Dear Fellow Shareholder:

Genpact's vision is to be a trusted long-term partner for our clients by helping them to drive transformational change in their businesses and to compete more effectively in their markets. Our solutions deliver measurable outcomes, such as revenue growth, customer delight, cost savings, lower business risk, efficient deployment of working capital and, consequently, higher cash flows.

We are proud of the reputation we have built in our industry for delivering value to our clients and our strong relationships across a range of iconic brand-name companies in the chosen industries we serve.

Differentiation in an expanding market

We leverage advanced digital technologies and predictive analytics – combined with our deep industry domain depth and granular process understanding built over more than twenty years of experience running processes – to add value to our clients. We partner with them to completely reimagine their business models and find new and radically improved ways of running their businesses.

Our service offerings in digital, analytics and consulting, which together we call Transformation Services, continue to unlock new opportunities for us. We believe that our potential market opportunity is growing as both new and existing clients are engaging with us to help them leverage the benefits of advanced digital technologies, real-time analytics and consulting services.

As of the end of 2018, we served about one-fifth of the Fortune Global 500 and we continue to expand into new relationships. During 2018, we increased the number of client relationships with more than \$50 million in annual revenue and we expect many of these will grow meaningfully in size. This growth reflects our strategy to bring our Transformation Services alongside our more traditional business process services, which we call Intelligent Operations, to drive greater impact for our clients and be a partner of choice for their large-scale transformation journeys.

Our two synergistic routes to market – digitally-embedded Intelligent Operations that we run and deliver for our clients every day and digitally-led Transformation Services – are allowing us to tap into an expanding underpenetrated market leading to large-scale, end-to-end client transformation.

Financials

On the back of our reputation as a preferred transformation partner, Genpact delivered strong results during 2018. Not only are our traditional service lines in finance and accounting, sourcing and procurement expanding, but we are also seeing growth in newer value-added areas, such as supply chain and financial crimes. About half our revenue is now generated through industry-specific service lines where the value we are delivering goes well beyond cost savings.

Over the last five years, we have delivered a compound annual revenue growth rate for Global Clients of 11%, with consistent double-digit growth reported each year. This strong performance reflects the execution of our strategy that

focuses on a set of industry verticals and service lines, where we have deep domain expertise and our investments in automation, analytics, AI, and customer experience capabilities.

Here are some highlights from 2018:

- Total revenues were \$3.0 billion, up 9% year-over-year on a constant currency basis;¹
- Total BPO revenue, representing approximately 83% of total revenue, increased 11% year-over-year, and total IT Services revenues increased 5% year-over-year, each on a constant currency basis;
- New bookings for the full-year 2018 were \$3.9 billion, up 40% from \$2.8 billion in 2017;²
- Income from operations was \$348 million, up 5% year-over-year, with a corresponding margin of 11.6%; and
- Diluted earnings per share (EPS) were \$1.45, up 9% year-over-year, and adjusted diluted EPS were \$1.80, up 11% year-over-year.³

Driving total shareholder return

We returned \$215 million of capital to shareholders, that included approximately \$57 million from our regular dividend of 30 cents per share and \$158 million in share repurchases. Since we instituted our share buyback program in 2015, we have reduced our net shares outstanding by 13%.

Our total shareholder return, or TSR, for the five-year period ended December 31, 2018 was approximately 50%.

Business highlights

Leveraging our global innovation hubs, we partner with clients to design innovative solutions to solve for business outcomes and build more flexible operating models to gain competitive advantages.

Our Chicago, Illinois and Wilkes-Barre, Pennsylvania hubs have become centers where we partner with clients to digitize their supply chain operations to provide greater visibility into performance and drive tangible improvements in order fulfilment levels across multiple categories. These hubs enable us to incubate new solutions and drive innovation for our clients.

During the latter part of 2018, we established a new digital innovation hub in Bentonville, Arkansas, expanding our presence in the consumer goods and retail industry. We are bringing advanced data science and machine learning to drive targeted transformation in operating models and to improve revenue performance.

In December 2018, we began providing a set of high-value services across the globe for our largest client, the General Electric Company. The scope of new services includes solutions in our focus areas of finance, sales operations support and sourcing and procurement. The expansion of our long relationship with GE demonstrates the runway we still have for growth with all of our clients who engage with us as their transformation partner.

Our new and expanding relationships with clients has increased our global delivery capabilities, including new locations in Hungary, Egypt, Turkey and a larger presence in the United States. Our broad delivery footprint provides comprehensive solutions for our clients' global needs.

¹ Revenue growth on a constant currency basis is a non-GAAP measure and is calculated by restating current-period activity using the prior fiscal period's foreign currency exchange rates adjusted for hedging gains/losses in such period.

Edgar Filing: Genpact LTD - Form DEF 14A

New bookings, an operating measure, represents the total contract value of new contracts and certain renewals, extensions and changes to existing contracts. Regular renewals of contracts with no change in scope are not counted as new bookings.

³ Adjusted diluted earnings per share is a non-GAAP measure. See Exhibit 2 to this Proxy Statement for a reconciliation of GAAP diluted earnings per share to adjusted diluted earnings per share.

I am thrilled to see our strong execution produce exceptional results for both our clients and us, driving long-term shareholder value.

Our people

Our people continue to be our most valuable asset. In 2019, we have initiated a new program for Genpact's global workforce to teach them digital transformation skills. This program builds upon our existing award-winning training activities. Content will be personalized around individual team member needs, with training tailored to the specific needs of our business leveraging experiential as well as scholastic methods.

Corporate Governance

OVERVIEW

We believe that good corporate governance is important to ensure that Genpact is managed for the long-term benefit of its shareholders. Our board of directors is responsible for our governance practices and oversight of our strategy, operations and management. Some of the principal responsibilities of the members of our board of directors are to:

- exercise their business judgment to promote the long-term interests of the Company's shareholders by providing strategic direction to the Company and overseeing management in the performance of the Company's business activities;
- review, approve and monitor significant financial and business strategies as developed by management;
- evaluate the performance of the Company and its executive officers and approve succession plans for our chief executive officer, or CEO; and
- review and approve material transactions and corporate activities not entered into in the ordinary course of business.

The board of directors has corporate governance guidelines to assist it in the exercise of its duties and responsibilities and to serve the best interests of our Company and our shareholders. These guidelines, together with our bye-laws, our committee charters and our Code of Ethical Business Conduct, provide a governance framework for the board of directors and its committees.

The board of directors reviews our corporate governance guidelines and other corporate governance documents from time to time and revises them when it believes it serves the interests of the Company and its shareholders to do so and in response to changing regulatory and governance requirements. The following sections provide an overview of our corporate governance practices.

You can obtain the current charters for our audit committee, compensation committee and nominating and governance committee, our corporate governance guidelines and our Code of Ethical Business Conduct at www.genpact.com or we will send you a copy upon request in writing to:

* See “Important Information about the Annual General Meeting and Voting—How and when may I submit a shareholder proposal, including a shareholder nomination for director, for the 2020 annual general meeting?” on page 76 for information about submitting proposals for consideration at our next annual meeting. See also the section titled “Director Nomination Process” below for information about how to propose a director nominee for election to our board.

DIRECTOR INDEPENDENCE

Pursuant to the corporate governance listing standards of the New York Stock Exchange (“NYSE”), a director employed by us cannot be deemed to be an “independent director,” and consequently Mr. Tyagarajan is not an independent director. The board has determined that none of the other director nominees has a material relationship with us for purposes of the NYSE corporate governance listing standards and accordingly each is independent under such NYSE standards. In making its independence determinations, the board considered the relationship between our Company and Bain Capital, as affiliates of Bain Capital own approximately 17% of our outstanding common shares, the fact that Messrs. Humphrey and Nunnally serve on our board as designees of Bain Capital pursuant to the terms of our shareholder agreement with affiliates of Bain Capital, and the fact that Mr. Humphrey is a managing director of Bain Capital.

DIRECTOR NOMINATION PROCESS

In considering whether to recommend any particular candidate for inclusion in the board of directors’ slate of recommended director nominees, the nominating and governance committee applies the criteria set forth in our Corporate Governance Guidelines. These criteria include the candidate’s integrity, knowledge of our business and industry, experience, diligence, absence of any conflicts of interest and the ability to act in the interests of all shareholders. The committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for each prospective nominee. We believe that the backgrounds and qualifications of our directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow the board of directors to fulfill its responsibilities. We do not have a formal or informal diversity policy for board membership, but the nominating and governance committee is committed to considering diversity in accordance with its charter.

Shareholders may recommend individuals to the nominating and governance committee for consideration as potential director candidates by submitting their names, together with appropriate biographical information and background materials, including information regarding the number of shares owned by any potential director candidate, and a statement as to whether the shareholder or group of shareholders making the recommendation has beneficially owned more than 5% of our common shares for at least a year as of the date such recommendation is made, to the Secretary of the Company, c/o Genpact LLC, 1155 Avenue of the Americas 4th Floor, New York, NY 10036. Assuming that appropriate biographical and background material has been provided on a timely basis, the nominating and governance committee will evaluate shareholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others.

MEETINGS OF THE BOARD OF DIRECTORS

The board of directors has responsibility for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The board of directors’ primary responsibility is to oversee the management of Genpact and, in so doing, serve the best interests of the Company. Subject to the recommendations of the nominating and governance committee, the board of directors selects, evaluates and provides for the succession of executive officers, and the board of directors nominates for election at annual general shareholder meetings individuals to serve as directors of Genpact and elects individuals to fill any vacancies on the board of directors to the extent not filled by shareholders in general meetings. The board of directors reviews and approves corporate objectives and strategies, and evaluates significant policies and proposed major commitments of corporate resources. Management keeps the directors informed of Company activity through presentations at board of directors and committee meetings.

The board of directors met, in person or telephonically, six times in 2018. During 2018, each of our directors attended 75% or more of the total number of meetings of the board of directors and the committees of which such director was a member during the period of time he or she served on such committee. Our Corporate Governance Guidelines set forth our policy that directors are expected to attend annual general meetings of shareholders. All of our directors serving in such capacity at the time of the 2018 annual meeting attended the 2018 annual meeting.

COMMITTEES OF THE BOARD OF DIRECTORS

The board of directors has standing audit, compensation and nominating and governance committees. Each committee has a charter that has been approved by the board of directors. Each committee must review the appropriateness of its charter and perform a self-evaluation at least annually. Mr. Tyagarajan is the only director who is an employee of Genpact, and he does not participate in any meeting, or portions of any meeting, at which his compensation or performance is evaluated. All members of all committees are non-employee directors and the board of directors has determined that all of the members of our three standing committees are independent as defined under the rules of the NYSE, and, in the case of all members of the audit committee, the independence requirements contemplated by Rule 10A-3 under the Exchange Act.

BOARD LEADERSHIP STRUCTURE

The positions of Chairman of the Board and CEO have historically been separated at Genpact. Keeping these positions separate allows our CEO to focus on our day-to-day business, while allowing the Chairman of the Board to lead the board in its exercise of business judgment to promote the long-term interests of our shareholders by providing strategic direction and overseeing management. The Board believes that keeping these positions separate is the appropriate leadership structure for us at this time.

RISK OVERSIGHT

Our management is responsible for risk management on a day-to-day basis, and our board and its committees oversee the risk management activities of management. The audit committee assists the board in fulfilling its oversight responsibilities with respect to risk management in the areas of financial reporting, internal controls and compliance with legal and regulatory requirements, and, in accordance with NYSE requirements, discusses policies with respect to risk assessment and risk management. The compensation committee assists the board in fulfilling its oversight

responsibilities with respect to the management of risks arising from our compensation policies and programs. The nominating and governance Committee assists the board in fulfilling its oversight responsibilities with respect to the management of risks associated with board organization, membership and structure, succession planning for our directors and executive officers, and corporate governance.

COMMUNICATING WITH THE INDEPENDENT DIRECTORS

The board of directors will give appropriate attention to written communications that are submitted by shareholders and other interested parties, and will respond if and as appropriate. The nominating and governance committee, with the assistance of the Company's General Counsel, is primarily responsible for monitoring communications from shareholders and other interested parties and for providing copies or summaries to the other directors as its members consider appropriate. Our

non-executive Chairman, Mr. Scott, serves as the presiding director at all executive sessions of our non-management directors.

Communications will be forwarded to all directors if they relate to important substantive matters and include suggestions or comments that the nominating and governance committee considers to be important for the directors to know. In general, communications relating to corporate governance and corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which the Company may receive repetitive or duplicative communications.

Shareholders and interested parties who wish to send communications on any topic to the board of directors should address such communications to:

CODE OF ETHICAL BUSINESS CONDUCT

Our board of directors has adopted a code of ethical business conduct applicable to our directors, officers and employees in accordance with applicable rules and regulations of the SEC and the NYSE. The code is posted on our website at www.genpact.com under the heading “Investors—Corporate Governance.” We will also provide a copy of the code to shareholders upon request. We disclose any material amendments to our code of ethical business conduct, as well as any waivers for executive officers or directors, on our website.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Our board of directors has adopted written policies and procedures for the review of any transaction, arrangement or relationship in which Genpact Limited is a participant, the amount involved exceeds \$1,000,000 (or such lower threshold as our audit committee may from time to time determine), and one of our officers, directors, director nominees or 5% shareholders (or their immediate family members), each of whom we refer to as a “related person,” has a direct or indirect material interest.

If a related person proposes to enter into such a transaction, arrangement or relationship, which we refer to as a “related person transaction,” the related person must report the proposed related person transaction to our General Counsel. The policy calls for the proposed related person transaction to be reviewed and, if deemed appropriate, approved by the board’s audit committee. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the audit committee will review, and, in its discretion, may ratify the related person transaction. The policy also permits the chair of the audit committee to review and, if deemed appropriate, approve proposed related person transactions that arise between committee meetings, subject to ratification by the audit committee at its next meeting. Any related person transactions that are ongoing in nature will be reviewed annually.

8 | 2019 Proxy Statement

A related person transaction reviewed under the policy will be considered approved or ratified if it is authorized by the audit committee after full disclosure of the related person's interest in the transaction. The audit committee will review and consider such information regarding the related person transaction as it deems appropriate under the circumstances.

The audit committee may approve or ratify the transaction only if the audit committee determines that, under all of the circumstances, the transaction is in the Company's best interests. The audit committee may impose any conditions on the related person transaction that it deems appropriate.

In addition to the transactions that are excluded by applicable SEC rules, the board has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related person transactions for purposes of this policy:

• interests arising solely from the related person's position as an executive officer of another entity (whether or not the person is also a director of such entity) that is a participant in the transaction, where (a) the related person and all other related persons own in the aggregate less than a 10% equity interest in such entity, (b) the related person and his or her immediate family members are not involved in the negotiation of the terms of the transaction and do not receive any special benefits as a result of the transaction, (c) the amount involved in the transaction equals less than the greater of \$1 million dollars or 2% of the annual gross revenues of the other entity that is a party to the transaction, and (d) the amount involved in the transaction equals less than 2% of our annual gross revenues; and

• a transaction that is specifically contemplated by provisions of our charter or bye-laws.

Shareholder Agreement

The shareholder agreement among us and Bain Capital and its co-investors provides that Bain Capital has the right to designate for nomination four directors to our board, so long as Bain Capital maintains certain minimum shareholding thresholds, and the shareholders party to the agreement have agreed to vote their shares for the election of such persons. The number of directors that Bain Capital is entitled to designate for nomination is reduced if its ownership of our common shares declines below certain levels and this right ceases if such ownership falls below 7.5% of our outstanding common shares, and also may be increased in certain circumstances. As of March 11, 2019, given the size of its shareholding, Bain Capital was entitled to designate for nomination two directors pursuant to the shareholder agreement.

Subject to certain conditions and with certain exceptions, the shareholder agreement grants Bain Capital the right to require us to register for public resale under the Securities Act of 1933 all common shares that it requests be registered. In addition, subject to certain conditions and with certain exceptions, the shareholder agreement grants Bain Capital piggyback rights on any registration for our account or the account of any other holder of our common shares. These rights are subject to certain limitations, including customary cutbacks and other restrictions. In connection with our initial public offering or the other registrations described above, we have and will indemnify any selling shareholders against liabilities resulting from violations of federal or state securities laws by us in connection with any registration statement, prospectus or other disclosure statement used in connection with any registration of our securities and, subject to certain exceptions, we will bear all fees, costs and expenses, except underwriting discounts and selling commissions.

Prior to the one-year anniversary of the date when Bain Capital's ownership of our common shares falls below 7.5%, Bain Capital is subject to certain restrictions with respect to the acquisition of additional securities of, and certain exercises of control over, including making any offers for the purchase of, the Company. Notwithstanding the foregoing, the shareholder agreement grants Bain Capital the right to maintain its percentage ownership in the event we issue additional securities by purchasing a percentage of any additional securities we issue.

The shareholder agreement also contains provisions regarding corporate opportunities under which directors nominated by Bain Capital pursuant to the shareholder agreement are not required to present to us certain corporate opportunities.

Expense Reimbursement Agreement

Pursuant to an expense reimbursement agreement between us and Bain Capital Partners, LP entered into on March 3, 2015, we have agreed to reimburse Bain Capital Partners, LP and its affiliates for reasonable out-of-pocket expenses incurred by their respective representatives in connection with certain financial, managerial, operational or strategic advice or other services provided to us by Bain Capital Partners, LP since January 1, 2013, and as may be mutually agreed from time to time by the Company and Bain Capital Partners, LP. The expense reimbursement agreement also provides for our indemnification of Bain Capital Partners, LP, Bain Capital Investors, LLC and their respective affiliates and representatives subject to certain terms and conditions. The initial term of the expense reimbursement agreement ran until December 31, 2015, with automatic annual renewals thereafter unless either party chooses not to extend the term. In addition, the expense reimbursement agreement may be terminated at any time by either party. Affiliates of Bain Capital Partners, LP currently own approximately 17% of our common shares outstanding. We reimbursed a total of \$7,997 for expenses incurred in 2018 pursuant to the expense reimbursement agreement.

Secondary Offering

On February 15, 2019, we completed a secondary offering of our common shares pursuant to our shareholder agreement with affiliates of Bain Capital described above. In an underwritten public offering, certain affiliates of Bain Capital, together with their co-investor, GIC Private Limited (collectively, the “Selling Shareholders”), sold 10.0 million of our common shares at a price of \$32.22 per share. All of the common shares were sold by the Selling Shareholders and, as a result, we did not receive any of the proceeds from the offering.

Security Ownership of Certain Beneficial Owners and Management

The following table contains information regarding the beneficial ownership of our common shares as of March 11, 2019 by:

- each shareholder we know to own beneficially more than 5% of our outstanding common shares;
- each director;
- each executive officer named in the 2018 Summary Compensation Table; and
- all of our directors and executive officers as a group.

Beneficial ownership is determined in accordance with the rules of the SEC and includes voting or investment power with respect to the securities. Common shares subject to options that are currently exercisable or exercisable within 60 days of March 11, 2019 are deemed to be outstanding and beneficially owned by the person holding such options. Such shares, however, are not deemed to be outstanding for the purposes of computing the percentage ownership of any other person. Percentage of beneficial ownership is based on 189,636,779 common shares of Genpact Limited outstanding on March 11, 2019.

12 | 2019 Proxy Statement

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors, executive officers and the holders of more than 10% of our common shares to file with the SEC initial reports of ownership of our common shares and other equity securities on a Form 3 and reports of changes in such ownership on a Form 4 or Form 5. Executive officers, directors and 10% shareholders are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. Based on our review of copies of reports filed with the SEC and except as set forth in the above table, we do not believe that there are currently any beneficial owners of more than ten percent of our common shares.

Based solely on our review of copies of reports filed by our directors and executive officers with the SEC or written representations from such persons pursuant to Item 405 of Regulation S-K, we believe that during the fiscal year ended December 31, 2018, all filings required to be made by our directors and executive officers pursuant to Section 16(a) with respect to Genpact Limited securities were made in accordance with Section 16(a).

Director Nominees

Our board of directors currently consists of twelve members. The nominating and governance committee of the board of directors has recommended to the board of directors, and the board of directors has nominated, the ten persons whose biographies appear below for election as directors with terms expiring at the 2020 annual meeting. Unless a contrary direction is indicated, it is intended that proxies received will be voted for the election as directors of the ten nominees, each to serve for a one-year term until their successors are elected or the incumbent resigns. Each of the nominees has consented to being named in this Proxy Statement and to serve as a director if elected. In the event any nominee for director declines or is unable to serve, there will be a vacancy created on the board of directors, which the board of directors may fill on the recommendation of the nominating and governance committee. Our current directors Amit Chandra and Alex Mandl will end their service on the board effective upon the annual meeting, at which time the size of our board of directors will be reduced from twelve to ten members.

Set forth below is certain biographical information as of the date of this proxy statement about each nominee for election to our board of directors, including information each nominee has given us about his or her age, his or her principal occupation and business experience for the past five years, and the names of other publicly held companies of which he or she has served as a director in the past five years. The information presented reflects the specific experience, qualifications, attributes and skills that led the board to conclude that each of these individuals is well-suited to serve on our board. Information about the number of common shares beneficially owned by each current director appears above under the heading “Security Ownership of Certain Beneficial Owners and Management.”

*Mr. Verdi will become Audit Committee chair effective upon his reelection to the board of directors at the annual meeting.

There are no family relationships among any of the directors and executive officers of Genpact. Messrs. Humphrey and Nunnely serve on our board as designees of Glory Investments A Limited, an affiliate of Bain Capital Investors, LLC, or Bain Capital, pursuant to the shareholder agreement described in “Certain Relationships and Related Party Transactions—Shareholder Agreement.” Other than such arrangement, no arrangements or understandings exist between any director or any person nominated for election as a director and any other person pursuant to which such person is to be selected as a director or nominee for election as a director.

Proposal 1 – election of directors

BOARD RECOMMENDATION: The board of directors believes that approval of the election of all nominees listed above is in the Company’s best interests and the best interests of our shareholders and therefore recommends a vote FOR these nominees.

Director Compensation

The compensation committee reviews and approves the compensation arrangements for our directors. The components of our 2018 non-employee director compensation are set forth below.

ELEMENTS OF DIRECTOR COMPENSATION

Each of our non-employee directors receives an annual retainer with a total value of \$182,500, divided between cash and equity – in the form of a restricted share unit (“RSU”) grant – as depicted below.

(1) On the date of each annual general meeting of shareholders, our non-employee directors receive a grant of RSUs with a value of \$120,000 based on the closing price of the Company’s common shares on the date of grant. Such RSUs vest on the last day of the calendar year of grant and the underlying vested shares are issued at the end of the subsequent year.

In addition to an annual cash retainer and RSU grant, our non-employee directors also receive the additional compensation below, as applicable. All cash retainers are paid in quarterly installments based on each director’s service on the board or a committee during such quarter.

Chairman Retainer (annual)	\$100,000
Chairman RSU Grant (annual) ⁽¹⁾	\$150,000 in value of RSUs
Committee Chair Retainer (annual)	\$42,500 for the Audit Committee Chair
	\$22,500 for the Compensation Committee Chair
	\$22,500 for the Nominating and Governance Committee Chair
Committee Membership Retainer (annual)	\$22,500 for the Audit Committee
	\$17,500 for the Compensation Committee
	\$17,500 for the Nominating and Governance Committee
Sign-on RSU Grant (one-time) ⁽²⁾	\$180,000 in value of RSUs

(1) For his service as Chairman of the Board, in addition to the annual grant of RSUs to all non-employee directors, Mr. Scott receives, on the date of each annual general meeting of shareholders, a grant of RSUs with a value of \$150,000 based on the closing price of the Company’s common shares on the date of grant. Such RSUs vest on the last day of the calendar year of grant and the underlying vested shares are issued at the end of the subsequent year.

(2) Upon appointment or election to the board, new directors receive a grant of RSUs with a value of \$180,000 based on the closing price of the Company’s common shares on the date of grant. Such RSUs vest 50% two years from the date of grant and 50% four years from the date of grant, subject in each case to the director’s service through the vesting dates. The underlying vested shares are issued upon vesting.

Governance Features

Our non-employee director compensation is subject to the following governance features:

- **Limit on Director Compensation.** The total annual limit on aggregate maximum compensation per non-employee director is \$750,000.
- **Trading Windows.** Our directors can only transact in our securities during approved trading windows after satisfying mandatory clearance requirements.
- **Hedging/Pledging Prohibition.** Our insider trading policy prohibits our directors from hedging or pledging our securities.
- **Other Compensation.** Our non-employee directors do not receive any non-equity incentive plan compensation, participate in any pension plans or receive non-qualified deferred compensation. We provide our directors with directors and officers liability insurance as part of our corporate insurance policies. We also reimburse our directors for reasonable travel and related expenses incurred in connection with their participation in board and committee meetings and other Company activities such as site visits or Company-sponsored events in which they participate as directors. The Chairman of the Board also receives a fixed payment for secretarial and office support services.

The following table sets forth the compensation of our non-employee directors for the fiscal year ended December 31, 2018.

Director	Fees Earned or		All Other Compensation	Total

Executive Officer Compensation

COMPENSATION DISCUSSION AND ANALYSIS

The compensation committee of the board of directors oversees our executive officer compensation program. In this role, the compensation committee reviews and approves all compensation decisions relating to our named executive officers. This Compensation Discussion and Analysis section discusses the compensation policies and programs for our Chief Executive Officer (referred to as our CEO), our Chief Financial Officer (referred to as our CFO) and our three next most highly paid executive officers as determined under the rules of the SEC. Such individuals are referred to as our named executive officers.

Our named executive officers (also referred to as “NEOs”) for 2018 are:

N.V. “Tiger” Tyagarajan	President, Chief Executive Officer and Director
Edward J. Fitzpatrick	Senior Vice President, Chief Financial Officer
Patrick Cogny	Senior Vice President, Infrastructure, Manufacturing & Services and High Tech
Piyush Mehta	Senior Vice President, Chief Human Resources Officer
Arvinder Singh	Senior Vice President, Capital Markets and IT Services

2018 Key Financial Highlights

Our 2018 financial results include:

Total net revenues increased 10%	Revenues from Global Clients increased 11%
2018 revenues were \$3.0 billion, up 10% from \$2.74 billion in 2017.	2018 revenues from Global Clients (our clients other than the General Electric Company, or GE) were \$2.74 billion, up 11% from 2017.
New bookings ⁽¹⁾ increased 40%	Diluted earnings per share increased 9%; adjusted diluted earnings per share ⁽²⁾ increased 11%
New bookings in 2018 were \$3.9 billion, up 40% from \$2.8 billion in 2017.	Diluted earnings per share were \$1.45, up 9% from 2017, and adjusted diluted earnings per share were \$1.80, up 11% from 2017.
Income from operations increased 5%; adjusted income from operations ⁽²⁾ increased 10%	Income from operations margin was 11.6%; adjusted income from operations margin ⁽²⁾ was 15.8%
Income from operations in 2018 was \$348 million, up 5% from 2017, and adjusted income from operations was \$473 million, up 10% from 2017.	Income from operations margin in 2018 was 11.6%, down less than 1% from 2017, and adjusted income from operations was 15.8%, up less than 1% from 2017.

(1) New bookings is an operating or other statistical measure and represents the total contract value of new contracts and certain renewals, extensions and changes to existing contracts. Regular renewals of contracts with no change in scope are not counted as new bookings. For a more detailed description of new bookings, see “Item 7—Management’s Discussion and Analysis of Financial Condition and Results of Operations—Bookings” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2018.

(2) Adjusted income from operations/margin and adjusted diluted earnings per share are non-GAAP financial measures used by our management for reporting, budgeting and decision-making purposes. Adjusted income from operations/margin exclude certain recurring costs, namely stock-based compensation and amortization and, since

April 2016, impairment of acquired intangibles. See Exhibit 2 to this Proxy Statement for a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures.

In 2018, we made acquisitions to increase our domain expertise in our areas of focus, and we invested in our people and our solutions – in particular our digital capabilities –in an effort to drive more agile business models for our clients and help them to stay ahead of the disruptive challenges they are facing.

Our total shareholder return, or TSR, for the year ended December 31, 2018 was down approximately 14%. We achieved significant financial milestones in 2018, including total annual revenue over \$3 billion and a 40% increase in our new bookings compared to 2017 to \$3.9 billion. We believe that our pay-for-

performance program, which incentivizes higher-than-target growth in revenues and new bookings while requiring a threshold level of profitability and operating income, as well as our successful execution of our growth strategy, contributed to our operational and financial achievements in 2018. The impact of these achievements is reflected in our year-to-date TSR of approximately 31% as of March 31, 2019.

Additionally, in 2018, we returned a total of \$215 million to shareholders. \$158 million was in the form of share repurchases under our \$1.25 billion share repurchase program and \$57 million was in the form of quarterly cash dividends.

2018 Key Compensation Highlights

Our executive compensation program emphasizes pay for performance and is aligned with our business strategy and shareholders' interests. In 2018, we continued to use transformation services revenue as a performance metric in our annual cash bonus program for executive officers and other members of senior management, and we added it as a third metric (in addition to total revenue and new bookings) under our 2018 performance share awards for all of our executive officers. Transformation services revenue comprises revenue from our digital, analytics and consulting offerings, areas in which we have prioritized investments in the past few years. The inclusion of this metric in both our 2018 annual and long-term incentive compensation program supports our strategy to drive growth in our transformation services and is intended to ensure that our performance-based compensation program not only rewards the achievement of revenue and profitability goals, but also focuses our executives on the Company's long-term strategic priorities.

Compensation Objectives

The primary objectives of our compensation program for our executives, including our named executive officers, are to attract, motivate and retain highly talented individuals who are committed to our core values of courage, curiosity, incisiveness and integrity. Our compensation program is designed to incentivize and reward the achievement of our annual, long-term and strategic goals, such as growing revenues, improving operating margins and deepening client relationships. It is also designed to align the interests of our executives, including our named executive officers, with those of our shareholders by rewarding performance that exceeds our goals, with the ultimate objective of increasing shareholder value.

Our compensation committee is responsible for overseeing the goals and objectives of our executive compensation plans and programs. The compensation committee bases our executive compensation programs on the same objectives that guide us in administering the compensation programs for all of our employees globally:

- Compensation is based on the individual's level of job responsibility.
- Compensation reflects the value of the job in the marketplace.
- Compensation programs are designed to incentivize and reward performance, both individual and Company.

Our compensation committee considers risk when developing our compensation program and believes that the design of our current compensation program does not encourage excessive or inappropriate risk taking. Our base salaries provide competitive fixed compensation. Under our annual cash bonus program, the target bonuses for our named executive officers range from 70% to 160% of their base salaries, and bonuses are payable based on attainment of multiple financial and non-financial short-term performance goals. We believe this structure, which is based on a number of different performance measures together with a meaningful cap on the potential payout, deters executives from focusing exclusively on the specific financial metrics that might encourage excessive short-term risk taking.

Our named executive officers are also granted performance share awards tied to the attainment of a number of performance goals over the fiscal year and continued service over a three-year period. We believe that the three-year

service vesting requirement under these awards encourages the recipients to focus on

22 | 2019 Proxy Statement

sustaining the Company’s long-term performance. Our named executive officers periodically receive option grants which vest over a five-year period. The value of our options is tied to sustained long-term appreciation of our share price, which we believe mitigates excessive short-term risk taking.

Executive Compensation Practices

We strive to maintain sound governance standards and compensation practices by continually monitoring the evolution of “best practices.” As in prior years, we incorporated many best practices into our 2018 compensation programs, including the following:

WHAT WE DO

Align our executive pay with performance	Include a “clawback” provision in our performance share awards
Make payouts under our bonus plan only if threshold Company performance is met	Set challenging performance objectives for our performance share awards and annual bonus
Maintain a meaningful equity ownership policy for the CEO (six times base salary)	Regularly review the relationship between CEO compensation and Company performance
Include caps on individual payouts in short- and long-term incentive plans	Maintain an independent compensation committee
Hold an annual “say-on-pay” advisory vote	Prohibit hedging and pledging of Company common shares
Retain an independent compensation consultant	Place a substantial majority of executive pay at risk
Regularly evaluate our share utilization and the dilutive impact of equity awards	Mitigate the potentially dilutive effect of equity awards through our share repurchase program

WHAT WE DON’T DO

Offer contracts with multi-year guaranteed salary or bonus increases	Provide guaranteed retirement benefits or contribute to non-qualified deferred compensation plans
Provide tax gross-ups (except with respect to the reimbursement of relocation expenses)	Provide excessive perquisites
Grant equity awards with “single-trigger” change of control provisions	Pay dividends or dividend equivalents on unvested equity awards
Reprice or exchange underwater options without shareholder approval	Maintain special retirement plans exclusively for executive officers
Time the release of material non-public information to affect the value of executive compensation	Allow short sales or purchases of equity derivatives of our common shares by officers or directors

Pay for Performance Philosophy

The core objective of our executive officer compensation program is to align pay and performance. The compensation of our named executive officers for 2018 reflects both our 2018 performance and our commitment to providing executive compensation opportunities that are linked to Company performance, including progress on long-term strategic goals, and shareholder value creation. We believe that as an employee’s level of responsibility increases, so should the proportion of total compensation opportunity that is structured in the form of long-term incentive opportunities.

The charts below reflect the target mix pay between fixed and variable compensation components based on target compensation for our NEOs during fiscal year 2018, which reflects our pay-for-performance philosophy. In 2018, approximately 92% of our CEO's total 2018 target annualized compensation of \$8,950,000 was performance-based and approximately 78% (on average) of the total 2018 target compensation of our other named executive officers was performance-based. For our CEO, target compensation has been calculated using the annualized grant-date value of option awards.

The variable compensation components for our named executive officers are comprised of short-term incentive compensation under our performance-based annual cash bonus program and equity awards, which are generally granted in the form of performance share awards on an annual basis along with periodic option awards.

Under the annual cash bonus program for 2018, payouts depended on achievement of adjusted income from operations above a threshold level, transformation services revenue and individual performance measured against a scorecard established for each executive, which included measurable Company or business unit financial performance metrics and individual non-financial performance objectives specific to an executive's role with established threshold performance levels that the Company or business unit and the executive must attain to receive payment. In 2018, the financial metrics under the scorecards accounted for at least 60% of the outcome for each named executive officer. The inclusion of adjusted income from operations and transformation services revenue as performance goals reflects the compensation committee's desire to incentivize and hold our executives accountable for improving our current year income and driving growth in our transformation services. For a description of our 2018 annual bonus plan, see the information under the heading "Annual Cash Bonus" below.

The performance share awards granted to our named executive officers in 2018 will cliff vest in January 2021 based on the attainment of specified financial performance metrics for a one-year performance period (measured over the 2018 calendar year) and continued service through a three-year vesting period. The financial metrics for the performance shares granted in 2018 were revenues, transformation services revenues and new bookings, each equally weighted, with adjusted income from operations and adjusted income from operations margin as threshold goals (which if not attained would result in no payout under the awards regardless of performance of the other metrics). Adjusted operating income and margin do not determine the amount of the payout; rather, the use of these thresholds ensures that payouts under the awards will be made only if the Company has achieved a minimum level of profitability. For example, in 2016, the Company's failure to meet the adjusted operating income threshold under the performance share awards resulted in the forfeiture of such awards.

Having three equally weighted performance goals brings focus to our key financial priorities, aligning our leaders to common goals. We include current year revenues because it focuses our executives on the successful execution of signed deals, and new bookings because we believe they are a good indicator of future revenue growth. We added transformation services revenue as a goal for all of our performance share awards in 2018 in order to emphasize the importance of our strategic pivot towards transformation services. Accordingly, under the performance share awards, which comprise the largest potential component of each named executive officer's 2018 total target compensation (other than Mr. Tyagarajan, for whom options and performance shares were equally allocated on an annualized basis

for 2018), we have held our leadership team accountable for transformation services results and directly linked our executive compensation opportunities to our overall business growth. The three-year cliff vesting schedule under our performance share awards helps to ensure that our executives are incentivized to focus on sustaining longer-term Company performance even after the performance year goals have been achieved. For a description of our 2018 performance share awards, see the information under the heading “2018 Performance Share Awards” below.

The inclusion of transformation services revenue as a performance metric in both our 2018 bonus plan and performance share awards is in line with our strategy to drive growth in our transformation services and is designed to ensure that our performance-based compensation program not only rewards the achievement of revenue and profitability goals but also focuses our executives on the Company’s long-term strategic priorities. Overall, the compensation committee believes that the mix of performance goals between the short-term incentive program and performance share awards and the weighting of goals under the performance share awards reflects a holistic evaluation of our operational and strategic performance. This approach may result in no or below target payout for some performance goals and above target for others and aligns with our pay-for-performance strategy as reflected in the payouts in 2018. As a result of below-target transformation services revenues in 2018, the payout under the annual cash bonus plan was at approximately 90% of target. However, as a result of new bookings being significantly higher than target, the number of shares earned under the 2018 performance share awards was approximately 129% of target (subject to service vesting). For a description of the 2018 results, see the information under the heading “Annual Cash Bonus” and “2018 Performance Share Awards” below.

We expect to periodically grant options to our executive officers as an additional long-term incentive and for retention purposes. Our compensation committee believes that options, which are valuable only if the stock price increases after the grant date, align with the specific goal of increasing shareholder value. Options remain a powerful tool for incentivizing long-term Company performance and promoting shareholder value creation, particularly when combined with annual performance share awards, which focus our executives on achieving challenging, but shorter-term objectives.

In 2018, our CEO was granted an option covering 2,133,106 common shares. This is a multi-year grant, and we do not expect to grant any additional options to our CEO prior to full vesting of his 2018 option grant. The CEO last received an option grant in 2013, which was also structured as a multi-year grant vesting 50% in 2016 and 50% in 2018, and he did not receive any additional option grants until the 2013 option grant had fully vested. As discussed below under “2018 Target Pay Mix and Pay Positioning,” our share price appreciation and TSR over Mr. Tyagarajan’s tenure have been significant. Additionally, between the date of the 2013 option grant to our CEO and the date of his 2018 option grant, our share price appreciated approximately 57% and we instituted a quarterly dividend. The compensation committee structured the 2018 option as a multi-year grant in part because it will continue to focus our CEO on share price appreciation, thereby aligning his interests with those of our shareholders, and also because the committee believed that a multi-year grant would be more effective than smaller annual grants in retaining his services and incentivizing him to deliver superior long-term performance.

For further discussion of our 2018 option grants, see the information under the heading “Equity-Based Compensation—2018 Option Grants” below.

Our Process

Our compensation committee is responsible for reviewing the performance and potential of each of our senior executives, including our named executive officers, approving the compensation level of each of our senior executives, establishing criteria for granting equity awards to our senior executives and other employees, and approving such grants.

The compensation committee typically reviews each component of compensation every 12 months with the goal of allocating compensation between cash and non-cash compensation and between short- and long-term compensation, and combining the compensation elements for each executive in a manner we believe best fulfills the objectives of our compensation program.

The compensation committee has not adopted a policy for the allocation of compensation between cash and non-cash components or between short-term and long-term components nor has the compensation committee adopted a pre-established ratio between the CEO's compensation and that of the other named executive officers. Rather, the compensation committee, which includes experienced directors who have served as members of the boards and compensation committees of other public companies, works closely with our CEO, discussing with him the Company's overall performance, the CEO's own performance and his evaluation of and compensation recommendations for the other named executive officers. See the section titled "2018 Target Pay Mix and Pay Positioning" below for further details.

The compensation committee then utilizes its judgment and experience in making all compensation determinations. The compensation committee's determination of compensation levels is based upon what the members of the committee deem appropriate, considering information such as the factors listed above, as well as input from our CEO, shareholder feedback, publicly available information on compensation practices in our industry, and information and advice provided by independent compensation consultants.

Base salaries and target annual bonuses were reviewed and adjusted in the first quarter of 2018 for our named executive officers other than the CEO, and in the second quarter of 2018 for our CEO. The performance goals for our 2018 annual bonus plan and the 2018 performance share awards were approved by the compensation committee in the first quarter of 2018 based on expected financial performance for the full year 2018 and reflect the Company's strategic and operational short- and long-term priorities. The committee determined that the targets under our 2018 incentive compensation plans were challenging to achieve but attainable without taking excessive risk, and the targets are consistent with the financial outlook we disclosed at the beginning of 2018. We do not disclose all of the performance targets we use for our annual bonus and equity incentive plans because we believe that this information is competitively sensitive.

Role of CEO in Compensation Decisions

After the end of the 2018 fiscal year, the compensation committee and the CEO discussed our business performance, his performance and his evaluation of the level of achievement of the individual objectives set forth in the bonus scorecards of the other named executive officers and certain other members of senior management. The CEO also provided recommendations on adjustments to the base salaries and target bonuses of the other named executive officers as well as grants of long-term incentive awards. The compensation committee took into consideration the CEO's recommendations but made the final decisions on compensation as it deemed appropriate. The compensation committee, without the CEO present, determined the CEO's 2018 compensation.

Role of Consultants and Advisors in Compensation Decisions

The compensation committee has the authority to retain and terminate an independent third-party compensation consultant and to obtain independent advice and assistance from internal and external legal, accounting and other advisors. The compensation committee has periodically engaged an independent compensation consultant that reports directly to the compensation committee and advises the compensation committee with respect to compensation trends and best practices, plan design, and the competitiveness of CEO compensation awards.

During 2018, the compensation committee reviewed and considered market data on compensation practices in our industry. With respect to the CEO, the compensation committee engaged FW Cook, an independent, external compensation consulting firm, to assist in its evaluation of each element of our CEO's compensation and his total direct compensation and provide recommendations on the CEO's 2018 compensation. The compensation committee evaluated Mr. Tyagarajan's total compensation based on benchmarking information prepared by FW Cook in early 2018. The peer group used by FW Cook in the materials prepared for the compensation committee was based on the

peer group used by Institutional Shareholder Services, or ISS, in its 2017 proxy analysis and benchmark policy voting recommendation report. As of December 31, 2017, our revenues ranked near the median and our market capitalization ranked between the 25th percentile and median of the peer group companies used in the ISS

26 | 2019 Proxy Statement

report. In addition, as of December 31, 2017, our one-year TSR was near the 75th percentile and our three-year TSR was between the median and 75th percentile of that peer group.

With respect to our named executive officers other than our CEO, in 2018 the compensation committee reviewed, for reference, materials prepared by Aon Hewitt for management in late 2017 showing peer group compensation levels and practices for the peer group set forth below.

We do not believe many companies compete directly with us across our select industry verticals and service offerings.

In developing a peer group for our named executive officers other than the CEO, Aon Hewitt included companies with whom we compete for business and/or talent and companies in the broader technology industry and for which sufficient disclosure was available in publicly available proxy statements at the time of the review. In cases where the peer company data on comparable management positions was inadequate or insufficient, Aon Hewitt also provided target compensation data from its published surveys for positions comparable to those of our executive officers (in terms of scope of responsibility).

In the first quarter of 2018, the compensation committee used the market data included in those materials to establish each element of the 2018 compensation for our named executive officers other than the CEO. In comparing our named executive officer compensation with that of the peer and survey group used by Aon Hewitt, the compensation committee accounted for differences in revenue size and market capitalization between us and the companies in those groups by comparing the compensation of our named executive officers with the compensation paid by the peer and survey group companies to individuals with a similar scope of responsibility but not necessarily the same title. In addition, the compensation committee reviewed data presented by management for additional peers as appropriate by position. While the compensation committee relies on the peer and survey group analysis to provide market data and relevant trend information, it does not consider the analysis as a substitute for its collective business judgment.

2018 Target Pay Mix and Pay Positioning

The compensation committee annually reviews the total direct compensation and pay mix for the CEO and each other executive officer. In determining total compensation opportunities and the pay mix for our executives, the compensation committee considers many factors, including (i) our pay for performance compensation philosophy; (ii) competitive market data to provide a frame of reference for how our peer group companies set compensation opportunities; (iii) the nature and scope of the executive's role at the Company; (iv) the individual's performance, contributions to the Company and impact to shareholder value; and (v) the retention value of the compensation.

While we do not have any pre-established allocation of the target pay mix, the Committee's overall intent is to emphasize the variable at-risk components of pay and, accordingly, we allocate a significant percentage of targeted total compensation in the form of long-term incentives and our annual performance-based bonus plan, both of which fluctuate with Company performance. Our long-term incentives are in the form of performance share awards and options, which also incentivize long-term Company performance since the value of the options varies with the value of the underlying shares.

CEO Compensation Mix

Our CEO's compensation is aligned with our performance and our shareholders' interests. As indicated in the chart on page 24, 92% of our CEO's target annualized total direct compensation for 2018 was at risk based on achievement of annual financial goals and share price performance and thus strongly linked to Company results. Only 8% of our CEO's target compensation was in the form of fixed pay. Over the course of his tenure as our CEO, Mr. Tyagarajan has driven outstanding financial performance and created significant shareholder value. During that period, our revenues have increased nearly 88%, from \$1.6 billion in 2011 to \$3.0 billion in 2018. Additionally, our TSR for the period from June 17, 2011 (the date Mr. Tyagarajan became our CEO) to March 31, 2019 was approximately 160%. Against this backdrop of consistent performance during his tenure, the Committee made the following decisions regarding the CEO's 2018 annualized compensation:

- The Committee increased his base salary from \$630,000 to \$750,000, effective June 1, 2018, the only increase since 2012.

- His annual target bonus opportunity was set at \$1,200,000, which remains unchanged since 2014.

- He was granted long-term incentive awards covering shares having an annualized value of \$7,000,000, with 50% in the form of an option grant and 50% in the form of a performance share award.

Accordingly, our CEO's total target annualized compensation for 2018 was set at \$8,950,000.

In establishing the long-term incentive for our CEO, the Committee considered Company performance (both operating results and changes in total shareholder value) relative to the Company peer group used for the CEO discussed above. As of December 31, 2017, our one-year TSR was near the 75th percentile and our 3-year TSR was between the median and 75th percentile of the peer group. The Committee also determined that it was important to grant our CEO an option award in addition to the performance share award to provide additional retention value since the CEO's only unvested equity award outstanding at the time of the Committee's evaluation of his compensation was the 2017 performance share award, which had a value of approximately \$2.9 million as of December 31, 2017 and will vest in 2020 subject to Mr. Tyagarajan's continued service. While our CEO has been granted performance share awards on an annual basis since 2016, the last time that he received an option grant was in 2013. The 2013 option grant was structured as a multi-year grant, and Mr. Tyagarajan did not receive any additional option grants until the 2013 option grant had fully vested in 2018. Accordingly, the Committee granted 50% of the annualized value of the long-term incentive in the form of a multi-year option award that will vest over a five-year period of service. The Committee believes that there are certain advantages to structuring the award as a multi-year grant, as the long-term nature of the award provides an incentive to drive performance of the business over a sustained period of time. The significant level of potential stock ownership is also expected to strengthen the alignment of our CEO's interests with those of our shareholders. At the time of approving the grant of the 2018 option award to our CEO, the Committee viewed the annualized value of this grant over the five-year vesting period as sufficient to cover five years' worth of option grants to Mr. Tyagarajan. Therefore, the Committee does not expect to grant any additional options to the CEO until the 2018 option has fully vested (which is consistent with our approach with respect to his 2013 option grant).

Mr. Tyagarajan's 2018 target annualized total direct compensation is at the 75th percentile compared to the peer group, including his base salary at the 25th percentile and his annual cash compensation (base plus target bonus) at approximately the median. The Committee believes that this pay positioning is appropriate because the CEO's pay package (with 92% at risk) has a stronger performance orientation compared to the total direct compensation for CEOs in the peer group, for which the average percentage of a CEO's total direct compensation comprised of performance-based pay is 68%, with 32% in fixed pay. The make-up of our CEO's long-term incentives, which does not include any time-based restricted share units, is also more heavily weighted to performance compared to the peer group. We believe the structure of his long-term incentive compensation focuses our CEO on managing the business for the long term and reinforces the link between his earning opportunity and the long-term growth of the Company and total shareholder return.

Other NEO Compensation Mix

For our other named executive officers, we continued to follow the philosophy of maintaining a compensation structure with a significant portion of total compensation at risk based on Company and share price performance. As indicated on the chart on page 24, approximately 78% of the 2018 total target compensation for our other named executive officers was performance-based. In general, we target our named executive officers' total direct compensation to be at the 75th percentile compared to the peer group, with base salary at the 25th percentile and annual cash compensation (base plus target bonus) at the median, although targets may be higher for some of the named executive officers based on their role and position. The Committee believes that similar to our CEO, this pay positioning is appropriate because the total pay package (with 78% at risk on average) has a stronger performance orientation compared to the total direct compensation for comparable positions in the peer group. The make-up of our other named executive officers' 2018 long-term incentives, which does not include any time-based restricted share units, is also more heavily weighted to performance compared to the peer group.

Say-on-pay Vote

Each year, our compensation committee considers the outcome of the annual shareholder advisory vote on executive compensation when making decisions relating to the compensation of our named executive officers and our executive compensation programs and policies. At our 2018 annual meeting of shareholders, our shareholders demonstrated overwhelmingly strong support of our executive compensation programs, with approximately 97% of the votes cast in favor of the compensation of our named executive officers.

2018
Say-on-Pay
Vote Result

Given this strong support, as well as shareholder feedback we received in 2017 and 2018, the compensation committee determined not to implement any material changes to our compensation policies or programs in 2018. The compensation committee will continue to take into account future shareholder advisory votes on executive compensation and other relevant market developments affecting executive officer compensation in order to determine whether any subsequent changes to our programs and policies are warranted to reflect shareholder concerns or to address market developments.

Shareholder Engagement

We have ongoing communications with our shareholders in the normal course of business and take all shareholder feedback seriously. During 2018, we reached out to shareholders owning approximately 80% of our outstanding shares to solicit their feedback on our compensation and governance practices, and we discussed such practices with shareholders representing approximately 30% of our total shares outstanding as of December 31, 2018. The meetings with these shareholders were typically attended by our Chief Financial Officer, our Chief Human Resources Officer, our General Counsel and our Head of Investor Relations, and we discussed the Company's compensation philosophy and its alignment with our strategic direction. The remaining shareholders from whom we solicited feedback either declined to meet or did not respond to our inquiries. We also conducted an investor meeting for analysts and interested investors on March 15, 2018 in New York City.

Frequency of "Say-on-pay" Shareholder Advisory Vote

Based on the results of the "say-on-frequency" vote held at our 2017 annual meeting, at which approximately 96% of the votes submitted by our shareholders were in favor of holding an annual shareholder advisory "say-on-pay" vote, our board of directors has decided that shareholder advisory "say-on-pay" votes will occur annually.

Compensation Components

We regularly evaluate how to best compensate our executive officers, based upon market data and the extensive experience of our compensation committee with performance and retention practices. For fiscal 2018, our executive compensation program had three primary components, in addition to certain benefits and perquisites:

- Base salary;
- Short-term, performance-based incentive compensation, or our annual cash bonus program; and
- Long-term, performance- and time-based equity compensation in the form of performance share awards and options.

Base Salary

Base salary is provided to ensure that we are able to attract and retain high-quality executives. It is intended to provide a fixed level of overall compensation that does not vary annually based on performance or changes in shareholder value, thereby ensuring that our executives can maintain a standard of living commensurate with their skill sets and experience. Base salary reflects the experience, knowledge, skills and performance records our executives, including our named executive officers, bring to their positions and the general market conditions in the country in which the executives are located. In addition, we have entered into employment agreements with our CEO, CFO and Mr. Cogny, each of which specifies a minimum base salary as described in the footnotes to the table below.

Our compensation committee reviews the base salaries of our executives every 12 months. The compensation committee determines changes in base salaries based on various factors, including the importance of the executive's role in our overall business, performance and potential of the executive, general Company performance and the market practices in the country where the named executive officer is located. In connection with such review, our CEO provides recommendations and rankings of the executives who directly report to him, including our named executive officers, and the compensation committee considers the CEO's recommendations in setting their base salaries.

The following table sets forth, for each of our named executive officers, such officer's 2017 and 2018 base salary. The base salaries shown are as of December 31 of each year.

Executive	2017 Base Salary	2018 Base Salary
N.V. TYAGARAJAN ⁽¹⁾	\$630,000	\$750,000
EDWARD J. FITZPATRICK ⁽²⁾	\$600,000	\$600,000
PATRICK COGNY ⁽³⁾	\$513,500	\$513,500
PIYUSH MEHTA ⁽⁴⁾⁽⁶⁾	\$308,468	\$314,600
ARVINDER SINGH ⁽⁵⁾	\$424,000	\$432,480

- (1) We entered into an employment agreement with Mr. Tyagarajan on June 15, 2011 in connection with his becoming our president and chief executive officer. The agreement provides for an annual base salary not less than \$600,000, which was increased by 5% to \$630,000 in September 2012 and increased by 19% to \$750,000, effective June 1, 2018. The 2018 increase represents an increase in Mr. Tyagarajan's base salary of between 3% and 4% on an annualized basis since becoming our CEO. Mr. Tyagarajan's base salary reflects the importance of his role as our Chief Executive Officer in addition to his personal performance. For a description of the employment agreement with Mr. Tyagarajan, see "—Narrative Disclosure to Summary Compensation Table and Grant of Plan-Based Awards Table—Employment Agreements with Named Executive Officers."
- (2) On June 26, 2014, we entered into an employment agreement with Mr. Fitzpatrick in connection with his appointment as our chief financial officer. The employment agreement specifies that Mr. Fitzpatrick will receive an annual base salary of \$600,000 per year, which will be reviewed periodically and may be increased at the discretion of the compensation committee. Mr. Fitzpatrick's base salary reflects the importance of his role as our Chief Financial Officer in addition to his personal performance. For a description of the employment agreement, see "—Narrative Disclosure to Summary Compensation Table and Grant of Plan-Based Awards Table—Employment Agreements with Named Executive Officers."
- (3) On December 15, 2015, we entered into an amended employment agreement with Mr. Cogny, which amended the employment agreement first entered into in August 2011. Mr. Cogny's amended agreement specifies that he will receive an annual base salary of not less than \$513,500. Mr. Cogny's base salary reflects the importance of his role as the leader of our infrastructure, manufacturing and services and high tech businesses in addition to his personal

performance. For a description of the employment agreement, see “—Narrative Disclosure to Summary Compensation Table and Grant of Plan-Based Awards Table—Employment Agreements with Named Executive Officers.”

- (4) We do not have an employment agreement with Mr. Mehta. Mr. Mehta’s base salary was increased by 6% from INR 20,215,500 to INR 21,428,430, effective January 1, 2018. Mr. Mehta’s base salary reflects the importance of his role as our Chief Human Resources Officer in addition to his personal performance.
- (5) We do not have an employment agreement with Mr. Singh. Mr. Singh’s base salary was increased by 2% effective January 1, 2018. Mr. Singh’s base salary reflects the importance of his role as the leader of our capital markets and information technology businesses in addition to his personal performance.
- (6) Amounts shown with respect to Mr. Mehta were converted from Indian rupees at the rates of INR 1/US\$0.01468144 for 2018 and INR 1/US\$0.01525897 for 2017.

Annual Cash Bonus

Annual cash bonuses are designed to provide rewards to our executives, including our named executive officers, for Company performance and our executives' individual performance during the most recent year. We believe that the immediacy of these cash bonuses, in contrast to our equity grants, which vest over a period of time, provides a significant incentive to our executives towards achieving their respective individual objectives, our Company objectives and our overall long-term and strategic goals, such as client satisfaction, growing revenues, improving operating margins, managing employee attrition levels and making disciplined investments. Our cash bonuses are an important motivating factor for our executives, in addition to being a significant factor in attracting and retaining our executives.

Annual bonuses under our cash bonus plan are directly linked to Company, business unit and individual performance. Annual bonuses to our executives are payable only if threshold performance is attained.

Target Bonuses

Under our annual cash bonus plan, each of our named executive officers is eligible for a target bonus specified as a percentage of his base salary. For 2018, the target bonus for Mr. Tyagarajan was 160% of his year-end base salary and the target bonuses for the other named executive officers ranged between 70% of base salary (for Mr. Cogny) and 100% of base salary (for Messrs. Fitzpatrick, Mehta and Singh). For Messrs. Tyagarajan, Fitzpatrick and Cogny, who have employment agreements that specify bonus opportunities, the compensation committee took into consideration the requirements under their agreements in setting their bonus targets. See “—Narrative Disclosure to Summary Compensation Table and Grant of Plan-Based Awards Table—Employment Agreements with Named Executive Officers.”

Bonus Pool

As part of our 2018 annual cash bonus plan, at the beginning of 2018 the compensation committee established a target bonus pool for 2018 equal to the aggregate target bonuses for all of the senior vice presidents in the Company, including all of the named executive officers other than the CEO. The bonus pool was to be funded only if the Company achieved 2018 adjusted income from operations above a threshold amount. If the Company achieved the minimum level of adjusted income from operations required to fund the bonus pool, the determination of potential payouts would be based on an equal weighting of adjusted income from operations and transformation services revenue.

The actual bonus pool can range from 0% to 200% of target (with performance between the established levels determined on a straight-line basis), depending on the levels of adjusted income from operations and transformation services revenue and whether the threshold for both metrics is met. Under the 2018 plan, if the Company failed to achieve the threshold level of adjusted income from operations, regardless of the level of achievement of transformation services revenue, then the bonus pool would not be funded and no bonuses would be payable under the plan.

If the Company achieved the threshold level of adjusted income from operations but failed to achieve the threshold level of transformation services revenue, then the bonus pool would be funded based on adjusted income from operations only and the range of the bonus pool as a percentage of target, which we refer to as the “Company Multiplier,” would be from 25% to 100% (with performance between established levels determined on a straight-line basis) as illustrated below:

AOI Performance Level	Company Multiplier (as a percentage of total target bonuses)
Threshold	25%
Target	50%
Outstanding	100%

If the Company achieved threshold levels of both adjusted income from operations and transformation services revenue, the potential range of the Company Multiplier would be as follows:

AOI and Transformation Services Revenue Performance Level	Company Multiplier (as a percentage of total target bonuses)
Threshold	50%
Target	100%
Outstanding	200%

In 2018, our adjusted income from operations for purposes of calculating the Company Multiplier was \$473 million, which was higher than the target level of \$472 million of adjusted income from operations under our 2018 annual cash bonus plan, and our transformation services revenue in 2018 was above threshold but lower than target, resulting in a Company Multiplier of approximately 90%. Accordingly, the bonus pool was funded at approximately 90% of the target pool. See “Executive Officer Compensation—Compensation Discussion and Analysis—2018 Key Financial Highlights” for information regarding our calculation of adjusted income from operations from United States Generally Accepted Accounting Principles (“GAAP”) income from operations as well as Exhibit 2 to this Proxy Statement for a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures.

Bonus Scorecards

In an effort to further link our executive officer compensation to measurable Company and individual performance, the actual bonus payable to each of our named executive officers is determined based on attainment of pre-established individual, Company and business unit performance targets for each officer subject to the maximum bonus potential based on the level of adjusted income from operations. We utilize a scorecard methodology that incorporates multiple financial and non-financial strategic performance indicators for each officer, with the financial performance metrics accounting for at least 60% of the result. The potential bonus payout based on the scorecard result ranges from 0% to 150% of target. Examples of financial performance indicators include annual revenue, transformation services revenue, new bookings and profitability targets at the Company or business unit level. Examples of non-financial performance indicators include execution of large, strategically important client engagements and progress on longer-term strategic plans, such as implementing organizational changes, driving company-wide operational initiatives, building capabilities in our service lines and expanding our digital offerings. The compensation committee establishes the scorecard for the CEO, and the CEO establishes the scorecards for the other executive officers. At the time of establishing the individual scorecards, the goals in the scorecards were determined to be challenging. We believe that encouraging our named executive officers, as well as other employees with management responsibility, to focus on a variety of performance objectives that are important for creating shareholder value reduces incentives to take excessive risk with respect to any single objective.

The compensation committee determines the level of attainment of the scorecard goals for each of our named executive officers, with our CEO providing input with respect to the named executive officers other than himself.

The individual bonus amount for each named executive officer other than the CEO is determined based on the scorecard result and what we refer to as the “Bonus Payment Multiplier.” The Bonus Payment Multiplier is a percentage determined by dividing the funded bonus pool by the total of all bonus amounts based on individual scorecard results and is used to ensure that the total payouts do not exceed the funded pool. For 2018, the Bonus Payment Multiplier was approximately 87%. In no circumstance can the total of the bonus payouts for all of the senior vice presidents of the Company, including all of the named executive officers other than the CEO, whose bonus is funded outside of the bonus pool, exceed the funded pool.

Accordingly, the 2018 bonus for each named executive officer other than our CEO was determined as follows:

2018 target bonus multiplied by
 individual scorecard achievement (0-150%) multiplied by
 2018 Bonus Payment Multiplier of 87%.
 CEO Bonus

Although the CEO’s bonus was not funded out of the bonus pool for the other named executive officers, the CEO’s bonus was determined based on his scorecard result and the Company Multiplier and was payable only if the Company achieved 2018 adjusted income from operations above the threshold amount.

The 2018 bonus for our CEO was determined as follows:

2018 target bonus multiplied by
 individual scorecard achievement (0-150%) multiplied by
 2018 Company Multiplier of 90%.

The following table sets forth the 2018 target bonus, the 2017 and 2018 actual payments and 2018 payments as a percentage of target bonus for each of our named executive officers under our annual cash bonus plan.

Executive	2018 Target Bonus	2017 Payment	2018 Payment	2018 Payment as a Percentage of Target
N.V. TYAGARAJAN ⁽¹⁾	\$1,200,000	\$1,335,000	\$960,000	80%
EDWARD J. FITZPATRICK ⁽²⁾	\$600,000	\$686,397	\$532,040	89%
PATRICK COGNY ⁽³⁾	\$359,450	\$367,162	\$446,892	124%
PIYUSH MEHTA ⁽⁴⁾⁽⁶⁾	\$314,600	\$275,823	\$285,001	91%
ARVINDER SINGH ⁽⁵⁾	\$432,480	\$523,928	\$414,724	96%

(1) Mr. Tyagarajan’s bonus scorecard included Company revenues, transformation services revenues, new bookings and adjusted income from operations for the financial metrics and strategic organizational matters for the non-financial metrics. Mr. Tyagarajan achieved lower-than-target performance on the financial metrics and slightly lower-than-target performance on the non-financial metrics included in his scorecard. Mr. Tyagarajan’s 2018 bonus was approximately 80% of target, down from approximately 111% of target in 2017, reflecting a decrease in the Company Multiplier from 107% in 2017 to 90% in 2018 as well as a decrease in his overall scorecard result in 2018 compared to 2017 due to the impact of lower-than-threshold transformation services

revenue performance on achievement of the financial metrics in his scorecard and slightly lower-than-target performance on the non-financial metrics.

- (2) Mr. Fitzpatrick's 2018 bonus scorecard included Company revenues, transformation services revenues, new bookings, adjusted income from operations, and adjusted diluted earnings per share for the financial metrics and strategic organizational matters for the non-financial metrics. Mr. Fitzpatrick achieved slightly above-target performance on the financial metrics in his scorecard and target performance on the non-financial metrics. Mr. Fitzpatrick's 2018 bonus was approximately 89% of target, down from approximately 114% of target in 2017, primarily reflecting a decrease in the Bonus Payment Multiplier from 101% in 2017 to 87% in 2018 as well as a decrease in his overall scorecard result in 2018 compared to 2017 due to the impact of lower-than-threshold transformation services revenue performance on achievement of the financial metrics in his scorecard and lower performance on the non-financial metrics compared to 2017.
- (3) In 2018, the compensation committee approved an increase in Mr. Cogny's target bonus from 65% of his base salary to 70% of his base salary (approximately 8% in absolute terms), effective January 1, 2018. Mr. Cogny's 2018 bonus scorecard included revenues, transformation services revenues, new bookings and adjusted income from operations – all at the business unit level – for the financial metrics, and strategic organizational matters for the non-financial metrics. Mr. Cogny achieved significantly above-target performance on each of the financial metrics and above-target performance on the non-financial metrics. The approximately 22% increase in Mr. Cogny's bonus compared to 2017 is attributable to an increase in his target bonus as well as a significant increase in his overall scorecard result in 2018 compared to 2017 due primarily to the impact of significantly higher-than-target business unit performance on achievement of the financial metrics in his scorecard, offset by a decrease in the Bonus Payment Multiplier from 101% in 2017 to 87% in 2018.
- (4) In 2018, the compensation committee approved an increase in Mr. Mehta's target bonus from 80% of his base salary to 100% of his base salary (approximately 33% in absolute terms), effective January 1, 2018. Mr. Mehta's 2018 bonus scorecard included Company revenues, transformation services revenues, new bookings and adjusted income from operations for the financial metrics and strategic organizational matters for the non-financial metrics. Mr. Mehta achieved lower-than-target performance on the financial metrics and higher-than-target performance on the non-financial metrics. The approximately 3% increase in Mr. Mehta's bonus compared to 2017 is primarily attributable to an increase in his target bonus, offset by a decrease in the Bonus Payment Multiplier from 101% in 2017 to 87% in 2018.
- (5) Effective January 1, 2018, Mr. Singh's target bonus was increased by 2% in connection with his base salary increase. Mr. Singh's 2018 bonus scorecard included revenues, new bookings and adjusted income from operations at the business unit level and Company transformation services revenue for the financial metrics and strategic organizational matters for the non-financial metrics. Mr. Singh achieved above-target performance on the financial metrics and significantly above-target performance on the non-financial metrics. The 21% decrease in Mr. Singh's bonus compared to 2017 is attributable to a decrease in the Bonus Payment Multiplier from 101% in 2017 to 87% in 2018 as well as a decrease in his overall scorecard result due to the impact of lower-than-threshold transformation services revenue performance on achievement of the financial metrics in his scorecard.
- (6) Amounts shown with respect to Mr. Mehta were converted from Indian rupees at the rates of INR 1/US\$0.01468144 for 2018 and INR 1/US\$0.01525897 for 2017.

Additional Bonus

In addition to the amount he received under the 2018 short-term incentive plan shown in the table above, Mr. Singh was also awarded a one-time discretionary bonus of \$100,000 for exceptional execution of a large, unique client deal in 2018.

Equity-Based Compensation

Our equity-based compensation program is designed to attract and retain highly qualified individuals, given that competition for talent is high in our industry, and to align the long-term interests of our executives with those of our shareholders. Equity-based compensation is subject to multi-year vesting requirements, which requires the continued service of our executives in order for them to realize gains.

The equity award component of our executive officer compensation for 2018 was comprised of performance share awards and options. Under the performance share awards, each officer is eligible to receive shares based on the Company's level of attainment of specified performance goals and such officer's continued service through the vesting period. In 2018, performance share awards represented between approximately 55% and 65% of the total target compensation for our named executive officers. Performance share awards require that we attain at least the minimum threshold levels of performance to receive any payment under the award. We have been granting performance shares since 2010, and the compensation committee believes that including performance shares as part of Genpact's equity-based compensation program strengthens focus on the Company's financial performance and shareholder value creation. They have also been an effective tool for retention of key employees.

From time to time, we may also grant (i) options to purchase our common shares, which are also a performance-based vehicle as they require our shares to appreciate in value before any economic benefit may be realized, and (ii) time-based restricted share units, which we use as a retention mechanism.

In 2018, we granted performance share awards to all of our named executive officers and options to our CEO and Mr. Mehta. We did not grant any time-based restricted share units to our named executive officers.

2018 Option Grants

In 2018, we granted options to Messrs. Tyagarajan and Mehta. The exercise prices for the options granted in 2018 are equal to the closing prices of our common shares on the grant dates. The options vest over a five-year period, 50% in 2021 and the remaining 50% in 2023, provided the recipients continue in service through each vesting date. Mr. Tyagarajan's option will vest on an accelerated basis as follows: in the event of his termination (i) on account of death or disability, the option will become vested as to an additional 20% of the option shares and (ii) without cause or for good reason (other than within 24 months following a change of control), the option will become vested (x) in the case of any such termination prior to May 8, 2021, with respect to that number of option shares that would have vested had he remained in service through May 8, 2021, or (y) in the case of any such termination on or after May 9, 2021, with respect to an additional 25% of the option shares. The option will also vest upon a qualifying termination following a change of control as described below in the section titled "Change of Control." See "CEO Compensation Mix" above for further discussion regarding Mr. Tyagarajan's option.

2018 Performance Share Awards

In 2018, we granted performance share awards to all of our named executive officers. For the 2018 performance share awards, the compensation committee concluded that, as in prior years, a one-year performance period was the most appropriate for our company together with a three-year cliff service vesting schedule.

In 2017, we introduced a new metric – transformation services revenue – in the CEO's performance share award, and in 2018, we included transformation services revenue as a third metric in the performance share awards granted to all of our named executive officers. The threshold performance goals are adjusted operating income and adjusted operating income margin as qualifying criteria which, if not met, will lead to the award vesting at 0% (regardless of level of attainment of any of the other performance goals). Subject to attainment of the threshold goals, the performance goals were revenue, new bookings and transformation services revenues.

Each award specified a target number of performance shares. The number of common shares of the Company into which the 2018 performance shares are to convert (subject to continued service vesting) is calculated by multiplying the number of target performance shares designated under the award by a performance percentage ranging from 0% to 200%.

Under the 2018 performance share awards, the revenues, new bookings and transformation services revenue goals were equally weighted, and there were three designated levels of attainment, as illustrated in the table below. Performance between the established levels was determined on a straight-line basis.

Performance Level	Payout Percentage
Below Threshold	0%
Threshold	35%
Target	100%
Outstanding	200%

Vesting of any single component of the three performance tranches of the award depended on achievement of threshold performance for such tranche. However, vesting of the new bookings and revenues tranches were interdependent, such that neither such tranche of the award would have vested unless the other tranche performed at the threshold level or better. The transformation services revenue tranche was independent and vested regardless of the achievement of the revenue or new bookings goals if the threshold level of transformation services revenue was achieved, and failure to achieve the threshold level of transformation services revenue would have negatively affected the overall vesting percentage but would not have prevented the awards from vesting, assuming all other performance goals had been met at the threshold level at a minimum. In setting the performance goals for these awards, our compensation committee determined that the targets were challenging to achieve and designed the awards to reflect our pay-for-performance philosophy, including, for example, continuing to require adjusted income from operations and adjusted income from operations margin as qualifying criteria.

Each award specified a target number of performance shares. The number of common shares of the Company into which the 2018 performance shares will convert (subject to continued service vesting) is calculated by multiplying the number of target performance shares designated under the award by a performance percentage ranging from 0% to 200%.

Based on our 2018 financial results, the 2018 performance share awards granted to our named executive officers will cliff vest on January 10, 2021, provided in each case the named executive officer remains in service through such service vesting date, at 128.773% of the target number of shares, representing slightly above-target revenue achievement, outstanding new bookings achievement (which was higher than the top end of the range under the awards) and below-target transformation services revenue achievement relative to the equally-weighted goals. In addition, in the event of a named executive officer's termination of service by reason of death or disability, a pro rata portion of such shares will vest based on the period of service through the termination date.

The table below shows the number of target shares subject to the performance share awards granted to our named executive officers in 2018 as well as the number of shares earned and issuable (subject to continued service) based on actual performance.

	2018 PSU Target Shares	
Executive	(#)	2018 PSU Actual Shares (#)
N.V. TYAGARAJAN	115,550	148,797
EDWARD J. FITZPATRICK	45,000	57,947
PATRICK COGNY	35,000	45,070
PIYUSH MEHTA	40,000	51,509
ARVINDER SINGH	35,000	45,070

Benefits and Perquisites

We provide other benefits to our named executive officers that are generally available to other employees in the country in which the named executive officer is located. We also provide our named executive officers with certain modest perquisites that we believe are reasonable and consistent with market trends in the countries in which our named executive officers are located. Such benefits and perquisites are intended to be part of a competitive overall compensation program. For more details on the benefits provided to our named executive officers, see “2018 Summary Compensation Table” and “Narrative Disclosure to Summary Compensation Table and Grant of Plan-Based Awards Table.” Our U.S.-based named executive officers are also eligible to participate in the Genpact LLC Executive Deferred Compensation Plan (the “Deferred Compensation Plan”), as described in the section titled “Nonqualified Deferred Compensation Plan.”

Severance Arrangements

Our employment agreements with Messrs. Tyagarajan, Fitzpatrick and Cogy provide for certain payments and benefits in the event of a termination of employment. The severance payments and benefits were based on individual negotiations with each executive and are an important part of employment arrangements designed to retain such executives and provide certainty with respect to the payments and benefits to be provided upon certain termination events. For additional details on these payments and benefits, see “Potential Payments upon Termination or Change of Control.”

Change of Control

Pursuant to the terms of Mr. Tyagarajan’s 2018 option grant, in the event of his termination without cause or for good reason prior to May 8, 2023 and within 24 months following a change of control in which the option is assumed, continued or substituted, the option will become vested and exercisable for all the shares. Pursuant to the terms of Mr. Tyagarajan’s 2013 option grant (which vested in full on January 10, 2018), the unvested portion of the option would have accelerated in full upon a change of control prior to full vesting. Pursuant to the terms of Mr. Fitzpatrick’s employment agreement, the vesting of the equity awards granted to him in connection with commencement of his employment will accelerate in the event of his termination without cause or for good reason within 24 months following a change of control. In the event of a change of control, the performance shares granted to our named executive officers will convert into either a right to receive common shares representing 100% of the target performance shares without regard to performance or a number of common shares based on actual performance, depending on when the change of control occurs. The award as so converted will continue to vest over the service period subject to accelerated vesting in the event of the executive officer’s termination without cause within 24 months following the change of control in which the award is assumed, continued or substituted. These benefits are described in more detail in

Equity Grant Practices

All options granted by the Company have an exercise price equal to the closing market price of our common shares on the grant date. Equity grants are typically approved at our quarterly compensation committee meetings, and, unless a future effective date is specified, become effective as of the date of the meeting at which they are approved. The dates for our quarterly compensation committee meetings are generally scheduled months, and sometimes up to a year, in advance. In certain cases equity grants are approved by written consent outside of regularly scheduled compensation committee meetings and are effective as of the latest date a committee member signs the consent. Our compensation committee has delegated limited authority to the CEO and our Chief Human Resources Officer to grant equity awards between regularly scheduled compensation committee meetings to individuals other than executive officers and directors, with prescribed per person and aggregate quarterly limitations.

Share Ownership Guidelines

The Committee recognizes the critical role that executive share ownership has in aligning the interests of management with those of shareholders. As such, we maintain a formal share ownership policy under which the CEO is required to acquire and hold Genpact common shares in an amount representing a multiple of six times his base salary. Until the designated multiple of base salary is reached, the CEO is required to retain 100% of the after-tax net proceeds associated with option exercises and vesting of restricted share units and performance shares. Shares counted toward the ownership requirement consist of shares owned by the CEO and shares owned jointly by the CEO and his spouse or held in trust established by the CEO for the benefit of the CEO and/or his family members. Unvested restricted share units and performance share awards and unexercised options do not count toward the ownership requirement. As of December 31, 2018, Mr. Tyagarajan owned a number of Genpact common shares with a total value of more than six times his base salary.

Recovery Policy

Our performance share awards provide that if a named executive officer has breached any restrictive covenant under any agreement with the Company during employment or during the one-year period following termination of employment, we have the right to terminate the award and cancel any shares issued under the award and be paid any proceeds received by such officer from the sale of shares issued under the award.

IRC Section 162(m) Compliance

For years prior to 2018, Section 162(m) of the Internal Revenue Code generally disallowed a federal income tax deduction for publicly-traded companies such as the Company for compensation paid to the CEO and the three other highest paid executive officers (other than the CFO) to the extent that such compensation exceeds \$1 million per officer in any one year and does not otherwise qualify as performance-based compensation.

The exemption for qualified performance-based compensation has been repealed and the class of affected executives has been expanded effective for taxable years beginning after December 31, 2017 such that compensation paid to our covered executive officers in excess of \$1 million will not be deductible unless it qualified for transition relief applicable to certain arrangements in place as of November 2, 2017. Because of the uncertainties as to the scope and application of the transition relief, no assurances can be given that compensation intended to satisfy the requirements for exemption under Section 162(m) will in fact be fully deductible.

- (1) The base salary of each named executive officer other than Mr. Mehta remained unchanged from 2016 to 2017. For each named executive officer other than Mr. Mehta, there may be slight variations in such officer's reported salary from 2016 to 2017 based on the number of working days in such fiscal years. The difference in base salary for Mr. Tyagarajan from 2017 to 2018 is due to the mid-year increase in his base salary from \$630,000 to \$750,000, effective June 1, 2018. The amounts shown in this column for Messrs. Cogy and Singh include amounts each executive elected to defer into the Deferred Compensation Plan, which is more fully described in the section titled "Nonqualified Deferred Compensation Plan" below.
- (2) The amounts shown under this column reflect the dollar amount of the aggregate grant date fair value of performance share awards and restricted share units granted during the applicable year pursuant to our 2007 and 2017 Omnibus Incentive Compensation Plans, calculated in accordance with Financial Accounting Standards Board Codification Topic 718, Compensation—Stock Compensation, or FASB ASC Topic 718, and do not reflect the realizable value of these awards based on our performance results for each period. The performance share awards granted in 2016 were forfeited for failure to achieve the revenue and adjusted income from operations performance targets under such awards. Accordingly, no value was or will be realized by our named executive officers with respect to the 2016 performance share grants. The aggregate grant date fair value of the performance share awards is calculated in accordance with FASB ASC Topic 718, based on the probable outcome of the attainment of one or more pre-established performance objectives as of the grant date, which for the performance share awards granted in 2018 was 89.12% of target. Assumptions used in the calculation of these amounts are included in Note 18 "Stock-based compensation" to our audited consolidated financial statements for the fiscal year ended December 31, 2018 included in our Annual Report on Form 10-K. In accordance with the rules promulgated by the SEC, the amounts shown for awards with performance- and service-based vesting conditions exclude the impact of estimated forfeitures. The performance periods for the performance shares granted in 2016, 2017 and 2018 are completed, and the number of shares underlying each such award has been determined. The aggregate grant date fair values of the performance share awards granted in 2018, assuming maximum attainment of the performance goals, are as follows: Mr. Tyagarajan—\$7,000,019; Mr. Fitzpatrick—\$2,835,000; Mr. Cogy—\$2,205,000; Mr. Mehta—\$2,520,000; and Mr. Singh—\$2,205,000.
- (3) The amounts shown represent the aggregate grant date fair value of the options awarded to our named executive officers during the applicable year, calculated in accordance with FASB ASC Topic 718, and exclude the impact of estimated forfeitures. Assumptions used in the calculation of these amounts are included in Note 18 "Stock-based compensation" to our audited consolidated financial statements for the fiscal year ended December 31, 2018 included in our Annual Report on Form 10-K.
- (4) The amounts shown for Messrs. Fitzpatrick, Cogy and Singh were, at the election of each named executive officer, deferred into the Deferred Compensation Plan.
- (5) Mr. Mehta received certain payments in Indian rupees and Mr. Cogy received certain payments in euros. The following exchange rates were used to calculate amounts in the Summary Compensation Table reflecting such payments: INR 1/US\$0.01468144 in

2018, INR 1/US\$0.01525897 in 2017 and INR 1/US\$0.01484012 in 2016 and euro 1/US\$1.18555956 in 2018, euro 1/US\$1.11757828 in 2017 and euro 1/US\$1.11136068 in 2016. For Mr. Mehta, all amounts other than those shown under the “Option Awards” and “Share Awards” columns were paid or incurred in Indian rupees. For Mr. Cogny, portions of the amounts shown in the “All Other Compensation” column were converted from euros.

- (6) The amount shown consists of the following payments and benefits to Mr. Tyagarajan: (a) \$6,068 in life insurance plan premiums, (b) \$60,000 for personal costs pursuant to his employment agreement, (c) \$11,000 in matching contributions to our 401(k) plan and (d) \$2,095 for his automobile lease.
- (7) The amount shown consists of the following payments and benefits to Mr. Fitzpatrick: (a) \$3,354 in life insurance plan premiums, (b) \$11,000 in matching contributions to our 401(k) plan and (c) \$4,920 in costs related to our executive health examination program.
- (8) The amount shown consists of the following payments and benefits to Mr. Cogny: (a) \$11,000 in matching contributions to our 401(k) plan and (b) \$11,467 for life and medical insurance premiums in Europe and the U.S.
- (9) The amount shown represents the change in pension value with respect to the Gratuity Plan benefit for Mr. Mehta that is required to be provided to all employees in India pursuant to Indian law. Assumptions used in the calculation of this amount are included in Note 17, “Employee benefit plans,” to our audited consolidated financial statements for the fiscal year ended December 31, 2018 included in our Annual Report on Form 10-K.
- (10) The amount shown represents insurance plan premium payments made on behalf of Mr. Mehta.
- (11) Mr. Singh was awarded a one-time discretionary bonus of \$100,000 for the exceptional execution of a large, unique client deal in 2018. Mr. Singh elected to defer this amount into the Deferred Compensation Plan.
- (12) The amount shown consists of the following payments and benefits to Mr. Singh: (a) \$11,000 in matching contributions to our 401(k) plan, (b) \$16,512 for payments relating to our former profit sharing plan for U.S. employees and (c) \$13,211 in life insurance plan premiums.

CEO REALIZABLE COMPENSATION

The values reported in our Summary Compensation Table include the estimated fair value of long-term incentive awards at the time of grant as determined for accounting purposes. This estimated fair value is not reflective of actual award values and often differs significantly from the values ultimately received by our senior executives. We believe that realizable compensation, which reflects the actual current value of outstanding long-term incentive awards from prior years, helps us to better assess our pay for performance alignment.

Realizable compensation provides clarity on how compensation outcomes are influenced by company performance. This is particularly important because equity-based awards account for the most significant portion of the total compensation of our CEO and other executive officers. Because the compensation committee believes that long-term, equity-based compensation drives long-term growth, consideration of actual and potential values realizable from awards granted in prior years is a highly relevant factor in assessing the effectiveness of our compensation program’s continued alignment with our shareholders’ long-term interests.

The following table sets forth the realizable pay for our CEO for fiscal years 2016, 2017 and 2018:

	2016	2017	2018
Salary ⁽¹⁾	\$632,423	\$630,000	\$699,692
Bonus	—	—	—
Non-equity incentive plan compensation	\$700,000	\$1,335,000	\$960,000
Long-term incentives:			
Option awards ⁽²⁾	—	—	—
PSU/RSU awards ⁽²⁾	—	\$2,867,360	\$4,016,031
Other compensation	\$87,091	\$83,215	\$79,163

Edgar Filing: Genpact LTD - Form DEF 14A

Total realizable compensation⁽³⁾ \$1,419,514 \$4,915,575 \$5,754,886

- (1) Mr. Tyagarajan's base salary was unchanged from 2016 to 2017 and was increased effective June 1, 2018. The slight variation in his reported salary from 2016 to 2017 reflects a difference in the number of working days in each such fiscal year.
- (2) Mr. Tyagarajan was not granted any option awards in 2016 or 2017, and the exercise price of the option granted to Mr. Tyagarajan in 2018 exceeded the closing price of our common shares as of December 31, 2018. The 2016 PSU award granted to Mr. Tyagarajan was forfeited for failure to achieve threshold revenue and adjusted income from operations performance.

2019 Proxy Statement | 41

(3) Total realizable compensation was calculated using (a) actual earned base salary, (b) cash bonus and all other non-equity compensation as disclosed in the Summary Compensation Table, (c) equity award values of all performance share units with performance periods ending within the measurement period at the determined outcome multiplied by the closing price of our common shares on the last business day of fiscal year 2018 of \$26.99, and (d) in the case of options, the intrinsic value of all awards granted in each year calculated by subtracting the exercise price from the closing share price on the last day of fiscal year 2018 of \$26.99.

The following chart compares the fiscal year 2016, 2017 and 2018 Summary Compensation Table values for our CEO to realizable compensation values and provides our total shareholder return as of the end of each fiscal year during the period from January 1, 2016 to December 31, 2018, assuming an investment of \$100 in Genpact common shares on January 1, 2016.

(1) Represents the cash bonus opportunity range under our 2018 annual bonus plan, which is summarized under “Compensation Discussion and Analysis—Compensation Components—Annual Cash Bonus” above. For Mr. Tyagarajan, the cash award target was 160% of his base salary, and for the other named executive officers, the cash bonus award target ranged between 70% and 100% of base salary. For Mr. Mehta, who is compensated in Indian rupees, amounts in this column were calculated after converting his salary in local currency at a rate of INR 1/US\$0.01468144. For the actual amounts paid to each named executive officer, see the “Non-equity Incentive Plan Compensation” column of the “Summary Compensation Table” above. Amounts shown in the “Threshold” column represent the payments that would result from attainment of threshold performance with respect to each of (a) the Company Multiplier, for which threshold performance is 50% of target, (b) the individual scorecard financial metrics, for which threshold performance is 75% of target for each metric, and (c) the individual scorecard non-financial metrics, for which there is no minimum performance threshold and therefore threshold performance has been assumed at 0%. Amounts shown in the “Maximum” column represent the payments that would result from attainment of the highest level of performance with respect to both (a) the Company Multiplier, for which the maximum performance level is 200% of target, and (b) the overall individual scorecard result, for which the maximum performance level for each metric is 150% of target. See “Compensation Discussion and Analysis—Compensation Components—Annual Cash Bonus” above for a description of our annual bonus plan.

(2)

Represents performance share awards that will vest based on the level of attainment of the performance goals for the 2018 fiscal year, subject to continued service through January 10, 2021. Based on 2018 performance, the Committee has determined that the number of shares issuable under the awards (subject to continued service vesting) is 128.773% of the target number of shares. See “Compensation Discussion and Analysis—Compensation Components—Equity-Based Compensation” above for a description of the awards.

- (3) Represents the grant date fair value of stock and option awards granted during the fiscal year ended December 31, 2018, calculated in accordance with FASB ASC Topic 718. The aggregate grant date fair value of performance share awards is calculated in accordance with FASB ASC Topic 718, based on the probable outcome of the attainment of one or more pre-established performance objectives as of the grant date.

NARRATIVE DISCLOSURE TO SUMMARY COMPENSATION TABLE AND GRANTS OF PLAN-BASED AWARDS TABLE

Employment Agreements with Named Executive Officers

Summarized below are the material terms of our employment agreements with Messrs. Tyagarajan, Fitzpatrick and Cogny. We do not have an employment agreement with any other named executive officer.

N.V. Tyagarajan. We entered into an employment agreement with Mr. Tyagarajan on June 15, 2011, which supersedes his previous employment agreement, dated February 7, 2005. The employment agreement has an indefinite term and may be terminated by us or Mr. Tyagarajan, subject to the severance provisions described below. The employment agreement provides for an annual base salary of not less than \$600,000 and a target bonus of 125% of annual base salary. For 2018, the compensation committee set Mr. Tyagarajan's target bonus at \$1,200,000, or 160% of base salary, which was increased to \$750,000 effective June 1, 2018. Mr. Tyagarajan is entitled to benefits and perquisites generally available to our other senior executives, reimbursement of automobile costs and \$60,000 for personal costs. Mr. Tyagarajan is also entitled to four weeks of vacation per year.

For purposes of Mr. Tyagarajan's employment agreement, the term "good reason" means a material reduction in the nature of Mr. Tyagarajan's authorities or duties, a material reduction in base compensation, requiring Mr. Tyagarajan to report to any person other than our board of directors or a material relocation of Mr. Tyagarajan's principal place of employment, which has not been cured by us within 30 days following notice of such event by Mr. Tyagarajan.

If Mr. Tyagarajan's employment is terminated by us without cause or by Mr. Tyagarajan for good reason, then in addition to any earned but unpaid salary or bonus and payment for accrued but unused vacation, Mr. Tyagarajan is entitled to payment of an amount equal to the sum of (I) two times Mr. Tyagarajan's then current base salary and (II) two times the annual bonus received for the fiscal year preceding the fiscal year in which the termination occurs. In addition, we will reimburse Mr. Tyagarajan for the cost of acquiring health benefits for himself and his dependents at the same level of coverage and benefits as is provided to our US-based senior executives for two years following the date of termination, or any earlier date on which he and his dependents become eligible for such health benefits from another employer.

Mr. Tyagarajan's payments upon termination of employment described above are subject to his execution of a release of all claims against us and our affiliates. The release would also be executed by us and release Mr. Tyagarajan from any claims by us relating to Mr. Tyagarajan's employment or services other than claims based on acts or omissions of Mr. Tyagarajan that involve fraud or which are not known to the non-employee directors on the date of such release. The release also includes a mutual non-disparagement provision.

Under his employment agreement, for two years after the termination of his employment, Mr. Tyagarajan will be subject to certain non-compete and non-solicitation covenants.

Edward J. Fitzpatrick. On June 26, 2014, we entered into an employment agreement with Mr. Fitzpatrick in connection with his appointment as our Chief Financial Officer. The employment agreement has an indefinite term and may be terminated by us or Mr. Fitzpatrick, subject to the severance provisions described below. The employment agreement provides for an annual base salary of not less than \$600,000 and a target bonus of 100% of annual base salary. In addition, Mr. Fitzpatrick is entitled to benefits and perquisites generally available to our other senior executives and four weeks of vacation per year.

For purposes of Mr. Fitzpatrick's employment agreement, the term "good reason" means a material reduction in the nature of Mr. Fitzpatrick's authorities or duties, a material reduction in base compensation, requiring Mr. Fitzpatrick to

report to any person other than our CEO or a material relocation of Mr. Fitzpatrick's principal place of employment, which has not been cured by us within 30 days following notice of such event by Mr. Fitzpatrick.

44 | 2019 Proxy Statement

In the event of Mr. Fitzpatrick's termination for good reason or by the Company without cause, Mr. Fitzpatrick will receive severance benefits that consist of a cash payment equal to the sum of (a) 100% of his then current base salary and (b) the cost of acquiring health benefits for himself, his spouse and his eligible dependents for up to 12 months following termination. In addition, the equity awards granted under the Agreement will accelerate and vest as described below in the section titled "Potential Payments upon Termination or Change of Control—Incentive Compensation Plans."

Mr. Fitzpatrick's payments upon termination of employment described above are subject to his execution of a release of all claims against us and our affiliates. In addition, Mr. Fitzpatrick will be subject to certain non-compete and non-solicitation covenants for one year after the termination of his employment.

Patrick Cogny. Under Mr. Cogny's employment agreement, which was amended in December 2015, Mr. Cogny is entitled to an annual base salary of not less than \$513,500 and a target bonus of not less than \$300,000. Additionally, if Mr. Cogny's employment is terminated by the Company, except for a serious breach of the employment agreement, serious misconduct or serious negligence, he will receive a one-time cash payment of \$550,000.

Incentive Compensation Plans

We adopted our 2017 Omnibus Incentive Compensation Plan, or the 2017 Plan, on May 9, 2017 as a successor to our 2007 Omnibus Incentive Compensation Plan, or the 2007 Plan. No grants may be made under the 2007 Plan after the date of adoption of the 2017 Plan. Grants that were outstanding under the 2007 Plan as of the Company's adoption of the 2017 Plan remain subject to the terms of the 2007 Plan.

Options

The exercise prices for the options granted in 2018 are equal to the closing prices of our common shares on the grant dates. The options vest over a five-year period, 50% in 2021 and the remaining 50% in 2023, provided the recipients continue in service through each vesting date. The option granted to Mr. Tyagarajan is subject to accelerated vesting as described in the section titled "Equity-Based Compensation—2018 Option Grants" above.

Performance Share Awards

The performance share awards granted to our named executive officers in 2018 under the 2017 Plan will convert into actual common shares of the Company based on the Company's attainment of certain performance goals measured over the period beginning January 1, 2018 and ending December 31, 2018 and the individual's continued service with the Company through January 10, 2021. Each award specifies a target number of performance shares. The number of common shares of the Company into which the performance shares are to convert is calculated by multiplying the number of target performance shares designated under the award by a performance percentage ranging from 0% to 200%. Under the 2018 performance share awards, the performance percentage was based on the Company's new bookings, revenue and transformation services revenue during the period from January 1, 2018 to December 31, 2018.

Under each award, adjusted income from operations and adjusted income from operations margin are qualifying criteria, and for the other three goals, which are equally weighted, there are three designated levels of attainment: threshold, target and outstanding. If performance for any metric other than transformation services revenue had been below the threshold, no payout would have occurred. The transformation services goal under the 2018 awards was independent, such that failure of the Company to achieve the threshold performance level for transformation services revenue would have affected the overall vesting percentage but would not have prevented the awards from vesting, assuming all other goals had been met at the threshold level at a minimum. See the section titled "Equity-Based

Compensation—2018 Performance Share Awards” above for more information. Based on our 2018 results, the 2018 performance share awards will vest (subject in each case to the recipient’s continued service through January 10, 2021) at 128.773% of the target number of shares.

Under our 2018 performance share awards, if a change of control of the Company had occurred prior to the end of the performance period on December 31, 2018, the number of shares issuable under each award would have been at the target level. If a change of control of the Company occurs after the end of the performance period but before the end of the service vesting period, the number of shares issuable will be based on actual performance. The awards may be assumed, substituted or continued in connection with a change of control and continue to vest based on the service vesting requirements of the awards; if not assumed, substituted or continued, then the awards will become payable at the time of the change of control. A performance share award will vest in full in the event of a participant's termination by the Company without cause within 24 months following a change of control of the Company in connection with which the award is assumed, continued or substituted.

Additionally, each of the performance share awards will vest on a pro-rated basis based on actual performance in the event of the recipient's termination by reason of death or disability during the service period.

The performance share awards (and any shares issued thereunder or proceeds from the sale of such shares) are subject to forfeiture in the event of a breach of restrictive covenants. See "Compensation Discussion and Analysis—Recovery Policy."

Change of Control

Pursuant to the 2007 Plan and the 2017 Plan, unless otherwise provided in an individual award agreement, in the event of a change of control of the Company, existing awards may be assumed, substituted or continued. If the awards are not assumed, substituted or continued, then:

- any options and SARs outstanding as of the date the change of control is determined to have occurred will become fully exercisable and vested, as of immediately prior to the change of control;
- all performance units and cash incentive awards will be paid out as if "target" performance levels had been attained, but pro-rated based on the portion of the performance period that elapses prior to the change of control; and
- all other outstanding awards will automatically be deemed exercisable or vested and all restrictions and forfeiture provisions related thereto will lapse as of immediately prior to such change of control.

The treatment of outstanding performance share awards in the event of a change of control is described above for the 2018 performance share awards.

Unless otherwise provided pursuant to an award agreement, a change of control is defined to mean any of the following events, generally:

- during any period of twenty-four consecutive months, a change in the composition of a majority of our board of directors that is not supported by a majority of the incumbent board of directors;
- the consummation of a merger, reorganization or consolidation or sale or other disposition of all or substantially all of our assets;
- the approval by our shareholders of a plan of our complete liquidation or dissolution; or

NONQUALIFIED DEFERRED COMPENSATION PLAN

The following table sets forth certain information with respect to our Deferred Compensation Plan as of December 31, 2018 for our named executive officers who elected to participate.

PIYUSH MEHTA	—	—	—	—	—

(1) Contributions are included in the Summary Compensation Table under the “Non-equity Incentive Plan Compensation” column for Mr. Fitzpatrick and under the “Salary,” “Bonus” and “Non-equity Incentive Plan Compensation” columns for Messrs. Cogy and Singh. Bonus and non-equity incentive plan awards were earned

with respect to fiscal 2018 but awarded after the end of the fiscal year and, accordingly, the deferred amounts were contributed to the Deferred Compensation Plan in 2019.

(2) Earnings include realized and unrealized gains and losses, capital gains and losses, and dividends paid. Because the deferrals of bonus and non-equity incentive plan compensation did not occur until after the end of the fiscal year, no earnings on these amounts are included in this column.

(3) Includes contributions of bonus and non-equity incentive plan compensation that were earned with respect to fiscal 2018 but were contributed to the Deferred Compensation Plan in 2019.

The Deferred Compensation Plan provides a select group of management or highly compensated employees (within the meaning of the Employee Retirement Income Security Act of 1974, as amended) of Genpact LLC and participating affiliates, including our named executive officers, the opportunity to defer from 1% up to 80% of their base salary and from 1% up to 100% of their qualifying bonus compensation (or such other minimums or maximums as determined by the administrator of the Deferred Compensation Plan). Participant deferrals are 100% vested at all times. The Deferred Compensation Plan also allows discretionary supplemental employer contributions by Genpact USA, Inc. (the "Member"), in the Member's sole discretion,

to be credited to some or all participant accounts. Discretionary supplemental employer contributions, if made, will be subject to a two-year vesting schedule (50% vesting on the one-year anniversary of approval of the contribution and 50% vesting on the second year anniversary of approval of the contribution, subject in each case to the participant's continuing service) or such other vesting schedule as determined by the Member at the time the contribution is approved.

A participant's compensation deferrals and discretionary supplemental employer contributions (if any) will be credited or debited with notional investment gains and losses equal to the experience of selected hypothetical investment funds offered under the Deferred Compensation Plan and elected by the participant. The administrator of the Deferred Compensation Plan has the discretion to establish procedures by which the participants can change their investment elections among the available alternatives. Currently, participants can change their elections on a daily basis, subject to excessive trading limits.

A participant may elect to receive his or her deferred compensation and earnings thereon either (a) in a specified year or (b) following separation from service, in a single sum or in annual installments over a period of up to 15 years.

If a participant does not make an election with respect to the timing and/or form of payment, the deferred compensation will be paid in a lump sum upon participant's separation from service. Any supplemental employer contribution will be paid upon a participant's separation from service in the form of payment elected by the participant, unless otherwise designated by the Member at the time the contribution is authorized. Pursuant to the terms of the Deferred Compensation Plan, payments may be accelerated in certain circumstances, including death of the participant, unforeseeable emergency, limited cashouts, payment of taxes, certain offsets to satisfy debt, failure of the Plan to meet statutory requirements and termination of the Deferred Compensation Plan.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

Below is a description of the potential payments and benefits that would be provided to our named executive officers upon termination of their employment or a change of control under their employment agreements and award agreements under the Incentive Compensation Plans.

Employment Agreements with Named Executive Officers

We have entered into agreements with Messrs. Tyagarajan, Fitzpatrick and Cogy that provide for certain payments and benefits to be paid upon certain terminations of employment. See "Narrative Disclosure to Summary Compensation Table and Grant of Plan-Based Awards Table—Employment Agreements with Named Executive Officers" above for a description of these provisions.

Incentive Compensation Plans

The general treatment of outstanding awards under our 2007 and 2017 Plans in the event of a change of control is described under "Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table – Incentive Compensation Plans." However, certain equity grants have special change of control vesting provisions, as described below.

Generally, except as described below or upon certain qualifying terminations following a change of control (as described under "Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table—Incentive Compensation Plans"), our equity awards to our named executive officers do not provide for accelerated vesting upon a termination of employment.

The option granted to Mr. Tyagarajan in 2018 is subject to accelerated vesting upon certain terminations as described in the section titled “Equity-Based Compensation–2018 Option Grants” above. Under the option granted to Mr. Tyagarajan on May 31, 2013 (which vested with respect to 50% of the option on each of January 10, 2016 and January 10, 2018), 25% of the shares subject to the option would have vested upon a termination

without cause or for good reason, and 20% of the shares subject to the option would have vested upon a termination by reason of death or disability, in each case if such termination events had occurred prior to full vesting of the option. The option would also have vested in full upon a change of control.

The option granted to Mr. Fitzpatrick on July 15, 2014 in connection with commencement of his employment (which vested with respect to 50% of the option on July 15, 2017 and will vest with respect to the remaining 50% on July 15, 2019) will vest in full in the event of Mr. Fitzpatrick's termination by the Company without cause or his termination for good reason in each case within 24 months following a change of control of the Company. Upon Mr. Fitzpatrick's termination of employment by reason of death or disability, or his termination by the Company without cause, the option will vest on a pro-rated basis based on the period of service completed over the 5-year period measured from the grant date of the option until the date of termination, less the number of shares subject to the option that vested prior to such termination.

Additionally, each of the performance share awards granted to our named executive officers will vest on a pro-rated basis based on actual performance in the event of the executive's termination by reason of death or disability.

TERMINATION AND CHANGE OF CONTROL POTENTIAL PAYMENTS AND BENEFITS TABLE

The amounts included in the table below do not include payments and benefits to the extent they are provided on a non-discriminatory basis to salaried employees generally upon termination of employment. The amounts indicated are based on the payments and benefit costs that would have been incurred by the Company if the named executive officer's employment had terminated as of the last business day of the fiscal year ended December 31, 2018. Where applicable, the value of one of our common shares on December 31, 2018 was \$26.99, which was the closing market price of our common shares on the NYSE on such date.

(1) See definitions of “good reason” in “Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table—Employment Agreements with Named Executive Officers—N.V. Tyagarajan and Edward J. Fitzpatrick.”

(2) The following terms apply to outstanding awards in the event of a change of control:

• outstanding awards may be assumed, substituted or continued, in which case there is no accelerated vesting of the awards;

• performance share awards granted to our named executive officers, the option granted to Mr. Tyagarajan in 2018 and the option granted to Mr. Fitzpatrick in 2014 vest in full upon a termination without cause or for good reason within 24 months following a change of control in which the awards are assumed, substituted or continued; and

• if outstanding awards are not assumed, substituted or continued, then they vest in full upon a change of control.

- (3) Amount represents the payment of an amount equal to two times the sum of (i) Mr. Tyagarajan's annual base salary of \$750,000 and (ii) the annual bonus he received for the fiscal year preceding the fiscal year of termination, which annual bonus was \$1,335,000 in 2017.
- (4) 50% of the shares subject to Mr. Tyagarajan's 2018 option would vest on an accelerated basis upon a termination prior to May 8, 2021. As of December 31, 2018, the exercise price of this option exceeded the closing price of our common shares, and accordingly no value is attributed to the accelerated vesting of the option.
- (5) Amount represents the estimated value of the pro-rated vesting of performance share awards granted in 2017 and 2018, calculated at actual performance. No value is attributed to the accelerated vesting of 20% of the shares subject to the option granted to Mr. Tyagarajan in 2018, because as of December 31, 2018, the exercise price of this option exceeded the closing price of our common shares.
- (6) Amount represents the estimated value of accelerated vesting of the performance share units granted to Mr. Tyagarajan in 2017 and 2018, calculated at actual performance. No value is attributed to the accelerated vesting of the option granted to Mr. Tyagarajan in 2018 because as of December 31, 2018, the exercise price of this option exceeded the closing price of our common shares.
- (7) Amount represents the estimated value of providing Mr. Tyagarajan and his dependents with health benefits for two years following the date of termination at the same level of coverage provided to our U.S.-based senior executives. This amount is calculated based on the present value of the maximum liability with respect to Mr. Tyagarajan and his dependents under our applicable benefit plan in effect as of December 31, 2018.
- (8) Amount represents the payment of an amount equal to Mr. Fitzpatrick's annual base salary as of December 31, 2018 of \$600,000.
- (9) Amount represents the estimated value of the pro-rated vesting of the unvested option granted in 2014.
- (10) Amount represents the estimated value of the pro-rated vesting of (i) the unvested option granted in 2014 and (ii) performance share awards granted in 2017 and 2018, calculated at actual performance.
- (11) Amount represents the estimated value of the full vesting of (i) the unvested option granted in 2014 and (ii) performance share awards granted in 2017 and 2018, calculated at actual performance.
- (12) Amount represents the estimated value of providing Mr. Fitzpatrick and his dependents with health benefits for twelve months following the date of termination at the same level of coverage provided to our U.S.-based senior executives. This amount is calculated based on the present value of the maximum liability with respect to Mr. Fitzpatrick and his dependents under our applicable benefit plan in effect as of December 31, 2018.
- (13) Amount represents the payment in lump sum of \$550,000 pursuant to Mr. Cogy's employment agreement in the event of his termination without cause. In such an event, Mr. Cogy's employment agreement also provides for the Company's reimbursement of his reasonable expenses incurred in relocating himself and his family to Europe, including the cost of temporary housing, costs for the relocation of goods, including storage, and business class airfare. Because such relocation expenses are not estimable at this time, they are not reflected in this table.
- (14) Amount represents the estimated value of pro-rated vesting of performance share awards granted in 2017 and 2018, calculated at actual performance.
- (15) Amount represents the estimated value of accelerated vesting of (i) performance share awards granted in 2017 and 2018, calculated at actual performance, and (ii) unvested Company options granted in 2016 assuming a change of control in connection with which such awards are not assumed, substituted or continued. The outstanding unvested options granted to Messrs. Cogy and Singh do not provide for acceleration in the event of a termination following a change of control in connection with which such options are assumed, substituted or continued. Accordingly, the value of accelerated vesting of their outstanding unvested equity awards in the event of a qualifying termination following a change of control includes only the value of accelerated vesting of their performance share awards and would be \$1,052,467 for Mr. Cogy and \$1,144,893 for Mr. Singh.
- (16) Amount represents the estimated value of accelerated vesting of (i) performance share awards granted in 2017 and 2018, calculated at actual performance, and (ii) unvested Company options granted in 2016 and 2018 assuming a change of control in connection with which such awards are not assumed, substituted or continued. The outstanding unvested options granted to Mr. Mehta do not provide for acceleration in the event of a termination following a change of control in connection with which such options are assumed, substituted or

continued. Accordingly, the value of accelerated vesting of his outstanding unvested equity awards in the event of a qualifying termination following a change of control includes only the value of accelerated vesting of his performance share awards and would be \$1,295,245.

CEO PAY RATIO

For 2018, Mr. Tyagarajan's total annual compensation as disclosed in the Summary Compensation Table was \$22,299,191, and the total annual compensation (taking into account a cost of living adjustment for wages paid to employees outside the U.S.) for our median employee, located in Mexico, was \$29,393, resulting in a pay ratio of 759:1. We have employees in more than 20 countries, and more than 90% of our employees are located outside of the U.S. Most of these non-U.S. employees are based in India and other countries in which wage levels have historically been significantly lower than wage levels in the U.S. and Western Europe for comparably skilled professionals.

We used the following methodology and assumptions to identify the median employee and calculate the annual total compensation of the median-paid employee:

- We selected October 1, 2018 as the date on which to determine our median employee. As of that date, we had more than 83,000 employees, of which only approximately 7,000 were located inside the U.S.
- SEC regulations allow employers to identify the median based on a "consistently applied compensation measure," or CACM. We used (A) annualized base salary plus (B) target bonus or other incentive compensation for 2018 as our CACM because these two elements are consistently available across all countries where we have employees.
- We ranked this compensation measure for our employees from lowest to highest. This calculation was performed for all employees, excluding Mr. Tyagarajan, whether employed on a full-time, part-time, or seasonal basis.
- We converted amounts paid in foreign currencies to the U.S. dollar based on the applicable 2018 average exchange rates.

As permitted by SEC rules, we performed two separate calculations in identifying our median employee: one involved making a cost-of-living-adjustment ("COLA") for individuals employed outside of the U.S. and Puerto Rico, and one did not employ a COLA for those individuals. We performed the COLA based on the most recent figures available, as of the determination date of October 1, 2018, from the World Bank Price Level Ratio of PPP Conversion Factor (GDP) to market exchange rate, available at <http://data.worldbank.org/indicator/PA.NUS.PPPC.RF>. Using the COLA, we determined that our median employee was an employee working in Mexico as discussed above. The exchange rate we used to convert our median employee's compensation to the U.S. dollar was 1 Mexican peso to 0.0526 U.S. dollar, and a COLA of 1 to 0.4876 was applied to this individual's U.S. dollar-converted annual total compensation. Performing the median employee identification analysis without employing a cost-of-living adjustment, we determined that the 2018 annual total compensation for a different median employee, located in India, was \$8,317, resulting in a pay ratio of 2,681:1. The exchange rate we used to convert such employee's compensation to the U.S. dollar was 1 Indian rupee to 0.0150 U.S. dollar. Because our median employee is located in India and our CEO is located in the U.S., our CEO pay ratio is higher than it would be if our employee base were concentrated primarily in the U.S. or if most of our employees, including our CEO, were employed in the same jurisdiction.

In 2018, our compensation committee granted a special option grant to our CEO meant to cover a five-year period. In determining the size of this grant, our compensation committee considered the annualized value of the option in setting the CEO's total target annual direct compensation for 2018, as discussed in the section titled "CEO Compensation Mix." Accordingly, the value of this option grant reported in the Summary Compensation Table, which is based on the grant-date fair value of the full option as required by SEC rules, does not present the total annualized direct compensation of our CEO for 2018. On an annualized basis, our CEO's 2018 compensation was \$8,346,289, and on this basis, the pay ratio of our CEO's compensation to that of our median employee (applying a COLA) in 2018 is 284:1.

We believe the pay ratio reported above is a reasonable estimate calculated in a manner consistent with SEC rules based on our internal records and the methodology described above. Because the SEC rules for identifying the median compensated employee and calculating pay ratio allow companies to adopt a variety of methodologies, apply certain exclusions, and make reasonable estimates and assumptions that reflect their employee populations and compensation

practices, our pay ratio may not be comparable to the pay ratios reported by other companies.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

During fiscal 2018, Ms. Lindstrom and Messrs. Madden, Nunnely and Scott served as members of our compensation committee. No member of our compensation committee was at any time during fiscal 2018, or formerly, an officer or employee of Genpact Limited or any subsidiary of Genpact Limited. No member of our compensation committee had any relationship with us during fiscal 2018 requiring disclosure under Item 404 of Regulation S-K under the Securities Act of 1933.

PROPOSAL 2 – NON-BINDING VOTE ON EXECUTIVE COMPENSATION

The Company's shareholders are entitled to vote at the annual general meeting to approve, on an advisory, non-binding basis, the compensation of our named executive officers, as disclosed in this proxy statement in accordance with the standards established under Item 402 of Regulation S-K under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The shareholder vote on executive compensation is an advisory vote only, and it is not binding on the Company, our Board or the compensation committee.

Although the vote is non-binding, our Board and the compensation committee value the opinions of the shareholders and will consider the outcome of the vote when making future compensation decisions affecting the Company's executive officers. At the past two annual general meetings of our shareholders held in May 2017 and May 2018, the results of the shareholder advisory votes strongly supported our executive compensation programs, with approximately 99% and 97% of the votes, respectively, having been cast for the approval of the compensation of our named executive officers.

Our shareholders are given the opportunity to vote on an advisory, non-binding basis on the compensation of our named executive officers annually. The next opportunity for our shareholders to vote on such a proposal will be at the 2020 annual general meeting of our shareholders. As described in the section titled "Compensation Discussion and Analysis," our executive compensation program has a strong pay-for-performance alignment and is designed to reward the achievement of our annual, long-term and strategic goals, such as growing revenues (including transformation services revenues in particular), improving operating margins and deepening client relationships. It is also designed to align the interests of our executives, including our named executive officers, with those of our shareholders by rewarding performance that exceeds our goals, with the ultimate objective of increasing shareholder value. Shareholders are urged to read the foregoing "Compensation Discussion and Analysis" section of this proxy statement, which more thoroughly discusses how we believe our compensation policies and procedures complement our compensation philosophy. Our Board and our compensation committee believe that these policies and procedures are effective in implementing our compensation philosophy and in achieving its goals.

The vote on this resolution is not intended to address any specific element of compensation; rather, the vote relates to the compensation of our named executive officers, as described in this proxy statement.

We are asking our shareholders to vote for the following resolution:

"RESOLVED, that the Company's shareholders hereby approve, on a non-binding, advisory basis, the compensation of the Company's named executive officers as disclosed in the proxy statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis section, the various compensation tables and the accompanying narrative discussions."

BOARD RECOMMENDATION: The board recommends that you vote FOR the approval, on a non-binding, advisory basis, of the compensation of our named executive officers as disclosed in this proxy statement pursuant to the SEC's compensation disclosure rules.

PROPOSAL 3 – APPROVAL OF AMENDMENT AND RESTATEMENT OF 2017 OMNIBUS INCENTIVE COMPENSATION PLAN

We are asking our shareholders to vote on a proposal to approve the amendment and restatement of the Genpact Limited 2017 Omnibus Incentive Compensation Plan, or the 2017 Plan, pursuant to which an additional 8,000,000 common shares will be available under the 2017 Plan for issuance to officers, employees, directors and consultants in our employ or service or the employ or service of our affiliates. Our board of directors approved the amendment and restatement of the 2017 Plan on April 5, 2019, subject to shareholder approval at the 2019 Annual Meeting.

In addition to increasing the share reserve, we have also made certain technical and administrative changes to the 2017 Plan, and eliminated provisions that are no longer applicable, as a result of the repeal of the “performance-based compensation” exemption to Code § 162(m) described more fully below.

Incentive compensation programs play a pivotal role in the Company’s efforts to attract and retain key personnel essential to the Company’s long-term growth and financial success. For that reason, the Company has structured the 2017 Plan to provide flexibility in designing equity incentive programs with a broad array of equity incentives, such as options, share appreciation rights, share awards, restricted share units and performance units and implement competitive incentive compensation programs for its key employees and non-employee board members. As of March 11, 2019, a total of 5,238,566 common shares remained available for future grants under the 2017 Plan. We believe that the current share reserve amount is insufficient to meet our future needs with respect to attracting, motivating and retaining key executives and employees in a competitive market for talent. If this proposal is not approved, we may be unable to continue to offer competitive equity packages to attract and retain employees and we may have to increase cash compensation to recruit, retain and motivate our employees and non-employee board members, thereby reducing resources available to meet our business needs.

We seek your approval of the amendment and restatement of the 2017 Plan in order to (i) meet NYSE listing requirements to obtain shareholder approval, (ii) allow for incentive stock options that meet the requirements of the Code, and (iii) allow equity awards and other bonuses that may be grandfathered under Code § 162(m) to continue to be exempt from the deductibility limit of one million dollars (\$1,000,000) per person imposed by Code § 162(m) on compensation paid to certain of our executive officers.

Current Overview of Outstanding Equity Information

The 2017 Plan became effective on May 9, 2017 upon its approval by the shareholders at the 2017 Annual Meeting (the “Plan Effective Date”). The 2017 Plan is the successor to the 2007 Omnibus Incentive Compensation Plan (the “Predecessor Plan”), which terminated on the Plan Effective Date, following which no awards may be made under the Predecessor Plan. Accordingly, the 2017 Plan is the only plan under which discretionary equity awards may be granted to our employees and other service providers, although grants may be made outside of the 2017 Plan under certain circumstances.

When deciding on the number of shares to be available for awards under the 2017 Plan, the Board considered a number of factors, including the remaining number of shares available under the 2017 Plan, the number of shares needed for future awards, a dilution analysis, competitive data from relevant peer companies, the current and future accounting expenses associated with our equity award practices, and input from shareholder advisory firms.

The Company currently has awards outstanding under the 2017 Plan and the Predecessor Plan. As of March 11, 2019, there were 4,359,174 shares subject to outstanding options, 1,531,779 shares subject to outstanding restricted share

units and 3,605,190 shares subject to performance share awards under the 2017 Plan and 4,473,035 shares subject to outstanding options, 30,036 shares subject to outstanding

restricted share units and 626,002 shares subject to performance share awards under the Predecessor Plan, as described in the table below. The total number of Company common shares outstanding as of March 11, 2019 was 189,636,779.

Plans as of March 11, 2019	Shares	Shares	Shares	Total Aggregate Shares
	Subject to Outstanding Options ⁽¹⁾	Subject to Outstanding Full Value Awards ⁽²⁾	Remaining Available for Future Grant	
2017 Plan	4,359,174	5,136,969	5,238,566	14,734,709
Predecessor Plan	4,473,035	656,038	—	5,129,073
Total (Before 2017 Plan amendment and restatement is approved)	8,832,209	5,793,007	5,238,566	19,863,782
Total including Shares Available for Future Grant Upon Approval of the amendment and restatement of 2017 Plan ⁽³⁾	8,832,209	5,793,007	13,238,566	27,863,782

(1) As of March 11, 2019, the 8,832,209 options outstanding had a weighted average exercise price per share of \$24.42 and a weighted average life of 6.9 years.

(2) Consists of restricted share units and performance share awards (at target).

(3) This is subject to adjustment and increase as discussed in the section titled “Shares Subject to 2017 Plan” below. Based on the common shares outstanding as of March 11, 2019, the aggregate total 19,863,782 shares issuable pursuant to outstanding awards under the 2017 Plan and the Predecessor Plan and shares available for future grants under the 2017 Plan as of March 11, 2019 represents an overhang of approximately 9.5% of shares. If the amendment and restatement of the 2017 Plan is approved, the additional 8,000,000 shares available for issuance would increase the overhang to approximately 12.8%. The Company calculates “overhang” as the total of (a) shares underlying outstanding awards plus shares available for issuance under future equity awards, divided by (b) the total number of shares outstanding, shares underlying outstanding awards and shares available for issuance under future equity awards.

We recognize that reserving an additional 8,000,000 new shares will increase the potential dilution to our shareholders. In connection with our equity incentive programs, we are committed to using equity incentive awards prudently and within reasonable limits. Accordingly, we closely monitor our stock award “burn rate” each year. Our historic three-year average gross burn rate, representing annual equity awards granted as a percentage of total shares outstanding, is 1.70%, and our historic three-year average gross burn rate calculated in accordance with the methodology used by Institutional Shareholder Services (“ISS”), which applies a multiplier for full-value awards, is 3.20%. This is significantly below the 9.35% gross burn rate limit that ISS applies to the 4510 (Software & Services) GICS industry group of the Russell 3000 for 2018 to which the Company belongs. Our burn rate may increase in the future if we extend equity grants to employees of companies we acquire, which has been our recent practice.

Fiscal Year	Restricted Performance				Weighted		
	Options	Share	Units	Share	Units	Average	Burn
	Granted	Granted	Earned	Total	Common Shares Outstanding	Rate	
2018	2,638,106	484,427	2,166,653	5,289,186	190,674,739	2.77%	
2017	250,000	1,533,836	1,845,049	3,628,885	193,864,755	1.87%	
2016	860,000	95,553	—	955,553	206,861,536	0.46%	
Three-Year Average	1,249,369	704,605	1,337,234	3,291,208	197,133,677	1.70%	

We expect the share reserve under the 2017 Plan to provide the Company with enough shares for awards for approximately 3 years, assuming the Company continues to grant awards consistent with its current practices and historical usage, as reflected in its historical burn rate, and further dependent on the price of common shares and hiring activity during the next few years, and noting that future circumstances may require the Company to change its current equity grant practices. The Company cannot predict its future equity grant practices, the future price of its shares or future hiring or acquisition activity with any degree of certainty at this time, and the share reserve under the 2017 Plan could last for a shorter or longer time.

Key Features of the 2017 Plan Designed to Protect Shareholders' Interests

The 2017 Plan reflects our commitment to strong corporate governance and contains a number of provisions that we believe are consistent with best practices in equity compensation and which protect the shareholders' interests, as described below.

❖ **Prohibition on repricings.** The 2017 Plan prohibits the repricing, replacement or buyout of any underwater options or share appreciation rights (except as permitted in a change of control or changes in capitalization and other transaction as described below).

❖ **No evergreen feature.** The maximum number of shares available for issuance under the 2017 Plan is fixed and cannot be increased without further shareholder approval.

❖ **No automatic single trigger vesting upon a change of control.** The 2017 Plan allows for an acquiring corporation to assume outstanding awards, and if awards are assumed, they will not automatically accelerate on the change of control. If awards are not assumed, the vesting of such awards will be accelerated.

❖ **Minimum vesting periods.** Share-based awards are subject to a minimum vesting period of at least one year (subject to a 5% carve out and certain exceptions described below).

❖ **No discounted options or share appreciation rights.** Options and share appreciation rights must have an exercise price or grant price at or above fair market value on the date of grant.

❖ **Limit on director pay.** The maximum aggregate grant date fair value (computed as of the date of grant in accordance with applicable financial reporting rules and excluding the value of any dividends or dividend equivalents paid on such awards) of all awards made to a non-employee director under the 2017 Plan in a single fiscal year, taken together with any cash retainers paid to such non-employee director in respect of such fiscal year, will not exceed \$750,000 in total value.

❖ **No tax gross-ups.** The 2017 Plan does not provide for any tax gross-ups.

• **No liberal change-of-control definition.** The 2017 Plan defines change of control based on the consummation of the transaction rather than the announcement or shareholder approval of the transaction.

• **Limitation on dividends and dividend equivalents.** Any dividends or dividend equivalents payable in connection with an award will be subject to the same vesting restrictions as the underlying award and will not be paid until and unless such vesting requirements are met.

• **Independent Administrator.** The 2017 Plan will be administered by our board's compensation committee, which consists entirely of independent directors. Administration of the 2017 Plan may also be delegated to a subcommittee of the compensation committee or one or more officers as described in more detail below.

• **Fixed Term.** The 2017 Plan has a fixed term of 10 years.

Section 162(m) of the Internal Revenue Code

Section 162(m) limits the deductibility for Federal income tax purposes of the compensation paid to certain executive officers to \$1 million in a taxable year with respect to each such officer. However, prior to 2018, compensation that qualified as "performance-based" under Section 162(m) did not count against the \$1 million deduction limitation. Under the Tax Cuts and Jobs Act, enacted in December 2017, the performance-based compensation exception to Section 162(m) was repealed for tax years beginning in 2018. As a result, compensation paid to our executive officers in excess of \$1 million will not be deductible unless such compensation is eligible for a grandfathering rule that preserves the performance-based compensation exemption for certain arrangements and awards in place as of November 2, 2017.

The plan administrator believes in the importance of retaining flexibility to approve compensation arrangements that promote the objectives of the Company's compensation program, even if such arrangements may not qualify for full tax deductibility. Accordingly, the plan administrator reserves the right to continue to award or approve compensation that is not tax deductible or otherwise limited as to tax deductibility when it believes that the circumstances and other relevant factors warrant.

Summary of 2017 Plan

The following is a summary of the principal features of the amended and restated 2017 Plan. This summary is not intended to be a complete description of all the provisions of the 2017 Plan and is qualified in its entirety by reference to the complete text of the 2017 Plan, which is filed as Exhibit 1 to this Proxy Statement.

Types of Awards. The 2017 Plan provides for the following types of awards: options, share appreciation rights, restricted shares, restricted share units, performance units, cash incentive awards and other equity-based awards.

Administration. The compensation committee of our board of directors will have the exclusive authority to administer the 2017 Plan. The compensation committee may delegate to a subcommittee of the committee or one or more officers of the Company, the authority to grant awards to participants other than executive officers and directors of the Company. The term "plan administrator," as used in this summary, will mean the compensation committee and any delegate of the compensation committee.

The plan administrator will have complete discretion to determine which eligible individuals are to receive awards, the types of awards to be granted to each participant, the number of shares or dollar value to

be covered (or the method by which payments or other rights are to be calculated in connection with) each award and the terms and conditions of any award, including the vesting provisions of an award. Subject to the terms of the 2017 Plan, the plan administrator may grant awards under the 2017 Plan for no cash consideration or for any cash or other consideration as may be determined by the plan administrator or required by applicable law. Awards may be granted either alone or in addition to, in tandem with or in substitution for any other award granted under the 2017 Plan. Awards granted under the 2017 Plan may be settled in such form or forms as the plan administrator determines appropriate, including cash, common shares, other securities or awards under the 2017 Plan, other property or a combination of the foregoing methods, and may be made in a single payment or transfer, in installments or on a deferred basis as determined by the plan administrator. The plan administrator may also accelerate the vesting or exercisability of outstanding awards.

Eligibility. Employees, officers, consultants and non-employee members of the board of directors in our employ or service or in the employ or service of our affiliates (whether now existing or hereafter established) will be eligible to participate in the 2017 Plan. As of March 11, 2019, approximately 88,000 persons (including eight executive officers and eleven non-employee members of our board of directors) were eligible to participate in the 2017 Plan. For purposes of the 2017 Plan, an affiliate means any entity that, directly or indirectly, is controlled by, controls or is under common control with, the Company and any entity in which the Company has a significant equity interest, in either case as determined by the plan administrator.

Shares Subject to 2017 Plan. Subject to adjustment as described below, an aggregate of 23,000,000 common shares will be reserved for issuance over the term of the 2017 Plan. This share reserve is comprised of (i) the 15,000,000 shares available on the Plan Effective Date and (ii) the 8,000,000-share increase approved by the Board on April 5, 2019, subject to shareholder approval at the Annual Meeting.

The maximum number of common shares which may be issued pursuant to options intended to qualify as incentive stock options under the U.S. federal tax laws may not exceed 23,000,000 shares.

Awards made under the 2017 Plan will be subject to the following per-participant limitations:

¶ In the case of options and share appreciation rights that are settled in shares, the maximum aggregate number of our common shares with respect to which such options and share appreciation rights may be granted to any participant (other than an independent director) under the 2017 Plan in any fiscal year is 4,000,000.

¶ In the case of awards other than options and share appreciation rights that are settled in shares, the maximum aggregate number of our common shares with respect to which such awards may be granted to any participant (other than an independent director) under the 2017 Plan in any fiscal year is 4,000,000.

¶ In the case of awards that are settled in cash based on the fair market value of our common shares, the maximum aggregate amount of cash that may be paid pursuant to such awards granted to any participant (other than an independent director) under the 2017 Plan in any fiscal year is equal to the per common share fair market value as of the relevant vesting, payment or settlement date multiplied by 4,000,000, in the case of cash-settled share appreciation rights, and 4,000,000, in the case of awards other than cash-settled share appreciation rights.

¶ In the case of all other awards, the maximum aggregate amount of cash and other property (valued at fair market value) other than common shares that may be paid or delivered pursuant to awards to any

participant (other than an independent director) under the 2017 Plan in any fiscal year is \$20,000,000. The maximum aggregate value of awards granted during a fiscal year of the Company to any independent director, taken together with any cash retainer paid to such independent director in respect of such fiscal year, cannot exceed \$750,000 in total value (the “Director Compensation Limit”). For purposes of determining such total value, the value of the applicable awards will be the grant date fair value of such awards as determined for financial reporting purposes and excluding, for this purpose, the value of any dividends or dividend equivalents paid on any such awards.

All share and dollar limitations under the 2017 Plan are subject to adjustment for changes in capitalization and other transactions as described below.

The common shares issuable under the 2017 Plan may be drawn from shares of our authorized but unissued common shares or treasury shares (including from common shares that we acquire, including shares purchased on the open market).

Shares subject to outstanding awards under the 2017 Plan that terminate, expire, are forfeited or cancelled without the delivery of shares or are settled in cash will be available for subsequent issuance under the 2017 Plan. In the event that the withholding of applicable taxes arising from an award other than an option or share appreciation right is satisfied by the tendering of shares owned by the participant or by the withholding of shares that would otherwise be delivered to the participant in connection with the settlement of such award, the shares so tendered or withheld will be added to the number of shares available to be delivered pursuant to awards under the Plan. If shares deliverable to a participant upon exercise of an option are withheld by the Company or shares owned by such participant are surrendered or tendered to the Company in payment of the exercise price of such option or share appreciation right or any taxes required to be withheld or paid or payable in respect of such option or share appreciation right, such shares will not be added to the number of shares otherwise available to be delivered pursuant to awards under the 2017 Plan. Upon exercise of a share-settled share appreciation right, the share reserve will be reduced by the gross number of shares for which the award is exercised. If an award does not entitle a participant to receive or purchase shares, or if an award is settled in cash, such awards will not reduce the number of common shares available for issuance under the 2017 Plan.

Valuation. The fair market value per common share on any relevant date under the 2017 Plan will be the closing sale price of our common shares on the New York Stock Exchange on such date or, if such exchange is not open for trading on such date, on the most recent preceding date that such exchange is open for trading. On March 11, 2019, the fair market value determined on such basis was \$33.71 per share.

Minimum Vesting. Share-based awards granted under the 2017 Plan will vest over a period that is not less than one (1) year from the date of grant; provided, however, that (i) the Company may, in its sole discretion, accelerate the exercisability or nonforfeitability of an award upon the participant’s death, disability or termination of employment or service without cause and (ii) up to 5% of the shares available to be delivered pursuant to awards under the 2017 Plan (as adjusted for changes in capitalization and other transactions) may be granted without regard to such minimum one (1)-year vesting requirement.

Options. Eligible persons may be granted options to purchase our common shares. The exercise price of each option will not be less than 100% of the fair market value of the option shares on the grant date. No granted option will have a term in excess of ten years. Payment of the exercise price of any option may be made in cash, common shares, through withholding of shares otherwise issuable upon exercise of the option or through a broker-assisted cashless exercise procedure.

62 | 2019 Proxy Statement

Share Appreciation Rights. A share appreciation right allows the holder to exercise that right as to a specific number of common shares and receive upon such exercise the excess of (i) the fair market value of the common shares as to which that right is exercised over (ii) the aggregate grant price in effect for those shares. The grant price will not be less than 100% of the fair market value of the underlying shares on the grant date. A share appreciation right may be granted alone or in tandem with or in addition to another award. No granted share appreciation right will have a term in excess of ten years. The plan administrator will determine whether the share appreciation right will be settled in cash, common shares, other securities, other awards, other property or a combination of any of the foregoing and the remaining terms and conditions of a share appreciation right in its discretion, including the methods of exercise, dates of exercise and methods of settlement.

Repricing. The plan administrator may not implement any of the following repricing programs (except in the case of a corporate transaction as described in the section titled "Changes in Capitalization" below or in the event of a change of control or other limited circumstances specified in the 2017 Plan) without shareholder approval: (i) the cancellation of outstanding options or share appreciation rights with exercise prices per share in excess of the then current fair market value per common share for consideration payable in cash, other awards or our equity securities or (ii) the direct reduction of the exercise price in effect for outstanding options or share appreciation rights.

Restricted Shares and Restricted Share Units. Restricted shares and restricted share units may be awarded under the 2017 Plan. The plan administrator will determine at the time of grant the restrictions to which restricted shares will be subject, including the vesting schedule. Unless otherwise determined by the plan administrator in its discretion, unvested restricted shares will generally be forfeited upon termination of a participant's service.

Restricted share units entitle the holder to receive common shares or the value of common shares underlying those units upon the lapse of restrictions or otherwise as specified by the plan administrator. The restricted share units may be settled in cash, common shares, other securities or other awards or property, as determined by the plan administrator.

Performance Units. The plan administrator may grant performance units to participants. Performance units are awards with an initial value established by the plan administrator at the time of the grant. In its discretion, the plan administrator will set performance goals that, depending on the extent to which they are met during a specified performance period, will determine the number and/or value of performance units that will be paid out to the participant. The plan administrator, in its sole discretion, may pay earned performance units in the form of cash, common shares or any combination thereof that has an aggregate fair market value equal to the value of the earned performance units at the close of the applicable performance period.

Cash Incentive Awards. The plan administrator may grant cash incentive awards payable upon the attainment of performance goals

Performance Compensation Awards. The plan administrator may designate any award granted under the 2017 Plan (other than options and share appreciation rights) as a performance compensation award. The plan administrator will also determine the length of performance periods, the types of award to be issued, the performance criteria that will be used to establish the performance goals, the kinds and levels of performance goals and any performance formula used to determine whether a performance compensation award has been earned for the performance period. Such performance criteria may be based on one or more of the following either individually, alternatively or in any combination, applied at a corporate, subsidiary, affiliate, division and/or operational unit basis: (1) net income before or after taxes, (2) earnings before or after taxes (including earnings before interest, taxes, depreciation and amortization and/or charges

for stock-based compensation), (3) operating income, net operating income or operating income after tax, (4) earnings per share or growth in earnings per share, (5) return on shareholders' equity, (6) return on investment or capital, (7) return on assets or net assets, (8) level or amount of acquisitions, (9) share price, (10) profitability and profit margins, (11) market share (in the aggregate or by segment), (12) revenues or sales (based on units or dollars) or growth in revenue or sales, (13) bookings, (14) costs, (15) cash flow, (16) working capital, (17) average sales price, (18) budgeted expenses (operating and capital), (19) inventory turns, (20) accounts receivable levels, (21) level of attrition, (22) operating profit or net operating profit, (23) return on operating revenue or return on operating profit, (24) cash flow per share (before or after dividends), (25) total shareholder return, (26) collections and recoveries, (27) debt reduction, (28) litigation and regulatory resolution goals, (29), budget comparisons, (30) development and implementation of strategic plans and/or organizational restructuring goals, (31) productivity goals; (32) workforce management and succession planning goals, (33) economic value added, (34), measures of customer satisfaction, (35) formation of joint ventures or marketing or customer service collaborations or the completion of other corporate transactions intended to enhance the Company's revenue or profitability or enhance its customer base, (36) and merger and acquisitions, (37) recruitment targets, (38) diversity goals, (39) display of corporate values, (40) development and execution of financial plans and reporting systems, (41) implementation of processes and systems to enhance functions and efficiency, (42) business development and shareholder diversification, (43) execution of investor relations and communication plans, (44) expansion of business operations and goals and capabilities, (45) risk management and compliance, (46) product or market related objectives, and (47) client attraction and retention.

Such performance criteria may be applied on an absolute basis and/or be relative to one or more peer companies of the Company or indices or any combination thereof. Each applicable performance criteria may include a minimum threshold level of performance below which no award will be earned, levels of performance at which specified portions of an award will be earned and a maximum level of performance at which an award will be fully earned. Each applicable performance criteria may be structured at the time of the award to provide for appropriate adjustments or exclusions for one or more of the following items: (A) asset impairments or write-downs; (B) litigation and governmental investigation expenses and judgments, verdicts and settlements in connection therewith; (C) the effect of changes in tax law, accounting principles or other such laws or provisions affecting reported results; (D) accruals for reorganization and restructuring programs; (E) costs and expenses incurred in connection with mergers and acquisitions; (F) costs and expenses incurred in connection with the relocation of the principal offices of the Company or any affiliate; (G) any unusual, infrequent or nonrecurring items; (H) bonus or incentive compensation costs and expenses associated with cash-based awards made under the 2017 Plan or other bonus or incentive compensation plans of the Company or any affiliate, (I) items of income, gain, loss or expense attributable to the operations of any business acquired by the Company or any affiliate; (J) items of income, gain, loss or expense attributable to one or more business operations divested by the Company or any affiliate or the gain or loss realized upon the sale of any such business or the assets thereof and (K) the impact of foreign currency fluctuations or changes in exchange rates. Any performance criteria that are financial metrics may be determined in accordance with GAAP or may be adjusted when established (or at any time thereafter) to include or exclude any items otherwise includable or excludable under GAAP.

The plan administrator may also grant awards that are subject to vesting based on performance goals other than those set forth above.

Subject to the terms of the 2017 Plan, the performance goals to be achieved during any performance period, the length of any performance period, the amount of any performance award granted, the amount of any payment or transfer to be made pursuant to any performance award and any other terms and conditions of any performance award will be determined by the plan administrator.

Dividend Equivalents. Dividend equivalents may be issued under the 2017 Plan (on awards other than options, share appreciation rights or cash incentive awards) and entitle the holder to receive payments (in cash, common shares, other securities, other awards granted under the 2017 Plan or other property as determined in the discretion of the plan administrator) equivalent to the amount of cash dividends paid to the holders of our common shares with respect to a specified number of shares determined by the plan administrator.

However, any amounts attributable to dividend equivalents relating to an award will not vest or become payable prior to the vesting of that award and will, accordingly, be subject to cancellation and forfeiture to the same extent as the underlying award in the event the vesting criteria are not attained.

Other Share-based Awards. The plan administrator is authorized to award participants other equity-based or equity related awards, including fully vested shares, as deemed by the plan administrator to be consistent with the purpose of the 2017 Plan, subject to the terms and conditions determined by the plan administrator at the time of the award.

New Plan Benefits

No awards have been granted based on the share increase under the 2017 Plan subject to shareholder approval under this proposal 3. Any awards following approval of this proposal will be at the discretion of the plan administrator. Accordingly, except as provided with respect to grants to directors described below, the benefits or amounts that may be received by or allocated to each of (i) the named executive officers listed in the Summary Compensation Table, (ii) all directors of the Company who are not executive officers of the Company as a group, (iii) all present executive officers of the Company as a group, and (iv) all employees of the Company, including all other current officers, as a group are not determinable at this time. On the date of the 2019 annual general meeting of shareholders, each of our non-employee directors will receive an RSU grant valued at \$120,000, and the Chairman of our Board will receive an additional RSU grant valued at \$150,000, each as described in the section titled “Elements of Director Compensation.” The number of RSUs to be granted to our directors will be calculated by dividing the value of the RSUs by the closing price of our common shares on the date of grant.

Outstanding Equity Awards

The following table shows, as to our named executive officers listed in the Summary Compensation Table, and the other individuals and groups indicated, the number of common shares subject to options, restricted share units and performance share awards awarded under the 2017 Plan between May 9, 2017 and March 11, 2019. No other type of equity award was granted during such period.

General Provisions

Transferability. Generally, awards granted under the 2017 Plan (other than share awards containing no restrictions) may not be assigned, pledged, attached, sold or otherwise transferred or encumbered in any manner other than by will or the laws of descent or distribution. However, the plan administrator may allow a participant to designate a beneficiary to receive the vested portion of an award in the event of the participant's death, and the plan administrator has the authority to allow the transfer of an award to certain permitted transferees.

Change of Control. Unless otherwise provided pursuant to an award agreement, in the event of a change of control of our company, existing awards may be assumed, substituted or continued and if the outstanding awards are not assumed, continued or substituted:

any options and SARs outstanding as of the date the change of control is determined to have occurred will become fully exercisable and vested, as of immediately prior to the change of control;

all performance units and cash incentive awards will be paid out as if “target” performance levels had been attained, but pro-rated based on the portion of the performance period that elapses prior to the change of control; and
all other outstanding awards will automatically be deemed exercisable or vested and all restrictions and forfeiture provisions related thereto will lapse as of immediately prior to such change of control.

The plan administrator has the authority to provide for accelerated vesting of one or more outstanding awards (including awards that are to be assumed, substituted or continued) and to provide for the cash out of the outstanding awards.

Unless otherwise provided pursuant to an award agreement, a change of control is defined to mean any of the following events, generally:

- during any period of twenty-four consecutive months, a change in the composition of a majority of our board of directors that is not approved by a majority of the incumbent board of directors;
- subject to certain limitations specified in the 2017 Plan, the consummation of a merger, reorganization or consolidation, statutory share exchange, recapitalization, tender offer or similar corporate transaction or sale or other disposition of all or substantially all of our assets;
- the approval by our shareholders of a plan of our complete liquidation or dissolution; or
- subject to certain limitations specified in the 2017 Plan, an acquisition by any individual, entity or group (other than certain specified shareholders) of beneficial ownership of a percentage of the combined voting power of our then outstanding voting securities entitled to vote generally in the election of directors that is equal to or greater than 25%.

Changes in Capitalization. In the event of any recapitalization, share split, reverse share split, split-up or spin-off, reorganization, merger, amalgamation, consolidation, combination, repurchase or exchange of shares or other securities of the Company, issuance of warrants or other rights to purchase our common shares or other securities or other similar corporate transaction or event affecting the common shares or as otherwise permitted under Bermuda law or in the event of any extraordinary dividends or other extraordinary distribution, then the plan administrator will make equitable adjustments to (i) the number and type of shares (or other securities or other property) issuable under the 2017 Plan (including pursuant to incentive share options), (ii) the number and type of shares (or other securities or other property) subject to outstanding awards or to which outstanding awards relate under the 2017 Plan, (iii) the purchase price, exercise price or grant price with respect to any award under the 2017 Plan and (iv) the maximum number and type of shares (or other securities or other property) for which any one person may be granted awards under the 2017 Plan per fiscal year and the Director Compensation Limit.

Shareholder Rights. Except with respect to restricted share awards granted under the 2017 Plan, a participant will not have any of the rights and privileges of a shareholder with respect to the common shares underlying any award until the shares subject to that award have been issued.

Amendment and Termination. Our board of directors may amend, modify or terminate the 2017 Plan at any time; provided, however, that shareholder approval will be required for any amendment which would (i) increase the number of common shares authorized for issuance under the 2017 Plan or pursuant to incentive share options (other than in connection with certain changes to our capital structure as explained above), (ii) decrease the exercise price of any option or share appreciation right that, at the time of such decrease, has an exercise price greater than the then current fair market value of a common share or

cancel, in exchange for cash or any other award, any such award (other than connection with certain changes to our capital structure, a change of control or other limited circumstance specified in the 2017 Plan) or (iii) change the class of employees or other individuals eligible to participate in the 2017 Plan to the extent such shareholder approval may otherwise be required under applicable law or regulation or pursuant to the listing standards of the stock exchange on which our common shares are at the time primarily traded. The 2017 Plan will terminate in all events on May 9, 2027.

Summary of U.S. Federal Income Tax Consequences

The following is a summary of the U.S. Federal income tax consequences applicable to us and the participants who receive awards under the 2017 Plan.

Option Grants. Options granted under the 2017 Plan may be either incentive share options which satisfy the requirements of Code Section 422 or nonqualified options which are not intended to meet such requirements. The Federal income tax treatment for the two types of options differs as follows:

Incentive Share Options. No taxable income is recognized by the optionee at the time of the option grant, and no taxable income is recognized for regular tax purposes at the time the option is exercised, although taxable income may arise at that time for alternative minimum tax purposes. The optionee will recognize taxable income in the year in which the purchased shares are sold or otherwise made the subject of certain other dispositions. For U.S. Federal tax purposes, dispositions are divided into two categories: (i) qualifying, and (ii) disqualifying. A qualifying disposition occurs if the sale or other disposition is made more than two (2) years after the date the option for the shares involved in such sale or disposition is granted and more than one (1) year after the date the option is exercised for those shares. If the sale or disposition occurs before these two periods are satisfied, then a disqualifying disposition will result.

Upon a qualifying disposition, the optionee will recognize long-term capital gain in an amount equal to the excess of (i) the amount realized upon the sale or other disposition of the purchased shares over (ii) the exercise price paid for the shares. If there is a disqualifying disposition of the shares, then the excess of (i) the fair market value of those shares on the exercise date or (if less) the amount realized upon such sale or disposition over (ii) the exercise price paid for the shares will be taxable as ordinary income to the optionee. Any additional gain recognized upon the disposition will be a capital gain.

If the optionee makes a disqualifying disposition of the purchased shares, then we will be entitled to an income tax deduction, for the taxable year in which such disposition occurs, equal to the amount of ordinary income recognized by the optionee as a result of the disposition. We will not be entitled to any income tax deduction if the optionee makes a qualifying disposition of the shares.

Nonqualified Options. No taxable income is recognized by an optionee upon the grant of a nonqualified option. The optionee will in general recognize ordinary income, in the year in which the option is exercised, equal to the excess of the fair market value of the purchased shares on the exercise date over the exercise price paid for the shares, and the optionee will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the optionee with respect to the exercised non-statutory option. The deduction will in general be allowed for our taxable year in which such ordinary income is recognized by the optionee.

Share Appreciation Rights. No taxable income is recognized upon receipt of a share appreciation right. The holder will recognize ordinary income in the year in which the share appreciation right is exercised, in an amount equal to the excess of the fair market value of the underlying common shares on the exercise date over the grant price in effect for the exercised right, and the holder will be required to satisfy the tax withholding requirements applicable to such

income. We will be entitled to an income tax deduction equal

68 | 2019 Proxy Statement

to the amount of ordinary income recognized by the holder in connection with the exercise of the share appreciation right. The deduction will be allowed for the taxable year in which such ordinary income is recognized.

Restricted Share Awards. The recipient of unvested common shares issued under the 2017 Plan will not recognize any taxable income at the time those shares are issued but will have to report as ordinary income, as and when those shares subsequently vest, an amount equal to the excess of (i) the fair market value of the shares on the vesting date over (ii) the cash consideration (if any) paid for the shares. The recipient may, however, elect under Code Section 83(b) to include as ordinary income in the year the unvested shares are issued an amount equal to the excess of (i) the fair market value of those shares on the issue date over (ii) the cash consideration (if any) paid for such shares. If the Section 83(b) election is made, the recipient will not recognize any additional income as and when the shares subsequently vest. We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the recipient with respect to the unvested shares. The deduction will in general be allowed for our taxable year in which such ordinary income is recognized by the recipient.

Restricted Share Units. No taxable income is recognized upon receipt of restricted share units. The holder will recognize ordinary income in the year in which the shares subject to the units are actually issued to the holder. The amount of that income will be equal to the fair market value of the shares on the date of issuance, and the holder will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the holder at the time the shares are issued. The deduction will be allowed for the taxable year in which such ordinary income is recognized.

Performance Units. No taxable income is recognized upon receipt of performance units. The holder will recognize ordinary income in the year in which the performance units are settled. The amount of that income will be equal to the fair market value of the common shares or cash received in settlement of the performance units, and the holder will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of the ordinary income recognized by the holder of the performance units at the time those awards are settled. That deduction will be allowed for the taxable year in which such ordinary income is recognized.

Share Awards. The recipient of a share award will recognize ordinary income in the year in which the shares subject to a share award are issued to the holder. The amount of that income will be equal to the fair market value of the shares on the date of issuance, and the holder will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of ordinary income recognized by the holder at the time the shares are issued. The deduction will be allowed for the taxable year in which such ordinary income is recognized.

Dividend Equivalent Rights. No taxable income is recognized upon receipt of a dividend equivalent right award. The holder will recognize ordinary income in the year in which a dividend or distribution, whether in cash, securities or other property, is paid to the holder. The amount of that income will be equal to the fair market value of the cash, securities or other property received, and the holder will be required to satisfy the tax withholding requirements applicable to such income. We will be entitled to an income tax deduction equal to the amount of the ordinary income recognized by the holder of the dividend equivalent right award at the time the dividend or distribution is paid to such holder. That deduction will be allowed for the taxable year in which such ordinary income is recognized.

Deductibility of Executive Compensation. Prior to 2018, Section 162(m) of the Code imposed a \$1 million limit on the amount a public company may deduct for compensation paid to a company's chief executive officer or any of the company's three other most highly compensated executive officers (other than

the chief financial officer) who are employed as of the end of the year. This limitation did not apply to compensation that met the tax code requirements for “qualified performance-based” compensation.

The performance-based compensation exemption and the exemption of the chief financial officer from Section 162(m)’s deduction limit have been repealed, among other changes, effective for taxable years beginning after December 31, 2017, such that awards paid to our covered executive officers (including our chief financial officer) in excess of \$1 million will not be deductible in future years, unless it is grandfathered by qualifying for transition relief applicable to certain arrangements that were in effect as of November 2, 2017 and are not materially modified thereafter.

As in prior years, while deductibility of executive compensation for federal income tax purposes is among the factors the plan administrator considers when structuring our executive compensation arrangements, it is not the sole or primary factor considered. We retain the flexibility to authorize compensation that may not be deductible if we believe it is in the best interests of the Company.

Accounting Treatment. The accounting principles applicable to awards made under the 2017 Plan may be summarized in general terms as follows:

Pursuant to the accounting standards established under the FASB Accounting Standards Codification Topic 718, we will be required to expense all share-based payments, including grants of options, share appreciation rights, common shares, restricted shares, restricted share units and all other share-based awards under the 2017 Plan. Accordingly, options and share appreciation rights which are granted to our employees and non-employee Board members and payable in common shares will have to be valued at fair value as of the grant date under an appropriate valuation formula, and that value will then have to be charged as a direct compensation expense against our reported earnings over the designated vesting period of the award. For shares issuable upon the vesting of restricted share units awarded under the 2017 Plan, we will be required to amortize over the vesting period a compensation cost equal to the fair market value of the underlying shares on the date of the award. If any other shares are unvested at the time of their direct issuance, then the fair market value of those shares at that time will be charged to our reported earnings ratably over the vesting period. Such accounting treatment for restricted share units and direct share issuances will be applicable whether vesting is tied to service periods or performance goals, although for performance-based awards, the grant date fair value will initially be determined on the basis of the probable outcome of performance goal attainment. The issuance of fully-vested share awards will result in an immediate charge to our earnings equal to the fair market value of the bonus shares on the issuance date.

Dividends or dividend equivalents paid on the portion of an award that vests will be charged against our retained earnings. If the award holder is not required to return the dividends or dividend equivalents if they forfeit their awards, dividends or dividend equivalents paid on instruments that do not vest will be recognized by us as additional compensation cost.

Finally, it should be noted that the compensation expense accruable for performance-based awards under the 2017 Plan will, in general, be subject to adjustment to reflect the actual outcome of the applicable performance goals, and any expenses accrued for such performance-based awards will be reversed if the performance goals are not met, unless those performance goals are deemed to constitute market conditions (i.e., because they are tied to the price of our common shares) under FASB Accounting Standards Codification Topic 718.

Required Vote

The approval of the proposal requires the affirmative vote of a simple majority of the votes cast. Should such approval not be obtained, then the share reserve under the 2017 Plan will not be increased and the 2017 Plan will

remain unchanged. However, awards will continue to be made under the 2017 Plan until the date all

70 | 2019 Proxy Statement

the common shares currently reserved for issuance thereunder have been issued or any earlier termination of the 2017 Plan.

BOARD RECOMMENDATION: The board of directors believes that approval of the amendment and restatement of the 2017 Omnibus Incentive Compensation Plan is in our best interests and the best interests of our shareholders and therefore recommends a vote FOR this proposal.

Audit Matters

The audit committee has reviewed our audited consolidated financial statements for the fiscal year ended December 31, 2018 and has discussed these financial statements with our management and independent registered public accounting firm.

In order to vote your shares, you will need to follow the directions your bank or brokerage firm provides you. Many banks and brokerage firms also offer the option of voting online or by phone, instructions for which would be provided by your bank or brokerage firm on your vote instruction form.

If your shares are held in street name, you must bring an account statement or letter from your brokerage firm or bank showing that you are the beneficial owner of the shares as of the record date in order to be admitted to the meeting on May 9, 2019. To be able to vote your shares held in street name at the meeting, you will need to obtain a proxy card from the holder of record.

What is a broker non-vote?

Generally, a “broker non-vote” occurs when a broker, bank or other nominee that holds shares in

“street name” for customers is precluded from exercising voting discretion on a particular proposal because (1) the beneficial owner has not instructed the nominee how to vote, and (2) the nominee lacks discretionary voting power to vote such shares. Under New York Stock Exchange (“NYSE”) rules, a nominee does not have discretionary voting power with respect to the approval of “non-routine” matters absent specific voting instructions from the beneficial owners of such shares.

All proposals other than the approval of KPMG as the Company’s independent registered public accounting firm for fiscal year 2019 are non-routine matters and, therefore, common shares held in “street name” will not be voted with respect to these proposals without voting instructions from the beneficial owners. You should follow the instructions provided by your nominee in directing your nominee on how to vote your shares.

What constitutes a quorum?

In order for business to be conducted at the annual meeting with respect to a particular matter, a quorum must be present for that particular matter. For each of the proposals described in the accompanying Notice of 2019 Annual General Meeting, we will have a quorum if at least two shareholders are present in person or by proxy who hold or represent more than 50 percent of the outstanding shares entitled to vote, or at least 94,818,390 shares. Common shares represented in person or by proxy (including “broker non-votes” and shares that abstain or do not vote with respect to a particular proposal to be voted upon) will be counted for the purpose of determining whether a quorum

exists at the annual meeting for that proposal. “Broker non-votes” are shares that are held in “street name” by a bank or brokerage firm that indicates on its proxy that it does not have discretionary authority to vote on a particular matter.

If a quorum is not present, the annual meeting will be adjourned until a quorum is obtained.

What vote is required for each item?

For each of the proposals being considered at the annual meeting, approval of the proposal requires the affirmative vote of a simple majority of the votes cast. There is no cumulative voting in the election of directors. The election of each director nominee will be considered and voted upon as a separate proposal. Abstentions and broker “non-votes” are not counted as votes cast and will not affect the voting results on any proposals. If the proposal for the election of a director nominee does not receive the required majority of the votes cast, then the director will not be elected and the position on the board of directors that would have been filled by the director nominee will become vacant. The board of directors has the ability to fill any vacancy upon the recommendation of its nominating and governance committee.

How will votes be counted?

Each common share will be counted as one vote according to the instructions contained on a properly completed proxy, whether submitted by mail, online, by phone or on a ballot voted in person at the annual meeting. Shares will not be voted in respect of a proposal if either (1) the shareholder abstains from voting on a particular matter, or (2) the shares are broker non-votes. If the shareholder signs and submits but does not indicate voting instructions on the proxy card, the proxies will have the authority to vote in respect of all proposals.

Who will count the votes?

An independent vote tabulator will count the votes. Computershare has been appointed by the board of directors as the independent Inspector of Election and will determine the existence of a quorum and validity of proxies and ballots, and certify the results of the voting.

How does the board of directors recommend that I vote on the proposals?

The board of directors recommends that you vote:

FOR the election of the ten directors listed under Proposal 1 to hold office until the next annual election or until their successors are duly elected;

FOR the approval, on a non-binding, advisory basis, of the compensation of our named executive officers;

FOR the approval of the amendment and restatement of the Genpact Limited 2017 Omnibus Incentive Compensation Plan; and

FOR the approval of the appointment of KPMG as our independent registered public accounting firm for the fiscal year ending December 31, 2019.

Will any other business be conducted at the meeting or will other matters be voted on?

The board of directors does not know of any other matters that may properly come before the meeting. If any other matter properly comes before the meeting, the persons named in the proxy card that accompanies this proxy statement, whether you submit your proxy by mail, online or by phone, will exercise their judgment in deciding how to vote, or otherwise act, at the meeting with respect to that matter or proposal.

Where can I find the voting results?

We will report the voting results in a current report on Form 8-K within four business days of the 2019 annual meeting.

How and when may I submit a shareholder proposal, including a shareholder nomination for director, for the 2020 annual general meeting?

Our bye-laws contain advance notice procedures with regard to shareholder proposals not related to director nominations. If you are interested in submitting a proposal for inclusion in the proxy statement for the 2020 annual general meeting, you need to follow the procedures outlined in Rule 14a-8 of the Securities Exchange Act of 1934, or the Exchange Act. To be eligible for inclusion, we must receive your shareholder proposal intended for inclusion in the proxy statement for our 2020 Annual General Meeting of Shareholders at the New York City address set forth below no later than December 13, 2019.

Bermuda law provides that shareholders who collectively hold at least 5% of the total voting rights of our outstanding common shares, or any group comprised of at least 100 or more registered shareholders, may require a proposal to be submitted to an annual general meeting of shareholders. Bermuda law generally requires that notice of such a proposal must be deposited at our registered office not less than six weeks before the date of the meeting.

A shareholder's notice to our corporate secretary must be in proper written form and must set forth, as to each matter the shareholder proposes to bring before the meeting:

- a description of the business desired to be brought before the meeting, the text of the proposal or business (including the text of any resolutions proposed for consideration and if such business includes a proposal to amend our bye-laws, the language of the proposed amendment), the reasons for conducting the business at the meeting and any material interest in such business of such shareholder on whose behalf the proposal is made;
- the name and record address of the shareholder;
- the class and number of shares of our share capital which are owned and of record by the shareholder;
- a representation that the shareholder is a holder of record of our shares entitled to vote at the meeting and that the shareholder intends to appear in person or by proxy at the meeting to propose such business; and
- a representation as to whether the shareholder intends or is part of a group which intends to deliver a proxy statement or form of proxy to holders of at least the percentage of our outstanding share capital required to approve or adopt the business proposal, or otherwise to solicit proxies from shareholders in support of such proposal.

Our bye-laws also contain advance notice procedures with regard to shareholder proposals related to the nomination of candidates for election as directors. These procedures provide that any shareholder may nominate persons for election as directors only if written notice of such shareholder's intent to make such nomination is given to our corporate secretary not less than 120 days nor more than 150 days prior to the date of the proxy statement released to shareholders in connection with the prior year's annual meeting.

A shareholder's notice to our corporate secretary must be in proper written form and must set forth

information related to the shareholder giving the notice and the owner on whose behalf the nomination is made, including:

- the name and record address of the shareholder and the owner;
- the class and number of shares of our share capital which are owned beneficially and of record by the shareholder;
- a representation that the shareholder is a holder of record of our shares entitled to vote at that meeting and that the shareholder intends to appear in person or by proxy at the meeting to bring the nomination before the meeting; and
- a representation as to whether the shareholder intends or is part of a group which intends to deliver a proxy statement or form of proxy to holders of at least the percentage of our outstanding share capital required to elect the nominee, or otherwise to solicit proxies from shareholders in support of such nomination.

As to each person whom the shareholder proposes to nominate for election as a director:

- the name, age, business address and residence of such proposed nominee;
- the principal occupation or employment of the proposed nominee;
- the class, series and number of shares of the Company beneficially owned by such nominee;
- particulars which would, if such proposed nominee were appointed as a director, be required to be included in the Company's register of Directors and Officers;
- all information relating to the person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to the Exchange Act; and
- the proposed nominee's written consent to being named in the proxy statement as a nominee and to serving as a director if elected.

Any proposals, nominations or notices should be sent to:

Many banks and brokerage firms also offer the option of submitting your proxy to vote online or by telephone, instructions for which will be provided by your bank or brokerage firm on your vote instruction form.

Management hopes that shareholders will attend the meeting. Whether or not you plan to attend, you are urged to complete, date, sign and return the enclosed proxy card in the accompanying postage-prepaid envelope (or submit your proxy to vote your shares online or by phone). A prompt response will greatly facilitate arrangements for the meeting and your cooperation will be appreciated. SECTION 1. Purpose. The purpose of this Genpact Limited 2017 Omnibus Incentive Compensation Plan is to promote the interests of Genpact Limited, a Bermuda limited exempted company, and its shareholders by (a) attracting and retaining exceptional directors, officers, employees and consultants (including prospective directors, officers, employees and consultants) of the Company (as defined below) and its Affiliates (as defined below) and (b) enabling such individuals to participate in the long-term growth and financial success of the Company.

SECTION 2. Definitions. As used herein, the following terms shall have the meanings set forth below:

(iii) the shareholders of the Company approve a voluntary plan of liquidation, winding up or dissolution of the Company, unless such liquidation, winding up or dissolution is part of a transaction or series of transactions described in paragraph (ii) above that does not otherwise constitute a Change of Control; or

Solely with respect to any Award that constitutes “deferred compensation” subject to Section 409A of the Code and that is payable on account of a Change of Control (including any installments or stream of payments that are accelerated on account of a Change of Control), a Change of Control shall occur only if such event also constitutes a “change in the ownership”, “change in effective control”, and/or a “change in the ownership of a substantial portion of assets” of the Corporation as those terms are defined under Treasury Regulation §1.409A-3(i)(5), but only to the extent necessary to establish a time or form of payment that complies with Section 409A of the Code, without altering the definition of Change of Control for purposes of determining whether a Participant’s rights to such Award become vested or otherwise unconditional upon the Change of Control.

suspended and the method or methods by which Awards may be settled, exercised, canceled, forfeited or suspended, (vii) determine whether, to what extent and under what circumstances cash, Shares, other securities, other Awards, other property and other amounts payable with respect to an Award shall be deferred either automatically or at the election of the holder thereof or of the Committee, (viii) interpret, administer, reconcile any inconsistency in, correct any default in and supply any omission in, the Plan and any instrument or agreement relating to, or Award made under, the Plan, (ix) establish, amend, suspend or waive such rules and regulations and appoint such agents as it shall deem appropriate for the proper administration of the Plan, (x) accelerate the vesting or exercisability of, payment for or lapse of restrictions on, Awards, (xi) amend any outstanding Award or grant a replacement Award for any Award previously granted under the Plan if, in its sole discretion, the Committee determines that (A) the tax consequences of such Award to the Company or the Participant differ from those consequences that were expected to occur on the date the Award was granted or (B) clarifications or interpretations of, or changes to, tax law or regulations permit Awards to be granted that have more favorable tax consequences than initially anticipated and (xii) make any other determination and take any other action that the Committee deems necessary or desirable for the administration of the Plan.

(c) Committee Decisions. Unless otherwise expressly provided in the Plan, all designations, determinations, interpretations and other decisions under or with respect to the Plan or any Award shall be within the sole discretion of the Committee, may be made at any time and shall be final, conclusive and binding upon all persons, including the Company, any Affiliate, any Participant, any holder or beneficiary of any Award and any shareholder of the Company.

(d) Indemnification. No member of the Board, the Committee or any subcommittee thereof or any employee of the Company to whom authority has been delegated under Section 3(e) (each such person, a “Covered Person”) shall be liable for any action taken or omitted to be taken or any determination made in good faith with respect to the Plan or any Award hereunder. Each Covered Person shall be indemnified and held harmless by the Company against and from (i) any loss, cost, liability or expense (including attorneys’ fees) that may be imposed upon or incurred by such Covered Person in connection with or resulting from any action, suit or proceeding to which such Covered Person may be a party or in which such Covered Person may be involved by reason of any action taken or omitted to be taken under the Plan or any Award Agreement and (ii) any and all amounts paid by such Covered Person, with the Company’s approval, in settlement thereof, or paid by such Covered Person in satisfaction of any judgment in any such action, suit or proceeding against such Covered Person; provided that the Company shall have the right, at its own expense, to assume and defend any such action, suit or proceeding, and, once the Company gives notice of its intent to assume the defense, the Company shall have sole control over such defense with counsel of the Company’s choice. The foregoing right of indemnification shall not be available to a Covered Person to the extent that a court of competent jurisdiction in a final judgment or other final adjudication, in either case not subject to further appeal, determines that the acts or omissions of such Covered Person giving rise to the indemnification claim resulted from such Covered Person’s bad faith, fraud or willful criminal act or omission or that such right of indemnification is otherwise prohibited by law or by the Company’s Bye-laws. The foregoing right of indemnification shall not be exclusive of any other rights of indemnification to which Covered Persons may be entitled under the Company’s Bye-laws, as a matter of law, or otherwise, or any other power that the Company may have to indemnify such persons or hold them harmless.

(e) Delegation of Authority. The Committee may delegate, on such terms and conditions as it determines in its sole discretion, (i) to any subcommittee of the Committee or to one or more senior officers of the Company the authority to make grants of Awards to officers (other than officers subject to Section 16 of the Exchange Act), employees and consultants of the Company and any Affiliate (including any prospective officer, employee or consultant) and all necessary and appropriate decisions and determinations with respect thereto and (ii) to the extent necessary to satisfy the requirements under Section 162(m) of the Code or Rule 16b-3, to subcommittees consisting solely of members of the Committee who are (x) “outside directors” for purposes of Code Section 162(m) or (y) “non-employee directors” for purposes of Rule 16b-3 under the Exchange Act.

(f) Awards to Independent Directors. Notwithstanding anything to the contrary contained herein, the Board may, in its sole discretion but subject to the limitation below, at any time and from time to time, grant Awards to Independent Directors and administer the Plan with respect to such Awards. In any such case, the Board shall have all the authority and responsibility granted to the Committee herein.

SECTION 4. Shares Available for Awards; Cash Payable Pursuant to Awards. (a) Shares and Cash Available. Subject to adjustment as provided in Section 4(b), the maximum aggregate number of Shares that may be delivered pursuant to Awards granted under the Plan shall be 23,000,000, which is comprised of (i) the 15,000,000 Shares reserved for issuance on the Effective Date, and (ii) the 8,000,000 Share increase approved by the Board on April 5, 2019, subject to shareholder approval. Of this aggregate number of Shares that may be delivered pursuant to Awards granted under the Plan, the maximum number of Shares that may be delivered pursuant to Incentive Share Options granted under the Plan shall be 23,000,000. If any Award granted under the Plan is forfeited, or otherwise expires, terminates or is canceled without the delivery of Shares or is settled in cash, then the Shares covered by such forfeited, expired, terminated, settled or canceled Award shall be added to the number of Shares available to be delivered pursuant to Awards under the Plan. In the event that the withholding of Applicable Taxes arising from an Award other than an Option or SAR is satisfied by the tendering of Shares owned by the applicable Participant or by the withholding of Shares that would otherwise be delivered to the applicable Participant in connection with the settlement of such Award, the Shares so tendered or withheld shall be added to the number of Shares available to be delivered pursuant to Awards under the Plan. In the event that (x) Shares deliverable to a Participant upon the exercise or settlement of an Option or SAR are withheld by the Company or (y) Shares owned by such Participant (which are not subject to any pledge or other security interest) are surrendered or tendered to the Company, in either case under clauses (x) or (y) in payment of the Exercise Price of such Option or SAR or any Applicable Taxes, in each case in accordance with the terms and conditions of the Plan and any applicable Award Agreement, such withheld, surrendered or tendered Shares shall not be added to the number of Shares available to be delivered pursuant to Awards under the Plan. Upon exercise of a stock-settled SAR, the number of Shares available under the Plan shall be reduced by the gross number of Shares for which the SAR is exercised. Subject to adjustment as provided in Section 4(b), (i) in the case of Options and SARs that are settled in Shares, the maximum aggregate number of Shares with respect to which such Options and SARs may be granted to any Participant (other than an Independent Director) in any fiscal year of the Company under the Plan shall be 4,000,000; (ii) in the case of Awards other than Options and SARs that are settled in Shares, the maximum aggregate number of Shares with respect to which such Awards may be granted to any Participant (other than an Independent Director) in any fiscal year of the Company under the Plan shall be 4,000,000; (iii) in the case of Awards that are settled in cash based on the Fair Market Value of a Share, the maximum aggregate amount of cash that may be paid pursuant to Awards granted to any Participant (other than an Independent Director) in any fiscal year of the Company under the Plan shall be equal to the per Share Fair Market Value as of the relevant vesting, payment or settlement date multiplied by the number of Shares described (A) in the preceding clause (i), in the case of cash-settled SARs, or (B) in

the preceding clause (ii), in the case of such Awards other than cash-settled SARs; and (iv) in the case of all other Awards, the maximum aggregate amount of cash and other property (valued at its Fair Market Value) other than Shares that may be paid or delivered pursuant to Awards under the Plan to any Participant (other than an Independent Director) in any fiscal year of the Company shall be equal to \$20,000,000. The maximum aggregate value of Awards granted during a fiscal year of the Company to any Independent Director, taken together with any cash retainer paid to such Independent Director in respect of such fiscal year, shall not exceed \$750,000 in total value (such limit, the “Director Compensation Limit”); provided that, for purposes of determining such total value, the value of the applicable Awards shall be the grant date fair value of such Awards determined for financial reporting purposes and excluding, for this purpose, the value of any dividends or dividend equivalents paid on any such Awards).

(b) Adjustments for Changes in Capitalization and Similar Events. (i) In the event of any recapitalization, stock split, reverse stock split, split-up or spin-off, reorganization, merger or amalgamation, consolidation, combination, repurchase or exchange of Shares or other securities of the Company, issuance of warrants or other rights to purchase Shares or other securities of the Company, or other similar corporate transaction or event that affects the Shares or as otherwise permitted under Bermuda law, the Committee (A) shall, in order to preserve the value (as determined for this purpose by the Committee) of the Awards and in the manner determined by the Committee to be equitable, adjust any or all of (1) the number of Shares or other securities of the Company (or number and kind of other securities or property) with respect to which Awards may be granted, including (I) the aggregate number of Shares or other securities of the Company (or number and kind of other securities or property) that may be delivered pursuant to Awards granted under the Plan (including pursuant to Incentive Share Options), as provided in Section 4(a), (II) the maximum number of Shares or other securities of the Company (or number and kind of other securities or property) with respect to which Awards may be granted to any Participant in any fiscal year of the Company, as provided in Section 4(a) and (III) the Director Compensation Limit and (2) the terms of any outstanding Award, including (I) the number of Shares or other securities of the Company (or number and kind of other securities or property) subject to outstanding Awards or to which outstanding Awards relate and (II) the Exercise Price, if applicable, with respect to any Award and (B) may, if deemed appropriate or desirable by the Committee, (1) make provision for a cash payment to the holder of an outstanding Award in consideration for the cancellation of such Award, including, in the case of an outstanding Option or SAR, a cash payment to the holder of such Option or SAR in consideration for the cancellation of such Option or SAR in an amount equal to the excess, if any, of the Fair Market Value (as of a date specified by the Committee) of the Shares subject to such Option or SAR over the aggregate Exercise Price of such Option or SAR and (2) cancel and terminate any Option or SAR having a per Share Exercise Price equal to, or in excess of, the Fair Market Value of a Share subject to such Option or SAR without any payment or consideration therefor.

(ii) In the event of any extraordinary dividend or other extraordinary distribution (whether in the form of cash, Shares, other securities or other property), the Committee (A) shall, in order to preserve the value (as determined for this purpose by the Committee) of the Awards and in the manner determined by the Committee to be equitable, adjust any or all of (1) the number of Shares or other securities of the Company (or number and kind of other securities or property) with respect to which Awards may be granted, including (X) the aggregate number of Shares or other securities of the Company (or number and kind of other securities or property) that may be delivered pursuant to Awards granted under the Plan (including pursuant to Incentive Share Options), as provided in Section 4(a), (Y) the maximum number of Shares or other securities of the Company (or number and kind of other securities or property) with respect to which Awards may be granted to any Participant in any fiscal year of the Company and (Z) the Director Compensation Limit and (2) the terms of any outstanding Award, including (X) the number of Shares or other securities of the Company (or number and kind of other securities or property) subject to outstanding Awards or to which outstanding Awards relate and (Y) the Exercise Price, if applicable, with respect to any Award and (B) may, if deemed appropriate or desirable by the Committee, (1) make provision for a cash payment to the holder of an outstanding Award in consideration for the cancellation of such Award, including, in the case of an outstanding Option or SAR, a cash payment to the holder of such Option or SAR in consideration for the cancellation of such Option or SAR in an amount equal to the excess, if any, of the Fair Market Value (as of a date specified by the Committee) of the Shares subject to such Option or SAR over the aggregate Exercise Price of such Option or SAR and (2) cancel and terminate any Option or SAR having a per Share Exercise Price equal to, or in excess of, the Fair Market Value of a Share subject to such Option or SAR without any payment or consideration therefor.

(c) Substitute Awards. Awards may, in the discretion of the Committee, be granted under the Plan in substitution for outstanding awards previously granted by the Company or any of its Affiliates or an entity acquired by the Company or any Affiliate or with which the Company or any Affiliate merges, amalgamates or combines (such Awards, "Substitute Awards"). The number of Shares underlying any Substitute Awards shall be counted against the aggregate number of Shares (under Section 4(a)) that may be delivered pursuant to Awards granted under the Plan; provided, however, that Substitute Awards issued in connection with the assumption of, or in substitution for, outstanding awards previously granted by an entity that is acquired by the Company or any of its Affiliates or with which the Company or any of its Affiliates combines shall not be counted against the aggregate number of Shares (under Section 4(a)) that may be delivered pursuant to Awards granted under the Plan; provided further, however, that Substitute Awards issued in connection with the assumption of, or in substitution for, outstanding stock options intended to qualify for special tax treatment under Sections 421 and 422 of the Code that were previously granted by an entity that is acquired by the Company or any of its Affiliates or with which the Company or any of its Affiliates combines shall be counted against the maximum aggregate number of Shares available for Incentive Share Options under the Plan.

(d) Sources of Shares Deliverable Under Awards. Any Shares delivered pursuant to an Award may consist, in whole or in part, of authorized and unissued Shares or of treasury Shares.

SECTION 5. Eligibility. Any director, officer, employee or consultant (including any prospective director, officer, employee or consultant) of the Company or any Affiliate shall be eligible to be designated a Participant.

SECTION 6. Awards. (a) Types of Awards. Awards may be made under the Plan in the form of (i) Options, (ii) SARs, (iii) Restricted Shares, (iv) RSUs, (v) Performance Units, (vi) Cash Incentive Awards and (vii) other equity-based or equity-related Awards that the Committee determines are consistent with the purpose of the Plan and the interests of the Company. Awards may be granted in tandem with other Awards. No Incentive Share Option (other than an Incentive Share Option that may be assumed or issued by the Company in connection with a transaction to which Section 424(a) of the Code applies) may be granted to a person who is ineligible to receive an Incentive Share Option under the Code.

(b) Vesting. Notwithstanding anything to the contrary in the Plan, Share-based Awards granted under the Plan (other than Substitute Awards) shall vest over a period that is not less than one (1) year from the date of grant (the “Minimum Vesting Requirement”); provided, however, that (i) the Committee may, in its sole discretion, accelerate the exercisability or nonforfeitability of any Award upon the death, Disability or termination of employment or service without Cause of the applicable Participant and (ii) up to 5% of the Shares available to be delivered pursuant to Awards under the Plan as of the Effective Date (as adjusted pursuant to Section 4(b)) may be granted without regard to the Minimum Vesting Requirement.

(c) Options. (i) Grant. Subject to the provisions of the Plan, the Committee shall have sole authority to determine the Participants to whom Options shall be granted, the number of Shares to be covered by each Option, whether an Option will be an Incentive Share Option or a Nonqualified Share Option and the conditions and limitations applicable to the vesting and exercise of any Option. In the case of Incentive Share Options, the terms and conditions of such grants shall be subject to and comply with such rules as may be prescribed by Section 422 of the Code and any regulations related thereto, as may be amended from time to time. All Options granted under the Plan shall be Nonqualified Share Options unless the applicable Award Agreement expressly states that the Option is intended to be an Incentive Share Option. If an Option is intended to be an Incentive Share Option, and if for any reason such Option (or any portion thereof) shall not qualify as an Incentive Share Option, then, to the extent of such nonqualification, such Option (or portion thereof) shall be regarded as a Nonqualified Share Option appropriately granted under the Plan; provided that such Option (or portion thereof) otherwise complies with the Plan’s requirements relating to Nonqualified Share Options.

(ii) Exercise Price. The Exercise Price of each Share covered by an Option shall be equal to or greater than 100% of the Fair Market Value of such Share (determined as of the date the Option is granted); provided, however, that in the case of an Incentive Share Option granted to an employee who, at the time of the grant of such Option, owns shares representing more than 10% of the voting power of all classes of shares of the Company or any Affiliate, the per Share Exercise Price shall be no less than 110% of the Fair Market Value per Share on the date of the grant.

(iii) Vesting and Exercise. Subject to Section 6(b), each Option shall be vested and exercisable at such times, in such manner and subject to such terms and conditions as the Committee may, in its sole discretion, specify in the applicable Award Agreement or thereafter. Except as otherwise specified by the Committee in the applicable Award Agreement, an Option may only be exercised to the extent that it has already vested at the time of exercise. The vesting schedule for each Option shall be specified by the Committee in the applicable Award Agreement. An Option shall be deemed to be exercised when written or electronic notice of such exercise has been given to the Company in accordance with the terms of the Option by the person entitled to exercise the Option and full payment, pursuant to Section 6(c)(iv), for the Shares with respect to which the Option is exercised has been received by the Company. Exercise of an Option in any manner shall result in a decrease in the number of Shares that thereafter may be available for sale under the Option and, except as expressly set forth in Section 4, in the number of Shares that may be available for purposes of the Plan, in each case, by the number of Shares as to which the Option is exercised. The Committee may impose such conditions with respect to the exercise of Options, including but not limited to any conditions relating to the application of Federal or state securities laws, as it may deem necessary or advisable.

(iv) Payment. No Shares shall be delivered pursuant to any exercise of an Option until payment in full of the aggregate Exercise Price therefor is received by the Company, and the Participant has also paid to the Company an amount equal to any Applicable Taxes, including by a cashless exercise of the applicable Option. Such payments may be made in cash (or its equivalent) or, in the Committee's sole discretion, (1) by exchanging Shares owned by the Participant (which are not the subject of any pledge or other security interest), (2) by delivery of irrevocable instructions to the Company to withhold Shares otherwise deliverable upon the exercise of the Option with an aggregate Fair Market Value equal to such aggregate Exercise Price and an amount equal to any Applicable Taxes (for the avoidance of doubt, the Shares withheld shall be counted against the maximum number of Shares that may be delivered pursuant to the Awards granted under the Plan as provided in Section 4(a) or (3) subject to such rules as may be established by the Committee, through a cashless exercise of the Option by delivery of irrevocable instructions to a broker (reasonably satisfactory to the Company for purposes of administering such cashless exercise in compliance with the Company's pre-clearance/pre-notification policies) to sell the Shares otherwise deliverable upon the exercise of the Option and to deliver promptly to the Company an amount equal to such aggregate Exercise Price and an amount equal to any Applicable Taxes, or by a combination of the foregoing; provided that the combined value of all cash and cash equivalents and the Fair Market Value of any such Shares so withheld or tendered to the Company as of the date of such withholding or tender is at least equal to such aggregate Exercise Price and an amount equal to any such Applicable Taxes.

(v) Expiration. Except as otherwise set forth in the applicable Award Agreement, each Option shall expire immediately, without any payment, upon the earlier of (A) the tenth anniversary of the date the Option is granted and (B) either (x) 90 days after the date the Participant who is holding the Option ceases to be a director, officer, employee or consultant of the Company or any Affiliate for any reason other than the Participant's death or Disability or (y) six months after the date the Participant who is holding the Option ceases to be a director, officer, employee or consultant of the Company or any Affiliate by reason of the Participant's death or Disability. In no event may an Option be exercisable after the tenth anniversary of the date the Option is granted. For the avoidance of doubt,

unless otherwise provided in the applicable Award Agreement, a Participant whose employment or service is transferred from the Company or any Affiliate to another of the Company or any Affiliate shall not be deemed to have terminated employment or service with the Company or such Affiliate under the Plan.

(d) SARs. (i) Grant. Subject to the provisions of the Plan, the Committee shall have sole authority to determine the Participants to whom SARs shall be granted, the number of Shares to be covered by each SAR, the Exercise Price thereof and the conditions and limitations applicable to the exercise thereof. SARs may be granted in tandem with another Award, in addition to another Award or freestanding and unrelated to another Award. SARs granted in tandem with, or in addition to, an Award may be granted either at the same time as the Award or at a later time.

(ii) Exercise Price. The Exercise Price of each Share covered by a SAR shall be equal to or greater than 100% of the Fair Market Value of such Share (determined as of the date the SAR is granted).

(iii) Exercise. A SAR shall entitle the Participant to receive an amount equal to the excess, if any, of the Fair Market Value of a Share on the date of exercise of the SAR over the Exercise Price thereof. The Committee shall determine, in its sole discretion, whether a SAR shall be settled in cash, Shares, other securities, other Awards, other property or a combination of any of the foregoing.

(iv) Other Terms and Conditions. Subject to the terms of the Plan and any applicable Award Agreement, the Committee shall determine, at or after the grant of a SAR, the vesting criteria, term, methods of exercise, methods and form of settlement and any other terms and conditions of any SAR. Any such determination by the Committee may be changed by the Committee from time to time and may govern the exercise of SARs granted or exercised thereafter. The Committee may impose such conditions or restrictions on the exercise of any SAR as it shall deem appropriate or desirable.

(v) Expiration. Except as otherwise set forth in the applicable Award Agreement, each SAR shall expire immediately, without any payment, upon the earlier of (A) the tenth anniversary of the date the SAR is granted and (B) either (x) 90 days after the date the Participant who is holding the SAR ceases to be a director, officer, employee or consultant of the Company or any Affiliate for any reason other than the Participant's death or Disability or (y) six months after the date the Participant who is holding the SAR ceases to be a director, officer, employee or consultant of the Company or any Affiliate by reason of the Participant's death or Disability. In no event may a SAR be exercisable after the tenth anniversary of the date the SAR is granted. For the avoidance of doubt, unless otherwise provided in the applicable Award Agreement, a Participant whose employment or service is transferred from the Company or any Affiliate to another of the Company or any Affiliate shall not be deemed to have terminated employment or service with the Company or such Affiliate under the Plan.

(e) Restricted Shares and RSUs. (i) Grant. Subject to the provisions of the Plan, the Committee shall have sole authority to determine the Participants to whom Restricted Shares and RSUs shall be granted, the number of Restricted Shares and RSUs to be granted to each Participant, the duration of the period during which, and the conditions, if any, under which, the Restricted Shares and RSUs may vest or may be forfeited to the Company and the other terms and conditions of such Awards.

(ii) Transfer Restrictions. Subject to Section 9(a), Restricted Shares and RSUs may not be sold, assigned, transferred, pledged or otherwise encumbered except as provided in the Plan or as may be provided in the applicable Award Agreement and otherwise in accordance with Bermuda law and the Company's Bye-laws. Certificates issued in respect of Restricted Shares shall be registered in the name of the Participant and deposited by such Participant, together with a signed blank share transfer form, with the Company or such other custodian as may be designated by the Committee or the

Company, and shall be held by the Company or other custodian, as applicable, until such time as the restrictions applicable to such Restricted Shares lapse. Upon the lapse of the restrictions applicable to such Restricted Shares, the Company or other custodian, as applicable, shall deliver such certificates to the Participant or the Participant's legal representative.

(iii) Payment/Lapse of Restrictions. Each RSU shall be granted with respect to one Share or shall have a value equal to the Fair Market Value of one Share. RSUs shall be paid in cash, Shares, other securities, other Awards or other property, as determined in the sole discretion of the Committee, upon the lapse of restrictions applicable thereto, or otherwise in accordance with the applicable Award Agreement. If a Restricted Share or an RSU is intended to qualify as "qualified performance-based compensation" under Section 162(m) of the Code, all requirements set forth in Section 6(j) must be satisfied in order for the restrictions applicable thereto to lapse.

(f) Performance Units. (i) Grant. Subject to the provisions of the Plan, the Committee shall have sole authority to determine the Participants to whom Performance Units shall be granted and the terms and conditions thereof.

(ii) Value of Performance Units. Each Performance Unit shall have an initial value that is established by the Committee at the time of grant. The Committee shall set Performance Goals in its discretion which, depending on the extent to which they are met during a Performance Period, will determine the number and value of Performance Units that will be paid out to the Participant.

(iii) Earning of Performance Units. Subject to the provisions of the Plan, after the applicable Performance Period has ended, the holder of Performance Units shall be entitled to receive a payout of the number and value of Performance Units earned by the Participant over the Performance Period, to be determined by the Committee, in its sole discretion, as a function of the extent to which the corresponding Performance Goals have been achieved.

(iv) Form and Timing of Payment of Performance Units. Subject to the provisions of the Plan, the Committee, in its sole discretion, may pay earned Performance Units in the form of cash or in Shares (or in a combination thereof) that has an aggregate Fair Market Value equal to the value of the earned Performance Units at the close of the applicable Performance Period. Such Shares may be granted subject to any restrictions in the applicable Award Agreement deemed appropriate by the Committee. The determination of the Committee with respect to the form and timing of payout of such Awards shall be set forth in the applicable Award Agreement. If a Performance Unit is intended to qualify as "qualified performance-based compensation" under Section 162(m) of the Code, all requirements set forth in Section 6(j) must be satisfied in order for a Participant to be entitled to payment.

(g) Cash Incentive Awards. Subject to the provisions of the Plan, the Committee, in its sole discretion, shall have the authority to grant Cash Incentive Awards. The Committee shall establish Cash Incentive Award levels to determine the amount of a Cash Incentive Award payable upon the attainment of Performance Goals and the terms and conditions of each Cash Incentive Award. If a Cash Incentive Award is intended to qualify as "qualified performance-based compensation" under Section 162(m) of the Code, all requirements set forth in Section 6(j) must be satisfied in order for a Participant to be entitled to payment.

(h) Other Share-Based Awards. Subject to the provisions of the Plan, the Committee shall have the sole authority to grant to Participants other equity-based or equity-related Awards (including but not limited to fully-vested Shares) in such amounts and subject to such terms and conditions as the Committee shall determine. If such an Award is intended to qualify as “qualified performance-based compensation” under Section 162(m) of the Code, all requirements set forth in Section 6(j) must be satisfied in order for a Participant to be entitled to payment.

(i) Dividend Equivalents. In the sole discretion of the Committee, an Award, other than an Option, SAR or Cash Incentive Award, may provide the Participant with dividends or dividend equivalents, payable in cash, Shares, other securities, other Awards or other property, on a current or deferred basis, on such terms and conditions as may be determined by the Committee in its sole discretion, including but not limited to payment directly to the Participant, withholding of such amounts by the Company subject to vesting of the Award or reinvestment in additional Shares, Restricted Shares or other Awards; provided, however, that a Participant shall be eligible to receive dividends or dividend equivalents in respect of any Award only upon settlement or payment of, or lapse of restrictions on, such Award and such dividend or dividend equivalent rights shall be forfeited under the same conditions as the Award.

(j) Performance Compensation Awards. (i) General. The Committee shall have the authority, at the time of grant of any Award, to designate such Award (other than Options and SARs) as a Performance Compensation Award, including in order to qualify such Award as “qualified performance-based compensation” under Section 162(m) of the Code. Options and SARs granted under the Plan shall not be included among Awards that are designated as Performance Compensation Awards under this Section 6(j).

(ii) Eligibility. The Committee shall, in its sole discretion, designate which Participants will be eligible to receive Performance Compensation Awards in respect of a Performance Period (with such designation to be in compliance with Section 162(m) of the Code to the extent applicable). However, designation of a Participant eligible to receive an Award hereunder for a Performance Period shall not in any manner entitle the Participant to receive payment in respect of any Performance Compensation Award for such Performance Period. The determination as to whether or not such Participant becomes entitled to payment in respect of any Performance Compensation Award shall be decided solely in accordance with the provisions of this Section 6(j). Moreover, designation of a Participant eligible to receive an Award hereunder for a particular Performance Period shall not require designation of such Participant eligible to receive an Award hereunder in any subsequent Performance Period and designation of one person as a Participant eligible to receive an Award hereunder shall not require designation of any other person as a Participant eligible to receive an Award hereunder in such period or in any other period.

(iii) Discretion of Committee with Respect to Performance Compensation Awards. With regard to a particular Performance Period, the Committee shall have full discretion to select the length of such Performance Period, the types of Performance Compensation Awards to be issued, the Performance Criteria that will be used to establish the Performance Goals, the kinds and levels of the Performance Goals that are to apply to the Company or any of its Subsidiaries, Affiliates, divisions or operational units, or any combination of the foregoing, and the Performance Formula; provided that such Performance Formula shall be objective and nondiscretionary. The Committee shall, with regard to the Performance Compensation Awards to be issued for such Performance Period, exercise its discretion with respect to each of the matters enumerated in the immediately preceding sentence and record the same in writing (with such discretion to be exercised in compliance with Section 162(m) of the Code to the extent applicable).

(iv) Performance Criteria. Notwithstanding the foregoing, the Performance Criteria that will be used to establish the Performance Goals shall be based on the attainment of specific levels of performance of the Company or any of its Subsidiaries, Affiliates, divisions or operational units, or any combination of the foregoing, and may include, but shall not be limited to, the following: (A) net income before or after taxes, (B) earnings before or after taxes (including earnings before interest, taxes, depreciation, amortization and/or charges for stock-based compensation), (C) operating income, net operating income or operating income after tax (D) earnings per share or growth in earnings per share, (E) return on shareholders' equity, (F) return on investment or capital, (G) return on assets or net assets, (H) level or amount of acquisitions, (I) share price, (J) profitability and profit margins, (K) market share (in the aggregate or by segment), (L) revenues or sales (based on units or dollars) or growth in revenue or sales, (M) bookings, (N) costs, (O) cash flow, (P) working capital, (Q) average sales price, (R) budgeted expenses (operating and capital), (S) inventory turns, (T) accounts receivable levels, (U) level of attrition, (V) operating profit or net operating profit, (W) return on operating revenue or return on operating profit, (X) cash flow per share (before or after dividends), (Y) total shareholder return, (Z) collections and recoveries, (AA) debt reduction, (BB) litigation and regulatory resolution goals, (CC) budget comparisons, (DD) development and implementation of strategic plans and/or organizational restructuring goals, (EE) productivity goals, (FF) workforce management and succession planning goals, (GG) economic value added, (HH) measures of customer satisfaction, (II) formation of joint ventures or marketing or customer service collaborations or the completion of other corporate transactions intended to enhance the Company's revenue or profitability or enhance its customer base, (JJ) mergers and acquisitions, (KK) recruitment targets, (LL) diversity goals, (MM) display of corporate values, (NN) development and execution of financial plans and reporting systems, (OO) implementation of processes and systems to enhance functions and efficiency, (PP) business development and shareholder diversification, (QQ) execution of investor relations and communication plans, (RR) expansion of business operations and goals and capabilities, (SS) risk management and compliance, (TT) product or market related objectives, and (UU) client attraction and retention. The Committee may also grant Performance Compensation Awards that are based on Performance Criteria other than as set forth above. Any Performance Criteria that are financial metrics may be determined in accordance with United States Generally Accepted Accounting Principles ("GAAP") or may be adjusted when established (or to the extent permitted under Section 162(m) of the Code to the extent applicable, at any time thereafter) to include or exclude any items otherwise includable or excludable under GAAP.

Such Performance Criteria may be applied on an absolute basis and/or be relative to one or more peer companies of the Company or indices or any combination thereof. Each applicable Performance Criterion may include a minimum threshold level of performance below which no Award will be earned, levels of performance at which specified portions of an Award will be earned and a maximum level of performance at which an Award will be fully earned. Each applicable Performance Criterion may be structured to provide for appropriate adjustments or exclusions for one or more of the following items: (A) asset impairments or write-downs; (B) litigation and governmental investigation expenses and judgments, verdicts and settlements in connection therewith; (C) the effect of changes in tax law, accounting principles or other such laws or provisions affecting reported results; (D) accruals for reorganization and restructuring programs; (E) costs and expenses incurred in connection with mergers and acquisitions; (F) costs and expenses incurred in connection with the relocation of the principal offices of the Company or any Affiliate; (G) any unusual, infrequent or nonrecurring items; (H) bonus or incentive compensation costs and expenses associated with cash-based awards made under the Plan or other bonus or incentive compensation plans of the Company or any Affiliate, (I) items of income, gain, loss or expense attributable to the operations of any business acquired by the Company or any Affiliate; (J) items of income, gain, loss or expense attributable to one or more business operations divested by the Company or any Affiliate or the gain or loss realized upon the sale of any such business or the assets thereof and (K) the impact of foreign currency fluctuations or changes

in exchange rates. To the extent required under Section 162(m) of the Code, the Committee shall, within the first 90 days of the applicable Performance Period (or, if shorter, within the maximum period allowed under Section 162(m) of the Code), define in an objective manner the method of calculating the Performance Criteria it selects to use for such Performance Period.

(v) **Modification of Performance Goals.** The Committee is authorized at any time to adjust or modify the calculation of a Performance Goal for such Performance Period (with any such adjustment or modification to be in compliance with Section 162(m) of the Code to the extent applicable) (A) in the event of, or in anticipation of, any unusual or infrequent corporate item, transaction, event or development affecting the Company or any of its Subsidiaries, Affiliates, divisions or operating units (to the extent applicable to such Performance Goal) or (B) in recognition of, or in anticipation of, any other unusual, infrequent or nonrecurring events affecting the Company or any of its Subsidiaries, Affiliates, divisions or operating units (to the extent applicable to such Performance Goal), or the financial statements of the Company or any of its Subsidiaries, Affiliates, divisions or operating units (to the extent applicable to such Performance Goal), or of changes in applicable rules, rulings, regulations or other requirements of any governmental body or securities exchange, accounting principles, law or business conditions.

(vi) **Payment of Performance Compensation Awards.** (A) **Condition to Receipt of Payment.** A Participant must be employed by the Company or an Affiliate on the last day of a Performance Period to be eligible for payment in respect of a Performance Compensation Award for such Performance Period. Notwithstanding the foregoing, in the discretion of the Committee, Performance Compensation Awards may be paid to Participants who have retired from the employment of the Company or an Affiliate or whose employment with the Company or an Affiliate has terminated prior to the last day of the Performance Period for which a Performance Compensation Award is made or to the designee or estate of a Participant who died prior to the last day of a Performance Period.

(B) **Limitation.** A Participant shall be eligible to receive payments in respect of a Performance Compensation Award only to the extent that (1) the Performance Goals for such period are achieved and certified by the Committee in accordance with Section 6(j)(vi)(C) and (2) the Performance Formula as applied against such Performance Goals determines that all or some portion of such Participant's Performance Compensation Award has been earned for the Performance Period.

(C) **Certification.** Following the completion of a Performance Period, the Committee shall meet to review and certify in writing whether, and to what extent, the Performance Goals for the Performance Period have been achieved and, if so, to calculate and certify in writing that amount of the Performance Compensation Awards earned for the period based upon the Performance Formula. The Committee shall then determine the actual size of each Participant's Performance Compensation Award for the Performance Period and, in so doing, may apply negative discretion as authorized by Section 6(j)(vi)(D).

(D) **Negative Discretion.** Unless otherwise provided in the applicable Award Agreement, in determining the actual size of an individual Performance Compensation Award for a Performance Period, the Committee may, in its sole discretion, reduce or eliminate the amount of the Award earned in the Performance Period, even if applicable Performance Goals have been attained.

(E) **Timing of Award Payments.** Unless otherwise provided in the applicable Award Agreement, the Performance Compensation Awards granted for a Performance Period shall be paid to Participants as soon as administratively and reasonably possible following completion of the certifications required by Section 6(j)(vi)(C).

SECTION 7. Amendment and Termination. (a) Amendments to the Plan. Subject to any applicable law or government regulation and to the rules of the NYSE or any successor exchange or quotation system on which the Shares may be listed or quoted, the Plan may be amended, modified or terminated by the Board without the approval of the shareholders of the Company except that shareholder approval shall be required for any amendment that would (i) increase the maximum number of Shares for which Awards may be granted under the Plan or increase the maximum number of Shares that may be delivered pursuant to Incentive Share Options granted under the Plan; provided, however, that any adjustment under Section 4(b) shall not constitute an increase for purposes of this Section 7(a)(i); (ii) amend, modify or terminate the requirements under Section 6(c)(ii) or Section 6(d)(ii) with respect to the minimum Exercise Price for Options or SARs, respectively; (iii) decrease the Exercise Price of any Option or SAR or, at a time when an Option or SAR has an Exercise Price that is greater than the then-current Fair Market Value of a Share cancel, in exchange for cash or any other Award, any such Option or SAR; provided, however, that any adjustment, modification, cancellation, termination or other action taken pursuant to Section 4(b), Section 7(c) or Section 8 shall not constitute a decrease or cancellation for purposes of this Section 7(a)(iii); or (iv) change the class of employees or other individuals eligible to participate in the Plan. Notwithstanding any other provision of the Plan, in no event may any Option or SAR be subject to any action that would be treated, for accounting purposes, as a “repricing” of such Option or SAR, unless such action is approved by the Company’s shareholders. No modification, amendment or termination of the Plan may, without the consent of the Participant to whom any Award shall theretofore have been granted, materially and adversely affect the rights of such Participant (or his or her transferee) under such Award, unless otherwise provided by the Committee in the applicable Award Agreement.

(b) Amendments to Awards. The Committee may waive any conditions or rights under, amend any terms of, or alter, suspend, discontinue, cancel or terminate any Award theretofore granted, prospectively or retroactively; provided, however, that (i) except as set forth in the Plan, unless otherwise provided by the Committee in the applicable Award Agreement, any such waiver, amendment, alteration, suspension, discontinuance, cancellation or termination that would materially and adversely impair the rights of any Participant or any holder or beneficiary of any Award theretofore granted shall not to that extent be effective without the consent of the impaired Participant, holder or beneficiary and (ii) any such action that would require shareholder approval under Section 7(a) shall also require shareholder approval under this Section 7(b).

(c) Adjustment of Awards Upon the Occurrence of Certain Unusual or Nonrecurring Events. The Committee is hereby authorized to make adjustments in the terms and conditions of, and the criteria included in, Awards in recognition of unusual or nonrecurring events (including but not limited to the events described in Section 4(b) or the occurrence of a Change of Control) affecting the Company, any Affiliate, or the financial statements of the Company or any Affiliate, or of changes in applicable rules, rulings, regulations or other requirements of any governmental body or securities exchange, accounting principles or law (i) whenever the Committee, in its sole discretion, determines that such adjustments are appropriate or desirable, including but not limited to providing for an assumption, continuation or substitution of Awards, accelerating the exercisability of, lapse of restrictions on, or termination of, Awards or providing for a period of time for exercise prior to the occurrence of such event, (ii) if deemed appropriate or desirable by the Committee, in its sole discretion, by providing for a cash payment to the holder of an Award in consideration for the cancellation of such Award, including, in the case of an outstanding Option or SAR, a cash payment to the holder of such Option or SAR in consideration for the cancellation of such Option or SAR in an amount equal to the excess, if any, of the Fair Market Value (as of a date specified by the Committee) of the Shares subject to such Option or SAR over the aggregate Exercise Price of such Option or SAR and (iii) if deemed appropriate or desirable by the Committee, in its sole discretion, by canceling and

terminating any Option or SAR having a per Share Exercise Price equal to, or in excess of, the Fair Market Value of a Share subject to such Option or SAR without any payment or consideration therefor.

SECTION 8. Change of Control. Unless otherwise provided in the applicable Award Agreement, in the event of a Change of Control after the date of the adoption of the Plan, unless provision is made in connection with the Change of Control for (i) assumption or continuation of Awards previously granted or (ii) substitution for such Awards of new awards covering shares of a successor corporation or its “parent corporation” (as defined in Section 424(e) of the Code) or “subsidiary corporation” (as defined in Section 424(f) of the Code), which for the avoidance of doubt may include the Company, with appropriate adjustments as to the number and kinds of shares and the Exercise Prices, if applicable, (A) any outstanding Options or SARs then held by Participants that are unexercisable or otherwise unvested shall automatically be deemed exercisable or otherwise vested, as the case may be, as of immediately prior to such Change of Control, (B) all Performance Units, Cash Incentive Awards and other Awards designated as Performance Compensation Awards shall vest as if the “target” performance levels had been obtained, but pro rated based on the portion of the applicable Performance Period that has elapsed prior to the Change of Control and (C) all other outstanding Awards (i.e., other than Options, SARs, Performance Units, Cash Incentive Awards and Awards designated as Performance Compensation Awards) then held by Participants that are unexercisable, unvested or still subject to restrictions or forfeiture, shall automatically be deemed exercisable and vested and all restrictions and forfeiture provisions related thereto shall lapse as of immediately prior to such Change of Control; provided that, payment of any such exercisable, vested or nonforfeitable amounts shall be made at the earliest time consistent with the requirements under Section 409A of the Code, as determined by the Committee.

SECTION 9. General Provisions. (a) **Nontransferability.** Except as otherwise specified in the applicable Award Agreement, during the Participant’s lifetime each Award (and any rights and obligations thereunder) shall be exercisable only by the Participant, or, if permissible under applicable law, by the Participant’s legal guardian or representative, and no Award (or any rights and obligations thereunder) may be assigned, alienated, pledged, attached, sold or otherwise transferred or encumbered by a Participant otherwise than by will or by the laws of descent and distribution, and any such purported assignment, alienation, pledge, attachment, sale, transfer or encumbrance shall be void and unenforceable against the Company or any Affiliate; provided that (i) the designation of a beneficiary shall not constitute an assignment, alienation, pledge, attachment, sale, transfer or encumbrance and (ii) the Committee may permit further transferability to any Permitted Transferee, and may impose conditions and limitations on any permitted transferability; provided, however, that Incentive Share Options granted under the Plan shall not be transferable in any way that would violate Treasury Regulation Section 1.422-2(a)(2), or any applicable requirements of Bermuda law or the Company’s Bye-laws. All terms and conditions of the Plan and all Award Agreements shall be binding upon any permitted successors and assigns.

(b) **No Rights to Awards.** No Participant or other Person shall have any claim to be granted any Award, and there is no obligation for uniformity of treatment of Participants or holders or beneficiaries of Awards. The terms and conditions of Awards and the Committee’s determinations and interpretations with respect thereto need not be the same with respect to each Participant and may be made selectively among Participants, whether or not such Participants are similarly situated.

(c) Share Certificates. All certificates for Shares or other securities of the Company or any Affiliate delivered under the Plan pursuant to any Award or the exercise thereof shall be subject to such stop transfer orders and other restrictions as the Committee may deem advisable under the Plan, the applicable Award Agreement or the rules, regulations and other requirements of the SEC, the NYSE or any other stock exchange or quotation system upon which such Shares or other securities are then listed or reported and any applicable Federal, Bermuda or state laws, and the Committee may cause a legend or legends to be put on any such certificates to make appropriate reference to such restrictions. Notwithstanding any other provision of the Plan, unless otherwise determined by the Committee or required by any applicable law, the Company shall not deliver to any Participant certificates evidencing Shares issues in connection with any Award and instead such Shares shall be recorded in the books of the Company (or, as applicable, its transfer agent or stock plan administrator).

(d) Tax Liability; Withholding. (i) Authority to Withhold. A Participant may be required to pay to the Company or any Affiliate, and the Company or any Affiliate shall have the right and is hereby authorized to withhold from any Award, from any payment due or transfer made under any Award or under the Plan or from any compensation or other amount owing to such Participant, the amount (in cash, Shares, other securities, other Awards or other property) of any Applicable Taxes, or any payment or transfer under an Award or under the Plan and to take such other action as may be necessary in the opinion of the Committee or the Company to satisfy all obligations for the payment of such Applicable Taxes. In the event the Company or any Affiliate, as the case may be, is unable to recover, by withholding or by taking such other necessary action as provided for herein, the amount of such Applicable Taxes from such Participant for any reason(s) whatsoever, the Company or such Affiliate may, to the extent permitted under applicable law, (i) withhold appropriate amounts from any payment (including salary) made by the Company or such Affiliate to such Participant, (ii) cancel the existing Awards granted (irrespective of whether they have vested) or any future grant of Awards or issuance of Shares to such Participant or (iii) any combination of the foregoing, without any obligations or liabilities on the Company and such Affiliate, in each case under clauses (i)-(iii) to the extent required to satisfy such Participant's obligation with respect to the payment of Applicable Taxes.

(ii) Alternative Ways to Satisfy Withholding Liability. Without limiting the generality of clause (i) above, at the Committee's discretion, a Participant may satisfy, in whole or in part, the foregoing withholding liability by delivery of Shares owned by such Participant (which are not subject to any pledge or other security interest) having a Fair Market Value equal to such withholding liability or by having the Company withhold from the number of Shares otherwise issuable pursuant to the exercise of the Option or SAR, or the lapse of the restrictions on any other Awards (in the case of SARs and other Awards, if such SARs and other Awards are settled in Shares), a number of Shares having a Fair Market Value equal to any Applicable Taxes.

(e) Section 409A. (i) It is intended that the provisions of the Plan comply with Section 409A of the Code, and all provisions of the Plan shall be construed and interpreted in a manner consistent with the requirements for avoiding taxes or penalties under Section 409A of the Code.

(ii) No Participant or the creditors or beneficiaries of a Participant shall have the right to subject any deferred compensation (within the meaning of Section 409A of the Code) payable under the Plan to any anticipation, alienation, sale, transfer, assignment, pledge, encumbrance, attachment or garnishment. Except as permitted under Section 409A of the Code, any deferred compensation (within the meaning of Section 409A of the Code) payable to any Participant or for the benefit of any Participant under the Plan may not be reduced by, or offset against, any amount owing by any such Participant to the Company or any of its Affiliates.

(iii) If, at the time of a Participant's separation from service (within the meaning of Section 409A of the Code), (A) such Participant shall be a specified employee (within the meaning of Section 409A of the Code and using the identification methodology selected by the Company from time to time) and (B) the Company shall make a good faith determination that an amount payable pursuant to an Award constitutes deferred compensation (within the meaning of Section 409A of the Code) the payment of which is required to be delayed pursuant to the six-month delay rule set forth in Section 409A of the Code in order to avoid taxes or penalties under Section 409A of the Code, then the Company shall not pay such amount on the otherwise scheduled payment date but shall instead pay it on the first business day after such six-month period. Such amount shall be paid without interest, unless otherwise determined by the Committee, in its sole discretion, or as otherwise provided in any applicable employment agreement between the Company and the relevant Participant.

(iv) Participants are solely responsible and liable for the satisfaction of all taxes and penalties that may arise in connection with Awards (including any taxes arising under Section 409A of the Code), and the Company shall not have any obligation to indemnify or otherwise hold any participant harmless from any or all of such taxes. The Committee shall have the discretion to organize any deferral program, to require deferral election forms, and to grant or to unilaterally modify any Award in a manner that (i) conforms with the requirements of Section 409A of the Code, (ii) voids any Participant election to the extent it would violate Section 409A of the Code and (iii) for any distribution event or election that could be expected to violate Section 409A of the Code, make the distribution only upon the earliest of the first to occur of a "permissible distribution event" within the meaning of Section 409A of the Code, or a distribution event that the participant elects in accordance with Section 409A of the Code. The Committee shall have the sole discretion to interpret the requirements of the Code, including Section 409A, for purposes of the Plan and all Awards.

(f) Award Agreements. Each Award hereunder shall be evidenced by an Award Agreement, which shall be delivered to the Participant and shall specify the terms and conditions of the Award and any rules applicable thereto, including but not limited to the effect on such Award of the death, Disability or termination of employment or service of a Participant with the Company or any Affiliate, and the effect, if any, of such other events as may be determined by the Committee.

(g) No Limit on Other Compensation Arrangements. Nothing contained in the Plan shall prevent the Company or any Affiliate from adopting or continuing in effect other compensation arrangements, which may, but need not, provide for the grant of options, restricted shares, shares and other types of equity-based awards (subject to shareholder approval if such approval is required), and such arrangements may be either generally applicable or applicable only in specific cases.

(h) No Employer-Employee Relationship. For the avoidance of doubt, nothing in the Plan shall create any relationship of employer-employee between the Company and any Participant who is a director, officer, employee or consultant of any Affiliate.

(i) **No Right to Employment.** The grant of an Award shall not be construed as giving a Participant the right to be retained as a director, officer, employee or consultant of or to the Company or any Affiliate, nor shall it be construed as giving a Participant any rights to continued service on the Board. Further, (i) any Participant may be dismissed at any time from the employment of the Company or any Affiliate with which such Participant is employed and (ii) the Company and any Affiliate may at any time discontinue any consulting or service relationship, in each case, free from any liability or any claim under the Plan, unless otherwise expressly provided in the Plan or in any Award Agreement. For the avoidance of doubt, (A) the Company may only dismiss such Participants who are employed with the Company, (B) an Affiliate may only dismiss such Participants who are employed with such Affiliate and (C) the Company shall have no authority over the employment of any Participant employed with any Affiliate and shall not be liable for any vicarious liability arising as a result of the performance or non-performance of any act by an employee of any Affiliate, in each case, as a result of the Plan, unless otherwise expressly provided in the Plan or in any Award Agreement.

(j) **No Rights as Shareholder.** No Participant or holder or beneficiary of any Award shall have any rights as a shareholder of the Company with respect to any Shares to be distributed under the Plan until he or she has become the holder of such Shares. In connection with each grant of Restricted Shares, except as provided in the applicable Award Agreement, the Participant shall be entitled to the rights of a shareholder of the Company (including the right to vote and receive dividends) in respect of such Restricted Shares. Except as otherwise provided in Section 4(b), Section 7(c) or the applicable Award Agreement, no adjustments shall be made for dividends or distributions on (whether ordinary or extraordinary, and whether in cash, Shares, other securities or other property), or other events relating to, Shares subject to an Award for which the record date is prior to the date such Shares are delivered.

(k) **Governing Law.** The validity, construction and effect of the Plan and any rules and regulations relating to the Plan and any Award Agreement shall be determined in accordance with the laws of the State of New York, without giving effect to the conflict of laws provisions thereof.

(l) **Severability.** If any provision of the Plan or any Award is or becomes or is deemed to be invalid, illegal or unenforceable in any jurisdiction or as to any Person or Award, or would disqualify the Plan or any Award under any law deemed applicable by the Committee, such provision shall be construed or deemed amended to conform to the applicable laws, or if it cannot be construed or deemed amended without, in the determination of the Committee, materially altering the intent of the Plan or the Award, such provision shall be construed or deemed stricken as to such jurisdiction, Person or Award and the remainder of the Plan and any such Award shall remain in full force and effect.

(m) **Other Laws.** The Committee may refuse to issue or transfer any Shares or other consideration under an Award if, acting in its sole discretion, it determines that the issuance or transfer of such Shares or such other consideration might violate any applicable law or regulation or entitle the Company to recover the same under Section 16(b) of the Exchange Act, and any payment tendered to the Company by a Participant, other holder or beneficiary in connection with the exercise of such Award shall be promptly refunded to the relevant Participant, holder or beneficiary. Without limiting the generality of the foregoing, no Award granted hereunder shall be construed as an offer to sell securities of the Company, and no such offer shall be outstanding, unless and until the Committee in its sole discretion has determined that any such offer, if made, would be in compliance with all applicable requirements of the U.S. Federal, Bermuda and any other applicable securities laws.

(n) No Trust or Fund Created. Neither the Plan nor any Award shall create or be construed to create a trust or separate fund of any kind or a fiduciary relationship between the Company or any Affiliate, on one hand, and a Participant or any other Person, on the other hand. To the extent that any Person acquires a right to receive payments from the Company or any Affiliate pursuant to an Award, such right shall be no greater than the right of any unsecured general creditor of the Company or such Affiliate.

(o) Recoupment of Awards. Notwithstanding anything to the contrary contained herein, an Award Agreement may provide that the Award granted thereunder shall be cancelled if the Participant, without the consent of the Company, while employed by or providing services to the Company or any Affiliate or after termination of such employment or service, (i) violates a non-competition, non-solicitation or non-disclosure covenant or agreement, (ii) otherwise engages in activity that is in conflict with or adverse to the interest of the Company or any Affiliate, including fraud or conduct contributing to any financial restatements or irregularities, as determined by the Committee in its sole discretion or (iii) to the extent applicable to the Participant, otherwise violates any policy adopted by the Company or any of its Affiliates relating to the recovery of compensation granted, paid, delivered, awarded or otherwise provided to any Participant by the Company or any of its Affiliates as such policy is in effect on the date of grant of the applicable Award or, to the extent necessary to address the requirements of applicable law (including Section 954 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, as codified in Section 10D of the Exchange Act, Section 304 of the Sarbanes-Oxley Act of 2002 or any other applicable law), as may be amended from time to time. The Committee may also provide in an Award Agreement that (x) a Participant will forfeit any gain realized on the vesting or exercise of such Award if the Participant engages in any activity referred to in the preceding sentence, or (y) a Participant must repay the gain to the Company realized under a previously paid Performance Compensation Award, Performance Unit or any other Award that vested or was earned with respect to performance objectives if a financial restatement reduces the amount that would have been earned under such Award. The terms of the Plan are not intended to, and shall be interpreted in a manner that does not, limit or restrict any Participant from exercising any legally protected whistleblower rights (including pursuant to Rule 21F under the Exchange Act).

(p) No Fractional Shares. No fractional Shares shall be issued or delivered pursuant to the Plan or any Award, and the Committee shall determine whether cash, other securities or other property shall be paid or transferred in lieu of any fractional Shares or whether such fractional Shares or any rights thereto shall be canceled, terminated or otherwise eliminated.

(q) Requirement of Consent and Notification of Election Under Section 83(b) of the Code or Similar Provision. No election under Section 83(b) of the Code (to include in gross income in the year of transfer the amounts specified in Section 83(b) of the Code) or under a similar provision of law may be made unless expressly permitted by the terms of the applicable Award Agreement or by action of the Committee in writing prior to the making of such election. If an Award recipient, in connection with the acquisition of Shares under the Plan or otherwise, is expressly permitted under the terms of the applicable Award Agreement or by such Committee action to make such an election and the Participant makes the election, the Participant shall notify the Committee of such election within ten days of filing notice of the election with the IRS or other governmental authority, in addition to any filing and notification required pursuant to regulations issued under Section 83(b) of the Code or other applicable provision.

(r) Requirement of Notification Upon Disqualifying Disposition Under Section 421(b) of the Code. If any Participant shall make any disposition of Shares delivered pursuant to the exercise of an Incentive Share Option under the circumstances described in Section 421(b) of the Code (relating to certain disqualifying dispositions) or any successor provision of the Code, such Participant shall notify the Company of such disposition within ten days of such disposition.

(s) Headings. Headings are given to the Sections and subsections of the Plan solely as a convenience to facilitate reference. Such headings shall not be deemed in any way material or relevant to the construction or interpretation of the Plan or any provision thereof.

SECTION 10. Term of the Plan. (a) Effective Date. The Plan became effective as of the date of its approval by the Company's shareholders on May 9, 2017 (such date, the "Effective Date"). The Plan was amended and restated on April 5, 2019, subject to shareholder approval at the 2019 Annual Meeting.

(b) Expiration Date. No Award shall be granted under the Plan after the tenth anniversary of the Effective Date. Unless otherwise expressly provided in the Plan or in an applicable Award Agreement, any Award granted hereunder may, and the authority of the Board or the Committee to amend, alter, adjust, suspend, discontinue or terminate any such Award or to waive any conditions or rights under any such Award shall, nevertheless continue thereafter.

SECTION 11. Sub Plans. The Company or any Affiliate may adopt separate sub-plans ("Sub Plans") that permit the grant of Awards, subject to the limits under Section 4 and any provision of this Plan that may not be amended without shareholder approval, to Participants who are employed or provide services outside the United States of America. Awards under the Sub Plans may be made in particular locations outside the United States of America and shall comply with local laws applicable to offerings in such foreign jurisdictions.

Exhibit 2

Reconciliation of Non-GAAP Financial Measures to GAAP Financial Measures

This Proxy Statement includes the following measures defined by the Securities and Exchange Commission as non-GAAP financial measures:

- Adjusted income from operations attributable to shareholders of Genpact Limited, or adjusted income from operations;
- Adjusted income from operations margin;
- Adjusted diluted earnings per share attributable to shareholders of Genpact Limited, or adjusted diluted earnings per share; and
- Revenue growth on a constant currency basis.

In addition to using these measures as compensation performance measures, we use these non-GAAP financial measures for our internal management reporting, budgeting and decision-making purposes, including comparing our operating results to those of our competitors. These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles and should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and may be different from non-GAAP financial measures used by other companies. Accordingly, these non-GAAP financial measures, the financial statements prepared in accordance with GAAP and the reconciliations of our GAAP financial statements to such non-GAAP financial measures should be carefully evaluated.

Prior to July 2012, we used financial statements that excluded significant acquisition-related expenses, amortization of related acquired intangibles, and amortization of acquired intangibles at the company's formation in 2004 for our internal management reporting, budgeting and decision making purposes, including comparing our operating results to those of our competitors. However, considering our frequent acquisitions of varying scale and size, and the difficulty in predicting expenses relating to acquisitions and the amortization of acquired intangibles thereof, since July 2012 we have used financial statements that exclude all acquisition-related expenses and amortization of acquired intangibles for our internal management reporting, budgeting and decision-making purposes, including comparing our operating results to those of our competitors. For the same reasons, since April 2016 we have excluded the impairment of acquired intangible assets from the financial statements we use for internal management purposes. Acquisition-related expenses are excluded in the period in which an acquisition is consummated.

We also use financial statements that exclude stock-based compensation expense. Because of varying available valuation methodologies, subjective assumptions and the variety of award types that companies can use when adopting ASC 718 "Compensation-Stock Compensation," we believe that providing non-GAAP financial measures that exclude such expenses allows investors to make additional comparisons between our operating results and those of other companies. Additionally, in our calculations of such non-GAAP financial measures, we have adjusted other income and expenses, certain gains, losses and impairment charges attributable to equity-method investments, and gains or losses attributable to non-controlling interests because we believe that our results after taking into account these adjustments more accurately reflect our ongoing operations. For the purpose of calculating adjusted diluted earnings per share, the combined current and deferred tax effect is determined by multiplying each pre-tax adjustment by the applicable statutory income tax rate.

We provide information about revenues on a constant currency basis so that the revenues may be viewed without the impact of foreign currency exchange rate fluctuations compared to prior fiscal periods, thereby facilitating period-to-period comparisons of our true business performance. Revenue growth on a constant currency basis is calculated by restating current-period activity using the prior fiscal period's foreign currency exchange rates adjusted for hedging gains/losses in such period.

Accordingly, we believe that the presentation of adjusted income from operations, adjusted income from operations margin, adjusted diluted earnings per share and revenue growth on a constant currency basis, when read in conjunction with our reported results, can provide useful supplemental information to our investors and our management regarding financial and business trends relating to our financial condition and results of operations.

A limitation of using adjusted income from operations and adjusted income from operations margin versus income from operations and income from operations margin calculated in accordance with GAAP is that these non-GAAP financial measures exclude certain recurring costs and certain other charges, namely stock-based compensation and amortization and impairment of acquired intangibles. We compensate for this limitation by providing specific information on the GAAP amounts excluded from adjusted income from operations and adjusted income from operations margin.

The following tables show the reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures for the years ended December 31, 2017 and 2018:
