CLEAN HARBORS, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(1) BASIS OF PRESENTATION

The accompanying consolidated interim financial statements are unaudited and include the accounts of Clean Harbors, Inc. and its subsidiaries (collectively, "Clean Harbors," the "Company" or "we") and have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC") and, in the opinion of management, include all adjustments which are of a normal recurring nature, necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. Management has made estimates and assumptions affecting the amounts reported in the Company's consolidated interim financial statements and accompanying footnotes, actual results could differ from those estimates and judgments. The results for interim periods are not necessarily indicative of results for the entire year or any other interim periods. The financial statements presented herein should be read in connection with the financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Reclassifications

During the second quarter of 2014, the Company made changes to the manner in which it manages its business, makes operating decisions and assesses performance. These changes included the reassignment of certain departments among its operating segments consistent with management reporting changes as well as the identification of Lodging Services as an additional segment. Under the new structure, the Company's operations are managed in six reportable segments: Technical Services, Industrial and Field Services, Oil Re-refining and Recycling, SK Environmental Services, Lodging Services and Oil and Gas Field Services. The prior year segment information has been recast to conform to the current year presentation. See Note 17, "Segment Reporting."

During the third quarter of 2014, the Company has aggregated cash flow effects of the change in unbilled receivables with the change from accounts receivable in the Unaudited Consolidated Statements of Cash Flows. Prior year amounts have been recast to conform to the current year presentation.

(2) SIGNIFICANT ACCOUNTING POLICIES

The Company's significant accounting policies are described in Note 2, "Significant Accounting Policies," in the Company's Annual Report on Form 10-K for the year ended December 31, 2013. There have been no material changes in these policies or their application.

Recent Accounting Pronouncements

Standards implemented

On January 1, 2014, the Company adopted the Financial Accounting Standards Board ("FASB") Accounting Standard Update ("ASU") 2013-11 Income Taxes (Topic 740) - Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. This standard provides guidance regarding when an unrecognized tax benefit should be classified as a reduction to a deferred tax asset or when it should be classified as a liability in the consolidated balance sheet. The adoption of ASU 2013-11 did not have an impact on the Company's consolidated balance sheets.

Standards to be implemented

In May 2014, FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. This new guidance is effective for annual reporting periods (including interim reporting periods within those periods) beginning after December 15, 2016.

In April 2014, FASB issued ASU 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360). The amendments in ASU 2014-08 provide guidance for the recognition and disclosure of discontinued operations. ASU 2014-08 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2014.

The Company is currently evaluating the impact that the above standards to be implemented will have on the Company's consolidated financial statements.

Table of Contents**(3) BUSINESS COMBINATIONS**

## Evergreen

On September 13, 2013, the Company acquired 100% of the outstanding common shares of Evergreen Oil, Inc. (“Evergreen”) for a final purchase price of \$56.3 million in cash, net of cash acquired. Evergreen, headquartered in Irvine, California, specializes in the recovery and re-refining of used oil. Evergreen owns and operates one of the only oil re-refining operations in the western United States and also offers other ancillary environmental services, including parts cleaning and containerized waste services, vacuum services and hazardous waste management services. The acquisition of Evergreen enables the Company to further penetrate the small quantity waste generator market and further expand its oil re-refining, oil recycling and waste treatment capabilities. Financial information and results of Evergreen have been recorded in our consolidated financial statements since acquisition and are primarily included in the Oil Re-refining and Recycling segment.

Management determined the purchase price allocations based on estimates of the fair values of all tangible and intangible assets acquired and liabilities assumed. The Company believes that such information provides a reasonable basis for estimating the fair values of assets acquired and liabilities assumed. The Company has finalized the purchase accounting for the acquisition of Evergreen. The impact of the purchase price measurement period adjustments and related tax impacts recorded in the current period was not material to the consolidated financial statements and accordingly the effects have not been retrospectively applied.

The following table summarizes the recognized amounts of assets acquired and liabilities assumed at September 13, 2013 (in thousands):

|   | At acquisition<br>date as reported<br>at<br>December 31,<br>2013 | Measurement<br>Period<br>Adjustments | At acquisition<br>date as reported<br>at<br>September 30,<br>2014 |

| Total   | \$55,919   | \$399                                | \$56,318  |

## 2014 Acquisitions

On May 30, 2014 the Company acquired certain assets of a privately owned U.S. company which provides carbon treatment systems and rental remediation equipment for approximately \$6.2 million in cash. The purchase price is subject to customary post-closing adjustments based upon finalized working capital amounts. The acquired company has been integrated into the Technical Services segment.

**(4) MARKETABLE SECURITIES**

The Company classifies its marketable securities as available-for-sale and accordingly carries such securities at fair value based upon readily available quoted market prices of the securities. Unrealized gains and losses are reported, net of tax, as a component of other comprehensive income. On September 30, 2014, the Company did not hold any marketable securities. On December 31, 2013, marketable securities held by the Company were recorded at \$12.4 million. Those marketable securities were classified as Level 1 in the fair value hierarchy.

During the nine months ended September 30, 2014, the Company sold marketable securities and recognized a gain of \$3.4 million recorded as other income in the consolidated statement of (loss) income. There were no realized gains or losses from the sale of marketable securities during the three and nine months ended September 30, 2013.

| Goodwill impairment charge   | (123,414) | ) |
| Foreign currency translation   | (7,275)   | ) |
| Balance at September 30, 2014  | \$449,577 |   |

At September 30, 2014 the total accumulated goodwill impairment charge was \$123.4 million, all within the Oil Re-refining and Recycling segment.

The Company assesses goodwill for impairment on an annual basis as of December 31, or at an interim date when events or changes in the business environment would more likely than not reduce the fair value of a reporting unit below its carrying value. The Company conducted the annual impairment test of goodwill for all reporting units as of December 31, 2013 and determined that no adjustment to the carrying value of goodwill for any reporting unit was necessary because the fair value of each of the reporting units exceeded that reporting unit's respective carrying value.

During the first and second quarters of 2014, the Company considered both external and business specific circumstances impacting the Oil Re-refining and Recycling reporting unit and concluded that an interim goodwill impairment test was not necessary. However, as of September 30, 2014 and principally resulting from current decreases in the market prices of oil products

Table of Contents

sold by the reporting unit which negatively impact anticipated revenue and earnings levels, the Company concluded that an interim goodwill impairment test was required.

In performing Step I of the goodwill impairment test, the estimated fair value of the Oil Re-refining and Recycling reporting unit was determined using an income approach and was compared to the reporting unit's estimated carrying value as of September 30, 2014. Based on the results of that valuation, the carrying amount of the reporting unit, including \$174.3 million of goodwill, exceeded the estimated fair value and as a result the Company performed Step II of the goodwill impairment test to determine the amount of goodwill impairment charge to be recorded.

Step II of the goodwill impairment test requires the Company to perform a theoretical purchase price allocation for the reporting unit to determine the implied fair value of goodwill and to compare the implied fair value of goodwill to the recorded amount of goodwill. The estimate of fair value requires significant judgment. Based on the results of the goodwill impairment test, the Company recognized a goodwill impairment charge of \$123.4 million.

The factors contributing to the \$123.4 million goodwill impairment charge principally relate to current decreases in the market prices of base and blended oil products. These factors caused us, relative to the 2013 impairment test, to lower assumptions for future revenues and profits of the business and adversely affected the estimated fair value of the reporting unit as of September 30, 2014.

The fair value of the Oil and Gas Field Services reporting unit exceeded its carrying value by more than 10% at December 31, 2013. The financial performance of this reporting unit, which had a goodwill balance of approximately \$34.9 million at September 30, 2014, was affected in the nine months ended September 30, 2014 by pricing pressures and lower levels of overall activity in the markets and regions that the business serves.

During the interim periods of fiscal year 2014 and with respect to the Oil and Gas Field Services reporting unit, the Company has considered whether (i) the lower than anticipated results (ii) general economic and industry conditions, and (iii) reporting unit specific factors would more likely than not reduce the estimated fair values of its reporting units below their carrying values. The Company did not perform an interim test for impairment of goodwill related to the Oil and Gas Field Services reporting unit as it does not believe the factors impacting the performance of this reporting unit, through September 30, 2014, would more likely than not reduce the fair value below its carrying value.

Significant judgments and unobservable inputs categorized as level III in the fair value hierarchy are inherent in the annual impairment tests performed and include assumptions about the amount and timing of expected future cash flows, growth rates, and the determination of appropriate discount rates. The Company believes that the assumptions used in its annual and interim date impairment tests are reasonable, but variations in any of the assumptions may result in different calculations of fair values that could result in a material impairment charge.

The performance of the Company's reporting units will continue to be monitored. If the Company's reporting units do not achieve the financial performance that the Company expects, it is possible that an additional goodwill impairment charge may result. There can therefore be no assurance that future events will not result in an impairment of goodwill.

As a result of the goodwill impairment charge recorded by the Oil Re-refining and Recycling reporting unit during the third quarter, the Company also considered whether the reporting units' carrying values of finite-lived intangible and other long lived assets may not be entirely recoverable or whether the carrying value of certain indefinite lived intangibles were impaired. As a result of these analyses it was concluded that no impairment of intangible or other long lived assets exist.

Table of Contents

Amortization expense for the three and nine months ended September 30, 2014 was \$9.1 million and \$27.5 million, respectively. Amortization expense for the three and nine months ended September 30, 2013 was \$8.8 million and \$25.9 million, respectively.

Below is the expected future amortization of the net carrying amount of finite-lived intangible assets at September 30, 2014 (in thousands):

| Years Ending December 31, | Expected<br>Amortization |
|---------------------------|--------------------------|
| 2014 (three months)       | \$8,979                  |
| 2015                      | 35,687                   |
| 2016                      | 34,901                   |
| 2017                      | 32,923                   |
| 2018                      | 30,097                   |
| Thereafter                | 275,285                  |
|                           | \$417,872                |

**(8) ACCRUED EXPENSES**

Accrued expenses consisted of the following (in thousands):

|  | September 30,<br>2014 | December 31,<br>2013 |
|--|-----------------------|----------------------|
| Insurance                                  | \$65,558              | \$57,993             |
| Interest                                   | 17,809                | 20,731               |
| Accrued compensation and benefits          | 59,604                | 60,902               |
| Income, real estate, sales and other taxes | 67,000                | 38,938               |
| Other                                      | 50,152                | 58,265               |
| Total accrued expenses                     | \$260,123             | \$236,829            |

Table of Contents**(9) CLOSURE AND POST-CLOSURE LIABILITIES**

The changes to closure and post-closure liabilities (also referred to as “asset retirement obligations”) for the nine months ended September 30, 2014 were as follows (in thousands):

|  | Landfill Retirement Liability | Non-Landfill Retirement Liability | Total    |
|--|-------------------------------|-----------------------------------|----------|
| Balance at January 1, 2014                           | \$27,604                      | \$19,481                          | \$47,085 |
| New asset retirement obligations                     | 2,676                         | —                                 | 2,676    |
| Accretion  | 1,912                         | 1,399                             | 3,311    |
| Changes in estimates recorded to statement of income | (722)                         | ) 142                             | (580)    |
| Changes in estimates recorded to balance sheet       | (103)                         | ) —                               | (103)    |
| Expenditures   | (1,568)                       | ) (476)                           | (2,044)  |
| Currency translation and other                       | (137)                         | ) (82)                            | (219)    |
| Balance at September 30, 2014                        | \$29,662                      | \$20,464                          | \$50,126 |

All of the landfill facilities included in the above were active as of September 30, 2014. New asset retirement obligations incurred during the first nine months of 2014 were discounted at the credit-adjusted risk-free rate of 6.54%. There were no significant charges (benefits) in 2014 resulting from changes in estimates for closure and post-closure liabilities.

**(10) REMEDIAL LIABILITIES**

The changes to remedial liabilities for the nine months ended September 30, 2014 were as follows (in thousands):

|  | Remedial Liabilities for Landfill Sites | Remedial Liabilities for Inactive Sites | Remedial Liabilities (Including Superfund) for Non-Landfill Operations | Total     |
|--|---|---|--|-----------|
| Balance at January 1, 2014                                     | \$ 5,624                                | \$ 74,262                               | \$ 92,612  | \$172,498 |
| Adjustments during the measurement period related to Evergreen | —                                       | —                                       | (536)  | (536)     |
| Accretion  | 200                                     | 2,280                                   | 2,184  | 4,664     |
| Changes in estimates recorded to statement of income           | (126)                                   | ) (2,385)                               | ) 100  | (2,411)   |
| Expenditures   | (82)                                    | ) (4,338)                               | ) (5,666)  | (10,086)  |
| Currency translation and other                                 | (146)                                   | ) (63)                                  | ) (1,045)  | (1,254)   |
| Balance at September 30, 2014                                  | \$5,470                                 | \$69,756                                | \$87,649   | \$162,875 |

In the nine months ended September 30, 2014, the reduction in changes in estimates recorded to the statement of (loss) income was \$2.4 million and primarily related to estimated cost adjustments for remediation across various sites.

**(11) FINANCING ARRANGEMENTS**

The following table is a summary of the Company’s financing arrangements (in thousands):

|  | September 30, 2014 | December 31, 2013 |
|--|--------------------|-------------------|
| Senior unsecured notes, at 5.25%, due August 1, 2020 | \$800,000          | \$800,000         |
| Senior unsecured notes, at 5.125%, due June 1, 2021  | 595,000            | 600,000           |
| Long-term obligations                                | \$1,395,000        | \$1,400,000       |

On July 30, 2012, the Company issued through a private placement \$800.0 million aggregate principal amount of 5.25% senior unsecured notes due August 1, 2020 (“2020 Notes”) with semi-annually fixed interest payments on February 1 and August 1 of each year, which commenced on February 1, 2013. At September 30, 2014 and December 31, 2013, the fair value of the Company’s 2020 Notes was \$794.9 million and \$804.2 million, respectively, based on quoted market prices for the instrument and accrued interest. The fair value of the 2020 Notes is considered a

Level 2 measure according to the fair value hierarchy.

On December 7, 2012, the Company issued through a private placement \$600.0 million aggregate principal amount of 5.125% senior unsecured notes due 2021 ("2021 Notes") with semi-annually fixed interest payments on June 1 and December 1 of each year, which commenced on June 1, 2013. At September 30, 2014 and December 31, 2013, the fair value of the Company's 2021

11

---

Table of Contents

Notes was \$586.2 million and \$601.6 million, respectively, based on quoted market prices for the instrument and accrued interest. The fair value of the 2021 Notes is considered a Level 2 measure according to the fair value hierarchy.

The Company also maintains a revolving credit facility which as of September 30, 2014 and December 31, 2013 had no outstanding loan balances. At September 30, 2014, \$262.1 million was available to borrow and outstanding letters of credit were \$110.4 million. At December 31, 2013, \$259.7 million was available to borrow and outstanding letters of credit were \$140.3 million.

Available credit for Parent and its domestic subsidiaries is subject to 85% of their eligible accounts receivable and 100% of their cash deposited in a controlled account with the agent. The revolving credit facility is guaranteed by all of Parent's domestic subsidiaries and secured by substantially all of Parent's and its domestic subsidiaries' assets. Available credit for Parent's Canadian subsidiaries is subject to 85% of their eligible accounts receivable and 100% of their cash deposited in a controlled account with the agent's Canadian affiliate. The obligations of the Canadian subsidiaries under the revolving credit facility are guaranteed by all of Parent's Canadian subsidiaries and secured by the accounts receivable of the Canadian subsidiaries, but the Canadian subsidiaries do not guarantee and are not otherwise responsible for the obligations of Parent or its domestic subsidiaries.

**(12) INCOME TAXES**

As a result of the goodwill impairment charge recorded in the third quarter, the Company recorded an income tax benefit of \$2.7 million. Absent the impact of the impairment charge on pre-tax income from operations the Company's effective tax rate for the three and nine months ended September 30, 2014 was 55.6% and 47.3% compared to 34.7% and 34.5% for the same period in 2013. The increase in the effective rates for the three and nine months ended September 30, 2014 is due to a greater sales mix in the U.S. versus Canada and the recording of a reduction to a deferred tax asset.

As of September 30, 2014 and December 31, 2013, the Company had recorded \$1.3 million of liabilities for unrecognized tax benefits and \$0.2 million of interest, respectively.

Due to expiring statute of limitation periods, the Company believes that total unrecognized tax benefits will decrease by approximately \$0.1 million within the next 12 months.

**(13) (LOSS) EARNINGS PER SHARE**

The following are computations of basic and diluted earnings per share (in thousands except for per share amounts):

|  | Three Months Ended<br>September 30, |           | Nine Months Ended<br>September 30, |           |

| Numerator for basic and diluted (loss) earnings per share: |                                     |           |                                    |           |
| Net (loss) income  | \$ (93,337 )                        | \$ 35,361 | \$ (55,705 )                       | \$ 68,765 |
| Denominator:   |                                     |           |                                    |           |
| Basic shares outstanding                                   | 60,369                              | 60,610    | 60,585                             | 60,542    |
| Dilutive effect of equity-based compensation awards        | —                                   | 150       | —                                  | 150       |
| Dilutive shares outstanding                                | 60,369                              | 60,760    | 60,585                             | 60,692    |
| Basic (loss) earnings per share:                           | \$ (1.55 )                          | \$ 0.58   | \$ (0.92 )                         | \$ 1.14   |
| Diluted (loss) earnings per share:                         | \$ (1.55 )                          | \$ 0.58   | \$ (0.92 )                         | \$ 1.13   |

As a result of the net loss reported in the three and nine months ended September 30, 2014, all outstanding restricted stock awards and performance awards totaling 624,145 were excluded from the calculation of diluted earnings per share as their inclusion would have an antidilutive effect. For the three and nine months ended September 30, 2013, the EPS calculations above included the dilutive effects of all then outstanding restricted stock awards and performance awards except for 173,000 of outstanding performance stock awards for which the performance criteria

were not attained at that time.

| Comprehensive Loss Components                      |   |  |                        |
| Unrealized gains on available-for-sale investments | \$27  | \$3,388  | Other income (expense) |

There were no reclassifications out of accumulated other comprehensive loss into the consolidated statement of income during the three and nine months ended September 30, 2013.

## (15) STOCK-BASED COMPENSATION

## Stock Awards

The following table summarizes the total number and type of awards granted during the three and nine months ended September 30, 2014, as well as the related weighted-average grant-date fair values:

|                          | Three Months Ended<br>September 30, 2014 |   | Nine Months Ended<br>September 30, 2014 |   |
|--------------------------|--|---|---|---|
|                          | Shares                                   | Weighted<br>Average<br>Grant-Date<br>Fair Value | Shares                                  | Weighted<br>Average<br>Grant-Date<br>Fair Value |
| Restricted stock awards  | 5,000                                    | \$59.01   | 112,630                                 | \$61.43   |
| Performance stock awards | —  | \$—   | 130,107                                 | \$62.20   |
| Total awards             | 5,000                                    |   | 242,737                                 |   |

Restricted stock awards issued during the three and nine months ended September 30, 2014 carry terms which are consistent with historical grants. For the performance stock awards granted during the nine months ended September 30, 2014, the Compensation Committee of the Company's Board of Directors established two-year performance targets which could potentially be achieved in either 2014 or 2015.

## Common Stock Repurchases

On February 25, 2014, the Company's Board of Directors authorized the repurchase of up to \$150 million of the Company's common stock. As of September 30, 2014, we had repurchased and retired a total of approximately 923,000 shares of our common stock for approximately \$53.8 million under this program. As of September 30, 2014, an additional \$96.2 million remains available for repurchase of shares under the current authorized program.

Table of Contents

## (16) COMMITMENTS AND CONTINGENCIES

## Legal and Administrative Proceedings

The Company and its subsidiaries are subject to legal proceedings and claims arising in the ordinary course of business. Actions filed against the Company arise from commercial and employment-related claims including alleged class actions related to sales practices and wage and hour claims. The plaintiffs in these actions may be seeking damages or injunctive relief or both. These actions are in various jurisdictions and stages of proceedings, and some are covered in part by insurance. In addition, the Company's waste management services operations are regulated by federal, state, provincial and local laws enacted to regulate discharge of materials into the environment, remediation of contaminated soil and groundwater or otherwise protect the environment. This ongoing regulation results in the Company frequently becoming a party to legal or administrative proceedings involving all levels of governmental authorities and other interested parties. The issues involved in such proceedings generally relate to alleged violations of existing permits and licenses or alleged responsibility under federal or state Superfund laws to remediate contamination at properties owned either by the Company or by other parties ("third party sites") to which either the Company or the prior owners of certain of the Company's facilities shipped wastes.

At September 30, 2014 and December 31, 2013, the Company had recorded reserves of \$42.1 million and \$41.7 million, respectively, in the Company's financial statements for actual or probable liabilities related to the legal and administrative proceedings in which the Company was then involved, the principal of which are described below. At September 30, 2014 and December 31, 2013, the Company also believed that it was reasonably possible that the amount of these potential liabilities could be as much as \$3.2 million and \$3.5 million more, respectively. The Company periodically adjusts the aggregate amount of these reserves when actual or probable liabilities are paid or otherwise discharged, new claims arise, or additional relevant information about existing or probable claims becomes available. As of September 30, 2014, the \$42.1 million of reserves consisted of (i) \$32.5 million related to pending legal or administrative proceedings, including Superfund liabilities, which were included in remedial liabilities on the consolidated balance sheets, and (ii) \$9.6 million primarily related to federal, state and provincial enforcement actions, which were included in accrued expenses on the consolidated balance sheets.

As of September 30, 2014, the principal legal and administrative proceedings in which the Company was involved, or which had been terminated during 2014, were as follows:

**Ville Mercier.** In September 2002, the Company acquired the stock of a subsidiary (the "Mercier Subsidiary") which owns a hazardous waste incinerator in Ville Mercier, Quebec (the "Mercier Facility"). The property adjacent to the Mercier Facility, which is also owned by the Mercier Subsidiary, is now contaminated as a result of actions dating back to 1968, when the Government of Quebec issued to a company unrelated to the Mercier Subsidiary two permits to dump organic liquids into lagoons on the property. In 1999, Ville Mercier and three neighboring municipalities filed separate legal proceedings against the Mercier Subsidiary and the Government of Quebec. In 2012, the municipalities amended their existing statement of claim to seek \$2.9 million (cdn) in general damages and \$10.0 million (cdn) in punitive damages, plus interest and costs, as well as injunctive relief. Both the Government of Quebec and the Company have filed summary judgment motions against the municipalities. The parties are currently attempting to negotiate a resolution and hearings on the motions have been delayed. In September 2007, the Quebec Minister of Sustainable Development, Environment and Parks issued a Notice pursuant to Section 115.1 of the Environment Quality Act, superseding Notices issued in 1992, which are the subject of the pending litigation. The more recent Notice notifies the Mercier Subsidiary that, if the Mercier Subsidiary does not take certain remedial measures at the site, the Minister intends to undertake those measures at the site and claim direct and indirect costs related to such measures.

The Mercier Subsidiary continues to assert that it has no responsibility for the groundwater contamination in the region and will contest any action by the Ministry to impose costs for remedial measures on the Mercier Subsidiary. The Company also continues to pursue settlement options. At September 30, 2014 and December 31, 2013, the Company had accrued \$13.1 million and \$13.6 million, respectively, for remedial liabilities relating to the Ville Mercier legal proceedings.

**Refinery Incident.** In September 2014, a customer filed suit in Texas against the Company and two other contractors and their respective insurers seeking to be named as an additional insured on the Company's and the other contractors'

liability policies for an April 2013 industrial fire that occurred at the customer's refining facility in Texas. The Company is not a defendant in plaintiffs' suits arising from the fire. While the Company was not performing services at the time of the fire, it had provided services previously at the work site. The Company is denying liability in the matter, and is defending the insurance action brought by the customer. Any potential liability is not currently estimable, and the Company believes it has adequate insurance coverage. The Company continues to work with all interested parties to resolve the matter.

Table of Contents

Safety-Kleen Legal Proceedings. On December 28, 2012, the Company acquired Safety-Kleen and thereby became subject to the legal proceedings in which Safety-Kleen was a party on that date. In addition to certain Superfund proceedings in which Safety-Kleen has been named as a potentially responsible party as described below under "Superfund Proceedings," the principal such legal proceedings involving Safety-Kleen which were outstanding as of September 30, 2014 were as follows:

Product Liability Cases. Safety-Kleen is named as a defendant in various lawsuits that are currently pending in various courts and jurisdictions throughout the United States, including approximately 58 proceedings (excluding cases which have been settled but not formally dismissed) as of September 30, 2014, wherein persons claim personal injury resulting from the use of Safety-Kleen's parts cleaning equipment or cleaning products. These proceedings typically involve allegations that the solvent used in Safety-Kleen's parts cleaning equipment contains contaminants and/or that Safety-Kleen's recycling process does not effectively remove the contaminants that become entrained in the solvent during their use. In addition, certain claimants assert that Safety-Kleen failed to warn adequately the product user of potential risks, including an historic failure to warn that solvent contains trace amounts of toxic or hazardous substances such as benzene. Safety-Kleen maintains insurance that it believes will provide coverage for these claims (over amounts accrued for self-insured retentions and deductibles in certain limited cases), except for punitive damages to the extent not insurable under state law or excluded from insurance coverage. Safety-Kleen believes that these claims lack merit and has historically vigorously defended, and intends to continue to vigorously defend, itself and the safety of its products against all of these claims. Such matters are subject to many uncertainties and outcomes are not predictable with assurance. Consequently, Safety-Kleen is unable to ascertain the ultimate aggregate amount of monetary liability or financial impact with respect to these matters as of September 30, 2014. From December 31, 2013 to September 30, 2014, 14 product liability claims were settled or dismissed. Due to the nature of these claims and the related insurance, the Company did not incur any expense as Safety-Kleen's insurance provided coverage in full for all such claims. Safety-Kleen may be named in similar, additional lawsuits in the future, including claims for which insurance coverage may not be available.

Fee Class Action Claims. In October 2010, two customers filed a complaint, individually and on behalf of all similarly situated customers in the State of Alabama, alleging that Safety-Kleen improperly assessed fuel surcharges and extended area service fees. In 2012, similar lawsuits were filed by the same law firm in California and Missouri. It is Safety-Kleen's position that it had the right to assess fuel surcharges, that the customers were contractually obligated or otherwise consented to the charges, and that the surcharges were voluntarily paid by the customers when presented with an invoice. A class has not been certified in any of these cases, and the parties are attempting to resolve the matter through negotiations.

Superfund Proceedings

The Company has been notified that either the Company (which, since December 28, 2012, includes Safety-Kleen) or the prior owners of certain of the Company's facilities for which the Company may have certain indemnification obligations have been identified as potentially responsible parties ("PRPs") or potential PRPs in connection with 126 sites which are subject to or are proposed to become subject to proceedings under federal or state Superfund laws. Of the 126 sites, two (the Wichita Facility and the BR Facility described below) involve facilities that are now owned by the Company and 124 involve third party sites to which either the Company or the prior owners of certain of the Company's facilities shipped wastes. Of the 124 third party sites, 29 are now settled, 20 are currently requiring expenditures on remediation and 75 are not currently requiring expenditures on remediation.

In connection with each site, the Company has estimated the extent, if any, to which it may be subject, either directly or as a result of any indemnification obligations, for cleanup and remediation costs, related legal and consulting costs associated with PRP investigations, settlements, and related legal and administrative proceedings. The amount of such actual and potential liability is inherently difficult to estimate because of, among other relevant factors, uncertainties as to the legal liability (if any) of the Company or the prior owners of certain of the Company's facilities to contribute a portion of the cleanup costs, the assumptions that must be made in calculating the estimated cost and timing of remediation, the identification of other PRPs and their respective capability and obligation to contribute to remediation efforts, and the existence and legal standing of indemnification agreements (if any) with prior owners, which may either benefit the Company or subject the Company to potential indemnification obligations. In addition to

the Wichita Property and the BR Facility, Clean Harbors believes its potential liability could exceed \$100,000 at 13 of the 124 third party sites.

Wichita Property. The Company acquired in 2002 as part of the CSD assets a service center located in Wichita, Kansas (the "Wichita Property"). The Wichita Property is one of several properties located within the boundaries of a 1,400 acre state-designated Superfund site in an old industrial section of Wichita known as the North Industrial Corridor Site. Along with numerous other PRPs, the former owner executed a consent decree relating to such site with the U.S. Environmental Protection Agency (the "EPA"), and the Company is continuing an ongoing remediation program for the Wichita Property in accordance with that consent decree. The Company also acquired rights under an indemnification agreement between the former owner and an earlier owner of the Wichita Property which the Company anticipates but cannot guarantee will be available to reimburse certain such cleanup costs.

Table of Contents

BR Facility. The Company acquired in 2002 a former hazardous waste incinerator and landfill in Baton Rouge (the "BR Facility"), for which operations had been previously discontinued by the prior owner. In September 2007, the EPA issued a special notice letter to the Company related to the Devil's Swamp Lake Site ("Devil's Swamp") in East Baton Rouge Parish, Louisiana. Devil's Swamp includes a lake located downstream of an outfall ditch where wastewater and stormwater have been discharged, and Devil's Swamp is proposed to be included on the National Priorities List due to the presence of Contaminants of Concern ("COC") cited by the EPA. These COCs include substances of the kind found in wastewater and storm water discharged from the BR Facility in past operations. The EPA originally requested COC generators to submit a good faith offer to conduct a remedial investigation feasibility study directed towards the eventual remediation of the site. The Company is currently performing corrective actions at the BR Facility under an order issued by the Louisiana Department of Environmental Quality (the "LDEQ"), and has begun conducting the remedial investigation and feasibility study under an order issued by the EPA. The Company cannot presently estimate the potential additional liability for the Devil's Swamp cleanup until a final remedy is selected by the EPA.

Third Party Sites. Of the 124 third party sites at which the Company has been notified it is a PRP or potential PRP or may have indemnification obligations, Clean Harbors has an indemnification agreement at 11 of these sites with ChemWaste, a former subsidiary of Waste Management, Inc., and at five additional of these third party sites, Safety-Kleen has a similar indemnification agreement with McKesson Corporation. These agreements indemnify the Company (which now includes Safety-Kleen) with respect to any liability at the 16 sites for waste disposed prior to the Company's (or Safety-Kleen's) acquisition of the former subsidiaries of Waste Management or McKesson which had shipped wastes to those sites. Accordingly, Waste Management or McKesson are paying all costs of defending those subsidiaries in those 16 cases, including legal fees and settlement costs. However, there can be no guarantee that the Company's ultimate liabilities for those sites will not exceed the amount recorded or that indemnities applicable to any of these sites will be available to pay all or a portion of related costs. Except for the indemnification agreements which the Company holds from ChemWaste and McKesson, the Company does not have an indemnity agreement with respect to any of the 124 third party sites discussed above.

#### Federal, State and Provincial Enforcement Actions

From time to time, the Company pays fines or penalties in regulatory proceedings relating primarily to waste treatment, storage or disposal facilities. As of September 30, 2014 and December 31, 2013, there were five proceedings for which the Company reasonably believed that the sanctions could equal or exceed \$100,000. The Company believes that the fines or other penalties in these or any of the other regulatory proceedings will, individually or in the aggregate, not have a material effect on its financial condition, results of operations or cash flows.

#### (17) SEGMENT REPORTING

During the second quarter of 2014, the Company made changes to the manner in which it manages its business, makes operating decisions and assesses performance. These changes included the reassignment of certain departments among its operating segments consistent with management reporting changes as well as the identification of Lodging Services as an additional segment. Under the new structure, the Company's operations are managed in six reportable segments based primarily upon the nature of the various operations and services provided: Technical Services, Industrial and Field Services which consists of the Industrial Services and Field Services operating segments, Oil Re-refining and Recycling, SK Environmental Services, Lodging Services and Oil and Gas Field Services. The prior year segment information has been recast to conform to the current year presentation.

The following table reconciles third party revenues to direct revenues for the three and nine months ended September 30, 2014 and 2013 (in thousands):

Third party revenue is revenue billed to outside customers by a particular segment. Direct revenue is revenue allocated to the segment performing the provided service. Intersegment revenues represent the sharing of third party revenues among the segments based on products and services provided by each segment as if the products and services were sold directly to the third party. The intersegment revenues are shown net. The negative intersegment revenues are due to more transfers out of customer revenues to other segments than transfers in of customer revenues from other segments. The operations not managed through the Company's six reportable segments are recorded as "Corporate Items." Corporate Items revenues consist of two different operations for which the revenues are insignificant. Corporate Items cost of revenues represents certain central services that are not allocated to the six segments for internal reporting purposes. Corporate Items selling, general and administrative expenses include typical corporate

items such as legal, accounting and other items of a general corporate nature that are not allocated to the Company's six reportable segments. Performance of the segments is evaluated on several factors, of which the primary financial measure is "Adjusted EBITDA," which consists of net (loss) income plus accretion of environmental liabilities, depreciation and amortization, net interest expense, provision for income taxes, other non-cash charges not deemed representative of fundamental segment results and excludes other (income) expense. Transactions between the segments are accounted for at the Company's best estimate based on similar transactions with outside customers.

Table of Contents

The following table presents Adjusted EBITDA information used by management for each reportable segment (in thousands). The Company does not allocate interest expense, income taxes, depreciation, amortization, accretion of environmental liabilities, other non-cash charges not deemed representative of fundamental segment results, and other (income) expense to its segments.

**(18) GUARANTOR AND NON-GUARANTOR SUBSIDIARIES FINANCIAL INFORMATION**

The 2020 Notes and 2021 Notes are guaranteed by substantially all of the Company's subsidiaries organized in the United States. Each guarantor for the 2020 Notes and 2021 Notes is a 100% owned subsidiary of the Company and its guarantee is both full and unconditional and joint and several. The 2020 Notes and 2021 Notes are not guaranteed by the Company's Canadian or other foreign subsidiaries. The following presents supplemental condensed consolidating financial information for the parent company, the guarantor subsidiaries and the non-guarantor subsidiaries, respectively.

Following is the condensed consolidating balance sheet at September 30, 2014 (in thousands):

|   | Clean<br>Harbors, Inc. | U.S. Guarantor<br>Subsidiaries | Foreign<br>Non-Guarantor<br>Subsidiaries | Consolidating<br>Adjustments | Total       |

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

## Forward-Looking Statements

In addition to historical information, this Quarterly Report on Form 10-Q contains forward-looking statements, which are generally identifiable by use of the words "believes," "expects," "intends," "anticipates," "plans to," "estimates," "projects," similar expressions. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those reflected in these forward-looking statements. Factors that might cause such a difference include, but are not limited to, those discussed under Item 1A, "Risk Factors," in our Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 3, 2014, under Item 1A, "Risk Factors," included in Part II—Other Information in this report, and in other documents we file from time to time with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's opinions only as of the date hereof. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements.

## Highlights

Total revenues in the three and nine months ended September 30, 2014 were \$851.5 million and \$2.56 billion, respectively, compared with \$907.5 million and \$2.63 billion in the three and nine months ended September 30, 2013, respectively. These decreases in total revenues were primarily due to decreases in the Oil and Gas Field Services, Lodging Services and Industrial and Field Services Segments. In addition, the effects of foreign currency translation reduced revenue by approximately 2% in the three and nine months ended September 30, 2014 from the comparable periods in 2013, partially offset by incremental revenues generated from the operations acquired as part of the September 2013 acquisition of Evergreen Oil, Inc. ("Evergreen"). Changes in segment revenues are more fully described in our Segment Performance section below under the heading "Direct Revenues." We reported a loss from operations for the three months ended September 30, 2014 of \$42.7 million and income from operations of \$54.3 million in the nine months ended September 30, 2014, compared with income from operations of \$73.6 million and \$161.7 million in the three and nine months ended September 30, 2013, respectively. Decreases in (loss) income from operations were primarily due to a \$123.4 million goodwill impairment charge recorded on our Oil Re-refining and Recycling reporting unit. Adjusted EBITDA for the three months ended September 30, 2014 increased 5.1% to \$153.4 million from \$146.0 million in the three months ended September 30, 2013 and increased 2.7% to \$391.1 million in the nine months ended September 30, 2014 from \$380.8 million in the nine months ended September 30, 2013. Additional information, including a reconciliation of Adjusted EBITDA to Net (loss) Income, appears below under the heading "Adjusted EBITDA."

## Acquisitions

On September 13, 2013, we acquired 100% of the outstanding common shares of Evergreen for a final purchase price of \$56.3 million in cash, net of cash acquired. Evergreen, headquartered in Irvine, California, specializes in the recovery and re-refining of used oil. Evergreen owns and operates one of the only oil re-refining operations in the western United States and also offers other ancillary environmental services, including parts cleaning and containerized waste services, vacuum services and hazardous waste management services. The acquisition of Evergreen enables us to further penetrate the small quantity waste generator market and further expand its oil re-refining, oil recycling and waste treatment capabilities. Financial information and results of Evergreen have been recorded in our consolidated financial statements since acquisition and are primarily included in the Oil Re-refining and Recycling segment.

On May 30, 2014, the Company acquired certain assets of a privately owned U.S. company which provides carbon treatment systems and rental remediation equipment. The purchase price for the acquisition was \$6.2 million and is subject to customary post-closing purchase price adjustments based upon finalized working capital amounts. The acquired company has been integrated into the Technical Services segment.

## Environmental Liabilities

| (in thousands) | September 30,<br>2014 | December 31,<br>2013 | \$ Change | % Change |
|----------------|-----------------------|----------------------|-----------|----------|
|----------------|-----------------------|----------------------|-----------|----------|

Edgar Filing: CLEAN HARBORS INC - Form 10-Q

|                                      |           |           |          |        |    |
|--------------------------------------|-----------|-----------|----------|--------|----|
| Closure and post-closure liabilities | \$50,126  | \$47,085  | \$3,041  | 6.5    | %  |
| Remedial liabilities                 | 162,875   | 172,498   | (9,623   | ) (5.6 | )  |
| Total environmental liabilities      | \$213,001 | \$219,583 | \$(6,582 | ) (3.0 | )% |

Total environmental liabilities as of September 30, 2014 were \$213.0 million, a decrease of 3.0%, or \$6.6 million, compared to December 31, 2013 primarily due to expenditures and changes in estimates recorded to the statement of income partially offset by accretion.

---

Table of Contents

We anticipate our environmental liabilities, substantially all of which we assumed in connection with our acquisitions, will be payable over many years and that cash flow from operations will generally be sufficient to fund the payment of such liabilities when required. However, events not anticipated (such as future changes in environmental laws and regulations) could require that such payments be made earlier or in greater amounts than currently anticipated, which could adversely affect our results of operations, cash flow and financial condition.

In the nine months ended September 30, 2014, the net reduction in our environmental liabilities from changes in estimates recorded as a benefit within the statement of income was \$3.0 million and primarily related to estimated cost adjustments for remediation across various sites.

Segment data

During the second quarter of 2014, we made changes to the manner in which we manage our business, make operating decisions and assess performance. These changes included the reassignment of certain departments among our operating segments in line with management reporting changes as well as the identification of Lodging Services as an additional segment. Under the new structure, our operations are managed in six reportable segments: Technical Services, Industrial and Field Services which consists of the Industrial Services and Field Services operating segments, Oil Re-refining and Recycling, SK Environmental Services, Lodging Services and Oil and Gas Field Services. The following discussion and related prior year segment information has been recast to conform to the current year presentation.

Performance of our segments is evaluated on several factors of which the primary financial measure is Adjusted EBITDA. The following tables set forth certain operating data associated with our results of operations and summarize Adjusted EBITDA contribution by reportable segment for the three and nine months ended September 30, 2014 and 2013 (in thousands).

1. Third party revenue is revenue billed to outside customers by a particular segment. Direct revenue is revenue allocated to the segment performing the provided service.

2. Corporate Items revenues and costs of revenues for the nine months ended September 30, 2013 includes purchase price measurement period adjustments.

3. Cost of revenue is shown exclusive of items shown separately on the statements of income which consist of (i) accretion of environmental liabilities and (ii) depreciation and amortization.

Table of Contents

## Direct Revenues

There are many factors which have impacted, and continue to impact, our revenues. These factors include, but are not limited to: foreign currency translation, acquisitions, the general conditions of the oil and gas industries, competitive industry pricing, the effects of fuel prices on our fuel recovery fees, and the level of emergency response projects.

Technical Services revenues increased \$7.6 million and \$37.2 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to increased sales in our treatment, storage and disposal network as a result of higher pricing. Our landfill volumes and incineration utilization remained approximately flat in the nine months ended September 30, 2014 from the comparable period in 2013.

Industrial and Field Services revenues decreased \$12.3 million and \$30.1 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013. The decrease was primarily due to decreased activity in the oil sands region, cyclicity of scheduled plant turnarounds and the effects of foreign currency translation.

Oil Re-refining and Recycling revenues increased \$1.4 million and \$6.5 million, in the three and nine months ended September 30, 2014 from the comparable periods in 2013. The increase was primarily due to increased volumes resulting from our acquisition of Evergreen on September 13, 2013, partially offset by lower sales prices for both base and blended oils. In addition, revenues were negatively impacted, as compared to the three and nine months ended September 30, 2013, by the effects of foreign currency translation.

SK Environmental Services revenues increased \$4.9 million in the three months ended September 30, 2014 from the comparable period in 2013 primarily due to increased revenues in our branch network partially offset by lower refined fuel oil sales. SK Environmental Services revenues decreased \$12.7 million in the nine months ended September 30, 2014 from the comparable period in 2013 primarily due to system integration changes, which occurred in May of 2013 and changed the manner by which waste is tracked across the Company's disposal network, and lower refined fuel oil sales period over period.

Lodging Services revenues decreased \$19.2 million and \$20.4 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to lower utilization of our camps and catering facilities as well as decreased camp manufacturing revenue. In addition, revenues were negatively impacted, as compared to the three and nine months ended September 30, 2013, by the effects of foreign currency translation.

Oil and Gas Field Services revenues decreased \$37.2 million and \$63.5 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013. These decreases were primarily due to lower levels of activity and project delays in exploration, event and project related work which occurred in the third quarter of 2013 and did not reoccur in 2014, overall decreased pricing pressures, and the effects of foreign currency translation.

Corporate Items revenues during the nine months ended September 30, 2013 included the impact of purchase accounting adjustments to deferred revenue balances that did not reoccur in 2014.

## Cost of Revenues

We believe that our ability to manage operating costs is important to our ability to remain price competitive. We continue to upgrade the quality and efficiency of our waste treatment services through the development of new technology and continued modifications at our facilities, and implementation of strategic sourcing initiatives.

Technical Services cost of revenues increased \$0.9 million and \$11.7 million in the three and nine months ended September 30, 2014 from the comparable period in 2013 primarily due to increases in materials and supplies, outside transportation and utilities as a result of the incremental revenue generated during the periods. Profit margins have improved due to overall mix of waste handled and greater operating efficiencies.

Industrial and Field Services cost of revenues decreased \$4.5 million and \$19.9 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to decreased revenues in both periods.

Oil Re-refining and Recycling cost of revenues decreased \$0.9 million in the three months ended September 30, 2014 from the comparable period in 2013 primarily due to reduced inventory costs partially offset due to the cost of the incremental revenue from our acquisition of Evergreen on September 13, 2013. Oil Re-refining and Recycling cost of revenues increased \$6.6 million in the nine months ended September 30, 2014 from the comparable period in 2013 primarily due to the cost of the incremental revenue from our acquisition of Evergreen on September 13, 2013.

Table of Contents

SK Environmental Services cost of revenues decreased \$4.3 million in the three months ended September 30, 2014 from the comparable period in 2013 primarily due to cost saving initiatives relative to materials and vehicle related expenses. SK Environmental Services cost of revenues decreased \$13.8 million in the nine months ended September 30, 2014 from the comparable period in 2013 primarily due to system changes which occurred in May of 2013 and impacted how intercompany disposal charges are recorded between the SK Environmental Services segment and the Technical Services segment and lower refined fuel oil sales period-over-period.

Lodging Services cost of revenues decreased \$13.4 million and \$6.7 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to decreased revenues in both periods.

Oil and Gas Field Services cost of revenues decreased \$24.4 million and \$36.7 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to salaries, internal maintenance expense and equipment repairs in connection with overall lower business activity and revenues.

**Selling, General and Administrative Expenses**

Technical Services selling, general and administrative expenses decreased \$1.4 million and remained approximately flat in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to cost saving initiatives partially offset by an increase in variable compensation.

Industrial and Field Services selling, general and administrative expenses decreased \$1.4 million and \$2.3 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to cost saving initiatives

Oil Re-refining and Recycling selling, general and administrative expenses decreased \$0.6 million and \$2.6 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to cost saving initiatives.

SK Environmental Services selling, general and administrative expenses increased \$1.5 million and \$0.4 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to an increase in variable compensation partially offset by cost saving initiatives.

Lodging Services selling, general and administrative expenses remained approximately flat and decreased \$0.4 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to cost saving initiatives.

Oil and Gas Field Services selling, general and administrative expenses decreased \$1.8 million and \$2.0 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to to cost saving initiatives.

Corporate Items selling, general and administrative expenses decreased \$11.1 million and \$25.4 million for the three and nine months ended September 30, 2014, as compared to the same periods in 2013 primarily due to cost saving initiatives, lower variable compensation and acquisition related costs that did not reoccur in the nine months ended 2014.

**Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA")**

Management considers Adjusted EBITDA to be a measurement of performance which provides useful information to both management and investors. Adjusted EBITDA should not be considered an alternative to net (loss) income or other measurements under generally accepted accounting principles ("GAAP"). Adjusted EBITDA is not calculated identically by all companies, therefore our measurements of Adjusted EBITDA may not be comparable to similarly titled measures reported by other companies.

We use Adjusted EBITDA to enhance our understanding of our operating performance, which represents our views concerning our performance in the ordinary, ongoing and customary course of our operations. We historically have found it helpful, and believe that investors have found it helpful, to consider an operating measure that excludes certain expenses relating to transactions not reflective of our core operations.

The information about our operating performance provided by this financial measure is used by our management for a variety of purposes. We regularly communicate Adjusted EBITDA results to our lenders and to our board of directors and discuss with the board our interpretation of such results. We also compare our Adjusted EBITDA performance against internal targets as a key factor in determining cash bonus compensation for executives and other employees, largely because we believe that this measure is indicative of how the fundamental business is performing and is being

managed.

We also provide information relating to our Adjusted EBITDA so that analysts, investors and other interested persons have the same data that we use to assess our core operating performance. We believe that Adjusted EBITDA should be viewed only as a supplement to the GAAP financial information. We also believe, however, that providing this information in addition to, and together with, GAAP financial information permits the foregoing persons to obtain a better understanding of our core operating performance

31

| Depreciation of fixed assets        | \$56,774                   | \$54,995           | \$1,779                  | 3.2 %                   | \$167,711                 | \$157,900          | \$9,811                  | 6.2 %                   |
| Landfill and other amortization     | 13,275                     | 14,435             | (1,160 )                 | (8.0 ) %                | 37,769                    | 39,004             | (1,235 )                 | (3.2 ) %                |
| Total depreciation and amortization | \$70,049                   | \$69,430           | \$619                    | 0.9 %                   | \$205,480                 | \$196,904          | \$8,576                  | 4.4 %                   |

Depreciation and amortization increased \$0.6 million and \$8.6 million, in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to a larger fixed asset base partially offset by lower amortization.

## (Loss) income from operations

|                               | For the Three Months Ended |                    |                          |                         | For the Nine Months Ended |                    |                          |                         |
|-------------------------------|----------------------------|--------------------|--------------------------|-------------------------|---------------------------|--------------------|--------------------------|-------------------------|
|                               | September 30, 2014         | September 30, 2013 | 2014 over 2013 \$ Change | 2014 over 2013 % Change | September 30, 2014        | September 30, 2013 | 2014 over 2013 \$ Change | 2014 over 2013 % Change |
| (Loss) income from operations | \$(42,748 )                | \$73,608           | \$(116,356)              | (158.1 )%               | \$54,273                  | \$161,679          | \$(107,406)              | (66.4 )%                |

(Loss) income from operations decreased \$116.4 million and \$107.4 million in the three and nine months ended September 30, 2014 from the comparable periods in 2013 primarily due to a goodwill impairment charge of \$123.4 million on our Oil Re-refining and Recycling reporting unit.

## Other Income (Expense)

|                        | For the Three Months Ended |                    |                          |                         | For the Nine Months Ended |                    |                          |                         |
|------------------------|----------------------------|--------------------|--------------------------|-------------------------|---------------------------|--------------------|--------------------------|-------------------------|
|                        | September 30, 2014         | September 30, 2013 | 2014 over 2013 \$ Change | 2014 over 2013 % Change | September 30, 2014        | September 30, 2013 | 2014 over 2013 \$ Change | 2014 over 2013 % Change |
| Other income (expense) | \$613                      | \$(150 )           | \$763                    | 508.7 %                 | \$4,136                   | \$2,030            | \$2,106                  | 103.7 %                 |

Other income (expense) increased \$0.8 million in the three months ended September 30, 2014 from the comparable period in 2013 primarily due to gains on the sale of fixed assets.

Other income (expense) increased \$2.1 million in the nine months ended September 30, 2014 from the comparable period in 2013 primarily due to gains recognized from the sale of available-for-sale securities which occurred in 2014.

Table of Contents

## Provision for Income Taxes

|                            | For the Three Months Ended |          |                |          | For the Nine Months Ended |          |                |          |          |
|----------------------------|----------------------------|----------|----------------|----------|---------------------------|----------|----------------|----------|----------|
|                            | September 30,              |          | 2014 over 2013 |          | September 30,             |          | 2014 over 2013 |          |          |
|                            | 2014                       | 2013     | \$ Change      | % Change | 2014                      | 2013     | \$ Change      | % Change | % Change |
| Provision for income taxes | \$31,708                   | \$18,771 | \$12,937       | 68.9 %   | \$55,684                  | \$36,160 | \$19,524       | 54.0 %   | %        |

Income tax expense for the three and nine months ended September 30, 2014 increased \$12.9 million and \$19.5 million as compared to the comparable periods in 2013. The increase is a result of increased taxable income in 2014 as compared to 2013, a \$1.2 million income tax charge to record an audit settlement, and \$9.2 million discrete tax charge to reduce a deferred tax.

A valuation allowance is required to be established when, based on an evaluation of available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. At September 30, 2014 and December 31, 2013, we had a remaining valuation allowance of \$28.6 million and \$29.7 million, respectively. The allowance as of September 30, 2014 consisted of \$13.4 million of foreign tax credits, \$5.9 million of state net operating loss carryforwards, \$7.5 million of foreign net operating loss carryforwards and \$1.8 million for the deferred tax assets of a Canadian subsidiary. The allowance as of December 31, 2013 consisted of \$13.4 million of foreign tax credits, \$7.0 million of state net operating loss carryforwards, \$7.5 million of foreign net operating loss carryforwards and \$1.8 million for the deferred tax assets of a Canadian subsidiary.

## Liquidity and Capital Resources

| (in thousands)                        | For the Nine Months Ended |           |
|---------------------------------------|---------------------------|-----------|
|                                       | 2014                      | 2013      |
| Net cash from operating activities    | \$196,039                 | \$280,114 |
| Net cash used in investing activities | (190,696)                 | (267,767) |
| Net cash from financing activities    | (53,077)                  | 9,678     |
| Net cash from operating activities    |                           |           |

Net cash from operating activities for the nine months ended September 30, 2014 was \$196.0 million, a decrease of 30.0%, or \$84.1 million, compared with net cash from operating activities for the comparable period in 2013. The change was primarily the result of a net increase in working capital driven by the payment of liabilities existing at the beginning of the period.

## Net cash used in investing activities

Net cash used in investing activities for nine months ended September 30, 2014 was \$190.7 million, a decrease of 28.8% compared with \$267.8 million of cash used in investing activities for the comparable period in 2013. The change was primarily the result of decreases in capital expenditures and proceeds received from the sale of marketable securities offset by cash paid for an acquisition.

## Net cash from financing activities

Net cash from financing activities for the nine months ended September 30, 2014 was an outflow of \$53.1 million, compared to net inflows of cash from financing activities of \$9.7 million for the comparable period in 2013. The change in net cash from financing activities during the nine months ended September 30, 2014 was primarily due to repurchases of common stock made in the first nine months of 2014 and repayment of long term obligations.

## Working Capital

We intend to use our existing cash and cash equivalents and cash flows from operations primarily to provide for our working capital needs and to fund capital expenditures and potential future acquisitions. We anticipate that our operating cash flow will provide the necessary funds on both a short- and long-term basis to meet operating cash requirements.

At September 30, 2014, cash and cash equivalents totaled \$258.0 million, compared to \$310.1 million at December 31, 2013. At September 30, 2014, cash and cash equivalents held by foreign subsidiaries totaled \$92.5 million and were readily convertible into other foreign currencies including U.S. dollars. At September 30, 2014, the cash and cash equivalent balances for our U.S. operations were \$165.5 million. Our U.S. operations had net operating

cash from operations of \$93.4 million for the nine months ended September 30, 2014. Additionally, we have available a \$400.0 million revolving credit facility of which \$262.1 million was available to borrow at September 30, 2014. Based on the above and on our current plans, we believe that our U.S. operations have adequate financial resources to satisfy their liquidity needs without being required to repatriate earnings from foreign

Table of Contents

subsidiaries. Accordingly, although repatriation to the U.S. of foreign earnings would generally be subject to U.S. income taxation, net of any available foreign tax credits, we have not recorded any deferred tax liability related to such repatriation since we intend to permanently reinvest foreign earnings outside the U.S.

We assess our liquidity in terms of our ability to generate cash to fund our operating, investing, and financing activities. Our primary ongoing cash requirements will be to fund operations, capital expenditures, interest payments and investments in line with our business strategy. We believe our future operating cash flows will be sufficient to meet our future operating and investing cash needs as well as any cash needs relating to the stock repurchase program. Furthermore, the existing cash balances and the availability of additional borrowings under our revolving credit facility provide potential sources of liquidity should they be required.

**Common Stock Repurchase Program**

On February 25, 2014, our board of directors authorized the repurchase of up to \$150 million of our common stock. We intend to fund the repurchases through available cash resources. The repurchase program authorizes us to purchase our common stock on the open market from time to time. The share repurchases will be made in a manner that complies with applicable U.S. securities laws. The number of shares purchased and the timing of the purchases will depend on a number of factors, including share price, cash required for future business plans, trading volume and other conditions. We have no obligation to repurchase stock under this program and may suspend or terminate the repurchase program at any time. As of September 30, 2014, we had repurchased and retired a total of approximately 923,000 shares of our common stock for approximately \$53.8 million under this program. As of September 30, 2014, an additional \$96.2 million remains available for repurchase of shares under the current authorized program.

**Financing Arrangements**

The financing arrangements and principal terms of our \$800.0 million principal amount of 5.25% senior unsecured notes due 2020 and \$595.0 million principal amount of 5.125% senior unsecured notes due 2021 which were outstanding at September 30, 2014, and our \$400.0 million revolving credit facility, are discussed further in Note 10, "Financing Arrangements," to our consolidated financial statements included in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2013.

As of September 30, 2014, we were in compliance with the covenants of all of our debt agreements, and we believe it is reasonably likely that we will continue to meet such covenants.

**Capital Expenditures**

We anticipate that 2014 capital spending will be approximately \$250 million, which includes our incinerator project in El Dorado. However, changes in environmental regulations could require us to make significant capital expenditures for our facilities and adversely affect our results of operations and cash flow.

**Critical Accounting Policies and Estimates**

Other than described below there were no material changes in the first nine months of 2014 to the information provided under the heading "Critical Accounting Policies and Estimates" included in our Annual Report on Form 10-K for the year ended December 31, 2013.

**Goodwill.** Goodwill is not amortized but is reviewed for impairment annually as of December 31, or when events or changes in the business environment would more likely than not reduce the fair value of a reporting unit below its carrying value. If the fair value is less than the carrying amount, a more detailed analysis is performed to determine if goodwill is impaired. The loss, if any, is measured as the excess of the carrying value of the goodwill over the implied value of the goodwill.

We determine our reporting units by identifying the components of each operating segment, and then aggregate components having similar economic characteristics based on quantitative and / or qualitative factors. At September 30, 2014 and December 31, 2013, we had seven reporting units. The Technical Services, Industrial Services, Field Services, Oil Re-refining and Recycling, SK Environmental Services, Lodging Services and Oil and Gas Field Services operating segments each constitute a reporting unit.

We conducted our annual impairment test of goodwill for all of our reporting units as of December 31, 2013 and determined that no adjustment to the carrying value of goodwill for any reporting unit was necessary because the fair value of each of the reporting units exceeded that reporting unit's respective carrying value.

During the first and second quarters of 2014 we considered both external and business specific circumstances impacting the Oil Re-refining and Recycling reporting unit and concluded that an interim goodwill impairment test was not necessary. However, as of September 30, 2014 and principally resulting from current decreases in the market prices of oil products sold by the reporting unit

34

---

Table of Contents

which negatively impacts anticipated revenue and earnings levels, we concluded that an interim goodwill impairment test was required.

In performing Step I of the goodwill impairment test, the estimated fair value of the Oil Re-refining and Recycling reporting unit was determined using an income approach and was compared to that reporting unit's estimated carrying value as of September 30, 2014. Based on the results of that valuation, the carrying amount of the reporting unit, including \$174.3 million of goodwill, exceeded the estimated fair value and as a result we performed Step II of the goodwill impairment test to determine the amount of goodwill impairment charge to be recorded.

Step II of the goodwill impairment test requires us to perform a theoretical purchase price allocation for the reporting unit to determine the implied fair value of goodwill and to compare the implied fair value of goodwill to the recorded amount of goodwill. The estimate of fair value requires significant judgment. Based on the results of the goodwill impairment test we recognized a goodwill impairment charge of \$123.4 million.

The factors contributing to the \$123.4 million goodwill impairment charge principally relate to current decreases in the market prices of base and blended oil products. These factors caused us, relative to the 2013 impairment test, to lower assumptions for future revenues and profits of the business and adversely affected the estimated fair value of the reporting unit.

The fair value of the Oil and Gas Field Services reporting unit exceeded its carrying value by more than 10% at December 31, 2013. The financial performance of this reporting unit, which had a goodwill balance of approximately \$34.9 million at September 30, 2014, was affected in the nine months ended September 30, 2014 by pricing pressures and lower levels of overall activity in the markets and regions that the business serves.

During the interim periods of fiscal year 2014 and with respect to the Oil and Gas Field Services reporting unit, we considered whether (i) the lower than anticipated results (ii) general economic and industry conditions, and (iii) reporting unit specific factors would more likely than not reduce the estimated fair values of its reporting units below their carrying values. We did not perform an interim test for impairment of goodwill related to the Oil and Gas Field Services reporting unit as we do not believe the factors impacting the performance of this reporting unit, through September 30, 2014, would more likely than not reduce the fair value below its carrying value.

Significant judgments and unobservable inputs categorized as level III in the fair value hierarchy are inherent in the annual impairment tests performed and include assumptions about the amount and timing of expected future cash flows, growth rates, and the determination of appropriate discount rates. We believes that the assumptions used in its annual and interim date impairment tests are reasonable, but variations in any of the assumptions may result in different calculations of fair values that could result in a material impairment charge.

The performance of our reporting units will continue to be monitored. If our reporting units do not achieve the financial performance that we expect, it is possible that an additional goodwill impairment charge may result. There can therefore be no assurance that future events will not result in an impairment of goodwill.

As a result of the goodwill impairment charge recorded by the Oil Re-refining and Recycling reporting unit during the third quarter, we also considered whether the reporting units' carrying values of finite-lived intangible and other long lived assets may not be entirely recoverable or whether the carrying value of certain indefinite lived intangibles were impaired. As a result of these analyses it was concluded that no impairment of intangible or other long lived assets exist.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There were no material changes in the first nine months of 2014 to the information provided under Item 7A. “Quantitative and Qualitative Disclosures about Market Risk” in the Company's Annual Report on Form 10-K for the year ended December 31, 2013.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, as of the end of the period covered by this Quarterly Report on 10-Q, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) were effective as of September 30, 2014 to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in the Company’s internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that was conducted during the quarter ending September 30, 2014 that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

| September 1, 2014 through September 30, 2014 | 253,586                                    | \$55.46                                | 250,000   | \$96,207,259  |
| Total  | 657,509                                    | \$57.83                                | 649,600   | \$96,207,259  |

(1) Includes 7,909 shares withheld by us from employees to satisfy employee tax obligations upon vesting of restricted stock units granted to our employees under our long-term equity incentive programs.

(2) The average price paid per share of common stock repurchased under the stock repurchase program includes the commissions paid to the brokers.

On February 25, 2014, our board of directors authorized the repurchase of up to \$150 million of our common stock. We intend to fund the repurchases through available cash resources. The stock repurchase program authorizes us to purchase our common stock on the open market from time to time. The stock repurchases will be made in a manner that complies with applicable U.S. securities laws. The number of shares purchased and the timing of the purchases will depend on a number of factors, including share price, cash required for future business plans, trading volume and other conditions. We have no obligation to repurchase stock under this program and may suspend or terminate the repurchase program at any time.
