TORM revises the forecast for the result before tax for 2011

Since the quarterly release in August 2011 the global economic uncertainty and pressure on freight rates have persisted. In particular, the product tanker freight rates in the second half of 2011 have been lower than expected. Therefore, TORM revises its forecast for the full year of 2011 from an expected loss before tax of USD 100-175 million to an expected loss before tax of USD 175-195 million.

"Especially the freight rates for the larger vessel segments, LR1 and LR2, have been below expectations in the second half of 2011. It has been a challenging market for a prolonged period, but TORM remains confident that in the longer term the product tanker segment will benefit from improved market fundamentals," CEO Jacob Meldgaard says.

As planned, TORM will release its interim financial statement for the first nine months of 2011 on 17 November 2011.

Safe Harbor statements as to the future

Matters discussed in this release may constitute forward-looking statements. Forward-looking statements reflect our current views with respect to future events and financial performance and may include statements concerning plans, objectives, goals, strategies, future events or

performance, and underlying assumptions and statements other than statements of historical facts. The forward-looking statements in this release are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in our records and other data available from third parties. Although TORM believes that these assumptions were reasonable when made, because these assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond our control, TORM cannot guarantee that it will achieve or accomplish these expectations, beliefs or projections.

Important factors that, in our view, could cause actual results to differ materially from those discussed in the forward- looking statements include the strength of the world economy and currencies, changes in charter hire rates and vessel values, changes in demand for "tonne miles" of oil carried by oil tankers, the effect of changes in OPEC's petroleum production levels and worldwide oil consumption and storage, changes in demand that may affect attitudes of time charterers to scheduled and unscheduled dry-docking, changes in TORM's operating expenses, including bunker prices, dry-docking and insurance costs, changes in the regulation of shipping operations, including requirements for double hull tankers or actions taken by regulatory authorities, potential liability from pending or future litigation, domestic and international political conditions, potential disruption of shipping routes due to accidents and political events or acts by terrorists.

Risks and uncertainties are further described in reports filed by TORM with the US Securities and Exchange Commission, including the TORM Annual Report on Form 20-F and its reports on Form 6-K.

Forward-looking statements are based on management's current evaluation, and TORM is only under an obligation to update and change the listed expectations to the extent required by law.

Hellerup, 31 October 2011

Extraordinary General Meeting in TORM A/S – 22 November 2011

TORM has over the last few years worked on its funding situation as a consequence of the challenging market conditions that have prevailed since 2009. TORM remains confident that in the longer term the product tanker segment will benefit from improved market fundamentals. In 2011 the freight rates, especially in the product tanker segment, have been under massive pressure – a trend that has accelerated in the second half of 2011. TORM therefore wants to strengthen its liquidity position through a rights issue. In addition, TORM is planning further liquidity improving initiatives.

Improvement of the funding situation

As announced at the Annual General Meeting in April 2011, the Board of Directors wants to improve TORM's balance sheet through the issuance of new shares with pre-emptive subscription rights for the existing shareholders. The rights issue is conducted in order to raise net cash proceeds of approximately USD 100 million. As announced in stock exchange release no. 12 of 28 June 2011, it is the intention to complete the rights issue before mid December 2011. The Board of Directors is therefore now convening an Extraordinary General Meeting in order for the shareholders to endorse the necessary decisions to complete the rights issue.

Reduction of the nominal value per TORM share

A reduction of the nominal value per share from DKK 5 to DKK 1 is required due to the current share price level and due to the rules of the Danish Companies Act regarding the issuance of new shares at a discount with pre-emptive subscription rights for the existing shareholders.

Subsequently, the nominal share capital will be increased through the issuance of new shares. The proposals and timeline for the rights issue will be explained in further details at the Extraordinary General Meeting.

Liquidity improving initiatives

TORM wants to complement the planned rights issue with a further strengthening of the Company's liquidity position and balance sheet. TORM has during the last six months worked on a broad range of initiatives to improve the liquidity position and the work is on-going. TORM will therefore present further liquidity improving initiatives, including financing agreements and efficiency improvements etc., no later than the Extraordinary General Meeting of 22 November 2011.

COMPLETE PROPOSALS

1. Proposals from the Board of Directors – Unconditional decrease of share capital and authorisation of the Board of Directors to carry out a subsequent increase of share capital

- a. Decision to decrease the share capital of the Company by nominally DKK 291,200,000 through a reduction of the nominal value per share (denomination) from DKK 5 to DKK 1 by transfer to a special reserve fund.

The Board of Directors proposes that the share capital of the Company is decreased by nominally DKK 291,200,000 from nominally DKK 364,000,000 to nominally DKK 72,800,000 by decreasing the nominal amount per share (denomination) from DKK 5 to DKK 1 by transfer to a special reserve fund in accordance with the Section 188(1)(3) of the Danish Companies Act. The transfer to the special reserve fund shall amount to DKK 291,200,000 and the capital decrease hence occurs by rate 100, i.e. equaling the nominal decreased amount. Subsequent to the decrease, the share capital of the Company will amount to nominally DKK 72,800,000 and the nominal value of each share will be DKK 1.

Adoption of the proposal implies that Article 2.1 of the Articles of Association is amended to "The Company's share capital is DKK 72,800,000.00 divided into shares of DKK 1.00 each or any multiple thereof" and that Article 8.3 of the Articles of Association is amended to "Each share of DKK 1.00 carries one vote".

- b. Decision to authorise the Board of Directors until 31 March 2012 to, by a unanimous resolution, increase the share capital of the Company by a nominal amount of no more than nominally DKK 650,000,000 by issuance of new shares against payment in cash with pre-emptive subscription rights for the existing shareholders of the Company. It is an integral part of the authorisation that the proceeds in connection with such a rights issue shall not exceed a DKK amount corresponding to USD 110,000,000.

The Board of Directors proposes that the following authorisation is inserted as Article 2.7 in the Articles of Association of the Company:

"The Board of Directors is authorised in the period until 31 March 2012, in one stage, with proportionate pre-emption rights for the existing shareholders, to resolve by unanimous resolution to increase the Company's share capital by up to a total nominal amount of DKK 650,000,000. It is an integral part of the authorisation that the proceeds in connection with such a rights issue shall not exceed a DKK amount corresponding to USD 110,000,000.

New shares issued pursuant to this authorisation shall be subscribed for in cash, shall be negotiable instruments, shall be issued to bearer, but shall be eligible for registration in the name of the holder in the Company's register of shareholders. The transferability of the new shares shall not be subject to any restrictions, the new shareholders shall not be under an obligation to have their shares redeemed and the new shares are in all other respects to carry the same rights and privileges as the existing shares in the Company. The Board of Directors will by a unanimous resolution determine whether the new shares may be subscribed for at a rate discounted to the market price and any other terms and conditions"

2. Other proposals from the Board of Directors

a. Authorisation of the Board of Directors to apply for registration of the decisions made on the general meeting

The Board of Directors proposes that the Board of Directors be authorised to apply for registration of the resolutions adopted by the general meeting and to make any such amendments thereto as may be required or requested by the Danish Commerce and Companies Agency, the Danish Financial Supervisory Authority, NASDAQ OMX Copenhagen A/S or any other public authority as a condition for registration or approval.
