FOR IMMEDIATE RELEASE

FRANCE TELECOM AFFILIATE IKATEL MALI DEPLOYING

ALVARION'S WIMAX SOLUTION

GSM Operator To Provide Fixed Broadband Services To Corporate and Residential
Subscribers Using BreezeMAX(TM)

MountainView, Calif., November 28, 2005 - Alvarion Ltd., (NASDAQ: ALVR), the
world's leading provider of wireless broadband solutions and specialized mobile
networks, today announced that Ikatel, an affiliate of France Telecom offering
broadband data services in the West African country of Mali, will install
Alvarion's BreezeMAX(TM) 3500 system, including hundreds of CPEs based on the
Intel WiMAX chip to deploy a WiMAX network in the capital city of Bamako.
Ikatel, a leading GSM and Internet operator in Mali, expects to deploy the

Edgar Filing: ALVARION LTD - Form 6-K

network by year-end.

"We are excited to bring advanced WiMAX technology to the corporate and residential market using Alvarion's BreezeMAX," said Amadou Deme, chief technical officer of Ikatel Mali. "They are hungry for broadband services, and BreezeMAX definitely fits our requirements for quick installation and overall costs. In addition to providing us the best possible technological solution, Alvarion had a true understanding of our special network needs, business environment and gave us the right level of support all along the way. We are firm in our commitment to bring affordable Internet services to Mali's population and are confident that WiMAX will enable us to succeed."

BreezeMAX(TM) is Alvarion's award winning, WiMAX platform that has been designed from the ground up according to the IEEE 802.16-2004 standards using OFDM technology for advanced non-line-of-sight (NLOS) functionality. Its carrier-class design supports broadband speeds and quality of service (QoS) to enable carriers to offer triple play broadband services to thousands of subscribers from a single base station. Since its launch in mid-2004, BreezeMAX has been successfully deployed in over 130 installations in more than 30 countries around the world. Already an integral part of WiMAX networks in Europe and Latin America, this is the first deployment in Africa of the BreezeMAX PRO CPE with the Intel PRO/Wireless 5116 WiMAX chip.

"WiMAX, and specifically BreezeMAX, are key enablers of the availability of advanced broadband services worldwide, including Africa," said Tzvika Friedman, CEO and President of Alvarion. "Using our BreezeMAX PRO CPE with the Intel WiMAX chip inside, the Ikatel network and others like it show the strong and immediate acceptance of Intel based subscriber units, and these networks are creating a new benchmark of capabilities in the market. Ikatel is a

4

dynamic operator who will be deploying a feature rich, wireless solution with the highest quality of service, while benefiting from the improved economics of WiMAX."

About Ikatel [GRAPHIC OMITTED][GRAPHIC OMITTED]

Subsidiary of Sonatel, member of France Telecom Group, Ikatel SA is a global Telecom Operator in Mali since February 2003. Within two and a half years of commercial deployment, Ikatel became the leader of the GSM Mobile network in Mali, with more than 550,000 subscribers and the most valuable provider of comprehensive solutions of telecommunications for corporate customers. Ikatel is the pioneer in the market for technological innovations. Ikatel is strongly committed to democratize the telecommunications market in Mali to bring about affordable usage of Internet services based on WiMAX technology. About Alvarion

With more than 2 million units deployed in 130 countries, Alvarion is the worldwide leader in wireless broadband providing systems to carriers, ISPs and private network operators, and also in extending coverage of GSM and CDMA mobile networks to developing countries and other hard to serve areas.

Leading the WiMAX revolution, Alvarion has the most extensive deployments and proven product portfolio in the industry covering the full range of frequency bands with both fixed and mobile solutions. Alvarion's products enable the delivery of business and residential broadband access, corporate VPNs, toll quality telephony, mobile base station feeding, hotspot coverage extension, community interconnection, public safety communications, and mobile voice and

data. Alvarion works with several global OEM providers and more than 200 local partners to support its diverse global customer base in solving their last-mile challenges.

As a wireless broadband pioneer, Alvarion has been driving and delivering innovations for more than ten years from core technology developments to creating and promoting industry standards. Leveraging its key roles in the IEEE and HiperMAN standards committees and experience deploying OFDM-based systems, the Company's prominent work in the WiMAX Forum is focused on increasing widespread adoption of standards-based products in the wireless broadband market and leading the entire industry to mobile WiMAX solutions.
