UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 1-10042

Atmos Energy Corporation

(Exact name of registrant as specified in its charter)

Texas and Virginia 75-1743247
(State or other jurisdiction of (IRS employer
incorporation or organization) identification no.)

Three Lincoln Centre, Suite 1800 75240
5430 LBJ Freeway, Dallas, Texas (Zip code)

(Address of principal executive offices)

(972) 934-9227

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer Smaller Reporting Company Emerging growth company

(Do not check if a smaller reporting company)

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act) Yes No

Number of shares outstanding of each of the issuer's classes of common stock, as of July 28, 2017.

ATMOS ENERGY CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

June 30, 2017

1. Nature of Business

Atmos Energy Corporation (“Atmos Energy” or the “Company”) is engaged in the regulated natural gas distribution and pipeline and storage businesses. Our regulated businesses are subject to federal and state regulation and/or regulation by local authorities in each of the states in which our regulated divisions and subsidiaries operate.

Our distribution business delivers natural gas through sales and transportation arrangements to approximately three million residential, commercial, public authority and industrial customers through our six natural gas distribution divisions, which at June 30, 2017, covered service areas located in eight states.

Our pipeline and storage business includes the transportation of natural gas to Texas and Louisiana distribution systems and the management of our underground storage facilities used to support Texas distribution businesses. Effective January 1, 2017, we completed the sale of all of the equity interests of Atmos Energy Marketing (AEM) to CenterPoint Energy Services, Inc., a subsidiary of CenterPoint Energy, Inc. (CES). Accordingly, AEM’s historical financial results are reflected in the Company’s condensed consolidated financial statements as discontinued operations, which required retrospective application to financial information for all periods presented. Refer to Note 6 for further information. Our discontinued natural gas marketing segment was primarily engaged in a nonregulated natural gas marketing business, conducted by AEM. This business provided natural gas management and transportation services to municipalities, regulated distribution companies, including certain divisions of Atmos Energy and third parties.

2. Unaudited Financial Information

These consolidated interim-period financial statements have been prepared in accordance with accounting principles generally accepted in the United States on the same basis as those used for the Company’s audited consolidated financial statements for the fiscal year ended September 30, 2016, which appear in Exhibit 99.1 to our Current Report on Form 8-K dated April 12, 2017 (the “Fiscal 2016 Financial Statements”). In the opinion of management, all material adjustments (consisting of normal recurring accruals) necessary for a fair presentation have been made to the unaudited consolidated interim-period financial statements. These consolidated interim-period financial statements are condensed as permitted by the instructions to Form 10-Q and should be read in conjunction with our Fiscal 2016 Financial Statements. Because of seasonal and other factors, the results of operations for the nine-month period ended June 30, 2017 are not indicative of our results of operations for the full 2017 fiscal year, which ends September 30, 2017.

During the third quarter, we completed a State of Texas use tax audit that covered the period from October 2011 to March 2017, which resulted in a refund of \$29.8 million. We concluded the appropriate regulatory treatment of this refund was to reduce rate base. We received \$18.7 million during the third quarter, which has been included in cash flows from investing activities, and recorded an \$11.1 million receivable as of June 30, 2017.

On January 6, 2017, our Atmos Pipeline - Texas Division filed its statement of intent seeking \$63.6 million, as adjusted in its rebuttal case, in additional annual operating income. On August 1, 2017, a final order was issued in our APT rate case resulting in a \$13.0 million increase in annual operating income. No other events have occurred subsequent to the balance sheet date that would require recognition or disclosure in the condensed consolidated financial statements.

Significant accounting policies

Our accounting policies are described in Note 2 of our Fiscal 2016 Financial Statements.

As discussed in Note 3, due to the realignment of our reportable segments, prior periods' segment information has been recast in accordance with applicable accounting guidance. Additionally, as discussed in Note 6, due to the sale of AEM, prior period amounts have been presented as discontinued operations. The segment realignment and the presentation of discontinued operations have not impacted our reported net income, financial position or cash flows.

During the second quarter of fiscal 2017, we completed our annual goodwill impairment assessment. Based on the assessment performed, we determined that our goodwill was not impaired.

In May 2014, the Financial Accounting Standards Board (FASB) issued a comprehensive new revenue recognition standard that will supersede virtually all existing revenue recognition guidance under generally accepted accounting principles in the United States. Under the new standard, an entity will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In doing so, companies may need to use more judgment and make more estimates than under current guidance.

The new guidance will become effective for us October 1, 2018 and can be applied either retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption.

As of June 30, 2017, we have substantially completed the evaluation of our sources of revenue and are currently assessing the effect that the new guidance will have on our financial position, results of operations, cash flows and business processes. The conclusion of our assessment is contingent, in part, upon the completion of deliberations currently in progress by our industry, notably in connection with efforts to produce an accounting guide intended to be developed by the American Institute of Certified Public Accountants (AICPA).

In association with this undertaking, the AICPA formed a number of industry task forces, including a Power & Utilities (P&U) Task Force. Industry representatives and organizations, the largest auditing firms, the AICPA's Revenue Recognition Working Group and its Financial Reporting Executive Committee have undertaken, and continue to undertake, consideration of several items relevant to our industry as further discussed below. Where applicable or necessary, the FASB's Transition Resource Group (TRG) is also participating.

Additionally, we are actively working with our peers in the rate-regulated natural gas industry and with the public accounting profession to conclude on the accounting treatment for several other issues that are not expected to be addressed by the P&U Task Force. Based on the progress of these deliberations to date, we currently do not believe the implementation of the new guidance will have a material effect on our financial position, results of operations, cash flows or business processes. We are currently still evaluating the transition method we will utilize to adopt the new guidance as well as the impact to our financial statement presentation and related disclosures.

In May 2015, the FASB issued guidance removing the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The guidance was effective for us on October 1, 2016, to be applied retrospectively. We measure certain pension plan assets using the net asset value per share practical expedient, which are disclosed on an annual basis in our Form 10-K. The adoption of the new standard should have no material impact on our results of operations, consolidated balance sheets or cash flows.

In January 2016, the FASB issued guidance related to the classification and measurement of financial instruments. The amendments modify the accounting and presentation for certain financial liabilities and equity investments not consolidated or reported using the equity method. The guidance is effective for us beginning October 1, 2018; limited early adoption is permitted. We are currently evaluating the potential impact of this new guidance on our financial position, results of operations and cash flows.

In February 2016, the FASB issued a comprehensive new leasing standard that will require lessees to recognize a lease liability and a right-of-use asset for all leases, including operating leases, with a term greater than 12 months on its balance sheet. The new standard will be effective for us beginning on October 1, 2019; early adoption is permitted. The new leasing standard requires modified retrospective transition, which requires application of the new guidance at the beginning of the earliest comparative period presented in the year of adoption. As of June 30, 2017, we had begun the process of identifying and categorizing our lease contracts, evaluating our current business processes and identifying a lease software solution. We are currently evaluating the effect on our financial position, results of operations and cash flows.

In June 2016, the FASB issued new guidance which will require credit losses on most financial assets measured at amortized cost and certain other instruments to be measured using an expected credit loss model. Under this model, entities will estimate credit losses over the entire contractual term of the instrument from the date of initial recognition of that instrument. In contrast, current U.S. GAAP is based on an incurred loss model that delays recognition of credit losses until it is probable the loss has been incurred. The new guidance also introduces a new impairment recognition model for available-for-sale securities that will require credit losses for available-for-sale debt securities to be recorded through an allowance account. The new standard will be effective for us beginning on October 1, 2021; early adoption is permitted beginning on October 1, 2019. We are currently evaluating the potential impact of this new guidance on our financial position, results of operations and cash flows.

In January 2017, the FASB issued new guidance that simplifies the accounting for goodwill impairments by eliminating step 2 from the goodwill impairment test. Under the new guidance, if the carrying amount of a reporting unit exceeds its fair value, an impairment loss will be recognized in an amount equal to that excess, limited to the total

amount of goodwill allocated to that reporting unit. The new standard will be effective for our fiscal 2021 goodwill impairment test; however, early adoption is permitted for goodwill impairment tests performed on testing dates after January 1, 2017. The adoption of the new standard will have no impact on our results of operations, consolidated balance sheets or cash flows.

In March 2017, the FASB issued new guidance related to the income statement presentation of the components of net periodic benefit cost for an entity's sponsored defined benefit pension and other postretirement plans. The new guidance requires entities to disaggregate the current service cost component of the net benefit cost from the other components and present it with other current compensation costs for related employees in the statement of income. The other components of net

benefit cost will be presented outside of income from operations on the statement of income. In addition, only the service cost component of net benefit cost is eligible for capitalization (e.g., as part of inventory or property, plant, and equipment). The new guidance is effective for us in the fiscal year beginning on October 1, 2018 and for interim periods within that year. We are currently evaluating the potential impact of this new guidance on our financial position, results of operations and cash flows.

Regulatory assets and liabilities

Accounting principles generally accepted in the United States require cost-based, rate-regulated entities that meet certain criteria to reflect the authorized recovery of costs due to regulatory decisions in their financial statements. As a result, certain costs are permitted to be capitalized rather than expensed because they can be recovered through rates. We record certain costs as regulatory assets when future recovery through customer rates is considered probable. Regulatory liabilities are recorded when it is probable that revenues will be reduced for amounts that will be credited to customers through the ratemaking process. Substantially all of our regulatory assets are recorded as a component of deferred charges and other assets and substantially all of our regulatory liabilities are recorded as a component of deferred credits and other liabilities. Deferred gas costs are recorded either in other current assets or liabilities and the regulatory cost of removal obligation is reported separately.

Significant regulatory assets and liabilities as of June 30, 2017 and September 30, 2016 included the following:

	June 30,	September 30,
	2017	2016
	(In thousands)	
Regulatory assets:		
Pension and postretirement benefit costs ⁽¹⁾	\$ 122,202	\$ 132,348
Infrastructure mechanisms ⁽²⁾	38,653	42,719
Deferred gas costs	16,405	45,184
Recoverable loss on reacquired debt	11,843	13,761
Deferred pipeline record collection costs	10,327	7,336
APT annual adjustment mechanism	4,973	7,171
Rate case costs	2,480	1,539
Other	9,949	13,565
	\$216,832	\$ 263,623
Regulatory liabilities:		
Regulatory cost of removal obligations	\$492,404	\$ 476,891
Deferred gas costs	16,753	20,180
Asset retirement obligations	13,404	13,404
Other	6,729	4,250
	\$529,290	\$ 514,725

(1) Includes \$11.5 million and \$12.4 million of pension and postretirement expense deferred pursuant to regulatory authorization.

(2) Infrastructure mechanisms in Texas and Louisiana allow for the deferral of all eligible expenses associated with capital expenditures incurred pursuant to these rules, including the recording of interest on deferred expenses until the next rate proceeding (rate case or annual rate filing), at which time investment and costs would be recoverable through base rates.

3. Segment Information

Through November 30, 2016, our consolidated operations were managed and reviewed through three segments:

- The regulated distribution segment, which included our regulated natural gas distribution and related sales operations.
- The regulated pipeline segment, which included the pipeline and storage operations of our Atmos Pipeline-Texas division and,
- The nonregulated segment, which included our nonregulated natural gas management, nonregulated natural gas transmission, storage and other services.

As a result of the announced sale of Atmos Energy Marketing, we revised the information used by the chief operating decision maker to manage the Company, effective December 1, 2016. Accordingly, we have been managing and reviewing our consolidated operations through the following three reportable segments:

The distribution segment is primarily comprised of our regulated natural gas distribution and related sales operations in eight states and storage assets located in Kentucky and Tennessee, which are used solely to support our natural gas distribution operations in those states. These storage assets were formerly included in our nonregulated segment.

The pipeline and storage segment is comprised primarily of the pipeline and storage operations of our Atmos Pipeline-Texas division and our natural gas transmission operations in Louisiana, which were formerly included in our nonregulated segment.

• The natural gas marketing segment is comprised of our discontinued natural gas marketing business.

Our determination of reportable segments considers the strategic operating units under which we manage sales of various products and services to customers in differing regulatory environments. Although our distribution segment operations are geographically dispersed, they are aggregated and reported as a single segment as each natural gas distribution division has similar economic characteristics. In addition, because the pipeline and storage operations of our Atmos Pipeline-Texas division and our natural gas transmission operations in Louisiana have similar economic characteristics, they have been aggregated and reported as a single segment.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies found in our Fiscal 2016 Financial Statements. We evaluate performance based on net income or loss of the respective operating segments. We allocate interest and pension expense to the pipeline and storage segment; however, there is no debt or pension liability recorded on the pipeline and storage segment balance sheet. All material intercompany transactions have been eliminated; however, we have not eliminated intercompany profits when such amounts are probable of recovery under the affiliates' rate regulation process.

Prior periods' segment information has been recast as required by applicable accounting guidance. The segment realignment has not impacted our reported consolidated revenues or net income.

Edgar Filing: ATMOS ENERGY CORP - Form 10-Q

Income statements for the three and nine months ended June 30, 2017 and 2016 by segment are presented in the following tables:

	Three Months Ended June 30, 2017				
	Distribution and Storage	Pipeline and Gas Marketing	Natural Gas	Eliminations	Consolidated

4. Earnings Per Share

We use the two-class method of computing earnings per share because we have participating securities in the form of non-vested restricted stock units with a nonforfeitable right to dividend equivalents, for which vesting is predicated solely on the passage of time. The calculation of earnings per share using the two-class method excludes income attributable to these participating securities from the numerator and excludes the dilutive impact of those shares from the denominator. Basic and diluted earnings per share for the three and nine months ended June 30, 2017 and 2016 are calculated as follows:

	Three Months Ended June 30		Nine Months Ended June 30	
	2017	2016	2017	2016
	(In thousands, except per share amounts)			
Basic and Diluted Earnings Per Share from continuing operations				
Income from continuing operations	\$70,808	\$66,143	\$346,858	\$310,692
Less: Income from continuing operations allocated to participating securities	75	100	424	488
Income from continuing operations available to common shareholders	\$70,733	\$66,043	\$346,434	\$310,204
Basic and diluted weighted average shares outstanding	106,364	103,750	105,862	103,137
Income from continuing operations per share — Basic and Diluted	\$0.67	\$0.64	\$3.27	\$3.01
Basic and Diluted Earnings Per Share from discontinued operations				
Income from discontinued operations	\$—	\$5,050	\$13,710	\$5,172
Less: Income from discontinued operations allocated to participating securities	—	6	15	4
Income from discontinued operations available to common shareholders	\$—	\$5,044	\$13,695	\$5,168
Basic and diluted weighted average shares outstanding	106,364	103,750	105,862	103,137
Income from discontinued operations per share — Basic and Diluted	\$—	\$0.05	\$0.13	\$0.05
Net income per share — Basic and Diluted	\$0.67	\$0.69	\$3.40	\$3.06

5. Debt

The nature and terms of our debt instruments and credit facilities are described in detail in Note 5 in our Fiscal 2016 Financial Statements. Except as noted below, there were no material changes in the terms of our debt instruments during the nine months ended June 30, 2017.

Long-term debt at June 30, 2017 and September 30, 2016 consisted of the following:

	June 30, 2017	September 30, 2016
	(In thousands)	
Unsecured 6.35% Senior Notes, due June 2017	\$—	\$250,000
Unsecured 8.50% Senior Notes, due 2019	450,000	450,000
Unsecured 3.00% Senior Notes, due 2027	500,000	—
Unsecured 5.95% Senior Notes, due 2034	200,000	200,000
Unsecured 5.50% Senior Notes, due 2041	400,000	400,000
Unsecured 4.15% Senior Notes, due 2043	500,000	500,000
Unsecured 4.125% Senior Notes, due 2044	750,000	500,000
Medium-term note Series A, 1995-1, 6.67%, due 2025	10,000	10,000
Unsecured 6.75% Debentures, due 2028	150,000	150,000
Floating-rate term loan, due 2019	125,000	—
Total long-term debt	3,085,000	2,460,000
Less:		
Original issue (premium) discount on unsecured senior notes and debentures	(4,370) 4,270
Debt issuance cost	22,636	16,951
Current maturities	—	250,000
	\$3,066,734	\$2,188,779

On June 8, 2017, we completed a public offering of \$500 million of 3.00% senior notes due 2027 and \$250 million of 4.125% senior notes due 2044. The effective rate of these notes is 3.12% and 4.40%, after giving effect to the offering costs and the settlement of the associated forward starting interest rate swaps. The net proceeds (excluding the loss on the settlement of the interest rate swaps of \$37 million) of approximately \$753 million were used to repay our \$250 million 6.35% senior unsecured notes at maturity on June 15, 2017 and for general corporate purposes, including the repayment of working capital borrowings pursuant to our commercial paper program.

On September 22, 2016, we entered into a three year, \$200 million multi-draw floating-rate term loan agreement with a syndicate of three lenders. Borrowings under the term loan may be made in increments of \$1.0 million or higher, may be repaid at any time during the loan period and will bear interest at a rate dependent upon our credit ratings at the time of such borrowing and based, at our election, on a base rate or LIBOR for the applicable interest period. The term loan was used to repay short-term debt and for working capital, capital expenditures and other general corporate purposes. At June 30, 2017, there was \$125.0 million outstanding under the term loan.

We utilize short-term debt to fund ongoing working capital needs, such as our seasonal requirements for gas supply, general corporate liquidity and capital expenditures. Our short-term borrowing requirements are affected primarily by the seasonal nature of the natural gas business. Changes in the price of natural gas and the amount of natural gas we need to supply our customers' needs could significantly affect our borrowing requirements. Our short-term borrowings typically reach their highest levels in the winter months.

We currently finance our short-term borrowing requirements through a combination of a \$1.5 billion commercial paper program and three committed revolving credit facilities with third-party lenders that provide approximately \$1.5 billion of total working capital funding. The primary source of our funding is our commercial paper program, which is supported by a five-year unsecured \$1.5 billion credit facility that expires September 25, 2021. The facility bears interest at a base rate or at a LIBOR-based rate for the applicable interest period, plus a spread ranging from zero percent to 1.25 percent, based on the Company's credit ratings. Additionally, the facility contains a \$250 million

accordion feature, which provides the opportunity to increase the total committed loan to \$1.75 billion. This facility was amended in October 2016 to increase the total availability from \$1.25 billion. At June 30, 2017 and September 30, 2016 a total of \$258.6 million and \$829.8 million was outstanding under our commercial paper program.

Additionally, we have a \$25 million unsecured facility, which was renewed on April 1, 2017, and a \$10 million unsecured revolving credit facility, which is used primarily to issue letters of credit. At June 30, 2017, there were no borrowings outstanding under either of these facilities; however, outstanding letters of credit reduced the total amount available to us under our \$10 million unsecured revolving facility to \$4.1 million.

The availability of funds under these credit facilities is subject to conditions specified in the respective credit agreements, all of which we currently satisfy. These conditions include our compliance with financial covenants and the continued accuracy of representations and warranties contained in these agreements. We are required by the financial covenants in each of these facilities to maintain, at the end of each fiscal quarter, a ratio of total debt to total capitalization of no greater than 70 percent. At June 30, 2017, our total-debt-to-total-capitalization ratio, as defined in the agreements, was 47 percent. In addition, both the interest margin and the fee that we pay on unused amounts under certain of these facilities are subject to adjustment depending upon our credit ratings.

These credit facilities and our public indentures contain usual and customary covenants for our business, including covenants substantially limiting liens, substantial asset sales and mergers. Additionally, our public debt indentures relating to our senior notes and debentures, as well as certain of our revolving credit agreements, each contain a default provision that is triggered if outstanding indebtedness arising out of any other credit agreements in amounts ranging from in excess of \$15 million to in excess of \$100 million becomes due by acceleration or is not paid at maturity. We were in compliance with all of our debt covenants as of June 30, 2017. If we were unable to comply with our debt covenants, we would likely be required to repay our outstanding balances on demand, provide additional collateral or take other corrective actions.

AEM had one uncommitted \$25 million 364-day bilateral credit facility that was scheduled to expire on July 31, 2017 and one committed \$15 million 364-day bilateral credit facility that was scheduled to expire on September 30, 2017. In connection with the sale of AEM discussed in Note 6, both facilities were terminated on January 3, 2017.

6. Divestitures and Acquisitions

Divestiture of Atmos Energy Marketing (AEM)

On October 29, 2016, we entered into a Membership Interest Purchase Agreement (the Agreement) with CenterPoint Energy Services, Inc., a subsidiary of CenterPoint Energy, Inc. (CES) to sell all of the equity interests of AEM. The transaction closed on January 3, 2017, with an effective date of January 1, 2017. CES paid a cash purchase price of \$38.3 million plus working capital of \$109.0 million for total cash consideration of \$147.3 million. Of this amount, \$7.0 million was placed into escrow and will be paid to the Company within 24 months of the closing date, net of any indemnification claims agreed upon between the two companies. We recognized a net gain of \$0.03 per diluted share on the sale in the second quarter of fiscal 2017 and completed the working capital true-up during the third quarter of fiscal 2017.

The operating results of our natural gas marketing reportable segment have been reported on the condensed consolidated statements of income as income from discontinued operations, net of income tax. Accordingly, expenses related to allocable general corporate overhead and interest expense are not included in these results. The decision to report this segment as a discontinued operation was predicated, in part, on the following qualitative and quantitative factors: 1) the disposal resulted in the company becoming a fully regulated entity; 2) the fact that an entire reportable segment was disposed of and 3) the fact the disposed segment represented in excess of 30 percent of consolidated revenues over the last five fiscal years.

The tables below set forth selected financial and operational information related to assets, liabilities and operating results related to discontinued operations. Operating expenses include operation and maintenance expense, provision for doubtful accounts, depreciation and amortization expense and taxes, other than income. Additionally, assets and liabilities related to our natural gas marketing operations are classified as "held for sale" on our consolidated balance sheet at September 30, 2016. Prior period revenues and expenses associated with these assets have been reclassified into discontinued operations. This reclassification had no impact on previously reported consolidated net income.

The following tables present statement of income data related to discontinued operations:

	Three Months Ended June 30 2017 2016 (In thousands)	
Operating revenues	\$-200,213	
Purchased gas cost	—184,398	
Operating expenses	—7,047	
Operating income	—8,768

(1) Amounts in the comparative period are classified as current and long term in the statement of financial position.

The following table presents statement of cash flow data related to discontinued operations:

	Nine Months Ended June 30	
	2017	2016
	(In thousands)	
Depreciation and amortization expense	\$ 185	\$ 1,743
Capital expenditures	\$ —	\$ 179
Noncash gain (loss) in commodity contract cash flow hedges	\$ 18,744	\$(33,898)
Acquisition of EnLink Pipeline		

On December 20, 2016, we executed a purchase and sale agreement to acquire the general partnership and limited partnership interests in EnLink North Texas Pipeline, LP (EnLink Pipeline) from EnLink Energy GP, LLC and EnLink Midstream Operating, LP for a cash purchase price of \$85 million, plus working capital of \$1.1 million. EnLink Pipeline's primary asset was a 140-mile natural gas pipeline located on the north side of the Dallas-Fort Worth Metroplex. The \$85 million purchase price has been allocated, based on fair value using observable market inputs, to the net book value of the acquired pipeline.

7. Shareholders' Equity

Shelf Registration and At-the-Market Equity Sales Program

On March 28, 2016, we filed a registration statement with the Securities and Exchange Commission (SEC) that originally permitted us to issue, from time to time, up to \$2.5 billion in common stock and/or debt securities. We also filed a prospectus supplement under the registration statement relating to an at-the-market (ATM) equity distribution program under which we may issue and sell, shares of our common stock, up to an aggregate offering price of \$200 million. During the nine months ended June 30, 2017, we sold 1,303,494 shares of common stock under our existing ATM program for \$100 million and received net proceeds of \$98.8 million. At June 30, 2017, approximately \$1.6 billion of securities remained available for issuance under the shelf registration statement and substantially all shares have been issued under our ATM program.

Accumulated Other Comprehensive Income (Loss)

We record deferred gains (losses) in AOCI related to available-for-sale securities, interest rate cash flow hedges and commodity contract cash flow hedges. Deferred gains (losses) for our available-for-sale securities and commodity contract cash flow hedges are recognized in earnings upon settlement, while deferred gains (losses) related to our interest rate agreement cash flow hedges are recognized in earnings as they are amortized. The following tables provide the components of our accumulated other comprehensive income (loss) balances, net of the related tax effects allocated to each component of other comprehensive income (loss):

	Interest Available- for-Sale Securities	Rate Agreement Cash Flow Hedges	Commodity Contracts Cash Flow Hedges	Total
	(In thousands)			
September 30, 2016	\$4,484	\$(187,524)	\$(4,982)	\$(188,022)
Other comprehensive income before reclassifications	1,485	76,602	9,847	87,934
Amounts reclassified from accumulated other comprehensive income	68	286	(4,865)	(4,511)
Net current-period other comprehensive income	1,553	76,888	4,982	83,423
June 30, 2017	\$6,037	\$(110,636)	\$—	\$(104,599)

	Interest Available- for-Sale Securities	Rate Agreement Cash Flow Hedges	Commodity Contracts Cash Flow Hedges	Total
	(In thousands)			
September 30, 2015	\$4,949	\$(88,842)	\$(25,437)	\$(109,330)
Other comprehensive loss before reclassifications	(1,417)	(88,345)	(8,612)	(98,374)
Amounts reclassified from accumulated other comprehensive income	(79)	260	29,290	29,471
Net current-period other comprehensive income (loss)	(1,496)	(88,085)	20,678	(68,903)

	(48,425)	Total before tax
	18,875	Tax benefit
	\$(29,550)	Net of tax
Total reclassifications	\$(29,471)	Net of tax

(1) Amounts are presented as part of income from discontinued operations on the condensed consolidated statements of income.

8. Interim Pension and Other Postretirement Benefit Plan Information

The components of our net periodic pension cost for our pension and other postretirement benefit plans for the three and nine months ended June 30, 2017 and 2016 are presented in the following table. Most of these costs are recoverable through our tariff rates; however, a portion of these costs is capitalized into our rate base. The remaining costs are recorded as a component of operation and maintenance expense.

Components of net periodic pension cost:	Three Months Ended June 30			
	Pension Benefits		Other Benefits	
	2017	2016	2017	2016
	(In thousands)			
Service cost	\$5,216	\$4,698	\$3,109	\$2,705
Interest cost	6,296	7,095	2,669	3,106
Expected return on assets	(6,993)	(6,881)	(1,796)	(1,566)
Amortization of transition obligation	—	—	—	21
Amortization of prior service credit	(57)	(57)	(411)	(411)
Amortization of actuarial (gain) loss	4,248	3,319	(706)	(541)
Net periodic pension cost	\$8,710	\$8,174	\$2,865	\$3,314

Components of net periodic pension cost:	Nine Months Ended June 30			
	Pension Benefits		Other Benefits	
	2017	2016	2017	2016
	(In thousands)			
Service cost	\$15,649	\$14,093	\$9,327	\$8,117
Interest cost	18,890	21,284	8,009	9,318
Expected return on assets	(20,981)	(20,642)	(5,389)	(4,698)
Amortization of transition obligation	—	—	—	62

Edgar Filing: ATMOS ENERGY CORP - Form 10-Q

Amortization of prior service credit	(173)	(170)	(1,233)	(1,233)
Amortization of actuarial (gain) loss	12,746	9,959	(2,120)	(1,625)
Net periodic pension cost	\$26,131	\$24,524	\$8,594	\$9,941

23

The assumptions used to develop our net periodic pension cost for the three and nine months ended June 30, 2017 and 2016 are as follows:

	Pension Benefits		Other Benefits	
	2017	2016	2017	2016
Discount rate	3.73%	4.55%	3.73%	4.55%
Rate of compensation increase	3.50%	3.50%	N/A	N/A
Expected return on plan assets	7.00%	7.00%	4.45%	4.45%

The discount rate used to compute the present value of a plan's liabilities generally is based on rates of high-grade corporate bonds with maturities similar to the average period over which the benefits will be paid. Generally, our funding policy has been to contribute annually an amount in accordance with the requirements of the Employee Retirement Income Security Act of 1974. In accordance with the Pension Protection Act of 2006 (PPA), we determined the funded status of our plan as of January 1, 2017. Based on that determination, we are not required to make a minimum contribution to our defined benefit plan during fiscal 2017; however, we made a voluntary contribution of \$5.0 million during the third quarter of fiscal 2017.

We contributed \$9.9 million to our other post-retirement benefit plans during the nine months ended June 30, 2017.

We expect to contribute a total of between \$10 million and \$20 million to these plans during fiscal 2017.

9. Commitments and Contingencies

Litigation and Environmental Matters

With respect to the specific litigation and environmental-related matters or claims that were disclosed in Note 11 of our Fiscal 2016 Financial Statements, there were no material changes in the status of such litigation and environmental-related matters or claims during the nine months ended June 30, 2017.

We are a party to various litigation and environmental-related matters or claims that have arisen in the ordinary course of our business. While the results of such litigation and response actions to such environmental-related matters or claims cannot be predicted with certainty, we continue to believe the final outcome of such litigation and matters or claims will not have a material adverse effect on our financial condition, results of operations or cash flows.

Purchase Commitments

Our distribution divisions maintain supply contracts with several vendors that generally cover a period of up to one year. Commitments for estimated base gas volumes are established under these contracts on a monthly basis at contractually negotiated prices. Commitments for incremental daily purchases are made as necessary during the month in accordance with the terms of the individual contract.

Our Mid-Tex Division also maintains a limited number of long-term supply contracts to ensure a reliable source of gas for our customers in its service area, which obligate it to purchase specified volumes at prices indexed to natural gas hubs. At June 30, 2017, we were committed to purchase 53.2 Bcf within one year, 37.6 Bcf within two to three years and 0.4 Bcf beyond three years under indexed contracts.

Regulatory Matters

Various regulatory agencies, including the SEC and the Commodities Futures Trading Commission, continue to adopt regulations implementing many of the provisions of the Dodd-Frank Act of 2010. We continue to enact new procedures and modify existing business practices and contractual arrangements to comply with such regulations. Additional rulemakings are pending which we believe will result in new reporting and disclosure obligations. The costs associated with hedging certain risks inherent in our business may be further increased when these expected additional regulations are adopted.

As of June 30, 2017, formula rate mechanisms were pending regulatory approval in our Louisiana service area, infrastructure mechanisms were pending regulatory approval in our Mississippi and Virginia service areas and rate cases were pending regulatory approval in our Colorado service area and Texas service area related to APT. These regulatory proceedings are discussed in further detail below in Management's Discussion and Analysis — Recent Ratemaking Developments.

10. Financial Instruments

We currently use financial instruments to mitigate commodity price risk and interest rate risk. The objectives and strategies for using financial instruments and the related accounting for these financial instruments are fully described in Notes 2 and 13 of our Fiscal 2016 Financial Statements. During the nine months ended June 30, 2017, except for the change in the scope of our natural gas marketing commodity risk management activities as a result of the sale of AEM, there were no material

changes in our objectives, strategies and accounting for using financial instruments. Our financial instruments do not contain any credit-risk-related or other contingent features that could cause payments to be accelerated when our financial instruments are in net liability positions. The following summarizes those objectives and strategies.

Regulated Commodity Risk Management Activities

Our purchased gas cost adjustment mechanisms essentially insulate our distribution segment from commodity price risk; however, our customers are exposed to the effects of volatile natural gas prices. We manage this exposure through a combination of physical storage, fixed-price forward contracts and financial instruments, primarily over-the-counter swap and option contracts, in an effort to minimize the impact of natural gas price volatility on our customers during the winter heating season.

We typically seek to hedge between 25 and 50 percent of anticipated heating season gas purchases using financial instruments. For the 2016-2017 heating season (generally October through March), in the jurisdictions where we are permitted to utilize financial instruments, we hedged approximately 27 percent, or 16.2 Bcf of the winter flowing gas requirements. We have not designated these financial instruments as hedges for accounting purposes.

Natural Gas Marketing Commodity Risk Management Activities

Our natural gas marketing segment was exposed to risks associated with changes in the market price of natural gas through the purchase, sale and delivery of natural gas to its customers at competitive prices. Through December 31, 2016, we managed our exposure to such risks through a combination of physical storage and financial instruments, including futures, over-the-counter and exchange-traded options and swap contracts with counterparties. Effective January 1, 2017, as a result of the sale of AEM, these activities were discontinued.

Due to the sale of AEM, we determined that the cash flows associated with our natural gas marketing commodity cash flow hedges were no longer probable of occurring; therefore, we discontinued hedge accounting as of December 31, 2016. As a result, we reclassified the gain in accumulated other comprehensive income associated with the commodity contracts into earnings as a reduction of purchased gas cost and recognized a pre-tax gain of \$10.6 million, which is included in income from discontinued operations on the condensed consolidated statement of income for the three months ended December 31, 2016.

Interest Rate Risk Management Activities

We periodically manage interest rate risk by entering into financial instruments to effectively fix the Treasury yield component of the interest cost associated with anticipated financings.

As of June 30, 2017, we had forward starting interest rate swaps to effectively fix the Treasury yield component associated with the anticipated issuance of \$450 million unsecured senior notes in fiscal 2019 at 3.78%, which we designated as a cash flow hedge at the time the swaps were executed. As of June 30, 2017, we had \$41.5 million of net realized losses in accumulated other comprehensive income (AOCI) associated with the settlement of financial instruments used to fix the Treasury yield component of the interest cost of financing various issuances of long-term debt and senior notes, which will be recognized as a component of interest expense over the life of the associated notes from the date of settlement. The remaining amortization periods for these settled amounts extend through fiscal 2045.

Quantitative Disclosures Related to Financial Instruments

The following tables present detailed information concerning the impact of financial instruments on our condensed consolidated balance sheet and income statements.

As of June 30, 2017, our financial instruments were comprised of both long and short commodity positions. A long position is a contract to purchase the commodity, while a short position is a contract to sell the commodity. As of June 30, 2017, we had 18,833 MMcf of net short commodity contracts outstanding. These contracts have not been designated as hedges.

Financial Instruments on the Balance Sheet

The following tables present the fair value and balance sheet classification of our financial instruments as of June 30, 2017 and September 30, 2016. The gross amounts of recognized assets and liabilities are netted within our unaudited Condensed Consolidated Balance Sheets to the extent that we have netting arrangements with the counterparties.

	Balance Sheet Location	Assets	Liabilities
		(In thousands)	
June 30, 2017			
Designated As Hedges:			
Interest rate contracts	Deferred credits and other liabilities	—	(108,860)

Total		35,351	(31,513)
Gross Financial Instruments		44,141	(323,684)
Gross Amounts Offset on Consolidated Balance Sheet:			
Contract netting		(39,290)	39,290
Net Financial Instruments		4,851	(284,394)
Cash collateral		6,775	43,575
Net Assets/Liabilities from Risk Management Activities		\$11,626	\$(240,819)

Impact of Financial Instruments on the Income Statement

Hedge ineffectiveness for our natural gas marketing segment was recorded as a component of purchased gas cost, which is included in discontinued operations on the condensed consolidated statements of income, and primarily results from differences in the location and timing of the derivative instrument and the hedged item. For the three months ended June 30, 2016, we recognized a gain arising from fair value and cash flow hedge ineffectiveness of \$13.6 million. For the nine months ended June 30, 2017 and 2016, we recognized gains arising from fair value and cash flow hedge ineffectiveness of \$3.4 million and \$18.1 million. Additional information regarding ineffectiveness recognized in the income statement is included in the tables below.

Fair Value Hedges

The impact of our natural gas marketing segment commodity contracts designated as fair value hedges and the related hedged item on the results of discontinued operations on our condensed consolidated income statement for the three and nine months ended June 30, 2017 and 2016 is presented below.

	Three Months Ended June 30 2017	Nine Months Ended June 30 2017	2016
	(In thousands)		
Commodity contracts	\$-(22,146)	\$ (9,567)	\$ (11,808)
Fair value adjustment for natural gas inventory designated as the hedged item	—35,630	12,858	29,852
Total decrease in purchased gas cost reflected in income from discontinued operations	\$-13,484	\$ 3,291	\$ 18,044
The decrease in purchased gas cost reflected in income from discontinued operations is comprised of the following:			
Basis ineffectiveness	\$-(684)	\$ (597)	\$ (1,490)
Timing ineffectiveness	—14,168	3,888	19,534
	\$-13,484	\$ 3,291	\$ 18,044

Basis ineffectiveness arises from natural gas market price differences between the locations of the hedged inventory and the delivery location specified in the hedge instruments. Timing ineffectiveness arises due to changes in the difference between the spot price and the futures price, as well as the difference between the timing of the settlement of the futures and the valuation of the underlying physical commodity.

Cash Flow Hedges

The impact of our interest rate and natural gas marketing segment cash flow hedges on our condensed consolidated income statements for the three and nine months ended June 30, 2017 and 2016 is presented below.

	Three Months Ended June 30 2017	2016	Nine Months Ended June 30 2017	2016
	(In thousands)			
Loss reclassified from AOCI for effective portion of natural gas marketing commodity contracts	\$—	\$ (12,347)	\$ (2,612)	\$ (48,015)
Gain arising from ineffective portion of natural gas marketing commodity contracts	—	66	111	84
Gain on discontinuance of cash flow hedging of natural gas marketing commodity contracts reclassified from AOCI	—	—	10,579	—
Total impact on purchased gas cost reflected in income from discontinued operations	—	(12,281)	8,078	(47,931)
Net loss on settled interest rate agreements reclassified from AOCI into interest expense	(177)	(137)	(450)	(410)
Total Impact from Cash Flow Hedges	\$(177)	\$(12,418)	\$ 7,628	\$(48,341)

The following table summarizes the gains and losses arising from hedging transactions that were recognized as a component of other comprehensive income (loss), net of taxes, for the three and nine months ended June 30, 2017 and 2016. The amounts included in the table below exclude gains and losses arising from ineffectiveness because those amounts are immediately recognized in the income statement as incurred.

	Three Months Ended		Nine Months Ended	
	June 30	June 30	June 30	June 30
	2017	2016	2017	2016
	(In thousands)			
Increase (decrease) in fair value:				
Interest rate agreements	\$(18,669)	\$(39,337)	\$76,602	\$(88,345)
Forward commodity contracts	—	10,573	9,847	(8,612)
Recognition of (gains) losses in earnings due to settlements:				
Interest rate agreements	113	87	286	260
Forward commodity contracts	—	7,532	(4,865)	29,290
Total other comprehensive income (loss) from hedging, net of tax ⁽¹⁾	\$(18,556)	\$(21,145)	\$81,870	\$(67,407)

(1) Utilizing an income tax rate ranging from 37 percent to 39 percent based on the effective rates in each taxing jurisdiction.

Deferred gains (losses) recorded in AOCI associated with our interest rate agreements are recognized in earnings as they are amortized over the terms of the underlying debt instruments, while deferred gains (losses) associated with natural gas marketing segment commodity contracts were recognized in earnings upon settlement. The following amounts, net of deferred taxes, represent the expected recognition in earnings of the deferred losses recorded in AOCI associated with our financial instruments, based upon the fair values of these financial instruments as of June 30, 2017. However, the table below does not include the expected recognition in earnings of our outstanding interest rate agreements as those instruments have not yet settled.

	Interest Rate Agreements (In thousands)
Next twelve months	\$ (1,509)
Thereafter	(40,001)
Total ⁽¹⁾	\$ (41,510)

(1) Utilizing an income tax rate of 37 percent.

Financial Instruments Not Designated as Hedges

The impact of the natural gas marketing segment's financial instruments that had not been designated as hedges on our condensed consolidated income statements for the three months ended June 30, 2016 was a decrease in purchased gas cost of \$1.9 million, which is included in discontinued operations on the condensed consolidated statements of income. For the nine months ended June 30, 2017 and 2016 purchased gas cost (increased) decreased by \$6.8 million and \$(2.8) million.

As discussed above, financial instruments used in our distribution segment are not designated as hedges. However, there is no earnings impact on our distribution segment as a result of the use of these financial instruments because the gains and losses arising from the use of these financial instruments are recognized in the consolidated statement of income as a component of purchased gas cost when the related costs are recovered through our rates and recognized in revenue. Accordingly, the impact of these financial instruments is excluded from this presentation.

11. Fair Value Measurements

We report certain assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit

price). We record cash and cash equivalents, accounts receivable and accounts payable at carrying value, which substantially approximates fair value due to the short-term nature of these assets and liabilities. For other financial assets and liabilities, we primarily use quoted market prices and other observable market pricing information to minimize the use of unobservable pricing inputs in our measurements when determining fair value. The methods used to determine fair value for our assets and liabilities are fully

described in Note 2 of our Fiscal 2016 Financial Statements. During the nine months ended June 30, 2017, there were no changes in these methods.

Fair value measurements also apply to the valuation of our pension and postretirement plan assets. Current accounting guidance requires employers to annually disclose information about fair value measurements of the assets of a defined benefit pension or other postretirement plan. The fair value of these assets is presented in Note 7 of our Fiscal 2016 Financial Statements.

Quantitative Disclosures

Financial Instruments

The classification of our fair value measurements requires judgment regarding the degree to which market data is observable or corroborated by observable market data. Authoritative accounting literature establishes a fair value hierarchy that prioritizes the inputs used to measure fair value based on observable and unobservable data. The hierarchy categorizes the inputs into three levels, with the highest priority given to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1), with the lowest priority given to unobservable inputs (Level 3). The following tables summarize, by level within the fair value hierarchy, our assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2017 and September 30, 2016. Assets and liabilities are categorized in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2) ⁽¹⁾	Significant Other Unobservable Inputs (Level 3)	Netting and Cash Collateral	June 30, 2017

30

Our Level 2 measurements consist of over-the-counter options and swaps which are valued using a market-based approach in which observable market prices are adjusted for criteria specific to each instrument, such as the strike price, notional amount or basis differences, municipal and corporate bonds which are valued based on the most recent available quoted market prices and money market funds which are valued at cost.

This column reflects adjustments to our gross financial instrument assets and liabilities to reflect netting permitted under our master netting agreements and the relevant authoritative accounting literature. As of September 30, 2016, we had \$50.4 million of cash held in margin accounts to collateralize certain financial instruments. Of this amount, \$43.6 million was used to offset current and noncurrent risk management liabilities under master netting arrangements with the remaining \$6.8 million classified as current risk management assets.

Available-for-sale securities are comprised of the following:

	Amortized Cost	Gross Unrealized Gain	Gross Unrealized Loss	Fair Value
	(In thousands)			
As of June 30, 2017				
Domestic equity mutual funds	\$25,236	\$ 7,749	\$ (17)	\$32,968
Foreign equity mutual funds	4,581	1,857	—	6,438
Bond mutual funds	15,928	—	(36)	15,892
Bonds	31,407	52	(30)	31,429
Money market funds	2,884	—	—	2,884
	\$80,036	\$ 9,658	\$ (83)	\$89,611
As of September 30, 2016				
Domestic equity mutual funds	\$26,692	\$ 6,419	\$ (590)	\$32,521
Foreign equity mutual funds	4,954	1,202	—	6,156
Bonds	31,296	108	(10)	31,394
Money market funds	2,630	—	—	2,630
	\$65,572	\$ 7,729	\$ (600)	\$72,701

At June 30, 2017 and September 30, 2016, our available-for-sale securities included \$42.3 million and \$41.3 million related to assets held in separate rabbi trusts for our supplemental executive benefit plans. At June 30, 2017, we maintained investments in bonds that have contractual maturity dates ranging from July 2017 through December 2020.

These securities are reported at market value with unrealized gains and losses shown as a component of accumulated other comprehensive income (loss). We regularly evaluate the performance of these investments on a fund by fund basis for impairment, taking into consideration the fund's purpose, volatility and current returns. If a determination is made that a decline in fair value is other than temporary, the related fund is written down to its estimated fair value and the other-than-temporary impairment is recognized in the income statement.

Other Fair Value Measures

Our debt is recorded at carrying value. The fair value of our debt is determined using third party market value quotations, which are considered Level 1 fair value measurements for debt instruments with a recent, observable trade or Level 2 fair value measurements for debt instruments where fair value is determined using the most recent available quoted market price. The following table presents the carrying value and fair value of our debt as of June 30, 2017 and September 30, 2016:

	June 30, 2017	September 30, 2016
	(In thousands)	
Carrying Amount	\$3,085,000	\$2,460,000
Fair Value	\$3,388,003	\$2,844,990

12. Concentration of Credit Risk

Information regarding our concentration of credit risk is disclosed in Note 16 of our Fiscal 2016 Financial Statements. Except for the sale of AEM, during the nine months ended June 30, 2017, there were no material changes in our concentration of credit risk.

32

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of
Atmos Energy Corporation

We have reviewed the condensed consolidated balance sheet of Atmos Energy Corporation and subsidiaries as of June 30, 2017 and the related condensed consolidated statements of income and comprehensive income for the three and nine-month periods ended June 30, 2017 and 2016 and the condensed consolidated statements of cash flows for the nine-month periods ended June 30, 2017 and 2016. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Atmos Energy Corporation and subsidiaries as of September 30, 2016, and the related consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for the year then ended, not presented herein, and in our report dated November 14, 2016 except for the effects of the change in segments described in Note 3 and the discontinued operations described in Note 15, to which the date is April 12, 2017, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of September 30, 2016, is fairly stated, in all material respects, in relation to the consolidated balance sheets from which it has been derived.

/s/ ERNST & YOUNG LLP

Dallas, Texas

August 2, 2017

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

INTRODUCTION

The following discussion should be read in conjunction with the condensed consolidated financial statements in this Quarterly Report on Form 10-Q and Management's Discussion and Analysis, which appears in Item 7 of Exhibit 99.1 to our Current Report on Form 8-K dated April 12, 2017.

Cautionary Statement for the Purposes of the Safe Harbor under the Private Securities Litigation Reform Act of 1995

The statements contained in this Quarterly Report on Form 10-Q may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements other than statements of historical fact included in this Report are forward-looking statements made in good faith by us and are intended to qualify for the safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. When used in this Report, or any other of our documents or oral presentations, the words "anticipate", "believe", "estimate", "expect", "forecast", "goal", "intend", "objective", "plan", "projection", "seek", "strive", "target", "will", "would", "may", "could", "intend", "anticipate", "believe", "estimate", "expect", "forecast", "goal", "intend", "objective", "plan", "projection", "seek", "strive", "target", "will", "would", "may", "could" and other words are intended to identify forward-looking statements. Such forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the statements relating to our strategy, operations, markets, services, rates, recovery of costs, availability of gas supply and other factors. These risks and uncertainties include the following: our ability to continue to access the credit and capital markets to satisfy our liquidity requirements; regulatory trends and decisions, including the impact of rate proceedings before various state regulatory commissions; the impact of adverse economic conditions on our customers; the effects of inflation and changes in the availability and price of natural gas; the availability and accessibility of contracted gas supplies, interstate pipeline and/or storage services; market risks beyond our control affecting our risk management activities, including commodity price volatility, counterparty creditworthiness or performance and interest rate risk; the concentration of our distribution, pipeline and storage operations in Texas; increased competition from energy suppliers and alternative forms of energy; adverse weather conditions; the capital-intensive nature of our natural gas distribution, pipeline and storage businesses; increased costs of providing health care benefits, along with pension and postretirement health care benefits and increased funding requirements; the inability to continue to hire, train and retain appropriate personnel; possible increased federal, state and local regulation of the safety of our operations; increased federal regulatory oversight and potential penalties; the impact of environmental regulations on our business; the impact of climate changes or related additional legislation or regulation in the future; the inherent hazards and risks involved in operating our distribution and pipeline and storage businesses; the threat of cyber-attacks or acts of cyber-terrorism that could disrupt our business operations and information technology systems; natural disasters, terrorist activities or other events and other risks and uncertainties discussed herein, all of which are difficult to predict and many of which are beyond our control. Accordingly, while we believe these forward-looking statements to be reasonable, there can be no assurance that they will approximate actual experience or that the expectations derived from them will be realized. Further, we undertake no obligation to update or revise any of our forward-looking statements whether as a result of new information, future events or otherwise.

OVERVIEW

Atmos Energy and our subsidiaries are engaged primarily in the regulated natural gas distribution and transmission and storage businesses, as well as our natural gas marketing business through December 31, 2016. We distribute natural gas through sales and transportation arrangements to approximately three million residential, commercial, public authority and industrial customers throughout our six distribution divisions, which at June 30, 2017 covered service areas located in eight states. In addition, we transport natural gas for others through our distribution and pipeline systems.

Through December 31, 2016, our natural gas marketing business provided natural gas management and marketing services to municipalities, other local gas distribution companies and industrial customers primarily in the Midwest and Southeast. We completed the sale of this business in January 2017.

We manage and review our consolidated operations through the following three reportable segments:

• The distribution segment is primarily comprised of our regulated natural gas distribution and related sales operations in eight states.

The pipeline and storage segment is comprised primarily of the pipeline and storage operations of our Atmos Pipeline-Texas division and our natural gas transmission operations in Louisiana, which were included in our former nonregulated segment.

•The natural gas marketing segment is comprised of our discontinued natural gas marketing business.

CRITICAL ACCOUNTING ESTIMATES AND POLICIES

Our condensed consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States. Preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and the related disclosures of contingent assets and liabilities. We based our estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. On an ongoing basis, we evaluate our estimates, including those related to risk management and trading activities, the allowance for doubtful accounts, legal and environmental accruals, insurance accruals, pension and postretirement obligations, deferred income taxes and the valuation of goodwill, indefinite-lived intangible assets and other long-lived assets. Actual results may differ from such estimates.

Our critical accounting policies used in the preparation of our consolidated financial statements are described in Item 7 of Exhibit 99.1 to our Current Report on Form 8-K dated April 12, 2017 and include the following:

Regulation

Unbilled revenue

Pension and other postretirement plans

Contingencies

Financial instruments and hedging activities

Fair value measurements

Impairment assessments

Our critical accounting policies are reviewed periodically by the Audit Committee of our Board of Directors. There were no significant changes to these critical accounting policies during the nine months ended June 30, 2017.

Non-GAAP Financial Measure

Our operations are affected by the cost of natural gas. The cost of gas is passed through to our customers without markup and includes commodity price, transportation, storage, injection and withdrawal fees and settlements of financial instruments used to mitigate commodity price risk. These costs are reflected in the income statement as purchased gas cost. Therefore, increases in the cost of gas are offset by a corresponding increase in revenues. Accordingly, we believe Gross Profit, a non-GAAP financial measure defined as operating revenues less purchased gas cost, is a better indicator of our financial performance than operating revenues as it provides a useful and more relevant measure to analyze our financial performance. As such, the following discussion and analysis of our financial performance will reference gross profit rather than operating revenues and purchased gas cost individually.

RESULTS OF OPERATIONS

Executive Summary

Atmos Energy strives to operate its businesses safely and reliably while delivering superior shareholder value. In recent years, we have implemented rate designs that reduce or eliminate regulatory lag and separate the recovery of our approved rate from customer usage patterns. Additionally, we have significantly increased investments in the safety and reliability of our natural gas distribution and transmission infrastructure. This increased level of investment and timely recovery of these investments through our regulatory mechanisms has resulted in increased earnings and operating cash flows in recent years.

The pursuit of our strategy was the primary driver for our decision to sell our nonregulated natural gas marketing business and to fully exit that business. The sale was announced in October 2016 and closed in January 2017 with the receipt of \$140.3 million in cash proceeds, including working capital. We recorded a net gain of \$0.03 per diluted share on the sale in the second quarter of fiscal 2017. The proceeds received from the transaction were used to fund infrastructure additions and enhancements in our remaining businesses. As a result of the sale, the results of operations for the divested business have been presented as discontinued operations in the tables below:

	Three Months Ended June 30		
	2017	2016	Change
	(In thousands, except per share data)		
Distribution operations	\$36,514	\$30,361	\$6,153
Pipeline and storage operations	34,294	35,782	(1,488)
Net income from continuing operations	70,808	66,143	4,665
Net income from discontinued operations	—	5,050	(5,050)
Net income	\$70,808	\$71,193	\$(385)

Diluted EPS from continuing operations	\$0.67	\$0.64	\$0.03
Diluted EPS from discontinued operations	—	0.05	(0.05)
Consolidated diluted EPS	\$0.67	\$0.69	\$(0.02)

	Nine Months Ended June 30		
	2017	2016	Change
	(In thousands, except per share data)		
Distribution operations	\$253,023	\$219,377	\$33,646
Pipeline and storage operations	93,835	91,315	2,520
Net income from continuing operations	346,858	310,692	36,166
Net income from discontinued operations	13,710	5,172	8,538
Net income	\$360,568	\$315,864	\$44,704

Diluted EPS from continuing operations	\$3.27	\$3.01	\$0.26
Diluted EPS from discontinued operations	0.13	0.05	0.08
Consolidated diluted EPS	\$3.40	\$3.06	\$0.34

Net income from continuing operations increased 12 percent, compared to the prior-year period, despite weather that was 30 percent warmer than normal and 12 percent warmer than the prior-year period, primarily due to positive rate outcomes and customer growth in our distribution business. During the nine months ended June 30, 2017, our distribution segment completed 17 regulatory proceedings, resulting in an increase in annual operating income of \$85.0 million and had four ratemaking efforts in progress at June 30, 2017 seeking \$17.1 million of additional annual operating income. Additionally, on January 6, 2017, our Atmos Pipeline - Texas Division filed its statement of intent seeking \$63.6 million, as adjusted in its rebuttal case, in additional annual operating income. On August 1, 2017, a final order was issued resulting in a \$13 million increase in annual operating income. Our discontinued natural gas marketing results for the nine months ended June 30, 2017 primarily include a pre-tax gain of \$10.6 million recognized in the first fiscal quarter related to the discontinuance of cash flow hedging for our natural gas marketing commodity contracts and a \$2.7 million net gain on sale recognized in January 2017 upon completion of the sale. Capital expenditures for the first nine months of fiscal 2017 were \$812.1 million. Approximately 82 percent was invested to improve the safety and reliability of our distribution and transportation systems, with a significant portion of this investment incurred under regulatory mechanisms that reduce lag to six months or less. We expect our capital expenditures to range between \$1.1 billion and \$1.25 billion for fiscal 2017. We funded our capital expenditure program primarily through operating cash flows of \$745.6 million. Additionally, we issued approximately \$885 million of long-term debt and \$100 million of common stock during the nine month period ending June 30, 2017. The net proceeds from these issuances was primarily used to repay maturing long-term debt and to reduce short-term debt. In addition, we acquired EnLink Pipeline in the first fiscal quarter of 2017 for an all-cash price of \$86.1 million, inclusive of working capital. The acquisition of EnLink Pipeline increases the capacity on our APT intrastate pipeline to serve transportation customers in North Texas, which continues to experience significant population growth.

As a result of our sustained financial performance, cash flows and capital structure, our Board of Directors increased the quarterly dividend by 7.1 percent for fiscal 2017.

36

Distribution Segment

The distribution segment is primarily comprised of our regulated natural gas distribution and related sales operations in eight states. The primary factors that impact the results of this segment are our ability to earn our authorized rates of return, the cost of natural gas, competitive factors in the energy industry and economic conditions in our service areas. Our ability to earn our authorized rates of return is based primarily on our ability to improve the rate design in our various ratemaking jurisdictions by reducing or eliminating regulatory lag and, ultimately, separating the recovery of our approved margins from customer usage patterns. Improving rate design is a long-term process and is further complicated by the fact that we operate in multiple rate jurisdictions.

Seasonal weather patterns can also affect our distribution operations. However, the effect of weather that is above or below normal is substantially offset through weather normalization adjustments, known as WNA, which has been approved by state regulatory commissions for approximately 97 percent of our residential and commercial meters in the following states for the following time periods:

Kansas, West Texas	October — May
Tennessee	October — April
Kentucky, Mississippi, Mid-Tex	November — April
Louisiana	December — March
Virginia	January — December

Our distribution operations are also affected by the cost of natural gas. The cost of gas is passed through to our customers without markup. Therefore, increases in the cost of gas are offset by a corresponding increase in revenues. Gross profit in our Texas and Mississippi service areas includes franchise fees and gross receipts taxes, which are calculated as a percentage of revenue (inclusive of gas costs). Therefore, the amount of these taxes included in revenues is influenced by the cost of gas and the level of gas sales volumes. We record the associated tax expense as a component of taxes, other than income. Although changes in these revenue-related taxes arising from changes in gas costs affect gross profit, over time the impact is offset within operating income.

As discussed above, the cost of gas typically does not have a direct impact on our gross profit. However, higher gas costs mean higher bills for our customers, which may adversely impact our accounts receivable collections, resulting in higher bad debt expense and may require us to increase borrowings under our credit facilities resulting in higher interest expense. In addition, higher gas costs, as well as competitive factors in the industry and general economic conditions may cause customers to conserve or, in the case of industrial consumers, to use alternative energy sources. However, gas cost risk has been mitigated in recent years through improvements in rate design that allow us to collect from our customers the gas cost portion of our bad debt expense on approximately 75 percent of our residential and commercial margins.

Edgar Filing: ATMOS ENERGY CORP - Form 10-Q

Three Months Ended June 30, 2017 compared with Three Months Ended June 30, 2016

Financial and operational highlights for our distribution segment for the three months ended June 30, 2017 and 2016 are presented below.

	Three Months Ended June 30		
	2017	2016	Change
	(In thousands, unless otherwise noted)		
Operating revenues	\$494,060	\$424,905	\$69,155
Purchased gas cost	197,767	147,569	50,198
Gross profit	296,293	277,336	18,957
Operating expenses	219,241	213,674	5,567
Operating income	77,052	63,662	13,390
Miscellaneous income (expense)	(62)	1,243	(1,305)
Interest charges	18,394	18,677	(283)
Income before income taxes	58,596	46,228	12,368
Income tax expense	22,082	15,867	6,215
Net income	\$36,514	\$30,361	\$6,153
Consolidated distribution sales volumes — MMcf	42,974	39,040	3,934
Consolidated distribution transportation volumes — MMcf	33,307	30,416	2,891
Total consolidated distribution throughput — MMcf	76,281	69,456	6,825
Consolidated distribution average cost of gas per Mcf sold	\$4.60	\$3.78	\$0.82

Income for our distribution segment increased 20 percent, primarily due to a \$19.0 million increase in gross profit, partially offset with a \$5.6 million increase in operating expenses. The quarter-over-quarter increase in gross profit primarily reflects:

• a \$13.7 million net increase in rate adjustments, primarily in our Mid-Tex, West Texas, Louisiana and Mississippi Divisions.

• Customer growth, primarily in our Mid-Tex Division, which contributed an incremental \$1.1 million.

• a \$1.8 million net increase in residential and commercial consumption, primarily in our Mid-Tex Division.

The increase in operating expenses, which includes operation and maintenance expense, provision for doubtful accounts, depreciation and amortization expense and taxes, other than income, was primarily due to higher depreciation and property tax expense associated with increased capital investments, as well as higher administrative expenses.

The following table shows our operating income by distribution division, in order of total rate base, for the three months ended June 30, 2017 and 2016. The presentation of our distribution operating income is included for financial reporting purposes and may not be appropriate for ratemaking purposes.

	Three Months Ended June 30		
	2017	2016	Change
	(In thousands)		
Mid-Tex	\$37,055	\$33,562	\$3,493
Kentucky/Mid-States	13,073	7,126	5,947
Louisiana	11,051	10,051	1,000
West Texas	6,639	5,659	980
Mississippi	3,437	3,916	(479)
Colorado-Kansas	3,842	3,111	731
Other	1,955	237	1,718
Total	\$77,052	\$63,662	\$13,390

Nine Months Ended June 30, 2017 compared with Nine Months Ended June 30, 2016

Financial and operational highlights for our distribution segment for the nine months ended June 30, 2017 and 2016 are presented below.

	Nine Months Ended June 30		
	2017	2016	Change
	(In thousands, unless otherwise noted)		
Operating revenues	\$2,211,257	\$1,936,475	\$274,782
Purchased gas cost	1,106,209	912,231	193,978
Gross profit	1,105,048	1,024,244	80,804
Operating expenses	646,299	622,100	24,199
Operating income	458,749	402,144	56,605
Miscellaneous income	334	804	(470)
Interest charges	56,437	57,481	(1,044)
Income before income taxes	402,646	345,467	57,179
Income tax expense	149,623	126,090	23,533
Net income	\$253,023	\$219,377	\$33,646
Consolidated regulated distribution sales volumes — MMcf	215,158	227,664	(12,506)
Consolidated regulated distribution transportation volumes — MMcf	109,397	103,304	6,093
Total consolidated regulated distribution throughput — MMcf	324,555	330,968	(6,413)
Consolidated regulated distribution average cost of gas per Mcf sold	\$5.14	\$4.01	\$1.13

Income for our distribution segment increased 15 percent, primarily due to an \$80.8 million increase in gross profit, partially offset with a \$24.2 million increase in operating expenses. The year-over-year increase in gross profit primarily reflects:

- a \$59.0 million net increase in rate adjustments, primarily in our Mid-Tex, Louisiana and Mississippi Divisions.
- Customer growth, primarily in our Mid-Tex and Tennessee service areas, which contributed an incremental \$5.4 million.

- a \$3.8 million increase in revenue-related taxes in our Mid-Tex and West Texas Divisions, offset by a corresponding \$3.5 million increase in the related tax expense.

- a \$4.2 million increase in transportation primarily in our Kentucky/Mid-States, Mid-Tex and West Texas Divisions.

- a \$2.1 million net increase in residential consumption, primarily in our Mid-Tex Division.

The increase in operating expenses, which includes operation and maintenance expense, provision for doubtful accounts, depreciation and amortization expense and taxes, other than income, was primarily due to an increase in employee-related costs, higher levels of line locate and pipeline integrity activities, primarily in our Mid-Tex Division, and higher depreciation and property tax expense associated with increased capital investments.

The following table shows our operating income by distribution division, in order of total rate base, for the nine months ended June 30, 2017 and 2016. The presentation of our distribution operating income is included for financial reporting purposes and may not be appropriate for ratemaking purposes.

	Nine Months Ended June 30		
	2017	2016	Change
	(In thousands)		
Mid-Tex	\$200,607	\$181,858	\$18,749
Kentucky/Mid-States	69,821	56,911	12,910
Louisiana	61,276	50,754	10,522
West Texas	42,590	38,793	3,797
Mississippi	41,197	40,369	828
Colorado-Kansas	33,878	31,189	2,689
Other	9,380	2,270	7,110
Total	\$458,749	\$402,144	\$56,605

Recent Ratemaking Developments

The amounts described in the following sections represent the operating income that was requested or received in each rate filing, which may not necessarily reflect the stated amount referenced in the final order, as certain operating costs may have changed as a result of a commission's or other governmental authority's final ruling. During the first nine months of fiscal 2017, we completed 17 regulatory proceedings, resulting in an \$85.0 million increase in annual operating income as summarized below.

Rate Action	Annual Increase in Operating Income (In thousands)
Annual formula rate mechanisms	\$ 84,190
Rate case filings	6
Other rate activity	784
	\$ 84,980

Additionally, the following ratemaking efforts seeking \$17.1 million in annual operating income were in progress as of June 30, 2017:

Division	Rate Action	Jurisdiction	Operating Income Requested (In thousands)
Louisiana	Formula Rate Mechanism	LGS ⁽¹⁾	6,237
Mississippi	Infrastructure Mechanism	Mississippi	7,600
Colorado-Kansas	Rate Case	Colorado	2,916
Kentucky/Mid-States	Infrastructure Mechanism	Virginia	308
			\$ 17,061

(1)The proposed increase for LGS customers was implemented on July 1, 2017, subject to refund.

Annual Formula Rate Mechanisms

As an instrument to reduce regulatory lag, formula rate mechanisms allow us to refresh our rates on an annual basis without filing a formal rate case. However, these filings still involve discovery by the appropriate regulatory authorities prior to the final determination of rates under these mechanisms. We currently have formula rate mechanisms in our Louisiana, Mississippi and Tennessee operations and in substantially all of our Texas divisions. Additionally, we have specific infrastructure programs in substantially all of our distribution divisions with tariffs in place to permit the investment associated with these programs to have their surcharge rate adjusted annually to recover

approved capital costs incurred in a prior test-year

40

period. The following table summarizes our annual formula rate mechanisms by state:

Annual Formula Rate Mechanisms

State	Infrastructure Programs	Formula Rate Mechanisms
Colorado	System Safety and Integrity Rider (SSIR)	—
Kansas	Gas System Reliability Surcharge (GSRS)	—
Kentucky	Pipeline Replacement Program (PRP)	—
Louisiana	(1)	Rate Stabilization Clause (RSC)
Mississippi	System Integrity Rider (SIR)	Stable Rate Filing (SRF), Supplemental Growth Filing (SGR)
Tennessee	—	Annual Rate Mechanism (ARM)
Texas	Gas Reliability Infrastructure Program (GRIP), (1)	Dallas Annual Rate Review (DARR), Rate Review Mechanism (RRM)
Virginia	Steps to Advance Virginia Energy (SAVE)	—

Infrastructure mechanisms in Texas and Louisiana allow for the deferral of all expenses associated with capital expenditures incurred pursuant to these rules, which primarily consists of interest, depreciation and other taxes (1) (Texas only), until the next rate proceeding (rate case or annual rate filing), at which time investment and costs would be recoverable through base rates.

The following annual formula rate mechanisms were approved during the nine months ended June 30, 2017:

Division	Jurisdiction	Test Year Ended	Increase in Annual Operating Income	Effective Date
(In thousands)				
2017 Filings:				
Mid-Tex	Mid-Tex DARR (1)	09/30/2016	\$9,672	06/01/2017
Mid-Tex	Mid-Tex Cities RRM	12/31/2016	36,239	06/01/2017
Kentucky/Mid-States	Tennessee ARM	05/31/2016	6,740	06/01/2017
Mid-Tex	Mid-Tex Environs	12/31/2016	1,568	05/23/2017
West Texas	West Texas Environs	12/31/2016	872	05/23/2017
West Texas	West Texas ALDC	12/31/2016	4,682	04/25/2017
Louisiana	TransLa (2)	09/30/2016	4,392	04/01/2017
West Texas	West Texas Cities RRM	09/30/2016	4,255	03/15/2017
Colorado-Kansas	Kansas	09/30/2016	801	02/09/2017
Mississippi	Mississippi SRF	10/31/2017	4,390	01/12/2017
Mississippi	Mississippi SIR	10/31/2017	3,334	01/01/2017
Mississippi	Mississippi SGR	10/31/2017	1,292	01/01/2017
Colorado-Kansas	Colorado SSIR	12/31/2017	1,350	01/01/2017
Kentucky/Mid-States	Kentucky PRP	09/30/2017	4,981	10/14/2016
Kentucky/Mid-States	Virginia SAVE	09/30/2017	(378)	10/01/2016
Total 2017 Filings			\$84,190	

The Company and the City of Dallas were unable to arrive at a mutually agreeable settlement; therefore the DARR (1) rates were implemented, subject to refund, pending the outcome of an appeal filed with the Texas Railroad Commission.

(2) The Trans Louisiana RSC rates were implemented subject to refund on April 1, 2017.

Rate Case Filings

A rate case is a formal request from Atmos Energy to a regulatory authority to increase rates that are charged to our customers. Rate cases may also be initiated when the regulatory authorities request us to justify our rates. This process is referred to as a “show cause” action. Adequate rates are intended to provide for recovery of the Company’s costs as well as a fair rate of return and ensure that we continue to deliver reliable, reasonably priced natural gas service safely to our customers.

The following table summarizes the rate cases that were completed during the nine months ended June 30, 2017:

Division	State	Increase in Annual Operating Income	Effective Date
(In thousands)			
2017 Rate Case Filings:			
Kentucky/Mid-States ⁽¹⁾	Virginia	\$ 6	12/27/2016
Total 2017 Rate Case Filings		\$ 6	

The Virginia State Corporation Commission issued a final order approving a re-basing of the Company's SAVE (1) rates into base rates and a decrease to depreciation expense. The Company had implemented rates on April 1, 2016, subject to refund, of \$0.5 million.

Other Ratemaking Activity

The following table summarizes other ratemaking activity during the nine months ended June 30, 2017:

Division	Jurisdiction	Rate Activity	Additional Annual Operating Income	Effective Date
(In thousands)				
2017 Other Rate Activity:				
Colorado-Kansas	Kansas	Ad-Valorem ⁽¹⁾	\$ 784	2/1/2017
Total 2017 Other Rate Activity			\$ 784	

The Ad Valorem filing relates to a collection of property taxes in excess of the amount included in our Kansas (1) service area's base rates.

Pipeline and Storage Segment

Our pipeline and storage segment consists of the pipeline and storage operations of our Atmos Pipeline–Texas Division (APT) and our natural gas transmission operations in Louisiana, which were previously included in our former nonregulated segment. APT is one of the largest intrastate pipeline operations in Texas with a heavy concentration in the established natural gas producing areas of central, northern, eastern and western Texas, extending into or near the major producing areas of the Barnett Shale, the Texas Gulf Coast and the Delaware and Midland Basins of West Texas. APT provides transportation and storage services to our Mid-Tex Division, other third-party local distribution companies, industrial and electric generation customers, as well as marketers and producers. As part of its pipeline operations, APT manages five underground storage facilities in Texas.

Our natural gas transmission operations in Louisiana are comprised of a proprietary 21-mile pipeline located in New Orleans, Louisiana that is primarily used to aggregate gas supply for our distribution division in Louisiana under a long-term contract and on a more limited basis, to third parties. The demand fee charged to our Louisiana distribution division for these services is subject to regulatory approval by the Louisiana Public Service Commission. We also manage two asset management plans which have been approved by applicable state regulatory commissions.

Generally, these asset management plans require us to share with our distribution customers a significant portion of the cost savings earned from these arrangements.

Our pipeline and storage segment is impacted by seasonal weather patterns, competitive factors in the energy industry and economic conditions in our Texas and Louisiana service areas. Natural gas prices do not directly impact the results of this segment as revenues are derived from the transportation and storage of natural gas. However, natural gas prices and demand for natural gas could influence the level of drilling activity in the markets that we serve, which may influence the level of throughput we may be able to transport on our pipeline. Further, natural gas price differences between the various hubs that we serve in Texas could influence the volumes of gas transported for shippers through our Texas pipeline system and the rates for such transportation.

The results of APT are also significantly impacted by the natural gas requirements of its local distribution company customers. Additionally, its operations may be impacted by the timing of when costs and expenses are incurred and when these costs and expenses are recovered through its tariffs.

APT annually uses GRIP to recover capital costs incurred in the prior calendar year. However, GRIP also requires a utility to file a statement of intent at least once every five years to review its costs and expenses, including capital costs filed for recovery under GRIP. However, APT is precluded from submitting a GRIP filing until a final order has been issued on the

statement of intent. Accordingly, APT has not yet submitted its annual GRIP filing for calendar year 2016. On January 6, 2017, APT filed its statement of intent seeking \$63.6 million, as adjusted in its rebuttal case, in additional annual operating income. On August 1, 2017, a final order was issued resulting in a \$13 million increase in annual operating income.

On December 21, 2016, the Louisiana Public Service Commission approved an annual increase of five percent to the demand fee charged by our natural gas transmission pipeline for each of the next 10 years, effective October 1, 2017. This agreement will replace the existing agreement that expires in September 2017.

Three Months Ended June 30, 2017 compared with Three Months Ended June 30, 2016

Financial and operational highlights for our pipeline and storage segment for the three months ended June 30, 2017 and 2016 are presented below.

	Three Months Ended June 30		
	2017	2016	Change
	(In thousands, unless otherwise noted)		
Mid-Tex / Affiliate transportation revenue	\$84,594	\$85,262	\$(668)
Third-party transportation revenue	27,369	23,877	3,492
Other revenue	5,320	4,716	604
Total operating revenues	117,283	113,855	3,428
Total purchased gas cost	1,251	(438)	1,689
Gross profit	116,032	114,293	1,739
Operating expenses	52,420	49,559	2,861
Operating income	63,612	64,734	(1,122)
Miscellaneous expense	(227)	(125)	(102)
Interest charges	10,104	9,002	1,102
Income before income taxes	53,281	55,607	(2,326)
Income tax expense	18,987	19,825	(838)
Net income	\$34,294	\$35,782	\$(1,488)
Gross pipeline transportation volumes — MMcf	192,543	158,758	33,785
Consolidated pipeline transportation volumes — MMcf	59,023	128,881	30,142

Net income for our pipeline and storage segment decreased four percent, primarily due to a \$2.9 million increase in operating expenses, offset by a \$1.7 million increase in gross profit. The increase in gross profit is primarily the result of higher through system revenue of \$1.3 million, largely related to incremental throughput on the EnLink Pipeline, which was acquired in the first quarter of fiscal 2017, and higher basis spreads due to increased production in the Permian Basin. As noted above, as a result of the annual rate case, we did not file our annual GRIP filing during the second quarter of fiscal 2017, which influenced this segment's performance quarter-over-quarter.

Operating expenses, which includes operation and maintenance expense, provision for doubtful accounts, depreciation and amortization expense and taxes, other than income, increased \$2.9 million, primarily due to higher depreciation expense and property taxes associated with increased capital investments and the acquisition of EnLink Pipeline.

Nine Months Ended June 30, 2017 compared with Nine Months Ended June 30, 2016
Financial and operational highlights for our pipeline and storage segment for the nine months ended June 30, 2017 and 2016 are presented below.

	Nine Months Ended June 30		
	2017	2016	Change
	(In thousands, unless otherwise noted)		
Mid-Tex / Affiliate transportation revenue	\$251,354	\$229,916	\$21,438
Third-party transportation revenue	72,414	66,393	6,021
Other revenue	15,439	18,115	(2,676)
Total operating revenues	339,207	314,424	24,783
Total purchased gas cost	2,331	(72)	2,403
Gross profit	336,876	314,496	22,380
Operating expenses	159,871	143,859	16,012
Operating income	177,005	170,637	6,368
Miscellaneous expense	(784)	(894)	110
Interest charges	30,035	27,294	2,741
Income before income taxes	146,186	142,449	3,737
Income tax expense	52,351	51,134	1,217
Net income	\$93,835	\$91,315	\$2,520
Gross pipeline transportation volumes — MMcf	574,556	526,532	48,024
Consolidated pipeline transportation volumes — MMcf	425,150	373,080	52,070

Net income for our pipeline and storage segment increased three percent, primarily due to a \$22.4 million increase in gross profit, offset by a \$16.0 million increase in operating expenses. The increase in gross profit primarily reflects a \$22.1 million increase in rates from the GRIP filings approved in fiscal 2016.

Operating expenses, which includes operation and maintenance expense, provision for doubtful accounts, depreciation and amortization expense and taxes, other than income, increased \$16.0 million, primarily due to increased levels of pipeline maintenance and integrity activities and higher depreciation expense and property taxes associated with increased capital investments and the acquisition of EnLink Pipeline.

Natural Gas Marketing Segment

Through December 31, 2016, we were engaged in an unregulated natural gas marketing business, which was conducted by Atmos Energy Marketing (AEM). AEM's primary business was to aggregate and purchase gas supply, arrange transportation and storage logistics and ultimately deliver gas to customers at competitive prices.

Additionally, AEM utilized proprietary and customer-owned transportation and storage assets to provide various services its customers requested. AEM served most of its customers under contracts generally having one to two year terms. As a result, AEM's margins arose from the types of commercial transactions it had structured with its customers and its ability to identify the lowest cost alternative among the natural gas supplies, transportation and markets to which it had access to serve those customers.

As more fully described in Note 6, effective January 1, 2017, we sold all of the equity interests of AEM to CenterPoint Energy Services, Inc. (CES), a subsidiary of CenterPoint Energy Inc. As a result of the sale, Atmos Energy has fully exited the nonregulated natural gas marketing business. Accordingly, these operations have been reported as discontinued operations.

Edgar Filing: ATMOS ENERGY CORP - Form 10-Q

Three Months Ended June 30, 2017 compared with Three Months Ended June 30, 2016

Financial and operating highlights for our natural gas marketing segment for the three months ended June 30, 2017 and 2016 are presented below.

	Three Months Ended June 30	
	2017	2016 Change
	(In thousands, unless otherwise noted)	
Operating revenues	\$200,213	\$(200,213)
Purchased gas cost	—184,398	(184,398)
Gross profit	—15,815	(15,815)
Operating income	—7,047	(7,047)
Operating income	—8,768	(8,768)
Miscellaneous income	—56	(56)
Interest charges	—360	(360)
Income before income taxes	—8,464	(8,464)
Income tax expense	—3,414	(3,414)
Net income from discontinued operations	\$—5,050	\$(5,050)
Gross natural gas marketing delivered gas sales volumes — MMcf	—84,415	(84,415)
Consolidated natural gas marketing delivered gas sales volumes — MMcf	—72,742	(72,742)
Net physical position (Bcf)	—29.4	(29.4)

Nine Months Ended June 30, 2017 compared with Nine Months Ended June 30, 2016

Financial and operating highlights for our natural gas marketing segment for the nine months ended June 30, 2017 and 2016 are presented below.

	Nine Months Ended June 30		
	2017	2016	Change
	(In thousands, unless otherwise noted)		
Operating revenues	\$303,474	\$728,989	\$(425,515)
Purchased gas cost	277,554	698,445	(420,891)
Gross profit	25,920	30,544	(4,624)
Operating expenses	7,874	19,940	(12,066)
Operating income	18,046	10,604	7,442
Miscellaneous income	30	171	(141)
Interest charges	241	2,108	(1,867)
Income before income taxes	17,835	8,667	9,168
Income tax expense	6,841	3,495	3,346
Income from discontinued operations	10,994	5,172	5,822
Gain on sale of discontinued operations, net of tax	2,716	—	2,716
Net income from discontinued operations	\$13,710	\$5,172	\$8,538
Gross nonregulated delivered gas sales volumes — MMcf	90,223	280,588	(190,365)
Consolidated nonregulated delivered gas sales volumes — MMcf	78,646	245,702	(167,056)
Net physical position (Bcf)	—	29.4	(29.4)

The \$8.5 million year-over-year increase in net income from discontinued operations primarily reflects the recognition of a net \$6.6 million noncash gain from unwinding hedge accounting for certain of the natural gas marketing

business's financial positions in connection with the sale of AEM. Additionally, we recognized a \$2.7 million net gain on sale upon completion of the sale of AEM to CES in January 2017.

Liquidity and Capital Resources

The liquidity required to fund our working capital, capital expenditures and other cash needs is provided from a variety of sources, including internally generated funds and borrowings under our commercial paper program and bank credit facilities. Additionally, we have various uncommitted trade credit lines with our gas suppliers that we utilize to purchase natural gas on a monthly basis. Finally, from time to time, we raise funds from the public debt and equity capital markets to fund our liquidity needs.

We regularly evaluate our funding strategy and capital structure to ensure that we (i) have sufficient liquidity for our short-term and long-term needs in a cost-effective manner and (ii) maintain a balanced capital structure with a debt-to-capitalization ratio in a target range of 45 to 55 percent. We also evaluate the levels of committed borrowing capacity that we require. We currently have over \$1.5 billion of capacity under our short-term facilities.

We plan to continue to fund our growth through the use of operating cash flows and debt and equity securities, while maintaining a balanced capital structure. To support our capital market activities, we have a registration statement on file with the SEC that permits us to issue a total of \$2.5 billion in common stock and/or debt securities. Under the shelf registration statement, we have filed a prospectus supplement for an at-the-market (ATM) equity distribution program under which we may issue and sell, shares of our common stock, up to an aggregate offering price of \$200 million.

During the first nine months of fiscal 2017, we issued 1,303,494 shares under our ATM program and received net proceeds of \$98.8 million. Substantially all shares have now been issued under this program. Additionally, on June 8, 2017, we completed a public offering of \$500 million of 3.00% senior unsecured notes due 2027 and \$250 million of 4.125% senior unsecured notes due 2044. The net proceeds of approximately \$753 million were used to repay our \$250 million 6.35% senior unsecured notes at maturity on June 15, 2017 and for general corporate purposes, including the repayment of working capital borrowings pursuant to our commercial paper program. At June 30, 2017, approximately \$1.6 billion of securities remain available for issuance under the shelf registration statement.

The following table presents our capitalization inclusive of short-term debt and the current portion of long-term debt as of June 30, 2017, September 30, 2016 and June 30, 2016:

	June 30, 2017		September 30, 2016		June 30, 2016	
	(In thousands, except percentages)					
Short-term debt	\$258,573	3.6 %	\$829,811	12.3 %	\$670,466	10.2 %
Long-term debt	3,066,734	42.4 %	2,438,779	36.2 %	2,438,699	37.1 %
Shareholders' equity	3,901,710	54.0 %	3,463,059	51.5 %	3,466,724	52.7 %
Total	\$7,227,017	100.0 %	\$6,731,649	100.0 %	\$6,575,889	100.0 %

Cash Flows

Our internally generated funds may change in the future due to a number of factors, some of which we cannot control. These include regulatory changes, prices for our products and services, demand for such products and services, margin requirements resulting from significant changes in commodity prices, operational risks and other factors.

Cash flows from operating, investing and financing activities for the nine months ended June 30, 2017 and 2016 are presented below.

	Nine Months Ended June 30		
	2017	2016	Change
	(In thousands)		
Total cash provided by (used in)			
Operating activities	\$745,561	\$629,946	\$115,615
Investing activities	(747,355)	(783,399)	36,044
Financing activities	24,037	191,006	(166,969)
Change in cash and cash equivalents	22,243	37,553	(15,310)
Cash and cash equivalents at beginning of period	47,534	28,653	18,881
Cash and cash equivalents at end of period	\$69,777	\$66,206	\$3,571

Cash flows from operating activities

Period-over-period changes in our operating cash flows are primarily attributable to changes in net income and working capital changes, particularly within our distribution segment resulting from changes in the price of natural gas and the timing of customer collections, payments for natural gas purchases and deferred gas cost recoveries.

For the nine months ended June 30, 2017, we generated cash flow of \$745.6 million from operating activities compared with \$629.9 million for the nine months ended June 30, 2016. The \$115.6 million increase in operating cash flows reflects the positive cash effects of successful rate case outcomes achieved in fiscal 2016 and changes in working capital, primarily the recovery of deferred purchased gas costs.

Cash flows from investing activities

In executing our regulatory strategy, we target our capital spending on regulatory mechanisms that permit us to earn an adequate return timely on our investment without compromising the safety or reliability of our system.

Substantially all of our regulated jurisdictions have rate tariffs that provide the opportunity to include in their rate base approved capital costs on a periodic basis without being required to file a rate case.

In recent years, a substantial portion of our cash resources has been used to fund our ongoing construction program, which enables us to enhance the safety and reliability of the systems used to provide natural gas distribution services to our existing customer base, expand our natural gas distribution services into new markets, enhance the integrity of our pipelines and, more recently, expand our intrastate pipeline network. Over the last three fiscal years, approximately 80 percent of our capital spending has been committed to improving the safety and reliability of our system. We anticipate our annual capital spending will be in the range of \$1 billion to \$1.4 billion through fiscal 2020. For the nine months ended June 30, 2017, cash used for investing activities was \$747.4 million compared to \$783.4 million in the prior-year period. Capital spending increased by \$22.5 million, or 2.8 percent, as a result of planned increases in our distribution segment to repair and replace vintage pipe, partially offset by a decrease in spending in our pipeline and storage segment as a result of the substantial completion of an APT project to improve the reliability of gas service to its local distribution company customers. Cash flows from investing activities also include proceeds of \$140.3 million received from the sale of AEM, a portion of the proceeds received from the completion of a State of Texas use tax audit and the \$86.1 million used to purchase Enlink Pipeline in the first fiscal quarter of 2017.

Cash flows from financing activities

For the nine months ended June 30, 2017, our financing activities generated \$24.0 million of cash compared with \$191.0 million generated in the prior-year period. The \$167.0 million decrease in cash provided by financing activities is primarily due to the reduction in our short-term debt, partially offset by an increase in our long-term debt.

The following table summarizes our share issuances for the nine months ended June 30, 2017 and 2016:

	Nine Months Ended	
	June 30	
	2017	2016
Shares issued:		
Direct Stock Purchase Plan	90,789	107,736
1998 Long-Term Incentive Plan	529,060	597,470
Retirement Savings Plan and Trust	205,972	282,578
At-the-Market (ATM) Equity Distribution Program	1,303,494	1,360,756
Total shares issued	2,129,315	2,348,540

The year-over-year decrease in the number of shares issued primarily reflects a decrease in shares issued under the Retirement Savings Plan and Trust and the 1998 Long-Term Incentive Plan.

Credit Facilities

Our short-term borrowing requirements are affected primarily by the seasonal nature of the natural gas business and the level of our capital expenditures. Changes in the price of natural gas, the amount of natural gas we need to supply to meet our customers' needs and our capital spending activities could significantly affect our borrowing requirements. However, our short-term borrowings typically reach their highest levels in the winter months.

We finance our short-term borrowing requirements through a combination of a \$1.5 billion commercial paper program and three committed revolving credit facilities with third-party lenders that provide a total of approximately \$1.5 billion of working capital funding. As of June 30, 2017, the amount available to us under our credit facilities, net of commercial paper and outstanding letters of credit, was \$1.3 billion.

Credit Ratings

Our credit ratings directly affect our ability to obtain short-term and long-term financing, in addition to the cost of such financing. In determining our credit ratings, the rating agencies consider a number of quantitative factors, including debt to total capitalization, operating cash flow relative to outstanding debt, operating cash flow coverage of interest and pension liabilities and funding status. In addition, the rating agencies consider qualitative factors such as consistency of our earnings over time, the quality of our management and business strategy, the risks associated with our businesses and the regulatory structures that govern our rates in the states where we operate.

Our debt is rated by two rating agencies: Standard & Poor's Corporation (S&P) and Moody's Investors Service (Moody's). As of June 30, 2017, both rating agencies maintained a stable outlook. Our current debt ratings are all considered investment grade and are as follows:

	S&P	Moody's
Senior unsecured long-term debt	A	A2
Short-term debt	A-1	P-1

A significant degradation in our operating performance or a significant reduction in our liquidity caused by more limited access to the private and public credit markets as a result of deteriorating global or national financial and credit conditions could trigger a negative change in our ratings outlook or even a reduction in our credit ratings by the three credit rating agencies. This would mean more limited access to the private and public credit markets and an increase in the costs of such borrowings.

A credit rating is not a recommendation to buy, sell or hold securities. The highest investment grade credit rating is AAA for S&P and Aaa for Moody's. The lowest investment grade credit rating is BBB- for S&P and Baa3 for Moody's. Our credit ratings may be revised or withdrawn at any time by the rating agencies, and each rating should be evaluated independently of any other rating. There can be no assurance that a rating will remain in effect for any given period of time or that a rating will not be lowered, or withdrawn entirely, by a rating agency if, in its judgment, circumstances so warrant.

Debt Covenants

We were in compliance with all of our debt covenants as of June 30, 2017. Our debt covenants are described in greater detail in Note 5 to the unaudited condensed consolidated financial statements.

Contractual Obligations and Commercial Commitments

Except as noted in Note 9 to the unaudited condensed consolidated financial statements, there were no significant changes in our contractual obligations and commercial commitments during the nine months ended June 30, 2017.

Risk Management Activities

In our distribution and pipeline and storage segments, we use a combination of physical storage, fixed physical contracts and fixed financial contracts to reduce our exposure to unusually large winter-period gas price increases. Additionally, we manage interest rate risk by entering into financial instruments to effectively fix the Treasury yield component of the interest cost associated with anticipated financings. Through December 31, 2016, we managed our exposure to the risk of natural gas price changes in our natural gas marketing segment by locking in our gross profit margin through a combination of storage and financial instruments, including futures, over-the-counter and exchange-traded options and swap contracts with counterparties.

The following table shows the components of the change in fair value of our financial instruments for the three and nine months ended June 30, 2017 and 2016:

	Three Months Ended June 30		Nine Months Ended June 30	
	2017	2016	2017	2016
	(In thousands)			
Fair value of contracts at beginning of period	\$(114,004)	\$(203,949)	\$(279,543)	\$(153,981)
Contracts realized/settled	37,172	1,196	48,928	1,185
Fair value of new contracts	557	2,377	(1,040)	2,434
Other changes in value	(29,869)	(62,709)	125,511	(112,723)
Fair value of contracts at end of period	(106,144)	(263,085)	(106,144)	(263,085)
Netting of cash collateral	—	39,067	—	39,067
Cash collateral and fair value of contracts at period end	\$(106,144)	\$(224,018)	\$(106,144)	\$(224,018)

The fair value of our financial instruments at June 30, 2017 is presented below by time period and fair value source:

Source of Fair Value	Fair Value of Contracts at June 30, 2017			
	Maturity in Years			
	Less Than 1	1-3	4-5	Greater Than 5
	Total Fair Value			
	(In thousands)			
Prices actively quoted	\$2,730	\$(108,874)	\$ —	—\$(106,144)
Prices based on models and other valuation methods	—	—	—	—
Total Fair Value	\$2,730	\$(108,874)	\$ —	—\$(106,144)

Pension and Postretirement Benefits Obligations

For the nine months ended June 30, 2017 and 2016, our total net periodic pension and other benefits costs were \$34.7 million and \$34.5 million. A substantial portion of those costs relating to our natural gas distribution operations are recoverable through our gas distribution rates; however, a portion of these costs is capitalized into our distribution rate base. The remaining costs are recorded as a component of operation and maintenance expense.

Our fiscal 2017 costs were determined using a September 30, 2016 measurement date. As of September 30, 2016, interest and corporate bond rates were lower than the rates as of September 30, 2015. Therefore, we decreased the discount rate used to measure our fiscal 2017 net periodic cost from 4.55 percent to 3.73 percent. We maintained the expected return on plan assets of 7.00 percent in the determination of our fiscal 2017 net periodic pension cost based upon expected market returns for our targeted asset allocation. As a result of the net impact of changes in these and other assumptions, we expect our fiscal 2017 net periodic pension cost to be generally consistent with fiscal 2016.

The amount with which we fund our defined benefit plan is determined in accordance with the Pension Protection Act of 2006 (PPA) and is influenced by the funded position of the plan when the funding requirements are determined on January 1 of each year. Based upon the determination as of January 1, 2017, we are not required to make a minimum

contribution to our defined benefit plan during fiscal 2017. However, in June 2017, we made a voluntary contribution of \$5.0 million.

For the nine months ended June 30, 2017 we contributed \$9.9 million to our postretirement medical plans. We anticipate contributing a total of between \$10 million and \$20 million to our postretirement plans during fiscal 2017.

The projected pension liability, future funding requirements and the amount of pension expense or income recognized for the plans are subject to change, depending upon the actuarial value of plan assets in the plans and the determination of future benefit obligations as of each subsequent actuarial calculation date. These amounts will be determined by actual investment returns, changes in interest rates, values of assets in the plans and changes in the demographic composition of the participants in the plans.

OPERATING STATISTICS AND OTHER INFORMATION

The following tables present certain operating statistics for our distribution and pipeline and storage segments for the three and nine-month periods ended June 30, 2017 and 2016.

Distribution Sales and Statistical Data

	Three Months Ended June 30		Nine Months Ended June 30	
	2017	2016	2017	2016
METERS IN SERVICE, end of period				
Residential	2,935,136	2,903,099	2,935,136	2,903,099
Commercial	268,734	266,435	268,734	266,435
Industrial	1,682	1,815	1,682	1,815
Public authority and other	8,301	8,377	8,301	8,377
Total meters	3,213,853	3,179,726	3,213,853	3,179,726

Note to preceding tables:

(1) Sales volumes and revenues reflect segment operations, including intercompany sales and transportation amounts.

RECENT ACCOUNTING DEVELOPMENTS

Recent accounting developments and their impact on our financial position, results of operations and cash flows are described in Note 2 to the unaudited condensed consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Information regarding our quantitative and qualitative disclosures about market risk are disclosed in Item 7A of Exhibit 99.1 to our Current Report on Form 8-K dated April 12, 2017. During the nine months ended June 30, 2017, except for the effects of the sale of AEM on our market risk, there were no material changes in our quantitative and qualitative disclosures about market risk.

Item 4. Controls and Procedures

Management's Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the Company's disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act). Based on this evaluation, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures were effective as of June 30, 2017 to provide reasonable assurance that information required to be disclosed by us, including our consolidated entities, in the reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified by the SEC's rules and forms, including a reasonable level of assurance that such information is accumulated and communicated to our management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

We did not make any changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the third quarter of the fiscal year ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

During the nine months ended June 30, 2017, there were no material changes in the status of the litigation and other matters that were disclosed in Note 11 of our Fiscal 2016 Financial Statements. We continue to believe that the final outcome of such litigation and other matters or claims will not have a material adverse effect on our financial condition, results of operations or cash flows.

Item 6. Exhibits

A list of exhibits required by Item 601 of Regulation S-K and filed as part of this report is set forth in the Exhibits Index, which immediately precedes such exhibits.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
