GERMAN AMERICAN BANCORP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2016

(unaudited, dollars in thousands except share and per share data)

NOTE 1 – Basis of Presentation

German American Bancorp, Inc. operates primarily in the banking industry. The accounting and reporting policies of German American Bancorp, Inc. and its subsidiaries (hereinafter collectively referred to as the "Company") conform to U.S. generally accepted accounting principles. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. All adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the periods reported have been included in the accompanying unaudited consolidated financial statements, and all such adjustments are of a normal recurring nature. It is suggested that these consolidated financial statements and notes be read in conjunction with the financial statements and notes thereto in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Certain items included in the prior period financial statements were reclassified to conform to the current presentation. There was no effect on net income or total shareholders' equity based on these reclassifications.

NOTE 2 - Per Share Data

(unaudited, dollars in thousands except share and per share data)

NOTE 3 – Securities

The amortized cost, unrealized gross gains and losses recognized in accumulated other comprehensive income (loss), and fair value of Securities Available-for-Sale at September 30, 2016 and December 31, 2015, were as follows:

Securities Available-for-Sale:	Amortized Cost	Gross Unrealized Gains	Unrealized Losses	l Fair Value
September 30, 2016 U.S. Treasury and Agency Securities Obligations of State and Political Subdivisions Mortgage-backed Securities - Residential Equity Securities Total	\$— 234,656 479,047 353 \$714,056	\$— 12,630 6,802 — \$ 19,432	\$— (76 (501 — \$ (577	\$— 247,210 485,348 353 \$732,911
December 31, 2015 U.S. Treasury and Agency Securities Obligations of State and Political Subdivisions Mortgage-backed Securities - Residential Equity Securities Total	\$ 10,000 195,360 426,087 353 \$ 631,800	\$— 8,286 2,114 — \$ 10,400	\$ (102 (18 (4,240 — \$ (4,360	\$9,898 203,628 423,961 353 \$637,840

Equity securities that do not have readily determinable fair values are included in the above totals, are carried at historical cost and are evaluated for impairment on a periodic basis. All mortgage-backed securities in the above table are residential mortgage-backed securities and guaranteed by government sponsored entities.

The carrying amount, unrecognized gains and losses and fair value of Securities Held-to-Maturity at September 30, 2016 and December 31, 2015, were as follows:

Securities Held-to-Maturity:	Carrying Amount	Gross Unrecognized Gains	Gross Unrecognized Losses	Fair Value
September 30, 2016 Obligations of State and Political Subdivisions	\$ —	\$ —	-\$ —	-\$ —
December 31, 2015 Obligations of State and Political Subdivisions	\$ 95	\$ —	-\$ —	-\$ 95

The amortized cost and fair value of securities at September 30, 2016 by contractual maturity are shown below. Expected maturities may differ from contractual maturities because some issuers have the right to call or prepay certain obligations with or without call or prepayment penalties. Mortgage-backed and Equity Securities are not due at a single maturity date and are shown separately in the table below.

Total

\$152,318 \$(1,188) \$139,294 \$(3,172) \$291,612 \$(4,360)

Securities are written down to fair value when a decline in fair value is not considered temporary. In estimating other-than-temporary losses, management considers many factors, including: (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, (3) whether the market decline was affected by macroeconomic conditions, and (4) whether the Company has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. The Company does not intend to sell or expect to be required to sell these securities, and the decline in fair value is largely due to changes in market interest rates. Therefore, the Company does not consider these securities to be other-than-temporarily impaired. All mortgage-backed securities in the Company's portfolio are guaranteed by government sponsored entities, are investment grade, and are performing as expected.

GERMAN AMERICAN BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2016

(unaudited, dollars in thousands except share and per share data)

NOTE 4 – Derivatives

The Company executes interest rate swaps with commercial banking customers to facilitate their respective risk management strategies. The notional amounts of these interest rate swaps and the offsetting counterparty derivative instruments were \$68.3 million at September 30, 2016 and \$36.8 million at December 31, 2015. These interest rate swaps are simultaneously hedged by offsetting interest rate swaps that the Company executes with a third party, such that the Company minimizes its net risk exposure resulting from such transactions with independent counterparties with substantially matching terms. The agreements are considered stand alone derivatives and changes in the fair value of derivatives are reported in earnings as non-interest income.

Credit risk arises from the possible inability of counterparties to meet the terms of their contracts. The Company's exposure is limited to the replacement value of the contracts rather than the notional, principal or contract amounts. There are provisions in the agreements with the counterparties that allow for certain unsecured credit exposure up to an agreed threshold. Exposures in excess of the agreed thresholds are collateralized. In addition, the Company minimizes credit risk through credit approvals, limits, and monitoring procedures.

The following table reflects the fair value hedges included in the Consolidated Balance Sheets as of:

September 30, 2016 December 31, 2015

Consumer Loans	58,533	50,029	
Residential Mortgage Loans	187,903	136,316	
Subtotal	2,006,090	1,568,075	
Less: Unearned Income	(3,710)	(3,728)	
Allowance for Loan Losses	(15,154)	(14,438)	
Loans, Net	\$1,987,226	\$1,549,909	

As further described in Note 12, during 2016 the Company acquired loans with a fair value of \$317,760 as a part of a business combination. This was made up of loans with an acquired balance of \$328,431, net of \$10,671 of fair value discounts at date of acquisition. At September 30, 2016, the remaining carrying amount of such loans total \$280,027, which is included in the September 30, 2016 table above. This amount is made up of loans with a remaining balance of \$288,559 net of remaining fair value discounts of \$8,532.

The following tables present the activity in the allowance for loan losses by portfolio class for the three months ended September 30, 2016 and 2015:

In determining the adequacy of the allowance for loan loss, general allocations are made for pools of loans, including non-classified loans, homogeneous portfolios of consumer and residential real estate loans, and loans within certain industry categories believed to present unique risk of loss. General allocations of the allowance are primarily made based on historical averages for loan losses for these portfolios, judgmentally adjusted for current economic factors and portfolio trends. During 2016, the overall allowance for loan and lease losses was increased in the agricultural sector as a result of qualitative considerations for current economic conditions and trends which included a decline in the aggregate debt service coverage ratios for agricultural borrowers and a decline in per acre values of crop production real estate.

Loan impairment is reported when full repayment under the terms of the loan is not expected. This methodology is used for all loans, including loans acquired with deteriorated credit quality if such loans perform worse than what was expected at the time of acquisition. For purchased loans, the assessment is made at the time of acquisition as well as over the life of loan. If a loan is impaired, a portion of the allowance is allocated so that the loan is reported net, at the present value of estimated future cash flows using the loan's existing rate, or at the fair value of collateral if repayment is expected solely from the collateral. Commercial and industrial loans, commercial real estate loans, and agricultural loans are evaluated individually for impairment. Smaller balance homogeneous loans are evaluated for impairment in

total. Such loans include real estate loans secured by one-to-four family residences and loans to individuals for household, family and other personal expenditures. Individually evaluated loans on non-accrual are generally considered impaired. Impaired loans, or portions thereof, are charged off when deemed uncollectible.

Specific allocations on impaired loans are determined by comparing the loan balance to the present value of expected cash flows or expected collateral proceeds. Allocations are also applied to categories of loans not considered individually impaired but for which the rate of loss is expected to be greater than historical averages, including non-performing consumer or residential real estate loans. Such allocations are based on past loss experience and information about specific borrower situations and estimated collateral values. The allowance for commercial real estate loans declined during 2016 primarily as a result of the repayment of a single non-accrual commercial real estate credit during the third quarter of 2016. This credit relationship was considered impaired and therefore had a specific allocation assigned prior to repayment.

All classes of loans, including loans acquired with deteriorated credit quality, are generally placed on non-accrual status when scheduled principal or interest payments are past due for 90 days or more or when the borrower's ability to repay becomes doubtful. For purchased loans, the determination is made at the time of acquisition as well as over the life of the loan. Uncollected accrued interest for each class of loans is reversed against income at the time a loan is placed on non-accrual. Interest received on such loans is accounted for on the cash-basis or cost-recovery method, until qualifying for return to accrual. All classes of loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments

GERMAN AMERICAN BANCORP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS September 30, 2016 (unaudited, dollars in thousands except share and per share data)

NOTE 5 - Loans (continued)

are reasonably assured. Loans are typically charged-off at 180 days past due, or earlier if deemed uncollectible. Exceptions to the non-accrual and charge-off policies are made when the loan is well secured and in the process of collection.

The following tables present the recorded investment in non-accrual loans and loans past due 90 days or more still on accrual by class of loans as of September 30, 2016 and December 31, 2015:

GERMAN AMERICAN BANCORP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS September 30, 2016 (unaudited, dollars in thousands except share and per share data)

NOTE 5 - Loans (continued)

Troubled Debt Restructurings:

In certain instances, the Company may choose to restructure the contractual terms of loans. A troubled debt restructuring occurs when the Bank grants a concession to the borrower that it would not otherwise consider due to a borrower's financial difficulty. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without modification. This evaluation is performed under the Company's internal underwriting policy. The Company uses the same methodology for loans acquired with deteriorated credit quality as for all other loans when determining whether the loan is a troubled debt restructuring.

During the three and nine months ended September 30, 2016 and 2015, there were no loans modified as troubled debt restructurings.

The following tables present the recorded investment of troubled debt restructurings by class of loans as of September 30, 2016 and December 31, 2015:

September 30, 2016	Total Performing	Non-Accrual ⁽¹⁾
Commercial and Industrial Loans and Leases	\$ 50 \$ 50	\$
Commercial Real Estate Loans		<u> </u>
Total	\$ 50 \$ 50	\$ —
December 31, 2015	Total Performing	Non-Accrual ⁽¹⁾
Commercial and Industrial Loans and Leases	\$1,446 \$ 1,445	\$ 1
Commercial Real Estate Loans	2,455 795	1,660
Total	\$3,901 \$ 2,240	\$ 1,661

(1)The non-accrual troubled debt restructurings are included in the Non-Accrual Loan table presented on a previous page.

The Company had not committed to lending any additional amounts as of September 30, 2016 and December 31, 2015 to customers with outstanding loans that are classified as troubled debt restructurings.

For the three months ended September 30, 2016 and 2015, there were no loans modified as troubled debt restructurings for which there was a payment default within twelve months following the modification. For the nine months ended September 30, 2016, there were no loans modified as troubled debt restructurings for which there was a payment default within the twelve months following the modification. For the nine months ended September 30, 2015, there was one troubled debt restructuring with a recorded investment of \$95 for which there was a payment default within twelve months following the modification. The troubled debt restructuring that subsequently defaulted resulted in no change to the allowance for loan losses and a charge-off of \$95 during the nine months ending September 30, 2015. A loan is considered to be in payment default once it is 30 days contractually past due under the modified terms.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company classifies loans as to credit risk by individually analyzing loans. This analysis includes commercial and industrial loans, commercial real estate loans, and agricultural loans with an outstanding balance greater than \$100. This analysis is typically performed on at least an annual basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation

GERMAN AMERICAN BANCORP, INC. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2016

(unaudited, dollars in thousands except share and per share data)

NOTE 5 - Loans (continued)

of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans. Based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

September 30, 2016	Pass	Special Mention	Substandard	l Doub	tfuľTotal
Commercial and Industrial Loans and Leases	\$448,350	\$12,789	\$ 9,242	\$	\$470,381

Loans Acquired With Deteriorated Credit Quality (Included in the Total Above)	\$1,572	\$3,319	\$ 1,797	\$	-\$6,688

The Company considers the performance of the loan portfolio and its impact on the allowance for loan losses. For home equity, consumer and residential mortgage loan classes, the Company also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity. The following table presents the recorded investment in home equity, consumer and residential mortgage loans based on payment activity as of September 30, 2016 and December 31, 2015:

September 30, 2016	Home Equity Loans	Consumer Loans	Residential Mortgage Loans

For those purchased loans disclosed above, the Company increased the allowance for loan losses by \$56 during the nine months ended September 30, 2016. The Company did not increase the allowance for loan losses during the nine

months ended September 30, 2015. No allowances for loan losses were reversed during the nine months ended September 30, 2016. Allowances for losses were reversed by \$44 during the nine months ended September 30, 2015.

GERMAN AMERICAN BANCORP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2016

(unaudited, dollars in thousands except share and per share data)

NOTE 5 - Loans (continued)

Contractually required payments receivable of loans purchased with evidence of credit deterioration during the nine months ended September 30, 2016 are included in the table below. The value of the purchased loans included in the table are as of acquisition date. There were no such loans purchased during the year ended December 31, 2015.

Commercial and Industrial Loans	\$220
Commercial Real Estate Loans	10,612
Agricultural Loans	896
Home Equity Loans	_
Consumer Loans	87
Residential Mortgage Loans	2,279
Total	\$14,094

Cash Flows Expected to be Collected at Acquisition \$11,051 Fair Value of Acquired Loans at Acquisition \$8,807

The carrying amount of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings are in process according to local requirements of the applicable jurisdiction totaled \$315 as of September 30, 2016 and \$169 as of December 31, 2015.

NOTE 6 - Repurchase Agreements Accounted for as Secured Borrowings

Repurchase agreements are short-term borrowings included in FHLB Advances and Other Borrowings and mature overnight and continuously. Repurchase agreements, which were secured by mortgage-backed securities, totaled \$39,462 and \$18,417 as of September 30, 2016 and December 31, 2015, respectively. Risk could arise when the collateral pledged to a repurchase agreement declines in fair value. The Company minimizes risk by consistently monitoring the value of the collateral pledged. At the point in time where the collateral has declined in fair value, the Company is required to provide additional collateral based on the value of the underlying securities.

NOTE 7 – Segment Information

The Company's operations include three primary segments: core banking, trust and investment advisory services, and insurance operations. The core banking segment involves attracting deposits from the general public and using such funds to originate consumer, commercial and agricultural, commercial and agricultural real estate, and residential mortgage loans, primarily in the Company's local markets. The core banking segment also involves the sale of residential mortgage loans in the secondary market. The trust and investment advisory services segment involves providing trust, investment advisory, and brokerage services to customers. The insurance segment offers a full range of personal and corporate property and casualty insurance products, primarily in the Company's banking subsidiary's local markets.

The core banking segment is comprised by the Company's banking subsidiary, German American Bancorp, which operated through 52 banking offices at September 30, 2016. Net interest income from loans and investments funded by deposits and borrowings is the primary revenue for the core-banking segment. The trust and investment advisory services segment's revenues are comprised primarily of fees generated by the trust operations of the Company's banking subsidiary and by German American Investment Services, Inc. These fees are derived by providing trust,

investment advisory, and brokerage services to its customers. The insurance segment primarily consists of German American Insurance, Inc., which provides a full line of personal and corporate insurance products. Commissions derived from the sale of insurance products are the primary source of revenue for the insurance segment.

The following segment financial information has been derived from the internal financial statements of the Company which are used by management to monitor and manage financial performance. The accounting policies of the three segments are the same as those of the Company. The evaluation process for segments does not include holding company income and expense. Holding company amounts are the primary differences between segment amounts and consolidated totals, and are reflected in the column labeled "Other" below, along with amounts to eliminate transactions between segments.
