### Item 7.01 Regulation FD Disclosure

American Express Company (the "Company") is hereby furnishing below delinquency and write-off statistics for its U.S. Consumer Services ("USCS") operating segment's Card Member loans held for investment and its U.S. Small Business Card Member loans held for investment within its Global Commercial Services operating segment for the months ended February 29, March 31 and April 30, 2016. Effective December 1, 2015, the Company reclassified the Card Member loans related to its cobrand partnerships with Costco Wholesale Corporation in the U.S. and JetBlue Airways Corporation (the "HFS Portfolios") to Card Member loans held for sale on the Consolidated Balance Sheets and thus such loans are not reflected in the table below.

Historical Card Member loan, delinquency and write-off statistics for USCS, U.S. Small Business and the HFS Portfolios are attached as Exhibit 99.1 to this Current Report on Form 8-K and are incorporated herein by reference.

The statistics presented above provide information that is additional to the data reported by the American Express Credit Account Master Trust (the "Lending Trust") in its monthly Form 10-D report filed with the Securities and Exchange Commission. The Card Member loans that have been securitized through the Lending Trust do not possess identical characteristics with those of the USCS or U.S. Small Business Card Member loans held for investment. The reported credit performance of the Lending Trust may, on a month-to-month basis, be better or worse as a result of, among other things, differences in the mix and vintage of loans, the performance of Card Member loans held for sale that have been securitized through the Lending Trust, but which are not included in the loans held for investment statistics, the use of end-of-period principal loan balances to calculate write-off statistics in the Lending Trust compared to the use of average loan balances over the reporting period used in the statistics of the USCS and U.S. Small Business Card Member loans held for investment, as well as other mechanics of the calculation for the Lending

Trust net write-off rate, which is impacted by any additions to the Lending Trust within a particular period.
