FINAL

ASUR 1Q06 PASSENGER TRAFFIC DOWN 17.10% YOY

1Q06 Highlights¹:

EBITDA declined by 24.42% to Ps.302.4 million.

Total passenger traffic down by 17.10%, as a result of the continuing effects of Hurricane Wilma.

Total revenues fell by 17.44%, mainly due to the declines of 19.85% decline in aeronautical revenues and 10.74% in non-aeronautical revenues.

Commercial revenues per passenger increased by 7.45%, to Ps. 34.75 per passenger.

Operating profit declined by 36.43%.

EBITDA margin was 59.99% compared with 65.54% in 1Q05.

México D.F., April 26, 2006 Grupo Aeroportuario del Sureste, S.A. de C.V. (NYSE:ASR; BMV:ASUR), (ASUR) the first privatized airport group in Mexico and operator of Cancun Airport and eight others in the southeast of Mexico, today announced results for the three-month period ended March 31, 2006.

¹ Unless otherwise stated, all financial figures discussed in this announcement are unaudited, prepared in accordance with Generally Accepted Accounting Principles in Mexico, expressed in constant Mexican pesos as of March 31, 2006, and represent comparisons between the three-month period ended March 31, 2006, and the equivalent three-month period ended March 31, 2005. Tables state figures in thousands of pesos, unless otherwise noted. Passenger figures exclude transit and general aviation passengers. Commercial revenues include revenues from the activities of non-permanent ground transportation and parking lots. All U.S. dollar figures are calculated at the exchange rate of US\$1 = Ps.10.8935.

Passenger Traffic

For the first quarter of 2006, total passenger traffic decreased year-over-year by 17.10%; domestic passenger traffic increased by 4.01%; and international passenger traffic fell by 26.37%. ASUR's management believes that the 22.37% and 60.65% declines in total passenger traffic to Cancun and Cozumel, respectively, during the quarter were largely the result of the decline in hotel infrastructure as a result of the impact of Hurricane Wilma, which struck the Yucatan Peninsula on October 20, 2005.

The tourism authorities in the region estimate that of the 27,484 hotel rooms available in Cancun prior to the hurricane, 17,476 rooms, or 63.6% were in operation at of March 31, 2006.

The Quintana Roo tourism authorities estimate that 3,428 hotel rooms were in operation in Cozumel as of March 31, 2006, representing 91.9% of the approximately 3,730 rooms available prior to hurricanes Wilma and Emily.

The 4.01% growth in domestic passenger traffic mainly reflects increases at Veracruz and Minatitlan airports due to the opening of new airline services to these destinations. In the case of Huatulco, some of the increase in passenger numbers was at the expense of traffic at Cancun, as travelers changed their destinations following Hurricane Wilma.

The 26.37% decline in international passenger traffic resulted mainly from 25.68% and 62.72% declines in traffic at the Cancun and Cozumel airports, respectively.

Consolidated Results for 1Q06

Total revenues for 1Q06 declined year-over-year by 17.44% to Ps. 504.1 million. This was mainly due to:

A decline of 19.85% in revenues from aeronautical services, principally as a result of the above-mentioned decrease in passenger traffic; and

Edgar Filing: SOUTHEAST AIRPORT GROUP - Form 6-K

A decline of 10.74% in revenues from non-aeronautical services, principally as result of the 10.94% decrease in commercial revenues, which were also negatively impacted by Hurricane Wilma.

ASUR classifies revenues from the following activities as **commercial revenues**: duty free, car rental, retail, banking and currency exchange, advertising, teleservices, non-permanent ground transportation, food and beverage and parking lots.

ASUR 1Q06, Page 3 of 13

Commercial revenues declined year-over-year by 10.94%, mainly due to the decline in passenger traffic and the lack of revenue from leased spaces in Terminal I of Cancun Airport, which is not in operation, as a result of the impact of Hurricane Wilma in October 2005:

A 2.04% decline in food and beverage revenues;

A 28.53% decline in retail revenues;

A 4.08% decline in revenues from car rental companies;

An 18.84% decline in revenues from banking and currency exchange services;

A 17.55% decline in ground transportation revenues; and

A 12.19% decline in advertising revenues.

This was partially offset by:

A 9.59% increase in parking lots revenues, due to a tariff adjustment and higher demand mainly at the Villahermosa and Veracruz airports.

Total operating costs and expenses for 1Q06 were substantially the same in absolute terms versus a year earlier (up 0.06%), while increasing as a percentage of revenue, primarily as a result of:

A 5.12% increase in costs of services, mainly as a result of the initiation of the Hold Baggage Screening security process.

An 8.31% increase in depreciation and amortization, resulting from the capitalization of investments in fixed assets and improvements made to concession assets.

This was offset by:

A 17.42% decline in concession fees mainly due to lower revenues;

A 24.67% decline in the cost of technical assistance, principally due to the decrease in EBITDA for the quarter (a basis for the calculation of the fee); and

A 17.35% decline in administrative expenses reflecting lower professional fees.

ASUR 1Q06, Page 4 of 13

Operating margin for 1Q06 was 36.93%, compared to 47.96% in the first quarter of last year. This was mainly the result of the 17.44% decline in total revenues during the period.

Mexican companies are generally required to pay the greater of their income tax liability or their asset tax liability (determined at a rate of 1.8% of the average tax value of virtually all of the company's assets (including, in ASUR's case, its concessions), less the average tax value of certain liabilities (essentially liabilities of companies resident in Mexico, excluding those related to financial institutions and their intermediaries)). ASUR made asset tax payments of Ps.35.6 million for 1Q06. Of these payments, Ps.12.4 million was recorded as an expense in the results for the quarter. The difference was recorded as an asset, since the Company expects to recover Ps.23.2 million as a credit against future income tax payments.

Net income for 1Q06 was Ps.129.6 million, a year-over-year decline of 41.97%. Earnings per common share for the quarter were Ps.0.4319, or earnings per ADS (EPADS) (one ADS represents ten series B common shares) of US\$0.3965. This compares with Ps.0.7443, or EPADS of US\$0.6833, for the same period last year.

Tariff Regulation

The Mexican Ministry of Communications and Transportation regulates the majority of ASUR's activities through maximum rates, which represent the rates for the maximum possible revenues allowed per traffic unit at each airport.

ASUR's regulated revenues for 1Q06 were Ps.384.5 million, resulting in an annual average tariff per work load unit of Ps.100.00. ASUR's regulated revenues accounted for approximately 76.28% of total income for the period.

The Mexican Ministry of Communications and Transportation reviews compliance with the maximum rates on an annual basis at the close of each year.

Balance Sheet

On March 31, 2006, Airport Facility Usage Rights and Airport Concessions represented 80.86% of the Company's total assets, with current assets representing 12.72% and other assets representing 6.42%.

On March 31, 2006 cash and marketable securities were Ps.1,431.85 million. On the same date, shareholder's equity was Ps.13,268.20 million and total liabilities were Ps.936.71 million, representing 93.40% and 6.60% of total assets, respectively. Total deferred liabilities represented 78.78% of the Company's total liabilities.

Capex

During the quarter, ASUR made investments of Ps.151.28 million as part of the Company's ongoing plan to modernize its airports.
