Eltek Ltd. Awarded \$600,000 Order by a European Advanced Medical Equipment Manufacturer

Monday July 19, 9:00 am ET

PETACH-TIKVA, Israel--(BUSINESS WIRE)--July 19, 2004--Eltek Ltd. (Nasdaq:ELTK - News), the leading Israeli manufacturer of advanced circuitry solutions, today announced the receipt of an order exceeding \$500,000 from an European customer for PCBs that will be used in the production of advanced medical equipment. This order is anticipated to be supplied during the third quarter of 2004.

"This order is an extension of a previous cooperative effort with the same medical equipment manufacturer and is a clear indication of its appreciation for Eltek's strong technological capabilities. Our flex-rigid PCB circuits are going to be integrated into the client's new generation advanced equipment, and it is reasonable to expect that we will receive follow-on orders with similar characteristics," said Arie Reichart, President and Chief Executive Officer of Eltek.

"Eltek is globally recognized as a top-tier player in the complex flex-rigid PCB niche. We are planning to increase our presence in this lucrative marketplace by winning new orders from leading European and US customers," he added.

"This order reflects our fresh growth strategy that is focused on the technologically advanced flex-rigid PCB niche of products as our core growth engine," said Amnon Shemer, CFO of Eltek. "As this order will be supplied on a weekly basis over some period of time, we believe that it will contribute to our production efficiency as well as to our overall corporate productivity," Mr. Shemer added.

About the Company

Eltek is Israel's leading manufacturer of printed circuit boards, the core circuitry of most electronic devices. It specializes in the complex high-end of PCB manufacturing, i.e., HDI, multi-layered and flex-rigid boards. Eltek's technologically advanced circuitry solutions are used in today's increasingly sophisticated and compact electronic products. The Company has invested heavily in upgrading its production facilities over the past five years.
