Additional Information

General

At the quarter ended June 30, 2009, we had outstanding indebtedness totaling \$498.096 billion, consisting of notes payable within one year, senior notes payable after one year and subordinated notes payable after one year. The total

amount of outstanding indebtedness at June 30, 2009, excluding subordinated notes and debentures payable after one year, was equal to \$488.087 billion.

Consolidated Ratio of Earnings to Fixed Charges

The information contained in the Prospectus under the caption "Consolidated Ratio of Earnings to Fixed Charges" is hereby amended in its entirety, as follows:

	Year Er	Six Months Ended			
<u>2004</u>	<u>2005</u>	<u>2006</u>	<u>2007</u>	<u>2008</u>	June 30.  2009
1.82	1.66	1.63	1.56	1.24	0.94

For purposes of computing the consolidated ratio of earnings to fixed charges, earnings consist of net earnings adjusted for the provision for income taxes, noncontrolling interests, discontinued operations and undistributed earnings of equity investees.

Fixed charges consist of interest and discount on all indebtedness and one-third of rentals, which is considered to be representative of the interest factor of such rentals.

As set forth above, GE Capitals ratio of earnings to fixed charges declined to 0.94:1 in the first six months of 2009 due to lower pre-tax earnings which were primarily driven by higher provisions for losses on financing receivables in connection with the challenging economic environment. As of June 30, 2009, the amount of earnings needed to achieve a one-to-one ratio of earnings to fixed charges was \$606 million.
