EXFO ELECTRO OPTICAL ENGINEERING INC
Form 6-K
March 22, 2001

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 6-K

REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13A-16 OR 15D-16
UNDER THE SECURITIES EXCHANGE ACT OF 1934

For the month of March 2001

EXFO ELECTRO-OPTICAL ENGINEERING INC.
(Translation of registrant's name into English)

465 GODIN AVENUE, VANIER, QUEBEC, CANADA G1M 3G7 (Address of
principal executive offices)

Indicate by check mark whether the registrant files or will file annual
reports under cover of Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark whether the registrant by furnishing the information
contained in this Form is also thereby furnishing the information to the
Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicate below the file number assigned to the registrant
in connection with Rule 12g3-2(b): 82-_____.

-1-

On March 19, 2001, EXFO Electro-Optical Engineering Inc., a Canadian
corporation, reported its results of operations for the fiscal quarter ended
February 28, 2001. This report on Form 6-K sets forth the news release relating
to EXFO's announcement and certain information relating to EXFO's financial
condition and results of operations for the second fiscal quarter of the 2001
fiscal year.

EXFO ELECTRO-OPTICAL ENGINEERING INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in thousands of U.S. dollars, except share and per share data and as otherwise noted)

1 INTERIM FINANCIAL INFORMATION

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

The financial information as at February 28, 2001 and for the periods ended February 29, 2000 and February 28, 2001 is unaudited; however, in the opinion of management, all adjustments necessary to present fairly the results of these periods have been included. The adjustments made were of a normal recurring nature. Interim results may not necessarily be indicative of results anticipated for the year.

These interim consolidated financial statements are prepared in accordance with generally accepted accounting principles in Canada and use the same accounting policies and methods used in the preparation of the company's most recent annual consolidated financial statements. All disclosures required for annual financial statements have not been included in these financial statements. These interim consolidated financial statements should be read in conjunction with the company's most recent annual consolidated financial statements.

2 NEW ACCOUNTING STANDARDS

On September 1, 2000, the company retroactively adopted the new standard of the Canadian Institute of Chartered Accountants (CICA) regarding accounting for employee future benefits (CICA 3461, Employee future benefits). The adoption of this new standard did not result in any changes to prior year earnings, shareholders' equity or cash flows.

During the period, the company retroactively adopted the recently revised recommendations of the CICA regarding earnings per share (CICA 3500, Earnings per share). The principles for calculating basic earnings per share are consistent with previous practice, however, diluted earnings per share are now calculated using the treasury stock method which differs from the imputed interest method previously used. The adoption of these revised recommendations did not result in any material change to previously reported basic and diluted earnings per share.

In 2000, a new accounting standard for the preparation of interim financial statements (CICA 1751, Interim Financial Statements) was issued which sets out minimum presentation and disclosure requirements as well as guidance on recognition and measurement of items for interim periods. The recognition and measurement guidance requires that items be recognized and measured on the same basis as used for annual financial statements. The new standard is effective for fiscal years beginning on or after January 1, 2001. The company believes that these interim financial statements comply in all material respects with the recommendations in the new standard.

3 BUSINESS COMBINATION

On December 20, 2000, the company acquired a 100% interest in Burleigh Instruments, Inc. ("Burleigh"), a manufacturer of precision scientific instruments used in basic and applied research, engineering and production test applications in a variety of fields, in exchange for a total consideration valued at US\$189,270,000 including acquisition-related costs of US\$2,461,000.

The consideration paid consisted of US\$42,461,000 in cash and the issuance of 6,488,816 subordinate voting shares for an amount of US\$146,809,000.

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

EXFO ELECTRO-OPTICAL ENGINEERING INC. NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in thousands of U.S. dollars, except share and per share data and as otherwise noted)

This acquisition has been accounted for using the purchase method and consequently, the net earnings of Burleigh have been included in the consolidated statement of earnings of the company from the date of acquisition, being December 20, 2000.

The purchase price, including acquisition-related costs, has been allocated based on the estimated fair value of net assets at the acquisition date as follows:

	(UNAUDITED)
Assets acquired	
Current assets	\$ 7,092
Capital assets	4,457
In process research and development	1,800
Core technology	24,000
Work force	1,250
Liabilities assumed	(9,068)
Future income taxes	(8,927)

Net identifiable assets acquired	20,604
Goodwill	168,666

Purchase price	189,270
Less: subordinate voting shares issued	146,809

Cash paid	\$ 42,461
	=====

The fair value allocated to intangible assets acquired from Burleigh was based upon independent valuation performed in conjunction with this acquisition.

The existing technology that has reached technological feasibility was classified as core technology.

In process research and development represents the existing technology that has not reached technological feasibility and has no future alternative use.

The fair value of subordinate voting shares issued was determined based on the market price of the shares over a reasonable period of time before and after the date of acquisition.

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

	\$10,353	\$18,055
	=====	=====

7 RESTRICTED STOCK AWARD PLAN

During the period, the company established a restricted stock award plan for employees of Burleigh. A total of 360,000 subordinate voting shares has been granted under that plan with an exercise price of nil. Shares granted under the plan vest over a four-year period, with 25% vesting on an annual basis commencing on the first anniversary of the date of grant. No compensation cost has been recognized for this stock-based compensation plan.

8 NET RESEARCH AND DEVELOPMENT EXPENSES

	=====	=====	=====

EXFO ELECTRO-OPTICAL ENGINEERING INC.
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in thousands of U.S. dollars, except share
and per share data and as otherwise noted)

9 DIFFERENCES BETWEEN CANADIAN AND U.S. GAAP

These interim consolidated financial statements are prepared in accordance with Canadian GAAP which differ in certain respects from U.S. GAAP. Note 20 to the company's most recent annual consolidated financial statements describes the material differences between Canadian and U.S. GAAP. This note describes additional changes occurring since the most recent annual financial statements and provides a quantitative analysis of the material differences. All disclosures required in annual financial statements under U.S. GAAP have not been provided in these interim consolidated financial statements.

ACCOUNTING FOR STOCK-BASED COMPENSATION

Under U.S. GAAP, compensation costs related to the restricted stock award plan are measured as the difference between the fair value of the awarded stock and the exercise price which is nil. Compensation costs are amortized to expense over the estimated vesting period of four years. As at February 28, 2001, the balance of deferred stock-based compensation costs related to this plan amounted to US\$7,806,000.

Under Canadian GAAP, no compensation cost has been recognized for this stock-based compensation plan.

BUSINESS COMBINATION

Under U.S. GAAP, the value of shares issued upon a business combination should be determined based on the market price of the shares over a reasonable period of time before and after the companies have reached an agreement on the purchase price, the significant terms of the agreement are known and the proposed transaction is announced.

Consequently, the measurement date of the acquisition of Burleigh occurred on December 14, 2000, the date on which all significant terms of the agreement were known. The average market price of the shares a few days before and after that date was US\$31.09. Considering the number of shares issued, the total consideration of this acquisition for U.S. GAAP purposes amounts to US\$244,198,000 and the value allocated to goodwill amounts to US\$223,000,000.

Furthermore, under U.S. GAAP, in process research and development acquired in a business combination is written off at the time of acquisition and no future income taxes are recognized on this asset in the purchase price allocation process.

Under Canadian GAAP, in process research and development acquired in a business combination is capitalized and amortized over its estimated useful life. Future income taxes are recognized on the acquisition date on that asset in the purchase price allocation process.

Finally, under U.S. GAAP, pro forma information must be disclosed as though the business combination had occurred at the beginning of the

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

reported periods.

-11-

EXFO ELECTRO-OPTICAL ENGINEERING INC. NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in thousands of U.S. dollars, except share
and per share data and as otherwise noted)

FORWARD EXCHANGE CONTRACTS

Under Canadian GAAP, unrealized exchange gains and losses on short-term investments are included in net earnings, whereas under U.S. GAAP, unrealized exchange gains and losses on short-term investments classified as available-for-sale securities are included in other comprehensive income until the investments are realized.

On September 1, 2000, the company adopted Statement of Financial Accounting Standard No. 133, Accounting for Derivative Instruments and Hedging Activities and its amendments (SFAS 138), which requires all derivatives to be carried on the balance sheet at fair value. The forward exchange contracts used by the company have not qualified for hedging accounting treatment during the periods ended February 28, 2001, accordingly changes in the fair value of the derivatives have been charged to earnings during the periods. Under Canadian GAAP, certain forward exchange contracts have been designated as hedges of anticipated sales and the related accounts receivable and unrealized gains and losses are not reflected in the financial statements until the sale occurs. For all other forward exchange contracts, the unrealized gains and losses are charged to earnings under Canadian GAAP with an offsetting asset or liability for the unrealized amount. Under Canadian GAAP, the unrealized gains and losses are computed using the period-end spot rate as opposed to the period-end forward rate.

SHARE CAPITAL

Under Canadian GAAP, restricted shares reacquired from employees under the stock purchase plan are treated as arm's length repurchases of shares whereas under U.S. GAAP, the reacquisition of shares would be accounted for as a forfeiture by the employee, resulting in any difference between the amount originally credited to share capital and the remaining deferred compensation cost being credited to compensation expense in the current period. The subsequent resale of the shares would be treated as an issuance of shares for the proceeds received.

and per share data and as otherwise noted)

STATEMENTS OF CASH FLOWS

For the three months and the six months ended February 29, 2000 and February 28, 2001, there are no material differences between the statements of cash flows under Canadian GAAP as compared to U.S. GAAP.

PRO FORMA INFORMATION

The following unaudited pro forma information regarding the acquisition of Burleigh has been prepared by the company's management based upon the unaudited consolidated financial statements of the company for the six months ended February 29, 2000 and February 28, 2001 and the unaudited financial statements of Burleigh.

This pro forma information includes adjustments related to the amortization of intangible assets and goodwill, the income tax effects of the acquisition and the stock-based compensation costs related to the restricted stock award plan. Consequently, such information is not necessarily indicative of the actual results which would have been achieved, nor is it necessarily indicative of future consolidated results of the company.

The following unaudited pro forma information for the six months ended February 29, 2000 has been prepared as if the acquisition had occurred on September 1, 1999. The unaudited pro forma information for the six months ended February 28, 2001 has been prepared as if the acquisition had occurred on September 1, 2000.

10 SUBSEQUENT EVENT

On March 15, 2001, the company acquired a 100% interest in EFOS Inc. ("EFOS"), a leader in precision light-based adhesive spot curing technologies as well as curing process control for the global optical component manufacturing market. The consideration paid consisted of the issuance of 3,700,000 subordinate voting shares for an amount of US\$84,952,000. This acquisition will be accounted for using the purchase method. As part of this transaction, the company also acquired a patent from EFOS for a cash consideration of US\$25,000,000.

-15-

EXFO ELECTRO-OPTICAL ENGINEERING INC. NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in thousands of U.S. dollars, except share
and per share data and as otherwise noted)

Under U.S. GAAP, the value of shares issued upon a business combination should be determined based on the market price of the shares over a reasonable period of time before and after the companies have reached an agreement on the purchase price, the significant terms of the agreement are known and the proposed transaction is announced.

In view of this standard, the measurement date occurred on March 6, 2001, the date on which all significant terms of the agreement were known. The average market price of the shares a few days before and after that date was US\$25.70. Considering the number of shares to be issued, the total consideration for U.S. GAAP purposes amounts to US\$95,086,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion may contain statements that constitute forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements other than historical information or statements of current condition. These statements may appear in a number of places in this discussion and include statements concerning our intent, belief or current expectations regarding future events. Forward-looking statements are not guarantees of future performance and involve risks and uncertainties. Actual results may differ materially from those in the forward-looking statements as a result of various factors, which are beyond the control of EXFO, including retention of qualified personnel, revenue synergies, demand for testing and measurement instruments and precision positioning instruments. Although we believe that the expectations, reflected in the forward-looking statements, are reasonable based on information currently available to us, we cannot assure you that the expectations will prove to have been correct. Accordingly, you should not place undue reliance on these forward-looking statements. In any event, these statements speak only as of the date of this discussion. We undertake no obligation to revise or update any of them to reflect events or circumstances after the date of this discussion, or to reflect new information or the occurrence of unanticipated events. Readers are referred to our Registration Statement on Form F-1 and our other filings with the U.S. Securities and Exchange

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

Commission and the Canadian securities commissions for a discussion of the other factors that may affect our future performance and other important risk factors concerning us and our operations.

RECENT EVENTS

On March 15, 2001, EXFO acquired EFOS Inc. by issuing 3.7 million subordinate voting shares and paying US\$25 million in cash. The total consideration paid is US\$110 million. EFOS, a privately held company in Toronto, Ont., is widely recognized as a leader in precision light-based adhesive spot curing technologies as well as curing process control for the global optical component manufacturing market. EFOS' products deliver precise doses of the appropriate spectral light onto photosensitive and heat-cured adhesives to significantly reduce bonding time and increase repeatability in optical component manufacturing.

RESULTS OF OPERATIONS

The following discussion and analysis of our results of operations and liquidity and capital resources should be read in conjunction with our interim consolidated financial statements and the related notes thereto. All figures are expressed in United States dollars unless otherwise noted. The interim consolidated financial statements have been prepared in accordance with Canadian GAAP, Generally Accepted Accounting Principles ("GAAP"), in Canada, which conform in all material respects with U.S. GAAP, except as disclosed in note 9 of the interim consolidated financial statements.

SALES

For the quarter ended February 28, 2001, sales increased 108% to \$36.3 million from \$17.4 million for the same period last year. The growth is due to the increased demand for our Industrial and Scientific products and our Portable and Monitoring products, which include the successful launch of new products in fiscal 2000 and the partial quarter effect of the Burleigh acquisition. During the quarter ended February 28, 2001, the Company's three largest customers accounted for approximately 13% of net sales with no single customer exceeding approximately 5.9% of sales.

For the six-month period ended February 28, 2001, sales increased 123% to \$64.8 million from \$29.1 million for the same period last year. The growth is due to the increased demand for our Industrial and Scientific products and our Portable and Monitoring products, which include the successful launch of new products in fiscal 2000 and the partial quarter effect of the Burleigh acquisition. During the six-month period ended February 28, 2001, the three largest customers accounted for approximately 16% of net sales with no single customer exceeding 6.5% of sales.

-19-

GROSS MARGIN

For the quarter ended February 28, 2001, gross margin amounted to 64.8% of sales compared to 66.3% of sales for the quarter ended February 29, 2000. The percentage decline in gross margin is primarily due to investments in manufacturing operations, namely the ramp up of production to meet customer demand and the hiring and training of additional employees in production.

For the six-month period ended February 28, 2001, gross margin amounted to 64.4% of sales compared to 67.0% of sales for the six-month period ended February 29, 2000. The percentage decline in gross margin is primarily due to investments in manufacturing operations, namely the ramp up of production to meet customer demand and the hiring and training of additional employees in production.

SELLING AND ADMINISTRATION

Selling and administrative expenses for the quarter ended February 28, 2001 were \$10.9 million, or 30.1% of sales, compared to \$5.8 million, or 33.4% of sales, for the quarter ended February 29, 2000. The dollar increase for the quarter is directly related to higher commissions resulting from increased sales activity. The percentage decrease is mainly due to the fact that sales are increasing at a faster rate than selling and administrative expenses.

Selling and administrative expenses for the six-month period ended February 28, 2001 were \$19.8 million, or 30.6% of sales, compared to \$9.9 million, or 34.1% of sales, for the six-month period ended February 29, 2000. The dollar increase for the quarter is directly related to higher commissions resulting from increased sales activity, increased promotional and product marketing expenses as well as expenses related to running a

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

public company. The percentage decrease is mainly due to the fact that sales are increasing at a faster rate than selling and administrative expenses.

RESEARCH AND DEVELOPMENT

Gross research and development expenses were \$4.5 million, or 12.4% of sales, for the quarter ended February 28, 2001 compared to \$2.5 million, or 14.4% of sales, in the same period last year. The dollar increase for the quarter is primarily due to development efforts centered on our new products within the Industrial and Scientific product lines and salary increases resulting from the hiring of additional personnel.

Tax credits and grants from the federal and provincial governments for R&D activities were \$1.2 million for the quarter ended February 28, 2001 compared to \$0.8 million for the quarter ended February 29, 2000. This increase in tax credits and grants is directly related to the hiring of additional research and development personnel.

Gross research and development expenses were \$7.4 million, or 11.3% of sales, for the six-month period ended February 28, 2001 compared to \$4.7 million, or 16.1% of sales, in the same period last year. The dollar increase for the quarter is primarily due to development efforts centered on our

-20-

new products within the Industrial and Scientific product lines. In addition, we added 116 employees to our R&D Department, which reflects our continued focus on R&D.

Tax credits and grants from the federal and provincial governments for R&D activities were \$2.1 million for the six-month period ended February 28, 2001 compared to \$1.5 million for the six-month period ended February 29, 2000. This increase in tax credits and grants is directly related to the hiring of additional research and development personnel.

AMORTIZATION INTANGIBLE ASSETS

In conjunction with the acquisition of Burleigh Instruments Inc., the Company recorded a total of \$27.1 million in intangible assets, which are to be amortized over the next 8 months to 5 years. An amount of \$1.6 million, recorded during the quarter, represents 2 months and 11 days of amortization.

NET INTEREST INCOME

Net interest income amounted to \$1.8 million and nil for the quarters ended February 28, 2001 and February 29, 2000, respectively.

Net interest income amounted to \$4.4 million and nil for the six-month periods ended February 28, 2001 and February 29, 2000, respectively.

The increase results from the interest income derived from investment of the remaining net proceeds of the Initial Public Offering on June 29, 2000.

FOREIGN EXCHANGE GAIN

A foreign exchange gain of \$0.8 million for the quarter ended February 28, 2001 is the result of the currency conversions in current operations.

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

A foreign exchange gain of \$3.2 million for the six-month period ended February 28, 2001 is mainly due to the disposal of short-term investments in U.S. dollars between August 31, 2000 and the date of disposal. The exchange rate on August 31, 2000 was 1.4722 and the average exchange rate on our forward exchange contracts was 1.4967.

INCOME TAX

The Company's effective income tax rates were 32.6% and 34.8% for the quarters ended February 28, 2001 and February 29, 2000, respectively. The lower rate in 2001 compared to 2000 was the result of the non-taxable items in 2001.

The Company's effective income tax rates were 34.1% and 33.5% for the six-month periods ended February 28, 2001 and February 29, 2000, respectively. The higher rate in 2001 compared to 2000 was the result of the higher effective income tax rate on interest provided by short-term investments.

-21-

AMORTIZATION OF GOODWILL

In conjunction with the acquisition of Burleigh Instruments Inc., the Company recorded a total of \$168.7 million in goodwill, which is to be amortized over the next 5 years. The amount of \$6.4 million recorded during the quarter is mainly due to the 2 months and 11 days of amortization of goodwill related to the acquisition of Burleigh Instruments Inc.

LIQUIDITY AND CAPITAL RESOURCES

Prior to our Initial Public Offering, we had financed operations and met our capital expenditures requirements mainly through cash flows from our operations, research and development tax credits and government grants. On June 29, 2000, we closed our Initial Public Offering of 8,050,000 subordinate voting shares at a price of US\$26.00 per share in the United States and at C\$38.55 per share in Canada. Total proceeds to EXFO, including the over-allotment option exercised by the underwriters, were approximately US\$209 million.

Cash flows used in operating activities were \$5.3 million for the three-month period ended February 28, 2001 compared to cash flows provided of \$0.2 million for the same period last year. Cash flows used in operating activities for the three-month period ended February 28, 2001 were mainly due to an increase in accounts receivable of \$1.0 million, which is related to a higher volume of sales, an increase in inventories of \$9.3 million, which is required to ensure minimal manufacturing and delivery lead time, and a decrease in accounts payable and liabilities of \$2.0 million, which is due to the timing of payments. An increase of \$2.6 million in income taxes payable related to the Company's growth provided cash flows for operating activities.

Cash flows used in operating activities were \$6.4 million for the six-month period ended February 28, 2001 and \$2.1 million for the same period last year. Cash flows used in operating activities for the six-month period ended February 28, 2001 were mainly due to an increase in accounts receivable of \$7.3 million, which is related to a higher volume of sales, and an increase in inventories of \$16.3 million, which is required to ensure minimal manufacturing and delivery lead time. Cash

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

flows provided in operating activities were due to the increase in accounts payable and accrued liabilities totaling \$4.4 million and in income taxes payable totaling \$4.1 million, which are primarily related to the Company's growth.

For the period ended February 28, 2001, we had cash and cash equivalents of \$1.9 million, short-term investments of \$107.1 million and working capital of \$156.1 million.

Cash flows provided by financing activities amounted to \$0.1 million for the three-month period ended February 28, 2001, and \$1.6 million for the same period last year. Cash flows provided by financing activities in the three-month period ended February 28, 2001 were primarily due to the use of bank advances of \$0.7 million and the net proceeds of \$0.4 million from the redemption and the resale of restricted employee shares. Furthermore, cash flows were used for the repayment of long-term debt in the amount of \$0.9 million. For the period ended February 29, 2000, cash flows provided by financing activities were mainly due to the use of bank advances.

Cash flows provided by financing activities amounted to \$0.8 million for the six-month period ended February 28, 2001 and \$4.5 million for the same period last year. Cash flows provided by financing activities in the six-month period ended February 28, 2001 were primarily due to net proceeds of \$1.4 million from the redemption and the resale of restricted employee shares and the

-22-

use of bank advances in the amount of \$0.8 million. Furthermore, cash flows were used for the repayment of long-term debt and mandatorily redeemable preferred shares for a total amount of \$1.4 million. For the period ended February 29, 2000, cash flows provided by financing activities were mainly due to the use of bank advances.

Cash flows provided for investing activities for the three-month period ended February 28, 2001 amounted to \$7.6 million compared to cash flows used of \$1.6 million for the same period last year. During the quarter ended February 28, 2001, cash flows were used for the acquisition of Burleigh in the amount of \$42.3 million and for the acquisition of capital and intangible assets in the amount of \$5.9 million. Finally, net cash flows of \$55.8 million were provided by sales of short-term investments and reinvestments therein.

Cash flows provided for investing activities for the six-month period ended February 28, 2001 amounted to \$7.3 million compared to cash flows used of \$2.3 million for the same period last year. During the six-month period ended February 28, 2001, cash flows were used for the acquisition of Burleigh in the amount of \$42.3 million and for the acquisition of capital and intangible assets in the amount of \$8.0 million. Finally, net cash flows of \$57.7 million were provided by sales of short-term investments and reinvestments therein.

We believe that our existing cash balances and short-term investments, together with cash flows from operations and available lines of credit, will be sufficient to meet our liquidity and capital spending requirements through the end of fiscal 2001. However, possible investments in, or acquisitions of complementary businesses, products or technologies may require additional financing prior to such time. There can be no assurance that additional debt or equity financing will be available when required or, if available, can be secured on terms satisfactory to us.

-23-

EXFO REPORTS RECORD FINANCIAL RESULTS FOR
FOURTH CONSECUTIVE QUARTER

- o SALES UP 108% TO US\$36.3 MILLION
- o NET EARNINGS* UP 205% TO US\$7.5 MILLION
- o SALES OUTLOOK RAISED TO BETWEEN US\$150 MILLION AND US\$165 MILLION
- o EPS* OUTLOOK RAISED TO BETWEEN US\$0.40 AND US\$0.50

ANAHEIM, CA, March 19, 2001--EXFO Electro-Optical Engineering Inc. (NASDAQ: EXFO, TSE: EXF) announced today record sales and operating results for the second quarter of fiscal 2001.

It marked the fourth consecutive quarter that EXFO has reported record financial results since becoming a public company.

Sales increased 108% to US\$36.3 million in the second quarter from US\$17.4 million for the same period in fiscal 2000, and 27% sequentially from US\$28.5 million in the first quarter of 2001.

Net earnings, excluding amortization of intangible assets and goodwill related to acquisitions, increased 205% to US\$7.5 million, or \$0.14 per share, for the second quarter from US\$2.5 million, or \$0.06 per share, for the same period in fiscal 2000. Compared to the first quarter of fiscal 2001, net earnings* in the second quarter dropped 2% from US\$7.6 million, or \$0.16 per share.

It should be noted that net earnings in the first quarter of 2001 included an after-tax gain in foreign exchange of \$0.03 per share and an after-tax gain in interest income of \$0.04 per share. In the second quarter, net earnings included an after-tax gain in foreign exchange of \$0.01 per share and an after-tax gain in interest income of \$0.02 per share. As a result, EXFO increased its net earnings per share* from operations \$0.02 from the first to second quarter of fiscal 2001.

-24-

Including amortization of intangible assets and goodwill, EXFO's net earnings in the second quarter are at US\$24,000, or US\$0.00 per share, compared to US\$2.4 million, or US\$0.06 per share, for the same period in fiscal 2000 and US\$7.5 million, or US\$0.16 per share, in the first quarter of 2001. The non-cash charges related to acquisitions include US\$1.6 million in amortization of intangible assets and US\$6.4 million in amortization of goodwill in the second quarter of 2001.

"We're very proud of the fact that we have been able to sustain record growth since becoming a public company four quarters ago," said Germain Lamonde, Chairman, President and CEO of EXFO. "We have been able to maintain this upward trend because we're strategically positioned in high-growth markets in the fiber-optic industry such as DWDM and High-Bandwidth Solutions as well as Optical Component Manufacturing and Testing.

"We also supply all stripes of customers in the fiber-optic industry including network service providers, system and component manufacturers as well as research labs with in excess of 80 product lines, several of which have not yet reached full maturity.

"In addition, we have a diversified global customer base with more than 2000 customers in 70 countries around the world. Our biggest customer accounted for

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

approximately 5.9% of our sales in the second quarter."

The financial results of Burleigh Instruments, Inc., a leading supplier of DWDM wavelength measurement instruments and precision positioning equipment in Fishers, NY, are reflected in EXFO's financial statements during this quarter since the acquisition closed on December 20, 2000.

Subsequent to the second quarter, EXFO's affiliate, Burleigh Automation, Inc., closed an agreement to purchase substantially all of the assets of Vanguard Technical Solutions, Inc., an automation equipment manufacturer in Tucson, AZ.

In another transaction subsequent to the second quarter, EXFO closed a deal to acquire Toronto-based EFOS Inc., a leader in precision light-based adhesive spot curing for the global optical component manufacturing market. EFOS' financial results will be consolidated in the third quarter.

-25-

"This string of transactions is part of our acquisition strategy to strengthen our position in the optical component manufacturing market," Mr. Lamonde added. "Manufacturers are faced with a pressing need to increase yields and volume while reducing costs in order to meet the fiber-optic industry's growing demand for bandwidth.

"Combining Burleigh Automation's expertise in automated manufacturing and system integration with Burleigh Instruments' nano-positioning and fiber alignment systems, EFOS' advanced light-based curing solutions and EXFO's automated test systems will allow us to offer a whole line of automated solutions for the most critical steps in the optical component manufacturing process."

Based upon financial results in the first half of 2001 and synergies from acquisitions, EXFO has decided to raise guidance for a second consecutive quarter. The sales outlook for fiscal 2001 has been raised to between US\$150 million and US\$165 million, while the outlook for earnings per share* has been increased to between US\$0.40 and US\$0.50.

Selling and administrative expenses amounted to US\$10.9 million, or 30.1% of sales, for the second quarter compared to US\$5.8 million, or 33.4% of sales, for the same period in fiscal 2000 and US\$8.9 million, or 31.3% of sales, for the first quarter of fiscal 2001.

Gross research and development expenses were US\$4.5 million, or 12.4% of sales, in the second quarter compared to US\$2.5 million, or 14.4% of sales, for the same period in fiscal 2000 and US\$2.8 million, or 10.0% of sales, for the first quarter of 2001.

To listen to the second-quarter conference call and participate in the question period via telephone, dial 1 (888) 433-1680 or (416) 620-2400. Germain Lamonde and Pierre Plamondon, EXFO's Vice-President of Finance and Chief Financial Officer, will participate in the call. A replay of the conference call can be accessed after 7 p.m. (Eastern time) today until midnight (Eastern time) on March 26, 2001. The replay number is 1 (800) 558-5253 and the password is 18137616. A Web cast of the conference call will be available to all interested parties on EXFO's Web site at WWW.EXFO.COM, under the Investors section.

*EXCLUDING AMORTIZATION OF INTANGIBLE ASSETS AND GOODWILL RELATED TO ACQUISITIONS

-26-

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

ABOUT EXFO

EXFO, which derives its name from EXPERTISE IN FIBER OPTICS, is a leading designer and manufacturer of fiber-optic test, measurement and monitoring instruments for the telecommunications industry. It markets products under two brand names: EXFO and Burleigh Instruments.

EXFO and its subsidiaries develop products mainly for two markets. The Portable and Monitoring Division provides solutions primarily to telecommunications carriers, cable television companies, public utilities, private network operators as well as third-party installers and equipment rental companies. The Industrial and Scientific Division as well as Burleigh Instruments design an extensive line of high-performance instruments and automated test systems for manufacturers of optical components, value-added optical modules and optical networking systems as well as for research and development markets.

This news release may contain statements that constitute forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements are statements other than historical information or statements of current condition. These statements may appear in a number of places in this news release and include statements concerning our intent, belief, or current expectations regarding future events. Forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and actual results may differ materially from those in the forward-looking statements as a result of various factors which are beyond the control of EXFO, including retention of qualified personnel, revenue synergies, demand for testing and measurement instruments and precision positioning instruments. Although we believe that the expectations reflected in the forward-looking statements are reasonable based on information currently available to us, we cannot assure you that the expectations will prove to have been correct.

-27-

Accordingly, you should not place undue reliance on these forward-looking statements. In any event, these statements speak only as of the date of this news release. We undertake no obligation to revise or update any of them to reflect events or circumstances after the date of this news release, or to reflect new information or the occurrence of unanticipated events. Readers are referred to our Annual Report on Form 20-F and our other filings with the U.S. Securities and Exchange Commission and the Canadian securities commissions for a discussion of the other factors that may affect our future performance and other important risk factors concerning us and our operations.
