Special Opportunities Fund, Inc.

February 27, 2019

Dear Fellow Shareholders:

After paying a year-end dividend of \$1.45, the net asset value (NAV) of Special Opportunities Fund closed the year at \$13.78. In the second half of 2018, the NAV decreased by 9.24% from \$16.78 to \$15.23 (after adding back the \$1.45 dividend) vs. a decline of 6.85% by the S&P 500 Index. For the entire year, the NAV decreased by 8.79% vs. a loss of 4.38% by the S&P 500 Index. Our underperformance in 2018 is due in part to being overweight in foreign or emerging market closed-end funds like the China Fund, Delaware Enhanced Global Dividend and Income Fund, and Aberdeen Emerging Markets Equity Income Fund, discussed below.

Here are updates on some of our significant positions.

In July 2017 Emergent Capital (EMGC.PK), which owns a large portfolio of life insurance policies, completed its recapitalization. We participated in the recap. We eventually sold our common stock and currently own secured and convertible notes. In a strategic move, a subsidiary of Emergent recently filed for bankruptcy protection to put pressure on its lender, claiming the lender tried “to coerce [Emergent and the subsidiary] into selling their valuable portfolio of life insurance policies to defendants for well below its true value.” We are closely following the case and are cautiously optimistic that a settlement will be reached that will lead to a full recovery by the noteholders.

In our last letter, we reported that shareholders of The Swiss Helvetia Fund (SWZ) had approved our proposal to conduct a large self-tender offer at or close to NAV and elected two additional directors who were committed to implementing that proposal. As a result, after receiving a large capital gain distribution and participating in a self-tender offer that was completed in November, Special Opportunities Fund disposed of more than 95% of its investment at an average price of more than 98% of NAV.

We have stock in Hill International (HIL), a construction management firm that has been under new management since mid-2017 and has made significant progress in reducing expenses and rationalizing its business. A number of large shareholders want to see Hill sold (which we think would be at a significant premium to its market price). Hill’s board has installed a new CEO whom we have met. His primary goal is to increase revenues, which would enhance Hill’s value and may prime the company for a sale.

The dividends on our 7.625% Series A Cumulative Redeemable Preferred Stock of Brookfield DTLA Fund Office Trust Investor Inc. (DTLA-), the owner of several high-rise office buildings and a shopping mall in downtown Los Angeles, have been in

Special Opportunities Fund, Inc.

arrears for several years. The sum of the face value of the preferred shares and accrued dividends is more than \$40 per share, well above the current stock price of about \$21. Andy Dakos and I have seats on the board. Although patience is likely to be required, we believe Brookfield is making the right moves to increase the value of the properties and that preferred shareholders will ultimately be rewarded by payment of the accrued dividends or being taken out at a premium to the current market price.

After Aberdeen Emerging Markets Equity Income Fund (AEF) completed a sizeable self-tender offer at 99% of NAV (in which we participated), we elected to sell our remaining shares. We have re-established a position at a double-digit discount because management has committed to take further measures including conducting another self-tender offer if the discount persists.

As we stated in our last letter, in the second quarter of 2018 Winthrop Realty Liquidating Trust paid distributions totaling \$5.65 from the sale of its interest in a retail/hotel construction project in the tourist-heavy Times Square area of Manhattan. The balance of Winthrop's real estate will be sold in due course and the proceeds distributed to unitholders. Since the value of Fund's investment in Winthrop is now much smaller, we do not intend to provide further updates on it.

Primarily due to concerns about the adverse tax consequences for a registered investment company like Special Opportunities Fund that receives significant income from a liquidating trust, we elected to dispose of our shares of New York REIT (NYRT) before it converted to a (non-traded) liquidating trust.

Our Fund is a member of a group that gained control of the board of trustees of Putnam High Income Securities Fund (PCF) in 2018 and dropped "Putnam" from its name. Substantially all of PCF's portfolio securities have been sold and the proceeds have been invested in money market funds. We expect to sell substantially all of our shares in a self-tender offer that is currently in progress at 99% of NAV.

Faced with the prospect of a proxy contest, management of Delaware Enhanced Global Dividend and Income Fund (DEX) authorized a self-tender offer for 20% of the outstanding shares at 98% of NAV. The discount narrowed after the tender offer commenced and we were able to sell most of our shares prior to expiration of the tender offer or in the tender offer itself.

In our last letter, we discussed our investment in Tropicana Entertainment (TPCA), a casino operator then controlled by Carl Icahn. We said: "TPCA stock, which had previously been trading in the \$55 range, is now about \$73.50 per share and could go higher if, as we think, its remaining casino property in Aruba is sold at a good price." Shortly thereafter, that sale took place and TPCA shareholders received \$75.14 per share.

Special Opportunities Fund, Inc.

We sold our stock of Barings BDC, Inc. (BBDC) in the second half of 2018. Barings has an outstanding long-term track record of lending to private companies, having generated returns of more than 12% per annum over a 25-year period and has a reputation for being shareholder friendly. Barings is targeting a yield of 8% on NAV for BBDC and we are looking for an opportunity to re-establish a position at an attractive valuation.

Although we predicted that The China Fund (CHN) would conduct a large self-tender offer by the end of 2018, the offer, which was for 30% of its outstanding shares at 99% of NAV, actually commenced in early January 2019. Between sales after the announcement and tendering the balance of our shares, we disposed of the bulk of our position at a relatively narrow discount from NAV.

Not every activist foray is successful. For example, after we accumulated a sizeable stake in Aberdeen Japan Equity Fund (JEQ) at a double-digit discount, we set our sights on a proxy contest. However, after speaking with management and canvassing some large shareholders who seemed lukewarm, we elected to abandon the idea. Consequently, we have been opportunistically reducing our position. Like Gary Cooper in “High Noon,” who had to face a bunch of gunfighters without support, launching a proxy contest without stockholder support is not a project we would be eager to take on.

As far as our pipeline, we continue to acquire a handful of income oriented closed-end funds that trade at discounts from NAV and have shareholders that we think would support measures to narrow the discount. One such investment that has worked out well is Alliance California Municipal Income Fund (AKP). We had acquired a sizable stake in AKP at a double-digit discount. On August 2, 2018, AKP issued a press release that, as a result of an anticipated assignment of the advisory agreement, a proposal to approve new advisory agreements “will be submitted to...stockholders...on October 11, 2018.” We quickly decided to solicit proxies against that proposal. On December 17, 2018, after several adjournments, AKP announced that the Board had “resolved to cancel the Fund’s plan to [seek stockholder approval] of new investment advisory agreements with AllianceBernstein L.P.” and that it “intends to consider the outcome of the meeting of stockholders, and whether any action would be in the best interests of the Fund, at a future time.” On February 7, 2019, AKP announced that it would be liquidated, which will result in all shareholders including the Fund realizing NAV for their shares.

Lastly, we continue to deploy the leverage provided by the convertible preferred stock to maintain a sizable position in SPACs or blank check companies. We expect our diversified portfolio of SPACs to generate an annualized rate of return in the high single digits, which is attractive considering that there is virtually no risk of loss on any one SPAC.

Special Opportunities Fund, Inc.

We expect the SEC to approve our application to implement a so-called managed distribution plan to allow us to pay monthly or quarterly dividends. Paying dividends more frequently than once a year (1) may help to narrow the discount by attracting income-oriented investors, and (2) should aid in managing the portfolio by smoothing out changes to the Fund's asset base necessitated by the tax code.

Currently, the Fund is prohibited from acquiring more than 3% of another closed-end fund's shares. On December 19, 2018, the SEC proposed a rule that would remove that limitation subject to certain conditions "designed to address historical abuses associated with fund of funds arrangements." Given our activist investment strategy, we think adoption of that rule would be a huge positive for the Fund for obvious reasons. The proposed rule is available at <https://www.sec.gov/rules/proposed/proposedarchive/proposed2018.shtml>.

We remind you that from time to time the Fund seeks instructions from shareholders for voting its proxies for certain closed-end funds whose shares the Fund owns. The instruction forms are available at [http://www.specialopportunitiesfundinc.com/proxy\\_voting.html](http://www.specialopportunitiesfundinc.com/proxy_voting.html). If you would like to receive an email notification when the Fund seeks proxy voting instructions for a closed-end fund whose shares it owns, please email us at [proxyinstructions@bulldoginvestors.com](mailto:proxyinstructions@bulldoginvestors.com).

Sincerely yours,

Phillip Goldstein  
Chairman

Past performance does not predict future performance. The return and value of an investment will fluctuate so that an investor's share, when sold, may be worth more or less than their original cost. The Fund's common stock net asset value ("NAV") return assumes, for illustration only, that dividends and other distributions, if any, were reinvested at the NAV on payable dates for dividends and other distributions payable through December 31, 2009 and reinvested at the NAV on the ex-dividend date for dividends and other distributions payable after December 31, 2009. The Fund's common stock market price returns assume that all dividends and other distributions, if any, were reinvested at prices obtained under the Fund's Dividend Reinvestment Plan (which was terminated on January 1, 2010) for dividends and other distributions payable through December 31, 2009 and reinvested at the lower of the NAV or the closing market price on the ex-dividend date for dividends and other distributions payable after December 31, 2009. NAV and market price returns for the period of less than one year have not been annualized. Returns do not reflect the deduction of taxes that a shareholder could pay on Fund dividends and other distributions, if any, or the sale of Fund shares.

The Fund's investment objective and investment adviser have changed. See Note 1 of the Notes to financial statements for more information about the change in investment objective and see Note 2 of the Notes to financial statements for more information about the change in investment adviser. On January 25, 2010, the Fund began investing using its new investment objective, therefore, performance prior to that date is not relevant.

The S&P 500® Index is a capital weighted, unmanaged index that represents the aggregate market value of the common equity of 500 stocks primarily traded on the New York Stock Exchange.

Financial highlights (continued)

- (1) Recognition of investment income by the Fund is affected by the timing and declaration of dividends by the underlying investment companies in which the Fund invests.  
Total net asset value return is calculated assuming a \$10,000 purchase of common stock at the current net asset value on the first day of each period reported and a sale at the current net asset value on the last day of each period reported, and assuming reinvestment of dividends and other distributions at the net asset value on the ex-dividend date.
- (2) Total investment return based on net asset value is hypothetical as investors can not purchase or sell Fund shares at net asset value but only at market prices. Returns do not reflect the deduction of taxes that a shareholder could pay on Fund dividends and other distributions, if any, or the sale of Fund shares.  
Total market price return is calculated assuming a \$10,000 purchase of common stock at the current market price on the first day of each period reported and a sale at the current market price on the last day of each period reported, and assuming reinvestment of dividends and other distributions to common shareholders at the lower of the NAV or the closing market price on the ex-dividend date. Total investment return does not reflect brokerage commissions and has not been annualized for the period of less than one year. Returns do not reflect the deduction of taxes that a shareholder could pay on Fund dividends and other distributions, if any, or the sale of Fund shares.
- (3) Does not include expenses of the investment companies in which the Fund invests.
- (4) Less than 0.5 cents per share.

Notes to financial statements

Note 1

Organization and significant accounting policies

Special Opportunities Fund, Inc. (formerly, Insured Municipal Income Fund Inc.) (the “Fund”) was incorporated in Maryland on February 18, 1993, and is registered with the United States Securities and Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended, as a closed-end diversified management investment company. Effective December 21, 2009, the Fund changed its name to the Special Opportunities Fund, Inc. and changed its investment objective to total return. There can be no assurance that the Fund’s investment objective will be achieved. The Fund’s previous investment objective was to achieve a high level of current income that was exempt from federal income tax, consistent with the preservation of capital.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 “Financial Services—Investment Companies”.

In the normal course of business, the Fund may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Fund’s maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The preparation of financial statements in accordance with Accounting Principles Generally Accepted in the United States of America requires the Fund’s management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The following is a summary of significant accounting policies:

Valuation of investments—The Fund calculates its net asset value based on the current market value for its portfolio securities. The Fund obtains market values for its securities from independent pricing sources and broker-dealers. Independent pricing sources may use last reported sale prices or if not available the most recent bid price, current market quotations or valuations from computerized “matrix” systems that derive values based on comparable securities. A matrix system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio securities. If a market value is not available from an independent pricing source or a broker-dealer for a particular security, that security is valued at fair value as determined in good faith by or under the direction of the Fund’s Board of Directors (the “Board”). Various factors may be

## Notes to financial statements

reviewed in order to make a good faith determination of a security's fair value. The auction rate preferred securities are valued at cost, unless other observable market events occur. The purchase price, or cost, of these securities is arrived at through an arms length transaction between a willing buyer and seller in the secondary market and is indicative of the value on the secondary market. Current transactions in similar securities in the marketplace are evaluated. Factors for other securities may include, but are not limited to, the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion or exchange rights on the security; related corporate actions; and changes in overall market conditions. If events occur that materially affect the value of securities between the close of trading in those securities and the close of regular trading on the New York Stock Exchange, the securities may be fair valued. U.S. and foreign debt securities including short-term debt instruments having a maturity of 60 days or less shall be valued in accordance with the price supplied by a Pricing Service using the evaluated bid price. Money market mutual funds, demand notes and repurchase agreements are valued at cost. If cost does not represent current market value the securities will be priced at fair value as determined in good faith by or under the direction of the Fund's Board.

The Fund has adopted fair valuation accounting standards that establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various input and valuation techniques used in measuring fair value. Fair value inputs are summarized in the three broad levels listed below:

Level 1— Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2— Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3— Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security,

Special Opportunities Fund, Inc.

Notes to financial statements

whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The significant unobservable inputs used in the fair value measurement of the Fund's Level 3 investments are listed in the table on page 28. Significant changes in any of these inputs in isolation may result in a change in fair value measurement.

In accordance with procedures established by the Fund's Board of Directors, the Adviser shall initially value non-publicly-traded securities (for which a current market value is not readily available) at their acquisition cost less related expenses, where identifiable, unless and until the Adviser determines that such value does not represent fair value.

The Adviser sends a memorandum to the Chairman of the Valuation Committee with respect to any non-publicly-traded positions that are valued using a method other than cost detailing the reason, factors considered, and impact on the Fund's NAV. If the Chairman determines that such fair valuation(s) require the involvement of the Valuation Committee, a special meeting of the Valuation Committee is called as soon as practicable to discuss such fair valuation(s). The Valuation Committee of the Board consists of at least two non-interested Directors, as defined by the Investment Company Act of 1940.

In addition to special meetings, the Valuation Committee meets prior to each regular quarterly Board meeting. At each quarterly meeting, the Adviser delivers a written report (the "Quarterly Report") regarding any recommendations of fair valuation during the past quarter, including fair valuations which have not changed. The Valuation Committee reviews the Quarterly Report, discusses the valuation of the fair valued securities with appropriate levels of representatives from the Adviser's management, and, unless more information is required, approves the valuation of fair valued securities.

The Valuation Committee also reviews other interim reports as necessary.

**Special Purpose Acquisition Companies**—The Fund may invest in stock, warrants, and other securities of special purpose acquisition companies or similar special purpose entities that pool funds to seek potential acquisition opportunities (“SPACs”). Unless and until an acquisition meeting the SPAC’s requirements is completed, a SPAC generally invests its assets (less a portion retained to cover expenses) in U.S. Government securities, money market securities and cash. If an acquisition that meets the requirements for the SPAC is not completed within a pre-established period of time, the invested funds are returned to the entity’s shareholders. Because SPACs and similar entities have no operating history or ongoing business other than seeking acquisitions, the value of their securities is particularly dependent on the ability of the entity’s management to identify and complete a profitable acquisition. Some SPACs may pursue acquisitions only within certain industries or regions, which may increase the volatility of their prices. In addition, these securities, which are typically traded in the over-the-counter market, may be considered illiquid and/or be subject to restrictions on resale.

**Short sales**—The Fund is authorized to make short sales. Short sales are transactions where a fund sells securities it does not own in anticipation of a decline in the value of the securities.

Special Opportunities Fund, Inc.

Notes to financial statements

Short sales carry risks of loss if the price of the security sold short increases after the sale. In this situation, when a fund replaces the borrowed security by buying the security in the securities market, the fund may pay more for the security than it has received from the purchaser in the short sale. The fund may, however, profit from a change in the value of the security sold short, if the price decreased.

As collateral for its short positions, the Fund is required under the 1940 Act to maintain segregated assets consisting of cash, cash equivalents, or liquid securities. The amount of segregated assets are required to be adjusted daily to the extent additional collateral is required based on the change in fair value of the securities sold short.

The Fund did not engage in short sales during the year ended December 31, 2018.

Investment transactions and investment income—Investment transactions are recorded on the trade date. Realized gains and losses from investment transactions are calculated using the identified cost method. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized using the effective yield method as adjustments to interest income and the identified cost of investments.

Dividends and distributions—Dividends to Common Stockholders from net investment income and distributions of net realized capital gains, if any, will be declared and paid at least annually. Dividends and distributions to common shareholders are recorded on the ex-dividend date. The amount of dividends from net investment income and distributions from net realized capital gains was determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. These “book/tax” differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

The Fund has made certain investments in Real Estate Investment Trusts (“REITs”) which pay distributions to their shareholders based upon available funds from operations. Each REIT reports annually the tax character of its distributions. It is quite common for these distributions to exceed the REIT’s taxable earnings and profits resulting in the excess portion of such distributions being designated as a return of capital or long-term capital gain. The Fund intends to include the gross distributions from such REITs in its distributions to its shareholders; accordingly, a portion of the distributions paid to the Fund and subsequently distributed to shareholders may be re-characterized. The final determination of the amount of the Fund’s return of capital distribution for the period will be made after the end of each calendar year.

Convertible Preferred Stock

At December 31, 2018, 2,223,976 shares of 3.50% Convertible Preferred Stock were outstanding. The holders of Convertible Preferred Stock may convert their shares to common stock on a quarterly basis at a conversion rate equivalent to the current conversion price of \$15.41 per share of common stock (which is a current ratio of 1.6223 shares of common stock for each share of Convertible Preferred Stock held). The conversion price (and resulting conversion ratio) will be adjusted for any distributions made to or on behalf of common stockholders. Following any such conversion, shares of common stock shall be issued as soon as reasonably practicable following the next quarterly dividend payment date. Until the mandatory redemption date of the Convertible Preferred Stock, August 19, 2021, at any time following the second anniversary of the expiration date of the Convertible Preferred Stock rights offering, the Board may, in its sole discretion, redeem all or any part of the then outstanding shares of Convertible Preferred Stock at \$25.00 per share. Under such circumstances, the Fund shall provide no less than 30 days' notice to the holders of Convertible Preferred Stock that, unless such shares have been converted by a certain date, the shares will be redeemed. If, at any time from and after the date of issuance of the Convertible Preferred Stock, the market price of the common stock is equal to or greater than \$18.41 per share (as adjusted for dividends or other distributions made to or on behalf of holders of the common stock), the Board may, in its sole discretion, require the holders of the Convertible Preferred Stock to convert all or any part of their shares into shares of common stock at a conversion rate equivalent to the current conversion price of \$15.41 per share of common stock (which is a current ratio of 1.6223 shares of common stock for each share of Convertible Preferred Stock held), subject to adjustment upon the occurrence of certain events.

The conversion price (and resulting conversion ratio) will be adjusted for any dividends or other distributions made to or on behalf of common stockholders. Notice of such mandatory conversion shall be provided by the Fund in accordance with its Articles of Incorporation. In connection with all conversions shareholders of Convertible Preferred Stock would receive payment for all declared and unpaid dividends on the shares of Convertible Preferred Stock held to the date of conversion, but after conversion would no longer be entitled to the dividends, liquidation preference or other rights attributable to holders of the Convertible Preferred Stock. The Convertible Preferred Stock is classified outside of the permanent equity (net assets applicable to Common Stockholders) in the accompanying financial statements in accordance with accounting for redeemable equity instruments, which requires preferred securities that are redeemable for cash or other assets to be classified outside of permanent equity to the extent that the redemption is at a fixed or determinable price and at the option of the holder or upon occurrence of an event that is not solely within the control of the issuer.

Special Opportunities Fund, Inc.

Notes to financial statements

The Fund is required to meet certain asset coverage tests with respect to the Convertible Preferred Stock as required by the 1940 Act. In addition, pursuant to the Rating Agency Guidelines established by Moody's, the Fund is required to maintain a certain discounted asset coverage. If the Fund fails to meet these requirements and does not correct such failure, the Fund may be required to redeem, in part or in full, the Convertible Preferred Stock at a redemption price of \$25.00 per share, plus an amount equal to the accumulated and unpaid dividends, whether or not declared on such shares, in order to meet these requirements. Additionally, failure to meet the foregoing asset coverage requirements could restrict the Fund's ability to pay dividends to Common Stockholders and could lead to sales of portfolio securities at inopportune times. The Fund has met these requirements since issuing the Convertible Preferred Stock.

Note 4

## Federal tax status

The Fund has elected to be taxed as a “regulated investment company” and intends to distribute substantially all taxable income to its shareholders and otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income taxes or excise taxes has been made.

In order to avoid imposition of the excise tax applicable to regulated investment companies, the Fund intends to declare each year as dividends in each calendar year at least 98.0% of its net investment income (earned during the calendar year) and 98.2% of its net realized capital gains (earned during the twelve months ended October 31) plus undistributed amounts, if any, from prior years.

## Notes to financial statements

The following information is presented on an income tax basis as of December 31, 2018:

Tax cost of investments	\$181,397,438
Unrealized appreciation	8,335,231
Unrealized depreciation	(17,472,612 )
Net unrealized appreciation	(9,137,381 )

Undistributed long-term gains	—
Total distributable earnings	—
Other accumulated/gains losses and other temporary differences	(2,456,154 )
Total accumulated gains	\$(11,593,535 )

To reflect reclassifications arising from permanent “book/tax” differences for the year ended December 31, 2018, the Fund’s paid-in capital was decreased by \$1,442 and the accumulated deficit was decreased by \$1,442. The permanent differences are primarily attributed to passive foreign investment companies, foreign currency gain and short-term capital gain dividend reclassifications.

Net capital losses incurred after October 31, and within the taxable year are deemed to arise on the first business day of the Fund’s next taxable year. At December 31, 2018, the Fund deferred, on a tax basis, post October losses of \$1,201,877 in ordinary income and \$1,255,949 in capital gains.

At December 31, 2018, the Fund did not have capital loss carryforwards.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund’s tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years (2015-2017), or expected to be taken in the Fund’s 2018 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal and the State of Maryland; however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

## Recent Accounting Pronouncements

In August 2018, FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement (“ASU 2018-13”). The primary focus of ASU 2018-13 is to improve the effectiveness of the disclosure requirements for fair value measurements. The changes affect all companies that are required to include fair value measurement disclosures. In general, the amendments in ASU 2018-13 are effective for all entities for fiscal years and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt the removed or modified disclosures upon the issuance of ASU 2018-13 and may delay adoption of the additional disclosures, which are required for public companies only, until their effective date. Management has chosen to early adopt the eliminated or modified disclosures for the year ended December 31, 2018.

Board approval of investment advisory agreement (unaudited)

At its in-person meeting held on September 12, 2018, the Board of Directors (the “Board”) of Special Opportunities Fund, Inc. (the “Fund”) met to consider the renewal of the Investment Advisory Agreement (the “Advisory Agreement”) between the Fund and Bulldog Investors, LLC (the “Adviser”). The Independent Directors (as defined below) and Mr. Gerald Hellerman held a telephonic executive session on September 7, 2018 (the “September 7, 2018 Meeting”) to review materials related to the renewal of the Advisory Agreement. The Board received and discussed a memorandum from the Fund’s independent legal counsel regarding the duties and responsibilities of the Board and the Independent Directors under the Investment Company Act of 1940, as amended (the “1940 Act”), in reviewing advisory contracts. Based on their evaluation of the information provided, the Directors, by a unanimous vote (including a separate vote of the Directors who are not “interested persons,” as that term is defined in the 1940 Act, as amended (the “Independent Directors”)), approved the continuation of the Advisory Agreement for an additional one-year term.

In considering the renewal of the Advisory Agreement and reaching their conclusions, the Independent Directors and Mr. Hellerman reviewed and analyzed various factors that they determined were relevant, including (a) the nature, extent, and quality of the services to be provided by the Adviser; (b) the investment performance of the Fund and the Adviser; (c) the cost of the services to be provided and the profits to be realized by the Adviser from its relationship with the Fund; and (d) the extent to which economies of scale (if any) would be realized as the Fund grows; and (e) fee comparisons of the advisory services and fees similar to those of the Investment Adviser. The Independent Directors evaluated each of these factors based on their own direct experience with the Adviser and in consultation with their independent counsel. No one factor was determinative in the Board’s decision to approve the continuance of the Advisory Agreement. Greater detail regarding the Independent Directors’ consideration of the factors that led to their decision to approve the continuance of the Advisory Agreement is set forth below.

The materials which had been prepared by the Adviser in response to a questionnaire (known as a “15(c) questionnaire”) provided to the Adviser by Fund counsel with respect to certain matters that counsel believed relevant to the annual continuation of the Advisory Agreement under Section 15 of the 1940 Act, distributed to the Directors and reviewed by the Independent Directors and Mr. Hellerman together with counsel at the September 7, 2018 Meeting included, among other things, information regarding: (a) the Adviser’s financial soundness; (b) information on the cost to the Adviser of advising the Fund and the Adviser’s profitability in connection with such advisory services; (c) the experience and responsibilities of key personnel at the Adviser; (d) the risk management policies and procedures adopted by the Adviser; (e) the investment performance of the

Fund as compared to peer and/or comparable funds; (f) the Adviser's policy with respect to selection of broker-dealers and allocation of portfolio transactions; (g) fees of the Fund as compared to peer and/or comparable funds; (h) the profitability to the Adviser derived from its relationship to the Fund; (i) the Adviser's compliance program and chief compliance officer; (j) the Adviser's policy with respect to proxy voting; (k) affiliates and possible conflicts; and (l) other material factors affecting the Adviser.

The Independent Directors reviewed the Adviser's financial information and discussed the profitability of the Adviser as it relates to advising the Fund. The Independent Directors considered both the direct and indirect benefits to the Adviser from advising the Fund. These considerations were based on material requested by the Directors specifically for the meeting, as well as the in-person presentations made by the Adviser over the course of the year. On the request of the Independent Directors, the Adviser affirmed that it would make funds available, if needed, to support its engagement with the Fund and believes in the sustainability of the Fund. After further discussion, the Independent Directors concluded that the Adviser's profit from advising the Fund currently was not excessive and that the Adviser had adequate financial strength to support the services to the Fund.

After reviewing these materials, the Independent Directors assessed the overall quality of services provided to the Fund. The Independent Directors then considered the Adviser's specific responsibilities in all aspects of day-to-day management of the Fund, as well as the qualifications, experience and responsibilities of the portfolio manager and other key personnel at the Adviser involved in the day-to-day activities of the Fund. The Independent Directors noted the unique investment strategy of the Fund and the knowledge and expertise required by the Adviser's personnel. The Independent Directors also considered the operational strength of the Adviser. The Independent Directors noted any services that extended beyond portfolio management, and considered the favorable history, reputation, qualification and background of the Adviser, as well as the qualifications of its personnel and financial condition. The Independent Directors concluded that the Adviser had sufficient quality and depth of personnel, resources, investment methods and compliance policies and procedure necessary to performing its duties under the Advisory Agreement and that the nature, overall quality, and extent of the management services were satisfactory and reliable.

The Independent Directors reviewed the personnel responsible for providing services to the Fund and concluded, based on their experience and interaction with the Adviser, that the Adviser (a) was able to retain quality personnel, (b) exhibited a high level of diligence and attention to detail in carrying out its responsibilities under the Advisory Agreement, (c) was very responsive to the

Special Opportunities Fund, Inc.

requests of the Independent Directors, (d) had consistently kept the Independent Directors apprised of developments related to the Fund and the industry in general and (e) continued to demonstrate the ability to grow the Fund.

The Independent Directors discussed the performance of the Fund for the year-to-date, one-year, three-year, and five-year periods ended July 31, 2018. In assessing the quality of the portfolio management services delivered by the Adviser, the Independent Directors also compared the short-term and long-term performance of the Fund on both an absolute basis and in comparison to a peer group of allocation closed-end funds constructed by data provided by Morningstar, Inc. (the "Morningstar Peer Group") and assembled by Fund Services independently from the Adviser. The Independent Directors noted that the Board reviews the investment performance of the Fund at each quarterly meeting. After considering all of the information, the Independent Directors concluded that the Adviser has obtained reasonable returns for the Fund while minimizing risk. Although past performance is not a guarantee or indication of future results, the Independent Directors determined that the Fund and its shareholders were likely to benefit from the Adviser's continued management.

The Independent Directors then turned to a more focused review of the cost of services and the structure of the Adviser's fees. The Independent Directors reviewed information prepared by Fund Services comparing the Fund's contractual advisory fees with a peer group of funds, and comparing the Fund's overall expense ratio to the expense ratios of the Morningstar Peer Group. The Independent Directors noted that the contractual investment advisory fee for the Fund of 1.00% was near the 0.93% Morningstar Peer Group average. The Independent Directors further noted that the then current expense ratio of 1.94% for the Fund was lower than the peer group average of 2.00%. It was noted that the Fund is unique in its industry due to its activist investment strategy and true comparisons are difficult. The Independent Directors concluded that the Fund's expenses and management fees paid to the Adviser were fair and reasonable in light of the experience and commitment of the Adviser as well as the comparative performance, expense and management fee information.

The Independent Directors then discussed in greater detail, with the assistance of the Fund's Chief Compliance Officer (the "CCO"), the Adviser's handling of compliance matters. The CCO reported to the Independent Directors on the effectiveness of the Adviser's compliance program. The CCO noted that the Adviser had provided certifications that: (a) it had adopted a Code of Ethics conforming to applicable regulatory requirements; and (b) it had adopted procedures reasonably necessary to prevent its access persons from violating its own Code of Ethics, to which the CCO offered his own certification that the Code of Ethics is compliant with applicable regulations. The Independent

Directors also discussed the Adviser's business continuity plan. After reviewing the Adviser's compliance policies and procedures with respect to the Fund, based on the assurances and information provided to them by the CCO, the Independent Directors concluded that the Adviser's policies and procedures were satisfactory.

After due consideration of the written and oral presentations, the Independent Directors concluded that the nature and scope of the advisory services provided was reasonable and appropriate in relation to the advisory fee and in relation to peer comparisons, that the level of services to be provided by the Adviser were expected to be maintained and that the quality of service was expected to be high.

Based on the factors discussed above, the Board approved the continuance of the Advisory Agreement between the Fund and Adviser on September 12, 2018.

Special Opportunities Fund, Inc.

New York Stock Exchange certifications (unaudited)

In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund’s president and treasurer have made quarterly certifications, included in the filing with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund’s disclosure controls and procedures and internal control over financial reporting.

The registrant's policy regarding proxy voting is to delegate the voting of proxies with respect to securities owned by the Fund to the Adviser. The Adviser's policies and procedures regarding proxy voting are below.

Bulldog Investors, LLC

Proxy Voting Policies and Procedures

Proxy Voting Policies

Bulldog Investors believes that the right to vote on issues submitted to shareholder vote, such as election of directors and important matters affecting a company's structure and operations, can impact the value of its investments. Bulldog Investors generally analyzes the proxy statements of issuers of stock owned by Bulldog Investors' clients, as necessary and votes proxies on behalf of such clients.

Bulldog Investors' decisions with respect to proxy issues are made in light of the anticipated impact of the issue on the value of the investment. Proxies are voted solely in the interests of Bulldog Investors' clients.

Proxy Voting Procedures

In evaluating proxy statements, Bulldog Investors relies upon its own fundamental research, and information presented by company management and others. Bulldog Investors does not delegate its proxy voting responsibility to a third party proxy voting service.

Proxy Voting Guidelines

Private Funds and Managed Accounts. Bulldog Investors will generally vote proxies in favor of proposals that, in the opinion of the portfolio managers, seek to enhance shareholder value and shareholder democracy.

Special Opportunities Fund, Inc. ("SPE"). With respect to proxies of closed-end investment companies held by SPE, in order to comply with Section 12(d) of the Investment Company Act of 1940, Bulldog Investors will "mirror vote" all

such proxies received by SPE, unless Bulldog Investors deems it appropriate to seek instructions from SPE shareholders with regard to such vote. In such circumstances, Bulldog Investors will vote such proxies as determined by a majority of the proxy voting instructions received by shareholders.

All Clients. In certain circumstances, Bulldog Investors may enter into a settlement agreement with an issuer of stock owned by Bulldog Investors' clients that requires Bulldog Investors to vote shares of such stock (or the stock of an affiliate of the issuer) held by clients in a manner that deviates from these Policies and Procedures. In entering into any such agreement, Bulldog Investors has determined that the anticipated impact of entering into such settlement agreement is in the interests of Bulldog Investors' clients.

#### Monitoring and Resolving Conflicts of Interest

When reviewing proxy statements and related research materials, Bulldog Investors will consider whether any business or other relationships between a portfolio manager, Bulldog Investors and a portfolio company could influence a vote on such proxy matter. With respect to personal conflicts of interest, Bulldog Investors' Code of Ethics requires all members to avoid activities, perquisites, gifts, or receipt of investment opportunities that could interfere with the ability to act objectively and effectively in the best interests of Bulldog Investors and its clients, and restricts their ability to engage in certain outside business activities. Portfolio managers with a personal conflict of interest regarding a particular proxy vote must recuse themselves and not participate in the voting decisions with respect to that proxy.

#### Item 8. Portfolio Managers of Closed-End Management Investment Companies.

Information is presented as of January 31, 2019.

(a)(1):

(a)(2): Information is provided as of December 31, 2018 (per instructions to paragraph (a)(2)).

(i) Phillip Goldstein, Andrew Dakos and Rajeev Das

(ii) Number of other accounts managed by Mr. Goldstein, Mr. Dakos and Mr. Das within each of the following categories:

(A) Registered investment companies: 0

(B) Other pooled investment vehicles: 7

(C) Other accounts: 48

(iii) Number of other pooled investment vehicles, and total assets therein, with respect to which the advisory fee is based on the performance of the account: 7 pooled investment vehicles; \$184 million (estimated). Number of "other accounts," and total assets therein, with respect to which the advisory fee is based on the performance of the account: 3 other accounts; \$29.34 million (estimated).

(iv) Certain conflicts of interest may arise in connection with the Portfolio Manager's management of the Fund's portfolio and the portfolios of other accounts managed by the investment advisor. For example, certain inherent conflicts of interest exist in connection with managing accounts that pay a performance-based fee or allocation alongside an account that does not. These conflicts may include an incentive to favor such accounts over the Fund because the investment advisor can potentially receive greater fees from accounts paying a performance-based fee than from the Fund. As a result, the investment advisor may have an incentive to direct its best investment ideas to, or allocate or sequence trades in favor of such accounts. In addition, in cases where the investment strategies are the same or very similar, various factors (including, but not limited to, tax considerations, amount of available cash, and risk tolerance) may result in substantially different portfolios in such accounts. Material conflicts of interest could arise in the allocation of investment opportunities between the Fund and the other pooled investment vehicles and other accounts managed by Bulldog Investors, LLC. In order to address these conflicts of interest, Bulldog Investors, LLC has adopted a Trade Allocation Policy which recognizes the importance of trade allocation decisions and attempts to achieve an equitable balancing of competing client interests. The Policy establishes certain procedures to be followed in connection with placing and allocating trades for client accounts.

(a)(3):

Compensation for Messrs. Goldstein, Dakos and Das is comprised solely of net income generated by the Fund's investment adviser.
