ITEM 1. REPORT TO SHAREHOLDERS

JAPAN SMALLER CAPITALIZATION FUND, INC.

October 25, 2008

To Our Shareholders:

We present the Semi-Annual Report of Japan Smaller Capitalization Fund, Inc. (the “Fund”) for the six months ended August 31, 2008.

The Net Asset Value per share (“NAV”) of the Fund decreased by 11.7% during the six months. The Fund’s closing market price on the New York Stock Exchange was \$8.28, representing a discount of 0.84% to the NAV of \$8.35. The net assets of the Fund were \$177,462,724 on August 31, 2008.

The Fund’s benchmark—the Russell/ Nomura Small Cap™ Index (“R/N Small Cap Index”)—decreased by 7.7% in United States (“U.S.”) dollar terms. During the six months ended August 31, 2008, the Fund underperformed the R/N Small Cap Index by 4.0%. The TOPIX, consisting of all companies listed on the First Section of the Tokyo Stock Exchange (the “TSE”), decreased by 9.2% and the Nikkei Average Index, a price-weighted index of the 225 leading stocks on the TSE, decreased by 7.9% in U.S. dollar terms for the six months ended August 31, 2008. The Japanese yen (“Yen”) depreciated by 4.3% against the U.S. dollar during the period.

The Portfolio

Equity holdings represented 99.8% of the Fund’s net assets at August 31, 2008. The Fund held 118 portfolio companies, of which 96 were TSE First Section stocks, six were TSE Second Section stocks, nine were JASDAQ stocks and seven were other smaller capitalization stocks, comprising 78.6%, 2.8%, 9.3% and 9.1%, respectively, of net assets on August 31, 2008.

Performance

Stock attribution analysis shows that some holdings in the Machinery sector, such as Eagle Industry Co., Ltd., O-M Ltd., Disco Corporation, and Yuken Kogyo Co., Ltd. detracted from the relative return. Stock holdings from other sectors, such as Suruga Corporation, Futaba Industrial Co., Ltd., and Tokai Rubber Industries Co., Ltd. also had a negative impact on the relative performance. Meanwhile, some holdings in the Pharmaceutical sector, such as Hisamitsu Pharmaceutical Co., Ltd. and Rohto Pharmaceutical Co., Ltd. contributed to the relative performance. Stock holdings from other sectors, such as Seven Bank, Ltd., Toyo Suisan Kaisha, Ltd., and Air Water Inc. also added value during the review period.

Market Review

The R/N Small Cap Index declined by 3.8% in local currency terms for the six months ended August 31, 2008. The R/N Small Cap Index outperformed the broad Japanese stock market TOPIX, which declined by 5.3%.

The Japanese small capitalization market moved almost in parallel with the broad Japanese market over the period from March to August 2008. With no end in sight to the U.S. credit market problems and fears of a protracted American economic slowdown, global stock markets including Japan succumbed to downward pressure in March.

Through April to May, Japanese stocks enjoyed a strong and broadly based rebound, keeping pace with the global stock market turnaround. Successful capital injections by leading U.S. and European financial institutions helped to ease the anxiety over global credit market conditions, while reports of generally favorable earnings results by U.S. companies effectively fueled the market rally. The Yen's weakening and continuing net purchases of Japanese stocks by foreign investors also lifted the performance of the Tokyo stock market.

But Japanese stocks failed to extend their advance through to the end of June amid concerns about economic stagflation in the global economy. In addition, Japanese stock prices plummeted through the first half of July following the Bank of Japan's Tankan survey, which revealed a continued deterioration in business sentiment. Concerns about the financial health of the two U.S. government-sponsored enterprises, Fannie Mae and Freddie Mac, also undermined investor sentiment.

Late in July, some of the large American banks reported earnings results that were ahead of expectations, while the U.S. Congress passed a housing bill to rescue the two ailing mortgage finance companies. A sudden correction in crude oil prices of almost 20% was also expected to support corporate earnings. Japanese stock prices responded positively to this news along with the other major stock markets and staged a partial recovery.

The Japanese stock market weakened again in August. Although the market had already anticipated the corporate earnings weakness to some extent, the first quarter earnings announcements still appeared to disappoint. Increasing costs amid weakening demand are putting pressure on corporate profits. Anticipation of a slowdown in the global economy, especially in Europe lately, is beginning to cast a longer shadow over global demand prospects.

Outlook and Strategy

Earnings projections released with the September Tankan survey point to a forecast decline of 8% in FY2008 recurring profits for the Japanese stock market. However, the continuing economic slowdown and a possible slump in export demand are likely to trigger further downgrades later this year as revenue growth comes to a halt. Consequently, the eventual year-on-year decline in earnings for the broad Japanese market for FY2008 could be in the 10% to 15% range. The recent downturn in the Japanese stock market now seems to be reflecting a rather severe global recession ahead.

Although the exporters are likely to be worst hit in this global economic downturn, the Fund believes all market sectors could face weaker business conditions and earnings downgrades

over the coming months. Further retrenchment in industries such as vehicle makers, machine tools, and construction machinery manufacturers are expected. Electronics companies have been maintaining production levels as they battle for market share, but they face intense competition and a leveling off in demand in many consumer product categories. Overall, the latest Tankan business confidence diffusion index reading of -3 for large manufacturing companies points to further consolidation. With business confidence draining away, the outlook for capital spending is also negative.

Among the biggest domestic casualties so far have been the property and real estate companies, which have suffered bankruptcies on a scale not seen since the depths of the 2002 recession. With banks continuing to restrict lending, this industry shakeout could continue for a while longer. Earnings prospects for the banks themselves are also subdued given the more cautious attitude to lending and the prospect of a flatter yield curve as the economy weakens further. The return of non-performing loan problems could also limit the banking industry's earnings growth prospects. Nevertheless, Japanese banks are entering this economic downturn with relatively sound balance sheets, so Japan is unlikely to experience the kind of severe credit crunch that is now spreading through the U.S. and Europe.

Positive short term indicators are hard to find, but the Fund is seeing an improvement in the terms of trade following the steep correction in commodity prices. This is benefiting gross margins in the short term, but could also be seen as a leading indicator of weaker final demand over the next 6-12 months. Low market valuations are unlikely to provide much support in the near-term, given the fractious market conditions worldwide, but corporate efforts to reduce fixed costs have helped to reduce earnings break-even rates across many sectors. Consequently, the market could enjoy an initial rebound when the likely policy response of financial industry bailouts, coordinated monetary easing, and fiscal stimulus measures begins to take effect on the global economy.

Until there is a return of confidence, investors will continue to ignore earnings based valuations given the lack of clarity over the medium term corporate earnings prospects. Consequently, stocks with low P/E ratios could continue to languish. With more than 60% the small capitalization stocks trading at a price to book ratio of less than 1, the Fund has recently focused on stocks with lower price to book ratio - especially stocks with sound balance sheets and limited funding requirements. The Fund's sector strategy over recent months has been to steadily adopt a more defensive portfolio structure given the extreme market volatility and dislocation from fundamental value that it has seen as the credit crisis intensifies worldwide. With no signs of a near-term improvement in the investment environment, the Fund will maintain its existing strategy of reducing the exposure to cyclical stocks.

We appreciate your continuing support of your Fund.

Sincerely,

Shigeru Shinohara
President

AVAILABILITY OF QUARTERLY SCHEDULE OF INVESTMENTS

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (“SEC”) for the first and third quarters of each fiscal year on Form N-Q. The Fund’s Forms N-Q are available on the SEC’s Web site at <http://www.sec.gov>. The Fund’s Forms N-Q may also be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

PROXY VOTING

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities in the Fund’s portfolio during the most recent 12-month period ended June 30 are available (1) without charge, upon request, by calling toll-free 1-800-833-0018; and (2) on the Securities and Exchange Commission’s web site at <http://www.sec.gov>.

SHAREHOLDERS ACCOUNT INFORMATION

Shareholders whose accounts are held in their own name may contact the Fund’s transfer agent, Computershare Trust Company, N.A., at (800) 426-5523 for information concerning their accounts.

INTERNET WEBSITE

Nomura Asset Management U.S.A. Inc. has established an Internet website which highlights its history, investment philosophy and process and products, which includes the Fund. The In-ternet web address is www.nomura.com. We invite you to view the Internet website.

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS

August 31, 2008 (Unaudited)

1. Significant Accounting Policies

Japan Smaller Capitalization Fund, Inc. (the “Fund”) is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The Fund was incorporated in Maryland on January 25, 1990 and investment operations commenced on March 21, 1990. The following is a summary of significant accounting policies followed by the Fund. In the opinion of management, all material adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation have been included.

(a) Valuation of Securities—Investments traded in the over-the-counter market are valued at the last reported sales price as of the close of business on the day the securities are being valued or, if none is available, at the mean of the bid and offer price at the close of business on such day or, if none is available, the last reported sales price. Portfolio securities which are traded on stock exchanges are valued at the last sales price on the principal market on which securities are traded or lacking any sales, at the last available bid price. Short-term debt securities which mature in 60 days or less are valued at amortized cost if their original maturity at the date of purchase was 60 days or less, or by amortizing their value on the 61st day prior to maturity if their term to maturity at the date of purchase exceeded 60 days. Securities and other assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund.

(b) Foreign Currency Transactions—Transactions denominated in Japanese yen (“Yen”) are recorded in the Fund’s records at the current prevailing rate at the time of the transaction. Asset and liability accounts that are denominated in Yen are adjusted to reflect the current exchange rate at the end of the period. Transaction gains or losses resulting from changes in the exchange rate during the reporting period or upon settlement of foreign currency transactions are included in operations for the current period.

The net assets of the Fund are presented at the exchange rate and market values at the end of the period. The Fund does not isolate that portion of the change in unrealized appreciation (depreciation) included in the statement of operations arising as a result of changes in Yen rates at August 31, 2008 on investments and other assets and liabilities. Net realized foreign exchange gains or losses includes gains or losses arising from sales of portfolio securities, sales and maturities of short-term securities, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund’s books, and the U.S. dollar equivalent of the amounts actually received or paid.

(c) Security Transactions, Investment Income and Distributions to Shareholders — Security transactions are accounted for on the trade date. Dividend income and distributions are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Realized gains and losses on the sale of investments are calculated on the first in—first out basis.

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS—Continued

(Unaudited)

Distributions from net investment income and net realized gains are determined in accordance with Federal income tax regulations, which may differ from generally accepted accounting principles. To the extent these “book/tax” differences are permanent in nature (i.e., that they result from other than timing of recognition—“temporary”), such accounts are reclassified within the capital accounts based on their Federal tax-basis treatment; temporary differences do not require reclassification. Dividends and distributions which exceed net realized gains for financial reporting purposes, but not for tax purposes, are reported as distributions in excess of net realized gains.

(d) Income Taxes — A provision for United States income taxes has not been made since it is the intention of the Fund to qualify as a regulated investment company under the Internal Revenue Code and to distribute within the allowable time limit all taxable income to its shareholders.

Under Japanese tax laws, a withholding tax is imposed on dividends at a rate of 7% (7% effective 1/1/04 to 12/31/08) and on interest at a rate of 10% and such withholding taxes are reflected as a reduction of the related revenue. There is no withholding tax on realized gains.

At February 29, 2008, the components of accumulated earnings on a tax basis were as follows:

Accumulated capital and other loss deferrals	\$ (12,676,896)
Unrealized depreciation on investments	\$ (25,059,220)
Total accumulated deficit	\$ (37,736,116)

The tax character of distributions paid during the fiscal years ended February 29, 2008 and February 28, 2007 were as follows:

	February-08	February-07
Ordinary Income	\$ 74,348	\$ 1,127,165
Capital Gains	\$ 0	\$ 33,999,022

In accordance with U.S. Treasury regulations, the Fund has elected to defer \$3,948,587 of net realized capital losses arising after October 31, 2007. Such losses are treated for tax purposes as arising on March 1, 2008. The Fund has a capital loss carryforward as of February 29, 2008 of approximately \$8,728,309 all of which expires on February 28, 2016.

(e) Capital Account Reclassification — For the year ended February 29, 2008, the Fund’s accumulated net investment loss was decreased by \$348,878, the accumulated net realized loss was increased by \$199,083 and paid in capital was decreased by \$149,795. This adjustment was primarily the result of the reclassification of foreign currency gains and the net operating loss. These differences were primarily due to the result of the reclassification of foreign currency gains, taxable over distributions and the net operating losses.

(f) Use of Estimates in Financial Statement Preparation — The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

(g) Concentration of Risk — A significant portion of the Fund's net assets consists of Japanese securities which involve certain considerations

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS—Continued

(Unaudited)

and risks not typically associated with investments in the United States. In addition to the smaller size, and greater volatility, there is often substantially less publicly available information about Japanese issuers than there is about U.S. issuers. Future economic and political developments in Japan could adversely affect the value of securities in which the Fund is invested. Further, the Fund may be exposed to currency devaluation and other exchange rate fluctuations.

(h) Indemnifications—Under the Fund’s organizational documents, its officers and directors are indemnified against certain liabilities arising from the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts that contain a variety of representations which provide general indemnifications. The Fund’s maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

2. Management Agreement and Transactions With Affiliated Persons

Nomura Asset Management U.S.A. Inc. (the “Manager”) acts as the manager of the Fund pursuant to a management agreement. Under the agreement, the Manager provides all office space, facilities and personnel necessary to perform its duties. Pursuant to such management agreement, the Manager has retained its parent company, Nomura Asset Management Co., Ltd. (the “Investment Adviser”), to act as investment adviser for the Fund.

As compensation for its services to the Fund, the Manager receives a monthly fee at the annual rate of 1.10% of the value of the Fund’s average weekly net assets not in excess of \$50 million, 1.00% of the Fund’s average weekly net assets in excess of \$50 million but not exceeding \$100 million, .90% of the Fund’s average weekly net assets in excess of \$100 million but not exceeding \$175 million, .80% of the Fund’s average weekly net assets in excess of \$175 million but not exceeding \$250 million, .70% of the Fund’s average weekly net assets in excess of \$250 million but not exceeding \$325 million, .60% of the Fund’s average weekly net assets in excess of \$325 million, but not exceeding \$425 million and .50% of the Fund’s average weekly net assets in excess of \$425 million. Under the Management Agreement, the Fund accrued fees to the Manager of \$931,698 for the six months ended August 31, 2008. Under the Investment Advisory Agreement, the Manager informed the Fund that the Investment Adviser earned fees of \$431,576 for the six months ended August 31, 2008. At August 31, 2008, the fee payable to the Manager, by the Fund, was \$143,351.

Certain officers and/or directors of the Fund are officers and/or directors of the Manager. Affiliates of Nomura Holdings, Inc. (the Manager’s indirect parent) earned no commissions on the execution of portfolio security transactions for the six months ended August 31, 2008. The Fund pays each Director not affiliated with the Manager an annual fee of \$10,000 plus \$1,000 per meeting attended, together with such Director’s actual expenses related to attendance at meetings. Mr. Barker who had been designated by the Directors not affiliated with the Manager to serve as lead Di-

JAPAN SMALLER CAPITALIZATION FUND, INC.

NOTES TO FINANCIAL STATEMENTS—Continued

(Unaudited)

rector, is paid an additional annual fee of \$5,000. Such fees and expenses for unaffiliated Directors aggregated \$59,964 for the six months ended August 31, 2008.

3. Purchases and Sales of Investments

Purchases and sales of investments, exclusive of investments in foreign currencies and short-term securities, for the six months ended August 31, 2008 were \$82,228,191 and \$80,399,190, respectively.

As of August 31, 2008, net unrealized depreciation on investments, exclusive of investments in foreign currency and short-term securities, for Federal income tax purposes was \$30,933,462 of which \$6,041,835 related to appreciated securities and \$36,975,297 related to depreciated securities. The aggregate cost of investments, exclusive of investments in foreign currencies of \$462,239, at August 31, 2008 for Federal income tax purposes was \$208,112,083.

4. Recent Accounting Pronouncements

On July 13, 2006, the Financial Accounting Standards Board (“FASB”) released FASB Interpretation No. 48 “Accounting for Uncertainty in Income Taxes” (“FIN 48”). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund’s tax returns to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. The Fund implemented FIN 48 which supplements FASB 109, “Accounting for Income Taxes.”

Management has analyzed the Fund’s tax positions taken on federal income tax returns for all open tax years (tax years ended February 28, 2005-2007) for purposes of implementing FIN 48, and has concluded that no provision for income tax is required in the Fund’s financial statements. The Fund recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statement of Operations. During the year, the Fund did not incur any interest or penalties.

On September 20, 2006, the FASB released Statement of Financial Accounting Standards No. 157 “Fair Value Measurements” (“FAS 157”). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 157 and its impact on the financial statements has not yet been determined.

JAPAN SMALLER CAPITALIZATION FUND, INC.

Board Review of the Management and Investment Advisory Agreements

The Board of Directors of the Fund (the “Board”) consists of five directors, four of whom are independent or non-interested, directors (the “Independent Directors”). The Board considers matters relating to the Fund's management and investment advisory agreements throughout the year. On an annual basis, the Board specifically considers whether to approve the continuance of these agreements for an additional one-year period. The specific agreements (the “Agreements”) consist of the Fund’s management agreement with Nomura Asset Management U.S.A. Inc. (the “Manager”) and the investment advisory agreement between the Manager and its parent, Nomura Asset Management Co., Ltd. (the “Investment Adviser”).

The Board, including the Independent Directors, most recently approved the continuance of the Agreements at a meeting held on August 21, 2008. In connection with their deliberations at that meeting and at a separate meeting of the Independent Directors held on July 30, 2008, the Independent Directors received materials that included, among other items, information provided by the Manager regarding (i) the investment performance of the Fund, performance of other investment companies and performance of the Fund’s benchmark, (ii) expenses of the Fund and the management fee paid by the Fund to the Manager and the advisory fee paid by the Manager to the Investment Adviser, and (iii) the profitability of the Agreements to the Manager and the Investment Adviser. The Independent Directors sought and received additional information from the Investment Adviser. The Independent Directors were advised by, and received materials from, their independent counsel in considering these matters and the continuance of the Agreements.

In considering the continuance of the Agreements at the meeting held on August 21, 2008, the Board, including the Independent Directors, did not identify any single factor as determinative. Matters considered by the Directors in connection with their review of the Agreements included the following:

The nature, extent and quality of the services provided to the Fund under the Agreements. The Board considered the nature, extent and quality of the services provided to the Fund by the Manager and the Investment Adviser and the resources dedicated by the Manager and the Investment Adviser. These services included both investment advisory services and related services such as the compliance oversight provided by the Manager.

Investment performance. The Board considered performance information provided by the Manager regarding the Fund’s investment performance over a number of time periods, including the one-year, three-year and five-year periods recently ended. In response to requests by the Independent Directors, the Manager provided information about the performance of the Fund compared to the Fund’s benchmark index, data on the Fund’s expense ratio and components thereof, and comparative fee, expense ratio and performance information for other funds investing primarily in Japanese stocks. In connection with their presentation, the Manager and the Investment Adviser noted that the Fund outperformed its performance benchmark for the most recent quarter and for the period since the Firm’s inception but underperformed the benchmark for the most recent one-year and certain longer time

JAPAN SMALLER CAPITALIZATION FUND, INC.

Board Review of the Management and Investment Advisory Agreements—Continued

periods. The information regarding comparative performance furnished to the Board indicated that the Fund's performance ranked third of five funds (including the Fund) with similar investment objectives for the most recent one-year period and second of four funds (including the Fund) with similar investment objectives for the most recent three-year and five-year periods.

The costs of the services to be provided and the profits to be realized by the Manager and its affiliates from their advisory relationships with the Funds. The Board considered the fee payable under the Fund's management agreement in connection with other information provided for the Directors' consideration. The Manager and its affiliates also act as advisers to one additional investment company registered under the Investment Company Act of 1940 and the Board of Directors of the Fund compared the advisory arrangements and fees for these two companies. The Board of Directors of the Fund recognized that the nature of the services provided by the Manager and the Investment Adviser to other investment vehicles and separate accounts differed from the range of services provided to the two registered investment companies.

The Manager also provided the Board with information prepared by the Manager and the Investment Adviser indicating the profitability of the Agreements to these respective advisors. The Independent Directors reviewed this information with the Manager and requested and received certain supplemental information from the Manager and the Investment Adviser with respect to the methodologies used to charge and allocate expenses to the Fund.

Economies of scale. The Board also considered whether the Manager realizes economies of scale as the Fund grows larger and the extent to which any economies of scale are shared with the Fund and its shareholders. The Board noted that the management agreement contains six separate breakpoints in the management fee for net assets above \$50 million, with the last breakpoint applicable to net assets in excess of \$425 million. The Fund had net assets of approximately \$175 million at August 21, 2008 (the date the Agreements were most recently considered).

Based on an evaluation of all factors deemed relevant, including the factors described above, the Board, including each of the Independent Directors, concluded that each of the Agreements should be continued through August 31, 2009.
