[☐] At March 31, 2006, the Tri-Continental Financial Division comprised two investments that were purchased through private offerings and cannot be sold without prior registration under the Securities Act of 1933 or pursuant to an exemption therefrom. These investments are valued at fair value as determined in accordance with procedures approved by the Board of Directors of the Corporation. The acquisition dates of investments in the limited partnerships, along with their cost and values at March 31, 2006, were as follows:

Investment	Acquisition Date(s)	Cost	Value
	12/11/90 to		
WCAS Capital Partners II, L.P. Whitney Subordinated Debt Fund,	3/24/98 7/12/89 to	\$4,301,124	\$1,784,623
L.P.	11/10/98	1,507,882	410,272
Total		\$5,809,006	\$2,194,895

(1) All or part of the security is held as collateral for options written. As of March 31, 2006, the value of securities held as collateral was \$40,825,836.

ADR - American Depositary Receipt.

Security Valuation - Securities traded on an exchange are valued at the last sales price on the primary exchange or market on which they are traded. Securities not listed on an exchange or security market, or securities for which there is no last sales price, are valued at the mean of the most recent bid and asked prices or are valued by J. & W. Seligman & Co. Incorporated (the [Manager]) based on quotations provided by primary market makers in such securities. Securities for which market quotations are not readily available (or are otherwise no longer valid or reliable) are valued at fair value determined in accordance with procedures approved by the Board of Directors. This can occur in the event of, among other things, natural disasters, acts of terrorism, market disruptions, intra-day trading halts, and extreme market volatility. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value or the price that may be realized upon the actual sale of the security. Short-term holdings that mature in more than 60 days are valued at current market quotations. Short-term holdings maturing in 60 days or less are valued at amortized cost.

^{*} Non-income producing security.

^{**} The cost of investments for federal income tax purposes was \$2,427,294,063. The tax basis gross unrealized appreciation and depreciation of portfolio securities were \$226,965,410 and \$(151,352,176), respectively.
