REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Administrative Committee - U.S. Plans
Pharmacia Savings Plan:

Edgar Filing: PFIZER INC - Form 11-K

We have audited the accompanying statements of net assets available for plan benefits of the Pharmacia Savings Plan (the Plan) as of December 31, 2004 and 2003, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits as of December 31, 2004 and 2003 and the changes in net assets available for plan benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2004 and schedule H, line 4j - schedule of reportable transactions, for the year ended December 31, 2004 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

PHARMACIA SAVINGS PLAN
Notes to Financial Statements
December 31, 2004 and 2003
(in thousands of dollars)

1. Description of Plan

The following brief description of the Pharmacia Savings Plan (the "Plan") is provided only for general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

On April 16, 2003, Pfizer Inc. ("Pfizer" or the "Company") completed its acquisition of Pharmacia Corporation ("Pharmacia"), including its subsidiary, Pharmacia & Upjohn Company. In connection with the acquisition, Pfizer adopted and assumed the Plan. The Plan is a defined contribution plan with two component parts: a section 401(k) plan and a section 401 (m) plan. The section 401(m) plan consists of Employee Stock Ownership Plan ("ESOP") funds (collectively, the Pharmacia ESOP Funds) and funds that do not constitute an ESOP. The Pharmacia ESOP Funds consist of a Preferred Employee Stock Ownership Plan (the "Preferred ESOP") and a Common Employee Stock Ownership Plan (the "Common ESOP"). The Plan covers substantially all domestic employees of the Company not otherwise covered by another defined contribution plan of the Company. The Plan continues to cover employees of business units aligned with Pharmacia prior to the acquisition.

As a result of the April 16, 2003 acquisition of Pharmacia, outstanding shares of Pharmacia common stock in the Pharmacia Common Stock Fund and Common ESOP accounts were converted to Pfizer common stock at a rate of 1.4 shares of Pfizer stock for each share of Pharmacia stock held on April 16, 2003. The name of the Pharmacia Common Stock Fund was changed to the Pfizer Common Stock Fund and the Pharmacia Common ESOP Stock Fund was changed to the Pfizer Common ESOP Stock Fund. Within the Preferred ESOP, the conversion factor for the Convertible Perpetual Preferred Stock ("Preferred ESOP Stock") in the Preferred ESOP Stock Fund was changed to 2.57486 shares of Pfizer common stock for each preferred share. The name of the Pharmacia Preferred ESOP Stock Fund was changed to the Pfizer Preferred ESOP Stock Fund.

Edgar Filing: PFIZER INC - Form 11-K

Prior to the Pfizer acquisition, the value of a share of Preferred Stock was the closing price of one share of Pharmacia common stock multiplied by a 1.83919 conversion factor. Subsequent to the Pfizer acquisition, the value of a share of Preferred Stock was the closing price of one share of Pfizer common stock multiplied by a 2.57486 conversion factor.

The Plan is part of the Pharmacia Retirement Choice Program ("Choice Program") available to all employees except those on long-term disability benefits, those employed by the Company in Puerto Rico, those covered under the Pre-Retirement Terminated Leave of Absence program or those covered under a specifically designated severance package. The Choice Program is made up of a traditional pension plan and a 401(k) savings plan. Under the Choice Program, eligible employees select either Option 1 which provides greater pension plan benefits or Option 2 which provides greater savings plan benefits.

Plan Administration

The Administrative Committee - U.S. Plans is responsible for administering plan operations in accordance with the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Global Benefits Investment Committee is responsible for monitoring plan investments.

Administrative Expenses

The Plan pays certain outside service provider expenses (e.g., investment manager, recordkeeping and trustee fees) incurred in the operation of the Plan. Certain other expenses are paid by the Company.

Contributions

Participants (other than Puerto Rico participants) may elect to contribute on a before-tax or after-tax basis from 1% to 20%, in 1% increments, of their compensation, as defined in the Plan document. Puerto Rico participants may elect to contribute on a before-tax basis or after-tax basis from 1% to 18%, in 1% increments, of their compensation, as defined in the Plan document. Contributions are subject to certain restrictions under the Internal Revenue Code of 1986, as amended, and for the Puerto Rico Participants, contributions are also subject to certain additional restrictions under the Puerto Rico Internal Revenue Code of 1994, as amended. Participants who are eligible employees are permitted to roll over into the Plan eligible distributions from other qualified employer sponsored savings plans and conduit IRAs.

The Company matching contributions are the basis for allocating shares of the Preferred Stock ESOP to participants' accounts in combination with a Common Stock ESOP also sponsored by Pfizer. The Preferred Stock remains unallocated until it is distributed (allocated) to participant accounts in accordance with the loan payment schedule and the provisions of the Plan. Dividends paid to the participants' Preferred ESOP accounts are substituted for an allocation in Preferred ESOP Stock, the cash being used to fund subsequent ESOP loan payments.

For employees eligible for the Choice Program, the Company match depends on the amount of the participant's before-tax and after-tax contribution and whether Option 1 or Option 2 under the Choice Program is selected. Under both Options, the Company will match 100% of participant contributions, from 1% to 5% of compensation, as defined by the Plan. The match is allocated as a combination of the Preferred ESOP and the Common ESOP shares. The percentage split for the 2004 plan year was 65% to the Preferred ESOP and 35% to the Common ESOP through July 31, 2004. Thereafter, the percentage split was 0% to the Preferred ESOP and 100% to the Common ESOP. The percentage split for the 2003 plan year was 65% to the Preferred ESOP and 35% to the Common ESOP. The Preferred ESOP and Common ESOP will allocate shares of stock to participants such that, at the time of allocation, the total value of the shares allocated is equivalent to the Company match. Under Option 2 of the Choice Program there is an additional \$0.25 to \$1.00 Company match for each \$1.00 contributed on the first 5% of eligible pay which is based on the participant's ages as follows:

- Under age 35: \$0.25 additional match
- Age 35 - 44: \$0.50 additional match
- Age 45 - 49: \$0.75 additional match
- Age 50 and older: \$1.00 additional match

The additional match under Option 2 is made in cash and allocated to the participant's current investment fund elections (not into the ESOP Stock Funds).

Edgar Filing: PFIZER INC - Form 11-K

For Puerto Rico participants, the Company matches 100% of participant contributions, from 1% to 5% of compensation, in the form of preferred stock within the Preferred ESOP. The Preferred ESOP allocated shares of preferred stock to participants such that, at the time of allocation, the total value of the shares allocated is equivalent to the Company match.

The Company contributes to the Common and Preferred ESOP's cash amounts that are necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on each ESOP's outstanding debt and to release stock to cover allocations to participant accounts. Company dividends paid to each ESOP and certain other funds are also used to repay the outstanding ESOP debt.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contribution, Plan earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants are immediately vested in the full value of their account (i.e., participant's and Company's contributions).

Investment Options

Choice Program Participants

Participant contributions received by the Plan are invested at the direction of the participants in accordance with the terms of the Plan document.

Plan participants eligible for the Choice Program, were provided with fund options as outlined below.

- a) Income Fund
- b) Core Bond Fund
- c) Value Stock Fund
- d) Large Company Stock Fund
- e) Growth Stock Fund
- f) Mid-Small Company Stock Fund
- g) International Stock Fund
- h) Pfizer Common Stock Fund (prior to April 16, 2003 - Pharmacia Common Stock Fund)
- i) Any combination of the above, provided that a minimum of five percent and a multiple of one percent is directed to each fund selected.

Participants may change their investment elections as often as once a day.

Effective February 3, 2003 a self-directed brokerage account was introduced as an investment option. Participants can choose from about 9,500 mutual funds with varying degrees of potential risk and return.

In addition, the Plan includes four asset allocation funds, which allow Choice Program participants varying degrees of risk and return, including (in order of risk tolerance, least to greatest), the Conservative Portfolio Fund, the Moderate Portfolio Fund, the Moderately Aggressive Portfolio Fund, and the Aggressive Portfolio Fund. Investments in the Core Bond Fund, Large Company Stock Fund, Mid-Small Company Stock Fund and the International Stock Fund are used in predetermined mixes to form the asset allocation funds.

For Choice Program participants, company matching contributions for up to the first 5% of compensation and earnings thereon are only posted to the Preferred ESOP Fund and Common ESOP Fund. Upon attaining age 50, participants are allowed to transfer the balance of the Company Matching Account into the other investment fund options.

Other Plan Participants

Investment fund options available to all Plan participants currently not included in the Choice Program (primarily participants employed in Puerto Rico) are listed below.

- a) Income Fund
- b) American Balanced Fund
- c) Indexed Stock Fund

Edgar Filing: PFIZER INC - Form 11-K

- g) Pfizer Common Stock Fund (prior to April 16, 2003 - Pharmacia Common Stock Fund)
- h) Any combination of the above, provided that a minimum of five percent and a multiple of one percent is directed to each fund selected.

Participants may elect to transfer or allocate their participant contribution balances and earnings thereon to any of the above funds.

For Puerto Rico participants, company matching contributions and earnings thereon are only posted to the Preferred ESOP Stock Fund. Upon completing ten years of employment service and attaining age 55, participants are allowed to transfer a portion of their Pfizer Common Stock Fund balance (i.e., pertaining to Company contributions and earnings thereon) and their ESOP Fund balance into the other investment fund options. For participants age 55-59 and for participants age 60 and older, 25% and 50% can be transferred to other investment funds, respectively. Those age 60 and older that have already diversified their current Common Stock 25%, may only diversify another 25%.

The Northern Trust Company ("Northern Trust") is trustee for U.S. participants in the Plan. Banco Santander is the trustee, and Northern Trust is the custodian for Puerto Rico participants. The Plan's trust agreement provides that any portion of any of the investment funds may, pending its permanent investment or distribution, be invested in short term investments. To the extent any Plan assets are so invested, they are invested in funds managed by Northern Trust. Both Northern Trust and Banco Santander are related parties to the Plan.

Loans to Participants

The Plan has a loan provision which allows participants to borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000 (reduced by the highest outstanding loan balance within the previous twelve months). Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. Loans for the purchase of a home have a \$3,000 minimum loan amount. The loans are secured by the balance in the participant's account and bear interest at a rate that is equal to the prime rate, as defined, at the beginning of the quarter in which the loan originates, plus 1%. Interest is credited to the account of the participant. Repayments may not necessarily be made to the same fund from which amounts were borrowed. Repayments are credited to the applicable funds based on the participant's investment elections at the time of repayment.

Effective January 1, 2003, the loan payoff period increased to 90 days. Participants that terminate will have 90 days to repay the loan before the loan is taxed and penalized with an additional 10% tax.

Benefit Payments

Benefits are paid either in cash or in cash and common stock. Common stock is issued only with respect to the participant's accounts in the Pfizer Common Stock Fund and the ESOP Funds. Upon retirement or death, the full value of the participant's accounts is paid in either a lump sum or in installments.

In-Service Withdrawals

Participants may also elect to make in-service withdrawals from their account balances subject to the provisions of the Plan.

Plan Termination

The Company expects to continue the Plan indefinitely, but reserves the right to amend, suspend or discontinue it in whole or in part at any time by action of the Company's Board of Directors or its authorized designee. In the event of termination of the Plan, each participant shall be entitled to the full value of his or her account balance as though she had retired as of the date of such termination. No part of the invested assets established pursuant to the Plan will at any time revert to the Company except otherwise permitted under ERISA.

2. Summary of Accounting Policies

Method of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. For treatment of benefits payable, refer to Note 7.

Use of Estimates

Edgar Filing: PFIZER INC - Form 11-K

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation

Common stock is valued at quoted market price as of the last business day of the Plan year. Shares of mutual funds are recorded at fair value based on the closing market prices obtained from national exchanges of the underlying investments of the respective fund as of the last business day of the year. Common/collective trust funds are stated at redemption value as determined by the trustees of such funds based upon the underlying securities stated at fair value. Investments in money market instruments are generally short-term and are valued at cost, which approximates market. Investments in guaranteed investment contracts ("GICs") and synthetic investment contracts ("SICs") are reported at their contract value by the insurance companies and underlying banks, respectively, because these investments have fully benefit-responsive features (see Note 5). Loans to participants, which are subject to various interest rates, and short term securities are recorded at cost which approximates fair value. Short-term securities primarily consist of U.S. Government securities.

Pfizer preferred stock is valued using the higher of the per-share equivalent stated value of \$40.30 or the quoted market price of Pfizer common stock multiplied by 2.57486 on the last business day of the plan year (Preferred Stock share balances maintained by the plan's trustee and recordkeeper are on a basis equal to a multiple of 1,000 of the share balance and one-thousandth of the \$40,300 stated value). Pfizer preferred stock was valued at \$69.24 at December 31, 2004 and \$90.97 at December 31, 2003 based on the closing Pfizer stock price of \$26.89 on December 31, 2004 and \$35.33 on December 31, 2003.

The Plan presents in the statement of changes in net assets available for plan benefits, the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains and losses and the unrealized appreciation (depreciation) on those investments.

Forfeitures

Forfeited amounts are used to pay expenses of the Plan, interest on ESOP debt incurred by the Plan (paid in February of each year) and to reduce Company contributions.

Risks and Uncertainties

Investment securities, including Pfizer Inc. common and preferred stock, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is possible that changes in their values could occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Investment Transactions

Purchases and sales of securities are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

Payment of Benefits

Benefit payments are recorded when paid.

3. Tax Status of the Plan

The Plan obtained its latest determination letter dated July 17, 2003 in which the Internal Revenue Service indicated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Company's tax counsel believe that the Plan is currently designed and being operated in material compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Contributions made to the Plan by the Company, including pre tax contributions made on the participants' behalf and any appreciation on all funds in the participants' accounts, are not taxable to the participants under current federal income tax law while these amounts remain in the Plan.

4. Investments

The following investments represent 5% or more of the plan's net assets.

(in thousands of dollars)	December 31,	
	2004	2003
Barclays Global Investors Equity Index Fund (13,857,852 and 15,385,997 units, respectively)	\$ 501,516	\$ 502,353

*Nonparticipant-directed shares (See Note 6)

The plan's investments (including gains and losses on investments sold, as well as held during the year) appreciated/ (depreciated) in value as follows:

(in thousands of dollars)	Year ended December 31,	
	2004	2003
Mutual funds	\$ 47,090	\$ 32,972
Common stock	(131,682)	142,409
Preferred stock	(107,418)	80,671
Common/collective trust funds	96,545	198,526
	\$ (95,465)	\$ 454,578

5. Investment Contracts with Insurance Companies

The Income Fund consists primarily of benefit responsive guaranteed investment contracts ("GIC's") and synthetic investment contracts ("SIC's"). The contract value of the GICs and SICs represents the cost or face-value of the contract plus accrued interest. The contract value of the SICs represents fair value of the underlying asset plus the contract value of the wrapper contract associated with the underlying asset. At December 31, 2004 and 2003, the Plan held SIC's with a contract value of \$689,475 and \$666,299. At December 31, 2003, the Plan held GICs with a contract value of \$9,255. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The average portfolio yields were approximately 6% for both 2004 and 2003. The crediting interest rates were approximately 5% for 2004 and 6% for 2003. For SICs, the rate is based on a formula which consists of the yield to maturity, duration, and the book and market values. The rate for SICs is periodically reset, usually quarterly, and cannot be reset below 0%. For GICs, the crediting interest rate, specified in the contract, was agreed upon with the issuers and was maintained for the life of the contract.

6. Nonparticipant-directed Funds and Notes Payable

The Plan includes the following nonparticipant-directed funds: *Pfizer Common Stock Fund*, *Preferred Leveraged ESOP* and the *Common Leveraged ESOP*. These funds and their related activity were as follows:

Pfizer Common Stock Fund

Effective April 1, 1999, the Pfizer Common Stock Fund (formerly known as the Pharmacia Common Stock Fund) was added as an investment option into which participants can direct their contributions and/or transfer existing balances. However, certain Company contribution balances (and earnings thereon) within the Pfizer Common Stock Fund can only be transferred out of the fund into other investment options after participants satisfy certain age and service requirements. All assets and activity within this fund have been disclosed as nonparticipant-directed for purposes of this report.
