KOHL'S CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for fiscal year end financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. For further information, refer to the financial statements and related footnotes included in our Annual Report on Form 10-K for the fiscal year ended January 31, 2015 (Commission File No. 1-11084) as filed with the Securities and Exchange Commission on March 20, 2015.

Due to the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. In addition, quarterly results of operations may be impacted by the timing and amount of sales and costs associated with the opening of new stores.

We operate as a single business unit.

In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Under the current pronouncement, we are required to adopt the new pronouncement in the first quarter of fiscal 2017 using one of two retrospective application methods. We are evaluating the application method and the impact of this new statement on our financial statements.

In April 2015, the FASB issued ASU No. 2015-03, Simplifying the Presentation of Debt Issuance Costs (Subtopic 835-30). This ASU requires an entity to present such costs on the balance sheet as a direct deduction from the related debt liability rather than as an asset. Under the current pronouncement, we are required to adopt the new pronouncement in the first quarter of fiscal 2016. As of May 2, 2015, we have \$12 million of debt issuance costs that would be reclassified from other assets to long-term debt on the balance sheet as a part of this pronouncement.

To conform to the current year presentation, we have corrected the presentation of \$43 million of deferred income taxes that were previously recorded as long-term other assets and \$24 million of other current assets that were previously recorded as an income taxes payable as of May 3, 2014.

2. Debt

Long-term debt consists of the following unsecured senior debt:

Maturity	Effective Rate	Coupon Rate	Outstanding May 2, 2015 and January 31, 2015	May 3, 2014
(Dollars in Millions)				
2017	6.31	% 6.25	% \$650	\$650
2021	4.81	% 4.00	% 650	650
2023	3.25	% 3.25	% 350	350
2023	4.78	% 4.75	% 300	300
2029	7.36	% 7.25	% 200	200
2033	6.05	% 6.00	% 300	300
2037	6.89	% 6.88	% 350	350
	5.54	%	2,800	2,800
Unamortized debt discount			(7) (8

Edgar Filing: KOHLS Corp - Form 10-Q

Long-term debt	\$2,793	\$2,792
----------------	---------	---------

ASC No. 820, Fair Value Measurements and Disclosures, requires fair value measurements be classified in various pricing categories. Our long-term debt is classified as Level 1, financial instruments with unadjusted, quoted prices listed on active market exchanges. The estimated fair value of our long-term debt was \$3.1 billion at May 2, 2015, January 31, 2015 and May 3, 2014.

KOHL'S CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—(Continued)

3. Stock-Based Compensation

Stock options

The following table summarizes our stock option activity for the three months ended May 2, 2015:

	Shares	Weighted Average Exercise Price
	(Shares in Thousands)	
Balance at beginning of period	6,211	\$52.95
Exercised	(2,536)) 53.38
Forfeited/expired	(57)) 51.82
Balance at end of period	3,618	\$52.68

Nonvested stock awards

The following table summarizes nonvested stock activity, including restricted stock equivalents issued in lieu of cash dividends, for the three months ended May 2, 2015:

	Shares	Weighted Average Grant Date Fair Value
	(Shares in Thousands)	
Balance at beginning of period	2,431	\$52.29
Granted	534	75.80
Vested	(564)) 52.47
Forfeited	(95)) 52.52
Balance at end of period	2,306	\$57.52

Performance share units

In March 2015, we granted performance-based restricted stock units ("performance share units") to certain executives. The performance measurement period for these performance share units is fiscal years 2015 through 2017. The fair market value of the grant was \$86.87 per unit and was determined using a Monte-Carlo valuation on the date of grant. The performance share units cover a target of 131,000 shares.

The actual number of shares which will be earned at the end of the three-year vesting period will vary based on our cumulative financial performance over the vesting period. The number of performance share units earned will be modified up or down based on Kohl's Relative Total Shareholder Return against a defined peer group during the vesting period. The payouts, if earned, will be settled in Kohl's common stock after the end of the multi-year performance period.

4. Contingencies

We are subject to certain legal proceedings and claims arising out of the conduct of our business. In the opinion of management, the outcome of these proceedings and litigation will not have a material adverse impact on our consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

For purposes of the following discussion, all references to "the quarter" and "the first quarter" are for the 13-week fiscal periods ended May 2, 2015 and May 3, 2014. References to "2015" are for the quarter ended May 2, 2015. References to "2014" are for the quarter ended May 3, 2014.

The following discussion should be read in conjunction with our Consolidated Financial Statements and the related notes included elsewhere in this report, as well as the financial and other information included in our 2014 Annual Report on Form 10-K (our "2014 Form 10-K"). The following discussion may contain forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could materially differ from those discussed in these forward-looking statements. Factors that could cause or contribute to those differences include, but are not limited to, those discussed elsewhere in this report and in our 2014 Form 10-K (particularly in "Risk Factors").

Executive Summary

As of May 2, 2015, we operated 1,164 family-focused, value-oriented department stores and a website (www.kohls.com) that sell moderately priced exclusive and national brand apparel, footwear, accessories, beauty and home products. Our stores generally carry a consistent merchandise assortment with some differences attributable to regional preferences. Our website includes merchandise which is available in our stores, as well as merchandise which is available only on-line.

In the first quarter of 2014, we introduced a multi-year strategic framework which we refer to as "the Greatness Agenda". It is built on five pillars - amazing product, incredible savings, easy experience, personalized connections and winning teams. All of the Greatness Agenda initiatives are designed to increase sales, primarily by increasing the number of customers that shop at our stores and on-line. We are pleased with the positive impact the Greatness Agenda is having on our results and remain committed to the bold moves that are part of the Greatness Agenda. In fiscal 2015, we are focused on key entertainment brands and properties including Cinderella, Marvel, Star Wars and our Jumping Beans and Disney collaboration. Another area of focus is sports offerings featuring NFL, NCAA and MLB team shops.

Key active and wellness initiatives in fiscal 2015 emphasize new and expanded launches, including Nike, Bliss, Gaiam yoga apparel, Champion and PUMA, and wearables that focus on wellness activities and sleep. We are planning a major re-launching of the Columbia brand this fall.

We continue to enhance the online shopping experience for our customers. In the first quarter of 2015, we implemented significant improvements for customers using tablets and launched a new mobile app.

During the first quarter of 2015, we rolled out buy-online, pick-up in store to all stores. Additionally, 200 more stores received the new beauty experience in the first quarter. By August, we expect to have brought this new experience to 900 of our stores.

We continue to make progress in building and activating an unmatched personalization capability. We are augmenting our behavior segmentation with shopper type, life stage and life cycle data. We expect to have 5 billion personalized touches in 2015.

We've expanded our localization assortment strategy and by the end of fiscal 2015, almost half of our business will be transitioned to tailored assortments by store.

As of May 2, 2015, almost 29 million customers were enrolled in our Yes2You loyalty program. Loyalty members accounted for 54% of first-quarter transactions. We continue to see that loyalty members are shopping more often and spending more with each trip. We continue to design program enhancements to create higher engagement with our customers.

Table of Contents

Net sales for the quarter were \$4.1 billion, an increase of \$53 million, 1.3%, over the first quarter of 2014. Comparable sales increased 1.4%. Gross margin as a percentage of sales was 36.9% for the quarter, 17 basis points higher than the first quarter of 2014. Merchandise margin increased, but was partially offset by higher shipping expenses. Selling, general and administrative ("SG&A") expenses increased in dollars and remained consistent as a percentage of sales. We increased our IT and fixed store expenses during the quarter. For the quarter, net income was \$127 million, 2% higher than the first quarter of last year, and diluted earnings per share was \$0.63, an increase of 5% over the first quarter of 2014. We ended the quarter with \$1.2 billion of cash and cash equivalents, an increase of \$478 million over May 3, 2014.

See Results of Operations and Liquidity and Capital Resources for additional details about our financial results.

Results of Operations

Net sales.

Net sales increased 1.3% to \$4.1 billion for the quarter. Comparable sales increased 1.4% for the quarter. Comparable sales include sales for stores (including relocated or remodeled stores) which were open during both the current and prior year periods. We also include omni-channel sales in our comparable sales. Adjustments for omni-channel sales that have been shipped, but not yet been received by the customer are included in net sales, but are not included in our comparable sales.

The following table summarizes changes in net sales for the quarter:

	\$	%	
	(Dollars In Millions)		
Net Sales - 2014	\$4,070		
Comparable sales	56	1.4	%
New and closed stores and other revenues	(3)	—
Increase in net sales	53	1.3	%
Net Sales - 2015	\$4,123		

Drivers of the changes in comparable sales were as follows:

Selling price per unit	2.7	%
Units per transaction	(1.3)
Average transaction value	1.4	
Number of transactions	—	
Comparable sales	1.4	%

The increase in selling price per unit was a combination of increased penetration and selling prices in our National brand portfolio as well as improved clearance rates. Units per transaction decreased as customers purchased fewer items in response to the higher prices. Transactions were consistent with the first quarter of 2014, but trends have improved over the declines experienced in the first three quarters of fiscal 2014, as our Greatness Agenda initiatives gained traction.

From a regional perspective, including on-line originated sales, the Midwest region outperformed the Company average for the quarter. The West, Northeast and Southeast regions were consistent with the Company average. The Mid-Atlantic region reported a comparable sales increase, but was slightly below the Company average. The South Central region reported a slight comparable sales decrease for the first quarter of 2015.

By line of business, Home, Footwear and Men's all reported comparable sales increases greater than 3%. Children's was consistent with the Company average. Accessories was consistent with the first quarter of 2014. Women's reported comparable sales decreases from the first quarter of 2014.

Table of Contents

Gross margin.

	2015	2014	Increase		
			\$	%	
	(Dollars in Millions)				
Gross margin	\$1,523	\$1,496	\$27	1.8	%
As a percent of net sales	36.9	% 36.8	%	0.17	%

Gross margin includes the total cost of products sold, including product development costs, net of vendor payments other than reimbursement of specific, incremental and identifiable costs; inventory shrink; markdowns; freight expenses associated with moving merchandise from our vendors to our distribution centers; shipping and handling expenses of on-line sales; and terms cash discount. Our gross margin may not be comparable with that of other retailers because we include distribution center costs in selling, general and administrative expenses while other retailers may include these expenses in cost of merchandise sold.

Gross margin as a percentage of sales increased 17 basis points over the first quarter of 2014. Merchandise margin increased 57 basis points over the first quarter of 2014, as a result of improved promotional and clearance markdowns. Shipping losses reduced gross margin by 42 basis points more than in the first quarter of 2014, as a result of growth in our on-line business and higher costs to ship merchandise.

Selling, general and administrative expenses.

	2015	2014	Increase		
			\$	%	
	(Dollars in Millions)				
Selling, general and administrative expenses	\$1,016	\$1,000	\$16	2	%
As a percent of net sales	24.6	% 24.6	%	0.07	%

SG&A expenses include compensation and benefit costs (including stores, headquarters, buying and merchandising, and distribution centers); occupancy and operating costs of our retail, distribution and corporate facilities; freight expenses associated with moving merchandise from our distribution centers to our retail stores and among distribution and retail facilities; marketing expenses, offset by vendor payments for reimbursement of specific, incremental and identifiable costs; net revenues from our Kohl's credit card operations; and other administrative revenues and expenses. We do not include depreciation and amortization in SG&A. The classification of these expenses varies across the retail industry.

The following table summarizes the changes in SG&A by expense type for the quarter:

	(In Millions)
Store expenses	\$17
Corporate expenses	11
Distribution costs	1
Net revenues from credit card operations	(2)
Marketing costs, excluding credit card operations	(11)
Total increase	\$16

Many of our expenses, including store payroll and distribution costs, are variable in nature. These costs generally increase as sales increase and decrease as sales decrease. We measure both the change in these variable expenses and the expense as a percent of sales. If the expense as a percent of sales decreased from the prior year, the expense "leveraged" and indicates that the expense was well-managed or effectively generated additional sales. If the expense as a percent of sales increased over the prior year, the expense "deleveraged" and indicates that sales growth was less than expense growth. SG&A as a percent of sales increased, or "deleveraged," by 7 basis points for the quarter.

The increase in store expense is a result of higher common area maintenance, repairs and maintenance, and store payroll. IT spending, which is included in corporate expenses, increased over the first quarter of 2014 due to growth

and infrastructure investments. Corporate expenses also increased due to higher incentive compensation. The increased corporate spending was

12

Table of Contents

partially offset by a decrease in health and hospital trends. Marketing expenses decreased for the quarter as we were more strategic in our direct mail marketing and promotions. We plan to spend some of the savings in future quarters.

Other Expenses.

	2015	2014	Increase/ (Decrease)		
			\$	%	
	(Dollars in Millions)				
Depreciation and amortization	\$227	\$216	\$11	5	%
Interest expense, net	84	85	(1)	(1))%
Provision for income taxes	69	70	(1)	(1))%
Effective tax rate	35.3	% 36.0		%	

Depreciation and amortization increased \$11 million over the first quarter of 2014, as a result of higher IT amortization. Interest expense was consistent with the first quarter of 2014. The provision for income taxes was consistent with the first quarter of 2014, as higher income before taxes was offset by a lower effective tax rate. The decrease in effective tax rate was primarily due to a favorable state audit settlement during the quarter.

Seasonality and Inflation

Our business, like that of most retailers, is subject to seasonal influences, with the major portion of sales and income typically realized during the second half of each fiscal year, which includes the back-to-school and holiday seasons. Approximately 15% of annual sales typically occur during the back-to-school season and 30% during the holiday season. Because of the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. Revenues and expenses associated with the opening of new stores may also affect our quarterly results.

Although we expect that our operations will be influenced by general economic conditions, including rising food, fuel and energy prices, we do not believe that inflation has had a material effect on our results of operations. However, there can be no assurance that our business will not be impacted by such factors in the future.

Financial Condition and Liquidity

The following table presents our primary cash requirements and sources of funds.

Cash Requirements	Source of Funds
<ul style="list-style-type: none"> Operational needs, including salaries, rent, taxes and other costs of running our business Capital expenditures Inventory (seasonal and new store) Share repurchases Dividend payments 	<ul style="list-style-type: none"> Cash flow from operations Short-term trade credit, in the form of extended payment terms Line of credit under our revolving credit facility

Our working capital and inventory levels typically build throughout the fall, peaking during the November and December holiday selling season.

	2015	2014	Increase/(Decrease) in Cash		
			\$	%	
	(Dollars in Millions)				
Net cash provided by (used in):					
Operating activities	\$102	\$179	\$(77)	(43))%
Investing activities	(175)	(172)	(3)	(2))%
Financing activities	(139)	(261)	122	47	%

Operating Activities. Operating activities generated \$102 million of cash in the first quarter of 2015, compared to \$179 million in the first quarter of 2014.

Merchandise inventory increased \$184 million to \$4.2 billion at May 2, 2015. Inventory cost per store increased 4% and units per store increased 1% over the first quarter of 2014. On a unit basis, national brands increased 10% per store while

Table of Contents

private and exclusive brands decreased 5% and 7%, respectively. The difference between units per store and cost per store reflects the higher cost of national brands. Accounts payable as a percent of inventory was 39.5% at May 2, 2015, compared to 34.7% at May 3, 2014. The increase reflects higher receipt volume, partially offset by slower inventory turnover. Income taxes generated cash of \$12 million in the first quarter of 2015 and used cash of \$64 million in the first quarter of 2014. The increase in cash is due to timing of tax payments.

Investing Activities. Investing activities used cash of \$175 million in the first quarter of 2015 and \$172 million in the first quarter of 2014. Capital expenditures were \$176 million in both the first quarter of 2015 and 2014, as store refresh spending shifted from new stores in 2014 to beauty remodels in 2015. Corporate spending shifted from a build out of a call center in Texas in 2014 to our Menomonee Falls corporate campus in 2015.

Financing Activities. Financing activities used cash of \$139 million in the first quarter of 2015 and \$261 million in the first quarter of 2014.

We paid cash for treasury stock purchases of \$147 million in the first quarter of 2015 and \$167 million in the first quarter of 2014. Share repurchases are discretionary in nature. The timing and amount of repurchases is based upon available cash balances, our stock price and other factors.

We received proceeds from stock options exercises of \$134 million in the first quarter of 2015 and \$24 million in the first quarter of 2014. The increase is due to increases in our stock price in the first quarter of 2015, leading to an increased number of exercised options.

We paid cash dividends of \$90 million (\$0.45 per share) in the first quarter of 2015 and \$80 million (\$0.39 per share) in the first quarter 2014. On May 13, 2015, our board of directors declared a quarterly cash dividend of \$0.45 per common share. The dividend is payable on June 24, 2015 to shareholders of record at the close of business on June 10, 2015.

Free Cash Flow. Free cash flow is a non-GAAP financial measure which we define as net cash provided by operating activities and proceeds from financing obligation payments (which generally represent landlord reimbursements of construction costs) less capital expenditures and capital lease and financing obligations. Free cash flow should be evaluated in addition to, and not considered a substitute for, other financial measures such as net income and cash flow provided by operations.

The following table reconciles net cash provided by operating activities (a GAAP measure) to free cash flow (a non-GAAP measure).

	2015	2014	Increase/(Decrease) in Free Cash Flow
	(In Millions)		
Net cash provided by operating activities	\$ 102	\$ 179	\$ (77)
Acquisition of property & equipment	(176)	(176)	—
Capital lease & financing obligation payments	(27)	(29)	2
Proceeds from financing obligations	—	3	(3)
Free cash flow	\$(101)	\$(23)	\$ (78)

Key financial ratios. Key financial ratios that provide certain measures of our liquidity are as follows:

	May 2, 2015	May 3, 2014
Working capital (In Millions)	\$2,844	\$2,494
Current ratio	1.95	1.94
Debt/capitalization	44.1	% 45.2 %

The increases in working capital and the current ratio are primarily due to higher cash balances. The decrease in the debt/capitalization ratio is primarily due to lower capital lease and financing obligations and higher equity.

Table of Contents

Debt Covenant Compliance. As of May 2, 2015, we were in compliance with all debt covenants and expect to remain in compliance during the remainder of fiscal 2015.

	(Dollars in Millions)
Included Indebtedness	
Total debt	\$ 4,753
Permitted exclusions	(7)
Subtotal	4,746
Rent x 8	2,224

Rolling 12-month Adjusted Debt Compliance EBITDAR	
Net income	\$ 869
Rent expense	278
Depreciation and amortization	897
Net interest	338
Provision for income taxes	482
EBITDAR	2,864
Stock based compensation	52
Other non-cash revenues and expenses	19
Rolling 12-month Adjusted Debt Compliance EBITDAR	\$ 2,935
Debt Ratio (a)	2.37
Maximum permitted Debt Ratio	3.75
(a) Included Indebtedness divided by Adjusted Debt Compliance EBITDAR	

Contractual Obligations

There have been no significant changes in the contractual obligations disclosed in our 2014 Form 10-K.

Off-Balance Sheet Arrangements

We have not provided any financial guarantees as of May 2, 2015. We have not created, and are not party to, any special-purpose or off-balance sheet entities for the purpose of raising capital, incurring debt or operating our business. We do not have any arrangements or relationships with entities that are not consolidated into our financial statements that are reasonably likely to materially affect our liquidity or the availability of capital resources.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect reported amounts. Management has discussed the development, selection and disclosure of its estimates and assumptions with the Audit Committee of our Board of Directors. There have been no significant changes in the critical accounting policies and estimates discussed in our 2014 Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no significant changes in the market risks described in our 2014 Form 10-K.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (the "Evaluation") at a reasonable assurance level as of the last day of the period covered by this report.

Based upon the Evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective at the reasonable assurance level. Disclosure controls and procedures are defined by Rule

15

Table of Contents

13a-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act") as controls and other procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving our stated goals under all potential future conditions, regardless of how remote.

(b) Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended May 2, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**Item 1A. Risk Factors**

There have been no significant changes in our risk factors from those described in our 2014 Form 10-K.

Forward-looking Statements

This report contains statements that may constitute forward-looking statements within the meaning of the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. Those statements relate to developments, results, conditions or other events we expect or anticipate will occur in the future. Words such as "believes," "anticipates," "plans," "expects" and similar expressions are intended to identify forward-looking statements. Without limiting the foregoing, these statements may relate to future outlook, revenues, earnings, store openings, planned capital expenditures, market conditions, new strategies and the competitive environment. Forward-looking statements are based on our management's then current views and assumptions and, as a result, are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. Any such forward-looking statements are qualified by the important risk factors described in Item 1A of our 2014 Form 10-K or disclosed from time to time in our filings with the SEC, that could cause actual results to differ materially from those predicted by the forward-looking statements. Forward-looking statements relate to the date initially made, and we undertake no obligation to update them.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

We did not sell any securities during the quarter ended May 2, 2015 which were not registered under the Securities Act.

The following table contains information for shares repurchased and shares acquired from employees in lieu of amounts required to satisfy minimum tax withholding requirements upon the vesting of the employees' restricted stock during the three fiscal months ended May 2, 2015:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (In Millions)
February 1 – February 28, 2015	34,887	\$61.96	30,962	\$ 1,643
March 1 – April 4, 2015	1,056,978	75.38	825,971	1,581

Edgar Filing: KOHLS Corp - Form 10-Q

April 5 – May 2, 2015	1,096,462	75.64	1,093,408	1,498
Total	2,188,327	\$75.30	1,950,341	\$ 1,498
