Portfolio Manager's  
COMMENTS

Portfolio manager Paul Brennan discusses key investment strategies and the six-month performance of these New Jersey and Pennsylvania Funds. Paul, who has 16 years of investment experience, including 14 years with Nuveen, has managed these Funds since 2003.

WHAT KEY STRATEGIES WERE USED TO MANAGE THE FUNDS DURING THE SIX-MONTH PERIOD ENDED DECEMBER 31, 2005?

Over this period, shorter-term interest rates rose faster than longer-term rates. As a result, bond valuations generally declined and the yield curve flattened (short-term interest rates approached the levels of longer-term rates). In this environment, one of our key strategies continued to be careful duration management. (Duration is a measure of a bond's price sensitivity as interest rates change, with longer duration bonds displaying more sensitivity to these changes than bonds with shorter durations.)

In this environment, our purchase activity generally focused on increasing the Funds' exposure to bonds that mature in 10 to 20 years. We believed that bonds in this part of the yield curve generally offered more attractive opportunities and the best values during this period. We also kept an opportunistic eye out for all types of issuance that we believed could add value to the Funds' portfolios. This included occasionally purchasing longer-term bonds, especially for the New Jersey Funds, as part of our overall duration management strategy.

To help us maintain the Funds' durations within our preferred range, we selectively sold holdings with shorter maturities, including pre-refunded bonds, and reinvested the proceeds further out on the yield curve. Proceeds from called bonds also were reinvested in an effort to maintain duration ranges.

As longer-term yields rose during this period, we found some opportunities to sell a few of our holdings purchased when yields were lower and replace them with similar credits that yielded comparatively more. This helped to strengthen the Funds' income streams. This process also enabled us to realize some capital losses, which can be used to offset realized capital gains (to the extent they exist this year) or carried forward to offset future realized gains. This strategy benefits shareholders by reducing or deferring the Funds' shareholders' tax liabilities.

Most of our new purchases over this time were higher-rated and/or insured bonds, reflecting not just the overall high credit quality of the new issue supply in these states, but also the dwindling attractive investment opportunities for lower-rated bonds - more so in New Jersey than in Pennsylvania. This is because lower rated credits, continuing a trend from prior reporting periods, performed relatively well during this period due to considerable investor demand and the resulting higher prices. The rising prices of lower-quality bonds diminished their yield advantage over higher-quality bonds. Even so, we sought to maintain the Funds' weightings of bonds rated BBB or lower, a decision that benefited the Funds' returns.

In past shareholder reports, we discussed the use of hedging as part of our strategy to manage the Funds' interest rate risk. During this reporting period, there was no hedging activity for these Funds and no hedged positions were in place at the end of the reporting period.

For the six months ended December 31, 2005, the cumulative returns on net asset value (NAV) for all of these Funds underperformed the return on the Lehman Brothers Municipal Bond Index benchmark. The Funds also trailed the averages of their respective Lipper peer groups.

One of the factors affecting the Funds' six-month performance relative to that of the unleveraged Lehman Brothers index was the Funds' use of financial leverage. While leveraging provides opportunities for additional income and total returns for common shareholders when interest rates fall or remain consistently low (as has been the case over the past several years), this benefit is reduced when interest rates rise. With the increase in both short-term and long-term rates over this six-month period, the decline in value of the bonds in these Funds' portfolios was exacerbated by the effect of leveraging. In addition, the extent of the leverage benefit is tied in part to the short-term

The Lipper Pennsylvania Municipal Debt Funds category average is calculated using the returns of all exchange-traded closed-end funds for each period as follows: 6 months, 12 funds; 1 year, 12 funds; 5 years, 9 funds; and 10 years, 7 funds. Fund and Lipper returns assume reinvestment of dividends.

rates the Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, leveraged Funds generally pay lower dividends to their

MuniPreferred share holders, which can leave more earnings to support common share dividends. When short-term interest rates rise, as they did during this reporting period, the Funds' borrowing costs also rise, impacting the Funds' expenses, income streams and common share total returns. However, leverage is still contributing positively to common share net income, and we remain convinced that leveraging is likely to benefit the performance of these Funds over the long term.

During this reporting period, all of the Funds benefited from their allocations of lower-quality credits, as bonds rated BBB or lower generally outperformed higher-rated securities. This was largely the result of investor demand for the higher yields typically associated with lower-quality bonds, which drove up the value of these bonds. Among the New Jersey Funds, allocations of bonds rated BBB or lower and non-rated bonds totaled 12% in NNJ, 14% in NXJ, 15% in NQJ, and 21% in NUJ as of December 31, 2005. The Pennsylvania Funds had weightings ranging from 7% in NQP to 12% in NPY, 16% in NXM and 17% NVY. The differences in allocations to lower-rated bonds accounted for much of the performance differential among these Funds for this six-month period, especially in NNJ, NQP and NPY, which had the smallest weightings of lower-rated credits.

Among the holdings making positive contributions to all of the Funds' cumulative returns for this period were industrial development and healthcare bonds, which ranked as the top two sectors in terms of performance among the Lehman Brothers municipal revenue sectors for the period. BBB rated bonds backed by the 1998 master tobacco settlement agreement also contributed to the New Jersey Funds' returns, as the litigation environment for tobacco companies improved and favorable supply/demand dynamics drove tobacco bond prices higher. As of December 31, 2005, the New Jersey Funds held between 3% and 4% of their portfolios in unenhanced, uninsured New Jersey tobacco bonds. The Pennsylvania Funds did not hold any tobacco credits during this reporting period.

7

NXJ and NUJ also held small positions in bonds rated Caa2/B issued by New Jersey Economic Development Authority for Continental Airlines, which performed very well during this period. Given the continued turmoil in the airline industry due to additional bankruptcies and higher energy prices, we believed it would be prudent to reduce our exposure to this credit and took advantage of an attractive opportunity to sell some of these bonds. However, because we think they could still offer some upside potential, both NXJ and NUJ continued to maintain a position in these bonds as of December 31, 2005.

Among higher quality credits, housing bonds, particularly those issued for multifamily housing, were some of the best performing issues in the Funds' portfolios, as rising interest rates lessened the incidence and impact of prepayments and calls on these bonds.

During this six-month period, the Funds' holdings of pre-refunded bonds and insured credits tended to underperform other segments of the municipal market. Among the Pennsylvania Funds, NPY had the heaviest weighting in insured bonds, which constrained its performance for this period. In general, bonds that mature in four to twelve years also underperformed. NVY held a large position in Pennsylvania general obligation bonds that generally fell into this maturity range and this hampered its performance over this period.

HOW WERE THE FUNDS POSITIONED IN TERMS OF CREDIT QUALITY AND BOND CALLS AS OF DECEMBER 31, 2005?

As of December 31, 2005, all eight of these Funds continued to offer excellent credit quality, with allocations of bonds rated AAA/U.S. guaranteed and AA ranging from 66% in NUJ to 73% in NXM, 78% in NXJ, 79% in NVY, 81% in NQJ, 83% in NPY, 84% in NNJ and 88% in NQP.

As of December 31, 2005, potential call exposure during 2006 and 2007 ranged from 0% in NVY to 3% in NQP and NXM, 7% in NUJ, 9% in NNJ, 10% in NXJ, 11% in NQJ and 14% in NPY. The number of actual bond calls in all of these Funds depends largely on future market interest rates.

Dividend and Share Price  
INFORMATION

All of these Funds use leverage to potentially enhance the income available to support common shareholder dividends. The extent of this benefit is tied in part to the short-term rates these leveraged Funds pay their MuniPreferred(R) shareholders. During periods of low short-term rates, leveraged Funds generally pay lower dividends to their MuniPreferred shareholders, which can leave more earnings to support common share dividends. However, when short-term interest rates rise, as they did during this reporting period, the Funds' borrowing costs also rise. While leveraging still provided income benefits for common shareholders, the extent of these benefits was reduced. This resulted in a single monthly dividend reduction in NUJ and NXM and two reductions in NQJ, NNJ, NQP and NPY over the six-month period ended December 31, 2005. The dividends of NXJ and NVY remained stable throughout this reporting period.

In addition, due to normal portfolio activity, common shareholders of the Funds received capital gains and net ordinary income distributions at the end of December 2005 as follows:

|     | LONG-TERM CAPITAL GAINS<br>(PER SHARE) | ORDINARY INCOME<br>(PER SHARE) |
|-----|----------------------------------------|--------------------------------|
| NQJ | \$0.2403                               | --                             |
| NNJ | \$0.3089                               | \$0.0007                       |
| NXJ | \$0.1034                               | --                             |

| NPY | \$0.2137                               | \$0.0023                       |
| NXM | \$0.1015                               | --                             |
| NVY | \$0.0976                               | --                             |

These distributions, some of which were relatively large, represented an

important part of the Funds' returns for this period. They were generated by bond calls and the sale of appreciated securities. This had a slight negative impact on the Funds' earning power per common share and was a minor factor in the per share dividend reductions noted above.

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of December 31, 2005, all of the Funds in this report except NQP and NVY had positive UNII balances for both financial statement and tax purposes. NQP and NVY had positive UNII balances for tax purposes and negative UNII balances for financial statement purposes.

1 Taxable-equivalent yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a combined federal and state income tax rate of 30%. When comparing this Fund to investments that generate qualified dividend income, the taxable-equivalent yield is lower.

2 The Fund also paid shareholders a capital gains distribution in December 2005 of \$0.0976 per share.

 =====

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
  - (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
  - (3) Ratings: Using the higher of Standard & Poor's or Moody's rating. Ratings below Baa by Moody's Investor Service, Inc. or BBB by Standard & Poor's Group are considered to be below investment grade.
  - (4) Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest.
  - (5) Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
- (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

- (3) Ratings: Using the higher of Standard & Poor's or Moody's rating. Ratings below Baa by Moody's Investor Service, Inc. or BBB by Standard & Poor's Group are considered to be below investment grade.
  - (4) Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.
  - (5) Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
- WI/DD Security purchased on a when-issued or delayed delivery basis.
- N/R Investment is not rated.

 =====

- (1) All percentages shown in the Portfolio of Investments are based on net assets applicable to Common shares unless otherwise noted.
  - (2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.
  - (3) Ratings: Using the higher of Standard & Poor's or Moody's rating. Ratings below Baa by Moody's Investor Service, Inc. or BBB by Standard & Poor's Group are considered to be below investment grade.
  - (4) Securities are backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities which ensures the timely payment of principal and interest. Such securities are normally considered to be equivalent to AAA rated securities.
  - (5) Security has a maturity of more than one year, but has variable rate and demand features which qualify it as a short-term investment. The rate disclosed is that in effect at the end of the reporting period. This rate changes periodically based on market conditions or a specified market index.
- WI/DD Security purchased on a when-issued or delayed delivery basis.
- N/R Investment is not rated.

1. GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The state funds (the "Funds") covered in this report and their corresponding Common share stock exchange symbols are Nuveen New Jersey Investment Quality Municipal Fund, Inc. (NQJ), Nuveen New Jersey Premium Income Municipal Fund, Inc. (NNJ), Nuveen New Jersey Dividend Advantage Municipal Fund (NXJ), Nuveen New Jersey Dividend Advantage Municipal Fund 2 (NUJ), Nuveen Pennsylvania Investment Quality Municipal Fund (NQP), Nuveen Pennsylvania Premium Income Municipal Fund 2 (NPY), Nuveen Pennsylvania Dividend Advantage Municipal Fund (NXM) and Nuveen Pennsylvania Dividend Advantage Municipal Fund 2 (NVY). Common shares of New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), Pennsylvania Investment Quality (NQP) and Pennsylvania Premium Income 2 (NPY) are traded on the New York Stock Exchange while Common shares of New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) are traded on the American Stock Exchange. The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end management investment companies.

Each Fund seeks to provide current income exempt from both regular federal and applicable state income taxes by investing primarily in a diversified portfolio of municipal obligations issued by state and local government authorities within a single state or certain U.S. territories.

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles.

Investment Valuation

The prices of municipal bonds in each Fund's investment portfolio are provided by a pricing service approved by the Fund's Board of Directors/Trustees. When market price quotes are not readily available (which is usually the case for municipal securities), the pricing service establishes fair market value based on yields or prices of municipal bonds of comparable quality, type of issue, coupon, maturity and rating, indications of value from securities dealers, evaluations of anticipated cash flows or collateral and general market conditions. Prices of derivative investments are also provided by an independent pricing service approved by each Fund's Board of Directors/Trustees. If the pricing service is unable to supply a price for a municipal bond or derivative investment, each Fund may use a market price or fair market value quote provided by a major broker/dealer in such investments. If it is determined that the market price or fair market value for an investment is unavailable or inappropriate, the Board of Directors/Trustees of the Funds, or its designee, may establish a fair value for the investment. Temporary investments in securities that have variable rate and demand features qualifying them as short-term investments are valued at amortized cost, which approximates market value.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method. Investments purchased on a when-issued or delayed delivery basis may have extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued and delayed delivery purchase commitments. At December 31, 2005, New Jersey Investment Quality (NQJ), New Jersey Premium Income (NNJ), New Jersey Dividend Advantage (NXJ), New Jersey Dividend Advantage 2 (NUJ), Pennsylvania Investment Quality (NQP), Pennsylvania Premium Income 2 (NPY), Pennsylvania Dividend Advantage (NXM) and Pennsylvania Dividend Advantage 2 (NVY) had outstanding when-issued and/or delayed delivery purchase commitments of \$624,065, \$380,527, \$182,653, \$121,769, \$1,265,824, \$1,195,500, \$210,971 and

\$281,294, respectively.

Investment Income

Interest income, which includes the amortization of premiums and accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also includes paydown gains and losses, if any.

FINANCIAL STATEMENTS (Unaudited) (continued)

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions which will enable interest from municipal securities, which is exempt from regular federal and applicable state taxes, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

Dividends and Distributions to Common Shareholders

Dividends from tax-exempt net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders not less frequently than annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to Common shareholders of tax-exempt net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles.

Preferred Shares

The Funds have issued and outstanding Preferred shares, \$25,000 stated value per share, as a means of effecting financial leverage. Each Fund's Preferred shares are issued in one or more Series. The dividend rate paid by the Funds on each Series is determined every seven days, pursuant to a dutch auction process overseen by the auction agent, and is payable at the end of each rate period. The number of Preferred shares outstanding, by Series and in total, for each Fund is as follows:

#### Forward Swap Transactions

The Funds are authorized to invest in certain derivative financial instruments. The Funds' use of forward interest rate swap transactions is intended to mitigate the negative impact that an increase in long-term interest rates could have on Common share net asset value. Forward interest rate swap transactions involve each Fund's agreement with the counterparty to pay, in the future, a fixed rate payment in exchange for the counterparty paying the Fund a variable rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the forward swap contract, and would increase or decrease in value based primarily on the extent to which long-term interest rates for bonds having a maturity of the swaps' termination date were to increase or decrease. The Funds may close out a contract prior to the effective date, at which point a realized gain or loss would be recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Each Fund intends, but is not obligated to, terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination. To minimize such credit risk, all counterparties are required to pledge collateral daily (based on the daily valuation of each swap) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when any of the Funds have an unrealized loss on a swap contract, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the swap valuations fluctuate, either up or down, by at least the predetermined threshold amount. At December 31, 2005, the Funds did not have any forward swap contracts outstanding.

#### Bank Borrowings

The Funds' have an unsecured bank line of credit under which outstanding balances bear interest at a variable rate. As of December 31, 2005, the Funds were paying interest at 4.45% per year on their respective outstanding borrowings. No compensating balances are required.

#### Custodian Fee Credit

Edgar Filing: NUVEEN PENNSYLVANIA INVESTMENT QUALITY MUNICIPAL FUND INC - Form N-CSRS

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments.

Indemnifications

Under the Funds' organizational documents, its Officers and Directors/Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets applicable to Common shares from operations during the reporting period. Actual results may differ from those estimates.

4. INCOME TAX INFORMATION

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to the treatment of paydown gains and losses, timing differences in recognizing taxable market discount and timing differences in recognizing certain gains and losses on investment transactions.

At December 31, 2005, the cost of investments was as follows:

5. MANAGEMENT FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Each Fund's management fee is separated into two components - a complex-level component, based on the aggregate amount of all fund assets managed by Nuveen Asset Management (the "Adviser"), a wholly owned subsidiary of Nuveen Investments, Inc., and a specific fund-level component, based only on the amount of assets within each individual fund. This pricing structure enables Nuveen fund shareholders to benefit from growth in the assets within each individual fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

Edgar Filing: NUVEEN PENNSYLVANIA INVESTMENT QUALITY MUNICIPAL FUND INC - Form N-CSRS

The annual fund-level fee, payable monthly, for each Fund is based upon the average daily net assets (including net assets attributable to Preferred shares) of each Fund as follows:

The annual complex-level fee, payable monthly, which is additive to the fund-level fee, for all Nuveen sponsored funds in the U.S., is based on the aggregate amount of total fund assets managed as stated in the table below. As of December 31, 2005, the complex-level fee rate was .1895%.

| COMPLEX-LEVEL ASSETS (1)                 | COMPLEX-LEVEL FEE RATE |
|------------------------------------------|------------------------|
| For the first \$55 billion               | .2000%                 |
| For the next \$1 billion                 | .1800                  |
| For the next \$1 billion                 | .1600                  |
| For the next \$3 billion                 | .1425                  |
| For the next \$3 billion                 | .1325                  |
| For the next \$3 billion                 | .1250                  |
| For the next \$5 billion                 | .1200                  |
| For the next \$5 billion                 | .1175                  |
| For the next \$15 billion                | .1150                  |
| For Managed Assets over \$91 billion (2) | .1400                  |

(1) The complex-level fee component of the management fee for the funds is calculated based upon the aggregate Managed Assets ("Managed Assets" means the average daily net assets of each fund including assets attributable to all types of leverage used by the Nuveen funds) of Nuveen-sponsored funds in the U.S.

(2) With respect to the complex-wide Managed Assets over \$91 billion, the fee rate or rates that will apply to such assets will be determined at a later date. In the unlikely event that complex-wide Managed Assets reach \$91 billion prior to a determination of the complex-level fee rate or rates to

be applied to Managed Assets in excess of \$91 billion, the complex-level fee rate for such complex-wide Managed Assets shall be .1400% until such time as a different rate or rates is determined.

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The Funds pay no compensation directly to those of its Directors/Trustees who are affiliated with the Adviser or to their officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent Directors/Trustees that enables Directors/Trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen advised Funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen advised Funds.

Reinvest Automatically  
EASILY AND CONVENIENTLY

Sidebar text: NUVEEN MAKES REINVESTING EASY. A PHONE CALL IS ALL IT TAKES TO SET UP YOUR REINVESTMENT ACCOUNT.

NUVEEN EXCHANGE-TRADED CLOSED-END FUNDS  
DIVIDEND REINVESTMENT PLAN

Your Nuveen Exchange-Traded Closed-End Fund allows you to conveniently reinvest dividends and/or capital gains distributions in additional fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of tax-free compounding. Just like dividends or distributions in cash, there may be times when income or capital gains taxes may be payable on dividends or distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

EASY AND CONVENIENT

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total dividends and distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

HOW SHARES ARE PURCHASED

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. Dividends and distributions received to purchase shares in the open market will normally be invested shortly after the dividend payment date. No interest will be paid on dividends and distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

FLEXIBLE

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change. Should you withdraw, you can receive a certificate for all whole shares credited to your reinvestment account and cash payment for fractional shares, or cash payment for all reinvestment account shares, less brokerage commissions and a \$2.50 service fee.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

#### GLOSSARY OF TERMS USED IN THIS REPORT

**AVERAGE ANNUAL TOTAL RETURN:** This is a commonly used method to express an investment's performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment's actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.

**AVERAGE EFFECTIVE MATURITY:** The average of all the maturities of the bonds in a Fund's portfolio, computed by weighting each maturity date (the date the security comes due) by the market value of the security. This figure does not account for the likelihood of prepayments or the exercise of call provisions.

**LEVERAGE-ADJUSTED DURATION:** Duration is a measure of the expected period over which a bond's principal and interest will be paid, and consequently is a measure of the sensitivity of a bond's or bond Fund's value to changes when market interest rates change. Generally, the longer a bond's or Fund's duration, the more the price of the bond or Fund will change as interest rates change. Leverage-adjusted duration takes into account the leveraging process for a Fund and therefore is longer than the duration of the Fund's portfolio of bonds.

**MARKET YIELD (ALSO KNOWN AS DIVIDEND YIELD OR CURRENT YIELD):** An investment's current annualized dividend divided by its current market price.

**NET ASSET VALUE (NAV):** A Fund's common share NAV per share is calculated by subtracting the liabilities of the Fund (including any MuniPreferred shares issued in order to leverage the Fund) from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.

**TAXABLE-EQUIVALENT YIELD:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
