our trading securities. We validate prices received from the pricing service using various methods including, comparison to prices received from additional pricing services, comparison to available market prices and review of other relevant market data including implied yields of major categories of securities.

At September 30, 2011, we did not adjust prices received from the independent third-party pricing service. For certificates of deposit and treasury securities, we utilize market-based inputs including observable market interest rates that correspond to the remaining maturities or next interest reset dates.

Critical Accounting Policies and Estimates

We have disclosed in our unaudited condensed consolidated financial statements and in “Item 7-Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our 2010 Annual Report on Form 10-K, those accounting policies that we consider to be significant in determining our results of operations and financial condition. The accounting principles used in preparing our unaudited condensed consolidated financial statements conform in all material respects to GAAP. There have been no material changes to those policies that we consider to be significant since the filing of our 2010 Annual Report on Form 10-K except for the addition of the following:

Acquisitions

When we acquire companies, we recognize separately from goodwill the assets acquired and the liabilities assumed at their acquisition date fair values. Goodwill as of the acquisition date is measured as the excess of consideration transferred and the net of the acquisition date fair values of the assets acquired and the liabilities assumed. While we use our best estimates and assumptions as a part of the purchase price allocation process to accurately value assets acquired and liabilities assumed at the acquisition date, our estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, we record adjustments to the assets acquired and liabilities assumed, with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to our consolidated statements of operations.

Accounting for business combinations requires our management to make significant estimates and assumptions, especially at the acquisition date with respect to intangible assets, support liabilities assumed, and pre-acquisition contingencies. Although we believe the assumptions and estimates we have made in the past have been reasonable and appropriate, they are based in part on historical experience, market data and information obtained from the management of the acquired companies and are inherently uncertain.

Examples of critical estimates in valuing certain of the intangible assets we have acquired include but are not limited to: (i) future expected cash flows from client relationships, advisor relationships and product sponsor relationships; (ii) estimates to develop or use software; and (iii) discount rates.

Table of Contents

If we determine that a pre-acquisition contingency is probable in nature and estimable as of the acquisition date, we record our best estimate for such a contingency as a part of the preliminary purchase price allocation. We continue to gather information for and evaluate our pre-acquisition contingencies throughout the measurement period and if we make changes to the amounts recorded or if we identify additional pre-acquisition contingencies during the measurement period, such amounts will be included in the purchase price allocation during the measurement period and, subsequently, in our results of operations.

Recent Accounting Pronouncements

Refer to Note 2 of our unaudited condensed consolidated financial statements for a discussion of recent accounting standards and pronouncements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market Risk

We maintain trading securities owned and securities sold but not yet purchased in order to facilitate client transactions, to meet a portion of our clearing deposit requirements at various clearing organizations, and to track the performance of our research models. These securities include mutual funds, debt securities issued by the U.S. government, money market funds, corporate debt securities, certificates of deposit and equity securities. Changes in the value of our trading inventory may result from fluctuations in interest rates, credit ratings of the issuer, equity prices and the correlation among these factors. We manage our trading inventory by product type. Our activities to facilitate client transactions generally involve mutual fund activities, including dividend reinvestments. The balances are based upon pending client activities which are monitored by our broker dealer support services department. Because these positions arise from pending client transactions, there are no specific trading or position limits. Positions held to meet clearing deposit requirements consist of U.S. government securities. The amount of securities deposited depends upon the requirements of the clearing organization. The level of securities deposited is monitored by the settlement area within our broker dealer support services department. Our research department develops model portfolios that are used by advisors in developing client portfolios. We currently maintain approximately 175 accounts based on model portfolios. At the time the portfolio is developed, we purchase the securities in that model portfolio in an amount equal to the account minimum for a client. Account minimums vary by product and can range from \$10,000 to \$50,000 per model. We utilize these positions to track the performance of the research department. The limits on this activity are based at the inception of each new model.

At September 30, 2011, the fair value of our trading securities owned were \$7.6 million. Securities sold but not yet purchased were \$0.2 million at September 30, 2011. See Note 5 of our unaudited condensed consolidated financial statements for information regarding the fair value of trading securities owned and securities sold but not yet purchased associated with our client facilitation activities. See Note 5 of our unaudited condensed consolidated financial statements for information regarding the fair value of securities held to maturity.

We do not enter into contracts involving derivatives or other similar financial instruments for trading or proprietary purposes.

We also have market risk on the fees we earn that are based on the market value of advisory and brokerage assets, assets on which trail commissions are paid and assets eligible for sponsor payments.

Interest Rate Risk

We are exposed to risk associated with changes in interest rates. As of September 30, 2011, all of the outstanding debt under our senior secured credit facilities, \$1.3 billion, was subject to floating interest rate risk. To provide some protection against potential rate increases associated with our floating senior secured credit facilities, we have entered into a derivative instrument in the form of an interest rate swap agreement with Morgan Stanley Capital Services, Inc. covering a portion (\$65.0 million) of our senior secured indebtedness. While the unhedged portion of our senior secured debt is subject to increases in interest rates, we do not believe that a short-term change in interest rates would have a material impact on our income before taxes.

Table of Contents

The following table summarizes the impact of increasing interest rates on our interest expense from the variable portion of our debt outstanding at September 30, 2011:

Senior Secured Term Loans	Outstanding at Variable Interest Rates	Annual Impact of an Interest Rate Increase of			
		10 Basis Points (In thousands)	25 Basis Points	50 Basis Points	100 Basis Points
2013 Term Loan (Hedged)(1)	\$65,000	\$—	\$—	\$—	\$—
2013 Term Loan (Unhedged)(2)	238,281	237	593	1,185	2,371
2015 Term Loan (Unhedged)(3)	478,185	—	—	—	—
2017 Term Loan (Unhedged)(3)	554,695	—	—	—	—
Variable Rate Debt Outstanding	\$1,336,161	\$237	\$593	\$1,185	\$2,371

Represents the portion of our 2013 Term Loan that is hedged by interest rate swap agreements, which have been designated as cash flow hedges against specific payments due on the 2013 Term Loan. Accordingly, any interest (1) rate differential is reflected in an adjustment to interest expense over the term of the interest rate swap agreements. The variable interest rate for the hedged portion of our 2013 Term Loan is based on the three-month LIBOR of 0.37%, plus the applicable interest rate margin of 1.75%.

Represents the unhedged portion of our 2013 Term Loan outstanding at September 30, 2011. The variable interest (2) rate for the unhedged portion of our 2013 Term Loan is based on the one-month LIBOR of 0.24%, plus the applicable interest rate margin of 1.75%.

(3) The variable interest rate for our 2015 Term Loan and our 2017 Term Loan is based on the greater of the one-month LIBOR of 0.24% or 1.50%, plus an applicable interest rate margin.

We offer our advisors and their clients two primary cash sweep programs that are interest rate sensitive: our insured cash programs and money market sweep vehicles involving multiple money market fund providers. Our insured cash programs use multiple non-affiliated banks to provide up to \$1.5 million (\$3.0 million joint) of FDIC insurance for client deposits custodied at the banks. While clients earn interest for balances on deposit in the insured cash programs, we earn a fee. Our fees from the insured cash programs are based on prevailing interest rates in the current interest rate environment, but may be adjusted in an increasing or decreasing interest rate environment or for other reasons. Changes in interest rates and fees for the insured cash programs are monitored by our fee and rate setting committee (the “FRS committee”), which governs and approves any changes to our fees. By meeting promptly after interest rates change, or for other market or non-market reasons, the FRS committee balances financial risk of the insured cash programs with products that offer competitive client yields. However, as short-term interest rates hit lower levels, the FRS committee may be compelled to lower fees.

The average Federal Reserve effective federal funds rate for the three months ended September 30, 2011 was 0.08%. The following table reflects the approximate annual impact to asset-based fees on our insured cash programs (assuming that client balances at September 30, 2011 remain unchanged) of an upward or downward change in short-term interest rates of one basis point:

Federal Reserve Effective Federal Funds Rate	Annualized Increase or Decrease in Asset- Based Fees per One Basis Point Change (Dollars in thousands)	
0.00% - 0.25%		\$1,400
0.26% - 1.25%		700

1.26% - 2.50%
> 2.50%

300
—

Actual impacts may vary depending on interest rate levels, the significance of change, and the FRS committee's strategy in responding to that change.

51

Table of Contents

Credit Risk

Credit risk is the risk of loss due to adverse changes in a borrower's, issuer's or counterparty's ability to meet its financial obligations under contractual or agreed upon terms. We bear credit risk on the activities of our advisors' clients, including the execution, settlement, and financing of various transactions on behalf of these clients.

These activities are transacted on either a cash or margin basis. Our credit exposure in these transactions consists primarily of margin accounts, through which we extend credit to clients collateralized by cash and securities in the client's account. Under many of these agreements, we are permitted to sell or repledge these securities held as collateral and use these securities to enter into securities lending arrangements or to deliver to counterparties to cover short positions.

As our advisors execute margin transactions on behalf of their clients, we may incur losses if clients do not fulfill their obligations, the collateral in the client's account is insufficient to fully cover losses from such investments, and our advisors fail to reimburse us for such losses. Our loss on margin accounts is immaterial and did not exceed \$0.1 million during the three months ended September 30, 2011 and 2010. We monitor exposure to industry sectors and individual securities and perform analyses on a regular basis in connection with our margin lending activities. We adjust our margin requirements if we believe our risk exposure is not appropriate based on market conditions.

We are subject to concentration risk if we extend large loans to or have large commitments with a single counterparty, borrower, or group of similar counterparties or borrowers (e.g. in the same industry). Receivables from and payables to clients and stock borrowing and lending activities are conducted with a large number of clients and counterparties and potential concentration is carefully monitored. We seek to limit this risk through careful review of the underlying business and the use of limits established by senior management, taking into consideration factors including the financial strength of the counterparty, the size of the position or commitment, the expected duration of the position or commitment and other positions or commitments outstanding.

Operational Risk

Operational risk generally refers to the risk of loss resulting from our operations, including, but not limited to, improper or unauthorized execution and processing of transactions, deficiencies in our technology or financial operating systems and inadequacies or breaches in our control processes. We operate in diverse markets and are reliant on the ability of our employees and systems to process a large number of transactions. These risks are less direct and quantifiable than credit and market risk, but managing them is critical, particularly in a rapidly changing environment with increasing transaction volumes. In the event of a breakdown or improper operation of systems or improper action by employees or advisors, we could suffer financial loss, regulatory sanctions and damage to our reputation. Business continuity plans exist for critical systems, and redundancies are built into the systems as deemed appropriate. In order to mitigate and control operational risk, we have developed and continue to enhance specific policies and procedures that are designed to identify and manage operational risk at appropriate levels throughout our organization and within various departments. These control mechanisms attempt to ensure that operational policies and procedures are being followed and that our employees and advisors operate within established corporate policies and limits.

Risk Management

We have established various committees of the Board of Directors to manage the risks associated with our business. Our Audit Committee was established for the primary purpose of overseeing (i) the integrity of our consolidated financial statements, (ii) our compliance with legal and regulatory requirements that may impact our consolidated financial statements or financial operations, (iii) the independent auditor's qualifications and independence and (iv) the performance of our independent auditor and internal audit function. Our Compensation and Human Resources Committee was established for the primary purpose of (i) overseeing our efforts to attract, retain and motivate members of our senior management team in partnership with the Chief Executive Officer, (ii) to carry out the Board's overall responsibility relating to the determination of compensation for all executive officers to achieve the proper risk-reward balance and not encourage unnecessary or excessive risk-taking, (iii) to oversee all other aspects of our compensation and human resource policies and (iv) to oversee our management resources, succession planning and management development activities. We also have established a Risk Oversight Committee comprised of a group of our senior-most executives to oversee the management of our business risks.

Table of Contents

In addition to various committees, we have written policies and procedures that govern the conduct of business by our advisors, our employees, our relationship with advisors' clients and the terms and conditions of our relationships with product manufacturers. Our client and advisor policies address the extension of credit for client accounts, data and physical security, compliance with industry regulation and codes of ethics to govern employee and advisor conduct among other matters.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Disclosure Committee, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective.

Change in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the three months ended September 30, 2011, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

Information regarding the Company's risks is set forth under Part I, "Item 1A. Risk Factors" in the Company's 2010 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below sets forth information regarding repurchases on a monthly basis during the third quarter of 2011:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Programs
July 1, 2011 through July 31, 2011 (1)	13,869	\$34.47	13,869	\$—
August 1, 2011 through August 31, 2011 (2)	319,906	\$28.11	319,906	\$61,008,610
September 1, 2011 through September 30, 2011	—	\$—	—	\$61,008,610
July 1, 2011 through September 30, 2011	333,775	\$28.37	333,775	\$61,008,610

On May 25, 2011, the Board of Directors approved a share repurchase program pursuant to which the Company may repurchase up to \$80.0 million of its issued and outstanding shares of common stock through May 31, 2013.

(1) The purchases were effected in open market transactions with the timing of purchases and the amount of stock purchased determined at the discretion of the Company's management. In July 2011, the Company completed the share repurchase program.

(2) On August 16, 2011, the Board of Directors approved a second share repurchase program pursuant to which the Company may repurchase an additional \$70.0 million of its issued and outstanding shares of common stock through August 31, 2012. The purchases will be effected in open market transactions with the timing of purchases and the amount of stock purchased determined at the discretion of the Company's management.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Removed and Reserved

Item 5. Other Information

None.
