Stephen A. Van Oss, Senior Vice President and Chief Financial and Administrative Officer, stated, "Our employees again demonstrated WESCO's Extra Effort culture by delivering record results for 2005 in virtually all key performance areas, significantly surpassing the record results achieved in 2004. Organic sales growth of 15.9% in the fourth quarter was driven by effective sales and marketing initiatives and market share gains aided by continued favorable demand in our end markets. Gross margin and operating margin each improved as a result of our continued focus on margin initiatives, implementation of LEAN and solid results from the two acquisitions completed in the third quarter of 2005.

Mr. Van Oss added, "In addition to the continued gains in operating performance, we significantly improved our balance sheet in 2005. Strong internally generated cash flow along with issuance of \$300 million of long term, lower cost fixed rate convertible debentures and senior subordinated notes allowed the Company to retire \$323.5 million of higher cost senior subordinated debt and support the financing of two acquisitions. Our liquidity position has been improved, and we have been able to reduce our overall cost of debt in a rising rate environment.

Chairman and CEO, Roy W. Haley, commented, "By any standard of measurement, the fourth quarter and 2005 results were terrific for WESCO. The Company has delivered outstanding sales and service results throughout the year resulting in record setting performance each successive quarter. The integration of the systems and operations of Fastec and Carlton Bates is coming along very well and these recently acquired businesses will serve to complement and accelerate our market development initiatives. Our LEAN initiatives have contributed to high levels of sales productivity and excellent management of expenses and resources. We continue to drive initiatives that target double digit organic growth in 2006.
