Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(Unaudited)

1. Summary of Significant Accounting and Reporting Policies

Nature of Operations

Hilltop Holdings Inc. (“Hilltop” and, collectively with its subsidiaries, the “Company”) is a financial holding company registered under the Bank Holding Company Act of 1956. The Company’s primary line of business is to provide business and consumer banking services from offices located throughout Texas through PlainsCapital Bank (the “Bank”). In addition, the Company provides an array of financial products and services through its broker-dealer, mortgage origination and insurance subsidiaries.

The Company provides its products and services through three primary operating subsidiaries, PlainsCapital Corporation (“PlainsCapital”), Hilltop Securities Holdings LLC (“Securities Holdings”) and National Lloyds Corporation (“NLC”). PlainsCapital is a financial holding company, headquartered in Dallas, Texas, that provides, through its subsidiaries, traditional banking, wealth and investment management and treasury management services primarily in Texas and residential mortgage lending throughout the United States. Securities Holdings is a holding company, headquartered in Dallas, Texas, that provides, through its subsidiaries, investment banking and other related financial services, including municipal advisory, sales, trading and underwriting of taxable and tax-exempt fixed income securities, equity trading, clearing, securities lending, structured finance and retail brokerage services throughout the United States. NLC is a property and casualty insurance holding company, headquartered in Waco, Texas, that provides, through its subsidiaries, fire and homeowners insurance to low value dwellings and manufactured homes primarily in Texas and other areas of the southern United States.

On January 1, 2015, Hilltop completed its acquisition of SWS Group, Inc. (“SWS”) in a stock and cash transaction (the “SWS Merger”), whereby SWS’s broker-dealer subsidiaries, Southwest Securities, Inc. and SWS Financial Services, Inc., became subsidiaries of Securities Holdings, and SWS’s banking subsidiary, Southwest Securities, FSB (“SWS FSB”), was merged into the Bank. On October 5, 2015, Southwest Securities, Inc. and SWS Financial Services, Inc. were renamed “Hilltop Securities Inc.” (“Hilltop Securities”) and “Hilltop Securities Independent Network Inc.” (“HTS Independent Network”), respectively.

On October 22, 2015, the Financial Industry Regulatory Authority (“FINRA”) granted approval to combine First Southwest Company, LLC (“FSC”) and Hilltop Securities, subject to customary conditions. FSC, Hilltop Securities and

HTS Independent Network operated as separate broker-dealers, under coordinated leadership from the date of the SWS Merger until January 22, 2016, when FSC was merged into Hilltop Securities to form a combined firm operating under the “Hilltop Securities” name. We use the term “Hilltop Broker-Dealers” to refer to FSC, Hilltop Securities and HTS Independent Network prior to January 22, 2016 and Hilltop Securities and HTS Independent Network after such date.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”), and in conformity with the rules and regulations of the Securities and Exchange Commission (the “SEC”). In the opinion of management, these financial statements contain all adjustments necessary for a fair statement of the results of the interim periods presented. Accordingly, the financial statements do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015 (“2015 Form 10-K”). Results for interim periods are not necessarily indicative of results to be expected for a full year or any future period.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates regarding the allowance for loan losses, the fair values of financial instruments, the amounts receivable from the Federal Deposit Insurance Corporation (the “FDIC”) under loss-share agreements (the “FDIC Indemnification Asset”), reserves for losses and loss adjustment expenses (“LAE”), the

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

mortgage loan indemnification liability, and the potential impairment of assets are particularly subject to change. The Company has applied its critical accounting policies and estimation methods consistently in all periods presented in these consolidated financial statements.

Hilltop owns 100% of the outstanding stock of PlainsCapital. PlainsCapital owns 100% of the outstanding stock of the Bank and 100% of the membership interest in PlainsCapital Equity, LLC. The Bank owns 100% of the outstanding stock of PrimeLending, a PlainsCapital Company (“PrimeLending”) and has a 100% membership interest in PlainsCapital Securities, LLC.

PrimeLending owns a 100% membership interest in PrimeLending Ventures Management, LLC, the controlling and sole managing member of PrimeLending Ventures, LLC (“Ventures”).

PlainsCapital also owns 100% of the outstanding common securities of PCC Statutory Trusts I, II, III and IV (the “Trusts”), which are not included in the consolidated financial statements under the requirements of the Variable Interest Entities Subsections of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”), because the primary beneficiaries of the Trusts are not within the consolidated group.

Hilltop has a 100% membership interest in Securities Holdings, which operates through its wholly-owned subsidiaries, Hilltop Securities, HTS Independent Network and First Southwest Holdings, LLC (“First Southwest”). Hilltop Securities is a broker-dealer registered with the SEC and the Financial Industry Regulatory Authority (“FINRA”) and a member of the New York Stock Exchange (“NYSE”), HTS Independent Network is an introducing broker-dealer that is also registered with the SEC and FINRA, and First Southwest Asset Management, LLC, a wholly-owned subsidiary of First Southwest, is a registered investment advisor under the Investment Advisors Act of 1940. As discussed above, prior to January 22, 2016, Securities Holdings’ subsidiaries also included FSC, First Southwest’s principal subsidiary and formerly a broker-dealer registered with the SEC and FINRA and a member of the NYSE.

Hilltop also owns 100% of NLC, which operates through its wholly owned subsidiaries, National Lloyds Insurance Company (“NLIC”) and American Summit Insurance Company (“ASIC”).

The consolidated financial statements include the accounts of the above-named entities. Intercompany transactions and balances have been eliminated. Noncontrolling interests have been recorded for minority ownership in entities that are not wholly owned and are presented in compliance with the provisions of Noncontrolling Interest in Subsidiary Subsections of the ASC.

The operations acquired in the SWS Merger were included in the Company's operating results beginning January 1, 2015 and such operations included a preliminary bargain purchase gain of \$82.8 million as disclosed in the Company's Quarterly Report on Form 10-Q filed with the SEC on May 6, 2015. During 2015, certain adjustments were recorded that resulted in an aggregate decrease in the preliminary bargain purchase gain associated with the SWS Merger to \$81.3 million, which also decreased net income for the three months ended March 31, 2015 by \$1.5 million as compared with amounts previously reported in the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2015. Accordingly, our results for the quarter ended March 31, 2015 and related disclosures have been revised to reflect these adjustments.

Certain reclassifications have been made to the prior period consolidated financial statements to conform with the current period presentation. Additionally, during the preparation of the condensed consolidated financial statements for the period ended September 30, 2015, the Company determined that its previously reported unaudited consolidated statements of cash flows contained in the previously filed Quarterly Reports on Form 10-Q filed with SEC on May 6, 2015 and July 29, 2015 contained a classification error related to how certain acquired balances related to its acquisition of SWS were reflected. Management has evaluated the quantitative and qualitative impact of the classification error to previously issued unaudited consolidated statements of cash flows and concluded that the previously issued condensed consolidated financial statements were not materially misstated. However, in order to correctly present the cash flow statements, management has elected to revise the unaudited consolidated statements of cash flows for each of the three

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

months ended March 31, 2015 included herein and the six months ended June 30, 2015 in its future filings. The correction had no impact on the Company's financial condition or results of operations for the periods presented.

The following table summarizes the revisions made to the Company's unaudited consolidated statements of cash flows for the noted periods (in thousands).

2. Acquisition

SWS Merger

On January 1, 2015, Hilltop completed its acquisition of SWS in a stock and cash transaction, whereby each outstanding share of SWS common stock was converted into the right to receive 0.2496 shares of Hilltop common stock and \$1.94 in cash, equating to \$6.92 per share based on Hilltop's closing price on December 31, 2014 and resulting in an aggregate purchase price of \$349.1 million, consisting of 10.1 million shares of common stock, \$78.2 million in cash and \$70.3 million associated with Hilltop's existing investment in SWS common stock. The operations of SWS are included in the Company's operating results beginning January 1, 2015. Such operating results include a bargain purchase gain of \$81.3 million and are not necessarily indicative of future operating results. SWS's results of operations prior to the acquisition date are not included in the Company's consolidated operating results.

The SWS Merger was accounted for using the acquisition method of accounting, and accordingly, purchased assets, including identifiable intangible assets, and assumed liabilities were recorded at their respective acquisition date fair values. The components of the consideration paid are shown in the following table (in thousands).

Fair value of consideration paid:	
Common stock issued	\$ 200,626
Cash	78,217
Fair value of Hilltop's existing investment in SWS	70,282
Total consideration paid	\$ 349,125

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The resulting fair values of the identifiable assets acquired, and liabilities assumed, acquired in the SWS Merger at January 1, 2015 are summarized in the following table (in thousands).

Cash and due from banks	\$ 119,314
Federal funds sold and securities purchased under agreements to resell	44,741
Assets segregated for regulatory purposes	181,610
Securities	707,476
Non-covered loans, net	863,819
Broker-dealer and clearing organization receivables	1,221,793
Other assets	159,906
Total identifiable assets acquired	3,298,659
Deposits	(1,287,509)
Broker-dealer and clearing organization payables	(1,109,978)
Short-term borrowings	(164,240)
Securities sold, not yet purchased, at fair value	(140,409)
Notes payable	(76,643)
Other liabilities	(89,466)
Total liabilities assumed	(2,868,245)
Bargain purchase gain	(81,289)
	349,125
Less Hilltop existing investment in SWS	(70,282)
Net identifiable assets acquired	\$ 278,843

The bargain purchase gain represents the excess of the estimated fair value of the underlying net tangible assets and intangible assets over the merger consideration. The SWS Merger was a tax-free reorganization under Section 368(a) of the Internal Revenue Code, therefore no income taxes were recorded in connection with the bargain purchase gain. The Company used significant estimates and assumptions to value certain identifiable assets acquired and liabilities assumed. The bargain purchase gain was primarily driven by the Company's ability to realize acquired deferred tax assets through its consolidated core earnings and the decline in the price of the Company's common stock between the date the fixed conversion ratio was agreed upon and the closing date.

Included within the fair value of other assets in the table above are identifiable intangible assets recorded in connection with the SWS Merger. The allocation to intangible assets is as follows (in thousands).

	Estimated Useful Life (Years)	Gross Intangible Assets
Customer relationships	14	\$ 7,300
Core deposits	4	160
		\$ 7,460

In connection with the SWS Merger, Hilltop acquired loans both with and without evidence of credit quality deterioration since origination. The acquired loans were initially recorded at fair value with no carryover of any allowance for loan losses. Acquired loans were segregated between those considered to be purchased credit impaired (“PCI”) loans and those without credit impairment at acquisition.

3. Fair Value Measurements

Fair Value Measurements and Disclosures

The Company determines fair values in compliance with The Fair Value Measurements and Disclosures Topic of the ASC (the “Fair Value Topic”). The Fair Value Topic defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. The Fair Value Topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Fair Value Topic assumes that transactions upon which fair value measurements are based occur in the principal market for the asset or liability being measured. Further, fair value measurements made under the Fair Value Topic exclude transaction costs and are not the result of forced transactions.

The Fair Value Topic creates a fair value hierarchy that classifies fair value measurements based upon the inputs used in valuing the assets or liabilities that are the subject of fair value measurements. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs, as indicated below.

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities that the Company can access at the measurement date.
- Level 2 Inputs: Observable inputs other than Level 1 prices. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (such as interest rates, yield curves, prepayment speeds, default rates, credit risks and loss severities), and inputs that are derived from or corroborated by market data, among others.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

- Level 3 Inputs: Unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing the assets or liabilities. Level 3 inputs include pricing models and discounted cash flow techniques, among others.

Fair Value Option

The Company has elected to measure substantially all of PrimeLending's mortgage loans held for sale and retained mortgage servicing rights ("MSR") asset at fair value, under the provisions of the Fair Value Option. The Company elected to apply the provisions of the Fair Value Option to these items so that it would have the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. At March 31, 2016 and December 31, 2015, the aggregate fair value of PrimeLending's mortgage loans held for sale accounted for under the Fair Value Option was \$1.29 billion and \$1.46 billion, respectively, and the unpaid principal balance of those loans was \$1.23 billion and \$1.41 billion, respectively. The interest component of fair value is reported as interest income on loans in the accompanying consolidated statements of operations.

The Company holds a number of financial instruments that are measured at fair value on a recurring basis, either by the application of the Fair Value Option or other authoritative pronouncements. The fair values of those instruments are determined primarily using Level 2 inputs. Those inputs include quotes from mortgage loan investors and derivatives dealers and data from independent pricing services.

The following tables present information regarding financial assets and liabilities measured at fair value on a recurring basis (in thousands).

	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
March 31, 2016				
Trading securities	\$ 12,916	\$ 355,508	\$ 1	\$ 368,425

All net realized and unrealized gains (losses) in the table above are reflected in the accompanying consolidated financial statements. The unrealized gains (losses) relate to financial instruments still held at March 31, 2016.

For Level 3 financial instruments measured at fair value on a recurring basis at March 31, 2016, the significant unobservable inputs used in the fair value measurements were as follows.

Range

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

Financial instrument	Valuation Technique	Unobservable Input	(Weighted-Average)
Trading securities	Discounted cash flow	Discount rate	8 - 17 % (10 %)
Loans held for sale	Discounted cash flow / Market comparable	Projected price	88 - 96 % (96 %)
MSR asset	Discounted cash flow	Constant prepayment rate	16.92 %
		Discount rate	10.79 %

Trading securities include corporate debt securities that are valued using a discounted cash flow model with observable market data; however, due to the distressed nature of these bonds, the Company has determined that these securities should be valued as a Level 3 financial instrument.

The fair value of certain loans held for sale that cannot be sold through normal sale channels or are non-performing is measured using Level 3, or unobservable, inputs. The fair value of such loans is generally based upon estimates of expected cash flows using unobservable inputs, including listing prices of comparable assets, uncorroborated expert opinions, and/or management's knowledge of underlying collateral.

The MSR asset, which is included in other assets within the Company's consolidated balance sheets, is valued by projecting net servicing cash flows, which are then discounted to estimate the fair value. The fair value of the MSR asset is impacted by a variety of factors. Prepayment rates and discount rates, the most significant unobservable inputs, are discussed further in Note 7 to the consolidated financial statements.

The Company had no transfers between Levels 1 and 2 during the periods presented.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The following table presents the changes in fair value for instruments that are reported at fair value under the Fair Value Option (in thousands).

	Three Months Ended March 31, 2016			Three Months Ended March 31, 2015		
	Net Gains (Losses)	Other Noninterest Income	Total Changes in Fair Value	Net Gains (Losses)	Other Noninterest Income	Total Changes in Fair Value
Loans held for sale	\$ 447	\$ —	\$ 447	\$ (6,695)	\$ —	\$ (6,695)
MSR asset	(14,061)	—	(14,061)	(7,197)	—	(7,197)

The Company also determines the fair value of certain assets and liabilities on a non-recurring basis. In particular, the fair value of all of the assets acquired and liabilities assumed in the SWS Merger was determined at the acquisition date. In addition, facts and circumstances may dictate a fair value measurement when there is evidence of impairment. Assets and liabilities measured on a non-recurring basis include the items discussed below.

Impaired Loans — The Company reports impaired loans based on the underlying fair value of the collateral through specific allowances within the allowance for loan losses. PCI loans with a fair value of \$172.9 million, \$822.8 million and \$73.5 million were acquired by the Company upon completion of the merger with PlainsCapital (the “PlainsCapital Merger”), the FDIC-assisted transaction (the “FNB Transaction”) whereby the Bank acquired certain assets and assumed certain liabilities of First National Bank (“FNB”) and the SWS Merger, respectively (collectively, the “Bank Transactions”). Substantially all PCI loans acquired in the FNB Transaction are covered by FDIC loss-share agreements. The fair value of PCI loans was determined using Level 3 inputs, including estimates of expected cash flows that incorporated significant unobservable inputs regarding default rates, loss severity rates assuming default, prepayment speeds on acquired loans accounted for in pools (“Pooled Loans”), and estimated collateral values.

At March 31, 2016, estimates for these significant unobservable inputs were as follows.

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

	PCI Loans					
	PlainsCapital	FNB		SWS		
	Merger	Transaction		Merger		
Weighted average default rate	60	% 55	%	51	%	%
Weighted average loss severity rate	51	% 34	%	30	%	%
Weighted average prepayment speed	0	% 6	%	0	%	%

At March 31, 2016, the resulting weighted average expected loss on PCI loans associated with the PlainsCapital Merger, FNB Transaction and SWS Merger was 31%, 19% and 15%, respectively.

The Company obtains updated appraisals of the fair value of collateral securing impaired collateral dependent loans at least annually, in accordance with regulatory guidelines. The Company also reviews the fair value of such collateral on a quarterly basis. If the quarterly review indicates that the fair value of the collateral may have deteriorated, the Company orders an updated appraisal of the fair value of the collateral. Because the Company obtains updated appraisals when evidence of a decline in the fair value of collateral exists, it typically does not adjust appraised values.

Other Real Estate Owned — The Company determines fair value primarily using independent appraisals of other real estate owned (“OREO”) properties. The resulting fair value measurements are classified as Level 2 or Level 3 inputs, depending upon the extent to which unobservable inputs determine the fair value measurement. The Company considers a number of factors in determining the extent to which specific fair value measurements utilize unobservable inputs, including, but not limited to, the inherent subjectivity in appraisals, the length of time elapsed since the receipt of independent market price or appraised value, and current market conditions. At March 31, 2016, the most significant unobservable input used in the determination of fair value of OREO was a discount to independent appraisals for estimated holding periods of OREO properties. Level 3 inputs were used to determine the initial fair value at acquisition of a large group of smaller balance properties that were acquired in the FNB Transaction. In the FNB Transaction, the Bank acquired OREO of \$135.2 million, all of which is covered by FDIC loss-share agreements. At March 31, 2016 and December 31, 2015, the estimated fair value of covered OREO was \$78.9 million and \$99.1 million, respectively, and

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

the underlying fair value measurements utilize Level 2 and Level 3 inputs. The fair value of non-covered OREO at March 31, 2016 and December 31, 2015 was \$0.5 million and \$0.4 million, respectively, and is included in other assets within the consolidated balance sheets. During the reported periods, all fair value measurements for non-covered OREO subsequent to initial recognition utilized Level 2 inputs.

The following table presents information regarding certain assets and liabilities measured at fair value on a non-recurring basis for which a change in fair value has been recorded during reporting periods subsequent to initial recognition (in thousands).

	Level 1	Level 2	Level 3	Total	Total Gains (Losses) for the Three Months Ended	
March 31, 2016	Inputs	Inputs	Inputs	Fair Value	March 31, 2016	2015
Non-covered impaired loans	\$ —	\$ —	\$ 39,722	\$ 39,722	\$ (33)	\$ 349
Covered impaired loans	—	—	45,025	45,025	332	3,218
Non-covered other real estate owned	—	—	—	—	—	(28)
Covered other real estate owned	—	11,322	—	11,322	(9,765)	(950)

The Fair Value of Financial Instruments Subsection of the ASC requires disclosure of the fair value of financial assets and liabilities, including the financial assets and liabilities previously discussed. The methods for determining estimated fair value for financial assets and liabilities is described in detail in Note 3 to the consolidated financial statements included in the Company's 2015 Form 10-K.

The following tables present the carrying values and estimated fair values of financial instruments not measured at fair value on either a recurring or non-recurring basis (in thousands).

The Hilltop Broker-Dealers enter into transactions that represent commitments to purchase and deliver securities at prevailing future market prices to facilitate customer transactions and satisfy such commitments. Accordingly, the Hilltop Broker-Dealers' ultimate obligation may exceed the amount recognized in the financial statements. These securities, which are carried at fair value and reported as securities sold, not yet purchased in the consolidated balance sheet, had a value of \$165.7 million and \$130.0 million at March 31, 2016 and December 31, 2015, respectively.

During the three months ended March 31, 2016 and 2015, the Company did not record any other-than-temporary impairments (“OTTI”). Factors considered in the Company’s analysis include the reasons for the unrealized loss position, the severity and duration of the unrealized loss position, credit worthiness, and forecasted performance of the investee. While some of the securities held in the investment portfolio have decreased in value since the date of acquisition, the severity of loss and the duration of the loss position are not believed to be significant enough to warrant OTTI of the securities. The Company does not intend, nor does the Company believe that it is likely that the Company will be required, to sell these securities before the recovery of the cost basis.

Expected maturities may differ from contractual maturities because certain borrowers may have the right to call or prepay obligations with or without penalties. The amortized cost and fair value of securities, excluding trading and available for sale equity securities, at March 31, 2016 are shown by contractual maturity below (in thousands).

	Available for Sale		Held to Maturity	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
Due in one year or less	\$ 105,633	\$ 105,938	\$ 26,360	\$ 26,364

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Securities with a carrying amount of \$753.5 million and \$789.9 million (with a fair value of \$761.3 million and \$790.2 million, respectively) at March 31, 2016 and December 31, 2015, respectively, were pledged to secure public and trust deposits, federal funds purchased and securities sold under agreements to repurchase, and for other purposes as required or permitted by law. Substantially all of these pledged securities were included in our available for sale and held to maturity securities portfolios at March 31, 2016 and December 31, 2015.

Mortgage-backed securities and collateralized mortgage obligations consist principally of Government National Mortgage Association (“GNMA”), Federal National Mortgage Association (“FNMA”) and Federal Home Loan Mortgage Corporation (“FHLMC”) pass-through and participation certificates. GNMA securities are guaranteed by the full faith and credit of the United States, while FNMA and FHLMC securities are fully guaranteed by those respective United States government-sponsored agencies, and conditionally guaranteed by the full faith and credit of the United States.

At March 31, 2016 and December 31, 2015, NLC had investments on deposit in custody for various state insurance departments with carrying values of \$9.7 million and \$9.2 million, respectively.

5. Non-Covered Loans and Allowance for Non-Covered Loan Losses

Non-covered loans refer to loans not covered by the FDIC loss-share agreements. Covered loans are discussed in Note 6 to the consolidated financial statements. Non-covered loans summarized by portfolio segment are as follows (in thousands).

	March 31, 2016	December 31, 2015
Commercial and industrial	\$ 1,619,567	\$ 1,552,805
Real estate	2,536,302	2,313,239
Construction and land development	701,358	705,356
Consumer	44,851	45,672

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

Broker-dealer (1)	463,987	602,968
	5,366,065	5,220,040
Allowance for non-covered loan losses	(48,450)	(45,415)
Total non-covered loans, net of allowance	\$ 5,317,615	\$ 5,174,625

(1) Represents margin loans to customers and correspondents associated with our broker-dealer segment operations.

In connection with the Bank Transactions, the Company acquired non-covered loans both with and without evidence of credit quality deterioration since origination. The following table presents the carrying values and the outstanding balances of the non-covered PCI loans (in thousands).

	March 31, 2016	December 31, 2015
Carrying amount	\$ 68,053	\$ 72,054
Outstanding balance	87,345	92,682

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Changes in the accretable yield for the non-covered PCI loans were as follows (in thousands).

	Three Months Ended	
	March 31,	
	2016	2015
Balance, beginning of period	\$ 17,744	\$ 12,814
Additions	—	14,579
Reclassifications from (to) nonaccretable difference, net(1)	2,343	281
Disposals of loans	—	(448)
Accretion	(3,919)	(2,749)
Balance, end of period	\$ 16,168	\$ 24,477

(1) Reclassifications from nonaccretable difference are primarily due to net increases in expected cash flows in the quarterly recasts. Reclassifications to nonaccretable difference occur when accruing loans are moved to nonaccrual and expected cash flows are no longer predictable and the accretable yield is eliminated.

The remaining nonaccretable difference for non-covered PCI loans was \$28.0 million and \$28.5 million at March 31, 2016 and December 31, 2015, respectively.

Impaired loans exhibit a clear indication that the borrower's cash flow may not be sufficient to meet principal and interest payments, which is generally when a loan is 90 days past due unless the asset is both well secured and in the process of collection. Non-covered impaired loans include non-accrual loans, troubled debt restructurings ("TDRs"), PCI loans and partially charged-off loans.

The amounts shown in following tables include loans accounted for on an individual basis, as well as acquired Pooled Loans. For Pooled Loans, the recorded investment with allowance and the related allowance consider impairment measured at the pool level. Non-covered impaired loans, segregated between those considered to be PCI loans and those without credit impairment at acquisition, are summarized by class in the following tables (in thousands).

Commercial construction loans and land development	102	114
Consumer	1	7
Broker-dealer	—	—
	\$ 24,965	\$ 23,481

At March 31, 2016 and December 31, 2015, non-covered non-accrual loans included non-covered PCI loans of \$10.3 million and \$9.3 million, respectively, for which discount accretion has been suspended because the extent and timing of cash flows from these non-covered PCI loans can no longer be reasonably estimated. In addition to the non-covered non-accrual loans in the table above, \$2.1 million and \$1.6 million of real estate loans secured by residential properties and classified as held for sale were in non-accrual status at March 31, 2016 and December 31, 2015, respectively.

Interest income, including recoveries and cash payments, recorded on non-covered impaired loans was \$0.1 million and \$0.6 million during the three months ended March 31, 2016 and 2015, respectively. Except as noted above, non-covered PCI loans are considered to be performing due to the application of the accretion method.

The Bank classifies loan modifications as TDRs when it concludes that it has both granted a concession to a debtor and that the debtor is experiencing financial difficulties. Loan modifications are typically structured to create affordable payments for the debtor and can be achieved in a variety of ways. The Bank modifies loans by reducing

interest rates and/or lengthening loan amortization schedules. The Bank also reconfigures a single loan into two or more loans (“A/B Note”). The typical A/B Note restructure results in a “bad” loan which is charged off and a “good” loan or loans the terms of which comply with the Bank’s customary underwriting policies. The debt charged off on the “bad” loan is not forgiven to the debtor.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The outstanding balance of TDRs granted in the three months ended March 31, 2016 and 2015, respectively, is shown in the following tables (in thousands). The TDR granted during the three months ended March 31, 2015 was paid off as of June 30, 2015. At March 31, 2016 and December 31, 2015, the Bank had nominal unadvanced commitments to borrowers whose loans have been restructured in TDRs.

In addition to the non-covered loans shown in the table above, \$50.7 million and \$50.8 million of loans included in loans held for sale (with an unpaid principal balance of \$51.2 million and \$51.1 million, respectively) were 90 days past due and accruing interest at March 31, 2016 and December 31, 2015, respectively. These loans are guaranteed by U.S. government agencies and include loans that are subject to repurchase, or have been repurchased, by PrimeLending.

Management tracks credit quality trends on a quarterly basis related to: (i) past due levels, (ii) non-performing asset levels, (iii) classified loan levels, (iv) net charge-offs, and (v) general economic conditions in the state and local markets.

The Bank utilizes a risk grading matrix to assign a risk grade to each of the loans in its portfolio. A risk rating is assigned based on an assessment of the borrower's management, collateral position, financial capacity, and economic factors. The general characteristics of the various risk grades are described below.

Pass – "Pass" loans present a range of acceptable risks to the Bank. Loans that would be considered virtually risk-free are rated Pass – low risk. Loans that exhibit sound standards based on the grading factors above and present a reasonable

risk to the Bank are rated Pass – normal risk. Loans that exhibit a minor weakness in one or more of the grading criteria but still present an acceptable risk to the Bank are rated Pass – high risk.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Special Mention – “Special Mention” loans have potential weaknesses that deserve management’s close attention. If left uncorrected, these potential weaknesses may result in a deterioration of the repayment prospects for the loans and weaken the Bank’s credit position at some future date. Special Mention loans are not adversely classified and do not expose the Bank to sufficient risk to require adverse classification.

Substandard – “Substandard” loans are inadequately protected by the current sound worth and paying capacity of the obligor or the collateral pledged, if any. Loans so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected. Many substandard loans are considered impaired.

PCI – “PCI” loans exhibited evidence of credit deterioration at acquisition that made it probable that all contractually required principal payments would not be collected.

The following tables present the internal risk grades of non-covered loans, as previously described, in the portfolio by class (in thousands).

March 31, 2016	Pass	Special Mention	Substandard	PCI	Total
Commercial and industrial:

Allowance for Loan Losses

The allowance for both originated and acquired loans is subject to regulatory examinations and determinations as to appropriateness, which may take into account such factors as the methodology used to calculate the allowance and the size of the allowance. The Company's analysis of the level of the allowance for loan losses to ensure that it is appropriate for the estimated credit losses in the portfolio consistent with the Interagency Policy Statement on the

Notes to Consolidated Financial Statements (continued)

(Unaudited)

6. Covered Assets and Indemnification Asset

As discussed in Note 2 to the consolidated financial statements, the Bank assumed substantially all of the liabilities, including all of the deposits, and acquired substantially all of the assets of FNB in an FDIC-assisted transaction on September 13, 2013 (the “Bank Closing Date”). As part of the Purchase and Assumption Agreement by and among the FDIC (as receiver of FNB), the Bank and the FDIC (the “P&A Agreement”), the Bank and the FDIC entered into loss-share agreements covering future losses incurred on certain acquired loans and OREO. The Company refers to acquired commercial and single family residential loan portfolios and OREO that are subject to the loss-share agreements as “covered loans” and “covered OREO”, respectively, and these assets are presented as separate line items in the Company’s consolidated balance sheets. Collectively, covered loans and covered OREO are referred to as “covered assets”. Pursuant to the loss-share agreements, the FDIC has agreed to reimburse the Bank the following amounts with respect to the covered assets: (i) 80% of net losses on the first \$240.4 million of net losses incurred; (ii) 0% of net losses in excess of \$240.4 million up to and including \$365.7 million of net losses incurred; and (iii) 80% of net losses in excess of \$365.7 million of net losses incurred. Net losses are defined as book value losses plus certain defined expenses incurred in the resolution of assets, less subsequent recoveries. Under the loss-share agreement for commercial assets, the amount of subsequent recoveries that are reimbursable to the FDIC for a particular asset is limited to book value losses and expenses actually billed plus any book value charge-offs incurred prior to the Bank Closing Date. There is no limit on the amount of subsequent recoveries reimbursable to the FDIC under the loss-share agreement for single family residential assets. The loss-share agreements for commercial and single family residential assets are in effect for 5 years and 10 years, respectively, from the Bank Closing Date, and the loss recovery provisions to the FDIC are in effect for 8 years and 10 years, respectively, from the Bank Closing Date. The asset arising from the loss-share agreements, referred to as the “FDIC Indemnification Asset,” is measured separately from the covered loan portfolio because the agreements are not contractually embedded in the covered loans and are not transferable should the Bank choose to dispose of the covered loans.

In accordance with the loss-share agreements, the Bank may be required to make a “true-up” payment to the FDIC approximately ten years following the Bank Closing Date if its actual net realized losses over the life of the loss-share agreements are less than the FDIC’s initial estimate of losses on covered assets. The “true-up” payment is calculated using a defined formula set forth in the P&A Agreement. At March 31, 2016, the Bank recorded a related “true-up” payment accrual of \$7.5 million based on the current estimate of aggregate realized losses on covered assets over the life of the loss-share agreements.

Covered Loans and Allowance for Covered Loan Losses

Loans acquired in the FNB Transaction that are subject to a loss-share agreement are referred to as “covered loans” and reported separately in the consolidated balance sheets. Covered loans are reported exclusive of the cash flow reimbursements that may be received from the FDIC.

The Bank’s portfolio of acquired covered loans had a fair value of \$1.1 billion as of the Bank Closing Date, with no carryover of any allowance for loan losses. Acquired covered loans were segregated between those considered to be PCI loans and those without credit impairment at acquisition.

In connection with the FNB Transaction, the Bank acquired loans both with and without evidence of credit quality deterioration since origination. The Company’s accounting policies for acquired covered loans, including covered PCI loans, are consistent with those of acquired non-covered loans, as described in Note 5 to the consolidated financial statements. The Company has established under its PCI accounting policy a framework to aggregate certain acquired covered loans into various loan pools based on a minimum of two layers of common risk characteristics for the purpose of determining their respective fair values as of their acquisition dates, and for applying the subsequent recognition and measurement provisions for income accretion and impairment testing.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The following table presents the carrying value of the covered loans summarized by portfolio segment (in thousands).

	March 31, 2016	December 31, 2015
Commercial and industrial	\$ 9,070	\$ 8,801
Real estate	318,921	341,048
Construction and land development	19,395	30,445
	347,386	380,294
Allowance for covered loans	(1,217)	(1,532)
Total covered loans, net of allowance	\$ 346,169	\$ 378,762

The following table presents the carrying value and the outstanding contractual balance of the covered PCI loans (in thousands).

	March 31, 2016	December 31, 2015
Carrying amount	\$ 197,865	\$ 221,974
Outstanding balance	371,802	408,221

Changes in the accretable yield for the covered PCI loans were as follows (in thousands).

	Three Months Ended March 31,	
	2016	2015
Balance, beginning of period	\$ 176,719	\$ 193,493
Reclassifications from (to) nonaccretable difference, net(1)	9,633	16,263
Transfer of loans to covered OREO(2)	(109)	1,172
Accretion	(17,110)	(16,931)

Balance, end of period

\$ 169,133 \$ 193,997

- (1) Reclassifications from nonaccretable difference are primarily due to net increases in expected cash flows in the quarterly recasts, but may also include the reclassification and immediate income recognition of nonaccretable difference due to the favorable resolution of loans accounted for individually. Reclassifications to nonaccretable difference occur when accruing loans are moved to nonaccrual and expected cash flows are no longer predictable and the accretable yield is eliminated.
- (2) Transfer of loans to covered OREO is the difference between the value removed from the pool and the expected cash flows for the loan.

The remaining nonaccretable difference for covered PCI loans was \$150.6 million and \$172.2 million at March 31, 2016 and December 31, 2015, respectively. During the three months ended March 31, 2016 and 2015, a combination of factors affecting the inputs to the Bank's quarterly recast process led to the reclassifications from nonaccretable difference to accretable yield. These transfers resulted from revised cash flows that reflect better-than-expected performance of the covered PCI loan portfolio as a result of the Bank's strategic decision to dedicate resources to the liquidation of covered loans during the noted periods.

(Unaudited)

Covered impaired loans include non-accrual loans, TDRs, PCI loans and partially charged-off loans. The amounts shown in following tables include Pooled Loans, as well as loans accounted for on an individual basis. For Pooled Loans, the recorded investment with allowance and the related allowance consider impairment measured at the pool level. Covered impaired loans, segregated between those considered to be PCI loans and those without credit impairment at acquisition, are summarized by class in the following tables (in thousands).

Construction and land development:		
Residential construction loans	520	541
Commercial construction loans and land development	13	5,411

\$ 3,576 \$ 8,978

At March 31, 2016, there were no covered PCI loans included within non-accrual loans for which discount accretion has been suspended. At December 31, 2015, covered non-accrual loans included covered PCI loans of \$5.3 million for which discount accretion has been suspended because the extent and timing of cash flows from these covered PCI loans can no longer be reasonably estimated.

Interest income, including recoveries and cash payments, recorded on covered impaired loans during the three months ended March 31, 2016 and 2015 was nominal. Except as noted above, covered PCI loans are considered to be performing due to the application of the accretion method.

The Bank classifies loan modifications of covered loans as TDRs in a manner consistent with that of non-covered loans as discussed in Note 5 to the consolidated financial statements. There were no TDRs granted during the three months ended March 31, 2016. The outstanding balance of TDRs granted during three months ended March 31, 2015 is shown in the following table (in thousands). Pooled Loans are not in the scope of the disclosure requirements for TDRs. At March 31, 2016 and December 31, 2015, the Bank had nominal unadvanced commitments to borrowers whose loans have been restructured in TDRs.

Covered Other Real Estate Owned

A summary of the activity in covered OREO is as follows (in thousands).

	Three Months Ended March 31,	
	2016	2015
Balance, beginning of period	\$ 99,090	\$ 136,945
Additions to covered OREO	4,542	24,042
Dispositions of covered OREO	(14,977)	(22,334)
Valuation adjustments in the period	(9,765)	(950)
Balance, end of period	\$ 78,890	\$ 137,703

During the three months ended March 31, 2016 and 2015, the Bank wrote down certain covered OREO assets to fair value to reflect new appraisals on certain OREO acquired in the FNB Transaction and OREO acquired from the foreclosure on certain FNB loans acquired in the FNB Transaction. Although the Bank recorded a fair value discount on the acquired assets upon acquisition, in some cases additional downward valuations were required.

These additional downward valuation adjustments reflect changes to the assumptions regarding the fair value of the OREO, including in some cases the intended use of the OREO due to the availability of more information, as well as

the passage of time. The process of determining fair value is subjective in nature and requires the use of significant estimates and assumptions. Although the Bank makes market-based assumptions when valuing acquired assets, new information may come to light that causes estimates to increase or decrease. When the Bank determines, based on subsequent information, that its estimates require adjustment, the Bank records the adjustment. The accounting for such adjustments requires that the decreases to fair value be recorded at the time such new information is received, while increases to fair value are recorded when the asset is subsequently sold.

FDIC Indemnification Asset

A summary of the activity in the FDIC Indemnification Asset is as follows (in thousands).

	Three Months Ended March 31,	
	2016	2015
Balance, beginning of period	\$ 91,648	\$ 130,437
FDIC Indemnification Asset accretion (amortization)	87	506
Transfers to due from FDIC and other	(11,213)	(23,376)
Balance, end of period	\$ 80,522	\$ 107,567

As of March 31, 2016, the Bank had billed and collected \$111.5 million from the FDIC, which represented reimbursable covered losses and expenses through December 31, 2015.

(Unaudited)

7. Mortgage Servicing Rights

The following tables present the changes in fair value of the Company's MSR, as included in other assets within the consolidated balance sheets, and other information related to the serviced portfolio (dollars in thousands).

	Three Months Ended March 31,	
	2016	2015
Balance, beginning of period	\$ 52,285	\$ 36,155
Additions	1,639	2,690
Changes in fair value:		
Due to changes in model inputs or assumptions (1)	(12,842)	(5,044)
Due to customer payoffs	(1,219)	(2,153)
Balance, end of period	\$ 39,863	\$ 31,648

	March 31,		December 31,	
	2016		2015	
Mortgage loans serviced for others	\$ 5,004,100		\$ 5,051,884	
MSR asset as a percentage of serviced mortgage loans	0.80	%	1.03	%

(1) Primarily represents normal customer payments, changes in discount rates and prepayment speed assumptions, which are primarily affected by changes in interest rates and the refinement of other MSR model assumptions.

The key assumptions used in measuring the fair value of the Company's MSR were as follows.

	March 31,		December 31,	
	2016		2015	
Weighted average constant prepayment rate	16.92	%	11.51	%
Weighted average discount rate	10.79	%	10.92	%
Weighted average life (in years)	4.8		6.5	

A sensitivity analysis of the fair value of the Company's MSR to certain key assumptions is presented in the following table (in thousands).

	March 31, 2016	December 31, 2015
Constant prepayment rate:		
Impact of 10% adverse change	\$ (1,831)	\$ (2,177)
Impact of 20% adverse change	(3,494)	(4,195)
Discount rate:		
Impact of 10% adverse change	(1,073)	(2,073)
Impact of 20% adverse change	(2,076)	(3,989)

This sensitivity analysis presents the effect of hypothetical changes in key assumptions on the fair value of the MSR. The effect of such hypothetical change in assumptions generally cannot be extrapolated because the relationship of the change in one key assumption to the change in the fair value of the MSR is not linear. In addition, in the analysis, the impact of an adverse change in one key assumption is calculated independent of any impact on other assumptions. In reality, changes in one assumption may change another assumption.

Contractually specified servicing fees, late fees and ancillary fees earned of \$5.9 million and \$4.2 million during the three months ended March 31, 2016 and 2015, respectively, were included in other noninterest income within the consolidated statements of operations.

8. Deposits

Deposits are summarized as follows (in thousands).

	March 31, 2016	December 31, 2015
Noninterest-bearing demand	\$ 2,233,608	\$ 2,235,436
Interest-bearing:		
NOW accounts	1,171,481	1,077,576
Money market	1,447,155	1,500,780
Brokered - money market	97,472	133,380
Demand	343,083	380,214
Savings	330,307	273,390
Time	1,361,069	1,325,342
Brokered - time	—	26,565
	\$ 6,984,175	\$ 6,952,683

9. Short-term Borrowings

Short-term borrowings are summarized as follows (in thousands).

	March 31, 2016	December 31, 2015
Federal funds purchased	\$ 62,900	\$ 58,925

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

Securities sold under agreements to repurchase	320,021	217,748
Federal Home Loan Bank	300,000	600,000
Short-term bank loans	150,000	70,700
	\$ 832,921	\$ 947,373

Federal funds purchased and securities sold under agreements to repurchase generally mature daily, on demand, or on some other short-term basis. The Bank and the Hilltop Broker-Dealers execute transactions to sell securities under agreements to repurchase with both customers and broker-dealers. Securities involved in these transactions are held by the Bank, the Hilltop Broker-Dealers or a third-party dealer.

Information concerning federal funds purchased and securities sold under agreements to repurchase is shown in the following tables (dollars in thousands).

	Three Months Ended	
	March 31, 2016	2015
Average balance during the period	\$ 329,392	\$ 361,600
Average interest rate during the period	0.49 %	0.25 %

	March 31, 2016		December 31, 2015	
		%		%
Average interest rate at end of period	0.41	%	0.26	%
Securities underlying the agreements at end of period:				
Carrying value	\$ 333,973		\$ 250,981	
Estimated fair value	\$ 337,695		\$ 250,045	

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

Federal Home Loan Bank (“FHLB”) short-term borrowings mature over terms not exceeding 365 days and are collateralized by FHLB Dallas stock, nonspecified real estate loans and certain specific commercial real estate loans. Other information regarding FHLB short-term borrowings is shown in the following tables (dollars in thousands).

	Three Months Ended	
	March 31,	
	2016	2015
Average balance during the period	\$ 234,341	\$ 235,111
Average interest rate during the period	0.44 %	0.22 %

	March 31,		December 31,	
	2016		2015	
Average interest rate at end of period	0.47	%	0.35	%

The Hilltop Broker-Dealers use short-term bank loans periodically to finance securities owned, margin loans to customers and correspondents, and underwriting activities. Interest on the borrowings varies with the federal funds rate. The weighted average interest rate on the borrowings at both March 31, 2016 and December 31, 2015 was 1.26%.

10. Notes Payable

	March 31,	December
	2016	31,
		2015
NLIC note payable due May 2033	\$ 10,000	\$ 10,000
NLIC note payable due September 2033	10,000	10,000
ASIC note payable due April 2034	7,500	7,500
Insurance company note payable due March 2035	20,000	20,000

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

Federal Home Loan Bank notes, maturities ranging from May 2016 to June 2030	32,524	36,042
Insurance company line of credit due December 31, 2016	1,500	7,000
Ventures line of credit due August 2016	2,459	—
Senior Notes due April 2025, net	148,207	148,174
	\$ 232,190	\$ 238,716

11. Income Taxes

The Company applies an estimated annual effective rate to interim period pre-tax income to calculate the income tax provision for the quarter in accordance with the principal method prescribed by the accounting guidance established for computing income taxes in interim periods. The Company's effective tax rate was 33.8% and 11.9% during the three months ended March 31, 2016 and 2015, respectively. The effective tax rate during the three months ended March 31, 2016 was lower than the statutory rate primarily due to recognition of excess tax benefits on share-based payment awards as a result of the Company's adoption of the provisions of Accounting Standards Update ("ASU") 2016-09 as of January 1, 2016 as discussed in Note 23 to the consolidated financial statements. The lower effective tax rate during the three months ended March 31, 2015 was primarily due to no income taxes being recorded during 2015 in connection with the bargain purchase gain of \$81.3 million associated with the SWS Merger because the acquisition was a tax-free reorganization under Section 368(a) of the Internal Revenue Code. In addition, the Company recorded an income tax benefit during 2015 of \$2.1 million as a result of the SWS Merger to reverse the deferred tax liability for the difference between book and tax basis on Hilltop's investment in SWS common stock.

(Unaudited)

12. Commitments and Contingencies

Legal Matters

The Company is subject to loss contingencies related to litigation, claims, investigations and legal and administrative cases and proceedings arising in the ordinary course of business. The Company evaluates these contingencies based on information currently available, including advice of counsel. The Company establishes accruals for those matters when a loss contingency is considered probable and the related amount is reasonably estimable. Any accruals are periodically reviewed and may be adjusted as circumstances change. A portion of the Company's exposure with respect to loss contingencies may be offset by applicable insurance coverage. In determining the amounts of any accruals or estimates of possible loss contingencies, the Company does not take into account the availability of insurance coverage, other than that provided by reinsurers in the insurance segment. When it is practicable, the Company estimates loss contingencies for possible litigation and claims, whether or not there is an accrued probable loss. When the Company is able to estimate such possible losses, and when it estimates that it is reasonably possible it could incur losses, in excess of amounts accrued, the Company is required to make a disclosure of the aggregate estimation. As available information changes, however, the matters for which the Company is able to estimate, as well as the estimates themselves will be adjusted, accordingly.

Assessments of litigation and claims exposures are difficult due to many factors that involve inherent unpredictability. Those factors include the following: the varying stages of the proceedings, particularly in the early stages; unspecified, unsupported, or uncertain damages; damages other than compensatory, such as punitive damages; a matter presenting meaningful legal uncertainties, including novel issues of law; multiple defendants and jurisdictions; whether discovery has begun or not or discovery is not complete; meaningful settlement discussions have not commenced; and whether the claim involves a class action and if so, how the class is defined. As a result of some of these factors, the Company may be unable to estimate reasonably possible losses with respect to some or all of the pending and threatened litigation and claims asserted against the Company.

Following completion of Hilltop's acquisition of SWS, several purported holders of shares of SWS common stock filed petitions in the Court of Chancery of the State of Delaware seeking appraisal for their shares pursuant to Section 262 of the Delaware General Corporation Law. These petitions were consolidated as *In re SWS Group, Inc., C.A. No. 10554-VCG*. The consolidated matter represents a total of approximately 5.2 million shares of SWS common stock. The Company intends to vigorously defend this matter.

On or about November 2, 2012, FSC, along with thirteen other defendants, was named in a lawsuit pending in the state of Rhode Island Superior Court styled Rhode Island Economic Development Corporation v. Wells Fargo Securities, LLC, et al. FSC is included in connection with its role as financial advisor to the State of Rhode Island, specifically in connection with the Rhode Island Economic Development Corporation's issuance of \$75 million in bonds to finance a loan to 38 Studios, LLC. 38 Studios, LLC ultimately failed to repay the loan and the Rhode Island Economic Development Corporation is seeking recovery to repay the bonds it issued to make such loan. FSC intends to defend itself vigorously in this action.

The Company is involved in information-gathering requests and investigations (both formal and informal), as well as reviews, examinations and proceedings (collectively, "Inquiries") by various governmental regulatory agencies, law enforcement authorities and self-regulatory bodies regarding certain of its businesses, business practices and policies, as well as the conduct of persons with whom it does business. Additional Inquiries will arise from time to time. In connection with those Inquiries, the Company receives document requests, subpoenas and other requests for information. The Inquiries, including the Inquiry described below, could develop into administrative, civil or criminal proceedings or enforcement actions that could result in consequences that have a material effect on the Company's consolidated financial position, results of operations or cash flows as a whole. Such consequences could include adverse judgments, findings, settlements, penalties, fines, orders, injunctions, restitution, or alterations in the Company's business practices, and could result in additional expenses and collateral costs, including reputational damage.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

As a part of an industry-wide Inquiry, PrimeLending received a subpoena from the Office of Inspector General of the U.S. Department of Housing and Urban Development regarding mortgage-related practices, including those relating to origination practices for loans insured by the Federal Housing Administration (the “FHA”). On August 20, 2014, PrimeLending received a Civil Investigative Demand from the United States Department of Justice (the “DOJ”) related to this Inquiry. According to the Civil Investigative Demand, the DOJ is conducting an investigation to determine whether PrimeLending has violated the False Claims Act in connection with originating and underwriting single-family residential mortgage loans insured by the FHA. No claims or demands have been asserted against PrimeLending. PrimeLending cannot predict the ultimate outcome of this investigation, and cannot make a reasonable estimate of potential liability, if any, at this time. PrimeLending continues to cooperate with the investigation.

While the final outcome of litigation and claims exposures or of any Inquiries is inherently unpredictable, management is currently of the opinion that the outcome of pending and threatened litigation and Inquiries will not have a material effect on the Company’s business, consolidated financial position, results of operations or cash flows as a whole. However, in the event of unexpected future developments, it is reasonably possible that an adverse outcome in any of the matters discussed above could be material to the Company’s business, consolidated financial position, results of operations or cash flows for any particular reporting period of occurrence.

Other Contingencies

The mortgage origination segment may be responsible for errors or omissions relating to its representations and warranties that each loan sold meets certain requirements, including representations as to underwriting standards and the validity of certain borrower representations in connection with the loan. If determined to be at fault, the mortgage origination segment either repurchases the affected loan from the investor or reimburses the investor’s losses. The mortgage origination segment has established an indemnification liability reserve for such probable losses.

Generally, the mortgage origination segment first becomes aware that an investor believes a loss has been incurred on a sold loan when it receives a written request from the investor to repurchase the loan or reimburse the investor’s losses. Upon completing its review of the investor’s request, the mortgage origination segment establishes a specific claims reserve for the loan if it concludes its obligation to the investor is both probable and reasonably estimable.

An additional reserve has been established for probable investor losses that may have been incurred, but not yet reported to the mortgage origination segment based upon a reasonable estimate of such losses. Factors considered in the calculation of this reserve include, but are not limited to, the total volume of loans sold exclusive of specific investor requests, actual investor claim settlements and the severity of estimated losses resulting from future claims, and the mortgage origination segment's history of successfully curing defects identified in investor claim requests. While the mortgage origination segment's sales contracts typically include borrower early payment default repurchase provisions, these provisions have not been a primary driver of investor claims to date, and therefore, are not a primary factor considered in the calculation of this reserve.

At March 31, 2016 and December 31, 2015, the mortgage origination segment's indemnification liability reserve totaled \$17.1 million and \$16.6 million, respectively. The provision for indemnification losses was \$0.9 million and \$0.8 million during the three months ended March 31, 2016 and 2015, respectively.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The following tables provide for a rollforward of claims activity for loans put-back to the mortgage origination segment based upon an alleged breach of a representation or warranty with respect to a loan sold and related indemnification liability reserve activity (in thousands).

	Representation and Warranty Specific Claims Activity - Origination Loan Balance Three Months Ended March 31,	
	2016	2015
Balance, beginning of period	\$ 57,298	\$ 53,906
Claims made	4,548	37,323
Claims resolved with no payment	(6,115)	(11,687)
Repurchases	(1,157)	(5,239)
Indemnification payments	(372)	(203)
Balance, end of period	\$ 54,202	\$ 74,100

	Indemnification Liability Reserve Activity Three Months Ended March 31,	
	2016	2015
Balance, beginning of period	\$ 16,640	\$ 17,619
Additions for new sales	878	844
Repurchases	(112)	(498)
Early payment defaults	(90)	(10)
Indemnification payments	(169)	(162)
Change in estimate	—	(451)
Balance, end of period	\$ 17,147	\$ 17,342

	March 31, 2016	December 31, 2015
Reserve for Indemnification Liability:		
Specific claims	\$ 4,754	\$ 5,210
Incurred but not reported claims	12,393	11,430
Total	\$ 17,147	\$ 16,640

Although management considers the total indemnification liability reserve to be appropriate, there may be changes in the reserve over time to address incurred losses, due to unanticipated adverse changes in the economy and historical loss patterns, discrete events adversely affecting specific borrowers or industries, and/or actions taken by institutions or investors. The impact of such matters is considered in the reserving process when probable and estimable.

In connection with the FNB Transaction, the Bank entered into two loss-share agreements with the FDIC that collectively cover \$1.2 billion of loans and OREO acquired in the FNB Transaction. Pursuant to the loss-share agreements, the FDIC has agreed to reimburse the Bank the following amounts with respect to the covered assets: (i) 80% of net losses on the first \$240.4 million of net losses incurred; (ii) 0% of net losses in excess of \$240.4 million up to and including \$365.7 million of net losses incurred; and (iii) 80% of net losses in excess of \$365.7 million of net losses incurred. Net losses are defined as book value losses plus certain defined expenses incurred in the resolution of assets, less subsequent recoveries. Under the loss-share agreement for commercial assets, the amount of subsequent recoveries that are reimbursable to the FDIC for a particular asset is limited to book value losses and expenses actually billed plus any book value charge-offs incurred prior to the Bank Closing Date. There is no limit on the amount of subsequent recoveries reimbursable to the FDIC under the loss-share agreement for single family residential assets. The loss-share agreements for commercial and single family residential assets are in effect for 5 years and 10 years, respectively, from the Bank Closing Date and the loss recovery provisions to the FDIC are in effect for 8 years and 10 years, respectively, from the Bank Closing Date. In accordance with the loss-share agreements, the Bank may be required to make a “true-up” payment to the FDIC approximately ten years following the Bank Closing Date if its actual net realized losses over the life of the loss-share agreements are less than the FDIC’s initial estimate of losses on covered assets. The “true-up” payment is calculated using a defined formula set forth in the P&A Agreement. As of March 31,

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

2016, the Bank estimated that the sum of covered losses and reimbursable expenses subject to the loss-share agreements will exceed \$240.4 million, but will not exceed \$365.7 million. Unless actual plus projected covered losses and reimbursable expenses exceed \$365.7 million, the Bank will not record additional amounts to the FDIC Indemnification Asset. As of March 31, 2016, the Bank had billed \$139.4 million of covered net losses to the FDIC, of which 80%, or \$111.5 million, were reimbursable under the loss-share agreements. As of March 31, 2016, the Bank had received aggregate reimbursements of \$111.5 million from the FDIC, which represented reimbursable covered losses and expenses through December 31, 2015.

13. Financial Instruments with Off-Balance Sheet Risk

The Bank is party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit that involve varying degrees of credit and interest rate risk in excess of the amount recognized in the consolidated financial statements. Such financial instruments are recorded in the consolidated financial statements when they are funded or related fees are incurred or received. The contract amounts of those instruments reflect the extent of involvement (and therefore the exposure to credit loss) the Bank has in particular classes of financial instruments.

Commitments to extend credit are agreements to lend to a customer provided that the terms established in the contract are met. Commitments generally have fixed expiration dates and may require payment of fees. Because some commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. These letters of credit are primarily issued to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan commitments to customers.

In the aggregate, the Bank had outstanding unused commitments to extend credit of \$1.6 billion at March 31, 2016 and outstanding financial and performance standby letters of credit of \$38.4 million at March 31, 2016.

The Bank uses the same credit policies in making commitments and standby letters of credit as it does for on-balance sheet instruments. The amount of collateral obtained, if deemed necessary, in these transactions is based on

management's credit evaluation of the borrower. Collateral held varies but may include real estate, accounts receivable, marketable securities, interest-bearing deposit accounts, inventory, and property, plant and equipment.

In the normal course of business, the Hilltop Broker-Dealers execute, settle, and finance various securities transactions that may expose the Hilltop Broker-Dealers to off-balance sheet risk in the event that a customer or counterparty does not fulfill its contractual obligations. Examples of such transactions include the sale of securities not yet purchased by customers or for the accounts of the Hilltop Broker-Dealers, use of derivatives to support certain non-profit housing organization clients, clearing agreements between the Hilltop Broker-Dealers and various clearinghouses and broker-dealers, secured financing arrangements that involve pledged securities, and when-issued underwriting and purchase commitments.

14. Stock-Based Compensation

Pursuant to the Hilltop Holdings Inc. 2012 Equity Incentive Plan (the "2012 Plan"), the Company may grant nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units ("RSUs"), performance awards, dividend equivalent rights and other awards to employees of the Company, its subsidiaries and outside directors of the Company. Upon the approval by stockholders and effectiveness of the 2012 Plan in September 2012, no additional awards were permissible under the 2003 Equity Incentive Plan (the "2003 Plan"). In the aggregate, 4,000,000 shares of common stock may be delivered pursuant to awards granted under the 2012 Plan. At March 31, 2016, 2,293,228 shares of common stock remained available for issuance pursuant to the 2012 Plan, including shares that may be delivered pursuant to outstanding awards. Compensation expense related to the 2012 Plan and the 2003 Plan was \$2.3 million and \$1.9 million during the three months ended March 31, 2016 and 2015, respectively.

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

During the three months ended March 31, 2016 and 2015, Hilltop granted 5,516 and 2,545 shares of common stock, respectively, to certain non-employee members of the Company's Board of Directors for services rendered to the Company pursuant to the 2012 Plan.

Restricted Stock Awards and RSUs

The following table summarizes information about nonvested Restricted Stock Award and RSU activity for the three months ended March 31, 2016 (shares in thousands).

	Restricted Stock Awards		RSUs	
	Outstanding	Weighted Average Grant Date Fair Value	Outstanding	Weighted Average Grant Date Fair Value
Balance, December 31, 2015	453	\$ 13.50	875	\$ 21.22
Granted	-	\$ -	277	\$ 16.04
Vested/Released	(3)	\$ 13.25	(5)	\$ 22.24
Forfeited	(2)	\$ 19.72	(2)	\$ 21.41
Balance, March 31, 2016	448	\$ 13.47	1,145	\$ 20.00

Vested/Released Restricted Stock Awards and RSUs include an aggregate of 2,128 shares withheld to satisfy employee statutory tax obligations during the three months ended March 31, 2016. Pursuant to certain RSU award agreements, an aggregate of 8,247 vested RSUs at March 31, 2016 require deferral of the settlement in shares and statutory tax obligations to a future date.

At March 31, 2016, unrecognized compensation expense related to outstanding Restricted Stock Awards of \$0.1 million is expected to be recognized over a weighted average period of 1.05 years.

During the three months ended March 31, 2016, the Compensation Committee of the Board of Directors of the Company awarded certain executives and key employees an aggregate of 276,551 RSUs pursuant to the 2012 Plan. These awards include 158,028 RSUs subject to time-based vesting conditions and generally cliff vest on the third anniversary of the grant date, and 118,523 RSUs that cliff vest based upon the achievement of certain performance goals over a three-year period. Total compensation expense related to these RSUs is expected to be \$4.4 million, which will be amortized through February 2019.

At March 31, 2016, 860,321 of the outstanding RSUs are subject to time-based vesting conditions and generally cliff vest on the third anniversary of the grant date, and 284,398 outstanding RSUs cliff vest based upon the achievement of certain performance goals over a three-year period. At March 31, 2016, unrecognized compensation expense related to outstanding RSUs of \$14.4 million is expected to be recognized over a weighted average period of 1.92 years.

Stock Options

Stock options granted on November 2, 2011 to two senior executives pursuant to the 2003 Plan to purchase an aggregate of 600,000 shares of the Company's common stock (the "Stock Option Awards") at an exercise price of \$7.70 per share were fully vested and exercisable at November 2, 2015. As of March 31, 2016, an aggregate of 100,000 Stock Option Awards remain outstanding and will expire on November 2, 2016 if unexercised.

15. Regulatory Matters

Banking and Hilltop

The Bank and Hilltop are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory — and possibly additional discretionary — actions by regulators that, if undertaken, could have a direct, material effect on the consolidated financial statements. The regulations require the Bank and Hilltop to meet specific capital adequacy guidelines that involve quantitative measures of assets, liabilities and certain off-balance sheet items as calculated under regulatory accounting practices. The capital classifications are also subject to qualitative judgments by the regulators about components, risk weightings and other factors. Quantitative measures established by regulation to ensure capital adequacy require the companies to maintain minimum amounts and ratios (set forth in the following table) of Tier 1 capital (as defined in the regulations) to total average assets (as defined), and minimum ratios of common equity Tier 1, Tier 1 and total capital (as defined) to risk-weighted assets (as defined).

The following table shows the Bank's and Hilltop's consolidated actual capital amounts and ratios compared to the regulatory minimum capital requirements and the Bank's regulatory minimum capital requirements needed to qualify as a "well-capitalized" institution in accordance with Basel III as measured at March 31, 2016 and December 31, 2015, respectively (dollars in thousands).

	Actual		Minimum Capital Requirements			To Be Well Capitalized Minimum Capital Requirements		
	Amount	Ratio	Amount	Ratio		Amount	Ratio	
March 31, 2016								
Tier 1 capital (to average assets):								
Bank	\$ 1,035,022	12.70 %	\$ 326,044	4.0 %		\$ 407,555	5.0 %	
Hilltop	1,532,458	13.35 %	459,069	4.0 %		N/A	N/A	
Common equity Tier 1 capital (to risk-weighted assets):								
Bank	1,033,659	15.10 %	308,020	4.5 %		444,918	6.5 %	
Hilltop	1,481,394	17.56 %	379,562	4.5 %		N/A	N/A	
Tier 1 capital (to risk-weighted assets):

Table of Contents

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

To be considered “adequately capitalized” (as defined) under regulatory requirements, the Bank must maintain minimum Tier 1 capital to total average assets of 4%, common equity Tier 1 capital to risk-weighted assets of 4.5%, Tier 1 capital to risk-weighted assets ratios of 6%, and a total capital to risk-weighted assets ratio of 8%. Based on the actual capital amounts and ratios shown in the previous table, the Bank’s ratios place it in the “well capitalized” (as defined) capital category under regulatory requirements.

In order to avoid limitations on capital distributions, including dividend payments, stock repurchases and certain discretionary bonus payments to executive officers, Basel III also implemented a capital conservation buffer, which requires a banking organization to hold a buffer above its minimum risk-based capital requirements. This buffer will help to ensure that banking organizations conserve capital when it is most needed, allowing them to better weather periods of economic stress. The buffer is measured relative to risk-weighted assets. The phase-in of the capital conservation buffer requirements began on January 1, 2016 for Hilltop and the Bank. Based on the actual ratios as shown in the table above, Hilltop and the Bank exceed each of the capital conservation buffer requirements in effect as of March 31, 2016, as well as the fully phased-in requirements through 2019.

Broker-Dealer

Pursuant to the net capital requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), Hilltop Securities has elected to determine its net capital requirements using the alternative method. Accordingly, Hilltop Securities is required to maintain minimum net capital, as defined in Rule 15c3-1 promulgated under the Exchange Act, equal to the greater of \$250,000 and \$1,000,000, respectively, or 2% of aggregate debit balances, as defined in Rule 15c3-3 promulgated under the Exchange Act. Additionally, the net capital rule of the NYSE provides that equity capital may not be withdrawn or cash dividends paid if resulting net capital would be less than 5% of the aggregate debit items. HTS Independent Network follows the primary (aggregate indebtedness) method, as defined in Rule 15c3-1 promulgated under the Exchange Act, which requires the maintenance of the larger of minimum net capital of \$250,000 or 1/15 of aggregate indebtedness.

At March 31, 2016, the net capital position of each of the Hilltop Broker-Dealers was as follows (in thousands).

HTS

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

	Hilltop Securities	Independent Network
Net capital	\$ 132,718	\$ 1,195
Less required net capital	9,484	250
Excess net capital	\$ 123,234	\$ 945
Net capital as a percentage of aggregate debit items	28.0	%
Net capital in excess of 5% aggregate debit items	\$ 109,007	

Under certain conditions, Hilltop Securities may be required to segregate cash and securities in a special reserve account for the benefit of customers under Rule 15c3-3 promulgated under the Exchange Act. Assets segregated under the provisions of the Exchange Act are not available for general corporate purposes. At March 31, 2016, Hilltop Securities held cash of \$120.7 million segregated in special reserve bank accounts for the benefit of customers. Hilltop Securities was not required to segregate cash and securities in special reserve accounts for the benefit of proprietary accounts of introducing broker-dealers at March 31, 2016. The fair values of these segregated assets included in special reserve accounts were determined using Level 1 inputs.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Mortgage Origination

As a mortgage originator, PrimeLending is subject to minimum net worth requirements established by the U.S. Department of Housing and Urban Development (“HUD”) and the GNMA. On an annual basis, PrimeLending submits audited financial statements to HUD and GNMA documenting PrimeLending’s compliance with its minimum net worth requirements. In addition, PrimeLending monitors compliance on an ongoing basis and, as of March 31, 2016, PrimeLending’s net worth exceeded the amounts required by both HUD and GNMA.

Insurance

The statutory financial statements of the Company's insurance subsidiaries, which are domiciled in the State of Texas, are presented on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance. Texas has adopted the statutory accounting practices of the National Association of Insurance Commissioners (“NAIC”) as the basis of its statutory accounting practices with certain differences that are not significant to the insurance company subsidiaries’ statutory equity.

A summary of statutory capital and surplus and statutory net income of each insurance subsidiary is as follows (in thousands).

	March 31, 2016	December 31, 2015
Capital and surplus:		
National Lloyds Insurance Company	\$ 119,836	\$ 121,750
American Summit Insurance Company	28,980	30,592

	Three Months Ended March 31,	
	2016	2015
Statutory net income:		
National Lloyds Insurance Company	\$ 3,557	\$ 4,759
American Summit Insurance Company	852	909

Regulations of the Texas Department of Insurance require insurance companies to maintain minimum levels of statutory surplus to ensure their ability to meet their obligations to policyholders. At March 31, 2016, the Company's insurance subsidiaries had statutory surplus in excess of the minimum required.

The NAIC has adopted a risk based capital (“RBC”) formula for insurance companies that establishes minimum capital requirements indicating various levels of available regulatory action on an annual basis relating to insurance risk, asset credit risk, interest rate risk and business risk. The RBC formula is used by the NAIC and certain state insurance regulators as an early warning tool to identify companies that require additional scrutiny or regulatory action. At March 31, 2016, the Company's insurance subsidiaries' RBC ratio exceeded the level at which regulatory action would be required.

Notes to Consolidated Financial Statements (continued)

(Unaudited)

16. Derivative Financial Instruments

The Company uses various derivative financial instruments to mitigate interest rate risk. The Bank's interest rate risk management strategy involves effectively managing the re-pricing characteristics of certain assets and liabilities to mitigate potential adverse impacts from changes in interest rates on the net interest margin. PrimeLending has interest rate risk relative to interest rate lock commitments ("IRLCs") and its inventory of mortgage loans held for sale. PrimeLending is exposed to such interest rate risk from the time an IRLC is made to an applicant to the time the related mortgage loan is sold. To mitigate interest rate risk, PrimeLending executes forward commitments to sell mortgage-backed securities ("MBSs"). Additionally, PrimeLending has interest rate risk relative to its MSR asset and uses derivative instruments, including interest rate swaps and swaptions, to hedge this risk. The Hilltop Broker-Dealers use forward commitments to both purchase and sell MBSs to facilitate customer transactions and as a means to hedge related exposure to interest rate risk in certain inventory positions.

Non-Hedging Derivative Instruments and the Fair Value Option

As discussed in Note 3 to the consolidated financial statements, the Company has elected to measure substantially all mortgage loans held for sale at fair value under the provisions of the Fair Value Option. The election provides the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without applying complex hedge accounting provisions. The fair values of PrimeLending's IRLCs, forward commitments, and interest rate swaps and swaptions are recorded in other assets or other liabilities, as appropriate, and changes in the fair values of these derivative instruments are recorded as a component of net gains from sale of loans and other mortgage production income. The fair value of PrimeLending's derivative instruments increased \$12.5 million during the three months ended March 31, 2016, compared with an increase of \$18.9 million during the same period in 2015. Changes in fair value are attributable to changes in the volume of IRLCs, mortgage loans held for sale, commitments to purchase and sell MBSs and MSR assets, and changes in market interest rates. Changes in market interest rates also conversely affect the value of PrimeLending's mortgage loans held for sale and its MSR asset, which are measured at fair value under the Fair Value Option. The effect of the change in market interest rates on PrimeLending's loans held for sale and MSR asset is discussed in Note 3 to the consolidated financial statements. The fair values of the Hilltop Broker-Dealers' derivative instruments are recorded in other assets or other liabilities, as appropriate, and the fair values of the Hilltop Broker-Dealers' derivatives increased \$6.9 million and \$8.6 million during the three months ended March 31, 2016 and 2015, respectively. The changes in fair value were recorded as a component of other noninterest income.

Derivative positions are presented in the following table (in thousands).

	March 31, 2016		December 31, 2015	
	Notional Amount	Estimated Fair Value	Notional Amount	Estimated Fair Value
Derivative instruments:				
IRLCs	\$ 1,505,457	\$ 44,915	\$ 944,942	\$ 23,762
Commitments to purchase MBSs	3,761,758	23,811	3,151,862	8,350
Commitments to sell MBSs	6,194,817	(23,294)	5,038,565	(2,352)
Interest rate swaps and swaptions	587,418	1,604	409,982	490

PrimeLending had cash collateral advances totaling \$7.3 million and \$0.8 million to offset net liability derivative positions on its commitments to sell MBSs at March 31, 2016 and December 31, 2015, respectively. In addition, PrimeLending advanced cash collateral totaling \$8.7 million and \$6.4 million in initial margin on its interest rate swaps and swaptions at March 31, 2016 and December 31, 2015, respectively. These amounts are included in other assets within the consolidated balance sheets.

Secured Borrowing Arrangements

Secured Borrowings (Repurchase Agreements) — The Company participates in transactions involving securities sold under repurchase agreements, which are secured borrowings and generally mature within one to thirty days from the transaction date. Securities sold under repurchase agreements are reflected at the amount of cash received in connection with the transactions. The Company may be required to provide additional collateral based on the fair value of the underlying securities, which is monitored on a daily basis.

Securities Lending Activities — The Company's securities lending activities includes lending securities for other broker-dealers, lending institutions and its own clearing and retail operations. These activities involve lending securities to other broker-dealers to cover short sales, to complete transactions in which there has been a failure to deliver securities by the required settlement date and as a conduit for financing activities.

When lending securities, the Company receives cash or similar collateral and generally pays interest (based on the amount of cash deposited) to the other party to the transaction. Securities lending transactions are executed pursuant to written agreements with counterparties that generally require securities loaned to be marked-to-market on a daily basis. The Company receives collateral in the form of cash in an amount generally in excess of the fair value of securities loaned. The Company monitors the fair value of securities loaned on a daily basis, with additional collateral obtained or refunded, as necessary. Collateral adjustments are made on a daily basis through the facilities of various clearinghouses. The Company is a principal in these securities lending transactions and is liable for losses in the event of a failure of any other party to honor its contractual obligation. Management sets credit limits with each counterparty and reviews these limits regularly to monitor the risk level with each counterparty. The Company is subject to credit risk through its securities lending activities if securities prices decline rapidly because the value of the Company's collateral could fall below the amount of the indebtedness it secures. In rapidly appreciating markets, credit risk increases due to short positions. The Company's securities lending business subjects the Company to credit risk if a counterparty fails to perform or if collateral securing its obligations is insufficient. In securities transactions, the Company is subject to credit risk during the period between the execution of a trade and the settlement by the customer.

The following tables present the remaining contractual maturities of repurchase agreement and securities lending transactions accounted for as secured borrowings (in thousands). The Company had no repurchase-to-maturity transactions outstanding at both March 31, 2016 and December 31, 2015.

	Remaining Contractual Maturities				Total
	Overnight and Continuous	Up to 30 Days	30-90 Days	Greater Than 90 Days

18. Broker-Dealer and Clearing Organization Receivables and Payables

Broker-dealer and clearing organization receivables and payables consisted of the following (in thousands).

	March 31, 2016	December 31, 2015
Receivables:		
Securities borrowed	\$ 1,315,940	\$ 1,307,741
Securities failed to deliver	29,910	25,087
Clearing organizations	—	16,701
Trades in process of settlement, net	16,023	5,707
Other	8,749	7,263
	\$ 1,370,622	\$ 1,362,499
Payables:		
Securities loaned	\$ 1,222,522	\$ 1,235,466
Correspondents	27,888	69,046
Securities failed to receive	30,780	28,352
Clearing organizations	2,826	5,441
	\$ 1,284,016	\$ 1,338,305

19. Reserve for Losses and Loss Adjustment Expenses

A rollforward of NLC's reserve for unpaid losses and LAE, as included in other liabilities within the consolidated balance sheets, is as follows (in thousands).

	Three Months Ended March 31,	
	2016	2015
Balance, beginning of period	\$ 44,357	\$ 29,716
Less reinsurance recoverables	(13,502)	(4,315)
Net balance, beginning of period	30,855	25,401
Incurred related to:		
Current year	21,604	14,290
Prior years	355	4,570
Total incurred	21,959	18,860
Payments related to:		
Current year	(9,538)	(7,174)
Prior years	(9,129)	(8,094)
Total payments	(18,667)	(15,268)
Net balance, end of period	34,147	28,993
Plus reinsurance recoverables	8,831	8,451
Balance, end of period	\$ 42,978	\$ 37,444

The increase in NLC's reserves at March 31, 2016 as compared with March 31, 2015 of \$5.5 million is primarily due to increased reserves attributable to an increase in frequency and severity of severe weather events in our geographic coverage area.

20. Reinsurance Activity

NLC limits the maximum net loss that can arise from large risks or risks in concentrated areas of exposure by reinsuring (ceding) certain levels of risk. Substantial amounts of business are ceded, and these reinsurance contracts do not relieve NLC from its obligations to policyholders. Such reinsurance includes quota share, excess of loss, catastrophe, and other forms of reinsurance on essentially all property and casualty lines of insurance. Net insurance premiums earned, losses and LAE and policy acquisition and other underwriting expenses are reported net of the amounts related to reinsurance ceded to other companies. Amounts recoverable from reinsurers related to the portions of the liability for losses and LAE and unearned insurance premiums ceded to them are reported as assets. Failure of reinsurers to honor their obligations could result in losses to NLC; consequently, allowances are established for amounts deemed uncollectible as NLC evaluates the financial condition of its reinsurers and monitors concentrations of credit risk arising from similar geographic regions, activities, or economic characteristics of the reinsurers to minimize its exposure to significant losses from reinsurer insolvencies. At March 31, 2016, reinsurance receivables had a carrying value of \$13.1 million, which is included in other assets within the consolidated balance sheet. There was no allowance for uncollectible accounts at March 31, 2016, based on NLC's quality requirements.

The effects of reinsurance on premiums written and earned are summarized as follows (in thousands).

	Three Months Ended March 31,			
	2016		2015	
	Written	Earned	Written	Earned
Premiums from direct business	\$ 39,079	\$ 40,886	\$ 42,749	\$ 42,089
Reinsurance assumed	2,679	2,669	2,516	2,443
Reinsurance ceded	(3,498)	(3,822)	(4,705)	(4,965)
Net premiums	\$ 38,260	\$ 39,733	\$ 40,560	\$ 39,567

The effects of reinsurance on incurred losses are as follows (in thousands).

Three Months Ended
March 31,

Edgar Filing: Hilltop Holdings Inc. - Form 10-Q

	2016	2015
Loss and LAE incurred	\$ 23,489	\$ 23,331
Reinsurance recoverables	(1,530)	(4,471)
Net loss and LAE incurred	\$ 21,959	\$ 18,860

Catastrophic coverage

At March 31, 2016, NLC had catastrophic excess of loss reinsurance coverage of losses per event in excess of \$8.0 million retention by NLIC and \$1.5 million retention by ASIC. ASIC maintained an underlying layer of coverage, providing \$6.5 million in excess of its \$1.5 million retention to bridge to the primary program. The reinsurance in excess of \$8.0 million is comprised of four layers of protection: \$17 million in excess of \$8 million retention; \$25 million in excess of \$25 million loss; \$25 million in excess of \$50 million loss and \$50 million in excess of \$75 million loss. NLIC and ASIC retain no participation in any of the layers, beyond the first \$8 million and \$1.5 million, respectively. At March 31, 2016, total retention for any one catastrophe that affects both NLIC and ASIC was limited to \$8 million in the aggregate.

Effective January 1, 2016, NLC did not renew its multi-line excess of loss coverage that previously limited each risk with respect to property and liability. NLC renewed its underlying excess of loss contract that provides \$10.0 million aggregate coverage in excess of NLC's per event retention and aggregate retention for sub-catastrophic events. NLC retains no participation beyond the first \$1 million, down from 9% participation in this coverage during 2015.

21. Segment and Related Information

The Company currently has four reportable business segments that are organized primarily by the core products offered to the segments' respective customers. These segments reflect the manner in which operations are managed and the criteria used by the Company's chief operating decision maker function to evaluate segment performance, develop strategy and allocate resources. The chief operating decision maker function consists of the President and Chief Executive Officer of the Company and the Chief Executive Officer of PlainsCapital. For the third quarter of 2015, the Company began presenting the bargain purchase gain associated with the SWS Merger, previously allocated to the banking and broker-dealer reportable business segments, within corporate to better reflect segment performance. This change is reflected in the segment operating results within noninterest income for the three months ended March 31, 2015. Additionally, related amounts previously reported in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2015 will be revised in future filings. This change had no impact on the Company's consolidated results of operations.

The banking segment includes the operations of the Bank. The broker-dealer segment includes the operations of the Hilltop Broker-Dealers, while the mortgage origination segment is composed of PrimeLending, and the insurance segment is composed of NLC.

Corporate includes certain activities not allocated to specific business segments. These activities include holding company financing and investing activities, and management and administrative services to support the overall operations of the Company including, but not limited to, certain executive management, corporate relations, legal, finance and acquisition costs.

Balance sheet amounts not discussed previously and the elimination of intercompany transactions are included in "All Other and Eliminations." The following tables present certain information about reportable business segment revenues, operating results, goodwill and assets (in thousands).
