SCHOLASTIC CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – UNAUDITED

(Dollar amounts in millions, except per share data)

1. BASIS OF PRESENTATION

Principles of consolidation

The accompanying condensed consolidated financial statements include the accounts of Scholastic Corporation (the “Corporation”) and all wholly-owned and majority-owned subsidiaries (collectively, “Scholastic” or the “Company”). Intercompany transactions are eliminated in consolidation. These financial statements have not been audited but reflect those adjustments consisting of normal recurring items that management considers necessary for a fair presentation of financial position, results of operations, comprehensive income (loss) and cash flows. These financial statements should be read in conjunction with the consolidated financial statements and related notes in the Annual Report on Form 10-K for the fiscal year ended May 31, 2015 (the “Annual Report”).

The Company’s fiscal year is not a calendar year. Accordingly, references in this document to fiscal 2015 relate to the twelve-month period ended May 31, 2015.

Seasonality

The Company’s Children’s Book Publishing and Distribution school-based book fair and book club channels and most of its Education businesses operate on a school-year basis; therefore, the Company’s business is highly seasonal. As a result, the Company’s revenues in the first and third quarters of the fiscal year generally are lower than its revenues in the other two fiscal quarters. Typically, school-based channel and magazine revenues are minimal in the first quarter of the fiscal year as schools are not in session. Trade sales can vary through the year due to varying release dates of published titles. The Company generally experiences a loss from operations in the first and third quarters of each fiscal year.

Use of estimates

The Company’s condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States and with the instructions to Form 10-Q and Regulation S-X. The preparation of these financial statements involves the use of estimates and assumptions by management, which affects the amounts reported in the condensed consolidated financial statements and accompanying notes. The Company bases its estimates on historical experience, current business factors, and various other assumptions believed to be reasonable under the circumstances, all of which are necessary in order to form a basis for determining the carrying values of assets and liabilities. Actual results may differ from those estimates and assumptions. On an on-going basis, the Company evaluates the adequacy of its reserves and the estimates used in calculations, including, but not limited to:

- Accounts receivable reserves for returns
- Accounts receivable allowance for doubtful accounts
- Pension and other post-retirement obligations
- Uncertain tax positions
- Inventory reserves
- Cost of goods sold from book fair operations during interim periods determined based on estimated gross profit rates
- Sales taxes

Royalty accruals and related advance reserves

Customer reward programs

Impairment testing for goodwill for assessment and measurement, intangibles and other long-lived assets and investments.

New Accounting Pronouncements

ASU 2015-17

In November 2015, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2015-17, Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes. This ASU eliminates the current requirement for entities to present deferred tax liabilities and assets as current and

SCHOLASTIC CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – UNAUDITED

(Dollar amounts in millions, except per share data)

noncurrent in a classified statement of financial position and instead requires that deferred income tax liabilities and assets be classified as noncurrent in a classified statement of financial position. For public business entities, the amendments in this update are effective for financial statements issued for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Earlier application is permitted as of the beginning of an interim or annual reporting period. The Company will elect an early application for its fiscal year ending May 31, 2016, and will present the net deferred tax assets as noncurrent and reclassify any current deferred tax assets in its consolidated financial position on a retrospective basis.

ASU 2015-16

In September 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments. This ASU eliminates the requirement under the current guidance that an acquirer retrospectively adjust provisional amounts recognized in a business combination during the measurement period. The measurement period is up to one year from the date of the acquisition. The update requires that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined, and, that the acquirer records, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. The financial statements should also separately present on the face of the income statement, or disclose in the footnotes, the amount of adjustments recorded in the current period by line item that would have been recorded in prior periods had the adjustment been made at the date of acquisition. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years, and should be applied prospectively to provisional amount adjustments that occur after the effective date. Earlier application is permitted as of the beginning of an interim or annual reporting period. The Company has not chosen early adoption for fiscal 2016 and therefore the amendments in this update will be effective beginning in the first quarter of fiscal 2017. The Company does not expect the amendments in this update to have a material impact on its consolidated financial position, results of operations and cash flows.

ASU 2015-11

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory, as part of its Simplification Initiative. The update is designed to reduce the complexity related to the subsequent measurement of inventory. It changes the measurement principle for inventory from the lower of cost or market to the lower of cost and net realizable value. The new update requires entities that measure inventory using any method other than last-in, first-out or the retail inventory method to measure inventory at the lower of cost and net realizable value. If net realizable value of inventory is lower than inventory cost, the difference is recognized as a loss in earnings in the period in which it occurs. For public business entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. The amendments should be applied prospectively and earlier application is permitted as of the beginning of an interim or annual reporting period. The Company has not chosen early adoption for fiscal 2016 and therefore the amendments in this update will be effective beginning in the first quarter of fiscal 2017. The Company does not expect the amendments in this update to have a material impact on its consolidated financial position, results of operations and cash flows.

ASU 2014-09 and ASU 2015-14:

In May 2014, the FASB announced that it is amending the FASB Accounting Standards Codification by issuing Topic 606, Revenue from Contracts with Customers, at the same time as the International Accounting Standards Board (the "IASB") is issuing International Financial Reporting Standards 15, Revenue from Contracts with Customers. The

issuance of this authoritative guidance completes the joint effort by the FASB and the IASB to clarify the principles for recognizing revenue and improve financial reporting by creating common revenue recognition guidance.

The authoritative guidance provides that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

To achieve that core principle, an entity should apply the following steps:

Step 1: Identify the contract(s) with a customer.

SCHOLASTIC CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – UNAUDITED

(Dollar amounts in millions, except per share data)

Step 2: Identify the performance obligations in the contract.

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price to the performance obligations in the contract.

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

Additionally, the guidance requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. The update provides guidance for transactions that are not otherwise addressed comprehensively in authoritative guidance (for example, service revenue, contract modifications, and licenses of intellectual property). The amendments in this update are to be applied on a retrospective basis, either to each prior reporting period presented or by presenting the cumulative effect of applying the update recognized at the date of initial application.

In August 2015, the FASB issued Accounting Standards Update 2015-14-Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which deferred the effective date established in ASU 2014-09. The amendments in ASU 2014-09 are now effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early application is not permitted. The Company is evaluating the adoption methodology and the impact of this update on its consolidated financial position, results of operations and cash flows.

2. DISCONTINUED OPERATIONS

The Company continuously evaluates its portfolio of businesses for both impairment and economic viability, as well as for possible strategic dispositions. The Company monitors the expected cash proceeds to be realized from the disposition of discontinued operations' assets, and adjusts asset values accordingly.

During the six month period ended November 30, 2015, there were no transactions that were classified as discontinued operations. During fiscal 2015, the Company closed or sold several operations. All of these businesses are classified as discontinued operations in the Company's condensed consolidated financial statements.

Educational Technology and Services Business

On May 29, 2015, the Company completed the sale of substantially all of the assets comprising its former educational technology and services ("Ed Tech") business and categorized this business as a discontinued operation. The consideration received was \$577.7, of which \$34.5 was deposited in escrow as security for potential indemnification and other obligations and \$2.7 was received in estimated working capital adjustments. In connection with the sale of the Ed Tech business to the purchaser, the Company entered into a transition services agreement whereby the Company will provide administrative, distribution and other services to the purchaser for a minimum of 6 months and up to a maximum of 24 months. Transition service fees under this agreement are recorded as a reduction to Selling, general and administrative expenses.

As of November 30, 2015, a majority of the escrow is subject to release periodically over the next 8 months upon fulfillment of certain service levels under the transition services agreement between the purchaser and the Company and is presented as Restricted cash held in escrow on the condensed consolidated balance sheets. As of November 30, 2015, \$9.8 had been released from Restricted cash held in escrow in accordance with the transition services agreement.

All Other Discontinued Operations

During fiscal 2015, the Company completed a restructuring of the businesses comprising its former Media, Licensing and Advertising segment and discontinued a subscription-based print magazine business, the animation and audio production business, and the game console digital content business, all of which were previously reported in such segment.

As of November 30, 2015 and May 31, 2015, assets and liabilities of discontinued operations primarily related to insignificant continuing cash flows from passive activities. As of May 31, 2015, other accrued expenses within the current liabilities of discontinued operations included payables for accrued costs of \$12.2 related to the sale of the Ed Tech business that had not been paid as of May 31, 2015. These costs directly relate to the discontinued operations of the Ed Tech business and a majority have been or are expected to be paid in fiscal 2016.

3. SEGMENT INFORMATION

The Company categorizes its businesses into three reportable segments: Children's Book Publishing and Distribution; Education; and International. This classification reflects the nature of products and services consistent with the method by which the Company's chief operating decision-maker assesses operating performance and allocates resources.

Children's Book Publishing and Distribution operates as an integrated business which includes the publication and distribution of children's books, ebooks, media and interactive products in the United States through its book clubs and book fairs in its school channels and through the trade channel. This segment is comprised of three operating segments.

Education includes the publication and distribution to schools and libraries of children's books, classroom magazines, supplemental classroom materials and print and on-line reference and non-fiction products for grades pre-kindergarten to 12 in the United States. This segment is comprised of two operating segments.

International includes the publication and distribution of products and services outside the United States by the Company's international operations, and its export and foreign rights businesses. This segment is comprised of three operating segments.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – UNAUDITED

(Dollar amounts in millions, except per share data)

As indicated in Note 2, “Discontinued Operations,” the Company closed or sold several operations during fiscal (1)2015. All of these businesses are classified as discontinued operations in the Company’s financial statements and, as such, are not reflected in this table.

Overhead includes all domestic corporate amounts not allocated to segments, including expenses and costs related (2) to the management of corporate assets. Unallocated assets are principally comprised of deferred income taxes and property, plant and equipment related to the Company’s headquarters in the metropolitan New York area, its fulfillment and distribution facilities located in Missouri and its facility located in Connecticut.

(3) Includes depreciation of property, plant and equipment and amortization of intangible assets and prepublication and production costs.

4. DEBT

The following table summarizes the carrying value of the Company's debt as of the dates indicated:

	November 30, 2015	May 31, 2015	November 30, 2014
Loan Agreement:			
Revolving Loan (interest rates of n/a, n/a and 1.4%, respectively)	\$—	\$—	\$95.0

Loan Agreement

Scholastic Corporation and Scholastic Inc. (each, a “Borrower” and together, the “Borrowers”) are parties to a \$425.0 credit facility with certain banks (as amended, the “Loan Agreement”), which allows the Company to borrow, repay or prepay and reborrow at any time prior to the December 5, 2017 maturity date. Under the Loan Agreement, interest on amounts borrowed thereunder is due and payable in arrears on the last day of the interest period (defined as the period commencing on the date of the advance and ending on the last day of the period selected by the Borrower at the time each advance is made). The interest pricing under the Loan Agreement is dependent upon the Borrower’s election of a

rate that is either:

A Base Rate equal to the higher of (i) the prime rate, (ii) the prevailing Federal Funds rate plus 0.500% or (iii) the Eurodollar Rate for a one month interest period plus 1% plus, in each case, an applicable spread ranging from 0.18% to 0.60%, as determined by the Company's prevailing consolidated debt to total capital ratio.

(Dollar amounts in millions, except per share data)

A Eurodollar Rate equal to the London interbank offered rate (LIBOR) plus an applicable spread ranging from 1.18% to 1.60%, as determined by the Company's prevailing consolidated debt to total capital ratio.

As of November 30, 2015, the indicated spread on Base Rate Advances was 0.18% and the indicated spread on Eurodollar Rate Advances was 1.18%, both based on the Company's prevailing consolidated debt to total capital ratio.

The Loan Agreement also provides for the payment of a facility fee ranging from 0.20% to 0.40% per annum based upon the Company's prevailing consolidated debt to total capital ratio. At November 30, 2015, the facility fee rate was 0.20%.

As of November 30, 2015, the Company had no outstanding borrowings under the Loan Agreement. At November 30, 2015, the Company had open standby letters of credit totaling \$0.4 under the Loan Agreement.

The Loan Agreement contains certain covenants, including interest coverage and leverage ratio tests and certain limitations on the amount of dividends and other distributions, and at November 30, 2015, the Company was in compliance with these covenants.

Lines of Credit

As of November 30, 2015, the Company had domestic unsecured money market bid rate credit lines totaling \$25.0. There were no outstanding borrowings under these credit lines at November 30, 2015, May 31, 2015 or November 30, 2014. At November 30, 2015, the Company had open standby letters of credit totaling \$4.9 under the domestic unsecured money market bid rate credit lines. As of November 30, 2015, availability under these unsecured money market bid rate credit lines totaled \$20.1. All loans made under these credit lines are at the sole discretion of the lender and at an interest rate and term agreed to at the time each loan is made, but not to exceed 365 days. These credit lines may be renewed, if requested by the Company, at the option of the lender.

As of November 30, 2015, the Company had equivalent local currency credit lines totaling \$27.1. Outstanding borrowings under these lines of credit totaled \$12.0, \$6.0 and \$9.2 at November 30, 2015, May 31, 2015 and November 30, 2014, respectively. As of November 30, 2015, the equivalent amounts available totaled \$15.1, underwritten by banks primarily in the United States, Canada and the United Kingdom. These credit lines are typically available for overdraft borrowings or loans up to 364 days and may be renewed, if requested by the Company, at the sole option of the lender.

5. COMMITMENTS AND CONTINGENCIES

Various claims and lawsuits arising in the normal course of business are pending against the Company. The Company accrues a liability for such matters when it is probable that a liability has occurred and the amount of such liability can be reasonably estimated. When only a range can be estimated, the most probable amount in the range is accrued unless no amount within the range is a better estimate than any other amount, in which case the minimum amount in the range is accrued. Legal costs associated with litigation loss contingencies are expensed in the period in which they are incurred. The Company does not expect, in the case of those various claims and lawsuits arising in the normal course of business where a loss is considered probable or reasonably possible, that the reasonably possible losses from such claims and lawsuits (either individually or in the aggregate) would have a material adverse effect on the Company's

consolidated financial position or results of operations.

6. EARNINGS (LOSS) PER SHARE

The following table summarizes the reconciliation of the numerators and denominators for the basic and diluted earnings (loss) per share computation for the three month and six month periods ended November 30, 2015 and 2014, respectively:

Net income (loss)	\$1.84	\$2.05	\$0.44	\$1.04

The following table sets forth Options outstanding pursuant to stock-based compensation plans as of the dates indicated:

	November 30, 2015	November 30, 2014
Options outstanding pursuant to stock-based compensation plans (in millions)	3.4	4.5

Earnings from continuing operations exclude earnings of \$0.1 and less than \$0.1 for the three and six months ended November 30, 2015, respectively, and \$0.1 and less than \$0.1 for the three and six months ended November 30, 2014, respectively, attributable to participating Restricted Stock Units (“RSUs”).

In a period in which the Company reports a discontinued operation, Earnings (loss) from continuing operations is used as the “control number” in determining whether potentially dilutive common shares are dilutive or anti-dilutive. Potentially dilutive shares outstanding pursuant to compensation plans that were not included in the diluted earnings per share calculation because they were anti-dilutive were 0.2 million as of November 30, 2015.

A portion of the Company’s RSUs which are granted to employees participate in earnings through cumulative non-forfeitable dividends payable to the employees upon vesting of the RSUs. Accordingly, the Company measures earnings per share based upon the lower of the Two-class method or the Treasury Stock method. Since, under the Two-class method, losses are not allocated to the participating securities, in periods of loss the Two-class method is not applicable.

As of November 30, 2015, \$59.9 remained available for future purchases of common shares under the current repurchase authorization of the Board of Directors. See Note 12, “Treasury Stock,” for a more complete description of the Company’s share buy-back program.

7. GOODWILL AND OTHER INTANGIBLES

The Company assesses goodwill and other intangible assets with indefinite lives annually or more frequently if impairment indicators are such that the goodwill is more likely than not impaired. The Company continues to monitor impairment indicators in light of changes in market conditions, near and long-term demand for the Company's products and other relevant factors.

The following table summarizes the activity in Goodwill for the periods indicated:

	Six months ended November 30, 2015	Twelve months ended May 31, 2015	Six months ended November 30, 2014
Gross beginning balance	\$155.9	\$156.0	\$156.0

Gross ending balance	\$155.8	\$155.9	\$156.0
Accumulated impairment	(39.6)	(39.6)	(34.2)
Ending balance	\$116.2	\$116.3	\$121.8

In the second quarter of fiscal 2016, the Company acquired 100% of the share capital of a book fairs business located in the United Kingdom and has integrated this business with its existing business in the United Kingdom. As a result, the Company recognized \$1.9 of amortizable intangible assets.

The following table summarizes the activity in Total other intangibles for the periods indicated:

	Six months ended November 30, 2015	Twelve months ended May 31, 2015	Six months ended November 30, 2014
Beginning balance - Other intangibles subject to amortization	\$4.7	\$5.8	\$5.8
Additions	2.4	0.8	0.8
Amortization expense	(1.1)	(1.9)	(1.0)
Total other intangibles subject to amortization, net of accumulated amortization of \$18.4, \$17.3 and \$16.3, respectively	\$6.0	\$4.7	\$5.6
Total other intangibles not subject to amortization	\$2.1	\$2.1	\$2.1
Total other intangibles	\$8.1	\$6.8	\$7.7

Amortization expense for Total other intangibles was \$1.1 and \$1.0 for the six months ended November 30, 2015 and 2014, respectively. Intangible assets with definite lives consist principally of customer lists, covenants not to compete and trademark rights. Intangible assets with definite lives are amortized over their estimated useful lives. The weighted-average remaining useful lives of all amortizable intangible assets is approximately 4 years.

8. ACQUISITIONS

On September 8, 2015, the Company acquired 100% of the share capital of Troubadour, Limited for £2.1 million, net of cash acquired, which was equivalent to approximately \$3.2. Troubadour, Limited operates under the name Travelling Book Company and is one of the UK's leading book fair providers, servicing over 8,000 schools every year. Fair values were assigned to the assets and liabilities acquired, including inventory, trade receivables and payables, a customer list and fixed assets, in addition to cash. The Company utilized internally-developed discounted cash flow forecasts to determine the fair value of the customer list. The fair values of the net assets were \$3.2 which included \$1.9 of intangible assets. The results of operations of this business subsequent to the acquisition are included in the International segment. The transaction was not determined to be material to the Company's results and therefore pro forma financial information is not disclosed.

9. INVESTMENTS

Included in “Other assets and deferred charges” on the Company’s condensed consolidated balance sheets were investments of \$27.2, \$26.3 and \$18.9 at November 30, 2015, May 31, 2015 and November 30, 2014, respectively.

On November 5, 2015, the Company sold a cost method investment in China and received proceeds of \$3.3 resulting in a pretax gain of \$2.2 in the current fiscal quarter ended November 30, 2015.

On March 19, 2015, the Company purchased a 48.5% equity interest in Make Believe Ideas Limited (MBI), a UK-based children's book publishing company. MBI is a highly-regarded publisher of innovative books for children, celebrated for well-designed books that encourage creativity and early learning. Under the purchase agreement, and subject to its provisions, the Company will purchase the remaining outstanding shares in MBI after four years. The remaining controlling interest is held by a single third party and therefore the Company accounted for the investment using the equity method of accounting. The net value of this investment was \$8.2, \$7.3 and \$0.0 at November 30, 2015, May 31, 2015 and November 30, 2014, respectively.

The Company’s 26.2% non-controlling interest in another children’s book publishing business located in the UK is accounted for using the equity method of accounting. The net value of this investment was \$19.0, \$17.9 and \$18.9 at November 30, 2015, May 31, 2015 and November 30, 2014, respectively.

Income from equity investments reported in Selling, general and administrative expenses in the Consolidated Statements of Operations totaled \$2.4 and \$1.7 for the six months ended November 30, 2015 and 2014, respectively.

The Company had cost method investments that had a net value of \$0.0, \$1.1 and \$0.0 at November 30, 2015, May 31, 2015 and November 30, 2014, respectively.

For the year ended May 31, 2015, the Company recognized a pretax gain of \$0.6 on the sale of a UK-based cost method investment that had previously been determined to be other than temporarily impaired.

10. EMPLOYEE BENEFIT PLANS

The following table sets forth components of the net periodic cost (credit) for the periods indicated under the Company’s cash balance retirement plan for its United States employees meeting certain eligibility requirements (the “U.S. Pension Plan”) and the defined benefit pension plan of Scholastic Ltd., an indirect subsidiary of Scholastic Corporation located in the United Kingdom (the “UK Pension Plan” and, together with the U.S. Pension Plan, the “Pension Plans”). Also included are the post-retirement benefits, consisting of certain healthcare and life insurance benefits provided by the Company to its eligible retired United States-based employees (the “Post-Retirement Benefits”). The Pension Plans and Post-Retirement Benefits include participants associated with both continuing operations and discontinued operations.

The Company's funding practice with respect to the Pension Plans is to contribute on an annual basis at least the minimum amounts required by applicable laws. For the six months ended November 30, 2015, the Company made no contribution to the U.S. Pension Plan and contributed \$0.6 to the UK Pension Plan.

The Company expects, based on actuarial calculations, to contribute cash of approximately \$1.3 to the Pension Plans for the fiscal year ending May 31, 2016.

In the current fiscal year, the U.S. Pension Plan's funding status is sufficient to allow participants to receive "lump sum" payments at the participant's request. Under certain circumstances, such lump sum payments must be accounted for as a settlement of the related pension obligation when paid. If these requests exceed \$4.6 in the current fiscal year, the Company will recognize a settlement charge related to net unrecognized pension benefit costs in respect of the lump sum benefit payments made.

11. STOCK-BASED COMPENSATION

The following table summarizes stock-based compensation expense included in Selling, general and administrative expenses for the periods indicated:

	Three months ended		Six months ended

Employee stock purchase plan	0.0	0.1	0.1	0.1
Total stock-based compensation expense	\$5.1	\$5.1	\$6.5	\$6.6

During the three month periods ended November 30, 2015 and 2014, respectively, approximately 0.2 million and 0.1 million shares of Common Stock were issued by the Corporation pursuant to its stock-based compensation plans. For the six month periods ended November 30, 2015 and 2014, respectively, approximately 1.2 million and 0.5 million shares of Common Stock were issued by the Corporation pursuant to its stock-based compensation plans.

For the three and six month periods ended November 30, 2014, total stock-based compensation expense included \$0.6 and \$0.6, respectively, of expenses recognized in discontinued operations.

12. TREASURY STOCK

The Board of Directors (the "Board") has authorized the Company to repurchase Common Stock, from time to time as conditions allow, on the open market or through negotiated private transactions. The table below represents the remaining Board authorization:

Board Authorization	Amount	
September 2010	\$44.0	(a)
Additional authorization July 2015	50.0	
Less repurchases made under the authorization as of September 2010	(34.1))

14. FAIR VALUE MEASUREMENTS

The Company determines the appropriate level in the fair value hierarchy for each fair value measurement of assets and liabilities carried at fair value on a recurring basis in the Company's financial statements. The fair value hierarchy prioritizes the inputs, which refer to assumptions that market participants would use in pricing an asset or liability, based upon the highest and best use, into three levels as follows:

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 Observable inputs other than unadjusted quoted prices in active markets for identical assets or liabilities such as

Quoted prices for similar assets or liabilities in active markets

Quoted prices for identical or similar assets or liabilities in inactive markets

Inputs other than quoted prices that are observable for the asset or liability

Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 Unobservable inputs in which there is little or no market data available, which are significant to the fair value measurement and require the Company to develop its own assumptions.

The Company's financial assets and liabilities measured at fair value consisted of cash and cash equivalents, debt and foreign currency forward contracts. Cash and cash equivalents are comprised of bank deposits and short-term investments, such as money market funds, the fair value of which is based on quoted market prices, a Level 1 fair value measure. The Company employs Level 2 fair value measurements for the disclosure of the fair value of its various lines of credit. The fair value of the Company's debt approximates the carrying value for all periods presented. The fair values of foreign currency forward contracts, used by the Company to manage the impact of foreign exchange

rate changes to the financial statements, are based on quotations from financial institutions, a Level 2 fair value measure. See Note 16, "Derivatives and Hedging," for a more complete description of fair value measurements employed.

Non-financial assets and liabilities for which the Company employs fair value measures on a non-recurring basis include:

- Long-lived assets
- Investments
- Assets acquired in a business combination
- Goodwill and indefinite-lived intangible assets
- Long-lived assets held for sale

Level 2 and level 3 inputs are employed by the Company in the fair value measurement of these assets and liabilities. For the fair value measurements employed by the Company for goodwill see Note 7, "Goodwill and Other Intangibles." For the fair value measurements employed by the Company for certain property, plant and equipment, production assets, investments and prepublication assets, the Company assesses future expected cash flows attributable to these assets.

15. INCOME TAXES AND OTHER TAXES

Income Taxes

In calculating the provision for income taxes on an interim basis, the Company uses an estimate of the annual effective tax rate based upon the facts and circumstances known and applies that rate to its year-to-date earnings or losses. The Company's effective tax rate is based on expected income and statutory tax rates and takes into consideration permanent differences between financial statement and tax return income applicable to the Company in the various jurisdictions in which the Company operates. The effect of discrete items, such as changes in estimates, changes in enacted tax laws or rates or tax status, and unusual or infrequently occurring events, is recognized in the interim period in which the discrete item occurs. The accounting estimates used to compute the provision for income taxes may change as new events occur, additional information is obtained or as the result of new judicial interpretations or regulatory or tax law changes.

The Company's annual effective tax rate, exclusive of discrete items, unbenefitted foreign losses, and release of associated valuation allowances, used to calculate the interim tax provision is expected to be approximately 40.8%. The interim effective tax rate, inclusive of discrete items, was 39.0% and 40.1% for the three and six month periods ended November 30, 2015, respectively.

The Company, including its domestic subsidiaries, files a consolidated U.S. income tax return, and also files tax returns in various states and other local jurisdictions. Also, certain subsidiaries of the Company file income tax returns in foreign jurisdictions. The Company is routinely audited by various tax authorities. The Company is currently under audit by the Internal Revenue Service for fiscal years ended May 31, 2011, 2012 and 2013. The Company is currently under audit by New York City for fiscal years ended May 31, 2008, 2009 and 2010. If any of these tax examinations are concluded within the next twelve months, the Company will make any necessary adjustments to its unrecognized tax benefits.

Non-income Taxes

The Company is subject to tax examinations for sales-based taxes. A number of these examinations are ongoing and, in certain cases, have resulted in assessments from taxing authorities. The Company assesses sales tax contingencies for each jurisdiction in which it operates, considering all relevant facts including statutes, regulations, case law and experience. When a sales tax liability with respect to a particular jurisdiction is probable and can be reliably estimated, the Company has made accruals for these matters which are reflected in the Company's condensed consolidated financial statements. Future developments relating to the foregoing could result in adjustments being made to these accruals.

16. DERIVATIVES AND HEDGING

The Company enters into foreign currency derivative contracts to economically hedge the exposure to foreign currency fluctuations associated with the forecasted purchase of inventory and the foreign exchange risk associated with certain receivables denominated in foreign currencies. These derivative contracts are economic hedges and are not designated as cash flow hedges. The Company marks-to-market these instruments and records the changes in the fair value of these items in Selling, general and administrative expenses in the condensed consolidated statements of operations, and it recognizes the unrealized gain or loss in other current assets or current liabilities. The notional values of the contracts as of November 30, 2015 and 2014 were \$32.3 and \$16.9, respectively. Unrealized gains of \$0.9 and unrealized losses of \$0.8 were recognized at November 30, 2015 and 2014, respectively, for the six month periods then ended.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A")

Overview and Outlook

Revenues from continuing operations in the quarter ended November 30, 2015 were \$601.8 million, compared to \$611.1 million in the prior fiscal year quarter, a decrease of \$9.3 million. The Company reported diluted net income per share of \$1.84 in the fiscal year quarter, compared to \$2.05 per share in the prior fiscal year quarter, which reflects both continuing and discontinued operations. The reported net income for the prior fiscal year quarter reflects the benefit of earnings of the former educational technology and services ("Ed Tech") business which was sold at the end of fiscal 2015 and is reported as a discontinued operation.

The positive global climate for quality children's books continued in the second fiscal year quarter, as evidenced by solid performance in the Company's U.S. book fairs and trade channels, as well as improved results in trade publishing internationally, where the Company achieved trade sales growth in almost every market. These gains, however, were more than offset by declines in the Company's international operations due to the impact of foreign exchange and the effects of a now settled labor action in Ontario schools that resulted in a substantial drop in book club and book fair revenues in the important fall back-to-school months. In addition, the Company's domestic book club business was impacted by later school openings largely as a result of the late Labor Day holiday. Higher circulation in classroom magazines drove higher sales and profits in the Education segment and the Company continues to get a strong response from school and district customers for expanded instructional reading programs and professional learning services.

Results of Operations – Consolidated

Revenues for the quarter ended November 30, 2015 decreased to \$601.8 million, compared to \$611.1 million in the prior fiscal year quarter. The revenue decrease was primarily attributable to the continued strong U.S. dollar, which adversely impacted sales in the Company's International segment by \$17.2 million. In addition, local currency revenues decreased in the Canada operations by \$6.7 million due to the effects of a now settled labor action in Ontario schools that resulted in a substantial drop in book club and book fair revenues in the important fall back-to-school months during the second quarter of the current fiscal year. In the Children's Book Publishing and Distribution segment, the book clubs channel revenue decreased by \$8.6 million due to later school openings resulting from the late Labor Day holiday when compared to the prior fiscal year quarter, and sales in the domestic media operations decreased by \$3.8 million. Partially offsetting the decreases were higher revenues in the Company's book fairs channel of \$13.9 million due to an increase in the number of fairs held and in revenue per fair, increased local currency revenues of \$7.0 million in international operations other than Canada driven by the Australia trade channel and UK book fairs, increased demand for domestic Trade frontlist titles which resulted in higher sales in the non-media operations of the trade channel of \$3.9 million and increased revenues in the Education segment of \$2.2 million driven by higher classroom magazine circulation and increased sales of digital and custom publishing programs.

Revenues for the six month period ended November 30, 2015 decreased to \$793.0 million, compared to \$801.6 million in the prior fiscal year period. The revenue decrease was primarily attributable to the strong U.S. dollar which adversely impacted the revenues in the Company's International segment by \$28.9 million. In addition, local currency revenues decreased in the Canada operations by \$6.8 million due to the effects of the now settled labor action in Ontario schools. In the Children's Book Publishing and Distribution segment, the Company experienced lower sales in the domestic media operations of \$5.8 million and lower sales in the book clubs channel of \$8.9 million, consistent with the quarterly results from the second fiscal year quarter, as this channel does not experience significant revenues in the first quarter of the fiscal year. Partially offsetting the decreases were higher revenues in the Company's book fairs channel of \$14.8 million due to an increase in the number of fairs held and in revenue per fair, increased demand for domestic Trade frontlist titles resulting in higher sales in the non-media operations of the trade channel of \$14.4 million, increased local currency revenues in international operations other than Canada of \$7.2 million, driven by the

Australia trade channel and UK book fairs, and increased revenues in the Education segment of \$5.4 million, driven by higher classroom magazine circulation and sales of digital and custom publishing programs.

Components of Cost of goods sold for the three and six months ended November 30, 2015 and 2014 are as follows:

(\$ amounts in millions)	Three months ended November 30,				Six months ended November 30,					
	2015	% of Revenue	2014	% of Revenue	2015	% of Revenue	2014	% of Revenue

Cost of goods sold as a percentage of revenue for the quarter ended November 30, 2015 increased slightly to 42.7%, compared to 42.2% in the prior fiscal year quarter. Higher cost of goods sold as a percentage of revenue primarily related to the use of U.S. sourced product in the Company's international operations and the related strength of the U.S. dollar.

Cost of goods sold as a percentage of revenue for the six month period ended November 30, 2015 increased slightly to 46.9%, compared to 46.3% in the prior fiscal year period. Higher cost of goods sold as a percentage of revenue primarily related to the use of U.S. sourced product in the Company's international operations and the related strength of the U.S. dollar.

Selling, general and administrative expenses in the quarter ended November 30, 2015 increased to \$229.0 million, compared to \$226.6 million in the prior fiscal year quarter. The increase in expense primarily related to higher strategic technology spending on new enterprise-wide customer and content management systems and the migration to cloud-based SaaS (Software as a Service) solutions, partially offset by a decrease of \$4.5 million in international expenses attributable to foreign currency translation and lower unabsorbed overhead burden compared to prior fiscal year quarter, as costs are currently being offset by transition service fees under the transition services agreement with the purchaser of the Ed Tech business. To a lesser extent the change in Selling, general and administrative expenses was attributable to higher expenses in the Children's Book Publishing and Distribution and Education segments associated with continued efforts to improve sales in the book fairs channel and sales of classroom books and literacy initiatives. In addition, higher severance expense of \$0.8 million related to cost saving initiatives and higher expense of \$0.5 million related to a warehouse optimization project in the Company's book fairs operations, partially offset by lower pension-related expenses of \$3.7 million due to the Company settling a portion of its domestic pension plan in the prior fiscal year quarter.

Selling, general and administrative expenses for the six month period ended November 30, 2015 decreased to \$374.7 million, compared to \$377.4 million in the prior fiscal year period. The decrease in expense is primarily related to lower international expense attributable to foreign currency translation of \$9.7 million and lower unabsorbed overhead burden compared to prior fiscal year period, as costs are currently being offset by transition service fees under the transition services agreement with the purchaser of the Ed Tech business, partially offset by higher strategic technology spending on new enterprise-wide customer and content management systems and the migration to cloud-based SaaS solutions. To a lesser extent the change in Selling, general and administrative expenses is attributable to higher expenses in the Children's Book Publishing and Distribution and Education segments associated

with continued efforts to improve sales in the book fairs channel and sales of classroom books and literacy initiatives. In addition, higher severance expense of \$1.5 million related to cost saving initiatives and higher expense of \$1.5 million related to a warehouse optimization project in the Company's book fairs operations, partially offset by lower pension-related expenses of \$3.7 million due to the Company settling a portion of its domestic pension plan in the prior fiscal year period.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A")

Depreciation and amortization expenses in the quarter ended November 30, 2015 decreased to \$10.6 million, compared to \$12.6 million in the prior fiscal year quarter. The decrease was primarily attributable to lower capitalized technology costs than in the prior fiscal year period.

Depreciation and amortization expenses for the six month period ended November 30, 2015 decreased to \$21.1 million, compared to \$25.7 million in the prior fiscal year period. The decrease was primarily attributable to lower capitalized technology costs than in the prior fiscal year period.

In the quarter ended November 30, 2015, the Company realized a gain of \$2.2 million on the sale of a cost method investment in China.

In the quarter ended November 30, 2014, the Company recognized an impairment charge of \$2.9 million associated with the closure of the retail store located at the Company headquarters in New York, NY.

For the three month period ended November 30, 2015, net interest expense decreased to \$0.5 million, from \$1.0 million in the prior fiscal year quarter. For the six month period ended November 30, 2015, net interest expense decreased to \$0.6 million, from \$1.9 million in the prior fiscal year period. The decrease in both periods was due to the reduction in outstanding borrowings on the Revolving Loan.

The Company's effective tax rate for the second quarter of fiscal 2016 was 39.0%, compared to 38.8% in the prior fiscal year quarter. The Company's effective tax rate for the six month period ended November 30, 2015 was 40.1%, compared to 39.9% in the prior fiscal year period. For the full year, the Company expects an effective tax rate, inclusive of discrete items, of approximately 42.9%.

Earnings from continuing operations for the quarter ended November 30, 2015 decreased by \$2.4 million to \$65.2 million, compared to earnings of \$67.6 million in the prior fiscal year quarter. The basic and diluted earnings from continuing operations per share of Class A Stock and Common Stock were \$1.90 and \$1.85, respectively, in the quarter ended November 30, 2015, compared to \$2.06 and \$2.02, respectively, in the prior fiscal year quarter.

Earnings from continuing operations for the six months ended November 30, 2015 increased by \$2.6 million to \$16.3 million, compared to earnings of \$13.7 million in the prior fiscal year period. The basic and diluted earnings from continuing operations per share of Class A Stock and Common Stock were \$0.48 and \$0.47, respectively, in the six months ended November 30, 2015, compared to \$0.42 and \$0.41, respectively, in the prior fiscal year period. Loss from discontinued operations, net of tax, for the quarter ended November 30, 2015 was \$0.3 million, compared to earnings from discontinued operations, net of tax, of \$0.9 million in the prior fiscal year quarter. Loss from discontinued operations, net of tax, for the six months ended November 30, 2015 was \$0.8 million, compared to earnings of \$20.7 million in the prior fiscal year period. The Company did not discontinue any operations in the first six months of fiscal 2016.

Net income for the quarter ended November 30, 2015 decreased by \$3.6 million to \$64.9 million, compared to \$68.5 million in the prior fiscal year quarter. Net income per basic and diluted share of Class A Stock and Common Stock was \$1.89 and \$1.84, respectively, in the quarter ended November 30, 2015, compared to \$2.09 and \$2.05, respectively, in the prior fiscal year quarter.

Net income for the six months ended November 30, 2015 decreased by \$18.9 million to \$15.5 million, compared to \$34.4 million in the prior fiscal year period, primarily due to the sale of the Ed Tech business at the end of the prior fiscal year. The Company did not discontinue any operations in the first six months of fiscal 2016. Net income per basic and diluted share of Class A Stock and Common Stock was \$0.46 and \$0.44, respectively, in the six months

ended November 30, 2015, compared to \$1.06 and \$1.04, respectively, in the prior fiscal year period.

Revenues for the quarter ended November 30, 2015 increased to \$414.0 million, compared to \$408.6 million in the prior fiscal year quarter. Revenues from the book fairs channel increased by \$13.9 million driven by a 5% increase in number of fairs held coupled with a 2% increase in revenue per fair. Trade channel revenues increased \$0.1 million primarily driven by higher sales in the non-media operations of \$3.9 million, due to strong Fall frontlist titles, partially offset by lower sales in media operations of \$3.8 million. Bestselling frontlist titles in the current fiscal year quarter, such as Harry Potter and the Sorcerer's Stone: The Illustrated Edition and the newly released Harry Potter Coloring Book, as well as Star Wars: Jedi Academy #3: The Phantom Bully; Wings of Fire Book #7: Winter Turning; and Captain Underpants and the Sensational Saga of Sir Stinks-A-Lot more than offset lower year-over-year sales of Hunger Games and Minecraft titles. The higher revenues were partially offset by lower sales of \$8.6 million in the book clubs channel due to the relatively late start to the school calendar compared to the prior fiscal year quarter as a result of the timing of the Labor Day holiday and lower sales of the Minecraft series handbook. Sales of the Minecraft series handbook titles across all Children's Book Publishing and Distribution channels totaled \$10.6 million in the quarter ended November 30, 2015, compared to \$33.6 million in the prior fiscal year quarter.

Revenues for the six months ended November 30, 2015 increased to \$482.1 million, compared to \$467.6 million in the prior fiscal year period. Trade channel revenues increased \$8.6 million primarily due to higher sales in the non-media operations of \$14.4 million. This was driven by strong sales for both frontlist and backlist titles, and the continued strong performance of Harry Potter titles, including Harry Potter and the Sorcerer's Stone: The Illustrated Edition and the newly released Harry Potter Coloring Book. The higher non-media operations sales were partially offset by lower sales in media operations of \$5.8 million. Revenues from the book fairs and book clubs channels increased \$14.8 million and decreased \$8.9 million, respectively, and were consistent with the quarterly results for the second fiscal year quarter, as neither channel experiences significant revenues in the first quarter of the fiscal year. Sales of the Minecraft series handbook titles across all Children's Book Publishing and Distribution channels totaled \$14.6 million in the six month period ended November 30, 2015, compared to \$37.3 million in the prior fiscal year period.

Cost of goods sold for the quarter ended November 30, 2015 was \$161.2 million, or 39% of revenues, compared to \$157.3 million, or 38% of revenues, in the prior fiscal year quarter. The three month period ended November 30, 2015 experienced modestly higher promotional spend in the book fairs channel.

Edgar Filing: SCHOLASTIC CORP - Form 10-Q

Cost of goods sold for the six months ended November 30, 2015 was \$203.9 million, or 42% of revenues, compared to \$195.0 million, or 42% of revenues, in the prior fiscal year period. The six month period ended November 30, 2015 experienced modestly higher promotional spend in the book fairs channel, partially offset by lower production amortization costs.

Other operating expenses of \$143.9 million for the quarter ended November 30, 2015 increased when compared to \$142.4 million in the prior fiscal year quarter. The increase was partially due to higher employee related expenses of \$2.9 million in the book fairs channel primarily associated with continued efforts to improve

Other operating expenses of \$226.8 million for the six months ended November 30, 2015 increased when compared to \$224.5 million in the prior fiscal year period. The increase was partially due to higher employee related expenses of \$3.9 million in the book fairs channel primarily associated with continued efforts to improve sales, as well as expenses related to a warehouse optimization project in the Company's book fairs operation of \$1.5 million.

Segment operating income for the three months ended November 30, 2015 remained flat at \$108.9 million, compared to \$108.9 million in the prior fiscal year quarter, primarily due to the strong trade channel sales benefiting from a strong demand for frontlist titles, and an increase in the number of fairs held in the book fairs channel. This was partially offset by the late start to the school calendar which negatively impacted sales in the book club channel and higher salary related expenses and promotional spend to drive sales in the book fairs channel.

Segment operating income for the six months ended November 30, 2015 increased to \$51.4 million, compared to \$48.1 million in the prior fiscal year period, primarily due to the strong trade channel sales and an increase in the number of fairs held in the book fairs channel, partially offset by the late start to the school calendar which negatively impacted sales in the book club channel and higher salary related expenses and promotional spend to drive sales in the book fairs channel.

Revenues for the quarter ended November 30, 2015 increased to \$72.1 million, compared to \$69.9 million in the prior fiscal year quarter. The increase was primarily driven by a \$2.4 million increase in classroom magazines sales due to higher circulation and a \$2.2 million increase in sales in the Company's consumer magazines primarily driven by digital and custom publishing programs, as well as higher demand for the Company's teaching resource workbooks, partially offset by lower sales of the Company's classroom books and literacy initiatives.

Revenues for the six months ended November 30, 2015 increased to \$122.1 million, compared to \$116.7 million in the prior fiscal year period. The increase was primarily driven by a \$4.2 million increase in the Company's consumer magazines primarily driven by digital and custom publishing programs and a \$2.5 million increase in classroom magazine sales due to higher circulation, partially offset by lower sales of the Company's teaching resources products.

Cost of goods sold for the quarter ended November 30, 2015 was \$22.7 million, or 31% of revenues, compared to \$23.0 million, or 33% of revenues, in the prior fiscal year quarter. A modest reduction in Cost of goods sold as a

percentage of revenues was primarily driven by the increased sales of the consumer magazines digital and custom publishing programs, which carry higher margins and low variable costs.

Cost of goods sold for the six months ended November 30, 2015 was \$43.8 million, or 36% of revenues, compared to \$42.8 million, or 37% of revenues, in the prior fiscal year period. A modest reduction in Cost of goods sold as a percentage of revenues was primarily driven by the increased sales of the consumer magazines digital and custom publishing programs, which carry higher margins and low variable costs.

Other operating expenses increased to \$37.5 million for the quarter ended November 30, 2015, compared to \$35.3 million in the prior fiscal year quarter. The increase is due to higher sales management-related expenses as part of the Company's continued efforts to increase sales of classroom books and literacy initiatives, coupled with higher operating expenses related to the increased circulation of classroom magazines.

Other operating expenses increased to \$69.2 million for the six months ended November 30, 2015, compared to \$64.9 million in the prior fiscal year period. The increase is due to higher sales management-related expenses as part of the Company's continued efforts to increase sales of classroom books and literacy initiatives, coupled with higher operating expenses related to the increased circulation of classroom magazines.

Segment operating income in the quarter ended November 30, 2015 increased by \$0.3 million compared to the prior fiscal year quarter. This was primarily driven by operating income generated from the higher classroom and consumer magazine sales, partially offset by the higher employee-related expenses as part of the Company's continued efforts to increase sales of classroom books and literacy initiatives.

Segment operating income in the six months ended November 30, 2015 increased by \$0.1 million compared to the prior fiscal year period. This was primarily driven by operating income generated from the higher classroom and consumer magazine sales, partially offset by the higher employee-related expenses as part of the Company's continued efforts to increase sales of classroom books and literacy initiatives.

Revenues for the quarter ended November 30, 2015 decreased to \$115.7 million, compared to \$132.6 million in the prior fiscal year quarter, as a result of unfavorable foreign exchange translation of \$17.2 million due to the stronger U.S. dollar. Total local currency revenues across the Company's foreign operations increased by \$0.3 million when compared to the prior fiscal year quarter. Local currency revenues from Australia and New Zealand increased \$5.1 million, primarily on continued demand for local titles within the Australia trade channel. Local currency revenues from the UK increased \$3.0 million, primarily due to an increase in book fairs channel revenues driven by the second quarter acquisition of Troubadour, Limited, a leading book fair provider in the UK. In addition, local currency revenues increased \$0.9 million from the Company's Asia operations, primarily led by operations in India and

Indonesia. This was offset by lower local currency revenues in Canada of \$6.7 million due to the effects of a now settled labor action in Ontario schools that resulted in a substantial drop in book club and book fair revenues in the important fall back-to-school months. The labor dispute was resolved by the end of the second quarter, but the Company is not expecting to recover all book fairs and book club channel revenues lost as a result. The Company's export and foreign rights channel also had lower local currency revenues of \$2.0 million, as the prior fiscal year quarter reflected higher education product orders.

Revenues for the six months ended November 30, 2015 decreased to \$188.8 million, compared to \$217.3 million in the prior fiscal year period, as a result of unfavorable foreign exchange translation of \$28.9 million due to the

stronger U.S. dollar. Total local currency revenues across the Company's foreign operations increased by \$0.4 million when compared to the prior fiscal year period. Local currency revenues from Australia and New Zealand increased \$7.0 million, primarily on increased sales of local titles within the Australia trade channel. Local currency revenues from the UK increased \$1.0 million, primarily due to an increase in book fairs channel revenues driven by the acquisition of Troubadour, Limited, partially offset by lower sales within the trade and book clubs channels. In addition, local currency revenues increased \$2.5 million from the Company's Asia operations primarily led by operations in India, Indonesia, Malaysia, and the Philippines. This was offset by lower local currency revenues in Canada of \$6.8 million due to the effects of the now settled labor action in Ontario schools. The Company's export and foreign rights channel also had lower currency revenues of \$3.3 million, as the prior fiscal year period reflected higher education product orders.

Cost of goods sold for the quarter ended November 30, 2015 was \$60.1 million, or 52% of revenues, compared to \$63.9 million, or 48% of revenues, in the prior fiscal year quarter. The increase in Cost of good sold as a percentage of revenues was primarily driven by the lower sales in Canada, which, coupled with the effect of fixed costs, significantly impacted the overall Cost of goods sold as a percentage of revenues. Additionally, the strong U.S. dollar further increased Cost of goods sold as a percentage of revenues due to the fact that many of the Company's international operations purchase product in U.S. dollars.

Cost of goods sold for the six months ended November 30, 2015 was \$99.0 million, or 52% of revenues, compared to \$107.6 million, or 50% of revenues, in the prior fiscal year period. The increase in Cost of good sold as a percentage of revenues was primarily driven by the lower sales in Canada, which, coupled with the effect of fixed costs, significantly impacted the overall Cost of goods sold as a percentage of revenues. Additionally, the strong U.S. dollar further increased Cost of goods sold as a percentage of revenues due to the fact that many of the Company's international operations purchase product in U.S. dollars.

Other operating expenses for the quarter ended November 30, 2015 were \$44.1 million, compared to \$48.9 million in the prior fiscal year quarter. The decrease was primarily due to foreign exchange translation. In local currency, the remaining decrease in Other operating expenses was due to lower salary related costs, primarily in Canada.

Other operating expenses for the six months ended November 30, 2015 were \$81.0 million, compared to \$92.9 million in the prior fiscal year period. The decrease was primarily due to foreign exchange translation. In local currency, the remaining decrease in Other operating expenses was due to lower salary related costs, primarily in Canada and Australia, and lower promotional costs.

Segment operating income for the quarter ended November 30, 2015 decreased by \$8.3 million compared to the prior fiscal year quarter. This was primarily driven by the lower sales in Canada.

Segment operating income for the six months ended November 30, 2015 decreased by \$8.0 million compared to the prior fiscal year period. This was primarily driven by the lower sales in Canada, partially offset by the increased sales in the Australia trade channel and lower promotional and salary related costs within the segment.

Overhead

Unallocated overhead expense for the quarter ended November 30, 2015 decreased by \$2.2 million to \$27.2 million, from \$29.4 million in the prior fiscal year quarter. The decrease is primarily related to lower pension-related expenses of \$3.7 million due to the Company settling a portion of its domestic pension plan in the prior fiscal year quarter, a \$2.9 million decrease in asset impairments due to the closure of the retail store in the prior fiscal year quarter, and lower unabsorbed overhead burden compared to prior fiscal year quarter, as costs are currently being offset by

transition service fees under the transition services agreement with the purchaser of the Ed Tech business. This was partially offset by higher strategic technology spending on new enterprise-wide customer and content management systems and the migration to cloud-based SaaS solutions and \$0.8 million in higher severance expense related to cost saving initiatives.

Unallocated overhead expense for the six months ended November 30, 2015 decreased by \$6.1 million to \$43.7 million, from \$49.8 million in the prior fiscal year period. The decrease is primarily related to lower pension

related expenses of \$3.7 million due to the Company settling a portion of its domestic pension plan in the prior fiscal year period, a \$2.9 million decrease in asset impairments due to the closure of the retail store in the prior fiscal year quarter, and lower unabsorbed overhead burden compared to prior fiscal year period, as costs are currently being offset by transition service fees under the transition services agreement with the purchaser of the Ed Tech business. This was partially offset by higher strategic technology spending and \$1.5 million in higher severance expense related to cost saving initiatives.

Seasonality

The Company's Children's Book Publishing and Distribution school-based book fair and book club channels and most of its Education businesses operate on a school-year basis; therefore, the Company's business is highly seasonal. As a result, the Company's revenues in the first and third quarters of the fiscal year generally are lower than its revenues in the other two fiscal quarters. Typically, school-based channels and magazine revenues are minimal in the first quarter of the fiscal year as schools are not in session. Trade sales can vary through the year due to varying release dates of published titles. The Company generally experiences a loss from operations in the first and third quarters of each fiscal year.

Liquidity and Capital Resources

The Company's cash and cash equivalents totaled \$360.9 million at November 30, 2015, \$506.8 million at May 31, 2015 and \$42.9 million at November 30, 2014. Cash and cash equivalents held by the Company's U.S. operations totaled \$348.5 million at November 30, 2015, \$491.2 million at May 31, 2015 and \$24.5 million at November 30, 2014.

Cash used in operating activities was \$178.0 million for the six months ended November 30, 2015, compared to cash provided by operating activities of \$90.9 million for the prior fiscal year period, representing an increase in cash used in operating activities of \$268.9 million. The increase in cash used was primarily due to current fiscal year income tax payments of approximately \$186 million resulting from the gain on the sale of the Ed Tech business recognized in fiscal 2015. Discontinued operations resulted in lower cash provided of \$79.1 million compared to the prior fiscal year period, which included the former Ed Tech business which was sold at the end of the prior fiscal year.

Cash used in investing activities was \$14.0 million for the six months ended November 30, 2015, compared to \$37.4 million in the prior fiscal year period, representing lower cash used in investing activities of \$23.4 million. Discontinued operations resulted in a decrease in the use of cash of \$13.3 million, primarily due to the absence of the Ed Tech business spending in the current period. The release of cash from the escrow established in connection with the sale of the Ed Tech business provided \$9.8 million of cash from investing activities, as well as lower capital and prepublication spending of \$5.4 million, primarily in the Children's Book Publishing and Distribution segment, which was partially offset by higher cash used for acquisition and other investment related activity of \$5.1 million. The Company expects increased investment in the current fiscal year as the Company continues to transform its technology solutions.

Cash provided by financing activities was \$46.8 million for the six months ended November 30, 2015, compared to cash used in financing activities of \$30.7 million for the prior fiscal year period, representing an increase in cash provided by financing activities of \$77.5 million. The Company experienced higher proceeds pursuant to employee stock plans of \$20.8 million and lower net repayment activity under the Revolving Loan of \$25.0 million in the six months ended November 30, 2015. As part of the transition services agreement with the purchaser of the Ed Tech business, the Company collects receivables and pays vendors on behalf of the purchaser and remits the net funds in the following month. This resulted in cash provided by financing activities of \$12.9 million in the current fiscal year

period. The Company's short-term credit facility net borrowings were \$12.6 million higher than in the prior fiscal year period.

Due to the seasonal nature of its business as discussed under “Seasonality” above, the Company usually experiences negative cash flows in the June through October time period. As a result of the Company’s business cycle, borrowings have historically increased during June, July and August, have generally peaked in September or October, and have been at their lowest point in May. In the current fiscal year period, due to the proceeds from the sale of the Ed Tech business, borrowings were not needed in the first and second quarter of fiscal 2016.

SCHOLASTIC CORPORATION

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A")

The Company's operating philosophy is to use cash provided by operating activities to create value by paying down debt, reinvesting in existing businesses and, from time to time, making acquisitions that will complement its portfolio of businesses or acquiring other strategic assets, as well as engaging in shareholder enhancement initiatives, such as share repurchases or dividend declarations.

The Company has maintained, and expects to maintain for the foreseeable future, sufficient liquidity to fund ongoing operations, including working capital requirements, pension contributions, dividends, currently authorized common share repurchases and the proposed repurchases through a modified Dutch Auction tender offer, debt service, planned capital expenditures and other investments. As of November 30, 2015, the Company's primary sources of liquidity consisted of cash and cash equivalents of \$360.9 million, cash from operations, and funding available under the Revolving Loan totaling approximately \$425.0 million. The Company may at any time, but in any event not more than once in any calendar year, request that the aggregate availability of credit under the Revolving Loan be increased by an amount of \$10.0 million or an integral multiple of \$10.0 million (but not to exceed \$150.0 million). Additionally, the Company has short-term credit facilities of \$52.1 million, less current borrowings of \$12.0 million and commitments of \$4.9 million, resulting in \$35.2 million of current availability at November 30, 2015. Accordingly, the Company believes these sources of liquidity are sufficient to finance its ongoing operating needs, as well as its financing and investing activities.

Financing

Loan Agreement

There were no outstanding borrowings under the Loan Agreement as of November 30, 2015. For a more complete description of the Company's Loan Agreement, see Note 4 of Notes to condensed consolidated financial statements-unaudited in Item 1, "Financial Statements."

Forward Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements. Additional written and oral forward-looking statements may be made by the Company from time to time in Securities and Exchange Commission ("SEC") filings and otherwise. The Company cautions readers that results or expectations expressed by forward-looking statements, including, without limitation, those relating to the Company's future business prospects, plans, ecommerce and digital initiatives, new product introductions, strategies, Common Core State Standards, goals, revenues, improved efficiencies, general costs, manufacturing costs, medical costs, merit pay, operating margins, working capital, liquidity, capital needs, interest costs, the value of its investments, cash flows and income, are subject to risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements, due to factors including those noted in the Annual Report and other risks and factors identified from time to time in the Company's filings with the SEC. The Company disclaims any intention or obligation to update or revise forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Company conducts its business in various foreign countries, and as such, its cash flows and earnings are subject to fluctuations from changes in foreign currency exchange rates. The Company sells products from its domestic operations to its foreign subsidiaries, creating additional currency risk. The Company manages its exposures to this market risk through internally established procedures and, when deemed appropriate, through the use of short-term forward exchange contracts, which were not significant as of November 30, 2015. The Company does not enter into derivative transactions or use other financial instruments for trading or speculative purposes.

Market risks relating to the Company's operations result primarily from changes in interest rates in its variable-rate borrowings. The Company is subject to the risk that market interest rates and its cost of borrowing will increase and thereby increase the interest charged under its variable-rate debt.

Additional information relating to the Company's outstanding financial instruments is included in Note 4 of Notes to condensed consolidated financial statements - unaudited in Item 1, "Financial Statements."

The following table sets forth information about the Company's debt instruments as of November 30, 2015:

Item 4. Controls and Procedures

The Chief Executive Officer and the Chief Financial Officer of the Corporation, after conducting an evaluation, together with other members of the Company's management, of the effectiveness of the design and operation of the Corporation's disclosure controls and procedures as of November 30, 2015, have concluded that the Corporation's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Corporation in its reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the SEC and accumulated and communicated to members of the Company's management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure. There was no change in the Corporation's internal control over financial reporting that occurred during the quarter ended November 30, 2015 that has materially affected, or is reasonably likely to materially affect, the Corporation's internal control over financial reporting.
