**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

Form 10-Q

(Mark One)

Edgar Filing: Artisan Partners Asset Management Inc. - Form 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE QUARTERLY PERIOD ENDED MARCH 31, 2019

OR
 TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934 FOR THE TRANSITION PERIOD FROM TO

Commission file number: 001-35826

Artisan Partners Asset Management Inc.

(Exact name of registrant as specified in its charter)

Delaware **45-0969585**
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

875 E. Wisconsin Avenue, Suite 800 **53202**
Milwaukee, WI
(Address of principal executive offices) (Zip Code)

(414) 390-6100
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of outstanding shares of the registrant's Class A common stock, par value \$0.01 per share, Class B common stock, par value \$0.01 per share, and Class C common stock, par value \$0.01 per share, as of April 26, 2019 were 56,076,459, 7,974,456 and 13,763,806, respectively.

Except where the context requires otherwise, in this report, references to the "Company", "Artisan", "we", "us" or "our" refer to Artisan Partners Asset Management Inc. ("APAM") and its direct and indirect subsidiaries, including Artisan Partners Holdings LP ("Artisan Partners Holdings" or "Holdings"). On March 12, 2013, APAM closed its initial public offering and related corporate reorganization. Prior to that date, APAM was a subsidiary of Artisan Partners Holdings.

Forward-Looking Statements

This report contains, and from time to time our management may make, forward-looking statements within the meaning of the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. Statements regarding future events and our future performance, as well as management's current expectations, beliefs, plans, estimates, or projections relating to the future, are forward-looking statements within the meaning of these laws. In some cases, you can identify these statements by forward-looking words such as "may", "might", "will", "should", "expects", "intends", "plans", "anticipates", "believes", "estimates", "predicts", "potential" or "continue", the negative of these terms and other comparable terminology. Forward-looking statements are only predictions based on current expectations and projections about future events. Forward-looking statements are subject to a number of risks and uncertainties, and there are important factors that could cause actual results, level of activity, performance, actions or achievements to differ materially from the results, level of activity, performance, actions or achievements expressed or implied by the forward-looking statements. These factors include: the loss of key investment professionals or senior management, adverse market or economic conditions, poor performance of our investment strategies, change in the legislative and regulatory environment in which we operate, operational or technical errors or other damage to our reputation and other factors disclosed in the Company's filings with the Securities and Exchange Commission, including those factors listed under the caption entitled "Risk Factors" in Item 1A of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2018, filed with the SEC on February 20, 2019, which is accessible on the SEC's website at www.sec.gov. We undertake no obligation to publicly update any forward-looking statements in order to reflect events or circumstances that may arise after the date of this report, except as required by law.

Edgar Filing: Artisan Partners Asset Management Inc. - Form 10-Q

Table of Contents

Forward-looking statements include, but are not limited to, statements about:

- our anticipated future results of operations;
- our potential operating performance and efficiency;
- our expectations with respect to the performance of our investment strategies
- our expectations with respect to future levels of assets under management, including the capacity of our strategies and client cash inflows and outflows;
- our expectations with respect to industry trends and how those trends may impact our business;
- our financing plans, cash needs and liquidity position;
- our intention to pay dividends and our expectations about the amount of those dividends;
- our expected levels of compensation of our employees, including equity compensation;
- our expectations with respect to future expenses and the level of future expenses;
- our expected tax rate, and our expectations with respect to deferred tax assets; and
- our estimates of future amounts payable pursuant to our tax receivable agreements.

(1) The results of CMT have been included in the combined and consolidated financial statements since it was acquired on August 12, 2015. CMT added combined assets of \$411.7 million and \$426.1 million at December 31, 2016 and 2015, respectively. During 2016 and 2015, CMT contributed revenues of \$62.7 million and \$28.6 million, as well as operating income of \$46.5 million and \$18.4 million, respectively.

(2) In April 2016, the Company recorded losses related to the divestiture of its coal mining business to Revelation Energy, LLC of \$14.7 million, which included a \$10.7 million asset impairment charge and transaction-related costs of \$1.1 million. During 2014, we recorded total impairment charges related to the Coal Mining business of \$150.3 million, which included both long-lived asset and goodwill impairment charges.

(3) During 2015 and 2014, we recorded other-than-temporary impairment charges on our investment in VISA SunCoke of \$19.4 million and \$30.5 million, respectively. The 2015 impairment charges brought our investment in VISA SunCoke to zero.

(4) On January 13, 2015 and on August 12, 2015 the Partnership acquired ownership interests in the Company's Granite City cokemaking facility of 75 percent and 23 percent, respectively. Additionally, on January 24, 2013, in conjunction with the Partnership's IPO, and on May 9, 2014, the Partnership acquired ownership interests in each of the Company's Haverhill and Middletown cokemaking facilities of 65 percent and 33 percent, respectively.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

This Annual Report on Form 10-K contains certain forward-looking statements of expected future developments, as defined in the Private Securities Litigation Reform Act of 1995. This discussion contains forward-looking statements about our business, operations and industry that involve risks and uncertainties, such as statements regarding our plans, objectives, expectations and intentions. Our future results and financial condition may differ materially from those we currently anticipate as a result of the factors we describe under “Cautionary Statement Concerning Forward-Looking Statements” and “Risk Factors.”

This Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) is based on financial data derived from the financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and certain other financial data that is prepared using non-GAAP measures. For a reconciliation of these non-GAAP measures to the most comparable GAAP components, see “Non-GAAP Financial Measures” at the end of this Item and Note 21 to our Consolidated Financial Statements.

Our MD&A is provided in addition to the accompanying consolidated financial statements and notes to assist readers in understanding our results of operations, financial condition, and cash flows. Our results of operations include reference to our business operations and market conditions, which are further described in Part I of this document.

2016 Overview

Our consolidated results of operations were as follows:

	Years Ended		
	December 31,		
	2016	2015	Increase
	(Dollars in millions)		
Net income (loss) attributable to SunCoke Energy, Inc.	\$14.4	\$(22.0)	\$ 36.4
Net cash provided by operating activities	\$219.1	\$141.1	\$ 78.0
Adjusted EBITDA	\$217.0	\$185.4	\$ 31.6

During 2016, the Company's strategies and accomplishments were as follows:

- Achieved financial objectives and strengthened our balance sheet;
- Managed through challenging market conditions;
- Delivered operational excellence; and
- Progressed towards stabilizing our Indiana Harbor cokemaking operations.

Achieved financial objectives and strengthened our balance sheet

In 2016, we delivered solid consolidated Adjusted EBITDA of \$217.0 million, within our guidance range of \$210 million to \$235 million. Additionally, we generated strong operating cash flows of \$219.1 million, well above our guidance of \$150 million to \$170 million, driven largely by coal inventory management and lower coal prices.

Entering 2016, the Partnership anticipated utilizing excess liquidity of at least \$60 million to meaningfully de-lever the Partnership's balance sheet in 2016. During the year, together with Partnership, we reduced total consolidated debt outstanding by approximately \$145 million, including repurchases of approximately \$90 million of the Partnership’s Notes for approximately \$65 million of cash. Additionally, during 2016, the Company repaid \$60.4 million on the Revolving Facility. As a result, we reduced our total Gross Debt / Adjusted EBITDA leverage to 3.95x.

Managed through challenging market conditions

In 2016, we successfully managed through various market challenges, including those in the coal and steel industries as well as the broader industrial and energy markets as a whole.

In recent years, our steel customers have been challenged on lower prices driven in part by unfairly traded imports and the strong U.S. dollar. As a result, in late 2015, United States Steel Corporation (“U.S. Steel”) and AK Steel Holding Corporation (“AK Steel”) idled their Granite City and Ashland blast furnace operations, respectively. We reduced production at our Haverhill II facility by 75 thousand tons, for which we were made whole by AK Steel under our take-or-pay contract. We also shifted production levels at our Granite City facility to the second half of the year to accommodate U.S. Steel's needs. Neither of these actions impacted earnings from these facilities or our annual consolidated Adjusted EBITDA.

During 2016, our Coal Logistics' export coal customers faced global headwinds of oversupply and a strong U.S. dollar. The Argus/McCloskey's Coal Price Index report ("API2 index price"), the benchmark price used for U.S. thermal coal exports to Europe, fell to multi-year lows, challenging the profitability of our customers' coal exports. As a result, we reached an agreement with Murray American Coal ("Murray") and Foresight Energy LP ("Foresight"), our two primary CMT customers, to provide certain volume-based incentives, in the form of ancillary revenue rebates, in exchange for a limited one-year contract extension. These rebates, which phase out as API2 index prices rise, are only in place for 2016 and 2017, and are intended to provide incentives to our customers to ship more coal through Convent Marine Terminal ("CMT") during periods of low API2 index prices. By late 2016, the API2 index price had rebounded, resulting in the elimination of the new rebate incentive should prices stay at or above the year end level. The improvement in the API2 index price also improved the profitability of our customers' coal exports and resulted in a significant increase in volumes through CMT during the fourth quarter 2016. Our Coal Logistics' domestic coal customers were also challenged with lower coal prices throughout most of 2016 as well as mild weather conditions, driving down volumes across the segment. We responded by aggressively managing costs, primarily at Kanawha River Terminals, LLC ("KRT"), to partially mitigate the impacts of these lower volumes.

The domestic metallurgical coal markets remained challenged during early 2016 as the drastic and sustained decline in coal prices led to several coal producers filing for Chapter 11 bankruptcy protection. Despite our own diligent efforts to reduce costs by rationalizing our mining footprint, this challenged environment was likely to prevent us from generating positive cash flow from our mining operations for the foreseeable future. As a result, we divested our Coal Mining business in April 2016 and entered into a coal supply agreement whereby the buyer, Revelation Energy, LLC ("Revelation"), will supply approximately 300,000 tons of coal to our Jewell cokemaking facility annually for five years at a market rate. The delivered cost, as compared to alternative coal sources, is favorable due to the proximity of the Jewell cokemaking facility to the mines. We believe this divestiture will improve our long-term cash flow and allow us to focus on our core cokemaking and coal logistics businesses.

While conditions across the coal and steel industries have significantly improved in the second half of 2016, we are committed to remaining flexible and responsive to the evolving industry landscape.

Delivered operational excellence

Despite facing challenging headwinds upon entering 2016, we remained committed to delivering strong performance across our operations and achieved consolidated Adjusted EBITDA of \$217.0 million. We also remained committed to maintaining a safe work environment and ensuring compliance with applicable laws and regulations, and in 2016, we again achieved top-tier safety ratings in our coke and coal logistics operations.

Domestic Coke performance contributed Adjusted EBITDA results of \$193.9 million, reflecting approximately 4 million tons of coke sales and Adjusted EBITDA of approximately \$49 per ton during 2016, in line with our revised guidance of \$48 to \$53 per ton. Sales tons reflect our agreement to reduce production at our Haverhill facility by 75 thousand tons, for which we were made whole by AK Steel. Results for 2016 also reflect record performance at our Middletown facility. Despite below-target production, our Indiana Harbor cokemaking facility's Adjusted EBITDA improved by approximately \$4 million in 2016, reflecting our success in controlling costs.

Our Coal Logistics segment delivered Adjusted EBITDA of \$63.9 million and was impacted by lower than anticipated throughput tons across the segment. CMT contributed \$50.5 million, within our guidance of \$50 million to \$55 million, reflecting the strength of its take-or-pay contracts.

The disposal of our coal mining business mitigated continued losses in the business, resulting in Adjusted EBITDA losses of \$6.0 million versus our 2016 guidance of losses of approximately \$20 million.

Progressed towards stabilizing our Indiana Harbor cokemaking operations

Through an engineering study in prior years, we identified major refurbishment work that was necessary to preserve the production capacity of our Indiana Harbor facility. We completed the resulting refurbishment project in the first half of 2014. While the original refurbishment improved overall plant condition, further work remained to stabilize plant performance.

Beginning in 2015, we implemented an initiative to rebuild oven interiors using a comprehensive, holistic approach.

In 2016, we continued improvement efforts and evaluate the performance of the rebuilt ovens with the overall goal of stabilizing daily production and increasing efficiency. In total, we have implemented our holistic oven rebuild

approach on approximately one third of the entire Indiana Harbor facility in 2015 and 2016 and expect the project to continue through 2018.

To date, the rebuilt ovens have continued to produce stable results, including sustained performance in charge weights and coking times. However, despite the improved performance of our rebuilt ovens, we continue to experience operational disruptions, driven primarily by higher-than-expected oven degradation across the non-rebuilt ovens. We will continue to monitor the progress of all ovens and implement lessons learned into the rebuilds, including the oven rebuilds we intend to complete in 2017 and 2018, to address critical oven conditions and combat this degradation. By the end of 2018 we expect approximately half of the facility's ovens will be rebuilt.

In 2016, Adjusted EBITDA and production levels at our Indiana Harbor facility fell short of expectations, resulting in an Adjusted EBITDA loss of approximately \$3 million versus our original guidance of earning Adjusted EBITDA of \$3 million to \$13 million. These results reflect an acceleration of our oven rebuild plan, substantially increasing the number of ovens rebuilt in 2016, as well as expanded scope of the rebuild work performed, which resulted higher than anticipated expenses as well as below target production.

Additionally, in 2016, we chartered a cross-functional team to lead cost control initiatives at the facility. Our Indiana Harbor facility continues to benefit from our cost management efforts, which have netted us more than \$13 million in operating and maintenance savings throughout 2016, offsetting lower production levels and driving a net Adjusted EBITDA improvement of approximately \$4 million over 2015 results. We remain committed to operating with a significant focus and discipline on operating and maintenance costs.

Our Focus and Outlook for 2017

In 2017, we expect to deliver consolidated Adjusted EBITDA of \$220 million to \$235 million. Our primary focus will be to:

- Deliver operational excellence and optimize our asset base;
- Execute further oven rebuilds at our Indiana Harbor cokemaking operations;
- Complete the proposed Simplification Transaction; and
- Accomplish our 2017 financial objectives.

Deliver operational excellence and optimize our asset base

Our customers experienced improving market conditions in the latter half of 2016, with steel and coal markets showing increased pricing and higher coal utilization rates. In 2017, we will remain committed to working with our existing customers, as well as potential new customers, in a continuing effort to fully utilize our existing cokemaking and coal logistics capacity.

We anticipate that our Domestic Coke segment will produce 3.9 million tons of coke during 2017 and achieve Adjusted EBITDA of approximately \$46 to \$49 per ton based on expected solid ongoing operations across the fleet. Excluding our Indiana Harbor facility and the impact of the continued 75 thousand ton turn down at our Haverhill II facility, for which we will again be made whole by AK Steel, we expect our Domestic Coke fleet will deliver contract maximum volumes to our take-or-pay customers. We expect the increase in metallurgical coal prices will result in a higher yield gains across our domestic coke fleet. Finally, while we do not anticipate incremental spot sales during the year, we remain positioned to deliver spot tons to the market should coke demand rise throughout 2017.

We believe our Coal Logistics assets are well positioned to further serve the thermal and metallurgical coal markets as these industries continue to recover, and we expect year-over-year improvement in Adjusted EBITDA. In 2017, we expect Adjusted EBITDA of approximately \$67 million to \$72 million, up from \$63.9 million in 2016. Our CMT export facility is uniquely positioned to serve customers via direct rail access and has the ability to load multi-category vessels with a new, state-of-the-art ship loader. Given the recent significant improvement in API2 index prices, we expect CMT will handle approximately 8 million tons of coal in 2017 on behalf of our two long-term, take-or-pay customers, Foresight Energy and Murray Energy, an improvement of approximately 4 million tons versus 2016. We expect merchant volumes at CMT will continue in 2017, and we will continue to seek additional opportunities to optimize the facility by securing additional merchant business. Additionally, at our remaining coal logistics terminals, we anticipate continued volume recovery due to the recent strengthening of domestic coal fundamentals.

We remain committed to maintaining a safe work environment and ensuring compliance with applicable laws and regulations.

Execute further oven rebuilds at our Indiana Harbor cokemaking operations

In 2017, we will remain focused on stabilizing our Indiana Harbor plant and improving its operating and financial performance. To date we have executed a total of 86 rebuilds under our holistic oven rebuild initiative, which began in 2015, and we intend to rebuild an additional 53 ovens in 2017. We anticipate these rebuilds will cost approximately \$26 million, including capital expenditures of approximately \$20 million, in 2017. Additionally, in 2017, we expect to spend approximately \$5 million of expense to incorporate lessons learned during the rebuilds completed in 2016 into the ovens rebuilt in 2015. We expect to complete the rebuild initiative and return our Indiana Harbor facility's operations to profitability in 2018.

While we expect this initiative will improve the long-term stability of the facility, we expect overall production in 2017 to remain at approximately 900 thousand tons. We also expect increased operations and maintenance expense in 2017 as ovens are taken out of service to complete the necessary rebuilds. Therefore, our consolidated Adjusted EBITDA guidance assumes a loss of approximately \$13 million at our Indiana Harbor facility in 2017.

Complete the proposed Simplification Transaction

On October 31, 2016, the Company announced that it had submitted a proposal to the Board of Directors of the general partner of the Partnership to acquire all of the Partnership's common units not already owned by the Company ("Simplification Transaction"). The proposed transaction is to be structured as a merger of the Partnership with a wholly-owned subsidiary of the Company, and is subject to the negotiation and execution of definitive documents and approval of our Board of Directors and the Conflicts Committee of the Partnership's Board of Directors. The Conflicts Committee, which is composed of only the independent directors of the Board of Directors of the Partnership's general partner, is considering the proposal pursuant to applicable procedures established in the Partnership's partnership agreement and the Conflicts Committee's charter. The transaction also will require majority approval of our common stockholders. We own the majority of the Partnership's common units and intend to vote in favor of the transaction. The proposed Simplification Transaction is also conditioned upon receipt of customary regulatory approvals. Successful completion of this transaction will result in enhanced financial flexibility for the consolidated enterprise, including the ability to establish a sustainable dividend, further de-lever the balance sheet at an accelerated pace and fund growth. Additionally, the consolidated enterprise will have greater flexibility to pursue accretive mergers and acquisitions and/or organic growth projects as targets will no longer be limited to those producing qualifying income. This will expand our growth opportunities to various customer and product adjacencies where SunCoke can add value to an acquisition or greenfield project immediately. To the extent that there are attractive bolt-on opportunities in coke and coal logistics, we will look to continue to extend and grow these two platforms. Finally, to the extent we have excess cash, we may return additional capital to shareholders.

Subsequent to the Company proposal for the Simplification Transaction, in January 2017, the Internal Revenue Service announced its decision to exclude cokemaking as a qualifying income generating activity. Subsequent to the 10-year transition period, certain cokemaking entities in the Partnership will become taxable as corporations. See "Part I. Item 1. Business" for further discussion of this regulation.

Accomplish our 2017 financial objectives

In 2017, we will remain focused on accomplishing our financial objectives and expect to deliver consolidated Adjusted EBITDA of between \$220 million and \$235 million. This increase reflects higher Coal Logistics volumes, a full-year of savings from the coal mining divestiture and benefits from a cost rationalization exercise we completed in 2016, in which we partnered with third-party experts to complete a full review of our operational and administrative costs. As a result of this exercise, we identified approximately \$10 million in total savings, from which we expect to derive approximately \$7 million in annual benefits to Adjusted EBITDA beginning in 2017. These benefits are expected to be offset partially by lower results at our Indiana Harbor facility results due to planned oven rebuilds throughout the year and expected Middletown facility performance at contract levels as compared to its record performance in 2016. We enter 2017 in a significantly improved, but continuously challenged market, and we remain focused on executing on our commitments to shareholders by achieving these full-year financial targets.

Items Impacting Comparability

•Convent Marine Terminal Acquisition. Comparability between periods was impacted by the acquisition of CMT on August 12, 2015. CMT results in periods presented were as follows:

	Years Ended	
	December	
	31,	
	2016	2015
	(Dollars in	
	millions)	
Total revenues	\$62.7	\$28.6
Cost of products sold and operating expenses ⁽¹⁾	1.3	4.7
Depreciation and amortization expense	14.8	5.4
Adjusted EBITDA	50.5	20.6

(1)Includes \$10.1 million of favorable fair value adjustment to our contingent consideration liability in 2016.

Debt Activities. During 2016, debt balances decreased approximately \$145 million, driven primarily by the Partnership's repurchase of approximately \$85 million of Partnership Notes as well as repayments on both our and the Partnership's Revolver. During 2015, debt balances increased approximately \$365 million in connection with the acquisition of CMT and the Granite City dropdowns discussed below, net of the Partnership's repurchase of approximately \$48 million of Partnership Notes. Significant comparability impacts of these debt activities are discussed below:

Gains and Losses on Extinguishment of Debt. Gain on extinguishment of debt was \$25.0 million for the year ended December 31, 2016 and the net loss on extinguishment of debt was \$0.5 million and \$15.4 million for the years ended December 31, 2015 and 2014, respectively. The redemption of Partnership Notes resulted in gains on extinguishment of debt of \$25.0 million and \$12.1 million in 2016 and 2015, respectively. The Partnership's gain on de-levering activities in 2015 was offset by losses on debt extinguishment of \$12.6 million associated with the debt activities related to the Granite City dropdown and the Company's redemption of \$60.4 million of Notes. In 2014, debt activities associated with the dropdown of additional interest in our Haverhill and Middletown facilities generated a loss on extinguishment of debt of \$15.4 million.

Interest Expense, net. Interest expense, net was \$53.5 million, \$56.2 million and \$47.8 million for the years ended December 31, 2016, 2015 and 2014, respectively. Debt activities throughout 2016, 2015 and 2014 resulted in weighted average debt balances of \$920.2 million, \$819.6 million and \$661.5 million, respectively. Higher average debt balances in 2016 were the result of a full year of debt outstanding in connection with the acquisition of CMT and dropdowns of Granite City in 2015, partially offset by de-levering activities. The decrease in interest expense, net in 2016 was the result of the higher average debt balance, more than offset by favorable interest rates on new debt as compared to rates on debt repurchased. The increase in interest expense, net in 2015 was the result of the higher debt balances discussed above.

Redemption of Investment in Brazilian Cokemaking Operations. On November 28, 2016, ArcelorMittal Brazil redeemed SunCoke's indirectly held preferred and common equity interest in Sol Coqueria Tubarão S.A. ("Brazil Investment") for consideration of \$41.0 million, an amount equal to our carrying value of the investment. The Company received \$20.5 million in cash at closing and will receive the remaining \$20.5 million in cash, plus interest at an annual interest rate of 3 percent, in the second quarter of 2017. With the redemption of the Brazil Investment, the Company will no longer receive the \$9.5 million annual preferred dividend. Additionally, in 2016, SunCoke added certain new patents to its existing intellectual property licensing agreement for which SunCoke will earn an incremental \$5.1 million in annual licensing fees through 2023. The Company also extended the life of its patents with the Brazilian authorities through 2033, providing opportunity to extend the existing licensing agreement beyond 2023. Overall, these transactions resulted in a near term redemption of the investment and a reduction of \$4.4 million to total revenues and Adjusted EBITDA in 2016 and each subsequent year through the end of the contract.

Loss on Divestiture of Business and Impairments. In April 2016, the Company completed the disposal of its coal mining business, included in the Coal Mining segment, to Revelation who assumed substantially all of the Company's

remaining coal mining assets, mineral leases, real estate and a substantial portion of our mining

reclamation obligations. Under the terms of the agreement, Revelation received \$12.8 million from the Company to take ownership of the assets and liabilities. During 2016, the Company recognized losses associated with this divestiture of \$14.7 million. The divestiture of the business improved Adjusted EBITDA results \$8.4 million in 2016 as compared to 2015. In 2014, we recorded total impairment charges related to our former coal mining business of \$150.3 million, or \$92.2 million net of tax. See "Part 1. Item 1. Business" and Note 5 and Note 20 to the consolidated financial statements.

Black Lung Obligation. The Company recognized expense of \$8.1 million, \$9.8 million and \$14.3 million during 2016, 2015 and 2014, respectively, in connection with our black lung obligation. In prior years, this expense was recorded in cost of products sold and operating expenses on the Consolidated Statements of Operations. However, with the divestiture of our coal mining business in 2016, the Company's operations no longer include the coal mining activities giving rise to our black lung liability. Therefore, black lung expense in 2016 was recorded in selling, general and administrative expenses on the Consolidated Statements of Operations.

Haverhill Energy Arrangement. Prior to the second quarter of 2015, Haverhill I facility sold steam to Haverhill Chemicals LLC ("Haverhill Chemicals"), which filed for relief under Chapter 11 of the U.S. Bankruptcy Code during 2015. Beginning in the fourth quarter of 2015, Haverhill I provided steam, at no cost, to Altivia Petrochemicals, LLC ("Altivia"), which purchased the facility from Haverhill Chemicals. While the Partnership is not currently generating revenues from providing steam to Altivia, the current arrangement, which may be renegotiated beginning in 2018, mitigates costs associated with disposing of steam. The absence of steam sales to Haverhill Chemicals resulted in lower energy revenues of \$2.6 million and \$4.9 million in 2016 and 2015, respectively, as compared to the prior year periods. The net impact of lower energy revenues and incremental operating and maintenance costs incurred in 2015 prior to our arrangement with Altivia decreased Adjusted EBITDA \$1.1 million and \$6.4 million in 2016 and 2015, respectively, as compared to the prior year periods.

Severance. In 2016, 2015, and 2014, we reduced the workforce in our corporate office and incurred total charges of \$0.3 million, \$4.1 million and \$1.4 million, respectively, in Corporate and Other. The 2015 and 2014 reduction in workforce at our corporate office provided savings of approximately \$4.1 million in 2015 compared to 2014 and additional savings of \$1.3 million in 2016 compared to 2015.

In connection with the restructuring of our Coal Mining business, the Company recorded \$12.5 million of employee-related restructuring costs in 2014 in the Coal Mining segment. During 2015, we reduced our severance accrual by \$2.3 million as a result of changes in estimates, including the relocation of certain coal employees to other areas of our business.

These severance costs are included in selling, general and administrative expenses on the Consolidated Statements of Operations.

Dropdowns. On May 9, 2014, we contributed an additional 33 percent interest in the Haverhill and Middletown cokemaking facilities to the Partnership ("Haverhill and Middletown Dropdown"). During 2015, we contributed 98 percent interest in Granite City to the Partnership, 75 percent of which was contributed on January 13, 2015 ("Granite City Dropdown") and 23 percent of which was contributed on August 12, 2015 ("Granite City Supplemental Dropdown"). Significant comparability impacts of the dropdowns are discussed below:

Financing. As a part of the Granite City Dropdown and the Haverhill and Middletown Dropdown, the Partnership assumed and repaid \$135.0 million and \$160.0 million of the Company's senior notes, respectively, resulting in losses on extinguishment of debt of \$9.4 million in 2015 and \$15.4 million in 2014.

Noncontrolling Interest. Net income attributable to noncontrolling interest includes the common public unitholders' interest in the Partnership. The Granite City dropdowns and the Haverhill and Middletown Dropdown resulted in higher noncontrolling interest for SunCoke's decreased ownership in our Haverhill, Middletown and Granite City cokemaking facilities.

Pension Plan Termination. Effective May 30, 2014, Dominion Coal Corporation ("Dominion Coal"), a wholly-owned subsidiary of the Company, terminated its defined benefit plan, which was previously offered generally to all full-time employees of Dominion Coal. In June 2015, the plan settled its obligations by purchasing annuities using plan assets, which triggered settlement accounting and resulted in a non-cash loss of

\$12.6 million recorded in cost of products sold and operating expenses on the Consolidated Statements of Operations.

India Equity Method Investment. As a result of market conditions, we recorded impairment charges of \$19.4 million and \$30.5 million related to our equity method investment in VISA SunCoke during 2015 and 2014, respectively, included in loss from equity method investment on the Consolidated Statements of Operations.

- The 2015 impairment brought our investment in VISA SunCoke to zero, and consequently, we no longer include our share of VISA SunCoke in our financial results. See Note 20 to our consolidated financial statements.

Consolidated Results of Operations

The following section includes analysis of consolidated results of operations for the years ended December 31, 2016, 2015 and 2014. See "Analysis of Segment Results" later in this section for further details of these results.

	Years Ended December 31,			Increase (Decrease)	
	2016	2015	2014	2016 vs. 2015	2015 vs. 2014
	(Dollars in millions)				
Revenues					
Sales and other operating revenue	\$1,222.2	\$1,351.3	\$1,490.7	\$(129.1)	\$(139.4)
Other income, net	1.1	11.4	13.1	(10.3)	(1.7)
Total revenues	1,223.3	1,362.7	1,503.8	(139.4)	(141.1)
Costs and operating expenses					
Cost of products sold and operating expenses	906.5	1,098.4	1,212.9	(191.9)	(114.5)
Selling, general and administrative expenses	91.3	75.4	96.7	15.9	(21.3)
Depreciation and amortization expense	114.2	109.1	106.3	5.1	2.8
Loss on divestiture of business and impairments ⁽¹⁾	14.7	—	150.3	14.7	(150.3)
Total costs and operating expenses	1,126.7	1,282.9	1,566.2	(156.2)	(283.3)
Operating income (loss)	96.6	79.8	(62.4)	16.8	142.2
Interest expense, net ⁽¹⁾	53.5	56.2	47.8	(2.7)	8.4
(Gain) loss on extinguishment of debt, net ⁽¹⁾	(25.0)	0.5	15.4	(25.5)	(14.9)
Income (loss) before income tax expense (benefit) and loss from equity method investment	68.1	23.1	(125.6)	45.0	148.7
Income tax expense (benefit)	8.6	(8.8)	(58.8)	17.4	(50.0)
Loss from equity method investment	—	21.6	35.0	(21.6)	(13.4)
Net income (loss)	59.5	10.3	(101.8)	49.2	112.1
Less: Net income attributable to noncontrolling interests	45.1	32.3	24.3	12.8	8.0
Net income (loss) attributable to SunCoke Energy, Inc.	\$14.4	\$(22.0)	\$(126.1)	\$36.4	\$104.1

(1) See year-over-year changes described in "Items Impacting Comparability."

Total Revenues. The decrease in total revenues in 2016 and 2015 primarily reflects the pass-through of lower coal prices in our Domestic Coke segment as well as lower sales volumes in both our Domestic Coke and Coal Logistics segments, excluding the contributions of CMT. These decreases were partly offset by the contributions from CMT of \$62.7 million and \$28.6 million in 2016 and 2015, respectively.

Cost of Products Sold and Operating Expenses. The decrease in cost of products sold and operating expense in 2016 and 2015 was primarily the result of reduced coal costs in our Domestic Coke segment. Additionally, black lung charges of \$9.8 million and \$14.3 million in 2015 and 2014, respectively, were recorded in costs of products sold and operating expenses. Beginning in 2016, black lung charges were recorded in selling, general and administrative expenses rather than cost of products sold and operating expenses as previously discussed in "Items Impacting Comparability."

Selling, General and Administrative Expenses. The increase in selling, general and administrative expense in 2016 was primarily driven by \$8.1 million of black lung charges. Prior to 2016, black lung charges were included in costs of products sold and operating expenses as discussed in "Items Impacting Comparability." The remaining increase was driven by unfavorable fair value adjustments in deferred compensation as a result of changes in the Company's share price and Partnership's unit price as well as the absence of a \$4.0 million postretirement benefit plan curtailment gain recognized in 2015. The decrease in selling, general and administrative expense in 2015 was primarily driven by higher severance charges recorded in 2014 related to our coal mining business as well as favorable fair value adjustments in deferred compensation as a result of changes in the Company's share price and Partnership's unit price and employee related savings realized in 2015 previously discussed "Items Impacting Comparability."

Depreciation and Amortization Expense. The increase in depreciation and amortization expense in 2016 and 2015 was driven by the depreciation of CMT assets of \$14.8 million and \$5.4 million, respectively. CMT depreciation was mostly offset by lower depreciation of our coal mining assets, which decreased as a result of impairments to our asset base in 2014 as

well as the ultimate disposal of our assets in 2016. Depreciation and amortization expense in each year was also impacted by revisions to the remaining useful lives of certain assets, primarily related to oven rebuilds at our Indiana Harbor cokemaking facility as well as the wind down of operations at of our former coal preparation plant, which resulted in additional depreciation of \$13.7 million, \$15.1 million and \$16.6 million, or \$0.17, \$0.21 and \$0.21 per common share from operations, during 2016, 2015 and 2014, respectively. See Note 21 to our consolidated financial statements.

Income Taxes. The Company's effective tax rate for 2016, 2015 and 2014 was 12.7%, (38.0)%, and 46.8%, respectively. The effective tax rate differs from the federal statutory rate of 35 percent for all years presented primarily due to the impact of earnings attributable to noncontrolling ownership interests in partnerships. The effective tax rates are not comparable for the years presented due to the income tax benefit reported in 2015 related to the insolvency of a subsidiary and the impairment of our coal operations in 2014. See Note 7 to the consolidated financial statements.

Noncontrolling Interest. Income attributable to noncontrolling interest represents the common public unitholders' interest in SunCoke Energy Partners, L.P. as well as a third-party interest in our Indiana Harbor cokemaking facility. Comparability between all periods was impacted by improved performance at the Partnership in 2016, driven by gains in connection with the Partnership's de-levering activities, contributions of CMT and changes in our ownership in our facilities previously discussed in "Items Impacting Comparability."

Results of Reportable Business Segments

We report our business results through four segments:

Domestic Coke consists of our Jewell Coke Company, L.P. ("Jewell"), Indiana Harbor Coke Company ("Indiana Harbor"), Haverhill Coke Company LLC ("Haverhill"), Gateway Energy and Coke Company, LLC ("Granite City") and Middletown Coke Company, LLC ("Middletown") cokemaking and heat recovery operations located in Vansant, Virginia; East Chicago, Indiana; Franklin Furnace, Ohio; Granite City, Illinois; and Middletown, Ohio, respectively.

Brazil Coke consists of our operations in Vitória, Brazil, where we operate a cokemaking facility, ArcelorMittal Brasil S.A. ("ArcelorMittal Brazil"), for a Brazilian subsidiary of ArcelorMittal S.A. ("ArcelorMittal");

Coal Logistics consists of CMT, KRT, SunCoke Lake Terminal, LLC ("Lake Terminal"), and Dismal River Terminal, LLC ("DRT") coal handling and/or mixing service operations in Convent, Louisiana; Ceredo and Belle, West Virginia; East Chicago, Indiana; and Vansant, Virginia, respectively. Lake Terminal and DRT are located adjacent to our Indiana Harbor and Jewell cokemaking facilities, respectively.

Coal Mining consisted of our metallurgical coal mining activities conducted in Virginia and West Virginia, until the business was divested in April 2016.

The operations of each of our segments are described in Part I of this document.

Corporate expenses that can be identified with a segment have been included in determining segment results. The remainder is included in Corporate and Other, including certain legacy coal mining expense (i.e., black lung, workers' compensation, net pension and other postretirement employee benefit obligations). The results of our equity method investment in Visa SunCoke were also included in Corporate and Other until the Company impaired its investment to zero in 2015 and suspended equity method accounting.

Management believes Adjusted EBITDA is an important measure of operating performance and liquidity and uses it as the primary basis for the chief operating decision maker to evaluate the performance of each of our reportable segments. Adjusted EBITDA should not be considered a substitute for the reported results prepared in accordance with GAAP. See "Non-GAAP Financial Measures" at the end of this Item and Note 21 to our consolidated financial statements.

Segment Operating Data

The following table sets forth financial and operating data by segment for the years ended December 31, 2016, 2015 and 2014:

	Years Ended December 31,			Increase (Decrease)	
	2016	2015	2014	2016 vs. 2015	2015 vs. 2014
(Dollars in millions, except per ton amounts)					
Sales and other operating revenue:					
Domestic Coke	\$1,097.2	\$1,243.6	\$1,388.3	\$(146.4)	\$(144.7)
Brazil Coke	39.5	34.0	37.0	5.5	(3.0)
Coal Logistics	84.7	60.8	36.2	23.9	24.6
Coal Logistics intersegment sales	23.2	20.4	18.8	2.8	1.6
Coal Mining	0.8	12.9	29.2	(12.1)	(16.3)
Coal mining intersegment sales	22.0	101.0	136.0	(79.0)	(35.0)
Elimination of intersegment sales	(45.2)	(121.4)	(154.8)	76.2	33.4
Total sales and other operating revenue	\$1,222.2	\$1,351.3	\$1,490.7	\$(129.1)	\$(139.4)
Adjusted EBITDA ⁽¹⁾ :					
Domestic Coke	\$193.9	\$210.1	\$247.9	\$(16.2)	\$(37.8)
Brazil Coke	16.2	22.4	18.9	(6.2)	3.5
Coal Logistics	63.9	38.0	14.3	25.9	23.7
Coal Mining	(6.0)	(18.9)	(16.0)	12.9	(2.9)
Corporate and Other, including legacy costs, net ⁽²⁾	(51.0)	(66.2)	(54.4)	15.2	(11.8)
Adjusted EBITDA	\$217.0	\$185.4	\$210.7	\$31.6	\$(25.3)
Coke Operating Data:					
Domestic Coke capacity utilization (%)	93	97	98	(4)	(1)
Domestic Coke production volumes (thousands of tons)	3,954	4,122	4,175	(168)	(53)
Domestic Coke sales volumes (thousands of tons)	3,956	4,115	4,184	(159)	(69)
Domestic Coke Adjusted EBITDA per ton ⁽³⁾	\$49.01	\$51.06	\$59.25	\$(2.05)	\$(8.19)
Brazilian Coke production—operated facility (thousands of tons)	1,741	1,760	1,516	(19)	244
Coal Logistics Operating Data:					
Tons handled, excluding CMT (thousands of tons) ⁽⁴⁾	14,076	16,652	19,037	(2,576)	(2,385)
Tons handled by CMT (thousands of tons) ⁽⁴⁾	4,493	2,212	—	2,281	2,212

(1) See definition of Adjusted EBITDA and reconciliation to the most comparable GAAP measures at the end of this Item and Note 21 to our consolidated financial statements.

(2) Legacy costs, net include costs associated with former mining employee-related liabilities prior to the implementation of our contractor mining business and ultimate disposal of mining operations, net of certain royalty revenues. See details of these legacy items below.

	Years Ended December 31,		
	2016	2015	2014
(Dollars in millions)			
Black lung expense	\$(8.1)	\$(9.8)	\$(14.3)
Postretirement benefit plan (expense) benefit	(0.7)	3.6	3.7
Defined benefit plan expense	—	(13.1)	(0.2)
Workers' compensation expense	(0.6)	(2.3)	(4.6)
Other	0.4	(0.4)	0.7
Total legacy costs, net	\$(9.0)	\$(22.0)	\$(14.7)

(3) Reflects Domestic Coke Adjusted EBITDA divided by Domestic Coke sales volumes.

(4) Reflects inbound tons handled during the period.

47

Analysis of Segment Results

Domestic Coke

The following table explains year-over-year changes in our Domestic Coke segment's sales and other operating revenues and Adjusted EBITDA results:

	Sales and other operating revenue		Adjusted EBITDA	
	2016 vs. 2015	2015 vs. 2014	2016 vs. 2015	2015 vs. 2014
	(Dollars in millions)			
Beginning	\$1,243.6	\$1,388.3	\$210.1	\$247.9
Volumes ⁽¹⁾	(35.9)	(22.8)	(7.5)	(6.1)
Pass through coal costs	(103.6)	(91.2)	—	—
Lower coal gains ⁽²⁾	—	—	(8.8)	(5.9)
Operating and maintenance costs ⁽³⁾	2.3	7.0	14.0	10.0
Indiana Harbor's operating and maintenance reimbursement rate change ⁽⁴⁾	—	(30.7)	—	(30.7)
Transportation costs shifted from Coal Mining segment ⁽⁵⁾	—	—	(5.5)	—
Haverhill energy arrangement ⁽⁶⁾	(2.6)	(4.9)	(1.1)	(6.4)
Haverhill turbine outage ⁽⁷⁾	(0.9)	—	(3.5)	—
Energy and other ⁽⁸⁾	(5.7)	(2.1)	(3.8)	1.3
Ending	\$1,097.2	\$1,243.6	\$193.9	\$210.1

Revenues were lower in 2016 primarily driven by lower sales volumes at Indiana Harbor, which decreased revenues and Adjusted EBITDA by \$20.6 million and \$6.2 million, respectively, in 2016 compared to 2015.

(1) Additionally, lower sales volumes of 75 thousand tons to AK Steel, for which AK Steel provided make-whole payments reduced revenues by \$11.4 million in 2016 compared to 2015. The 2015 results were impacted by lower sales volumes across the fleet, but primarily at Indiana Harbor, which decreased revenues and Adjusted EBITDA by \$12.5 million and \$4.3 million, respectively, in 2015 as compared to 2014.

(2) In 2016 and 2015, the impact of on-going oven rebuilds at Indiana Harbor as well as lower coal prices contributed to lower coal-to-coke yield gains. Lower yield gains in 2016 were partially offset by record yield performance at our Middletown facility. Additionally, in 2015, higher coal moistures also contributed to lower coal-to-coke yield gains.

(3) The increase in Adjusted EBITDA in 2015 was primarily driven by the \$12.4 million impact of lower overall operating and maintenance spending at Indiana Harbor as compared to 2014, while an additional decrease in spending at Indiana Harbor of \$13.2 million in 2016 further improved Adjusted EBITDA as compared to 2015.

(4) This decrease in revenues and Adjusted EBITDA primarily relates to the change in Indiana Harbor's cost recovery mechanism in 2015 to a fixed recovery per ton from an annually negotiated budget amount with a cap for certain expenses and cost sharing of any differences from budgeted amounts. This fixed cost recovery per ton mechanism is in place for 2015, 2016 and 2017 and will revert back to an annually negotiated budget mechanism starting in 2018 through the end of the contract. Had the annually negotiated budget mechanism been in place for 2016, we estimate both revenue and Adjusted EBITDA would have been higher by approximately \$15 million, which is based on actual 2016 production at the facility and assumes that the actual O&M spend at the facility for the year was equal to the annually negotiated budget amount agreed to with our customer. The actual impact in 2018 when the contract reverts back to an annually negotiated budget mechanism will depend on actual volumes and actual operating and maintenance spending as it relates to the agreed upon budget with our customer.

(5) In 2016, the divestiture of the coal mining business and the transition to a 100 percent purchased third-party coal model resulted in a shift of coal transportation costs from the Coal Mining segment to our Jewell cokemaking facility of approximately \$5.5 million. This shift of costs has no impact on consolidated Adjusted EBITDA.

(6) See discussion of activities related to our Haverhill energy arrangement in "Items Impacting Comparability."

In October 2016, the Partnership sustained a turbine failure at its Haverhill II facility, the impact of which was (7) partially mitigated by insurance recoveries. The Haverhill II turbine was fully restored in January 2017, and we continue to pursue additional insurance recoveries.

(8) Results in 2016 included lower energy sales as compared to the prior year as a result of planned maintenance outages in 2016. Results in 2015 included lower transportation costs, which were passed through to our customer. Coal Logistics

The following table explains year-over-year changes in our Coal Logistics segment's sales and other operating revenues and Adjusted EBITDA results:

	Sales and other operating revenue, inclusive of intersegment sales			
	2016	2015	2016	2015
	vs. 2015	vs. 2014	vs. 2015	vs. 2014
	(Dollars in millions)			
Beginning	\$81.2	\$55.0	\$38.0	\$14.3
CMT ⁽¹⁾	34.1	28.6	29.9	20.6
DRT ⁽²⁾	3.9	—	0.7	—
Transloading volumes ⁽³⁾	(10.5)	(6.4)	(5.6)	(2.9)
Price/margin impact of mix in transloading services	(1.4)	3.3	—	3.8
Fixed operating and maintenance costs	—	—	0.4	1.5
Other	0.6	0.7	0.5	0.7
Ending	\$107.9	\$81.2	\$63.9	\$38.0

(1) Results in 2016 reflect a full year's contribution of CMT, which was acquired in August 2015, while 2015 includes only a partial year of results.

(2) DRT was formed in early 2016 to accommodate our Jewell cokemaking facility in its direct procurement of third-party coal.

(3) In both 2016 and 2015, lower transloading volumes were driven by challenging market conditions in both the thermal and metallurgical coal markets.

Brazil Coke

2016 compared to 2015

Sales and other operating revenue increased \$5.5 million, or 16.2 percent, to \$39.5 million in 2016 compared to \$34.0 million in 2015. The increase in sales and other operating revenue was primarily due to an incremental \$5.1 million in licensing fees received annually by SunCoke beginning in 2016 as well as higher reimbursement of operating and maintenance costs of \$2.0 million compared to 2015. The remaining decrease was primarily related to unfavorable translation adjustments.

Adjusted EBITDA decreased \$6.2 million, or 27.7 percent, to \$16.2 million in 2016 compared to \$22.4 million in 2015. The decrease in Adjusted EBITDA was primarily driven by the absence of our \$9.5 million preferred annual dividend, no longer received with the redemption of our Brazil Investment in 2016, net of the \$5.1 million additional licensing fees. The remaining decrease was primarily related to unfavorable translation adjustments.

2015 compared to 2014

Sales and other operating revenue decreased \$3.0 million, or 8.1 percent, to \$34.0 million in 2015 compared to \$37.0 million in 2014. The decrease was primarily a result of unfavorable translation adjustments, which decreased revenues by \$8.4 million. This decrease was partially offset by higher volumes of 244 thousand over the prior year, which increased revenues \$4.1 million. The remaining increase of \$1.3 million was primarily related to production bonuses received from our customer for meeting certain volume targets during 2015.

Adjusted EBITDA increased \$3.5 million, or 18.5 percent, to \$22.4 million in 2015 compared to \$18.9 million in 2014. The increase was driven by higher volumes of 244 thousand tons, which increased Adjusted EBITDA \$2.1 million. The remaining increase of \$1.4 million was primarily related to the production bonuses discussed above.

Coal Mining

2016 compared to 2015

Inclusive of intersegment sales, sales and operating revenues decreased \$91.1 million to \$22.8 million in 2016, compared to \$113.9 million in 2015, primarily due to the Company's divestiture of its coal mining business to Revelation in April 2016.

Adjusted EBITDA was a loss of \$6.0 million in 2016 compared to a loss of \$18.9 million in 2015. The divestiture of the business improved Adjusted EBITDA results \$8.4 million in 2016 as compared to 2015. Additionally, in 2016, coal transportation costs of \$5.5 million shifted from our coal mining business to our Jewell cokemaking facility, within our Domestic Coke segment. This shift of costs has no impact on consolidated Adjusted EBITDA. These benefits were slightly offset by Coal Mining segment results prior to the divestiture of the business in April 2016 compared to the prior year period.

2015 compared to 2014

Inclusive of intersegment sales, sales and operating revenues decreased \$51.3 million to \$113.9 million in 2015, compared to \$165.2 million in 2014. The decrease was primarily driven by lower volumes of 344 thousand tons, which decreased revenues \$34.4 million. The remaining decrease is primarily the result of an \$11 per ton decrease in price driven by depressed market conditions.

Adjusted EBITDA decreased \$2.9 million to a loss of \$18.9 million in 2015, compared to a loss of \$16.0 million in 2014, which included a favorable \$4.5 million fair value adjustment to the Harold Keene Coal Companies contingent consideration arrangement. The impact of lower pricing discussed above further decreased Adjusted EBITDA \$13.3 million in 2015. These decreases were partially offset by the benefit of lower production volumes during 2015, which increased Adjusted EBITDA \$13.1 million. The remaining increase of \$1.8 million, primarily relates to the absence of allocated corporate costs, which were no longer allocated when the contract mining model was put in place during 2015.

Corporate and Other

2016 compared to 2015

Corporate expenses improved \$15.2 million, or 23.0 percent, to \$51.0 million in 2016 from \$66.2 million in 2015. The reduction in costs was primarily due to \$13.0 million in lower legacy costs, driven by the absence of a \$12.6 million non-cash pension plan termination charge recorded in 2015. The Company incurred lower severance costs of \$3.8 million in 2016 as well as additional employee-related savings of \$1.3 million in 2016 compared to 2015. The absence of \$2.6 million of transaction costs incurred in 2015 related to the acquisition of CMT and the Granite City dropdowns further improved results in 2016 as compared to the prior year period. These improvements were offset by increases in expenses of \$5.5 million substantially driven by mark-to-market adjustments in deferred compensation caused by changes in the Company's share price and the Partnership's unit price.

2015 compared to 2014

Corporate expenses increased \$11.8 million, or 21.7 percent, to \$66.2 million in 2015 from \$54.4 million in 2014. The increase was primarily due to \$7.3 million in higher legacy costs, driven by \$12.6 million in non-cash pension plan termination charges during 2015, partially offset by a decrease in black lung and workers' compensation charges as compared to the prior year period. Excluding legacy costs, the remaining increase in corporate expenses of \$4.5 million related to higher legal and severance expenses of \$4.5 million and \$2.7 million, respectively, as well as higher acquisition and business development costs of \$2.6 million compared to 2014. These higher costs in 2015 were offset primarily by lower employee-related costs.

Liquidity and Capital Resources

Our primary liquidity needs are to finance the replacement of partially or fully depreciated assets and other capital expenditures, service our debt, fund investments, fund working capital and maintain cash reserves. Our sources of liquidity include cash generated from operations, borrowings under our revolving credit facility and, from time to time, debt and equity offerings. We believe our current resources are sufficient to meet our working capital requirements for our current business for the foreseeable future. We may be required to access the capital markets for funding related to the maturities of our long-term borrowings beginning in 2019. As of December 31, 2016, together with the Partnership, we had \$134.0 million of cash and cash equivalents and \$195.9 million of borrowing availability

under our credit facilities. In February 2017, the Company extended the maturity of the revolver to December 2018 and reduced its Revolver capacity by \$25.0 million to \$125.0 million.

Distributions

In order to maintain flexibility and liquidity, our Board of Directors suspended the Company's dividend in 2016. Any future dividend or share repurchase plans are on hold pending the completion of the Simplification Transaction and will depend on business conditions, our financial condition, earnings, liquidity and capital requirements, covenants in our debt agreements and other factors. Upon closing the proposed Simplification Transaction, management intends to recommend to the Company's Board of Directors a quarterly dividend of \$0.0625 per share.

On January 23, 2017, the Partnership's Board of Directors declared a quarterly cash distribution of \$0.5940 per unit. This distribution will be paid on March 1, 2017 to unitholders of record on February 15, 2017. The distribution is expected to include \$12.3 million to the Partnership's public unitholders. The Partnership anticipates maintaining the existing distribution during ongoing negotiations with the Company for the proposed Simplification Transaction.

Borrowings

Entering 2016, the Partnership anticipated utilizing excess liquidity of at least \$60 million to meaningfully de-lever the Partnership's balance sheet in 2016. Utilizing cash generated by the business, the Partnership successfully reduced debt by \$85.4 million during 2016. The de-levering activities included the repayment of \$10.0 million on the Partnership Revolver as well as the repurchase of \$89.5 million face value of outstanding Partnership Notes for \$65.0 million of cash payments during 2016. Additionally, during 2016, the Company repaid \$60.4 million on the Revolving Facility.

On July 22, 2016, the Partnership entered into a sale-leaseback arrangement of certain equipment from the Domestic Coke and Coal Logistics segments for total proceeds of \$16.2 million. The leaseback agreement has an initial lease period of 60 months, with an effective interest rate of 5.82 percent and an early buyout option after 48 months to purchase the equipment at 34.5 percent of the original lease equipment cost. The arrangement is accounted for as a financing transaction, resulting in a financing obligation on the Consolidated Balance Sheets. The Partnership repaid \$1.0 million of the financing obligation during 2016. Annual future minimum lease payments are approximately \$2.5 million to \$3.0 million through 2019 and \$7.3 million in 2020, which includes the early buyout option payment. During 2016, as a result of continued overall depressed coal market conditions and the Company's credit downgrade in late 2015, the Company and the Partnership issued \$32.0 million and \$1.4 million of letters of credit, respectively, as collateral to its insurance underwriters and surety companies. These letters of credit were issued in connection with certain contractual obligations, including reclamation obligations, black lung, workers' compensation, general liability and other financial guarantee obligations. As a result of issuing these letters of credits, the Company was refunded \$6.0 million in cash from previous collateral deposits. Separately, the Company cancelled \$4.1 million of letters of credit as a result of the divestiture of the coal mining business.

The Company and the Partnership's ability to access the debt markets, and the related cost of these borrowings, is affected by our credit ratings and market conditions. On February 8, 2017, S&P Global Ratings raised its corporate credit rating on the Company to 'BB-' from 'B' with an outlook of stable. The rating raise reflects the Company's ability to independently service its debt and therefore was aligned with the Partnership's rating. The Partnership's corporate credit rating was reaffirmed at 'BB-' On November 2, 2016, Moody's Corporation changed the outlook on the ratings of the Company and the Partnership to "positive" from "stable." The outlook change reflects the recent improvement in the steel markets, the Partnership's declining leverage trend over the past year and Company's recent announcement of the proposed Simplification Transaction.

Covenants

As of December 31, 2016, the Company and the Partnership were in compliance with all applicable debt covenants. We do not anticipate violation of these covenants nor do we anticipate that any of these covenants will restrict our operations or our ability to obtain additional financing. See Note 14 to the consolidated financial statements for details on debt covenants.

Cash Flow Summary

The following table sets forth a summary of the net cash provided by (used in) operating, investing and financing activities for the years ended December 31, 2016, 2015 and 2014:

	Years Ended		
	December 31,		
	2016	2015	2014
	(Dollars in millions)		
Net cash provided by operating activities	\$219.1	\$141.1	\$112.3
Net cash used in investing activities	(36.2)	(285.2)	(125.2)
Net cash (used in) provided by financing activities	(172.3)	128.5	(81.7)
Net increase (decrease) in cash and cash equivalents	\$10.6	\$(15.6)	\$(94.6)

Cash Provided by Operating Activities

Net cash provided by operating activities increased by \$78.0 million in 2016 as compared to the prior year partially due to the full year benefit of CMT's cash provided by operating activities, a net increase of \$35.0 million. Larger decreases to coal inventory levels and coal prices in 2016 as compared to 2015 as well as timing of payments for coal purchases in 2015 provided additional operating cash flow of approximately \$23 million in 2016. Lower operating costs due to the divestiture of the coal mining business during 2016 also contributed to the increase in operating cash flow as compared to 2015. Additionally, the prior year period was adversely impacted by coal severance payments of \$11.5 million during the year ended December 31, 2015 compared to the current year period.

Net cash provided by operating activities increased by \$28.8 million in 2015 as compared to 2014 as a result of lower inventory due to the wind down of a strategic build in inventory levels from the second half of 2014 and lower coal prices. This increase was partially offset by severance payments of \$11.5 million during 2015 and decreased accounts payables due to the timing of payments.

Cash Used in Investing Activities

Net cash used in investing activities decreased \$249.0 million to \$36.2 million for the year ended December 31, 2016 compared to prior year. The decrease is primarily due to the absence of the investing cash outflow of \$191.7 million from the acquisition of CMT in 2015. In 2016, the Partnership amended an agreement with The Cline Group, which unrestricted \$6.0 million of previously restricted cash and relieved the Partnership of any obligation to repay these amounts to The Cline Group. The Company also received \$20.5 million in cash at the closing of the redemption of its Brazil Investment during 2016. These cash inflows were more than offset by the divestiture of the coal mining business in 2016, where the Company paid \$12.8 million to Revelation, as well as capital expenditures, excluding the CMT capital expansion costs, which was funded from restricted cash. The decrease in capital expenditures in 2016 compared to 2015 related to lower spending on the environmental remediation project at Haverhill during 2016.

Net cash used in investing activities increased \$160.0 million to \$285.2 million for the year ended December 31, 2015 compared to prior year. In 2015, the Partnership acquired CMT resulting in a cash payment of \$191.7 million and the restriction of an additional \$17.7 million of cash withheld to fund the completion of expansion capital improvements. The \$17.7 million of restricted cash was net of capital expenditures on the project since the acquisition and was included in restricted cash on the Consolidated Balance Sheets. The increase was partially offset by higher capital expenditures related to the Indiana Harbor refurbishment and environmental remediation project at Haverhill in 2014.

Cash (Used in) Provided by Financing Activities

Net cash used in financing activities was \$172.3 million for the year ended December 31, 2016. In 2016, primarily in connection with the Partnership's de-levering activities, the Partnership and the Company made repayments of debt, net of proceeds from the sale-leaseback arrangement, of \$121.5 million. Additionally, during 2016, the Partnership paid distributions to public unitholders of \$49.4 million. See Note 14 to our consolidated financial statements for further discussion of debt activities.

Net cash provided by financing activities was \$128.5 million for the year ended December 31, 2015. In 2015, primarily in connection with the Granite City Dropdown and the acquisition of CMT, proceeds from the issuance of debt, net of repayments were \$249.4 million. These net cash inflows were partially offset by return of investments to shareholders and unitholders, including dividends and distributions of \$71.3 million and equity repurchases of \$48.5

million.

52

Net cash used in financing activities was \$81.7 million for the year ended December 31, 2014. In 2014, in connection with the Haverhill and Middletown Dropdown, the Partnership received \$90.5 million from issuance of common units and made repayments of debt, net of proceeds from issuance of debt of \$54.2 million. Additionally, during 2014, the Company and the Partnership paid dividends and distributions to shareholders and unitholders of \$36.1 million and the Company repurchased \$85.1 million of shares.

Capital Requirements and Expenditures

Our operations are capital intensive, requiring significant investment to upgrade or enhance existing operations and to meet environmental and operational regulations. The level of future capital expenditures will depend on various factors, including market conditions and customer requirements, and may differ from current or anticipated levels. Material changes in capital expenditure levels may impact financial results, including but not limited to the amount of depreciation, interest expense and repair and maintenance expense.

Our capital requirements have consisted, and are expected to consist, primarily of:

Ongoing capital expenditures required to maintain equipment reliability, the integrity and safety of our coke ovens and steam generators and to comply with environmental regulations. Ongoing capital expenditures are made to replace partially or fully depreciated assets in order to maintain the existing operating capacity of the assets and/or to extend their useful lives and also include new equipment that improves the efficiency, reliability or effectiveness of existing assets. Ongoing capital expenditures do not include normal repairs and maintenance expenses, which are expensed as incurred;

Environmental remediation project expenditures required to implement design changes to ensure that our existing facilities operate in accordance with existing environmental permits; and

Expansion capital expenditures to acquire and/or construct complementary assets to grow our business and to expand existing facilities as well as capital expenditures made to enable the renewal of a coke sales agreement and/or coal logistics service agreement and on which we expect to earn a reasonable return.

The following table summarizes ongoing, environmental remediation project and expansion capital expenditures:

	Years Ended		
	December 31,		
	2016	2015	2014
	(Dollars in millions)		
Ongoing capital ⁽¹⁾	\$39.8	\$45.9	\$50.6
Environmental remediation project ⁽²⁾	7.8	20.9	46.4
Expansion capital: ⁽³⁾			
Indiana Harbor	—	2.4	24.2
CMT ⁽⁴⁾	13.5	4.6	—
Other capital expansion	2.6	2.0	4.0
Total expansion capital	16.1	9.0	28.2
Total capital expenditures	\$63.7	\$75.8	\$125.2

Includes \$14.0 million and \$12.1 million of capital expenditures in connection with our current oven rebuild

(1) initiative at our Indiana Harbor facility, which began in 2015, for the years ended December 31, 2016 and 2015, respectively.

(2) Includes \$2.7 million, \$2.9 million and \$3.2 million of interest capitalized in connection with the environmental gas sharing projects for the years ended December 31, 2016, 2015 and 2014, respectively.

(3) Excludes the acquisition of CMT.

Represents capital expenditures for the ship loader expansion project funded with cash withheld in conjunction

(4) with the acquisition of CMT. Additionally, this includes capitalized interest of \$2.3 million and \$0.8 million for the years ended December 31, 2016 and 2015, respectively.

In 2017, we expect our capital expenditures to be approximately \$80 million, which is comprised of the following:

Total ongoing capital expenditures of approximately \$52 million, of which approximately \$17 million will be spent at the Partnership and approximately \$20 million will be spent on the Indiana Harbor oven rebuild project.

Total capital expenditures on environmental remediation projects of approximately \$25 million, all of which will be spent at the Partnership; and

Total expansion capital of approximately \$3 million in our Coal Logistics segment.

We expect that capital expenditures will remain at this level in 2018, including capital expenditures of approximately \$25 million at the Partnership related to the remediation project.

We anticipate spending a total of between \$140 million and \$145 million in environmental remediation projects to fund our environmental remediation projects to comply with the expected terms of the consent decree at our Haverhill and Granite City cokemaking operations. We have spent approximately \$93 million related to these projects since 2012. The remaining capital is expected to be spent through the first quarter of 2019. A portion of the proceeds from the Partnership's initial public offering, the Haverhill and Middletown Dropdown and the Granite City Dropdown are expected to be used to fund \$119 million of these environmental remediation projects.

Contractual Obligations

The following table summarizes our significant contractual obligations as of December 31, 2016:

	Total	Payment Due Dates			
		2017	2018-2019	2020-2021	Thereafter
	(Dollars in millions)				
Total borrowings: ⁽¹⁾					
Principal	\$858.0	\$4.9	\$ 286.3	\$ 566.8	\$ —
Interest	178.2	55.5	97.9	24.8	—
Operating leases ⁽²⁾	12.4	3.3	5.5	2.3	1.3
Purchase obligations:					
Coal ⁽³⁾	420.3	420.3	—	—	—
Transportation and coal handling ⁽⁴⁾	244.0	28.6	59.6	57.9	97.9
Other ⁽⁵⁾	10.2	2.6	3.1	1.8	2.7
Total	\$1,723.1	\$515.2	\$ 452.4	\$ 653.6	\$ 101.9

At December 31, 2016, debt consists of \$44.6 million of Company Notes, \$463.0 million of Partnership Notes,

\$113.2 million of Partnership Promissory Note, \$172.0 million of Partnership Revolver, \$15.2 million of Partnership Financing Obligation and \$50.0 million of Partnership Term Loan. Projected interest costs on variable rate instruments were calculated using market rates at December 31, 2016.

(1) Our operating leases include leases for land, locomotives, office equipment and other property and equipment.

(2) Operating leases include all operating leases that have initial noncancelable terms in excess of one year.

Certain coal procurement contracts were not executed at December 31, 2016. We estimate these contracts to be approximately \$100 million of additional purchase obligations in 2017 and expect these to be finalized in the first quarter of 2017.

Transportation and coal handling services consist primarily of railroad and terminal services attributable to delivery and handling of coal purchases and coke sales. Long-term commitments generally relate to locations for which limited transportation options exist and match the length of the related coke sales agreement.

(5) Primarily represents open purchase orders for materials, supplies and services.

A purchase obligation is an enforceable and legally binding agreement to purchase goods or services that specifies significant terms, including: fixed or minimum quantities to be purchased; fixed, minimum or variable price provisions; and the approximate timing of the transaction. Our principal purchase obligations in the ordinary course of business consist of coal and transportation and distribution services, including railroad services. We also have contractual obligations supporting financing arrangements of third-parties, contracts to acquire or construct properties, plants and equipment, and other contractual obligations, primarily related to services and materials. Most of our coal purchase obligations are based on fixed prices. These purchase obligations generally include fixed or minimum volume requirements. Transportation and distribution obligations also typically include required minimum volume commitments. The purchase obligation amounts in the table

above are based on the minimum quantities or services to be purchased at estimated prices to be paid based on current market conditions. Accordingly, the actual amounts may vary significantly from the estimates included in the table.

Off-Balance Sheet Arrangements

We have letters of credit disclosed in Note 14 to the consolidated financial statements as well as operating leases disclosed in Note 15 to the consolidated financial statements. We had outstanding surety bonds with third parties of approximately \$25 million as of December 31, 2016 to secure reclamation and other performance commitments. Other than these arrangements, the Company has not entered into any transactions, agreements or other contractual arrangements that would result in material off-balance sheet liabilities.

Impact of Inflation

Although the impact of inflation has been relatively low in recent years, it is still a factor in the U.S. economy and may increase the cost to acquire or replace properties, plants, and equipment and may increase the costs of labor and supplies. To the extent permitted by competition, regulation and existing agreements, we have generally passed along increased costs to our customers in the form of higher fees and we expect to continue this practice.

Critical Accounting Policies

A summary of our significant accounting policies is included in Note 2 to the consolidated financial statements. Our management believes that the application of these policies on a consistent basis enables us to provide the users of the financial statements with useful and reliable information about our operating results and financial condition. The preparation of our consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosures of contingent assets and liabilities. Significant items that are subject to such estimates and assumptions consist of: (1) properties, plants and equipment; (2) accounting for impairments; and (3) black lung benefit obligations. Although our management bases its estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, actual results may differ to some extent from the estimates on which our consolidated financial statements have been prepared at any point in time. Despite these inherent limitations, our management believes the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and consolidated financial statements and footnotes provide a meaningful and fair perspective of our financial condition.

Properties, Plants and Equipment

The cost of plants and equipment is generally depreciated on a straight-line basis over the estimated useful lives of the assets. Useful lives of assets are based on historical experience and are adjusted when changes in the expected physical life of the asset, its planned use, technological advances, or other factors show that a different life would be more appropriate. Changes in useful lives that do not result in the impairment of an asset are recognized prospectively. Throughout the periods presented, we revised the estimated useful lives of certain assets in our Domestic Coke, Coal Logistics and Coal Mining segments. See Note 21 to the consolidated financial statements for further discussion on the revised useful lives impact.

Normal repairs and maintenance costs are expensed as incurred. Repairs and maintenance costs, which are generally reimbursed as part of the pass-through nature of our contracts, were \$116.4 million, \$128.2 million and \$141.7 million and for the years ended December 31, 2016, 2015 and 2014, respectively. Direct costs, such as outside labor, materials, internal payroll and benefit costs, incurred as a part of capital projects that extend an asset's useful life, increase its productivity or add production capacity at our facilities are capitalized; indirect costs are not capitalized.

Accounting for Impairments

Goodwill

Goodwill, which represents the excess of the purchase price over the fair value of the net assets acquired, is tested for impairment as of October 1 of each year, or when events occur or circumstances change that would, more likely than not, reduce the fair value of the reporting unit to below its carrying value. The analysis of potential goodwill impairment employs a two-step process. The first step involves the estimation of fair value of our reporting units. If step one indicates that impairment of goodwill potentially exists, the second step is performed to measure the amount of impairment, if any. Goodwill impairment exists when the estimated implied fair value of goodwill is less than its carrying value.

The Coal Logistics reporting unit had a goodwill carrying value of \$73.5 million as of December 31, 2016. The step one analysis as of October 1st resulted in the fair value of the Coal Logistics reporting unit, which was determined based on a discounted cash flow analysis, exceeding its carrying value by approximately 6 percent. A significant portion of

our coal logistics business holds long-term, take-or-pay contracts with Murray and Foresight. Key assumptions in our goodwill impairment test include continued customer performance against long-term, take-or-pay contracts, renewal of future long-term, take-or-pay contracts, incremental merchant business and an 18 percent discount rate representing the estimated weighted average cost of capital for this business line. The use of different assumptions, estimates or judgments, such as the estimated future cash flows of Coal Logistics and the discount rate used to discount such cash flows, could significantly impact the estimated fair value of a reporting unit, and therefore, impact the excess fair value above carrying value of the reporting unit. A 100 basis point change in the discount rate would not have reduced the fair value of the reporting unit below its carrying value.

To the extent changes in factors or circumstances occur that impact our future cash flow projections, such as a loss of either Murray or Foresight as customers, significant reductions in volume or pricing beyond our existing contract term or lower incremental merchant business, future assessments of goodwill and intangible assets may result in material impairment charges.

Finite-Lived Intangible Assets

Intangible assets are primarily comprised of customer contracts, customer relationships, and permits. Intangible assets are amortized over their useful lives in a manner that reflects the pattern in which the economic benefit of the asset is consumed.

We test the carrying amount of our finite-lived intangible assets for recoverability whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. This assessment employs a two-step approach. The first step is used to determine if a potential impairment exists while the second step measures the associated impairment loss, if any. An impairment loss is recognized if, in performing the impairment review, it is determined that the carrying amount of an asset or asset group exceeds the estimated undiscounted future cash flows expected to result from the use of the asset or asset group and its eventual disposition.

Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. A long-lived asset, or group of assets, is considered to be impaired when the undiscounted net cash flows expected to be generated by the asset are less than its carrying amount. Such estimated future cash flows are highly subjective and are based on numerous assumptions about future operations and market conditions. The impairment recognized is the amount by which the carrying amount exceeds the fair market value of the impaired asset, or group of assets. It is also difficult to precisely estimate fair market value because quoted market prices for our long-lived assets may not be readily available. Therefore, fair market value is generally based on the present values of estimated future cash flows using discount rates commensurate with the risks associated with the assets being reviewed for impairment.

Cash flows at our Indiana Harbor facility were negative during 2016, driven by the oven rebuild project implemented to address coke oven degradation. Based on these results, we performed an impairment test in 2016 and concluded that our undiscounted cash flows were approximately 50 percent, or substantially in excess, of the carrying value of our long-lived assets at Indiana Harbor. However, we continue to closely monitor our performance at Indiana Harbor, and if our coke oven rebuild project does not stabilize production or if the project costs are significantly higher than expected, our current conclusion as to recoverability of assets at that location could change.

For further information on impairments recorded during periods presented see Note 20 to the consolidated financial statements.

Black Lung Benefit Liabilities

We have obligations related to coal workers' pneumoconiosis, or black lung, benefits to certain of our employees and former employees (and their dependents). Such benefits are provided for under Title IV of the Federal Coal Mine Health and Safety Act of 1969 and subsequent amendments, as well as for black lung benefits provided in the states of Virginia, Kentucky and West Virginia pursuant to workers' compensation legislation. The Patient Protection and Affordable Care Act ("PPACA"), which was implemented in 2010, amended previous legislation related to coal workers' black lung obligations. PPACA provides for the automatic extension of awarded lifetime benefits to surviving spouses and changes the legal criteria used to assess and award claims. We act as a self-insurer for both state and federal black lung benefits and adjust our liability each year based upon actuarial calculations of our expected future payments for

these benefits.

Our independent actuarial consultants annually calculate the present value of the estimated black lung liability based on actuarial models utilizing our population of former coal mining employees, historical payout patterns of both the Company and the industry, actuarial mortality rates, disability incidence, medical costs, death benefits, dependents, discount

56

rates and the current federally mandated payout rates. The estimated liability may be impacted by future changes in the statutory mechanisms, modifications by court decisions and changes in filing patterns driven by perceptions of success by claimants and their advisors, the impact of which cannot be estimated.

The following table summarizes discount rates utilized, active claims, and the total estimated black lung liability:

	December 31,	
	2016	2015
Discount rate (percent) ⁽¹⁾	3.7 %	3.9 %
Active claims	349	323
Estimated black lung liability (dollars in millions) ⁽²⁾	\$50.2	\$49.9

(1) The discount rate is determined based on a portfolio of high-quality corporate bonds with maturities that are consistent with the estimated duration of our black lung obligations. A 0.25 percent decrease in the discount rate would have increased coal workers' black lung expense by \$1.2 million in 2016.

(2) The current portion of the black lung liability was \$4.8 million and \$5.2 million at December 31, 2016 and 2015, respectively, and was included in accrued liabilities on the Consolidated Balance Sheet.

The following table summarizes annual black lung payments and expense:

	Years Ended		
	December 31,		
	2016	2015	2014
	(dollars in millions)		
Payments	\$7.8	\$3.8	\$2.8
Expense	\$8.1	\$9.8	\$14.3

Recent Accounting Standards

See Note 2 to our consolidated financial statements.

Non-GAAP Financial Measures

In addition to the GAAP results provided in the Annual Report on Form 10-K, we have provided a non-GAAP financial measure, Adjusted EBITDA. Our management, as well as certain investors, uses this non-GAAP measure to analyze our current and expected future financial performance and liquidity. This measure is not in accordance with, or a substitute for, GAAP and may be different from, or inconsistent with, non-GAAP financial measures used by other companies. See Note 21 in our consolidated financial statements for both the definition of Adjusted EBITDA and reconciliations from GAAP to the non-GAAP measurement for 2016, 2015 and 2014.

Below is a reconciliation of 2017 Adjusted EBITDA guidance from its closest GAAP measures:

	2017	
	Low	High
Net Cash Provided by Operating activities	\$ 140	\$ 155
Subtract:		
Depreciation and amortization expense	131	131
Changes in working capital and other	(20)	(18)
Net Income	\$ 29	\$ 42
Add:		
Depreciation and amortization expense	131	131
Interest expense, net	57	54
Income tax expense	3	8
Adjusted EBITDA	\$ 220	\$ 235
Subtract: Adjusted EBITDA attributable to noncontrolling interest ⁽¹⁾	90	94
Adjusted EBITDA attributable to SXC	\$ 130	\$ 141

(1) Reflects non-controlling interest in Indiana Harbor and the portion of the Partnership owned by public unitholders.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

We have made forward-looking statements in this Annual Report on Form 10-K, including, among others, in the sections entitled "Business," "Risk Factors," "Quantitative and Qualitative Disclosures About Market Risk" and "Management's Discussion and Analysis of Financial Condition and Results of Operations." Such forward-looking statements are based on management's beliefs and assumptions and on information currently available.

Forward-looking statements include the information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, potential growth opportunities, potential operating performance, the effects of competition and the effects of future legislation or regulations. Forward-looking statements include all statements that are not historical facts and may be identified by the use of forward-looking terminology such as the words "believe," "expect," "plan," "intend," "anticipate," "estimate," "predict," "potential," "continue," "will," "should" or the negative of these terms or similar expressions. In particular, statements in this Annual Report on Form 10-K concerning future dividend declarations are subject to approval by our Board of Directors and will be based upon circumstances then existing.

Forward-looking statements involve risks, uncertainties and assumptions. Actual results may differ materially from those expressed in these forward-looking statements. You should not put undue reliance on any forward-looking statements. We do not have any intention or obligation to update any forward-looking statement (or its associated cautionary language), whether as a result of new information or future events, after the date of this Annual Report on Form 10-K, except as required by applicable law.

The risk factors discussed in "Risk Factors" could cause our results to differ materially from those expressed in the forward-looking statements made in this Annual Report on Form 10-K. There also may be other risks that we are unable to predict at this time. Such risks and uncertainties include, without limitation:

- changes in levels of production, production capacity, pricing and/or margins for coal and coke;
- variation in availability, quality and supply of metallurgical coal used in the cokemaking process, including as a result of non-performance by our suppliers;
- changes in the marketplace that may affect our coal logistics business, including the supply and demand for thermal and metallurgical coal;
- changes in the marketplace that may affect our cokemaking business, including the supply and demand for our coke products, as well as increased imports of coke from foreign producers;
- competition from alternative steelmaking and other technologies that have the potential to reduce or eliminate the use of coke;
- our dependence on, relationships with, and other conditions affecting, our customers;
- severe financial hardship or bankruptcy of one or more of our major customers, or the occurrence of a customer default or other event affecting our ability to collect payments from our customers;
- volatility and cyclical downturns in the steel industry and in other industries in which our customers and/or suppliers operate;
- volatility, cyclical downturns and other change in the business climate and market for coal, affecting customers or potential customers for the Partnership's coal logistics business;
- our significant equity interest in the Partnership;
- our ability to enter into new, or renew existing, long-term agreements upon favorable terms for the sale of coke steam, or electric power, or for coal handling services (including transportation, storage and blending);
- the Partnership's ability to enter into new, or renew existing, agreements upon favorable terms for Coal Logistics services;
- our ability to identify acquisitions, execute them under favorable terms, and integrate them into our existing business operations;
- our ability to consummate investments under favorable terms, including with respect to existing cokemaking facilities, which may utilize by-product technology, and integrate them into our existing businesses and have them perform at anticipated levels;
- our ability to develop, design, permit, construct, start up, or operate new cokemaking facilities in the U.S. or in foreign countries;

- our ability to successfully implement domestic and/or our international growth strategies;
- our ability to realize expected benefits from investments and acquisitions;
- age of, and changes in the reliability, efficiency and capacity of the various equipment and operating facilities used in
- our coal mining and/or cokemaking operations, and in the operations of our subsidiaries major customers, business partners and/or suppliers;
- changes in the expected operating levels of our assets;
- our ability to meet minimum volume requirements, coal-to-coke yield standards and coke quality standards in our coke sales agreements;
 - changes in the level of capital expenditures or operating expenses, including any changes in the level of environmental capital, operating or remediation expenditures;
- our ability to service our outstanding indebtedness;
- our ability to comply with the restrictions imposed by our financing arrangements;
- our ability to comply with federal or state environmental statutes, rules or regulations;
- nonperformance or force majeure by, or disputes with, or changes in contract terms with, major customers, suppliers, dealers, distributors or other business partners;
- availability of skilled employees for our cokemaking, and/or coal logistics operations, and other workplace factors;
- effects of railroad, barge, truck and other transportation performance and costs, including any transportation disruptions;
- effects of adverse events relating to the operation of our facilities and to the transportation and storage of hazardous materials (including equipment malfunction, explosions, fires, spills, and the effects of severe weather conditions);
- effects of adverse events relating to the business or commercial operations of our customers and/or suppliers;
- disruption in our information technology infrastructure and/or loss of our ability to securely store, maintain, or transmit data due to security breach by hackers, employee error or malfeasance, terrorist attack, power loss, telecommunications failure or other events;
- our ability to enter into joint ventures and other similar arrangements under favorable terms;
- our ability to consummate assets sales, other divestitures and strategic restructuring in a timely manner upon favorable terms, and/or realize the anticipated benefits from such actions;
- changes in the availability and cost of equity and debt financing;
- impacts on our liquidity and ability to raise capital as a result of changes in the credit ratings assigned to our indebtedness;
- changes in credit terms required by our suppliers;
- risks related to labor relations and workplace safety;
- proposed or final changes in existing, or new, statutes, regulations, rules, governmental policies and taxes, or their interpretations, including those relating to environmental matters and taxes;
- the existence of hazardous substances or other environmental contamination on property owned or used by us;
- the availability of future permits authorizing the disposition of certain mining waste;
- claims of noncompliance with any statutory and regulatory requirements;
- proposed or final changes in accounting and/or tax methodologies, laws, regulations, rules, or policies, or their interpretations, including those affecting inventories, leases, post-employment benefits, income, or other matters;
- historical combined and consolidated financial data may not be reliable indicator of future results;

- effects resulting from our separation from Sunoco, Inc.;
- public company costs;
- our indebtedness and certain covenants in our debt documents;
- our ability to secure new coal supply agreements or to renew existing coal supply agreements;
- required permits and other regulatory approvals and compliance with contractual obligations and/or bonding requirements in connection with our cokemaking, coal logistics operations, and/or former coal mining activities;
- changes in product specifications for either the coal or coke that we produce or the coals we mix, store and transport;
- changes in insurance markets impacting cost, level and/or types of coverage available, and the financial ability of our insurers to meet their obligations;
- changes in accounting rules or their interpretations, including the method of accounting for inventories, leases, post-employment benefit and/or other items;
- changes in tax laws or their interpretations, including regulations governing the federal income tax treatment of the Partnership;
- volatility in foreign currency exchange rates affecting the markets and geographic regions in which we conduct business;
- changes in financial markets impacting post-employment benefit and funding requirements;
- the accuracy of our estimates of reclamation and other mine closure obligations;
- inadequate protection of our intellectual property rights; and
- effects of geologic conditions, weather, natural disasters and other inherent risks beyond our control.

The factors identified above are believed to be important factors, but not necessarily all of the important factors, that could cause actual results to differ materially from those expressed in any forward-looking statement made by us. Other factors not discussed herein also could have material adverse effects on us. All forward-looking statements included in this Annual Report on Form 10-K are expressly qualified in their entirety by the foregoing cautionary statements.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk

Our primary areas of market risk include changes in: (1) the price of coal, which is the key raw material for our cokemaking business; (2) interest rates; and (3) foreign currency exchange rates. We do not enter into any market risk sensitive instruments for trading purposes.

Price of coal

We do not use derivatives to hedge any of our coal purchases or sales. Although we have not previously done so, we may enter into derivative financial instruments from time to time in the future to economically manage our exposure related to these market risks.

For our Domestic Coke segment, the largest component of the price of our coke is coal cost. However, under the coke sales agreements at all of our Domestic Coke cokemaking facilities, coal costs are a pass-through component of the coke price, provided that we are able to realize certain targeted coal-to-coke yields. As such, when targeted coal-to-coke yields are achieved, the price of coal is not a significant determining factor in the profitability of these facilities. The coal component of the Jewell coke price is fixed annually for each calendar year based on the weighted-average contract price of third-party coal purchases at our Haverhill facility applicable to ArcelorMittal coke sales. To the extent that contracts for third-party coal purchases at our Haverhill facility convert to pricing mechanisms of less than a year, then the Jewell coke price will be adjusted accordingly during that year.

The provisions of our coke sales agreements require us to meet minimum production levels and generally require us to secure replacement coke supplies at the prevailing contract price if we do not meet contractual minimum volumes.

Because market prices for coke are generally highly correlated to market prices for metallurgical coal, to the extent any of our facilities are unable to produce their contractual minimum volumes, we are subject to market risk related to the procurement of replacement supplies.

Interest rates

We are exposed to changes in interest rates as a result of borrowing activities with variable interest rates and interest earned on our cash balances. During the years ended December 31, 2016 and 2015, the daily average outstanding balance on borrowings with variable interest rates was \$262.1 million and \$92.0 million, respectively. Assuming a 50 basis point change in LIBOR, interest expense would have been impacted by \$1.2 million and \$0.5 million in 2016 and 2015, respectively. At December 31, 2016, we had outstanding borrowings with variable interest rates of \$172.0 million and \$50.0 million under the Partnership Revolver and the Partnership Term Loan, respectively.

At December 31, 2016 and 2015, we had cash and cash equivalents of \$134.0 million and \$123.4 million, respectively, which accrues interest at various rates. Assuming a 50 basis point change in the rate of interest associated with our cash and cash equivalents, interest income would have been impacted by \$0.6 million and \$0.7 million for the years ended December 31, 2016 and 2015, respectively.

Foreign currency

Because we operate outside the U.S., we are subject to risk resulting from changes in the Brazil Real currency exchange rates. The currency exchange rates are influenced by a variety of economic factors including local inflation, growth, interest rates and governmental actions, as well as other factors. Revenues and expenses of our foreign operations are translated at average exchange rates during the period and balance sheet accounts are translated at period-end exchange rates. Balance sheet translation adjustments are excluded from the results of operations and are recorded in equity as a component of accumulated other comprehensive loss. If the currency exchange rates had changed by 10 percent, we estimate the impact to our net income in 2016 and 2015 would have been approximately \$0.5 million and \$0.4 million, respectively.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders

SunCoke Energy, Inc.:

We have audited the accompanying consolidated balance sheets of SunCoke Energy, Inc. and subsidiaries as of December 31, 2016 and 2015 and the related consolidated statements of operations, comprehensive income (loss), equity, and cash flow for each of the years in the two-year period ended December 31, 2016. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SunCoke Energy, Inc. and subsidiaries as of December 31, 2016 and 2015, and the results of their operations and their cash flows for each of the years in the two-year period ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), SunCoke Energy, Inc.'s internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated February 16, 2017 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

/s/ KPMG LLP

Chicago, Illinois

February 16, 2017

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders

SunCoke Energy, Inc.:

We have audited SunCoke Energy, Inc.'s internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). SunCoke Energy, Inc.'s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, SunCoke Energy, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2016, based on criteria established in Internal Control-Integrated Framework (2013) issued by COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of SunCoke Energy, Inc. as of December 31, 2016 and 2015, and the related consolidated statements of operations, comprehensive income (loss), equity, and cash flow for each of the years in the two-year period ended December 31, 2016, and our report dated February 16, 2017 expressed an unqualified opinion on those consolidated financial statements.

/s/ KPMG LLP

Chicago, Illinois

February 16, 2017

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders
SunCoke Energy, Inc.

We have audited the accompanying consolidated statements of operations, comprehensive income (loss), equity and cash flows of SunCoke Energy, Inc. for the year ended December 31, 2014. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated results of operations and cash flows of SunCoke Energy, Inc. for year ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

SunCoke Energy, Inc.

Notes to Consolidated Financial Statements

1. General and Basis of Presentation

Description of Business

SunCoke Energy, Inc. ("SunCoke Energy," "Company," "we," "our" and "us") is the largest independent producer of high-quality coke in the Americas, as measured by tons of coke produced each year, and has more than 50 years of coke production experience. Coke is a principal raw material in the blast furnace steelmaking process and is produced by heating metallurgical coal in a refractory oven, which releases certain volatile components from the coal, thus transforming the coal into coke. We also provide coal handling and/or mixing services at our Coal Logistics terminals. We have designed, developed, built, own and operate five cokemaking facilities in the United States ("U.S.") with collective nameplate capacity to produce approximately 4.2 million tons of coke per year. Additionally, we have designed and operate one cokemaking facility in Brazil under licensing and operating agreements on behalf of ArcelorMittal Brasil S.A. ("ArcelorMittal Brazil"), which has approximately 1.7 million tons of annual cokemaking capacity. We also hold a 49 percent investment in a cokemaking joint venture with VISA Steel Limited ("VISA Steel") in India called VISA SunCoke Limited ("VISA SunCoke"), which was fully impaired in 2015, and consequently, beginning in the fourth quarter of 2015, we no longer included our share of VISA SunCoke in our financial results.

Our cokemaking ovens utilize efficient, modern heat recovery technology designed to combust the coal's volatile components liberated during the cokemaking process and use the resulting heat to create steam or electricity for sale. This differs from by-product cokemaking, which repurposes the coal's liberated volatile components for other uses. We have constructed the only greenfield cokemaking facilities in the U.S. in more than 25 years and are the only North American coke producer that utilizes heat recovery technology in the cokemaking process. We provide steam pursuant to steam supply and purchase agreements with our customers. Electricity is sold into the regional power market or pursuant to energy sales agreements.

Our coal logistics business provides coal handling and/or mixing services to steel, coke (including some of our domestic cokemaking facilities), electric utility and coal mining customers. The coal logistics business has terminals in Indiana, West Virginia, Virginia, and Louisiana with collective capacity to mix and/or transload more than 40 million tons of coal annually and has total storage capacity of approximately 3 million tons.

Until April 2016, when the business was disposed of, we also controlled coal mining operations in Virginia and West Virginia. See Note 5.

Our consolidated financial statements include SunCoke Energy Partners, L.P. (the "Partnership"), a publicly-traded partnership. At December 31, 2016, we owned the general partner of the Partnership, which consists of a 2.0 percent ownership interest and incentive distribution rights ("IDRs"), and a 53.9 percent limited partner interest in the Partnership. The remaining 44.1 percent interest in the Partnership was held by public unitholders.

On October 31, 2016, the Company announced that it had submitted a proposal to the Board of Directors of the general partner of the Partnership to acquire all of the Partnership's common units not already owned by the Company ("Simplification Transaction"). The proposed transaction is to be structured as a merger of the Partnership with a wholly-owned subsidiary of the Company, and is subject to the negotiation and execution of definitive documents and approval of our Board of Directors and the Conflicts Committee of the Partnership's Board of Directors. The Conflicts Committee, which is composed of only the independent directors of the Board of Directors of the Partnership's general partner, is considering the proposal pursuant to applicable procedures established in the Partnership's partnership agreement and the Conflicts Committee's charter. The transaction also will require majority approval of our common stockholders. We own a majority of the Partnership's common units and intend to vote in favor of the transaction. The proposed Simplification Transaction is also conditioned upon receipt of customary regulatory approvals.

Incorporated in Delaware in 2010 and headquartered in Lisle, Illinois, we became a publicly-traded company in 2011, and our stock is listed on the New York Stock Exchange ("NYSE") under the symbol "SXC."

Consolidation and Basis of Presentation

The consolidated financial statements of the Company and its subsidiaries were prepared in accordance with accounting principles generally accepted in the U.S. ("GAAP") and include the assets, liabilities, revenues and

expenses of the Company and all subsidiaries where we have a controlling financial interest. Intercompany transactions and balances have been eliminated in consolidation. Net income attributable to noncontrolling interest represents the common public

unitholders' interest in SunCoke Energy Partners, L.P. as well as a 14.8 percent third-party interest in our Indiana Harbor cokemaking facility.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual amounts could differ from these estimates.

Reclassifications

Certain amounts in the prior period consolidated financial statements have been reclassified to conform to the current year presentation.

Revenue Recognition

The Company sells coke as well as steam and electricity and also provides coal mixing and/or handling services. The Company also receives fees for operating the cokemaking plant in Brazil and for the licensing of its proprietary technology for use at this facility as well as reimbursement of substantially all of its operating costs. Revenues related to the sale of products are recognized when title passes, while service revenues are recognized when services are provided as defined by customer contracts. Title passage generally occurs when products are shipped or delivered in accordance with the terms of the respective sales agreements. Revenues are not recognized until sales prices are fixed or determinable and collectability is reasonably assured. Licensing fees, which include an annual fixed fee and a fee determined on a per ton basis, are recognized when earned in accordance with the contract terms.

Substantially all of the coke produced by the Company is sold pursuant to long-term contracts with its customers. The Company evaluates each of its contracts to determine whether the arrangement contains a lease under the applicable accounting standards. If the specific facts and circumstances indicate that it is remote that parties other than the contracted customer will take more than a minor amount of the coke that will be produced by the property, plant and equipment during the term of the coke supply agreement, and the price that the customer is paying for the coke is neither contractually fixed per unit nor equal to the current market price per unit at the time of delivery, then the long-term contract is deemed to contain a lease. The lease component of the price of coke represents the rental payment for the use of the property, plant and equipment, and all such payments are accounted for as contingent rentals as they are only earned by the Company when the coke is delivered and title passes to the customer. The total amount of revenue recognized by the Company for these contingent rentals represents less than 10 percent of combined sales and other operating revenues for each of the years ended December 31, 2016, 2015 and 2014. The Company receives payment for shortfall obligations on certain Coal Logistics take-or-pay contracts. The payments in excess of services performed are recorded in deferred revenue on the Consolidated Balance Sheets. Deferred revenue on take-or-pay contracts is billed quarterly and recognized as income at the earlier of when service is provided or annually based on the terms of the contract.

Cash Equivalents

The Company considers all highly liquid investments with a remaining maturity of three months or less at the time of purchase to be cash equivalents. These cash equivalents consist principally of money market investments.

Inventories

Inventories are valued at the lower of cost or market. Cost is determined using the first-in, first-out method, except for the Company's materials and supplies inventory, which are determined using the average-cost method. The Company utilizes the selling prices under its long-term coke supply contracts to record lower of cost or market inventory adjustments.

Properties, Plants and Equipment

Plants and equipment are depreciated on a straight-line basis over their estimated useful lives. Coke and energy plant, machinery and equipment are generally depreciated over 25 to 30 years. Coal Logistics plant and equipment are generally depreciated over 15 to 35 years. Depreciation and amortization is excluded from cost of products sold and operating expenses and is presented separately on the Consolidated Statements of Operations. Gains and losses on the disposal or retirement of fixed assets are reflected in earnings when the assets are sold or retired. Amounts incurred that extend an asset's useful life, increase its productivity or add production capacity are capitalized. The Company

capitalized interest of \$5.0 million, \$3.7 million and \$3.2 million in 2016, 2015 and 2014, respectively. Direct costs, such as outside labor, materials,

internal payroll and benefits costs incurred during capital projects are capitalized; indirect costs are not capitalized. Normal repairs and maintenance costs are expensed as incurred.

Throughout the periods presented, we revised the estimated useful lives of certain assets in our Domestic Coke, Coal Logistics and Coal Mining segments. See Note 21.

Impairment of Long-Lived Assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. A long-lived asset, or group of assets, is considered to be impaired when the undiscounted net cash flows expected to be generated by the asset are less than its carrying amount. Such estimated future cash flows are highly subjective and are based on numerous assumptions about future operations and market conditions. The impairment recognized is the amount by which the carrying amount exceeds the fair market value of the impaired asset, or group of assets. It is also difficult to precisely estimate fair market value because quoted market prices for our long-lived assets may not be readily available. Therefore, fair market value is generally based on the present values of estimated future cash flows using discount rates commensurate with the risks associated with the assets being reviewed for impairment.

Cash flows at our Indiana Harbor facility were negative during 2016, driven by the oven rebuild project implemented to address coke oven degradation. Based on these results, we performed an impairment test in 2016 and concluded that our undiscounted cash flows were approximately 50 percent, or substantially in excess, of the carrying value of our long-lived assets at Indiana Harbor. However, we continue to closely monitor our performance at Indiana Harbor, and if our coke oven rebuild project does not stabilize production or if the project costs are significantly higher than expected, our current conclusion as to recoverability of assets at that location could change.

See Note 20 for discussion of impairments recorded during prior years.

Goodwill and Other Intangibles

Goodwill, which represents the excess of the purchase price over the fair value of net assets acquired, is tested for impairment as of October 1 of each year, or when events occur or circumstances change that would, more likely than not, reduce the fair value of a reporting unit to below its carrying value. The analysis of potential goodwill impairment employs a two-step process. The first step involves the estimation of fair value of our reporting units. If step one indicates that impairment of goodwill potentially exists, the second step is performed to measure the amount of impairment, if any. Goodwill impairment exists when the estimated implied fair value of goodwill is less than its carrying value. See Note 10 for further discussion on the Partnership's Coal Logistics step one goodwill impairment test. See Note 20 for further discussion on the coal mining goodwill impairment previously recorded in 2014. Intangible assets are primarily comprised of permits, customer contracts and customer relationships. Intangible assets are amortized over their useful lives in a manner that reflects the pattern in which the economic benefit of the intangible asset is consumed. Intangible assets are assessed for impairment when a triggering event occurs. See Note 10.

Investment in Brazilian Cokemaking Operations

On November 28, 2016, ArcelorMittal Brazil redeemed SunCoke's indirectly held preferred and common equity interest in Sol Coqueria Tubarão S.A. ("Brazil Investment"), previously accounted for at cost, for consideration of \$41.0 million. The Company received \$20.5 million in cash at closing and will receive the remaining \$20.5 million in cash, plus interest at an annual interest rate of 3 percent, in the second quarter of 2017. With the redemption, the Company no longer receives its \$9.5 million annual preferred dividend on its Brazil Investment from ArcelorMittal Brazil, previously included in other income, net on the Consolidated Statement of Operations. Additionally, starting in 2016, SunCoke will receive an incremental \$5.1 million in licensing fees per year through 2023 related to the addition of certain patents to its existing intellectual property licensing agreement, which are currently in use by ArcelorMittal Brazil at the Brazil facility. The Company also extended the life of its patents with the Brazilian authorities through 2033, providing opportunity to extend the existing licensing agreement beyond 2023. Licensing fees are included in sales and other operating revenue on the Consolidated Statement of Operations.

Income Taxes

Deferred tax asset and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those differences are projected to be recovered or settled.

The Company recognizes uncertain tax positions in its financial statements when minimum recognition threshold and measurement attributes are met in accordance with current accounting guidance. There were no uncertain tax positions at December 31, 2016, and 2015. See Note 7.

Black Lung Benefit Liabilities

We have obligations related to coal workers' pneumoconiosis, or black lung, benefits to certain of our employees and former employees (and their dependents). Such benefits are provided for under Title IV of the Federal Coal Mine Health and Safety Act of 1969 and subsequent amendments, as well as for black lung benefits provided in the states of Virginia, Kentucky and West Virginia pursuant to workers' compensation legislation. The Patient Protection and Affordable Care Act ("PPACA"), which was implemented in 2010, amended previous legislation related to coal workers' black lung obligations. PPACA provides for the automatic extension of awarded lifetime benefits to surviving spouses and changes the legal criteria used to assess and award claims. We act as a self-insurer for both state and federal black lung benefits and adjust our liability each year based upon actuarial calculations of our expected future payments for these benefits. See Note 15.

Postretirement Benefit Plan Liabilities

The postretirement benefit plans, which are frozen, are unfunded and the accumulated postretirement benefit obligation is fully recognized on the Consolidated Balance Sheets. Actuarial gains (losses) and prior service (benefits) costs which have not yet been recognized in net income are recognized as a credit (charge) to accumulated other comprehensive income (loss). The credit (charge) to accumulated other comprehensive income (loss), which is reflected net of related tax effects, is subsequently recognized in net income when amortized as a component of postretirement benefit plans expense included in selling, general and administrative expenses on the Consolidated Statement of Operations. In addition, the credit (charge) may also be recognized in net income as a result of a plan curtailment or settlement. See Note 12.

Asset Retirement Obligations

The fair value of a liability for an asset retirement obligation is recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the asset and depreciated over its remaining estimated useful life. The Company's asset retirement obligations primarily relate to costs associated with restoring land to its original state. See Note 11.

Shipping and Handling Costs

Shipping and handling costs are included in cost of products sold and operating expenses on the Consolidated Statements of Operations and are generally passed through to our customers.

Share-Based Compensation

We measure the cost of employee services in exchange for equity instrument awards and cash awards based on the grant-date fair value of the award. The cash awards and performance metrics of equity awards are remeasured on a quarterly basis. The market metrics of equity awards are not remeasured. The total cost is reduced by estimated forfeitures over the awards' vesting period, and the cost is recognized over the requisite service period. Forfeiture estimates are reviewed on an annual basis. The costs of equity awards and cash awards were recorded to additional paid-in capital and accrued liabilities, respectively, on the Consolidated Balance Sheets. See Note 18.

Fair Value Measurements

The Company determines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As required, the Company utilizes valuation techniques that maximize the use of observable inputs (levels 1 and 2) and minimize the use of unobservable inputs (level 3) within the fair value hierarchy included in current accounting guidance. The Company generally applies the "market approach" to determine fair value. This method uses pricing and other information generated by market transactions for identical or comparable assets and liabilities. Assets and liabilities are classified within the fair value hierarchy based on the lowest level (least observable) input that is significant to the measurement in its entirety. See Note 20.

Currency Translation

The functional currency of the Company's Brazilian operations and India joint venture are the Brazilian real and Indian rupee, respectively. The Company's foreign operations translate their assets and liabilities into U.S. dollars at the current exchange rates in effect at the end of the fiscal period. The gains or losses that result from this process are shown as cumulative translation adjustments within accumulated other comprehensive loss in the Consolidated Balance Sheets. The revenue and expense accounts of foreign operations are translated into U.S. dollars at the average exchange rates during the period and are included in our Consolidated Statements of Operations. The Company did not incur any material foreign currency transaction gains or losses during the periods presented.

Recently Issued Pronouncements

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)," which supersedes the revenue recognition requirements in "Revenue Recognition (Topic 605)," and requires entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Subsequently, the FASB has issued various ASUs to provide further clarification around certain aspects of ASC 606. This standard will be effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period, and early adoption is permitted on a limited basis. An implementation team has gained an understanding of the standard's revenue recognition model and is completing the analysis and documentation of our contract details for impacts under the new revenue recognition model. While we are currently evaluating the method of adoption and the impact of the provisions of this standard, we expect the timing of our revenue recognition to generally remain the same under the new standard on an annual basis. Deferred revenue at Convent Marine Terminal may be recognized on a more accelerated basis during quarterly periods within the year based on facts and circumstances considered at each quarter under the new guidance. The Company expects to adopt this standard on January 1, 2018 using the modified retrospective method.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)." ASU 2016-02 requires lessees to recognize assets and liabilities on the balance sheet for the rights and obligations created by all leases with terms of more than 12 months. It is effective for annual and interim periods in fiscal years beginning after December 15, 2018, with early adoption permitted. The standard requires the use of a modified retrospective transition method. A multi-disciplined implementation team has gained an understanding of the accounting and disclosure provisions of the standard and is in the process of analyzing the impacts to our business, including the development of new accounting processes to account for our leases and support the required disclosures. While we are still evaluating the impact of adopting this standard, we expect upon adoption the right-of-use assets and lease liabilities, such as various plant equipment rentals and the lease of our corporate office space, will increase the reported assets and liabilities on our Consolidated Balance Sheets. The Company expects to adopt this standard on January 1, 2019.

In March 2016, the FASB issued ASU 2016-09, "Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting." ASU 2016-09 simplifies the accounting for employee share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. It is effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods, with early adoption permitted. The Company anticipates electing to remove its forfeiture rate from the accrual of the compensation cost and to simply record forfeiture reversals as they occur. The Company will adopt this ASU using a modified retrospective transition method. The Company does not expect this ASU to materially impact its financial condition, results of operations, or cash flows.

In August 2016, FASB issued ASU 2016-15, "Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments." ASU 2016-15 adds or clarifies guidance on the classification of certain cash receipts and payments in the statement of cash flows. It is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted. The Company does not expect this ASU to materially impact its cash flows.

In November 2016, FASB issued ASU 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash." ASU 2016-18 required restricted cash to be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. It is effective for fiscal

years, and interim periods within those fiscal years, beginning after December 15, 2017, with early adoption permitted. The Company will adopt this ASU beginning in 2018 and will modify the Company's cash flow presentation to include restricted cash in cash and cash equivalents, the amounts of which are expected to be immaterial.

In January 2017, Financial Accounting Standards Board ("FASB") issued ASU 2017-04, "Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment." ASU 2017-04 addresses concerns over the cost and

complexity of the two-step goodwill impairment test, the amendments in this update remove the second step of the test. An entity will apply a one-step quantitative test and record the amount of goodwill impairment as the excess of a reporting unit's carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. The new guidance does not amend the optional qualitative assessment of goodwill impairment. It is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019, with early adoption permitted for interim and annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company has early adopted this ASU as of January 1, 2017.

Labor Concentrations

As of December 31, 2016, we have approximately 907 employees in the U.S. Approximately 38 percent of our domestic employees, principally at our cokemaking operations, are represented by the United Steelworkers union under various contracts. Additionally, approximately 3 percent of our domestic employees are represented by the International Union of Operating Engineers. The labor agreement at our Indiana Harbor cokemaking facility expired on September 1, 2015. Operations have continued under the expired contract with the renewal pending resolution of select key economic provisions. We do not anticipate any work stoppages during the continued negotiations. The labor agreement at our Gateway Energy and Coke Company, LLC ("Granite City") cokemaking facility will expire on August 31, 2017. We will negotiate the renewal of this agreement in 2017 and do not anticipate any work stoppages. As of December 31, 2016, we have approximately 267 employees at the cokemaking facility in Vitória, Brazil, all of whom are represented by a union under a labor agreement. In 2016, we reached a new one-year labor agreement at our Vitoria, Brazil facility which will expire on October 31, 2017. We will negotiate the renewal of this agreement in 2017 and do not anticipate any work stoppages.

3. Convent Marine Terminal Acquisition

On August 12, 2015, the Partnership completed the acquisition of a 100 percent ownership interest in Raven Energy LLC, which owns Convent Marine Terminal ("CMT"), for a total transaction value of \$403.1 million. The transaction value included \$191.7 million in cash paid by the Partnership, 4.8 million common units issued with an aggregate value of \$75.0 million to The Cline Group, \$114.9 million of debt assumed and \$21.5 million of cash withheld to fund capital expenditures.

The results of CMT have been included in the consolidated financial statements since the date of acquisition and are reported in the Coal Logistics segment. CMT contributed revenues of \$62.7 million and \$28.6 million and operating income of \$46.5 million and \$18.4 million during 2016 and 2015, respectively.

The following combined and consolidated results of operations were prepared using historical financial information of CMT and assumes that the acquisition of CMT occurred on January 1, 2014:

	Years Ended December 31,		
	2016	2015	2014
	(Audited)	(Unaudited pro forma)	
	(Dollars in millions)		
Total revenues	\$1,223.3	\$1,395.4	\$1,564.0
Net income (loss)	59.5	9.7	(81.1)
Net income (loss) attributable to SunCoke Energy, Inc.	14.4	(22.3)	(114.7)
Earnings (loss) attributable to SunCoke Energy, Inc. per common share:			
Basic	0.22	\$(0.34)	\$(1.67)
Diluted	0.22	\$(0.34)	\$(1.67)

The unaudited pro forma combined results of operations reflect historical results adjusted for interest expense, depreciation adjustments based on the fair value of acquired property, plant and equipment, amortization of acquired identifiable intangible assets, and income tax expense. The pro forma combined results do not include acquisition costs or new contracts. The unaudited pro forma combined and consolidated financial statements are presented for informational purposes only and do not necessarily reflect future results given the timing of new customer contracts, revenue recognition related to take-or-pay shortfalls, and other effects of integration, nor do they purport to be indicative of the results of operations that actually would have resulted had the acquisition of CMT occurred on

January 1, 2014 or future results.

4. Dropdown Transactions

Granite City Dropdowns

On January 13, 2015, the Company contributed a 75 percent interest in its Granite City cokemaking facility to the Partnership for a total transaction value of \$244.4 million (the "Granite City Dropdown"). The transaction value included \$148.3 million of debt and other liabilities assumed by the Partnership, \$50.1 million of Partnership common units issued, \$1.0 million of general partner interest issued to the Partnership's general partner and \$45.0 million of cash withheld to pre-fund our obligation to the Partnership for the anticipated costs of an environmental remediation project at Granite City. Subsequent to the Granite City Dropdown, we continued to own the general partner of the Partnership, which owns a 2 percent general partners interest and IDRs, and a 56.1 percent limited partner interest in the Partnership. The remaining 41.9 percent limited partner interest in the Partnership was held by public unitholders and was reflected as a noncontrolling interest in the consolidated financial statements.

On August 12, 2015, the Company contributed an additional 23 percent interest in Granite City to the Partnership for a total transaction value of \$65.2 million (the "Granite City Supplemental Dropdown"). The transaction value included \$46.9 million of debt and other liabilities assumed by the Partnership, \$17.9 million of Partnership common units issued and \$0.4 million of general partner interest issued to the Partnership's general partner. Subsequent to the Granite City Supplemental Dropdown and the units issued in connection with the acquisition of CMT, we continue to own the general partner of the Partnership, which owns a 2 percent general partner interest and IDRs, and owned a 53.4 percent limited partner interest in the Partnership. The remaining 44.6 percent limited partner interest in the Partnership was held by public unitholders and was reflected as a noncontrolling interest in the consolidated financial statements.

We accounted for the Granite City Dropdown and Granite City Supplemental Dropdown as equity transactions, which resulted in an increase in noncontrolling interest and a decrease in SunCoke Energy's equity of \$6.5 million and \$1.5 million, respectively, representing the Partnership's common public unitholders' share of the book value of ownership interest received of \$114.7 million, net of their share of the transaction value of \$106.7 million.

Haverhill and Middletown Dropdown

On May 9, 2014, SunCoke Energy contributed an additional 33 percent interest, for total partnership ownership interest of 98 percent, in the Haverhill Coke Company LLC ("Haverhill") and Middletown Coke Company, LLC ("Middletown") cokemaking facilities to the Partnership for a total transaction value of \$365.0 million (the "Haverhill and Middletown Dropdown"). The transaction value included \$271.3 million of debt and other liabilities assumed by the Partnership, \$80.0 million of Partnership common units issued, \$3.3 million of general partner interest issued to the Partnership's general partner and \$10.4 million of cash. After the Haverhill and Middletown Dropdown, SunCoke Energy continued to own the general partner of the Partnership, which owns a 2 percent general partner interest and IDRs, and decreased its limited partner interest in the Partnership from 55.9 percent to 54.1 percent. The remaining 43.9 percent interest in the Partnership was held by public unitholders and was reflected as a noncontrolling interest in the consolidated financial statements.

We accounted for the Haverhill and Middletown Dropdown as an equity transaction, which resulted in a decrease in noncontrolling interest and an increase in SunCoke Energy's equity of \$83.7 million during 2014, representing the Partnership's common public unitholders' share of consideration paid for the acquisition, net of their share of the book value of ownership interest received.

The table below summarizes the effects of the changes in the Company's ownership interest in Haverhill, Middletown and Granite City on SunCoke's equity:

	Years Ended	
	December 31,	2014
	2015	2014
	(Dollars in millions)	
Net loss attributable to SunCoke Energy, Inc.	\$ (22.0)	\$ (126.1)
Decrease in SunCoke Energy, Inc. equity for the contribution of 75 percent interest in Granite City	(6.5)	—
	(1.5)	—

Edgar Filing: Artisan Partners Asset Management Inc. - Form 10-Q

Decrease in SunCoke Energy, Inc. for the contribution of an additional 23 percent interest in Granite City		
Increase in SunCoke Energy, Inc. equity for the contribution of 33 percent interest in Haverhill and Middletown	—	83.7
Change from net loss attributable to SunCoke Energy, Inc. and dropdown transactions		\$(30.0) \$(42.4)

80

5. Coal Mining Business Divestiture

In April 2016, the Company completed the disposal of its coal mining business, included in the Coal Mining segment, to Revelation Energy, LLC ("Revelation"), which assumed substantially all of the Company's remaining coal mining assets, mineral leases, real estate and a substantial portion of our mining reclamation obligations. Under the terms of the agreement, Revelation received \$12.8 million from the Company to take ownership of the assets and liabilities. These cash payments were reflected as cash flows used in investing activities on the Consolidated Statements of Cash Flows.

During 2016, the Company recognized losses associated with this divestiture of \$14.7 million, which included a \$10.7 million asset impairment charge and transaction-related costs of \$1.1 million. These losses were recorded in loss on divestiture of business and impairments on the Consolidated Statements of Operations. Transaction-related costs of \$1.1 million were recorded as cash flows used in operating activities on the Consolidated Statements of Cash Flows. The Consolidated Balance Sheets as of December 31, 2015 have been reclassified to present the assets and liabilities associated with the divestiture of the coal mining business as held for sale. As of December 31, 2015, the Company had \$12.3 million of assets held for sale, which primarily consisted of \$11.4 million of properties, plants, and equipment, net, and \$6.8 million of liabilities held for sale, which included \$5.9 million of asset retirement obligations, and were disposed of with the divestiture in April 2016.

See Note 20 for discussion of impairment charges recorded during 2014 related to the coal mining business.

6. Customer Concentrations

In 2016, the Company sold approximately 4 million tons of coke under long-term take-or-pay contracts to its three primary Domestic Coke customers in the U.S.: AK Steel Corporation ("AK Steel"), ArcelorMittal S.A. and subsidiaries ("ArcelorMittal") and United States Steel Corporation ("U.S. Steel"). In addition, the licensing and operating fees are payable to the Company under long-term contracts with a Brazilian subsidiary of ArcelorMittal. The table below shows sales to the Company's significant customers for the years ended December 31, 2016, 2015 and 2014:

	Years ended December 31,		2015		2014	
	2016		2015		2014	
	Sales and other operating revenue	Percent of Company sales and other operating revenue	Sales and other operating revenue	Percent of Company sales and other operating revenue	Sales and other operating revenue	Percent of Company sales and other operating revenue
	(Dollars in millions)					
ArcelorMittal ⁽¹⁾	\$596.6	48.8 %	\$662.3	49.0 %	\$771.9	51.8 %
AK Steel ⁽²⁾	\$350.0	28.6 %	\$395.4	29.3 %	\$402.4	27.0 %
U.S. Steel ⁽³⁾	\$185.3	15.2 %	\$212.7	15.7 %	\$249.2	16.7 %

(1) Represents revenues included in our Domestic Coke and Brazil Coke segments.

(2) Represents revenues included in our Domestic Coke segment.

(3) Represents revenues included in our Domestic Coke and Coal Logistics segments.

Additionally, ArcelorMittal Brazil preferred dividends of \$9.5 million were recorded in other income, net on the Consolidated Statements of Operations during 2015 and 2014. With the investment redemption in 2016, the Company will no longer receive its annual preferred dividend. See Note 2.

Two of our coke customers, AK Steel and U.S. Steel, have temporarily idled portions of their Ashland Kentucky Works facility and Granite City Works facility, respectively. These temporary idlings do not change any obligations that AK Steel and/or U.S. Steel have under their long-term, take-or-pay contracts with us.

The Company generally does not require any collateral with respect to its receivables. At December 31, 2016, the Company's receivables balance was primarily due from ArcelorMittal, AK Steel and U.S. Steel. As a result, the Company experiences concentrations of credit risk in its receivables with these three customers. These concentrations of credit risk may be affected by changes in economic or other conditions affecting the steel industry.

The table below shows receivables due from the Company's three significant customers as of December 31, 2016 and 2015:

81

December
31,
2016 2015
(Dollars in
millions)

ArcelorMittal ⁽¹⁾	\$47.7	\$25.5
AK Steel ⁽²⁾	\$10.7	\$14.8
U.S. Steel ⁽²⁾	\$5.7	\$5.9

(1) The 2016 receivables due includes the \$20.5 million receivable recorded as redemption of Brazil investment on the Consolidated Balance Sheet. The remaining receivables due are included in receivables on the Consolidated Balance Sheet. Also included in receivables at December 31, 2015, was a \$9.5 million preferred dividend from ArcelorMittal Brazil.

(2) Included in receivables on the Consolidated Balance Sheet.

Our Coal Logistics segment provides coal handling and storage services to Murray American Coal ("Murray") and Foresight Energy LP ("Foresight"), who are the two primary customers in the Coal Logistics segment and related parties of The Cline Group, a beneficial owner of the Partnership. Sales to Murray and Foresight accounted for \$53.5 million, or 4.4 percent, and \$22.0 million, or 1.6 percent of the Company's sales and other operating revenue and were recorded in the Coal Logistics segment for the years ended December 31, 2016 and 2015, respectively, representing 49.6 percent and 27.1 percent of Coal Logistics revenue, including intersegment sales, in 2016 and 2015, respectively. Receivables from Murray and Foresight were \$8.0 million and \$7.2 million and were recorded in receivables on the Consolidated Balance Sheets at December 31, 2016 and 2015, respectively.

7. Income Taxes

The components of income (loss) before income tax expense (benefit) and loss from equity method investment are as follows:

	Years Ended December 31,		
	2016	2015	2014
	(Dollars in millions)		
Domestic	\$52.5	\$8.6	\$(137.0)
Foreign	15.6	14.5	11.4
Total	\$68.1	\$23.1	\$(125.6)

The components of income tax expense (benefit) are as follows:

	Years Ended December 31,		
	2016	2015	2014
	(Dollars in millions)		
Income taxes currently payable (receivable):			
U.S. federal	\$2.7	\$(3.1)	\$3.6
State	(2.2)	(3.3)	(1.0)
Foreign	5.0	3.2	3.0
Total taxes currently payable (receivable)	5.5	(3.2)	5.6

Deferred tax expense (benefit):

U.S. federal	(1.5)	(12.7)	(58.1)
State	4.6	7.1	(6.3)
Total deferred tax expense (benefit)	3.1	(5.6)	(64.4)
Total	\$8.6	\$(8.8)	\$(58.8)

The reconciliation of the income tax expense (benefit) at the U.S. statutory rate to the income tax expense (benefit) is as follows:

	Years Ended December 31,					
	2016		2015		2014	
	(Dollars in millions)					
Income tax expense (benefit) at 35 percent U.S. statutory rate	\$23.8	35.0 %	\$8.0	35.0 %	\$(43.9)	35.0 %
Increase (reduction) in income taxes resulting from:						
Income attributable to noncontrolling interests ⁽¹⁾	(15.6)	(23.0)%	(11.2)	(48.3)%	(8.7)	6.9 %
State and other income taxes, net of federal income tax effects	1.1	1.7 %	1.8	7.7 %	(5.6)	4.5 %
Change in valuation allowance ⁽²⁾	0.4	0.6 %	(8.8)	(38.0)%	11.2	(9.1)%
Impact of tax sharing agreement	—	— %	—	— %	(0.7)	0.6 %
Investment in subsidiary ⁽²⁾	—	— %	1.0	4.4 %	(11.9)	9.5 %
Coal impairment	—	— %	—	— %	2.4	(1.9)%
Prior year adjustment	(0.2)	(0.4)%	—	— %	(1.1)	0.9 %
Other	(0.9)	(1.2)%	0.4	1.2 %	(0.5)	0.4 %
	\$8.6	12.7 %	\$(8.8)	(38.0)%	\$(58.8)	46.8 %

(1) No income tax expense is reflected in the Consolidated Statements of Operations for partnership income attributable to noncontrolling interests.

On December 22, 2014, SunCoke executed a definitive agreement to sell 100 percent of its interest in the entities that made up the Harold Keene Coal Companies. This required SunCoke to record a deferred tax asset of \$11.9 million related to the outside basis difference on the Harold Keene investment. This deferred tax asset was offset by a \$9.8 million valuation allowance. SunCoke canceled the definitive agreement during the third quarter of 2015.

(2) Due to the cancellation of the agreement, the deferred tax asset and the valuation allowance recorded during 2014 were reversed during 2015. The reversal of the deferred tax asset during 2015 was largely offset by a related current income tax deduction due to the determination of insolvency of the subsidiary, resulting in the net income tax benefit of \$1.0 million in the investment in subsidiary line. The actual sale of the coal business, which was completed in the second quarter of 2016, had no material impact on the effective tax rate.

The tax effects of temporary differences that comprise the net deferred income tax liability from operations are as follows:

	December 31,	
	2016	2015
	(Dollars in millions)	
Deferred tax assets:		
Retirement benefit liabilities	\$12.2	\$13.4
Black lung benefit liabilities	18.9	19.4
Share-based compensation	8.6	8.4
Federal tax credit carryforward ⁽¹⁾	23.2	23.0
Foreign tax credit carryforward ⁽²⁾	14.0	8.9
Federal net operating loss ⁽³⁾	17.2	8.2
State tax credit carryforward, net of federal income tax effects ⁽⁴⁾	5.5	6.4
State net operating loss carryforward, net of federal income tax effects ⁽⁵⁾	8.4	7.4
Other liabilities not yet deductible	7.8	12.0
Properties, plants and equipment	—	12.0
Total deferred tax assets	115.8	119.1
Less valuation allowance ⁽⁶⁾	(5.9)	(5.8)
Deferred tax asset, net	109.9	113.3
Deferred tax liabilities:		
Properties, plants and equipment	(0.3)	—
Investment in partnerships	(462.1)	(462.3)
Total deferred tax liabilities	(462.4)	(462.3)
Net deferred tax liability	\$(352.5)	\$(349.0)

(1) Federal tax credit carryforward expires in 2032 through 2033.

(2) Foreign tax credit carryforward expires in 2022 through 2025.

(3) Federal net operating loss expires in 2035.

(4) State tax credit carryforward, net of federal income tax effects expires in 2017 through 2020.

(5) State net operating loss carryforward, net of federal income tax effects expires in 2017 through 2035.

(6) Primarily related to state tax credit carryforward and state net operating loss carryforward.

State and foreign income tax returns are generally subject to examination for a period of three to five years after the filing of the respective returns. The state impact of any amended federal returns remains subject to examination by various states for a period of up to one year after formal notification of such amendments to the states.

SunCoke Energy Partners LP received a "No Adjustments" letter from the Internal Revenue Service ("IRS") dated December 16, 2016 related to the examination for the tax year ended December 31, 2013. The statute of limitations for the tax year ended December 31, 2013 remains open to examination through September 15, 2017.

In January 2017, the IRS announced its decision to exclude cokemaking as a qualifying income generating activity. Subsequent to the 10-year transition period, certain cokemaking entities in the Partnership will become taxable as corporations. See Note 24.

There were no uncertain tax positions at December 31, 2016, and 2015 and there were no interest or penalties recognized during the years ended December 31, 2016, 2015 and 2014. The Company does not expect that any unrecognized tax benefits pertaining to income tax matters will be required in the next twelve months.

Tax Sharing Agreement with Sunoco, Inc. ("Sunoco")

On July 18, 2011, SunCoke Energy and Sunoco entered into a new tax sharing agreement that governs the parties' respective rights, responsibilities and obligations with respect to tax liabilities and benefits, tax attributes, the preparation and filing of tax returns, the control of audits and other tax proceedings and other matters regarding taxes. SunCoke Energy is generally not entitled to receive payment from Sunoco in respect of any of SunCoke Energy's tax attributes or tax benefits or any reduction of taxes of Sunoco. Moreover, Sunoco is generally entitled to refunds of income taxes with respect to periods ending at or prior to the distribution. If SunCoke Energy realizes any refund, credit or other reduction in otherwise required tax payments in any period beginning after the distribution date as a result of an audit adjustment resulting in taxes for which Sunoco would otherwise be responsible, then, subject to certain exceptions, SunCoke Energy must pay Sunoco the amount of any such taxes for which Sunoco would otherwise be responsible. Further, if any taxes are imposed on Sunoco as a result of a reduction in SunCoke Energy's tax attributes for a period ending at or prior to the distribution date pursuant to an audit adjustment (relative to the amount of such tax attribute reflected on Sunoco's tax return as originally filed), then, subject to certain exceptions, SunCoke Energy is generally responsible to pay Sunoco the amount of any such taxes.

SunCoke Energy has also agreed to certain restrictions that are intended to preserve the tax-free status of the contribution and the distribution. These covenants include restrictions on SunCoke Energy's issuance or sale of stock or other securities (including securities convertible into our stock but excluding certain compensatory arrangements), and sales of assets outside the ordinary course of business and entering into any other corporate transaction which would cause SunCoke Energy to undergo a 50 percent or greater change in its stock ownership. Certain key restrictions expired on January 18, 2014.

SunCoke Energy has generally agreed to indemnify Sunoco and its affiliates against any and all tax-related liabilities incurred by them relating to the contribution or the Distribution to the extent caused by an acquisition of SunCoke Energy's stock or assets, or other of its actions. This indemnification applies even if Sunoco has permitted SunCoke Energy to take an action that would otherwise have been prohibited under the tax-related covenants as described above.

Sunoco's consolidated federal income tax returns have been examined by the IRS for all years through the year ended October 4, 2012, the last year for which SunCoke was included on a Sunoco consolidated federal income tax return. Specifically related to SunCoke, the Sunoco consolidated federal income tax returns for all tax years between the years ended December 31, 2007 and October 4, 2012 remain open. Sunoco combined state income tax returns which specifically include SunCoke entities remain open for the years ended December 31, 2009 through October 4, 2012. SunCoke is currently open to examination by the IRS for the tax years ended December 31, 2012 and forward. As of December 31, 2016, SunCoke Energy estimates that all tax benefits have been settled under the provisions of the tax sharing agreement. SunCoke Energy will continue to monitor the full utilization of all tax attributes when the respective tax returns are filed and will, consistent with the terms of the tax sharing agreement, record additional adjustments through earnings when necessary.

8. Inventories

The Company's inventory consists of metallurgical coal, which is the principal raw material for the Company's cokemaking operations, coke, which is the finished good sold by the Company to its customers, and materials, supplies and other. These components of inventories were as follows:

	December 31,	
	2016	2015
	(Dollars in millions)	
Coal	\$49.4	\$76.5
Coke	7.7	8.8
Materials, supplies and other	35.4	36.5
Total inventories	\$92.5	\$121.8

9. Properties, Plants, and Equipment, Net

The components of net properties, plants and equipment were as follows:

	December 31,	
	2016	2015
	(Dollars in millions)	
Coke and energy plant, machinery and equipment ⁽¹⁾	\$1,767.1	\$1,715.3
Coal logistics plant, machinery and equipment	214.4	159.4
Land and land improvements	118.7	125.8
Mining ⁽²⁾	—	36.3
Construction-in-progress	33.4	106.1
Other	34.9	29.3
Gross investment, at cost	2,168.5	2,172.2
Less: Accumulated depreciation ⁽²⁾	(625.9)	(590.2)
Total properties, plants and equipment, net	\$1,542.6	\$1,582.0

(1) Includes assets, consisting mainly of coke and energy plant, machinery and equipment, with a gross investment totaling \$1,281.5 million and \$1,278.3 million and accumulated depreciation of \$410.4 million and \$371.7 million at December 31, 2016 and December 31, 2015, respectively, which are subject to long-term contracts to sell coke and are deemed to contain operating leases.

(2) The net book value of our coal mining assets was \$1.7 million at December 31, 2015.

10. Goodwill and Other Intangible Assets

Goodwill allocated to SunCoke's reportable segments as of December 31, 2016 and 2015 and changes in the carrying amount of goodwill during the fiscal years ended December 31, 2016 and 2015 are as follows:

	Domestic	Coal	Total
	Coke	Logistics	
	(Dollars in millions)		
Net balance at December 31, 2014	\$3.4	\$ 8.2	\$11.6
Goodwill acquired during the period ⁽¹⁾	—	59.5	59.5
Net balance at December 31, 2015	\$3.4	\$ 67.7	\$71.1
Adjustments ⁽²⁾	—	5.8	5.8
Net balance at December 31, 2016	\$3.4	\$ 73.5	\$76.9

(1) The Company acquired CMT during 2015 for total consideration of \$403.1 million, of which \$59.5 million was allocated to goodwill, representing the value of additional capacity and potential for future additional throughput.

(2) During 2016, an adjustment to the acquisition date fair value of the contingent consideration liability increased the amount of the purchase price allocated to goodwill by \$6.4 million. Additionally, a working capital adjustment to the acquisition date fair value of the acquired net assets decreased the amount of the purchase price allocated to goodwill by \$0.6 million.

The Company performed its annual goodwill impairment test as of October 1, 2016, with no indication of impairment. The fair value of the Coal Logistics reporting unit, which was determined based on a discounted cash flow analysis, exceeded the carrying value of the reporting unit by approximately 6 percent. A significant portion of our coal logistics business holds long-term, take-or-pay contracts with Murray and Foresight. Key assumptions in our goodwill impairment test include continued customer performance against long-term, take-or-pay contracts, renewal of future long-term, take-or-pay contracts, incremental merchant business and an 18 percent discount rate representing the estimated weighted average cost of capital for this business line. The use of different assumptions, estimates or judgments, such as the estimated future cash flows of Coal Logistics and the discount rate used to discount such cash flows, could significantly impact the estimated fair value of a reporting unit, and therefore, impact the excess fair value above carrying value of the reporting unit. A 100 basis point change in the discount rate would not have reduced the fair value of the reporting unit below its carrying value. To the extent changes in factors or circumstances occur that impact our future cash flow projections, such as a loss of either Murray or

Foresight as customers, significant reductions in volume or pricing beyond our existing contract term or lower incremental merchant business, future assessments of goodwill and intangible assets may result in material impairment charges.

The following table summarizes the components of gross and net intangible asset balances as of December 31, 2016 and December 31, 2015:

	Weighted - Average Remaining Amortization Years	December 31, 2016			December 31, 2015		
		Gross Carrying Amount	Accumulated Amortization	Net	Gross Carrying Amount	Accumulated Amortization	Net
(Dollars in millions)							
Customer contracts	6	\$31.7	\$ 9.9	\$21.8	\$31.7	\$ 6.1	\$25.6
Customer relationships	14	28.7	3.8	24.9	28.7	1.8	26.9
Permits	26	139.0	7.1	131.9	139.0	1.9	137.1
Trade name	2	1.2	0.8	0.4	1.2	0.6	0.6
Total		\$200.6	\$ 21.6	\$179.0	\$200.6	\$ 10.4	\$190.2

The permits above represent the environmental and operational permits required to operate a coal export terminal in accordance with the United States Environmental Protection Agency and other regulatory bodies. Intangible assets are amortized over their useful lives in a manner that reflects the pattern in which the economic benefit of the asset is consumed. The permits' useful lives were estimated to be 27 years at acquisition based on the expected useful life of the significant operating equipment at the facility. These permits have an average remaining renewal term of approximately 3.4 years. The permits were renewed regularly prior to our acquisition of CMT. We also have historical experience of renewing and extending similar arrangements at our other facilities and intend to continue to renew our permits as they come up for renewal for the foreseeable future.

Total amortization expense for intangible assets subject to amortization was \$11.2 million, \$5.1 million and \$1.5 million for the years ended December 31, 2016, 2015 and 2014, respectively. Based on the carrying value of finite-lived intangible assets as of December 31, 2016, we estimate amortization expense for each of the next five years as follows:

	(Dollars in millions)
2017	\$ 11.1
2018	11.0
2019	10.9
2020	10.7
2021	10.3
Thereafter	125.0
Total	\$ 179.0

11. Asset Retirement Obligations

The Company has asset retirement obligations, primarily in the Domestic Coke segment, related to certain contractual obligations, mostly related to costs associated with restoring land to its original state, and may require the retirement and removal of long-lived assets from certain cokemaking properties as well as other reclamation obligations related to our former coal mining business. The Federal Surface Mining Control and Reclamation Act of 1977 and similar state statutes require that mine property be restored in accordance with specified standards and an approved reclamation plan. We do not have any unrecorded asset retirement obligations.

The following table provides a reconciliation of changes in the asset retirement obligation from operations during each period:

	(Dollars in millions)
Balance at January 1, 2015	\$ 22.2
Liabilities settled	(2.1)
Accretion expense ⁽¹⁾	1.4
Revisions in estimated cash flows	0.7
Balance at December 31, 2015 ⁽²⁾	\$ 22.2
Liabilities settled	(0.7)
Accretion expense ⁽¹⁾	1.1
Disposal of coal mining liabilities ⁽³⁾	(9.4)
Revisions in estimated cash flows	0.7
Balance at December 31, 2016	\$ 13.9

(1) Included in cost of products sold and operating expenses on the Consolidated Statements of Operations.

(2) Includes \$5.9 million of asset retirement obligations reclassified as held for sale on our Consolidated Balance Sheets as of December 31, 2015.

(3) In 2016, the Company completed the disposal of its coal mining business to Revelation who assumed a substantial portion of our mining reclamation obligations.

12. Retirement Benefits Plans

Defined Benefit Pension Plan and Postretirement Health Care and Life Insurance Plans

The Company had a noncontributory defined benefit pension plan (“defined benefit plan”), which provided retirement benefits for certain of its employees. Effective January 1, 2011, pension benefits under the Company’s defined benefit plan were frozen for all participants in this plan. Effective May 30, 2014, Dominion Coal Corporation, a wholly-owned subsidiary of the Company, terminated its defined benefit plan, a plan that was previously offered generally to all full-time employees of Dominion Coal Corporation. Subsequently, the Company obtained IRS approval for the plan termination and executed an agreement with a high-quality insurance company to annuitize the pension plan using plan assets. As a result of the termination of the Dominion Coal defined benefit plan, each participant became fully vested in his or her benefits thereunder without regard to age and years of service.

As a result of the pension termination, unrecognized losses, which previously were recorded in accumulated other comprehensive loss on the Consolidated Balance Sheets, were recognized as expense. The net settlement loss of \$12.6 million was recorded in cost of products sold and operating expenses on the Consolidated Statements of Operations during 2015. At December 31, 2016, there are no remaining benefit obligations or plan assets related to the defined benefit pension plan.

The Company also has plans which provide health care and life insurance benefits for many of its retirees (“postretirement benefit plans”). The postretirement benefit plans are unfunded and the costs are borne by the Company. The Company amended its postretirement benefit plans during the first quarter of 2010. Effective January 1, 2011, postretirement medical benefits for future retirees were phased out or eliminated for non-mining employees with less than ten years of service. Employer costs for all those still eligible for such benefits were capped. The termination of coal mining employees triggered a curtailment gain of \$4.1 million and \$2.5 million in 2015 and 2014, respectively,

which represented accelerated amortization of prior service credits previously recorded in accumulated other comprehensive income.

Defined benefit plan expense (benefit) consisted of the following components:

	Years Ended December 31,	
	2016	2015
	(Dollars in millions)	
Interest cost on benefit obligations	\$ —	\$ 0.7
Expected return on plan assets	(0.7)	(1.8)
Settlement loss	12.6	—
Amortization of:		
Actuarial losses	0.5	0.5
Total expense (benefit)	\$ —	\$ 13.1

Postretirement benefit plans expense (benefit) consisted of the following components:

	Years Ended December 31,		
	2016	2015	2014
	(Dollars in millions)		
Service cost	\$ —	\$ —	\$ 0.2
Interest cost on benefit obligations	1.3	1.3	1.5
Amortization of:			
Actuarial losses	0.7	0.8	0.9
Prior service benefit	(0.7)	(1.2)	(5.6)
Curtailement gain	—	(4.1)	(2.5)
Total expense (benefit)	\$ 1.3	\$ (3.2)	\$ (5.5)

Amortization of actuarial losses and prior service benefit for 2017 is estimated to be \$0.9 million and \$0.7 million, respectively, for the postretirement benefit plans.

Defined benefit plan and postretirement benefit plans expense (benefit) is determined using actuarial assumptions as of the beginning of the year or using weighted-average assumptions when curtailments, settlements and/or other events require a plan remeasurement. The following assumptions were used to determine defined benefit plan and postretirement benefit plans expense (benefit):

	Defined Benefit Plan		Postretirement Benefit Plans			
	2016	2015	2014	2016	2015	2014
Discount Rate	%	%	4.55%	3.80 %	3.45 %	4.15 %
Long-term expected rate of return on plan assets	%	%	4.90%	— %	— %	— %

The long-term expected rate of return on plan assets was estimated based on a variety of factors, including the historical investment return achieved over a long-term period, the targeted allocation of plan assets and expectations concerning future returns in the marketplace for fixed income securities.

The following amounts were recognized as components of other comprehensive income (loss) for the years ended December 31, 2016, 2015 and 2014:

	Years Ended December 31,				
	Defined Benefit Plan		Postretirement Benefit Plans		
	2016	2015	2016	2015	2014
	(Dollars in millions)				
Reclassifications to earnings of:					
Actuarial loss amortization	\$ -0.5	\$ 0.5	\$ 0.7	\$ 0.8	\$ 0.9
Prior service benefit amortization	—	—	(0.7)	(1.2)	(5.6)
Curtailment gain	—	—	—	(4.1)	(2.5)
Settlement loss	—12.6	—	—	—	—
Retirement benefit plan funded status adjustments:					
Actuarial gains (losses)	—0.9	(3.9)	(1.8)	(1.4)	0.2
Prior service (cost) benefit ⁽¹⁾	—	(0.5)	1.5	—	—
	\$ -14.0	\$(3.9)	\$ (0.3)	\$ (5.9)	\$ (7.0)

(1) Effective January 1, 2017, a plan change occurred resulting in Medicare-eligible disabled participants transitioning from a Company-sponsored group medical plan to a federal health care exchange plan. The Company will provide a subsidy to these participants of \$3,600 per participant per year. The plan change resulted in a decrease in the benefit obligation of \$1.5 million during 2016.

The following tables set forth the components of the changes in benefit obligations and fair value of plan assets during 2016 and 2015, as well as the funded status at December 31, 2016 and 2015:

	Years Ended December 31,		
	Defined Benefit Plan	Postretirement Benefit Plans	
	2016	2016	2015
	(Dollars in millions)		
Benefit obligations at beginning of year ⁽¹⁾	\$ -39.9	\$ 34.8	\$ 37.1
Service cost	—	—	—
Interest cost	—0.7	1.3	1.3
Actuarial (gains) losses	—(2.5)	1.8	1.4
Plan amendments ⁽²⁾	—	(1.5)	—
Curtailments	—	—	—
Benefits paid	—(1.5)	(4.1)	(5.0)
Settlement of obligation	—(36.6)	—	—
Benefit obligations at end of year ⁽¹⁾	\$ —	\$ 32.3	\$ 34.8
Fair value of plan assets at beginning of year	\$ -39.8		
Actual (loss) income on plan assets	—(1.0)		
Benefits paid from plan assets	—(1.5)		
Settlement of obligation	—(36.6)		
Transfer to defined contribution plan	—(0.7)		
Fair value of plan assets at end of year	\$ —		
Net liability at end of year ⁽³⁾	\$ —	\$(32.3)	\$(34.8)

(1) Represents both the accumulated benefit obligation and the projected benefit obligation for the defined benefit plan and the accumulated postretirement benefit obligations for the postretirement benefit plans.

Effective January 1, 2017, a plan change occurred resulting in Medicare-eligible disabled participants transitioning from a Company-sponsored group medical plan to a federal health care exchange plan. The Company will provide a subsidy to these participants of \$3,600 per participant per year. The plan change resulted in a decrease in the benefit obligation of \$1.5 million during 2016.

(3) Represents retirement benefit assets (liabilities), including current portion, on the Consolidated Balance Sheets. The current portion of retirement liabilities, which totaled \$3.3 million and \$3.5 million at December 31, 2016 and 2015, respectively, is classified in accrued liabilities on the Consolidated Balance Sheets.

The following table sets forth the cumulative amounts not yet recognized in net income (loss) at December 31, 2016 and 2015:

	Postretirement Benefit Plans	
	2016	2015
	(Dollars in millions)	
Cumulative amounts not yet recognized in net income (loss):		
Actuarial losses	\$11.6	\$10.6
Prior service costs (benefits)	(4.1)	(3.1)
Accumulated other comprehensive loss (before related tax benefit)	\$7.5	\$7.5

The expected benefit payments through 2026 for the postretirement benefit plan are as follows:

	Postretirement Benefit Plans	
	(Dollars in millions)	
Year ending December 31:		
2017	\$	3.3
2018		3.1
2019		3.0
2020		2.8
2021		2.7
2022 through 2026		10.8

The measurement date for the Company's postretirement benefit plans is December 31. The following discount rates were used to determine the benefit obligation at December 31, 2016 and 2015, respectively (in percentages):

	Postretirement Benefit Plans	
	2016	2015
Discount rate	3.65 %	3.80 %

The health care cost trend assumption used at December 31, 2016, to compute the accumulated postretirement benefit obligation for the postretirement benefit plans was 6.50 percent (7.00 percent at December 31, 2015), which is assumed to decline gradually to 5.00 percent in 2023 and to remain at that level thereafter. A one-percentage point change each year in assumed health care cost trend rates would have an impact of less than \$0.1 million on the total of service and interest cost components of postretirement benefits expense and the accumulated postretirement benefit obligation as of December 31, 2016 and 2015.

Defined Contribution Plans

The Company has defined contribution plans which provide retirement benefits for certain of its employees. The Company's contributions, which are principally based on the Company's pretax income and the aggregate compensation levels of participating employees and are charged against income as incurred, amounted to \$5.6 million, \$6.5 million and \$8.0 million for the years ended December 31, 2016, 2015 and 2014, respectively.

13. Accrued Liabilities

Accrued liabilities consist of following:

	December 31,	
	2016	2015
	(Dollars in millions)	
Accrued benefits	\$ 21.4	\$ 16.8
Current portion of postretirement benefit obligation	3.3	3.5
Other taxes payable	10.4	8.4
Accrued restructuring	1.2	4.7
Current portion of black lung liability	4.8	5.2
Accrued legal	4.4	1.9
Other	4.3	2.4
Total accrued liabilities	\$ 49.8	\$ 42.9

14. Debt and Financing Obligation

Total debt consisted of the following:

	December 31,	
	2016	2015
	(Dollars in millions)	
7.625 percent senior notes, due 2019 ("Notes")	\$44.6	\$44.6
SunCoke's revolving credit facility, due 2018 ("Revolving Facility")	—	60.4
7.375 percent senior notes, due 2020 ("Partnership Notes")	463.0	552.5
Partnership's revolving credit facility, due 2019 ("Partnership Revolver")	172.0	182.0
Partnership promissory note payable, due 2021 ("Promissory Note")	113.2	114.3
Partnership's Term Loan, due 2019 ("Partnership Term Loan")	50.0	50.0
5.82 percent financing obligation, due 2021 ("Partnership Financing Obligation")	15.2	—
Total Borrowings	\$858.0	\$1,003.8
Original issue premium	7.5	12.1
Debt issuance costs	(11.4)	(17.1)
Total debt and financing obligation	854.1	998.8
Less: current portion of long-term debt and financing obligation	4.9	1.1
Total long-term debt and financing obligation	\$849.2	\$997.7

Senior Notes

The Notes are the Company's senior unsecured obligations and are guaranteed on a senior unsecured basis by each of the Company's existing and future subsidiaries that guarantees the Company's credit facilities. The Partnership Notes are guaranteed on a senior unsecured basis by each of the Partnership's existing and certain future subsidiaries. The Company and the Partnership may redeem some or all of their notes at specified redemption prices. If the Company or the Partnership sells certain of its assets or experiences specific kinds of changes in control, subject to certain exceptions, the Company or the Partnership must offer to purchase their notes.

During 2016, the Partnership repurchased \$89.5 million face value of outstanding Partnership Notes for \$65.0 million of cash payments, resulting in a gain on debt extinguishment of \$25.0 million during 2016.

Revolving Facility

The Company's credit facility allows for maximum borrowing capacity under the credit agreement of \$150 million. The proceeds of any borrowings made under the Revolving Facility can be used to finance capital expenditures, acquisitions, working capital needs and for other general corporate purposes. The obligations under the credit agreement are guaranteed by certain of the Company's subsidiaries and secured by liens on substantially all of the Company's and the guarantors' assets pursuant to a guarantee and collateral agreement.

During 2016, the Company repaid \$60.4 million on the Revolving Facility. As of December 31, 2016, the Revolving Facility had letters of credit outstanding of \$30.7 million and no outstanding balance, leaving \$119.3 million available subject to the terms of the Credit Agreement. Commitment fees are based on the unused portion of the Revolving Facility at a rate of 0.35 percent.

In February 2017, the Company extended the maturity of the revolver to December 2018 and reduced its Revolver capacity by \$25.0 million to \$125.0 million.

Borrowings under the Revolving Facility bear interest, at SunCoke Energy's option, at either (i) a base rate plus an applicable margin or (ii) LIBOR plus an applicable margin. The applicable margin is based on the Company's consolidated leverage ratio, as defined in the Credit Agreement. The weighted-average interest rate for borrowings outstanding under the Credit Agreement was 2.8 percent and 2.3 percent during 2016 and 2015, respectively.

Partnership Revolver

The Partnership Revolver provides total aggregate commitments from lenders of \$250.0 million and up to \$100.0 million uncommitted incremental revolving capacity. The obligations under the Partnership Revolver are guaranteed by the Partnership's subsidiaries and secured by liens on substantially all of the Partnership's and the guarantors' assets. During 2016, the Partnership made net repayments of \$10.0 million on the Partnership Revolver. At December 31, 2016, the Partnership Revolver had letters of credit outstanding of \$1.4 million and an outstanding balance of \$172.0 million, leaving \$76.6 million available. Commitment fees are based on the unused portion of the Partnership Revolver at a rate of 0.40 percent.

The Partnership Revolver borrowings bear interest at a variable rate of LIBOR plus 250 basis points or an alternative base rate plus 150 basis points, based on the Partnership's consolidated leverage ratio as defined by the Partnership's credit agreement. The spread is subject to change based on the Partnership's consolidated leverage ratio, as defined in the credit agreement. The weighted-average interest rate for borrowings under the Partnership Revolver was 3.3 percent and 2.9 percent during 2016 and 2015, respectively.

Promissory Note

In connection with the acquisition of CMT in 2015, the Partnership assumed Raven Energy LLC's promissory note with a subsidiary of The Cline Group as the lender. The Promissory Note shall bear interest at a rate of 6.0 percent until August 12, 2018. After August 12, 2018, that rate shall be the LIBOR for the interest period then in effect plus 4.5 percent. The Partnership repaid \$1.1 million of the Promissory Note during 2016. The obligations under the Promissory Note are guaranteed by the Partnership.

Partnership Term Loan

The obligations under the Partnership Term Loan are guaranteed by the Partnership's subsidiaries and secured by liens on substantially all of the Partnership's and the guarantors' assets. The Partnership Term Loan bears interest at a variable rate of LIBOR plus 250 basis points or an alternative base rate plus 150 basis points, based on the Partnership's consolidated leverage ratio as defined by the Partnership's credit agreement. The spread is subject to change based on the Partnership's consolidated leverage ratio, as defined in the credit agreement. The weighted-average interest rate for borrowings under the Partnership Term Loan was 3.2 percent and 2.9 percent during 2016 and 2015, respectively.

Partnership Financing Obligation

On July 22, 2016, the Partnership entered into a sale-leaseback arrangement of certain coke and coal logistics equipment for total proceeds of \$16.2 million. The leaseback agreement has an initial lease period of 60 months, with an effective interest rate of 5.82 percent and an early buyout option after 48 months to purchase the equipment at 34.5 percent of the original lease equipment cost. The arrangement is accounted for as a financing transaction, resulting in a financing obligation on the Consolidated Balance Sheets. The Partnership incurred \$0.2 million of debt issuance costs

and repaid \$1.0 million of the financing obligation during 2016. The financing obligation is guaranteed by the Partnership.

Covenants

Under the terms of the Company's credit agreement, the Company is subject to a maximum consolidated leverage ratio of 3.25 to 1.00 and a minimum consolidated interest coverage ratio of 2.75 to 1.00. Under the terms of the Partnership's credit agreement, the Partnership is subject to a maximum consolidated leverage ratio of 4.50 to 1.00 and a minimum consolidated interest coverage ratio of 2.50 to 1.00. The Company and Partnership's credit agreement contains other covenants and events of default that are customary for similar agreements and may limit our ability to take various actions including our ability to pay a dividend or repurchase our stock.

Under the terms of the Promissory Note, Raven Energy LLC, a wholly-owned subsidiary of the Partnership, is subject to a maximum leverage ratio of 5.00:1.00 for any fiscal quarter ending prior to August 12, 2018. For any fiscal quarter ending on or after August 12, 2018 the maximum leverage ratio is 4.50:1.00. Additionally in order to make restricted payments, Raven Energy LLC is subject to a fixed charge ratio of greater than 1.00:1.00.

If we fail to perform our obligations under these and other covenants, the lenders' credit commitment could be terminated and any outstanding borrowings, together with accrued interest, under the Revolving Facility, Partnership Revolver, Partnership Term Loan and Promissory Note could be declared immediately due and payable. The Partnership has a cross default provision that applies to our indebtedness having a principal amount in excess of \$20 million.

As of December 31, 2016, the Company and the Partnership were in compliance with all applicable debt covenants. We do not anticipate violation of these covenants nor do we anticipate that any of these covenants will restrict our operations or our ability to obtain additional financing.

Maturities

As of December 31, 2016, the combined aggregate amount of maturities for long-term borrowings for each of the next five years is as follows:

	(Dollars in Millions)
2017	\$ 4.9
2018	13.2
2019	273.1
2020	480.3
2021	86.5
2022-Thereafter—	
Total	\$ 858.0

15. Commitments and Contingent Liabilities

Lease obligations

The Company, as lessee, has noncancelable operating leases for land, office space, equipment and railcars. Total rental expense was \$8.7 million, \$8.5 million and \$7.9 million in 2016, 2015 and 2014, respectively. The aggregate amount of future minimum annual rental payments applicable to noncancelable operating leases is as follows:

	Minimum Rental Payments (Dollars in millions)
Year ending December 31:	
2017	\$ 3.3
2018	3.1
2019	2.4
2020	1.4
2021	0.9
2022-Thereafter	1.3

Total \$ 12.4

94

Legal matters

SunCoke Energy is party to an omnibus agreement pursuant to which we will provide indemnification to the Partnership upon the occurrence of certain potential adverse events under certain coke sales agreements, indemnification of certain environmental costs and preferential rights for growth opportunities.

The United States Environmental Protection Agency (the "EPA") issued Notices of Violations ("NOVs") for our Haverhill and Granite City cokemaking facilities which stemmed from alleged violations of our air emission operating permits for these facilities. We are working in a cooperative manner with the EPA, the Ohio Environmental Protection Agency and the Illinois Environmental Protection Agency to address the allegations, and have entered into a consent decree in federal district court with these parties. The consent decree includes a \$2.2 million civil penalty payment, which was paid in December 2014, as well as capital projects underway to improve the reliability of the energy recovery systems and enhance environmental performance at the Haverhill and Granite City facilities. We anticipate spending approximately \$140 million to \$145 million related to these projects, of which we have spent approximately \$93 million to date. The remaining capital is expected to be spent through the first quarter of 2019. A portion of the proceeds from the Partnership Offering, the Haverhill and Middletown Dropdown and the Granite City Dropdown are expected to be used to fund \$119 million of these environmental remediation projects.

SunCoke Energy has also received NOVs, Findings of Violations ("FOVs"), and information requests from the EPA related to our Indiana Harbor cokemaking facility, which allege violations of certain air operating permit conditions for this facility. The Clean Air Act (the "CAA") provides the EPA with the authority to issue, among other actions, an Order to enforce a State Implementation Plan ("SIP") 30 days after an NOV. The CAA also authorizes EPA enforcement of other non-SIP requirements immediately after an FOV. Generally, an NOV applies to SIPs and requires the EPA to wait 30 days, while an FOV applies to all other provisions (such as federal regulations) of the CAA, and has no waiting period. The NOVs and/or FOVs were received in 2010, 2012, 2013, 2015 and 2016. After initial discussions with the EPA and the Indiana Department of Environmental Management ("IDEM") in 2010, resolution of the NOVs/FOVs was postponed by mutual agreement because of ongoing discussions regarding the NOVs at Haverhill and Granite City. In January 2012, the Company began working in a cooperative manner to address the allegations with the EPA, the IDEM and Cokenergy, Inc., an independent power producer that owns and operates an energy facility, including heat recovery equipment and a flue gas desulfurization system, that processes hot flue gas from our Indiana Harbor facility to produce steam and electricity and to reduce the sulfur and particulate content of such flue gas. The EPA, IDEM, SunCoke Energy and Cokenergy, Inc have met regularly since those discussions commenced, and will continue to meet regularly in 2017 to attempt to work out a settlement of the NOVs and FOVs. Capital projects are underway to address items that may be required in conjunction with a settlement of the NOVs/FOVs. Any such settlement likely will require payment of a penalty for alleged past violations as well as undertaking capital projects to achieve compliance, and possibly enhance reliability and environmental performance of our Indiana Harbor facility. The settlement of most NOVs and FOVs typically involves first agreeing on injunctive relief and then agreeing on any appropriate penalty in light of the violations and the scope and cost of any injunctive relief.

Over the past several years, EPA, IDEM, SunCoke Energy and Cokenergy, Inc. have focused on the nature and extent of any injunctive relief to settle the NOVs/FOVs. Despite the negotiations, the scope and cost of any such injunctive relief remains uncertain, including any part of such injunctive relief that would be performed by SunCoke Energy. Likewise, any discussions about the amount of any civil penalties that SunCoke Energy would be willing to pay in settlement of these claims is uncertain. As a result, SunCoke Energy cannot yet assess the scope or cost of any injunctive relief or potential monetary penalty. Moreover, the Company believes that it has meritorious defenses to many of the claims and that a failure to reach a settlement with the EPA regarding the NOVs and FOVs may lead to litigation in which rulings in the Company's favor on some or all of the allegations are possible. For these reasons, the Company is unable to reliably estimate a range of probable or reasonably possible loss.

The Company is a party to certain other pending and threatened claims, including matters related to commercial and tax disputes, product liability, employment claims, personal injury claims, premises-liability claims, allegations of exposures to toxic substances and general environmental claims. Although the ultimate outcome of these claims cannot be ascertained at this time, it is reasonably possible that some portion of these claims could be resolved

unfavorably to the Company. Management of the Company believes that any liability which may arise from claims would not have a material adverse impact on our consolidated financial statements.

Black Lung Benefit Liabilities

Our independent actuarial consultants annually calculate the present value of the estimated black lung liability based on actuarial models utilizing our population of former coal mining employees, historical payout patterns of both the Company and the industry, actuarial mortality rates, disability incidence, medical costs, death benefits, dependents, discount rates and the current federally mandated payout rates. The estimated liability may be impacted by future changes in the statutory mechanisms, modifications by court decisions and changes in filing patterns driven by perceptions of success by claimants and their advisors, the impact of which cannot be estimated.

The following table summarizes discount rates utilized, active claims, and the total estimated black lung liability:

	December 31,			
	2016	2015		
Discount rate (percent) ⁽¹⁾	3.7	% 3.9	%	
Active claims	349	323		
Estimated black lung liability (dollars in millions) ⁽²⁾	\$50.2	\$49.9		

(1) The discount rate is determined based on a portfolio of high-quality corporate bonds with maturities that are consistent with the estimated duration of our black lung obligations. A 0.25 percent decrease in the discount rate would have increased coal workers' black lung expense by \$1.2 million in 2016.

(2) The current portion of the black lung liability was \$4.8 million and \$5.2 million at December 31, 2016 and 2015, respectively, and was included in accrued liabilities on the Consolidated Balance Sheet.

The following table summarizes annual black lung payments and expense:

	Years Ended		
	December 31,		
	2016	2015	2014
	(dollars in millions)		
Payments	\$7.8	\$3.8	\$2.8
Expense	\$8.1	\$9.8	\$14.3

16. Restructuring

Corporate

In 2016, 2015 and 2014, we reduced the workforce in our corporate office and incurred total charges of \$0.3 million, \$4.1 million and \$1.4 million, respectively, in Corporate and Other. Additionally, the Company also recorded restructuring charges relating to the termination of the corporate airplane lease and in connection with the relocation of the Company's corporate headquarters from Knoxville, Tennessee to Lisle, Illinois of \$0.5 million and \$0.7 million in 2016 and 2014, respectively.

Employee-related costs and contract terminations are included in selling, general and administrative expenses on the Consolidated Statements of Operations.

The following table presents accrued corporate restructuring and related activity as of and for the years ended December 31, 2016 and 2015:

	Employee- Related Costs	Contract Terminations	Total
	(Dollars in millions)		
Balance at December 31, 2014	\$0.5	\$ 1.4	\$1.9
Charges	4.1	—	4.1
Cash payments	(0.7)	(1.4)	(2.1)
Balance at December 31, 2015	\$3.9	\$ —	\$3.9
Charges	0.3	0.5	0.8
Cash payments	(3.5)	—	(3.5)
Balance at December 31, 2016	\$0.7	\$ 0.5	\$1.2

The corporate restructuring balance at December 31, 2016 relates to severance and contract terminations, and we expect it will all be paid in 2017.

Coal Mining

In connection with the 2014 restructuring of the Coal Mining business the Company recorded \$12.5 million of employee-related restructuring costs and \$6.0 million in contract termination costs within the Coal Mining segment. During 2015, the Company reduced the severance accrual by \$2.3 million as a result of changes in estimates, including the relocation of certain coal employees to other areas of the business, the savings of which are included in selling, general and administrative expenses on the Consolidated Statements of Operations. During 2016, with the disposition of the coal mining business, the Company recorded an additional \$0.2 million of employee-related restructuring costs.

The following table presents accrued restructuring and related activity for Coal Mining operations as of and for the years ended December 31, 2016, 2015 and 2014:

	Employee- Related Costs
	(Dollars in millions)
Balance at December 31, 2014	\$ 12.5
Changes in estimates	(2.3)
Cash payments	(9.4)
Balance at December 31, 2015	\$ 0.8
Charges	0.2
Cash payments	(1.0)
Balance at December 31, 2016	\$ —

17. Accumulated Other Comprehensive Loss

The following tables set forth the changes in the balance of accumulated other comprehensive loss, net of tax, by component:

	Benefit Plans	Currency Translation Adjustments	Total
(Dollars in millions)			
At December 31, 2014	\$(9.4)	\$ (12.1)	\$(21.5)
Other comprehensive loss before reclassifications	—	(3.1)	(3.1)
Amounts reclassified from accumulated other comprehensive income	5.2	—	5.2
Retirement benefit plans funded status adjustment	(0.4)	—	(0.4)
Net current period other comprehensive loss	4.8	(3.1)	1.7
At December 31, 2015	\$(4.6)	\$ (15.2)	\$(19.8)
Other comprehensive loss before reclassifications	—	1.0	1.0
Retirement benefit plans funded status adjustment	(0.2)	—	(0.2)
Net current period other comprehensive loss	(0.2)	1.0	0.8
At December 31, 2016	\$(4.8)	\$ (14.2)	\$(19.0)

The tax benefit associated with the Company's benefit plans as of December 31, 2016 and 2015 was \$2.7 million and \$2.9 million, respectively.

The Company's accumulated other comprehensive loss balance includes \$9.0 million from currency translation adjustments of the investment in VISA SunCoke, which remains until the cumulative investment balance is no longer negative or the investment is disposed. The balance would be reclassified to earnings if the investment is disposed of by the Company.

The impact on net income of reclassification adjustments from accumulated other comprehensive (income) loss were as follows:

	December 31,	
	2015	2014
(Dollars in millions)		
Amortization of benefit plans to net income:		
Actuarial loss	(0.7)	(1.4)
Prior service benefit	0.7	5.6
Curtailment gain	—	4.1
Settlement loss	—	(12.6)
Total before taxes	—	(8.6)
Income tax cost (benefit)	—	3.4
Total, net of tax	\$—	\$(5.2)
		\$4.0

18. Share-Based Compensation

Equity Classified Awards

Effective July 13, 2011, SunCoke Energy's Board of Directors approved the SunCoke Energy, Inc. Long-Term Performance Enhancement Plan ("SunCoke LTPEP"). The SunCoke LTPEP provides for the grant of equity-based awards including stock options and share units, or restricted stock, to the Company's directors, officers, and other employees, advisors, and consultants who are selected by the plan committee for participation in the SunCoke LTPEP. All awards vest immediately upon a change in control and a qualifying termination of employment as defined by the SunCoke LTPEP. The plan authorizes the issuance of (i) 1,600,000 shares of SunCoke Energy common stock issuable upon the adjustment of Sunoco equity awards in connection with the Separation and Distribution Agreement between Sunoco and SunCoke and (ii) up to 6,000,000 shares of SunCoke Energy common stock pursuant to new awards under the SunCoke LTPEP.

The Company measures the cost of employee services in exchange for an award of equity instruments based on the grant-date fair value of the award. The total compensation cost is reduced for estimated forfeitures over the awards' vesting period and the cost is recognized ratably over the requisite service period. The estimated forfeiture rate is analyzed on an annual basis and may be revised in subsequent periods if the actual forfeiture rate differs significantly.

Stock Options

The Company granted the following stock options during the years ended December 31, 2016, 2015 and 2014, with an exercise price equal to the closing price of our common stock on the date of grant.

	No. of Shares	Exercise Price	Weighted Average Per Share	Weighted Average Grant Date Fair Value
Traditional stock options:				
2016 February grant	95,001	\$3.80	\$ 1.71	
2016 March grant	90,925	\$6.03	\$ 2.78	
2015 grant	593,976	\$16.33	\$ 4.87	
2014 grant	407,075	\$22.30	\$ 7.86	
Performance based options:				
2016 February grant	58,448	\$3.80	\$ 1.06	
2016 March grant	90,925	\$6.03	\$ 2.42	

The stock options vest in three equal annual installments beginning one year from the date of grant. In order to become exercisable, the performance based options also require the closing price of the Company's common stock to reach or exceed \$9.50 for any 15 trading days during the three-year period beginning on the grant date, which was met during 2016. The stock options expire ten years from the date of grant.

The Company calculates the value of each employee stock option, estimated on the date of grant, using the Black-Scholes option pricing model with a Monte Carlo simulation for the performance based options. The weighted-average fair value of employee stock options granted during the years ended December 31, 2016, 2015 and 2014 was based on using the following weighted-average assumptions:

	Years Ended December 31,					
	2016		2015		2014	
Risk free interest rate	1.25	%	1.66	%	1.57	%
Expected term	5 years		5 years		5	years
Volatility	52	%	36	%	38	%
Dividend yield	—	%	1.64	%	—	%

The risk-free interest rate assumption is based on the U.S. Treasury yield curve at the date of grant for periods which approximate the expected life of the option. The expected term of the employee options represent the average contractual term adjusted by the average vesting period of each option tranche. We based our expected volatility on our historical volatility over our entire available trading history. The dividend yield assumption is based on the Company's expectation of dividend payouts at the time of grant.

The following table summarizes information with respect to common stock option awards outstanding as of December 31, 2016 and stock option activity during the fiscal year then ended:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (millions)
Outstanding at December 31, 2015	2,702,605	\$ 17.07	6.8	\$ —
Granted	335,299	\$ 2.08		
Exercised	—	\$ —		\$ —
Forfeited	(114,236)	\$ 18.08		
Outstanding at December 31, 2016	2,923,668	\$ 15.69	6.3	\$ 2.2
Exercisable at December 31, 2016	2,212,502	\$ 16.65	5.5	\$ 0.3
Expected to vest at December 31, 2016	711,166	\$ 12.70	8.4	\$ 1.8

Intrinsic value for stock options is defined as the difference between the current market value of our common stock and the exercise price of the stock options. Total intrinsic value of stock options exercised during 2015 and 2014 was \$0.1 million and \$0.9 million, respectively. No stock options were exercised during 2016.

Restricted Stock Units

During the years ended December 31, 2015 and 2014, the Company issued a total of 297,514 and 236,844 stock-settled restricted stock units ("RSUs") to certain employees for shares of the Company's common stock, respectively. No RSUs were granted during 2016. The weighted average grant date fair value was \$14.51 and \$22.06, in 2015 and 2014, respectively. The RSUs vest in three annual installments beginning one year from the date of grant. All awards vest immediately upon a change in control as defined by the SunCoke LTPEP.

The following table summarizes information with respect to RSUs outstanding as of December 31, 2016 and RSU activity during the fiscal year then ended:

	Number of RSUs	Weighted Average Grant-Date Fair Value
Nonvested at December 31, 2015	484,124	16.48
Granted	—	—
Vested	(221,498)	16.78
Forfeited	(37,686)	16.22
Nonvested at December 31, 2016	224,940	16.18

Total fair value of RSUs vested was \$3.7 million, \$4.6 million and \$2.9 million during 2016, 2015 and 2014, respectively.

Performance Share Units

The Company granted the following performance share units ("PSUs"), which represent the right to receive shares of the Company's common stock, contingent upon the attainment of Company performance and market goals and continued employment, during the years ended December 31, 2016, 2015 and 2014 that vest on December 31, 2018, 2017 and 2016, respectively:

	ROIC Portion ⁽¹⁾	TSR Portion ⁽²⁾	Total
Shares	Fair Value per Share	Shares	Fair Value per Share
			Grant Date Fair Value
			(Dollars in

					millions)
2016 February grant	105,210	\$5.66	105,210	\$5.81	\$ 1.2
2016 March grant ⁽³⁾	67,167	\$10.51	201,500	\$6.35	\$ 2.0
2015 grant	67,135	\$16.90	67,136	\$18.27	\$ 2.4
2014 grant	42,367	\$22.30	42,367	\$29.89	\$ 2.2

100

The number of PSUs that ultimately vest will be determined by the Company's three year average pre-tax return on capital for the Company's coke and coal logistics businesses. Additionally, only applicable to the 2016 grants, if at (1) any time during the vesting period the closing price of the Company's common stock equals or exceeds \$9.00 per share for any 15 trading days, which was met during 2016, the pre-tax return on capital portion of the award, as adjusted, will be multiplied by two.

(2) The number of PSUs that ultimately vest will be determined by the Company's three year total shareholder return ("TSR") as compared to the TSR of the companies making up the S&P 600.

(3) The final vesting value of the TSR portion of this award cannot exceed \$4.9 million.

Each portion of the award may vest between zero and 200 percent of the original units granted. The fair value of the PSUs granted are based on the closing price of our common stock on the date of grant as well as a Monte Carlo simulation for the portion of the award subject to a market condition.

The following table summarizes information with respect to unearned PSUs outstanding as of December 31, 2016 and PSU activity during the fiscal year then ended:

	Number of PSUs	Weighted Average Grant-Date Fair Value
Nonvested at December 31, 2015	254,652	20.14
Granted	479,086	6.66
Vested	(17,178)	16.55
Forfeited	(49,847)	20.59
Nonvested at December 31, 2016	666,713	10.51

Liability Classified Awards

Restricted Stock Units Settled in Cash

During the year ended December 31, 2016, the Company issued 198,668 restricted stock units to be settled in cash ("Cash RSUs"), which vest in three annual installments beginning one year from the grant date. The weighted average grant date fair value of the Cash RSUs granted during the year ended December 31, 2016 was \$3.82 and was based on the closing price of our common stock on the day of grant. The Cash RSU liability at December 31, 2016 was adjusted based on the closing price of our common stock on December 31, 2016 of \$11.34 per share. The liability at December 31, 2016 was not material.

Cash Incentive Award

The Company also granted share-based compensation to eligible participants under the SunCoke Energy, Inc. Long-Term Cash Incentive Plan ("SunCoke LTCIP"), which became effective January 1, 2016. The SunCoke LTCIP is designed to provide for performance-based, cash-settled awards. All awards vest immediately upon a change in control and a qualifying termination of employment as defined by the SunCoke LTCIP.

The Company issued a grant date fair value award of \$0.9 million during the year ended December 31, 2016 that vests on December 31, 2018. The ultimate award value will be adjusted based upon the Company's three-year average pre-tax return on capital for the Company's coke and coal logistics businesses, and if at any time during the vesting period the closing price of the Company's common stock equals or exceeds \$9.00 per share for any 15 trading days, which was met in 2016, the award, as adjusted, will be multiplied by two, but will be capped at 200 percent of the target award.

The cash incentive award liability at December 31, 2016 was adjusted based on the Company's adjusted three year average pre-tax return on capital for the Company's coke and coal logistics businesses. The adjusted award balance was multiplied by two since the Company's common stock exceeded \$9.00 per share for 15 trading days during the vesting period. The cash incentive award liability at December 31, 2016 was not material.

Summary of Share-Based Compensation Expense

Below is a summary of the compensation expense, unrecognized compensation costs, the period for which the unrecognized compensation cost is expected to be recognized over and the estimated forfeiture rate for each award:

	Years ended December 31,						December 31, 2016		Unrecognized Compensation Cost (Dollars in millions)	Recognition Period (Years)	Forfeiture Rate ⁽²⁾ (Percent)
	2016	2015	2014	2016	2015	2014	2016	2015			
Compensation Expense ⁽¹⁾											
	(Dollars in millions)										
Equity Awards:											
Stock Options	\$2.1	\$2.5	\$4.7	\$1.3	\$1.6	\$3.0	\$0.8	0.9		16 %	
RSUs	2.6	4.2	3.9	1.7	2.7	2.5	\$1.2	1.1		18 %	
PSUs	1.4	0.5	1.2	0.9	0.3	0.7	\$1.9	2.0		—	
Total equity awards	\$6.1	\$7.2	\$9.8	\$3.9	\$4.6	\$6.2					
Liability Awards:											
Cash RSUs	\$0.7	\$—	\$—	\$0.5	\$—	\$—	\$1.1	2.2		18 %	
Cash incentive award	0.1	—	—	0.1	—	—	\$0.2	2.0		16 %	
Total liability awards	\$0.8	\$—	\$—	\$0.6	\$—	\$—					

(1) Compensation expense is recognized by the Company in selling, general and administrative expenses on the Consolidated Statements of Operations.

(2) Excludes awards issued to certain executive employees, which were estimated at a zero percent forfeiture rate. The Company issued \$0.4 million of share-based compensation to the Company's Board of Directors during the year ended December 31, 2016. The share-based compensation issued to the Company's Board of Directors was not material during the year ended December 31, 2015 and 2014.

19. Earnings per Share

Basic earnings per share ("EPS") has been computed by dividing net income (loss) available to SunCoke Energy, Inc. by the weighted average number of shares outstanding during the period. Except where the result would be anti-dilutive, diluted earnings per share has been computed to give effect to share-based compensation awards using the treasury stock method.

The following table sets forth the reconciliation of the weighted-average number of common shares used to compute basic earnings per share to those used to compute diluted EPS:

	Years Ended December 31,		
	2016	2015	2014
	(Shares in millions)		
Weighted-average number of common shares outstanding-basic	64.2	65.0	68.8
Add: effect of dilutive share-based compensation awards	0.2	—	—
Weighted-average number of shares-diluted	64.4	65.0	68.8

For the years ended December 31, 2016, 2015 and 2014, diluted earnings per share was calculated to give effect to share-based compensation awards granted using the treasury stock method.

The following table shows stock options, restricted stock units, and performance stock units that are excluded from the computation of diluted earnings per share as the shares would have been anti-dilutive:

	Years Ended December 31,		
	2016	2015	2014
	(Shares in millions)		
Stock options	3.0	2.9	2.7
Restricted stock units	0.2	0.5	0.5
Performance stock units	0.2	—	0.1
Total	3.4	3.4	3.3

20. Fair Value Measurements

The Company measures certain financial and non-financial assets and liabilities at fair value on a recurring basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. Fair value disclosures are reflected in a three-level hierarchy, maximizing the use of observable inputs and minimizing the use of unobservable inputs.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability on the measurement date. The three levels are defined as follows:

Level 1—inputs to the valuation methodology are quoted prices (unadjusted) for an identical asset or liability in an active market.

Level 2—inputs to the valuation methodology include quoted prices for a similar asset or liability in an active market or model-derived valuations in which all significant inputs are observable for substantially the full term of the asset or liability.

Level 3—inputs to the valuation methodology are unobservable and significant to the fair value measurement of the asset or liability.

Financial Assets and Liabilities Measured at Fair Value on a Recurring Basis

Certain assets and liabilities are measured at fair value on a recurring basis. The Company's cash equivalents, which amounted to \$4.4 million and \$15.4 million at December 31, 2016 and 2015, respectively, were measured at fair value based on quoted prices in active markets for identical assets. These inputs are classified as Level 1 within the valuation hierarchy.

CMT Contingent Consideration

In connection with the CMT acquisition, the Partnership entered into a contingent consideration arrangement that requires the Partnership to make future payments to The Cline Group based on future volume over a specified threshold, price, and contract renewals. The fair value of the contingent consideration was estimated based on a probability-weighted analysis using significant inputs that are not observable in the market, or Level 3 inputs. Key assumptions included probability adjusted levels of coal handling services provided by CMT, anticipated price per ton on future sales and probability of contract renewal, including length of future contracts, volume commitment, and anticipated price per ton. The fair value of the contingent consideration at December 31, 2016 and 2015 was \$4.2 million and \$7.9 million, respectively, and was included in other deferred charges and liabilities on the Consolidated Balance Sheets. During 2016, the Partnership recorded an adjustment to the acquisition date fair value of the contingent consideration liability, which increased the liability and goodwill by \$6.4 million. Also, during 2016, the Partnership amended the contingent consideration terms with The Cline Group. These amended terms and subsequent fair value adjustments to the contingent consideration decreased costs of products sold and operating expenses on the Consolidated Statement of Operations by \$10.1 million during the year ended December 31, 2016.

Non-Financial Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Certain assets and liabilities are measured at fair value on a nonrecurring basis; that is, the assets and liabilities are not measured at fair value on an ongoing basis, but are subject to fair value adjustments in certain circumstances (e.g., when there is evidence of impairment).

Coal Mining Impairment

During 2014, as a result of weakening coal markets, the Company valued its coal mining assets at fair value less costs to sell under held for sale presentation. This resulted in impairment charges of \$150.3 million, \$92.2 million, net of tax, during 2014. The fair value was estimated utilizing a market approach, which was considered Level 2 in the fair value hierarchy. The coal mining business was subsequently divested in April 2016. See Note 5 for further details on divestiture.

India Equity Method Investment Valuation

As a result of sustained depressed market conditions, the Company recorded other-than-temporary impairment charges of the joint venture investment in the Company's India reportable segment of \$19.4 million and \$30.5 million in 2015 and 2014, respectively. These charges were recorded in loss from equity method investment on the Consolidated Statement of Operations and resulted in an investment balance of zero. Consequently, beginning in the fourth quarter of 2015, we no longer include the results of our share of VISA SunCoke in our consolidated financial statements. In accordance with GAAP, our share of future earnings of the joint venture will only be included in our results once the cumulative investment balance is no longer negative. The Company has no plans to make further capital contributions to this investment.

The estimated discounted cash flows in both 2014 and in 2015 utilized inputs considered to be Level 3 in the fair value hierarchy. Key assumptions in the 2014 discounted cash flow analysis included the timing and extent of future improvements in the Indian market and gross margin of \$4 per ton to \$24 per ton and a discount rate of 13.5 percent. Key assumptions in the 2015 discounted cash flow analysis included a 13.5 percent discount rate and estimated cash flows, which considered the timing and extent of future improvements in the Indian market, an important component of which is gross margin recovery. The continuing deterioration of market conditions resulted in forecasted gross loss of \$8 per ton to a forecasted gross margin gain of \$13 per ton upon market recovery. A \$5 per ton change in the gross margin assumption in 2015 would have impacted the valuation of our investment by approximately \$8 million. To the extent possible, the Company considered available market information and other third-party data and compared the inputs to relevant historical information during the 2014 and 2015 valuations.

Certain Financial Assets and Liabilities not Measured at Fair Value

At December 31, 2016 and 2015, the fair value of the Company's long-term debt was estimated to be \$854.4 million and \$788.8 million, respectively, compared to a carrying amount of \$858.0 million and \$1,003.8 million, respectively. These fair values were estimated by management based upon estimates of debt pricing provided by financial institutions which are considered Level 2 inputs.

21. Business Segment Information

The Company reports its business through four segments: Domestic Coke, Brazil Coke, Coal Logistics and Coal Mining. The Domestic Coke segment includes the Jewell, Indiana Harbor, Haverhill, Granite City and Middletown cokemaking facilities. Each of these facilities produces coke, and all facilities except Jewell and Indiana Harbor recover waste heat, which is converted to steam or electricity through a similar production process. Steam is provided to customers pursuant to steam supply and purchase agreements. Electricity is sold into the regional power market or to AK Steel pursuant to energy sales agreements. Coke sales at each of the Company's five domestic cokemaking facilities are made pursuant to long-term, take-or-pay agreements with ArcelorMittal, AK Steel, and U.S. Steel. Each of the coke sales agreements contains pass-through provisions for costs incurred in the cokemaking process, including coal procurement costs (subject to meeting contractual coal-to-coke yields), operating and maintenance expense, costs related to the transportation of coke to the customers, taxes (other than income taxes) and costs associated with changes in regulation, in addition to containing a fixed fee.

The Brazil Coke segment operates a cokemaking facility located in Vitória, Brazil for a project company. The Brazil Coke segment earns income from the Brazilian facility through licensing and operating fees payable to us under long-term contracts with the local project company that will run through at least 2023. Prior to the redemption of our

Brazil Investment in 2016, the Brazil Coke segment also received an annual preferred dividend from the project company guaranteed by the Brazil subsidiary of ArcelorMittal.

Coal Logistics operations are comprised of CMT, Kanawha River Terminal, LLC ("KRT"), SunCoke Lake Terminal, LLC ("Lake Terminal"), and DRT. DRT was formed to accommodate Jewell in its direct procurement of third-

party coal, beginning in 2016. Our coal logistics operations have collective capacity to mix and transload approximately 40 million tons of coal annually and provides coal handling and/or mixing services its customers, which include the Partnership's cokemaking facilities and other SunCoke cokemaking facilities. Coal handling and mixing results are presented in the Coal Logistics segment.

Until the business was divested in April 2016, the Coal Mining segment conducted coal mining operations, mined by contractors, near the Company's Jewell cokemaking facility with mines located in Virginia and West Virginia. Prior to April 2016, a substantial portion of the coal production was sold to the Jewell cokemaking facility for conversion into coke. Some coal was also sold to other cokemaking facilities within the Domestic Coke segment. Intersegment Coal Mining revenues for coal sales to the Domestic Coke segment were reflective of the contract price that the facilities within the Domestic Coke segment charge their customers, which approximated the market prices for this quality of metallurgical coal. In 2016, the Company transitioned to a 100 percent purchased third-party coal model, which resulted in a shift of coal transportation costs from the Coal Mining segment to the Domestic Coke segment beginning in the first quarter of 2016. These additional transportation costs are included in Coal Mining's intersegment revenues to Domestic Coke. It is impracticable to show the impacts of this change in our coal procurement model in segment results on a comparable basis.

Corporate expenses that can be identified with a segment have been included in determining segment results. The remainder is included in Corporate and Other, including certain legacy coal mining expenses (i.e. black lung, workers' compensation and other postretirement employee benefit obligations). The results of our equity method investment in Visa SunCoke were also included in Corporate and Other until the Company impaired its investment to zero in the third quarter of 2015 and suspended equity method accounting.

Segment assets, net of tax are those assets that are utilized within a specific segment and exclude deferred taxes and current taxes receivable.

The following table includes Adjusted EBITDA, which is the measure of segment profit or loss and liquidity reported to the chief operating decision maker for purposes of allocating resources to the segments and assessing their performance:

	Years Ended December 31,		
	2016	2015	2014
	(Dollars in millions)		
Sales and other operating revenue:

(2) We revised the estimated useful lives of assets in our Domestic Coke segment, primarily as a result of oven rebuild plans at our Indiana Harbor facility, resulting in additional depreciation of \$10.4 million, \$10.2 million and \$15.6 million, or \$0.13, \$0.14 and \$0.20 per common share from operations, during 2016, 2015 and 2014, respectively.

(3) We revised the estimated useful lives of assets in our Coal Logistics segment, resulting in additional depreciation of \$2.2 million, or \$0.02, per common share from operations, during 2016.

We revised the estimated useful lives of certain assets in our Coal Mining segment as a result of the wind down of (4) operations at of our former coal preparation plant, which resulted in additional depreciation of \$4.9 million and \$1.0 million, or \$0.07 and \$0.01 per common share, during 2015 and 2014, respectively.

The following table sets forth the Company's segment assets:

Other	6.8	4.0	7.0
Sales and other operating revenue	\$1,222.2	\$1,351.3	\$1,490.7

(1) CMT contributed sales and other operating revenue of \$62.7 million and \$28.6 million during December 31, 2016 and 2015.

The Company evaluates the performance of its segments based on segment Adjusted EBITDA, which is defined as earnings before interest, (gain) loss on extinguishment of debt, taxes, depreciation and amortization ("EBITDA"), adjusted for impairments, coal rationalization costs, changes to our contingent consideration liability related to our acquisition of CMT, sales discounts, the expiration of certain acquired contractual obligations, and interest, taxes, depreciation and amortization and impairments attributable to our equity method investment. Prior to the expiration of our nonconventional fuel tax credits in November 2013, Adjusted EBITDA included an add-back of sales discounts related to the sharing of these credits with customers. Any adjustments to these amounts subsequent to 2013 have been included in Adjusted EBITDA. EBITDA and Adjusted EBITDA do not represent and should not be considered alternatives to net income or operating income under GAAP and may not be comparable to other similarly titled measures in other businesses.

Management believes Adjusted EBITDA is an important measure of the operating performance and liquidity of the Company's net assets and its ability to incur and service debt, fund capital expenditures and make distributions. Adjusted EBITDA provides useful information to investors because it highlights trends in our business that may not otherwise be apparent when relying solely on GAAP measures and because it eliminates items that have less bearing on our operating performance and liquidity. EBITDA and Adjusted EBITDA are not measures calculated in accordance with GAAP, and they should not be considered a substitute for net income, operating cash flow or any other measure of financial performance presented in accordance with GAAP. Set forth below is additional discussion of the limitations of Adjusted EBITDA as an analytical tool.

Limitations. Other companies may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure. Adjusted EBITDA also has limitations as an analytical tool and should not be considered in isolation or as a substitute for an analysis of our results as reported under GAAP. Some of these limitations include that Adjusted EBITDA:

- does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
- does not reflect items such as depreciation and amortization;
- does not reflect changes in, or cash requirement for, working capital needs;
- does not reflect our interest expense, or the cash requirements necessary to service interest on or principal payments of our debt;
- does not reflect certain other non-cash income and expenses
- excludes income taxes that may represent a reduction in available cash; and
- includes net income attributable to noncontrolling interests

Below is a reconciliation of Adjusted EBITDA to net income and net cash provided by operating activities, which are its most directly comparable financial measures calculated and presented in accordance with GAAP:

	Years Ended December 31,		
	2016	2015	2014
	(Dollars in millions)		
Net cash provided by operating activities	\$219.1	\$141.1	\$112.3
Subtract:

Non-cash reversal of acquired contractual obligations ⁽⁵⁾	(0.7)	(3.3)	—
Sales discount provided to customers due to sharing of nonconventional fuel tax credits ⁽⁶⁾	—	—	(0.5)
Adjusted EBITDA	\$217.0	\$185.4	\$210.7
Subtract: Adjusted EBITDA attributable to noncontrolling interest ⁽⁷⁾	86.6	81.2	60.7
Adjusted EBITDA attributable to SunCoke Energy, Inc.	\$130.4	\$104.2	\$150.0

Reflects share of interest, taxes, depreciation and amortization related to VISA SunCoke. The years ended December 31, 2015 and 2014 also reflect impairments of our investment in VISA SunCoke of \$19.4 million and (1) \$30.5 million, respectively. The 2015 impairment resulted in an investment balance of zero. Beginning in the fourth quarter of 2015, we no longer include the results of our share of VISA SunCoke in our consolidated financial statements.

Prior to the divestiture of the coal mining business, we incurred coal rationalization costs including employee severance, contract termination costs and other costs to idle mines during the execution of our coal rationalization (2) plan. The year ended December 31, 2015 included \$2.3 million of income related to a severance accrual adjustment.

The Partnership amended its contingent consideration terms with The Cline Group during the first quarter of (3) 2016. This amendment and subsequent fair value adjustments to the contingent consideration liability, resulted in a gain of \$10.1 million recorded during the year ended December 31, 2016, which was excluded from Adjusted EBITDA.

(4) Reflects the expiration of land deposits in Kentucky.

In association with the acquisition of CMT, we assumed certain performance obligations under existing contracts (5) and recorded liabilities related to such obligations. These contractual performance obligations have expired without the customer requiring performance. As such, the Partnership reversed the liabilities as we no longer have any obligations under the contract.

At December 31, 2013, we had \$13.6 million accrued related to sales discounts to be paid to our customer at our (6) Granite City facility. During the first quarter of 2014, we settled this obligation for \$13.1 million which resulted in

a

gain of \$0.5 million. The gain was recorded in sales and other operating revenue on our Combined and Consolidated Statement of Operations.

(7) Reflects non-controlling interest in Indiana Harbor and the portion of the Partnership owned by public unitholders.

22. Selected Quarterly Data (unaudited)

	2016				2015			
	First Quarter	Second Quarter	Third Quarter	Fourth Quarter ⁽¹⁾	First Quarter	Second Quarter	Third Quarter	Fourth Quarter ⁽¹⁾
	(Dollars in millions)							
Sales and other operating revenue	\$310.5	\$292.6	\$293.7	\$325.4	\$323.9	\$347.6	\$336.2	\$343.6
Gross profit ⁽²⁾	\$41.8	\$39.6	\$50.5	\$69.6	\$38.0	\$25.2	\$44.3	\$36.3
Net income (loss)	\$12.6	\$1.0	\$14.4	\$31.5	\$0.4	\$(6.5)	\$(16.5)	\$32.9
Less: Net income attributable to noncontrolling interests	\$16.7	\$5.6	\$8.3	\$14.5	\$4.4	\$7.0	\$7.0	\$13.9
Net (loss) income attributable to SunCoke Energy, Inc.	\$(4.1)	\$(4.6)	\$6.1	\$17.0	\$(4.0)	\$(13.5)	\$(23.5)	\$19.0
(Loss) earnings attributable to SunCoke Energy, Inc. per common share:								
Basic ⁽³⁾	\$(0.06)	\$(0.07)	\$0.10	\$0.26	\$(0.06)	\$(0.21)	\$(0.36)	\$0.30
Diluted ⁽³⁾	\$(0.06)	\$(0.07)	\$0.10	\$0.26	\$(0.06)	\$(0.21)	\$(0.36)	\$0.30
Cash dividends declared per share	\$—	\$—	\$—	\$—	\$0.0585	\$0.0750	\$0.1500	\$0.1500

The Partnership recorded deferred revenue from Coal Logistics take-or-pay billings for minimum volume shortfalls (1) throughout 2016 and 2015, of which \$31.5 million and \$5.3 million was recognized into revenues in the fourth quarters of 2016 and 2015, respectively.

(2) Gross profit equals sales and other operating revenue less cost of products sold and operating expenses and depreciation and amortization.

(3) Basic and diluted earnings per share are computed independently for each of the quarters presented. Therefore, the sum of quarterly basic and diluted per share information may not equal annual basic and diluted earnings per share.

23. Supplemental Condensed Consolidating Financial Information

Certain 100 percent owned subsidiaries of the Company serve as guarantors of the obligations under the credit agreement and \$44.6 million of Notes ("Guarantor Subsidiaries"). These guarantees are full and unconditional (subject, in the case of the Guarantor Subsidiaries, to customary release provisions as described below) and joint and several. For purposes of the following footnote, SunCoke Energy, Inc. is referred to as "Issuer." The indenture dated July 26, 2011 among the Company, the guarantors party thereto and The Bank of New York Mellon Trust Company, N.A., governs subsidiaries designated as "Guarantor Subsidiaries." All other consolidated subsidiaries of the Company are collectively referred to as "Non-Guarantor Subsidiaries."

The ability of the Partnership and Indiana Harbor to pay dividends and make loans to the Company is restricted under the partnership agreements of the Partnership and Indiana Harbor, respectively. The credit agreement governing the Partnership's credit facility and the indenture governing the Partnership Notes contain customary provisions which would potentially restrict the Partnership's ability to make distributions or loans to the Company under certain circumstances. For the year ended December 31, 2016, less than 25 percent of net assets were restricted. Additionally, certain coal mining entities are designated as unrestricted subsidiaries. As such, all the subsidiaries described above are presented as "Non-Guarantor Subsidiaries."

The guarantee of a Guarantor Subsidiary will terminate upon:

- a sale or other disposition of the Guarantor Subsidiary or of all or substantially all of its assets;
- a sale of the majority of the Capital Stock of a Guarantor Subsidiary to a third-party, after which the Guarantor Subsidiary is no longer a "Restricted Subsidiary" in accordance with the indenture governing the Notes;

the liquidation or dissolution of a Guarantor Subsidiary so long as no "Default" or "Event of Default," as defined under the indenture governing the Notes, has occurred as a result thereof;

the designation of a Guarantor Subsidiary as an "unrestricted subsidiary" in accordance with the indenture governing the Notes

the requirements for defeasance or discharge of the indentures governing the Notes having been satisfied;

the release, other than the discharge through payments by a Guarantor Subsidiary, from its guarantee under the Credit Agreement or other indebtedness that resulted in the obligation of the Guarantor Subsidiary under the indenture governing the Notes.

The following supplemental condensed combining and consolidating financial information reflects the Issuer's separate accounts, the combined accounts of the Guarantor Subsidiaries, the combined accounts of the Non-Guarantor Subsidiaries, the combining and consolidating adjustments and eliminations and the Issuer's consolidated accounts for the dates and periods indicated. For purposes of the following condensed combining and consolidating information, the Issuer's investments in its subsidiaries and the Guarantor and Non-Guarantor Subsidiaries' investments in its subsidiaries are accounted for under the equity method of accounting.

24. Subsequent Events

In January 2017, the IRS announced its decision to exclude cokemaking as a qualifying income generating activity in its final regulations issued under section 7704(d)(1)(E) of the Internal Revenue Code relating to the qualifying income exception for publicly traded partnerships. The Partnership and its outside legal counsel believe that income from the Partnership's cokemaking operations will be considered qualifying income for the purpose of maintaining our Partnership status during the 10-year transition period contemplated by the final regulations. In order to be grandfathered, a partnership either must have received a private letter ruling or be engaged in the activity based on a reasonable interpretation of the statute and its legislative history. The Partnership received a will-level opinion from its counsel, Vinson & Elkins LLP, that the Partnership's cokemaking operations generated qualifying income, and therefore the Partnership believes it reasonably interpreted the statute. Subsequent to the transition period, certain cokemaking entities in the Partnership will become taxable as corporations. The Partnership is evaluating its options for engaging with the appropriate parties to address its concerns with the scope of these final regulations.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Management's Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, is responsible for evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). Our disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure and is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC. Based upon that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective at the reasonable assurance level.

Management's Report on Internal Control over Financial Reporting

Our management, with the participation of our principal executive officer and principal financial officer, is responsible for establishing and maintaining adequate internal control over our financial reporting, as such term is defined under Exchange Act Rule 13a-15(f). Our internal control system was designed to provide reasonable assurance to management regarding the preparation and fair presentation of published financial statements. In evaluating the effectiveness of our internal control over financial reporting as of December 31, 2016, management used the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control -Integrated Framework (2013). Based on such evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2016.

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls over financial reporting will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues, misstatements, errors, and instances of fraud, if any, within our company have been or will be prevented or detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls also can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks that internal controls may become inadequate as a result of changes in conditions, or through the deterioration of the degree of compliance with policies or procedures.

KPMG LLP, our independent registered public accounting firm, issued an attestation report on our internal control over financial reporting, which is contained in Item 8, "Financial Statements and Supplementary Data."

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the year ended December 31, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information called for by this Item 10 required by Item 401 of Regulation S-K relating to Directors and Nominees for election to the Board of Directors is incorporated herein by reference to the section entitled "Proposal 1- Election of Directors" in our definitive Proxy Statement for our 2017 Annual Meeting of Stockholders to be held on May 4, 2017 (the "Proxy Statement"). Information called for by this Item 10 required by Item 401 of Regulation S-K concerning the Company's executive officers appears in Part I of this Annual Report on Form 10-K.

The information called for by this Item 10 required by Item 405 of Regulation S-K is incorporated herein by reference to the section entitled "Section 16(a) Beneficial Ownership Reporting Compliance" under the heading "Other Information," in the Proxy Statement.

The information called for by this Item 10 required by Item 406 of Regulation S-K is incorporated herein by reference to the section entitled "Code of Business Conduct and Ethics" under the heading "Corporate Governance" in the Proxy Statement.

The information called for by this Item 10 required by Item 407(c)(3) of Regulation S-K is incorporated herein by reference to the section entitled "Governance Committee Process for Director Nominations" under the heading "Corporate Governance" in the Proxy Statement.

The information called for by this Item 10 required by Items 407(d)(4) and 407(d)(5) of Regulation S-K is incorporated herein by reference to the information under the heading entitled "The Board of Directors and its Committees" and in the section entitled "Audit Committee Report" under the heading entitled "Audit Committee Matters," in the Proxy Statement.

Item 11. Executive Compensation

The information called for by this Item 11 required by Item 402 of Regulation S-K is incorporated herein by reference to the sections of the Proxy Statement appearing under the heading "Executive Compensation," including the sections entitled "Compensation Discussion and Analysis," "Summary Compensation Table," "Grants of Plan-Based Awards Table," "Outstanding Equity Awards at Fiscal Year-End Table," "Option Exercises and Stock Vested Table," "Pension Benefits," "Nonqualified Deferred Compensation" and "Potential Payments Upon Termination or Change in Control," and the sections of the Proxy Statement appearing under the heading "Directors Compensation."

The information called for by this Item 11 required by Items 407(e)(4) and 407(e)(5) of Regulation S-K is incorporated herein by reference to the sections of the Proxy Statement appearing under the heading "Executive Compensation," including the sections entitled "Compensation Committee Report" and "Compensation Committee Interlocks and Insider Participation."

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information called for by this Item 12 required by Item 201(d) of Regulation S-K is incorporated herein by reference to the section of the Proxy Statement entitled "Equity Compensation Plan Information," appearing under the heading "Other Information."

The information called for by this Item 12 required by Item 403 of Regulation S-K is incorporated herein by reference to the sections of the Proxy Statement appearing under the heading "Beneficial Stock Ownership of Directors, Executive Officers and Persons Owning More Than Five Percent of Common Stock."

Item 13. Certain Relationships and Related Transactions, and Director Independence Arrangements Between SunCoke Energy and the Partnership

In the first half of 2016, SunCoke took certain actions to support the Partnership's strategy to de-lever its balance sheet and maintain a solid liquidity position. During the first quarter of 2016, SunCoke provided a "reimbursement holiday" on the \$7.0 million of corporate costs allocated to the Partnership and also returned its \$1.4 million IDR cash distribution to the Partnership ("IDR giveback"), resulting in capital contributions of \$8.4 million. During the second quarter of 2016, SunCoke provided the Partnership with deferred payment terms until April 2017 on the reimbursement of the \$6.9 million of allocated corporate costs to the Partnership and the \$1.4 million IDR cash distribution, resulting in an outstanding payable to SunCoke of \$8.3 million included in payable to affiliate, net on the Consolidated Balance Sheets as of December 31, 2016. SunCoke did not provide sponsor support in the third and fourth quarter of 2016.

Omnibus Agreement

The omnibus agreement with SunCoke and the Partnership's general partner addresses certain aspects of our relationship, including:

Business Opportunities. The Partnership has a preferential right to invest in, acquire and construct cokemaking facilities in the U.S. and Canada. SunCoke has a preferential right to all other business opportunities. If the Partnership decides not to pursue an opportunity to construct a new cokemaking facility and SunCoke or any of its controlled affiliates undertake such construction, then upon completion of such construction, the Partnership will have the option to acquire such facility at a price sufficient to give SunCoke an internal rate of return on its invested capital equal to the sum of SunCoke's weighted average cost of capital (as determined in good faith by SunCoke) and 6.0 percent. If the Partnership decides not to pursue an opportunity to invest in or acquire a cokemaking facility, SunCoke or any of its controlled affiliates may undertake such an investment or acquisition and if such acquisition is completed by SunCoke, the cokemaking facility so acquired will be subject to the right of first offer described below. If a business opportunity includes cokemaking facilities but such facilities represent a minority of the value of such business opportunity as determined by SunCoke in good faith, SunCoke will have a preferential right as to such business opportunity. These agreements as to business opportunities shall apply only so long as SunCoke controls the Partnership, and shall not apply with respect to any business opportunity SunCoke or any of its controlled affiliates was actively pursuing at the time of the closing of the Partnership's IPO; provided, however, that the Partnership shall have certain preferential rights with respect to the Kentucky facility. If SunCoke constructs the Kentucky facility, upon commencement of commercial operations the Partnership will have the option to acquire the Kentucky facility under the same terms as would apply to other new construction under the omnibus agreement. If the Partnership does not exercise its option to acquire the Kentucky facility upon commencement of commercial operations, the Kentucky facility will be subject to the right of first offer described below.

Right of First Offer. If SunCoke or any of its controlled affiliates decides to sell, convey or otherwise transfer to a third-party a cokemaking facility located in the U.S. or Canada or an interest therein, the Partnership shall have a right of first offer as to such facility. SunCoke shall have the same right of first offer if the Partnership decides to sell, convey or otherwise transfer to a third-party any cokemaking facility or an interest therein. In the event a party decides to sell, convey or otherwise transfer a cokemaking facility, it will offer the other party, referred to as the ROFO Party, such facility with a proposed price for such assets. If the ROFO Party does not exercise its right, the seller shall have the right to complete the proposed transaction, on terms not materially more favorable to the buyer than the last written offer proposed during negotiations with the ROFO Party, with a third-party within 270 days. If the seller fails to complete such a transaction within 270 days, then the right of first offer is reinstated. This right of first offer shall apply only so long as SunCoke controls the Partnership.

Remarketing Arrangement Relating to Potential Defaults by Coke Agreement Counterparties. For a period of five years from the closing date of the Partnership's IPO, SunCoke has agreed that: (i) if AK Steel exercises the early termination right provided in its Haverhill coke sales agreement, then SunCoke will, promptly upon the effective date of such termination, make the Partnership whole to the extent of AK Steel's obligations under the Haverhill coke sales agreement (including the obligation to pay for coke) as the terms of that agreement exist on the date of the Partnership's IPO (without taking into effect the termination right), or (ii) if (a) other than as a result of a force majeure event or a default by the Partnership, any customer fails to purchase coke or defaults in payment under its coke sales agreement, or (b) the Partnership amends a coke sales agreement's terms to reduce a customer's purchase obligation as a result of the customer's financial distress, as part of a bankruptcy or otherwise, then SunCoke will be obligated to make the Partnership whole to the extent of the customer's failure to satisfy its obligations or to the extent the customer's obligations are reduced, as applicable, under such coke sales agreement's terms as exist on the date of the IPO. The Partnership and SunCoke will share in any damages and other amounts recovered from third-parties in connection with any of the events described in this paragraph in proportion to the relative loss and/or prospective loss suffered by the Partnership and SunCoke.

Indemnity. SunCoke will indemnify the Partnership with respect to remediation at the Haverhill, Middletown and Granite City (Gateway) cokemaking facilities:

Known Remediation. SunCoke will indemnify the Partnership to the full extent of any remediation arising from any environmental matter discovered and identified as requiring remediation prior to the contribution by SunCoke to the Partnership of an interest in these cokemaking facilities, except for any liability or increase in liability resulting from changes in environmental regulations; provided, however, that, in each case, SunCoke will be deemed to have contributed in satisfaction of this obligation, as of the effective date of the contribution of an interest in these cokemaking facilities, the amount identified in the applicable contribution agreement as being reserved to pre-fund existing environmental remediation projects.

Unknown Remediation. If, prior to the fifth anniversary of the closing of the Partnership's IPO, an environmental matter that was discovered either before or after the contribution by SunCoke to the Partnership of an interest in these cokemaking facilities, is identified as requiring remediation, SunCoke shall indemnify the Partnership to the full extent of any such remediation costs, except for any liability or increase in liability resulting from changes in environmental regulations; provided, however, that, in each case, the Partnership must bear the first \$5 million of such remediation costs, and SunCoke's liability for such remediation costs will not exceed \$50 million.

Post-closing. The Partnership will indemnify SunCoke for events relating to the Partnership's operations except to the extent that it is entitled to indemnification by SunCoke.

Tax Matters. SunCoke will fully indemnify the Partnership with respect to any tax liability arising prior to or in connection with the closing of its IPO.

Real Property. SunCoke will either cure or fully indemnify the Partnership for losses resulting from any material title defects at the properties owned by the entities in which the Partnership has acquired an interest from SunCoke, to the extent that such defects interfere with, or reasonably could be expected to interfere with, the operations of the related cokemaking facilities.

License. SunCoke has granted the Partnership a royalty-free license to use the name "SunCoke" and related marks. Additionally, SunCoke will grant the Partnership a non-exclusive right to use all of SunCoke's current and future cokemaking and related technology. The Partnership has not paid and will not pay a separate license fee for the rights it receives under the license.

Expenses and Reimbursement. SunCoke will continue to provide the Partnership with certain general and administrative services, and the Partnership will reimburse SunCoke for all direct costs and expenses incurred on the Partnership's behalf and the portion of SunCoke's corporate and other costs and expenses attributable to the Partnership's operations. Additionally, the Partnership has agreed to pay all fees (i) due under its revolving credit facility and/or existing senior notes; and (iii) in connection with any future financing arrangement entered into for the purpose of amending, modifying, or replacing its revolving credit facility or its senior notes.

The omnibus agreement can be amended by written agreement of all parties to the agreement. However, the Partnership may not agree to any amendment or modification that would, in the reasonable discretion of its general partner, be adverse in any material respect to the holders of its common units without prior approval of the conflicts committee. So long as SunCoke controls the Partnership's general partner, the omnibus agreement will remain in full force and effect unless mutually terminated by the parties. If SunCoke ceases to control the Partnership's general partner, the omnibus agreement will terminate, provided (i) the indemnification obligations described above and (ii) the Partnership's non-exclusive right to use all of SunCoke's existing cokemaking and related technology will remain in full force and effect in accordance with their terms.
