Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

Dear
SHAREHOLDER

Once again, I am pleased to report that over the most recent reporting period your Fund continued to provide you with attractive tax-free monthly income. For more specific information about the performance of your Fund, please see the Portfolio Managers' Comments and Performance Overview sections of this report.

With interest rates at historically low levels, many have begun to wonder how fixed-income investments will perform if interest rates begin to rise. No one knows what the future will bring, which is why we think a well-balanced portfolio that is structured and carefully monitored with the help of an investment professional is an important component in achieving your long-term financial goals. A well-diversified portfolio may actually help to reduce your overall investment risk, and we believe that municipal bond investments like your Nuveen Fund can be important building blocks in a portfolio crafted to perform well through a variety of market conditions.

I'd also like to direct your attention to the inside front cover of this report, which explains the quick and easy process to begin receiving Fund reports like this via e-mail and the internet. Thousands of Nuveen Fund shareholders already have signed-up, and they are getting their Fund information faster and more conveniently than ever. I urge you to consider joining them.

Since 1898, Nuveen Investments has offered financial products and solutions that incorporate careful research, diversification, and the application of conservative risk-management principles. We are grateful that you have chosen us as a partner as you pursue your financial goals. We look forward to continuing to earn your trust in the months and years ahead.

Sincerely,

/s/ Timothy R. Schwertfeger

Portfolio Managers'
COMMENTS

Portfolio managers Tom Spalding and John Miller review economic and market conditions, key investment strategies, and the recent performance of NUV and NMI. A 27-year Nuveen veteran, Tom has managed NUV since its inception in 1987. John, who has ten years of investment experience, assumed portfolio management responsibility for NMI in 2001.

WHAT FACTORS AFFECTED THE U.S. ECONOMY AND MUNICIPAL MARKET DURING THE PERIOD ENDED APRIL 30, 2003?

The underlying economic and market conditions have not changed much since our last shareholder report dated October 31, 2002. We believe the most influential

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

factors shaping the U.S. economy and the municipal market during this reporting period continued to be the sluggish pace of economic growth and interest rates that remained at 40-year lows. At the same time, continued geopolitical concerns, centering on the ongoing threat of terrorism and the situation in Iraq, also had an impact during this reporting period, particularly in terms of investor sentiment.

In the municipal market, the slow economic recovery and the continued lack of inflationary pressures created conditions that helped many bonds perform well during this reporting period. As of April 2003, inflation was running at 1.5% annualized, the lowest annual rate in 37 years. Following a record year in 2002, municipal issuance nationwide remained very heavy during the first four months of 2003, with \$113.5 billion in new municipal bonds coming to market, an increase of 21% over the same period in 2002. Despite the large supply of new municipal bonds, firm or improving prices indicated continued strong demand from investors. In particular, institutional investors such as property/casualty insurance companies, hedge funds, arbitrage accounts and pension funds were active buyers in the municipal market over much of this reporting period.

HOW DID NUV AND NMI PERFORM OVER THE TWELVE-MONTH PERIOD ENDED APRIL 30, 2003?

Individual results for the Funds, as well as for appropriate benchmarks, are presented in the accompanying table.

	MARKET YIELD		TOTAL RETURN ON NAV3	LEHMAN TOTAL RETURN1	LIPPER AVERAGE2
	4/30/03	TAXABLE- EQUIVALENT	1 YEAR ENDED 4/30/03	1 YEAR ENDED 4/30/03	1 YEAR ENDED 4/30/03
NUV	5.38%	7.69%	5.59%	8.49%	6.37%
NMI	5.46%	7.80%	4.30%	8.49%	6.37%

Past performance is not predictive of future results.

For additional information, see the individual Performance Overview for your Fund in this report.

For the twelve months ended April 30, 2003, both NUV and NMI underperformed the unmanaged Lehman Brothers Municipal Bond Index as well as their Lipper peer group average.

Much of the underperformance of NUV relative to the Lehman Index can be attributed to the Fund's shorter duration⁴. An investment with a shorter duration generally will not perform as well as an investment with a longer duration during a period of declining interest rates, as was the case during

1 The total annual returns on common share net asset value (NAV) for NUV and NMI are compared with the total annual return of the Lehman Brothers Municipal Bond Index, an unleveraged index comprising a broad range of investment-grade municipal bonds. Results for the Lehman index do not reflect any expenses.

2 The total returns of these Nuveen Funds are compared with the average annualized return of the nine funds in the Lipper General and Insured Unleveraged Municipal Debt Funds category. Fund and Lipper returns assume reinvestment of dividends.

- 3 The taxable-equivalent yield represents the yield that must be earned on a taxable investment in order to equal the yield of the Nuveen Fund on an after-tax basis. The taxable-equivalent yield is based on the Fund's market yield on the indicated date and a federal income tax rate of 30%.
- 4 Duration is a measure of a Fund's NAV volatility in reaction to interest rate movements.

2

much of the twelve-month performance period. As of April 30, 2003, NUV had a duration of 5.06, compared with 7.84 for the Lehman Index. NMI's duration on April 30, 2002, was 7.00, also shorter than the Lehman Index.

In addition to shorter durations, the performances of NUV and NMI were influenced by factors such as call exposure, portfolio trading activity, and the price movement of specific sectors and holdings. For example, during the twelve-month period the returns of NUV were impacted negatively by its holdings of bonds backed by American Airlines. Over the period, the market value of most airline-backed bonds fell, due in part to a decline in passenger volume and in part to the industry's well-documented financial struggles. Even though we believe that, over the long term, air travel will continue to be a major component of transportation in the U.S., we have begun to selectively trim our positions in airline-backed bonds as appropriate opportunities arise due to the bonds' potential for additional downside risk.

Over the twelve-month period, NMI's performance also was impacted by its holdings of \$7.3 million (par value) of bonds issued in 1997 and 1998 for CanFibre projects in Lackawanna, New York, and Riverside, California. Both of these projects were affected negatively by the bankruptcies of the former parent company of CanFibre as well as the general contractor. As of April 30, 2003, NMI had liquidated all of its Lackawanna position and had effectively liquidated about 85% of the Riverside position, with the remaining 15% scheduled to be liquidated over the next several months. Although these problem credits should not affect future performance, their decline in value in prior months resulted in a loss for the Fund over this period and hurt the Fund's total return.

HOW DID THE MARKET ENVIRONMENT AFFECT THE FUNDS' DIVIDENDS AND SHARE PRICES?

During the period ended April 30, 2003, NMI continued to pay steady, attractive dividends, marking 14 consecutive months of stable payments to shareholders. Looking at NUV, higher-yielding issues were called from the Fund's portfolio over the past year, and these bonds were replaced with securities paying the generally lower market yields available in the current interest rate environment. This necessitated a dividend cut in NUV in December 2002.

Over the course of the twelve-month period, the share price of NMI rose, moving this Fund from trading at a discount to its common share net asset value to trading at a premium. Over the same time period, the share price of NUV fell slightly, and this Fund continued to trade at a discount as of April 30, 2003 (see charts on individual Performance Overview pages).

3

WHAT KEY STRATEGIES WERE USED TO MANAGE NUV AND NMI DURING THE PERIOD ENDED APRIL 30, 2003?

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

Over the reporting period, we continued to place strong emphasis on diversifying the Funds' portfolios, enhancing call protection and supporting their future dividend-paying capabilities. Strategically, we have begun to focus on modestly lengthening the Funds' durations, which we think will help their future performance without greatly increasing their interest rate risk.

In line with our duration adjustment strategy, we have been focusing on purchasing bonds from the long-intermediate part of the yield curve (i.e., those that mature in 15 to 20 years). For NUV, where duration shortened over the past year as interest rates declined and holdings were priced to their call dates, we also have looked out on the curve as long as 25 years. In many cases, these long-intermediate bonds offered yields similar to those of longer bonds but had less inherent interest rate risk.

In general, heavy issuance in the municipal market over the past year provided us with increased opportunities to purchase the types of bond structures that we favor. We also continued to look for individual issues that we believed were positioned to perform well regardless of the future direction of interest rates. Overall, we emphasized undervalued sectors of the market and geographical areas with healthy levels of issuance that we believed would hold up well in the marketplace, such as Texas and Florida. Both NUV and NMI remained heavily weighted in healthcare bonds, the top performing group among the Lehman revenue sectors for the twelve-month period.

NMI also invested some of the proceeds from bond calls and the sale of distressed bonds into charter schools, where uneven performance among schools can result in individual credits being undervalued by the market. Our holdings of BBB rated bonds issued for the DCS Montessori Charter School project in Douglas County, Colorado, currently stand to benefit from the state legislature's approval of a new law that is supportive of investment-grade charter schools in the state. We also looked carefully at the power industry. One of our holdings in this sector, the Ogden Haverhill facility in Massachusetts, has appreciated in value significantly since our purchase. Shortly after the end of the reporting period we also added bonds issued for Appalachian Power in West Virginia, a subsidiary of American Electric Power, which we believe offered excellent value within their sector.

Each of these Funds held modest positions (less than 5% of its portfolio) in bonds backed by the 1998 Master Tobacco Settlement Agreement. Over the past five years, fourteen states, the District of Columbia, Puerto Rico, Guam, New York City, and

individual counties in California and New York have issued almost \$20 billion of tobacco securitization bonds backed by this agreement. In recent months, the prices of these bonds weakened as the result of lawsuits involving the major tobacco companies as well as the increased issuance of such bonds by states planning to use the proceeds to help close budget gaps. Although the sector as a whole produced negative returns over the twelve-month period, tobacco bonds showed some recovery toward the end of the period.

Given the current geopolitical and economic climate, credit quality remains an important factor for many investors. As of April 30, 2003, NUV offered excellent credit quality, with 67% of its portfolio allocated to bonds rated AAA/U.S. guaranteed and AA. NMI may invest up to 25% of its portfolio in securities rated below investment grade (BB and lower). As of April 30, 2003, NMI had allocated 9% to this credit sector and 21% to non-rated bonds, with 32% invested in bonds rated A or better.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

In coming months, in keeping with our focus on risk management, we expect to continue increasing the overall credit quality of this Fund as appropriate opportunities present themselves.

WHAT IS YOUR OUTLOOK FOR THE MUNICIPAL MARKET IN GENERAL AND THESE FUNDS IN PARTICULAR?

We think new issuance volume should remain strong, as issuers continue to take advantage of the low rate environment. Adding to our expectations for continued strong issuance are the budget deficits affecting many states, and their continued need to raise money for infrastructure, education and healthcare needs. Over coming months, we will continue to closely monitor the states' budgetary situations to watch for any potential impact on credit ratings.

Looking at bond call exposure, we believe that NMI offers good levels of call protection during the remainder of 2003 and through 2004. As of April 30, 2003, the potential call exposure in this Fund was 2% in 2003 and 8% in 2004. Over the balance of 2003 and 2004, NUV faces a higher potential call risk, affecting up to 35% of its portfolio in 2003. Depending upon market conditions as we move through 2003, some of these securities, though eligible, may not be called by their issuers. In any event, we will seek to manage the Fund through this period in ways that support the Fund's dividend-paying and total return potential. In 2004, NUV's call exposure drops back to 5%. The number of actual calls during this time will depend largely on market interest rates and individual decisions made by issuers.

In the coming months, our primary goal will continue to be moderating the Funds' durations. In addition, we plan to watch for opportunities to purchase or swap for issues that we perceive to be undervalued, particularly in sectors of the market that have recently underperformed. The expected strong supply of new bonds should help us in this effort.

Notes to FINANCIAL STATEMENTS (Unaudited)

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The National Funds (the "Funds") covered in this report and their corresponding New York Stock Exchange symbols are Nuveen Municipal Value Fund, Inc. (NUV) and Nuveen Municipal Income Fund, Inc. (NMI). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, diversified management investment companies.

Each Fund seeks to provide current income exempt from regular federal income tax by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with accounting principles generally accepted in the United States.

Securities Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors. When price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers and general market conditions. If it is determined that market prices for a security are unavailable or inappropriate, the Board of Directors of the Funds, or its designee, may establish a fair value for the security. Temporary investments in securities that have variable rate and demand features qualifying them as short-term securities are valued at amortized cost, which approximates market value.

Securities Transactions

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

Securities transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined on the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may have extended settlement periods. The securities so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At April 30, 2003, Municipal Value (NUV) had outstanding when-issued purchase commitments of \$3,054,600. There were no such outstanding purchase commitments in Municipal Income (NMI).

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis.

Federal Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its net investment income to its shareholders. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds.

Dividends and Distributions to Shareholders

Dividends from tax-exempt net investment income are declared and paid monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States.

Derivative Financial Instruments

The Funds may invest in certain derivative financial instruments including futures, forward, swap and option contracts, and other financial instruments with similar characteristics. Although the Funds are authorized to invest in such financial instruments, and may do so in the future, they did not make any such investments during the six months ended April 30, 2003.

25

Notes to

FINANCIAL STATEMENTS (Unaudited) (continued)

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

=====		

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing income on taxable market discount securities and timing differences in recognizing certain gains and losses on security transactions.

At April 30, 2003, the cost of investments were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)

Cost of Investments	\$1,815,544,132	\$81,557,432
=====		

Gross unrealized appreciation and gross unrealized depreciation on investments at April 30, 2003, were as follows:

=====		

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

26

The tax components of undistributed net investment income and net realized gains at October 31, 2002, the Fund's last fiscal year end, were as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Undistributed tax-exempt income	\$8,502,747	\$300,609
Undistributed ordinary income *	162,176	14,703
Undistributed net long-term capital gains	7,912,348	--

The tax character of distributions paid during the fiscal year ended October 31, 2002, the Fund's last fiscal year end, was designated for purposes of the dividends paid deduction as follows:

	MUNICIPAL VALUE (NUV)	MUNICIPAL INCOME (NMI)
Distributions from tax-exempt income	\$99,430,445	\$5,019,154
Distributions from ordinary income *	643,366	--
Distributions from net long-term capital gains	799,334	--

* Ordinary income consists of taxable market discount income and net short-term capital gains, if any.

At October 31, 2002, the Funds' last fiscal year end Municipal Income (NMI) has an unused capital loss carryforward of \$116,138, available to be applied against future capital gains, if any. If not applied, the carryforward will expire in the year 2008.

5. MANAGEMENT FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Under Municipal Value's investment management agreement with Nuveen Advisory Corp. (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc. (formerly, The John Nuveen Company), the Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL VALUE (NUV)
For the first \$500 million	.3500%
For the next \$500 million	.3250
For net assets over \$1 billion	.3000

In addition, Municipal Value (NUV) pays an annual management fee, payable monthly, based on gross interest income as follows:

GROSS INTEREST INCOME	MUNICIPAL VALUE (NUV)
For the first \$50 million	4.125%
For the next \$50 million	4.000
For gross income over \$100 million	3.875

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

Under Municipal Income's (NMI) investment management agreement with the Adviser, the Fund pays an annual management fee, payable monthly, at the rates set forth below, which are based upon the average daily net assets of the Fund as follows:

AVERAGE DAILY NET ASSETS	MUNICIPAL INCOME (NMI)
For the first \$125 million	.6500%
For the next \$125 million	.6375
For the next \$250 million	.6250
For the next \$500 million	.6125
For the next \$1 billion	.6000
For the next \$3 billion	.5875
For net assets over \$5 billion	.5750

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

several private insurers or are backed by an escrow or trust containing U.S. Government or U.S. Government agency securities, both of which ensure the timely payment of principal and interest in the event of default (54% for Municipal Value (NUV) and 12% for Municipal Income (NMI)). Such insurance or escrow, however, does not guarantee the market value of the municipal securities or the value of the Funds' shares.

For additional information regarding each investment security, refer to the Portfolio of Investments of each Fund.

7. SUBSEQUENT EVENT - DISTRIBUTIONS TO SHAREHOLDERS

The Funds declared dividend distributions from their tax-exempt net investment income which were paid on June 2, 2003, to shareholders of record on May 15, 2003, as follows:

Build Your Wealth AUTOMATICALLY

SIDEBAR TEXT: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN CLOSED-END EXCHANGE-TRADED FUNDS DIVIDEND REINVESTMENT PLAN

Your Nuveen Closed-End Exchange-Traded Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBILITY

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to

another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

POLICY CHANGE

On November 14, 2002, the Board adopted a policy that allows these Funds, in addition to investments in municipal bonds, to invest up to 5% of its net assets (including assets attributable to preferred shares, if any) in tax-exempt or taxable fixed-income securities or equity securities for the purpose of acquiring control of an issuer whose municipal bonds (a) the Fund already owns

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSR

and (b) have deteriorated or are expected shortly to deteriorate significantly in credit quality, provided Nuveen Advisory determines that such investment should enable the Fund to better maximize the value of its existing investment in such issuer. This policy is a non-fundamental policy of each Fund which means that it can be changed at any time by the Board of Trustees without vote of the shareholders.

GLOSSARY OF TERMS USED IN THIS REPORT

Average Annual Total Return: This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return (including change in NAV and reinvested dividends) that would have been necessary on an annual basis to equal the investment's actual performance over the time period being considered.

Average Effective Maturity: The average of all the maturities of the bonds in a fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

Leverage-Adjusted Duration: Duration is a measure of a bond or bond fund's sensitivity to changes in interest rates. Generally, the longer a bond or fund's duration, the more the price of the bond or fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is generally longer than the duration of the actual portfolio of individual bonds that make up the Fund.

Market Yield (also known as Dividend Yield or Current Yield): An investment's current annualized dividend divided by its current market price.

Net Asset Value (NAV): A fund's NAV is calculated by subtracting the liabilities of the fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

Taxable-Equivalent Yield: The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.

Each Fund intends to repurchase shares of its own common stock in the future at such times and in such amounts as is deemed advisable. No shares were repurchased during the six-month period ended April 30, 2003. Any future repurchases will be reported to shareholders in the next annual or semiannual report.
