EXPLANATORY NOTE

On December 20, 2018, NextEra Energy Partners Acquisitions, LLC (purchaser), an indirect subsidiary of NextEra Energy Partners, LP (NEP), completed its previously announced acquisition (the acquisition) of 100% of the membership interests in NEP Renewables, LLC (NEP Renewables), which owns 100% of the membership interests in each of:

Breckinridge Wind Class A Holdings, LLC, which owns 100% of the Class A membership interests of Breckinridge Wind Project, LLC, a project company that owns an approximately 98 megawatt (MW) wind generation facility located in Oklahoma;

Carousel Wind Holdings, LLC, which owns 100% of the Class A membership interests of Carousel Wind Farm, LLC, a project company that owns an approximately 150 MW wind generation facility located in Colorado;

Monarch Wind Holdings, LLC, which owns 100% of the Class A membership interests of Monarch Wind, LLC, which indirectly owns two wind generation facilities, Javelina II and Rush Springs Wind, with a combined generating capacity of approximately 450 MW, located in Texas and Oklahoma, respectively;

Mountain View Solar Holdings, LLC, which owns Mountain View Solar, LLC, a project company that owns a 20 MW solar generation facility located in Nevada;

Pacific Plains Wind Class A Holdings, LLC, which owns 100% of the Class A membership interests of Pacific Plains Wind, LLC, which indirectly owns three wind generation facilities, Bluff Point, Cottonwood and Golden Hills North, with a combined generating capacity of approximately 255 MW, located in Indiana, Nebraska and California, respectively; and

Palomino Wind Holdings, LLC, which owns 100% of the Class A membership interests of Palomino Wind, LLC, which indirectly owns three wind generation facilities located in Kansas, Kingman I, Kingman II and Ninnescah, with a combined generating capacity of approximately 415 MW.

The acquisition closed pursuant to a purchase and sale agreement dated August 31 2018, filed as Exhibits 2.1 and 2.2 to NEP's Current Report on Form 8-K filed with the SEC on August 31, 2018 (Purchase Agreement Form 8-K), with NEP US SellCo, LLC and ESI Energy, LLC, both of which are subsidiaries of NextEra Energy Resources, LLC.

In exchange for the membership interests in NEP Renewables, the purchaser paid a total purchase price of approximately \$1,275 million in cash consideration, excluding working capital and other adjustments, and assumed approximately \$930 million in existing noncontrolling interests related to differential membership interests and \$38 million of existing debt. The cash purchase price was funded with cash on hand and approximately \$750 million drawn under the existing revolving credit facility of NextEra Energy US Partners Holdings, LLC, which was subsequently repaid using the proceeds of the Class B investment described below.

On December 21, 2018, NEP issued and sold 100% of the non-controlling Class B interest in NEP Renewables for approximately \$750 million (the Class B investment) under the membership interest purchase agreement dated August 31, 2018 (membership purchase agreement), filed as Exhibit 2.3 to the Purchase Agreement Form 8-K, between NEP, NEP Renewables Holdings, LLC (NEP Renewables Holdings) and NEP Renewables with Western Renewable Partners LLC, a wholly owned subsidiary of a fund managed by BlackRock Global Energy & Power Infrastructure (BlackRock). The Class B investment represents an approximately 59% investment in NEP Renewables, subject to the specified conditions set forth in the membership purchase agreement and working capital adjustments. NEP Renewables Holdings will retain 100% of the Class A interest, representing an approximately 41% investment in NEP Renewables, and NEP will consolidate NEP Renewables.

In connection with the Class B investment, the limited liability company agreement for NEP Renewables was amended and restated (the LLC agreement). Under the LLC agreement, NEP, through its indirect ownership of NEP Renewables Holdings, will receive 85% of NEP Renewables' cash distributions for the first three years after funding,

and BlackRock will receive 15%, which implies a yield to BlackRock of approximately 2.5% per annum for the first three years. After three years, NEP will receive 20% of NEP Renewables' cash distributions and BlackRock will receive 80%. From the third to the fourth anniversary after funding, NEP has the option (the buyout right), subject to certain limitations and extensions, to purchase 100% of BlackRock's interest in NEP Renewables at a buyout price that implies a 7.75% pre-tax return to BlackRock (inclusive of all prior distributions). If the buyout right is exercised, NEP has the right to pay at least 70% of the buyout price in NEP non-voting common units, issued at the then-current market price of NEP common units, with the balance paid in cash, subject to limitations as described in the LLC agreement. Under a registration rights agreement entered into on December 21, 2018, BlackRock has certain rights, beginning January 1, 2025, to require NEP, under certain circumstances, to initiate underwritten offerings for the units that are issuable if NEP exercises the buyout right.

On December 21, 2018, the partnership agreement of NEP was amended and restated (NEP Partnership Agreement) to establish the terms of the rights of the NEP non-voting common units. Following any exercise of the buyout right, the NEP non-voting common units will have, among other terms, the right to receive pro rata quarterly cash distributions and the right to convert, subject to certain limitations, the NEP non-voting common units into NEP common units on a one-for-one basis. On the same date, the partnership agreement of NextEra Energy Operating Partners, LP (NEP OpCo) was also amended and restated to establish the equivalent terms of the rights of NEP OpCo non-voting common units.
