EAGLE BULK SHIPPING INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Note 1. Basis of Presentation and General Information

The accompanying consolidated financial statements include the accounts of Eagle Bulk Shipping Inc. and its wholly-owned subsidiaries (collectively, the "Company", "we" or "our"). The Company is engaged in the ocean transportation of dry bulk cargoes worldwide through the ownership and operation of dry bulk vessels. The Company's fleet is comprised of Supramax and Handymax bulk carriers and the Company operates its business in one business segment.

The Company is a holding company incorporated in 2005 under the laws of the Republic of the Marshall Islands and is the sole owner of all of the outstanding shares of its wholly-owned subsidiaries incorporated in the Republic of the Marshall Islands. The primary activity of each of the subsidiaries is the ownership of a vessel. The operations of the vessels are managed by a wholly-owned subsidiary of the Company, Eagle Shipping International (USA) LLC, a Republic of the Marshall Islands limited liability company.

As of June 30, 2010, the Company's operating fleet consisted of 36 vessels. The Company has an extensive vessel newbuilding program and as of June 30, 2010 had contracts for the construction of 11 vessels. The following tables present certain information concerning the Company's fleet as of June 30, 2010:

No. of Vessels	Dwt	Vessel Type	Delivery	Employment
Vessels in Operation				
36 Vessels	1,920,346	33 Supramax		Time Charter
		3 Handymax		Time Charter
Vessels to be delivered				
1 Vessel	53,100	53,100 dwt series Supramax	2010	Charter Free
10 Vessels	580,000	58,000 dwt series Supramax	2010-2011	10 Vessels on Time Charter

The following table represents certain information about the Company's charterers which individually accounted for more than 10% of the Company's gross time charter revenue during the periods indicated:

Charterer	% of Consolidated Time Charter Revenue			
	Three Months Ended		Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
Charterer A	20%	14%	21%	17%
Charterer B	-	12%	10%	12%
Charterer C	-	17%	-	17%
Charterer D	-	20%	11%	19%
Charterer E	16%	-	14%	-

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States, and the rules and regulations of the Securities and Exchange Commission ("SEC") which apply to interim financial statements and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes normally included in consolidated financial statements prepared in conformity with generally accepted accounting principles in the United States. They should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's 2009 Annual Report on Form 10-K.

The accompanying unaudited consolidated financial statements include all adjustments (consisting of normal recurring adjustments) that management considers necessary for a fair presentation of its consolidated financial position and results of operations for the interim periods presented. The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the entire year.

Note 2. New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board ("FASB") issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements. This ASU requires new disclosures and clarifies certain existing disclosure requirements about fair value measurements. ASU 2010-06 requires a reporting entity to disclose significant transfers in and out of Level 1 and Level 2 fair value measurements, to describe the reasons for the transfers, and to present separately information about purchases, sales, issuances, and settlements for fair value measurements using significant unobservable inputs. ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements, which is effective for interim and annual reporting periods beginning after December 15, 2010, early adoption is permitted. The adoption of ASU 2010-06 did not have a material impact on our financial position, results of operations, or cash flows.

In February 2010, the FASB issued ASU 2010-09, Subsequent Events (Topic 855) - Amendments to Certain Recognition and Disclosure Requirements. This ASU removes the requirement for an SEC filer to disclose a date through which subsequent events have been evaluated in both issued and revised financial statements. All the amendments in ASU 2010-09 were effective upon issuance (February 24, 2010) except for the use of the issued date for conduit debt obligors. That amendment is effective for interim or annual periods ending after June 15, 2010. The adoption of ASU 2010-09 did not have a material impact on our financial position, results of operations, or cash flows.

In March 2010, the FASB issued ASU 2010-11, Derivatives and Hedging (Topic 815) – Scope Exception Related to Embedded Credit Derivatives. This ASU removes a scope exception, and an entity that has a beneficial interest in securitized financial assets that includes a credit derivative feature must evaluate that feature for bifurcation from the host financial asset in accordance with the guidance at ASC 815. ASU 2010-11 is effective at the beginning of a reporting entity's first fiscal quarter beginning after June 15, 2010. Early adoption is permitted at the beginning of an entity's first fiscal quarter beginning after March 5, 2010. We do not expect that the adoption of ASU 2010-11 will have a material impact on our financial position, results of operations, or cash flows.

Note 3. Vessels

a. Vessel and Vessel Improvements

At June 30, 2010, the Company's operating fleet consisted of 36 dry bulk vessels. In January the Company took delivery of the Thrasher, Crane, Egret and Golden Eagle. In February the Company took delivery of the Avocet and

Imperial Eagle. In April, May and June the Company took delivery of the Gannet Bulker, Grebe Bulker and Ibis Bulker, respectively.

On April 5, 2010, the Company decided to sell the oldest and smallest vessel in its fleet, the Griffon a 1995-built Handymax. On May 18, 2010, the Company reached an agreement to sell the vessel for \$21,070,000, after brokerage commission payable to a third party. The Company expects to realize a net gain of approximately \$110,000 during the third quarter of 2010. The Griffon is not available for delivery before August 16, 2010.

Vessel and vessel improvements:

Vessels and Vessel Improvements, at December 31, 2009	\$ 1,010,609,956
Vessel Improvements	2,557,053
Delivery of Newbuild Vessels	423,642,051
Depreciation Expense	(27,771,343)
Vessels and Vessel Improvements, at June 30, 2010	\$ 1,409,037,717

b. Advances for Vessel Construction

The Company took delivery of the Golden Eagle and Imperial Eagle, the last two Japanese-built vessels, in January and February 2010, respectively, and seven Chinese-built vessels the Thrasher, Crane and Egret, in January 2010, Avocet in February 2010 and Gannet Bulker, Grebe Bulker and Ibis Bulker in April, May and June, respectively. In 2009, the Company took delivery of four newly constructed vessels. Two vessels from a Japanese shipyard, the Crested Eagle and Stellar Eagle, were delivered in January and March 2009, respectively. Two vessels from a Chinese shipyard, the Bittern and Canary, were delivered in October and December 2009, respectively. In 2008 the Company took delivery of three vessels, the Wren and Woodstar were delivered by a Chinese shipyard in June and October 2008, respectively, and the Crowned Eagle, first of our five Japanese built vessels, was delivered in November 2008.

As of June 30, 2010, the Company has 11 Supramax vessels under construction at a shipyard in China. The total contract cost of the construction project in China is approximately \$399,600,000, of which the Company has advanced \$143,460,000 in payments towards the construction of these vessels. These vessels are expected to be delivered between 2010 and 2011. The Company will incur additional costs relating to the construction of these vessels, including capitalized interest, insurance, legal, and technical supervision costs.

Advances for Vessel Construction:

Advances for Vessel Construction, at December 31, 2009	\$ 464,173,887
Progress Payments	180,662,487
Capitalized Interest	8,275,439
Legal and Technical Supervision Costs	11,122,314
Delivery of Newbuild Vessels	(423,642,051)
Advances for Vessel Construction, at June 30, 2010	\$ 240,592,076

Note 4. Long-Term Debt

At June 30, 2010, the Company's debt consisted of \$1,080,240,926 in net borrowings under its amended Revolving Credit Facility. These borrowings consisted of \$872,944,334 for the 36 vessels currently in operation and \$207,296,592 to fund the Company's newbuilding program.

On August 4, 2009, the Company entered into a third Amendatory Agreement to its revolving credit facility dated October 19, 2007. Among other things, the credit facility reduces the amount of the credit facility to \$1,200,000,000 with maturity in July 2014. The agreement also modifies the minimum security covenant, the minimum net worth covenant, and the minimum interest coverage ratio covenant, until such time as the Company can comply with the original covenants for two consecutive accounting periods. In the interim, the measurement of the three covenants at the end of each accounting period has been amended as follows: (a) The minimum security covenant has been suspended, (b) the minimum net worth covenant has been amended to a threshold minimum of \$400 million plus an

amount equal to fifty percent of any equity received by the Company, with the determination of net worth to utilize book value of vessel assets as stated in the financial statements rather than the market value, and (c) until reinstatement of the original minimum security and net worth covenants, for 24 months from July 1, 2009 to June 30, 2011, at each accounting period, the Company's cumulative EBITDA (EBITDA as defined in the credit agreement) will at all times be not less than 120% of the cumulative loan interest incurred on a trailing four-quarter basis, and for each accounting period after June 30, 2011, the Company's cumulative EBITDA will at all times be not less than 130% of the cumulative loan interest incurred on a trailing four-quarter basis. The amendment also requires that until the Company is in compliance with the original covenants for two consecutive accounting periods, the Company will use half the net proceeds from any equity issuance to reduce the facility, including \$48,645,523 from the equity raised in 2009. These payments reduced the available amount of the credit facility to \$1,151,354,477. As of June 30, 2010, \$71,113,551 is available for additional borrowings under the credit facility. The Company will continue to be able to borrow the undrawn portion of the facility and the amounts borrowed will bear interest at LIBOR plus 2.50%. Undrawn portions of the facility will bear a commitment fee of 0.7%. The facility is available in full until July 2012 when availability will begin to decline in four semi-annual reductions of \$53,969,741 with a full repayment at maturity.

Under the terms of the third amendment of the revolving credit facility, among other things, we will maintain with the lender an amount not less than the greater of \$500,000 per delivered vessel or an amount equal to any reductions in the total commitments scheduled to be effected within the next six months less the amount of the then unutilized facility. As of June 30, 2010, the Company has recorded \$18,000,000 as Restricted cash in the accompanying balance sheets.

Our obligations under the amended revolving credit facility are secured by a first priority mortgage on each of the vessels in our fleet and such other vessels that we may from time to time include with the approval of our lender, and by a first assignment of all freights, earnings, insurances and requisition compensation relating to our vessels. The facility also limits our ability to create liens on our assets in favor of other parties.

For the three months ended June 30, 2010, interest rates on the outstanding debt ranged from 2.75% to 7.73%, including a margin of 2.50% over LIBOR applicable under the terms of the amended revolving credit facility. The weighted average effective interest rate was 5.57%. The Company incurred a commitment fee of 0.70% on the undrawn portion of the revolving credit facility. Interest costs on borrowings used to fund the Company's newbuilding program are capitalized until the vessels are delivered. Interest Expense, exclusive of capitalized interest, consists of:

	Three Months Ended		Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
Loan Interest	\$11,859,728	\$6,546,396	\$22,451,997	\$12,792,656
Amortization of Deferred Financing Costs	748,026	269,457	1,332,743	509,514
Total Interest Expense	\$12,607,754	\$6,815,853	\$23,784,740	\$13,302,170

Interest paid, exclusive of capitalized interest, in the six month periods ended June 30, 2010 and 2009 amounted to \$20,048,980 and \$6,425,528, respectively.

Interest Rate Swaps

The Company has entered into interest rate swaps to effectively convert a portion of its debt from a floating to a fixed rate basis. Under these swap contracts, exclusive of applicable margins, the Company will pay fixed rate interest and receive floating-rate interest amounts based on three-month LIBOR settings. The swaps are designated and qualify as cash flow hedges. The following table summarizes the interest rate swaps in place as of June 30, 2010 and December 31, 2009.

Notional Amount Outstanding – June 30, 2010	Notional Amount Outstanding – December 31, 2009	Fixed Rate	Maturity
\$ —	\$ 25,776,443	4.905%	03/2010
10,995,000	10,995,000	4.980%	08/2010
202,340,000	202,340,000	5.040%	08/2010
100,000,000	100,000,000	4.220%	09/2010
30,000,000	30,000,000	4.538%	09/2010
144,700,000	144,700,000	3.580%	10/2011
9,162,500	9,162,500	3.515%	10/2011
3,405,174	3,405,174	3.550%	10/2011

Edgar Filing: Eagle Bulk Shipping Inc. - Form 10-Q

17,050,000	17,050,000	3.160%	11/2011
25,048,118	25,048,118	4.740%	12/2011
36,752,038	36,752,038	5.225%	08/2012
81,500,000	81,500,000	3.895%	01/2013
84,800,000	84,800,000	3.900%	09/2013
\$ 745,752,830	\$ 771,529,273		

The Company records the fair value of the interest rate swaps as an asset or liability on its balance sheet. The effective portion of the swap is recorded in accumulated other comprehensive income. Accordingly, liabilities of \$29,520,148 and \$35,408,049 have been recorded in Fair value of derivative instruments in the Company's balance sheets as of June 30, 2010 and December 31, 2009.

Foreign Currency swaps

The Company has entered into foreign exchange swap transactions to hedge foreign currency risks on its capital asset transactions (vessel newbuildings). The swaps were designated and qualified as cash flow hedges.

At December 31, 2008, the Company had outstanding foreign currency swap contracts for notional amounts aggregating 8.6 billion Japanese yen swapped into the equivalent of \$80,378,030. In February 2009, the Company fixed the gain on its outstanding foreign currency swaps contracts. This gain was recognized upon delivery of the remaining vessels as an offset to the cost of the vessels. During the year ended December 31, 2009, the Company recognized a foreign currency gain of \$8,710,806 which offset the cost of the Japanese vessels upon delivery or payment incurred. The Company recognized in the first quarter of 2010 a foreign currency gain of \$4,765,116 which offset the cost of the last two Japanese vessels upon their delivery in January 2010 and February 2010.

The Company records the fair value of the currency swaps as an asset or liability in its financial statements. The effective portion of the currency swap is recorded in accumulated other comprehensive income. As of June 30, 2010 there are no foreign currency swaps outstanding. Accordingly, an amount of \$0 and \$4,765,116 had been recorded as an asset in Fair value of derivative instruments in the accompanying balance sheets as of June 30, 2010, and December 31, 2009, respectively.

Note 5. Fair Value Measurements

The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and cash equivalents—the carrying amounts reported in the consolidated balance sheet for interest-bearing deposits approximate their fair value due to their short-term nature thereof.

Debt—the carrying amounts of borrowings under the revolving credit agreement approximate their fair value, due to the variable interest rate nature thereof.

Interest rate swaps—the fair value of interest rate swaps (used for hedging purposes) is the estimated amount that the Company would receive or pay to terminate the swaps at the reporting date.

Foreign currency swaps—the fair value of foreign currency swaps (used for hedging purposes) is the estimated amount that the Company would receive or pay to terminate the swaps at the reporting date.

The Company defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The fair value hierarchy for disclosure of fair value measurements is as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities

Level 2 – Quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3 – Inputs that are unobservable (for example cash flow modeling inputs based on assumptions)

The following table summarizes assets and liabilities measured at fair value on a recurring basis at June 30, 2010:

	Level 1	Level 2	Level 3
Assets:			
Foreign currency contracts	—	—	—
Liabilities:			
Interest rate contracts	—	\$ 29,520,148	—

The fair value of the interest rate contracts are based on quoted market prices for a similar contract that can be obtained from external sources.

The Company's policy is to recognize any transfers into fair value measurement hierarchy levels and transfers out of levels at the beginning of each reporting period. There were no transfers in or out of Level 2 measurements for the six-month period ended June 30, 2010.

Note 6. Commitments and Contingencies

Vessel Technical Management Contract

The Company has technical management agreements for some of its vessels with independent technical managers. The Company paid average monthly technical management fees of \$9,652 and \$9,035 per vessel during the six months ended June 30, 2010 and 2009, respectively.

On August 4, 2009, the Company entered into a management agreement (the "Management Agreement") with Delphin Shipping LLC ("Delphin"), a Marshall Islands limited liability company affiliated with Kelso Investment Associates VII, and KEP VI, LLC and the Company's Chief Executive Officer, Sophocles Zoullas. Delphin was formed for the purpose of acquiring and operating dry bulk and other vessels. Under the terms of the Management Agreement, the Company will provide commercial and technical supervisory vessel management services to dry bulk vessels to be acquired by Delphin for a fixed monthly management fee based on a sliding scale. Pursuant to the terms of the Management Agreement the Company has been granted an opportunity to acquire for its own account any dry bulk vessel that Delphin proposes to acquire. The Company has also been granted a right of first refusal on any dry bulk charter opportunity, other than a renewal of an existing charter for a Delphin owned vessel, that the Company reasonably deems suitable for a Company owned vessel. The Management Agreement also provides the Company a right of first offer on the sale of any dry bulk vessel by Delphin. The term of the Management Agreement is one year and is renewable for successive one year terms at the option of Delphin.

Note 7. Earnings Per Common Share

The computation of basic earnings per share is based on the weighted average number of common shares outstanding during the period. Diluted net income per share gives effect to stock options and restricted stock units using the treasury stock method, unless the impact is anti-dilutive. Diluted net income per share for the six months as of June 30, 2010, does not include 989,519 restricted stock units and 790,668 stock options as their effect was anti-dilutive.

	Three Months Ended		Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
Net Income	\$11,011,921	\$13,347,535	\$15,585,556	\$30,584,316
Weighted Average Shares – Basic	62,176,684	52,252,714	62,215,915	49,656,431
Dilutive effect of stock options and restricted stock units	160,090	42,507	150,268	29,928
Weighted Average Shares – Diluted	62,336,774	52,295,221	62,366,183	49,686,359
Basic Earnings Per Share	\$0.18	\$0.26	\$0.25	\$0.62
Diluted Earnings Per Share	\$0.18	\$0.26	\$0.25	\$0.62

Note 8. Capital Stock

Dividends

Payment of dividends is at the discretion of the board of directors and is limited by the terms of certain agreements to which the Company and its subsidiaries are parties to and provisions of Marshall Islands law. The Company's revolving credit facility permits it to pay quarterly dividends in amounts up to its cumulative free cash flows, which is our earnings before extraordinary or exceptional items, interest, taxes, depreciation and amortization (Credit Agreement EBITDA), less the aggregate amount of interest incurred and net amounts payable under interest rate hedging agreements during the relevant period and an agreed upon reserve for dry-docking for the period, provided that the Company is in compliance with its loan covenants. Depending on market conditions in the dry bulk shipping industry and acquisition opportunities that may arise, the Company may be required to obtain additional debt or equity financing which could affect its dividend policy. In December 2008, the Company's board of directors suspended the payment of dividends to stockholders in order to increase cash flow, optimize financial flexibility and enhance internal growth. In the future, the declaration and payment of dividends, if any, will always be subject to the discretion of the board of directors, restrictions contained in the credit facility and the requirements of Marshall Islands law. The timing and amount of any dividends declared will depend on, among other things, the Company's earnings, financial condition and cash requirements and availability, the ability to obtain debt and equity financing on acceptable terms as contemplated by the Company's growth strategy, the terms of its outstanding indebtedness and the ability of the Company's subsidiaries to distribute funds to it.

Note 9. Stock Incentive Plans

2009 Equity Incentive plan. In May 2009, our shareholders approved the 2009 Equity Incentive Plan (2009 Plan) for the purpose of affording an incentive to eligible persons. The 2009 Equity Incentive Plan provides for the grant of equity based awards, including stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalents, unrestricted stock, other equity based or equity related awards, and/or performance compensation awards based on or relating to the Company's common shares to eligible non-employee directors, officers, employees or consultants. The 2009 Plan is administered by a compensation committee or such other committee of the Company's board of directors. A maximum of 4.2 million of the Company's common shares have been authorized for issuance under the 2009 Plan.

2005 Equity Incentive plan. In 2005, the Company adopted the 2005 Equity Incentive Plan (2005 Plan) for the purpose of affording an incentive to eligible persons. The 2005 Equity Incentive Plan provides for the grant of equity-based awards, including stock options, stock appreciation rights, restricted stock, restricted stock units, stock bonuses, dividend equivalents and other awards based on or relating to the Company's common shares to eligible

non-employee directors, selected officers and other employees and independent contractors. The plan is administered by a committee of the Company's board of directors. An aggregate of 2.6 million shares of the Company's common stock were authorized for issuance under the plan. None of the Company's common shares remain available for issuance under the 2005 Plan.

The Company granted restricted stock units ("RSUs") to members of its management which vest ratably over periods running from three to five years. As of June 30, 2010, RSUs covering a total of 1,977,841 of the Company's shares are outstanding. These RSUs also entitle the participant to receive a dividend equivalent payment on the unvested portion of the underlying shares granted under the award, each time the Company pays a dividend to the Company's shareholders. The dividend equivalent rights on the unvested RSU are forfeited upon termination of employment. The Company is amortizing to non-cash compensation expense the fair value of the non-vested restricted stock at the grant date. For the six and three months ended June 30, 2010, the amortization charge was \$7,307,797 and \$3,569,435, respectively. The remaining expense for each of the years ending 2010, 2011, and 2012 will be \$6,696,529, \$7,285,562, and \$6,640,759, respectively, and \$2,276,805 thereafter.

As of December 31, 2009, options covering 813,483 of the Company's common shares were outstanding. These options were awarded to members of its management and its independent non-employee directors. On March 8, 2010 and May 20, 2010, the Company granted options to purchase 200,000 and 50,000, respectively, of the Company's common shares to its independent non-employee directors. These options vested and became exercisable on the grant date at an exercise price of \$5.91 and \$4.59, respectively, per share and expire five years from the date of grant. For purposes of determining the non-cash compensation cost for the Company's stock option plans using the fair value method of FAS 123(R), the fair value of the options granted of \$597,034 and \$114,403, respectively, was estimated on the date of grant using the Black-Scholes option pricing model. The weighted average assumptions used for the 2010 grants included a risk free interest rate of 1.16% and 1%, respectively, and an expected stock price volatility factor of 85% and 84%, respectively. For the six and three months ended June 30, 2010, the Company has recorded a non-cash compensation charge of \$722,168 and \$114,403, respectively. As of June 30, 2010, options covering 1,063,483 of the Company's common shares are outstanding with exercise prices ranging from \$4.59 to \$21.88 per share (the market prices at dates of grants). The options granted to the independent non-employee directors vested and became exercisable on the grant dates. The options granted to members of its management vest and become exercisable over three years. All options expire between six to ten years from the date of grant.

The non-cash compensation expenses recorded by the Company and included in General and Administrative Expenses are as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
Stock Option Plans	\$ 114,403	\$ 75,370	\$ 722,168	\$ 701,590
Restricted Stock Grants	3,569,435	3,270,063	7,307,797	6,540,127
Total Non-cash compensation expense	\$ 3,683,838	\$ 3,345,433	\$ 8,029,965	\$ 7,241,717

The Company granted Dividend Equivalent Rights Awards ("DERs") to its independent non-employee directors and members of its management. These DERs entitle the participant to receive a dividend equivalent payment each time the Company pays a dividend to the Company's shareholders. As of June 30, 2010, DERs equivalent to 574,000 of the Company's common shares are outstanding. For the six months ended June 30, 2010 and 2009, the Company has recorded cash compensation expenses of \$0 in General and Administrative Expenses.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following is a discussion of the Company's financial condition and results of operation for the three-month and six-month periods ended June 30, 2010 and 2009. This section should be read in conjunction with the consolidated financial statements included elsewhere in this report and the notes to those financial statements.

This discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended and the Private Securities Litigation Reform Act of 1995, and are intended to be covered by the safe harbor provided for under these sections. These statements may include words such as "believe," "estimate," "project," "intend," "expect," "plan," "anticipate," and similar expressions in connection with any discussion of the timing or nature of future operating or financial performance or other events. Forward looking statements reflect management's current expectations and observations with respect to future events and financial performance. Where we express an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, our forward-looking statements are subject to risks, uncertainties, and other factors, which could cause actual results to differ materially from future results expressed, projected, or implied by those forward-looking statements. The principal factors that affect our financial position, results of operations and cash flows include, charter market rates, which declined significantly in 2009 from historic highs, periods of charter hire, vessel operating expenses and voyage costs, which are incurred primarily in U.S. dollars, depreciation expenses, which are a function of the cost of our vessels, significant vessel improvement costs and our vessels' estimated useful lives, and financing costs related to our indebtedness. Our actual results may differ materially from those anticipated in these forward looking statements as a result of certain factors which could include the following: (i) changes in demand in the dry bulk market, including, without limitation, changes in production of, or demand for, commodities and bulk cargoes, generally or in particular regions; (ii) greater than anticipated levels of dry bulk vessel new building orders or lower than anticipated rates of dry bulk vessel scrapping; (iii) changes in rules and regulations applicable to the dry bulk industry, including, without limitation, legislation adopted by international bodies or organizations such as the International Maritime Organization and the European Union or by individual countries; (iv) actions taken by regulatory authorities; (v) changes in trading patterns significantly impacting overall dry bulk tonnage requirements; (vi) changes in the typical seasonal variations in dry bulk charter rates; (vii) changes in the cost of other modes of bulk commodity transportation; (viii) changes in general domestic and international political conditions; (ix) changes in the condition of the Company's vessels or applicable maintenance or regulatory standards (which may affect, among other things, our anticipated drydocking costs); (x) and other factors listed from time to time in our filings with the Securities and Exchange Commission. This discussion also includes statistical data regarding world dry bulk fleet and orderbook and fleet age. We generated some of this data internally, and some were obtained from independent industry publications and reports that we believe to be reliable sources. We have not independently verified this data nor sought the consent of any organizations to refer to their reports in this quarterly report. We disclaim any intent or obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

Overview

We are Eagle Bulk Shipping Inc., a Republic of the Marshall Islands corporation headquartered in New York City. We own one of the largest fleets of Supramax dry bulk vessels in the world. Supramax dry bulk vessels range in size from 50,000 to 60,000 dwt. We transport a broad range of major and minor bulk cargoes, including iron ore, coal, grain, cement and fertilizer, along worldwide shipping routes. As of June 30, 2010, we owned and operated a modern fleet of 36 Handymax segment dry bulk vessels, 33 of which are of the Supramax class. We also have an on-going Supramax newbuilding program for the construction of an additional 11 newbuilding vessels in China. Upon delivery

of all newbuilding vessels by the end of 2011, our total fleet will consist of 47 vessels with a combined carrying capacity of approximately 2.55 million dwt.

On April 5, 2010, the Company decided to sell the oldest and smallest vessel in its fleet, the Griffon a 1995-built Handymax. On May 18, 2010, the Company reached an agreement to sell the vessel for \$21,070,000, after brokerage commission payable to a third party. The Company expects to realize a net gain of approximately \$110,000 during the third quarter of 2010. The Griffon is not available for delivery before August 16, 2010. After the sell and upon delivery of all newbuilding vessels by the end of 2011, our total fleet will consist of 46 vessels with a combined carrying capacity of approximately 2.08 million dwt.

We are focused on maintaining a high quality fleet that is concentrated primarily in one vessel type — Handymax dry bulk carriers and its sub-category of Supramax vessels, which are Handymax vessels ranging in size from 50,000 to 60,000 dwt. These vessels have the cargo loading and unloading flexibility of on-board cranes while offering cargo carrying capacities approaching that of Panamax dry bulk vessels, which range in size from 60,000 to 100,000 dwt and rely on port facilities to load and offload their cargoes. We believe that the cargo handling flexibility and cargo carrying capacity of the Supramax class vessels make them attractive to cargo interests and vessel charterers. The 36 vessels in our operating fleet, with an aggregate carrying capacity of 1,920,346 deadweight tons, have an average age of only five years compared to an average age for the world Handymax dry bulk fleet of approximately 15 years.

Each of our vessels is owned by us through a separate wholly owned Republic of the Marshall Islands limited liability company.

We maintain our principal executive offices at 477 Madison Avenue, New York, New York 10022. Our telephone number at that address is (212) 785-2500. Our website address is www.eagleships.com. Information contained on our website does not constitute part of this quarterly report.

Our financial performance is based on the following key elements of our business strategy:

- (1) concentration in one vessel category: Supramax class of Handymax dry bulk vessels, which we believe offer size, operational and geographical advantages over Panamax and Capesize vessels,
- (2) our strategy is to charter our vessels primarily pursuant to one- to three-year time charters to allow us to take advantage of the stable cash flow and high utilization rates that are associated with medium to long-term time charters. A significant proportion of our charters on the vessels in our operating fleet range in length from one to three years, and a few of the newly constructed vessels are on long term charters with an average duration of eight years. A few of our vessels in the operating fleet are on charters whose revenues are linked to the Baltic Supramax index and have durations of one-year or less. These index linked charters provide us with the revenue upside as the market improves. We believe that this structure provides significant visibility to our future financial results and allows us to take advantage of the stable cash flows and high utilization rates that are associated with medium- to long-term time charters, while at the same time providing us with the revenue upside potential from the index linked charters. Our use of time charters also mitigates in part the seasonality of the spot market business. Generally, spot markets are strongest in the first and fourth quarters of the calendar year and weaker in the second and third quarters. Our time charters provide for fixed semi-monthly payments in advance. While we remain focused on securing charters with fixed base rates, we have also entered into contracts with fixed minimum rates and profit sharing arrangements, enabling us to benefit from an increasing rate environment while still minimizing downside risk. We regularly monitor the dry bulk shipping market and based on market conditions we may consider taking advantage of short-term charter rates,
- (3) maintain high quality vessels and improve standards of operation through improved environmental procedures, crew training and maintenance and repair procedures, and
- (4)

maintain a balance between purchasing vessels as market conditions and opportunities arise and maintaining prudent financial ratios (e.g. leverage ratio).

Edgar Filing: Eagle Bulk Shipping Inc. - Form 10-Q

We have employed all of our vessels in our operating fleet on time charters. During the six months ended June 30, 2010, we took delivery of nine newbuilding vessels, the Thrasher, Crane, Egret, Golden Eagle, Avocet, Imperial Eagle, Gannet Bulker, Grebe Bulker and Ibis Bulker, which entered into their respective charters. The following table represents certain information about the Company's revenue earning charters on its operating fleet:

Vessel	Year Built	Dwt	Time Charter Expiration (1)	Daily Time Charter Hire Rate
Avocet (3)	2010	53,462	May 2016 May 2016 to Dec 2018/May 2019	\$18,400 \$18,000 (with 50% profit share over \$22,000)
Bittern (4)	2009	57,809	Jan 2015 Jan 2015 to Dec 2018/Apr 2019	\$18,850 \$18,000 (with 50% profit share over \$22,000)
Canary (5)	2009	57,809	Mar 2015 Mar 2015 to Dec 2018/Apr 2019	\$18,850 \$18,000 (with 50% profit share over \$22,000)
Cardinal	2004	55,362	Sep 2010 to Nov 2010	\$16,250
Condor	2001	50,296	Jul 2010 to Oct 2010	\$22,000
Crane (6)	2010	57,809	Apr 2015 Apr 2015 to Dec 2018/Apr 2019	\$18,850 \$18,000 (with 50% profit share over \$22,000)
Crested Eagle (2)	2009	55,989	Jan 2011 to Apr 2011	\$11,500 (with 50% Index share over \$11,500)
Crowned Eagle	2008	55,940	Jul 2010 Jul 2010 to Jun/Aug 2011	\$26,500 Index
Egret Bulker(7)	2010	57,809	Oct 2012 to Feb 2013	\$17,650 (with 50% profit share over \$20,000)

Tern	2003	50,200	Aug 2010	\$23,500
Thrasher (13)	2010	53,360	Apr 2016 Apr 2016 to Dec 2018/Apr 2019	\$18,400 \$18,000 (with 50% profit share over \$22,000)
Woodstar (14)	2008	53,390	Jan 2014 Jan 2014 to Dec 2018/Apr 2019	\$18,300 \$18,000 (with 50% profit share over \$22,000)
Wren (15)	2008	53,349	Dec 2011 Dec 2011 to Dec 2018/Apr 2019	\$24,750 \$18,000 (with 50% profit share over \$22,000)

(1) The date range provided represents the earliest and latest date on which the charterer may redeliver the vessel to the Company upon the termination of the charter. The time charter hire rates presented are gross daily charter rates before brokerage commissions, ranging from 1.25% to 6.25%, to third party ship brokers.

(2) Index, an average of the trailing Baltic Supramax Index.

(3) Revenue recognition for the AVOCET is based on an average daily base rate of \$18,281.

- (4) Revenue recognition for the BITTERN is based on an average daily base rate of \$18,485.
- (5) Revenue recognition for the CANARY is based on an average daily base rate of \$18,493.
- (6) Revenue recognition for the CRANE is based on an average daily base rate of \$18,497.
- (7) The EGRET BULKER, GANNET BULKER, GREBE BULKER and IBIS BULKER have entered into a charter for 33 to 37 months. The charter rate is \$17,650 per day with a 50% profit share for earned rates over \$20,000 per day. The charterer has an option to extend the charter by 2 periods of 11 to 13 months each.
- (8) The GOLDEN EAGLE commenced an index based charter for 11 to 13 months. The index rate will be an average of the trailing Baltic Supramax Index for each 15 day hire period.
- (9) Upon completion of the previous charter in August 2010, the Hawk I commenced a new charter for a period of 11 to 13 months at \$20,000.
- (10) The charterer of the HERON has an option to extend the charter period by 11 to 13 months at a time charter rate of \$27,375 per day. The charterer has a second option for a further 11 to 13 months at a time charter rate of \$28,375 per day.
- (11) The IMPERIAL EAGLE commenced an index based charter for 11 to 13 months. The index rate will be an average of the trailing Baltic Supramax Index for each 15 day hire period.
- (12) Revenue recognition for the MERLIN is based on an average daily rate of \$25,000.
- (13) Revenue recognition for the THRASHER is based on an average daily base rate of \$18,280.
- (14) Revenue recognition for the WOODSTAR is based on an average daily base rate of \$18,154.
- (15) Revenue recognition for the WREN is based on an average daily base rate of \$20,245.

The following table, as of June 30, 2010, represents certain information about the Company's newbuilding vessels being constructed and their expected employment upon delivery:

Vessel	Dwt	Year Built – Actual or Expected Delivery (1)	Time Charter Employment Expiration (2)	Daily Time Charter Hire Rate (3)	Profit Share
Jay(5)	58,000	2010Q3	Dec 2015	\$ 18,500	50% over \$21,500
			Dec 2015 to Dec 2018/Apr 2019	\$ 18,000	50% over \$22,000
Kingfisher(5)	58,000	2010Q3	Dec 2015	\$ 18,500	50% over \$21,500
			Dec 2015 to Dec 2018/Apr 2019	\$ 18,000	50% over \$22,000
Martin	58,000	2010Q3	Feb 2017 to Feb 2018	\$ 18,400	—
Thrush	53,100	2010Q4	Charter Free	—	—
Nighthawk	58,000	2011Q1	Sep 2017 to Sep 2018	\$ 18,400	—
Oriole	58,000	2011Q3	Jan 2018 to Jan 2019	\$ 18,400	—
Owl	58,000	2011Q3	Feb 2018 to Feb 2019	\$ 18,400	—
Petrel (4)	58,000	2011Q4	Jun 2014 to Oct 2014	\$ 17,650	50% over \$20,000
Puffin (4)	58,000	2011Q4	Jul 2014 to Nov 2014	\$ 17,650	50% over \$20,000
Roadrunner (4)	58,000	2011Q4	Aug 2014 to Dec 2014	\$ 17,650	50% over \$20,000
Sandpiper (4)	58,000	2011Q4	Sep 2014 to Jan 2015	\$ 17,650	50% over \$20,000

(1) Vessel build and delivery dates are estimates based on guidance received from shipyard.

(2) The date range represents the earliest and latest date on which the charterer may redeliver the vessel to the Company upon the termination of the charter.

(3) The time charter hire rate presented are gross daily charter rates before brokerage commissions ranging from 1.25% to 6.25% to third party ship brokers.

(4) The charterer has an option to extend the charter by 2 periods of 11 to 13 months each.

(5) The JAY and KINGFISHER were delivered subsequent to the end of the second quarter. Revenue recognition for the JAY and KINGFISHER are based on an average daily base rate of \$18,320.

Fleet Management

The management of our fleet includes the following functions:

- Strategic management. We locate and obtain financing and insurance for purchase and sell vessels.
- Commercial management. We obtain employment for our vessels and manage our relationships with charterers.
- Technical management. The technical managers perform day-to-day operations and maintenance of our vessels.

Commercial and Strategic Management

We carry out the commercial and strategic management of our fleet through our wholly owned subsidiary, Eagle Shipping International (USA) LLC, a Republic of the Marshall Islands limited liability company that maintains its principal executive offices in New York City. We currently have a total of forty shore based personnel, including our senior management team and our office staff, who either directly or through this subsidiary, provides the following services:

- commercial operations and technical supervision;
- safety monitoring;
- vessel acquisitions; and
- financial, accounting and information technology services.

Technical Management

The technical management of the majority of our fleet is provided by unaffiliated third party technical managers, V.Ships, Wilhelmsen Ship Management and Anglo Eastern International Ltd., which we believe are three of the world's largest providers of independent ship management and related services. We have also established in-house technical management capability, through which we provide technical management services to several of our vessels, in order to establish a vessel management bench-mark with the external technical managers. We review the performance of the managers on an annual basis and may add or change technical managers.

Technical management includes managing day-to-day vessel operations, performing general vessel maintenance, ensuring regulatory and classification society compliance, supervising the maintenance and general efficiency of vessels, arranging our hire of qualified officers and crew, arranging and supervising drydocking and repairs, purchasing supplies, spare parts and new equipment for vessels, appointing supervisors and technical consultants and providing technical support. Our technical managers also manage and process all crew insurance claims. Our technical managers maintain records of all costs and expenditures incurred in connection with their services that are available for our review on a daily basis. Our technical managers are members of marine contracting associations which arrange bulk purchasing thereby enabling us to benefit from economies of scale.

The third-party technical managers are paid a fixed management fee for each vessel in our operating fleet for the technical management services they provide. For the three-month periods ended June 30, 2010 and 2009, the technical management fee averaged \$9,619 and \$8,906 per vessel per month, respectively. For the six-month periods ended June 30, 2010 and 2009, the technical management fee averaged \$9,652 and \$9,035 per vessel per month, respectively. Management fees paid to our third-party technical managers are recorded as a component of Vessel Expenses.

Value of Assets and Cash Requirements

The replacement costs of comparable new vessels may be above or below the book value of our fleet. The market value of our fleet may be below book value when market conditions are weak and exceed book value when market conditions are strong. Customary with industry practice, we may consider asset redeployment which at times may include the sale of vessels at less than their book value.

The Company's results of operations and cash flow may be significantly affected by future charter markets.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations is based upon our interim, unaudited, consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States, and the rules and regulations of the SEC which apply to interim financial statements. The preparation of those financial statements requires us to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions and conditions.

Critical accounting policies are those that reflect significant judgments of uncertainties and potentially result in materially different results under different assumptions and conditions. As the discussion and analysis of our financial condition and results of operations is based upon our interim, unaudited, consolidated financial statements, they do not include all of the information on critical accounting policies normally included in consolidated financial statements. Accordingly, a detailed description of these critical accounting policies should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Reports on Form 10-K. There have been no material changes from the "Critical Accounting Policies" previously disclosed in our Form 10-K for the year ended December 31, 2009.

Results of Operations for the three month periods ended June 30, 2010 and 2009:

Fleet Data

We believe that the measures for analyzing future trends in our results of operations consist of the following:

	Three Months Ended		Six Months Ended	
	June 30, 2010	June 30, 2009	June 30, 2010	June 30, 2009
Ownership Days	3,129	2,275	5,955	4,413
Available Days	3,091	2,249	5,895	4,386
Operating Days	3,087	2,242	5,863	4,370
Fleet Utilization	99.9%	99.7%	99.5%	99.6%

- **Ownership days:** We define ownership days as the aggregate number of days in a period during which each vessel in our fleet has been owned by us. Ownership days are an indicator of the size of our fleet over a period and affect both the amount of revenues and the amount of expenses that we record during a period. Ownership days for the three month period ended June 30, 2010, increased 38% from the corresponding period in 2009 as we operated 36 vessels in the second quarter of 2010 compared to 25 vessels in the corresponding period in 2009.

- Available days: We define available days as the number of our ownership days less the aggregate number of days that our vessels are off-hire due to vessel familiarization upon acquisition, scheduled repairs or repairs under guarantee, vessel upgrades or special surveys and the aggregate amount of time that we spend positioning our vessels. The shipping industry uses available days to measure the number of days in a period during which vessels should be capable of generating revenues. During the six-month period ended June 30, 2010, the Company drydocked three vessels and two in the comparable period in 2009.

- **Operating days:** We define operating days as the number of our available days in a period less the aggregate number of days that our vessels are off-hire due to any reason, including unforeseen circumstances. The shipping industry uses operating days to measure the aggregate number of days in a period during which vessels actually generate revenues.
- **Fleet utilization:** We calculate fleet utilization by dividing the number of our operating days during a period by the number of our available days during the period. The shipping industry uses fleet utilization to measure a company's efficiency in finding suitable employment for its vessels and minimizing the amount of days that its vessels are off-hire for reasons other than scheduled repairs or repairs under guarantee, vessel upgrades, special surveys or vessel positioning. Our fleet continues to perform at high utilization rates.

Revenues

All of our vessels are employed on time charters. Our time charter equivalent ("TCE") rate is equal to the time charter rate. As is common in the shipping industry, we pay commissions ranging from 1.25% to 6.25% of the total daily charter hire rate of each charter to unaffiliated ship brokers and in-house brokers associated with the charterers, depending on the number of brokers involved with arranging the charter.

Gross time charter revenues in the quarter ended June 30, 2010 were \$69,061,932, an increase of 23% from \$55,933,747 recorded in the comparable quarter in 2009, primarily due to operation of a larger fleet offset by lower charter rates. Gross revenues recorded in the quarter ended June 30, 2010 and 2009, include an amount of \$1,171,477 and \$647,449, respectively, relating to the non-cash amortization of fair value below contract value of time charters acquired. Brokerage commissions incurred on revenues earned in the quarter ended June 30, 2010 and 2009 were \$3,449,092 and \$2,912,409, respectively. Net revenues during the quarter ended June 30, 2010, increased 24% to \$65,612,840 from \$53,021,338 in the comparable quarter in 2009.

Gross time charter revenues for the six-month period ended June 30, 2010 were \$126,424,868, an increase of 10% from \$114,555,447 recorded in the comparable period in 2009, primarily due to operation of a larger fleet offset by lower charter rates. Gross revenues recorded in the six-month period ended June 30, 2010 and 2009, include an amount of \$2,036,105 and \$1,297,180, respectively, relating to the non-cash amortization of fair value below contract value of time charters acquired. Gross revenues recorded in 2010 include an arbitration settlement amounted of \$1,089,759, reached in March 2010. Brokerage commissions incurred on revenues earned in the six-month periods ended June 30, 2010 and 2009 were \$6,568,303 and \$5,556,443, respectively. Net revenues during the six-month period ended June 30, 2010, increased 10% to \$119,856,565 from \$108,999,004 in the comparable period in 2009.

Vessel Expenses

Vessel expenses for the three-month period ended June 30, 2010, were \$16,052,945 compared to \$12,933,808 in the comparable quarter in 2009. The increase in vessel expense is attributable to a larger fleet size in operation. Vessel expenses for the three-month period ended June 30, 2010, included \$15,222,455 in vessel operating costs and \$830,490 in technical management fees. Vessel expenses for the comparable period in 2009 included \$12,267,670 in vessel operating costs and \$666,138 in technical management fees.

Vessel expenses for the six-month period ended June 30, 2010 were \$31,530,334 compared to \$26,005,005 in the comparable six-month period ended June 30, 2009. The increase in vessel expense is attributable to a larger fleet size in operation for the six-month period of 2010. Vessel expenses for the six-month period ended June 30, 2010 included \$29,914,457, in vessel operating costs and \$1,615,877 in technical management fees. Vessel expenses for the six-month period ended June 30, 2009 included \$24,696,513 in vessel operating costs and \$1,308,492 in technical

management fees.

Vessel operating expenses include crew wages and related costs, the cost of insurance, expenses relating to repairs and maintenance, the cost of spares and consumable stores and related inventory, tonnage taxes, pre operating costs associated with the delivery of acquired vessels including providing the newly acquired vessels with initial provisions and stores, other miscellaneous expenses, and technical management fees paid to our third party managers.

Our vessel expenses will increase with the enlargement of our fleet. Other factors beyond our control, some of which may affect the shipping industry in general, may also cause these expenses to increase, including, for instance, developments relating to market prices for crew, insurance and petroleum-based lubricants and supplies.

Depreciation and Amortization

For the three-month periods ended June 30, 2010 and 2009, total depreciation and amortization expense were \$15,537,068 and \$10,943,247, respectively. Total depreciation and amortization expense for the three-month period ended June 30, 2010 includes \$14,767,400 of vessel depreciation and other assets amortization, and \$769,667 relating to the amortization of deferred drydocking costs. Comparable amounts for the three-month period ended June 30, 2009 were \$10,325,002 of vessel depreciation and \$618,245 of amortization of deferred drydocking costs. The increase in depreciation expense is attributable to a larger fleet size in operation during the three-month period in 2010 compared to 2009.

For the six-month periods ended June 30, 2010 and 2009, total depreciation and amortization expense were \$29,243,437 and \$21,234,163, respectively. Total depreciation and amortization expense for the six-month period ended June 30, 2010 includes \$27,806,738 of vessel depreciation and other assets amortization, and \$1,436,699 relating to the amortization of deferred drydocking costs. Comparable amounts for the six-month period ended June 30, 2009 were \$20,019,912 of vessel depreciation and \$1,214,251 of amortization of deferred drydocking costs.

The cost of our vessels is depreciated on a straight-line basis over the expected useful life of each vessel. Depreciation is based on the cost of the vessel less its estimated residual value. We estimate the useful life of our vessels to be 28 years from the date of initial delivery from the shipyard to the original owner. Furthermore, we estimate the residual values of our vessels to be \$150 per lightweight ton, which we believe is common in the dry bulk shipping industry. Our depreciation charges will increase as our fleet is enlarged. Drydocking relates to our regularly scheduled maintenance program necessary to preserve the quality of our vessels as well as to comply with international shipping standards and environmental laws and regulations. The Company anticipates that vessels are to be drydocked every two and a half years and, accordingly, these expenses are deferred and amortized over that period.

Amortization of deferred financing costs which relate to debt increased to purchase the vessels on the water is included in interest expense. These financing costs relate to costs associated with our revolving credit facility and these are amortized over the life of the facility. For the three-month periods ended June 30, 2010 and 2009, the amortization of deferred financing costs allocated to the vessels on the water was \$748,026 and \$269,457, respectively. For the six-month periods ended June 30, 2010 and 2009, the amortization of deferred financing costs allocated to the vessels on the water was \$1,332,743 and \$509,514, respectively.
