### A Letter to Shareholders

#### **Dear Shareholder**

The present time may well be remembered as one of the most tumultuous periods in financial market history. Over the past year, the housing market collapse and the ensuing credit crisis swelled into an all-out global financial market meltdown, featuring the collapse of storied financial firms, volatile swings in the world s financial markets and monumental government actions, including the recent passage of the nearly \$800 billion American Recovery and Reinvestment Act of 2009.

The US economy appeared somewhat resilient through the first few months of 2008 before becoming mired in the worst recession in decades. The economic data was dire across the board, but worse was the intensifying pace of deterioration in consumer spending, employment, manufacturing and other key indicators. US gross domestic product (GDP) contracted at an annual rate of 6.3% in the 2008 fourth quarter substantially below forecast and the worst reading since 1982. The Federal Reserve Board (the Fed ) took forceful action to revive the global economy and financial system. In addition to slashing the federal funds target rate from 3% to a record low range of 0% to 0.25%, the central bank provided enormous cash injections and significantly expanded its balance sheet via various lending and acquisition programs.

Against this backdrop, US equities contended with relentless market volatility, and the sentiment turned decisively negative toward period end. Declines were significant and broad based, with little divergence among the returns for large and small cap stocks. Non-US stocks were not spared either, as the credit crisis revealed itself to be global in nature and economic activity slowed dramatically.

Risk aversion remained the dominant theme in fixed income markets, leading the Treasury sector to top all other asset classes. The high yield market was particularly hard hit in this environment, as economic turmoil, combined with frozen credit markets and substantial technical pressures, took a heavy toll. Meanwhile, tax-exempt issues posted positive returns for the period, but the sector was not without significant challenges, including a shortage of market participants, lack of liquidity, difficult funding environment and backlog of new-issue supply.

In all, investors continued to gravitate toward relative safety, as evidenced in the six- and 12-month returns of the major benchmark indexes:

Total Returns as of February 28, 2009	6-month	12-month
US equities (S&P 500 Index)	(41.82)%	(43.32)%
Small cap US equities (Russell 2000 Index)	(46.91)	(42.38)
International equities (MSCI Europe, Australasia, Far East Index)	(44.58)	(50.22)
US Treasury securities (Merrill Lynch 10-Year US Treasury Index)	8.52	8.09
Taxable fixed income (Barclays Capital US Aggregate Bond Index*)	1.88	2.06
Tax-exempt fixed income (Barclays Capital Municipal Bond Index*)	0.05	5.18
High yield bonds (Barclays Capital US Corporate High Yield 2% Issuer Capped Index*)	(21.50)	(20.92)

<sup>\*</sup> Formerly a Lehman Brothers index.

**BlackRock Core Bond Trust** 

#### **Investment Objective**

BlackRock Core Bond Trust (BHK) (the Trust ) seeks to provide high current income with the potential for capital appreciation.

#### **Performance**

For the six months ended February 28, 2009, the Trust returned (3.92)% based on market price and (13.99)% based on net asset value ( NAV ). For the same period, the closed-end Lipper Corporate Debt Funds BBB-Rated category posted an average return of (7.99)% on a market price basis and (13.71)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust moved from a discount to a premium to NAV, which accounts for the difference between performance based on price and performance based on NAV. The Trust s 43% allocation to mortgage-backed securities ( MBS ) as of February 28, 2009 helped performance, as MBS outperformed corporate bonds during the period. In addition, at 16% leverage as of February 28, 2009, the Trust used less leverage than many of its Lipper peers, which aided results in a difficult market. Meanwhile, the Trust s allocations to commercial mortgage-backed securities, high yield and preferred securities underperformed.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

4 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

#### BlackRock Corporate High Yield Fund V, Inc.

#### **Investment Objective**

BlackRock Corporate High Yield Fund V, Inc. (HYV) (the Trust ) seeks to provide shareholders with current income by investing primarily in a diversified portfolio of fixed income securities that are rated in the lower rating categories of the established rating services (Ba or lower by Moody s or BB or lower by S&P) or are unrated securities of comparable quality.

#### **Performance**

For the six months ended February 28, 2009, the Trust returned (32.48)% based on market price and (36.32)% based on NAV. For the same period, the closed-end Lipper High Current Yield Funds (Leveraged) category posted an average return of (34.08)% on a market price basis and (34.87)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The period from September 15, 2008 to December 12, 2008 was the worst in high yield market history. In this environment, the Trust was positioned conservatively, with an emphasis on defensive sectors, an allocation to bank loans and higher-than-normal cash balances. For most of the period, the Trust also had lower leverage than the majority of its Lipper peers. This aided relative performance during the first half of the period, but was a detractor amid the significant market recovery in the second half.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

9

BlackRock Income Trust, Inc.

#### **Investment Objective**

BlackRock Income Trust, Inc. (BKT) (the Trust ) seeks to provide high monthly income while preserving capital by investing in a portfolio of mortgage-backed securities.

#### **Performance**

For the six months ended February 28, 2009, the Trust returned 0.00% based on market price and (1.75)% based on NAV. For the same period, the closed-end Lipper US Mortgage Funds category posted an average return of (13.29)% on a market price basis and (12.14)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. During the six-month period, the Trust s large allocations to US government agency mortgage-backed securities (MBS) helped performance, while small allocations to non-agency MBS and other structured securities detracted from results. The Trust used less leverage than its Lipper peers, which aided relative performance.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

10 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

**BlackRock Strategic Bond Trust** 

#### **Investment Objective**

BlackRock Strategic Bond Trust (BHD) (the Trust ) seeks total return through high current income and capital appreciation.

#### **Performance**

For the six months ended February 28, 2009, the Trust returned (10.42)% based on market price and (18.21)% based on NAV. For the same period, the closed-end Lipper General Bond Funds category posted an average return of (11.70)% on a market price basis and (13.41)% on a NAV basis. All returns reflect reinvestment of dividends. The Trust s discount to NAV, which narrowed during the period, accounts for the difference between performance based on price and performance based on NAV. The Trust s 56% allocation to high yield as of February 28, 2009 hurt relative performance, as the Trust sits in a general bond fund category and high yield underperformed investment-grade bonds. Allocations to preferred issues, convertible securities and bank loans also detracted from performance during the six months.

The views expressed reflect the opinions of BlackRock as of the date of this report and are subject to change based on changes in market, economic or other conditions. These views are not intended to be a forecast of future events and are no guarantee of future results.

#### **Trust Information**

Symbol on New York Stock Exchange	BHD
	February 26,
Initial Offering Date	2002
Yield on Closing Market Price as of February 28, 2009 (\$9.23)1	10.01%
Current Monthly Distribution per Share <sup>2</sup>	\$0.077
Current Annualized Distribution per Share <sup>2</sup>	\$0.924

- Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price. Past performance does not guarantee future results.
- A change in the distribution rate was declared on March 2, 2009. The Monthly Distribution per Share was decreased to \$0.0695. The Yield on Closing Market Price, Current Monthly Distribution per Share and Current Annualized Distribution per Share do not reflect the new distribution rate. The new distribution rate is not constant and is subject to further change in the future. A portion of the distribution may be deemed a tax return of capital or net realized gain.

The table below summarizes the changes in the Trust s market price and NAV per share:

	2/28/09	8/31/08	Change	High	Low

### The Benefits and Risks of Leveraging

The Trusts may utilize leverage to seek to enhance the yield and NAV of their Common Shares. However, these objectives cannot be achieved in all interest rate environments.

The Trusts may utilize leverage through borrowings and the issuance of short-term securities. In general, the concept of leveraging is based on the premise that the cost of assets to be obtained from leverage will be based on short-term interest rates, which normally will be lower than the income earned by each Trust on its longer-term portfolio investments. To the extent that the total assets of each Trust (including the assets obtained from leverage) are invested in higher-yielding portfolio investments, each Trust s Common Shareholders will benefit from the incremental yield.

The interest earned on securities purchased with the proceeds from leverage is paid to Common Shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share NAV of each Trust s Common Shares. However, in order to benefit Common Shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. If the yield curve becomes negatively sloped, meaning short-term interest rates exceed long-term interest rates, returns to Common Shareholders will be lower than if the Trusts had not used leverage.

To illustrate these concepts, assume a Trust s Common Shares capitalization is \$100 million and it issues debt securities for an additional \$30 million, creating a total value of \$130 million available for investment in long-term securities. If prevailing short-term interest rates are 3% and long-term interest rates are 6%, the yield curve has a strongly positive slope. In this case, the Trust pays interest expense on the \$30 million of debt securities based on the lower short-term interest rates. At the same time, the Trust s total portfolio of \$130 million earns the income based on long-term interest rates. In this case, the interest expense of the debt securities is significantly lower than the income earned on the Trust s long-term investments, and therefore the Common Shareholders are the beneficiaries of the incremental yield.

Conversely, if prevailing short-term interest rates rise above long-term interest rates of 6%, the yield curve has a negative slope. In this case, the Trust pays interest expense on the higher short-term interest rates whereas the Trust s total portfolio earns income based on lower long-term interest rates. If short-term interest rates rise, narrowing the differential between short-term and long-term interest rates, the incremental yield pickup on the Common Shares will be reduced or eliminated completely.

Furthermore, the value of the Trust s portfolio investments generally varies inversely with the direction of long-term interest rates, although other factors can influence the value of portfolio investments. In contrast, the redemption value of the Trust s debt securities do not fluctuate in relation to interest rates. As a result, changes in interest rates can influence the Trust s NAV positively or negatively in addition to the impact on Trust performance from leverage from debt securities.

The use of leverage may enhance opportunities for increased returns to the Trusts and Common Shareholders, but as described above, it also creates risks as short- or long-term interest rates fluctuate. Leverage also will generally cause greater changes to each Trust s NAV, market price and dividend rate than a comparable portfolio without leverage. If the income derived from securities purchased with assets received from leverage exceeds the cost of leverage, each Trust s net income will be greater than if leverage had not been used. Conversely, if the income from the securities purchased is not sufficient to cover the cost of leverage, each Trust s net income will be less than if leverage had not been used, and therefore the amount available for distribution to shareholders will be reduced. A Trust may be required to sell portfolio securities at inopportune times or below fair market values in order to comply with regulatory requirements applicable to the use of leverage or as required by the terms of leverage instruments which may cause a Trust to incur losses. The use of leverage may limit a Trust s ability to invest in certain types of securities or use certain types of hedging strategies, such as in the case of certain restrictions imposed by ratings agencies that rate preferred shares issued by a Trust. A Trust will incur expenses in connection with the use of leverage, all of which are borne by the holders of the Common Shares and may reduce returns on the Common Shares.

Under the Investment Company Act of 1940, the Trusts are permitted to borrow through a credit facility and the issuance of short-term debt securities up to 33<sup>1/3</sup>% of total managed assets. As of February 28, 2009, the Trusts had outstanding leverage from reverse repurchase agreements and credit facility borrowings as a percentage of their total managed assets as follows:

Percent of Leverage

BlackRock Core Bond Trust	16%
BlackRock Corporate High Yield Fund V, Inc.	18%
BlackRock Corporate High Yield Fund VI, Inc.	19%
BlackRock High Income Shares	20%
BlackRock High Yield Trust	13%
BlackRock Income Opportunity Trust	12%

#### **Derivative Instruments**

The Trusts may invest in various derivative instruments, including swap agreements, futures and forward currency contracts, and other instruments specified in the Notes to Financials Statements, which constitute forms of economic leverage. Such instruments are used to obtain exposure to a market without owning or taking physical custody of securities or to hedge market and/or interest rate risks. Such derivative instruments involve risks, including the imperfect correlation between the value of a derivative instrument and the underlying asset, possible default of the other party to the transaction and illiquidity of the derivative instrument. A Trust s ability to successfully use a derivative instrument depends on the investment advisor s ability to accurately predict pertinent market movements, which cannot be assured. The use of derivative instruments may result in losses greater than if they had not been used, may require the Trusts to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Trusts can realize on an investment or may cause the Trusts to hold a security that they might otherwise sell. The Trusts investments in these instruments are discussed in detail in the Notes to Financial Statements.

> Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active. inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs		Investments in Securities			Other Financial Instruments*			
		Assets		Liabilities		Assets		Liabilities
Level 1					\$	179,374	\$	(4,238,323)
Level 2	\$	351,987,103	\$	(87,867,235)		24,549,756		(21,324,398)
Level 3		6,448,630		,				,
Total	\$	358,435,733	\$	(87,867,235)	\$	24,729,130	\$	(25,562,721)

<sup>\*</sup> Other financial instruments are futures, swaps, foreign currency exchange contracts and options. Futures, swaps and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and options are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) were used in determining fair value:

Investments	ın
Securities	

#### Assets

Balance as of August 31, 2008	\$ 637
Accrued discounts/premiums	332
Realized gain	37
Change in unrealized appreciation/depreciation <sup>1</sup>	(4,796,976)
Net sales	(209,962)
Net transfers in Level 3	11,454,562
Balance as of February 28, 2009	\$ 6,448,630

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

Net unrealized depreciation	\$ (169.217.660)

- (a) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (b) Convertible security.
- (c) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (d) Variable rate security. Rate is as of report date.
- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Non-income producing security.
- (g) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (h) Security is perpetual in nature and has no stated maturity date.
- (i) Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (j) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (k) Represents the current yield as of report date.
- (I) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate		Net Activity	Income
BlackRock Liquidity Series, LLC Cash Sweep Series	USD	4.710.831	\$ 23.928

For Trust compliance purposes, the Trust sindustry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

Credit default swaps on single name issues buy protection outstanding as of February 28, 2009 were as follows:

26 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

<sup>&</sup>lt;sup>2</sup> The maximum potential amount the Trust may pay should a negative credit event take place as defined under the terms of the agreement.

#### BlackRock Corporate High Yield Fund V, Inc. (HYV)

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities		Other Financial Instruments*			-	
		Assets		Assets		Liabilities	
Level 1	\$	2,221,346					
Level 2		246,764,700	\$	426,565	\$	(5,228,289)	
Level 3		25,409,578					
Total	\$	274,395,624	\$	426,565	\$	(5,228,289)	

<sup>\*</sup> Other financial instruments are swaps and foreign currency exchange contracts. Swaps and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument.

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

	 vestments in Securities
	Assets
Balance as of August 31, 2008	\$ 6,058,493
Accrued discounts/premiums	283,875
Realized gain	580
Change in unrealized appreciation/depreciation <sup>1</sup>	(31,824,940)
Net sales	167,322
Net transfers in Level 3	50,724,248
Balance as of February 28, 2009	\$ 25,409,578

1 Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

<sup>\*</sup> The cost and unrealized appreciation (depreciation) of investments as of February 28, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 479,445,881
Gross unrealized appreciation Gross unrealized depreciation	\$ 973,704 (181,629,710)
Net unrealized depreciation	\$ (180,656,006)

#### (a) Convertible security.

\$ 243,220,663

- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (d) Variable rate security. Rate shown is as of report date.

See Notes to Financial Statements.

SEMI-ANNUAL REPORT FEBRUARY 28, 2009 31

79

#### Schedule of Investments (concluded)

#### BlackRock Corporate High Yield Fund VI, Inc. (HYT)

- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (g) Non-income producing security.
- (h) Security is perpetual in nature and has no stated maturity date.
- (i) Warrants entitle the Fund to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (j) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (k) Represents the current yield as of report date.
- (I) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Series, LLC Cash Sweep Series	USD (2,872,011)	\$26,103

For Trust compliance purposes, the Trust s industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

Credit default swaps on single name issues - buy protection outstanding as of February 28, 2009 were as follows:

Issuer	Pay Fixed Rate	Counterparty	Expiration	Notional Amount (000)	 realized reciation
Masco Corp.	5.85%	Goldman Sachs Bank USA	March 2014	USD 1,300	\$ 10,676
Mohawk Industries, Inc.	4.70%	Goldman Sachs Bank USA	March 2014	USD 1,300	1,534
Total					\$ 12,210

Credit default swaps on single name issues - sold protection outstanding as of February 28, 2009 were as follows:

Issuer <sup>1</sup>	Receive Fixed Rate	Counterparty	Expiration	Notional Amount (000) <sup>2</sup>	Unrealized Depreciation
Ford Motor Co.	3.80%	UBS AG	March 2010	USD 1,590	\$ (1,114,234)

Ford Motor Co. 5.00% Goldman Sachs

Bank USA June 2010 USD 6,330 (4,481,406)

Total \$ (5,595,640)

Credit rating is C, using Standard and Poor s ratings.

Foreign currency exchange contracts as of February 28, 2009 were as follows:

	urrency irchased	•	Currency Sold	Counterparty	Settlement Date	Unrealized Appreciation

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities		Financial iments*
	Assets	Assets	Liabilities
Level 1	\$ 2,407,273		

<sup>2</sup> The maximum potential amount the Trust may pay should a negative credit event take place as defined under the terms of the agreement.

Level 2	269,222,856	\$ 458,189	\$ (5,595,640)
Level 3	27,159,746		
Total	\$ 298,789,875	\$ 458,189	\$ (5,595,640)

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

#### Investments in Securities

# Assets

Balance as of August 31, 2008	\$ 2,999,871
Accrued discounts/premiums	267,853
Realized gain	655
Change in unrealized appreciation/depreciation <sup>1</sup>	(33,799,877)
Net sales	156,563
Net transfers in Level 3	57,534,681
Balance as of February 28, 2009	\$ 27.159.746

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

32 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

<sup>\*</sup> Other financial instruments are swaps and foreign currency exchange contracts. Swaps and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument.

Net Assets 100.0%	9	73,974,518

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$	140,705,739
	•	004 550
Gross unrealized appreciation Gross unrealized depreciation	\$	361,553 (51,275,490)
		,
Net unrealized depreciation	\$	(50,913,937)

- (a) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (b) Convertible security.
- (c) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (d) Variable rate security. Rate shown is as of report date.
- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (g) Non-income producing security.
- (h) Security is perpetual in nature and has no stated maturity date.
- (i) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (j) Represents the current yield as of report date.
- (k) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	ľ	let Activity	Ir	ncome
	1100	E 004 E00	•	4 500
BlackBock Liquidity Funds, TempFund	USD	5.081.539	- 85	1.539

For Trust compliance purposes, the Trust sindustry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

Foreign currency exchange contracts as of February 28, 2009 were as follows:

Currency	Currency		Settlement	Unrealized
Purchased	Sold	Counterparty	Date	Appreciation

USD	2,102,221	EUR	1,603,500	Deutsche Bank AG	3/18/09	\$ 69,712
USD	154,566	EUR	120,000	UBS AG	3/18/09	2,460
Total						\$ 72.172

**Currency Abbreviations:** 

EUR Euro

Balance as of August 31, 2008

USD US Dollar

The Trust has adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	nvestments in Securities	F	Other inancial truments*
	Assets		Assets
Level 1	\$ 5,090,539		
Level 2	76,848,464	\$	72,172
Level 3	7,852,799		
Total	\$ 89,791,802	\$	72,172

<sup>\*</sup> Other financial instruments are foreign currency exchange contracts. Foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument.

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

I	nvestments in Securities
	Assets
\$	606,725

94

Accrued discounts/premiums	5,046
Realized gain	1,142
Change in unrealized appreciation/depreciation <sup>1</sup>	(8,649,120)
Net purchases	84,095
Net transfers in Level 3	15,804,911
Balance as of February 28, 2009	\$ 7 852 799

See Notes to Financial Statements.

36 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

Included in the related net change in unrealized appreciation/depreciation on the Statement of Operations.

\* The cost and unrealized appreciation (depreciation) of investments as of February 28, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 51,523,474
Gross unrealized appreciation	\$ 52,389
Gross unrealized depreciation	(20,238,978)
Net unrealized depreciation	\$ (20,186,589)

- (a) Convertible security.
- (b) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (c) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (d) Variable rate security. Rate shown is as of report date.
- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Non-income producing security.
- (g) Represents a step-up bond that pays an initial coupon rate for the first period and then a higher coupon rate for the following periods. Rate shown reflects the current yield as of report date.
- (h) Security is perpetual in nature and has no stated maturity date.
- Warrants entitle the Trust to purchase a predetermined number of shares of common stock and are non-income producing. The purchase price and number of shares are subject to adjustment under certain conditions until the expiration date.
- (j) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (k) Represents the current yield as of report date.
- (I) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	Net Activity	Income
BlackRock Liquidity Funds, TempFund	2,491,381	\$ 1,381

For Trust compliance purposes, the Trust sindustry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classification for reporting ease.

See Notes to Financial Statements.

40 SEMI-ANNUAL REPORT FEBRUARY 28, 2009

#### Schedule of Investments (concluded)

BlackRock High Yield Trust (BHY)

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities		Other Financial Instruments*	
	Assets		Assets	
Level 1	\$ 2,492,646			
Level 2	26,121,726	\$	4,845	
Level 3	2,717,668			
Total	\$ 31,332,040	\$	4,845	

<sup>\*</sup> Other financial instruments are options, which are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) used in determining fair value:

	 Investments in Securities	
	Assets	
Balance as of August 31, 2008	\$ 191,332	
Accrued discounts/premiums	17,156	
Realized gain	357	
Change in unrealized appreciation/depreciation <sup>1</sup>	(3,060,121)	
Net purchases	32,430	
Net transfers in Level 3	5,536,514	
Balance as of February 28, 2009	\$ 2,717,668	

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments in Securities			Financial ments*
	Assets	Liabilities	Assets	Liabilities
Level 1 Level 2	Ф 222 FF7 F00	Ф (10.171.70E)	\$ 196,970	\$ (4,150,920)
Level 2 Level 3	\$ 333,557,528 19,579,804	\$ (19,171,725)	27,391,191	(60,980,770)
Total	\$ 353,137,332	\$ (19,171,725)	\$ 27,588,161	\$ (65,131,690)

\* Other financial instruments are swaps, futures, foreign currency exchange contracts, reverse repurchase agreements and options. Futures, swaps and foreign currency exchange contracts are valued at the unrealized appreciation/depreciation on the instrument and reverse repurchase agreements and options are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) were used in determining fair value:

	ivestments in Securities
	Assets
Balance as of August 31, 2008	\$ 6,521,344
Accrued discounts/premiums	77
Realized gain	7
Change in unrealized appreciation/depreciation <sup>1</sup>	(5,724,174)
Net purchases	34,568
Net transfers in Level 3	18,747,982
Balance as of February 28, 2009	\$ 19,579,804

Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

- (e) All or a portion of security held as collateral in connection with swaps.
- (f) Amount is less than \$1,000.
- (g) Represents a principal only portion of a mortgage-backed security.
- (h) Investments in companies considered to be an affiliate of the Trust during the period, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	Purchase Cost	Sale Cost		Realized Loss	Interest Income
Federal Housing Administration, Merrill Projects, Series 54, 7.43%, 2/01/23	:	\$	43	\$ (2)	\$ 89
BlackRock Liquidity Funds, TempFund	77,647,966*				\$ 47,966

<sup>\*</sup> Represents net purchase cost.

- (i) Represents a zero-coupon bond. Rate shown is current yield as of report date.
- (j) Separately Traded Registered Interest and Principal Securities.
- (k) Represents the current yield as of report date.
- (I) One contract represents a notional amount of \$1,000,000.

For Trust compliance purposes, the Trust sindustry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or rating group indexes, and/or as defined by Trust management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease.

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust s own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust spolicy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes

to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investn Secu	nents rities		Other Financial Instruments*			-
	Assets		Liabilities		Assets		Liabilities
Level 1	\$ 77,647,966			\$	22,294	\$	(5,379,170)
Level 2 Level 3	609,406,067 51,748,647	\$	(32,674,642)		54,768,148		(42,530,847) (12,529,102)
Total	\$ 738,802,680	\$	(32.674.642)	\$	54,790,442	\$	(60,439,119)

<sup>\*</sup> Other financial instruments are swaps, futures, interest rate floors and options. Futures and swaps are valued at the unrealized appreciation/depreciation on the instrument and interest rate floors and options are shown at market value.

The following is a reconciliation of investments for unobservable inputs (Level 3) were used in determining fair value:

	 Investments in Securities		Other Financial Instruments*	
	Assets		Liabilities

Net Assets 100.0%	\$	69,936,983

\* The cost and unrealized appreciation (depreciation) as of February 28, 2009, as computed for federal income tax purposes, were as follows:

Aggregate cost	\$ 89,819,984
Gross unrealized appreciation	\$ 258,325
Gross unrealized depreciation	(21,389,989)
	,
Net unrealized depreciation	\$ (21,131,664)

- (a) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration to qualified institutional investors.
- (b) Represents a payment-in-kind security which may pay interest/dividends in additional par/shares.
- (c) Variable rate security. Rate shown is as of report date.
- (d) Non-income producing security
- (e) Issuer filed for bankruptcy and/or is in default of interest payments.
- (f) Convertible security.
- (g) Represents a step-down bond that pays an initial coupon rate for the first period and then a lower coupon rate for the following periods. Rate shown reflects the current yield at report date.

- (h) Security is perpetual in nature and has no stated maturity date.
- (i) Other interests represent beneficial interest in liquidation trusts and other reorganization entities and are non-income producing.
- (j) Represents the current yield as of report date.
- (k) Investments in companies considered to be an affiliate of the Trust, for purposes of Section 2(a)(3) of the Investment Company Act of 1940, were as follows:

Affiliate	N	let Activity	Income
BlackRock Liquidity Funds, TempFund	\$	13,541,578	\$ 11,578

Effective September 1, 2008, the Trust adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks, and default rates) or other market-corroborated inputs)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Trust sown assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 of the Notes to Financial Statements.

The following table summarizes the inputs used as of February 28, 2009 in determining the fair valuation of the Trust s investments:

Valuation Inputs	Investments Securities Assets	
	7.5550	1.000.0
Level 1	\$ 3,	965
Level 2	66,684,	976 \$ 9,690
Level 3	1,989,	689
Total	\$ 68,678,	630 \$ 9,690

<sup>\*</sup> Other financial instruments are options, which are shown at market value.

Balance as of August 31, 2008 Accrued discounts/premiums

The following is a reconciliation of investments for unobservable inputs (Level 3) were used in determining fair value:

 estments in ecurities
Assets
\$ 359,476
24.939

161

Realized gain	783
Change in unrealized appreciation/depreciation <sup>1</sup>	(2,212,087)
Net sales	(47,738)
Net transfers in Level 3	3,864,316
Balance as of February 28, 2009	\$ 1,989,689

<sup>&</sup>lt;sup>1</sup> Included in the related net change in unrealized appreciation/depreciation on the Statements of Operations.

See Notes to Financial Statements.

#### Notes to Financial Statements (Unaudited)

### Note 1. Organization and Significant Accounting Policies:

BlackRock Core Bond Trust ( Core Bond ), BlackRock Corporate High Yield V Fund, Inc. ( Corporate High Yield V ), BlackRock Corporate High Yield VI Fund, Inc. ( Corporate High Yield VI ), BlackRock High Income Shares ( High Income ), BlackRock High Yield Trust ( High Yield ), BlackRock Income Opportunity Trust, Inc. ( Income Opportunity ), BlackRock Income Trust, Inc. ( Income Trust ) and BlackRock Strategic Bond Trust ( Strategic Bond ) (the Trusts or individually as the Trust ) are registered as diversified, closed-end management investment companies under the Investment Company Act of 1940 (the 1940 Act ), as amended. Corporate High Yield V, Corporate High Yield VI, Income Opportunity and Income Trust are organized as Maryland corporations. Core Bond, High Yield and Strategic Bond are organized as Delaware statutory trusts. High Income is organized as a Massachusetts business trust. The Trusts financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates. Core Bond, High Income, High Yield, Income Opportunity, Income Trust and Strategic Bond recently changed their fiscal year end to August 31. The Trusts determine and make available for publication the net asset value of their Common Shares on a daily basis.

The following is a summary of significant accounting policies followed by the Trusts:

Valuation of Securities: The Trusts value their bond investments on the basis of last available bid prices or current market quotations provided by dealers or pricing services selected under the supervision of each Trust s Board of Trustees/Directors (the Board ). Floating rate loan interests are valued at the mean between the last available bid prices from one or more brokers or dealers as obtained from pricing services. In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from dealers, pricing matrixes, market transactions in comparable investments, various relationships observed in the market between investments and calculated yield measures based on valuation technology commonly employed in the market for such investments. The fair value of asset-backed and mortgage-backed securities are estimated based on models that consider the estimated cash flows of each tranche of the entity. establishes a benchmark yield and develops an estimated tranche specific spread to the benchmark yield based on the unique attributes of the tranche. Financial futures contracts traded on exchanges are valued at their last sale price. Swap agreements are valued utilizing quotes received daily by the Trusts pricing service or through brokers which are derived using daily swap curves and trades of underlying securities. TBA commitments are valued at the current market value of the underlying securities. Short-term securities with maturities less than 60 days are valued at amortized cost, which approximates fair value. Investments in open-end investment companies are valued at net asset value each business day. The Trusts value their investments in Cash Sweep Series and Money Market Series, each of the BlackRock Liquidity Series, LLC, at fair value, which is ordinarily based upon their pro-rata ownership in the net assets of the underlying fund.

Equity investments traded on a recognized securities exchange or the NASDAQ Global Market System are valued at the last reported sale price that day or the NASDAQ official closing price, if applicable. For equity investments traded on more than one exchange, the last reported sale price on the exchange where the stock is primarily traded is used. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last available bid price. If no bid price is available, the prior day s price will be used, unless it is determined that such prior day s price no longer reflects the fair value of the security.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the options market in which the options trade. An exchange-traded option for which there is no mean price is valued at the last bid (long positions) or ask (short positions) price. If no bid or ask price is available, the prior day s price will be used, unless it is determined that such prior day s price no longer reflects the fair value of the option. Over-the-counter options and swaptions are valued by an independent pricing service using a mathematical model which incorporates a number of market data factors, such as the trades and prices of the underlying securities.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment, the investment will be valued by a method approved by the Boards as reflecting fair value ( Fair Value Assets ). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor seeks to determine the price that each Trust might reasonably expect to receive from the current sale of that asset in an arm s-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the respective Board or a committee thereof.

Generally, trading in foreign securities is substantially completed each day at various times prior to the close of business on the New York Stock Exchange (NYSE). The values of such securities used in computing the net assets of each Trust are determined as of such times. Foreign currency exchange rates will be determined as of the close of business on the NYSE. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of each Trust's net assets. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities will be valued at their fair value as determined in good faith by the Board or by the investment advisor using a pricing service and/or procedures approved by the Board. Foreign currency exchange contracts and forward foreign currency exchange contracts are valued at the mean between the bid and ask prices. Interpolated values are derived when the settlement date of the contract is an interim date for which quotations are not available.

**Derivative Financial Instruments:** The Trusts may engage in various portfolio investment strategies both to increase the return of the Trusts and to hedge, or protect, their exposure to interest rate movements and movements in the

securities markets. Losses may arise if the value of the contract decreases due to an unfavorable change in the price of the underlying security, or if the counterparty does not perform under the contract.

Financial futures contracts The Trusts may purchase or sell financial futures contracts and options on financial futures contracts for investment purposes or to manage its interest rate risk. Futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Pursuant to the contract, the Trust agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as margin variation and are recognized by the Trust as unrealized gains or losses. When the contract is closed, the Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. The use of futures transactions involves the risk of an imperfect correlation in the movements in the price of futures contracts, interest rates and the underlying assets, and the possible inability of counterparties to meet the terms of their contracts.

Forward currency contracts A forward currency contract is an agreement between two parties to buy and sell a currency at a set exchange rate on a future date. The Trusts may enter into foreign currency exchange contracts as a hedge against either specific transactions or portfolio positions. Foreign currency exchange contracts, when used by the Trusts, help to manage the overall exposure to the foreign currency backing some of the investments held by the Trusts. The contract is marked-to-market daily and the change in market value is recorded by the Trusts as an unrealized gain or loss. When the contract is closed, the Trusts record a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. The use of forward foreign currency contracts involves the risk that counterparties may not meet the terms of the agreement and market risk of unanticipated movements in the value of a foreign currency relative to the US dollar.

Options The Trusts may purchase and write call and put options. A call option gives the purchaser of the option the right (but not the obligation) to buy, and obligates the seller to sell (when the option is exercised), the underlying position at the exercise price at any time or at a specified time during the option period. A put option gives the holder the right to sell and obligates the writer to buy the underlying position at the exercise price at any time or at a specified time during the option period.

When a Trust purchases (writes) an option, an amount equal to the premium paid (received) by the Trust is reflected as an asset and an equivalent liability. The amount of the asset (liability) is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Trust enters into a closing transaction), the Trust realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium received or paid). When the Trust writes a call option, such option is covered, meaning that the Trust holds the underlying security subject to being called by the option counterparty, or cash in an amount sufficient to cover the obligation. When the Trust writes a put option, such option is covered by cash in an amount sufficient to cover the obligation.

In purchasing and writing options, the Trust bears the market risk of an unfavorable change in the price of the underlying security or index. Exercise of a written option could result in the Trust purchasing a security at a price different from the current market value. The Trust may execute transactions in both listed and over-the-counter options. Transactions in certain over-the-counter options may expose the Trust to the risk of default by the counterparty to the transaction.

Swaps Each Trust may enter into swap agreements, in which the Trust and a counterparty agree to make periodic net payments on a specified notional amount. These periodic payments received or made by the Trusts are recorded in the accompanying Statements of Operations as realized gains or losses, respectively. Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation (depreciation). When the swap is terminated, the Trusts will record a realized gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Trust s basis in the contract, if any.

Swap transactions involve, to varying degrees, elements of credit and market risk in excess of the amounts recognized on the Statement of Assets and Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreements may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreements, and that there may be unfavorable changes in interest rates and/or market

values associated with these transactions.

Credit default swaps The Trusts may enter into credit default swaps for investment purposes or to manage their credit risk. Each Trust enters into credit default agreements to provide a measure of protection against the default of an issuer (as buyer of protection) and/or gain credit exposure to an issuer to which it is not otherwise exposed (as seller of protection). Credit default swaps are agreements in which one party pays fixed periodic payments to a counterparty in consideration for a guarantee from the counterparty to make a specific payment should a negative credit event take place (e.g. bankruptcy, failure to pay, obligation accelerators, repudiation, moratorium or restructuring). A Trust may either buy or sell (write) credit default swaps. As a buyer, the Trust will either receive from the seller an amount equal to the notional amount of the swap and deliver the referenced security or underlying securities comprising of an index or receive a net settlement of cash equal to the notional amount of the swap less the recovery value of the security or underlying securities comprising of an index. As a seller (writer), the Trust will either pay the buyer an amount equal to the notional amount of the swap and take delivery of the referenced security or underlying securities comprising of an index or pay a net settlement of cash equal to the notional amount of the swap less the

SEMI-ANNUAL REPORT FEBRUARY 28, 2009

77

recovery value of the security or underlying securities comprising of an index. In the event of default by the counterparty, the Trust may recover amounts paid under the agreement either partially or in total by offsetting any payables and/or receivables with collateral held or pledged.

Interest rate swaps The Trusts may enter into interest rate swaps for investment purposes or to manage their interest rate risk. Interest rate swaps are agreements in which one party pays a floating rate of interest on a notional principal amount and receives a fixed rate of interest on the same notional principal amount for a specified period of time. Alternatively, a party may pay a fixed rate and receive a floating rate. In more complex swaps, the notional principal amount may decline (or amortize) over time.

Total return swaps The Trusts may enter into total return swaps for investment purposes or to manage their interest rate risk. Total return swaps are agreements in which one party commits to pay interest in exchange for a market-linked return. To the extent the total return of the security or index underlying the transaction exceeds or falls short of the offsetting interest rate obligation, the Trust will receive a payment from or make a payment to the counterparty.

Swaptions Swap options (swaptions) are similar to options on securities except that instead of selling or purchasing the right to buy or sell a security, the writer or purchaser of the swap option is granting or buying the right to enter into a previously agreed upon interest rate swap agreement at any time before the expiration of the option.

Capital Trusts: These securities are typically issued by corporations, generally in the form of interest-bearing notes with preferred securities characteristics, or by an affiliated business trust of a corporation, generally in the form of beneficial interests in subordinated debentures or similarly structured securities. The securities can be structured as either fixed or adjustable coupon securities that can have either a perpetual or stated maturity date. Dividends can be deferred without creating an event of default or acceleration, although maturity cannot take place unless all cumulative payment obligations have been met. The deferral of payments does not affect the purchase or sale of these securities in the open market. Payments on these securities are treated as interest rather than dividends for federal income tax purposes. These securities can have a rating that is slightly below that of the issuing company is senior debt securities.

Floating Rate Loans: The Trusts invest in floating rate loans, which are generally non-investment grade, made by banks, other financial institutions and privately and publicly offered corporations. Floating rate loans are senior in the debt structure of a corporation. Floating rate loans generally pay interest at rates that are periodically determined by reference to a base lending rate plus a premium. The base lending rates are generally (i) the lending rate offered by one or more European banks, such as LIBOR (London InterBank Offered Rate), (ii) the prime rate offered by one or more U.S. banks or (iii) the certificate of deposit rate. The Trusts consider these investments to be investments in debt securities for purposes of their investment policies.

The Trusts earn and/or pay facility and other fees on floating rate loans. Other fees earned/paid include commitment, amendment, consent, commissions and prepayment penalty fees. Facility, amendment and consent fees are typically amortized as premium and/or accreted as discount over the term of the loan. Commitment, commission and various other fees are recorded as income or expense. Prepayment penalty fees are recognized on the accrual basis. When each Trust buys a floating rate loan it may receive a facility fee and when it sells a floating rate loan it may pay a facility fee. On an ongoing basis, the Trusts may receive a commitment fee based on the undrawn portion of the underlying line of credit portion of a floating rate loan. In certain circumstances, the Trusts may receive a prepayment penalty fee upon the prepayment of a floating rate loan by a borrower. Other fees received by the Trusts may include covenant waiver fees and covenant modification fees.

The Trusts may invest in multiple series or tranches of a loan. A different series or tranche may have varying terms and carry different associated risks.

Floating rate loans are usually freely callable at the issuer s option. The Trusts may invest in such loans in the form of participations in loans (Participations) and assignments of all or a portion of loans from third parties. Participations typically will result in the Trusts having a contractual relationship only with the lender, not with the borrower. Each Trust will have the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the Participation and only upon receipt by the lender of the payments from the borrower.

In connection with purchasing Participations, the Trusts generally will have no right to enforce compliance by the borrower with the terms of the loan agreement relating to the loans, nor any rights of offset against the borrower, and the Trusts may not benefit

directly from any collateral supporting the loan in which it has purchased the Participation. As a result, the Trusts will assume the credit risk of both the borrower and the lender that is selling the Participation. The Trusts investments in loan participation interests involve the risk of insolvency of the financial intermediaries who are parties to the transactions. In the event of the insolvency of the lender selling the Participation, the Trusts may be treated as a general creditor of the lender and may not benefit from any offset between the lender and the borrower.

Asset-Backed and Mortgage-Backed Securities: Certain Trusts may invest in asset-backed securities. Asset-backed securities are generally issued as pass-through certificates, which represent undivided fractional ownership interests in an underlying pool of assets, or as debt instruments, which are also known as collateralized obligations, and are generally issued as the debt of a special purpose entity organized solely for the purpose of owning such assets and issuing such debt. Asset-backed securities are often backed by a pool of assets representing the obligations of a number of different parties. The yield characteristics of certain asset-backed securities may differ from traditional debt securities. One such major difference is that all or a principal part of the obligations may be prepaid at any time because the underlying assets (i.e., loans) may be prepaid at any time. As a result, a decrease in interest rates in the market may result in increases in the level of prepayments as borrowers, particularly mortgagors, refinance and repay their loans. An increased prepayment rate with respect to an asset-backed security subject to such a prepayment feature will have the effect of shortening the maturity of the security. If a Trust has purchased such an asset-

backed security at a premium, a faster than anticipated prepayment rate could result in a loss of principal to the extent of the premium paid.

Certain Trusts may purchase in the secondary market certain mortgage pass-through securities. There are a number of important differences among the agencies and instrumentalities of the U.S. Government that issue mortgage-related securities and among the securities that they issue. For example, mortgage-related securities guaranteed by the Government National Mortgage Association (GNMA) are guaranteed as to the timely payment of principal and interest by GNMA and such guarantee is backed by the full faith and credit of the United States. However, mortgage-related securities issued by the Federal National Mortgage Association (FNMA) include FNMA guaranteed Mortgage Pass-Through Certificates which are solely the obligations of the FNMA, are not backed by or entitled to the full faith and credit of the United States and are supported by the right of the issuer to borrow from the Treasury.

Certain Trusts invest a significant portion of its assets in securities backed by commercial or residential mortgage loans or in issuers that hold mortgage and other asset-backed securities. Please see the Schedules of Investments for these securities. Changes in economic conditions, including delinquencies and/or defaults on assets underlying these securities, can affect the value, income and/or liquidity of such positions.

**Borrowed Bond Agreements:** In a borrowed bond agreement, a Trust borrows securities from a third party, with the commitment that they will be returned to the lender on an agreed-upon date. Borrowed bond agreements are primarily entered into to settle short positions. In a borrowed bond agreement, the Trust s prime broker or third party broker takes possession of the underlying collateral securities or cash to settle such short positions. The value of the underlying collateral securities or cash approximates the principal amount of the borrowed bond transaction, including accrued interest. To the extent that borrowed bond transactions exceed one business day, the value of the collateral with any counterparty is marked to market on a daily basis to ensure the adequacy of the collateral. If the lender defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the lender of the security, realization of the collateral by the Trust may be delayed or limited.

**Interest Rate Floors:** Interest rate floors are similar to interest rate swaps, except that one party agrees to pay a fee, while the other party pays the deficiency, if any, of a floating rate under a specified fixed or floating rate.

Interest rate floors are used by the Trusts to both manage the duration of the portfolios and their exposure to changes in short-term interest rates. The Trusts leverage provides extra income in a period of falling rates.

Selling floors reduce some of that extra income by partially monetizing it as an up front payment that the Trusts receive.

Transaction fees paid or received by the Trusts are recognized as assets or liabilities and amortized or accreted into interest expense or income over the life of the interest rate floor. The asset or liability is subsequently adjusted to the current market value of the interest rate floor purchased or sold. Changes in the value of the interest rate floor are recognized as unrealized gains and losses.

Mortgage Dollar Roll Transactions: The Trusts may sell mortgage-backed securities and simultaneously contract to repurchase substantially similar (same type, coupon and maturity) securities on a specific future date at an agreed upon price. Pools of mortgage securities are used to collateralize mortgage dollar roll transactions and may have different prepayment histories than those sold. During the period between the sale and the repurchase, the Trusts will not be entitled to receive interest and principal payments on the securities sold. Proceeds of the sale will be invested in additional instruments for the Trusts, and the income from these investments will generate income for the Trusts. The Trusts will account for dollar roll transactions as purchases and sales and realize gains and losses on these transactions.

Mortgage dollar rolls involve the risk that the market value of the securities that the Trusts are required to purchase may decline below the agreed upon repurchase price of those securities. If investment performance of securities purchased with proceeds from these transactions does not exceed the income, capital appreciation and gain or loss that would have been realized on the securities sold as part of the dollar roll, the use of this technique will adversely impact the investment performance of the Trusts.

**Reverse Repurchase Agreements:** The Trusts may enter into reverse repurchase agreements with qualified third party broker-dealers. In a reverse repurchase agreement, the Trust sells securities to a bank or broker-dealer and agrees to repurchase the securities at a mutually agreed upon date and price. Interest on the value of the reverse repurchase agreements issued and

outstanding is based upon competitive market rates determined at the time of issuance. The Trusts may utilize reverse repurchase agreements when it is anticipated that the interest income to be earned from the investment of the proceeds of the transaction is greater than the interest expense of the transaction. Reverse repurchase agreements involve leverage risk and also the risk that the market value of the securities that the Trust is obligated to repurchase under the agreement may decline below the repurchase price. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the Trusts use of the proceeds of the agreement may be restricted pending determination by the other party, or its trustee or receiver, whether to enforce the Trusts obligation to repurchase the securities.

**TBA Commitments:** The Trusts may enter into to-be-announced ( TBA ) commitments to purchase or sell securities for a fixed price at a future date. TBA commitments are considered securities in themselves, and involve a risk of loss if the value of the security to be purchased or sold declines or increases prior to settlement date, which is in addition to the risk of decline in the value of the Trusts other assets.

**Treasury Roll Transactions:** A treasury roll transaction involves the sale of a Treasury security, with an agreement to repurchase the same security at an agreed upon price and date. Treasury rolls constitutes a borrowing (not treated as purchase and sales) and the difference between the sale and repurchase prices represents interest expense at an agreed upon rate.

Whether such a transaction produces a positive impact on performance depends upon whether the income and gains on the securities purchased with the proceeds received from the sale of the security exceeds the interest expense incurred by the Trust. Treasury rolls are not considered purchases and sales and any gains or losses incurred on the treasury rolls will be deferred until the treasury securities are disposed.

Treasury roll transactions involve the risk that the market value of the securities that the Trust is required to purchase may decline below the agreed upon repurchase price of those securities. If investment performance of securities purchased with proceeds from these transactions does not exceed the income, capital appreciation and gain or loss that would have been realized on the securities sold as part of the dollar roll, the use of this technique will adversely impact the investment performance of the Trust.

**Zero-Coupon Bonds:** The Trusts may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations which provide for regular interest payments.

**Foreign Currency Transactions:** Foreign currency amounts are translated into United States dollars on the following basis: (i) market value of investment securities, assets and liabilities at the current rate of exchange; and (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Each Trust reports foreign currency related transactions as components of realized gains for financial reporting purposes, whereas such components are treated as ordinary income for federal income tax purposes.

**Preferred Stock:** The Trusts may invest in preferred stocks. Preferred stock has a preference over common stock in liquidation (and generally in receiving dividends as well) but is subordinated to the liabilities of the issuer in all respects. As a general rule, the market value of preferred stock with a fixed dividend rate and no conversion element varies inversely with interest rates and perceived credit risk, while the market price of convertible preferred stock generally also reflects some element of conversion value. Because preferred stock is junior to debt securities and other obligations of the issuer, deterioration in the credit quality of the issuer will cause greater changes in the value of a preferred stock than in a more senior debt security with similar stated yield characteristics. Unlike interest payments on debt securities, preferred stock dividends are payable only if declared by the issuer s board of directors. Preferred stock also may be subject to optional or mandatory redemption provisions.

Segregation and Collateralization: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that the Trusts segregate assets in connection with certain investments (e.g., dollar rolls, TBA s beyond normal settlement, options, written swaptions, written options, forward foreign currency contracts, swaps, or financial futures contracts) or certain borrowings (e.g. reverse repurchase agreements), each Trust will, consistent with certain interpretive letters issued by the SEC, designate on its books and records cash or other liquid securities having a market value at least equal to the amount that would otherwise be required to be physically segregated. Furthermore, based on requirements and agreements with certain exchanges and third party broker-dealers, each Trust may also be required to deliver or deposit securities as collateral for certain investments (e.g., financial futures contracts, reverse repurchase agreements, swaps and written options).

**Investment Transactions and Investment Income:** Investment transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual basis. The Trusts amortize all premiums and discounts on debt securities.

**Dividends and Distributions:** Dividends from net investment income are declared and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. If the total dividends and distributions made in any tax year exceeds net investment income and accumulated realized capital gains, a portion of the total distribution may be treated as a tax return of capital.

**Income Taxes:** It is each Trust spolicy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required. Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

Each Trust files US federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on Core Bond, High Yield, Income Opportunity, Income Trust and Strategic Bond s US federal tax returns

remains open for the three years ended October 31, 2007 and the year ended August 31, 2008. The statute of limitations on High Income s US federal tax returns remains open for the three years ended December 31, 2007 and the year ended August 31, 2008. The statute of limitations on the Corporate High Yield V and Corporate High Yield VI s tax returns remains open for the four years ended August 31, 2008. The statute of limitations on each Trust s state and local tax returns may remain open for an additional year depending upon the jurisdiction.

**Recent Accounting Pronouncement:** In March 2008, Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (FAS 161), was issued. FAS 161 is intended to improve financial reporting for derivative instruments by requiring enhanced disclosure that enables investors to understand how and why an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity s results of operations and financial position. FAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The impact on the Trusts financial statement disclosures, if any, is currently being assessed.

**Deferred Compensation and BlackRock Closed-End Share Equivalent Investment Plan:** Under the deferred compensation plan approved by each Trust s Board, non-interested Directors or Trustees (Independent Directors or Trustees) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent

dollar amounts have been invested in common shares of other certain BlackRock Closed-End Funds selected by the Independent Directors or Trustees. This has approximately the same economic effect for the Independent Directors or Trustees as if the Independent Directors or Trustees had invested the deferred amounts directly in other certain BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of each Trust. The Trusts may, however, elect to invest in common shares of other certain BlackRock Closed-End Funds selected by the Independent Directors or Trustees in order to match its deferred compensation obligations. Investments to cover each Trust s deferred compensation liability are included in other assets on the Statements of Assets and Liabilities. Dividends and distributions from the BlackRock Closed-End Fund investments under the plan are included in income-affiliated on the Statements of Operations.

**Bank Overdraft:** Core Bond, Corporate High Yield V, Corporate High Yield VI and Income Opportunity Trust all recorded bank overdrafts which resulted from management estimates of available cash.

**Other:** Expenses directly related to each Trust are charged to that Trust. Other operating expenses shared by several funds are pro-rated among those funds on the basis of relative net assets or other appropriate methods.

#### 2. Investment Advisory Agreement and Other Transactions with Affiliates:

Each Trust entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the Advisor), an indirect, wholly owned subsidiary of BlackRock, Inc., to provide investment services for each Trust and administration services for Core Bond, Corporate High Yield V, Corporate High Yield VI, High Income and Strategic Bond. The PNC Financial Services Group, Inc. (PNC) and Bank of America Corporation (BAC) are the largest stockholders of BlackRock, Inc. (BlackRock). BAC became a stockholder of BlackRock following its acquisition of Merrill Lynch & Co., Inc. (Merrill Lynch) on January 1, 2009. Prior to that date, both PNC and Merrill Lynch were considered affiliates of the Trusts under the 1940 Act. Subsequent to the acquisition, PNC remains an affiliate, but due to the restructuring of Merrill Lynch is ownership interest of BlackRock, BAC is not deemed to be an affiliate under the 1940 Act.

Each Trust s investment advisory fee paid to the Advisor is computed weekly and payable monthly based on an annual rate of 0.60% for Corporate High Yield V and Income Opportunity and 0.65% for Income Trust, 0.70% for Corporate High Yield VI, of each Trust s average net assets and 0.75% of the first \$200 million and 0.50% thereafter for High Income, 0.55% for Core Bond, 1.05% for High Yield and 0.75% for Strategic Bond, of each Trust s average total assets (including any assets attributable to borrowings) minus the sum of accrued liabilities (other than debt representing financial leverage). The Advisor has voluntarily agreed to waive a portion of the investment advisory fees or other expenses on Strategic Bond as a percentage of its average weekly managed assets as follows: 0.10% through February 28, 2009 and 0.05% through February 28, 2010.

High Yield, Income Opportunity and Income Trust each has an Administration Agreement with the Advisor. The administration fee paid to the Advisor is computed weekly and payable monthly based on an annual rate, 0.10% for Income Opportunity, and 0.15% for Income Trust, of each Trust s average net assets and 0.10% for High Yield of the Trust s average weekly managed assets.

For the six months ended February 28, 2009, the Trusts reimbursed the Advisor for certain accounting services, which are included in accounting services in the Statements of Operations. The reimbursements were as follows:

	-	bursement to Advisor
Core Bond	\$	2,868
Corporate High Yield V	\$	1,877
Corporate High Yield VI	\$	2,058
High Income	\$	1,012
Strategic Bond	\$	760

The Advisor has agreed to waive its advisory fees by the amount of investment advisory fees each Trust pays to the Advisor indirectly through its investment in affiliated money market funds. These amounts are included in fees waived by advisor on the

Statements of Operations. For the six months ended February 28, 2009, the amounts were as follows:

Core Bond	\$ 782
High Income	\$ 283
High Yield	\$ 227
Income Trust	\$ 7.724

The Advisor has entered into a separate sub-advisory agreement with BlackRock Financial Management, Inc. (BFM), an affiliate of the Advisor, with respect to Core Bond, Corporate High Yield V, Corporate High Yield VI, High Income and Strategic Bond, under which the Advisor pays BFM for services it provides, a monthly fee that is a percentage of the investment advisory fee paid by each Trust to the Advisor.

For the period September 1, 2008 to December 31, 2008, Merrill Lynch, Pierce, Fenner & Smith Incorporated (MLPF&S), a wholly owned subsidiary of Merrill Lynch, earned commissions on transactions of securities as follows:

Core Bond\$220Income Opportunity\$220

Pursuant to the terms of the custody agreement, custodian fees may be reduced by amounts calculated on uninvested cash balances, which are shown on the Statements of Operations as fees paid indirectly.

Certain officers and/or directors or trustees of the Trusts are officers and/or directors of BlackRock, Inc. or its affiliates. The Trusts reimburse the Advisor for compensation paid to the Trusts Chief Compliance Officer.

### 3. Investments:

Purchases and sales of investments (including paydowns and TBA and mortgage dollar roll transactions and excluding short-term securities and US government securities), for the six months ended February 28, 2009 were as follows:

	Purchases	Sales
Core Bond	\$ 621,156,017	\$ 575,462,567
Corporate High Yield V	\$ 80,480,509	\$ 140,410,808
Corporate High Yield VI	\$ 78,481,534	\$ 140,473,254
High Income	\$ 20,331,550	\$ 34,601,884
High Yield	\$ 6,676,367	\$ 10,630,481
Income Opportunity	\$ 726,624,430	\$ 712,021,624
Income Trust	\$ 2,030,253,042	\$ 1,973,826,271
Strategic Bond	\$ 10,721,916	\$ 22,682,874

For the six months ended February 28, 2009, purchases and sales of US government securities were as follows:

	Purchases	Sales
Core Bond	\$ 63,029,374	\$ 158,241,848
Income Opportunity	\$ 53,253,323	\$ 144,262,928
Income Trust	\$ 8,625,384	\$ 17,219,617
Strategic Bond		\$ 3,971,296

For the six months ended February 28, 2009, purchases and sales attributable to mortgage dollar rolls were as follows:

	Purchases	Sales
Core Bond	\$ 452,085,425	\$ 476,897,257
Income Opportunity	\$ 559,691,877	\$ 592,449,810
Income Trust	\$ 1,792,305,349	\$ 1,691,746,720

Transactions in options written for the six months ended February 28, 2009 were as follows:

#### **Core Bond**

## 4. Reverse Repurchase Agreements:

For the six months ended February 28, 2009, the daily weighted average interest rates were as follows:

Daily Weighted
Average Interest Rate

Core Bond	1.82%
Income Opportunity	0.68%
Income Trust	0.79%
Strategic Bond	0.31%

#### 5. Commitments:

Corporate High Yield VI may invest in floating rate loans. In connection with these investments, the Trust may also enter into unfunded corporate loans (commitments). Commitments may obligate the Trust to furnish temporary financing to a borrower until permanent financing can be arranged. In connection with these commitments, the Trust earns a commitment fee, typically set as a percentage of the commitment amount. Such fee income, which is classified in the Statements of Operations as facility and other fees, is recognized ratably over the commitment period. As of February 28, 2009, the Trust had the following unfunded loan commitments:

Corporate High Yield VI Unfunded Commitment Underlying (000) Loan (000)

CHS/Community Health Systems, Inc. Delayed Draw Term Loan

6

\$

#### 6. Market and Credit Risk

In the normal course of business, the Trusts invest in securities and enter into transactions where risks exist due to fluctuations in the market (market risk) or failure of the issuer of a security to meet all its obligations (credit risk). The value of securities held by the Trusts may decline in response to certain events, including those directly involving the issuers whose securities are owned by the Trusts; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations. Similar to credit risk, the Trusts may be exposed to counterparty risk, or the risk that an entity with which the Trusts have unsettled or open transactions may default. Financial assets, which potentially expose the Trusts to credit and counterparty risks, consist principally of investments and cash due from counterparties. The extent of the Trusts exposure to credit and counterparty risks with respect to those financial assets is approximated by their value recorded in the Trusts Statements of Assets and Liabilities.

#### 7. Capital Share Transactions:

There are 200 million of \$0.01 par value shares authorized for Income Opportunity and Income Trust. There are an unlimited number of \$0.001 par value shares authorized for Core Bond, High Yield and Strategic Bond. There are an unlimited number of no par value shares authorized for High Income. There are 200 million of \$0.10 par value shares authorized for Corporate High Yield V and Corporate High Yield VI.

Shares issued and outstanding for the six months ended February 28, 2009 and the year ended October 31, 2008 increased by the following amounts as a result of dividend reinvestments:

 Six Months Ended February 28, 2009
 Year Ended October 31, 2008

 Core Bond High Yield
 4,253 3,537 1,496

Shares remained constant for all other Trusts for the six months ended February 28, 2009, the year ended August 31, 2008 (period November 1, 2007 to August 31, 2008 for Core Bond, High Yield, Income Opportunity, Income Trust and Strategic Bond and period January 1, 2008 to August 31, 2008 for High Income) and the year ended October 31, 2007 for Core Bond, Income Opportunity, Income Trust and Strategic Bond and the year ended December 31, 2007 for High Income.

#### 8. Short-Term Borrowings:

On May 16, 2008, Corporate High Yield V, Corporate High Yield VI, High Income and High Yield renewed their revolving credit and security agreement funded by a commercial paper asset securitization program with Citicorp North America, Inc. ( Citicorp ), as Agent, certain secondary backstop lenders and certain asset securitization conduits, as lenders (the Lenders ). The agreement was renewed for one year and at the time of renewal has maximum limits of \$212 million for Corporate High Yield V, \$227 million for Corporate High Yield VI, \$80 million for High Income, and \$32 million for High Yield.

Under the Citicorp program, the conduits will fund advances to each Trust through highly rated commercial paper. The Trusts have granted a security interest in substantially all of its assets to, and in favor of, the Lenders as security for its obligations to the Lenders. The interest rate on each Trust s borrowings is based on the interest rate carried by the commercial paper plus a program fee. In addition, each Trust pays a liquidity fee to the secondary backstop lenders and the agent. These amounts are shown on the Statements of Operations as borrowing costs.

Under the agreement, the Trusts are subject to certain conditions and covenants, which include among other things, limitations on asset declines over prescribed time periods. As a result of the decline in net assets attributable to market conditions, certain terms of the facility were renegotiated effective December 5, 2008, which included a reduction of the maximum limits to \$127 million for Corporate High Yield VI, \$41 million for High Income and \$16 million for High Yield, waivers of certain financial covenants by the Lenders, and an increase in program and liquidity fees under the facility.

For the six months ended February 28, 2009, the daily weighted average interest rates were as follows:

Daily Weighted Average Interest Rate

Corporate High Yield V	3.99%
Corporate High Yield VI	3.98%
High Income	2.96%
High Yield	3.42%

## 9. Capital Loss Carryforward:

As of August 31, 2008, the Trusts had capital loss carryforwards available to offset future realized capital gains through the indicated year of expiration:

Expires August 31,	Core Bond	Corporate High Yield V	Corporate High Yield VI	High Income	High Yield	Income Opportunity	Income Trust	Strategic Bond
2009				\$ 55,878,284	\$ 15,159,280		\$ 13,940,898	
2010				102,576,339	8,468,860			
2011				28,467,396	4,771,417		21,960,613	
2012				2,339,279	316,410		10,100,201	
2013							3,861,222	
2014	\$ 4,880,373		\$ 2,291,195	7,043,976	2,060,533	\$ 2,451,626	6,952,429	\$ 447,113
2015			564,489		2,467,772	2,342,921	8,585,744	
2016	17,415,494	\$ 950,802	1,125,717	10,829,322	2,039,760	14,734,497	20,304,187	2,036,040
Total	\$ 22,295,867	\$ 950,802	\$ 3,981,401	\$ 207,134,596	\$ 35,284,032	\$ 19,529,044	\$ 85,705,294	\$ 2,483,153

#### 10. Subsequent Events:

On March 5, 2009, Corporate High Yield V, Corporate High Yield VI, High Income and High Yield terminated their agreement with Citicorp and entered into a senior committed secured, 364-day revolving line of credit and a separate security agreement (the Agreement ) with State Street Bank and Trust Company (SSB). The Agreement has a maximum commitment of \$127 million for Corporate High Yield VI, \$41 million for High Income and \$16 million for High Yield. The Trusts have granted a security interest in substantially all of their assets to SSB.

The Trusts paid an ordinary income dividend on March 31, 2009 to shareholders on record on March 16, 2009 in the following amounts:

Core Bond	\$ 0.0620
Corporate High Yield V	\$ 0.1000
Corporate High Yield VI	\$ 0.1000
High Income	\$ 0.0182
High Yield	\$ 0.0435
Income Opportunity	\$ 0.0510
Income Trust	\$ 0.0240
Strategic Bond	\$ 0.0695

#### Officers and Directors/Trustees

## Additional Information (continued)

#### **Availability of Quarterly Schedule of Investments**

Each Trust files their complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. Each Trust s Forms N-Q are available on the SEC s website at http://www.sec.gov and may also be reviewed and copied at the SEC s Public Reference Room in Washington, DC.

Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330. Each Trust s Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

#### **Electronic Delivery**

Electronic copies of most financial reports are available on the Trusts website or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports and prospectuses by enrolling in the Trusts electronic delivery program.

#### Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

#### **General Information**

The Trusts will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called householding and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be householded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact the Trusts at (800) 441-7762.

Quarterly performance, semi-annual and annual reports and other information regarding each Trust may be found on BlackRock s website, which can be accessed at http://www.blackrock.com. This reference to BlackRock s website is intended to allow investors public access to information regarding each Trust and does not, and is not intended to, incorporate BlackRock s website into this report.

## **BlackRock Privacy Principles**

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, Clients ) and to safeguarding their nonpublic personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal nonpublic information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to nonaffiliated third parties any nonpublic information about its Clients, except as permitted by law or as necessary to service Client accounts. These nonaffiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to nonpublic personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the nonpublic personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

SEMI-ANNUAL REPORT FEBRUARY 28, 2009 87

# Additional Information (concluded)

### **Section 19 Notices**

The amounts and sources of distributions reported are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources for tax reporting purposes will depend upon the Trust s investment experience during the remainder of its fiscal year and may be subject to changes based on the tax regulations. The Trust will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

[This Page Intentionally Left Blank]

[This Page Intentionally Left Blank]

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Trusts have leveraged their Common Shares, which creates risks for Common Shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares and the risk that fluctuations in the short-term interest rates may reduce the yield to Common Shareholders. Statements and other information herein are as dated and are subject to change.

A description of the policies and procedures that the Trusts use to determine how to vote proxies relating to portfolio securities is available (1) without charge, upon request, by calling toll-free (800) 411-7762; (2) at www.blackrock.com; and (3) on the Securities and Exchange Commission s website at http://www.sec.gov. Information about how each Trust voted proxies relating to securities held in each Trust s portfolio during the most recent 12-month period ended June 30 is available upon request and without charge (1) at www.blackrock.com or by calling (800) 441-7762 and (2) on the Securities and Exchange Commission s website at http://www.sec.gov.

### (iv) Potential Material Conflicts of Interest

BlackRock and its affiliates (collectively, herein "BlackRock") has built a professional working environment, firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. BlackRock has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, BlackRock furnishes investment management and advisory services to numerous clients in addition to the Fund, and BlackRock may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to BlackRock, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Fund. In addition, BlackRock, its affiliates and significant shareholders and any officer, director, stockholder or employee may or may not have an interest in the securities whose purchase and sale BlackRock recommends to the Fund. BlackRock, or any of its affiliates or significant shareholders, or any officer, director, stockholder, employee or any member of their families may take different actions than those recommended to the Fund by BlackRock with respect to the same securities. Moreover, BlackRock may refrain from rendering any advice or services concerning securities of companies of which any of BlackRock's (or its affiliates' or significant shareholders') officers, directors or employees are directors or officers, or companies as to which BlackRock or any of its affiliates or significant shareholders or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. Each portfolio manager also may manage accounts whose investment strategies may at times be opposed to the strategy utilized for a fund. In this connection, it should be noted that Messrs. Arledge and Keenan currently manage certain accounts that are subject to performance fees. In addition, a portfolio manager may assist in managing certain hedge funds and may be entitled to receive a portion of any incentive fees earned on such funds and a portion of such incentive fees may be voluntarily or involuntarily deferred. Additional portfolio managers may in the future manage other such accounts or funds and may be entitled to receive incentive fees.

As a fiduciary, BlackRock owes a duty of loyalty to its clients and must treat each client fairly. When BlackRock purchases or sells securities for more than one account, the trades must be allocated in a manner consistent with its fiduciary duties. BlackRock attempts to allocate investments in a fair and equitable manner among client accounts, with no account receiving preferential treatment. To this end, BlackRock has adopted a policy that is intended to ensure that investment opportunities are allocated fairly and equitably among client accounts over time. This policy also seeks to achieve reasonable efficiency in client transactions and provide BlackRock with sufficient flexibility to allocate investments in a manner that is consistent with the particular investment discipline and client base.

(a)(3) As of May 8, 2009:

## **Portfolio Manager Compensation Overview**

BlackRock's financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors. The principal components of compensation include a base salary, a performance-based discretionary bonus, participation in various benefits programs and one or more of the incentive compensation programs established by BlackRock such as its Long-Term Retention and Incentive Plan and Restricted Stock Program.

**Base compensation.** Generally, portfolio managers receive base compensation based on their seniority and/or their position with the firm. Senior portfolio managers who perform additional management functions within the portfolio management group or within BlackRock may receive additional compensation for serving in these other capacities.

### **Discretionary Incentive Compensation**

Discretionary incentive compensation is a function of several components: the performance of BlackRock, Inc., the performance of the portfolio manager's group within BlackRock, the investment performance, including risk-adjusted returns, of the firm's assets under management or supervision by that portfolio manager relative to predetermined benchmarks, and the individual's seniority, role within the portfolio management team, teamwork and contribution to the overall performance of these portfolios and BlackRock. In most cases, including for the portfolio managers of the Fund, these benchmarks are the same as the benchmark or benchmarks against which the performance of the Fund or other accounts managed by the portfolio managers are measured. BlackRock's Chief Investment Officers determine the benchmarks against which the performance of funds and other accounts managed by each portfolio manager is compared and the period of time over which performance is evaluated. With respect to the portfolio managers, such benchmarks for the Fund include the following:

Portfolio Manager	Benchmarks Applicable to Each Manager
Curtis Arledge	A combination of market-based indices (e.g., Citigroup 1-Year Treasury Index, Merrill Lynch 1-3 Year Treasury Index, Barclays Capital Aggregate Index, Merrill Lynch Government Corporate 1-3 Year Index), certain customized indices and certain fund industry peer groups.
Matthew Marra	A combination of market-based indices (e.g., Barclays Capital Intermediate Government Index, Barclays Capital Intermediate Government/Credit Index, Barclays Capital U.S. Aggregate Index), certain customized indices and certain fund industry peer groups.
James E. Keenan	A combination of market-based indices (e.g., The Barclays Capital U.S. Corporate High Yield 2% Issuer Cap Index), certain customized indices and certain fund industry peer groups.

BlackRock's Chief Investment Officers make a subjective determination with respect to the portfolio managers' compensation based on the performance of the funds and other accounts managed by each

portfolio manager relative to the various benchmarks noted above. Performance is measured on both a pre-tax and after-tax basis over various time periods including 1, 3, 5 and 10-year periods, as applicable.

## **Distribution of Discretionary Incentive Compensation**

Discretionary incentive compensation is distributed to portfolio managers in a combination of cash and BlackRock, Inc. restricted stock units which vest ratably over a number of years. The BlackRock, Inc. restricted stock units, if properly vested, will be settled in BlackRock, Inc. common stock. Typically, the cash bonus, when combined with base salary, represents more than 60% of total compensation for the portfolio managers. Paying a portion of annual bonuses in stock puts compensation earned by a portfolio manager for a given year "at risk" based on BlackRock's ability to sustain and improve its performance over future periods.

Long-Term Retention and Incentive Plan ("LTIP") The LTIP is a long-term incentive plan that seeks to reward certain key employees. Prior to 2006, the plan provided for the grant of awards that were expressed as an amount of cash that, if properly vested and subject to the attainment of certain performance goals, will be settled in cash and/or in BlackRock, Inc. common stock. Beginning in 2006, awards are granted under the LTIP in the form of BlackRock, Inc. restricted stock units that, if properly vested and subject to the attainment of certain performance goals, will be settled in BlackRock, Inc. common stock. Messrs. Arledge, Marra and Keenan have each received awards under the LTIP.

Deferred Compensation Program —A portion of the compensation paid to eligible BlackRock employees may be voluntarily deferred into an account that tracks the performance of certain of the firm's investment products. Each participant in the deferred compensation program is permitted to allocate his deferred amounts among the various investment options. Messrs. Arledge, Marra and Keenan have each participated in the deferred compensation program.

**Other compensation benefits.** In addition to base compensation and discretionary incentive compensation, portfolio managers may be eligible to receive or participate in one or more of the following:

Incentive Savings Plans — BlackRock, Inc. has created a variety of incentive savings plans in which BlackRock employees are eligible to participate, including a 401(k) plan, the BlackRock Retirement Savings Plan (RSP), and the BlackRock Employee Stock Purchase Plan (ESPP). The employer contribution components of the RSP include a company match equal to 50% of the first 6% of eligible pay contributed to the plan capped at \$4,000 per year, and a company retirement contribution equal to 3-5% of eligible compensation. The RSP offers a range of investment options, including registered investment companies managed by the firm. BlackRock contributions follow the investment direction set by participants for their own contributions or, absent employee investment direction, are invested into a balanced portfolio. The ESPP allows for investment in BlackRock common stock at a 5% discount on the fair market value of the stock on the purchase date. Annual participation in the ESPP is limited to the purchase of 1,000 shares or a dollar value of \$25,000. Each portfolio manager is eligible to participate in these plans.

(a)(4) Beneficial Ownership of Securities.

Portfolio Dollar Range of Equity Securities

Manager Beneficially Owned

Curtis Arledge None Matthew Marra None James E. Keenan None

- Item 9 Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers Not Applicable
- Item 10 Submission of Matters to a Vote of Security Holders The registrant's Nominating and Governance Committee will consider nominees to the board of directors recommended by shareholders when a vacancy becomes available. Shareholders who wish to recommend a nominee should send nominations that include biographical information and set forth the qualifications of the proposed nominee to the registrant's Secretary. There have been no material changes to these procedures.
- Item 11 Controls and Procedures
- 11(a) The registrant's principal executive and principal financial officers or persons performing similar functions have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing of this report based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and Rule 13(a)-15(b) under the Securities Exchange Act of 1934, as amended.
- 11(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the second fiscal quarter of the period covered by this report that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.
