GUADALAJARA, MEXICO, May 6, 2009- Grupo Simec, S.A.B. de C.V. (AMEX:SIM) ("Simec") announced today final audited results of operations for the year ended December 31, 2008.

Acquisition of Corporacion Aceros DM, S.A. de C.V.

On February 21, 2008, we entered into an agreement to acquire 100% of the shares of Corporacion Aceros DM, S.A. de C.V. and certain of its affiliates ("Grupo San"), and on May 30, 2008 said acquisition was consummated. Grupo San is a long products steel mini-mill and the second-largest corrugated rebar producer in Mexico. Grupo San's operations are based in San Luis Potosi, Mexico. Its plants and 1,450 employees produce 600 thousand tons of finished products annually.

With this acquisition, Simec and Industrias CH, S.A.B. de C.V. ("ICH") position themselves as the second-largest producer of rebar and the largest steel producer in Mexico, with a production capacity of approximately 4.5 million tons of liquid steel and 3.8 million tons of finished products.

With this strategic acquisition, Simec and ICH will achieve a more diversified product mix, with 40% of sales in Mexico and 60% outside Mexico, both of which will allow them to better address the natural cycles of the steel industry on the domestic and global levels. Additionally, Simec has already identified significant synergies and economies of scale that will increase the company's operating margins. Grupo San's central location in San Luis Potosi, where Simec is not currently present, also represents a strong competitive advantage since it provides several strategic benefits mainly related to distribution, given its proximity to Mexico's main cities, sea ports, and borders.

In addition, Grupo San has aggressive expansion plans in its rebar business, which ICH and Simec will support and promote to satisfy the growing demand for this product, resulting from the Mexican government's aggressive infrastructure plan.

The financial statements of Simec include the operations of Grupo San since June 1, 2008.

Pursuant to Mexican Financial Reporting Standards "Bulletin B-7 Acquisitions of Business," Simec is in the process of calculating the goodwill and other intangible assets in the acquisition of Grupo San; as of December 31, 2008, Simec registered the adjustments of the fixed assets and intangible assets, the Company has not concluded the period of identification and measurement of the reasonable values of the acquires assets and liabilities assumed in the acquisition of Grupo San.

Year Ended December 31, 2008 compared to Year Ended December 31, 2007

Net Sales

Net sales increased 46% to Ps. 35,185 million in 2008 (including the net sales generated by the newly acquired plants of Grupo San of Ps. 2,532 million) compared to Ps. 24,106 million in 2007. Shipments of finished steel products increased 9% to 2 million 924 thousand tons in 2008 (including the net sales generated by the newly

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

acquired plants of Grupo San of 261 thousand tons) compared to 2 million 693 thousand tons in 2007. Total sales outside of Mexico in 2008 increased 44% to Ps. 24,471 million (including the net sales generated by the newly acquired plants of Grupo San of Ps. 98 million) compared with Ps. 17,031 million in 2007, while total Mexican sales increased 51% from Ps. 7,075 million in 2007 to Ps. 10,714 million in 2008 (including the net sales generated by the newly acquired plants of Grupo San of Ps. 2,434 million). The increase in sales can be explained due to higher shipments during 2008, compared with 2007 (a 231,000 tons increase) and 34% increase in the average price of steel products.

Direct Cost of Sales

Direct cost of sales increased 45% from Ps. 20,499 million in 2007 to Ps. 29,796 million in 2008 (including the cost of sales generated by the newly acquired plants of Grupo San of Ps. 1,444 million). Direct cost of sales as a percentage of net sales represented 85% in 2008 compared to 85% in 2007. The increase in the direct cost of sales is attributable mainly to an increase of 34% in the average cost of raw materials used to produce steel products in 2008 versus 2007, primarily as a result of increases in the price of scrap and certain other raw materials, as well as a 9% increase in shipments.

Gross Profit

Gross profit in 2008 increase 49% to Ps. 5,389 million (including the gross profit generated by the newly acquired plants of Grupo San of Ps. 1,010 million) compared to Ps. 3,607 million in 2007. Gross profit as a percentage of net sales was 15% in 2008 and 2007. This increase in gross profit was principally due to an increase of 9% in sales volume.

Operating Expenses

Operating expenses increased 60% to Ps. 2,274 million in 2008 (including the operating expenses from the newly acquired plants of Grupo San of Ps. 433 million and the depreciation and amortization of the tangible and intangible assets of Ps. 270 million registered by the acquisition of Grupo San) compared to Ps. 1,423 million in 2007 and represented 6% of net sales in 2008 and 2007.

Operating Profit

Operating profit increased 43% to Ps. 3,115 million in 2008 (including the operating profit from the newly acquired plants of Grupo San of Ps. 655 million) compared to Ps. 2,184 million in 2007. Operating profit as a percentage of net sales was 9% in 2008 compared to 9% in 2007. The increase in the operating profit was due principally to an increase of 9% in sales volume and an increase of 34% in the average price of steel products.

Comprehensive Financial Cost

Comprehensive financial cost in 2008 represented an expense of Ps. 175 million compared with a gain of Ps. 41 million in 2007. Net interest income was Ps. 79 million in 2008 compared with net interest income of Ps. 274 million in 2007, reflecting the use of cash and debt for the acquisition of Grupo San. At the same time, we registered an exchange loss of Ps. 254 million in 2008 compared with an exchange loss of Ps. 38 million in 2007, reflecting a 25% increase in the value of the dollar versus the peso as of December 31, 2008 compared to December 31, 2007.

QUARTER: 4 YEAR: 2008

FINANCIAL STATEMENT NOTES

CONSOLIDATED

AUDITED

(1) Operations preparation bases and summary of significant accounting policies:

Grupo Simec, S.A. de C.V. and its Subsidiaries ("the Company") are subsidiaries of Industrias CH, S.A. de C.V. ("ICH"), and their main activities consist of the manufacturing and sale of steel products primarily destined for the construction sector of Mexico and other countries.

Significant accounting policies and practices followed by the Companies which affect the principal captions of the financial statements are described below:

a. Financial statement presentation - Below is a summary of the most significant accounting policies and practices used in the preparation of the consolidated financial statements, in conformity with Mexican Financial Reporting Standards (MFRS), which include Bulletins and Circulars issued by the Accounting Principles Commission (CPC) of the Mexican Institute of Public Accountants (IMCP) which have not been amended, replaced or abrogated by MFRS issued by the Mexican Financial Reporting Standards Research and Development Board (Consejo Mexicano para la Investigacion y Desarrollo de Normas de Informacion Financiera, A.C. (CINIF)).

b. The main subsidiaries of SIMEC are the following:

- o Compania Siderurgica de California, S.A. de C.V.
- o Industrias del Acero y del Alambre, S.A. de C.V.
- o Pacific Steel Inc.
- o SimRep Corporation and PAV Republic and Subsidiaries
- o Corporacion Aceros DM, S.A. de C.V.

All significant intercompany balances and transactions have been eliminated in consolidation.

c. Cash and cash equivalents - The Company considers short-term investments with original maturities not greater than three months to be cash equivalent. Cash

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

equivalents include temporary investments and Mexican Government Treasury Bonds, and are stated at market value, which approximates cost plus earned interest. Any increase in market value is credited to operations for the period.

d. Inventories - Domestic subsidiaries' inventories are recorded initially at average cost under the direct costing system. Foreign subsidiaries' inventories are valued on a last-in, first-out (LIFO). For translation effects into MFRS the inventories have been adjusted from LIFO to average cost under the direct costing system.

Billet finished goods and work in process, raw materials and materials, supplies and rollers - At the average cost.

The Company presents as non-current inventories the rollers and spare parts, which according to historical data and production trends will not be used within a one-year period.

e. Derivative financial instruments - The Company is using derivative financial instruments for hedging risks associated with natural gas prices and conducted studies on historical consumption, future requirements and

commitments; thus it avoided exposure to risks other than the normal operating risks. Management of the Company examines its financial risks by continually analyzing price, credit and liquidity risks.

The Company uses futures contracts for hedging risks from fluctuations in natural gas prices, which are based on demand and supply at the principal international markets.

As applicable, the Company recognized the fair value of instruments either as liabilities or assets. Such fair value and thus, the value of these assets or liabilities were restated at each month's-end. The Company opted for the early adoption of Bulletin C-10 "Derivative Financial Instruments and Hedging"; therefore, at December 31, 2008 the fair value of natural gas were recognized within the comprehensive income account in stockholders' equity.

f. Property, plant and equipment - Property, plant and equipment of domestic origin are restated by using factors derived from The National Consumer Price Index ("NCPI") from the date of their acquisition, and imported machinery and equipment are restated by applying devaluation and inflation factors of the country of origin, until December 31, 2007. Depreciation recorded in the consolidated statement of income (loss) is computed based upon the estimated useful life and the restated cost of each asset. In addition, Financial expense incurred during the construction period is capitalized as construction in progress. The estimated useful lives of assets as of December 31, 2008 are as follows:

	Years

Buildings.....	15 to 50
Machinery and equipment.....	10 to 40
Buildings and improvements (Republic).....	10 to 25
Land improvements (Republic).....	5 to 25
Machinery and equipment (Republic).....	5 to 20

g. Other assets - Organization and pre-operating expenses are capitalized and their amortization is calculated by the straight-line method over a period of 20 years.

h. Seniority premiums and severance payments - According to Federal Labor Law,

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

employees are entitled to seniority premiums after fifteen years or more of services. These premiums are recognized as expenses in the years in which the services are rendered, using actuarial calculations based on the projected unit credit method, and since 1996 by applying real interest and salary increases.

Any other payments to which employees may be entitled in case of separation, disability or death, are charged to operations in the period in which they become payable.

i. Pension plan - Until 1995, the Company provided pension benefits for all personnel with a minimum of 10 years of service and 35 years of age. The Company had established an irrevocable trust for its contributions, which were based on actuarial calculations. In December 1995, the board of directors of the Company, in agreement with the trade union, discontinued these benefits and related contributions to the trust fund. This decision was made because of the new Mexican pension fund system, Administradoras de Fondos para el Retiro, which establishes similar benefits for the employees. The balance of the trust fund will be applied to the retirement benefits of qualifying employees until the fund is exhausted due to the irrevocable status of the fund.

The Company does not have any contractual obligation regarding the payment of pensions of retirements.

j. Income taxes - In 1999, the Mexican Institute of Public Accountants issued Bulletin D-4, "Accounting for Income and Asset Taxes and Employee Profit Sharing", which is effective for all fiscal years beginning January

1, 2000. Bulletin D-4 establishes financial accounting and reporting standards for the effects of asset tax, income tax and employee profit sharing that result from enterprise activities during the current and preceding years.

The Company and its subsidiaries are included in the consolidated tax returns of the company's parent.

k. Foreign currency transactions and exchange differences - All transactions in foreign currency are recorded at the exchange rates prevailing on the date of their execution or liquidation. Foreign currency denominated assets and liabilities are translated at the exchange rates prevailing at the balance sheet date. Any exchange differences incurred with regard to assets or liabilities denominated in foreign currency are charged to operations of the period and are included in financial income (expense) in the accompanying consolidated statements of income (loss).

For consolidation purposes, the financial statements of the foreign subsidiaries, were translated into pesos in conformity with Mexican accounting Bulletin MFRS B-15, Transactions in Foreign Currency.

The first step in the process of conversion of financial information of the operations is the determination of the functional currency, which is in first instance the currency of primary the economic surroundings of the foreign operation; nevertheless, despite the previous thing, the functional currency can differ from the premises or registry, in the measurement that this one does not represent the currency that fundamentally affects the cash flow of the operations abroad. The financial statements of the foreign subsidiaries were turned to Mexican pesos with the following procedure:

- Applying the prevailing exchange rate at the consolidated balance date for monetary assets and liabilities.

- Applying the prevailing historical exchange rate for nonmonetary assets and

Edgar Filing: GROUP SIMEC SA DE CV - Form 6-K

liabilities and for stockholders' equity accounts.

- Applying the prevailing the historical exchange rate at the consolidated balance sheet date for revenues and expenses during the reporting period
- The resulting effect of translation, the process of consolidation and to apply the participation method, is recorded in stockholders' equity under the accumulated effect by conversion forming part of the Comprehensive Income.

l. Geographic concentration of credit risk - The Company sells its products primarily to distributors for the construction industry with no specific geographic concentration. Additionally, no single customer accounted for a significant amount of the Company's sales, and there were no significant accounts receivable from a single customer or affiliate at December 31, 2008 sales to five customers accounted for approximately 34% of the Republic's sales. The Company performs evaluations of its customers' credit histories and establishes and allowance for doubtful accounts based upon the credit risk of specific customers and historical trends.

m. Other income (expenses) - Other income (expenses) shown in the consolidated statements of operations primarily includes other financial operations.

(2) Financial Debt:

As of December 31, 2008, Simec's total consolidated debt consisted of U.S. \$952,000; U.S. \$650,000 is a credit bank and U.S. \$302,000 of 8 7/8% medium-term notes ("MTN's") due 1998 (accrued interest on December 31, 2008 was U.S. \$387,882). As of December 31, 2007, Simec's total consolidated debt consisted of U.S. \$302,000 from 8 7/8% medium-term notes ("MTN's") due 1998 (accrued interest on December 31, 2007 was U.S. \$363,703).

(3) Commitments and contingent liabilities:

a. Pacific Steel, Inc. (a wholly-owned subsidiary located in the U.S.A.) has been named in various claims and suits relating to the generation, storage, transport, disposal and cleanup of materials classified as hazardous waste. The Company has accrued approximately Ps. 13,320 (U.S. \$983,875) at December 31, 2008, (included in accrued liabilities) relating to these actions; the reduction of this reserve from previous levels reflects clean-up activities undertaken by Simec. Management believes the ultimate liability with respect to this matter will not exceed the amounts that have been accrued.

b. The Company is subject to various other legal proceeding and claims, which have arisen, in the ordinary course of its business. It is the opinion of management that their ultimate resolution will not have a material adverse effect on the Company's consolidated financial position or consolidated results of operations.
