## Edgar Filing: AMCON DISTRIBUTING CO - Form 8-K

### RELATED AUDIT REPORT OR COMPLETED INTERIM REVIEW

On January 16, 2006, the Company issued a press release disclosing management's investigation into potential accounting irregularities that were discovered in the inventory accounting records of Hawaiian Natural Water Co., Inc. ("HNWC"), a wholly owned AMCON subsidiary. This investigation revealed that there were errors made in inventory accounting, as well as, incorrect capitalization of certain product development costs, which all related to fiscal 2005.

As a result of the accounting errors, management and the Company's Audit Committee determined on May 24, 2006 that the Company's first, second and third quarter financial statements of fiscal 2005 filed on Form 10-Qs with the Securities and Exchange Commission on February 14, 2006, May 27, 2006 and August 22, 2006, respectively, should no longer be relied upon because of these errors and that these financial statements should be restated to correct these errors. Management and the Audit Committee have discussed the above with the Company's independent registered public accountants, Deloitte and Touche.

After identifying the source of the errors, management of the Company took several steps to significantly strengthen our internal control over financial reporting including terminating HNWC's then current president and chief financial officer, hiring a new acting president and a highly qualified accounting consultant to investigate and guide internal accounting personnel in the application of generally accepted accounting principles related to inventory and production costs, hiring accounting staff at HNWC with more experience and implementing procedures to ensure proper review and approval of all manual journal entries posted at HNWC.

The table set forth below gives effect to these restatements. Management expects to restate the quarterly financials prospectively as each quarter is filed in fiscal 2006.

A summary of the significant effects of this restatement by quarter is as follows:

#### FIRST FISCAL QUARTER ENDED DECEMBER 31, 2004

	As previously reported	Corrections	As restated

/1/ Before this restatement, the impact of the conversion of the stock options and preferred stock was dilutive to earnings per share because there was income from continuing operations. After making corrections for the restatement, there will now be a loss from continuing operations which makes the impact of the conversion of the stock options and preferred stock was antidilutive. This antidilutive impact results in a loss of (\$1.02) per dilutive share.
