His steady hand and unflappable adherence to his investment principles has served, and will continue to serve, our stockholders well. He has built a strong team at the Company and when he does step down, the Fund will continue in good hands. With his announcement, he has given us the time to carefully identify his successor.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. Significant Accounting Policies

The Adams Express Company (the Company) is registered under the Investment Company Act of 1940 as a diversified investment company. The Company is an internally-managed closed-end fund whose investment objectives are preservation of capital, the attainment of reasonable income from investments, and an opportunity for capital appreciation.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, which require the use of estimates made by Company management. Management believes that estimates and security valuations are appropriate; however, actual results may differ from those estimates, and the security valuations reflected in the financial statements may differ from the value the Company ultimately realizes upon sale of

the securities.

Affiliated Companies Investments in companies 5% or more of whose outstanding voting securities are held by the Company are defined as Affiliated Companies in Section 2(a)(3) of the Investment Company Act of 1940.

Security Transactions and Investment Income Investment transactions are accounted for on the trade date. Gain or loss on sales of securities and options is determined on the basis of specific identification. Dividend income and distributions to stockholders are recognized on the ex-dividend date, and interest income is recognized on the accrual basis.

Security Valuation The Company's investments are reported at fair value as defined under accounting principles general accepted in the United States of America. Investments in securities traded on national security exchanges are valued at the last reported sale price on the day of valuation. Over-the-counter and listed securities for which a sale price is not avail-

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

able are valued at the last quoted bid price. Short-term investments (excluding purchased options and money market funds) are valued at amortized cost, which approximates fair value. Purchased and written options are valued at the last quoted bid and asked price, respectively. Money market funds are valued at net asset value on the day of valuation.

Various inputs are used to determine the fair value of the Company's investments. These inputs are summarized in the following three levels:

- Level 1 fair value is determined based on market data obtained from independent sources; for example, quoted prices in active markets for identical investments,
- Level 2 fair value is determined using other assumptions obtained from independent sources; for example, quoted prices for similar investments,
- Level 3 fair value is determined using the Company's own assumptions, developed based on the best information available in the circumstances.

The Company's investments at June 30, 2012 were classified as follows:

	Level 1	Level 2	Level 3	Total
Common stocks	\$ 1,074,075,832	\$	\$	\$ 1,074,075,832
Short-term investments	17,725,722	19,999,700		37,725,422
Securities lending collateral	20,518,447			20,518,447
Total investments	\$ 1,112,320,001	\$ 19,999,700	\$	\$ 1,132,319,701
Written options	\$ (369,362)	\$	\$	\$ (369,362)

There were no transfers into or from Level 1 or Level 2 during the six months ended June 30, 2012.

2. Federal Income Taxes

No federal income tax provision is required since the Company's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income to its stockholders. Additionally, management has analyzed and concluded that tax positions included in federal income tax returns from the previous three years that remain subject to examination do not require any provision. Any income tax-related interest or penalties would be recognized as income tax expense. As of June 30, 2012, the identified cost of securities for federal income tax purposes was \$1,017,751,884 and net unrealized appreciation aggregated \$114,567,817, consisting of gross unrealized appreciation of \$224,156,038 and gross unrealized depreciation of \$109,588,221.

Distributions are determined in accordance with income tax regulations, which may differ from generally accepted accounting principles. Such differences are primarily related to the Company's retirement plans, equity-based compensation, and loss deferrals for wash sales. Differences that are permanent are periodically reclassified in the capital accounts of the Company's financial statements and have no impact on net assets.

3. Investment Transactions

Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

The Company's investment decisions are made by a committee of management, and recommendations to that committee are made by the research staff. Purchases and sales of portfolio securities, other than options and short-term investments, during the six months ended June 30, 2012 were \$147,429,996 and \$152,299,742, respectively.

The Company is subject to changes in the value of equity securities held (equity price risk) in the normal course of pursuing its investment objectives. The Company may purchase and write option contracts to increase or decrease its equity price risk exposure or may write option contracts to generate additional income. Option contracts generally entail risks associated with counterparty credit, liquidity, and unfavorable equity price movements. The Company has mitigated counterparty credit and liquidity risks by trading its options through an exchange. The risk of unfavorable equity price movements is limited for purchased options to the premium paid and for written options by writing only covered call or collateralized put option contracts, which require the Company to segregate certain securities or cash at its custodian when the option is written. A schedule of outstanding written option contracts as of June 30, 2012 can be found on page 12.

When the Company writes (purchases) an option, an amount equal to the premium received (paid) by the Company is recorded as a liability (asset) and is subsequently marked to market daily in the Statement of Assets and Liabilities, with any related change recorded as an unrealized gain or loss in the Statement of Operations. Premiums received (paid) from unexercised options are treated as realized gains (losses) on the expiration date. Upon the exercise of written put (purchased call) option contracts, premiums received (paid) are deducted from (added to) the cost basis of the underlying securities purchased. Upon the exercise of written call (purchased put) option contracts, premiums received (paid) are added to (deducted from) the proceeds from the sale of underlying securities in determining whether there is a realized gain or loss.

Transactions in written covered call and collateralized put options during the six months ended June 30, 2012 were as follows:

	Covered Calls		Collateralized Puts	
	Contracts	Premiums	Contracts	Premiums
Options outstanding, December 31, 2011	676	\$ 116,650	1,259	\$ 327,066

4. Capital Stock

The Company has 10,000,000 authorized and unissued preferred shares, \$0.001 par value.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

During 2012, 425 shares of Common Stock were issued at a weighted average price of \$10.58 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Incentive Compensation Plan.

On December 27, 2011, the Company issued 2,147,935 shares of its Common Stock at a price of \$9.745 per share (the average market price on December 7, 2011) to stockholders of record on November 21, 2011, who elected to take stock in payment of the distribution from 2011 capital gain and investment income. During 2011, 1,435 shares were issued at a weighted average price of \$10.43 per share as dividend equivalents to holders of deferred stock units and restricted stock units under the 2005 Equity Income Compensation Plan.

The Company may purchase shares of its Common Stock from time to time at such prices and amounts as the Board of Directors may deem advisable.

Transactions in Common Stock for 2012 and 2011 were as follows:

	Shares		Amount	
	Six months ended June 30, 2012	Year ended December 31, 2011	Six months ended June 30, 2012	Year ended December 31, 2011

Net change	32,419	2,188,713	52,090	21,310,150

5. Retirement Plans

Defined Contribution Plans The Company sponsors a qualified defined contribution plan for all employees with at least six months of service and a nonqualified defined contribution plan for eligible employees to supplement the qualified plan. The Company expensed contributions to the plans in the amount of \$111,009, a portion thereof based on company performance, for the six months ended June 30, 2012. The Company does not provide postretirement medical benefits.

Defined Benefit Plans On October 1, 2009, the Company froze its non-contributory qualified and nonqualified defined benefit pension plans. Benefits are based on length of service and compensation during the last five years of employment through September 30, 2009, with no additional benefits being accrued beyond that date.

The funded status of the plans is recognized as an asset (overfunded plan) or a liability (underfunded plan) in the Statement of Assets and Liabilities. Changes in the prior service costs and accumulated actuarial gains and losses are recognized as accumulated other comprehensive income, a component of net assets, in the year in which the changes occur and are subsequently amortized into net periodic pension cost. Non-recurring settlement costs are recognized in net periodic pension cost when a plan participant receives a lump-sum benefit payment and includes the amount of which is in excess of the present value of the projected benefit and any unamortized actuarial losses attributable to the portion of the projected benefit obligation being satisfied.

Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

The Company's policy is to contribute annually to the plans those amounts that can be deducted for federal income tax purposes, plus additional amounts as the Company deems appropriate in order to provide assets sufficient to meet benefits to be paid to plan participants. The Company made no contributions to the qualified plan and contributed \$27,664 to the nonqualified plan during the six months ended June 30, 2012, and anticipates making additional contributions of up to \$950,000 in the aggregate over the remainder of 2012.

Items impacting the Company's net investment income and accumulated other comprehensive income were:

6. Equity-Based Compensation

The 2005 Equity Incentive Compensation Plan (2005 Plan), adopted at the 2005 Annual Meeting and re-approved at the 2010 Annual Meeting, permits the grant of restricted stock awards (both performance and nonperformance-based), as well as stock option and other stock incentives to key employees and all non-employee directors. Performance-based restricted stock awards vest at the end of a specified three year period, with the ultimate number of shares earned contingent on achieving certain performance targets. If performance targets are not achieved, all or a portion of the performance-based restricted shares are forfeited and become available for future grants. Nonperformance-based restricted stock awards vest ratably over a three year period and nonperformance-based restricted stock units (granted to non-employee directors) vest over a one year period. Payment of awards may be deferred, if elected. It is the current intention that employee grants will be performance-based. The 2005 Plan provides for accelerated vesting in the event of death or retirement. Non-employee directors also may elect to defer a portion of their cash compensation, with such deferred amount to be paid by delivery of deferred stock units. Outstanding awards were granted at fair market value on grant date. The 2005 Plan provides for the

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

issuance of up to 3,413,131 shares of the Company's Common Stock, of which 3,109,144 shares remain available for future grants at June 30, 2012.

A summary of the status of the Company's awards granted under the 2005 Plan as of June 30, 2012, and changes during the six month period then ended, is presented below:

	Shares/ Units	Weighted Average Grant-Date Fair Value
Awards		
Balance at December 31, 2011	158,237	\$ 9.96
Granted:		
Restricted stock	55,494	10.15
Restricted stock units	6,000	10.98
Deferred stock units	121	10.54
Vested & issued	(28,367)	8.78
Forfeited	(20,638)	8.41
Balance at June 30, 2012 (includes 136,260 performance-based awards and 34,587 nonperformance-based awards)	170,847	\$ 10.56

Compensation costs resulting from awards granted under the 2005 Plan are based on the fair value of the award on grant date (determined by the average of the high and low price on grant date) and recognized on a straight-line basis over the requisite service period. For those awards with performance conditions, compensation costs are based on the most probable outcome and, if such goals are not met, compensation cost is not recognized and any previously recognized compensation cost is reversed. The total compensation costs for restricted stock granted to employees for the period ended June 30, 2012 were \$103,278. The total compensation costs for restricted stock units granted to non-employee directors for the period ended June 30, 2012 were \$33,135. As of June 30, 2012, there were total unrecognized compensation costs of \$810,796, a component of additional capital surplus, related to nonvested equity-based compensation arrangements granted under the 2005 Plan. Those costs are expected to be recognized over a weighted average period of 1.78 years. The total fair value of shares and units vested and issued during the six month period ended June 30, 2012 was \$287,336.

The Stock Option Plan of 1985 (1985 Plan) has been discontinued and, as of June 30, 2012, there are no remaining grants of stock options and stock appreciation rights outstanding.

A summary of option activity under the 1985 Plan as of June 30, 2012, and changes during the six month period then ended, is presented below:

	Options	Weighted- Average Exercise Price	Weighted- Average Remaining Life (Years)	Aggregate Intrinsic Value
Outstanding at December 31, 2011	24,857	\$ 8.70	0.16	
Exercised	(24,857)	8.70		\$ 40,049
Outstanding at June 30, 2012		\$		\$

Edgar Filing: ADAMS EXPRESS CO - Form N-CSRS

Compensation cost resulting from stock options and stock appreciation rights granted under the 1985 Plan is based on the intrinsic value of the award, recognized over the award's vesting period, and remeasured at each reporting date through the date of settlement. The total compensation cost recognized for the six months ended June 30, 2012 was \$16,919.

7. Officer and Director Compensation

The aggregate remuneration paid during the six months ended June 30, 2012 to officers and directors amounted to \$1,885,692, of which \$267,468 was paid to directors who were not officers. These amounts represent the taxable income to the Company's officers and directors and therefore differ from the amounts reported in the accompanying Statement of Operations that are recorded and expensed in accordance with generally accepted accounting principles.

8. Portfolio Securities Loaned

The Company makes loans of securities to approved brokers to earn additional income. It receives as collateral cash deposits, U.S. Government securities, or bank letters of credit valued at 102% of the value of the securities on loan. The market value of the loaned securities is calculated based upon the most recent closing prices and any additional required collateral is delivered to the Company on the next business day. Cash deposits are placed in a registered money market fund. The Company accounts for securities lending transactions as secured financing and receives compensation in the form of fees or retains a portion of interest on the investment of any cash received as collateral. The Company also continues to receive interest or dividends on the securities loaned. Gain or loss in the fair value of the securities loaned that may occur during the term of the loan will be for the account of the Company. At June 30, 2012, the Company had securities on loan of \$20,586,510 and held cash collateral of \$20,518,447; additional collateral was delivered the next business day in accordance with the procedure described above. The Company is indemnified by the Custodian, serving as lending agent, for loss of loaned securities and has the right under the lending agreement to recover the securities from the borrower on demand.

9. Operating Lease Commitment

The Company leases office space and equipment under operating lease agreements expiring at various dates through the year 2016. Petroleum & Resources Corporation, the Company's non-controlled affiliate, shares in the rental payments, based on a predetermined cost sharing methodology. The Company recognized rental expense of \$72,356 in the first half of 2012, and its estimated portion of future minimum rental commitments are as follows:

2012	\$	79,967
2013		158,100
2014		158,558
2015		158,836
