as of December 31, 2003 and 2002, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2003. These financial statements are the responsibility of the plan administrator. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the plan administrator, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the First Mid-Illinois Bancshares, Inc. 401(k) Profit Sharing Plan as of December 31, 2003 and 2002, and the changes in net assets available for plan benefits for the year ended December 31, 2003 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules & Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the plan administrator. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

401(k) PROFIT SHARING PLAN
Notes to Financial Statements
December 31, 2003 and 2002

(1) Description of Plan

The following description of the First Mid-Illinois Bancshares, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1985, covering all eligible employees of First Mid-Illinois Bancshares, Inc. (the Company) and any of its subsidiary corporations. All employees who have completed one-half year of service are eligible to participate in the Plan. Under the provisions of the Plan, each participant may direct their contributions into any of eleven investment options available under the Plan. The Plan currently offers eight mutual funds, a money market fund, certificates of deposit, and the Company's common stock as investment options for participants. Participants are also allowed to transfer all or part of their actual balances between these funds. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Under the provisions of the Plan, all employees who have entered into a compensation reduction agreement with the Company may elect to reduce their eligible compensation by up to any percentage, subject to the dollar limitations of Section 402(g) of the Internal Revenue Code (Code), (\$12,000 for the 2003 Plan year), and to have the Company contribute this amount to the Plan as a before-tax contribution of the participant. The Company also makes a matching contribution calculated as a percentage of the before-tax contribution made on behalf of each contributing participant. The Company determines this percentage each year. Matching contributions, however, will not exceed 2% of the eligible compensation of each participant in any year and cannot exceed 50% of the employees elected deferral. For the year ended December 31, 2003, the matching contribution percentage was 2%.

The Company may also, at its sole discretion, contribute to the Plan an amount to be determined from year to year as a profit sharing contribution. For the year ended December 31, 2003, the profit sharing contribution was 4% of eligible compensation. The profit sharing contribution is maintained in a nonparticipant directed investment until this contribution is allocated by the Plan to the participant accounts. Participants who work at least 1,000 hours of service during the Plan year are entitled to this contribution regardless of whether they elect to make a before-tax contribution.

Participant Accounts

Separate participant accounts are maintained for the purpose of distributing the Plan's earnings or losses, forfeitures, voluntary employee contributions, and employer contributions. Allocations of the

Plan's earnings or losses, forfeitures and employer contributions to the participant accounts are based on participant earnings or account balances, as defined in the Plan. Forfeited nonvested accounts are allocated to participant accounts annually. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 40% of their vested account balance. Loan transactions are treated as a transfer between the various investment funds and participant loans. Maturity dates range from April 2004 through October 2018. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Interest rates on loans outstanding at December 31, 2003 ranged from 4.00% to 9.50%. Principal and interest is paid ratably through periodic payroll deductions.

Vesting

Participants are immediately vested in their voluntary contribution and the Company's matching contribution, and any earnings thereon. The Company's 4% profit sharing contribution, and any earnings thereon, vest according to the following schedule:

Vested Years of service	Percentage
-----	-----
1	0%
2	20
3	40
4	60
5	80
6	100

On termination of service, a participant's vested account balance will be paid in the form of a lump sum distribution or installment payments.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company.

Forfeited Accounts

Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2003 and 2002 totaled \$24,208 and \$23,373, respectively. Forfeitures are allocated to participant accounts as a pro rata share based on compensation.

Plan Termination

Edgar Filing: FIRST MID ILLINOIS BANCSHARES INC - Form 11-K/A

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become fully vested in their accounts.

Transfers to the Plan

Effective November 18, 2003, the Company merged the Checkley Agency, Inc. 401(k) Plan, with assets of \$607,580 into the Plan

(2) Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Quoted market prices are used to value the mutual funds and stock. Money market accounts and certificates of deposit are valued at cost, which approximates fair value. Participant loans are recorded at the unpaid principal balance of the loans which approximates fair value. The Plan's investments are held in a trust account (the Trust) administered by First Mid-Illinois Bank & Trust (the Bank), a wholly owned subsidiary of the Company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

The Plan has been amended since receiving the opinion letter.
